2. Matters concerning the examination and research of sources of pollution;
3. Matters concerning measures for the preservation and improvement of the marine environment;
4. Matters concerning assistance to residents, following environmental management;
5. Other matters prescribed by Presidential Decree, which are necessary for the management of environmental management sea areas.

(2) Master plans for environmental management sea areas shall be confirmed through deliberation by the Maritime Affairs and Fisheries Development Committee under Article 7 of the Framework Act on Marine Fishery Development. <Amended by Act No. 9454, Feb. 6, 2009; Act No. 10803, Jun. 15, 2011>

(3) When the Minister of Oceans and Fisheries has formulated a master plan for environmental management sea areas and management plans by sea area, he/she shall notify the heads of relevant administrative agencies thereof, and the heads of the relevant administrative agencies shall take necessary measures for the implementation thereof. <Amended by Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>

(4) If necessary to formulate and implement management plans by sea area, the Minister of Oceans and Fisheries may separately operate a project management task force, which is comprised of public officials belonging to relevant central administrative agencies and local governments, experts, etc. In such cases, matters necessary for its composition and operation shall be prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>

Article 17 Deleted. <by Act No. 9454, Feb. 6, 2009>

Article 18 (Marine Environmental Improvement Measures)

(1) Any sea area management authority may take the following marine environmental improvement measures, as prescribed by Presidential Decree, if deemed necessary to prevent marine pollution caused by the inflow, spread, or accumulation, etc. of pollutants and to improve the marine environment: <Amended by Act No. 8852, Feb. 29, 2008; Amended by Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013; Act No. 14516, Dec.

27, 2016>

1. Installation of facilities that prevent the inflow and spread of pollutants;
2. Collection and disposal of pollutants;
3. Collection of polluted sediments;
4. Other projects prescribed by Ordinance of the Ministry of Oceans and Fisheries, which are necessary to improve the marine environment.

(2) Where a sea area or zone subject to marine environmental improvement measures referred to in paragraph (1) extends over the jurisdictions of at least two Mayors/Do Governors or in any other case prescribed by Presidential Decree, the Minister of Oceans and Fisheries may take marine environmental improvement measures referred to in paragraph (1) in sea areas or zones falling under any subparagraph of Article 3 (1). In such cases, the Minister of Oceans and Fisheries shall first consult with the relevant Mayors/Do Governors. <Newly Inserted by Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries may examine the sources of pollution in the marine environment in sea areas or zones referred to in the subparagraphs of Article 3 (1), as prescribed by Ordinance of the Ministry of Oceans and Fisheries, if deemed necessary to preserve or manage the marine environment, or to prevent marine pollution. In such cases, the Minister of Oceans and Fisheries may request the head of a relevant administrative agency to jointly examine the polluted sea areas and facilities from which pollutants are discharged. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013>

(4) If deemed necessary upon examination of sources of pollution in the marine environment under paragraph (3), the Minister of Oceans and Fisheries may require a polluter referred to in Article 8 of the Act on Conservation and Utilization of the Marine Environment (hereinafter referred to as "polluter") to take a marine environmental improvement measure referred to in any subparagraph of paragraph (1). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013; Act No. 14747, Mar. 21, 2017>

(5) Methods for installing facilities preventing the inflow and spread of pollutants, methods for collecting and disposal of pollutants, methods for collecting polluted sediments, etc. in connection with the marine environmental improvement measures referred to in paragraph (1), and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013; Act No. 14516, Dec. 27, 2016>

Article 19 (Marine Environmental Improvement Charges)

(1) The Minister of Oceans and Fisheries shall impose and collect a marine environmental improvement charge (hereinafter referred to as "charge") with respect to the following acts that have a significant impact on the marine environment and marine ecosystems: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Discharging wastes to the sea by a person who engages in the ocean waste discharge business under Article 70 (1) 1 (hereinafter referred to as "ocean waste discharge business

entity”);

2. Discharging pollutants at least in the quantity prescribed by Presidential Decree from ships or marine facilities.

(2) No charge shall be imposed where the discharge of pollutants referred to in paragraph (1) 2 falls under any of the following cases: *<Newly Inserted by Act No. 10803, Jun. 15, 2011>*

1. Where such discharge is caused by a war, natural disaster, or a force majeure;

2. Where such discharge is caused only by the intention of a third person: Provided, That it shall be limited to cases where there is no defect in the installation and management of ships or marine facilities;

3. Where such discharge occurs outside sea areas or waters referred to in Article 3 (1) 1 and 2, which is the case prescribed by Presidential Decree.

(3) The kind and quantity of a pollutant discharged shall be considered in the calculation of a charge that is imposed by applying the imposition coefficients by the kinds of pollutants to the amount calculated by multiplying the quantity of the pollutant discharged by the amount of charge per unit. In such cases, the discharged quantity and the amount of charge imposed per unit on a pollutant, imposition coefficients by the kinds of pollutants, etc. shall be prescribed by Presidential Decree. *<Amended by Act No. 10803, Jun. 15, 2011>*

(4) The Minister of Oceans and Fisheries may allow persons liable to pay such charges in installments. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>*

(5) The Minister of Oceans and Fisheries shall contribute charges and surcharges collected under Article 20 (1) to the Fisheries Development Fund under Article 46 of the Framework Act on Fisheries and Fishing Villages Development (hereinafter referred to as "Fund"). *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 9626, Apr. 22, 2009; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013; Act No. 13383, Jun. 22, 2015; Act No. 15012, Oct. 31, 2017>*

(6) Procedures for the collection of charges under paragraphs (1) and (3), and other necessary matters shall be prescribed by Presidential Decree. *<Amended by Act No. 10803, Jun. 15, 2011>*

Article 20 (Compulsory Collection of Charges)

(1) Where a person liable to pay a charge fails to make payment by the due date, the Minister of Oceans and Fisheries shall collect a surcharge prescribed by Presidential Decree for the period from the date following the due date until the date of payment. In such cases, the surcharge shall not exceed 3/100 of the charge in arrears.

(2) Where a person liable to pay a charge fails to make payment by the due date, the Minister of Oceans and Fisheries shall demand the payment, setting a period of at least 30 days; and if he/she fails to pay the charge and the surcharge referred to in paragraph (1) within the specified period, they may be collected in the same manner as national taxes in arrears.

Article 21 (Use of Charges)

The charges contributed to the Fund pursuant to Article 19 (5) shall be used for the following

projects: <Amended by Act No. 10803, Jun. 15, 2011; Act No. 14516, Dec. 27, 2016>

1. Projects for the prevention of marine pollution and restoration of the marine environment;
2. Projects for the preservation and management of the marine environment;
3. Projects for providing assistance to business entities which use the ocean in an environment-friendly way and to residents in coastal areas;
4. Projects concerning the marine environmental improvement measures under Article 18 (1);
5. Marine environment-related research and development efforts;
6. Projects concerning examination, research, publicity and education on the marine environment;
7. Fishing industry support projects, such as providing assistance for fishermen suffering from marine pollution;
8. Projects prescribed by Presidential Decree as those necessary for developing technologies for eco-friendly vessels and using and distributing eco-friendly vessels;
9. Projects prescribed by Presidential Decree, which are related to the projects provided for in subparagraphs 1 through 8.

Article 22 (Prohibition of Discharge, etc. of Pollutants)

(1) No person shall discharge pollutants from ships into the sea: Provided, That the same shall not apply in the following cases: <Amended by Act No. 8788, Dec. 21, 2007; Act No. 8852, Feb. 29, 2008; Act No. 10272, Apr. 15, 2010; Act No. 11690, Mar. 23, 2013>

1. Where wastes are discharged according to the following classification:

(a) Where it is intended to discharge wastes generated during the sailing or mooring of a ship, such wastes shall be discharged in conformity with the disposal criteria and method prescribed by Ordinance of the Ministry of Oceans and Fisheries in sea areas prescribed by Ordinance of the Ministry of Oceans and Fisheries;

(b) Where it is intended to discharge wastes prescribed by Ordinance of the Ministry of Oceans and Fisheries in a place in which it is intended to reclaim such wastes pursuant to Articles 28 and 35 of the Public Waters Management and Reclamation Act, such wastes shall be discharged in conformity with the disposal criteria and method prescribed by Ordinance of the Ministry of Oceans and Fisheries;

2. Where oil is discharged according to the following classification:

(a) Where a ship discharges oil, such oil shall be discharged in conformity with the disposal criteria and method prescribed by Ordinance of the Ministry of Oceans and Fisheries, in sea areas prescribed by Ordinance of the Ministry of Oceans and Fisheries;

(b) Where an oiler discharges its ballast water mixed with cargo oil, and cleaning water and bilge water from the cargo hold, such water shall be discharged in conformity with the disposal criteria and method prescribed by Ordinance of the Ministry of Oceans and Fisheries, in sea areas prescribed by Ordinance of the Ministry of Oceans and Fisheries;

(c) Where an oiler discharges its ballast water from the cargo hold, such water shall be discharged to satisfy the cleanness requirements prescribed by Ordinance of the Ministry of

Oceans and Fisheries;

3. Where noxious liquid substances are discharged according to the following classification:

(a) Where a noxious liquid substance is discharged, it shall be discharged in conformity with the method of pre-treatment and discharge prescribed by Ordinance of the Ministry of Oceans and Fisheries in sea areas prescribed by Ordinance of the Ministry of Oceans and Fisheries;

(b) Where ships' cleaned ballast water is discharged from a cargo hold (including facilities for discharging ballast water) used for the bulk transportation of noxious liquid substances prescribed by Ordinance of the Ministry of Oceans and Fisheries, it shall be discharged in conformity with the method of purification prescribed by Ordinance of the Ministry of Oceans and Fisheries.

(2) No person shall discharge pollutants generated in places prescribed by Presidential Decree, such as marine facilities, bathing beaches, and estuaries (hereinafter referred to as "ocean space"), into the sea: Provided, That the same shall not apply in the following cases: *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

1. Discharging wastes generated in marine facilities or ocean space (hereinafter referred to as "marine facilities, etc.") in conformity with the disposal criteria and method prescribed by Ordinance of the Ministry of Oceans and Fisheries in sea areas prescribed by Ordinance of the Ministry of Oceans and Fisheries;

2. Discharging oil or noxious liquid substances generated in marine facilities, etc. in conformity with the disposal criteria and method prescribed by Ordinance of the Ministry of Oceans and Fisheries.

(3) Notwithstanding paragraphs (1) and (2), pollutants generated in ships, marine facilities, etc. may be discharged into the sea in any of the following cases: *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

1. Where pollutants are inevitably discharged to ensure the safety of ships, marine facilities, etc. or to save lives;

2. Where pollutants are inevitably discharged due to damage to ships, marine facilities, etc.;

3. Where pollutants are inevitably discharged in an effort to minimize pollution damage by the method prescribed by Ordinance of the Ministry of Oceans and Fisheries in a pollution accident caused by ships, marine facilities, etc.

Article 22-2 (Ratio of Waste Discharge)

(1) Any vessel owner (including lessees of vessels) who intends to discharge waste, generated while the vessel is on a voyage or at anchor, into the waters prescribed by the Ordinance of the Ministry of Oceans and Fisheries, shall comply with the requirement for waste discharge ratio (meaning the amount of waste discharged per hour in relation to the draft and velocity of the vessel: hereinafter the same shall apply) approved by the Minister of the Oceans and Fisheries in accordance with the Ordinance of the Ministry of Oceans and Fisheries.

(2) Such matters as the types of waste to be approved on the ratio of discharge under

paragraph (1) and approval process for the ratio of discharge, etc. shall be prescribed by the Ordinance of the Ministry of Oceans and Fisheries.

Article 23 (Prohibition on Discharging Land-Based Wastes into Sea)

(1) No person shall discharge any land-based waste into the sea: Provided, That the Minister of Oceans and Fisheries may allow wastes prescribed by Ordinance of the Ministry of Oceans and Fisheries, the land disposal of which is impracticable, to be discharged into the sea in conformity with the disposal criteria and method prescribed by Ordinance of the Ministry of Oceans and Fisheries in sea areas prescribed by Ordinance of the Ministry of Oceans and Fisheries, within the extent not affecting the preservation and management of the marine environment. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(2) The Minister of Oceans and Fisheries may permit an ocean waste discharge business entity to dispose of only the wastes, the ocean discharge of which may be allowed pursuant to the proviso to paragraph (1), and the entrusted disposal of which is reported by a person entrusting waste disposal pursuant to Article 76 (1). *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(3) The Minister of Oceans and Fisheries shall pre-inspect as to whether the waste in question falls under the wastes, the ocean discharge of which is allowed pursuant to the proviso to paragraph (1), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(4) The Minister of Oceans and Fisheries may authorize a specialized inspection institution to conduct inspections under paragraph (3) on his/her behalf, as prescribed by Presidential Decree. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(5) Procedures for filing an application for the designation as waste discharge sea areas and designation procedures under the proviso to paragraph (1) and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

Article 24 (Marine Pollution Prevention Activities)

(1) The Minister of Oceans and Fisheries shall formulate and implement an ocean waste collection and disposal plan, as prescribed by Presidential Decree, in order to effectively collect and dispose of wastes (including wastes generated at sea; hereafter the same shall apply in this Article) discharged or flowing into the sea. In such cases, Mayors/Do Governors shall formulate and implement detailed action plans in accordance with the ocean waste collection and disposal plan. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(2) Any sea area management authority may engage in examination or measurement activities prescribed by Ordinance of the Ministry of Oceans and Fisheries, such as water analysis in ocean space, where deemed necessary to prevent pollution. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(3) Any sea area management authority may operate ships or disposal facilities necessary

to prevent pollution, such as collection, disposal, examination, and measurement of wastes under paragraphs (1) and (2).

(4) Any sea area management authority may impose on a polluter all or part of the expenses incurred in relation to the collection, disposal, or keeping of wastes under paragraph (1), as prescribed by Presidential Decree.

Article 25 (Installation, etc. of Waste Pollution Prevention Facilities)

(1) Every ship owner (in the case of leased ships, referring to ship lessees: hereinafter the same shall apply) prescribed by Ordinance of the Ministry of Oceans and Fisheries shall install facilities to store or dispose of wastes generated on the ship and prescribed by Ordinance of the Ministry of Oceans and Fisheries (hereinafter referred to as "waste pollution prevention facilities") in conformity with the criteria set by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Every waste pollution prevention facility installed pursuant to paragraph (1) shall be maintained and operated in conformity with the criteria set by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 26 (Installation, etc. of Oil Pollution Prevention Facilities)

(1) Every ship owner shall install facilities for preventing the discharge of oil generated on the ship (hereinafter referred to as "oil pollution prevention facilities") in his/her ship or provide a container to storage waste oil. In such cases, ships subject thereto, criteria for installation, and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Every ship owner shall have a hull structure, etc. capable of preventing the discharge of oil in the event of collision or stranding of the ship or other marine accidents. In such cases, ships subject thereto, criteria for hull structures, and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Every oil pollution prevention facility installed pursuant to paragraph (1) shall be maintained and operated in conformity with the criteria set by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 27 (Installation, etc. of Noxious Liquid Substance Pollution Prevention Facilities)

(1) Every owner of a ship prescribed by Ordinance of the Ministry of Oceans and Fisheries, which transports noxious liquid substances in bulk, shall install a facility to store or dispose of such noxious liquid substances on the ship or a facility to prevent marine pollution which may be caused by such noxious liquid substances (hereinafter referred to as "noxious liquid substance pollution prevention facility") in conformity with the criteria set by Ordinance of

the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Every owner of a ship prescribed by Ordinance of the Ministry of Oceans and Fisheries, which transports noxious liquid substances in bulk, shall install and maintain a cargo hold on the ship in conformity with the criteria set by Ordinance of the Ministry of Oceans and Fisheries in order to prevent the discharge of the noxious liquid substances in the event of collision or stranding of the ship or other marine accidents. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Every ship owner referred to in paragraph (1) shall prepare a guidebook on the method of and facilities for the discharge of noxious liquid substances in conformity with the criteria set by Ordinance of the Ministry of Oceans and Fisheries and provide it to the master of the ship after obtaining an approval seal from the Minister of Oceans and Fisheries thereto. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Every noxious liquid substance pollution prevention facility installed pursuant to paragraph (1) shall be maintained and operated in conformity with the criteria set by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 28 (Restriction on Loading Ships' Ballast Water and Oil)

(1) No ship's ballast water shall be loaded in the cargo holds of the oilers prescribed by Ordinance of the Ministry of Oceans and Fisheries and fuel oil tanks of the ships prescribed by Ordinance of the Ministry of Oceans and Fisheries: Provided, That the same shall not apply to the cases prescribed by Ordinance of the Ministry of Oceans and Fisheries, in which a trial run of a newly built ship is conducted and it is necessary to ensure the safety of a ship. <Amended by Act No. 8788, Dec. 21, 2007; Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) No oil shall be loaded in any tank installed in front of the forepeak tank and collision bulkhead of ships prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 29 (Transportation of Harmful Substances in Packaged Form)

Any person who intends to transport a harmful substance in packaged form by ship shall do so in accordance with the conditions of packing and marking, loading method, etc., as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 30 (Management of Ship Pollutant Registers)

(1) Every shipmaster (in the case of a towed ship, referring to the ship owner) shall keep registers as classified in the following (hereinafter referred to as "ship pollutant registers") on the ship (in the case of a towed ship, referring to the office of the ship owner) with respect to wastes, oil, and noxious liquid substances used, transported, or disposed of on the ship, and record the quantity of use, transportation, or disposal thereof: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. A waste register: A book which records the total quantity, etc. of wastes generated or disposed of on a ship in at least a specific size prescribed by Ordinance of the Ministry of Oceans and Fisheries: Provided, That where a marine environmental management business entity prepares and keeps a ledger of disposal pursuant to Article 72 (1), the waste register shall be substituted by such ledger of disposal;

2. An oil register: A book which records the quantities of oil used and disposed of on a ship: Provided, That ships prescribed by Ordinance of the Ministry of Oceans and Fisheries shall be excluded, and in the case of oilers, the quantity of oil shipped shall be recorded in addition to the quantities of oil used and disposed of;

3. A noxious liquid substance register: A book which records the quantities of shipment and disposal of noxious liquid substances which are shipped in bulk.

(2) The ship pollutant registers shall be kept for three years from the last entries, and detailed entries, method of keeping, and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 31 (Management, etc. of Contingency Plans for Marine Pollution by Ships)

(1) Every ship owner shall prepare a contingency plan for marine pollution caused by oil and noxious liquid substances (hereinafter referred to as "contingency plan for marine pollution by ships"), which includes measures to be taken in the event that oil or noxious liquid substances are discharged into the sea, and shall keep the plan on the ship after obtaining an approval seal from the Commissioner of the Korea Coast Guard and shall implement measures, etc. specified in the contingency plan for marine pollution by ships. <Amended by Act No. 11479, Jun. 1, 2012; Act No. 12844, Nov. 19, 2014; Act No. 14516, Dec. 27, 2016; Act No. 14839, Jul. 26, 2017>

(2) If a ship owner who has obtained an approval seal on a contingency plan for marine pollution by ships under paragraph (1) intends to modify any important matters in the contingency plan for marine pollution by ships prescribed by Ordinance of the Ministry of Oceans and Fisheries, he/she shall prepare a modified contingency plan for marine pollution by ships and keep it on the relevant ship after obtaining the approval seal from the Commissioner of the Korea Coast Guard. <Newly Inserted by Act No. 15012, Oct. 31, 2017>

(3) The scope of ships required to keep a contingency plan for marine pollution by ships, entries therein, and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

Article 32 (Managers Responsible for Prevention of Marine Pollution by Ships)

(1) Ship owners prescribed by Ordinance of the Ministry of Oceans and Fisheries shall appoint a crew member of the ship as a marine pollution prevention manager to manage the prevention of discharge of pollutants and air pollutants from the ship, assisting the shipmaster. In such cases, where ships transport noxious liquid substances in bulk, at least one more marine pollution prevention manager in charge of noxious liquid substances shall

be appointed. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Every ship owner shall keep a document evidencing the appointment of a marine pollution prevention manager under paragraph (1) on the ship.

(3) If a marine pollution prevention manager becomes temporarily unable to perform his/her duties due to a trip, disease or any other reason, the ship owner who has appointed him/her pursuant to paragraph (1) shall appoint a substitute to perform the duties of the marine pollution prevention manager on his/her behalf. In such cases, the period during which the substitute performs the duties of the marine pollution prevention manager shall not exceed 30 days. <Newly Inserted by Act No. 15012, Oct. 31, 2017>

(4) A ship owner shall have a marine pollution prevention manager under paragraph (1) or the substitute for a marine pollution prevention manager under paragraph (3) direct and supervise the transfer or discharge of pollutants and air pollutants. <Newly Inserted by Act No. 15012, Oct. 31, 2017>

(5) Except as otherwise provided for in paragraphs (1) through (4), qualifications for, duties of, and matters to be observed by, a marine pollution prevention manager and his/her substitute, and other necessary matters shall be prescribed by Presidential Decree. <Newly Inserted by Act No. 15012, Oct. 31, 2017>

Article 32-2 (Management of Ship-to-Ship Oil Transfer)

(1) Every ship owner who intends to transfer oil cargos between oil tankers (hereinafter referred to as "ship-to-ship") on the sea shall prepare a plan stating matters prescribed by Ordinance of the Ministry of Oceans and Fisheries, such as the transfer method (hereinafter referred to as "ship-to-ship oil transfer plan"), keep the plan in the ship after obtaining an approval seal from the Minister of Oceans and Fisheries, and comply with the plan during transfer. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Every shipmaster shall record matters prescribed by Ordinance of the Ministry of Oceans and Fisheries, including the amount and time of transfer, on the oil register relating to the ship-to-ship oil transfer and keep the register for three years from the date of the last entry. <Amended by Act No. 11690, Mar. 23, 2013>

(3) Every shipmaster who intends to engage in ship-to-ship oil transfer operations in a sea area or waters referred to in Article 3 (1) 1 and 2 shall first report the operation plan to the Minister of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

(4) Ships required to keep ship-to-ship oil transfer plans and procedures for obtaining the approval seal referred to in paragraph (1), the recording of ship-to-ship oil transfer operations referred to in paragraph (2), reporting items and methods referred to in paragraph (3), and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

Article 33 (Reporting on Marine Facilities)

(1) The owner of a marine facility (including installers and operators, and where such facilities are leased, referring to the lessees of such facilities; hereinafter the same shall apply) shall report on such facility to the Minister of Oceans and Fisheries. In the event of

any change to important matters prescribed by Ordinance of the Ministry of Oceans and Fisheries, such change shall also be reported on. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 14516, Dec. 27, 2017>

(2) Items of reporting on marine facilities, important matters subject to reporting for change, relevant procedures and other matters under paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 14516, Dec. 27, 2016>

Article 34 (Management of Marine Facility Pollutant Registers)

(1) The owners of marine facilities handling oil and noxious liquid substances, which are prescribed by Ordinance of the Ministry of Oceans and Fisheries, shall keep an oil and noxious liquid substance register (hereinafter referred to as "marine facility pollutant register") in the facilities and record therein the quantities of oil and noxious liquid substances used, details regarding oil and noxious liquid substances brought into and out of the marine facilities, etc. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) A marine facility pollutant register shall be kept for three years from the date of last entries, detailed entries, method of management, and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 35 (Management, etc. of Contingency Plans for Pollution by Marine Facilities)

(1) The owner of a marine facility using and storing, or disposing of oil and noxious liquid substances shall prepare a contingency plan for marine pollution (hereinafter referred to as a "contingency plan for pollution by marine facilities") which includes measures to be taken in the event that oil and noxious liquid substances are discharged into the sea, keep it in the marine facility after obtaining an approval seal from the Commissioner of the Korea Coast Guard, and shall implement measures, etc. referred to in the contingency plan for pollution by marine facilities: Provided, That when it is impracticable to keep the contingency plan for pollution by marine facilities in the marine facility, it may be kept in the office of the owner of the marine facility. <Amended by Act No. 12844, Nov. 19, 2014; Act No. 14516, Dec. 27, 2016; Act No. 14839, Jul. 26, 2017>

(2) If the owner of a marine facility who has obtained an approval seal on a contingency plan for pollution by marine facilities under paragraph (1) intends to modify any important matters in the contingency plan for pollution by marine facilities prescribed by Ordinance of the Ministry of Oceans and Fisheries, he/she shall prepare a modified contingency plan for pollution by marine facilities and keep it in the relevant marine facility or the office of the owner of the relevant marine facility after obtaining an approval seal from the Commissioner of the Korea Coast Guard. <Newly Inserted by Act No. 15012, Oct. 31, 2017>

(3) Those required to maintain a contingency plan for pollution by marine facilities, entries and other matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

Article 36 (Managers Responsible for Prevention of Marine Pollution by Marine

Facilities)

(1) The owner of a marine facility prescribed by Ordinance of the Ministry of Oceans and Fisheries shall appoint a marine pollution prevention manager to perform the duties to prevent discharge of pollutants from the marine facility, from among the employees working in the marine facility. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(2) The owner of a marine facility shall keep a document evidencing the appointment of a marine pollution prevention manager in the marine facility: Provided, That when it is impracticable to keep an evidentiary document in the marine facility, it may be kept in the office of the owner of the marine facility.

(3) If a marine pollution prevention manager becomes temporarily unable to perform his/her duties due to a trip, disease or any other reason, the owner of a marine facility who has appointed him/her pursuant to paragraph (1) shall appoint a substitute to perform the duties of the marine pollution prevention manager on his/her behalf. In such cases, the period during which the substitute performs the duties of the marine pollution prevention manager shall not exceed 30 days. *<Newly Inserted by Act No. 15012, Oct. 31, 2017>*

(4) The owner of a marine facility shall have a marine pollution prevention manager under paragraph (1) or the substitute for a marine pollution prevention manager under paragraph (3) direct and supervise the transfer and discharge of pollutants and air pollutants. *<Newly Inserted by Act No. 15012, Oct. 31, 2017>*

(5) Except as otherwise provided for in paragraphs (1) through (4), qualifications for, duties of, and matters to be observed by, a marine pollution prevention manager and his/her substitute, and other necessary matters shall be prescribed by Presidential Decree. *<Amended by Act No. 15012, Oct. 31, 2017>*

Article 36-2 (Safety Inspections of Marine Facilities)

(1) The owner of a marine facility related to oil and noxious liquid substances, which is prescribed by Ordinance of the Ministry of Oceans and Fisheries, shall conduct a safety inspection of the marine facility.

(2) The owner of a marine facility who has conducted a safety inspection under paragraph (1) shall report, without delay, the result thereof to the Minister of Oceans and Fisheries, if requested by the Minister of Oceans and Fisheries or if any serious defect prescribed by Ordinance of the Ministry of Oceans and Fisheries is detected upon safety inspection. *<Amended by Act No. 15012, Oct. 31, 2017>*

(3) The owner of a marine facility who has conducted a safety inspection under paragraph (1) shall keep the results of the safety inspection for three years from the completion of the safety inspection. *<Newly Inserted by Act No. 15012, Oct. 31, 2017>*

(4) Where the safety of a marine facility referred to in paragraph (1) is deemed questionable due to a force majeure, natural disaster, or any other similar cause, the Minister of Oceans and Fisheries may conduct a safety inspection on his/her own. In such cases, the owner of the relevant marine facility shall actively cooperate therein.

(5) The owner of a marine facility referred to in paragraph (1) may authorize an agency specialized in safety inspections and equipped with facilities and equipment prescribed by Presidential Decree to conduct a safety inspection of the relevant facility on his/her behalf.

(6) Timing and methods for conducting safety inspections under paragraph (1), reporting items under paragraph (2), and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries.

Article 37 (Collection and Disposal of Pollutants in Ships and Marine Facilities)

(1) The owner of a ship or marine facility shall require any of the following persons to collect and dispose of the substances prescribed by Ordinance of the Ministry of Oceans and Fisheries, from among the pollutants generated in the ship or marine facility: *<Amended by Act No. 8371, Apr. 11, 2007; Act No. 8852, Feb. 29, 2008; Act No. 9872, Dec. 29, 2009; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013; Act No. 15012, Oct. 31, 2017>*

1. An installer or operator of a pollutant storage facility under Article 38 (1);
2. A person who engages in oil hold cleaning business under Article 70 (1) 3 (hereinafter referred to as "oil hold cleaning business entity").

(2) Notwithstanding paragraph (1), the owner of any of the following ships or marine facilities may require a waste disposal business entity under Article 25 (8) of the Wastes Control Act to collect and dispose of wastes generated in the relevant ship or marine facility as prescribed by Ordinance of the Ministry of Oceans and Fisheries: *<Amended by Act No. 15012, Oct. 31, 2017>*

1. A marine facility (including a marine facility installed to connect a sea area to land) located on land;
2. A ship being built in the shipbuilding yard;
3. A ship undergoing a trial operation before filing registration under Article 8 (1) of the Ship Act or Article 13 (1) of the Fishing Vessels Act;
4. A small ship of less than 20 gross tons.

Article 38 (Pollutant Storage Facilities)

(1) Any sea area management authority shall install and operate a facility to store pollutants discharged from ships or marine facilities or discharged into the sea (hereinafter referred to as "pollutant storage facility").

(2) Any sea area management authority shall prepare and manage a ledger to manage pollutants brought into and out of a pollutant storage facility (hereinafter referred to as "pollutants management ledger"). In such cases, matters concerning ledger entries, preservation period, etc. shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(3) Detailed criteria for the installation and operation of pollutant storage facilities under paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

Article 39 (Examination of Persistent Pollutants, etc.)

(1) The Minister of Oceans and Fisheries shall measure and examine the actual conditions,

extent, etc. of pollution by persistent pollutants, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. In such cases, where the results of such measurement and examination show that there is a problem in the management of the marine environment, the Minister of Oceans and Fisheries shall take measures prescribed by Ordinance of the Ministry of Oceans and Fisheries, such as prohibition on the use of, and request for restriction on the use of the relevant persistent pollutants. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 15012, Oct. 31, 2017>

(2) The Minister of Oceans and Fisheries may request necessary materials from relevant administrative agencies, as prescribed by Presidential Decree, when conducting measurement or examination pursuant to paragraph (1). In such cases, the head of a relevant administrative agency shall comply therewith, except under special circumstances. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries shall determine and publicly notify the Korean standard methods of examination for persistent pollutants in order to ensure accuracy and consistency in conducting measurements and examinations under paragraph (1). In such cases, the publicly notified Korean standard methods of examination shall be deemed the Korean standard methods of examination for the marine environment referred to in Article 10. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 15012, Oct. 31, 2017>

Article 40 (Prohibition on Use of Harmful Anti-Fouling Paints, etc.)

(1) No person shall use harmful anti-fouling paints, or facilities, etc. using such paints (hereinafter referred to as "harmful anti-fouling system") for ships, marine facilities, etc.

(2) Any person who intends to use anti-fouling paints, or to install facilities, etc. using such paints (hereinafter referred to as "anti-fouling system") for or in ships, marine facilities, etc. shall comply with the criteria and methods prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 41 (Installation of Facilities to Prevent Discharge of Air Pollutants, etc.)

(1) Each ship owner shall install a facility to prevent or reduce the discharge of air pollutants on the ship (hereinafter referred to as "air pollution prevention facility"), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Each air pollution prevention facility installed pursuant to paragraph (1) shall be maintained and operated in conformity with the criteria set by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 41-2 (Calculation, etc. of Ship Energy Efficiency Design Indices)

(1) A person who intends to build, or conduct any of the following remodeling jobs for, a ship prescribed by Ordinance of the Ministry of Oceans and Fisheries, from among the ships of at least 400 gross tons and used for international voyage, shall install a propulsion engine with at least the minimum output determined and publicly notified by the Minister of Oceans

and Fisheries and calculate the ship energy efficiency design index: <Amended by Act No. 11690, Mar. 23, 2013>

1. Remodeling to substantially change the length, width, depth, transport capacity, or engine output of a ship, as prescribed by Ordinance of the Ministry of Oceans and Fisheries;
2. Remodeling to change the use of a ship;
3. Remodeling to extend the service life of a ship, as prescribed by Ordinance of the Ministry of Oceans and Fisheries;
4. Remodeling, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, to substantially change the ship energy efficiency, such as a change exceeding the permissible level of the ship energy efficiency design index prescribed by Ordinance of the Ministry of Oceans and Fisheries.

(2) No owner of any ship prescribed by Ordinance of the Ministry of Oceans and Fisheries, from among the ships referred to in paragraph (1), shall build or remodel a ship, the ship energy efficiency design index of which calculated under paragraph (1) exceeds the permissible level of the ship energy efficiency design index prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

Article 41-3 (Keeping Ship Energy Efficiency Management Plans)

(1) The owner of a ship prescribed by Ordinance of the Ministry of Oceans and Fisheries, from among the ships of at least 400 gross tons and used for international voyage, shall prepare a plan stating the procedures and methods for the formulation, implementation, monitoring, evaluation, improvement, etc. of a plan for improving ship energy efficiency (hereinafter referred to as "ship energy efficiency management plan"), and keep it in the ship. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Details to be included in ship energy efficiency management plans, preparation method thereof, and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

Article 42 (Regulation for Emission of Ozone Layer-Depleting Substances)

(1) No person shall emit (including emission generated during maintenance and repair or the placement of equipment or facilities of ships) ozone layer-depleting substances from ships: Provided, That the same shall not apply where ozone layer-depleting substances are leaked in the course of their retrieval.

(2) No ship owner shall equip the relevant ship with any installation containing ozone layer-depleting substances.

(3) When a ship owner removes any installation containing ozone layer-depleting substances, he/she shall deliver such facility to a company or organization designated and publicly notified by the Minister of Oceans and Fisheries. In such cases, the designated or publicly notified company or organization shall be equipped with retrieval facilities, accommodation facilities, etc. which meet the criteria set by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) The owner of a ship of at least 400 gross tons and used for international voyages shall prepare and manage a list of installations containing ozone layer-depleting substances. *<Newly Inserted by Act No. 10803, Jun. 15, 2011>*

(5) The owner of a ship referred to in paragraph (4) shall, when emitting ozone layer-depleting substances from the ship or replenishing the ship with ozone layer-depleting substances, prepare and keep a register which records the amount of the ozone layer-depleting substances, etc. (hereinafter referred to as "ozone layer-depleting substance register"). *<Newly Inserted by Act No. 10803, Jun. 15, 2011>*

(6) Entries in the ozone layer-depleting register referred to in paragraph (5) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Newly Inserted by Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>*

Article 43 (Regulation on Emission of Nitrogen Oxides)

(1) No ship owner shall operate diesel engines prescribed by Ordinance of the Ministry of Oceans and Fisheries in excess of the permissible emission level of nitrogen oxides specified in Article 76 (1) of the Clean Air Conservation Act: Provided, That the same shall not apply to diesel engines mounted on ships for the purpose of any emergency, such as emergency ships and lifeboats, and on public ships for the purpose of national defense and public security, such as military vessels and fleets of the Korea Coast Guard: *<Amended by Act No. 8404, Apr. 27, 2007; Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

(2) Notwithstanding paragraph (1), where it is possible to reduce the emission of nitrogen oxides below the permissible emission level referred to in the main sentence of paragraph (1) with the mounting of an exhaust fume-filter meeting the criteria set by Ordinance of the Ministry of Oceans and Fisheries, on a diesel engine, such diesel engine may be operated. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(3) Such details as the time and method of applying permissible emission levels of nitrogen oxides for diesel engines referred to in paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Newly Inserted by Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>*

Article 44 (Sulfur Content Standards for Fuel Oil, etc.)

(1) No ship owner shall use fuel oil exceeding the sulfur content standards prescribed by Presidential Decree in sea areas, other than sulfur oxides emission control sea areas.

(2) No ship owner shall use fuel oil exceeding the sulfur content standards prescribed by Presidential Decree in sulfur oxides emission control sea areas: Provided, That the same shall not apply where the quantity of sulfur oxide emissions is reduced to below the permissible emission level of sulfur oxides prescribed by Ordinance of the Ministry of Oceans and Fisheries, with the mounting of an exhaust fume-filter meeting the criteria set by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(3) Each ship owner shall record the matters prescribed by Ordinance of the Ministry of

Oceans and Fisheries, including the replacement of fuel oil, in the engineer's logbook in the event that the ship navigates in sulfur oxides emission control sea areas. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(4) Each ship owner shall keep the engineer's logbook referred to in paragraph (3) in the ship for one year from the supply of the relevant fuel oil.

(5) Each ship owner shall keep a procedure manual stating the methods for conversion of fuel oil (hereinafter referred to as "procedure manual for fuel oil conversion") in the ship, which must be followed by the ship using fuel oil with different sulphur content stored in different tanks to meet the sulphur content standards for fuel oil referred to in paragraph (2) before entering or leaving sulphur oxides emission control sea areas. *<Newly Inserted by Act No. 10803, Jun. 15, 2011>*

Article 45 (Supply, Confirmation, etc. of Fuel Oil)

(1) None of the following persons who supplies fuel oil to ships (hereinafter referred to as "ship fuel oil supplier") shall supply ships with fuel oil which is below the quality standards for fuel oil prescribed by Presidential Decree or exceeds the standard sulfur content under Article 44 (1): *<Amended by Act No. 15011, Oct. 31, 2017>*

1. A person who is registered as a ship fuel oil supplier under Article 26-3 of the Harbor Transport Business Act;

2. Fisheries Cooperatives supplying tax-free fuel oil for the fishing industry pursuant to Article 106-2 of the Restriction of Special Taxation Act.

(2) Each ship fuel oil supplier shall prepare a fuel oil supply certificate which states sulfide compounds, etc. contained in the fuel oil, and provide a copy thereof to the ship owner together with a sample collected from the relevant fuel oil (hereinafter referred to as "fuel oil sample"): Provided, That the same shall not apply to ship fuel oil suppliers who supply fuel oil to small ships prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 15011, Oct. 31, 2017>*

(3) Every ship fuel oil supplier (excluding those referred to in the proviso to paragraph (2)) shall keep fuel oil supply certificates under paragraph (2) in his/her principal office for three years, and ship owners shall keep copies thereof in their ships for three years. *<Amended by Act No. 15011, Oct. 31, 2017>*

(4) Every ship owner shall keep fuel oil samples from the supply of fuel oil until the use-up of such fuel oil: Provided, That this period shall be one year if such period is less than one year.

(5) Matters regarding the form of the fuel oil supply certificate, management of fuel oil samples under paragraph (2), etc. shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(6) Where any of the following applies to a foreign ship fuel oil supplier, the Minister of Oceans and Fisheries may notify the fact to the relevant administrative authorities of the

country to which the foreign ship fuel oil supplier belongs and take other necessary measures: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 15011, Oct. 31, 2017>

1. Where the foreign ship fuel oil supplier supplies fuel oil which is below the quality standards under paragraph (1) or exceeds the sulfur content standards;
2. Where the foreign ship fuel oil supplier is found to have supplied fuel oil different from that indicated in the fuel oil supply certificate.

Article 46 (Prohibition on Shipboard Incineration, etc.)

(1) No person shall incinerate any of the following aboard a ship while the ship is sailing or anchored: Provided, That the same shall not apply to the substance referred to in subparagraph 5 in a shipboard incinerator prescribed by Ordinance of the Ministry of Oceans and Fisheries: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>

1. Residues of oil, noxious liquid substances, and harmful substances in packaged form, which are carried by freight, and packing materials contaminated with such substances;
2. Poly chlorinated biphenyl;
3. Wastes containing heavy metals above the permissible levels determined and publicly notified by the Minister of Oceans and Fisheries;
4. Refined petroleum products containing halogen compounds;
5. Polyvinyl chloride;
6. Wastes brought from land;
7. Residues in exhaust fume filters.

(2) Any ship owner, who intends to incinerate aboard the ship substances prescribed by Ordinance of the Ministry of Oceans and Fisheries, from among the substances generated while the ship is sailing or anchored, shall operate an incinerator installed on the ship (hereinafter referred to as "shipboard incinerator") by the method prescribed by Ordinance of the Ministry of Oceans and Fisheries, such as maintaining an appropriate temperature to prevent the emission of air pollutants. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Notwithstanding paragraph (2), the substances prescribed by Ordinance of the Ministry of Oceans and Fisheries, from among the substances generated while the ship is sailing or anchored, may be incinerated in the main or auxiliary engine or boiler on the ship: Provided, That the same shall not apply to the sea areas prescribed by Ordinance of the Ministry of Oceans and Fisheries, such as harbors and fishing port zones. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Shipboard incinerators shall be maintained in conformity with the criteria set by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 47 (Emission Control, etc. for Volatile Organic Compounds)

(1) The Minister of Oceans and Fisheries may determine and publicly notify volatile organic

compounds control ports to control the emission of volatile organic compounds from ships. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The owner of a marine facility, who installs a facility to load volatile organic compounds-containing oil or noxious liquid substances prescribed by Ordinance of the Ministry of Oceans and Fisheries on a ship in a volatile organic compounds control port designated pursuant to paragraph (1), shall install and operate an oil vapor emission control unit. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) When the owner of a marine facility referred to in paragraph (2) installs an oil vapor emission control unit, he/she shall first undergo an inspection conducted by the Minister of Oceans and Fisheries, as prescribed by Ordinance of the Ministry of Oceans and Fisheries: Provided, That the same shall not apply to air pollutant emission facilities, the installation of which is permitted or reported under Article 23 (1) of the Clean Air Conservation Act or volatile organic compounds emission facilities, the installation of which is reported under Article 44 (1) of the same Act. <Amended by Act No. 8404, Apr. 27, 2007; Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) The owner of a marine facility who has installed an oil vapor emission control unit under paragraph (2) shall keep a record of the operation of the oil vapor emission control unit, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, for three years from the date he/she starts operating such unit. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 47-2 (Management of Volatile Organic Compounds)

(1) The owner of an oiler transporting crude oil shall prepare a management plan which includes matters necessary to minimize the emission of volatile organic compounds when loading the oiler with freight or unloading freight from the oiler or on a voyage (hereinafter referred to as "volatile organic compounds management plan"), and keep such plan in the oiler after obtaining an approval seal from the Minister of Oceans and Fisheries, and shall comply with such plan. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Ships required to maintain volatile organic compounds management plans referred to in paragraph (1), entries therein, procedures for obtaining an approval seal, and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

Article 48 (Application Exceptions)

@Articles 41, 42 through 47, and 47-2 shall not apply in any of the following cases: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11597, Dec. 18, 2012; Act No. 11690, Mar. 23, 2013>

1. Where air pollutants are inevitably emitted to ensure the safety of ships and marine facilities, or to save lives;
2. Where air pollutants are inevitably emitted due to damage to ships or marine facilities, etc.;
3. Where air pollutants prescribed by Ordinance of the Ministry of Oceans and Fisheries are

emitted in the course of exploiting and excavating submarine minerals on the seabed.

Article 49 (Regular Inspections)

(1) The owner of a ship on which waste pollution prevention facilities, oil pollution prevention facilities, noxious liquid substance pollution prevention facilities, and air pollution prevention facilities (hereinafter referred to as "marine pollution prevention facilities") must be installed or in which a hull structure referred to in Article 26 (2) and a cargo hold referred to in Article 27 (2) must be installed or maintained (hereinafter referred to as "ship subject to inspection") shall undergo an inspection conducted by the Minister of Oceans and Fisheries (hereinafter referred to as "regular inspection"), as prescribed by Ordinance of the Ministry of Oceans and Fisheries, when he/she intends to use such marine pollution prevention facilities, hull, and cargo hold (hereinafter referred to as "marine pollution prevention facilities, etc.") for sailing for the first time after they are installed or when the term of validity under Article 56 expires. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(2) The Minister of Oceans and Fisheries shall issue a certificate of marine pollution prevention inspection prescribed by Ordinance of the Ministry of Oceans and Fisheries to the ships that have passed a regular inspection. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

Article 50 (Interim Inspections)

(1) The owner of a ship subject to inspection shall undergo an inspection conducted by the Minister of Oceans and Fisheries between regular inspections (hereinafter referred to as "interim inspection"), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(2) With respect to the ships which have passed an interim inspection, the Minister of Oceans and Fisheries shall indicate the findings thereof in a certificate of marine pollution prevention inspection issued under Article 49 (2). *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(3) Details such as the types of interim inspection and matters to be inspected shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

Article 51 (Extraordinary Inspections)

(1) When the owner of a ship subject to inspection intends to replace, remodel, or repair marine pollution prevention facilities, etc., he/she shall undergo an inspection conducted by the Minister of Oceans and Fisheries (hereinafter referred to as "extraordinary inspection"), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(2) With respect to the ships which have passed an extraordinary inspection, the Minister of Oceans and Fisheries shall indicate the findings thereof in a certificate of marine pollution prevention inspection issued under Article 49 (2). *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

Article 52 (Inspections for Temporary Sailing)

(1) When the owner of a ship subject to inspection intends to temporarily use the ship for voyage before a certificate of marine pollution prevention inspection is issued under Article 49 (2), he/she shall undergo an inspection conducted by the Ministry of Oceans and Fisheries (hereinafter referred to as "inspection for temporary sailing"), as prescribed by Ordinance of the Ministry of Oceans and Fisheries, for the relevant marine pollution prevention facilities, etc. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall issue a temporary certificate of marine pollution prevention inspection prescribed by Ordinance of the Ministry of Oceans and Fisheries to a ship which has passed an inspection for temporary sailing. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 53 (Anti-Fouling System Inspections)

(1) When the owner of a ship prescribed by Ordinance of the Ministry of Oceans and Fisheries intends to use an anti-fouling system for voyage after installing it on the ship pursuant to Article 40 (2), he/she shall undergo an inspection conducted by the Minister of Oceans and Fisheries (hereinafter referred to as "anti-fouling system inspection"), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall issue an anti-fouling system inspection certificate prescribed by Ordinance of the Ministry of Oceans and Fisheries to a ship which has passed an anti-fouling system inspection. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) When the owner of a ship referred to in paragraph (1) intends to modify or replace an anti-fouling system, he/she shall undergo an inspection conducted by the Minister of Oceans and Fisheries (hereinafter referred to as "temporary anti-fouling system inspection"), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) With respect to ships which have passed a temporary anti-fouling system inspection, the Minister of Oceans and Fisheries shall indicate the findings thereof in the anti-fouling system inspection certificate under paragraph (2). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 54 (Preliminary Inspections, etc. of Air Pollution Prevention Facilities)

(1) Any person who intends to manufacture, remodel, repair, maintain, or import air pollution prevention facilities prescribed by Ordinance of the Ministry of Oceans and Fisheries may undergo an inspection conducted by the Minister of Oceans and Fisheries (hereinafter referred to as "preliminary inspection"), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall issue a preliminary inspection certificate prescribed by Ordinance of the Ministry of Oceans and Fisheries to air pollution prevention facilities which have passed a preliminary inspection. <Amended by Act No. 8852, Feb. 29,

2008; Act No. 11690, Mar. 23, 2013>

(3) With respect to air pollution prevention facilities which have passed a preliminary inspection, a regular inspection, interim inspection, extraordinary inspection, and inspection for temporary sailing provided for in Articles 49 through 52 may be fully or partially omitted, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Matters regarding the items of a preliminary inspection, etc. shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 54-2 (Energy Efficiency Inspections)

(1) The owner of a ship referred to in Article 41-2 (1) or the owner of a ship referred to in Article 41-3 (1) shall undergo an inspection on ship energy efficiency conducted by the Minister of Oceans and Fisheries (hereinafter referred to as "energy efficiency inspection"), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall issue an energy efficiency inspection certificate prescribed by Ordinance of the Ministry of Oceans and Fisheries to a ship which has passed an energy efficiency inspection. <Amended by Act No. 11690, Mar. 23, 2013>

(3) Matters regarding the time for applying for an energy efficiency inspection, matters to be inspected, inspection methods, etc. shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

Article 55 (Issuance of Inspection Certificates under International Agreements, etc.)

(1) When the owner or master of a ship which has passed a regular inspection, interim inspection, extraordinary inspection, inspection for temporary sailing, and anti-fouling system inspection (hereinafter referred to as "marine pollution prevention ship inspections") applies for the issuance of an inspection certificate in compliance with an international agreement on marine pollution prevention in order to use the ship for international voyage (hereinafter referred to as "inspection certificate under international agreement"), the Minister of Oceans and Fisheries shall issue an inspection certificate under the international agreement, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Where a ship owner or a ship master intends to obtain an inspection certificate under international agreement directly from the government of a foreign country which is a party to the international agreement (hereinafter referred to as "party to the agreement"), he/she shall apply therefor through the Korean consul residing in the relevant foreign country.

(3) Where the government of a country which is a party to the agreement applies for the issuance of an inspection certificate under international agreement for a ship belonging to the country, the Minister of Oceans and Fisheries may conduct the marine pollution prevention ship inspections with respect to the ship and issue an inspection certificate under international agreement to the ship owner or ship master. <Amended by Act No. 8852, Feb.

29, 2008; Act No. 11690, Mar. 23, 2013>

(4) An inspection certificate under international agreement issued under paragraphs (1) through (3) shall be deemed to have the same effect as a marine pollution prevention inspection certificate and anti-fouling system inspection certificate.

Article 56 (Validity of Marine Pollution Prevention Inspection Certificates, etc.)

(1) A marine pollution prevention inspection certificate, an anti-fouling system inspection certificate, an energy efficiency inspection certificate, and an inspection certificate under international agreement shall be valid for the following periods: <Amended by Act No. 11597, Dec. 18, 2012>

1. A marine pollution prevention inspection certificate: Five years;
2. An anti-fouling system inspection certificate: Permanent;
3. An energy efficiency inspection certificate: Permanent;
4. An inspection certificate under international agreement: Five years.

(2) The Minister of Oceans and Fisheries may extend the validity of a marine pollution prevention inspection certificate and an inspection certificate under international agreement under paragraph (1) within the scope prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The validity of a marine pollution prevention inspection certificate and an inspection certificate under international agreement of a ship which has failed to pass an interim inspection or extraordinary inspection shall be suspended until the ship passes the interim inspection or extraordinary inspection.

(4) The criteria for and method of computing the validity under paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 57 (Voyage of Ships to Which Certificate of Marine Pollution Prevention Inspection, etc. is not Issued, etc.)

(1) No ship owner shall operate any ship for voyage, which is subject to inspection and to which a marine pollution prevention inspection certificate, temporary marine pollution prevention inspection certificate, anti-fouling system inspection certificate, or energy efficiency inspection certificate is not issued: Provided, That the same shall not apply where such ship makes a voyage to undergo a marine pollution prevention inspection, energy efficiency inspection, or shipbuilding inspection under Articles 7 through 12 of the Ship Safety Act. <Amended by Act No. 11597, Dec. 18, 2012>

(2) No ship owner shall operate any ship, to which an inspection certificate under international agreement is not issued, for international voyage.

(3) No ship owner shall operate any ship for voyage (including international voyage) in a manner violating any of the conditions indicated in the relevant marine pollution prevention inspection certificate, temporary marine pollution prevention inspection certificate, anti-fouling system inspection certificate, energy efficiency inspection certificate, and inspection certificate under international agreement (hereinafter referred to as "certificate of marine

pollution prevention inspection, etc."): Provided, That the same shall not apply where a ship makes a voyage to undergo a marine pollution prevention ship inspection, energy efficiency inspection, or shipbuilding inspection under Articles 7 through 12 of the Ship Safety Act. <Amended by Act No. 11597, Dec. 18, 2012>

(4) Any ship owner to whom a certificate of marine pollution prevention inspection, etc. has been issued shall keep the certificate of marine pollution prevention inspection, etc. in the relevant ship.

Article 58 (Measures against Noncompliant Ships)

(1) Where the Minister of Oceans and Fisheries deems that marine pollution prevention facilities, etc. and anti-fouling systems are not in compliance with the installation standards or technical standards under Articles 25 (1), 26 (1) and (2), 27 (1) and (2), 40 (2), and 41 (1), he/she may order the owner of the relevant ship to replace, remodel, change, or repair the marine pollution prevention facilities, etc. and antifouling systems or to take other necessary measures. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Where a ship owner intends to continuously use or uses his/her ship against an order of replacement, etc. issued to address a material defect in marine pollution prevention facilities, etc. and anti-fouling systems, from among the orders for improvement under paragraph (1), the Minister of Oceans and Fisheries may suspend the voyage of such ship: Provided, That the same shall not apply where any justifiable ground exists, such as the voyage of the ship to a harbor for repair in order to comply with the orders for improvement without any fear of marine pollution. <Amended by Act No. 9872, Dec. 29, 2009; Act No. 11690, Mar. 23, 2013>

(3) In any of the following cases, the Minister of Oceans and Fisheries may order the relevant ship owner to take necessary measures, such as corrections, replacement, remodeling, keeping, etc.: <Amended by Act No. 11597, Dec. 18, 2012; Act No. 11690, Mar. 23, 2013>

1. Where it is deemed that the ship energy efficiency fails to meet the calculation method or permissible level of the ship energy efficiency design index, or the minimum output of propulsion engine under Article 41-2;

2. Where a ship energy efficiency management plan is not in place.

Article 59 (Port State Control for Marine Pollution Prevention)

(1) Where the Minister of Oceans and Fisheries deems that marine pollution prevention facilities, etc. or anti-fouling systems installed on a foreign ship in any harbor, port, or coastal areas of Korea or ship energy efficiency thereof are not in compliance with the technical standards under an international agreement on marine pollution prevention, he/she may order the master of the foreign ship to replace, remodel, change, repair, or improve the marine pollution prevention facilities, etc., anti-fouling systems, or systems related to ship energy efficiency, etc. or to take other necessary measures (hereinafter referred to as "port state control"). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11597, Dec. 18, 2012; Act No. 11690, Mar. 23, 2013>

(2) Articles 68 through 70 of the Ship Safety Act shall apply mutatis mutandis to procedures for enforcing port state control.

Article 60 (Re-inspection)

(1) Where a person who has undergone a marine pollution prevention ship inspection, preliminary inspection, or energy efficiency inspection has an objection to the results thereof, he/she may apply for re-inspection to the Minister of Oceans and Fisheries, stating the grounds therefor, within 90 days from the receipt of such results. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11597, Dec. 18, 2012; Act No. 11690, Mar. 23, 2013>

(2) Upon receipt of an application for re-inspection pursuant to paragraph (1), the Minister of Oceans and Fisheries shall require a subordinate public official to conduct re-inspection and notify the applicant of the results thereof within 60 days: Provided, That under any unavoidable circumstances, the deadline for such notification may be extended for up to another 30 days. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) No person who has an objection to any marine pollution prevention ship inspection, preliminary inspection, or energy efficiency inspection shall institute an administrative litigation, without re-inspection under paragraphs (1) and (2): Provided, That the same shall not apply to the cases falling under Article 18 (2) and (3) of the Administrative Litigation Act. <Amended by Act No. 11597, Dec. 18, 2012>

Article 61 (Formulating and Implementing National Emergency Pollution Response Plan)

(1) The Commissioner of the Korea Coast Guard shall formulate and implement a national emergency pollution response plan to prevent and response to marine pollution, as prescribed by Presidential Decree, in preparation for cases where a pollutant prescribed by Ordinance of the Ministry of Oceans and Fisheries is feared to be or is discharged into the sea. In such cases, the Commissioner of the Korea Coast Guard shall first seek an opinion from the Minister of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(2) The national emergency pollution response plan shall be confirmed after deliberation by the Marine Fishery Development Committee under Article 7 of the Framework Act on Marine Fishery Development. <Amended by Act No. 9454, Feb. 6, 2009>

Article 62 (Establishment of Pollution Response Headquarters, etc.)

(1) The Commissioner of the Korea Coast Guard shall exercise overall control over emergency pollution response to marine pollution accidents and may establish a pollution response headquarters under his/her jurisdiction. <Amended by Act No. 10803, Jun. 15, 2011; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(2) The Commissioner of the Korea Coast Guard shall report to the Minister of Oceans and Fisheries on the actions taken by the pollution response headquarters established pursuant to paragraph (1) and the results thereof, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(3) Matters necessary for the composition, operation, etc. of the pollution response

headquarters under paragraph (1) shall be prescribed by Presidential Decree. <Amended by Act No. 10803, Jun. 15, 2011>

Article 63 (Duty to Report on Discharge of Pollutants)

(1) Where a pollutant exceeding the permissible emission level prescribed by Presidential Decree is discharged or feared to be discharged into the sea, any of the following persons shall report thereon, without delay, to the Commissioner of the Korea Coast Guard or the chief of the relevant coast guard station: <Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

1. The master of a ship or the manager of a marine facility loaded with a pollutant, which is discharged or is feared to be discharged. In such cases, the same shall not apply where a person who has done an act which resulted in the discharge of the pollutant from the relevant ship or marine facility reports thereon;
2. A person whose act resulted in the discharge of a pollutant;
3. A person who has discovered the discharged pollutant.

(2) Matters regarding procedures for reporting, matters to be reported, etc. under paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

Article 64 (Pollution Response Measures upon Discharge of Pollutants)

(1) Any person who falls under Article 63 (1) 1 or 2 (hereinafter referred to as "person responsible for pollution response") shall take the following measures against discharged pollutants (hereinafter referred to as "pollution response measures"), as prescribed by Presidential Decree:

1. Prevention of discharge of pollutants;
2. Prevention of spread of discharged pollutants and removal thereof;
3. Collection and disposal of discharged pollutants.

(2) Where a pollutant is discharged from a ship located in a harbor or sea area adjacent to a harbor, any of the following persons shall actively cooperate with the person responsible for pollution response in taking pollution response measures:

1. Where the harbor concerned is used for loading the discharged pollutant, the consignor of the relevant pollutant;
2. Where the harbor concerned is used for unloading the discharged pollutant, the consignee of the relevant pollutant;
3. Where the pollutant is discharged while the ship is at her moorings, the manager of the relevant mooring facilities;
4. Other person whose act resulted in the discharge of the pollutant.

(3) Where a person responsible for pollution response fails to voluntarily take pollution response measures, the Commissioner of the Korea Coast Guard may order the person to take pollution response measures, setting a deadline. <Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(4) Where a person responsible for pollution response fails to comply with an order to take pollution response measures under paragraph (3), the Commissioner of the Korea Coast Guard may take the pollution response measures on his/her own. In such cases, expenses associated with such pollution response measures shall be borne by the person responsible for pollution response, as prescribed by Presidential Decree. *<Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

(5) Articles 5 and 6 of the Administrative Vicarious Execution Act shall apply mutatis mutandis to the collection of expenses incurred in directly taking pollution response measures pursuant to paragraph (4).

(6) Materials and chemicals used for taking pollution response measures against pollutants pursuant to paragraphs (1) through (4) shall be type-approved, verified, and recognized pursuant to Article 110 (4), (6), and (7) or verified pursuant to Article 110-2 (3): Provided, That the same shall not apply to materials used for pollution response measures against pollutants, which are recognized by the Commissioner of the Korea Coast Guard that such materials are needed for emergency pollution response measures and do not affect the marine environment. *<Newly Inserted by Act No. 10803, Jun. 15, 2011; Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

Article 65 (Measures to be Taken against Possible Discharge of Pollutants, etc.)

(1) Where pollutants are feared to be discharged from a ship or marine facility due to an accident, such as stranding, collision, sinking, or conflagration of the ship or marine facility, the owner or master of such ship or the owner of such marine facility shall take measures to prevent the discharge of pollutants, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(2) Article 64 (3) and (4) shall apply mutatis mutandis to measures to prevent the discharge of pollutants under paragraph (1). In such cases, "person responsible for pollution response" shall be construed as "owner or master of a ship or the owner of a marine facility."

Article 66 (Keeping Materials and Chemicals, etc.)

(1) The port management authority and owners of ships and marine facilities shall keep and maintain materials and chemicals used for pollution response against or prevention of pollutants in storage facilities or in the relevant ships and marine facilities. *<Amended by Act No. 10803, Jun. 15, 2011>*

(2) Materials and chemicals to be kept and maintained pursuant to paragraph (1) shall be type-approved, verified, and recognized pursuant to Article 110 (4), (6), and (7) or verified pursuant to Article 110-2 (3). *<Amended by Act No. 10803, Jun. 15, 2011>*

(3) The kinds, quantity, methods of keeping materials and chemicals required to be kept and maintained pursuant to paragraph (1), standards for storage facilities, and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>*

Article 67 (Placement, etc. of Pollution Response Vessels, etc.)

(1) The owner of any of the following ships or marine facilities shall place or install pollution response vessels or pollution response equipment (hereinafter referred to as "pollution response vessels, etc.") in sea areas prescribed by Ordinance of the Ministry of Oceans and Fisheries in accordance with the criteria set by Presidential Decree in preparation for oil spills into the ocean: *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 15012, Oct. 31, 2017>*

1. An oiler of at least 500 gross tons;
2. A ship of at least 10,000 gross tons (limited to ships, excluding oilers);
3. An oil storage facility with a capacity of at least 10,000 kiloliters, registered as a marine facility.

(2) Any person required to place or install pollution response vessels, etc. pursuant to paragraph (1) (hereinafter referred to as "person responsible for placement") may jointly do so or entrust the placement or installation thereof to the Korea Marine Environment Corporation under Article 96 (1), as prescribed by Presidential Decree. *<Amended by Act No. 15012, Oct. 31, 2017>*

(3) The Commissioner of the Korea Coast Guard may issue to the persons who have failed to place or install pollution response vessels, etc. an order aimed at prohibiting ships' entry into or departure from ports, or suspending the use of facilities. *<Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

(4) Where pollutants are discharged or feared to be discharged from any ship or marine facility referred to in paragraph (1), the Commissioner of the Korea Coast Guard shall have a person responsible for placement take pollution response measures and measures to prevent discharge under Article 65. In such cases, when a person responsible for placement jointly places or installs pollution response vessels, etc. or entrusts the placement or installation thereof to the Korea Marine Environment Corporation pursuant to paragraph (2), he/she shall have the joint placer or installer, or the Korea Marine Environment Corporation jointly take pollution response measures and measures to prevent discharge. *<Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017; Act No. 15012, Oct. 31, 2017>*

Article 68 (Pollution Response Measures and Costs Bearing by Administrative Agencies)

(1) Where it is deemed that pollution response measures taken by the person responsible for pollution response, alone, are not enough to prevent large-scale spread of pollutants or that the emergency pollution response is required, the Commissioner of the Korea Coast Guard shall take pollution response measures on his/her own. *<Amended by Act No. 10803, Jun. 15, 2011; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

(2) Notwithstanding paragraph (1), the heads of the relevant local governments or administrative agencies as classified in the following subparagraphs shall take pollution response measures against oil stuck to pebbles, sand, etc. on the shore: *<Newly Inserted by Act No. 10803, Jun. 15, 2011>*

1. Where oil affects shores under the jurisdiction of the head of one Si/Gun/Gu (referring to

the head of an autonomous Gu; hereinafter the same shall apply) only: The head of the relevant Si/Gun/Gu;

2. Where oil affects shores under the jurisdictions of the heads of at least two Sis/Guns/Gus: The relevant Mayor/Do Governor. In such cases, where oil affects shores under the jurisdictions of at least two Mayors/Do Governors, the respective Mayors/Do Governors having their own jurisdictions;

3. Pollution response measures for shores on which military facilities and other facilities prescribed by Presidential Decree are installed: The head of the relevant facility management institution.

(3) When the head of a Si/Gun/Gu or a Mayor/Do Governor takes pollution response measures referred to in paragraph (2), the Commissioner of the Korea Coast Guard shall support him/her with materials, chemicals, pollution response equipment, personnel, technology, etc. required for pollution response. <Newly Inserted by Act No. 10803, Jun. 15, 2011; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(4) Expenses incurred in taking pollution response measures under paragraphs (1) and (2) may be borne by the owner of a ship or marine facility, as prescribed by Presidential Decree: Provided, That the same shall not apply in circumstances prescribed by Presidential Decree, including natural disasters. <Amended by Act No. 10803, Jun. 15, 2011>

(5) Articles 5 and 6 of the Administrative Vicarious Execution Act shall apply mutatis mutandis to the collection of expenses borne under paragraph (4). <Amended by Act No. 10803, Jun. 15, 2011>

Article 69 (Pollution Response Contributions)

(1) Any person responsible for placement shall pay a pollution response contribution required for marine pollution response measures, such as pollution response measures and measures for the prevention of discharge against oil spill accidents, etc. (hereinafter referred to as "pollution response contribution"). <Amended by Act No. 15012, Oct. 31, 2017>

(2) Pollution response contributions and surcharges under Article 69-2 (1) 3 shall be used for the projects under Article 97 (1) 3. <Amended by Act No. 15012, Oct. 31, 2017>

(3) Pollution response contributions shall be paid to the Korea Marine Environment Corporation under Article 96 (1), and matters regarding the criteria and procedure for the imposition of pollution response contributions under paragraphs (1) and (2) and others shall be prescribed by Presidential Decree. <Amended by Act No. 15012, Oct. 31, 2017>

Article 69-2 (Compulsory Collection of Pollution Response Contributions and Surcharges)

(1) If a person liable to pay a pollution response contribution fails to make payment by the due date, the Korea Marine Environment Corporation under Article 96 (1) shall collect a surcharge prescribed by Presidential Decree for the period from the date following the due date until the date of payment. In such cases, the surcharge shall not exceed 3/100 of the amount of the pollution response contribution in arrears.

(2) Where a person liable to pay a pollution response contribution fails to make payment by

the due date, the Korea Marine Environment Corporation shall demand payment, setting a period of at least 30 days; and if he/she fails to pay the pollution response contribution and the surcharge referred to in paragraph (1) within the specified period, they may be collected in the same manner as national taxes in arrears after obtaining approval therefor from the Minister of Oceans and Fisheries.

Article 69-3 (Submission of Data for Calculation, etc. of Pollution Response Contributions)

(1) For the purpose of the calculation, etc. of a pollution response contribution, the Korea Marine Environment Corporation under Article 96 (1) may request a person liable to pay the pollution response contribution to submit a manifest of the ship, data on the quantity of oil received in oil storage facilities, and other relevant data, as prescribed by Presidential Decree.

(2) A person requested to submit data under paragraph (1) shall comply with such a request, except in extenuating circumstances.

(3) Where necessary to verify the data submitted pursuant to paragraph (2), the Korea Marine Environment Corporation under Article 96 (1) may request the head of the related central administrative agency or the head of the related local government to submit necessary data.

Article 70 (Marine Environment Management Business)

(1) Any person who intends to run any of the following businesses (hereinafter referred to as "marine environmental management business") shall be registered with the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard, as prescribed by Presidential Decree: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11597, Dec. 18, 2012; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

1. Ocean waste discharge business: Dumping wastes into the sea with ships, facilities, and equipment needed therefor;

2. Marine pollution prevention business: Removing pollutants which are discharged or feared to be discharged into the sea with facilities and equipment needed therefor;

3. Oil hold cleaning business: Cleaning the oil holds of ships or collecting the pollutants therefrom with facilities and equipment needed therefor prescribed by Ordinance of the Ministry of Oceans and Fisheries, which are generated from ships or marine facilities (limited to cases where the marine facilities are storage facilities of oil or noxious liquid substances);

4. Ocean waste collection business: Collecting wastes with ships, equipment, and facilities needed for collecting wastes floating on the water surface or deposited on the seabed;

5. Deposited pollutants collection business: Dredging or collecting deposited pollutants with ships, equipment, and facilities needed therefor.

(2) Any person who intends to register a marine environmental management business shall have technical skills in the relevant fields, as prescribed by Presidential Decree, and have ships, equipment, facilities, etc. prescribed by Ordinance of the Ministry of Oceans and

Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(3) When a person whose marine environmental management business has been registered pursuant to paragraph (1) (hereinafter referred to as "marine environmental management business entity") intends to make important changes to the matters registered prescribed by Ordinance of the Ministry of Oceans and Fisheries, he/she shall file for registration of such change, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

Article 70-2 (Assistance, etc. for Ocean Waste Discharge Business Entities)

(1) Where an ocean waste discharge business entity referred to in Article 70 (1) 1 closes his/her business on any ground prescribed by Presidential Decree, such as prohibiting the discharge of land-based wastes into the sea, the Minister of Oceans and Fisheries may formulate and execute assistance measures, such as arranging an alternative business, providing business closure assistance funds, and arranging loans. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Details regarding assistance measures referred to in paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

Article 71 (Grounds for Disqualification)

None of the following persons is eligible to register marine environmental management business: <Amended by Act No. 12662, May 21, 2014; Act No. 15012, Oct. 31, 2017>

1. A person under adult guardianship;
2. Deleted; <by Act No. 15012, Oct. 31, 2017>
3. A person for whom one year has not passed since his/her imprisonment with labor or heavier punishment for violating this Act was completely executed (including cases where the execution is deemed terminated) or since the non-execution of such sentence became final and conclusive;
4. A person for whom one year has not passed since the revocation of the registration for marine environmental management business (excluding any revocation made under subparagraph 1);
5. A corporation, any executive officer of which falls under subparagraph 1, 3 or 4.

Article 72 (Duties of Marine Environmental Management Business Entities)

(1) Every marine environment management business entity shall prepare a statement with respect to ocean waste dumping, removal of pollutants, cleaning and collection of pollutants, collection of floating or deposited wastes, and dredging and collection of accumulated pollutants, etc., submit it to the Minister of Oceans and Fisheries or to the Commissioner of the Korea Coast Guard, and prepare a ledger to be kept in the relevant ship or facility. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(2) When a marine environmental management business entity collects pollutants from ships, or marine facilities, etc., he/she shall prepare a certificate of pollutants collection confirmation, as prescribed by Ordinance of the Ministry of Oceans and Fisheries and issue it to the relevant pollutants entrusting person. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(3) Every ocean waste discharge business entity shall keep and manage wastes subject to ocean dumping, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, and discharge wastes into the sea pursuant to the proviso to Article 23 (1), and shall prepare a waste transfer/takeover form prescribed by Ordinance of the Ministry of Oceans and Fisheries and submit it to the Minister of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013>

(4) Details regarding the method of preparation of and the period for keeping the statement of disposal results, the ledger of disposal, pollutants collection confirmation certificate, and the waste transfer/takeover form under paragraphs (1) through (3) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

Article 73 (Orders for Disposal of Entrusted Wastes, etc.)

