

Compilation on Ship Accidents in the Baltic Sea Area 2002

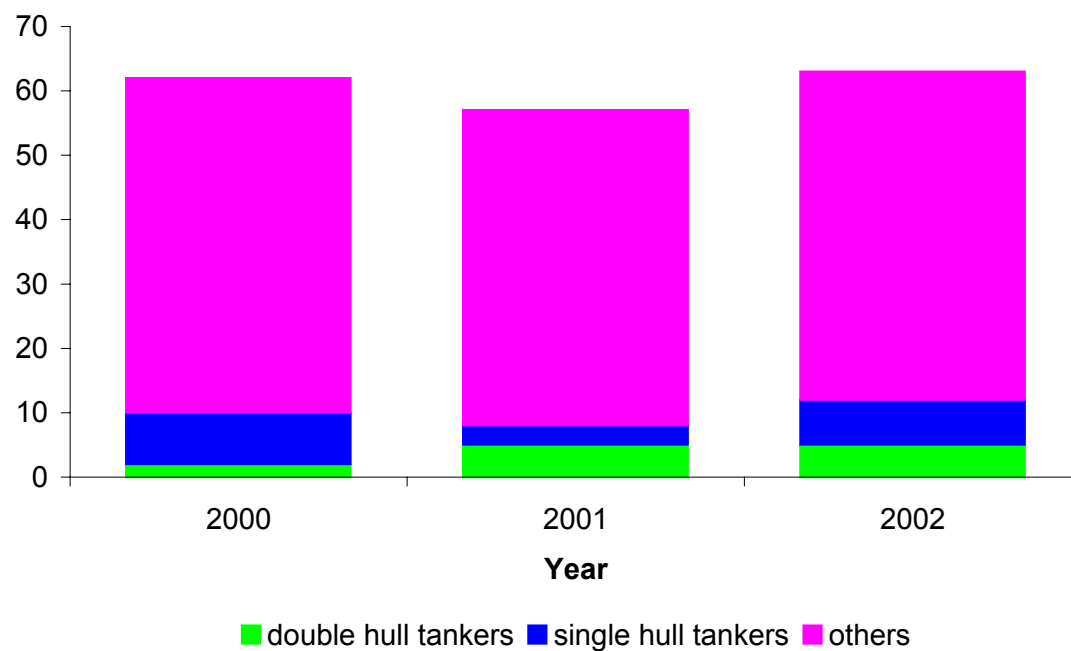

Concerning the received data on ship accidents in 2002 attention is drawn to the following:

- there have been **no ship accidents with oil or any other kind of pollution** reported in the Baltic Sea Area in 2002, therefore data are represented only in four maps;
- maps represent data submitted by the Contracting Parties all but one;
- for a more foreseeable picture marks of accidents which have occurred in the same coordinates with a minute or second difference are slightly separated, so that for a more precise information please look in the corresponding data tables.