Where a marine environment management business entity (including suspension or closure of business) neglects to dispose of pollutants subject to disposal, such as wastes, the disposal of which is entrusted to him/her, as Commissioner of the Korea Coast Guard may order the appropriate disposal of such pollutants, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

Article 74 (Succession, etc. of Marine Environmental Management Business)

(1) Where a marine environmental management business entity transfers his/her business to any other person or dies, or a corporate marine environmental management business entity merges with any other corporation, the transferee or successor of the business, or the corporation surviving the merger or the corporation resulting from the consolidation shall succeed to the rights and duties concerned.

(2) Any person who has fully taken over the installations or facilities of a marine environmental management business entity through an auction under the Civil Execution Act, conversion under the Debtor Rehabilitation and Bankruptcy Act, sale of seized property under the National Tax Collection Act, Customs Act, or Local Tax Collection Act, or other procedures equivalent thereto shall succeed to the rights and duties concerned. <Amended by Act No. 10219, Mar. 31, 2010; Act No. 14476, Dec. 27, 2016>

(3) Any person who has succeeded to the duties and rights of a marine environmental management business entity pursuant to paragraphs (1) and (2) shall report thereon to the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard, as prescribed by Ordinance of the Ministry of Oceans and Fisheries within one month.

<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(4) Article 71 shall apply mutatis mutandis to succession under paragraphs (1) and (2).

Article 75 (Revocation, etc. of Registration)

(1) Where a marine environmental management business entity falls under any of the cases specified in the following subparagraphs, the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard may revoke the registration thereof or order the suspension of business (including the suspension of use of transportation ships or storage facilities only), within a given period of up to six months: Provided, That he/she shall revoke such registration where the marine environmental management business entity falls under any of the cases referred to in subparagraphs 1 through 4: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14516, Dec. 27, 2016; Act No. 14839, Jul. 26, 2017; Act No. 15012, Oct. 31, 2017>

1. Where the marine environmental management business entity falls under any subparagraph of Article 71: Provided, That the same shall not apply where a corporation which has an executive officer falling under subparagraph 1, 3 or 4 of Article 71 has replaced such executive officer within six months;

2. Where the marine environment management business entity has been registered, or registered for any change by fraud or other illegal means;

3. Where the marine environment management business entity is suspended for business on at least two occasions a year;

4. Where the marine environment management business entity conducts business activities during suspension;

5. Where the marine environment management business entity fails to comply with any terms and conditions of registration without any justifiable ground;

6. Where the marine environment management business entity violates any duty under Article 72;

7. Where the marine environment management business entity fails or refuses to comply with an order issued under Article 73;

8. Where the marine environment management business entity fails to conduct business activities within one year after registration or has no business performance for at least one year continuously without good cause.

(2) Detailed criteria for an administrative disposition under paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries, based on the type, severity, etc. of the relevant offense. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

Article 76 (Duties, etc. of Persons Entrusting Waste Disposal)

(1) Any person who intends to entrust the disposal of wastes to an ocean waste discharge business entity shall report thereon to the Minister of Oceans and Fisheries, as prescribed

by Ordinance of the Ministry of Oceans and Fisheries. In such cases, the same shall apply to any change to important reported matters prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Any person who has reported on the entrustment of wastes for disposal pursuant to paragraph (1) (hereinafter referred to as "person entrusting waste disposal") shall measure the ingredients, concentration, weight, and volume of the wastes he/she intends to entrust for disposal, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, and entrust the disposal thereof in conformity with the criteria for and method of disposal prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Any person entrusting waste disposal may allow a person capable of measuring wastes to measure the ingredients, concentration, weight, and volume of wastes under paragraph (2) on his/her behalf, as prescribed by Presidential Decree.

Article 76-2 (Electronic Processing of Details, etc. of Waste Transfer/Takeover)

(1) The Minister of Oceans and Fisheries may build and operate an electronic information processing system to manage information on ocean waste discharge in a systematic and efficient manner. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Where an ocean waste discharge business entity, from among marine environmental management business entities, submits a statement of disposal results under Article 72 (1) and a waste transfer/takeover form under Article 72 (3) using the electronic information processing system under paragraph (1), as prescribed by Ordinance of the Ministry of Oceans and Fisheries, he/she shall be deemed to have performed his/her duty to submit and keep the relevant data. <Amended by Act No. 11690, Mar. 23, 2013>

Article 77 (Marine Pollution Impact Surveys)

(1) Where a pollutant is discharged into the sea from a ship or marine facility in at least the quantity prescribed by Presidential Decree, the owner of the ship or marine facility shall require a marine pollution impact survey institution to conduct a marine pollution impact survey.

(2) Marine pollution impact survey institutions referred to in paragraph (1) shall be designated and publicly notified by the Minister of Oceans and Fisheries in accordance with the criteria set by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Where an entity required to conduct a marine pollution impact survey pursuant to paragraph (1) fails to do so within the period set by Presidential Decree or there is an urgent need for such survey, as prescribed by Presidential Decree, the Minister of Oceans and Fisheries shall select any other survey institution to conduct the marine pollution impact survey. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Where the Minister of Oceans and Fisheries intends to have a separate marine pollution impact survey conducted pursuant to paragraph (3), he/she shall submit the relevant matter

for deliberation by the Marine Fishery Development Committee under Article 7 of the Framework Act on Marine Fishery Development, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 9454, Feb. 6, 2009; Act No. 11690, Mar. 23, 2013>

Article 78 (Areas and Subject Matters of Marine Pollution Impact Survey)

A marine pollution impact survey shall be conducted for areas to be adversely affected by pollutants, such as the natural environment, living environment, and socio-economic environment, and detailed subject matters in each area shall be prescribed by Presidential Decree.

Article 79 (Collection of Residents' Opinions)

(1) When preparing a survey report on marine pollution impact (hereinafter referred to as "marine pollution impact survey report"), any marine pollution impact survey institution shall hold an explanatory meeting or public hearing in advance to collect the opinions of the residents in the area subject to the survey and include them in the marine pollution impact survey report.

(2) When collecting residents' opinions pursuant to paragraph (1), any marine pollution impact survey institution shall draft a marine pollution impact survey report and provide the same to the residents for their prior confirmation.

Article 80 (Survey Costs)

(1) Costs associated with marine pollution impact surveys under Article 77 (1) and (3) shall be borne by the owner of a ship or marine facility which caused a marine pollution accident, as prescribed by Presidential Decree: Provided, That the same shall not apply to cases falling under natural disasters and other causes prescribed by Presidential Decree.

(2) Costs associated with marine pollution impact surveys under Article 77 (3) shall be collected in the same manner as national taxes in arrears.

Article 81 (Grounds for Disqualification of Survey Institutions)

None of the following persons shall be designated as a marine pollution impact survey institution: <Amended by Act No. 10803, Jun. 15, 2011; Act No. 12662, May 21, 2014; Act No. 14532, Jan. 17, 2017; Act No. 15012, Oct. 31, 2017>

1. A person under adult guardianship;
2. Deleted; <by Act No. 15012, Oct. 31, 2017>
3. A person for whom two years have not passed since the revocation of designation as a marine pollution impact survey institution (excluding any revocation made under subparagraph 1);
4. A person for whom one year has not passed since his/her imprisonment without labor or heavier punishment for violating this Act, the Water Environment Conservation Act, or the Clean Air Conservation Act was completely executed (including cases where the execution is deemed terminated) or since the non-execution of such sentence became final and conclusive;
5. A corporation, the representative of which falls under subparagraph 1, 3 or 4.

Article 82 (Revocation of Designation as Survey Institutions, etc.)

(1) Where a marine pollution impact survey institution falls under any of the following, the Minister of Oceans and Fisheries may revoke the relevant designation or issue an order for business suspension of up to one year: Provided, That he/she shall revoke the relevant designation where such institution falls under any of the cases in subparagraphs 1 through 4: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 15012, Oct. 31, 2017>

1. Where the marine pollution impact survey institution has obtained designation by fraud or other illegal means;
2. Where the marine pollution impact survey institution fails to meet the criteria for designation under Article 77 (2);
3. Where the marine pollution impact survey institution falls under any subparagraph of Article 81: Provided, That the same shall not apply where the representative of a corporation who falls under subparagraph 1, 3 or 4 of Article 81 is replaced within six months;
4. Where the marine pollution impact survey institution has experienced suspension of business on at least two occasions a year;
5. Where the marine pollution impact survey institution lends its authority to any other person or subcontracts a marine pollution impact survey to any other institution en bloc;
6. Where the marine pollution impact survey institution fails to conduct a thorough survey, either intentionally or by gross negligence.

(2) Detailed criteria for an administrative disposition referred to in paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries, in consideration of the type, severity, etc. of the relevant offense. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 83 (Continuation of Business of Marine Pollution Impact Survey Institution Subject to Cancellation of Designation or Business Suspension)

(1) Any marine pollution impact survey institution subject to cancellation of designation or business suspension pursuant to Article 82 may continue its service for the marine pollution impact surveys, the contracts for which were concluded before being subjected to either of the above dispositions.

(2) Any marine pollution impact survey institution that continues to conduct an impact survey pursuant to paragraph (1) shall be deemed a marine pollution impact survey institution under this Act until its completion.

Article 83-2 (Management of Sunken Ships)

(1) The Minister of Oceans and Fisheries shall take the following measures to prevent additional marine pollution accidents which may be caused by a ship sunken under the sea after any marine accident defined in subparagraph 1 of Article 2 of the Act on the Investigation of and Inquiry into Marine Accidents (hereafter referred to as "sunken ship" in this Article): <Amended by Act No. 11690, Mar. 23, 2013>

1. Systemic management of information on the sunken ship;

2. Risk assessment with respect to possible marine pollution accidents by the sunken ship;
3. Implementation of risk-mitigation measures for the sunken ship.

(2) Where necessary, the Minister of Oceans and Fisheries may, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, request the Commissioner of the Korea Coast Guard to provide information that public officials belonging to the Korea Coast Guard have acquired in the course of performing their duties. <Amended by Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(3) Expenses incurred in taking the measures referred to in paragraph (1) 3 shall be borne by the owner of a sunken ship, as prescribed by Presidential Decree: Provided, That where it is impracticable to identify the ship owner, the expenses may be covered by selling the relevant sunken ship, as prescribed by Presidential Decree.

(4) Methods for assessing risks under paragraph (1) 2, detailed methods and procedures for taking risk-mitigation measures under paragraph (1) 3, methods for calculating and paying expenses under paragraph (3), and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

Article 84 (Consultation on Utilization of Sea Areas)

(1) The head of an administrative agency who intends to grant any of the following licenses, permission, designation, etc. (hereinafter referred to as "license, etc.") (hereinafter referred to as "license-granting agency") shall first consult with the Minister of Oceans and Fisheries on the propriety of utilization of sea areas referred to in Article 20 of the Act on Conservation and Utilization of the Marine Environment and its impact on the marine environment (hereinafter referred to as "consultation on utilization of sea areas"), as prescribed by Presidential Decree, before granting such license, etc. In such cases, the business subject to sea area utilization impact assessment under Article 85 (1) shall be deemed to have undergone the consultation on utilization of sea areas: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10272, Apr. 15, 2010; Act No. 11690, Mar. 23, 2013; Act No. 14747, Mar. 21, 2017>

1. Permission to occupy or use public waters under Article 8 of the Public Waters Management and Reclamation Act (excluding permission to occupy or use public waters following permission to extract marine aggregates and designation of marine aggregate complexes under subparagraphs 5 and 6) and a license to reclaim public waters under Article 28 of the same Act;

2. Deleted; <by Act No. 10272, Apr. 15, 2010>

3. A license for fishery business under Article 8 of the Fisheries Act: Provided, That this shall apply only to licenses for fishery business in sea areas prescribed by Presidential Decree;

4. Designation of prospective areas for extraction of marine aggregates under Article 21-2 of the Aggregate Extraction Act;

5. Permission to extract marine aggregates under Article 22 of the Aggregate Extraction Act;

6. Designation of marine aggregate extraction complexes under Article 34 of the Aggregate

Extraction Act.

(2) Even where any other Act stipulates that permission to occupy or use or a license to reclaim public waters is deemed granted under the Public Waters Management and Reclamation Act, consultation on the utilization of sea areas shall be held in the application of paragraph (1) 1: Provided, That this shall not apply to any of the following: *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 10272, Apr. 15, 2010; Act No. 11690, Mar. 23, 2013; Act No. 14516, Dec. 27, 2016>*

1. Business for taking emergency measures under Article 37 of the Framework Act on the Management of Disasters and Safety;

2. Business on which the Minister of National Defense consults with the Minister of Oceans and Fisheries as deemed necessary for confidentiality for military purposes or for urgent military operations, and which is determined and publicly notified by the Minister of Oceans and Fisheries.

(3) When a license-granting agency intends to consult on the utilization of sea areas with the Minister of Oceans and Fisheries pursuant to paragraph (1), it shall submit a sea area utilization consultation form prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(4) A license-granting agency may require a person who intends to engage in a business requiring a license, etc. (hereinafter referred to as "business subject to licensing"), which is subject to consultation on the utilization of sea areas pursuant to paragraph (1) (hereinafter referred to as "sea area utilization business entity"), to submit a separate form for sea area utilization consultation and may submit it in lieu of the sea area utilization consultation form referred to in paragraph (3). *<Amended by Act No. 10803, Jun. 15, 2011>*

(5) Any sea area utilization business entity may allow an assessment agent registered under Article 86 (1), on his/her behalf, to prepare sea area utilization consultation forms submitted to license-granting agencies pursuant to paragraph (4). *<Newly Inserted by Act No. 10803, Jun. 15, 2011>*

(6) The timing of consultation on the utilization of sea areas, and the method of preparing the sea area utilization consultation form under paragraphs (3) and (4), and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

Article 85 (Sea Area Utilization Impact Assessment)

(1) In consulting on the utilization of sea areas with the Minister of Oceans and Fisheries pursuant to Article 84, if the relevant business subject to licensing involves any of the following acts which is of at least the scale prescribed by Presidential Decree, a license-granting agency shall request the Minister of Oceans and Fisheries to assess its impact on the marine environment (hereinafter referred to as "sea area utilization impact assessment"): Provided, That this shall not apply to the businesses prescribed by Presidential Decree, from among those subject to environmental impact assessment under Article 22 of the Environmental Impact Assessment Act: *<Amended by Act No. 8852, Feb. 29, 2008; Act No.*

9037, Mar. 28, 2008; Act No. 9872, Dec. 29, 2009; Act No. 10272, Apr. 15, 2010; Act No. 10803, Jun. 15, 2011; Act No. 10892, Jul. 21, 2011; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013>

1. Dredging or digging the bottom of public waters referred to in Article 8 (1) 3 of the Public Waters Management and Reclamation Act;
2. Extracting earth, sand, or stone in public waters referred to in Article 8 (1) 6 of the Public Waters Management and Reclamation Act;
3. Affecting the depth of public waters, by dumping earth and stone into public waters referred to in Article 8 (1) 8 of the Public Waters Management and Reclamation Act;
4. Extracting submarine minerals defined in subparagraph 1 of Article 2 of the Submarine Mineral Resources Development Act;
5. Extracting minerals referred to in subparagraph 1 of Article 3 of the Mining Industry Act from public waters;
6. Using and developing deep sea water defined in subparagraph 1 of Article 2 of the Development and Management of Deep Sea Water Act;
7. Extracting marine aggregates under Article 22 of the Aggregate Extraction Act;
8. Designating marine aggregate extraction complexes under Article 34 of the Aggregate Extraction Act;
9. Other acts prescribed by Presidential Decree, which affect the marine environment.

(2) Where a license-granting agency requests a sea area utilization impact assessment from the Minister of Oceans and Fisheries, it shall also submit a statement on sea area utilization impact assessment prepared by a person who intends to engage in the business subject to licensing, that requires the sea area utilization impact assessment under any subparagraph of paragraph (1) (hereinafter referred to as "business entity subject to assessment"), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Where a business entity subject to assessment prepares a statement on sea area utilization impact assessment pursuant to paragraph (2), he/she shall hold an explanatory meeting or public hearing, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, and take necessary procedures, including the collection of opinions of interested persons. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>

(4) Where a business entity subject to assessment prepares a statement on sea area utilization impact assessment pursuant to paragraph (2), he/she may allow an assessment agent registered under Article 86 (1) to do so on his/her behalf.

(5) The details and method of preparing a statement on sea area utilization impact assessment, and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 86 (Registration, etc. of Assessment Agents)

(1) Any person who intends to engage in the business of an agent to prepare sea area utilization consultation forms referred to in Article 84 (5) and statements on sea area utilization impact assessment referred to in Article 85 (4) (hereinafter referred to as "sea area utilization consultation form, etc.") shall file for registration with the Minister of Oceans and Fisheries, as prescribed by Presidential Decree, being equipped with the skills, facilities, and equipment prescribed by Ordinance of the Ministry of Oceans and Fisheries. In such cases, the same shall also apply where a person registered as an agent to conduct the business of preparing sea area utilization consultation forms, etc. (hereinafter referred to as "assessment agent") intends to make changes to the registered important matters prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>

(2) When an assessment agent intends to close his/her business, he/she shall notify the Minister of Oceans and Fisheries of such fact. <Newly Inserted by Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013>

(3) Procedures for registration as assessment agents, procedures for issuing certificates of registration and notifying closure of business under paragraphs (1) and (2) and other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013>

Article 87 (Grounds for Disqualification)

None of the following persons shall be registered as an assessment agent: <Amended by Act No. 12662, May 21, 2014; Act No. 15012, Oct. 31, 2017>

1. A person under adult guardianship;
2. Deleted; <by Act No. 15012, Oct. 31, 2017>
3. A person for whom two years have not passed since the revocation of registration as an assessment agent (excluding any revocation made under subparagraph 1);
4. A person for whom one year has not passed since his/her imprisonment with labor or heavier punishment for violating this Act was completely executed (including cases where the execution is deemed terminated) or since the non-execution of such sentence became final and conclusive;
5. A corporation, the representative director of which falls under subparagraph 1, 3 or 4.

Article 88 (Matters to be Observed by Sea Area Utilization Business Entities, etc.)

Sea area utilization business entities and business entities subject to assessment (hereinafter referred to as "sea area utilization business entities, etc.") or assessment agents shall observe the following, as prescribed by Presidential Decree: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>

1. Not to reproduce the contents of any other sea area utilization consultation forms, etc.;
2. To keep sea area utilization consultation forms, etc. for the period prescribed by Ordinance of the Ministry of Oceans and Fisheries;
3. Not to prepare false materials which serve as a basis for sea area utilization consultation

forms, etc.;

4. Not to lend a registration certificate or the title thereof to any third person;

5. Not to subcontract, en bloc, tasks associated with sea area utilization consultation or sea area utilization impact assessment (hereinafter referred to as "sea area utilization consultation, etc.") contracted.

Article 89 (Revocation, etc. of Registration of Assessment Agents)

(1) Where an assessment agent falls under any of the following, the Minister of Oceans and Fisheries may revoke his/her registration or issue an order for business suspension for up to six months: Provided, That he/she shall revoke the relevant registration where the assessment agent falls under any of the cases specified in subparagraphs 1, 3 through 5, and 5-2: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013; Act No. 14516, Dec. 27, 2016; Act No. 15012, Oct. 31, 2017>

1. Where the assessment agent has obtained registration or registration for modification by fraud or other illegal means;

2. Where the assessment agent fails to meet the requirements for skills, facilities, and equipment under the former part of Article 86 (1);

2-2. Where the assessment agent fails to file for registration for change under the latter part of Article 86 (1);

3. Where the assessment agent falls under any subparagraph of Article 87: Provided, That the same shall not apply where the representative of a corporation who falls under subparagraph 1, 3 or 4 of Article 87 is replaced within six months;

4. Where the assessment agent fails to commence the business of sea area utilization consultation, etc. within two years after registration or continues to have no business performance on sea area utilization consultation, etc. for at least two consecutive years;

5. Where the assessment agent who has been subject to business suspension on two occasions for the past one year and repeats an act constituting a ground for business suspension;

5-2. Where the assessment agent conducts business activities (including the conclusion of contracts), such as sea area utilization consultation, etc. during business suspension;

6. Where the assessment agent violates Article 88;

7. Where the assessment agent falsely prepares a sea area utilization consultation form, etc. or submits a poorly prepared sea area utilization consultation form, etc. either intentionally or by gross negligence.

(2) Detailed criteria for administrative dispositions under paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries, in consideration of the types, severity, etc. of the relevant offenses. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 90 (Continuation of Business of Assessment Agent Subject to Cancellation of Registration or Business Suspension)

(1) Any assessment agent who has received a disposition of cancellation of registration or business suspension pursuant to Article 89 may continue to provide his/her service relating to the preparation of sea area utilization consultation forms, etc. contracted before receiving such disposition. *<Amended by Act No. 10803, Jun. 15, 2011>*

(2) Any assessment agent who continues to prepare sea area utilization consultation forms, etc. pursuant to paragraph (1) shall be considered to be an assessment agent under this Act until the completion of such business. *<Amended by Act No. 10803, Jun. 15, 2011>*

Article 91 (Notification, etc. of Opinions)

(1) Upon receipt of a request for sea area utilization consultation, etc. from a license-granting agency, the Minister of Oceans and Fisheries shall examine the sea area utilization consultation forms, etc. submitted and notify the license-granting agency of his/her opinions thereon, as prescribed by Presidential Decree. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>*

(2) The Minister of Oceans and Fisheries shall seek an opinion from an agency in charge of impact review following the sea area utilization consultation, etc., which is prescribed by Presidential Decree (hereinafter referred to as "sea area utilization impact review agency") before notifying his/her opinions on the sea area utilization consultation, etc. pursuant to paragraph (1): Provided, That the same shall not apply to businesses prescribed by Presidential Decree, which have an insignificant impact on the marine environment, from among the businesses subject to sea area utilization consultation, etc. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>*

(3) The Minister of Oceans and Fisheries shall first seek an opinion from the Minister of Environment before notifying his/her opinions on the sea area utilization consultations on the areas falling under Article 84 (1) 4 and 6, pursuant to paragraph (1), if the relevant prospective area for marine aggregate extraction and marine aggregate extraction complex include coastal areas (referring to the areas within one kilometer towards land and ten kilometers towards sea based on the coastline). *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

(4) When a license-granting agency, notified of the opinions on the sea area utilization consultation, etc., grants a license, etc., it shall notify the Minister of Oceans and Fisheries thereof. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

Article 92 (Raising Objections)

(1) Where a sea area utilization business entity, etc. or a license-granting agency has an objection against the opinion notified by the Minister of Oceans and Fisheries pursuant to Article 91, it may file an objection with the Minister of Oceans and Fisheries within 90 days, as prescribed by Presidential Decree. In such cases, the sea area utilization business entity, etc. shall file an objection via the license-granting agency. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>*

(2) Upon receipt of an objection filed under paragraph (1), the Minister of Oceans and Fisheries shall examine whether the grounds for the objection are reasonable and notify the

person who raised such objection of the results thereof within 60 days, as prescribed by Presidential Decree: Provided, That the deadline for notification may be extended for up to another 30 days under unavoidable circumstances. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 93 (Ex Post Facto Management)

(1) Where a license-granting agency grants a license, etc. without the sea area utilization consultation, etc., or grants a license, etc. without reflecting opinions on the sea area utilization consultation, etc., the Minister of Oceans and Fisheries may request the relevant license-granting agency to take necessary measures, such as revoking the relevant license, etc., suspending business, removing and suspending the operation of structures, and restoring them to their original state. In such cases, the license-granting agency in question shall comply therewith, except under special circumstances. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Any license-granting agency shall verify whether sea area utilization business entities, etc. implement the opinion of the Minister of Oceans and Fisheries on the sea area utilization consultation, etc. under Article 84 (1), and order them to take necessary measures, as prescribed by Presidential Decree, where the sea area utilization business entities, etc. fail to do so. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Where any license-granting agency fails to verify whether the opinion on the sea area utilization consultation, etc. is being implemented or substantially delays such verification, the Minister of Oceans and Fisheries may verify it on his/her own, notwithstanding paragraph (2); and where deemed necessary to implement the opinion on sea area utilization consultation, etc., he/she may request the license-granting agency to order suspension of construction work or to take other necessary measures. <Newly Inserted by Act No. 12662, May 21, 2014>

(4) When performing verification on his/her own under paragraph (3), the Minister of Oceans and Fisheries may seek opinions from a relevant expert or a sea area utilization impact review agency, etc. or request him/her/it to conduct an on-site investigation, or may request a sea area utilization business entity, etc. or the head of a license-granting agency to submit related data. <Newly Inserted by Act No. 15012, Oct. 31, 2017>

(5) Upon receipt of a request from the Minister of Oceans and Fisheries pursuant to paragraph (3) or (4), a licensing-granting agency shall comply therewith, except in extenuating circumstances. <Newly Inserted by Act No. 12662, May 21, 2014; Act No. 15012, Oct. 31, 2017>

Article 94 (Sea Area Utilization Consultation, etc. upon Revision of Business Plans)

(1) Where a sea area utilization business entity, etc. revises his/her business plan after obtaining a license, etc. from a license-granting agency, it shall again take the procedures for sea area utilization consultation, etc: Provided, That in cases where such revision has an insignificant impact on the marine environment as prescribed by Presidential Decree, such procedures shall be omitted. <Amended Act No. 10803, Jun. 15, 2011>

(2) Articles 84, 85, and 91 through 93 shall apply mutatis mutandis to the details of and procedures for sea area utilization consultation, etc. under the main sentence of paragraph (1). <Amended by Act No. 10803, Jun. 15, 2011>

Article 95 (Marine Environmental Impact Surveys, etc.)

(1) Any sea area utilization business entity, etc. shall survey the impact on the marine environment (hereinafter referred to as "marine environmental impact survey"), which may be caused by the business activities conducted after obtaining a license, etc. and notify the results thereof to the relevant license-granting agency and the Minister of Oceans and Fisheries. In such cases, the sea area utilization business entity, etc. may have an assessment agent conduct such marine environmental impact survey on his/her behalf. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Where the Minister of Oceans and Fisheries deems that damage has been caused to the marine environment in light of the marine environmental impact survey results notified pursuant to paragraph (1), he/she shall allow the license-granting agency to take measures to reduce such damage to the marine environment, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, such as changing construction methods or reducing business size. In such cases, the license-granting agency shall notify the Minister of Oceans and Fisheries of the results of such measures. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013>

(3) Deleted. <by Act No. 8852, Feb. 29, 2008>

(4) Matters regarding business activities subject to a marine environmental impact survey pursuant to paragraph (1), the items and period of the survey, etc. shall be prescribed by Presidential Decree. <Amended by Act No. 11479, Jun. 1, 2012>

Article 96 (Establishment of Corporation)

(1) The Korea Marine Environment Corporation (hereinafter referred to as the "Corporation") shall be established to carry out projects for the preservation, management, and improvement of the marine environment, marine pollution response projects, and projects for marine environment- and marine pollution-related technical development, education and training, etc. <Amended by Act No. 15012, Oct. 31, 2017>

(2) The Corporation shall be a legal entity.

(3) The Corporation may have branch offices, business offices, research institutes, educational institutes, etc., as prescribed by the articles of association.

Article 97 (Projects)

(1) The Corporation shall carry out the projects in each of the following subparagraphs:

1. Projects for the preservation and management of the marine environment;
2. Projects for the improvement of the marine environment specified in each of the following items:
 - (a) Collection and disposal of pollutants;
 - (b) Installation and operation of pollutants storage facilities, and trust management;
 - (c) Salvaging and towing of ships to prevent the discharge of pollutants;

(d) Marine environment-related testing, survey, research, design, development and supervision of construction;

3. Projects for responding to marine pollution detailed in each of the following items:

(a) Performance of marine pollution response duties, and placement and installation of pollution response vessels, etc. (including cases where such work is entrusted or executed vicariously);

(b) Provision of materials and chemicals necessary for marine pollution response, installation of storage facilities for such materials and chemicals, etc. (including cases where such work is entrusted or executed vicariously);

(c) Other projects prescribed by Presidential Decree, which are related to marine pollution response;

4. Projects incidental to those referred to in subparagraphs 1 through 3, which are prescribed by the articles of association;

5. Marine environment-related international cooperation and technical outsourcing;

6. Education and training, and PR on the marine environment;

7. Projects entrusted by the State or local governments in relation to subparagraphs 1 through 6;

8. Other projects prescribed by Presidential Decree, which are necessary to achieve the objective of the establishment of the Corporation.

(2) Where necessary for the preservation and management of the marine environment in performing the projects under paragraph (1), the Corporation may install facilities prescribed by Presidential Decree or transfer installed facilities to another person.

Article 98 (Articles of Association)

(1) The following shall be included in the articles of association of the Corporation:

1. Objectives;

2. Name;

3. Matters concerning the principal office, branch offices, business offices, or research institutes;

4. Matters concerning the qualifications of executive officers and employees;

5. Matters concerning the board of directors;

6. Matters concerning business affairs and the execution thereof;

7. Matters concerning property and accounting;

8. Matters concerning the method of amending the articles of association and method of giving public notice;

9. Matters concerning the enactment and amendment of internal rules and regulations.

(2) The Corporation shall obtain authorization for the articles of association from the Minister of Oceans and Fisheries. The same shall apply to any amendment to the articles of association of the Corporation. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 99 (Executive Officers)

(1) The executive officers of the Corporation shall consist of five to nine directors, including one president, and one auditor. In such cases, the fixed number of the directors shall be prescribed by the articles of association.

(2) The directors referred to in paragraph (1) shall consist of four standing directors and remaining non-standing directors.

(3) The Minister of Oceans and Fisheries shall appoint the president and the auditor. In such cases, the Minister of Oceans and Fisheries may dismiss the president or auditor even during his/her term of office if it is deemed difficult for them to perform their duties. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) The president shall appoint directors, upon approval from the Minister of Oceans and Fisheries. In such cases, where it is deemed impracticable for any director to perform his/her duties, the president may dismiss the director even during his/her term of office. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(5) Each executive officer shall hold office for a term of three years, and may be re-appointed for further terms.

Article 100 (Duties of Executive Officers)

(1) The president shall represent the Corporation and exercise overall control over its affairs.

(2) The directors shall assist the president and take partial charge of the business affairs of the Corporation, as prescribed by the articles of association, and act for the president in the order prescribed by the articles of association if the president is unable to perform his/her duties due to unavoidable circumstances.

(3) The auditor shall audit the business affairs and accounts of the Corporation.

Article 101 (Grounds for Disqualification of Executive Officers)

(1) None of the following persons shall become an executive officer: <Amended by Act No. 12662, May 21, 2014>

1. A person who is not a national of the Republic of Korea;
2. A person under adult guardianship or a person under limited guardianship;
3. A bankrupt who has not yet been reinstated;
4. A person for whom two years have not passed since his/her imprisonment without labor or heavier punishment was completely executed (including cases where the execution is deemed terminated) or since the non-execution of such sentence became final and conclusive;
5. A person who is under the suspension of the sentence of imprisonment without labor or heavier punishment;
6. A person who has been disqualified or whose qualification has been suspended by a court ruling or under other Acts.

(2) Any executive officer who falls under any provisions of paragraph (1), or is proven to fall under any provisions of paragraph (1) as at the time he/she was appointed as an executive officer, shall automatically resign.

(3) Any act done by an executive officer who retired from office pursuant to paragraph (2)

before his/her retirement shall remain in effect.

Article 102 (Board of Directors)

(1) The board of directors shall be established in the Corporation to resolve on important matters concerning the business affairs of the Corporation.

(2) The board of directors shall be comprised of the president and directors, and the president shall convene the meetings of the board of directors and preside over such meetings.

(3) The board of directors shall pass a resolution with the attendance of a majority of the registered members and the consent of a majority of those present.

(4) The auditor may appear at the meetings of the board of directors and state his/her opinions.

(5) Matters necessary for the operation of the board of directors shall be prescribed by Presidential Decree.

Article 103 (Sources of Finance)

The funds needed to operate the Corporation and carry out its projects shall be financed by each of the following: *<Amended by Act No. 15012, Oct. 31, 2017>*

1. Pollution response contributions and surcharges under Article 69-2 (1);
2. Profits coming from the projects under Article 97;
3. Loans from outside lenders under Article 104 (3);
4. Funds created by the issue of bonds under Article 106;
5. Fees under Article 122 (2);
6. Earnings from asset management;
7. Subsidies from the Government;
8. Contributions under relevant statutes;
9. Other revenues prescribed by the articles of association.

Article 104 (Investments, etc.)

(1) The Corporation may make investments or donations in the fields related to the projects referred to in Article 97 upon a resolution by the board of directors, if necessary to efficiently perform its projects.

(2) Matters necessary for making investments or donations under paragraph (1) shall be prescribed by Presidential Decree.

(3) The Corporation may borrow funds (including borrowing funds from international organizations, foreign governments, or foreigners), if deemed necessary to carry out the projects referred to in Article 97. In such cases, it shall obtain approval from the Minister of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>*

Article 105 (Gratuitous Lending of State or Public Property)

Notwithstanding the State Property Act, Commodity Management Act, Local Finance Act, and Public Property and Commodity Management Act, the State or a local government may gratuitously lend State or public property to the Corporation or permit the Corporation to use

State or public property for profit, for a period of up to five years. <Amended by Act No. 14516, Dec. 27, 2016>

Article 106 (Issuance of Bonds)

(1) The Corporation may issue bonds upon a resolution by the board of directors. In such cases, it shall obtain approval from the Minister of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall first consult with the Minister of Strategy and Finance before granting approval for the issuance of bonds under paragraph (1). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The State may guarantee the redemption of the principal and interest accrued from the bonds issued by the Corporation.

(4) The validity of such bonds shall be five years for the principal and two years for interest, commencing from the date of redemption.

(5) Other matters necessary for issuing bonds shall be prescribed by Presidential Decree.

Article 107 (Budget, Settlement of Accounts, etc.)

(1) The fiscal year of the Corporation shall coincide with that of the Government.

(2) The Corporation shall obtain approval for its business plan and budget for each fiscal year from the Minister of Oceans and Fisheries, as prescribed by Presidential Decree. The same shall apply to any modification to the approved matters. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Corporation shall prepare a balance sheet of the settlement of accounts within three months after the end of each fiscal year and submit it to the Minister of Oceans and Fisheries for approval. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 108 (Guidance and Supervision over Affairs)

(1) The Minister of Oceans and Fisheries shall provide guidance and supervision over the affairs of the Corporation, and may give the Corporation directions or orders regarding its business affairs, if deemed necessary: Provided, That the Commissioner of the Korea Coast Guard may, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, provide guidance and supervision in connection with emergency pollution response measures, from among the projects referred to in Article 97 (1) 3. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(2) The Minister of Oceans and Fisheries may require the Corporation to report on its affairs, accounting, and property or require a subordinate public official to inspect its books, documents, and others, if deemed necessary. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 109 (Civil Act Applicable Mutatis Mutandis)

Except as otherwise provided for in this Act, the provisions of the Civil Act governing incorporated foundations shall apply mutatis mutandis to the Corporation.

Article 110 (Type Approval, etc. for Marine Environment Measuring Apparatus, etc.)

(1) Any person who intends to manufacture or import the equipment and apparatus necessary to measure, analyze, or examine the state of the marine environment under Article 12 (1) (hereinafter referred to as "marine environment measuring apparatus") shall obtain type approval from the Minister of Oceans and Fisheries, as prescribed by Ordinance of the Ministry of Oceans and Fisheries: Provided, That the same shall not apply to the manufacture and import of marine environment measuring apparatus for purposes of testing, research, or development, which are confirmed by the Minister of Oceans and Fisheries, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013>

(2) Any person who intends to use marine environment measuring apparatus shall undergo an accuracy inspection conducted by the Minister of Oceans and Fisheries, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, and any person who intends to supply or use standard substances, such as a standard solution and standard gas (hereinafter referred to as "correctional article"), which are used for such inspection, shall obtain verification from the Ministry of Oceans and Fisheries, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Any person who intends to manufacture, produce, or import marine pollution prevention facilities (excluding noxious liquid substance pollution prevention facilities), anti-fouling systems, and shipboard incineration facilities (hereinafter referred to as "facilities subject to type approval") prescribed by Ordinance of the Ministry of Oceans and Fisheries shall obtain type approval from the Minister of Oceans and Fisheries, as prescribed by Ordinance of the Ministry of Oceans and Fisheries: Provided, That the same shall not apply to the manufacture, production, or import of facilities subject to type approval for purposes of testing, research, or development, which are confirmed by the Minister of Oceans and Fisheries, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013>

(4) Any person who intends to manufacture, produce, or import materials or chemicals used for removing or preventing pollutants pursuant to Article 66 (1) shall obtain type approval from the Commissioner of the Korea Coast Guard, as prescribed by Ordinance of the Ministry of Oceans and Fisheries: Provided, That the same shall not apply to the manufacture, production, or import of materials or chemicals used for response to or prevention of pollutants for purposes of testing, research, or development, which are confirmed by the Commissioner of the Korea Coast Guard, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(5) Any person who intends to obtain type approval under paragraphs (1), (3), and (4), as prescribed by Ordinance of the Ministry of Oceans and Fisheries, shall first undergo a performance test of marine environment measuring apparatus, facilities subject to type

approval, or materials or chemicals, which is conducted by the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(6) Where a person who has obtained type approval under paragraphs (1), (3), and (4) manufactures, produces, or imports marine environment measuring apparatus, facilities subject to type approval, or materials or chemicals, he/she shall obtain verification for each article from the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard. In such cases, any facility subject to type approval, or material or chemical granted verification shall be deemed to have passed an inspection first conducted, from among the marine pollution prevention ship inspections. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(7) Any person who installs a facility subject to type approval, or provides and keeps materials or chemicals on a ship in a country which is a party to the agreement shall obtain recognition from the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. In such cases, articles so recognized shall be deemed to have obtained type approval, or to have undergone a performance test and verification under paragraphs (3) through (5). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11479, Jun. 1, 2012; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(8) Article 60 shall apply mutatis mutandis to any objection against verification for facilities subject to type approval, or for materials and chemicals provided for in paragraph (6). In such cases, "inspection" and "re-inspection" in Article 60 shall be construed as "verification" and "re-verification," respectively. <Amended by Act No. 11479, Jun. 1, 2012>

(9) Where a person who has obtained type approval under paragraphs (1), (3), and (4) falls under any of the following, the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard may revoke such approval, or issue an order for business suspension of up to six months, as prescribed by Ordinance of the Ministry of Oceans and Fisheries: Provided, That he/she shall revoke such approval if the person falls under subparagraph 1 or 2: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14516, Dec. 27, 2016; Act No. 14839, Jul. 26, 2017>

1. Where he/she has obtained type approval by fraud or other illegal means;
2. Where he/she has obtained verification by fraud or other illegal means;
3. Where he/she has sold marine environment measuring apparatus, facilities subject to type approval, or materials and chemicals, which fail to meet the required standards;
4. Where he/she has not conducted business for at least two consecutive years without justifiable grounds.

Article 110-2 (Certification of Performance)

(1) Any person who intends to manufacture, produce, or import materials or chemicals to prevent or control pollutants, other than the materials and chemicals provided for in Article

110 (4) (hereinafter referred to as "materials or pollutants excluded from type approval"), may obtain certification of performance from the Commissioner of the Korea Coast Guard in accordance with the procedures and methods prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14516, Dec. 27, 2016; Act No. 14839, Jul. 26, 2017>

(2) Any person who intends to obtain certification of performance under (1) shall first undergo a performance test conducted by the Commissioner of the Korea Coast Guard, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, on the materials or pollutants excluded from type approval. <Amended by Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14516, Dec. 27, 2016; Act No. 14839, Jul. 26, 2017>

(3) Where a person who has obtained certification of performance pursuant to paragraph (1) manufactures, produces, or imports the certified materials or pollutants excluded from type approval, he/she shall obtain verification from the Commissioner of the Korea Coast Guard, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14516, Dec. 27, 2016; Act No. 14839, Jul. 26, 2017>

(4) Where a person who has obtained certification of performance pursuant to paragraph (1) falls under any of the following cases, the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard may revoke the relevant certification of performance, as prescribed by Ordinance of the Prime Minister or Ordinance of the Ministry of Oceans and Fisheries: <Amended by Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

1. Where he/she has obtained such certification of performance by fraud or other illegal means;
2. Where he/she has obtained the relevant verification by fraud or other illegal means;
3. Where he/she has not conducted business for at least two consecutive years without justifiable grounds.

Article 110-3 (Succession of Status of Person Granted Type Approval, etc.)

(1) Any of the following persons shall succeed to the status of a person who has obtained type approval under Article 110 (1), (3) or (4) or certification of performance under Article 110-2 (1) (hereafter referred to as "business entity" in this Article):

1. Where a business entity transfers the business, the transferee of the business;
2. Where a business entity dies, the successor of the business;
3. Where a business entity who is a corporation merges with any other corporation, the corporation surviving the merger or resulting from the consolidation.

(2) A person who has succeeded to the status of a business entity pursuant to paragraph (1) shall file a report thereon with the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard, as prescribed by Ordinance of the Ministry of Oceans and Fisheries within one month from the date of succession.

Article 111 (Reporting, etc. on Dismantling of Ships)

(1) Any person who intends to dismantle a ship shall prepare a work plan to prevent the discharge of pollutants in the course of the dismantling process, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, and report it to the Commissioner of the Korea Coast Guard by not later than seven days before the commencement of dismantling: Provided, That the same shall not apply where a ship is dismantled by the methods prescribed by Ordinance of the Ministry of Oceans and Fisheries, such as dismantling conducted on land. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(2) Where a work plan reported pursuant to paragraph (1) is deemed insufficient or is deemed not implemented, the Commissioner of the Korea Coast Guard may issue an order for correction as necessary. <Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(3) Any sea area management authority may establish and operate a ship dismantling yard which conforms to the criteria for facilities and is equipped with apparatus, etc. prescribed by Ordinance of the Ministry of Oceans and Fisheries for the dismantling of neglected ships and their smooth disposal. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 112 (Acting as Agent in Performing Duties, etc.)

(1) The Minister of Oceans and Fisheries may allow the Korea Ship Safety Technology Authority provided for in Article 45 of the Ship Safety Act (hereinafter referred to as the "Korea Ship Safety Technology Authority") or a ship-classifying corporation provided for in Article 60 (2) of the same Act (hereinafter referred to as "ship-classifying corporation") to act as agent in performing the following duties. In such cases, the Minister of Oceans and Fisheries shall conclude an agreement, as prescribed by Presidential Decree: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11597, Dec. 18, 2012; Act No. 11690, Mar. 23, 2013; Act No. 14516, Dec. 27, 2016>

1. Issuing approval for the ratio of discharge under Article 22-2;

1-2. Issuing approval seals for guidebooks on the methods and facilities for discharging noxious liquid substances provided for in Article 27 (3);

1-3. Issuing approval seals for ship-to-ship oil transfer plans under Article 32-2 (1);

2. Conducting inspections of oil vapor discharge control units provided for in Article 47 (3);

2-2. Issuing approval seals for volatile organic compounds management plans under Article 47-2 (1);

3. Conducting inspections and preliminary inspections of marine pollution prevention ships and energy efficiency inspections: Provided, That the designation of an agent to inspect a facility for preventing the discharge of nitrous oxides from a diesel engine, from among air pollution prevention facilities, shall be first consulted on with the Minister of Environment;

4. Issuing marine pollution prevention inspection certificates provided for in Article 49 (2), temporary marine pollution prevention inspection certificates provided for in Article 52 (2), anti-fouling system inspection certificates provided for in Article 53 (2), preliminary inspection

certificates provided for in Article 54 (2), energy efficiency inspection certificates provided for in Article 54-2 (2), and inspection certificates under the international agreements provided for in Article 55 (1);

5. Extending the validity of marine pollution prevention inspection certificates and of inspection certificates under the international agreements provided for in Article 56 (2).

(2) The Commissioner of the Korea Coast Guard may allow the Korea Ship Safety Technology Authority or a ship-classifying corporation to act as agent in performing duties regarding the approval seal for contingency plans for marine pollution by ships. In such cases, the Commissioner of the Korea Coast Guard shall conclude an agreement, as prescribed by Presidential Decree. *<Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

(3) The Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard may allow an agent who meets the criteria for designation prescribed by Ordinance of the Ministry of Oceans and Fisheries and determined and publicly notified by the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard to act as agent in performing duties regarding the type approval, accuracy inspections, performance tests, verification, and recognition provided for in Article 110 (1), (2), and (4) through (7), and performance tests and verification provided for in Article 110-2 (2) and (3). *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

(4) Matters regarding the requirements for designation, and guidance and supervision of agents provided for in paragraph (3) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

Article 113 (Cancellation of Designation as Agents, etc. in Performing Duties)

(1) Where any of the following applies to an agent under Article 112 (1) through (3), the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard may cancel the relevant agreement or designation as agent: Provided, That if subparagraph 1 applies to the agent, such agreement or designation shall be cancelled: *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

1. Where the agency agreement or designation of agent is concluded or made by fraud or other illegal means;

2. Where the agent fails to meet any of the requirements for designation under Article 112 (4) (limited to the designation of an agent);

3. Where the agent fails to act as agent in performing duties for at least three months without justifiable grounds;

4. Where the person who performs duties as agent violates any provisions of the agreement concluded in relation to such duties.

(2) Notwithstanding paragraph (1), where a person designated as an inspection agent

through consultation under the proviso to Article 112 (1) 3 violates any provisions of the agreement under Article 112 (1), the Minister of Environment may request the Minister of Oceans and Fisheries to cancel the relevant agreement. In such cases, the Minister of Oceans and Fisheries shall comply therewith, except under extenuating circumstances. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Matters necessary for cancelling agency agreements or designation of agents under paragraphs (1) and (2) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

Article 114 (Cooperation of Relevant Administrative Organs)

(1) Sea area management authorities or the Commissioner of the Korea Coast Guard may, where deemed necessary to achieve the objective of this Act, request the head of a relevant administrative organ to provide data and information needed for marine environmental management or marine pollution prevention, and mobilize personnel and equipment for urgent marine pollution prevention, respectively. <Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(2) The Corporation may, where necessary to conduct its businesses under Article 97, request relevant administrative organs to render necessary cooperation such as perusal, reproduction, etc. of data or information.

(3) The heads of the relevant administrative organs requested to render cooperation by sea area management authorities, the Commissioner of the Korea Coast Guard, or the Corporation pursuant to paragraphs (1) and (2) shall comply therewith, in the absence of special circumstances. <Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

Article 115 (Entrance for Inspection, Reporting, etc.)

(1) The Minister of Oceans and Fisheries may, as prescribed by Presidential Decree, allow a subordinate public official to enter a ship to verify and inspect the related documents, facilities, equipment, and fuel oil. <Amended by Act No. 9872, Dec. 29, 2009; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries may, as prescribed by Presidential Decree, allow a subordinate public official to request necessary materials or a report from any of the following persons and to enter the facilities (including business places and offices; hereafter the same shall apply in this Article) for verification and inspection or to inspect the related documents, facilities, or equipment: <Amended by Act No. 15011, Oct. 31, 2017; Act No. 15012, Oct. 31, 2017>

1. The owner of a marine facility (excluding the duties prescribed in Articles 34 through 36, 66 and 67);
2. A ship fuel oil supplier;
3. The owner of a marine facility which has installed oil vapor discharge control units under Article 47 (2);

4. A person who engages in the ocean waste discharge business, deposited pollutants collection business, ocean waste collection business, and deposited pollutants collection business under Article 70 (1) 1, 4 and 5;

5. A person entrusting waste disposal;

6. A person who has obtained type approval under Article 110 (3).

(3) The Commissioner of the Korea Coast Guard may, as prescribed by Presidential Decree, allow a subordinate public official (applicable only to public officials designated as marine environmental guards under Article 116; hereafter the same shall apply in this Article) to request necessary materials or a report from any of the following persons, and to enter the facilities for verification and inspection or to inspect the related documents, facilities, or equipment: *<Amended by Act No. 15012, Oct. 31, 2017>*

1. The owner of a marine facility (applicable only to the duties provided for in Articles 34 through 36, 66 and 67);

2. A persons who engages in the marine pollution prevention business or oil hold cleaning business under in Article 70 (1) 2 or 3.

(4) Notwithstanding paragraph (1), where an emergency prescribed by Presidential Decree occurs aboard a ship in connection with marine pollution, the Commissioner of the Korea Coast Guard may allow a subordinate public official to enter the ship for verification or inspection or to inspect the related documents, facilities, or equipment. *<Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

(5) Any public official who makes an entrance for inspection, etc. under paragraphs (1) through (4) shall carry a certificate indicating his/her authority and present it to interested persons, and shall inform them of the purpose of entrance, his/her name, etc. in detail. *<Amended by Act No. 9872, Dec. 29, 2009>*

(6) No interested person, such as a ship owner, shall refuse, interfere with, or evade the entrance for inspection, request for materials, reports, etc. by public officials under paragraphs (1) through (4) without justifiable grounds. *<Amended by Act No. 9872, Dec. 29, 2009>*

(7) With respect to the entrance for inspection, and reports, the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard may build and use computer networks to deal with affairs, including guidance and inspections, advance notice of inspections, and notification of the inspection results, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 9872, Dec. 29, 2009; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>*

Article 116 (Marine Environmental Guards)

(1) The Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard may designate subordinate public officials as marine environmental guards to perform the duties under Article 115 (1) through (4). *<Amended by Act No. 8852, Feb. 29, 2008; Act No. 9872, Dec. 29, 2009; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No.*

14839, Jul. 26, 2017>

(2) Matters regarding appointment, qualifications, duties, etc. of marine environmental guards under paragraph (1) shall be prescribed by Presidential Decree. <Amended by Act No. 9872, Dec. 29, 2009>

Article 117 (Stopping, Search, Seizure of Ships, Prohibition of Ships from Entry into or Departure from Ports, etc.)

Where it is deemed that a ship is suspected of violating this Act, sea area management authorities or the Commissioner of the Korea Coast Guard may stop, search, and seize the ship or prohibit the ship from entering into or departing from a port, or issue necessary orders or take necessary measures. <Amended by Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

Article 118 (Confidentiality, etc.)

(1) No current or former executive officer or employee of an assessment agent or a sea area utilization impact review agency shall divulge or wrongfully use confidential information he/she has become aware of in the course of performing his/her duties regarding preparation of sea area utilization consultation forms, etc. and sea area utilization impact review. <Amended by Act No. 10803, Jun. 15, 2011>

(2) No current or former executive officer or employee of the Corporation shall divulge or wrongfully use confidential information he/she has become aware of in the course of performing his/her duties.

(3) No current or former executive officer or employee of an institution or organization which acts as an agent in performing duties under Article 112 shall divulge or wrongfully use confidential information he/she has become aware of in the course of performing such duties.

Article 119 (Subsidies from National Treasury, etc.)

(1) Where a local government takes any of the following measures, subsidies may be granted from the National Treasury to fully or partially cover the associated expenses:

1. Marine environmental improvement measures under Article 18;
2. Operation of ships or disposal facilities to collect and dispose of wastes under Article 24 (3);
3. Installation and operation of pollutant storage facilities under Article 38 (1).

(2) The State may provide a financial support to cover the expenses incurred in installing or improving marine pollution prevention facilities, pollutant storage facilities, and other marine pollution prevention facilities.

(3) The State or a local government may provide support to civil organizations which work for the preservation and management of the marine environment and marine pollution prevention, as prescribed by Presidential Decree.

Article 119-2 (Monetary Rewards for Reporting)

(1) The Minister of Oceans and Fisheries, the Commissioner of the Korea Coast Guard, a Mayor/Do Governor, or the head of a Si/Gun/Gu may pay a monetary reward, within budgetary limits, to those who report any of the following persons to the competent

administrative agency or investigative agency: <Amended by Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

1. A person who discharges pollutants generated from a ship or marine facilities, etc., in violation of Article 22 (1) or (2);
2. A person who discharges wastes into the sea, other than the sea area prescribed by Ordinance of the Ministry of Oceans and Fisheries, in violation of Article 23 (1).

(2) Standards, methods, and procedures for the payment of the monetary reward under paragraph (1), the specific amount to be paid, and other necessary matters shall be prescribed by Presidential Decree.

Article 120 (Hearings)

The Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard shall hold a hearing, as prescribed by the Administrative Procedures Act, in order to impose any of the following dispositions: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

1. Revocation of certification of measuring and analyzing capabilities under Article 13 (3);
2. Revocation of registration under Article 75;
3. Revocation of designation under Article 82;
4. Revocation of registration under Article 89;
5. Revocation of type approval under Article 110 (9);
6. Revocation of certification of performance under Article 110-2 (4).

Article 121 (Education and Training for Marine Pollution Prevention Managers, etc.)

(1) The Minister of Oceans and Fisheries may operate education or training programs so that the marine pollution prevention managers referred to in Articles 32 and 36 or the technical staff engaging in the marine environmental management business under Article 70 (2) may receive education or training on marine pollution prevention and pollution response.

(2) Any person who has appointed a marine pollution prevention manager under Articles 32 and 36, and any person who has employed technical staff engaging in the marine environmental management business under Article 70 (2) shall have the relevant employees receive education and training referred to in paragraph (1) at least once every five years, as prescribed by Presidential Decree: Provided, That where such employees are aboard a ship, such education and training may be postponed for up to one year, as prescribed by Ordinance of the Ministry of Oceans and Fisheries.

Article 122 (Fees)

(1) Any person who intends to obtain or receive type approval, accuracy inspection, certification, approval seal, approval (limited to the approval for the ratio of discharge referred to in Article 22-2), inspection, performance test, verification, recognition, and certification of performance under this Act shall pay required fees, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19,

2014; Act No. 14516, Dec. 27, 2016; Act No. 14839, Jul. 26, 2017>

(2) The Corporation may collect fees for the provision of materials and chemicals, pollution response, or the placement and installation of pollution response vessels, etc. as prescribed by the articles of association in order to conduct its businesses under Article 97.

(3) Any agent designated under Article 112 who executes type approval, accuracy inspection, approval seal, approval (limited to the approval for the ratio of discharge referred to in Article 22-2), inspection, performance test, verification, and recognition may collect fees. In such cases, prior approval shall be obtained from the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10803, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14516, Dec. 27, 2016; Act No. 14839, Jul. 26, 2017>

Article 123 (Delegation and Entrustment)

(1) The Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard may delegate or entrust part of his/her authority under this Act to the head of an agency under his/her jurisdiction, the head of another administrative agency, or the head of a local government, as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

(2) A Mayor/Do Governor may delegate part of his/her authority under this Act to the head of a Si/Gun/Gu, as prescribed by Presidential Decree.

(3) The Minister of Oceans and Fisheries and Mayor/Do Governor may entrust the following duties to the president of the Corporation: <Amended by Act No. 11597, Dec. 18, 2012; Act No. 11690, Mar. 23, 2013; Act No. 14516, Dec. 27, 2016>

1. Organizing marine environmental measuring networks and regularly measuring the state of the marine environment under Article 9 (1);
2. Building marine environmental information networks, providing marine environmental information, and requesting the submission of related materials under Article 11;
3. Accuracy control for measuring and analyzing institutes under Article 12 (1);
4. Managing marine environmental improvement measures under Article 18 (1);
5. Operating ships or disposal facilities under Article 24 (3);
6. Installing and operating pollutant storage facilities under Article 38 (1);
7. Installing and operating storage facilities under Article 66 (1);
8. Installing and operating ship dismantling yards under Article 111 (3);
9. Operating education and training programs for marine pollution prevention managers, etc. under Article 121 (1).

Article 124 (Legal Fiction as Public Official in Application of Penalty Provisions)

Executive officers and employees of sea area utilization impact review agencies under Article 91 (2), the Corporation, and agencies related to type approval, inspection, performance test, verification, etc. under Article 112 shall be deemed public officials in the application of penalty provisions under Articles 129 through 132 of the Criminal Act.

<Amended by Act No. 10803, Jun. 15, 2011>

Article 125 Deleted. <by Act No. 14747, Mar. 21, 2017>

Article 126 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for up to five years or by a fine of up to 50 million won: <Amended by Act No. 14516, Dec. 27, 2016>

1. A person who discharges oil, noxious liquid substance, or harmful substance in packaged form, from ships or marine facilities in violation of Article 22 (1) and (2);
2. A person who violates an order under Article 93 (2).

Article 127 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for up to three years or by a fine of up to 30 million won: <Amended by Act No. 14516, Dec. 27, 2016>

1. A person who discharges wastes from ships or marine facilities in violation of Article 22 (1) and (2);
2. A person who discharges oil, noxious liquid substance, or harmful substance in packaged form, from ships or marine facilities by negligence in violation of Article 22 (1) and (2);
3. A person who operates a ship for navigation in violation of Article 57 (1) through (3);
4. A person who fails to take pollution response measures or violates an order to take measures under Article 64 (1) or (3);
5. A person who fails to take measures to prevent discharge of pollutants under Article 65 or violates an order to take measures.

Article 128 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for up to two years or by a fine of up to 20 million won: <Amended by Act No. 10803, Jun. 15, 2011; Act No. 11479, Jun. 1, 2012; Amended by Act No. 14516, Dec. 27, 2016>

1. A person who discharges wastes from ships or marine facilities by negligence in violation of Article 22 (1) and (2);
2. A person who navigates a ship without installing a waste pollution prevention facility pursuant to Article 25 (1);
3. A person who navigates a ship without installing an oil pollution prevention facility under Article 26 (1);
4. A person who navigates a ship without installing a hull structure, etc. under Article 26 (2);
5. A person who navigates a ship without installing a noxious liquid pollution prevention facility under Article 27 (1);
6. A person who installs a cargo hold on a ship in violation of Article 27 (2);
7. A person who uses harmful anti-fouling paints or harmful anti-fouling systems in violation of Article 40 (1) and (2), or fails to use or install anti-fouling paints or anti-fouling systems in conformity with legitimate criteria and methods;
8. A person who fails to place or install pollution response vessels, etc. in violation of Article 67 (1);
9. A person who violates an order to prohibit ships from entering into and departing from a

- port or an order to suspend the use of facilities under Article 67 (3);
10. A person who conducts a marine environment management business without making registration under Article 70 (1);
 11. A person who conducts business activities after his/her registration has been cancelled, or during the period of business suspension after receiving a business suspension order, pursuant to Article 75;
 12. A person who fails to conduct a marine pollution impact survey provided for in Article 77 (1);
 13. A person who conducts business activities after the designation thereof has been cancelled, or during the period of business suspension after receiving a business suspension order, pursuant to Article 82 (1) and Article 89 (1);
 14. A person who falsely prepares a sea area utilization consultation form provided for in Article 84 (4) or a statement on sea area utilization impact assessment provided for in Article 85 (2);
 15. A person who acts as an agent in preparing a sea area utilization consultation form, etc. without making registration as an assessment agent under the former part of Article 86 (1);
 16. A person who falsely states the results of a marine environmental impact survey under Article 95 (1);
 - 16-2. A person who sells marine environment measuring apparatus exempt from type approval pursuant to the proviso to Article 110 (1), facilities subject to type approval pursuant to the proviso to Article 110 (3), or materials or chemicals used for response against or prevention of pollutants pursuant to the proviso to Article 110 (4);
 17. A person who conducts business activities after the type approval or verification has been cancelled, or during the period of business suspension after receiving a business suspension order, pursuant to Article 110 (9);
 - 17-2. A person who sells materials or chemicals excluded from type approval, which he/she has manufactured, produced or imported, carrying an indication of certification of performance, despite the fact that he/she has not obtained any certification of performance for such materials or chemicals excluded from type approval pursuant to Article 110-2 (1) or that certification of performance has been cancelled;
 18. A person who refuses, interferes with or evades the stopping, search and seizure of ships, the prohibition of ships from entering into or departing from a port, or other necessary orders or measures under Article 117.

Article 129 (Penalty Provisions)

(1) Any of the following persons shall be punished by imprisonment with labor for up to one year, or by a fine of up to ten million won: <Amended by Act No. 9872, Dec. 29, 2009; Act No. 10803, Jun. 15, 2011>

1. A person who installs a facility in a specially-managed sea area or exceeds the limit on the total quantity of discharged pollutants, in violation of Article 15 (3);
2. A person who discharges wastes into the sea, in violation of Article 23 (1) (excluding a

person who discharges wastes pursuant to the proviso to Article 23 (1));

3. A person who operates a ship for voyage without installing an air pollution prevention facility under Article 41 (1);

4. A person who discharges ozone layer-depleting substances, in violation of Article 42 (1);

5. A person who operates a diesel engine in excess of the permissible emission level of nitrous oxides, in violation of Article 43 (1);

6. A person who uses fuel oil which exceeds the sulfur content standards, in violation of Article 44 (1) or (2);

7. A person who supplies fuel oil which falls short of the quality standards or exceeds the sulfur content standards, in violation of Article 45 (1);

8. A person who fails to install or operate an oil vapor discharge control unit, in violation of Article 47 (2);

9. A person who installs an oil vapor discharge control unit without undergoing an inspection, in violation of Article 47 (3);

10. A person falling under Article 63 (1) 1 or 2 who fails to file a report or files a false report;

11. A person who conducts construction before the completion of the consultation or re-consultation procedures under Articles 84 and 85;

12. A person who reproduces the contents of other sea area utilization consultation forms, etc. or fails to keep sea area utilization consultation forms, etc. for a period prescribed by statutes, or prepares false sea area utilization consultation forms, etc., in violation of subparagraphs 1 through 3 of Article 88;

13. A person who divulges or wrongfully uses confidential information, in violation of Article 118 (1).

(2) Any of the following persons shall be punished by imprisonment with labor for up to one year, or by a fine of up to five million won: *<Amended by Act No. 8788, Dec. 21, 2007; Act No. 9872, Dec. 29, 2009; Act No. 10803, Jun. 15, 2011; Act No. 11597, Dec. 18, 2012; Act No. 14516, Dec. 27, 2016>*

1. A person who discharges entrusted wastes into the sea without reporting, in violation of Article 23 (2);

2. A person who installs, or maintains and operates a waste pollution prevention facility, in violation of the criteria under Article 25 (2);

3. A person who installs, or maintains and operates an oil pollution prevention facility, in violation of Article 26 (3);

4. A person who installs, or maintains and operates a noxious liquid substance pollution prevention facility, in violation of Article 27 (4);

5. A person who loads a ship's ballast water or oil, in violation of Article 28;

6. A person who transports harmful substances in packaged form, in violation of Article 29;

7. A person who let pollutants collected and disposed of in a ship or marine facility in violation of Article 37;

8. A person who operates a ship for voyage without undergoing a marine pollution prevention

ship inspection under Articles 49 through 53;

8-2. A person who uses, for voyage, a ship which has failed to undergo an energy efficiency inspection, in violation of Article 54-2;

9. A person who fails to comply with any order or disposition issued under Article 58 or 59;

9-2. A person who fails to obtain type approval, verification, or recognition under Article 110 (4), (6), or (7), or uses materials or chemicals not verified pursuant to Article 110-2 (3) for pollution response measures, in violation of Article 64 (6);

10. A person who fails to stock and keep materials and chemicals in storage facilities, ships, or marine facilities, in violation of Article 66 (1);

11. A person who violates an order for disposal under Article 73;

12. A person who uses marine environment measuring apparatus without undergoing an accuracy inspection or supplies or uses correctional articles, in violation of Article 110 (2);

13. A person who manufactures, produces, or imports without obtaining or undergoing type approval, a performance test, verification, or recognition under Article 110 (1) and (3) through (7);

14. A person who dismantles a ship without filing a report under Article 111 (1);

15. A person who refuses, interferes with, or evades the entrance for inspection, request for reporting, etc. without any justifiable ground, in violation of Article 115 (6);

16. A person who divulges or wrongfully uses confidential information he/she has become aware of in the course of performing his/her duties, in violation of Article 118 (2) and (3).

Article 130 (Joint Penalty Provisions)

Where a representative of a corporation, or an agent, employee or other servant of the corporation or an individual commits an offense under Articles 126 through 129 in connection with the business of the corporation or the individual, not only shall such offender be punished, but also the corporation or the individual shall be punished by a fine under the relevant provisions: Provided, That the same shall not apply where such corporation or individual has not been negligent in paying due attention or supervision to the relevant business in order to prevent such offense.

Article 131 (Special Cases of Application of Penalty Provisions to Foreigners)

(1) In applying Articles 127 and 128 to foreigners, they shall be punished by a fine provided for in the corresponding Article, unless they have intentionally committed an offense in the territorial sea of Korea.

(2) Article 2 of the Act on the Exercise of Sovereign Rights on Foreigners' Fishing, etc. within the Exclusive Economic Zone shall apply to the scope of foreigners referred to in paragraph (1), and Articles 23 through 25 of the same Act shall apply mutatis mutandis to judicial procedures for foreigners.

Article 132 (Administrative Fines)

(1) Any of the following persons shall be punished by an administrative fine of up to ten million won: <Amended by Act No. 15012, Oct. 31, 2017>

1. A person who falsely states the results of a marine pollution impact survey under Article

77 (1);

2. Deleted. <by Act No. 10803, Jun. 15, 2011>

(2) Any of the following persons shall be punished by an administrative fine of up to five million won: <Amended by Act No. 10803, Jun. 15, 2011; Act No. 12549, Mar. 24, 2014; Act No. 15012, Oct. 31, 2017>

1. A person who discharges pollutants prescribed by Presidential Decree from ocean space, in violation of Article 22 (2);

2. A person who fails to report on marine facilities, in violation of Article 33 (1);

2-2. A person who fails to conduct a safety inspection under Article 36-2 (1);

2-3. A person who fails to file a report under Article 36-2 (2) or files a false report;

2-4. A person who fails to keep the results of a safety inspection under Article 36-2 (3);

3. A person who installs facilities containing ozone layer-depleting substances on a ship, in violation of Article 42 (2);

4. A person who fails to provide a copy of the fuel oil supply certificate and a fuel oil sample, or falsely provides a copy of the fuel oil supply certificate and a fuel oil sample, in violation of Article 45 (2);

5. A person who fails to cooperate in pollution response measures, in violation of Article 64 (2);

6. A person who fails to register a change under Article 70 (3);

7. A person who keeps and manages wastes, in violation of Article 72 (3), or fails to prepare a waste transfer/take-over form or falsely prepares one;

8. A person who fails to report on succession to the rights and duties of a marine environmental management business entity, in violation of Article 74 (3) or falsely files such report;

9. A person who entrusts the disposal of wastes without reporting, in violation of Article 76 (1);

10. A person who fails to comply with any of the obligations to be observed under subparagraphs 4 and 5 of Article 88;

11. A person who fails to conduct a marine environmental impact survey under Article 95 (1), or fails to give notice of its results or gives a false notice thereof;

12. A person who fails to take necessary measures under Article 95 (2).

(3) Any of the following persons shall be punished by an administrative fine of up to two million won: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 15012, Oct. 31, 2017>

1. A person who maintains and operates air pollution prevention facilities not in compliance with the criteria, in violation of Article 41 (2);

2. A person who transfers an installation containing ozone layer-depleting substances to persons, other than companies or organizations designated and publicly notified by the Minister of Oceans and Fisheries, in violation of Article 42 (3);

3. A person who burns substances on a ship, the shipboard incineration of which is prohibited,

in violation of Article 46 (1);

4. A person who installs, or maintains and operates an incineration facility, in violation of Article 46 (2) or (4);

5. A person who burns substances, using a main or auxiliary engine or boiler in sea areas on which incineration is prohibited, in violation of Article 46 (3).

(4) Any of the following persons shall be punished by an administrative fine of up to one million won: <Amended by Act No. 9872, Dec. 29, 2009; Act No. 10803, Jun. 15, 2011; Act No. 14516, Dec. 27, 2016; Act No. 15012, Oct. 31, 2017>

1. A person who fails to obtain approval for the ratio of discharge, in violation of Article 22-2 or who fails to discharge waste in accordance with the approved ratio of discharge;

1-2. A person who fails to install a container for storing waste oil under Article 26 (1);

2. A person who fails to provide a guidebook, which bears an approval seal under Article 27 (3) and describes the method of and facilities for the discharge of noxious liquid substances;

3. A person who fails to provide a pollutants register under Articles 30 and 34, fails to make records therein or to keep the pollutants register, or enters false records therein;

4. A person who fails to keep or implement measures, etc. in accordance with a contingency plan for marine pollution by ships and a contingency plan for pollution by marine facilities, which bears an approval seal under Article 31 or 35;

5. A person who fails to appoint a marine pollution prevention manager under Article 32 (1) or 36 (1);

6. A person who fails to keep a document evidencing the appointment of a marine pollution prevention manager under Article 32 (2) or 36 (2);

6-2. A person who fails to appoint a substitute for a marine pollution prevention manager under Article 32 (3) or 36 (3);

6-3. A person who fails to have the operation of transferring or discharging pollutants, etc. directed or supervised under Article 32 (4) or 36 (4);

6-4. A person who fails to keep or observe a ship-to-ship oil transfer plan, which bears an approval seal referred to in Article 32-2 (1);

6-5. A person who fails to make records on ship-to-ship oil transfer operation referred to in Article 32-2 (2), or makes false records, or fails to keep records thereon;

6-6. A person who fails to report an operation plan under Article 32-2 (3) or falsely reports it;

6-7. A person who fails to prepare, or falsely prepares, or fails to manage a list of installations containing ozone layer-depleting substances referred to in Article 42 (4);

6-8. A person who fails to prepare, or falsely prepares, or fails to keep an ozone layer-depleting substance register referred to in Article 42 (5);

7. A person who fails to make entries into an engineer's logbook, in violation of Article 44 (3);

8. A person who fails to keep an engineer's logbook for one year, in violation of Article 44 (4);

8-2. A person who fails to keep a procedure manual for fuel oil conversion referred to in Article 44 (5);

9. A person who fails to keep fuel oil supply certificates or copies thereof for three years, in

violation of Article 45 (3);

10. A person who fails to keep a fuel oil sample, in violation of Article 45 (4);

11. A person who fails to keep records on the operation of an oil vapor discharge control unit for three years, in violation of Article 47 (4);

11-2. A person who fails to keep or observe a volatile organic compound management plan, which bears an approval seal referred to in Article 47-2 (1);

12. A person who fails to keep certificates of marine pollution prevention inspection, etc. in ships, in violation of Article 57 (4);

13. A person who fails to prepare and submit a statement of disposal results or fails to prepare and keep a ledger of disposal, in violation of Article 72 (1);

14. A person who fails to prepare a certificate of pollutants collection confirmation, in violation of Article 72 (2), or falsely prepares the pollutants collection confirmation certificate;

15. A person who fails to prepare and submit a waste transfer/takeover form, in violation of Article 72 (3);

16. A person who fails to report on a change under the latter part of Article 76 (1);

17. A person who entrusts the disposal of waste, in violation of Article 76 (2);

18. A person who fails to comply with an order for correction under Article 111 (2);

19. A person who fails to provide employees with education and training under Article 121 (2) without any justifiable ground.

Article 133 (Imposition, Collection, etc. of Administrative Fines)

Administrative fines referred to in Article 132 shall be imposed and collected by the Minister of Oceans and Fisheries or the Commissioner of the Korea Coast Guard, as prescribed by Presidential Decree. <Amended by Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014; Act No. 14839, Jul. 26, 2017>

ADDENDA

Article 1 (Enforcement Date)

This Act shall enter into force one year after the date of its promulgation: Provided, That Article 19 (1) 2 shall enter into force two years after the date of its promulgation, Article 110 (1) three years after the date of its promulgation, Articles 40 and 53 on the date on which the International Convention on the Control of Harmful Anti-Fouling Systems on Ships takes effect in Korea after this Act enters into force.

Article 2 (Repealed Acts)

The Prevention of Marine Pollution Act is hereby repealed.

Article 3 (Preparation for Establishment of Corporation)

(1) The Minister of Marine Affairs and Fisheries shall establish the Corporation Establishment Promotion Committee (hereinafter referred to as "Establishment Committee") to handle affairs concerning the dissolution of the Korea Marine Pollution Response Corp. under Article 52-2 of the former Prevention of Marine Pollution Act (hereinafter referred to as the "Pollution Response Corp.") and establishment of the Corporation.

(2) The Establishment Committee shall be comprised of up to 15 members, including the chairperson appointed or commissioned by the Minister of Marine Affairs and Fisheries, on condition that it allow the participation of experts from the Government, Pollution Response Corp., academic circles, etc., and the Vice Minister of Marine Affairs and Fisheries shall become the chairperson.

(3) The Establishment Committee shall prepare the articles of association of the Corporation and have the members of the Establishment Committee note their names and affix their seals, or apply their signatures thereto to obtain authorization from the Minister of Marine Affairs and Fisheries for registration for establishment.

Article 4 (Transfer of Affairs and Property)

(1) The Establishment Committee shall transfer its affairs and property to the president immediately after completing the registration for establishment of the Corporation.

(2) The Establishment Committee and its members shall be deemed dissolved, dismissed, or dismissed from commissioning as at the time the transfer of the affairs and property under paragraph (1) is finalized.

Article 5 (Establishment Costs)

The cost incurred in the dissolution of the Pollution Response Corp. and the establishment of the Corporation shall be borne by the Corporation.

Article 6 (Transitional Measures concerning Establishment of Corporation)

(1) The Pollution Response Corp. established under the former Prevention of Marine Pollution Act as at the time this Act enters into force may apply for the approval of the Minister of Maritime Affairs and Fisheries to enable the Corporation scheduled to be established under this Act to succeed all the rights and duties, and property in accordance with the resolution of the Operation Committee.

(2) When the Pollution Response Corp. obtains the approval of the Minister of Maritime Affairs and Fisheries pursuant to the application under paragraph (1), it shall be deemed dissolved in concurrence with the establishment of the Corporation, notwithstanding the provisions of the Civil Act, which pertain to the dissolution and liquidation of corporations, and the acts done in the name of the Pollution Response Corp. and in relation to other Acts shall be deemed done in the name of the Corporation in concurrence with the establishment of the Corporation.

(3) A citation of the Pollution Response Corp. by other statutes quote as at the time when this Act enters into force shall be deemed a citation of the Corporation in lieu of the Pollution Response Corp. in concurrence with the establishment of the Corporation.

(4) The property, and rights and duties of the Pollution Response Corp. as at the time this Act enters into force shall be succeeded to by the Corporation by a universal title in concurrence with the establishment of the Corporation. In such cases, the value of the property succeeded by the Corporation shall be the book value as at the time of succession.

(5) The name of the Corporation which is indicated in the registers concerning the property, and rights and duties succeeded to by a universal title under paragraph (4) and other public

books shall be deemed the name of the Corporation in concurrence with the establishment of the Corporation.

Article 7 (Measures for Executive Officers and Employees)

(1) The term of office of the president, directors, and auditor of the Pollution Response Corp. as at the time this Act enters into force shall be deemed terminated in concurrence with the enforcement of this Act: Provided, That duties corresponding to the former position may be issued to the directors in consideration of their remaining term of office and ability to perform duties, as prescribed by the articles of association of the Corporation.

(2) Notwithstanding Article 99 (3) and (4), the first president, auditor, and directors of the Corporation shall be appointed by the Minister of Maritime Affairs and Fisheries under the proposal of the Establishment Committee.

(3) The employees of the Pollution Response Corp. as at the time this Act enters into force shall be deemed the employees of the Corporation.

Article 8 (Applicability to Prohibition of Use of Harmful Anti-Fouling Paints, etc.)

(1) Article 40 shall begin to apply to the harmful anti-fouling paint or harmful anti-fouling system used for marine facilities after this Act enters into force.

(2) Articles 40 and 53 (1) shall begin to apply to the ship constructed after this Act enters into force: Provided, That with respect to the ships already constructed as at the time this Act enters into force, they shall apply from the date on which such ships undergo inspections, entering a dock for the first time after this Act enters into force.

Article 9 (Applicability to Consultation on Utilization of Sea Areas for Designation of Marine Aggregate Extraction-Scheduled Areas, etc.)

@Article 84 (1) 4 through 6 shall begin to apply to the first application filed with a license-granting agency for the designation of marine aggregate extraction-scheduled areas, approval for the extraction of marine aggregate, and designation of marine aggregate extraction complexes after this Act enters into force.

Article 10 (Applicability to Sea Area Utilization Impact Assessment)

@Article 85 shall begin to apply to the first application filed with a license-granting agency for obtaining a license, etc. for acts falling under any subparagraph of paragraph (1) of the same Article.

Article 11 (General Transitional Measures)

Disposition imposed and other acts done by administrative agencies under the former Prevention of Marine Pollution Act or various kinds of applications filed with and other acts done for administrative agencies as at the time this Act enters into force shall be deemed acts done by or in relation to the corresponding administrative agencies under this Act.

Article 12 (Transitional Measures concerning Comprehensive Plans for Marine Environment Preservation, etc.)

(1) The comprehensive plan for marine environment preservation in force formulated under Article 4 of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed the comprehensive plan for marine environment management

formulated under Article 14 of this Act.

(2) The basic plan for the management of environment management sea areas in force formulated under Article 4-5 of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed the basic plan for environment management formulated under Article 16 of this Act.

(3) The national emergency pollution response plan for oil spill preparedness and response in force formulated in accordance with the International Convention on Oil Pollution Preparedness, Response and Cooperation as at the time this Act enters into force shall be deemed the national emergency pollution response plan formulated under Article 61 of this Act.

Article 13 (Transitional Measures concerning Environmental Preservation Sea Areas, etc.)

(1) The environment preservation sea areas designated under Article 4-4 (1) of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed designated as environmental preservation sea areas pursuant to Article 15 (1) 1 of this Act.

(2) The special management sea areas designated under Article 4-4 (2) of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed designated as special management sea areas pursuant to Article 15 (1) 2 of this Act.

(3) Restrictions on acts in environment preservation sea areas, etc. under Article 4-4 of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed restrictions on acts, or measures, etc. for environment preservation sea areas or special management sea areas under Article 15 (2) and (3) of this Act.

Article 14 (Transitional Measures concerning Consultation on Utilization of Sea Areas)

The consultation on the utilization of sea areas under Article 4-8 of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed a consultation on the utilization of sea areas under Article 84 of this Act.

Article 15 (Transitional Measures concerning Marine Pollution Prevention and Removal Countermeasures Committee, etc.)

The Marine Pollution Prevention and Removal Countermeasures Committee, Marine Pollution Impact Survey Assessment Committee, and Marine Environment Preservation Advisory Committee established under the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed the Marine Environment Management Committee under this Act until the Marine Environment Management Committee is organized pursuant to Article 17 of this Act. In such cases, the matters under the jurisdiction of the Marine Pollution Prevention and Removal Countermeasures Committee, Marine Pollution Impact Survey Assessment Committee, and Marine Environment Preservation Advisory Committee shall comply with the classifications under Articles 51, 52-12, and 63 of the former Prevention of Marine Pollution Act.

Article 16 (Transitional Measures concerning Ships Installed with Oil Pollution Prevention Facilities, etc.)

(1) Any ship installed with an oil pollution prevention facility, hull, noxious liquid substance prevention facility, cargo hold, waste pollution prevention facility, and air pollution prevention facility pursuant to Articles 6 (1), 12 (1) and (2), 17 (1), and 23-3 (1) of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed a ship installed with a wastes pollution prevention facility, oil pollution prevention facility, hull, noxious liquid substance prevention facility, cargo hold, and air pollution prevention facility pursuant to Articles 25 (1), 26 (1) and (2), 27 (1) and (2), and 41 (1) of this Act.

(2) Any marine pollution prevention certificate and temporary marine pollution prevention certificate delivered by the Minister of Maritime Affairs and Fisheries pursuant to Article 25 of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed a marine pollution prevention inspection certificate and temporary marine pollution prevention inspection certificate delivered pursuant to Articles 49 (2) and 52 (2) of this Act.

Article 17 (Transitional Measures concerning Installation of Facilities Containing Ozone Layer-Depleting Substances)

(1) Notwithstanding Article 42 (2), facilities containing an ozone layer-depleting substance in which hydrochlorofluorocarbons (HCFCs) are contained may be installed on a ship by January 1, 2020.

(2) Notwithstanding Article 42 (2), any ship equipped with a facility containing ozone layer-depleting substances before June 29, 2006 may continue to use such facility.

Article 18 (Transitional Measures concerning Control of Emission of Nitrous Oxides)

Notwithstanding Article 43 (1), the following diesel engines may be operated in excess of the permissible emission levels under the main sentence of paragraph (1) of the same Article with the exception of its subparagraphs (hereafter referred to as "permissible emission level" in this Article):

1. The diesel engine referred to in Article 43 (1) 1, which is installed on a ship constructed before June 29, 2006 (excluding diesel engines manufactured after June 29, 2006, diesel engines remodeled to operate in excess of permissible emission levels, and diesel engines remodeled to increase the maximum continuous output power by at least 10/100);

2. The diesel engine referred to in Article 43 (1) 2, which is installed on a ship constructed before January 1, 2000 (excluding diesel engines manufactured after January 1, 2000, diesel engines remodeled to operate in excess of permissible emission levels, and diesel engines remodeled to increase the maximum continuous output power by at least 10/100).

Article 19 (Transitional Measures concerning Installation of Oil Vapor Emission Control Units)

Notwithstanding Article 47 (2) and (3), the owner of a marine facility who has begun to install a facility to load oil and noxious liquid substances on a ship or has completed such installation before June 29, 2006 need not install an oil vapor emission control unit in the relevant marine facility by May 19, 2009.

Article 20 (Transitional Measures concerning Contributions, etc.)

(1) Contributions paid pursuant to Article 52-4 (1) of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed the pollution response contributions paid under Article 69 (1) of this Act.

(2) Where the placement of pollution response vessels, etc. is deemed entrusted, or a pollution response agent is deemed designated under Article 52-4 (3) of the former Prevention of Marine Pollution Act as at the time this Act enters into force, the former provisions shall govern until the period of the relevant entrustment or period of designation terminates.

Article 21 (Transitional Measures concerning Registration of Ocean Waste Discharge Business, etc.)

(1) Any person who filed for registration of ocean waste discharge business pursuant to Article 18 of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed to have filed for registration of ocean waste discharge business pursuant to Article 70 (1) 1 of this Act.

(2) Any person who filed for registration of pollution response business pursuant to Article 37 (1) 1 of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed to have filed for registration of marine pollution response business pursuant to Article 70 (1) 2 of this Act.

(3) Any person who filed for registration of oil hold cleaning business pursuant to Article 37 (1) 2 of the former Prevention of Marine Pollution Act as at the time this Act enters into force shall be deemed to have filed for registration of oil hold cleaning business pursuant to Article 70 (1) 3 of this Act.

Article 22 (Transitional Measures concerning Penalty Provisions, etc.)

The application of penalty provisions and administrative fines to violations committed before this Act enters into force shall be governed by the former Prevention of Marine Pollution Act.

Article 23 Omitted.

Article 24 (Relations with other Statutes)

A citation of the former Prevention of Marine Pollution Act and any provisions thereof in other statutes as at the time when this Act enters into force shall be deemed a citation of this Act or the corresponding provisions of this Act in lieu of the former provisions if such corresponding provisions exist herein.

ADDENDA (Omitted)

2. Enforcement Decree of Marine Environment Management Act

[Effective on Aug. 7, 2009] [Presidential Decree No. 21622, Jul. 7, 2009, Amendment of Other Laws and Regulations]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Decree is to provided matters entrusted by the Marine Environment

Management Act and matters for enforcement hereof.

Article 2 (Jurisdictional Subject Sea Area)

The term “sea area as determined by Presidential Decree” under the provisions of item A of Subsection 20 of Article 2 of the Marine Environment Management Act (hereinafter referred to as the “Act”) shall mean sea areas falling under any of the following Subsections.

1. Sea area over which Korea has jurisdiction regarding conservation of marine environment under the United Nations Convention on the Law of the Sea; or
2. Environment management sea area under the provisions of Article 15 (1) of the Act.

Article 3 (Jurisdictional Subject Harbor)

The term “harbor as determined by Presidential Decree” under the provisions of item B of Subsection 20 of Article 2 of the Act shall mean harbors falling under any of the following Subsections.

1. Designated harbor under the provisions of Subsection 2 of Article 2 of the Harbor Act; or
2. National fishery port under the provisions of Subsection 3 of Article 2 of the Fishery Village and Port Act.

Article 4 (Scope of Sea Area)

The term “sea area as determined by Presidential Decree” under the provisions of Subsection 1 of Article 3 (1) of the Act shall mean sea areas falling under any of the following Subsections.

1. Domestic waters under the provisions of Article 3 of the Territorial Sea and Contiguous Zone Act; or
2. Sea area over which Korea has jurisdiction regarding conservation of marine environment under the United Nations Convention on the Law of the Sea.

Article 5 (International Cooperation Project and Supporting Target, Etc.)

(1) The international cooperation project under the provisions of Article 6 (4) of the Act shall be provided under any of the following Subsections.

1. Project necessary for domestic enforcement of international agreement related to marine environment conservation;
2. International cooperation project with international organization related to marine environment;
3. International joint-research & development and investigation project related to marine environment;
4. International exchange of human resources and information related to marine environment;
5. International conferences and academic conferences related to marine environment; or
6. Other international cooperation projects deemed necessary for the marine environment.

(2) Institutions which may be participated in the international cooperation projects under Article 6 (4) shall be provided under any of the following Subsections. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. National and public research institution;

2. School under the provisions of Article 2 of the Higher Education Act;
3. Government invested research institution under the Act on the Establishment, Operation and Fosterage of Government Invested Research Institutions and the Act on the Establishment, Operation and Fosterage of Science & Technology Government Invested Research Institutions;
4. Research institution subject to the Specific Research Institution Promotion Act;
5. Korea Marine Environment Management Corporation under the provisions of Article 96 of the Act;
6. Center for Marine Environment Conservation under the provisions of Article 125 of the Act; or
7. Other institution group notified by the Minister of Land, Transport and Maritime Affairs (hereinafter referred to as the “Minister”).

(3) The Minister may support budget, etc. necessary for international joint-research & development, international exchange of professional human resources and information, attraction of international conferences or participation in international conferences, etc. to institutions of Section (2), which participates in international cooperation projects of Section (1) under the provisions of Section 6 (4). <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

CHAPTER II MEASURES FOR CONSERVATION AND MANAGEMENT OF MARINE ENVIRONMENT

Article 6 (Construction Operation, etc. of Marine Environment Information Network)

(1) The Minister shall be provided with the marine environment measurement results of Article 9 of the Act under the provisions of Article 11 (1) of the Act and results of research & investigation projects related to marine environment, which are enforced by the State and then construct and operate a marine environment information network to standardize environment data and integrate and manage information which are dispersed to several institutions. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) In the event of performing projects with the funding of the national government or local government (hereinafter referred to as the “national government, etc.”), institution under the provisions of Article 5 (2) shall submit its business plan to the national government, etc. In this case, the relevant institution shall systematically perform observation, research and investigation related to marine environment and provided the national government, etc. with its data, which are computerized suitably to the construction and operation of marine environment information network, within one year after completion of the observation and research.

Article 7 (Principles of Polluter Responsibility)

The term “entity designated by Presidential Decree” under the provisions of Article 12 (1) of the Act shall mean any entity falling under any of the following Subsections.

1. Marine pollution effect investigation entity under the provisions of Article 77 (1) of the Act;
2. Evaluation agency under the provisions of Article 86 (1) of the Act; or

3. Institution or group which conducts measurement and analysis on marine environment with the funding of the State, local government or national or public research institutions.

Article 8 (Cancellation of Measurement and Analysis Capacity Certification)

The term “event falling under reasons determined by Presidential Decree” under the provisions of Subsection 3 of Article 13 (3) of the Act shall mean a case in which there is no measurement and analysis result for one year after the acquisition of measurement and analysis capacity certification.

Article 9 (Establishment Enforcement, Etc. of Marine Environment Management Master Plan)

(1) The Minister shall prepare a marine environment management master plan (hereinafter referred to as the “master plan”) by stating annual project items under the provisions of Article 14 (1).

(2) The head of the relevant central administrative agency and Special Metropolitan City Mayor, Metropolitan City Mayor, Do governor, or Special Self-Do governor (hereinafter referred to as the “head of the relevant administrative agency” in this Article) which are notified of the master plan under the provisions of Article 14 (4) of the Act shall establish and proceed annual enforcement plans on its jurisdictional matters and evaluate its results. In this case, the head of the relevant administrative agency shall submit to the Minister such annual enforcement plan and proceeding results by the end of every January. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(3) The Minister shall put together and analyze the enforcement plan and proceeding results submitted under the provisions of Section (2) and notify it to the heads of the relevant administrative agency. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(4) Where it is deemed necessary for the alteration of the master plan or the head of the relevant administrative agency request, the Minister may alter the master plan through the deliberation of a marine and fisheries development committee under the provisions of Article 7 of the Framework Act on Marine and Fisheries Development.

Article 10 (Restriction on Installation of Facility in Environment Conservation Sea Area, Etc.)

(1) An environment conservation sea area under the provisions of Subsection 1 of Article 15 (1) of the Act shall be provided in the attached Table 1.

(2) A special management sea area under the provisions of Subsection 2 of Article 15 (1) of the Act shall be provided in the attached Table 2.

(3) The term “facility as designated by Presidential Decree” under the provisions of Article 15 (2) shall mean facilities falling under any of the following Subsections.

1. A facility of which daily waste water exhaust amount is not less than 2,000 cubic meter; provided, however, that waste water processing facilities and sewage processing facilities shall be excluded; or

2. Wharf, seawall, bridge, floodgate or building to obtain permission of its management agency in the event of new construction, renovation, enlargement or alteration under the

provisions of Subsection 1 of Article 5 (1) of the Public Water Management Act.

(4) Facility of which installation or alteration is restricted under the provisions of Article 15 (4) of the Act shall mean a facility falling under any of the following Subsection.

1. A facility of which daily waste water exhaust amount is not less than 1,000 cubic meter; provided, however, that waste water processing facilities and sewage processing facilities shall be excluded;

2. Wharf, seawall, bridge, floodgate or building to obtain permission of its management agency in the event of new construction, renovation, enlargement or alteration under the provisions of Subsection 1 of Article 5 (1) of the Public Water Management Act; or

3. A facility for chartered fishery under the provisions of Article 8 of the Fisheries Act. (5) The Minister shall, in the event of intending to restrict the installation or alteration of facility in environment conservation sea areas or special management sea areas, consult on the restrictions with the head of the relevant administrative agency and notify to the public the contents and period of the restriction. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 11 (Enforcement Sea Area of Total Emission Regulation of Pollutant Substance)

(1) A sea area to enforce total emission regulation of pollutant substances under the provisions of Article 15 (3) and (4) of the Act shall be a special management sea area where it is acknowledged that pollutant substances exceed the marine environment standards under the provisions of Article 8 (1) of the Act such that severe damage may be inflicted on the people's health, property or animal and plant growth and the Minister shall designate through consultation with the head of the relevant administrative agency and Metropolitan City Mayor, Do governor, or Special Self-Governing Do governor (hereinafter referred to as the "Mayor/Do governor"). <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) In the event of designating the enforcement sea area of total emission regulation of pollutant substances, watershed section notified under the provisions of Article 12 (1) of the Enforcement Decree of the Act on Nakdong River Watershed Management & Community Support, Article 10 (1) of the Enforcement Decree of the Act on Geum River Watershed Management & Community Support and Article 10 (1) of the Enforcement Decree of the Act on Yeongsan & Sumjin River Watershed Management & Community Support, and its affecting sea area shall be excluded.

Article 12 (Total Emission Regulation Items of Pollutant Substances)

(1) Total emission regulation items of pollutant substances under the provisions of Article 15 (4) of the Act shall be determined among items falling under any of the following Subsections by the Minister in overall consideration of marine environment standards under the provisions of Article 8 (1) of the Act, utilization status and water quality of sea areas and through consultation with the relevant Mayor/Do governor having jurisdiction over the sea area to enforce total emission regulations. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. COD (chemical oxygen demand)
2. Nitrogen
3. Phosphorus
4. Heavy metal

(2) The Minister shall, in order to enforce total emission regulation on the total emission regulation items of Section (1), establish a fundamental policy on total emission regulation including items falling under any of the following Subsections (hereinafter referred to as the “fundamental policy”) and notify it to the relevant Mayor/Do governor having jurisdiction over the special management sea area designated under the provisions of Article 11 (1). <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Total emission regulation items and target water quality;
2. Investigation of pollution source and calculation method of pollution loading;
3. Allotment of pollution loading by basin, administrative district and pollution source;
4. Approval standards of total emission management fundamental plan to be established by the Mayor/Do governor under the provisions of Section (3);
5. Approval standards on the total emission management enforcement plan to be established by the Metropolitan City Mayor, mayor, head of Gun (excluding the head of Gun pertaining to the Metropolitan City; hereinafter, the same shall apply) under the provisions of Section (4); or
6. Minor matters not to require approval in the event of changing the total emission management fundamental plan and the total emission management enforcement plan under the provisions of Sections (3) and (4)

(3) The relevant Mayor/Do governor shall establish total emission management fundamental plan including items falling under any of the following Subsections (hereinafter referred to as the “fundamental plan”) in accordance with the fundamental policy under the provisions of Section (2) and obtain the Minister’ s approval. The same shall apply to the alteration of the fundamental plan (excluding the alteration of minor matters under the provisions of Subsection 6 of Section (2)). <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Detailed contents of regional development plan;
2. Allotment of pollution loading by each jurisdictional local government;
3. Total amount of pollution loadings discharged from district and sea area, and its reduction plan; or
4. Pollution loadings discharged additionally by regional development plan, and its reduction plan.

(4) Metropolitan City Mayor, mayor or head of Gun shall establish a total emission management enforcement plan (hereinafter referred to as the “enforcement plan”) according to the fundamental plan and the Metropolitan City Mayor shall obtain the Minister’ s approval, and the mayor/head of Gun shall obtain the approval of Mayor/Do governor and submit it to the Minister. The same shall apply to the alteration of the enforcement plan

(excluding the alteration of minor matters under the provisions of Subsection 6 of Section (2)). <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(5) The Minister may enforce the research and investigation, etc. necessary for establishment of the fundamental plan and enforcement plan and request their results to be reflected in the plan establishment, and the Mayor/Do governor or mayor/head of Gun shall reflect them unless there are special circumstances not to. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(6) The Minister may organize and operate a council consisted of relevant experts for the investigation and research on the determination and adjustment of items for total emission regulations of pollutant substances and water quality, enforcement of total emission regulation, etc. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 13 (Allotment, Etc. of Pollution Loading by Business Place)

(1) The Minister may request the Minister of Environment to allot pollution loadings or designate exhaust amount for facilities falling under any of the following Subsections in order to achieve and maintain water quality designated in the fundamental policy. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Waste water processing facility subject to water quality standard of the discharge water under the provisions of Article 12 (3) of the Water Quality and Ecosystem Conservation Act;
2. Facility subject to water quality standard of the discharge water under the provisions of Article 7 of the Sewerage Act; or
3. Purification facility subject to the water quality standards of the discharged water under the provisions of Article 13 of the Act on the Management and Use of Livestock Manure.

(2) In the event of requesting the Minister of Environment to allot pollution loadings or designate the exhaust amount, the Minister shall send the fundamental plan and enforcement plan to the Minister of Environment. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(3) The Minister of Environment may, where the request for the allotment of pollution loadings or designation exhaust amount under the provisions of Section (1) is made, allot the pollution loadings or designate the exhaust amount by final outfall and unit period.

(4) In the event of being deemed necessary for the achievement and maintenance of target water quality designated in the fundamental policy, the Metropolitan City Mayor, mayor or the head of Gun may allot pollution loadings or designate discharge amounts by final outfall and unit period regarding the facility subject to the discharge permission standards under the provisions of Article 32 of the Water Quality and Ecosystem Conservation Act and the discharge water under the provisions of Article 7 of the Sewerage Act.

(5) The Minister of Environment or Metropolitan City Mayor, mayor or head of Gun shall, in the event of allotting pollution loadings or designating discharge amounts, hear opinion of the interested persons.

(6) A person to whom pollution loadings are allotted or discharge amounts are designated under the provisions of Section (3) or (4) shall measure pollution loadings and discharge

amounts as determined by the Water Quality and Ecosystem Conservation Act, the Act on the Management and Use of Livestock Manure or the Sewerage Act, and shall record and maintain its measurement results.

(7) The Minister may request Metropolitan City Mayor, mayor or the head of Gun having jurisdiction over the facility, of which pollution loadings or discharge amounts are discharges by exceeding allotted pollution loadings or designated discharge amounts under the provisions of Section (3), to take necessary measures such as improvement of treatment facility. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(8) In the event of discharging by exceeding allotted pollution loadings or designated discharge amounts under the provisions of Section (4) or requesting from the Minister under the provisions of Section (7), the Metropolitan City Mayor, mayor or the head of Gun may order the relevant business entity to take measures such as improvement of facility within a fixed period, and the person who has received the order shall perform it.

(9) Matters regarding the method and procedure of order for taking measures under the provisions of Section (8) and confirmation of orders for taking measures shall be publicly announced by the Minister. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 14 (Establishment of Marine Environment Management Master Plan, Etc.)

(1) Metropolitan City Mayor, mayor or the head of Gun shall evaluate the performed matters of the previous year on the enforcement plan as determined by the Minister and submit its reports (hereinafter referred to as the “evaluation report”) to the Minister. In this case, the mayor or head of Gun shall submit it via the Mayor/Do governor having jurisdiction. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) In the event of being deemed necessary for attaining the purpose of total emission regulation of pollutant substances after reviewing the evaluation report submitted under the provisions of Section (1), the Minister may request the Metropolitan City Mayor, mayor or the head of Gun to establish and enforce necessary measures or a counter plan. In this case, the Metropolitan City Mayor, mayor or the head of Gun shall follow the request unless there are special circumstances not to. < Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(3) Metropolitan City Mayor, mayor or the head of Gun shall prepare and keep a book for total emission regulation of pollutant substances so as to figure out the increase and decrease of pollution sources as determined by the Minister. < Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 15 (Financial Support, Etc.)

(1) The State may provide assistance or loans, or support preferentially necessary expenses such as for improvement of facility, etc. according to the total emission regulation for a local government or business operator, which enforces the total emission regulation of pollutant substances, rather than other local governments or business operators.

(2) The head of the relevant administrative agency shall not give approval or permission, etc. falling under any of the following Subsections to a local government which exceeds pollution

loadings allotted by each local government or establishes and enforces the fundamental plan or enforcement plan unless there are special circumstances not to. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Commencement of urban development projects under the provisions of Subsection 2 of Article 2 (1) of the Urban Development Act;
2. Development of industrial sites under the provisions of Subsection 5 of Article 2 of the Industrial Sites and Development Act;
3. Development of tourism areas and tourism complexes under the provisions of Subsection 6 or 7 of Article 2 of the Tourism Promotion Act; or
4. Installation of facilities such as building, etc. of exceeding the size as determined by the Minister.

(3) Where the head of the relevant administrative agency violates Section (2) or the Metropolitan City Mayor, mayor or the head of Gun, which enforces total emission regulation of pollutant substances, does not comply with the request under the provisions of Article 14 (2), the Minister or head of the relevant central administrative agency may suspend or reduce financial support or take other necessary measures. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 16 (Contents of Environment Management Fundamental Plan)

Matters necessary for the management of environment management sea area as determined by Presidential Decree under the provisions of Subsection 5 of Article 16 (1) of the Act shall be provided with any of the following Subsections. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Evaluation and management of the performed status of environment management fundamental plan;
2. Matters regarding the total emission management of water pollution in a sea area;
3. Matters regarding the management of water quality, sediment conditions and ecosystem in a sea area;
4. Establishment of investment plans for the marine improvement of sea areas;
5. Matters regarding environment capacity expansion of sea areas such as dredging of sediment, creation of artificial habitat, etc.;
6. Technology necessary for installation, operation and management of facilities for marine pollution prevention and marine environment improvement, and financial support;
7. Matters regarding advertisement and training of marine environment conservation; or
8. Other matters deemed necessary by the Minister.

Article 17 (Organization of Project Management Group)

Project management group under the provisions of Article 16 (4) of the Act shall consist of persons falling under any of the following Subsections. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Public officials of the Ministry of Land, Transport and Maritime Affairs;
2. Public officials of the relevant central administrative agency and local government; or

3. Experts of the academic sector, research institution, etc. related to marine environment management.

Article 18 Deleted <by Presidential Decree No. 21622 on Jul. 7, 2009>

Article 19 Deleted < by Presidential Decree No. 21622 on Jul. 7, 2009>

Article 20 Deleted < by Presidential Decree No. 21622 on Jul. 7, 2009>

Article 21 Deleted < by Presidential Decree No. 21622 on Jul. 7, 2009>

Article 22 Deleted < by Presidential Decree No. 21622 on Jul. 7, 2009>

Article 23 Deleted < by Presidential Decree No. 21622 on Jul. 7, 2009>

Article 24 (Marine Environment Improvement Measure of Sea Area Management Agency)

(1) Detailed matters of marine environment improvement measures which a sea area management agency may undertake according to the provisions of Subsections 1 through 3 of the Article 18 (1) of the Act shall be provided with any of the following Subsections:

1. Installation of a floating prevention screen or corruption prevention screen;
2. Collection and disposal of various pollutant substances such as marine wastes of marine areas, etc.; or
3. Collection and disposal of pollutant substances in a sea area where pollutant substances are accumulated.

(2) In the event of being deemed necessary for improvement regarding installation and operation of waste water processing facility, excreta and livestock wastewater processing facility, the sea area management agency may request the relevant administrative agency to take necessary measures. In this case, the head of the relevant administrative agency shall comply with such request unless there are special reasons not to.

Article 25 (Calculation of Marine Environment Improvement Measure of Sea Area Management Agency)

(1) The marine environment improvement surcharge (hereinafter referred to as the “surcharge”) on marine discharging by a person who has operated a marine waste dumping business under the provisions of Subsection 1 of Article 19 (1) of the Act shall be an amount calculated according to the following equation.

Waste marine dumping quantity x unit imposition surcharge x imposition coefficient

(2) Waste marine dumping quantity shall be based on a disposal record under the provisions of Article 72 (1) of the Act and its unit standard shall be cubic meter. In this case, the number of less than cubic meter shall be applied by rounding.

(3) Unit standard imposition surcharge shall be 1,100 won.

(4) Imposition coefficient shall be provided in the attached Table 3.

Article 26 (Imposition and Collection of surcharge)

(1) The Minister shall calculate and impose the surcharge each quarter. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) The surcharge calculated under the provisions of Section (1) shall be notified for payment by the fifteen day of the following month of the quarter as determined by the Ministry of Land,

Transport and Maritime Affairs. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(3) Payment period of the surcharge shall be the last day of the month when the payment notification is made.

(4) Notwithstanding the provisions of Sections (1) through (3), where a marine waste dumping business is terminated during a quarter, the payment notification on the surcharge of each quarter shall be made within fifteen days from the date when the termination is known. In this case, the payment period of the surcharge of each quarter shall be within fifteen days from the date when the payment notification is made.

Article 27 (Payment by Installment Surcharges)

(1) A person who intends to pay the surcharge by installments under the provisions of Article 19 (3) of the Act shall submit to the Minister an application for installment payment of the surcharges within five days from the date when the payment notification is made. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) Where a payment obligor falls under any of the following Subsections, the Minister may approve the installment payment of the surcharge. In this case, the Minister shall give the applicant a written result pertaining to its result for approval. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Where the surcharge to be paid is not less than 10 million won; or

2. Where a property is considerably damaged due to natural disaster or accident.

(3) Where a payment obligor who receives a notice for the approval of installment payment falls under any of the following Subsections, the Minister may cancel the approval of installment payment and collect the total amounts related to the installment payment at once. In this case, the Minister shall give the payment obligor a written result of such intention. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. In the event of not paying the installment payment amount until the designated period; or

2. In the event of falling under any of the Article 14 (1) of the National Tax Collection Act or equivalents and being acknowledged that the total amount related to the installment payment cannot be collected.

Article 28 (Calculation, Etc. of Installment Payment Amount)

(1) Installment payments, in principle, shall be equally paid each month by dividing the surcharges of each quarter by not more than three times, and the due date of the first installment shall be the last day of the month when the payment notice for the surcharges of each quarter is made, those of the other installments shall be the last day of the following month.

(2) The installment payment obligor shall pay the sum of the remaining amount, which each installment payment amount or total installment payment amounts disbursed to the previous installment are deducted from the total amount of installment payment amounts, and its interest which is calculated for a sum of dates from the following day of the previous installment payment due date to each installment payment due date. In this case, the interest

is calculated by multiplying the amount to be disbursed by an interest rate of 6% annum.

Article 29 (Adjustment of Surcharges)

(1) The Minister shall, in the event of falling under any of the following Subsections, recalculate and adjust the surcharge and, where there is any difference between a paid amount and an adjusted amount, shall impose again or refund the difference. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Where the imposition target or calculation method of the surcharge is improperly applied;
 2. Where the calculation of installment payment amount and its interest is improperly made;
- or
3. Where the surcharge is improperly imposed because of other reasons.

(2) The Minister shall, in the event of intending to imposing or refunding the adjusted surcharge under the provisions of Section (1), give a document, in which its amount, payment due date, place of payment and other necessary matters are stated. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 30 (Application for Adjustment of surcharges)

(1) In the event of falling under any of Article 29 (1), a person who receives a notice for the payment of surcharge or obtains an approval of installment payment may adjust the surcharge within thirty days from the date when a notice for the payment of surcharge is received or an approval of installment payment is obtained.

(2) The Minister shall, where there is an application for adjustment under the provisions of Section (1), notify the applicant or new payment obligor of the handling results within thirty days and, where there is any difference between a paid amount and an adjusted amount, shall impose again or refund the difference under the provisions of Article 29 (2). <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(3) Application for adjustment under the provisions of Section (1) shall not affect the payment period of surcharge.

Article 31 (Reminder)

A reminder under the provisions of Article 20 (1) of the Act shall include amount of surcharge to be paid, additional money, payment period and place of payment.

Article 32 (Additional Money)

(1) Additional money under the provisions of Article 20 (1) of the Act shall be an amount equivalent to 5 over 100 of the arrearage surcharge.

(2) The additional money shall not be divided for payment.

Article 33 (Charge-related Project)

The term “project as determined by Presidential Decree” under the provisions of Subsection 8 of Article 21 of the Act shall mean a project falling under any of the following Subsections.

1. Project related to enforcement and support of marine pollution reduction measures; or
2. Project to support private entity for the conservation and management of marine pollution and marine pollution prevention activity.

CHAPTER III REGULATION FOR PREVENTION OF MARINE POLLUTION

Article 34 (Marine Area)

The scope of marine area under the provisions of Article 22 (2) of the Act shall be provided with the attached Table 4.

Article 35 (Designation and Announcement of Professional Inspection Institution)

(1) The term “professional inspection institution” under the provisions of Article 23 (4) of the Act shall be an institution falling under any of the following Subsections and as designated and announced by the Minister. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. National and public research institution;
2. Research institution attached to a university under the provisions of Subsection 1 of Article 2 of the Higher Education Act;
3. Government invested research institution under the provisions of the Act on the Establishment, Operation and Fosterage of Government Invested Research Institutions and the Act on the Establishment, Operation and Fosterage of Government Invested Research Institutions for Science and Technology;
4. Test and inspection institutions acknowledged under the provisions of Article 23 of the Framework Act on National Standards; or
5. Other institutions or groups deemed to possess professional inspection service capacity.

(2) Detailed evaluation method, evaluation items, evaluation standard and operation standard, etc for designation application procedure designation requirements of professional inspection institutions under the provisions of Section (1) shall be notified to the public by the Minister. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 36 (Marine Collection and Disposal Plan of Waster)

(1) The Minister shall establish a marine collection and disposal plan of waste every five years under the provisions of Article 24 (1) of the Act. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008; Jul. 7, 2009>

(2) The marine collection and disposal plan of wastes under the provisions of Section (1) shall include matters falling under any of the following Subsections.

1. Generation amount or expected generation amount of discharged or inflow waste by type and pollution source;
2. Matters regarding the reduction of generation of wastes such as marine inflow prevention, etc.;
3. Matters regarding the fundamental direction of the marine collection and disposal plan of wastes;
4. Matters regarding the expansion of marine collection and disposal capacity of wastes;
5. Matters regarding public-private cooperation; or
6. Funding plans of required financial resource.

(3) The Mayor/Do governor shall establish and pursue the annual enforcement plan of the marine collection and disposal plan of wastes under the provisions of Section (1), and submit

an annual enforcement result and pursuance result to the Minister by January of each year. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 37 (Investigation and Measurement Act)

(1) A sea area management agency shall investigate and measure the generation amount or inflow amount of waste by type and pollution source in order to establish and efficiently enforce a marine environment management master plan and the marine collection and disposal plan of wastes.

(2) The sea area management agency may request a head of relevant agencies to allow entrance in its jurisdictional limited area and to submit necessary data or provide support. In this case, the head of the agency shall comply with such request unless there are special reasons not to.

(3) The sea area management agency shall perform investigation and measurement according to the provisions of Article 24 (2) of the Act every year and, where the Mayor/Do governor is a sea area management agency, shall report its results to the Minister by the end of February of the following year. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 38 (Polluters Pay Principle, Etc.)

(1) Range of expenses for collection and disposal or storage of wastes, which are borne by a polluter, under the provisions of Article 24 (4) of the Act shall be provided with the attached Table 5.

(2) A sea area management agency shall clarify the calculation basis of expenses under the provisions of Section (1) and inform the polluter of it.

Article 39 (Qualification and Service Contents, Etc. of Marine Pollution Prevention Manager of Vessel)

(1) Qualification of a marine pollution prevention manager under the provisions of Article 32 (3) of the Act shall follow the classification falling under any of the following Subsections:

1. In the case of a vessel under the provisions of Subsection 1 of Article 2 of the Ship Officer's Act, a vessel crew under the provisions of Subsection 3 of Article 2 of the same Act, which is in compliance for the boarding standard under the provisions of Article 11 of the same Act; provided, however, that captain, remote chief operator and remote operator shall be excluded.

2. In the event of vessel which is not subject to the Ship Officer's Act or there is no crew other than a captain, a crew who is engaged in the service of transporting or discharging pollutant substance and air pollutant substance.

(2) Service content and observation matters of a marine pollution prevention manager under the provisions of Section (1) shall be provided with matters falling under any of the following Subsections:

1. Recording and storage of waste records and oil records (including a dangerous liquid material records in the case of vessel in which dangerous liquid materials are loaded and transported);

2. Direction and supervision of works in which pollutant substances are transported or discharged;
3. Maintenance of marine pollution prevention facilities and inspection of its operation status;
4. Maintenance and examination of air pollution prevention facilities;
5. Management of materials and chemicals for marine pollution prevention;
6. In the event of discharging pollutant substances under the provisions of Article 63 (1) and 64 (1) of the Act, prompt report and necessary emergency aid;
7. Completion of training and education on marine pollution prevention and control under the provisions of Article 121 of the Act and training for crew of the concerned vessel; or
8. Other matters necessary for prevention of pollution accidents from the concerned vessel.

Article 40 (Service Contents of Marine Pollution Prevention Manager of Maritime Facility)

(1) An owner of a maritime facility under the provisions of Article 36 (1) of the Act shall appoint as the marine pollution prevention manager a person who directs and supervises affairs on transporting or discharging pollutant substances under the provisions of Section (3) of the same Article.

(2) Service contents and observation items of the marine pollution prevention manager under the provisions of Article 36 (3) of the Act shall be provided with the matters falling under any of the following Subsections:

1. Recording and storage of maritime facility pollutant substance records;
2. Direction and supervision of affairs on transporting or discharging pollutant substances;
3. Maintenance of marine pollution prevention facility and inspection of its operation status;
4. Management of materials and chemicals for marine pollution prevention;
6. In the event of discharging pollutant substances under the provisions of Article 63 (1) and 64 (1) of the Act, prompt report and necessary emergency aid;
7. Completion of training and education on marine pollution prevention and control under the provisions of Article 121 of the Act and training for the crew of the concerned vessel; or
8. Other matters necessary for the prevention of pollution accidents from the concerned vessel.

Article 41 (Request for Submitting Data Necessary for Measurement and Investigation)

Data which the Minister may request the head of relevant administrative agency under the provisions of Article 39 (2) of the Act shall be provided with the matters falling under any of the following Subsections:

1. Measurement data of residue organic pollutant substance measurement network under the provisions of Article 11 of the Persistent Organic Pollutant Substance Management Act;
2. Order to improve, order to suspend usage thereof, order to close and its enforcement information under the provisions of Article 16 of the Persistent Organic Pollutant Substance Management Act;
3. Data on major discharge sources, discharge routes and discharge amount of persistent organic pollutant substances under the provisions of Article 18 of the Persistent Organic

Pollutant Substance Management Act;

4. Data on effect investigation of persistent organic pollutant substances under the provisions of Article 19 of the Persistent Organic Pollutant Substance Management Act; or
5. Information on the business type of companies to deal with persistent organic pollutant substances.

CHAPTER IV Regulation on Air Pollution Prevention in the Ocean

Article 42 (Sulfur Content Standard of Fuel Oil)

(1) The term “standard of sulfur content as determined by Presidential Decree” under the provisions of Article 44 (1) of the Act shall be provided with matters falling under any of the following Subsections:

1. Sulfur content of light-oil shall be not less than 1.0% (weight percent); provided, however, that, in the event of a vessel which navigates only within territorial waters and exclusive economic zones under the provisions of Subsections 1 and 2 of Article 3 (1) of the Act, it shall be not less than 0.05% (weight percent); or
2. Sulfur content of heavy-oil shall be not less than 2.0% (weight percent) for bunker A-oil (heavy oil A), not less than 3.0% (weight percent) for bunker B-oil (heavy oil B), and not less than 4.5% (weight percent) for bunker C-oil (heavy oil C).

(2) The term “standard of sulfur content as determined by Presidential Decree” under the provisions of Article 44 (2) of the Act shall mean that the sulfur content contained in fuel oil is 1.5% (weight percent).

Article 43 (Quality Standard of Fuel-Oil)

The term “quality standard of fuel oil as determined by Presidential Decree” under the provisions other than the Subsection of Article 45 (1) of the Act shall mean quality standards in accordance with the classification falling under any of the Subsections. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Fuel-oil which is manufactured in accordance with the method of purifying petroleum shall have requirements falling under any of the following Items:
 - A. It shall be a hydrocarbon mixture (including additives for increasing performance);
 - B. Inorganic acid shall not be contained; and
 - C. Additives or chemical waste as determined by the Ordinance of the Ministry of Land, Transport and Maritime Affairs shall not be contained.
2. Fuel-oil which is manufactured in accordance with methods other than the provision of Subsection (1) shall have requirements falling under any of the following Items:
 - A. Nitrogen oxide discharged when a vessel engine is operated shall not exceed the emission permission standard of nitrogen oxide under the provisions of the main part other than the Subsection of Article 43 (1) of the Act;
 - B. Inorganic acid shall not be contained in the raw materials to be mixed;
 - C. Vessel safety shall not be interfered with or machine performance shall not be negatively affected;
 - D. It shall not be harmful to humans; and

E. Air pollution shall not be increased.

CHAPTER V MEASURES FOR MARINE POLLUTION PREVENTION

Article 44 (Establishment and Enforcement of National Emergency Prevention Plan, Etc.)

(1) Matters which are included in the national emergency prevention plan under the provisions of Article 61 (1) of the Act shall be provided with matters falling under any of the following Subsections:

1. Pre-prevention plan against discharge of pollutant substance:

A. Formation and operation of national prevention system and its corresponding organization;

B. Duties and roles of relevant institutions, etc. for preparation and countering of marine pollution;

C. Security of preventive equipments, materials and chemicals;

D. Training and education for preparation and confrontation of marine pollution;

E. Formation and operation of prevention support and cooperation system between neighboring nations;

F. Consulting and support of prevention technology expert; and

G. Investigation and research and technology development, etc. for the prevention of marine pollution.

2. Preventive measure plans when pollutant substances are discharged:

A. Scope of emergency prevention measure to be enforced by the State;

B. Prevention enforcement such as pollution site investigation, determination of preventive method, direction and control of accident sea area, etc.;

C. Emergency mobilization and support of preventive facility, materials and chemicals;

D. Security of marine safety and measures for danger prevention;

E. Follow up management such as marine pollution accident effect and damage investigation; and

F. Other necessary matters related to preventive measure.

(2) The Commissioner of the Korean Coast Guard may establish and enforce a local emergency prevention enforcement plan conforming to the local situation in order to enforce smoothly a national emergency prevention plan.

(3) Matters to be contained in the local emergency prevention enforcement plan shall be determined by Presidential Decree. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 45 (Organization and Operation, Etc. of Prevention Center)

(1) The head of a prevention center (hereinafter referred to as the “center head” in this Article) under the provisions of Article 62 (3) of the Act shall be the Commissioner of the Korean Coast Guard, and its members shall be organized with public officials of the Korean Coast Guard and persons dispatched by the head of the relevant organizations.

(2) The center head may request the head of relevant organizations for the dispatch of

persons to work in the prevention center and the support for necessary man-power and equipments required for prevention affairs. In this case, the head of relevant organizations shall comply with such request unless there are justifiable reasons not to.

(3) The center head shall perform affairs falling under any of the following Subsections:

1. Analysis and evaluation of pollution accident and supervision of prevention;
2. Prevention support and cooperation between neighboring countries; or
3. Other necessary matters related to prevention measures.

(4) The center head may organize and operate a prevention technology support committee, organized with relevant experts, in order to provide for technology support and consulting for conservation of marine environment and scientific prevention.

(5) Organization and operation of the prevention center and the prevention technology support committee, disbursement of an allowance and other necessary matters shall be separately determined by the Commissioner of the Korean Coast Guard.

Article 46 (Organization Operation, Etc. of Local Prevention Center)

(1) The head of a local prevention center (hereinafter referred to as the “local center head” in this Article) under the provisions of Article 62 (3) of the Act shall be the head of a competent local coast guard, and its members shall be organized with public officials of local coast guards and persons dispatched by the head of the relevant competent organizations.

(2) The local center head may request the head of the relevant competent organizations for the dispatch of persons to work in the local prevention center and the support for necessary man-power and equipments required for prevention affairs. In this case, the head of the relevant competent organizations shall comply with such request unless there are justifiable reasons not to.

(3) The local center head shall perform affairs falling under any of the following Subsections:

1. Prevention measures against discharge and expansion of pollutant substances;
2. Determination of mobilization range of prevention man-power, equipments, etc. and field guidance and control;
3. Establishment of prevention strategy and determination and enforcement of prevention methods; or
4. Other necessary matters related to prevention measures.

(4) The local center head may organize and operate a local marine pollution prevention committee, organized with public officials of competent organizations having jurisdiction over the relevant areas, director employee of a relevant organization, companies and representative of local residents, etc. In this case, a person related to the pollution accident shall be excluded from the members of the local marine pollution prevention committee.

(5) Organization and operation of the local prevention center and the local marine pollution prevention committee, disbursement of an allowance and other necessary matters shall be separately determined by the Commissioner of the Korean Coast Guard.

Article 47 (Reporting Criteria, Etc. When Pollutant Substances are Discharged)

The emission criteria as determined by Presidential Decree in parts other than each

Subsection of Article 634 (1) of the Act shall refer to the criteria of the attached Table 6.

Article 48 (Prevention Measure In Case of Discharging Pollutant Substances)

(1) Prevention measures under the provision of Article 64 (1) of the Act shall mean measures falling under any of the following Subsections, which shall be the most effective and suitable in a field after taking an emergency measure for emission prevention of pollutant substances and expansion prevention and removal of the discharged pollutant substances:

1. Installation of expansion prevention fence of pollutant substances and other measures necessary for expansion prevention;
2. Emission prevention measures of pollutant substances such as emergency repair of damaged parts of vessel or facility, towing and lifting measures of vessel body, etc.;
3. Measures for transferring pollutant substances loaded in a vessel or facility to other vessels, facilities or cargo hold;
4. Recovery measures of the discharged pollutant substances;
5. Removal measures of pollutant substances depending on use of materials and chemicals for marine pollution prevention;
6. Prevention measures of secondary pollution due to the collected pollutant substances; or
7. Safe disposal measures of materials, of which reuse is impossible, among the collected pollutant substances and materials and chemicals used for prevention.

(2) In the event of being necessary for preventive measures under the provisions of Section (1), the Commissioner of the Korean Coast Guard may take measures falling under any of the following Subsections or request the relevant institutions to take such measures:

1. Control of vessels to transport in a polluted sea area;
2. Measures for vessel safety of a polluted sea area; or
3. Support of man-power, equipment and facilities, etc.

Article 49 (Prevention Measure Order)

A prevention measure order under the provisions of Article 64 (3) of the Act shall contain matters falling under any of the following Subsections:

1. Period of prevention measure;
2. Designation of sea area required for prevention measure; or
3. Prevention measure under the provisions of Article 48 (1).

Article 50 (Scope of Expense Burden)

(1) Scope of expense burden for prevention measures which are liable by the prevention obligor under the provisions of the latter part of Article 64 (4) of the Act or the main part of Article 68 (2) of the Act shall be provided in the attached Table 7.

(2) In the event of imposing expenses of Section (1) to an owner of a vessel or maritime facility under the provisions of the latter part of Article 64 (4) of the Act or the main part of Article 68 (2) of the Act, a prevention measure institution shall notify clearly the calculation basis of the expense to the prevention obligor.

Article 51 (Arrangement, Etc. of Prevention Ship, Etc.)(1) Where a prevention ship or prevention equipment (hereinafter referred to as the “prevention ship, etc.”) is arranged

and installed (including joint arrangement and installation; hereinafter the same shall apply in this Article) under the provisions of Sections (1) and (2) of the Act, an owner of a vessel or maritime facility shall comply with the attached Table 8.

(2) Matters necessary for arrangement and installation other than Section (1) shall be determined by the Ordinance of the Ministry of Land, Transport and Maritime Affairs. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(3) Where the Korea Marine Environment Management Corporation (hereinafter referred to as the “corporation”) to whom an arrangement of prevention ship is entrusted under the provisions of the latter part of Article 67 (4) of the Act takes a prevention measure or emission prevention measure, the prevention obligor shall be liable for expenses.

Article 52 (Prevention Measures and Expense Burden of Administrative Agency)

(1) Where pollutant substances of which a prevention obligor is unclear is discharged, the Commissioner of the Korean Coast Guard, the head of the City/Gun/Gu (referring to the head of Gu which is a local government; hereinafter the same shall apply) or the head of an administrative agency which manages facilities under the provisions of Section (4) (hereinafter referred to as the “prevention measure institution”) shall preferentially take preventive measures.

(2) The prevention measure institution under the provisions of Section (1) shall preferentially take preventive measures and, in the event of falling under any of the following Subsections, may request the president of the corporation to take preventive measures. In this case, the president of the corporation shall comply with such request unless there are justifiable reasons not to.

1. Where pollutant substances of which a prevention obligor is unclear is discharged; or

2. Where prevention measures of prevention obligor under the provisions of Article 68 (1) of the Act is difficult or an emergency measure is required.

(3) In the event of taking a preventive measure under the provisions of Section (2), the president of the corporation may request a preventive measure institution to pay the necessary expenses, and the preventive measure institution shall pay it to the president of the corporation.

(4) The term “facility as determined by Presidential Decree” under the proviso of Article 68 (1) of the Act shall mean a harbor facility under the provisions of Subsection 6 of Article 2 of the Harbor Act.

Article 53 (Exemptions of Expense Burden)

The term “case as determined by Presidential Decree” under the proviso of Article 68 (2) of the Act shall mean cases such as war and calamity, or other forces majeure.

Article 54 (Imposition Criteria and Procedure of Prevention Share)

(1) Imposition criteria and procedure of prevention share which an arrangement obligor shall pay to the corporation under the provisions of Article 69 (3) of the Act shall be provided under the attached Table 9.

(2) Imposition amount of shares shall be recalculated every five years.

(3) Other matters necessary for imposition and collection procedure of shares shall be determined by the Articles of Incorporation under the provisions of Article 98 (1) of the Act.

CHAPTER VI MARINE ENVIRONMENT MANAGEMENT BUSINESS, ETC.

Article 55 (Registration of Marine Environment Management Business)

(1) A person who intends to register a waste marine dumping business, waste marine collection business and accumulated pollutant substance collection business under the provisions of Subsections 1, 4 and 5 of Article 70 (1) of the Act shall submit to the Minister a registration form (including an application form made by an electronic document) attached with documents of the attached Table 10 (including an electronic document). In this case, a public official in surcharge shall confirm a corporation register (limited to a corporation) through the joint use of administrative information under the provisions of Article 21 of E-Government Act and, in the event of disagreeing with the confirmation the applicant shall attach such documents. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) A person who intends to register a marine pollution prevention business and oil tank cleaning business (hereinafter referred to as the “prevention and cleaning business”) under the provisions of Subsections 2 and 3 of Article 70 (1) of the Act shall submit documents listed in the attached Table 10 to the Commissioner of the Korean Coast Guard. In this case, the provisions of the latter part of Section (1) shall apply mutatis mutandis to the registration application procedure of the prevention and cleaning business.

(3) The Minister or Commissioner of the Korean Coast Guard shall issue a registration certificate, as determined by the Ordinance of the Ministry of Land, Transport and Maritime Affairs, to a person who registered a marine environment management business under the provisions of Sections (1) and (2). <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 56 (Technology Capacity Standard of Marine Environment Management Business)

The technology capacity standard of a person who intends to operate a marine environment management business under the provisions of Article 70 (2) of the Act shall be provided according to the attached Table 11.

Article 57 (Vicarious Execution of Measurement of Waste, Etc.)

A person who intends to entrust and dispose wastes under the provisions of Article 76 (3) of the Act shall have a professional investigation institution as designated under the provisions of Article 35 (1) vicariously execute affairs regarding measurement of components, concentration, weight and volume of waste.

CHAPTER VII MARINE POLLUTION EFFECT INVESTIGATION

Article 58 (Marine Pollution Effect Investigation)

(1) The term “scale as determined by Presidential Decree” under the provisions of Article 77 (1) of the Act shall mean a scale according to the attached Table 12.

(2) The designation standard of marine pollution effect investigation institution (hereinafter referred to as the “investigation institution”) under the provisions of Article 77 (2) of the

Act shall be provided according to the attached Table 13.

(3) The term “period as determined by Presidential Decree” under the provisions of Article 77 (3) of the Act shall mean three months after an accident occurs, and the term “case which is deemed necessary for an emergency investigation as determined by Presidential Decree” shall mean a case falling under any of the following Subsection. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. In the event of discharging pollutant substances exceeding the size as determined by the Ordinance of the Ministry of Land, Transport and Maritime Affairs; or

2. In the event of expecting large damage to a cultivating facility, etc. because of the expansion of pollutant substances.

Article 59 (Detailed Items by Field of Marine Pollution Effect Investigation)

(1) Detailed items by field of marine pollution effect investigation under the provisions of Article 78 of the Act shall be provided according to the attached Table 14.

Article 60 (Expense of Marine Pollution Effect Investigation)

(1) The Minister may designate a standard expense necessary for investigation by considering sea area and amount of generated pollution under the provisions of Article 80 of the Act and notify it to the public. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) The term “cases falling under reasons as determined by Presidential Decree” under the proviso of Article 80 (1) of the Act shall mean a case falling under any of the following Subsections:

1. In the event of falling under the provisions of Subsection 1 or 3 of Article 22 (3) of the Act; or

2. Where a vessel owner or an installer of maritime facility declares bankruptcy.

CHAPTER VIII SEA AREA UTILIZATION CONFERNECE

Article 61 (Sea Area Utilization Conference)

(1) A sea area utilization conference subject project under the provisions of Article 84 (1) of the Act shall be a project to greatly affect marine environments and classified into a project required for the prudent review and conference (hereinafter referred to as the “general sea area utilization conference project”) and a small-scale project to slightly affect marine environments (hereinafter referred to as the “simple sea area utilization conference project”).

(2) Scope of the subject project to convening a general sea area utilization conference and a simple sea area utilization conference under the provisions of Section (1) shall be provided in accordance to the attached Table 15.

Article 62 (Sea Area)

The term “sea area as determined by Presidential Decree” under the proviso of Subsection 3 of Article 84 (1) of the Act shall mean a special management sea area under the provisions of Article 15 of the Act.

Article 63 (Sea Area Utilization Effect Assessment)

(1) The term “scale as determined by Presidential Decree” under the main part other than each Subsection of Article 85 (1) of the Act shall be provided according to the attached Table 16.

(2) A project which is excluded from a sea area utilization effect assessment under the proviso other than each Subsection of Article 85 (1) of the Act shall mean an environment effect assessment subject project (hereinafter referred to as the “environment effect assessment subject project”) under the attached Table 1 of the Enforcement Decree of the Environment Effect Evaluation Act; provided, however, that the same shall not apply to a project falling under any of the following Subsections, which is performed in seas or seashores (cases containing a river under the provisions of Subsection 1 of Article 2 of the River Act shall be excluded.) under the provisions of Article 2 of the Public Waters Management Act, among the environment effect evaluation subject projects. <Amended by Presidential Decree No. 21865 on Dec. 24, 2008>

1. Collection of mineral resources under the provisions of the Mining Act;
2. Collection of aggregates under the provisions of Article 22 of the Aggregate Collection Act;
3. Designation of aggregate collection complex under the provisions of Article 34 of the Aggregate Collection Act; or
4. Submarine mining for the purpose of the development of submarine mineral resources under the Submarine Mineral Resources Development Act.

Article 64 (Preparation Method, Etc. of Sea Area Utilization Effect Evaluation Report, Etc.)

(1) Sea area utilization evaluation report, etc. under the provisions of Article 85 of the Act shall be prepared according to a scientific investigation method, etc. so as to secure confidence according to the marine environment process test standards under the provisions of Article 10.

(2) A sea area utilization effect agent (hereinafter referred to as the “evaluation agent”) under the provisions of Article 86 (1) of the Act shall prepare faithfully an evaluation report according to the contract and based on due diligence.

(3) An evaluation agent shall prepare evaluation agency results until January 31 of every year and report it to the Minister. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 65 (Registration Application, Etc. of Evaluation Agency)

A person who intends to register as an evaluation agent under the provisions of Article 86 (1) of the Act shall attach documents falling under any of the following Subsections to a registration (alteration registration) application form and submit it to the Minister; provided, however, that, in the event of confirming information pertaining to the attached documents through joint use of administrative information under the provisions of Article 21 (1) of the E-Government Act, the attached documents may be replaced with only the confirmation. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. One copy of corporate register (in the event of a person, a copy of the certificate of

business registration);

2. One copy of facility & equipment statement; provided, however, that, in the event of entering into a contract to use the facility and equipment of other person, one copy of the contract; or

3. One copy to certify the retention status of technology capacity and its qualification.

Article 66 (Calculation Standard of Evaluation Agency Expense)

The Minister shall determine the calculation standard of necessary expenses for the service agency of an evaluation agent registered under the provisions of Article 65 and notify it to the public. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 67 (Notification of Opinion, Etc.)

(1) The Minister shall, in the event of being requested a sea area utilization conference or sea area utilization effect evaluation (hereinafter referred to as the “sea area utilization conference, etc.”) from a disposition agency under the provisions of Article 91 (1) of the Act, notify its review opinion within a period as determined by the Ordinance of the Ministry of Land, Transport and Maritime Affairs. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) Where a subject project of the competent sea area utilization conference, etc. greatly affects the marine environment and it may potentially cause environment damage before the notification of opinion under the provisions of Article 91 (1) of the Act, the Minister may make a field survey. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(3) The term “sea area utilization effect review institution as determined by Presidential Decree” shall mean the National Fisheries Research & Development Institute.

(4) In the event of falling under any of the following Subsections, the Minister may request a disposition agency to supplement documents of sea area utilization conference, etc. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Where an effect analysis to affect marine environment is omitted or insufficient;
2. Where important matters such as providing an opinion of the sea area utilization conference, etc. for the project without the supplementation are omitted or insufficient;
3. Where the environment situation investigation, effect prediction, analysis and reduction measures are not sufficient; and
4. Where the contents of the collected opinion of the interested party such as residents are not reflected (limited to a sea area utilization effect evaluation report.)

(5) The Minister’ s request for the supplementation under the provisions of Section (4) shall be limited to once in principle; provided, however, that, in the event of judging that no opinion on the request of the sea area utilization conference, etc. shall be determined without additional supplementation, the same shall not apply. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 68 (Demur)

(1) A person who intends to apply for an objection against the opinion notified under the provisions of the former part of Article 92 (1) of the Act shall submit to the Minister a demurrer

application containing matters falling under any of the following Subsections. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Contents and reasons of demur;
2. Contents to change a notified opinion; or
3. Analysis of effects according to the change of a notified opinion.

(2) The Minister who receives the demur under the provisions of Article 92 (2) of the Act shall notify to the demur applicant the review results of such contents containing matters falling under any of the following Subsections. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Whether or not to agree with the contents of the objection;
2. Propriety analysis results of the contents and reasons for demur; and
3. Suggestion of environment pollution reduction plan according to change of the notified opinion.

Article 69 (Ex Post Facto Service)

(1) A disposition agency shall inform the Minister by January 31 of the following year of the ex post facto service results such as whether or not to enforce the agreed upon matters under the provisions of Article 93 (2) of the Act. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) In the event that a sea area utilization operator or evaluation subject operator (hereinafter referred to as the “sea area utilization operator, etc.”) have not enforced contents of the sea area utilization conference, etc. and opinion on the sea area utilization conference, etc., a disposition agency shall order to take measures necessary for such enforcement.

(3) Where the sea area utilization operator, etc. do not carry out a measure ordered under the provisions of Section (2), the disposition agency shall order to take second measures and, in the event of not enforcing the second measure order until its due date, shall order to suspend the competent project until such order is carried out.

(4) In the event of taking measures or orders under the provisions of Sections (2) and (3), the disposition agency shall inform the Minister without delay of the contents. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(5) The Minister and disposition agency may have the sea area utilization operator, etc. submit data related to the agreed contents so as to confirm whether or not to take an enforcement under the provision of Article 93 (2) of the Act. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 70 (Subject Target)

(1) Where the sea area utilization operator, etc. obtains a license, etc. for a project plan under the provisions of Article 94 (1) and alters the project plan, a disposition agency shall inform the Minister of it. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) Where a project scale is decreased and the changed project scale is subject to the simple sea area utilization conference project when applying Article 94 (1) of the Act, it shall not be deemed as “a case of changing a project plan” .

Article 71 (Marine Environment Effect Investigation Subject Project, Etc.)

(1) The investigation period and investigation cycle by subject project which sea area utilization operator, etc. shall investigate the marine environment effect under the provisions of Article 95 (4) of the Act shall be provided under the attached Table 17.

(2) Items to conduct the marine environment effect investigation under the provisions of Article 95 (4) of the Act shall be provided with each of the following Subsections:

1. Items in which the marine environment standards under the provisions of Article 8 (1) of the Act shall be designated; and
2. Items in which the marine environment standards under the provisions of Article 8 (1) of the Act is not designated but designated by the Minister in the event of notifying the opinion for sea area utilization statement or sea area utilization effect evaluation statement under the provisions of Article 91 (1) of the Act.

CHAPTER IX MARINE ENVIRONMENT MANAGEMENT CORPORATION

Article 72 (Projects of Corporation)

(1) The term “project as determined by Presidential Decree” under the provisions of item C of Subsection 3 of Article 97 (1) of the Act shall mean projects falling under any of the following Subsections:

1. Preparation agency of a vessel marine pollution emergency plan under the provisions of Article 31 (1) of the Act and a maritime facility pollution emergency plan under the provisions of Article 35 (1) of the Act;
2. International cooperation related to marine pollution prevention;
3. Research, development and technology service business related to marine pollution prevention;
4. Training, education and public relations related to marine pollution prevention; and
5. Management of a sunken ship (including a ship to be sunken and a foundering ship).

(2) The term “project as determined by Presidential Decree” under the provisions of Subsection 8 of Article 97 (1) of the Act shall mean projects falling under any of the following Subsections: <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Affairs regarding components, concentration, weight and volume of wastes under the provisions of Article 76 (2);
2. Marine pollution effect investigation under the provisions of Article 77 (1);
3. Vicarious execution of preparation of a sea area utilization effect evaluation report under the provisions of Article 86 (1);
4. Performance test for a marine environment measurement apparatus or materials and chemicals under the provisions of Article 110 (5);
5. Operation of a vessel for disposal of wastes;
6. Leasing business of portfolios for securing financial resources of marine environment related projects;
7. Management of abandoned vessels;

8. Projects which a corporation may conduct under the provisions of other laws and regulations; and

9. Projects necessary for the purpose of establishment of the corporation and which is subject to approval by the Minister.

(3) The term “facility as determined by Presidential Decree” under the provisions of Article 97 (2) shall mean a facility falling under any of the following Subsections: <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Marine environment measurement facility under the provisions of Article 9 (1) of the Act;

2. Inflow prevention facility of pollutant substances and the collection and disposal facility of pollutant substances under the provisions of Article 18 (1) of the Act;

3. Storage facility of pollutant substances under the provisions of Article 38 of the Act;

4. Vessel scrapping plant under the provisions of Article 111 (3) of the Act;

5. Incidental facilities related to disposal of wastes which are discharged into the ocean or are incoming; and

6. Facilities necessary for the purpose of establishment of a corporation, of which installation is approved by the Minister.

Article 73 (Operation of Council, Etc.)

(1) Matters of any of the following Subsections under the provisions of Article 102 (5) of the Act shall undergo a decision of a council.

1. Matters regarding project plans, budgets and account settlement of the corporation;

2. Matters regarding alteration of the Articles of Incorporation;

3. Matters regarding contribution, donation and borrowing under the provisions of Article 104;

4. Matters regarding issue of bonds under the provisions of Article 106;

5. Matters regarding enactment, revision and abrogation of provisions enacted by the Articles of Incorporation;

6. Matters regarding acquisition, management and disposal of important properties;

7. Matters regarding dissolution and liquidation of a corporation; and

8. Matters regarding lawsuits and settlement.

(2) Other matters necessary for operation of a council shall be determined by the Articles of Incorporation.

Article 74 (Contribution)

The corporation shall, in the event of contributing or donating under the provisions of Article 104 (1) of the Act, submit a plan containing matters falling under any of the following Subsections to the Minister. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Necessity of contribution or donation;

2. Type and price of properties to be contributed and donated;

3. Contribution or donation subject of the project summary; and

4. Other matter necessary for contribution or donation.

Article 75 (Borrowing)

The corporation shall, in the event of intending to obtain approval of fund borrowing under

the provisions of Article 104 (3) of the Act, submit a borrowing approval application form containing matters falling under any of the following Subsections to the Minister. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Reason for borrowing and its amount;
2. Place to be borrowed;
3. Condition of borrowing;
4. Repayment method and repayment period of borrowing amount; and
5. Copy of minutes of council which fund borrowing was determined.

Article 76 (Type of Bonds)

Bonds to be issued by the corporation under the provisions of Article 106 (1) of the Act shall be an unregistered type; provided, however, that, in the event of a request from a subscriber or bearer, it may be a registered type.

Article 77 (Issuance Method of Bonds)

(1) Bonds to be issued by the corporation shall be issued by method of subscription or acquisition or sales.

(2) Where bonds are issued in the method of sales under the provisions of Section (1), the sales period and matters falling under the provisions of Subsection 1 through 6 of Article 78

(2) shall be notified in advance to the people.

Article 78 (Subscription of Bonds, Etc.)

(1) A person who intends to subscribe for the collection of bonds shall write the number and acquisition price of bonds to be acquired and address of the subscriber in two copies of bond subscription form and sign and seal them; provided, however, that, in the event of determining the minimum price of a bond and issuing it, the subscription price shall be stated.

(2) The bond subscription application form shall contain matters falling under any of the following Subsections:

1. Name of the corporation;
2. Total issuing amount of bonds;
3. Par value of bonds by type;
4. Interest of bonds;
5. Method and period of bonds repayment and method of disbursing interest;
6. Price of bond issuance and its minimum price;
7. Total amount where there are bonds not to be paid; and
8. Where there is a company to be entrusted with the collection of bonds, its trade name and address.

Article 79 (Method of Acquisition)

In the event of acquiring total amount of bonds by contract, Article 78 shall not apply. Where a company which the collection of bonds is entrusted acquires part of such bonds, the same shall apply to the acquired bonds.

Article 80 (Total Bond Issuance Amount)

In the event of issuing bonds, even if the total amount which is actually subscribed to is less

than the total amount of issued bonds which is stated in the bond subscription form, the corporation may indicate the intention of bonds to be issued. In this case, the total subscription amount shall be the total issuance amount.

Article 81 (Payment of Bond Subscription Price Etc.)

(1) In the event of finalizing the subscription of bonds, the corporation shall pay the total amount of bond value acquired by a subscriber without delay.

(2) A company in which the collection of bonds is entrusted may conduct the act under the provisions of Section (1) in its name for the corporation.

(3) In the event of issuing bonds in a method of subscription, if the total amount of payment corresponding to its total issuance amount is not paid, it shall be issued.

Article 82 (Written Matters of Bonds)

The bonds shall contain matters falling under any of the following Subsections and the president of the corporation shall sign and seal it:

1. Name of the corporation;
2. Matters falling under the provisions of Subsections 2 through 5 of Article 78 (2) (in the event of issuing bonds by method of sale, the provisions of Subsection 2 of Article 78 (2) shall be excluded);
3. Number of bonds; and
4. Issuance year and date of bonds.

Article 83 (Original Register of Bonds)

(1) The corporation shall keep the original register of bonds and state matters falling under any of the following Subsections:

1. Number of bonds by type and its number;
2. Issuance year and date of bonds; and
3. Matters falling under the provisions of Subsections 2 through 5 and 8 of Article 78 (2).

(2) Where the bond is a registered type, matters falling under any of the following Subsections other than the matters of each Subsection of Section (1) shall be stated:

1. Name and address of the bond holder; and
2. Acquisition date of bonds.

(3) An owner or holder of a bond can request for the perusal of the original register of bonds at any time during the working hours of the corporation.

Article 84 (Interest Deficiency)

(1) In the event of repaying an unregistered bond with interest, if such interest is deficient, the amount corresponding to the interest shall be deducted from the repayment amount.

(2) Holder of interests under the provisions of Section (1) may request for the disbursement of the amount deducted by such interest and repayment.

Article 85 (Notice to Bond Holder, Etc.)

(1) The corporation shall give a notification or call a notice at an address, which stated in its bond subscription form, to a subscriber or the person reserved with rights prior to issuing bonds.

(2) The corporation shall give a notification or call a notice to a holder of an unregistered bond in the method of announcement; provided, however, that, in the event of knowing the address, the same shall not apply.

(3) The corporation shall give a notification or call a notice at an address, which is stated in a bond subscription form, to a holder of a registered bond. In this case, where the corporation is notified of the address, it shall be served at the respective address.

Article 86 (Project Operation Plan and Budget)

(1) The corporation shall prepare a project operation plan and budget plan of the following fiscal year by November 30 of every year under the provisions of Article 107 (2) of the Act and submit them to the Minister and obtain its approval. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) The budget plan under the provisions of Section (1) shall contain general budget rules, estimated financial statement and estimated profit & loss statement and attach the appendix necessary for the clarification of such contents.

(3) In the event of altering the project operation plan and budget which are approved by the Minister, the corporation shall submit to the Minister documents which contain the reasons and contents of alteration. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 87 (Submittal of Account Settlement)

Account settlement of every fiscal year which the corporation submits to the Minister under the provisions of Article 107 (3) of the Act shall be attached with documents falling under any of the following Subsections. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Financial statement and profit & loss statement of each year;
2. Project plan of each year and comparison table of the execution results;
3. Audit report of accounting corporation; and
4. Other documents necessary for the clarification of settlement contents.

CHAPTER X SUPPLEMENTARY PROVISIONS

Article 88 (Entering Agreement)

(1) Where the vessel safety technology authority and classification society under the provisions of Article 112 (1) and (2) intend to enter into an agreement, a conclusion of an agreement shall be filed to the Minister as determined by the Ordinance of the Ministry of Land, Transport and Maritime Affairs. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) The period of agreement under the provisions of Section (1) shall be not longer than five years, and may be extended as determined by the Minister and Commissioner of the Korean Coast Guard. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(3) Matters to be included in the agreement under the provisions of Section (1) shall be prescribed under the attached Table 18.

(4) In the event of entering into an agreement, the Minister and Commissioner of the Korean Coast Guard shall publicly notify its contents. <Amended by Presidential Decree No. 20722

on Feb. 29, 2008>

Article 89 (Entrance Inspection and Report, Etc.)

(1) In the events falling under any of the following Subsections under the provisions of Article 115 (1) of the Act, the Minister may have its public official perform an entrance inspection affair to a vessel, business place or office related to vessels. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. In the event of being necessary for pollution prevention of vessels; and
2. In the event of being deemed necessary for entering a vessel, business place or office related to vessels after reviewing data reported from an agency institution.

(2) Entrance inspection and report to vessels under the provisions of Subsection 1 of Section (1) may be enforced once a year for each vessel; provided, however, that the same shall not apply to a special case such as vessel accidents, etc.

(3) In the events falling under any of the following Subsections, the Minister may have its public officials enter and inspect affairs of maritime facilities under the provisions of Article 115 (1) of the Act. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. In the event of checking whether collection, disposal and storage of pollutant substances under the provisions of Subsection 1 of Article 37 (1) of the Act and the provision of Article 38 of the Act are illegal;
2. In the event of judging that a maritime facility reported under the provisions of Article 33 of the Act discharges residual organic pollution materials under the provisions of Article 39 of the Act exceeding its criteria in an environment management sea area;
3. In the event of checking whether or not to be legal in a process of which a vessel oil supplier under the provisions of Article 45 of the Act supplies fuel-oil to a vessel;
4. In the event that there is suspicion that a person who has installed an oil mist emission controller under the provisions of Article 47 (2) of the Act discharges oil-mist; and
5. Where data submitted related to the business activity of waste marine collection businesses and accumulated pollutant substance collection businesses under the provisions of Subsections 4 and 5 of Article 70 (1) of the Act is insufficient or inaccurate.

(4) In the event falling under any of the following Subsections, the Commissioner of the Korean Coast Guard may have data, as determined by the Ordinance of the Ministry of Land, Transport and Maritime Affairs, submitted or reported, or enter the facility to confirm and inspect it thereof. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. In the event of checking whether or not to furnish a maritime facility pollutant substance record under the provisions of Article 34 of the Act and to maintain the records;
2. In the event of checking whether or not to enforce a maritime facility pollution emergency plan under the provisions of Article 35 of the Act and finding that it is appropriate;
3. In the event of checking whether or not to appoint a marine pollution prevention manager under the provisions of Article 36 of the Act and finding that training is completed and service management is well;
4. In the event of checking whether or not to keep the materials, chemicals and to arrange

and install a prevention ship under the provisions of Articles 66 and 67 of the Act;

5. In the event of checking that a waste marine dumping business, marine pollution prevention business and oil-tank cleaning business under the provisions of Subsections 1 through 3 of Article 70 (1) of the Act perform its respective obligation under the provisions of Article 72 of the Act; and

6. In the event of checking whether or not to perform the obligation of waste consignor under the provisions of Article 76 of the Act.

(5) The term “emergency situation as determined by Presidential Decree” under the provisions of Article 115 (3) of the Act shall mean cases falling under any of the following Subsections:

1. In the event of generating marine pollution in a vessel;
2. In the event that there are risks that marine pollution may be generated due to vessel accident; and
3. Where marine pollution of which cause is unknown is generated and its cause cannot be confirmed.

Article 90 (Marine Environment Observer)

(1) The Minister or Commissioner of the Korean Coast Guard may appoint as a marine environment observer a person falling under any of the following Subsections among its public officials. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. A person who is a marine engineer, marine resource developer, marine environment engineer, marine investigation engineer, shipbuilding engineer, water quality environment engineer, air quality environment engineer, waste disposal engineer, chemical engineer, dangerous material engineer or higher or acquires the qualification of third class mater, engineering officer or navigator;
2. A person who has experience of more than one year working in a field related to marine environment;
3. A person appointed as an open port supervising officer under the provisions of Article 17 (1) of the Enforcement Decree of the Public Order in Open Port Act; and
4. A person appointed as a vessel inspector under the provisions of Article 76 of the Vessel Safety Act. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) Duties of a marine environment observer shall be provided under any of the following Subsections: <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. A marine environment observer under the Minister:
 - A. Matters regarding entrance inspection and report under the provisions of Article 89 (1);
 - B. Supervision of waste incoming into a marine space or discharging into the ocean;
 - C. Investigation of water quality and pollution sources in a marine space;
 - D. Direction and inspection to a business facility of a waste marine collection operator and accumulated pollutant substance collection operator;
 - E. Investigation of pollution source for the improvement of the marine environment in an environment management sea area; and

F. Direction check-up for emission supervision of pollutant substances from a maritime facility and marine pollution thereby (excluding affairs related to a maritime facility pollutant substance record, maritime facility pollution emergency plan and marine pollution prevention manager.)

2. A marine environment observer under the Commissioner of the Korean Coast Guard:

A. Matters regarding entrance inspection and report under the provisions of Subsection 8 of Article 94 (2);

B. Direction check-up for emission supervision of pollutant substances from a maritime facility and marine pollution thereby (limited to affairs related to a maritime facility pollutant substance record, a maritime facility pollution emergency plan and a marine pollution prevention manager.)

C. Inspection and guidance for facilities operated by a waste marine discharging business, marine pollution prevention business, oil tank cleaning business and a waste subcontractor;

D. Inspection on the arrangement and installation of a prevention ship and the provision of materials and chemicals in a maritime facility; and

E. Investigation and collection, etc. of pollution samples for identification and analysis in the event of being deemed that pollutant substances are discharged or are suspected of discharging.

Article 91 (National Support, Etc.)

A business and act which the State or local government can support to a private group under the provisions of Article 119 (3) of the Act shall be provided under any of the following Subsections:

1. Marine pollution supervision and marine environment purification activity;

2. Marine pollution prevention work;

3. Research & development related to marine environment; and

4. Investigation, research, advertisement and education of marine environment.

Article 92 (Training Education for Marine Pollution Prevention Manager, Etc.)

(1) A marine pollution prevention manager or technology staff who engages in a marine environment management business shall take training and education courses necessary for the performance of relevant duties and falling under any of the following Subsections:

1. Course for a marine pollution prevention manager of vessel;

2. Course for a marine pollution prevention manager of maritime facilities; and

3. Course for marine pollution prevention and control of marine environment management business.

(2) The corporation shall operate training and education courses of Section (1) under the provisions of Subsection 6 of Article 123 (3) of the Act and Subsection 6 of Article 95 (1) of this Decree.

(3) Matters regarding the acknowledgement of training and education courses similar to the training and education courses of Section (1) shall be determined by the Ordinance of the Ministry of Land, Transport and Maritime Affairs. <Amended by Presidential Decree No.

20722 on Feb. 29, 2008>

Article 93 (Exemption of Fee Collection)

Where a payment obligor of a prevention share under the provisions of Article 69 (1) of the Act entrusts the corporation with arrangement and installation of prevention ship, etc. under the provisions of Article 67 of the Act when the corporation collects fees due to the arrangement and installation of prevention ships, etc. under the provisions of Article 122 (2), the fees may be exempted.

Article 94 (Delegation of Authorities)

(1) The Minister may delegate its authorities on the designation and announcement of a professional inspection institution under the provisions of Article 23 (4) of the Act and Article 35 of this Decree to the Commissioner of the Korean Coast Guard under the provisions of Article 123 (1) of the Act. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) The Minister may delegate its authorities on any matters of the following Subsections to the Commissioner of the Korean Coast Guard under the provisions of Article 123 (1) of the Act. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Imposition collection of surcharge under the provisions of Subsection 1 of Article 19 (1) of the Act;
2. Registration of a waste marine dumping business under the provisions of Subsection 1 of Article 70 (1) of the Act;
3. Acceptance of taking over wastes and undertaking statement under the provisions of Article 72 (3) of the Act;
4. Order for the proper disposal of wastes to a waste marine dumping business under the provisions of Article 73 of the Act;
5. Acceptance of the right and obligation succession report of a waste marine dumping business under the provisions of Article 74 (3) of the Act;
6. Order to cancel the registration of a waste marine dumping business or to suspend the business thereof under the provisions of Article 75 (1) of the Act;
7. Acceptance of declaration and alteration declaration of a waste consignor under the provision of Article 76 (1) of the Act;
8. Order of a vessel entrance inspection and report, etc. falling under any of the following items under the provisions of Article 19 (1) of the Act;
 - A. Korean vessel which navigates in Korean seas; or
 - B. A vessel as a Korean vessel to navigate in international sea routes and which the head of a regional maritime affairs and port office does not conduct an entrance inspection under the provisions of Subsection 19 of Article 94 (4).
9. Hearing for the registration cancellation of a waste marine dumping business under the provisions of Subsection 2 of Article 120 of the Act.

(3) The Minister may delegate its authorities on any matters of the following Subsections to the head of the National Fisheries Research & Development Institute under the provisions of Article 123 (1) of the Act. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Operation of a marine environment measurement network under the provisions of Article 9 (1) of the Act;
 2. Deleted <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>;
 3. Quality management under the provisions of Article 12 (1) of the Act;
 4. Order to improve and supplement under the provisions of Article 12 (2) of the Act;
 5. Certification of measurement and analysis capacity under the provisions of Article 13 (1) of the Act;
 6. Renewal of quality management and measurement and analysis capacity under the provisions of Article 13 (2) of the Act;
 7. Cancellation of measurement and analysis capacity under the provision of Article 13 (3) of the Act;
 8. Deleted <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>;
 9. Type approval of marine environment measurement apparatus under the provisions of Article 110 (1) of the Act;
 10. Quality inspection and official approval of correction goods of marine environment measurement apparatus under the provisions of Article 110 (2) of the Act;
 11. Performance test of marine environment measurement apparatus under the provisions of Article 110 (5) of the Act;
 12. Official approval of marine environment measurement apparatus under the provisions of Article 110 (6) of the Act;
 13. Cancellation of type approval and business suspension of marine environment measurement apparatus under the provisions of Article 110 (9) of the Act;
 14. Hearing for cancellation of measurement and analysis capacity under the provisions of Article 120 (1) of the Act; or
 15. Hearing for cancellation of type approval of marine environment measurement apparatus under the provisions of Article 120 (5) of the Act.
- (4) The Minister may delegate its authorities on any matters of the following Subsections to the head of a regional maritime affairs and port office under the provisions of Article 123 (1) of the Act: <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>
1. Marine environment improvement measures under the provisions of Article 18 (1) of the Act;
 2. Declaration of maritime facilities under the provisions of Article 33 (1) of the Act;
 3. Inspection or preliminary inspection of marine pollution prevention facilities, etc. under the provisions of Articles 49 through 54 of the Act;
 4. Issuance of an agreement inspection certificate under the provisions of Article 55 (1) of the Act;
 5. Order to take measures against inappropriate vessels and a disposal to suspend its navigation under the provisions of Article 58 (1) and (2) of the Act;
 6. Port state control for marine pollution prevention under the provisions of Article 59 (1) of the Act;

7. Re-inspection under the provisions of Article 60 of the Act;
 8. Registration of waste marine collection business and accumulated pollutant substance collection business under the provisions of Subsections 4 and 5 of Article 18 (1) of the Act;
 9. Acceptance of the succession declaration of rights and obligations of a waste marine collection business and accumulated pollutant substance collection business under the provisions of Article 74 (3) of the Act;
 10. Order to cancel the registration of waste marine collection business and accumulated pollutant substance collection business and order to suspend its business under the provisions of Article 75 (1) of the Act;
 11. Sea area utilization conference (excluding the case in which a disposal agency is a central administrative agency) under the provisions of Article 84 (1) of the Act;
 12. Sea area utilization effect evaluation (excluding the case in which a disposal agency is a central administrative agency) under the provisions of Article 85 (1) of the Act;
 13. Registration of an evaluation agent under the provisions of Article 86 of the Act;
 14. Order to cancel the registration of an evaluation agent and order to suspend its agency under the provisions of Article 89 (1) of the Act;
 15. Type approval of a type approval subject facility under the provisions of Article 110 (3) of the Act;
 16. Performance test of type approval subject facilities under the provisions of Article 110 (5) of the Act;
 17. Official approval of type approval subject facilities under the provisions of Article 110 (6) of the Act;
 18. Cancellation and business suspension of type approval of a type approval subject facility under the provisions of Article 110 (9) of the Act;
 19. Entrance inspection and report of a vessel (excluding Korean vessels to navigate in Korean sea areas) and maritime facility under the provisions of Article 115 (1) of the Act;
 20. Designation of a marine environment observer under the provisions of Article 116 (1) of the Act;
 21. Order to stop, search and seize, and prohibit entry and departure of a vessel at a port under the provisions of Article 117 of the Act;
 22. Hearing for cancellation of registration of a waste marine collection business and accumulated pollutant substance collection business under the provisions of Article 120 (2) of the Act;
 23. Hearing for cancellation of registration of an evaluation agent under the provisions of Article 120 (4) of the Act;
 24. Hearing for cancellation of type approval of a type approval subject facility and suspension of its business under the provisions of Article 120 (5) of the Act; or
 25. Imposition and collection of fees under the provisions of Article 133 (1) of the Act.
- (5) The Commissioner of the Korean Coast Guard may delegate its authorities on any matters of the following Subsections to the head of a regional marine police office under the

provisions of Article 123 (1) of the Act. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

1. Official seal of a maritime facility pollution emergency plan under the provisions of Article 35 (1) of the Act;
2. Prevention measure orders and prevention measures under the provisions of Article 64 (3) of the Act;
3. Order to prohibit the entry and departure of a vessel at a port or to suspend the use of facilities under the provisions of Article 67 (3) of the Act;
4. Order for preventive measures or emission prevention measures under the provisions of Article 67 (4) of the Act;
5. Preventive measure and expense-sharing measures under the provisions of Article 68 (1) and (2) of the Act;
6. Registration of marine pollution prevention business and oil-tank cleaning business under the provisions of Subsections 2 and 3 of Article 70 (1) of the Act;
7. Acceptance of a disposal report regarding prevention, and cleaning and collection of pollutant substances under the provisions of Article 72 (1) of the Act;
8. Acceptance of succession declaration of rights and obligations of a marine pollution prevention business and oil-tank cleaning business under the provisions of Article 74 (3) of the Act;
9. Order to cancel the registration of a marine pollution prevention business and oil-tank cleaning business and to suspend its business under the provisions of Article 75 (1) of the Act;
10. Acceptance of a declaration of vessel dismantlement and correction under the provisions of Article 111 (1) of the Act;
11. Request for cooperation of relevant institutions under the provisions of Article 114 (1) of the Act;
12. Order to take an entrance inspection and report under the provisions of Article 115 (2) and (3) of the Act;
13. Designation of a marine environment observer under the provisions of Article 116 (1) of the Act;
14. Order to stop, search and seize, and prohibit the entry and departure of a vessel at a port under the provisions of Article 117 of the Act;
15. Hearing for cancellation of registration of a waste marine collection business and accumulated pollutant substance collection business under the provisions of Subsection 2 of Article 120 of the Act;
16. Imposition and collection of fees under the provisions of Article 133 (1) of the Act;

Article 95 (Entrustment of Affairs)

(1) The Minister among sea area management agencies may entrust affairs falling under any of the following Subsections to the president of the corporation according to the provisions of Article 123 (3) of the Act. <Amended by Presidential Decree No. 20722 on

Feb. 29, 2008>

1. Management of marine environment improvement measures under the provisions of Article 18 (1) of the Act;
2. Operation of a vessel or disposal facility under the provisions of Article 24 (3) of the Act;
3. Installation and operation of pollutant substance storage facilities under the provisions of Article 38 (1) of the Act;
4. Installation and operation of maintaining facilities under the provisions of Article 66 (1) of the Act;
5. Installation and operation of vessel scrapping plants under the provisions of Article 111 (3) of the Act;
6. Training and education of marine pollution prevention manager, etc. under the provisions of Article 121 of the Act;

(2) In the event of entrusting its affairs under the provisions of Article 123 (3) of the Act, the Mayor/Do governor among sea area management agencies shall enter into an entrustment agreement.

(3) In the event of entering into an entrustment agreement, it shall contain matters falling under any of the following Subsections:

1. Scope of entrustment project;
2. Matters regarding the management of entrustment project;
3. Entrustment contract period (including matters regarding amendment and renewal of the contract period and termination of entrustment agreement);
4. Matters regarding payment of entrustment price;
5. Matters regarding management and supervision of entrusted affairs; and
6. Matters regarding the sub-entrustment of parts of the entrusted affairs.

Article 96 (Data Submittal)

In the event of conducting the affairs entrusted under the provisions of Article 123 (1) of the Act, the Commissioner of the Korean Coast Guard, head of the regional marine police office, head of the National Fisheries Research & Development Institute or head of a regional maritime affairs and port office shall submit data regarding the affairs thereof to the Minister or Commissioner of the Korean Coast Guard. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

CHAPTER XI PENAL PROVISIONS

Article 97 (Pollutant Substances)

The term “pollutant substances as determined by Presidential Decree” under the provisions of Subsection 1 of Article 132 (2) of the Act shall mean materials, such as wastes of excretions and polluted water, etc. and dangerous liquid material, exceeding the disposal criteria as determined by the Ordinance of the Ministry of Land, Transport and Maritime Affairs. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

Article 98 (Imposition of Fine for Negligence)

(1) In the event of imposing a fine for negligence under the provisions of Article 133 of the

Act, the Minister or Commissioner of the Korean Coast Guard (hereinafter referred to “imposer” in this Article) shall investigate and confirm the relevant violations and state in writing such violations, amount of fine for negligence, objection method and period, etc. and notify the disposal target of paying the fine for negligence. <Amended by Presidential Decree No. 20722 on Feb. 29, 2008>

(2) In the event of imposing a fine for negligence, the imposer shall give the disposal target an opportunity to express its opinion orally or by writing (including an electronic document) within a period of ten days. In this case, in the event of not submitting any opinion by the designated date, he/she shall be deemed to have no objection.

(3) In the event of determining an amount of the fine for negligence under the provisions of Section (1), the imposer may reduce the imposition amount within the range of 50 % by taking into consideration the business scale of the disposal target of the fine for negligence and the motive and results of the relevant violations, etc., and the imposition criteria shall be provided under the attached Table 19.

(4) Collection procedure of a fine for negligence shall be determined by the Ordinance of the Ministry of Land, Transport and Maritime Affairs.

ADDENDA (Omitted)

3. Conservation and Management Of Marine Ecosystems Act

[Enforcement Date 23. Dec, 2015.] [Act No.13383, 22. Jun, 2015., Amendment by Other Act]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to protect marine ecosystems from artificial damage and conserve or manage marine ecosystems in a comprehensive and systematic manner, such as conserving marine biological diversity and promoting sustainable use of marine biological resources, thereby improving the quality of national life and protecting marine assets.

Article 2 (Definitions)

The definitions of terms used in this Act shall be as follows: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. The term "marine ecosystems" means a material system or a functional system, wherein the biological community of specific sea areas are combined with inorganic and organic environments surrounding such community;

2. The term "conservation and management of marine ecosystems" means all activities conducted to conserve, protect or restore marine ecosystems in a systematic manner and conserve marine biological diversity;

3. The term "marine biological diversity" means the diversity of biological species or organisms within marine ecosystems, including the diversity of intra-species, inter-species, the habitats of organisms and ecosystems;

4. The term "marine biological resources" means genetic resources, organisms, a part of

organisms, population and other biological components of marine ecosystems, which have a value to people or serve practical or potential purposes;

5. The term "marine ecosystem axis" means the network of habitats, which connects the ecosystems of ecologically important areas or sea areas maintaining ecological functions so as to protect and manage marine ecosystems and marine biological diversity in an integrated manner and to maintain the continuity of ecological structure and functions;

6. The term "marine ecology map" means a map drawn up under Article 12, by classifying marine ecosystems according to ecological or landscape value, etc.;

7. The term "marine primary production" means the production of organic materials through photosynthesis or chemical synthesis in the sea;

8. The term "marine organisms" means organisms which inhabit or grow naturally in marine ecosystems;

9. The term "migratory marine animals" means animals moving in a group for spawning, feeding activities or reproduction, etc., which are determined by Ordinance of the Ministry of Oceans and Fisheries;

10. The term "marine mammals" means mammals living in the sea, which are determined by Ordinance of the Ministry of Oceans and Fisheries;

11. The term "marine organisms under protection" means marine species falling under any of the following items, which are determined by Ordinance of the Ministry of Oceans and Fisheries:

(a) Unique species living in the Republic of Korea;

(b) Species, the number of which is remarkably decreasing;

(c) Species of high academic or economic values;

(d) Species internationally highly worthy of protection;

12. The term "organisms disturbing marine ecosystems" means organisms falling under any of the following items, which are determined by Ordinance of the Ministry of Oceans and Fisheries:

(a) Marine organisms flowing in from abroad artificially or naturally, which cause or are likely to cause disturbance to the balance of marine ecosystems;

(b) Marine organisms which cause or are likely to cause disturbance to the balance of marine ecosystems, from among genetically modified organisms produced through genetic modification;

13. The term "harmful marine organisms" means marine organisms causing harm to the life or property of people, which are determined by Ordinance of the Ministry of Oceans and Fisheries;

14. The term "protected marine areas" means areas highly worthy of conservation, as they are ecologically important due to diverse marine organisms or excellent marine assets, including marine landscape, which are determined by Ordinance of the Ministry of Oceans and Fisheries under Article 25;

15. The term "marine assets" means the total of non-biological resources of tangible or

intangible value, which can be used for the life of people or economic activities, including biological resources of marine ecosystems, marine landscape, marine minerals, seawater and marine energy.

Article 3 (Basic Principles for Conservation and Management of Marine Ecosystems)

The following basic principles shall apply when conserving and managing marine ecosystems:

1. Marine ecosystems shall be conserved or managed as the assets of all nationals, in a way that serves the public interests and ensures the sustainable use of marine ecosystems;
2. There should be harmony and balance between the use of the sea and the conservation or management of marine ecosystems;
3. Endangered marine organisms or ecologically important marine organisms shall be protected, and the diversity of marine organisms shall be maintained;
4. Nationals shall take part in the conservation or management of marine ecosystems, and shall be provided with more opportunities to use marine ecosystems in a sound manner;
5. The burden of conserving or managing marine ecosystems shall be shared in an equitable manner, and benefits generated from marine ecosystems shall be preferentially enjoyed by local residents and interested persons;
6. No ecological balance shall be destroyed nor shall the value thereof be undermined in cases where marine environments are used or developed, and endeavors shall be made to restore or recover marine ecosystems and marine landscape in cases where they are destroyed, damaged or injured;
7. International cooperation shall be promoted for the sustainable use of marine ecosystems.

Article 4 (Obligations of State)(1) The State or local governments shall take the following measures to conserve or manage marine ecosystems:

1. Formulation and implementation of measures to conserve or manage marine ecosystems, in an effort to prevent inordinate damage to marine ecosystems caused by activities or projects (hereinafter referred to as "development activities, etc.") affecting marine ecosystems, including the development or use of the sea, and to promote the sustainable use of marine ecosystems;
2. Promotion of policies which encourage nationals to take an active part in the conservation or management of marine ecosystems, and the creation of conditions therefor;
3. Investigation, research and technology development concerning the conservation and management of marine ecosystems, and the fosterage of specialized human resources;
4. Formulation and implementation of measures to restore or recover damaged marine ecosystems;
5. Raising public awareness on the importance of marine ecosystems, through education and public relations concerning marine ecosystems;
6. Promotion of international cooperation concerning the conservation of marine environments.

(2) Business entities shall observe the following matters, in conducting his/her business

activities:

1. Business entities shall preferentially consider marine ecosystems and marine landscapes;
2. Business entities shall take necessary measures on their own to restore or recover damaged marine environments caused by their business activities;
3. Business entities shall take part and cooperate in measures to conserve the marine environments, formulated and implemented by the State and local governments under paragraph (1).

(3) All nationals shall endeavor to protect marine ecosystems, including active participation in policies of the State and local governments to conserve and manage marine ecosystems.

(4) Any one who intends to conduct development activities, etc. shall take measures necessary to minimize damage to marine ecosystems.

Article 5 (Consultations, etc. on Major Policies)(1) The heads of central administrative agencies shall, before formulating and implementing major policies or plans directly related to the conservation and management of marine ecosystems, consult with the Minister of Oceans and Fisheries: Provided, That this shall not apply where they have consulted with the Minister of Oceans and Fisheries under other Acts. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries may, when conducting development activities, etc., in consultation with the heads of the relevant central administrative agencies, draw up guidelines on the conservation, management and sustainable use of marine ecosystems, and order persons engaged in development activities, etc. to utilize such guidelines. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Matters necessary to determine the kinds of major policies or plans subject to consultation and to prepare guidelines under paragraphs (1) and (2) shall be prescribed by Presidential Decree.

Article 6 (Support for Movements to Protect Marine Ecosystems)

The State shall support local governments, civil groups, etc. to ensure that nationals can take part in movements to protect marine ecosystems and that ecological characteristics of each region shall be taken into account in promoting the movements to protect marine ecosystems.

Article 7 (Establishment and Operation of Marine Ecosystem Information System)(1) The Minister of Oceans and Fisheries may establish and operate the marine ecosystem information system (hereinafter referred to as "marine ecosystem information system") which computerizes a marine ecology map, marine species and information on habitats, etc., so as to smoothly produce and distribute knowledge and information on marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries may request the heads of the relevant administrative agencies to submit data necessary for the establishment and operation of the marine ecosystem information system. In such cases, the heads of the relevant administrative agencies shall comply therewith, in the absence of special

circumstances. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries may entrust the establishment and operation of the marine ecosystem information system to specialized institutions, where it is necessary for the efficient establishment and operation of the marine ecosystem information system. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Matters necessary for the establishment and operation of the marine ecosystem information system under paragraph (1) and entrustment to specialized institutions under paragraph (3) shall be prescribed by Presidential Decree.

Article 8 (Formulation of Joint Measures with Neighboring Countries)(1) The State may formulate joint measures with neighboring countries, in order to conserve and manage marine ecosystems and marine biological resources in a systematic and comprehensive manner.

(2) The State or local governments may conduct cooperative projects, in investigations, research, restoration or recovery, with neighboring countries, in an effort to promote international joint responses to the protection of marine organisms, the conservation of habitats of marine organisms and impact on marine ecosystems by marine pollution, and may have the relevant research institutes or academic institutions take part in such projects.

(3) The State or local governments may support the relevant research institutes or academic institutions which take part in cooperative projects under paragraph (2), and the kinds of and procedures for support for cooperative projects and institutions subject to such support shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

CHAPTER II FORMULATION OF PLANS AND INVESTIGATIONS

Article 9 (Formulation of Basic Plans on Conservation and Management of Marine Ecosystems)(1) The Minister of Oceans and Fisheries shall formulate basic plans (hereinafter referred to as "basic plans") on the conservation and management of marine ecosystems every ten years, so as to conserve and manage marine ecosystems in a comprehensive and systematic manner. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Basic plans shall include the following:

1. The actual status or use of marine ecosystems;
2. Basic directions and major projects concerning the conservation and management of marine ecosystems;
3. Matters concerning the protection or restoration of habitats or the migratory routes of marine organisms;
4. Matters concerning the establishment and promotion of the marine ecosystem axis;
5. Education and public relations concerning the conservation and management of marine ecosystems and the promotion of civil cooperation;
6. Cooperation of the relevant central administrative agencies and local governments;
7. International cooperation on the conservation and management of marine ecosystems;

8. Matters concerning the calculation of expenses incurred in conducting projects and methods of funding;

9. Other matters concerning the conservation and management of marine ecosystems prescribed by Presidential Decree.

(3) The Minister of Oceans and Fisheries shall, in formulating basic plans, undergo deliberations by the Marine Fishery Development Committee under Article 7 of the Framework Act on Marine Fishery Development, after consulting with the heads of the relevant central administrative agencies, the Special Metropolitan City Mayor, the Metropolitan City Mayor, the Mayor of Special Self-Governing City, Do governor, the Governor of a Special Self-Governing Province (hereinafter referred to as "Mayors/Do Governors"). <Amended by Act No. 8260, Jan. 19, 2007; Act No. 8852, Feb. 29, 2008; Act No. 9454, Feb. 6, 2009; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

(4) The Minister of Oceans and Fisheries may request the heads of the relevant central administrative agencies and Mayors/Do Governors to submit data necessary for formulating basic plans. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(5) The Minister of Oceans and Fisheries shall notify the heads of the relevant central administrative agencies and Mayors/Do Governors of basic plans and publicly notify such plans. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(6) Mayors/Do Governors shall formulate detailed implementation plans on the conservation and management of marine ecosystems in areas under their jurisdiction according to basic plans, and report such plans to the Minister of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(7) The Minister of Oceans and Fisheries or Mayors/Do Governors may make modifications to basic plans and detailed implementation plans, when it is deemed necessary to respond to the changes in natural or social conditions. In such cases, they shall consult with the heads of the relevant central administrative agencies and Mayors/Do Governors in advance. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(8) The Minister of Oceans and Fisheries may request Mayors/Do Governors to change detailed implementation plans, when it is deemed necessary for the conservation and management of marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(9) Paragraphs (3) through (6) shall apply mutatis mutandis to changes of basic plans: Provided, That this shall not apply to changes to insignificant matters prescribed by Presidential Decree.

(10) The heads of the relevant central administrative agencies or Mayors/Do Governors shall preferentially consider basic plans, when taking such actions as authorization, permission, approval, license, decision or designation, in connection with development activities, etc.

(11) The Minister of Oceans and Fisheries shall analyze and evaluate the outcomes of implementing basic plans on the conservation and management of marine ecosystems every two years, and reflect such outcomes in policies on the conservation and management

of marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 10 (Basic Investigation into Marine Ecosystems, etc.)(1) The Minister of Oceans and Fisheries shall conduct a basic investigation into marine ecosystems nationwide every ten years, in collaboration with the heads of the relevant central administrative agencies. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries may conduct an investigation into the marine ecosystems of regions and sea areas classified as the first-class zone on a marine ecology map under Article 12 and regions and sea areas where it is deemed especially necessary to understand changes in marine ecosystems, every five years, in collaboration with the heads of the relevant central administrative agencies. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Such matters as the details and methods of investigations under paragraphs (1) and (2) shall be prescribed by Presidential Decree.

(4) Mayors/Do Governors may conduct an investigation into marine ecosystems in areas under their jurisdiction, in accordance with the Municipal Ordinances of the relevant local governments, and shall report investigation plans and the outcomes of investigations to the Minister of Oceans and Fisheries, when conducting an investigation. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 11 (Detailed Investigation and Observation of Changes in Marine Ecosystems)(1) The Minister of Oceans and Fisheries shall formulate and implement plans for detailed investigation of the relevant marine ecosystems, where he/she deems that it is especially necessary to investigate and manage such marine ecosystems which came to knowledge after an investigation under Article 10. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries may conduct a supplementary investigation of regions and sea areas, where it is obvious that natural or artificial factors have resulted in changes to marine ecosystems, from among regions and sea areas investigated under Article 10. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries shall continue to observe changes in marine ecosystems caused by natural or artificial factors. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Mayors/Do Governors may investigate and observe marine ecosystems in areas under their jurisdiction under paragraphs (1) through (3), in accordance with the Municipal Ordinances of the relevant local governments.

(5) The items, details and methods of investigations under paragraphs (1) and (2) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 12 (Drafting Marine Ecology Map)(1) The Minister of Oceans and Fisheries shall draft a marine ecology map, which classifies the marine ecosystems nationwide according

to the following criteria, on the basis of the results of the investigations and observation under Articles 10 and 11, so as to utilize such map in formulating basic plans and take it into account in conducting development activities, etc.: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. First-class zone: Regions and sea areas falling under any of the following items:

(a) Regions and sea areas which are the major habitats, spawning areas and major migratory routes of marine organisms under protection;

(b) Regions and sea areas which have excellent marine ecosystems or magnificent marine landscape;

(c) Regions and sea areas which are located in geographical distribution limits of organisms or which represent the types of marine vegetation;

(d) Regions and sea areas with especially diverse marine organisms, where marine biological resources worthy of conservation exist and are distributed;

(e) Regions and sea areas which have a marine ecological value equivalent to items (a) through (d), satisfying the standards prescribed by Presidential Decree;

2. Second-class zone: Regions and sea areas equivalent to those falling under any item of subparagraph 1, which are worthy of future conservation in terms of marine biological value, or regions and sea areas outside of the first-class zone, which are necessary for the protection of the first-class zone;

3. Third-class zone: Regions and sea areas to be developed or used, which are not classified as a first-class zone, second-class zone or separately managed zone;

4. Separately managed zone: Regions with landscape value, which are prescribed by Presidential Decree, from among areas conserved under the provisions of other Acts.

(2) The Minister of Oceans and Fisheries may, when drawing up a marine ecology map, request the heads of the relevant central administrative agencies or the heads of local governments to cooperate therein, including the submission of necessary data or the cooperation by specialized human resources, and the heads of the relevant central administrative agencies or the heads of local governments shall comply with such requests, as prescribed by Presidential Decree, in the absence of unavoidable military necessity. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Mayors/Do Governors may draw up a detailed marine ecology map in areas under their jurisdiction for the efficient conservation and management of marine ecosystems, in consultation with the Minister of Oceans and Fisheries, and matters necessary therefor shall be determined by the Municipal Ordinance of the relevant local governments. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) The Minister of Oceans and Fisheries shall, when drafting a marine ecology map, consult with the heads of the relevant central administrative agencies, after undergoing public perusal for not less than 14 days. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(5) The Minister of Oceans and Fisheries shall notify the heads of the relevant central

administrative agencies and the heads of the relevant local governments of the marine ecology map and issue public notice thereof. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(6) Standards and methods for drafting a marine ecology map shall be prescribed by Presidential Decree.

Article 13 (Marine Ecology Researchers)(1) The Minister of Oceans and Fisheries or Mayors/Do Governors may appoint marine ecology researchers (hereinafter referred to as the "researchers"), where it is necessary for the investigations and observation under Articles 10 and 11 or other investigations into marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) Qualifications for researchers and procedures for appointing researchers under paragraph (1) or other necessary matters shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries or Municipal Ordinance of the relevant local governments. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 14 (Entry into Land Owned by Another)(1) The Minister of Oceans and Fisheries or Mayors/Do Governors may order public officials or researchers (where the Minister of Land, Transport and Maritime Affairs or Mayors/Do Governors entrust tasks including basic investigation into marine ecosystems to specialized institutions or organizations pursuant to Article 60 (2), including the executives or employees of the relevant specialized institutions or organizations) to enter public waters or land owned by another to conduct an investigation or make an observation, or order them to change or remove trees, soil, stones or other obstacles (hereinafter referred to as "obstacles, etc.") of such public waters or land, where it is necessary for the investigations and observation under Articles 10 and 11. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

(2) Where public officials or researchers intend to change or remove obstacles, etc. under paragraph (1), they shall obtain the consent of those who occupy and use, use, possess, occupy or manage public waters or land (hereinafter referred to as "occupiers and users, etc."): Provided, That where occupiers and users, etc. are not on site, or where it is impossible to obtain consent thereof due to their incorrect addresses, they shall post a notice on the bulletin board of an Eup/Myeon/Dong having jurisdiction over the relevant areas or publicly announce such fact in daily newspapers, and after 14 days from such notification or announcement, they shall be deemed to have obtained consent.

(3) No occupier and user, etc. of public waters or land may refuse, obstruct or evade the entrance, investigations or observation and the change or removal of obstacles, etc. under paragraph (1) without a good cause.

(4) Any one who intends to enter public waters or land owned by another under paragraph (1) shall carry a certificate indicating his/her authority and present such certificate to the relevant person, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 15 (Maintenance and Management of Marine Primary Production)(1) The

Minister of Oceans and Fisheries shall take measures to maintain and manage marine primary production, in consultation with the heads of the relevant central administrative agencies and Mayors/Do Governors. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall conduct an investigation into necessary matters, including the actual state, characteristics and influence, etc. of marine ecosystems by sea area, in advance, to maintain and manage marine primary production. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries may request the relevant specialized institutions to conduct an investigation under paragraph (2), for scientific and specialized investigations and measurement. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

CHAPTER III PROTECTION OF MARINE ORGANISMS

Article 16 (Protection of Migratory Marine Animals)(1) The State or local governments shall protect the habitats, spawning areas and migratory routes of migratory marine animals and marine mammals.

(2) The State or local governments may establish exhibition halls and education or information centers for the conservation or management of migratory marine animals and marine mammals, and subsidize all or part of expenses incurred in conducting research or investigations by the relevant institutions or organizations.

(3) The Minister of Oceans and Fisheries, the heads of the relevant central administrative agencies, or the heads of local governments may prohibit or restrict capture, so as to conserve and manage the spawning or breeding environments of migratory marine animals and marine mammals. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Such matters as procedures or methods for supporting research and investigations of migratory marine animals and marine mammals under paragraph (2) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 17 (Designation or Revocation of Designation of Conservation Institutions other than Habitats)(1) The Minister of Oceans and Fisheries or Mayors/Do Governors may designate institutions prescribed by Presidential Decree, including zoos, as conservation institutions for marine organisms other than habitats, (hereinafter referred to as "conservation institutions other than habitats"), after hearing from the relevant central administrative agencies, where it is difficult to conserve marine organisms in their habitats or it is necessary to conserve marine organisms in places other than habitats for the conservation of their species: Provided, That he/she shall consult with the Administrator of the Cultural Heritage Administration, when designating conservation institutions other than habitats, so as to conserve natural monuments designated under Article 25 of the Cultural Heritage Protection Act in places other than their habitats. <Amended by Act No. 8852, Feb.

29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

(2) The Minister of Oceans and Fisheries or Mayors/Do Governors may subsidize all or part of expenses incurred in conserving marine organisms, where it is especially necessary to conserve marine organisms in conservation institutions other than habitats. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

(3) The Minister of Oceans and Fisheries or Mayors/Do Governors may revoke the designation, where conservation institutions other than habitats fall under any of the following: Provided, That he/she shall revoke the designation, where conservation institutions other than habitats fall under subparagraph 1: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 11862, Jun. 6, 2013; Act No. 12490, Mar. 18, 2014; Act No. 12661, May 21, 2014>

1. Where they are designated as conservation institutions other than habitats, by fraud or other wrongful means;

2. Where they capture migratory marine animals and marine mammals, in violation of the prohibitions and restrictions under Article 16 (3);

3. Where they fall under any of the following items, in violation of Article 20 (1):

(a) Where they capture, collect or damage marine organisms under protection, without permission;

(b) Where they install explosives, nets or fishing gear, or use harmful substances (referring to harmful substances under subparagraph 2 of Article 2 of the Chemicals Control Act; hereinafter the same shall apply) or electric currents, so as to capture or damage marine organisms under protection;

4. Where they import or bring in marine organisms, the capture of which is prohibited or restricted, or export, import, ship out or bring in marine organisms under protection, without permission, in violation of Article 42 (1) 1 and 2.

(4) Such matters as procedures for designating conservation institutions other than habitats, or the operation thereof shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 18 (Rescue and Treatment of Marine Organisms)(1) The Minister of Oceans and Fisheries or Mayors/Do Governors shall take measures necessary to rescue or treat marine animals in distress or wounded, such as the establishment and operation of facilities for rescuing and treating marine animals. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries or Mayors/Do Governors may designate the relevant institutions or organizations as institutions specialized in rescuing and treating marine animals, for the rescue and treatment of marine animals. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries or Mayors/Do Governors may subsidize all or part of expenses incurred in rescuing and treating marine animals, for institutions specialized in rescuing and treating marine animals designated under paragraph (2). <Amended by Act

No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) The Minister of Oceans and Fisheries or Mayors/Do Governors may revoke the designation, where institutions specialized in rescuing and treating marine animals fall under any of the following subparagraphs: Provided, That he/she shall revoke the designation, where institutions specialized in rescuing and treating marine animals fall under subparagraph 1: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Where they are designated as institutions specialized in rescuing and treating marine animals by fraud or other wrongful means;

2. Where they refuse to rescue or treat marine animals in distress or wounded at least three times without special circumstances;

3. Where they abuse marine animals;

4. Where they acquire, transfer, take over, transport, keep or offer marine organisms under protection, which have been captured in an illegal manner, and processed goods made of such marine organisms, in violation of Article 20.

(5) Such matters as procedures for designating institutions specialized in rescuing and treating marine animals and subsidies for expenses incurred in rescuing and treating marine animals under paragraphs (2) and (3) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 19 (Plans to Conserve Marine Organisms under Protection)(1) The Minister of Oceans and Fisheries may prepare measures to conserve marine organisms under protection, as prescribed by Presidential Decree, and implement such measures, in collaboration with the heads of the relevant central administrative agencies and Mayors/Do Governors, or request the heads of the relevant central administrative agencies and Mayors/Do Governors to implement such measures. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall formulate measures to protect the habitats, etc. of marine organisms under protection and take necessary measures, such as the reproducing or restoring species, in cases where it is deemed difficult for the current populations to continue their life in nature and it is especially necessary to take measures for protection. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries may request cooperation from the heads of the relevant central administrative agencies or Mayors/Do Governors, where it is necessary to protect, reproduce or restore marine organisms under protection. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) The Minister of Oceans and Fisheries, the heads of the relevant central administrative agencies or Mayors/Do Governors may recommend appropriate methods, etc. of using public waters or land to the occupiers and users, etc. of the public waters or land, as prescribed by Presidential Decree, where it is deemed necessary for protecting marine organisms under protection. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690,

Mar. 23, 2013>

(5) The Minister of Oceans and Fisheries may provide support necessary for the occupiers and users, etc. of the public waters or land to follow his/her recommendations, within budget limits. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 20 (Prohibitions against Capturing or Collecting, etc. Marine Organisms under Protection)

(1) No one shall capture, collect, transplant, process, distribute, store (including dead marine organisms in cases of process, distribution or storage) or damage (hereinafter referred to as "capture or collection, etc.") marine organisms under protection, and shall install explosives, nets or fishing gear, or use harmful substances or electric currents, so as to capture or damage marine organisms under protection: Provided, That marine organisms under protection may be captured or collected, with permission from the Minister of Oceans and Fisheries, in any of the following cases: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 11690, Mar. 23, 2013; Act No. 11862, Jun. 4, 2013; Act No. 12490, Mar. 18, 2014>

1. Where any one intends to use marine organisms, so as to protect, reproduce, or restore marine organisms under protection or conduct academic research;
2. Where any one intends to use marine organisms for viewing or exhibition in facilities for conserving or using marine ecosystems established under Article 43;
3. Where it is necessary for preventing damage to cultured fish species or fishery products;
4. Where it is inevitable to conserve marine organisms under protection by moving or transplanting them, so as to perform the public works under Article 4 of the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects or conduct projects for which authorization, permission or approval, etc. (hereinafter referred to as "authorization or permission, etc.") has been obtained under the provisions of the statutes;
5. Where any one exports, imports, ships out or brings in artificially reproduced marine organisms, as prescribed by Presidential Decree;
6. Other cases determined by Ordinance of the Ministry of Oceans and Fisheries, unless the protection of marine organism is interrupted.

(2) Where any one obtains permission under Article 19 of the Wildlife Protection and Management Act, he/she shall be deemed to have obtained permission from the Minister of Oceans and Fisheries under the proviso to paragraph (1). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10977, Jul. 28, 2011; Act No. 11690, Mar. 23, 2013>

(3) The provisions of paragraph (1) shall not apply in any of the following cases: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10977, Jul. 28, 2011; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

1. Where any one captures marine organisms under protection, for fear that they are likely to cause imminent harm to human beings;
2. Where any one captures marine organisms under protection, as it is urgent to rescue and treat the marine animals in distress or wounded;
3. Where any one inevitably catches marine organisms under protection with other marine

organisms during fishing activities, and such catch is reported to the Minister of Oceans and Fisheries within three months;

4. Where conservation institutions other than habitats, receive authorization or permission, etc. for capture or collection, etc. under the provisions of relevant statutes;

5. Where it falls into the permitted matters under Article 35 of the Cultural Heritage Protection Act;

6. Where marine organisms fall under the category of endangered wildlife under subparagraph 2 of Article 2 of the Wildlife Protection and Management Act.

(4) Any one who intends to capture or collect, etc. marine organisms under protection, after obtaining permission under the proviso to paragraph (1), shall carry a permit, and when any one captures or collects, etc. marine organisms under protection, he/she shall report the results of capture or collection, etc. to the Minister of Oceans and Fisheries, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(5) Where specific marine organisms are designated as marine organisms under protection, any one who has already kept the relevant marine organisms shall make a report to the Minister of Oceans and Fisheries, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, within one year. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(6) Such matters as the standards and procedures for permission and the issuance of a permit under the proviso to paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 21 (Revocation of Permission)(1) Where any one who obtains permission under the proviso to Article 20 (1) falls under any of the following subparagraphs, the Minister of Oceans and Fisheries may revoke such permission: Provided, That where any one falls under subparagraph 1, he/she shall revoke such permission: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Where any one obtains permission by fraud or other wrongful means;

2. Where any one violates permitted matters in capturing or collecting, etc. marine organisms under protection.

(2) Any one whose permission has been revoked under paragraph (1), shall return a permit to the Minister of Oceans and Fisheries, within seven days from such revocation. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 22 (Restrictions on Advertisements Related to Marine Organisms under Protection)

No one shall place an advertisement which is likely to promote the extinction or decrease of marine organisms under protection or provoke the abuse of marine organisms under protection: Provided, That this shall not apply to cases where he/she receives authorization or permission, etc. under the provisions of other Acts.

Article 23 (Management of Organisms Disturbing Marine Ecosystems)(1) No one shall bring organisms disturbing marine ecosystems into marine systems and increase their habitats or numbers.

(2) Any one who intends to import or bring in organisms disturbing marine ecosystems shall obtain permission from the Minister of Oceans and Fisheries, as prescribed by Ordinance of the Ministry of Oceans and Fisheries: Provided, That genetically modified organisms under Article 2 of the Transboundary Movement, etc. of Living Modified Organisms Act, from among organisms disturbing marine ecosystems, shall be governed by the said Act. <Amended by Act No. 8762, Dec. 21, 2007; Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Where organisms disturbing marine ecosystems disturb or damage the balance of marine ecosystems, the Minister of Oceans and Fisheries shall establish measures through investigation, and request the heads of relevant central administrative agencies or the heads of local governments to take relevant measures. In such cases, the Minister of Oceans and Fisheries may permit the capture or collection of organisms disturbing marine ecosystems, notwithstanding restrictions on acts in protected marine areas under Article 27 (1). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 24 (Management of Harmful Marine Organisms)

The Minister of Oceans and Fisheries or Mayors/Do Governors shall manage harmful marine organisms, by taking overall consideration of the damage caused by harmful marine organisms to fishery industries and the types or numbers of harmful marine organisms, and endeavor to ensure that marine ecosystems are not disturbed due to inordinate capture or collection. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

CHAPTER IV DESIGNATION AND MANAGEMENT OF PROTECTED MARINE AREAS

Article 25 (Designation and Management of Protected Marine Areas)(1) The Minister of Oceans and Fisheries may designate areas falling under any of the following subparagraphs, whose marine ecosystems or marine landscape require special protection, as protected marine areas and manage such areas: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Sea areas where marine ecosystems maintain primitiveness or sea areas worthy of conservation and academic research for their diverse marine organisms;
2. Areas which need academic research or conservation, due to unusual topography, geological features or ecology of the sea;
3. Sea areas which are worthy of being conserved for their high primary production capacity or for their function as the habitats or spawning areas of marine organisms under protection.
4. Sea areas which may represent diverse marine ecosystems or are equivalent to examples thereof;
5. Sea areas which are worthy of special conservation, for their beautiful submarine landscape, including coral reefs and seaweeds, or marine landscape;

6. Other sea areas prescribed by Presidential Decree, which are especially necessary for the effective conservation and management of marine ecosystems.

(2) Protected marine areas under paragraph (1) may be designated and managed, after being classified into the following sub-areas based on the characteristics of marine ecosystems:

1. Areas for protecting marine organisms: Areas needed to protect marine organisms;
2. Areas for protecting marine ecosystems: Areas with excellent marine ecosystems or diverse marine organisms, or areas with vulnerable ecosystems which are unlikely to be restored, if damaged;
3. Areas for protecting marine landscape: Areas with excellent marine landscape, wherein the topography, geological features and biota of the seaside or inside the sea achieve harmony with marine ecosystems.

(3) The Minister of Oceans and Fisheries may alter or cancel the designation as protected marine areas, where such areas lose the value as protected marine areas under paragraph (1) or do not need conservation, due to military necessity, natural disasters or other grounds. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Matters necessary for the designation or management of protected marine areas under paragraphs (1) through (3) shall be determined by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 26 (Procedures, etc. for Designation of Protected Marine Areas)(1) The Minister of Oceans and Fisheries shall, before designating or altering protected marine areas, draft a topographic map (including a marine chart) determined by Presidential Decree in a written plan on designation which includes the following, listen to the opinions of the relevant local residents, interested persons and the heads of local governments, and then undergo consultations with the heads of the relevant central administrative agencies and deliberation by the Marine Fishery Development Committee under Article 7 of the Framework Act on Marine Fishery Development: Provided, That where changes are made to minor matters prescribed by Presidential Decree, deliberation by the Marine Fishery Development Committee may be omitted: <Amended by Act No. 8260, Jan. 19, 2007; Act No. 8852, Feb. 29, 2008; Act No. 9454, Feb. 6, 2009; Act No. 11690, Mar. 23, 2013>

1. Grounds and purposes of designation or alteration;
2. Current status and characteristics of major marine ecosystems;
3. Specific use area or current status of using land in designated areas and adjacent areas;
4. Classification of protected marine areas and plans to manage such areas;
5. Current status of a fishing right and a mining right and drawings;
6. Current status of regulated areas under statutes.

(2) The heads of local governments or the heads of the relevant central administrative agencies shall, upon receiving requests for opinions or consultations under paragraph (1), shall present their opinions to the Minister of Oceans and Fisheries within 30 days after the date on which they receive such requests, unless there is a compelling reason not to do

so. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries shall, when he/she designates, alters or cancels protected marine areas, publicly notify the details of designation, alteration or cancellation in the official gazette, without delay, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 27 (Restrictions, etc. on Acts in Protected Marine Areas)(1) No one shall commit any of the following acts in protected marine areas: Provided, That where park areas designated under the Natural Parks Act or cultural heritage (including protected areas) under the Cultural Heritage Protection Act are included in protected marine areas, the provisions of the Natural Parks Act or Cultural Heritage Protection Act shall apply: <Amended by Act No. 8852, Feb. 29, 2008; Act 10676, May 19, 2011; Act No. 11690, Mar. 23, 2013; Act No. 11862, Jun. 4, 2013; Act No. 12490, Mar. 18, 2014>

1. Capturing, collecting, transplanting, or damaging marine organisms prescribed by Ordinance of the Ministry of Oceans and Fisheries, from among marine organisms which do not fall under marine organisms under protection, or installing explosives, nets or fishing gear or using harmful substances or electric currents, so as to capture or damage marine organisms in protected marine areas;
2. Newly constructing or extending buildings or other structures (limited to cases where buildings are extended on not less than two occasions the size of the total ground area at the time of designation of protected marine areas);
3. Changing the structure of public waters, or increasing or decreasing the water level or quantity of the sea water;
4. Changing the quality of public waters or land;
5. Collecting the sea sand, quartz sand, soil and stones in public waters;
6. Throwing away specific substances harmful to the quality of water under subparagraph 8 of Article 2 of the Water Quality and Aquatic Ecosystem Conservation Act, or wastes or harmful substances under subparagraph 1 of Article 2 of the Wastes Control Act;
7. Damaging, destroying or relocating notices on the conservation and management of marine ecosystems or other landmarks;
8. Other acts deemed harmful to marine ecosystems as prescribed by Presidential Decree.

(2) In any of the following cases, the provisions of paragraph (1) shall not apply: <Amended by Act No. 8377, Apr. 11, 2007; No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Where it is necessary for military purposes;
2. Where it is necessary to take urgent measures to cope with natural disasters or other disasters prescribed by Presidential Decree;
3. Acts falling under paragraph (1) 2 through 5, which are necessary for maintaining or improving the unique life styles of residents in marine protected areas or adjacent areas (hereinafter referred to as "adjacent areas") which may pollute or affect protected marine areas, or acts which are necessary for maintaining the existing farming or fishing activities, as prescribed by Presidential Decree;

4. Acts or related facilities for conducting an investigation into marine ecosystems or academic investigation or research, which are deemed to cause no harm to the conservation of the relevant protected marine areas and permitted by the Minister of Oceans and Fisheries;

5. Where the heads of the relevant administrative agencies are directly engaged in development activities under other statutes, or where the authorization or permission of the relevant administrative agencies are given. In such cases, the heads of the relevant administrative agencies shall have a prior consultation with the Minister of Oceans and Fisheries;

6. Projects for rearranging the basis of agricultural production under subparagraph 5 of Article 2 of the Rearrangement of Agricultural and Fishing Villages Act and projects for the comprehensive development of fishing villages under subparagraph 2 of Article 2 of the Fishing Villages and Fishery Harbors Act, which implement matters included in the basic management plan for protected marine areas under Article 28 of this Act;

7. Where the Minister of Oceans and Fisheries commits acts prescribed by Presidential Decree or establishes necessary facilities, so as to protect and manage protected marine areas;

8. Where facilities prescribed by Presidential Decree, including facilities for experiencing ecosystems, are established in areas for protecting marine landscape under Article 25 (2) 3. (3) No act falling under paragraph (1) 1 shall be committed against marine organisms in any area for protecting marine organisms under Article 25 (2) 1, notwithstanding the proviso to paragraph (1).

(4) Any one may capture or collect marine organisms in areas for protecting marine landscape under Article 25 (2) 3, to the extent that it does not damage the marine landscape which serves as the ground for the designation as areas for protecting marine landscape, notwithstanding paragraph (1).

(5) The Minister of Oceans and Fisheries or Mayors/Do Governors may restrict development activities prescribed by Presidential Decree, or fishing activities in protected marine areas notwithstanding paragraph (2) 3, where it is inevitable for the protection of marine organisms under protection or it is especially necessary for the conservation and management of vulnerable marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act 10676, May 19, 2011; Act No. 11690, Mar. 23, 2013>

Article 28 (Basic Management Plans for Protected Marine Areas)

The Minister of Oceans and Fisheries shall formulate and implement basic management plans for protected marine areas, which include the following, after consulting with the heads of the relevant central administrative agencies and the heads of local governments: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Conservation and management of marine ecosystems and marine biological diversity;
2. Special management of areas for protecting marine organisms, areas for protecting marine ecosystems and areas for protecting marine landscape under each subparagraph of

Article 25 (2);

3. Improvement of the life of residents in protected marine areas and adjacent areas and the protection of interests of interested persons;

4. Matters which contribute to the development of local community through the conservation and management of marine ecosystems.

Article 29 (Investigation and Observation of Protected Marine Areas)(1) The Minister of Oceans and Fisheries shall, before designating or altering protected marine areas, investigate and measure the matters necessary for designation or alteration thereof, such as the current status, characteristics and topography of marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries may request the relevant specialized institutions to conduct investigations or take measurements under paragraph (1), for scientific and specialized investigation and measurements. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries may request the heads of the relevant central administrative agencies or the heads of local governments to submit data necessary for designating protected marine areas. In such cases, the heads of the relevant central administrative agencies or the heads of local governments shall comply with such requests, in the absence of special circumstances. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) The Minister of Oceans and Fisheries or Mayors/Do Governors shall continue to observe the current status of marine ecosystems and inhabitation of marine organisms in protected marine areas. <Amended by Act No. 8852, Feb. 29, 2008; Act 10676, May 19, 2011; Act No. 11690, Mar. 23, 2013>

Article 30 (Orders for Suspension, etc.)

The Minister of Oceans and Fisheries or Mayors/Do Governors may order any person who commits an act in violation of Article 27 (1), (3) and (5) in protected marine areas to stop such act or restore protected marine areas within a reasonable period of time: Provided, That where it is impracticable to restore protected marine areas, he/she may give an order to take measures equivalent thereto, including the creation of alternative nature. <Amended by Act No. 8852, Feb. 29, 2008; Act 10676, May 19, 2011; Act No. 11690, Mar. 23, 2013>

Article 31 (Urgently Protected Marine Areas)(1) The Minister of Oceans and Fisheries may designate regions or sea areas, which fall under any of the subparagraphs of Article 25 (1) and are deemed to need urgent protection for fear of a significant damage to marine ecosystems, as urgently protected marine areas, after listening to the opinions of the heads of the relevant central administrative agencies or the heads of local governments. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall, when designating urgently protected marine areas under paragraph (1), announce such fact and notify the heads of the relevant central

administrative agencies or the heads of local governments thereof. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries may, when designating urgently protected marine areas under paragraph (1), request the heads of the relevant administrative agencies to supplement plans, adjust implementation periods, change implementation methods or to reserve authorization or permission, with regard to authorization or permission for plans or projects which are likely to transform marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Where any ground for designating urgently protected marine areas under paragraph (1) no longer exists, the Minister of Oceans and Fisheries shall cancel such designation without delay and publicly notify such fact. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(5) Where the relevant areas are not designated as protected marine areas within one year after the date on which such areas are designated and publicly notified as urgently protected marine areas under paragraph (1), the designation of urgently protected marine areas shall be deemed to have been cancelled.

Article 32 (Securing Land, etc. for Conservation and Management of Marine Ecosystems)

(1) Where land, public waters, structures or other articles settled in the relevant land in protected marine areas or in regions or sea areas which need to be designated as protected marine areas for their excellent ecological value (hereinafter referred to as "land, etc.") do not need to be used for military purposes or for the purposes of protecting cultural heritage, the Minister of Oceans and Fisheries may request administrative conversion under subparagraph 5 of Article 2 of the State Property Act from the heads of central administrative agencies authorized to manage the relevant land, etc., such as the Minister of National Defense: Provided, That this shall not apply to land under Articles 20 and 20-2 of the Act on Special Measures for Readjustment of Requisitioned Properties or Articles 2 and 3 of the Act on Special Measures for Readjustment of Expropriated or Used Lands under the Decree on Special Measures for Expropriation or Uses of Lands in Areas to be Mobilized Pursuant to the Provisions of Article 5 (4) of the Act on Special Measures for National Integrity. <Amended by Act No. 8852, Feb. 29, 2008, Act No. 9401, Jan. 30, 2009; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries may conduct an investigation into land, etc., in consultation with the heads of the relevant central administrative agencies, including the Minister of National Defense and the Administrator of the Cultural Heritage Administration, as prescribed by Presidential Decree, so as to select land, etc. subject to administrative conversion under paragraph (1). <Amended by Act No. 8852, Feb. 29, 2008, Act No. 9401, Jan. 30, 2009; Act No. 10676, May 19, 2011; Act No. 11690, Mar. 23, 2013>

Article 33 (Purchase of Land, etc. in Protected Marine Areas)(1) The Minister of Oceans and Fisheries or Mayors/Do Governors may purchase land, etc., in consultation with their owners, where necessary for the conservation and management of marine ecosystems in

protected marine areas. <Amended by Act No. 8852, Feb. 29, 2008; Act 10676, May 19, 2011; Act No. 11690, Mar. 23, 2013>

(2) Prices of land, etc. purchased under paragraph (1) shall depend on prices calculated under the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects. <Amended by Act No. 10676, May 19, 2011>

Article 34 (Support for Residents in Protected Marine Areas)(1) The Minister of Oceans and Fisheries may conduct the following projects in protected marine areas or adjacent areas: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Projects for collecting marine wastes;
2. Projects for facilities aimed at reducing marine pollution;
3. Other projects for supporting residents in protected marine areas and adjacent areas.

(2) The Minister of Oceans and Fisheries shall, when designating each protected marine area under Article 25, prioritize seeking and implementing measures to support public facilities for residents in the relevant protected marine areas and adjacent areas, establish convenience facilities and increase incomes of residents. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries or the heads of local governments may use parts of protected marine areas and adjacent areas as places for marine ecosystems visits or for recreational purposes, etc. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Types, procedures and methods of support for protected marine areas and adjacent areas shall be prescribed by Presidential Decree.

Article 35 (Preferential Use of Protected Marine Areas)(1) The head of a Si/Gun/Gu (referring to the head of an autonomous Gu; hereinafter the same shall apply) shall endeavor to ensure that residents in protected marine areas and adjacent areas under their jurisdiction can have priority in using the relevant protected marine areas, in consultation with the heads of the relevant central administrative agencies and the heads of local governments: Provided, That where interested persons exist, this shall be limited to cases where consensus is reached with the interested persons. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

(2) Local residents who use protected marine areas under paragraph (1) shall endeavor to protect protected marine areas.

Article 36 (Designation and Management of City/Do Protected Marine Areas)(1) Mayors/Do Governors may designate regions or sea areas, which require conservation like protected marine areas, as City/Do protected marine areas for management.

(2) Mayors/Do Governors shall, when designating City/Do protected marine areas, listen to the opinions of interested persons and consult with the heads of the relevant central administrative agencies, as prescribed by Presidential Decree. This shall apply to cases where the designation of City/Do protected marine areas is altered or cancelled.

(3) Where it is necessary to conserve and manage marine ecosystems representing the

relevant regions, the Minister of Oceans and Fisheries may recommend Mayors/Do Governors to designate regions or sea areas, to which the relevant ecosystems belong, as City/Do protected marine areas for management. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Mayors/Do Governors shall, when designating City/Do protected marine areas under paragraph (1), publicly notify the location, size, date of designation of the relevant areas or other matters determined by the Municipal Ordinance of the relevant local governments. The same shall apply to cases where the designation of City/Do protected marine areas is altered or cancelled.

(5) Mayors/Do Governors may take necessary measures to conserve City/Do protected marine areas, such as restrictions on the capture and collection of marine organisms, as prescribed by Municipal Ordinance of the relevant local governments, in accordance with Articles 25 (2) and (3), 27 through 29, 34 and 35. <Amended by Act No. 10676, May 19, 2011>

Article 37 (Consultations on Development Activities in City/Do Protected Marine Areas)

Where the State or local governments intend to conduct development activities, etc. or grant authorization or permission for development activities, etc. in City/Do protected marine areas under other statutes, the heads of the competent administrative agencies shall consult with Mayors/Do Governors who are in charge of City/Do protected marine areas.

CHAPTER V CONSERVATION OF MARINE BIOLOGICAL DIVERSITY

Article 38 (Formulation of Measures to Conserve Marine Biological Diversity and International Cooperation)

(1) The State shall formulate and implement measures to conserve marine biological diversity, including the following, as prescribed by Presidential Decree, for the conservation of marine biological diversity, the sustainable use of components thereof, the appropriate management of marine biological resources and the implementation of international agreements for the conservation and management of marine ecosystems, to which the State has acceded (including the Convention on Biological Diversity, the Convention on International Trade in Endangered Species of Wild Fauna and Flora and the Convention on Wetlands of International Importance Especially as Waterfowl Habitat):

1. Conserving the components of marine biological diversity in habitats and places other than habitats;
2. Promoting and supporting projects for protecting and increasing marine biological resources;
3. Securing specialized human resources and facilities for the operation of facilities for conserving marine biological resources and the research of marine biological diversity;
4. Developing technology for the conservation and management of marine biological resources;
5. Evaluating the impact of bio-technologically mutated organisms on marine ecosystems

once they are introduced into marine ecosystems;

6. Other matters prescribed by Presidential Decree, which are deemed to be necessary for implementing international agreements for the conservation and management of marine ecosystems.

(2) The State shall endeavor to exchange technology and information for the conservation and management of marine ecosystems, in cooperation with international organizations and related nations, ensure that technology for the conservation of marine biological diversity and sustainable use of components of marine biological diversity are easily acquired and transferred, in collaboration with countries directly involved in international agreements on the conservation and management of marine ecosystems and cooperate with each other, with regard to the management of marine biotechnology and the distribution of profits thereof.

Article 39 (Research, Technology Development, etc. for Marine Biological Diversity)(1)

The State shall conduct research and develop technology concerning the structure, functions, research and restoration of marine ecosystems, the classification of marine organisms and the conservation of components of marine biological diversity in habitats and places other than habitats.

(2) The State shall conduct necessary investigations into the distribution, trends of change, etc. of components of marine biological diversity which need separate measures for conservation or which has social, economic, cultural and scientific values, and development activities which may have a negative influence on the conservation of marine biological diversity and the sustainable use of components of marine biological diversity, so as to contribute to the conservation of marine biological diversity and the sustainable use of components of marine biological diversity: Provided, That this shall not apply to cases where such investigations may be substituted by investigations under Articles 10 and 11 may substitute.

(3) The State shall analyze, evaluate and record the outcomes of investigations into the components of marine biological diversity under paragraph (2), manage such information in a systematic manner and reflect the information in measures to conserve marine biological diversity under Article 38 (1), in order to ensure that such information can be used for the conservation of marine biological resources in an appropriate manner.

(4) Subjects and methods of investigations under paragraph (2) shall be prescribed by Presidential Decree.

Article 40 (Establishment and Operation of Institute of Marine Biological Resources)(1)

The State or local governments may establish and operate an institute of marine biological resources, for the efficient conservation of marine biological resources.

(2) Where an institute of marine biological resources is established under paragraph (1), such institute shall have experts in the classification and conservation of biological resources, for the efficient operation and management thereof.

(3) Matters necessary for the establishment and operation of the institute of marine biological resources shall be prescribed by Presidential Decree.

Article 41 (Contracts on Management of Marine Biological Diversity)(1) The Minister of Oceans and Fisheries may conclude a contract (hereinafter referred to as "contract on the management of marine biological diversity") on the change of capture or collection methods, reduction in the use of chemical substances, creation of wetlands, methods of managing public waters, etc. with occupiers and users, etc. of public waters or land, or recommend the heads of the relevant central administrative agencies or the heads of local governments to conclude a contract on the management of marine biological diversity, for the conservation of the following regions or sea areas: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Regions necessary for the protection of marine organisms;
2. Sea areas, whose marine biological diversity needs to be improved;
3. Sea areas with distinct or excellent marine biological diversity

(2) When the Minister of Oceans and Fisheries, the heads of the relevant central administrative agencies or the heads of local governments conclude a contract on the management of marine biological diversity, they shall reimburse actual expenses to any person whose profits from the relevant public waters or land are reduced due to the implementation of such contract, in accordance with the standards prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Where any party to a contract on the management of marine biological diversity intends to terminate a contract, he/she shall notify the other parties of such fact three months beforehand.

(4) Matters necessary for the conclusion of a contract on the management of marine biological diversity shall be prescribed by Presidential Decree.

Article 42 (Restrictions on Exports and Imports, etc. of Marine Organisms)(1) Any one shall obtain permission from the Minister of Oceans and Fisheries in any of the following cases, in order to prevent damage to marine ecosystems and conserve marine biological diversity: Provided, That where any one obtains permission or approval under Article 39 of the Cultural Heritage Protection Act, Article 21 of the Wildlife Protection and Management Act, and Article 11 of the Act on Conservation and Use of Biological Diversity, he/she shall be deemed to have obtained permission from the Minister of Land, Transport and Maritime Affairs: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10977, Jul. 28, 2011; Act No. 11257, Feb. 1, 2012; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

1. Where any one imports or brings in marine animals (including processed products), the capture of which is prohibited or restricted under Article 6 (3), from foreign nations;
2. Where any one exports, imports, ships out or brings in marine organisms under protection (including easily recognizable parts, derivatives and processed products), the capture or collection of which is restricted under Article 20 (1);
3. Where any one exports, imports, ships out or brings in species determined by Ordinance of the Ministry of Oceans and Fisheries, as likely to significantly affect the conservation,

management and sustainable use of marine ecosystems and marine biological resources.

(2) The Minister of Oceans and Fisheries may specify or restrict the methods, quantities, regions of imports or shipments and business owners, etc. under paragraph (1), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Where any person, who obtains permission under the main sentence of paragraph (1), falls under any of the following subparagraphs, the Minister of Oceans and Fisheries may revoke such permission: Provided, That where any one falls under subparagraph 1, he/she shall revoke such permission: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Where any one obtains permission by fraud or other wrongful means;
2. Where any one violates permitted conditions, in exporting, importing, shipping out or bringing in marine animals, etc. under any subparagraph of paragraph (1).

CHAPTER VI MANAGEMENT OF MARINE ASSETS

Article 43 (Establishment and Operation of Facilities for Conserving and Using Marine Ecosystems)(1) The Minister of Oceans and Fisheries, the heads of the relevant central administrative agencies or the heads of local governments may establish and operate the following facilities (hereinafter referred to as "facilities for conserving and using marine ecosystems"), for the conservation and management of marine ecosystems and the sound use of the sea: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Facilities for conserving and managing marine ecosystems or preventing damage to marine ecosystems;
2. Information facilities for the conservation and management of marine ecosystems and facilities for using marine ecosystems, such as a wooden bridge for observing natural ecosystems;
3. Educational facilities, PR facilities or management facilities for conserving and using marine ecosystems, such as facilities for observing marine ecosystems, the institute for the conservation of marine ecosystems and a marine ecosystem learning institute;
4. Facilities for conserving and restoring ecosystems in protected marine areas and City/Do protected marine areas;
5. Facilities for conserving and restoring landscape in areas for protecting marine landscapes;
6. Other facilities for protecting marine assets.

(2) The Minister of Oceans and Fisheries, the heads of the relevant central administrative agencies or the heads of local governments shall, before establishing and operating facilities for conserving and using marine ecosystems under paragraph (1), formulate plans on the establishment of such facilities and publicly notify such plans, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries, the heads of the relevant central administrative

agencies or the heads of local governments may collect charges from persons who use facilities for conserving and using marine ecosystems established under paragraph (1), by taking into account expenses incurred in the maintenance and management thereof: Provided, That park areas designated under the Natural Parks Acts shall be governed by the Natural Parks Acts. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) Matters concerning the procedures for collecting charges under paragraph (3) and exemption therefrom shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 44 (Designation and Management of Seaside Rest Areas)(1) The heads of local governments may designate places of high ecological and landscape values, which are suitable for visiting marine ecosystems and giving an educational program on marine ecosystems, from among regions which are not designated as parks or tourist complexes under other Acts, as seaside rest areas, as prescribed by Presidential Decree. In the case of privately-owned land, they shall obtain the consent of its owner.

(2) The heads of local governments may collect charges from persons who use the seaside rest areas under the Municipal Ordinance, by taking into account expenses incurred in the maintenance and management thereof, for the efficient management of seaside rest areas designated under paragraph (1): Provided, That this shall not apply to cases where such areas are designated as parks or tourist complexes under other Acts, after they have been designated as seaside rest areas.

(3) Management of seaside rest areas under paragraphs (1) and (2) and other necessary matters shall be determined by Municipal Ordinance of the relevant local governments.

Article 45 (Conservation of Marine Landscapes)(1) The Minister of Oceans and Fisheries, the heads of the relevant central administrative agencies or the heads of local governments shall endeavor to ensure that major landscape factors beside the seaside of high landscape values and under the sea are not damaged or the visibility is not blocked. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The heads of local governments shall take measures necessary to preserve marine landscape, in conducting development activities, etc., in accordance with the Municipal Ordinance.

(3) The Minister of Oceans and Fisheries may draw up guidelines necessary for conserving marine landscapes and notify the heads of the relevant administrative agencies and the heads of local governments of such guidelines. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 46 (Restoration of Marine Ecosystems)(1) The Minister of Oceans and Fisheries or the heads of local governments shall take necessary measures to ensure that marine ecosystems of high ecological values are not damaged, in conducting development activities, etc. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries may prepare measures to conserve and manage

the relevant marine ecosystems and implement such measures, in cooperation with the heads of the relevant central administrative agencies and the heads of local governments in the following cases: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Where the major habitats or spawning areas of marine organisms under protection are destroyed or damaged, which endangers the existence of species;
2. Where the parts of marine ecosystems maintaining primitiveness or vulnerable marine ecosystems are destroyed, damaged or disturbed;
3. Where nature of high-level marine biological diversity or unique nature is damaged;
4. Other regions prescribed by Presidential Decree as necessary for the protection of marine ecosystems, such as seashores and habitats.

(3) The Minister of Oceans and Fisheries or the heads of local governments shall formulate and implement measures necessary to restore damaged marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(4) The Minister of Oceans and Fisheries may request the heads of the relevant central administrative agencies or the heads of local governments, who formulate or finalize business plans for development activities, etc. or who grant permission for development activities, etc., to formulate and implement measure to restore marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(5) The Minister of Oceans and Fisheries shall formulate and implement policies necessary to conserve or restore marine ecosystems, such as the development of technology for the restoration of marine ecosystems, projects for the restoration of marine ecosystems and fostering of institutions specialized in the restoration of marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 47 (Preventing Damage to Marine Ecosystems in Public Waters)

The Minister of Oceans and Fisheries or the heads of local governments may restrict changes in the shape and quality of public waters, or entry, cooking and camping in public waters, as prescribed by Presidential Decree, in the following cases, so as to prevent damage to ecological or landscape values of public waters: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Where marine ecosystems are significantly damaged or a decrease in marine biological resources is remarkable in public places, such as a beach or mud flat;
2. Where regions or sea areas equivalent to those falling under subparagraph 1 meet the standards prescribed by Presidential Decree.

Article 48 (Support for Marine Ecological Tourism)(1) The Minister of Oceans and Fisheries may support local governments, tourist business entities and private organizations for the conservation and management of marine ecosystems, in consultation with the Minister of Culture, Sports and Tourism, so as to support ecologically sound and environmentally friendly tourism (hereinafter referred to as "marine ecological tourism"). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10676, May 19, 2011; Act

No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries may formulate and implement plans on educational programs necessary for marine ecological tourism, the investigation and discovery of marine ecological tourism resources and the establishment and management of facilities for the sound use of marine ecological tourism resources by nationals, or recommend the heads of local governments to formulate and implement such plans, in cooperation with the Minister of Culture, Sports and Tourism and the heads of local governments. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10676, May 19, 2011; Act No. 11690, Mar. 23, 2013>

CHAPTER VII SUPPLEMENTARY PROVISIONS

Article 49 (Marine Ecosystem Conservation Levy)(1) The Minister of Oceans and Fisheries shall impose and collect the marine ecosystem conservation levy from any person who conducts development projects which remarkably affect marine ecosystems or reduce marine biological diversity. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The following projects are subject to the marine ecosystem conservation levy under paragraph (1): <Amended by Act No. 9037, Mar. 28, 2008; Act No. 9982, Jan. 27, 2010; Act No. 10676, May 19, 2011; Act No. 10892, Jul. 21, 2011>

1. Development projects conducted for public waters, from among the projects subject to the impact assessment under Article 22 of the Environmental Impact Assessment Act;
2. Projects for exploring and mining in public waters, the scale of which is not smaller than the scale prescribed by Presidential Decree, from among mining businesses under subparagraph 2 of Article 3 of the Mining Industry Act;
3. Projects for extracting marine aggregates of no less than five hundred thousand cubic meters under Article 22 of the Aggregate Extraction Act and designating marine aggregate extraction complexes under Article 34 of the same Act, from among projects subject to coastal area utilization impact assessment under Article 85 of the Marine Environment Management Act;
4. Other projects prescribed by Presidential Decree, from among projects which remarkably affect marine ecosystems or projects using marine assets in public waters.

(3) The marine ecosystem conservation levy under paragraph (1) shall be calculated and imposed, by multiplying the damaged areas of ecosystems by amounts to be imposed per unit area and regional coefficients, not exceeding two billion won: Provided, That projects prescribed by Presidential Decree, from among projects conducted for military purposes, may be exempt from the marine ecosystem conservation levy.

(4) Procedures for collecting the marine ecosystem conservation levy under paragraph (1), standards for exemption therefrom, amounts to be imposed per unit area and regional coefficients shall be determined by Presidential Decree. In such cases, amounts to be imposed per unit area shall be based on the value of damaged marine ecosystems and regional coefficients shall be based on the purposes of using land under the National Land Planning and Utilization Act, while regional coefficients of green belt zones shall apply

mutatis mutandis to harbor areas under the Harbor Act, from among sea and beaches under the Public Waters Management and Reclamation Act and regional coefficients of natural environment conservation areas shall apply mutatis mutandis to other areas. <Amended by Act No. 12661, May 21, 2014>

(5) The Minister of Oceans and Fisheries shall pay the marine ecosystem conservation levy under paragraph (1) and additional charges under Article 51 (1) as the fisheries development fund under Article 46 of the Framework Act on Fishers and Fishing Villages Development. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 9626, Apr. 22, 2009; Act No. 11690, Mar. 23, 2013; Act No. 13383, Jun. 22, 2015>

(6) Where the Minister of Oceans and Fisheries delegates his/her authority to collect the marine ecosystem conservation levy and additional charges to Mayors/Do Governors pursuant to Article 60 (1), he/she may grant amounts equivalent to 50/100 of the marine ecosystem conservation levy and additional charges collected to Mayors/Do Governors in charge of the relevant project areas. In such cases, Mayors/Do Governors may spend some of such grants on imposing and collecting the marine ecosystem conservation levy, as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(7) Where any person, who has paid the marine ecosystem conservation levy, conducts a project for the conservation and management of marine ecosystems, as prescribed by Presidential Decree, such as creating alternative marine ecosystems and restoring marine ecosystems, after obtaining approval therefor from the Minister of Oceans and Fisheries, the Minister of Oceans and Fisheries may return some of the marine ecosystem conservation levy to the person. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(8) Matters necessary for granting approval and returning the marine ecosystem conservation levy under paragraph (7) shall be prescribed by Presidential Decree.

Article 49-2 (Purposes of Marine Ecosystem Conservation Levy)

The marine ecosystem conservation levy as specified in Article 49 (1) and the charges collected under Article 51 (1) shall be used for the following purposes:

1. Projects to conserve and restore marine ecosystems and biological species;
2. Support for conservation institutions other than habitats;
3. Implementation of the master plan for managing protected marine areas under Article 28;
4. Purchase of land, etc. under Article 33;
5. Implementation of projects listed in each subparagraph of Article 34 (1);
6. Establishment and operation of facilities to conserve and utilize marine ecosystems under Article 43;
7. Restoration of marine ecosystems under Article 46;
8. Projects prescribed by Presidential Decree as necessary to conserve and manage marine ecosystems, except those provided for in subparagraphs 1 through 7.

(This Article Newly Inserted by Act No. 10676, May 19, 2011)

Article 50 (Notification of Authorization or Permission for Projects)(1) The heads of administrative agencies who authorize or permit projects subject to the marine ecosystem conservation levy under Article 49 (2) shall publicly notify the Minister of Oceans and Fisheries of business entities, details of projects, the size of projects, etc. within 20 days from the date on which such authorization or permission is granted. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall publicly notify business entities of such matters as the amount of the marine ecosystem conservation levy, deadline for payment, etc. within one month from the receipt of a public notice under paragraph (1). In such cases, the deadline for payment shall be three months from the date on which the marine ecosystem conservation levy is imposed. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Such matters as the details and methods of notification under paragraphs (1) and (2) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 51 (Compulsory Collection of Marine Ecosystem Conservation Levy)(1) Where any one obliged to pay the marine ecosystem conservation levy under Article 49 fails to make payment by the due date, the Minister of Oceans and Fisheries shall urge the person to make payment by fixing a period of not less than 30 days. In such cases, charges pursuant to the following classification shall be added to the amounts of the marine ecosystem conservation levy in arrears: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

1. Where the marine ecosystem conservation levy is paid within a week after the deadline for payment: the amount equivalent to 1/100 of the marine ecosystem conservation levy;

2. Cases other than subparagraph 1: the amount equivalent to 3/100 of the marine ecosystem conservation levy.

(2) Where any one urged to make a payment under paragraph (1) fails to pay the marine ecosystem conservation levy and additional charges within the deadline, they may be collected in the same manner as default national taxes are collected.

Article 52 (Cooperation with Relevant Agencies)(1) The Minister of Oceans and Fisheries may request the heads of the relevant central administrative agencies or the heads of local governments to formulate necessary polices or take measures concerning matters prescribed by Presidential Decree, where it is deemed necessary for achieving the purposes of this Act. In such cases, the heads of the relevant central administrative agencies or the heads of local governments shall comply therewith, except under special circumstances. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall evaluate the values and functions of marine biological diversity for the conservation, management and sustainable use of marine ecosystems, and endeavor to ensure that the heads of the relevant central administrative agencies or the heads of local governments can use such information. <Amended by Act

No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 53 (Compensation for Loss)(1) Any one who suffers property loss under Articles 14 (1) and 27 (5) (including Municipal Ordinance enacted in accordance with Article 27 (5) pursuant to Article 36 (5)) may request compensation from the Minister of Oceans and Fisheries or Mayors/Do Governors, as prescribed by Presidential Decree: Provided, That in cases of compensation concerning fishing activities, Article 81 of the Fisheries Act shall apply mutatis mutandis. <Amended by Act No. 8377, Apr. 11, 2007; Act No. 8852, Feb. 29, 2008; Act 9626, Apr. 22, 2009; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries or Mayors/Do Governors, upon receiving a request under the main sentence of paragraph (1), shall determine the amount of compensation after consulting with an applicant within three months and notify the applicant of such amount. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Where a consensus is not reached under paragraph (2), the Minister of Oceans and Fisheries, Mayors/Do Governors or a requester may apply for adjudication with the competent Land Tribunal, as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 54 (State Subsidies)

The State may subsidize all or part of the expenses associated with the conservation of marine ecosystems for local governments or organizations which conduct the following projects for the conservation and management of marine ecosystems:

1. Support for movements to protect marine ecosystems under Article 6;
2. Support for residents in protected marine areas and adjacent areas under Article 34;
3. Establishment and operation of facilities for conserving and using marine ecosystems under Article 43;
4. Projects falling under each subparagraph of Article 56;
5. Entrusted projects under Article 60 (2).

Article 55 (Symbolic Signs of Marine Ecosystems and Symbolic Species of Local Governments)(1) The State may establish symbolic signs of marine ecosystems by type of region in regions which need to conserve and manage marine ecosystems, such as protected marine areas, and local governments may change and use parts of symbolic signs of marine ecosystems by taking into account the characteristics of the areas under their jurisdiction.

(2) Local governments may designate important marine organisms or marine ecosystems, which can represent the relevant regions, as the symbolic species or symbolic marine ecosystems of the relevant local governments, and conserve or use such species or ecosystems.

Article 56 (Support for Civil Organizations for Conservation and Management of Marine Ecosystems)

The Minister of Oceans and Fisheries may support civil organizations for the conservation and management of marine ecosystems, engaged in the following activities to conserve and

manage marine ecosystems: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

1. Cooperation and exchanges with international organizations and agencies for the conservation of marine ecosystems;
2. Protection of marine organisms;
3. Conservation of marine ecosystems and marine assets.

Article 57 (Honorary Instructors for Conservation of Marine Ecosystems)(1) The head of a Si/Gun/Gu may appoint members of civil organizations for the conservation and management of marine ecosystems or persons who faithfully conduct activities for the conservation and management of marine ecosystems as honorary instructors for the conservation of marine ecosystems, for instruction and enlightenment concerning the conservation and management of marine ecosystems. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

(2) A certificate verifying the identification of honorary instructors for the conservation of marine ecosystems shall be issued to honorary instructors for the conservation of marine ecosystems, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Such matters as the methods of appointing honorary instructors for the conservation of marine ecosystems and the scope of their activities shall be prescribed by Municipal Ordinance of the relevant local governments. <Amended by Act No. 12661, May 21, 2014>

Article 58 (Reporting)

The Minister of Oceans and Fisheries shall submit reports on major plans for the conservation of marine ecosystems and the outcomes of implementing such plans to the National Assembly before the commencement of a regular session of the National Assembly in the relevant year, every two years. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 59 (Hearings)

The Minister of Oceans and Fisheries or Mayors/Do Governors shall hold a hearing, when revoking designation or permission under Article 17 (3), 18 (4), 21 (1) and 42 (3). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

Article 60 (Entrustment or Delegation of Authority)(1) Part of the authority of the Minister of Oceans and Fisheries under this Act may be delegated to the heads of institutions belonging to the Ministry of Land, Transport and Maritime Affairs or Mayors/Do Governors, as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries or Mayors/Do Governors may entrust some of his/her tasks under this Act to the relevant specialized institutions or organizations, as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12661, May 21, 2014>

Article 60-2 (Review of Regulations)

The Minister of Land, Infrastructure and Transport shall review the validity of the imposition and collection of marine ecosystem conservation levy on a three-year basis starting from July 1, 2015, and take necessary measures, such as improvements.

[This Article Newly Inserted by Act No. 13057, Jan. 20, 2015]

CHAPTER VIII PENALTY PROVISIONS

Article 61 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than three years or by a fine not exceeding 30 million won: <Amended by Act No. 11862, Jun. 4, 2013; Act No. 12490, Mar. 18, 2014; Act No. 13275, Mar. 27, 2015>

1. Any person who captures marine mammals, in violation of prohibitions and restrictions under Article 16 (3);
2. Any person who captures, collects or damages marine organisms under protection, or who installs explosives, nets or fishing gear or uses harmful substances or electric currents, so as to capture or damage marine organisms under protection, in violation of Article 20 (1).

Article 62 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than two years or by a fine not exceeding 20 million won: <Amended by Act No. 13275, Mar. 27, 2015>

1. Any person who transplants, processes, distributes or stores marine organisms under protection, in violation of Article 20 (1);
2. Any person who brings organisms disturbing marine ecosystems into marine ecosystems and increases their habitats or numbers, in violation of Article 23 (1);
3. Any person who imports or brings in organisms disturbing marine ecosystems, without permission, in violation of Article 23 (2);
4. Any person who damages marine organisms or marine ecosystems in areas for protecting marine organisms or areas for protecting marine ecosystems, in violation of Article 27 (1) 1 through 5;
5. Any person who damages marine organisms or marine ecosystems in areas for protecting marine organisms, in violation of Article 27 (3);
6. Any person who violates orders to suspend, restore or take measures under Article 30;
7. Any person who imports or brings in marine animals from foreign nations, without permission, in violation of Article 42 (1) 1;
8. Any person who exports, imports, ships out or brings in marine organisms under protection without permission, in violation of Article 42 (1) 2.

Article 63 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than one year or by a fine not exceeding 10 million won: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 13275, Mar. 27, 2015>

1. Any person who obtains permission for the capture or collection of marine organisms under protection under the proviso to Article 20 (1) by fraud or other wrongful means;

2. Any person who places an advertisement which is likely to facilitate the extinction or decrease of marine organisms under protection or provoke the abuse of marine organisms under protection, in violation of Article 22;
3. Any person who obtains permission for importing or bringing in organisms disturbing marine ecosystems under Article 23 (2) by fraud or other wrongful means;
4. Any person who damages the marine landscape in areas for protecting marine landscape, in violation of Article 27 (1) 2 through 5;
5. Any person who obtains permission under Article 42 (1) 1 through 3 by fraud or other wrongful means;
6. Any person who exports, imports, ships out or brings in species determined by Ordinance of the Ministry of Oceans and Fisheries, without permission, in violation of Article 42 (1) 3.

Article 63-2 (Forfeiture and Levy)(1) Any marine organisms under protection, explosives, nets or fishing gear, and harmful substances owned or possessed by a person who committed a crime under subparagraph 2 of Article 61 or subparagraph 1 of Article 62 may be forfeited. <Amended by Act No. 12490, Mar. 18, 2014>

(2) Where any marine organisms under protection, explosives, nets, fishing gear, or harmful substances pursuant to paragraph (1) cannot be forfeited as a whole or in part, the value thereof shall be levied as a penalty. <Amended by Act No. 12490, Mar. 18, 2014>

[This Article Newly Inserted by Act No. 12490, Mar. 18, 2014]

Article 64 (Joint Penalty Provisions)

If the representative of a corporation, or an agent, an employee or any other employed person of the corporation or an individual commits such act as prescribed in Articles 61 through 63, in connection with the duties of the said corporation or individual, not only such an actor shall be punished accordingly, but also the corporation or individual shall be punished by a fine under the same Article: Provided, That the same shall not apply where the corporation or individual has not neglected to exercise due diligence and supervision over the relevant duties in order to prevent such violation.

[This Article Wholly Amended by Act No. 9614, Apr. 1, 2009]

Article 65 (Administrative Fines)(1) Any person who violates a measure taken by a Mayor/Do Governor under Article 36 (5) (limited to the parts related to the provisions of Articles 27 and 30) shall be punished by an administrative fine not exceeding 10 million won.

(2) Any of the following persons shall be punished by an administrative fine not exceeding two million won:

1. Any person who refuses, obstructs, or evades entrance, investigation or observation and the change or removal of any obstacle, etc., without good cause, in violation of Article 14 (3);
2. Any person who captures a migratory marine animal, in violation of prohibitions or restrictions under Article 16 (3);
3. Any person who fails to report the outcome of the capture or collection of marine organisms under protection, in violation of Article 20 (4);
4. Any person who fails to report on the storage of marine organisms under protection, in

violation of Article 20 (5);

5. Any person who violates a restriction on change in the shape and quality of public waters, or entry, cooking and camping under Article 47.

(3) Any of the following persons shall be punished by an administrative fine not exceeding one million won:

1. Any person who fails to carry a permit, in violation of Article 20 (4);

2. Any person who fails to return a permit, in violation of Article 21 (2);

3. Any person who violates a restriction on an act under Article 27 (1) 6 through 8;

4. Any person who violates a restriction on development activities or fishing activities under Article 27 (5).

(4) Administrative fines under paragraphs (1) through (3) shall be imposed and collected by the Minister of Oceans and Fisheries or the heads of local governments, as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(5) through (7) Deleted. <by Act No. 9614, Apr. 1, 200
ADDENDA (Omitted)

4. Framework Act on Marine Fishery Development

[Enforcement Date 23. Sep, 2016.] [Act No.14079, 22. Mar, 2016., Amendment by Other Act]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to contribute to the development of the national economy and the improvement of national welfare, by determining the Government's basic policy and its directions for the rational management, preservation, development and utilization of the sea and marine resources, and the fostering of marine industries.

Article 2 (Basic Ideology)

Recognizing that the sea is a rich repository of natural resources and a ground for living as well as a route of logistics, and as such it exerts considerable influences on the national economy and national living, the basic ideology of this Act is to cultivate opulent and vibrant seas to be bequeathed to the future generations, by creating an environment where the marine industries can become more knowledge- and information-based and create higher added value, and by seeking the environment-friendly and sustainable development or utilization of marine resources.

Article 3 (Definitions)

The definition of terms used in this Act shall be as follows: <Amended by Act No. 11596, Dec. 18, 2012>

1. The term "sea" means the sea area such as inland waters, territorial waters, exclusive economic zone and continental shelf, etc. of the Republic of Korea whereto extends the sovereignty, sovereign rights or jurisdiction of the Republic of Korea, and the sea area

wherein the Government of the Republic of Korea or her people may take part for its development, utilization or preservation under the treaties concluded and promulgated under her Constitution, or the generally-approved international statutes;

2. The term "marine resources" means the resources valuable to the national economy and national living, such as the marine living resources, marine mineral resources, marine energy, marine tourism resources, marine space resources, etc. which may be developed or utilized;

2-2. The term "marine science and technology" means science and technology related to the management, preservation, development and utilization of seas and marine resources;

3. The term "marine industry" means the industries related to shipping, ports and harbors, fishery, development of marine science and technology, marine environment, marine tourism, and marine information, and other industries related to the management, preservation, development or utilization of seas and marine resources.

Article 4 (Relations with Other Acts)

Other Acts concerning the maritime affairs and fisheries shall be enacted or amended in compliance with the purpose and basic ideology of this Act.

Article 5 (Basic Responsibility of State, etc.) (1) The State and local governments shall be responsible for preserving the marine environments, marine resources and marine ecosystems.

(2) The State and local governments shall, in promoting the development of marine industries, endeavor to make the management, preservation, development or utilization of seas and marine resources to achieve a harmony and balance therewith.

(3) The State and local governments shall continuously promote the creation of the infrastructures and environments required for the development of maritime affairs and fisheries.

CHAPTER II FORMULATION OF MARITIME AFFAIRS AND FISHERIES POLICIES AND SYSTEM FOR IMPLEMENTATION THEREOF

Article 6 (Master Plan for Development of Maritime Affairs and Fisheries) (1) The Government shall, in order to efficiently achieve the purposes of this Act, establish the mid-to long-term policy objectives and directions thereof concerning the rational management, preservation, development and utilization of seas and marine resources, and the fostering of marine industry (hereinafter referred to as the "marine development, etc."), and formulate and implement every decade the master plan for the development of maritime affairs and fisheries (hereinafter referred to as the "master plan") as prescribed by Presidential Decree.

(2) The master plan shall contain the following: <Amended by Act No. 12491, Mar. 18, 2014>

1. Basic conception of the Government as to the marine development, etc. and its implementation objectives;

2. Matters concerning the preservation and management, etc. of seas;

3. Matters concerning the rational development and utilization, etc. of marine resources;

4. Matters concerning the fostering of marine industries;

5. Matters concerning laying the foundation for the development of maritime affairs and

fisheries and the advancement of environment preservation;

5-2. Matters concerning the fostering of human resources specialized in maritime affairs and fisheries;

6. Other matters concerning the comprehensive and systematic implementation of marine development, etc.

(3) The Government shall finalize the master plan after deliberation by the Marine Fishery Development Committee under Article 7 and the State Council, and provide public notice thereof.

(4) The Government shall formulate and implement an annual implementation plan for the development of maritime affairs and fisheries (hereinafter referred to as the "implementation plan") in accordance with the master plan. In such cases, if there exists any plan for each sector pursuant to other Acts and subordinate statutes, it shall be reflected in the implementation plan.

(5) The Government shall prepare the implementation plan for the relevant year under paragraph (4) and the achievements in the implementation of the preceding year's plan, as prescribed by Presidential Decree.

(6) The Government shall submit to the National Assembly an annual report as to the main details of the master plan, the implementation plan for the relevant year, and the achievements in the implementation of the preceding year's plan.

Article 7 (Maritime Affairs and Fisheries Development Committee)

The Maritime Affairs and Fisheries Development Committee (hereinafter referred to as the "Committee") shall be established under the control of the Minister of Oceans and Fisheries in order to deliberate on the master plan, important policies on marine development, etc. and marine environment. <Amended by Act No. 9454, Feb. 6, 2009; Act No. 11709, Mar. 23, 2013>

Article 8 (Composition, etc. of Committee) (1) The Committee shall be composed of not more than 25 members including one chairperson.

(2) The chairperson of the Committee shall be the Minister of Oceans and Fisheries, and members of the Committee shall be those prescribed by Presidential Decree from Vice-Ministerial-level public officials of related central administrative agencies and those commissioned by the Minister of Oceans and Fisheries (hereinafter referred to as "commissioned members") from among those with expert knowledge and extensive experience in the seas, marine resources, marine industries or marine environment. <Amended by Act No. 9454, Feb. 6, 2009; Act No. 11709, Mar. 23, 2013>

(3) The Committee shall have one executive secretary, who shall be the Vice Minister of Oceans and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 9454, Feb. 6, 2009; Act No. 11709, Mar. 23, 2013>

(4) The number of commissioned members shall be not less than five, and their terms of office shall be two years, and they may serve consecutive terms.

(5) The composition and operation of the Committee and other necessary matters shall be

prescribed by Presidential Decree.

Article 9 (Duties of Committee)

The Committee shall deliberate on the following: <Amended by Act No. 9454, Feb. 6, 2009>

1. Formulation of the master plan;
2. Establishment of national objectives and institutional development with regard to marine development, etc.;
3. Adjustment of important policies on marine development, etc.;
4. Fostering and support of marine industries;
5. Formulation, etc. of important policies and plans on marine environment;
6. Other matters prescribed by other Acts to be deliberated on by the Committee and matters which are referred for deliberation by the chairperson.

Article 10 (Request for Submission of Materials, etc.)

The Committee may, if deemed necessary for performing its duties, request the head of the related administrative agency to submit materials or to present his/her opinion, etc., and the head of the related administrative agency, upon receipt of such request, shall comply therewith in the absence of good cause to the contrary.

Article 11 (Working Committee) (1) The working committee for maritime affairs and fisheries development (hereafter referred to as the "working committee" in this Article) shall be established in the Committee in order to render practical support to the efficient operation of the Committee and deliberation on agenda items by the Committee.

(2) Subcommittees may be operated in each field under the working committee for its efficient operation.

(3) The composition and operation of the working committee and subcommittees and other necessary matters shall be prescribed by Presidential Decree.

CHAPTER III MARINE DEVELOPMENT, ETC.

SECTION 1 Management and Preservation, etc. of Seas

Article 12 (Management of Seas) (1) The Government shall strive for preservation of the marine environment and marine resources, and for sustainable development.

(2) The Government shall ensure the comprehensive and systematic management and preservation of the resources in the sea area under the sovereign rights or jurisdiction of the Republic of Korea, such as the exclusive economic zone and continental shelf, and shall secure the various capabilities to do so.

Article 13 (Preservation of Marine Environment)

The Government shall devise measures to prevent the generation or influx of pollutants or wastes, or remove pollutants or wastes for the sake of the preservation of marine environment.

Article 14 (Preservation of Marine Ecosystem)

The Government shall endeavor to preserve and restore marine ecosystems, such as preserving marine biodiversity and protecting habitats.

Article 15 (Management of Marine Safety)

In order to prevent marine accidents from inflicting damage on human lives and properties, or causing marine pollution, etc., the Government shall devise and implement measures on marine safety management, such as developing marine safety technologies, improving the marine traffic environment, securing ship safety, and establishing a system to rapidly respond to accidents.

SECTION 2 Development and Utilization, etc. of Marine Resources

Article 16 (Development, etc. of Marine Resources)

The Government shall devise and implement measures required for the management, preservation, development and utilization of marine resources.

Article 17 (Marine Scientific Research and Technological Development) (1) The Government shall conduct marine scientific research and observe seas for the rational management, preservation, development and utilization of the seas and marine resources, and may establish and operate a national network for marine observation for efficient research and observation.

(2) The Minister of Oceans and Fisheries shall devise and implement a plan for the development of marine science and technology, in order to improve marine science and technology and to facilitate its practicalization and industrialization. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11709, Mar. 23, 2013>

Article 18 (Use of Marine Spaces)

The Government shall endeavor to utilize the marine spaces scientifically and economically, through installation and operation of oceanic cities, artificial islands and marine structures, etc.

Article 19 (Exploitation of Forward Base for Marine Development)

The Government shall develop a forward base for marine development to develop overseas marine living resources and marine mineral resources.

Article 20 (Installation of Marine Research Station, and Survey and Research)

The Government shall devise and implement support plans required for the installation of a marine research station in a specific area, such as the South Pole and the North Pole, and for the advancement of marine science survey and research.

Article 21 (Advancement of International Cooperation)

The Government shall endeavor to promote efficient international cooperation, such as the establishment, etc. of an organization designed to facilitate technological cooperation, information exchange, joint survey and research concerning marine development, etc. in collaboration with foreign countries and international organizations, etc.

Article 22 (Inter-Korean Cooperation for Maritime Affairs and Fisheries)

The Government shall endeavor to advance cooperation in the fields of maritime affairs and fisheries, such as the joint research on marine science, joint development of marine resources, joint fishery with residents in the northern territory of the military demarcation line, and the opening of a sea route and the exchange of fishery products with the northern areas of the military demarcation line.

SECTION 3 Fostering of Marine Industry

Article 23 (Strengthening, etc. of Competitiveness of Shipping and Port Industries)

For the purpose of strengthening the international competitiveness of shipping and port industries and increasing the efficiency of harbor operation, the Government shall devise and implement measures required for the fostering of shipping industry and the development of port and harbor industry.

Article 24 (Expansion of Port Facilities, etc.)

The Government shall devise and implement measures required to expand port and harbor facilities and fishing port facilities, such as the construction of ports and harbors and fishing ports, the construction of port hinterlands, the development of harbor construction technology, etc.

Article 25 Deleted. <by Act No. 9717, May 27, 2009>

Article 26 Deleted. <by Act No. 9717, May 27, 2009>

Article 27 Deleted. <by Act No. 9717, May 27, 2009>

Article 28 (Promotion of Marine Tourism) (1) In order to improve the health, recreation, and emotional life of all Koreans, the Government shall devise and implement measures required to facilitate tourist activities, leisure or sports in the seas (hereafter referred to as the "maritime tourism" in this Article).

(2) The Minister of Oceans and Fisheries may designate, as the undersea scenic zone, the sea area in which undersea scenery is excellent and ecosystems are well preserved, as prescribed by Presidential Decree for the promotion of marine tourism. In such cases, where the sea area intended for such designation as the undersea scenic zone corresponds to a natural park under subparagraph 1 of Article 2 of the Natural Parks Act, he/she shall consult in advance with the Minister of Environment. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11709, Mar. 23, 2013>

(3) For the purpose of cultivating sound emotions of all Koreans, expanding exchanges between cities and fishing villages, and increasing the income of residents in fishing villages, the Minister of Oceans and Fisheries shall devise and implement measures to encourage specialized fishing village tourism aimed at developing fishing villages into tourist attractions that have their own characteristics. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11709, Mar. 23, 2013>

(4) Where necessary for the development of specialized fishing village tourism under paragraph (3), the State may render support required for installing and operating cultural facilities, etc. or for holding a regional cultural event, etc.

(5) In order to support and foster sports and leisure activities in the seas, the Minister of Oceans and Fisheries shall formulate and implement a plan to promote sports and leisure activities in the seas. <Newly Inserted by Act No. 11709, Mar. 23, 2013>

Article 29 (Support, etc. for New Technologies) (1) The Minister of Oceans and Fisheries may render support required for the development or commercialization of new technologies related to marine development, etc. (hereafter referred to as "new technologies" in this

Article) of small and medium businesses (referring to small and medium businesses under Article 2 of the Framework Act on Small and Medium Enterprises). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11709, Mar. 23, 2013>

(2) Where a business operator, who commercialized a new technology through support under paragraph (1), has generated a turnover by utilizing or commercializing such technology, the Minister of Oceans and Fisheries may receive royalties from such business operator. In such cases, matters necessary for the criteria for payment, payment procedures and purpose, etc. of royalties shall be prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11709, Mar. 23, 2013>

(3) The Minister of Oceans and Fisheries may, if necessary for efficiently promoting the support business under paragraph (1), designate a specialized agency and have such agency perform duties related thereto. In such cases, the Minister of Oceans and Fisheries may subsidize expenses incurred therefor. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11709, Mar. 23, 2013>

CHAPTER IV LAYING FOUNDATION FOR AND CREATING ENVIRONMENT OF DEVELOPMENT OF MARITIME AFFAIRS AND FISHERIES

Article 30 (Establishment and Fostering, etc. of Research Institutes) (1) The Government may establish and foster a research institute which conducts survey, research and development of science and technology for the rational management, preservation, development and utilization of the seas and marine resources, pursuant to the provisions of the Act on the Establishment, Operation and Fostering of Government-Funded Research Institutions.

(2) The Government shall endeavor to establish and utilize systematic collaborative research systems among the academic circles, research institutes and industrial circles.

Article 31 (Fostering, etc. of Skilled Personnel in Maritime Affairs and Fisheries) (1) The Government shall establish and operate training centers and educational institutes in order to foster human resources specialized in the fields of maritime affairs and fisheries and to efficiently utilize such personnel.

(2) If necessary to foster human resources specialized in maritime affairs and fisheries under paragraph (1), the Minister of Oceans and Fisheries may give his/her opinions on increasing the fixed number of personnel and creating new educational courses to the heads of a training center or an educational institute and the heads of relevant central administrative agencies. In such cases, the heads of relevant central administrative agencies shall take such opinions into consideration. <Newly Inserted by Act No. 12491, Mar. 18, 2014>

(3) The Minister of Oceans and Fisheries shall devise and implement measures required for stabilizing employment of crewmen and enhancing their welfare. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11709, Mar. 23, 2013; Act No. 12491, Mar. 18, 2014>

(4) The Minister of Oceans and Fisheries shall devise and implement measures required for fostering successors to fisheries who settle in a fishing village and who operate or intend to operate fishery, and professional fishing people equipped with the professional fisheries

technology and managerial capability. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11709, Mar. 23, 2013; Act No. 12491, Mar. 18, 2014>

Article 32 (Information-oriented Advancement for Marine Development, etc.) (1) The Minister of Oceans and Fisheries shall devise and implement measures required for more sophisticated information processing systems concerning marine development, etc. and for smooth distribution of information. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11709, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries may establish and operate the national information center for maritime affairs and fisheries, in order to efficiently collect, manage and provide information concerning marine development, etc. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11709, Mar. 23, 2013>

Article 33 (Promotion of Research and Development Project of Marine Science and Technology) (1) For the purpose of efficient implementation of the development plans for marine science and technology referred to in Article 17 (2), the Minister of Oceans and Fisheries may select research and development tasks by year and by field and implement projects for facilitating research and development and nurturing human resources specialized in marine science and technology (hereinafter referred to as "research and development project, etc."), after concluding an agreement with any of the following institutions or organizations: <Amended by Act No. 11709, Mar. 23, 2013; Act No. 14079, Mar. 22, 2016>

1. Specific research institutes under Article 2 of the Specific Research Institutes Support Act;
2. Government-funded research institutes under Article 8 (1) of the Act on the Establishment, Operation and Fostering of Government-Funded Research Institutes, or government-funded science and technology research institutes under Article 8 (1) of the Act on the Establishment, Operation and Fostering of Government-Funded Science and Technology Research Institutes.Etc;
3. The Korea Institute of Ocean Science and Technology established under the Korea Institute of Ocean Science and Technology Act;
4. National and public research institutes;
5. Schools under Article 2 of the Higher Education Act;
6. Research institutes that retain human resources specializing in marine science and technology among research institutes affiliated with enterprises recognized under Article 14-2 (1) of the Basic Research Promotion and Technology Development Support Act;
7. Corporations, established under the Civil Act or other Acts, which conduct research and development related to marine science and technology;
8. Other research institutes or organizations in the field of marine science and technology, which are prescribed by Presidential Decree.

(2) The Minister of Oceans and Fisheries may contribute or provide subsidy to cover all or part of the expenses incurred in carrying out the research and development projects, etc. pursuant to paragraph (1) within budgetary limits. <Amended by Act No. 11709, Mar. 23,

2013>

(3) Matters necessary for the promotion of research and development projects, etc. and disbursement, management, etc. of contributions under paragraphs (1) and (2) shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11596, Dec. 18, 2012]

Article 33-2 (Establishment of Korea Institute of Marine Science and Technology Promotion) (1) For the purpose of rendering efficient support to the establishment of development plans for marine science and technology under Article 17 (2) and for the planning, management, evaluation, etc. of research and development projects, etc., the Korea Institute of Marine Science and Technology Promotion (hereinafter referred to as the "Institute") shall be established.

(2) The Institute shall be a corporation and be duly formed upon the completion of the registration of its establishment in the place in which its main office is located.

(3) The Institute shall have executives and necessary employees as prescribed by its articles of incorporation.

(4) The Institute shall engage in the following services:

1. Support for the establishment of policies related to development plans for marine science and technology and research and development projects, etc.;
2. Planning, management and evaluation of research and development projects, etc.;
3. Support for international cooperation and international joint research projects in the field of marine science and technology;
4. Other projects prescribed by Presidential Decree in connection with research and development projects, etc.

(5) The Government may contribute or provide subsidy to cover all or part of the expenses incurred in the operation of the Institute within budgetary limits.

(6) The Institute may engage in profit-making business as prescribed by Presidential Decree in order to raise funds required for achieving its purpose provided in paragraph (1).

(7) Unless otherwise prescribed by this Act, the provisions concerning an incorporated foundation prescribed in the Civil Act shall apply mutatis mutandis in regard to the Institute.

[This Article Newly Inserted by Act No. 11596, Dec. 18, 2012]

Article 34 (Promotion, etc. of Marine Culture) (1) The Government shall endeavor to encourage enterprising spirit in regards of the seas and to promote the marine culture.

(2) The Government shall endeavor to promote people's understanding of marine development, etc. and to disseminate knowledge thereof.

Article 35 (Support to Finance, etc.)

The Government may, if deemed necessary for achieving the purpose of this Act, render fiscal or financial support to institutions, etc. related to maritime affairs and fisheries.

5. Enforcement Decree of Framework Act on Marine Fishery Development

[Enforcement Date 26. Jul, 2017.][Presidential Decree No.28211, 26. Jul, 2017., Amendment by Other Act]

Article 1 (Purpose)

The purpose of this Decree is to prescribe matters delegated by the Framework Act on Marine Fishery Development, and those necessary for the enforcement thereof.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 2 (Establishment of Objectives and Directions of Mid- to Long-Term Policies)

(1) The Minister of Oceans and Fisheries shall establish mid- to long-term policy objectives and directions (hereafter in this Article referred to as "mid- to long-term policy objectives, etc.") for the rational management, preservation, development and utilization of the seas and marine resources, and for the fostering of the marine industry under Article 6 (1) of the Framework Act on Marine Fishery Development (hereafter referred to as the "Act") and shall give notice thereof to the heads of related central administrative agencies and publicly announce details thereof. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

(2) When the Minister of Oceans and Fisheries establishes mid- to long-term policy objectives, etc. under paragraph (1), he/she shall refer them to the Maritime Affairs and Fisheries Development Committee for deliberation as prescribed in Article 7 of the Act. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

(3) Where necessary for establishing the mid- to long-term policy objectives, etc., the Minister of Oceans and Fisheries may request the related central administrative agencies, local governments, enterprises, etc. that have participated in the State's research and development projects, to furnish materials. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 3 (Establishment of Master Plan)

(1) The Minister of Oceans and Fisheries shall formulate a master plan for maritime affairs and fisheries development under Article 6 of the Act (hereinafter referred to as "master plan"), following consultation with the heads of related central administrative agencies. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

(2) The head of a related central administrative agency shall prepare a plan for his/her jurisdictional fields and submit such plan to the Minister of Oceans and Fisheries to be utilized as materials necessary for establishing the master plan under paragraph (1). <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 4 (Establishment of Implementation Plans)

(1) The head of a related central administrative agency shall formulate and implement an annual implementation plan for maritime affairs and fisheries development for his/her jurisdictional fields (hereinafter referred to as "implementation plan") pursuant to the master

plan.

(2) The head of a related central administrative agency shall submit, to the Minister of Oceans and Fisheries, the implementation plan for the relevant year and materials on the outcomes in the implementation for the preceding year's plan by the last day of January each year. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 5 (Preparation and Submission of Reports)

(1) The Minister of Oceans and Fisheries shall prepare an annual report on the major details of the master plan, the implementation plan for the relevant year, and the outcomes in the implementation for the preceding year's plan, based on the materials submitted pursuant to Article 4 (2). <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall file a report prepared pursuant to paragraph (1) with the Maritime Affairs and Fisheries Development Committee under Article 7 of the Act, and submit it to the National Assembly by the last day of June each year. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 6 (Composition of Maritime Affairs and Fisheries Development Committee)

(1) Vice-Ministerial-level public officials of the related central administrative agencies, who are to serve as members of the Maritime Affairs and Fisheries Development Committee (hereinafter referred to as the "Committee") pursuant to Article 8 (2) of the Act, shall be Vice Minister II of Strategy and Finance; Vice Minister of Education; Vice Minister I of Science and ICT; Vice Minister II of Foreign Affairs; Vice Minister of Unification; Vice Minister of National Defense; Vice Minister of the Interior and Safety; Vice Minister II of Culture, Sports and Tourism; Vice Minister of Agriculture, Food and Rural Affairs; Vice Minister of Trade, Industry and Energy; Vice Minister of Environment; Vice Minister of Employment and Labor; Vice Minister II of Land, Infrastructure and Transport; and Vice Minister of Oceans and Fisheries. <Amended by Presidential Decree No. 22269, Jul. 12, 2010; Presidential Decree No. 24443, Mar. 23, 2013; Presidential Decree No. 25751, Nov. 19, 2014; Presidential Decree No. 28211, Jul. 26, 2017>

(2) Vice Minister of Oceans and Fisheries shall serve as the executive secretary under Article 8 (3) of the Act. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 6-2 (Dismissal of Members of the Committee)

Where a member of the Committee commissioned under Article 8 (2) falls under any of the following cases, the Minister of Oceans and Fisheries may dismiss such member from his/her office:

1. Where he/she becomes unable to perform his/her duties due to mental disorders;
2. Where he/she has committed any unlawful act in relation to his/her duties;
3. Where he/she is deemed unqualified as a member due to neglect of duty, injury to dignity, or any other reason;

4. Where he/she indicates his/her intention that it is impracticable to perform his/her duties.
[This Article Newly Inserted by Presidential Decree No. 26844, Dec. 31, 2015]

Article 7 (Operation of Committee)

(1) The chairperson of the Committee (hereafter in this Article referred to as "chairperson") shall exercise overall control over its affairs, and convene Committee meetings.

(2) When the chairperson intends to convene a meeting, he/she shall notify each member of the date, time, venue, and agenda for the meeting by no later than seven days prior to the opening of such meeting.

(3) The Committee shall convene its meeting with the attendance of a majority of its incumbent members, and adopt resolutions with the consent of a majority of those present.

(4) One secretary shall be assigned in order to assist the executive secretary of the Committee in dealing with administrative affairs, and the secretary shall be designated by the executive secretary of the Committee from among public officials belonging to the Ministry of Oceans and Fisheries. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

(5) The chairperson shall prepare and retain the Committee's minutes.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 8 (Composition and Operation of Working Committee)

(1) The working committee for maritime affairs and fisheries development under Article 11 of the Act (hereinafter referred to as "working committee") shall be comprised of not more than 30 members, including one chairperson.

(2) The chairperson of the working committee shall be served by the Director General in charge of the marine policy affairs of the Ministry of Oceans and Fisheries, and committee members shall be those under either of the following subparagraphs: <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

1. Public officials of Grade III or IV (referring to public officials holding a position of officer or director) in a central administrative agency where the Committee members belong, designated by the head of the relevant central administrative agency;

2. Persons commissioned by the Minister of Oceans and Fisheries, among those having abundant expert knowledge and experience in the seas, marine resources or marine industry.

(3) One secretary shall be assigned in order to deal with affairs of the working committee, and shall be designated by the Minister of Oceans and Fisheries, among public officials belonging to the Ministry of Oceans and Fisheries. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

(4) The chairperson of the working committee shall exercise overall control over the affairs of the working committee, and convene meetings of the working committee.

(5) Article 7 (2) and (3) shall apply mutatis mutandis to the convocation, commencement of deliberation, and resolutions of a meeting of the working committee.

(6) The working committee shall examine and deliberate upon agenda submitted to the Committee, and the matters entrusted by the Committee or instructed by the chairperson of

the Committee.

(7) The chairperson of the working committee shall prepare and retain the working committee's minutes.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 8-2 (Dismissal, etc. of Members of Working Committee)

(1) Where a member of the working committee falls under any of the following cases, a person who has designated the member under Article 8 (2) 1 may withdraw such designation:

1. Where he/she becomes unable to perform his/her duties due to mental disorders;
2. Where he/she has committed any unlawful act in relation to his/her duties;
3. Where he/she is deemed unqualified as a member due to neglect of duty, injury to dignity, or any other reason;
4. Where he/she indicates his/her intention that it is impracticable to perform his/her duties.

(2) Where a member of the working committee commissioned under Article 8 (2) 2 falls under any subparagraph of paragraph (1), the Minister of Oceans and Fisheries may dismiss such member from his/her office.

[This Article Newly Inserted by Presidential Decree No. 26844, Dec. 31, 2015]

Article 9 (Composition and Operation of Subcommittees)

(1) The working committee may organize and operate the following subcommittees, in accordance with Article 11 (2) of the Act:

1. Sea Subcommittee;
2. Marine Resources Subcommittee;
3. Marine Industry Subcommittee;
4. Marine Environment Subcommittee.

(2) Each subcommittee under the subparagraphs of paragraph (1) shall be comprised of not more than ten members of the working committee.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 10 (Allowances and Travel Expenses)

A member, an interested party and an expert who attends a meeting of the Committee, working committee or subcommittee (hereinafter referred to as the "Committee, etc.") and presents his/her opinion may be given allowances and reimbursed travel expenses within budgetary limits: Provided, That the foregoing shall not apply where any member who is a public official attends a meeting of the Committee, etc. in direct connection with the duties under his/her jurisdiction.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 11 (Detailed Operating Rules)

Unless otherwise prescribed in this Decree, matters necessary for the operation of the Committee, etc. shall be set forth respectively by the head of the Committee, etc., following the resolution of the related Committee, etc.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 12 (Preservation of Marine Environment)

Measures required for the preservation of the marine environment under Article 13 of the Act shall be as follows:

1. Formulation of basic policies for the preservation of the marine environment;
2. Technological development for the prevention and control of marine pollution;
3. Advancement of international cooperation for the preservation of the marine environment;
4. Other matters necessary for the preservation of the marine environment.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 13 (Development, etc. of Marine Resources)

Measures required for the development, etc. of marine resources under Article 16 of the Act shall be as follows:

1. Survey and research on marine resources;
2. Development of technology for utilizing marine resources;
3. International cooperation for the management, preservation, development and utilization of marine resources;
4. Other matters necessary for the management, preservation, development and utilization of marine resources.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 14 (Establishment of Marine Science Base and Investigation and Research Programs)

Plans for supporting the establishment of a marine research station in a specific area and the advancement of marine scientific survey and research under Article 20 of the Act shall contain each of the following:

1. Basic policies for the establishment and operation of the marine research station;
2. Plans for investigations and research to be performed in the marine research station;
3. International cooperation for the establishment of the marine research station, and for investigation and research programs;
4. Other matters necessary for operating and supporting the marine research station.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 15 (Strengthening of Competitiveness of Shipping and Port Industries)

Measures for strengthening the competitiveness of the shipping and port industries under Article 23 of the Act shall be as follows:

1. Improvement of the technology and productivity of the shipping and port industries;
2. Fostering of personnel in the shipping and port industries, and efficient management thereof;
3. Laying the foundation for the shipping and port industries;
4. Advancement of international cooperation for the shipping and port industries;
5. Other matters necessary for strengthening the competitiveness of the shipping and port industries.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 16 (Expansion of Port and Harbor Facilities, etc.)

Measures required for the expansion of port and harbor facilities and fishing port facilities under Article 24 of the Act shall be as follows:

1. Basic policies for expanding port and harbor facilities and fishing port facilities;
2. Matters concerning the development of technology for port and harbor construction;
3. Plans for supply and demand of port and harbor facilities and fishing port facilities;
4. Matters for constructing and operating an integrated information system for supporting the construction of ports and harbors and fishing ports, and matters for designating an agency dedicated to such task;
5. Other matters necessary for expanding port and harbor facilities and fishing port facilities.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 17 Deleted. <by Presidential Decree No. 21847, Nov. 26, 2009>

Article 18 Deleted. <by Presidential Decree No. 21847, Nov. 26, 2009>

Article 19 (Promotion of Marine Tourism)

Measures required for the promotion of marine tourism under Article 28 (1) of the Act shall be as follows:

1. Formulation of basic policies for the promotion of marine tourism;
2. Institutional improvement for the promotion of marine tourism;
3. Expansion of facilities for the promotion of marine tourism;
4. Discovery and dissemination of projects for the promotion of marine tourism;
5. Other matters necessary for the promotion of marine tourism.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 20 (Designation of Undersea Scenic Zones)

(1) When the Minister of Oceans and Fisheries intends to designate an undersea scenic zone pursuant to Article 28 (2) of the Act, he/she shall hear the opinion of the competent Metropolitan City Mayor, Do Governor or the Governor of a Special Self-Governing Province. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

(2) When the Minister of Oceans and Fisheries has designated an undersea scenic zone, he/she shall publicly announce the following matters: <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

1. Title of the undersea scenic zone;
2. Location or scope of the undersea scenic zone;
3. Surface area of the undersea scenic zone;
4. Objectives and applicable Acts and subordinate statutes for the designation of the undersea scenic zone;
5. Title, location or scope, and area of principal resources within the undersea scenic zone;
6. Date of designation, public announcement number, and name of agency making a public announcement.

Article 20-2 Deleted. <by Presidential Decree No. 28164, Jun. 27, 2017>

Article 21 Deleted. <by Presidential Decree No. 28164, Jun. 27, 2017>

Article 22 (Fostering, etc. of Human Resources Specialized in Maritime Affairs and Fisheries)

Measures required for fostering human resources specialized in maritime affairs and fisheries under Article 31 of the Act shall be as follows:

1. Establishment of objectives and basic directions for fostering human resources specialized in maritime affairs and fisheries;
2. Understanding demand for education of human resources specialized in maritime affairs and fisheries;
3. Expansion of facilities and fostering of instructors for education of human resources specialized in maritime affairs and fisheries;
4. Other matters necessary for fostering human resources specialized in maritime affairs and fisheries.

[This Article Wholly Amended by Presidential Decree No. 21622, Jul. 7, 2009]

Article 23 (Information-oriented Advancement for Marine Development, etc.)

(1) Measures required for more sophisticated information processing system concerning marine development, etc. (referring to marine development, etc. under Article 6 (1) of the Act; hereinafter referred to as "marine development, etc.") and for smooth distribution of information under Article 32 (1) of the Act shall be as follows:

1. Improvement of management systems for information concerning marine development, etc.;
2. Demarcation of the scope of materials subject to the management of information concerning marine development, etc.;
3. Formulation of nationwide means for collecting, managing, furnishing and utilizing information concerning marine development, etc.;
4. Standardization of information concerning marine development, etc., and construction of a database;
5. Other matters necessary for more sophisticated information processing systems concerning marine development, etc. and for smooth distribution of information.

(2) The duties of the national information center for maritime affairs and fisheries under Article 32 (2) of the Act shall be as follows:

1. Collection, management and provision of information concerning marine development, etc.;
2. Establishment and operation of an information system, communication networks and relay systems for efficiently collecting, managing and providing information concerning marine development, etc.;
3. Designation and connection of information communication networks for sharing information concerning marine development, etc.;
4. Advancement of cooperation both at home and abroad for sharing information and materials concerning marine development, etc.

(3) The Minister of Oceans and Fisheries may request the head of an agency which

produces and manages information on maritime affairs and fisheries to furnish necessary materials, in order to smoothly promote matters falling under the subparagraphs of paragraphs (1) and (2). In such cases, the head of an agency shall, in receipt of such request, comply therewith in the absence of good cause to the contrary. <Amended by Presidential Decree No. 24443, Mar. 23, 2013>

ADDENDA (Omitted)

6. Act on the Investigation of and Inquiry into Marine Accidents

[Enforcement Date 25. Sep, 2014.] [Act No.12547, 24. Mar, 2014., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to contribute to ensuring marine safety by clearing up the causes of marine accidents through the investigation of and inquiry into marine accidents.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 2 (Definitions)

The terms used in this Act shall be defined as follows: <Amended by Act No. 10802, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>

1. The term "marine accident" means any of the following accidents, which happen at sea and in the inland waters:

(a) An accident in which a person dies, disappears or is injured, in connection with the structure, equipment or operation of ships;

(b) An accident which causes damage to a ship or shore or marine facilities, in connection with the operation of ships;

(c) An accident in which a ship is lost, derelict or missing;

(d) An accident in which a ship collides with another ship, is stranded, capsizes or sinks or it is impossible to steer a ship;

(e) An accident that causes marine pollution damage, in connection with the operation of ships;

1-2. The term "marine near-miss" is a situation specified by Ordinance of the Ministry of Oceans and Fisheries as an accident that is likely to pose a hazard to the safety of ships and people or the marine environment, if measures for rectification or improvement are not taken with respect to the structure, equipment, or operation of a ship;

2. The term "ship" means any structure navigating or navigable on the water or under water, which is determined by Presidential Decree;

3. The term "person involved in a marine accident" means any person involved in the cause of a marine accident, who is designated pursuant to Article 39;

3-2. The term "interested party" means a person not directly related to the cause of a marine accident but financially affected by an inquiry into, or judgment on, the marine accident;

4. The term "remote video inquiry" means any inquiry that is held with persons involved in a marine accident attending a remote tribunal equipped with apparatus transmitting and receiving animated images and sound simultaneously, as prescribed by Ordinance of the Ministry of Oceans and Fisheries, other than the location of the competent Maritime Safety Tribunal or facilities equipped with the said apparatus and designated by the competent Maritime Safety Tribunal.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 3 (Establishment of Tribunals)

In order to make an inquiry into marine accidents, the Maritime Safety Tribunals (hereinafter referred to as the "Tribunals") shall be established under the jurisdiction of the Minister of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 4 (Examination, etc. on Causes of Marine Accidents)(1) In an inquiry performed by the Tribunals, the causes of a marine accident shall be examined with respect to the following matters:

1. Whether it was caused by intention or negligence of any person;
2. Whether it was caused by the number, qualifications, skills, work conditions or services of the crew of the vessel;
3. Whether it was caused by the structure, materials and manufacture of the hull or engines, or equipment or performance of the vessel;
4. Whether it was caused by auxiliary facilities for navigation, such as hydrographic charts and publication, nautical marks, marine communication, weather forecast, salvage facilities, etc.;
5. Whether it was caused by conditions of the port or waterway;
6. Whether it was caused by any reason concerning the characteristics or loading of freight.

(2) Where two or more persons are involved in the occurrence of a marine accident in examining the causes of a marine accident referred to in paragraph (1), the competent Tribunal may examine the extent of causes brought on by each person involved therein.

(3) If deemed necessary to examine the causes of a marine accident under the subparagraphs of paragraph (1), the competent Tribunal may seek advice from a specialized research institution prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 5 (Judgment)(1) The Tribunals shall examine the causes of marine accidents, and

clarify the outcomes thereof by judgment.

(2) Where the Tribunals deem that a marine accident is caused by intention or negligence of a ship officer or pilot on duty, they shall discipline him/her by judgment.

(3) If necessary, the Tribunals may make a judgment to recommend or order rectification or improvement to a person involved in a marine accident, other than those referred to in paragraph (2): Provided, That no judgment that orders rectification or improvement shall be made to administrative agencies. <Amended by Act No. 10802, Jun. 15, 2011>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 5-2 (Request for Correction, etc.)

When the Tribunals deem that any matter is to be corrected or improved for preventing a marine accident as a result of an inquiry, they may request an administrative agency or organization, other than persons involved in a marine accident, to take corrective or improvement measures for preventing a marine accident.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 6 (Categories of Disciplines and Extenuation)(1) Disciplines under Article 5 (2) may be divided into three categories as follows, and their application shall be determined by the Tribunals according to the seriousness of the relevant acts:

1. Revocation of a license;
2. Suspension of business;
3. Reprimand.

(2) The suspension period of business under paragraph (1) 2 shall be not less than one month and not more than one year.

(3) In taking a disciplinary action under Article 5 (2), the Tribunals may reduce or exempt it in extenuation of the nature or situation of a marine accident, or the personal history of the relevant person or other circumstances.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 6-2 (Suspending Execution of Disciplinary Actions)(1) If a Tribunal finds it necessary to require a person to attend a job training course with regard to the operation of a ship (hereinafter referred to "job training course") when it makes a judgment to suspend business operation under Article 6 (1) 2 for not less than one month but not more than three months as a disciplinary action, it may suspend the execution of a disciplinary action (hereinafter referred to as "suspension of execution") for a period of not less than three months but not more than nine months simultaneously when it makes such judgment on a disciplinary action. In such cases, the execution of a disciplinary action shall not be suspended contrary to an intention expressly manifested by a person subject to the judgment on the disciplinary action.

(2) Matters necessary for guidelines for the suspension of execution under paragraph (1) shall be determined by the Tribunals.

[This Article Newly Inserted by Act No. 10802, Jun. 15, 2011]

Article 6-3 (Order to Finish Job Training Course)(1) When a Tribunal suspends the

execution of a disciplinary action under Article 6-2, it shall order the relevant person to finish a job training course during a grace period.

(2) A person who is ordered to attend a job training course pursuant to paragraph (1) shall attend the job training course provided by the competent Tribunal or an entrusted educational institution specified by Presidential Decree.

(3) A Tribunal or entrusted educational institution may charge trainees for the training course provided to them pursuant to paragraph (2).

(4) Except as provided for in paragraphs (1) through (3), matters necessary for completing the job training course, such as the term and curriculum of the job training course, shall be determined by the Tribunals.

[This Article Newly Inserted by Act No. 10802, Jun. 15, 2011]

Article 6-4 (Nullification of Suspension of Execution)

If the execution of a disciplinary action taken against a person has been suspended by judgment pursuant to Article 6-2, but if such person falls under any of the following subparagraphs, the judgment to suspend the execution shall be nullified:

1. A person fails to finish the job training course during the period of suspension of execution;
2. A judgment to suspend business operation or take any heavier disciplinary action is made against a person who is in the period of suspension of execution, and the judgment becomes final and conclusive.

[This Article Newly Inserted by Act No. 10802, Jun. 15, 2011]

Article 6-5 (Effects of Suspension of Execution)

If the period for suspension of execution of a disciplinary action lapses while the judgment to suspend the execution remains valid after the judgment is made under Article 6-2, the disciplinary action shall be deemed executed.

[This Article Newly Inserted by Act No. 10802, Jun. 15, 2011]

Article 7 (Prohibition against Double Jeopardy)

The Tribunals may not make another inquiry for a case on the merit of which a final judgment has been made.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 7-2 (Hearings from Tribunals Prior to Public Prosecution)

In cases of a marine accident, where a prosecutor institutes a public prosecution against a person involved in the marine accident, the prosecutor may hear opinions from the competent District Maritime Safety Tribunal.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 7-3 (Terms of Inquiry Tribunal)(1) The Korean language shall be used at an inquiry tribunal.

(2) A statement made by a person who cannot make himself/herself understood in the Korean language shall be translated by a translator.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

CHAPTER II ORGANIZATION OF TRIBUNALS

Article 8 (Organization of Tribunals)(1) The Tribunals shall comprise the Korean Maritime Safety Tribunal (hereinafter referred to as the "Korean Tribunal") and the District Maritime Safety Tribunals (hereinafter referred to as the "District Tribunals").

(2) Each Tribunal shall be comprised of a commissioner and such number of judges as determined by Presidential Decree.

(3) The organization of the Korean Tribunal and the names, organizations and jurisdictions of the District Tribunals shall be determined by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 9 (Commissioners of Korean Tribunal and District Tribunals)(1) The Korean Tribunal and each District Tribunal shall have the Commissioner of the Korean Maritime Safety Tribunal (hereinafter referred to as the "Commissioner of the Korean Tribunal") and the commissioner of a District Maritime Safety Tribunal (hereinafter referred to as "commissioner of a District Tribunal"), respectively.

(2) The Commissioner of the Korean Tribunal shall be appointed by the President on the recommendation of the Minister of Oceans and Fisheries, from among those having qualifications falling under any of the subparagraphs of Article 9-2 (2). <Amended by Act No. 11690, Mar. 23, 2013>

(3) The commissioner of a District Tribunal shall be appointed by the President of the Republic of Korea with the recommendation of the Minister of Oceans and Fisheries, from among persons qualified under any subparagraph of Article 9-2 (2) or judges of a District Tribunal. <Amended by Act No. 10802, Jun. 15, 2011; Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 9-2 (Appointment of and Qualifications for Judges)(1) The judges of the Korean Tribunal shall be appointed by the President, upon the recommendation of the Minister of Oceans and Fisheries, whereas the judges of a District Tribunal shall be appointed by the Minister of Oceans and Fisheries on the recommendation of the Commissioner of the Korean Tribunal. <Amended by Act No. 11690, Mar. 23, 2013>

(2) A person qualified as a judge of the Korean Tribunal shall be any of the following persons:

1. A person who has served as a judge of a District Tribunal for not less than four years;
2. A person who, after having obtained a license for second class or higher ship officer as mate, engineer or operator (hereinafter referred to as "license for second-class or higher ship officer"), has served as a state public official in general service of Grade IV or higher for not less than four years;
3. A person who has served as a state public official in general service of Grade III or higher in administering maritime affairs and fisheries for not less than three years;
4. A person whose total period of service under subparagraphs 1 through 3 is not less than four years.

(3) A person qualified as a judge of a District Tribunal shall be any of the following persons:

1. A person who, after having obtained a license for first-class ship officer as a mate, engineer or operator, has been on board as the captain or chief engineer of a ship which

navigates a deep sea area as its navigation area for not less than three years;

2. A person who, after having obtained a license for second class or higher ship officer, has served as a state public official in general service of Grade V or higher for not less than two years;

3. A person who, after having obtained a license for second class or higher ship officer, has taught any subject on the navigation of ships or steerage of ship engines at an educational institution determined by Presidential Decree for not less than three years;

4. A person whose total period of service under subparagraphs 1 through 3 is not less than three years;

5. A person who is admitted to the bar and has worked as an attorney-at-law for not less than three years.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 10 (Disqualifications)

No person who falls under any of the subparagraphs of Article 33 of the State Public Officials Act shall be the commissioner or a judge of each Tribunal.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 11 (Duties of Commissioners and Judges)(1) The Commissioner of the Korean Tribunal shall perform the following duties:

1. He/she shall exercise overall control over the general affairs of the Korean Tribunal, and direct and supervise the staff and personnel under his/her jurisdiction;

2. He/she shall organize an inquiry board of the Korean Tribunal, and nominate a presiding judge from among its judges: Provided, That for an especially important case, he/she may make himself/herself a presiding judge;

3. He/she shall direct and supervise the general affairs of the District Tribunals;

4. Where a vacancy occurs in the position of a judge in each Tribunal, or any other inevitable reason exists, he/she may have the commissioner of a District Tribunal to act as a judge of the Korean Tribunal, and the judge of a District Tribunal to act as the judge of another District Tribunal.

(2) The commissioner of a District Tribunal shall perform the following duties:

1. He/she shall take charge of the general affairs of the District Tribunal, and direct and supervise the staff and personnel under his/her jurisdiction;

2. He/she shall organize an inquiry board in the District Tribunal and be a presiding judge.

(3) Judges shall perform the duties of inquiry.

(4) Where the commissioner of each Tribunal is unable to perform his/her duties due to any inevitable reason, a senior judge of the relevant Tribunal shall act on his/her behalf: Provided, That a chief investigator referred to in Article 16 (1) shall perform the commissioner's duties other than the duties of inquiry.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 12 (Independent Authority of Judges)

The presiding judges and judges shall perform their duties independently.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 13 (Status and Terms of Office for Judges)(1) The commissioners and judges shall be public officials in general service that are public officials in a fixed term position referred to in Article 26-5 of the State Public Officials Act. <Amended by Act No. 12547, Mar. 24, 2014>

(2) The terms of office for the commissioners and judges shall be three years, and may be renewed consecutively.

(3) Neither commissioners nor judges shall be subject to removal, reduction of pay or other disadvantageous disposition contrary to their intention without a criminal sentence, disciplinary action or provisions of any Acts.

(4) The State Public Officials Act shall apply to the retirement age for the commissioners and judges. <Amended by Act No. 10802, Jun. 15, 2011; Act No. 12547, Mar. 24, 2014>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 13-2 (Transfer of Judges)

The Minister of Oceans and Fisheries may transfer the commissioner of a District Tribunal or judges of each Tribunal during his/her service under Article 13 (2) to a corresponding position in another Tribunal, only when it is deemed inevitable for carrying out the duties of an inquiry. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 14 (Non-Permanent Judges)(1) Each Tribunal shall have non-permanent judges who are commissioned by the commissioner of each Tribunal, from among those having knowledge and experience required for performing their duties.

(2) The non-permanent judges shall participate in an inquiry into a case in which it is very difficult to identify the causes of marine accidents.

(3) The non-permanent judges who participate in an inquiry shall have the same duties and powers as the judges.

(4) Necessary matters for the number of, qualifications for, etc. non-permanent judges to be assigned to each Tribunal shall be determined by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 15 (Exclusion, Challenge and Evasion of Judges and Non-Permanent Judges)(1) Where any judge (including any presiding judge; hereafter the same shall apply in this Article) or non-permanent judge falls under any of the following subparagraphs, he/she shall be excluded from the execution of his/her duties:

1. Where he/she is or was a relative of a person involved in the marine accident;
2. Where he/she bears witness to or gives an expert opinion on the case concerned;
3. Where he/she takes part in the case concerned as an inquiry counsel or representative of the person involved in the marine accident;
4. Where he/she carries out the duties of an investigator in the case concerned;
5. Where he/she takes part in the inquiry of the previous trial;
6. Where he/she is the owner, operator or charterer of a ship which is subject to the inquiry.

(2) Any investigator, person involved in the marine accident and inquiry counsel may file a request for the challenge of a judge and non-permanent judge in any of the following cases:
1. Where the judge or non-permanent judge falls under any of subparagraphs of paragraph (1);

2. Where the judge or non-permanent judge is likely to make an unfair inquiry.

(3) A person who has already made a statement about the case concerned at the inquiry court is not allowed to file a request for a challenge for the reason referred to in paragraph (2) 2 only: Provided, That where he/she was not aware that a reason for challenge exists, or a reason for challenge occurs thereafter, the same shall not apply.

(4) Any judge or non-permanent judge may, if it is deemed that a reason under paragraph (2) exists, evade his/her duties.

(5) A decision on the exclusion, challenge or evasion of a judge or nonpermanent judge shall be made by the collegiate inquiry board of the Tribunal to which he/she belongs: Provided, That if a special inquiry division is established, such decision shall be made by the collegiate inquiry board of the District Tribunal in which the special inquiry division is established.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 16 (Investigators, etc.)(1) Each Tribunal shall have a chief investigator, investigators and other personnel assisting the investigation affairs.

(2) The chief investigator, investigators and other personnel assisting the investigation affairs referred to in paragraph (1) shall be appointed from among public officials in general service, and their fixed number shall be determined by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 16-2 (Qualifications of Investigators)(1) A person who is qualified as the Chief Investigator of the Korean Tribunal (hereinafter referred to as "Chief Investigator of the Korean Tribunal") shall be any of the following persons:

1. A person falling under Article 9-2 (2) 1 and 2;

2. A person who has served as a state public official in general service of Grade III or higher in the administration of maritime affairs and fisheries for not less than three years (including a career served for affairs related to marine safety for not less than one year);

3. A person whose total period of career of subparagraphs 1 and 2 is not less than four years.

(2) A person who is qualified as an investigator of the Korean Tribunal and the chief investigator of a District Tribunal (hereinafter referred to as "chief investigator of a District Tribunal") shall be a person falling under Article 9-2 (3) 1 through 4: Provided, That qualifications as an investigator of a District Tribunal shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 17 (Duties of Investigators)

Any chief investigator and investigator shall take charge of the investigation of marine accidents, request for an inquiry, execution of judgment and other affairs prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 18 (Leadership and Supervision over Investigative Affairs)(1) An investigator shall follow the leadership and supervision by his/her superiors with respect to investigative affairs;

(2) If an investigator holds a different view on the lawfulness or legitimacy of the leadership and supervision under paragraph (1) over a specific case, he/she may raise an objection.

(3) The Chief Investigator of the Korean Tribunal shall lead and supervise all investigators in general as the supreme supervisor over investigative affairs, while he/she shall lead and supervise investigators of the Korean Tribunal and the Chief Investigator of each District Tribunal with respect to a specific case.

[This Article Wholly Amended by Act No. 10802, Jun. 15, 2011]

Article 18-2 (Delegation and Transfer of, and Succession to, Duties of Investigators)(1)

The Chief Investigator of the Korean Tribunal or the Chief Investigator of a District Tribunal may authorize an investigator under his/her control to carry out an affair within his/her jurisdiction.

(2) The Chief Investigator of the Korean Tribunal or the Chief Investigator of a District Tribunal may perform the duty of investigation under his/her control by him/herself or may assign the performance of such duty to another investigator.

[This Article Wholly Amended by Act No. 10802, Jun. 15, 2011]

Article 18-3 (Formation of Special Investigation Board)(1) Where the Chief Investigator of the Korean Tribunal deems it necessary to conduct a special investigation into any of the following marine accidents in order to prevent marine accidents in addition to investigations upon a request for inquiry, he/she may organize a special investigation board:

1. A marine accident that results in a loss of human life;
2. A marine accident that results in severe damage to a ship or any other facility to the extent that the ship or facility can no longer perform its essential functions;
3. A marine accident that results in serious marine pollution by oil leakage;
4. A marine accident or near-miss not specified in subparagraphs 1 through 3, but where international cooperation is necessary for investigations.

(2) A special investigation board under paragraph (1) (hereinafter referred to as "special investigation board") shall be comprised of not more than ten persons who fall under any of the following subparagraphs, and the head of the special investigation board shall be appointed by the Chief Investigator of the Korean Tribunal, from among investigators: Provided, That the Chief Investigator of the Korean Tribunal him/herself may serve as the head of a special investigation board, where a case is crucially important:

1. Investigators (including chief investigators; hereinafter the same shall apply);
2. Public officials from an agency related to marine accidents;
3. Experts that specialize in marine accidents.

(3) The head of a special investigation board shall prepare an investigation report and submit the report to the Minister of Oceans and Fisheries and the Chief Investigator of the Korean

Tribunal within ten days after he/she completes investigations, whereupon the Chief Investigator of the Korean Tribunal shall forward the submitted report to the heads of related administrative agencies and the International Maritime Organization (only if a marine accident shall be reported to the Organization pursuant to an international agreement that takes effect internationally in relation to investigation and inquiry into marine accidents).

(4) The Chief Investigator of the Korean Tribunal shall publish an investigation report under paragraph (3) to the public: Provided, That the foregoing shall not apply where such publishing is likely to undermine the national security.

(5) Where any significant evidence likely to change the outcomes of an investigation into a marine accident is discovered after the investigation by a special investigation board into a marine accident is completed, the Chief Investigator of the Korean Tribunal may investigate the marine accident again.

(6) Investigations by a special investigation board into a marine accident shall be independently carried out, separately from judicial proceedings for civil and criminal liabilities, procedures for conducting an investigation upon a request for inquiry, procedures for taking an administrative disposition, and the proceedings of administrative litigation, and Articles 18 and 18-2 shall not apply to investigators of a special investigation board.

(7) Information acquired in the course of conducting investigations by a special investigation board into a marine accident shall be disclosed to the public: Provided, That it is not required to disclose the information specified by Presidential Decree as information that is likely to have a negative impact on investigations into the relevant marine accident or investigations into marine accidents in the future or likely to undermine the national security or invade a person's privacy.

(8) Necessary matters concerning the operation of a special investigation board, including procedures for conducting an investigation into a marine accident and methods for preparing an investigation report, shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 10802, Jun. 15, 2011]

Article 19 (Direction and Supervision of General Affairs by Investigators)

The Commissioner of the Korean Tribunal and the commissioner of a District Tribunal shall direct and supervise the general affairs of the investigators. In such cases, he/she shall not take part in or give influence on the latter's proper affairs.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 20

Deleted. <by Act No. 5809, Feb. 5, 1999>

Article 20-2 (Training and Education of Judges, Investigators, etc.)

If deemed necessary for improving the quality of the judges, the Commissioner of the Korean Tribunal may have investigators and other personnel conduct training and education prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 21 (Instances)

The District Tribunals shall make inquiries in the first instance, and the Korean Tribunal, in the second instance.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 22 (Organization and Resolutions of Inquiry Board)(1) A District Tribunal shall make inquiries in a collegiate board comprised of three judges: Provided, That one judge may make an inquiry into a slight case specified by Presidential Decree or a summary inquiry case under Article 38-2. <Amended by Act No. 10802, Jun. 15, 2011>

(2) The Korean Tribunal shall make inquiries in a collegiate board which is comprised of five judges.

(3) Each Tribunal shall allow two non-permanent judges nominated by the commissioner to participate in cases referred to in Article 14 (2), notwithstanding the provisions of paragraphs (1) and (2).

(4) The collegiate inquiry board shall make a resolution by the consent of a majority of judges organizing a collegiate board (including the presiding judges and non-permanent judges).

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 22-2 (Establishment of Special Inquiry Division)(1) The Commissioner of the Korean Tribunal may, when he/she deems that high expertise is required for closely examining the cause of a marine accident falling under any of the following subparagraphs, organize a special inquiry division in the District Tribunal having jurisdiction over the case concerned:

1. A marine accident in which ten or more persons die or are injured;
2. A marine accident which causes remarkably serious damage to a ship and other facilities;
3. A marine accident which causes serious marine pollution due to the leakage of oil, etc.

(2) The special inquiry division under paragraph (1) shall be comprised of two judges having expert knowledge on the examination into the causes of marine accidents and the commissioner of the District Tribunal having jurisdiction over the case concerned, and the commissioner of the District Tribunal shall be the presiding judge.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 23 (Personnel of Inquiry Board)(1) An inquiry board shall have clerks, inquiry tribunal guards and inquiry assistant personnel.

(2) Clerks shall attend an inquiry, and take charge of preparing, keeping or serving documents under orders of the presiding judge and judges.

(3) Inquiry tribunal guards shall take charge of maintaining order in the inquiry tribunal under orders of the presiding judge.

(4) Inquiry assistant personnel shall take charge of assisting duties in inquires, except for the investigation of evidence and clerical work under orders of the presiding judge and judges.

(5) Clerks, inquiry tribunal guards and inquiry assistant personnel shall be designated or

appointed by the commissioner, from among the staff under his/her jurisdiction.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

CHAPTER II-2 JURISDICTION OF TRIBUNALS

Article 24 (Jurisdiction)(1) A case to be remitted to the inquiry shall come under the jurisdiction of the District Tribunal which has jurisdiction over the scene where a marine accident occurs: Provided, That where the scene of a marine accident is not ascertained, the jurisdiction shall belong to the Tribunal which has jurisdiction over the port in which the ship involved in the marine accident is registered.

(2) Where the same case is pending in two or more District Tribunals, the inquiry thereof shall be made by the District Tribunal which has received the initial request for inquiry.

(3) Where two or more cases relating to the same ship are pending in two or more District Tribunals, all cases shall be subject to the concurrent inquiry of the District Tribunal which has received the initial request for inquiry.

(4) Two or more cases relating to the same ship shall be subject to a concurrent inquiry.

(5) The jurisdiction over cases which occur outside the Republic of Korea shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 25 (Transfer of Cases)(1) Where a District Tribunal deems that a case does not belong to its jurisdiction, it shall transfer, by decision, the case to the competent District Tribunal.

(2) No District Tribunal to which the case was transferred under paragraph (1) may re-transfer the case to another District Tribunal.

(3) The case transferred under paragraph (1) shall be deemed pending originally in the District Tribunal to which it is transferred.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 26 (Request for Transfer of Jurisdiction)(1) If it is deemed inconvenient for a person involved in a marine accident to appear in the competent District Tribunal, an investigator or the person involved in the marine accident may request the Korean Tribunal to change jurisdiction, as prescribed by Presidential Decree. In such cases, the requester may submit an application to the competent District Tribunal, and the competent District Tribunal in receipt thereof shall promptly transmit it to the Korean Tribunal.

(2) Where a request is made under paragraph (1), if it is deemed convenient for the inquiry, the Korean Tribunal may change the jurisdiction, by decision.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

CHAPTER III INQUIRY COUNSELS

Article 27 (Appointment of Inquiry Counsels)(1) A person involved in a marine accident or an interested person may appoint an inquiry counsel.

(2) A legal representative, a spouse, lineal relatives and brothers and sisters of the person involved in a marine accident may appoint an inquiry counsel independently.

(3) Inquiry counsels shall be appointed, from among those registered as inquiry counsels

with the Korean Tribunal: Provided, That this shall not apply if they obtain permission from the commissioner of the each Tribunal.

(4) If two or more inquiry counsels are appointed by the persons involved in a marine accident or interested persons who have the same interests in the results of an inquiry, one representative inquiry counsel shall be appointed.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 28 (Qualifications for and Registration of Inquiry Counsels)(1) A person qualified as an inquiry counsel shall be any of the following persons: <Amended by Act No. 11690, Mar. 23, 2013>

1. A person who falls under Article 9-2 (3) 1 through 4;
2. A person who has served as a judge or an investigator;
3. A person who, having obtained a license for first-class mate, engineer or operator, has engaged in legal advice service relating to marine affairs for not less than five years or has obtained a doctorate in law in the field of marine affairs prescribed by Ordinance of the Ministry of Oceans and Fisheries;
4. A person who is admitted to the bar.

(2) A person who intends to engage in business of an inquiry counsel shall register with the Korean Tribunal, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 28-2 (Disqualifications for Inquiry Counsels)

No person falling under the following subparagraphs shall be an inquiry counsel:

1. A person who falls under any of the subparagraphs of Article 33 of the State Public Officials Act;
2. A person for whom three years have not passed since his/her registration was revoked.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 29 (Duties, etc. of Inquiry Counsels)(1) Inquiry counsels shall carry out the following duties:

1. Representation or vicarious execution of an application, request, statement, etc. made by a person involved in a marine accident or an interested person to each Tribunal under this Act;
2. Technical consultation relating to a marine accident given to a person involved in a marine accident, etc.

(2) The inquiry counsels shall conscientiously perform the duties delegated to them.

(3) No concurrent or former inquiry counsels may reveal any confidential information that they have learned in the course of performing their duties.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 30 (Selection of Tribunal-appointed Inquiry Counsels)(1) Where a person involved in a marine accident is not represented by an inquiry counsel in any of the following cases, the competent Tribunal shall select an inquiry counsel (hereafter the same shall apply in this Article) ex officio, within budgetary limits, from among persons registered pursuant to

Article 28 (2):

1. Where a person involved in a marine accident is a minor;
2. Where a person involved in a marine accident is not less than 70 years of age;
3. Where a person involved in a marine accident has an impediment in hearing or speech;
4. Where a person involved in a marine accident is suspected to be mentally or physically handicapped.

(2) Where a person involved in a marine accident cannot afford an inquiry counsel due to poverty or any other situation, the competent Tribunal may appoint an inquiry counsel for such person at the request of a person involved in the marine accident, within budgetary limits.

(3) Where a Tribunal deems it necessary to protect the rights of a person involved in a marine accident, with consideration given to the age, intelligence, and educational background of the person, it may appoint an inquiry counsel for the person, within budgetary limits.

(4) Necessary matters concerning the management of Tribunal-appointed inquiry counsels, including the selection of inquiry counsels under paragraphs (1) through (3), shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Newly Inserted by Act No. 10802, Jun. 15, 2011]

Article 30-2 (Inquiry Counsels Association)(1) Inquiry counsels may establish the Inquiry Counsels Association (hereinafter referred to as the "Association") after obtaining permission from the Minister of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

(2) The Association shall be a corporation.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 30-3 (Business)

The Association shall carry out the following business:

1. Inquiry aid of a person involved in a marine accident;
2. Business related to the prevention of marine accidents;
3. Arbitration of disputes between inquiry counsels and mandators;
4. Other business prescribed by Presidential Decree as related to inquiries.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 30-4 (Procedures, etc. of Incorporation)

Matters necessary for the procedures for incorporation of the Association, particulars to be specified in the articles of association, executives and supervision shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 30-5 (Application Mutatis Mutandis of the Civil Act)

Except as provided for in this Act, the provisions of the Civil Act concerning the incorporated association shall be applicable mutatis mutandis to the Association.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

CHAPTER IV PRE-INQUIRY PROCEDURES

Article 31 (Duties of Maritime Affairs and Fisheries Agency, etc.)(1) Where a maritime affairs and fisheries agency, national police official, Special Metropolitan City Mayor, Metropolitan City Mayor, the Mayor of a Special Self-Governing City, Do Governor, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu recognizes that a marine accident has occurred, he/she shall promptly inform such fact to an investigator of the competent District Tribunal with a detailed statement thereof. <Amended by Act No. 12547, Mar. 24, 2014>

(2) Where an investigator requests the relevant agency to provide cooperation in order to collect the evidences of a marine accident, or makes an investigation thereof, the relevant agency shall comply therewith.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 31-2 (Informing of Marine Near-Misses)(1) In order to prevent marine accidents, the owner or operator of a ship shall inform the Chief Investigator of the Korean Tribunal of a near-miss that occurs in connection with the operation of the ship (excluding fishing vessels, defined in subparagraph 1 of Article 2 of the Fishing Vessels Act; hereafter the same shall apply in this Article), as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Where the Chief Investigator of the Korean Tribunal discovers any possible risk factor that may cause a hazard to the safety of ships and people and the marine environment as a result of his/her analysis on information provided pursuant to paragraph (1), he/she shall notify such fact to the relevant persons, including the owner of a ship.

(3) The Chief Investigator of the Korean Tribunal shall not disclose the identity of a person who informs of a near-miss pursuant to paragraph (1), contrary to the person's intention.

[This Article Newly Inserted by Act No. 10802, Jun. 15, 2011]

Article 32 (Duties of Consuls)(1) Where any consul recognizes the fact that a marine accident has occurred outside the Republic of Korea, he/she shall promptly collect the evidence thereof and notify the Chief Investigator of the Korean Tribunal thereof.

(2) The Chief Investigator of the Korean Tribunal shall, upon receiving the notification under paragraph (1), promptly transmit it to the chief investigator of the competent District Tribunal.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 33 (Request for Investigation of Fact)(1) A person who has an interest in a marine accident may request the competent investigator to investigate the fact with a detailed statement thereof.

(2) The investigator shall, upon receiving the request under paragraph (1), investigate the fact, make a decision as to whether to file a request for an inquiry, and notify the person who made such request of the results thereof.

(3) Where the investigator refuses the request for inquiry under paragraph (2), he/she shall obtain the prior approval of the Chief Investigator of the Korean Tribunal.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 34 (Investigation and Settlement of Marine Accidents)(1) When an investigator finds that a marine accident has occurred, he/she shall promptly investigate such fact and collect evidences.

(2) An investigator shall, if it is deemed unnecessary to remit a case to an inquiry as a result of an investigation, take a disposition not subject to inquiry for such case.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 35 (Preservation of Evidences)(1) Where an investigator, a person involved in a marine accident, or an inquiry counsel deems it impracticable to admit a material as evidence, unless such material is preserved as evidence and files an application for the preservation of evidence, the competent Tribunal may conduct an inspection or hear expert opinions even before a request for inquiry is filed. <Amended by Act No. 10802, Jun. 15, 2011>

(2) The evidence shall be indicated in writing, and the reason why such evidence is to be preserved shall be stated in a request referred to in paragraph (1).

(3) No one shall conduct any of the following activities where a marine accident has occurred: Provided, That this shall not apply where it is necessary to perform the act referred to in subparagraph 5 in order to protect significant public interests or rescue human lives, such as securing safety of seafarers or a ship and protecting the marine environment: <Amended by Act No. 12547, Mar. 24, 2014>

1. Destruction or alteration of the following publications, documents, etc. which are kept, recorded or preserved in a ship involved in the marine accident (including electronic publications, documents, etc.; hereafter referred to as "records" in this paragraph):

(a) Publications for navigation the ship owner should keep in the ship pursuant to Article 32 of the Ship Safety Act;

(b) Documents the captain should keep in the ship pursuant to Article 20 (1) of the Seafarers Act and documents the captain should record and keep pursuant to paragraph (2) of the same Article;

2. Destruction or alteration of records, which are prepared and preserved or kept in a ship involved in the marine accident either by the owner of the relevant ship for which a safety control system under Article 46 (2) of the Maritime Safety Act should be established and implemented or by a safety control agency under Article 51 of the same Act, with respect to the establishment and implementation of the safety control system for the relevant ship;

3. Destruction or alteration of records, which are prepared and preserved either by the owner of a ship involved in the marine accident, other than the ship referred to in subparagraph 2, or by a ship manager referred to in subparagraph 2 of Article 2 of the Ship Management Industry Development Act, with respect to the operation and maintenance of the relevant ship and the management of its seafarers;

4. Destruction or alteration of records prepared and preserved with respect to vessel traffic control or marine traffic control between a ship involved in the marine accident and an institution performing either vessel traffic control referred to in Article 36 of the Maritime

Safety Act or marine traffic control referred to in Article 28 of the Public Order in Open Ports Act;

5. Repair of the damaged hull, engine and various instruments and meters or other damaged part of a ship.

(4) The captain of a ship in which a voyage date recorder prescribed by the standards for ship's facilities (hereafter "voyage date recorder" in this paragraph) is installed pursuant to Article 26 of the Ship Safety Act shall take measures, without delay, to preserve the information in the voyage date recorder, where any marine accident occurs in connection with the ship. <Newly Inserted by Act No. 12547, Mar. 24, 2014>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 36 (Confidentiality)

Investigators or their assistants shall keep confidentiality while investigating facts and collecting evidences, and shall not impair the honor of related persons.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 37 (Authority of Investigators)(1) Any investigator may take the following dispositions, if required for performing their duties:

1. Having persons involved in a marine accident attend or asking questions to them;
2. Inspecting ships or other places;
3. Ordering persons involved in a marine accident to report or to present books, documents or other things;
4. Requesting public agencies to report, to submit materials and to provide cooperation;
5. Having a witness, expert witness, interpreter or translator appear or testify, give an expert opinion, interpret or translate.

(2) Any investigator may, if necessary, request a maritime affairs and fisheries agency to land the person subject to a disposition under paragraph (1) 1 for a period not exceeding 72 hours.

(3) When an investigator takes a disposition under paragraph (1) 2, he/she shall carry a certificate indicating his/her authority and produce it to a related person.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 38 (Requests for Inquiry)(1) Where an investigator deems that a case needs to be referred to an inquiry, he/she shall file a request for inquiry with the competent District Tribunal: Provided, That he/she shall not file a request for inquiry into a marine accident for which three years have passed since the marine accident occurred.

(2) A request under paragraph (1) shall be filed, in writing, stating the fact of a marine accident.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 38-2 (Requests for Summary Inquiry)(1) If an investigator deems it unnecessary to summon persons involved in any of the following slight marine accidents, he/she may file a request for summary inquiry: Provided, That such request shall not be made contrary to an intention expressly manifested by a person involved in a marine accident:

1. An accident with no loss of human life;
2. An accident by which no ship or other facility has lost its essential function;
3. An accident by which pollutants discharged to the ocean are not more than standards prescribed by Presidential Decree.

(2) A request for summary inquiry under paragraph (1) shall be filed along with a request for inquiry.

[This Article Newly Inserted by Act No. 10802, Jun. 15, 2011]

Article 39 (Designation and Notification of Persons Involved in Marine Accidents)(1)

Where an investigator files a request for inquiry pursuant to Article 38, he/she shall designate a person deemed to have a relation to the cause of such marine accident's occurrence as a person involved in the marine accident.

(2) Where an investigator designates a person involved in a marine accident pursuant to paragraph (1), he/she shall notify the details thereof to the person involved in the marine accident, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 39-2 (Application for Inquiry by Interested Persons)(1) If it is deemed necessary to examine the causes of a marine accident for which a disposition not subject to inquiry under Article 34 (2) has been taken, a person who has interests in such marine accident may make an application for inquiry to the competent District Tribunal as to whether such disposition is appropriate, as prescribed by Presidential Decree.

(2) Where an application for inquiry is made pursuant to paragraph (1), the competent District Tribunal shall, by decision, have an investigator initiate an investigation and request an inquiry if such application is deemed well-grounded, or reject it if such application is deemed groundless.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

CHAPTER V INQUIRY OF DISTRICT TRIBUNAL

Article 40 (Commencement of Inquiry)

A District Tribunal shall commence an inquiry upon an investigator's request for inquiry.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 41 (Public Inquiry)

The confrontation trials and judgments of an inquiry shall be made in an open inquiry court.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 41-2 (Remote Video Inquiry)(1) Where a person involved in a marine accident has difficulty appearing in an inquiry tribunal in person due to a traffic problem, etc, the commissioner of the Tribunal may carry out a remote video inquiry.

(2) Necessary matters concerning the procedures, etc. of remote video inquiry under paragraph (1) shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 41-3 (Procedures for Summary Inquiry)(1) A case for which a request for summary

inquiry has been filed pursuant to Article 38-2 (1) shall be examined in writing without the proceeding of commencing the inquiry: Provided, That a case on which judgment shall be notified of shall be examined in accordance with procedures prescribed in Article 55.

(2) When a case is examined by summary inquiry under paragraph (1), the presiding judge shall give persons involved in a marine accident an opportunity to file written arguments by a specified deadline.

(3) If a Tribunal deems it improper to examine a case by summary inquiry under paragraph (1), it may decide to examine the case by the proceeding of commencing the inquiry.

[This Article Newly Inserted by Act No. 10802, Jun. 15, 2011]

Article 42 (Power of Presiding Judge)(1) Any presiding judge shall supervise an inquiry while opening the court, and maintain order in the court.

(2) Any presiding judge may order any person interfering with the inquiry to leave the court, or take other measures necessary to maintain order in the court.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 43 (Designation and Change of Inquiry Date)(1) Any presiding judge shall determine the date of inquiry.

(2) Any person involved in a marine accident shall be summoned on the inquiry date: Provided, That the presiding judge may choose not to summon the person involved in a marine accident who has attended once or more times.

(3) The presiding judge shall notify the date of inquiry to investigators involved, inquiry counsels, interested parties permitted to intervene in the inquiry under Article 44-2, and persons involved in a marine accident but not summoned to the inquiry. <Amended by Act No. 10802, Jun. 15, 2011>

(4) The presiding judge may change the initial inquiry date ex officio or upon the application of a person involved in a marine accident, investigator or inquiry counsel on one occasion.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 43-2 (Concentrated Trial)(1) Where it takes two or more days to try, a Tribunal shall conduct a concentrated trial continuing holding a court every day as far as practicable.

(2) The presiding judge shall set the following inquiry date within ten days from the preceding inquiry date unless any special circumstance exists to the contrary.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 44 (Summon and Examination)

Any District Tribunal may summon and examine a person involved in a marine accident, witnesses and other interested persons on the inquiry date.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 44-2 (Interested Parties' Intervention in Inquiry)(1) An interested party may intervene in an inquiry and make statements with the presiding judge's permission.

(2) Where an interested party permitted to intervene in an inquiry under paragraph (1) fails to respond two or more times to the summons or examination by the competent Tribunal under Article 44 or is found to interfere with the proceedings of the inquiry, the presiding

judge may ex officio cancel the permit for the interested party to intervene in the inquiry.

(3) Where the presiding judge permits a person to intervene in an inquiry under paragraph (1) or cancels a permit to intervene in an inquiry under paragraph (2), he/she shall notify the permission or cancellation to persons involved in a marine accident and inquiry counsels.

(4) Necessary matters concerning procedures for intervention by interested parties in an inquiry shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Newly Inserted by Act No. 10802, Jun. 15, 2011]

Article 45 (Necessary Oral Pleadings)(1) The judgment on an inquiry shall be made only through oral pleadings: Provided, That oral pleadings are not required for judgment in any of the following cases:

1. Where a person involved in a marine accident does not make an appearance on the inquiry date without any justifiable ground;
2. Where a person involved in a marine accident files a written pleading with permission from the presiding judge;
3. Where the presiding judge deems it unnecessary to summon persons involved in a marine accident in order to discover the cause of the accident on any ground, such as where oral pleadings by persons involved in a marine accident are unnecessary because investigations conducted by investigators into the accident are sufficient;
4. Where a case is examined by summary inquiry under Article 41-3.

(2) In cases falling under paragraph (1) 3, oral pleadings shall not be omitted contrary to an intention expressly manifested by a person involved in the relevant marine accident.

[This Article Wholly Amended by Act No. 10802, Jun. 15, 2011]

Article 46 (Identity Interrogation)

Any presiding judge shall verify the identity of a person involved in a marine accident by questioning his/her name, resident registration number and address, and by questioning the type, etc. of licenses if the person involved in a marine accident is a ship officer or a pilot.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 47 (Opening Statement of Investigator)

An investigator shall state the summary of the request for inquiry according to his/her written request for inquiry.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 48 (Investigation of Evidence)(1) Any District Tribunal may investigate necessary evidence, ex officio or upon the application of an investigator, person involved in a marine accident or inquiry counsel.

(2) Any District Tribunal may, before the initial inquiry day, make an investigation only by the following means:

1. Inspection of ships or other places;
2. Order to present books, documents and other things;
3. Request for reporting or presentation of materials to public agencies.

(3) The actions of the District Tribunals shall not result in the confinement, seizure, search or other compulsory actions against a person, thing or place.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 48-2 (Use of Hangul for Evidential Material)

Documents, such as logbooks, etc. presented as an evidence to each Tribunal shall be in principle produced in Korean (including the use of Korean and Chinese characters in combination), and where documents prepared in a foreign language are presented, a translation thereof shall be attached thereto.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 49 (Oath)

Where a District Tribunal has a witness, expert witness, interpreter or translator to testify, give an expert opinion, interpret or translate for investigation of evidences under Article 48 (1), it shall put him/her on his/her oath in such manner as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 49-2 (Change, etc. in Requests for Inquiry)(1) An investigator may change a case name entered in a request for inquiry or add, retract or change the occurrence of a marine accident or persons involved in a marine accident.

(2) A presiding judge may request, in writing, the investigator to add, retract or change persons involved in a marine accident as deemed necessary in light of the progress of a trial.

(3) Where any fact relevant to a marine accident or a person involved in a marine accident is added, retracted, or changed pursuant to paragraphs (1) and (2), the presiding judge shall promptly notify the addition, retraction, or change to persons involved in the marine accident, inquiry counsels, and interested parties permitted to intervene in the inquiry under Article 44-2. <Amended by Act No. 10802, Jun. 15, 2011>

(4) Matters necessary for the requirements, procedures, etc. for the addition to, retraction of or changes in a request for inquiry referred to in paragraphs (1) and (2) shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 49-3 (Withdrawal of Request for Inquiry)

An investigator may withdraw an inquiry before a judgment in the first instance is made where the inquiry into a case for which a request for inquiry was made is made unnecessary and is prescribed by Presidential Decree: Provided, That this shall not apply to cases requested by the investigator by decision of the Tribunal pursuant to Article 39-2.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 50 (Principle of Evidential Inquiry)

The investigation shall be based on the evidence investigated on the inquiry day.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 51 (Principle of Strong Belief)

The probative force of evidence shall depend on the free judgment of judges.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 52 (Judgment on Rejection of Inquiry Request)

A District Tribunal shall reject, by judgment, any request for inquiry in the following cases:

1. Where it is not authorized to inquire into a case;
2. Where a request for inquiry is made in contravention of Acts and subordinate statutes;
3. Where it is impossible to make an inquiry under Article 7.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 53 (Specification of Reasons for Judgment)

In a judgment, the text and reason therefor shall be specified.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 54 (Judgment on Merits)

In making a judgment on the merits, the concrete fact of a marine accident and its causes shall be defined, and the reason why the fact is found on the basis of evidence shall be specified: Provided, That if it is found that the fact does not exist, the effect shall be specified.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 55 (Announcement of Judgment)

Judgment shall be announced by a presiding judge pursuant to the script of the judgment in an inquiry court.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 56 (Service of Judgment)

The commissioner of each Tribunal shall serve a certified transcript of judgment on the investigator and persons involved in the marine accident or inquiry counsel within ten days from the date on which judgment is announced pursuant to Article 55.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 56-2 (Method of Service)

Matters necessary for notice, notification or service of documents to persons involved in a marine accident, inquiry counsel or proxy shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 57 (Reference to Acts and Subordinate Statutes)

Except as otherwise provided for in this Act, matters necessary for the procedures for an inquiry shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

CHAPTER VI INQUIRIES BY KOREAN TRIBUNAL

Article 58 (Request for Second Instance)(1) Where an investigator or person involved in a marine accident is dissatisfied with the judgment (including the judgment of a special inquiry division) of a District Tribunal, he/she may request a second instance to the Korean Tribunal.

(2) An inquiry counsel may make a request under paragraph (1) on behalf of the person involved in the marine accident: Provided, That such request shall not be made against the express intention of the person involved in the marine accident.

(3) A request for a second instance shall be submitted, in writing, to the Tribunal which made

the original judgment, specifying the reason therefor.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 59 (Period for Request for Second Instance)(1) A request under Article 58 shall be made within 14 days from the date on which the certified transcript of a judgment is served.

(2) Where a person entitled to make a request for a second instance fails to do so within the period referred to in paragraph (1) due to a reason unattributable to himself/herself, the person may make a request in writing to the Tribunal which made the original judgment within 14 days from the date on which such reason ceases to exist.

(3) In cases under paragraph (2), the relevant reason shall be explained in detail.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 60 (Effect of Request for Second Instance)

The effect of a request for the second instance shall exert over the case concerned and all the relevant parties.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 61 (Withdrawal of Request for Second Inquiry)

A person who made a request for a second instance may withdraw his/her request until a judgment thereon is made.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 62 (Rejection of Request Due to Violation of Acts and Subordinate Statutes)

Where the procedures for a request for a second inquiry are in contravention of Acts and subordinate statutes, the Korean Tribunal shall, by judgment, reject the request.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 63 (Remand of Cases)

Where a District Tribunal rejects a request for inquiry in contravention of Acts and subordinate statutes, the Korean Tribunal shall, by judgment, remand the case to the District Tribunal.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 64 (Rejection of Request Due to Causes of Rejection by District Tribunal)

Where a District Tribunal fails to reject a request for inquiry in disregard of the existence of a ground falling under any subparagraph of Article 52, the Korean Tribunal shall, by judgment, reject the request.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 65 (Judgment on Merits)

Except as provided for in Articles 62 through 64, the Korean Tribunal shall make a judgment on the merits.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 65-2 (Prohibition of Change to Disadvantages)

Where a ship officer or pilot involved in a marine accident requests a second instance or a request for second instance is made for the benefit of a marine engineer or pilot involved in

a marine accident, more serious disciplinary action than discipline judged at the first instance shall not be judged.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 66 (Provisions Applicable Mutatis Mutandis)

Except as provided for in this Chapter, the Korean Tribunal shall apply the provisions of Chapter V mutatis mutandis to inquiries: Provided, That Articles 41-3 and 49-2 (1) and (2) (limited to persons added, retracted, or changed, from among persons involved in a marine accident) shall not apply to such cases. <Amended by Act No. 10802, Jun. 15, 2011>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

CHAPTER VII OBJECTION

Article 67 (Objection to Decision)(1) A person against whom a judgment was made by a District Tribunal may raise an objection to the Korean Tribunal.

(2) An objection may be raised until the second instance is decided.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 68 (Procedures for Objection)(1) A request for objection shall be filed in writing with a District Tribunal.

(2) Where the District Tribunal deems that the objection is reasonable, it may rectify the original judgment.

(3) Where the District Tribunal deems that the objection is, in whole or in part, unreasonable, it shall send the request to the Korean Tribunal within three days after receiving it.

(4) No objection shall suspend the execution of the original judgment: Provided, That if the District Tribunal deems that a reasonable ground exists, it may suspend its execution after considering the opinions of an investigator.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 69 (Objection, Related Documents and Evidences)(1) Where an objection is raised, a District Tribunal shall, if necessary, send to the Korean Tribunal the original process-verbal, other related documents and evidences.

(2) The Korean Tribunal may demand the District Tribunal to send the original process-verbal, other related documents and evidences.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 70 (Suspension of Execution for Original Decision)(1) If a reasonable ground is deemed exist when an objection is raised, the Korean Tribunal may, by judgment, suspend the execution of the original judgment after considering the opinions of an investigator.

(2) In cases under paragraph (1), the Korean Tribunal shall send the certified transcript of its judgment to the District Tribunal.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 71 (Decision on Objection)(1) The Korean Tribunal shall make a judgment on an objection after considering the opinions of an investigator.

(2) Where an objection is in contravention of the relevant procedures or is groundless, a judgment of rejection shall be made against it.

(3) In a judgment under paragraphs (1) and (2), the reason therefor shall be stated.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 72 (Notification of Decision to District Tribunal)

Any judgment of the Korean Tribunal on an objection shall be notified to the demurrant or the District Tribunal.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 73 (Delegation Provisions)

Matters necessary for the judgment on an objection shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

CHAPTER VIII LITIGATION OVER JUDGMENT OF KOREAN TRIBUNAL

Article 74 (Jurisdiction, Period for Instituting Litigation and Restriction thereon)(1)

Any litigation over a judgment of the Korean Tribunal shall be exclusively subject to the jurisdiction of the high court having jurisdiction over the place of address of the Korean Tribunal. <Amended by Act No. 12660, May 21, 2014>

(2) The litigation referred to in paragraph (1) shall be instituted within 30 days from the date on which a certified transcript of judgment is served.

(3) The period referred to in paragraph (2) shall be the peremptory term.

(4) No litigation shall be instituted over the judgment of a District Tribunal.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 75 (Defendant)

In a litigation prescribed in Article 74 (1), the Commissioner of the Korean Tribunal shall be the defendant.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 76

Deleted. <by Act No. 5809, Feb. 5, 1999>

Article 77 (Trial)(1) Where a court deems that the claim instituted pursuant to Article 74 is well-grounded, it shall revoke the judgment by court ruling. <Amended by Act No. 12660, May 21, 2014>

(2) Where a ruling on revocation of judgment has become final and conclusive pursuant to paragraph (1), the Korean Tribunal shall reconduct an inquiry and make a judgment.

(3) In the judgment of a court under paragraph (1), the decision which becomes a reason of revocation of judgment shall bind the Korean Tribunal with respect to such case.

(4) Except as expressly provided for in this Act, the Administrative Litigation Act shall apply mutatis mutandis to a lawsuit on judgment of the Korean Tribunal under this Act.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

CHAPTER IX EXECUTION OF JUDGMENT, ETC.

Article 78 (Time for Execution of Judgment)

A judgment shall be executed after it has become final and conclusive.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 79 (Authority to Execute Judgment)

A judgment of the Korean Tribunal shall be executed by the Chief Investigator of the Korean Tribunal, and those of District Tribunals, by the chief investigator of the competent District Tribunal.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 80 (Case of Judgment on Revocation of License)

When a judgment on the revocation of a license becomes final and conclusive, the investigator shall withdraw the license of a ship officer or pilot, and send it to the relevant maritime affairs and fisheries agency.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 81 (Case of Judgment on Suspension of Business)

When a judgment on the suspension of business operation becomes final and conclusive, the competent investigator shall seize the license of the relevant ship officer or pilot, keep it in custody, and return it after the period of business suspension ends: Provided, That such license shall not be seized if execution is suspended by judgment under Article 6-2.

[This Article Wholly Amended by Act No. 10802, Jun. 15, 2011]

Article 81-2 (Invalidation of Disciplinary Actions)

Where a ship officer or pilot against whom a disciplinary action of business suspension or reprimand under Article 5 has been taken has an accident-free navigation record for five or more years after the execution of a judgment on the disciplinary action is terminated, the disciplinary action is invalidated. In such cases, necessary matters concerning the procedures for the cancellation of the record on such disciplinary action shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 82 (Declaration of Invalidity of Licenses and Public Notice thereof)

Where a person against whom the revocation of license or suspension of business is decided fails to present his/her license of ship officer or pilot to the investigator, the Chief Investigator of the Korean Tribunal shall declare the invalidity of such license, and after giving public notice thereof in the Official Gazette, shall report it to the Minister of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 83 (Public Announcement of Adjudication)

Where the Chief Investigator of the Korean Tribunal has made a judgment recommending or ordering the correction and improvement referred to in Article 5 (3), he/she shall announce the details of the judgment in the Official Gazette and report it to the Minister of Oceans and Fisheries: Provided, That if deemed necessary, the public announcement may be made in newspapers. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 84 (Implementation of Judgment, etc.)(1) A person who falls under any of the

following subparagraphs shall take necessary measures according to the effect of the recommendation, and if the Chief Investigator orders him/her to inform the details of such measures, he/she shall promptly inform such details:

1. A person who has received a judgment ordering the correction or improvement pursuant to Article 5 (3);

2. A person who has been requested to take measures for the correction or improvement pursuant to Article 5-2.

(2) Where the chief investigator deems that such measures are inadequate, after examining the details of information referred to in paragraph (1), he/she may demand the implementation thereof.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

CHAPTER X SUPPLEMENTARY PROVISIONS

Article 85 (Payment of Allowance to Witnesses, etc.)

A witness, expert witness, interpreter or translator attending pursuant to the provisions of this Act may be paid travel expenses, per diem, accommodation charges, and expert opinion, interpretation or translation fees, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 85-2 (Prohibition of Disadvantageous Treatment, etc.)

No one shall be dismissed, transferred, given a disciplinary action, treated unfairly, or receive other disadvantages, in connection with his/her status and treatment for bearing witness, giving an expert opinion, making a statement, or submitting materials or articles under this Act with respect to investigation and inquiry into a marine accident.

[This Article Newly Inserted by Act No. 12547, Mar. 24, 2014]

Article 86 (Allowances for Non-Permanent Judges)

Non-permanent judges participating in an inquiry and Tribunal-appointed inquiry counsels selected pursuant to Article 30 may be reimbursed for allowances, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 10802, Jun. 15, 2011]

Article 87 (Restriction on Administrative Appeal, etc.)

A judgment made under this Act shall not be subject to any administrative appeal or objection under the Administrative Appeals Act and other Acts and subordinate statutes.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 88 (Fees)

A person who intends to have a copy of a written judgment, decision, etc. under this Act, issued by each Tribunal, shall pay fees prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 88-2 (Legal Fiction of Regarding as Public Officials for Application of Penal Provisions)

Any of the following persons shall be regarded as a public official for the purposes of applying

any provision of Articles 129 through 132 of the Criminal Act:

1. A non-permanent judge participating in an inquiry under Article 14 (2);
2. An expert specializing in marine accidents and taking charge of an investigation in a special investigation board under Article 18-3.

[This Article Newly Inserted by Act No. 10802, Jun. 15, 2011]

CHAPTER XI PENAL PROVISIONS

Article 89 (Penal Provisions)

A person who reveals confidential information which he/she has learned in the performance of his/her duties in violation of Article 29 (3) shall be punished by imprisonment for not more than one year, or by a fine not exceeding ten million won.

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 90 (Administrative Fines)(1) Any person who gives disadvantages, such as dismissal, transfer, a disciplinary action, unfair treatment and other disadvantages in connection with the status and treatment, to a person who has borne witness, given an expert opinion, made a statement, or submitted materials or articles under this Act with respect to investigation and inquiry into a marine accident for doing so, in violation of Article 85-2, shall be punished by an administrative fine not exceeding ten million won. <Newly Inserted by Act No. 12547, Mar. 24, 2014>

(2) Any of the following persons shall be punished by an administrative fine not exceeding two million won: <Amended by Act No. 12547, Mar. 24, 2014>

1. A person who fails to implement a judgment ordering correction or improvement under Article 5 (3);
2. A person who violates Article 35 (3);
- 2-2. A person who violates Article 35 (4);
3. A person who fails to comply with a disposition of the investigator under of Article 37 (1) 1 through 3, or who interferes with a compliance with the disposition: Provided, That in cases falling under Article 37 (1) 1 and 3, a person who is not directly related to the cause of a marine accident shall be excluded therefrom;
4. A person who refuses, interferes with or evades an inspection conducted by each Tribunal under Article 48 (2) 1;
5. A person who fails to present books, documents or other things which he/she is ordered to present by each Tribunal under Article 48 (2) 2, or who presents books, documents or other things having any false content;
6. A person who makes a false statement, in contravention of the oath under Article 49.

(3) Any of the following persons shall be punished by an administrative fine not exceeding 500,000 won:

1. A person involved in a marine accident who has been summoned on two consecutive occasions by each Tribunal but fails to appear without a justifiable reason;
2. A witness, expert witness, interpreter or translator who has been summoned on two consecutive occasions by each Tribunal but fails to appear or fulfill his/her duty without a

justifiable reason;

3. A person who fails to obey an order by a presiding judge under Article 42 (2).

(4) Administrative fines under paragraphs (1) through (3) shall be imposed and collected by the commissioner of each Tribunal, as prescribed by Presidential Decree. <Amended by Act No. 12547, Mar. 24, 2014>

[This Article Wholly Amended by Act No. 9854, Dec. 29, 2009]

Article 91

Deleted. <by Act No. 9854, Dec. 29, 2009>

7. Marine Scientific Research Act

[Enforcement Date 14. Nov, 2013.] [Act No.12091, 13. Aug, 2013., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to provide for procedures for marine scientific research conducted by foreigners or international organizations and contribute to advancing marine science and technology by efficiently managing and publishing research data which are the findings of marine scientific research conducted by nationals of the Republic of Korea, foreigners, or international organizations.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 2 (Definitions)

The definitions of terms used in this Act shall be as follows:

1. The term "marine scientific research" means conducting research, exploration, etc. into the seabed, subsoil, superjacent waters, and lower atmosphere to study and discover the natural phenomena of the sea;

2. The term "foreigner" means any of the following:

(a) An non-national of the Republic of Korea (including a holder of dual nationality under the Nationality Act);

(b) A corporation incorporated pursuant to the laws of a foreign country (including a corporation provided for in the proviso to subparagraph 3 (b));

(c) A foreign government;

3. The term "national of the Republic of Korea" means any of the following:

(a) A person who holds nationality of the Republic of Korea (excluding a holder of dual nationality under the Nationality Act);

(b) A corporation incorporated pursuant to the laws of the Republic of Korea: Provided, That a corporation which has its head office or principal office in a foreign country or a corporation, at least half the shares or equity stake of which is owned by foreigners shall be excluded;

4. The term "waters under the jurisdiction" means any of the following:

(a) Internal waters and territorial waters under the Territorial Sea and Contiguous Zone Act;

(b) Exclusive economic zones designated under the Exclusive Economic Zone Act;

(c) Continental shelves over which the Republic of Korea exercises its sovereign right and jurisdictional authority;

5. The term "research data" means the basic data and samples obtained through marine scientific research;

6. The term "basic data" means data organized so that users may use them universally among the data obtained in the field and related information essential for the interpretation and evaluation of such data.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 3 (Scope of Application)

This Act shall not apply to research, exploration, etc. related to projects for developing marine mineral resources.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

CHAPTER II MARINE SCIENTIFIC RESEARCH BY FOREIGNERS, ETC.

Article 4 (Principles of Conducting Marine Scientific Research)

Where any foreigner or international organization (hereinafter referred to as "foreigner, etc.") conducts marine scientific research, he/she/it shall follow the following principles:

1. Marine scientific research shall be conducted only for peaceful purposes;
2. Marine scientific research shall not unfairly interfere with other legitimate use of the sea;
3. Marine scientific research shall be conducted by scientific methods or means complying with international agreements related thereto;
4. Marine scientific research shall not violate related international agreements for the protection and preservation of the marine environment.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 5 (Promotion of International Cooperation)(1) The Minister of Oceans and Fisheries shall formulate policies necessary to promote international exchange of marine scientific research on the basis of mutual benefit.

(2) Where a foreigner, etc. that conducts marine scientific research makes a request, the Minister of Oceans and Fisheries may provide convenience for a vessel' s arrival in or departure from port, or take measures necessary for the protection, etc. of safe waters in consultation with the heads of related central administrative agencies.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 6 (Permission to Conduct Marine Scientific Research in Territorial Sea)(1) Any foreigner, etc. that intends to conduct marine scientific research in the territorial sea of the Republic of Korea shall obtain permission from the Minister of Oceans and Fisheries.

(2) Any foreigner, etc. that intends to obtain permission under paragraph (1) shall submit a research plan (hereinafter referred to as "research plan") including matters prescribed by Presidential Decree to the Minister of Oceans and Fisheries via the Minister of Foreign Affairs six months prior to the scheduled date of conducting marine scientific research.

(3) Upon receipt of an application for permission pursuant to paragraph (2), the Minister of Oceans and Fisheries shall decide whether to grant permission within four months from the

date of application in consultation with the heads of related central administrative agencies, and immediately inform the relevant applicant of his/her decision.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 7 (Consent to Marine Scientific Research in Exclusive Economic Zone or Continental Shelf)(1) Any foreigner, etc. that intends to conduct marine scientific research in the exclusive economic zone or continental shelf of the Republic of Korea shall obtain consent from the Minister of Oceans and Fisheries.

(2) Any foreigner, etc. that intends to obtain consent under paragraph (1) shall submit a research plan to the Minister of Oceans and Fisheries via the Minister of Foreign Affairs six months prior to the scheduled date of conducting marine scientific research.

(3) Upon receipt of an application for consent pursuant to paragraph (2), the Minister of Oceans and Fisheries shall decide whether to grant consent within four months from the date of application in consultation with the heads of related central administrative agencies, and immediately inform the relevant applicant of his/her decision.

(4) In any of the following cases, the Minister of Oceans and Fisheries may refuse to grant consent under paragraph (1):

1. Where the content of the research plan has a direct effect on the exploration and development of marine resources conducted by a national or government agency of the Republic of Korea (hereinafter referred to as "Korean national, etc.");
2. Where the content of research plan contains matters concerning drilling on the continental shelf, the use of explosives, or the input of substances harmful to the marine environment;
3. Where the content of the research plan contains the construction, operation, or use of artificial islands, installations, or structures;
4. Where the content of the research plan is unclear or violates a related law of the Republic of Korea or international agreement;
5. Where a government agency or national of a foreign country that has refused marine scientific research of a Korean national, etc. without justifiable grounds submits the research plan;
6. Where the content of the research plan violates the principles of conducting marine scientific research under Article 4;
7. Where a foreigner, etc. that has filed an application for consent to marine scientific research fails to perform his/her obligations toward the Republic of Korea in relation to other marine scientific research conducted pursuant to this Act.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 8 (Permission, etc. to Conduct Joint Research)(1) Where a foreigner, etc. and a Korean national, etc. intend to conduct joint marine scientific research (hereafter referred to as "joint research" in this Article) in waters under the jurisdiction of the Republic of Korea, excluding the internal waters, the foreigner, etc. or the Korean national, etc. participating in joint research shall jointly obtain permission under Article 6 (1) or consent under Article 7 (1).

(2) Article 6 (2) or (3), or Article 7 (2) through (4) shall apply mutatis mutandis to permission

or consent to conduct joint research under paragraph (1): Provided, That where a Korean national, etc. participating in joint research submits a research plan to the Minister of Oceans and Fisheries, he/she need not submit it via the Minister of Foreign Affairs.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 9 (Conditional Permission, etc.)

Where the Minister of Oceans and Fisheries grants permission or consent under Articles 6 through 8, he/she may attach conditions or impose burdens.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 10 (Obligations of Foreigner, etc.)(1) A foreigner, etc. that obtains permission or consent under Articles 6 through 8 shall perform the following obligations: Provided, That where a Korean national, etc. participating in joint research performs obligations under Article 21 (2), the Minister of Oceans and Fisheries may exempt the foreigner, etc. participating in joint research from obligations under subparagraph 3:

1. The foreigner, etc. shall ensure that a person designated by the Minister of Oceans and Fisheries will participate in marine scientific research;
2. The foreigner, etc. shall submit research reports, as prescribed by Presidential Decree, after he/she completes marine scientific research;
3. The foreigner, etc. shall submit all research data he/she has obtained from marine scientific research and provide opportunities to use the relevant data;
4. Where the Minister of Oceans and Fisheries makes a request, the foreigner, etc. shall provide research data and records of analysis and evaluation of the findings of research, or provide other necessary support;
5. Where any significant matter prescribed by Presidential Decree is changed, among the content of the research plan, the foreigner, etc. shall immediately notify the Minister of Oceans and Fisheries of such change;
6. The foreigner, etc. shall attach identification markings and warning signals to facilities or equipment used for marine scientific research;
7. The foreigner, etc. shall not install facilities or equipment used for marine scientific research on major sea routes where vessel traffic occurs frequently;
8. Where the foreigner, etc. has completed marine scientific research or suspended marine scientific research pursuant to Article 12 (2), he/she shall remove facilities or equipment installed and used marine scientific research;
9. The foreigner, etc. shall ensure the fair sharing of profits generated from the findings of marine scientific research.

(2) Where a foreigner, etc. fails to perform his/her obligations under paragraph (1), the Minister of Oceans and Fisheries may demand that the head of a country or the head of an international organization to which such foreigner, etc. belongs should perform such obligations.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 11 (Restrictions on Publication and Transfer of Research Data)(1) Where the

Minister of Oceans and Fisheries deems that the research data and findings of research obtained through marine scientific research conducted by a foreigner, etc. have a significant effect on the national interest of the Republic of Korea, he/she may request the foreigner, etc. to restrict the publication and transfer of such research data and the findings of such research.

(2) Where a foreigner, etc. fails to comply with a request for restrictions on the publication and transfer of research data and the findings of research under paragraph (1), the Minister of Oceans and Fisheries may demand that the head of a country or the head of an international organization to which such foreigner, etc. belongs should take measures for restrictions on the publication and transfer thereof.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 12 (Suspension and Discontinuance of Marine Scientific Research)(1) In any of the following cases, the Minister of Oceans and Fisheries may direct a foreigner, etc. to suspend marine scientific research: Provided, That where grounds for suspension cease to exist, the Minister of Oceans and Fisheries may allow the foreigner, etc. to resume marine scientific research:

1. Where marine scientific research is not conducted in accordance with a research plan;
2. Where the foreigner, etc. fails to perform obligations under Article 10 (1) 1 and 5 through 7;
3. Where the Minister of National Defense requests the Minister of Oceans and Fisheries to suspend marine scientific research to perform military operations.

(2) Where marine scientific research conducted by a foreigner, etc. falls under any of the following cases, the Minister of Oceans and Fisheries may direct the foreigner, etc. to discontinue marine scientific research:

1. Where significant grounds prescribed by Presidential Decree arise, such as conducting marine scientific research beyond the scope of permission or consent under Articles 6 through 8;
2. Where the non-fulfillment of obligations under paragraph (1) 2 is not corrected within the period for correction prescribed by the Minister of Oceans and Fisheries;
3. Where the head of a related central administrative agency requests the Minister of Oceans and Fisheries to discontinue marine scientific research for maintaining peace or public order and security of the Republic of Korea.

(3) Suspension under paragraph (1) or discontinuance under paragraph (2) shall become effective when the Minister of Oceans and Fisheries gives notice to a foreigner, etc.

(4) Where the Minister of Oceans and Fisheries gives notice under paragraph (3), he/she shall also give notice to the head of a country or the head of an international organization to which the foreigner, etc. belongs.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 13 (Unauthorized Research)(1) Where the head of a related agency suspects that a foreigner, etc. conducts marine scientific research without obtaining permission or consent

under Articles 6 through 8, he/she may stop, search, or seize a ship, issue necessary orders, or take necessary action.

(2) Where the head of a related agency has stopped, searched, or seized a ship, issued necessary orders, or taken necessary action pursuant to paragraph (1), he/she shall immediately notify the Minister of Oceans and Fisheries of such fact.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 14 (Relationship with other Treaties)(1) Marine scientific research conducted by a foreign government or international organization in accordance with a treaty or agreement concluded with the Republic of Korea shall be deemed to have obtained permission or consent under this Act.

(2) Where a foreign government or international organization conducts marine scientific research pursuant to paragraph (1), it shall submit a research plan to the Minister of Oceans and Fisheries via the Minister of Foreign Affairs one month prior to the scheduled date of conducting marine scientific research.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 15 (Emergency Research)

International joint research urgently conducted by mutual agreement between governments to discover the cause of a marine accident, marine pollution, etc. shall be deemed to have obtained permission under Article 6 or consent under Article 7.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 15-2 (Permitting Marine Scientific Research Vessel to Make Calls at Ports)(1)

Where a marine scientific research vessel of a foreigner, etc. that fails to obtain permission or consent under Articles 6 through 8 intends to make a call at a port of the Republic of Korea (excluding where it intends to make a call at the port due to emergency situations prescribed by Presidential Decree, such as a typhoon), he/she shall obtain permission from the Minister of Oceans and Fisheries: Provided, That where the Republic of Korea has agreed otherwise with the flag state of the relevant vessel in accordance with a treaty or agreement, such agreement shall apply thereto.

(2) A foreigner, etc. that intends to obtain permission to make a call at a port pursuant to paragraph (1) shall submit a plan for making a call at the port, including matters prescribed by Presidential Decree, to the Minister of Oceans and Fisheries via the Minister of Foreign Affairs two months prior to the scheduled date of making a call at the port.

(3) Upon receipt of an application for permission to make a call at a port pursuant to paragraph (2), the Minister of Oceans and Fisheries shall decide whether to grant permission within one month from the date of such application in consultation with the head of a related central administrative agency, and immediately inform the relevant applicant of his/her decision.

[This Article Newly Inserted by Act No. 12091, Aug. 13, 2013]

Article 16 (Compensation for Losses)

Where a foreigner, etc. causes a loss to a Korean national, etc. while conducting marine

scientific research under this Act, he/she shall compensate for such loss in accordance with related Acts of the Republic of Korea and international agreements.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 17 (Disapproval of Occurrence of Rights Related to Marine Scientific Research)

No foreigner, etc. shall assert his/her rights to exploration, development, etc. of the marine environment or natural resources in waters under the jurisdiction of the Republic of Korea based on research data he/she has obtained from marine scientific research.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 18 (Special Provisions in Time of National Emergency, etc.)

No foreigner, etc. shall unjustly interfere with the exercise of rights and legitimate use of the sea by the Republic of Korea related to security under a national emergency when he/she conducts marine scientific research.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 19

Deleted. <by Act No. 12091, Aug. 13, 2013>

CHAPTER III MARINE SCIENTIFIC RESEARCH BY NATIONALS OF THE REPUBLIC OF KOREA

Article 20 (Encouragement of Marine Scientific Research)(1) Except as otherwise expressly provided for in other Acts, the Government shall ensure that any national of the Republic of Korea may freely conduct marine scientific research and actively encourage him/her to conduct marine scientific research.

(2) To advance marine science and technology, the Minister of Oceans and Fisheries shall devise necessary supporting measures to efficiently disclose and provide research data.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 21 (Management and Publication of Research Data)(1) The head of a State agency or local government (hereinafter referred to as "State agency, etc.") or the representative of a corporation prescribed by Presidential Decree shall conscientiously manage research data obtained from marine scientific research conducted on the budget of the State agency, etc.: Provided, That where the State agency, etc. may entrust the management of research data to a management agency under Article 22, if deemed necessary.

(2) The head of a State agency, etc. and the representative of a corporation under paragraph (1) shall make public research data, and when a user requests him/her to provide basic data, he/she shall provide such data. In such cases, he/she may require the user to bear expenses incurred in providing basic data.

(3) Matters necessary for the management and publication of research data under paragraphs (1) and (2), or the scope of and procedures for providing research data shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 22 (Management Agencies)(1) Where the head of a related central administrative

agency deems it necessary for shared use of research data, he/she may designate and operate a management agency, as prescribed by Presidential Decree. In such cases, the head of the related central administrative agency shall provide close cooperation for sharing information and smooth communication related to marine scientific research.

(2) A management agency designated under paragraph (1) shall:

1. Manage research reports and research data submitted pursuant to Article 10 (1) 2 and 3 and providing them to users;
2. Manage a list of research data collected pursuant to paragraph (3) and provide such list to users;
3. Promote user convenience for the use of research data, and create conditions for the use thereof;
4. Other matters prescribed by the Minister of Oceans and Fisheries for the shared use and efficient management of research data.

(3) The head of a management agency designated under paragraph (1) may request the head of a State agency, etc. and the representative of a corporation under Article 21 (1) to provide a list of research data, as prescribed by Presidential Decree.

(4) The head of a State agency, etc., and the representative of a corporation in receipt of a request for providing a list of research data under paragraph (3) shall provide such list, except in extenuating circumstances.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

Article 23 (Advice on Performance)

The Minister of Oceans and Fisheries may advise a person who fails to perform his/her obligations under Article 21 without justifiable grounds to perform his/her obligations.

[This Article Wholly Amended by Act No. 12091, Aug. 13, 2013]

CHAPTER IV PENAL PROVISIONS

Article 24 (Penal Provisions)(1) A person who conducts marine scientific research in the territorial sea of the Republic of Korea without obtaining permission from the Minister of Oceans and Fisheries, in violation of Article 6 (1) or 8 (1), shall be punished by imprisonment for not more than five years, or by a fine not exceeding 200 million won.

(2) A person who conducts marine scientific research in the exclusive economic zone or continental shelf of the Republic of Korea without obtaining consent from the Minister of Oceans and Fisheries, in violation of Article 7 (1) or 8 (1), shall be punished by a fine not exceeding 100 million won.

(3) A foreigner, etc. that makes a call at a port of the Republic of Korea without obtaining permission from the Minister of Oceans and Fisheries, in violation of Article 15-2 (1), shall be punished by a fine not exceeding 10 million won.

(4) In cases falling under paragraphs (1) and (2), the Minister of Oceans and Fisheries may confiscate the relevant vessel, facilities, or equipment used for marine scientific research and research data obtained from such research.

[This Article Newly Inserted by Act No. 12091, Aug. 13, 2013]

Article 25 (Joint Penal Provisions)

Where the representative of a corporation, or an agent, employee, or other servant of a corporation or an individual commits an offence provided for in Article 24 (1) through (3) in relation to the affairs of the corporation or the individual, not only shall the offender be punished, but the corporation or individual also shall be punished by a fine under the relevant provision: Provided, That the foregoing shall not apply where such corporation or individual has not been negligent in giving due attention and supervision in relation to the relevant affairs to prevent such offence.

[This Article Newly Inserted by Act No. 12091, Aug. 13, 2013]

ADDENDA (Omitted)

8. Enforcement Decree of Marine Scientific Research Act

[Enforcement Date 19. Nov, 2014.] [Presidential Decree No.25751, 19. Nov, 2014., Amendment by Other Act]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Decree is to prescribe matters entrusted by the Marine Scientific Research Act (hereinafter referred to as the "Act") and matters necessary for the enforcement thereof.

CHAPTER II MARINE SCIENTIFIC RESEARCH BY FOREIGNER, ETC.

Article 2 (Procedures, etc. for Permission to Conduct Research within Territorial Sea of Republic of Korea)(1) Matters to be included in a research plan pursuant to Article 6 (2) of the Act shall be as specified in attached Table 1. <Amended by Presidential Decree No. 24840, Nov. 13, 2013>

(2) Any foreigner defined in subparagraph 2 (a) or (b) of Article 2 of the Act who intends to obtain permission to conduct marine scientific research pursuant to Article 6 (1) and (2) of the Act (hereinafter referred to as "permission") shall submit an application for permission and a research plan via the government of the country to which he/she belongs. <Amended by Presidential Decree No. 24840, Nov. 13, 2013>

(3) Upon receipt of an application for permission, the Minister of Oceans and Fisheries shall send the relevant application for permission and research plan to the Minister of Science, ICT and Future Planning, Minister of Foreign Affairs, Minister of Justice, Minister of National Defense, Minister of Trade, Industry and Energy, Minister of Environment, Minister of Land, Infrastructure and Transport, The Minister of Public Safety and Security, Administrator of Korea Meteorological Administration, Administrator of Cultural Heritage Administration, and Director of National Oceanographic Research Institute, and heads of other related central administrative agencies, and shall consult whether to grant permission with the head of each agency. <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No. 17115, Jan. 29, 2001; Presidential Decree No. 20722, Feb. 29, 2008; Presidential

Decree No. 24443, Mar. 23, 2013; Presidential Decree No. 25751, Nov. 19, 2014>

(4) Where the Minister of Oceans and Fisheries grants permission pursuant to Article 6 (3) of the Act, he/she shall issue a permit stating the following matters to the relevant applicant for permission, and notify the heads of related central administrative agencies referred to in paragraph (3) of such fact: <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013; Presidential Decree No. 24840, Nov. 13, 2013>

1. The name of the research organization and the name of the research person in charge;
2. The name of the research vessel;
3. The sea area for research;
4. The research period;
5. Conditions or burdens imposed under Article 9 of the Act;
6. The name and telephone number of the department of the agency which has issued the permit.

Article 3 (Procedures, etc. for Consent to Research in Exclusive Economic Zone or Continental Shelf)(1) Article 2 shall apply mutatis mutandis to procedures for consent to marine scientific research in the exclusive economic zone or continental shelf of the Republic of Korea under Article 7 (2) and (3) of the Act. In such cases, "permission" shall be construed as "consent". <Amended by Presidential Decree No. 24840, Nov. 13, 2013>

(2) The head of a related central administrative agency in receipt of an application for consent and a research plan submitted under paragraph (1) shall inform the Minister of Oceans and Fisheries of his/her opinion on whether to grant consent within two months. <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013; Presidential Decree No. 24840, Nov. 13, 2013>

(3) Where the Minister of Oceans and Fisheries refuses consent pursuant to Article 7 (3) of the Act, he/she shall inform the relevant applicant for consent of his/her refusal, specifying grounds for refusal. <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013; Presidential Decree No. 24840, Nov. 13, 2013>

Article 4 (Procedures for Permission for or Consent to Joint-Research, etc.)(1) With respect to the permission or consent to the joint-research under Article 8 (1) of the Act, paragraph (2) or (3) of this Decree shall apply mutatis mutandis respectively.

(2) Where the foreigner, etc., or the national, etc., who participate in the joint-research under Article 8 (2) of the Act submits a joint research plan, he/she shall append a written agreement which contains matters such as those concerning the distribution of research data and disposal of research results.

Article 5 (Display of Permit or Written Consent, etc.)

The foreigner, etc. who has received the permit or written consent under Articles 2 through 4 of this Decree shall display the permit or written consent in the research vessel, and at all

times present it at the request of the public officials concerned.

Article 6 (Reporting on Findings of Participation)

A national of the Republic of Korea who participates in marine scientific research conducted by a foreigner, etc. after he/she is designated by the Minister of Oceans and Fisheries pursuant to Article 10 (1) 1 of the Act (hereinafter referred to as "designated participant in research") shall conduct the following affairs, and report the findings thereof, as prescribed by the Ordinance of the Ministry of Oceans and Fisheries: <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013; Presidential Decree No. 24840, Nov. 13, 2013>

1. Acquiring and collecting technologies and information concerning the marine scientific research;
2. Checking the progress of the marine scientific research;
3. Verifying the obtained research data;
4. Verifying whether the marine scientific research is being performed in accordance with the research plan to which permission or consent has been granted;
5. Verifying whether a suspension or termination order is being obeyed;
6. Verifying whether obligations provided for in Article 10 (1) 6 through 9 of the Act are performed;
7. Other matters prescribed by the Minister of Oceans and Fisheries.

Article 7 (Research Reports)(1) Research reports provided for in Article 10 (1) 2 of the Act shall be classified into a preliminary report and a final report.

(2) A foreigner, etc. shall submit five copies of a preliminary report, each written in Korean and English, to the Minister of Oceans and Fisheries, within three months after the completion of research. <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013>

(3) A preliminary report provided for in paragraph (2) shall contain:

1. A report (including navigation charts) on the marine research in the form determined by the Inter-Governmental Oceanography Committee;
2. Matters carried out differently from the research plan submitted pursuant to Article 6 (2), 7 (2), or 8 (1) of the Act;
3. A copy of the vessel logbook and research diary.

(4) A foreigner, etc., shall submit five copies of a final report, each written in Korean or English, to the Minister of Oceans and Fisheries, within two years after the completion of research. <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013>

(5) Upon receipt of a preliminary report and a final report under paragraphs (2) and (4), the Minister of Oceans and Fisheries shall transfer them to a management agency designated under Article 22 (1) of the Act (hereinafter referred to as "management agency") without delay. <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No.

20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013>

Article 8 (Submission of Research Data)(1) A foreigner, etc. shall submit the research data under Article 10 (1) 3 of the Act within two years after the completion of research, as determined by the Minister of Oceans and Fisheries. <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall transfer the research data submitted under paragraph (1) to the management agency. <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013>

Article 9 (Significant Changes in Research Plan)

"Where any significant matter prescribed by Presidential Decree is changed" in Article 10 (1) 5 of the Act means changes provided for in subparagraphs 1 (b) through (e), 2 (b), (d) and (e), 3 (a), 5 (a), and 8 of attached Table 1: Provided, That any change provided for in the subparagraphs of Article 10 shall be excluded.

[This Article Wholly Amended by Presidential Decree No. 24840, Nov. 13, 2013]

Article 10 (Significant Changes in Marine Scientific Research)

"Significant grounds prescribed by Presidential Decree" in Article 12 (2) 1 of the Act means engaging in the following activities beyond the scope of permission or consent obtained: <Amended by Presidential Decree No. 24840, Nov. 13, 2013>

1. An activity which has a direct effect on the exploration and development of natural resources;
2. Excavating the continental shelf, using explosives, or injecting materials harmful to the marine environment;
3. Constructing, using, or operating an artificial island, facility, or structure;
4. Conducting maritime scientific research in the sea area outside of the permitted or consented research sea area;
5. Participation by a research organization or support organization which fails to fulfill its duties to the Republic of Korea in connection with its previous performance of marine scientific research.

Article 11 (Notification of Suspension, etc.)(1) When the Minister of Oceans and Fisheries directs a foreigner, etc. to suspend, discontinue, or revoke the suspension of, marine scientific research (hereafter referred to as "suspension, etc." in this Article) under Article 12 of the Act, he/she shall immediately inform the head of the related central administrative agency and the designated research participant of such fact. In such cases, the head of the related central administrative agency shall immediately inform the head of the related agency of the suspension, etc. <Amended by Presidential Decree No. 15135, Aug. 8, 1996; Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013>

(2) The head of the related agency who is informed of the suspension, etc. under the latter

part of paragraph (1) shall verify whether the suspension or discontinuance order is being obeyed, and when the suspension or discontinuance order is not being carried out, he/she shall take appropriate action pursuant to the Acts and subordinate statutes related thereto.

Article 11-2 (Permitting Marine Scientific Research Vessel to Make Calls at Ports)(1) "Emergency situations prescribed by Presidential Decree, such as a typhoon" in the main sentence of Article 15-2 (1) of the Act means:

1. Harsh weather conditions, such as a typhoon;
2. Where a marine scientific research vessel intends to make a call at a port to avoid a marine accident;
3. Other cases deemed emergency situations equivalent to those referred to in subparagraph 1 or 2.

(2) Matters to be included in a plan for a marine scientific research vessel to make a call at a port pursuant to Article 15-2 (2) of the Act shall be as specified in attached Table 2.

[This Article Newly Inserted by Presidential Decree No. 24840, Nov. 13, 2013]

CHAPTER III MARINE SCIENTIFIC RESEARCH BY NATIONALS OF THE REPUBLIC OF KOREA

Article 12 (Management and Publication of Research Data)

The term "the juristic person prescribed by the Presidential Decree" under Article 21 (1) of the Act means one under any of the following subparagraphs:

1. Any research institute being governed by the Specific Research Institutes Support Act;
2. Any university under the Education Act;
3. Any other non-profit juristic person in the field of marine scientific established by the Civil Act or other Acts.

Article 13 (Scope of Management of Research Data)(1) The scope of management of research data under Article 21 (3) of the Act shall be as specified in attached Table 3. <Amended by Presidential Decree No. 24840, Nov. 13, 2013>

(2) The head of a State agency, etc., and the representative of a corporation set forth in Article 21 (1) of the Act (hereinafter referred to as "head of a State agency etc., and the representative of a corporation") shall maintain the research data in the following manners:

1. The basic data shall be computerized and preserved permanently, but especially, in precaution against natural disasters or man-made accidents, it shall be preserved in a safe place: Provided, That the basic data inappropriate for computerization by its nature need not be computerized;
2. Testing materials shall be maintained as classified into things which are high in their natural or reusable value and those which are not: Provided, That the same shall not apply where any other Act expressly prescribes otherwise.

Article 14 (Management on Consignment)(1) When the head of a government agency, etc., or the representative of a juristic person intends to consign the research data to a management agency, a consignment note which contains the following items should be attached thereto:

1. The name of the consignor;
2. A list of the data of the consigned materials;
3. Information related to the consigned data.

(2) A management agency which is consigned to manage the research data under paragraph (1) of this Article shall do so research data fairly, and if requested by the head of a consignment agency, it shall take necessary measures for preferential use of consigned data and reduction of expenses for disseminating said data, etc..

Article 15 (Publication of Research Data, etc.)(1) The publication of the research data and dissemination of basic data under Article 21 (2) of the Act shall be subject to the research data under Article 13 (1): Provided, That in cases coming under any one of the following subparagraphs, the research data shall not be made public:

1. Where the publication of the research data is restricted by other Acts;
2. Where the head of a government agency, etc., and the representative of a juristic person restricts the publication of the research data thereof within a three year period after the completion of an annual project;
3. Where the head of an other ministry and agency concerned considers the publication of the research data inappropriate for national security and accordingly restricts the publication thereof for a specified period.

(2) The head of a government agency and the representative of a juristic person shall prescribe matters concerning publication of the research data and procedures for said date's access provision by taking into account the convenience of its users and preferential use by the participant in the marine scientific research.

Article 16 (Designation of Management Agency)(1) The organ to be designated as the management agency by the head of the ministry or agency concerned pursuant to Article 22 (1) of the Act shall be that coming under any one of the following subparagraphs which performs a marine scientific research:

1. A government agency;
2. Research institutes being governed by the Act on the Support of Specific Research Institutions.

(2) When the head of the ministry or agency concerned designates a management agency pursuant to Article 22 (1) of the Act, he/she shall make a public notification.

Article 17 (List of Research Data)(1) A request to provide a list of research data under Article 22 (3) of the Act shall be made regarding the research data gained from the completion of an annual project that includes marine scientific research, and the number of requests shall not exceed four times per year.

(2) In receipt of a request to provide a list of research data under paragraph (1), the head of a State agency, etc. or the representative of a corporation shall submit it to the relevant management agency within two months after the receipt thereof: Provided, That he/she may put the submission on hold where ten months have not yet passed since the completion of an annual project.

(3) The content and form of the list of research data shall be determined by the Minister of Science, ICT and Future Planning in consultation with the heads of the relevant ministries and agencies. <Amended by Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013>

(4) The head of a management agency shall distribute a list of research data provided under paragraph (2) to other management agencies without delay.

Article 18 (Advice on Performance)

When the Minister of Science, ICT and Future Planning intends to give advice on performance of obligations under Article 23 of the Act, he/she shall first investigate the current status of management of research data, and recording of research data published or provided, and consider the findings thereof. <Amended by Presidential Decree No. 20722, Feb. 29, 2008; Presidential Decree No. 24443, Mar. 23, 2013>

ADDENDA (Omitted)

9. Compensation for Oil Pollution Damage Guarantee Act

[Enforcement Date 15. Oct, 2014.] [Act No.12829, 15. Oct, 2014., Partial Amendment]

CHAPTER I

Article 1 (Purpose)The purpose of this Act is to promote the protection of victims and the sound development of oil shipment by clearly identifying liability of the shipowners and establishing the system guaranteeing compensation for oil pollution damage, in cases of pollution damage by oil spilled or discharged from ships, including oil tankers, etc.

Article 2 (Definitions)The terms used in this Act shall be defined as follows:

1. The term "oil tanker" means any sea-going vessel (including a barge) of any type whatsoever constructed or adapted for the carriage of oil in bulk as cargo: Provided, That a ship capable of carrying oil or other cargo shall be deemed an oil tanker under this Act only when it is actually carrying oil in bulk as cargo, or it is proved that it has residues of such carriage of oil in bulk aboard;

2. The term "general vessel" means any ship, except oil tankers and oil storage barges;

3. The term "oil storage barge" means a ship used for oil storage which is a floating maritime structure under subparagraph 1 of Article 2 of the Ship Safety Act;

4. The term "shipowner" means a person under the following classifications:

(a) Oil tankers and general vessels: Any person registered as the owner of a ship under Article 8 (1) of the Ship Act, Article 13 (1) of the Fishing Vessels Act, or foreign statutes (in the absence of registration, any person who owns an oil tanker or general vessel): Provided, That in cases of a ship owned by a foreign government, any corporation or association in that country registered as the operator of the oil tanker or general vessel shall be deemed the shipowner under this Act, and in cases of an oil tanker or general vessel of foreign registry chartered by a national of the Republic of Korea, both the person registered as the owner of the ship and the charterer shall be deemed the shipowners under this Act;

- (b) Oil storage barges: Any person who owns or rents an oil storage barge;
5. The term "oil" means any persistent hydrocarbon mineral oil such as crude oil, heavy oil, lubricating oil, etc. whether carried on board a ship as cargo or in the bunkers of such a ship, as prescribed by Presidential Decree;
6. The term "fuel oil" means hydrocarbon mineral oil that is used or can be used for operation or propulsion of a ship including lubricating oil.
7. The term "oil pollution damage" means the following damage or costs caused by an oil tanker, general vessel and/or oil storage barge:
- (a) Loss or damage caused outside the ship by contamination resulting from the spillage or discharge of oil from a ship, wherever such spillage or discharge may occur: Provided, That compensation for environmental damage, other than the loss of profit from such damage, shall be limited to the costs incurred for measures taken or to be taken for the recovery thereof;
- (b) The costs of preventive measures;
- (c) Additional loss or damage caused by preventive measures;
8. The term "incident" means any occurrence or a series of occurrences having the same origin, which causes oil pollution damage or creates a grave and imminent threat of causing such damage;
9. The term "preventive measure" means any and all reasonable measures taken by any party or a third party after an incident has occurred to prevent or mitigate oil pollution damage;
10. The term "insurer, etc." means any person who compensates the damage of the shipowner or guarantees the performance of compensatory obligation under an indemnity contract for compensation for oil pollution damage as provided for in this Act;
11. The term "limited claim" means any claim against the shipowner or the insurer, etc., for which such owner or insurer, etc. may limit his/her liability under this Act;
12. The term "beneficiary obligor" means any person who is an obligor to the limited claim in the relevant procedure for limiting liability, other than the person who applies for the initiation of the procedure for limiting liability;
13. The term "Liability Convention" means the International Convention on Civil Liability for Oil Pollution Damage, 1992;
14. The term "International Fund Convention" means the International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage, 1992;
15. The term "International Fund" means the International Fund for Compensation for oil pollution damage under Article 2 (1) of the International Fund Convention.
16. The term "Additional Fund Convention" means the Protocol of 2003 to the International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage, 1992;
17. The term "Additional Fund" means the international fund for compensation for oil pollution damage under Article 2 (1) of the Additional Fund Convention;
18. The term "Bunker Oil Convention" means the International Convention on Civil Liability

for Bunker Oil Pollution Damage, 2001.

Article 3 (Scope of Application)This Act shall apply to oil pollution damage caused in the territory (including the territorial sea: hereinafter the same shall apply) of the Republic of Korea and in the exclusive economic zone of the Republic of Korea: Provided, That this Act shall apply to preventive measures wherever taken to prevent or mitigate such oil pollution damage in the territory of the Republic of Korea and in the exclusive economic zone of the Republic of Korea.

Article 4 (Tonnage of Ships)The term "gross tonnage" referred to in this Act means the international gross tonnage pursuant to Article 3 (1) 1 of the Ship Act as to ships engaged in international voyages, and the gross tonnage pursuant to subparagraph 2 of the same paragraph of the same Article As for other cases.

CHAPTER II OIL TANKERS

SECTION 1 Liability of Oil Tankers for Oil Pollution Damage

Article 5 (Liability of Oil Tankers for Oil Pollution Damage)(1) Where an oil tanker causes oil pollution damage, the owner of the oil tanker as at the time of the incident shall be liable for the damage: Provided, That this provision shall not apply if the oil pollution damage falls under any of the following subparagraphs:

1. The incident is a result of an event of force majeure, such as war, insurrection, riot or an act of God;
2. The incident is wholly caused with intent to cause damage by a third party, other than the owner of the oil tanker or his/her employee;
3. The incident is wholly caused due to any defect in the maintenance of navigational marks or navigational aids by the State or a public organization.

(2) When an incident involving two or more oil tankers occurs, and it is uncertain that the oil pollution damage is caused by oil spilled or discharged from any particular ship, the owners of all the oil tankers concerned shall be jointly and separately liable for all such damage: Provided, That if the oil pollution damage falls under any of the subparagraphs of paragraph (1), the owner of the oil tanker concerned shall not be held liable for the damage.

(3) Where oil pollution damage is caused by a series of occurrences, the owner of the oil tanker as at the time of the first occurrence shall be deemed the shipowner at the time of the incident.

(4) Where pollution damage is caused by a ship of foreign registry chartered by a national of the Republic of Korea, the owner and the charterer of the oil tanker shall be jointly and separately liable for such damage.

(5) No claim for compensation under Chapter 2 of this Act may be made against any person falling under any of the following subparagraphs: <Amended by Act No. 11757, Apr. 5, 2013>

1. The agents, employees, or crew members of the owner of the oil tanker;
2. The pilot or any other person who, without being a member of the crew, performs services for the ship;
3. Any charterer (excluding a hull charterer under the proviso to item (a) of subparagraph 4

of Article 2), manager or operator of the oil tanker;

4. Any person performing salvage operations with the consent of the owner of the oil tanker or on the instructions of a competent public authority;

5. Any person taking preventive measures;

6. Any agent or employee of a person falling under any of subparagraphs 3 through 5.

(6) The shipowner who compensates for oil pollution damage caused by an oil tanker may exercise the right to indemnity from any third party related to the incident: Provided, That the exercise of the right to indemnity from any person falling under any subparagraph of paragraph (5) shall be limited to damage caused deliberately, or resulting from his/her personal act or omission committed recklessly with knowledge that such damage would probably result.

Article 6 (Consideration of Liability) Where oil pollution damage by an oil tanker is caused by the victims' willful intention or negligence, the court shall take such information into consideration when deciding upon liability for and the amount of compensation.

Article 7 (Limitation of Liability of Shipowner)(1) The owner of an oil tanker (including partners with unlimited liability in cases of a corporation) who is liable to compensate for oil pollution damage caused by an oil tanker under the main sentence, other than the subparagraphs of Article 5 (1) or the main sentence of paragraph (2) of the same Article, may limit liability for compensation for oil pollution damage caused by said oil tanker in accordance with the provisions of this Act: Provided, That this provision shall not apply to cases where oil pollution damage caused by the oil tanker resulting from his/her act committed with intent to cause such damage, or from act or omission committed recklessly with knowledge that such damage would probably result.

(2) Any owner of an oil tanker who intends to limit liability for oil pollution damage under the main sentence of paragraph (1) shall make an application for the initiation of the procedure for limiting liability to the court under Article 9 of the Act on the Procedure for Limiting the Liability of Shipowners, etc. within six months from the date when he/she receives a written claim for compensation by the claimant, which states the amount exceeding the limit of liability under Article 8.

Article 8 (Aggregate Amount of Liability)(1) Where the owner of an oil tanker is able to limit his/her liability under the main sentence of Article 7 (1), the aggregate amount of liability shall be as follows:

1. For an oil tanker with the gross tonnage not exceeding 5,000 units of tonnage: the amount equivalent to 4.51 million units of account;

2. For an oil tanker with the gross tonnage in excess of 5,000 units, the amount calculated by multiplying each additional unit of tonnage by 631 units of account shall be added to the amount mentioned in subparagraph 1, within the limit of the aggregate amount corresponding to 89.77 million units of account.

(2) The "units of account" referred to in paragraph (1) is the Special Drawing Right as defined by the International Monetary Fund, and the calculation of units of account in terms of the

Korean currency shall be made in accordance with the provisions of Article 11 (2) of the Act on the Procedure for Limiting the Liability of Shipowners, etc.

Article 9 (Scope of Limitation of Liability)For each oil tanker, the shipowner's limit of liability shall extend to all limited claims against the shipowner, the insurer, etc. related to the same incident involving the said ship.

Article 10 (Ratio of Payment for Limited Claimant)When the owner of an oil tanker limits his/her liability in accordance with Article 7, a limited claimant shall be paid according to the ratio of the amount of limited claims.

Article 11 (Extinction of Rights)Rights to claim for damages against the owner of an oil tanker under Article 5 (1) or (2) shall be extinguished unless a judicial claim is brought within three years from the date the oil pollution damage occurred, or within six years from the date of the initial incident which caused the oil pollution damage.

Article 12 (Jurisdiction over Actions for Compensation for Oil Pollution Damage against Owners of Oil Tankers)Any action against the owner of an oil tanker shall fall under the jurisdiction of the court prescribed by the Supreme Court Regulations unless its jurisdiction has been determined by other Acts.

Article 13 (Validity of Foreign Judgments)(1) Any final and conclusive judgment rendered by a foreign court with jurisdiction on an action seeking compensation for oil pollution damage caused by an oil tanker shall be valid under Article 9 (1) of the Liability Convention except in the following cases:

1. Where the judgment was obtained by fraud;
2. Where the defendant was not served with a summon or order necessary for the initiation of the trial, or was not given a fair opportunity to present his/her case.

(2) In the application of Article 27 (2) of the Civil Execution Act concerning execution of the final and conclusive judgment under paragraph (1), the phrase "when the foreign judgment fails to fulfill the conditions under Article 217 of the Civil Procedure Act" in the subparagraph 2 of the same paragraph shall be construed as "when the foreign judgment falls under any subparagraph of Article 13 (1) of the Compensation for Oil Pollution Damage Guarantee Act."

SECTION 2 Indemnity Contract for Compensation for Oil Pollution Damage by Oil Tankers

Article 14 (Conclusion of Indemnity Contract)(1) The owner of an oil tanker registered in the Republic of Korea and carrying not less than 200 tons of oil in bulk as cargo shall conclude an indemnity contract for compensation for oil pollution damage (hereinafter referred to as "indemnity contract").

(2) The owner of an oil tanker, other than those registered in the Republic of Korea, which carries not less than 200 tons of oil in bulk as cargo and enters or leaves a domestic port, or uses domestic mooring facilities, shall conclude an indemnity contract.

(3) The Minister of Oceans and Fisheries may order any oil tanker in violation of paragraph (1) to suspend its navigation and operation. <Amended by Act No. 11690, Mar. 23, 2013>

(4) The Minister of Oceans and Fisheries may refuse any oil tanker which violates paragraph (2) to enter or leave a domestic port or may refuse to permit it to use domestic mooring facilities. <Amended by Act No. 11690, Mar. 23, 2013>

Article 15 (Indemnity Contracts)(1) Any indemnity contract shall be an insurance contract which compensates the damage suffered by the owner of an oil tanker due to fulfillment of his/her obligations for compensation, or a contract which guarantees the fulfillment of his/her obligation for compensation, where the owner of an oil tanker is liable to compensate for oil pollution damage caused by oil on board the ship.

(2) The owner of an oil tanker shall conclude an indemnity contract with an insurer, etc. prescribed by Ordinance of the Ministry of Oceans and Fisheries who has financial capability to compensate the damage of the owner of an oil tanker or guarantee the fulfillment of his/her obligation to compensate for damage. <Amended by Act No. 11690, Mar. 23, 2013>

(3) The insured amount or the amount to guarantee the fulfillment of compensatory obligation under the indemnity contract concluded under paragraph (2) may not be less than the amount of liability provided for by Article 8 for each oil tanker.

(4) An indemnity contract shall be one which may lose its validity or alter its contents only when it falls under Article 7 (5) of the Liability Convention.

Article 16 (Claims for Compensation against Insurers, etc.)(1) A victim suffering oil pollution damage caused by an oil tanker may directly make claims against the insurer, etc. that concluded the indemnity contract with the owner of the oil tanker: Provided, That in cases of damage resulting from the intentional misconduct of the owner of the oil tanker, this provision shall not apply.

(2) The insurer, etc. may assert against the victim only those defenses which the owner of an oil tanker may assert against the victim.

(3) The provisions of Articles 5 (6) and 7 through 11 shall apply mutatis mutandis to compensation for damage by the insurers, etc.

Article 17 (Jurisdiction of Claims for Compensation for Pollution Damage against Insurers, etc.)A victim who files a claim for compensation for damage under the main sentence of Article 16 (1) may also institute an action against the insurer, etc. with the court having jurisdiction under Article 12.

Article 18 (Certificate of Indemnity Contract)(1) The Minister of Oceans and Fisheries shall issue a document (hereinafter referred to as "certificate of indemnity contract") attesting that an oil tanker (excluding oil tankers of foreign registration which are Contracting States to the Liability Convention) has concluded an indemnity contract in cases where the owner of the oil tanker who has concluded the indemnity contract with an insurer, etc. applies for such document. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Any person who intends to obtain a certificate of indemnity contract under paragraph (1) shall submit an application stating the name of the ship, type of indemnity contract, and other matters determined by Ordinance of the Ministry of Oceans and Fisheries to the Minister of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

(3) The application, issuance, re-issuance, period of validity, fees and other necessary matters concerning the certificate of indemnity contract shall be prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

Article 19 (Alteration of Entries in Certificate of Indemnity Contracts)(1) Any person who has been issued a certificate of indemnity contract shall, in cases of alteration of an entry in the certificate, report such altered matters to the Minister of Oceans and Fisheries within 15 days from the date of such alteration. <Amended by Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall, upon receipt of a report under paragraph (1), issue a new certificate of indemnity contract to the reporter. <Amended by Act No. 11690, Mar. 23, 2013>

Article 20 (Keeping of Certificates of Indemnity Contracts)(1) Any oil tanker of the Republic of Korea carrying not less than 200 tons of oil in bulk as cargo shall keep a certificate of indemnity contract on board.

(2) Any oil tanker, other than those of the Republic of Korea's registry, that carries not less than 200 tons of oil in bulk as cargo and enters or leaves a domestic port, or uses the domestic mooring facilities shall keep a document of the form described by the Annex to the Liability Convention by which any foreign Contracting State to the contract attests that any indemnity contract for such ship has been concluded, or a document filled out and issued by any foreign country under Article 7 (12) of the Liability Convention with respect to the ship.

SECTION 3 Claims, Contributions, etc. in respect of International Fund

Article 21 (Claims for Compensation by Victims from International Fund)Any victim suffering oil pollution damage caused by an oil tanker may claim for compensation under Article 4 (1) of the International Fund Convention in respect of the amount of compensation for damage the person has been unable to receive from the shipowner or the insurer, etc. of the oil tanker under the terms of the International Fund Convention.

Article 22 (Intervention by International Fund)(1) Where any action against the owner of an oil tanker or the insurer, etc. is pending, the International Fund may intervene in an action as a party.

(2) Article 79 of the Civil Procedure Act shall apply mutatis mutandis to cases under paragraph (1).

Article 23 (Notification of Litigation to International Fund)(1) Any party may notify the International Fund that a claim is pending.

(2) Article 85 of the Civil Procedure Act shall apply mutatis mutandis to cases under paragraph (1).

Article 24 (Jurisdiction over Claims to International Fund)(1) With respect to the jurisdiction over a claim to the International Fund for compensation under Article 4 (1) of the International Fund Convention, Article 17 shall apply mutatis mutandis.

(2) Notwithstanding the jurisdiction under paragraph (1), where a claim for compensation for damage to the owner of an oil tanker or the insurer, etc. is pending in the court of the first instance, or where a liability limitation case is pending, such court shall have exclusive

jurisdiction over any claim for compensation for damage to the International Fund concerning the same pollution damage.

Article 25 (Validity of Foreign Judgments) Article 13 shall apply mutatis mutandis to the validity of a final and conclusive judgement rendered by a foreign court with jurisdiction under Article 7 (1) or (3) of the International Fund Convention.

Article 26 (Report of Quantity of Contributing Oil)(1) Any person (hereinafter referred to as "oil receiver") who receives oil determined by Presidential Decree which is carried by sea and discharged into Korea (hereinafter referred to as "contributing oil") shall report the quantity of oil received to the Minister of Oceans and Fisheries in the next year as prescribed by Ordinance of the Ministry of Oceans and Fisheries, in cases where the aggregate quantity of contributing oil received in that year exceeds 150,000 tons. In such cases, any person who receives contributing oil on behalf of others, such as the owner of a leased tank, shall not be deemed the oil receiver, but any person who has another person receive contributing oil shall be deemed the oil receiver. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Where any person governs the business activities of oil receivers, such person shall report the quantity of oil received by each oil receiver to the Minister of Oceans and Fisheries in the next year, as prescribed by Ordinance of the Ministry of Oceans and Fisheries when the annual aggregate quantity of contributing oil (the aggregate quantity added by the person governing the business activities of the oil receiver where he/she has received contributing oil) received by the oil receiver exceeds 150,000 tons. In such cases, paragraph (1) shall not apply to any of the oil receiver. <Amended by Act No. 11690, Mar. 23, 2013>

(3) The scope of any person who governs the business activities of oil receivers under paragraph (2) shall be prescribed by Presidential Decree.

Article 27 (Communication of Data to International Fund)(1) The Minister of Oceans and Fisheries shall, upon receipt of a report under Article 26 (1) or (2), notify the Minister of Trade, Industry and Energy of the details of the report and submit a document stating the matters provided for in Article 15 (2) of the International Fund Convention to the International Fund. <Amended by Act No. 11690, Mar. 23, 2013>

(2) The Minister of Oceans and Fisheries shall, where he/she submits the document to the International Fund under paragraph (1), inform the oil receivers stated therein of the quantity of contributing oil notified to the International Fund. <Amended by Act No. 11690, Mar. 23, 2013>

Article 28 (Payment of Contributions)(1) Any oil receiver, or a person governing the business activities of oil receiver who is to report the quantity of contributing oil under Article 26 (1) or (2) shall pay contributions (hereinafter referred to as "contributions") under Article 10 of the International Fund Convention to the International Fund in accordance with Articles 12 and 13 of the International Fund Convention.

(2) Where any person (hereinafter referred to as "obligated payer") who is liable to pay contributions under paragraph (1) falls into arrears, he/she shall pay interest at a rate determined by the General Assembly of the International Fund, in addition to the

contributions in arrears.

Article 29 (Notice of Demand for Defaulters of Contributions)Where any obligated payer falls into arrears, the Minister of Oceans and Fisheries shall demand the person to pay the contributions. <Amended by Act No. 11690, Mar. 23, 2013>

SECTION 4 Claims, Contributions, etc. in respect of Additional Fund

Article 30 (Claims for Compensation by Victims from Additional Fund)Any victim suffering oil pollution damage caused by an oil taker may claim for compensation under Article 4 (1) of the Additional Fund Convention from the Additional Fund under the terms of the Additional Fund Convention in respect of the oil pollution damage exceeding the compensation limit of the International Fund.

Article 31 (Application Mutatis Mutandis)With regard to any claim for compensation from the Additional Fund under Article 30, and any contribution, etc., Section 3 (excluding Article 21) shall apply mutatis mutandis. In such cases, "the International Fund" in Articles 22 through 24 and 28 shall be construed as "the Additional Fund"; "Article 4 (1) of the International Fund Convention" in Article 24 (1) as "Article 4 (1) of the Additional Fund Convention"; "Article 7 (1) or (3) of the International Fund Convention" in Article 25 as "Article 7 of the Additional Fund Convention"; "Article 15 (2) of the International Fund Convention" in Article 27 (1) as "Article 13 (1) of the Additional Fund Convention"; "Articles 12 and 13 of the International Fund Convention" in Article 28 (1) as "Articles 11, 12 (1) and 18 of the Additional Fund Convention"; and "Article 10 of the International Fund Convention" as "Article 10 of the Additional Fund Convention."

SECTION 5 Procedure for Limiting Liability

Article 32 (Application for Initiation of Procedure for Limiting Liability)(1) Any shipowner or insurer, etc. may apply for the initiation of procedure for limiting liability to the court under the Act on the Procedure for Limiting the Liability of Shipowners, etc. in order to place limits on liability for oil pollution damage.

(2) Any case filed for the initiation of procedure for limiting liability (hereinafter referred to as "liability limitation case") under paragraph (1) shall fall under the exclusive jurisdiction of the district court which has jurisdiction over the location where the oil pollution damage by an oil tanker took place.

(3) Any liability limitation case pertaining to preventive measures taken beyond the territory and the exclusive economic zone of the Republic of Korea in order to prevent damage in the territory and in the exclusive economic zone of the Republic of Korea shall fall under the jurisdiction of the court prescribed by the Supreme Court Regulations, if any court jurisdiction has not been determined under paragraph (2).

Article 33 (Transfer of Liability Limitation Cases)The court may transfer ex officio any liability limitation case to any other court jurisdiction, to the court which has universal jurisdiction over the limited claimant, or to the court where the liability limitation case concerning oil pollution damage caused by the same incident is pending, where it is deemed necessary to avoid serious damage or delay.

Article 34 (Order of Deposit)(1) Where the application for the initiation of procedure for limiting liability under Article 32 (1) is deemed appropriate, the court shall order the applicant to deposit the amount equivalent to the aggregate amount of liability under Article 8 plus interest on said amount calculated at an annual interest rate of six percent over the period from the date of the incident, or any other date designated by the court as the initial date, to the due date of deposit within a period not exceeding 14 days.

(2) Article 11 (2) and (3) of the Act on the Procedure for Limiting the Liability of Shipowners, etc. shall apply mutatis mutandis to the calculation of the aggregate amount of liability under paragraph (1), and service of the order for deposit.

(3) Any person applying for the initiation of procedure for limiting liability may submit a written guarantee of deposit in place of cash deposit prescribed in paragraph (1), with permission of the court.

(4) Articles 13 through 15 of the Act on the Procedure for Limiting the Liability of Shipowners, etc. shall apply mutatis mutandis to the document of a written guarantee of deposit prescribed in paragraph (3).

(5) An immediate appeal may be made against any decision referred to in paragraph (1).

Article 35 (Intervention of International Fund)The International Fund may intervene in the procedure for limiting liability, as prescribed by the Supreme Court Regulations.

Article 36 (Notification of Pending Procedure for Limiting Liability to International Fund)(1) Any person who applies for the initiation of procedure for limiting liability, beneficiary obligor, or intervener in the procedure for limiting liability may notify the pending procedure for limiting liability to the International Fund.

(2) Any person who intends to make a notification under paragraph (1) shall submit, to the court, a document stating the matters prescribed by each subparagraph of Article 21 (1) of the Act on the Procedure for Limiting the Liability of Shipowners, etc. applied mutatis mutandis under Article 41.

(3) The court shall serve the document submitted under paragraph (2) upon the International Fund.

Article 37 (Service of Notification, etc. on Cancellation of Decision to Initiate Procedure for Limiting Liability to International Fund)(1) The court shall serve a document stating any alterations in the matters as prescribed in Article 21 (1) of the Act on the Procedure for Limiting the Liability of Shipowners, etc. applied mutatis mutandis under Article 41 after the International Fund intervenes in the procedure or service has been made to the International Fund in accordance with Article 36 (3), and shall serve a document stating matters concerning notification to the International Fund when notification is made in accordance with Article 25 (1), 83 (1) and 85 (1) of the Act on the Procedure for Limiting the Liability of Shipowners, etc. applied mutatis mutandis under Article 41.

(2) Article 8 of the Act on the Procedure for Limiting the Liability of Shipowners, etc. shall apply mutatis mutandis to cases under paragraph (1).

Article 38 (Intervention in Procedure for Limiting Liability by Shipowner Who Takes

Preventive Measures)(1) A shipowner who takes preventive measures may intervene in the procedure for limiting liability as a person with limited claims concerning the expenses of the preventive measures.

(2) Articles 43, 45 and 48 of the Act on the Procedure for Limiting the Liability of Shipowners, etc. shall apply mutatis mutandis to cases under paragraph (1).

Article 39 (Suspension of Legal Proceedings)(1) Where an action between the claimant and the applicant or beneficiary obligor concerning limited claims reported under Article 43 of the Act on the procedure for Limiting the Liability of Shipowners, etc. applicable mutatis mutandis under Article 41, is pending, the court may order the suspension of legal proceedings ex officio or upon request by a plaintiff in cases of intervention in the procedure or receipt of the notification under Article 23 (1) by the International Fund, and in other cases the court may suspend the proceedings, upon request by a plaintiff.

(2) Where a report referred to in Article 43 of the Act on the Procedure for Limiting the Liability of Shipowners, etc. applicable mutatis mutandis under Article 38 (2) is made, the court may order ex officio the suspension of legal proceedings when a claim to the International Fund for compensation under Article 4 (1) of the International Fund Convention is pending.

(3) In cases under paragraph (1), when the court orders the suspension of legal proceedings upon request by the plaintiff, the court may cancel the suspension order upon request by the plaintiff.

Article 40 (Intervention, etc. of Additional Fund)@Articles 35 through 37, and Article 39 shall apply mutatis mutandis to matters such as intervention of the Additional Fund for limiting liability and notification of pending procedures for limiting liability to the Additional Fund. In such cases, the term “International Fund” in Articles 35 through 37, and 39 shall be construed as “Additional Fund,” and the term “International Fund Convention” in Article 39 (2) as “Additional Fund Convention.”

Article 41 (Application Mutatis Mutandis of the Act on the Procedure for Limiting Liability for Shipowners, etc.)The provisions of the Act on the Procedure for Limiting the Liability of Shipowners, etc. in addition to this Act shall apply mutatis mutandis to the procedure for limiting liability under this Act. In such case, "this Act" in Articles 4, 6 through 8, 27, 34 and 88 of the Act on the Procedure for Limiting the Liability of Shipowners, etc. shall be construed as "this Act made applicable mutatis mutandis under Article 41 of the Compensation for Oil Pollution Damage Guarantee Act." "The total amount of limited claims (excluding interest or delay penalty after the occurrence of the fact giving rise to them, or claims including penalty for breach of contract, etc. The same shall apply to subparagraph 1 of Article 18.) under Article 770 (1) of the Commercial Act exceeds the corresponding maximum amount of liability" in Article 10 of the same Act shall be construed "the amount of limited claims exceeds the maximum amount of liability of Article 8 of the Compensation for Oil Pollution Damage Guarantee Act." "Maximum amount of liability under each subparagraph of Article 770 (1) and (4) of the Commercial Act" in Article 11 (1) of the same Act shall be construed as "maximum amount of liability under Article 8 of the Compensation

for Oil Pollution Damage Guarantee Act," and "Article 776 (1) of the Commercial Act" in Article 17 (1) of the same Act shall be construed as "Article 7 (2) of the Compensation for Oil Pollution Damage Guarantee Act." "Article 770 (1) of the Commercial Act" in subparagraph 1 of Article 18 of the same Act shall be construed as "Article 8 (1) of the Compensation for Oil Pollution Damage Guarantee Act," and "proviso to Article 769 or the reasons of each subparagraph of Article 773 of the Commercial Act" in subparagraph 2 of the same Article shall be construed as "proviso to Article 7 (1) of the Compensation for Oil Pollution Damage Guarantee Act." "The content and assorting of limited claims under Article 770 (1) of the Commercial Act" in Articles 53, 56 and 57 (2) of the same Act shall be construed as "the content." "The next, according to the assorting of limited claims under each subparagraph of Article 770 (1) of the Commercial Act" in Article 66 (2) of the same Act shall be construed as "the next."

Article 42 (Supreme Court Regulations)Matters necessary for the procedure for limiting liability under this Act, other than those prescribed in this Act, shall be provided for by the Supreme Court Regulations.

CHAPTER III GENERAL VESSELS AND OIL STORAGE BARGES

SECTION 1 Liability of General Vessels and Oil Storage Barges for Oil Pollution Damage

Article 43 (Liability of General Vessels for Oil Pollution Damage)(1) The owner of a general vessel shall be liable for oil pollution damage caused by fuel oil from the general vessel: Provided, That this provision shall not apply if the oil pollution damage caused by fuel oil from the general vessel falls under any subparagraph of Article 5 (1). <Amended by Act No. 11757, Apr. 5, 2013>

(2) As for the liability of a general vessel for oil pollution damage caused by fuel oil from the general vessel, Article 5 (2) through (4), main sentence of paragraph (6) of the same Article and Article 6 shall apply mutatis mutandis. In such cases, "oil tanker" shall be deemed "general vessels," "oil" shall be deemed "fuel oil," and "the owner of an oil tanker" shall be deemed "the owner of a general vessel." <Amended by Act No. 11757, Apr. 5, 2013>

(3) As for the rights to claim for damage to the owners of general vessels, Article 11 shall apply mutatis mutandis. In such cases, the "owner of an oil tanker" shall be construed as the "owner of a general vessel."

Article 44 (Liability of Oil Storage Barges for Oil Pollution Damage)(1) The owner of an oil storage barge shall be liable for oil pollution damage caused by oil from the oil storage barge: Provided, That this provision shall not apply if the oil pollution damage falls under any subparagraph of Article 5 (1).

(2) As for the liability for oil pollution damage caused by oil storage barges, Article 5 (2) through (4), main sentence of paragraph (6) of the same Article and Article 6 shall apply mutatis mutandis. In such cases, "oil tanker" shall be deemed "oil storage barge," and "the owner of an oil tanker" shall be deemed "the owner of an oil storage barge."

(3) As for the rights to claim for damage to the owners of oil storage barges, Article 11 shall

apply mutatis mutandis. In such cases, the "owner of an oil tanker" shall be construed as the "owner of an oil storage barge."

Article 45 (Limitation of Liability of Owners of General Vessels)@Articles 9 and 10 shall apply mutatis mutandis, and Articles 769, 770 (1) and 771, subparagraph 4 of Article 773, and Articles 774 through 776 of the Commercial Act shall apply, to limitation of liability of the owner of a general vessel (including partners with unlimited liability such as the corporate owner of a general vessel) who is liable for compensation for oil pollution damage caused by fuel oil from a general vessel. Where Articles 9 and 10 apply mutatis mutandis, the term "oil tanker" shall be construed as "general vessel." <Amended by Act No. 11757, Apr. 5, 2013>

Article 46 (Limitation of Liability of Owners of Oil Storage Barges)@Articles 7 through 10, 32 through 34, 38, 39 and 40 shall apply mutatis mutandis to limitation of liability of the owner of an oil storage barge (including partners with unlimited liability such as the corporate owner of an oil storage barge) who is liable for compensation for oil pollution damage caused by fuel oil from an oil storage barge. In such cases, the term "oil tanker" shall be construed as "oil storage barge."

SECTION 2 Indemnity Contract for Compensation for Oil Pollution Damage by General Vessels and Oil Storage Barges

Article 47 (Conclusion of Indemnity Contracts)(1) The owner of the following vessels shall enter into an indemnity contract for compensation for oil pollution damage (hereinafter referred to as "indemnity contract for damage compensation") in order to guarantee the liability of compensation for oil pollution damage under the main sentences of Articles 42 (1) and Article 44 (1): <Amended by Act No. 11757, Apr. 5, 2013>

1. A general vessel (excluding general vessels prescribed by Ordinance of the Ministry of Oceans and Fisheries, not loaded with fuel oil) of a gross tonnage of over 1,000, registered in the Republic of Korea;

2. An oil storage barge storing more than 200 tons of oil.

(2) The owner of a general vessel of more than 1,000 gross tonnage which is registered in a foreign country and enters or leaves a domestic port, or uses domestic mooring facilities shall conclude an indemnity contract for damage compensation.

(3) The Minister of Oceans and Fisheries may order any general vessel in violation of paragraph (1) to suspend its navigation and operation. <Amended by Act No. 11690, Mar. 23, 2013>

(4) The Minister of Oceans and Fisheries may refuse any general vessel which violates paragraph (2) to enter or leave a domestic port or may refuse to permit it to use domestic mooring facilities. <Amended by Act No. 11690, Mar. 23, 2013>

Article 48 (Indemnity Contract for Damage Compensation)(1) Any indemnity contract for damage compensation shall be an insurance contract which compensates damage suffered by the owner of a general vessel or oil tanker by fulfilling his/her obligation of compensation, or a contract which guarantees the fulfillment of his/her obligation of compensation, where

the shipowner is liable to compensate for oil pollution damage caused by the relevant vessel.

(2) As for the insurer, etc. with whom the owner of a general vessel or oil tanker may conclude an indemnity contract for damage compensation, Article 15 (2) shall apply mutatis mutandis. In such cases, "the owner of an oil tanker" shall be deemed "the owner of a general vessel or oil storage barge."

(3) The amount of the indemnity contract for damage compensation may not be less than each of the following subparagraphs.

1. The amount of insurance to compensate the damage suffered by the owner of a general vessel (including indirect damage resulting from oil pollution damage), or the amount to guarantee the fulfillment of compensatory obligation may not be less than the amount of liability provided for by Article 770 (1) 3 of the Commercial Act for each general vessel.

2. The amount of insurance to compensate the damage suffered by the owner of an oil storage barge (including indirect damage resulting from oil pollution damage), or the amount to guarantee the fulfillment of compensatory obligation may not be less than the amount of liability provided for by Article 8 for each oil storage barge.

Article 49 (Application Mutatis Mutandis)(1) As for the indemnity contract for damage compensation and the compensation for damage against the insurers, etc. of general vessels and oil storage barges, Articles 16 through 19 shall apply mutatis mutandis. In such cases, "oil tanker" shall be deemed "general vessel or oil storage barge," and "indemnity contract" shall be deemed "indemnity contract for damage compensation." "The owner of an oil tanker" shall be deemed "the owner of a general vessel or oil storage barge," and "any foreign Contracting State of the Liability Convention" shall be deemed "any foreign Contracting State of the Bunker Convention. <Amended by Act No. 11757, Apr. 5, 2013>

(2) Article 13 shall apply mutatis mutandis to a final and conclusive judgement on an action, seeking compensation for oil pollution damage caused by fuel oil from a general vessel, tried by a foreign court with jurisdiction under Article 9 (1) of the Bunker Convention. <Newly Inserted by Act No. 11757, Apr. 5, 2013>

Article 50 (Keeping of Certificate of Indemnity Contract for Damage Compensation)(1) Any general vessel of more than 1,000 gross tonnage registered in the Republic of Korea shall keep a certificate of an indemnity contract for damage compensation on board.

(2) Any oil storage barge shall keep a certificate of an indemnity contract for damage compensation on board or in the main office of the owner of the oil storage barge.

(3) Any general vessel of more than 1,000 gross tonnage registered in a foreign country which enters or leaves a domestic port, or intends to use domestic mooring facilities shall keep an indemnity contract for damage compensation on board

CHAPTER IV SUPPLEMENTARY PROVISIONS

Article 51 (Priority Rights of Ship)(1) As for the oil pollution damage of oil tankers, general vessels, and oil storage barges, limited claimants shall have priority rights upon the incident ship, parts and uncollected freight charges concerning limited claims.

(2) The priority rights under paragraph (1) shall follow rights under Article 777 (1) 4 of the

Commercial Act.

(3) Articles 777 through 786 of the Commercial Act shall apply mutatis mutandis to the priority rights under paragraph (1).

Article 52 (Effect of Limitation of Liability in Foreign Contracting State)(1) Where a limitation of liability is set in a foreign contracting state to the Liability Convention under subparagraph 3 of Article 5 of the Liability Convention, no claimant who holds limited claims for compensation from the maximum amount of liability of the shipowner may exercise his/her rights upon the properties of the shipowner or insurer, etc. other than the maximum amount of liability.

(2) Articles 28 through 30 of the Act on the Procedure for Limiting the Liability of Shipowners, etc. shall apply mutatis mutandis to paragraph (1).

Article 53 (Appraisal of Oil Pollution Damage)The requirements to be satisfied by any person who investigates damage caused by oil pollution, calculates the amount of damage and appraises oil pollution damage shall be prescribed by Presidential Decree, if necessary.

Article 54 (Information on Indemnity Contracts)(1) The captain of a specific vessel (an oil tanker used for transporting not less than 200 tons of oil in bulk, or a general vessel of more than 1,000 gross tonnage; The same shall apply hereafter in this Chapter) that intends to enter a domestic port from a port located in a foreign location shall notify the Minister of Oceans and Fisheries of matters prescribed by Ordinance of the Ministry of Oceans and Fisheries, including the name of the specific vessel, port of loading, the indemnity contract under this Act, or whether the indemnity contract for damage compensation has been concluded (hereinafter referred to as "information on indemnity contract") in advance, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. The same shall apply where the information on indemnity contract that has been notified is to be changed. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Notwithstanding paragraph (1), the captain of a specific vessel shall, where the information on indemnity contract is unable to be notified to the Minister of Oceans and Fisheries before entry into the port due to unavoidable reasons, including bad weather, distress, and other reasons prescribed by Ordinance of the Ministry of Oceans and Fisheries, notify the information on indemnity contract immediately after entry into the port, as prescribed by Ordinance of the Ministry of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

(3) The notification of the information on indemnity contract under paragraphs (1) and (2) may be conducted by the owner of the specific vessel concerned or his/her agent.

Article 55 (Entrance and Exit for Inspections, Reports, etc.)(1) The Minister of Oceans and Fisheries may, when he/she deems necessary, order the presentation of pertinent documents under Articles 20, 26 or 50, or have public officials under his/her control enter the ship or the place of business and inspect or verify pertinent documents. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Where a shipowner submits a copy of the certificate of the indemnity contract and other

pertinent documents provided in Article 20 (1) or 50 (1), he/she shall be deemed to have had his/her ship or workplace inspected by means of entrance and exit pursuant to paragraph (1): Provided, That when any question is raised about the submitted documents as a result of their examination, public officials under his/her control may be ordered to enter the ship for further inspection.

(3) The Minister of Oceans and Fisheries may operate a computerized processing system in order to select ships to be subject to an inspection referred to in paragraphs (1) and (2), announce their inspections in advance, and inquire about the results of their inspections. <Amended by Act No. 11690, Mar. 23, 2013>

(4) Where the public officials enter and exit ships in order to inspect such ships pursuant to paragraphs (1) and (2), the relevant places of business and shipowners shall be notified by the Minister of Oceans and Fisheries of matters concerning inspectors, the inspection date, reasons for and contents of the inspection not later than seven days before the inspection is conducted and in advance, respectively, and the relevant places of business and shipowners shall be notified by the Minister of Oceans and Fisheries of the results of the inspection after the inspection is completed: Provided, That the same shall not apply to cases where it is necessary to conduct an inspection urgently, or it is deemed impossible to attain the objectives of the inspection or verification due to evidence destruction, etc. if they are notified of the inspection in advance. <Amended by Act No. 11690, Mar. 23, 2013>

(5) Any public official who intends to carry out the inspection or verification under paragraph (1) shall carry a certificate indicating his/her authority and produce it to related persons.

Article 56 (Ships for Public Use)This Act shall not apply to any ship owned by the Republic of Korea and is offered for public use.

Article 57 (Delegation and Entrustment of Authority)(1) The Minister of Oceans and Fisheries may delegate part of authority under this Act to the heads of affiliated institutions, as prescribed by Presidential Decree. <Amended by Act No. 11690, Mar. 23, 2013>

(2) The duties described in the following subparagraphs may be entrusted to agencies specialized in maritime disaster prevention designated by the Minister of Oceans and Fisheries, as prescribed by Presidential Decree: <Amended by Act No. 11690, Mar. 23, 2013>

1. Receipt and processing of reports of the quantities of contributing oil received under Article 26 (1) and (2);

2. Notification and presentation of documents under Article 27 (1) and notification of the quantities of contributing oil under paragraph (2) of the same Article;

3. Notice of demand for the payment of contributions under Article 29.

CHAPTER V PENALTY PROVISIONS

Article 58 (Bribery by Manager)(1) Where any manager appointed under Article 20 of the Act on the Procedure for Limiting the Liability of Shipowners, etc. applicable mutatis mutandis under Article 41 or any deputy manager appointed under Article 37 of the Act on the Procedure for Limiting the Liability of Shipowners, etc. accepts, demands or promises a

bribe in connection with his/her duty, such person shall be punished by imprisonment with labor for not more than five years or by a fine not exceeding 50 million won. <Amended by Act No. 12829, Oct. 15, 2014>

(2) In cases under paragraph (1), a bribe taken shall be confiscated. If it is impossible to confiscate all or part of the bribe, its equivalent value shall be collected.

Article 59 (Offer, etc. of Bribe)Any person who promises, offers or expresses his/her intention to offer a bribe under Article 58 (1) shall be punished by imprisonment with labor for not more than three years or by a fine not exceeding 30 million won. <Amended by Act No. 12829, Oct. 15, 2014>

Article 60 (Penalty Provisions)Any person falling under any of the following subparagraphs shall be punished by imprisonment with labor for not more than three years or by a fine not exceeding 30 million won: <Amended by Act No. 12829, Oct. 15, 2014>

1. Any person who fails to conclude an indemnity contract, in violation of Article 14 (1) or Article 47 (1);
2. Any person who enters and leaves a domestic port or uses domestic mooring facilities without concluding the indemnity contract, in violation of Article 14 (2) or Article 47 (2);
3. Any person who has a certificate of the indemnity contract issued or reissued under Article 18 (including the cases where the provision is applied mutatis mutandis under Article 49) by fraud or other fraudulent means.

Article 61 (Penalty Provisions)Any person who fails to report or reports falsely, or who fails to submit documents or submits false documents, upon being requested for report or submission of documents under Article 34 (2) of the Act on the Procedure for Limiting the Liability of Shipowners, etc. applicable mutatis mutandis under Article 41, shall be punished by imprisonment with labor for not more than one year or by a fine not exceeding ten million won. <Amended by Act No. 12829, Oct. 15, 2014>

Article 62 (Penalty Provisions)Any person falling under any of the following subparagraphs shall be punished by a fine not exceeding five million won:

1. Any person who fails to notify (including notification of change), in violation of Article 54 (1) or who notifies falsely;
2. Any person who fails to notify, in violation of Article 54 (2) or who notifies falsely;
3. Any person who fails to execute an order for submitting pertinent documents without justifiable grounds, in violation of Article 55 (1), or submits pertinent documents falsely;
4. Any person who refuses, interferes with or evades an inspection or verification by public officials of the Ministry without justifiable grounds, in violation of paragraph (1) or proviso to paragraph (2) of Article 55.

Article 63 (Joint Penalty Provisions)Where the representative of a corporation, or an agent or employee of, or any other person employed by, a corporation or individual commits a violation under Articles 60 through 62 in conducting the business affairs of the corporation or individual, in addition to punishing such violator, the corporation or individual shall also be punished by a fine under each relevant Article: Provided, That where the corporation or

individual has not been negligent in giving due attention and supervision in connection with the relevant business affairs to prevent such offense, this shall not apply.

Article 64 (Persons Deemed as Public Officials in Application of Penalty Provisions) Executive officers and employees of agencies specialized in maritime disaster prevention who are engaged in the activities entrusted by the Minister of Oceans and Fisheries under Article 57 (2) shall be deemed public officials for the purpose of the penalty provisions under Articles 129 through 132 of the Criminal Act. <Amended by Act No. 11690, Mar. 23, 2013>

Article 65 (Administrative Fines)(1) Any person falling under any of the following subparagraphs shall be punished by an administrative fine not exceeding five million won:

1. Any person who fails to report or reports falsely, in violation of the provisions of Article 19 (1);
2. Any person who fails to keep a certificate on board, in violation of Article 20 (1) or Article 50 (1);
3. Any person who enters and leaves a domestic port or uses domestic mooring facilities without keeping a certificate, etc. on board, in violation of Article 20 (2) or Article 50 (3);
4. Any person who fails to report under Article 26 (1) or (2), or reports falsely;
5. Any person who fails to keep a certificate in the oil storage barge or in the main office of the owner of the oil storage barge, in violation of Article 50 (2).

(2) Administrative fines under paragraph (1) shall be imposed and collected by the Minister of Oceans and Fisheries (referring to the head of an institution delegated with the authority if such authority has been delegated under Article 57 (1)), as prescribed by Presidential Decree. <Amended by Act No. 11690, Mar. 23, 2013>

ADDENDA (Omitted)

10. Ocean Industry Development Act

[Enforcement Date 17. Mar, 2010.] [Act No.10122, 17. Mar, 2010., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to prescribe matters concerning the ocean industry, thereby contributing to strengthening its competitiveness through the sustainable development of the ocean industry and the responsible management of fisheries and to improving the national economy by facilitating international cooperation and the stable security of marine resources in international waters.

Article 2 (Definitions)

The terms used in this Act shall be defined as follows:

1. The term "ocean industry" means engaging in the operation of the ocean fisheries referred to in subparagraph 2 and any business related to ocean fisheries referred to in subparagraph 3;

2. The term "ocean fisheries" means the business of capturing or collecting marine animals and plants by nationals of the Republic of Korea in international waters on their own or through collaboration with foreign nationals (limited to cases where the capital stock paid by nationals of the Republic of Korea, or their possessed voting rights, exceed criteria prescribed by Presidential Decree; hereinafter the same shall apply);

3. The term "business related to ocean fisheries" means the business of transportation, processing, distribution, sale, etc. of fisheries products produced by ocean fisheries by nationals of the Republic of Korea on their own or through collaboration with foreign nationals and fisheries products produced through investments using methods prescribed by Presidential Decree in a foreign territory (including aquaculture and its subsidiary business);

4. The term "ocean industry operator" means any person engaged in ocean fisheries under subparagraph 2 (hereinafter referred to as "ocean fishery operator") and any person engaged in any business related to ocean fisheries under subparagraph 3 (hereinafter referred to as "business operators related to ocean fisheries");

5. The term "international waters" means East Sea, West Sea, East China Sea, and sea areas excluding the Pacific Ocean areas between north of the 25 degrees north latitude and west of the 140 degrees east longitude;

6. The term "international observer" means any person who engages in embarkation activities to monitor or supervise compliance with international standards for fishing operations or to conduct scientific investigations as designated by the State;

7. The term "illegal, unreported, and unregulated fishing" means any fishing operation in violation of the relevant rules and regulations domestically and internationally and other duties concerning non-licensed fishery or fishing operations, a fishing operation that fails to implement the duty to report or files a false report to relevant countries or international fisheries organizations, or a fishing operation using stateless fishing vessels on the high seas or in the waters under the jurisdiction of international fisheries organizations or fishing operations that are inconsistent with the State responsibilities;

8. The term "coastal state" means a country possessing a coastline.

Article 3 (Relationship with other Acts)

Permission, etc. for ocean fisheries shall be governed by the Fisheries Act, except as otherwise provided for in this Act.

CHAPTER II FORMULATION OF COMPREHENSIVE PLAN FOR DEVELOPMENT OF OCEAN INDUSTRY

Article 4 (Formulation of Comprehensive Plan for Development of Ocean Industry)(1)

The Minister for Food, Agriculture, Forestry and Fisheries shall formulate a comprehensive plan concerning the development of ocean industry (hereinafter referred to as "comprehensive plan for development of ocean industry") as prescribed by Presidential Decree every five years. In such cases, he/she shall hold a prior consultation with the head of the relevant central administrative agency. <Amended by Act No. 8852, Feb. 29, 2008>

(2) A comprehensive plan for the development of ocean industry shall include the following matters:

1. Changes in the environment of marine resources in international waters and outlook therefor;
2. Objectives and strategies of national ocean industry and implementation plans by phase;
3. Matters concerning a planned survey of marine resources in international waters;
4. Matters concerning strengthening the competitiveness of ocean industry, and the advancement of and assistance to ocean industry;
5. Matters concerning the fostering of professional personnel related to ocean industry and the development of relevant technologies;
6. Matters concerning international cooperation with coastal states, international fisheries organizations, etc.;
7. Other matters necessary for the efficient promotion of ocean industry.

(3) The Minister for Food, Agriculture, Forestry and Fisheries shall confirm the comprehensive plan for development of ocean industry following deliberation by the Committee for Deliberation on the Development of Ocean Industry under Article 5 and publicly announce such fact. <Amended by Act No. 8852, Feb. 29, 2008>

(4) Necessary matters concerning the formulation, etc. of the comprehensive plan for the development of ocean industry shall be prescribed by Presidential Decree.

Article 5 (Establishment and Operation of Committee for Deliberation on Development of Ocean Industry)

(1) A Committee for Deliberation on the Development of Ocean Industry (hereinafter referred to as the "Deliberation Committee") shall be established under the control of the Ministry for Food, Agriculture, Forestry and Fisheries the purpose of which shall be to deliberate on the following matters concerning the development of ocean industry: <Amended by Act No. 8852, Feb. 29, 2008>

1. Matters concerning the formulation of a comprehensive plan for the development of ocean industry;
2. Matters concerning the balanced development of ocean industry;
3. Matters concerning decisions on permitted quotas for ocean fisheries;
4. Matters necessary for the structural improvement of ocean fisheries and the strengthening of their competitiveness, and laying the foundation for the development of ocean industry;
5. Matters concerning administrative and financial assistance for the development of ocean industry;
6. Other significant matters concerning the development of ocean industry presented for consideration by the Minister for Food, Agriculture, Forestry and Fisheries.

(2) The Deliberation Committee shall be comprised of no more than 20 members, including one Chairperson.

(3) Members shall be appointed or entrusted by the Minister for Food, Agriculture, Forestry and Fisheries from among the following persons: <Amended by Act No. 8852, Feb. 29, 2008>

1. Public officials at the Director General level of the relevant central administrative agency or other public officials corresponding thereto;
 2. Persons having an abundant knowledge and experience in ocean industry;
 3. Persons recommended by the competent Standing Committee under the control of the National Assembly.
- (4) The Vice Minister for Food, Agriculture, Forestry and Fisheries shall be the Chairperson. <Amended by Act No. 8852, Feb. 29, 2008>
- (5) Members other than public officials shall be a majority of members on the register, and their tenure of office shall be two years, with the possibility of reappointed for an additional term.
- (6) The Chairperson shall be the representative of the Deliberation Committee and shall preside over its business.
- (7) Necessary matters concerning the composition and operation of the Deliberation Committee except as otherwise provided for by this Act shall be prescribed by Presidential Decree.

CHAPTER III OCEAN INDUSTRY

SECTION 1 Permission, etc. for Ocean Fisheries

Article 6 (Fishery Permission and Reporting)(1) A person who intends to engage in ocean fisheries shall obtain the permission of the Minister for Food, Agriculture, Forestry and Fisheries for each fishing vessel. The same shall also apply to any proposed amendment to permitted matters: Provided, That minor matters, as prescribed by Presidential Decree, shall be reported. <Amended by Act No. 8852, Feb. 29, 2008>

(2) A person who intends to engage in ocean fisheries as an overseas local subsidiary established through collaboration with a foreign national shall file a report with the Minister for Food, Agriculture, Forestry and Fisheries. Where such person intends to make any amendments to such reported matters, he/she shall file an amended report. <Amended by Act No. 8852, Feb. 29, 2008>

(3) The types of ocean fisheries that require permission under paragraph (1) shall be prescribed by Presidential Decree, and any necessary matters concerning permission under paragraph (1), amended permission, reporting of minor matters, reporting under paragraph (2), and amended reporting shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

(4) The Minister for Food, Agriculture, Forestry and Fisheries may, where necessary, as determined by considering the state of fisheries resources, the number of ocean fishing vessels, other natural and social conditions, etc., prescribe numerical quotas for permission granted to ocean fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

(5) Necessary matters concerning the numerical quotas of fishery permission under paragraph (4) shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

Article 7 (Restrictions on Permission of Ocean Fisheries)(1) The Minister for Food,

Agriculture, Forestry and Fisheries may, where permission for ocean fisheries granted under Article 6 falls under any of the following subparagraphs, impose restrictions on such permission: <Amended by Act No. 8852, Feb. 29, 2008>

1. Where a resolution concerning resource preservation measures by international fisheries organizations exists;
2. Where permission for ocean fisheries fails to satisfy international standards related to high seas fisheries;
3. Where a request from a coastal state or an international fisheries organization exists;
4. Where necessary for the management, etc. of fisheries resources.

(2) Restrictions concerning fishing areas, age of ships, etc. may, if necessary, be imposed on the fishing vessels allocated when a new permission of ocean fisheries prescribed by Presidential Decree is granted and permitted fishing vessels are changed.

Article 8 (Grounds for Disqualification)

A person falling under any of the following subparagraphs may not receive a permission for ocean fisheries under Article 6 (1). The same shall also apply to cases where a person corresponding thereto from among such executives exists in regard to juristic persons: <Amended by Act No. 9627, Apr. 22, 2009>

1. A person declared incompetent or quasi-incompetent;
2. A person sentenced to imprisonment with prison labor or heavier punishment as declared by a court by reason of violating this Act, the Fisheries Act, or the Fishery Resources Management Act in whose case two years have not passed from the date on which the sentence was completed (including where the execution of such sentence is deemed completed) or the date on which an exemption from such sentence was made definite;
3. A person under the suspension of the execution of imprisonment with prison labor or heavier punishment as declared by a court by reason of violating this Act, the Fisheries Act, or the Fishery Resources Management Act;
4. A person in whose case two years have not passed from the date on which permission is cancelled under Article 11 (1).

Article 9 (Term of Validity of Permission for Ocean Fisheries)

The term of validity of permission for ocean fisheries under Article 6 shall be five years: Provided, That in cases prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries, such as the use of chartered fishing vessels, the term of validity may be reduced. <Amended by Act No. 8852, Feb. 29, 2008>

Article 10 (Discontinuation, etc. of Permission for Ocean Fisheries)(1) Where a person who receives the permission for ocean fisheries under Article 6 discontinues such ocean fishing or becomes incompetent, he/she shall file a report with the Minister for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

(2) Matters concerning reporting of discontinuation under paragraph (1) and procedures thereof, and other necessary matters shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

Article 11 (Cancellation, etc. of Permission for Ocean Fisheries)(1) Where permission for ocean fisheries falls under any of the following subparagraphs, the Minister for Food, Agriculture, Forestry and Fisheries may, cancel such permission of ocean fisheries or order the suspension of ocean fisheries within a period not exceeding six months: Provided, That in cases where an offence under subparagraph 1 is committed, such permission of ocean fisheries shall be cancelled: <Amended by Act No. 8852, Feb. 29, 2008>

1. Where fishery permission is obtained by deceit or other fraudulent means;
2. Where particulars of permission under Article 6 are violated;
3. Where the grounds for disqualification under Article 8 are applicable;
4. Where an ocean fishery operator violates Article 12;
5. Where the matters to be complied with under Article 13 are violated.

(2) Where a person engaged in ocean fisheries violates this Act or orders imposed under this Act, the Minister for Food, Agriculture, Forestry and Fisheries may request the heads of the relevant administrative agencies to cancel or suspend a ship officer license or reprimand the ship officer. <Amended by Act No. 8852, Feb. 29, 2008>

(3) Where any request under paragraph (2) exists, the heads of the relevant administrative agencies shall comply therewith.

(4) The criteria of a disposition under paragraph (1), procedures thereof, and other necessary matters shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

Article 12 (Reporting of Temporary Closure)(1) Where a person who has obtained the permission for ocean fisheries under Article 6 intends to continue to close his/her business for a continuous term exceeding one year, he/she shall fix the period for closure and file a report with the Minister for Food, Agriculture, Forestry and Fisheries in advance, and he/she may not continue such closure for a term exceeding two years. <Amended by Act No. 8852, Feb. 29, 2008>

(2) Where a person who has filed a report under paragraph (1) intends to continue to engage in ocean fisheries before the period of closure reported is complete, he/she shall file a report to the Minister for Food, Agriculture, Forestry and Fisheries in advance. <Amended by Act No. 8852, Feb. 29, 2008>

Article 13 (Matters to be Complied with by Ocean Fishery Operators)(1) Ocean fishery operators shall faithfully conduct fishing operations within the extent of permitted matters, and comply with resolutions concerning resource preservation measures of international fisheries organizations and international standards related to high seas fisheries.

(2) Where ocean fishery operators conduct fishing operations in waters under the jurisdiction of international fisheries organizations or foreign countries, or conduct fishing operations for fish species managed in accordance with international conventions and agreements, they shall comply with the following matters:

1. Prohibitions on illegal, unreported, and unregulated fishing;
2. Prohibitions on transshipment of fish, joint fishing operations, assistance, and re-

- distribution with fishing vessels engaged in illegal, unreported, and unregulated fishing;
3. Guarantees of safety for the execution of duties, such as movement of international observers, embarkation, disembarkation, etc.;
 4. Permission for safe embarkation and disembarkation of port state control inspectors and embarkation inspectors on the high seas, the provision of conveniences, such as accommodation, vessel inspection, and telecommunications;
 5. Compliance with regulations on procedures for transshipment prescribed by international fisheries organizations;
 6. Restrictions on fishing activities for managed fish species;
 7. Faithful preparation and submission of statistical documents.

(3) Matters to be complied with by ocean fishery operators for the sake of the implementation of international conventions, sustainable use of fisheries resources, etc. in addition to matters to be complied with under paragraphs (1) and (2) may be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

(4) Where it is deemed necessary for the sake of resource preservation measures taken by international fisheries organizations, the Minister for Food, Agriculture, Forestry and Fisheries may order ocean fishery operators to cooperate with embarkation inspections or take other necessary measures in accordance with procedures prescribed by international fisheries organizations. <Amended by Act No. 8852, Feb. 29, 2008>

(5) Matters necessary for measures taken under paragraph (4) shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

Article 14 (Port State Control Inspection)(1) Where a ship that loads a catch of fish species that is managed by international fisheries organizations intends to enter a domestic port, it shall submit documents, etc. verifying the name of the fish catch, the quantity thereof, a fish catch certificate, etc. 24 hours before the ship is due to enter the port to the Minister for Food, Agriculture, Forestry and Fisheries as prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. In such case, the Minister for Food, Agriculture, Forestry and Fisheries may direct the relevant public officials to enter the ship and inspect the fish catch, account books, documents or other goods associated with illegal, unreported, and unregulated fishing or ask questions to relevant parties. <Amended by Act No. 8852, Feb. 29, 2008>

(2) Where a relationship with illegal, unreported, and unregulated fishing is confirmed as the result of port state control inspections under paragraph (1), the Minister for Food, Agriculture, Forestry and Fisheries may place an embargo on the relevant ships or impose restrictions on any unloading and transshipment of the fish catch. <Amended by Act No. 8852, Feb. 29, 2008>

(3) Public officials who enter and inspect ships under paragraph (1) shall carry a certificate indicating their authority and show it to relevant parties.

(4) Necessary matters concerning inspection and questioning under paragraph (1), the embargo under paragraph (2), etc. shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

Article 15 (Installation of Vessel Monitoring Systems)(1) A fishing vessel which engages in fishing operations in waters under the jurisdiction of international fisheries organizations or engages in fishing for fish species managed pursuant to international conventions and agreements shall install a vessel monitoring system (including cases where coastal states require the installation of vessel monitoring systems).

(2) Requirements for vessel monitoring systems under paragraph (1), etc. shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

Article 16 (Reporting of Results of Fishing Operations)(1) A person who obtains permission for ocean fisheries shall report the status of the fishing operations of the relevant fishery, the results of fish caught, and the amounts of unloading or sales results to the Minister for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

(2) Where ocean fishery operators and persons engaged in ocean fisheries have violated matters to be complied with under Article 13 internationally, they shall report such fact, the ground therefor, etc. to the Minister for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

(3) The fisheries that are subject to reporting under paragraphs (1) and (2), and other necessary matters concerning reporting, shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

Article 17 (Trial, Research, and Practice Fishing)(1) A person who intends to engage in trial fishing aimed at developing new fishing gear, fishing methods or fishing grounds in international waters (hereinafter referred to as "trial fishing") shall formulate a plan for trial fishing and obtain approval for trial fishing from the Minister for Food, Agriculture, Forestry and Fisheries as prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

(2) Where it is necessary to develop new fishing gear, fishing methods, or fishing grounds in view of the regulations, etc. imposed by international fisheries organizations and coastal states, the Minister for Food, Agriculture, Forestry and Fisheries may request any person who obtains approval for trial fishing to engage in trial fishing through collaboration with trial research institutions. <Amended by Act No. 8852, Feb. 29, 2008>

(3) Where a person intends to engage in research fishing or practice fishing at trial research institutions designated by the Minister for Food, Agriculture, Forestry and Fisheries, institutions for the guidance and dissemination of fisheries technologies, training institutions or educational institutions, he/she may engage in research fishing or practice fishing notwithstanding the provisions of paragraphs (1), (2), and (6). <Amended by Act No. 8852, Feb. 29, 2008>

(4) Trial fishing under paragraphs (2) and (3) or necessary matters concerning research fishing or practice fishing shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

SECTION 2 International Cooperation, and Research and Development

Article 18 (Facilitation of and Assistance to International Fisheries Cooperation Projects)

(1) The Minister for Food, Agriculture, Forestry and Fisheries shall formulate policies to facilitate international fisheries cooperation, such as the establishment of a cooperative system for international fisheries and the securing of marine resources in international waters by an enterprise engaged in ocean industry. <Amended by Act No. 8852, Feb. 29, 2008>

(2) The Minister for Food, Agriculture, Forestry and Fisheries may fully or partially subsidize the necessary expenses incurred in implementing the following international fisheries cooperation projects within the budgetary limits, as prescribed by Presidential Decree: <Amended by Act No. 8852, Feb. 29, 2008>

1. Negotiation with a foreign government and the conclusion of an agreement therewith in relation to ocean industry;
2. International exchange of information, technology, and human resources in relation to ocean industry;
3. International standardization of technology, joint research, research, and technological cooperation in relation to ocean industry;
4. Hosting international academic conferences and international exhibitions in relation to ocean industry;
5. Market research and analysis of overseas fisheries products and systematic dissemination of information collected in relation to ocean industry;
6. Education of foreign seamen and ship officers;
7. Other matters deemed necessary for the sake of international cooperation in ocean industry.

(3) The Minister for Food, Agriculture, Forestry and Fisheries may provide the necessary administrative and financial assistance for facilitating activities for international fisheries cooperation by international fisheries-related institutions or organizations. <Amended by Act No. 8852, Feb. 29, 2008>

Article 19 (Establishment of Comprehensive Information System on Ocean Industry)

(1) The Minister for Food, Agriculture, Forestry and Fisheries may establish and operate a comprehensive information system on ocean industry to support the revitalization of ocean industry. <Amended by Act No. 8852, Feb. 29, 2008>

(2) Where necessary for the efficient management and operation of the comprehensive information system on ocean industry stipulated in paragraph (1), such system may be entrusted to the Korea Overseas Fisheries Association under Article 28 (1).

Article 20 (Facilitation of Dissemination of New Technologies and Techniques concerning Ocean Industry)

(1) The Minister for Food, Agriculture, Forestry and Fisheries

shall endeavor to devise measures for managing and disseminating, relevant technological information in a systematic and comprehensive manner in order to facilitate the advancement of new technologies related to ocean industry. <Amended by Act No. 8852, Feb. 29, 2008>

(2) The Minister for Food, Agriculture, Forestry and Fisheries may recommend the introduction and application of new technologies and techniques related to ocean industries to ocean industry operators, and may provide the necessary administrative and financial assistance necessary for such. <Amended by Act No. 8852, Feb. 29, 2008>

Article 21 (Facilitation of Surveys and Research of Marine Resources in International Waters)

The Minister for Food, Agriculture, Forestry and Fisheries shall conduct the following projects, such as surveys of marine resources in international waters, and advancement of research and scientific technologies related to ocean fisheries: <Amended by Act No. 8852, Feb. 29, 2008>

1. International collaborative surveys and evaluation of fisheries resources;
2. Development of new fishing grounds in international waters;
3. Operation of international observer programs;
4. Surveys based on marine biodiversity.

Article 22 (Operation of Honorary Marine and Fisheries Officer System)(1) The Minister for Food, Agriculture, Forestry and Fisheries may commission persons engaged in ocean industry in major coastal states, etc. as honorary marine and fisheries officers to facilitate the efficient conduct of ocean industry. <Amended by Act No. 8852, Feb. 29, 2008>

(2) The honorary marine and fisheries officer appointed under paragraph (1) may be paid allowances within budgetary limits.

(3) Necessary matters concerning the qualifications, duties, allowances, etc. of honorary marine and fisheries officers shall be prescribed by Ordinance of Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

(4) Where necessary for the efficient management and operation of the honorary marine and fisheries officer system under paragraph (1), the system may be entrusted to the Korea Overseas Fisheries Association under Article 28 (1).

SECTION 3 Fostering of Ocean Industry

Article 23 (Reporting of Business Plans concerning Ocean Fisheries)(1) A person who intends to engage in conducting a business related to ocean fisheries shall report his/her business plan to the Minister for Food, Agriculture, Forestry and Fisheries as prescribed by Presidential Decree. The same shall also apply to any proposed amendment to significant matters as so prescribed by Presidential Decree from among the reported matters. <Amended by Act No. 8852, Feb. 29, 2008>

(2) When a report is received in accordance with (1), the Minister for Food, Agriculture, Forestry and Fisheries may undertake necessary investigations as prescribed by Presidential Decree and recommend an adjustment or supplementation to the business plan,

if deemed necessary for the public good. <Amended by Act No. 8852, Feb. 29, 2008>

(3) Subject matters to be investigated, detailed procedures therefor, necessary matters regarding adjustments of or recommendations to a business plan, etc. in accordance with paragraph (2) shall be prescribed by Presidential Decree.

Article 24 (Joint Reporting, etc.)(1) Two or more persons intending to jointly file a report on the same business related to ocean fisheries under Article 23 (hereinafter referred to as "joint reporters") shall stipulate their representative and file a report with the Minister for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

(2) The joint reporters shall designate as their representative a juristic person established by one member of such joint reporters or such joint reporters under laws of the Republic of Korea for the execution of the relevant business related to ocean fisheries.

(3) The representative under paragraph (2) shall represent the joint reporters in matters relating to the Government.

(4) Where two or more persons intending to engage in the same business related to ocean fisheries are competitors, the Minister for Food, Agriculture, Forestry and Fisheries may recommend the relevant persons in keen competition to carry out necessary matters to prevent overlapping investments, etc. <Amended by Act No. 8852, Feb. 29, 2008>

Article 25 (Assistance to Enterprises related to Distant Water Fisheries)(1) Where an ocean fishery operator belonging to the small and medium enterprises under Article 2 of the Framework Act on Small and Medium Enterprises establishes an additional enterprise to engage in any business related to ocean fisheries (hereinafter referred to as "related enterprises"), the Minister for Food, Agriculture, Forestry and Fisheries may provide assistance for the incorporation and operation of such enterprise as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008>

(2) The Government may allow the related enterprise established by the ocean fishery operator to preferentially move in to the following facilities:

1. Logistics facilities among port hinterlands under the Harbor Act;
2. Other facilities prescribed by Presidential Decree.

(3) Where the related enterprise established by the ocean fishery operator satisfies requirements prescribed by Presidential Decree, such as the age of ships, the Minister for Food, Agriculture, Forestry and Fisheries may grant preferential permission to ocean fisheries under Article 6. <Amended by Act No. 8852, Feb. 29, 2008>

Article 26 (Subsidization and Financing)(1) Where necessary to facilitate the development of related enterprises, the Government may subsidize the following expenses as prescribed by Presidential Decree:

1. Expenses incurred in investigations for project implementation;
2. Expenses incurred for compliance with international standards and safety;
3. Expenses incurred in bolstering international cooperation and technological exchange with a foreign country necessary for project implementation;
4. Other expenses necessary for the facilitation of projects, as so prescribed by Presidential

Decree.

(2) Where an ocean industry operator carries out the following projects, the Government may partially subsidize required funds, grant a loan or provide assistance, etc. for securing sites: <Amended by Act No. 8852, Feb. 29, 2008>

1. Purchase of fishing vessels (including carriers) or fishing gear necessary for projects, and funds for the installation and operation of facilities;
 2. Funds for the lease or purchase of land necessary for the execution of projects;
 3. Facilitation of information-oriented, standardized or collaborative projects;
 4. Development and application of state-of-the-art technologies;
 5. Public relations for the facilitation of the sale of fisheries products produced by the project and penetration into overseas markets;
 6. Survey on resources in international fishing grounds and development projects for international aquaculture grounds;
 7. Other matters necessary for efficiently engaging in ocean industry, as prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.
- (3) Necessary matters concerning the subsidization of funds and loans under paragraph (2) shall be prescribed by Presidential Decree.

Article 27 (Special Taxation Examples)

The Government may grant income and corporate tax reductions or exemptions under the Restriction of Special Taxation Act or as prescribed by other relevant Acts and subordinate statutes to facilitate the advancement of ocean industry.

Article 28 (Establishment of Korea Overseas Fisheries Association)(1) A ocean industry operator may establish a Korea Overseas Fisheries Association (hereinafter referred to as the "Association") after obtaining authorization of the Minister for Food, Agriculture, Forestry and Fisheries to foster the sound development and shared benefits of ocean industry as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008>

(2) The Association shall be established by registering the incorporation of the Association after obtaining the authorization for incorporation under paragraph (1).

(3) The Association shall be a juristic person.

(4) The provisions concerning incorporated associations under the Civil Act shall apply mutatis mutandis to the Association, except as otherwise provided for in this Act.

(5) The Minister for Food, Agriculture, Forestry and Fisheries may, in cases where necessary for the development of ocean industry, provide assistance to the Association. <Amended by Act No. 8852, Feb. 29, 2008>

(6) The duties of the Association and matters to be included in the Articles of Incorporation shall be prescribed by Presidential Decree.

CHAPTER IV SUPPLEMENTARY PROVISIONS

Article 29 (Disposition of Penalty Surcharges)(1) Where a disposition for suspension of fisheries under Article 11 is likely to cause confusion to supply and demand of fisheries products, the Minister for Food, Agriculture, Forestry and Fisheries may impose a penalty

surcharge not exceeding 30 million won in lieu of a disposition for suspension of fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

(2) Matters necessary for the imposition of a penalty surcharge under paragraph (1) shall be prescribed by Presidential Decree.

(3) Unless the penalty surcharge under paragraph (1) is paid by the prescribed deadline, the Minister for Food, Agriculture, Forestry and Fisheries shall collect such penalty surcharge under the precedents of disposition on default of national taxes. <Amended by Act No. 8852, Feb. 29, 2008>

Article 30 (Delegation and Entrustment of Authority)(1) The Minister for Food, Agriculture, Forestry and Fisheries may partially entrust his/her authority under this Act to the head of his/her subordinate institution as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008>

(2) The Minister for Food, Agriculture, Forestry and Fisheries may partially entrust his/her authority under this Act to the Association as prescribed by Presidential Decree. In such case, the Minister for Food, Agriculture, Forestry and Fisheries may partially subsidize expenses incurred in carrying out the duties of the Association. <Amended by Act No. 8852, Feb. 29, 2008>

Article 31 (Fees)

A person who files an application for permission under this Act or an amended application or reporting related to such shall pay a fee as prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries. <Amended by Act No. 8852, Feb. 29, 2008>

Article 32 (Hearings)

Where the Minister for Food, Agriculture, Forestry and Fisheries intends to cancel or suspend fishery permission under Article 11, he/she shall hold a hearing. <Amended by Act No. 8852, Feb. 29, 2008>

CHAPTER V PENAL PROVISIONS

Article 33 (Penal Provisions)(1) A person falling under any of the following subparagraphs shall be punished by imprisonment for a term not exceeding three years or a fine not exceeding 20 million won:

1. A person who engages in ocean fisheries without obtaining any permission for ocean fisheries, or an amended permission under Article 6 (1);

2. A person who obtains permission for ocean fisheries by deceit or other fraudulent means.

(2) A person falling under any of the following subparagraphs shall be punished by imprisonment for a term not exceeding two years or a fine not exceeding ten million won:

1. A person who violates measures pertaining to port state control inspections under Article 14;

2. A person who engages in ocean fisheries without filing reports or amended reports under Article 6 (2), or who engages in a business related to ocean fisheries without filing reports or amended reports under Article 23 (1);

3. A person who engages in projects for purposes other than the original purposes after filing

reports or amended reports under Article 6 (2), or who engages in projects for purposes other than the original purposes after filing reports or amended reports under Article 23 (1);

4. A person who files false reports or amended reports under Article 6 (2), or who files false reports or amended reports under Article 23 (1).

(3) A person who fails to install a vessel monitoring system in violation of Article 15 shall be punished by imprisonment for a term not exceeding one year or a fine not exceeding five million won.

(4) Imprisonment without prison labor shall be concurrently sentenced with fines in cases falling under paragraphs (1) through (3).

Article 34 (Joint Penal Provisions)

If a representative of a juristic person, or an agent, employee, or other employed person of a juristic person or individual commits an offense under Article 33 with regard to such juristic person or individual, not only shall such actor be punished accordingly, but also such juristic person or individual shall be punished by a fine prescribed in the relevant paragraph: Provided, That the foregoing shall not apply where such juristic person or individual has not been negligent in giving due care and supervision with respect to the relevant affairs to prevent such offense.

[This Article Wholly Amended by Act No. 10122, Mar. 17, 2010]

Article 35 (Confiscation)(1) In cases of Article 33, fish catch, manufactured goods, fishing vessels, fishing gear, explosives or poisonous substances which are possessed or carried by a criminal may be confiscated: Provided, That in cases where he/she has been punished two or more times within the past five years, the fish catch, fishing vessels, and fishing gear shall be confiscated.

(2) Where goods possessed or carried by the criminal under paragraph (1) are not to be fully or partially confiscated, the equivalent amount in price-value thereof may be collected.

Article 36 (Fines for Negligence)(1) A fine for negligence not exceeding five million shall be imposed against a person falling under any of the following subparagraphs:

1. A person who fails to file reporting under the proviso to Article 6 (1);
2. One who fails to file a report under Article 10;
3. A person who closes his/her business or manages ocean fisheries without filing a report under Article 12 (1) and (2);
4. A person who fails to comply with matters to be complied with under Article 13;
5. A person who fails to file a report statement under Article 16 or who files a false statement.

(2) Fines for negligence under paragraph (1) shall be imposed and collected by the Minister for Food, Agriculture, Forestry and Fisheries as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008>

(3) A person who is dissatisfied with the disposition of a fine for negligence under paragraph (2) may file an objection with the Minister for Food, Agriculture, Forestry and Fisheries within 30 days from the date of notification of such disposition. <Amended by Act No. 8852, Feb. 29, 2008>

(4) Where a person against whom a disposition of a fine for negligence has been imposed under paragraph (2) files an objection under paragraph (3), the Minister for Food, Agriculture, Forestry and Fisheries shall, without delay, notify the competent court, which, in turn, shall proceed to a trial on fines for negligence pursuant to the Non-Contentious Case Litigation Procedure Act. <Amended by Act No. 8852, Feb. 29, 2008>

(5) If neither an objection is raised nor a fine for negligence paid within the period prescribed in paragraph (3), the aforementioned fine for negligence shall be collected pursuant to the practices of dispositions on default of national taxes.

ADDENDA (Omitted)

11. Natural Environment Conservation Act

[Enforcement Date 27. Jan, 2016.] [Act No.13885, 27. Jan, 2016., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to seek sustainable utilization of the natural environment and to allow people to lead a leisurely and healthy life in a comfortable natural environment by systematically conserving and managing the natural environment, such as protection of the natural environment from artificial damage, conservation of the ecosystem, natural scenery, etc.

Article 2 (Definitions)

The definition of terms used in this Act shall be as follows: <Amended by Act No. 8045, Oct. 4, 2006; Act No. 11257, Feb. 1, 2012; Act No. 11671, Mar. 22, 2013>

1. The term "natural environment" means the state of nature (including the ecosystem and natural scenery) which includes all living things under the ground, on the surface of the earth (excluding the ocean) and on the ground, and the inanimate things surrounding these;
2. The term "conservation of the natural environment" means systematic conservation, protection or restoration of the natural environment, and development and management of nature for enhancement of biological diversity;
3. The term "sustainable use of nature" means to allow the present and future generation to utilize or benefit from the natural environment with equal opportunities;
4. The term "natural ecology" means the geographic or geologic environment realized in the state of nature and all of phenomena which living things subsist under such conditions;
5. The term "ecosystem" means a dynamic complex in which the communities of plants, animals and microorganisms and an abiotic environment interact with each other as a functional unit;
6. The term "sub-ecosystem" means a habitat for living things which is developed for the enhancement of biological diversity, enhancement of the continuity of an ecosystem, such as the possibility of mobility of wild fauna and flora between their habitats, etc. or the improvement of habitation condition of a particular species;

7. The term "biological diversity (or biodiversity)" means diversity among living things originating from all sources, such as terrestrial and aquatic ecosystems (excluding marine ecosystems), and the ecological complexes of all these ecosystems, and includes diversity within species, between species and of ecosystems;
8. The term "ecological axis" means an ecological habitation space that links ecologically important areas or areas that need upkeep of ecological functions for the enhancement of biological diversity and continuity of ecosystem functions;
9. The term "ecological corridor" means ecological space, such as artificial structures, vegetation, etc. established to prevent habitat of wild fauna or flora from being isolated, damaged or destroyed due to any road, dam, reservoir, estuary dam, etc., and to assist in the upkeep of the continuity of ecosystems, such as migration of wild fauna or flora, etc.;
10. The term "natural scenery" means an area, topography and elements of nature affiliated with them that have visual or aesthetic value in terms of the natural environment, or scenery of nature where things are harmonious in a complex way;
11. The term "alternative nature" means a nature that is developed to perform functions similar or supplemental to the functions of the existing natural environment;
12. The term "ecological and scenery conservation area" means an area worthy of special conservation as it is ecologically important having abundant biological diversity, or as it has beautiful natural scenery, and which is designated and declared by the Minister of Environment pursuant to Articles 12 and 13 (3);
13. The term "natural reservation area" means an area prescribed by Presidential Decree from among uninhabited islands which are not used for any particular purpose other than military, from among the areas whose ecosystems are spared from damage due to their difficulty of access by people, and also means the demilitarized zone for two years from the date when it falls under the jurisdiction of the Republic of Korea;
14. The term "ecological and natural map" means a map made pursuant to the provisions of Article 34 according to ratings based on ecological value, natural characteristics, scenic value, etc. of mountains, rivers, inland wetlands, lakes, farmlands, cities, etc.;
15. The term "natural resources" means all living and inanimate things in their natural condition that have material or immaterial value that can be utilized for people's livelihood or economic activities;
16. The term "biological resources" means biological resources referred to in subparagraph 3 of Article 2 of the Act on Conservation and Use of Biological Diversity;
17. The term "ecological village" means a village that has ecological functionality, beautiful natural scenery and the capability for sustainable conservation and utilization thereof, and is designated by the Minister of Environment or the head of a local government, pursuant to Article 42;
18. The term "ecotourism" means eco-friendly tourism through which the importance of the environment may be experienced through the conservation and wise utilization of natural assets in an area with a particularly excellent ecosystem or beautiful natural scenery.

Article 3 (Basic Principles of Conservation of Natural Environment)

The natural environment shall be conserved in accordance with the following basic principles:

1. The natural environment shall be conserved as a resource for all people in a way suitable for the public good, and shall be used so as to be sustained for the present and future generation;
2. Conservation of the natural environment shall be harmonious and balanced with the use of national land;
3. Natural ecology and natural scenery shall be conserved and managed so as to promote human activity, functionality of nature and ecological circulation;
4. Opportunities for all people to participate in the conservation of the natural environment and the sound use of the natural environment shall be increased;
5. Ecological equilibrium shall neither be destroyed nor depreciated when utilizing or developing the natural environment: Provided, That, where natural ecology or natural scenery is destroyed, damaged or encroached, an effort shall be made to restore and return to former condition to the utmost;
6. Burdens arising from conservation of the natural environment shall be borne fairly, and benefits obtained from the natural environment shall be preferentially enjoyed by residents of the region and by interested persons;
7. International cooperation for conservation of the natural environment and sustainable use of the natural environment shall be promoted.

Article 4 (Duties of State, Local Government, and Enterprisers)(1) The State and local government shall bear the responsibility of devising the following measures according to the basic principles of conservation of the natural environment pursuant to the purpose of Article 1 and the provisions of Article 3, and executing them:

1. Formulation and implementation of measures for conservation of the natural environment for prevention of damage to natural environment due to development, utilization, etc. of national land, and for the sustainable use of the natural environment;
2. Formulation and implementation of a plan of utilization and development of land, and development project of land that are harmonious with the natural environment, such as natural ecology, natural scenery, etc.;
3. Formulation and implementation of measures to maintain the continuity of ecosystems, such as construction of ecological corridors;
4. Formulation and implementation of measures to restore and recover areas whose natural environment has been damaged;
5. Formulation and implementation of measures necessary for the restoration of ecosystems, such as the development of ecological restoration technology, promotion of specialized institutions for ecological restoration, etc.;
6. Promotion of measures for private organizations, enterprisers, people, etc. to take an active part in the conservation of the natural environment, and creation of appropriate conditions therefor;

7. Promotion of scientific technology for conservation of the natural environment, such as the investigation, research and development of technology, training of specialized manpower, etc.;

8. Enhancement of people's awareness of the importance of conservation of the natural environment through education and public relations;

9. International cooperation regarding conservation of the natural environment and conservation of the global environment.

(2) In performing business activities, enterprisers shall abide by matters of the following subparagraphs:

1. To consider natural ecology and natural scenery first of all;

2. To take necessary measures such as restoration, recovery, etc. in person against damage to the natural environment arising from business activities;

3. To participate and cooperate in the measures of conservation of the natural environment, etc. of the State and local government pursuant to the provisions of paragraph (1).

Article 5 (Campaign for Conservation of Nature)

The Government shall support local governments, private organizations, etc. so that all citizens may participate in campaigns for the conservation of nature, and ensure that the campaigns for the conservation of nature are operated in consideration of ecological characteristics of each region.

Article 6 (Basic Policies for Conservation of Natural Environment)(1) The Minister of Environment shall establish basic policies for conservation of the natural environment (hereinafter referred to as "Basic Policies for Conservation of the Natural Environment") to implement the purposes of Article 1 and the basic principles of conservation of the natural environment referred to in Article 3 after hearing opinions of the heads of competent central administrative agencies, the Special Metropolitan City Mayor, Metropolitan City Mayor or Do governor (hereinafter referred to as the "Mayor/Do governor"), and after deliberation by the environmental policy committee (hereinafter referred to as "Central Environmental Policy Committee") referred to in Article 58 of the Framework Act on Environmental Policy and the State Council. <Amended by Act No. 10032, Feb. 4, 2010; Act No. 10893, Jul. 21, 2011>

(2) The Basic Policies for Conservation of the Natural Environment shall contain the following matters: <Amended by Act No. 8045, Oct. 4, 2006>

1. Systematic conservation and management of the natural environment, and sustainable use of the natural environment;

2. Selection of ecosystems requiring serious conservation, protection of endangered species or ecologically important species, and protection of biological resources;

3. Restoration and recovery of areas whose natural environment has been damaged;

4. Management of ecology and scenery conservation areas, and improvement of the quality of life of residents in the relevant area;

5. Improvement of the ecological soundness of mountains, rivers, inland wetlands, farmlands, islands, etc., and conservation of biological diversity through the creation, etc. of

ecological corridors, sub-ecosystems and alternative nature;

6. Promotion of national education and private initiatives regarding the natural environment;

7. International cooperation regarding conservation of the natural environment;

8. Other matters regarding conservation of the natural environment prescribed by Presidential Decree.

(3) When the Minister of Environment drafts the Basic Policy for Conservation of the Natural Environment, he/she shall inform the head of the competent central administrative agency and the Mayor/Do governor concerned thereof.

(4) The head of the competent central administrative agency and the Mayor/Do governor concerned shall draw up a promotion policy or action plan (limited to an action plan in the case of Mayor/Do governor) in accordance with the Basic Policy for Conservation of the Natural Environment and inform the Minister of Environment thereof.

Article 7 (Consultation, etc. on Important Policy)(1) When the head of central administrative agency intends to draft and execute an important policy or plan that has a direct relationship with the conservation of the natural environment, he/she shall consult with the Minister of Environment in advance: Provided, That where he/she has consulted with the Minister of Environment pursuant to another Act, this shall not apply.

(2) In drafting and executing a development plan and development project (hereinafter referred to as a "development project, etc."), the Minister of Environment may, after consultation with the head of a central administrative agency, draft a guideline to consider for the conservation of the natural environment and sustainable use of the natural environment, and make the guideline utilized.

(3) The kinds of important policy and plan that are liable for consultation pursuant to the provisions of paragraph (1), and other necessary matters shall be prescribed by Presidential Decree.

Article 8 (Formulation of Basic Plan for Conservation of Natural Environment)(1) The Minister of Environment shall draft a basic plan for conservation of the natural environment of the nation (hereinafter referred to as the "Basic Plan for Conservation of the Natural Environment") every ten years.

(2) The Basic Plan for Conservation of Natural Environment shall be set after deliberation by the Central Environmental Policy Committee. <Amended by Act No. 10032, Feb. 4, 2010>

(3) In drafting the Basic Plan for Conservation of the Natural Environment, the Minister of Environment shall consult with the head of the central administrative agency concerned in advance. In this case, the Basic Policy for Conservation of the Natural Environment, and the principles of promotion or action plan informed by the head of the central administrative agency concerned and the Mayor/Do governor concerned pursuant to the provisions of Article 6 (4) shall be considered.

(4) The Minister of Environment may request the head of the central administrative agency concerned and the Mayor/Do governor concerned to submit proposals on the policy and project of their concern to be reflected in the Basic Plan for Conservation of the Natural

Environment.

(5) Paragraphs (2) through (4) shall apply mutatis mutandis where modification of the Basic Plan for Conservation of the Natural Environment is intended: Provided, That in the case of modification of minor matters prescribed by Presidential Decree, the deliberation of the Central Environmental Policy Committee may be dispensed with. <Amended by Act No. 10032, Feb. 4, 2010>

Article 9 (Contents of Basic Plan for Conservation of Natural Environment.)

The Basic Plan for Conservation of the Natural Environment shall contain the following matters:

1. Matters regarding the current state of, and outlook for, the natural environment;
2. Matters regarding a basic course of conservation of the natural environment, and setting of conservation targets;
3. Matters regarding the main duties to promote conservation of the natural environment;
4. Matters regarding major policies for conservation of the natural environment to be promoted by each local government;
5. Matters regarding conservation and management of natural scenery;
6. Matters regarding construction and promotion of an ecological axis;
7. Matters regarding major projects for the restoration of ecosystems, such as construction of ecological corridors, restoration of damaged areas, etc.;
8. Matters regarding establishment and operation of comprehensive geographic information systems on the natural environment pursuant to the provisions of Article 11;
9. Matters regarding calculation of expenses necessary for the execution of projects, and plans for raising the funds therefor;
10. Other matters prescribed by Presidential Decree regarding conservation of the natural environment.

Article 10 (Execution of Basic Plan for Conservation of Natural Environment)(1) Where the Minister of Environment has set the Basic Plan for Conservation of the Natural Environment pursuant to the provisions of Article 8 (2), he/she shall inform the head of the central administrative agency concerned and the Mayor/Do governor concerned thereof without delay.

(2) The head of the central administrative agency concerned and the Mayor/Do governor concerned shall take necessary measures for the execution of the Basic Plan for Conservation of the Natural Environment, such as reflecting the contents of the Basic Plan for Conservation of the Natural Environment in the policy and plan relating to their own duties.

(3) The Minister of Environment shall analyze and evaluate the execution outcome of the Basic Plan for Conservation of the Natural Environment periodically, every two years, and reflect the result in the policy for conservation of the natural environment.

Article 11 (Establishment and Operation of Information Network on Natural Environment)(1) The Minister of Environment may establish and operate a comprehensive geographic information system on the natural environment (hereinafter referred to as the

"information network on the natural environment") computerized with ecological and nature maps, data on biological species, etc. for swift production and distribution of information regarding the natural environment.

(2) The Minister of Environment may request for submission of data necessary for establishment and operation of the information network on the natural environment to the head of relevant administrative agency. In this case, the head of the relevant administrative agency shall respond to this request insofar as there are no particular issues.

(3) Where necessary for effective establishment and operation of the information network on the natural environment, the Minister of Environment may entrust the establishment and operation of the information network on the natural environment to a specialized institution.

(4) Matters necessary for establishment and operation of the information network on the natural environment shall be prescribed by Presidential Decree.

CHAPTER II MANAGEMENT, ETC. OF ECOLOGICAL AND SCENERY CONSERVATION AREA

Article 12 (Ecological and Scenery Conservation Area)(1) The Minister of Environment may designate as an ecological and scenery conservation area any of the following areas whose natural ecology and natural scenery need particular conservation:

1. An area where the state of nature maintains primitiveness, or which greatly merits conservation and scientific research because of its abundant biological diversity;
2. An area that has peculiar topographic or geological features and thus needs conservation for academic research or maintenance of its natural scenery;
3. An area that can represent diverse ecosystems or an area that is a specimen of an ecosystem;
4. An area prescribed by Presidential Decree that has beautiful natural scenery, such as rivers, mountain valleys, etc. and thus needs particular conservation.

(2) The Minister of Environment may designate and manage ecological and scenery conservation areas by classifying such ecological and scenery conservation areas as follows in consideration of their ecological characteristics, natural scenery, topographical conditions, etc. for the sustainable conservation and management of ecological and scenery conservation areas:

1. Core ecological and scenery conservation area (hereinafter referred to as a "core area"): An area where special protection for the prevention of damage to the structure and function of an ecosystem is necessary, or where special protection is intended because of its beautiful natural scenery;
2. Buffer ecological and scenery conservation area (hereinafter referred to as a "buffer area"): An area bordering a core area, which is necessary for the protection of the core area;
3. Transition ecological and scenery conservation area (hereinafter referred to as a "transition area"): A community area surrounded by a core area or a buffer area, which is necessary for sustainable conservation and utilization.

(3) The Minister of Environment may revoke or change the designation of an area where it

has lost its value as an ecological and scenery conservation area, or has become needless to conserve it as an ecological and scenery conservation area pursuant to the provisions of paragraph (1) due to military purposes, natural disaster or other causes.

Article 13 (Procedure for Designation and Change of Ecological and Scenery Conservation Areas)(1) When the Minister of Environment intends to designate or change an ecological and scenery conservation area, he shall engage in consultation with the head of the relevant central administrative agency and go through deliberation of the Central Environmental Policy Committee after gathering opinions of the residents in the area concerned, interested persons and the head of the local government with a designation plan containing the following contents along with a topographical map prescribed by Presidential Decree: Provided, That for changes of minor matters prescribed by Presidential Decree, the deliberation of the Central Environmental Policy Committee may be dispensed with: <Amended by Act No. 10032, Feb. 4, 2010>

1. The reason and purpose of designation;
2. The area and scope of designation;
3. The present status and characteristics of the natural ecology and natural scenery;
4. The present status of land utilization;
5. An outline of the classification of core area, buffer area and transition area, and a management plan for each area.

(2) The head of a local government or the head of a central administrative agency shall submit the opinion to the Minister of Environment within 30 days from the date he/she has received the request for opinion or consultation pursuant to paragraph (1) insofar as there are no particular issues.

(3) When the Minister of Environment has designated or changed an ecological and scenery conservation area pursuant to the provisions of paragraph (1), he/she shall announce the details of the designation or change as prescribed by Ordinance of the Ministry of Environment in the Official Gazette without delay.

Article 14 (Basic Plan for Management of Ecological and Scenery Conservation Area)

The Minister of Environment shall draft and execute a basic plan for management of the ecology and scenery conservation area containing the following matters after consultation with the head of the relevant central administrative agency and Mayor/Do governor regarding the ecological and scenery conservation area:

1. Conservation and management of the natural ecology, natural scenery and biological diversity;
2. Improvement of the living standards of residents in the ecological and scenery conservation area and protection of the interests of interested persons;
3. Matters to contribute to the development of the community through management of natural resources and conservation of the ecosystem;
4. Other matters necessary for drafting and execution of the basic plan of management of the ecological and scenery conservation area, which are prescribed by Presidential Decree.

Article 15 (Restriction of Activities in Ecological and Scenery Conservation Area, etc.)(1) No one shall damage natural ecology or natural scenery, which falls under any of the following subparagraphs in any ecological and scenery conservation area: Provided, That if an ecological and scenery conservation area includes a park district designated pursuant to the Natural Parks Act, or cultural property (including a protection district) pursuant to the Cultural Heritage Protection Act, it shall be governed by the Natural Parks Act or the Cultural Heritage Protection Act:

1. Capturing, gathering, transplanting, damaging, or withering to death the wild fauna and flora, or laying any explosives, hook, snare, net, trap, etc., or scattering or pouring any poison, agricultural chemical, etc. to capture or to wither to death the wild fauna and flora in the core area;
2. Constructing and enlarging (limited to the case of enlargement by two times or more of the total construction area at the time of designation as an ecological and scenery conservation area) a building and other structures (hereinafter referred to as a "building, etc."), and change of form and quality of land;
3. Changing the form of a river, lake, etc. or causing any increase or decrease of water level or water volume;
4. Gathering soil and stone;
5. Other acts prescribed by Presidential Decree from among the acts acknowledged as harmful to the conservation of the natural environment.

(2) Where it falls under any of the following subparagraphs, paragraph (1) shall not apply: <Amended by Act No. 7678, Aug. 4, 2005; Act No. 9763, Jun. 9, 2009>

1. Where it is necessary for military purposes;
2. Where emergency measures are required due to a natural disaster or disaster corresponding thereto prescribed by Presidential Decree;
3. Where an act prescribed by Presidential Decree is performed, such as an act which is required to keep the mode of living or to improve standard of living of the residents in the ecological and scenery conservation area, or an act which is needed to continue farming that has been performed at the time of designation as an ecological and scenery conservation area;
4. Where the Minister of Environment permits as prescribed by Ordinance of the Ministry of Environment, in deeming that it does not cause inconvenience to the conservation of the area concerned;
5. Where the matters included in the basic plan for the management of ecological and scenery conservation area pursuant to the provisions of Article 14 from among the agricultural production infrastructure rearrangement projects pursuant to the provisions of Article 2 of the Rearrangement of Agricultural and Fishing Villages Act are executed;
6. Where projects are executed according to the forest management plan pursuant to the Creation and Management of Forest Resources Act, and for the protection of forests and the conservation of an arboreal genetic resources protection district under the Forest

Protection Act, without deforestation or diversion of form and quality of land;

7. Where the head of the relevant administrative agency executes firsthand or the head of the relevant administrative agency authorizes, permits or approves, etc. (hereinafter referred to as "authorization, permission, etc.") pursuant to other Acts. In this case, the head of the relevant administrative agency shall consult with the Minister of Environment in advance;

8. Where the Minister of Environment performs an act and installs the necessary facility prescribed by Presidential Decree to protect and manage the ecological and scenery conservation area.

(3) Notwithstanding paragraph (1), the following acts may be performed in the buffer area: <Amended by Act No. 7678, Aug. 4, 2005; Act No. 9763, Jun. 9, 2009; Act No. 9774, Jun. 9, 2009; Act No. 12738, Jun. 3, 2014>

1. Erection of a building, etc. prescribed by Presidential Decree, which is for dwelling, livelihood, etc. on land which has categorized as a building site (limited to land, the category of which was building site before the designation as an ecological and scenery conservation area) pursuant to the Act on Establishment, Management, etc. of Spatial Data;

2. Installation of a facility prescribed by Presidential Decree for investigation into ecology, ecological studies, etc.;

3. Execution of forestry projects according to the forest management plan pursuant to the Creation and Management of Forest Resources Act and for the protection of forests and the conservation and management of an arboreal genetic resources protection district, etc. under the Forest Protection Act;

4. Installation of a facility for measuring streamflow and groundwater, and drainage, or erection of a building, etc. similar to these and annexed to agriculture, forestry and fishery;

5. Installation of a private grave pursuant to the provisions of Article 13 (1) 1 of the Funeral Services, etc. Act.

(4) Notwithstanding the provisions of paragraph (1), the following acts may be performed in the transition area:

1. Acts of each subparagraph of paragraph (3);

2. Erection of a building, etc. prescribed by Presidential Decree for maintenance of mode of life or improvement of the standard of living of persons who are residing in the transition area;

3. Installation of facilities for food, lodging, or shopping prescribed by Presidential Decree for persons visiting the ecological and scenery conservation area;

4. Installation of public facilities and facilities for convenient livelihood prescribed by Presidential Decree for local residents and visitors, such as road, water supply, drainage, etc.

(5) The Minister of Environment may restrict development projects prescribed by Presidential Decree, or limit farming notwithstanding the provisions of paragraph (2) 3 where it is particularly necessary for the conservation of weak natural ecology and natural scenery.

Article 16 (Prohibited Acts in Ecological and Scenery Conservation Area)

No one shall perform any act falling under any of the following subparagraphs in the ecological and scenery conservation area: Provided, That this shall not apply where it is necessary for military purposes, or emergency measures are required due to natural disaster, or other disaster equivalent thereto as prescribed by Presidential Decree: <Amended by Act No. 8466, May 17, 2007; Act No.11862, Jun. 4, 2013>

1. Dumping specified substances hazardous to water quality pursuant to the provisions of Article 2 of the Water Quality and Ecosystem Conservation Act, waste pursuant to the provisions of Article 2 of the Chemicals Control Act, or poisonous substances pursuant to the provisions of Article 2 of the Toxic Chemicals Control Act;
2. Possessing inflammables prescribed by Ordinance of the Ministry of Environment, or cooking or camping in any place other than that designated by the Minister of Environment (limited to the core area and buffer area);
3. Act of staining, damaging or moving signboards or other signposts regarding conservation of the natural environment;
4. Other acts, such as gathering of grass or trees, lumbering, etc., which are prescribed by Presidential Decree as acts prohibited for the conservation of an ecological and scenery conservation area.

Article 16-2 (Limited Access to Ecological and Scenery Conservation Areas)(1) The Minister of Environment may restrict or prohibit access to all or part of an ecological and scenery conservation area for a specified period in any of the following cases:

1. Where limited access is deemed particularly necessary in order to protect an ecological and scenery conservation area, such as a natural ecosystem and natural scenery;
2. Cases for recovery of the natural environment damaged due to natural or artificial factors;
3. Cases for safety of persons who enter an ecological and scenery conservation area.

(2) Notwithstanding paragraph (1), any of the following persons may enter an ecological and scenery conservation area:

1. A resident of a relevant region who enters the area to do daily work, such as carrying out ordinary business of agriculture, forestry or fisheries;
2. A person who enters the area to carry out business for conserving ecological and scenery conservation areas;
3. A person who enters the area for military purposes;
4. A person who enters the area to take actions necessary for activities, relief, etc., to prevent natural disasters referred to in subparagraph 2 of Article 2 of the Countermeasures against Natural Disasters Act, take emergency countermeasures, or perform restoration work, etc.;
5. A person who enters the area to administer or manage a state forest referred to in the State Forest Administration and Management Act;
6. A person who enters the area for the implementation of forest management plans and the protection of forests referred to in the Forest Resources Creation and Management Act or for the conservation and management of a forest gene resources protection area referred to in the Forest Protection Act;

7. Other persons who enter the area to carry out an act determined by Presidential Decree which does not obstruct the conservation or management of an ecological and scenery conservation area.

(3) Where the Minister of Environment intends to restrict or prohibit access pursuant to paragraph (1), he/she shall publicly notify the location and size of a relevant area, the period for limited or prohibited access, and other matters determined by Ordinance of the Ministry of Environment in advance.

(4) If the Minister of Environment deems the grounds for limited or prohibited access eliminated, he/she shall lift limits to, or prohibition of, access without delay, and publicly notify such fact.

[This Article Newly Inserted by Act No. 11671, Mar. 22, 2013]

Article 17 (Order of Suspension, etc.)

The Minister of Environment may order a person who has performed an act in violation of the provisions of Article 15 (1) in an ecological and scenery conservation area to suspend that act, or to restore the item to original state within a reasonable period of time that he/she has set: Provided, That he/she may order to take equivalent measures such as construction of alternative nature, etc. where restoration to the original state is difficult.

Article 18 (Securing Land, etc. for Conservation of Natural Ecology and Natural Scenery)

(1) Where land, buildings, or items fixed to land (hereinafter referred to as "land, etc.") owned by the State located in an ecological and scenery conservation area, or an area required to be designated as an ecological and scenery conservation area because it has remarkably high ecological value become unnecessary for military purposes or for the purpose of protection of cultural properties, etc., the Minister of Environment may request the head of a central administrative agency, such as the Minister of National Defence, the Administrator of the Cultural Heritage Administration, etc. having authority to manage such land, etc., for administrative conversion pursuant to the provisions of Article 2 (5) of the State Properties Act: Provided, That this shall not apply to land pursuant to the provisions of Articles 20 and 20-2 of the Act on Special Measures for Readjustment of Requisitioned Properties and Articles 2 and 3 of the Act on Special Measures for Readjustment of Expropriated or Used Lands under the Decree on Special Measures for Expropriation or Uses of Lands in Areas to be Mobilized pursuant to the Provisions of Article 5 (4) of the Act on Special Measures for National Integrity. <Amended by Act No. 9401, Jan. 30, 2009>

(2) The Minister of Environment may, as prescribed by Presidential Decree, perform an inspection after consultation with the head of a relevant central administrative agency, such as the Minister of National Defense, the Administrator of the Cultural Heritage Administration, etc. in order to select land, etc. to be subject for administrative conversion pursuant to the provisions of paragraph (1). <Amended by Act No. 9401, Jan. 30, 2009>

Article 19 (Procurement of Land, etc. in Ecological and Scenery Conservation Area, etc.)

(1) Where the Minister of Environment deems necessary for the conservation of the ecosystem in an ecological and scenery conservation area or natural reserve area, he/she

may purchase land, etc. in those areas after consultation with the owner.

(2) The purchase price of land, etc., when purchasing land, etc. pursuant to the provisions of paragraph (1), shall be based on the value calculated pursuant to the Act on the Acquisition of Land, etc. for Public Works and the Compensation Therefor.

Article 20 (Support for Residents in Ecological and Scenery Conservation Area)(1)

Where a resident expands his house in an area (hereafter referred to as an "adjoining area" in this Article) which may directly affect water quality, etc. of an ecological and scenery conservation area, the Minister of Environment may support all or part of the expenses for installation of a private sewage treatment facility and excreta treatment facility pursuant to the Sewerage Act. <Amended by Act No. 8014, Sep. 27, 2006>

(2) The Minister of Environment shall, first of all, formulate plans to support treatment of sewage and waste water in the ecological and scenery conservation area and its adjoining area. In this case, he/she may request the head of the competent central administrative agency or head of the relevant local government to take measures necessary for the support and measures necessary for the promotion of eco-friendly agriculture, forestry, and fishing industry.

(3) Necessary matters, such as procedures, methods, etc. for support for ecological and scenery conservation areas and their adjoining areas, pursuant to the provisions of paragraph (1) shall be prescribed by Presidential Decree.

Article 21 (Priority Utilization of Ecological and Scenery Conservation Area, etc.)(1)

The Minister of Environment shall grant priority utilization to residents in the ecological and scenery conservation area after consultation with the head of the competent central administrative agency and the head of local government: Provided, That, where there is an interested person, such as an owner of land, etc., this shall apply only if an agreement has been made with him/her.

(2) Residents who utilize the ecological and scenery conservation area pursuant to the provisions of paragraph (1) shall make every effort for conservation thereof.

Article 21-2 (Support for Biosphere Reserves)

The head of a relevant administrative agency may provide necessary financial support to conserve and manage biosphere reserves selected by UNESCO.

[This Article Newly Inserted by Act No. 11671, Mar. 22, 2013]

Article 22 (Natural Reserve Area)(1) The Minister of Environment shall, regarding a natural reserve area, formulate a comprehensive plan or policy for the conservation of the ecosystem and sustainable use of the natural environment after consultation with the head of the competent central administrative agency and the Mayor/Do governor concerned.

(2) The provisions of Articles 15 (1), (2) and (5), 16 and 17 shall apply mutatis mutandis to the restriction of acts, orders of suspension in the natural reserve area, etc.: Provided, That this shall not apply to projects for peaceful use performed in the Demilitarized Zone (DMZ) in accordance with an agreement between South and North Korea, and projects relating to unification policies implemented by the Minister of Unification after consultation with the

Minister of Environment.

Article 23 (Designation and Conservation of City/Do Ecological and Scenery Conservation Areas)(1) The Mayor/Do governor may designate and manage an area which is equivalent to the ecological and scenery conservation area and thus deemed necessary to conserve as a City/Do ecological and scenery conservation area.

(2) The Minister of Environment may recommend that the Mayor/Do governor designate and manage an area in need of conservation of natural ecology and natural scenery which represents the area concerned as a City/Do ecological and scenery conservation area.

(3) The provisions of Article 12 shall apply mutatis mutandis to designation standards, classification of boundaries, revocation of designations, etc. of City/Do ecological and scenery conservation areas.

Article 24 (Procedures, etc. for Designation of City/Do Ecological and Scenery Conservation Areas)(1) When the Mayor/Do governor intends to designate or change a City/ Do ecological and scenery conservation area, he/she shall, with a designation plan containing the contents of each subparagraph of Article 13 (1) along with a topographical map prescribed by Presidential Decree, undergo the deliberation of the City/Do Environmental Policy Committee (hereinafter referred to as "Local Environmental Policy Committee") referred to in Article 58 of the Framework Act on Environmental Policy through consultation with the head of a competent basin environmental management office or the head of a subregional environmental management office (hereinafter referred to as "head of a local environmental management office"), and the head of a relevant administrative agency after collecting opinions of residents of the area concerned, interested persons and the head of a Si/Gun/Gu (including the head of an autonomous Gu; hereinafter the same shall apply): Provided, That in cases of changing minor matters that have been laid down by City/Do municipal ordinances, deliberation by the Local Environmental Policy Committee may be dispensed with. <Amended by Act No. 10032, Feb. 4, 2010; Act No. 10893, Jul. 21, 2011>

(2) The head of a relevant Si/Gun/Gu, head of a local environmental management office or head of a relevant administrative agency who has been requested to consider an opinion or consultation shall produce his/her opinion within 30 days from the date on which he/she receives such request, except in extenuating circumstances.

(3) When the Mayor/Do governor designates or changes a City/Do ecological and scenery conservation area pursuant to paragraph (1), he/she shall publicize the location and size of the area concerned, date of designation, and other matters prescribed by municipal ordinances of the local government concerned.

Article 25 (Management Plan for City/Do Ecological and Scenery Conservation Area)
The Mayor/Do governor shall draft and implement a basic plan for management of City/Do ecological and scenery conservation area pursuant to municipal ordinances laid down by the local government concerned in accordance with the provisions of Article 14.

Article 26 (Restriction, etc. of Acts in City/Do Ecological and Scenery Conservation Area)

The Mayor/Do governor may take measures necessary for the conservation and management of a City/Do ecological and scenery conservation area pursuant to municipal ordinances laid down by the local government concerned in accordance with the provisions of Articles 15 through 17.

Article 27 (Conservation of Natural Scenery)(1) The head of a relevant central administrative agency and the head of a local government shall endeavor to prevent major elements of scenery such as coastline, etc. with high scenic value from being damaged, or views thereof from being obstructed.

(2) The head of a local government shall, when executing various projects as prescribed by municipal ordinances, take necessary measures to conserve natural scenery.

(3) The Minister of Environment may set up guidelines necessary for conservation of natural scenery and notify the head of the administrative agency concerned and head of the local government.

Article 28 (Consultation, etc. on Impact on Natural Scenery)(1) When the head of a relevant administrative agency or the head of a local government intends to grant authorization, permission, etc. of plans subject to strategic environmental impact assessment referred to in Article 9 of the Environmental Impact Assessment Act, projects subject to environmental impact assessment referred to in Article 22 of the said Act, or projects subject to small-scale environmental impact assessment referred to in Article 43 of the said Act among the development projects, etc. prescribed in the following subparagraphs, he/she shall include impacts on the natural scenery by a relevant development project, etc., conservation plans, etc. in the details of consultations on strategic environmental impact assessment, environmental impact assessment, or small-scale environmental impact assessment, and consult with the Minister of Environment or the head of a local environmental management office: <Amended by Act No. 9037, Mar. 28, 2008; Act No. 10892, Jul. 21, 2011>

1. A development project, etc. in an area within the distance prescribed by Presidential Decree from any of the following areas:

- (a) A natural park referred to in subparagraph 1 of Article 2 of the Natural Parks Act;
- (b) A wetland protection area designated pursuant to Article 8 of the Conservation of Wetlands Act;
- (c) An ecological and scenery conservation area;

2. A development project, etc. other than projects referred to in subparagraph 1 prescribed by Presidential Decree as determined to have a substantial impact on the natural environment.

(2) Where the Minister of Environment or the head of a local environmental management office receives a request for consultation pursuant to paragraph (1), the Minister of Environment shall undergo deliberation of the Central Environmental Policy Committee, and the head of a local environmental management office shall undergo deliberation of the Natural Scenery Deliberation Committee referred to in Article 29 regarding impacts on the

natural scenery by the relevant development project, etc., conservation plans, etc. <Amended by Act No. 10032, Feb. 4, 2010>

(3) When the head of a local government intends to authorize, permit, etc. a development project, etc. which is not subject to consultations on environmental impact assessment or small-scale environmental impact assessment, or other development projects, etc. prescribed by municipal ordinances of the local government as determined to have a substantial impact on the natural environment, from among the development project, etc. of each subparagraph of paragraph (1), he/she shall abide by the examination standards regarding natural scenery laid down by Ordinance of the Ministry of Environment: Provided, That this shall not apply to cases prescribed by Presidential Decree, such as cases of undergoing deliberation of the local urban planning committee referred to in Article 59 of the National Land Planning and Utilization Act. <Amended by Act No. 10892, Jul. 21, 2011>

Article 29 (Organization and Operation of Natural Scenery Deliberation Committee)(1)

A natural scenery deliberation committee shall be established under the jurisdiction of the head of a local environmental management office to investigate and deliberate professionally and efficiently where he/she receives a request for consultation pursuant to Article 28.

(2) Necessary matters regarding organization, operation, etc. of the natural scenery deliberation committee pursuant to paragraph (1) shall be prescribed by Presidential Decree.

CHAPTER III CONSERVATION OF BIOLOGICAL DIVERSITY

Article 30 (Investigation of Natural Environment)(1) The Minister of Environment shall investigate the natural environment of the nation every five years in cooperation with the head of a relevant central administrative agency. <Amended by Act No. 11671, Mar. 22, 2013>

(2) The Minister of Environment may investigate the natural environment every two years in cooperation with the head of a relevant central administrative agency regarding areas which are classified as a first grade zone on ecological and natural maps and areas changes in the natural surroundings of which are deemed requiring special observation. <Amended by Act No. 11671, Mar. 22, 2013>

(3) The head of a local government may investigate the natural environment of an area under his/her jurisdiction, as laid down by municipal ordinances of the local government concerned.

(4) The head of a local government shall report investigation plans and findings of investigations to the Minister of Environment when he/she investigates the natural environment pursuant to paragraph (3).

(5) The details, methods of investigation referred to in paragraphs (1) and (2), and other necessary matters shall be prescribed by Presidential Decree.

Article 31 (Close Investigation, Observation, etc. of Changes in Ecosystem)(1) The Minister of Environment shall formulate and execute a plan for close investigation of the ecosystem concerned, where he/she deems it necessary to manage after a special investigation into the ecosystem which has been newly ascertained by findings on

investigation pursuant to the provisions of Article 30.

(2) The Minister of Environment may make a supplementary investigation into an area where change in the ecosystem is conspicuous due to natural or artificial causes, from among the areas that have undergone investigation pursuant to the provisions of Article 30.

(3) The Minister of Environment shall continuously observe changes in ecosystem due to natural or artificial causes.

(4) The head of a local government may perform investigations and observations pursuant to the provisions of paragraphs (1) through (3) into the area under his jurisdiction as prescribed by municipal ordinances of the local government concerned.

(5) Matters necessary for investigation and observation pursuant to the provisions of paragraphs (1) through (3) shall be prescribed by Ordinance of the Ministry of Environment.

Article 32 (Natural Environment Investigator)(1) The Minister of Environment or the head of a local government may, if necessary for performing an investigation into the natural environment pursuant to the provisions of Article 30, a close investigation and supplementary investigation pursuant to the provisions of Article 31 or other investigation into natural environment, employ natural environmental investigators during the investigation period (hereinafter referred to as an "investigator").

(2) Qualifications for an investigator and procedures of commissioning pursuant to the provisions of paragraph (1) and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment or municipal ordinances of the local government concerned.

Article 33 (Entry into Lands Owned by Other Persons, etc.)(1) The Minister of Environment or the head of a local government may order a public official or investigator under his control to enter another person's land, or to change or remove trees, soil, stones, or other obstacles, if necessary in order to carry out an investigation into the natural environment pursuant to Article 30 or a close investigation and supplementary investigation pursuant to the provisions of Article 31.

(2) Anyone who intends to enter another person's land pursuant to the provisions of paragraph (1) shall notify the owner, occupant or manager of the land not later than three days prior to the date of entry.

(3) Anyone who intends to change or remove obstacles pursuant to the provisions of paragraph (1) shall obtain the consent of the owner, occupant or manager thereof: Provided, That where the owner, occupant or manager is not at the site, or if his address is not known, notification of change or removal shall be made on the bulletin board of the Eup/ /Dong that has jurisdiction over the area concerned, or shall be published in the daily newspaper. Consent shall be deemed to have been obtained when fourteen days have passed since the date of such notification or publication.

(4) The owner, occupant or manager of land shall not refuse, obstruct or evade the investigation pursuant to the provisions of paragraph (1) insofar as there are no reasonable grounds.

(5) Anyone who intends to enter another person's land pursuant to the provisions of

paragraph (1) shall carry credentials indicating his authority as prescribed by Ordinance of the Ministry of Environment, and show these to interested persons.

Article 34 (Drafting and Utilization of Ecological and Natural Maps)(1) For the purpose of use in the formulation and implementation of various development projects, the Minister of Environment shall draft an ecological and natural map of the natural environment of the nation in accordance with the following classifications on the basis of findings on the investigations referred to in Articles 30 and 31: <Amended by Act No. 10977, Jul. 28, 2011>

1. First grade zone: An area falling under the following:

- (a) An area which becomes a major habitat, place of visitation and major ecological axis, or ecological corridor for endangered wildlife referred to in subparagraph 2 of Article 2 of the Wildlife Protection and Management Act (hereinafter referred to as "endangered wildlife");
- (b) An area where the ecosystem is particularly excellent or scenery is especially spectacular;
- (c) An ecosystem area which is located on the boundary of geographical distribution of living things, or area which represents the types of major vegetation;
- (d) An area where biological diversity is particularly abundant, and where biological resources with high conservation value are distributed;
- (e) Other areas having ecological value corresponding to items (a) through (d) which meet standards prescribed by Presidential Decree;

2. Second grade zone: An area corresponding to those falling under the items of subparagraph 1 and worthy of conservation in the future, or an area outside a first grade zone and necessary to protect a first grade zone;

3. Third grade zone: An area other than one classified as a first grade zone, second grade zone, and separately managed zone, which is subject to development or utilization;

4. Separately managed zone: An area prescribed by Presidential Decree which has historical, cultural or scenic value, or is managed to conserve a green belt located in a city and for other reasons, from among areas conserved pursuant to the provisions of another Act.

(2) The Minister of Environment may draft an ecological and natural map by making detailed classification of the zones referred to in paragraph (1) 1 through 3 to efficiently utilize the map, as prescribed by Ordinance of the Ministry of Environment.

(3) Where the Minister of Environment drafts an ecological and natural map, he/she may request the head of a relevant central administrative agency or the head of a local government for cooperation in providing with necessary data or specialized manpower. In such cases, unless it is inevitable to refuse due to military purposes, the head of the relevant central administrative agency or the head of the local government shall cooperate with the request for data, as prescribed by Presidential Decree.

(4) The ecological and natural map shall be drawn in solid lines at a scale of at least 1 to 25,000. Other matters necessary for drawing ecological and natural maps, such as drawing standards of ecological and natural maps, drawing methods, etc., and objects of utilization and methods of utilization of the ecological and natural map referred to in paragraph (1) shall

be prescribed by Presidential Decree.

(5) When the Minister of Environment drafts an ecological and natural map, he/she shall draw it up after making it available to public inspection for at least 14 days, and release the ecological and natural map after notifying of the map the head of a relevant central administrative agency and the head of a local government.

(6) A Mayor/Do governor may draft a detailed ecological and natural map of an urban area under his/her jurisdiction (hereinafter referred to as "urban ecological map") on the basis of the ecological and natural map drawn up by the Minister of Environment. Other matters necessary for drawing up an urban ecological map shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 11671, Mar. 22, 2013>

Article 35 (Measures for Conservation of Ecosystems and International Cooperation)

(1) The Government shall formulate and implement measures for conservation and sustainable utilization of biological diversity and biological resources, proper management of biological resources, and implementation of the Convention on Biological Diversity, the Convention on International Trade in Endangered Species of Wild Fauna and Flora and the Convention on Wetlands of International Importance, Especially as Waterfowl Habitat, etc. (hereinafter referred to as the "Convention on Biological Diversity, etc.") to which the State is a signatory: <Amended by Act No. 11257, Feb. 1, 2012>

1 through 6 Deleted. <by Act No. 11257, Feb. 1, 2012>

(2) The Government shall endeavor to exchange technology, information, etc. to conserve the natural environment in cooperation with international organizations and foreign governments related to the Convention on Biological Diversity, etc. <Amended by Act No. 11257, Feb. 1, 2012>

Article 36 (Research and Technology Development, etc. Regarding Ecosystems)

(1) The Government shall carry out research and technology development with regard to investigation into the natural environment, research on the structure, function and restoration of ecosystems, and changes in, and adaptation of, ecosystems caused by climate change, etc. <Amended by Act No. 10977, Jul. 28, 2011; Act No. 11257, Feb. 1, 2012>

(2) The Government shall conduct investigations of changes in, and adaptation of, ecosystems following climate change, management cases, an ecosystem, etc. vulnerable to climate change, etc. <Amended by Act No. 11257, Feb. 1, 2012>

(3) Deleted. <by Act No. 11257, Feb. 1, 2012>

(4) Objects and methods of investigation referred to in paragraph (2) and other necessary matters shall be prescribed by Presidential Decree.

Article 37 Deleted. <by Act No. 11257, Feb. 1, 2012>

CHAPTER IV MANAGEMENT OF NATURAL ASSET

Article 38 (Installation and Operation of Facilities for Conservation and Use of Natural Environment)

(1) For the purposes of conservation and sound utilization of the natural environment, the head of a relevant central administrative agency and the head of a local government may install the following facilities:

1. Facilities for conservation or prevention of damage to the natural environment;
2. Facilities for restoration or recovery of a damaged natural environment;
3. Facilities for use or observation of the natural environment, including facilities for providing information on the conservation of the natural environment and wooden platforms for the observation of ecology;
4. Facilities for education, public relations, or management for conservation or use of the natural environment, such as a museum of nature conservation and a nature study institute;
5. Other facilities for conservation of natural assets.

(2) Where the head of a relevant central administrative agency or the head of a local government intends to install or operate facilities for conservation and use of the natural environment pursuant to the provisions of paragraph (1), he/she shall formulate installation plans and notify them publicly as prescribed by Ordinance of the Ministry of Environment.

(3) The head of a relevant central administrative agency and the head of a local government may collect fees from those who use the facilities for conservation and use of the natural environment which have been installed pursuant to the provisions of paragraph (1): Provided, That any park area designated by the Natural Parks Act shall be governed by the provisions of the Natural Parks Act.

(4) Necessary matters concerning the amount of fees, collection procedures thereof, and exemption therefrom pursuant to the provisions of paragraph (3) shall be prescribed by Ordinance of the Ministry of Environment.

Article 39 (Designation and Management of Natural Resting Area)(1) The head of a local government may designate as natural resting areas an appropriate area which is of high ecological, scenic value, etc. and is suitable for investigation into nature, ecological education, etc. from among areas which are not designated by other Acts as parks, tourist facility complexes, natural recreation forests, etc. in accordance with Presidential Decree. In this case, the opinion of the owner, etc. of private land shall be heard with regard to private land.

(2) For the purpose of efficient management of natural resting areas designated pursuant to the provisions of paragraph (1), the head of a local government may collect fees from those who use natural resting areas as prescribed by municipal ordinances in consideration of the cost of maintenance, management, etc.: Provided, That this shall not apply where these have been designated by other Acts as parks, tourist facility complex, natural recreation forests, etc. after they have been designated as natural resting areas.

(3) Management of natural resting areas pursuant to the provisions of paragraph (1) and other necessary matters shall be prescribed by municipal ordinances of the local government concerned.

Article 40 (Prevention of Damage to Nature Used by General Public)

In the following cases, the head of a local government may restrict the lumbering of growing trees, change of form and quality of land, or access, cooking and camping in order to prevent damage to areas of ecological or scenic value, etc. as prescribed by municipal ordinances

of the local government concerned:

1. Where the value of a forest adjoining a place used by the general public, such as a beach, decreases substantially or is lost if it is damaged;
2. Where the scenic value decreases substantially if forests, large trees, etc. alongside a road or railroad are damaged;
3. Other cases that correspond to subparagraph 1 or 2 and satisfy the standards prescribed by Presidential Decree.

Article 41 (Promotion of Ecotourism)(1) The Minister of Environment may designate an area the environment of which has high conservation value and where it is possible to experience the importance of protecting the ecosystem and to provide education thereon in order to promote ecotourism, after consultation with the Minister of Culture, Sports and Tourism. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11671, Mar. 22, 2013>

(2) The Minister of Environment may provide a local government exercising jurisdiction over an area designated pursuant to paragraph (1) (hereinafter referred to as "ecological tourism zone") with subsidies for all or some of the costs required for managing and operating the ecological tourism zone, within budgetary limits. <Newly Inserted by Act No. 11671, Mar. 22, 2013>

(3) The Minister of Environment may formulate and implement plans for the installation or management of facilities for education necessary for ecotourism, facilities for investigation and discovery of resources of ecotourism, and facilities for sound use by people, in cooperation with the Minister of Culture, Sports and Tourism and the head of a relevant local government, or may recommend the head of the local government as such. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11671, Mar. 22, 2013>

Article 42 (Designation, etc. of Ecological Village)(1) The Minister of Environment or the head of a local government may designate any of the following villages as an ecological village:

1. A village within an ecological and scenery conservation area;
2. A village that is outside the ecological and scenery conservation area, but has ecological functionality and beautiful natural scenery: Provided, That a village in a mountain village promotion area designated pursuant to Article 28 of the Framework Act on Forestry is excluded.

(2) The Minister of Environment or the head of a local government shall preferentially devise and implement installation of facilities for the convenience of residents of the area, such as public facilities, and a plan for increasing resident income, if he/she has designated an ecological village pursuant to paragraph (1).

(3) Where the ecological functions, beautiful natural scenery, etc. of an ecological village designated pursuant to paragraph (1) have been significantly damaged due to urban development, etc., the Minister of Environment or the head of a relevant local government may revoke the designation of the ecological village. <Newly Inserted by Act No. 11671, Mar. 22, 2013>

(4) Necessary matters for standards and procedures for designation, revocation, etc. of ecological villages referred to in paragraphs (1) through (3) shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 11671, Mar. 22, 2013>

(5) If the Minister of Environment or the head of a local government intends to revoke the designation pursuant to paragraph (3), he/she shall hold a hearing. <Newly Inserted by Act No. 11671, Mar. 22, 2013>

Article 43 (Enhancement, etc. of Ecological Soundness of Cities)(1) The State or a local government shall recover urban areas which have been damaged or neglected, or endeavor to prevent the following areas from being damaged in order to enhance the ecological soundness of a city: <Amended by Act No. 11671, Mar. 22, 2013>

1. An ecological and scenery conservation area referred to in Article 12;
2. A first grade zone on an ecological and natural map referred to in Article 34 (1) 1;
3. A wetland protection area referred to in Article 8 of the Wetlands Conservation Act;
4. A wildlife protection area referred to in Article 33 of the Wildlife Protection and Management Act;
5. A natural park referred to in subparagraph 1 of Article 2 of the Natural Parks Act.

(2) To promote conservation of the natural environment, enhancement, etc. of ecological soundness of a city, the Minister of Environment may recommend to the head of a relevant administrative agency and the head of a local government guidelines and evaluation indexes on conservation of the natural environment and ecological soundness, such as establishing an ecological axis, conserving biological diversity, conserving natural scenery, securing a wind passage, restoring ecology, etc. in consultation with the head of a relevant central administrative agency. <Amended by Act No. 11671, Mar. 22, 2013>

(3) The Minister of Environment may recommend the development of technology that enables less consumption of water and energy or less generation of waste possible, or ecological technology that enhances biological diversity, the improvement of systems for these, and other matters to the head of a relevant central administrative agency or the head of a local government.

(4) For the purpose of improvement, etc. of biological diversity of a city, the Minister of Environment may request that the head of the competent central administrative agency or the head of a local government create green areas, sub-ecosystems, etc.

(5) When the head of a relevant central administrative agency or the head of a local government has received a recommendation or request from the Minister of Environment referred to in paragraphs (2) through (4), he/she shall endeavor to have the relevant matter accepted.

Article 44 (Restoration, etc. of Ecosystem Subject to Priority Protection)

In any of the following cases, the Minister of Environment may prepare and promote measures of protection and restoration of an ecosystem concerned in cooperation with the head of a relevant central administrative agency and Mayor/Do governor: <Amended by Act No. 10977, Jul. 28, 2011>

1. Where the continuation of species is threatened because the main habitat or place of visitation of endangered wildlife has been destroyed, damaged or disrupted;
2. Where an ecosystem with a particularly high level of natural characteristics or delicate nature has been partially destroyed, damaged or disturbed;
3. Where the natural environment with a particularly high level of biological diversity has been damaged.

Article 45 (Installation, etc. of Ecological Corridors)(1) In carrying out, authorizing or permitting a development project, etc., the State or a local government shall take necessary actions, such as the installation of an ecological corridor, or have such actions to be taken, in order not to sever the mobility of wildlife and ecological continuity. <Amended by Act No. 11671, Mar. 22, 2013>

(2) The State or a local government shall conduct investigations and research on areas where the mobility of wildlife and ecological continuity are severed, and formulate and implement ecological corridor installation plans for areas which require ecological corridors. In such cases, it may request the management entity of a road, railway, etc. located in an area requiring an ecological corridor to install an ecological corridor, and the person who has received such request shall install an ecological corridor, except in extenuating circumstances. <Amended by Act No. 11671, Mar. 22, 2013>

(3) A person who intends to install an ecological corridor pursuant to paragraphs (1) and (2) shall conduct the following investigations: <Amended by Act No. 11671, Mar. 22, 2013>

1. Species of wildlife which inhabit the relevant area;
2. Species of wildlife the habitats of which are likely to be severed due to the implementation of a development project, etc.;
3. Species of wildlife against which an accident, such as car accidents, is highly likely to occur;
4. Investigations into connection with a major ecological axis, such as Baekdudaegan referred to in subparagraph 1 of Article 2 of the Baekdudaegan Protection Act.

(4) Areas subject to the installation of ecological corridors and standards of installation referred to in paragraph (1), and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 10977, Jul. 28, 2011>

Article 45-2 (Investigation, etc. of Ecological Corridors)(1) A person who is installing or managing an ecological corridor pursuant to Article 45 (1) or (2) (hereinafter referred to as "installer or manager of an ecological corridor") shall conduct investigations in accordance with the cycle and method determined by Ordinance of the Ministry of Environment so that an ecological corridor can be utilized in an appropriate manner.

(2) The Minister of Environment may request an installer or manager of an ecological corridor to submit materials related to the following matters. In such cases, the installer or manager of an ecological corridor shall submit the requested materials, except in extenuating circumstances:

1. The current state of installation and management of an ecological corridor;

2. Results of investigation referred to in paragraph (1).

(3) The Minister of Environment shall evaluate the materials referred to in paragraph (2) in accordance with the criteria prescribed by Ordinance of the Ministry of Environment, and if the ecological corridor is deemed functioning improperly, he/she may request the installer or manager of an ecological corridor to take actions to improve it. In such cases, the installer or manager of an ecological corridor shall take requested actions to improve the corridor, except in extenuating circumstances.

[This Article Newly Inserted by Act No. 11671, Mar. 22, 2013]

CHAPTER V COOPERATION CHARGE FOR ECOSYSTEM CONSERVATION

Article 46 (Cooperation Charge for Ecosystem Conservation)(1) To systematically conserve the natural environment and to manage and utilize natural resources, the Minister of Environment shall levy and collect the Cooperation Charge for the Ecosystem Conservation from an operator of development projects which have a substantial impact on the natural environment or ecosystem, or cause a decrease in biological diversity.

(2) Projects subject to the imposition of the Cooperation Charge for the Ecosystem Conservation referred to in paragraph (1) shall be as follows: Provided, That the projects subject to the imposition of the Cooperation Charge for the Conservation of Marine Ecosystems referred to in Article 49 (2) of the Conservation and Management of Marine Ecosystems Act shall be excluded: <Amended by Act No. 8045, Oct. 4, 2006; Act No. 8355, Apr. 11, 2007; Act No. 8468, May 17, 2007; Act No. 9037, Mar. 28, 2008; Act No. 9982, Jan. 27, 2010; Act No. 10892, Jul. 21, 2011; Act No. 11671, Mar. 22, 2013>

1. A development project with a development area of at least 30,000 square meters prescribed by Presidential Decree, among plans subject to strategic environmental impact assessment referred to in Article 9 of the Environmental Impact Assessment Act;

2. A project subject to environmental impact assessment referred to in Articles 22 and 42 of the Environmental Impact Assessment Act;

3. Opencut exploration or mining business the scale of which is larger than that prescribed by Presidential Decree among mining projects referred to in subparagraph 2 of Article 3 of the Mining Industry Act;

4. A project subject to small-scale environmental impact assessment referred to in Article 43 of the Environmental Impact Assessment Act the development area of which is at least 30,000 square meters;

5. Other projects prescribed by Presidential Decree among the projects which have a substantial impact on ecosystems, or utilize natural property.

(3) The Cooperation Charge for the Ecosystem Conservation referred to in paragraph (1) shall be calculated and levied by multiplying the damaged area of an ecosystem by the amount levied per unit area and the regional coefficient within the limit of five billion won: Provided, That for projects prescribed by Presidential Decree that are executed for the purpose of national defense, the Cooperation Charge for the Ecosystem Conservation may be reduced or exempted. <Amended by Act No. 11671, Mar. 22, 2013>

(4) The Cooperation Charge for the Ecosystem Conservation referred to in paragraph (1) and the additional dues referred to in Article 48 (1) shall become revenue in Special Accounts for Environmental Improvement referred to in the Framework Act on Environmental Policy. <Amended by Act No. 10893, Jul. 21, 2011>

(5) Where the Minister of Environment delegates his/her authority on the collection of the Cooperation Charge for the Ecosystem Conservation or additional dues to the Mayor/Do governor pursuant to Article 61 (1), the Minister of Environment may pay an amount prescribed by Presidential Decree from the collected Cooperation Charge for the Ecosystem Conservation and additional dues to the Mayor/Do governor having jurisdiction over the project area. In such cases, the Mayor/Do governor may use some of the payment for expenses necessary for imposing and collecting the Cooperation Charge for the Ecosystem Conservation, as prescribed by Presidential Decree.

(6) Procedures of collection, standards for reduction and exemption, amounts levied per unit of area and regional coefficients of the Cooperation Charge for the Ecosystem Conservation referred to in paragraph (1) and other necessary matters shall be prescribed by Presidential Decree. In such cases, the amount imposed per unit area shall be based on the value of the damaged ecosystem, and the regional coefficient shall be based on the use of land referred to in the National Land Planning and Utilization Act. <Amended by Act No. 8045, Oct. 4, 2006>

Article 47 (Report of Authorization, Permission, etc. of Project)(1) The head of an administrative agency who has authorized, permitted any project subject to levy of the Cooperation Charge for the Ecosystem Conservation pursuant to the provisions of Article 46 (2) and conducted other relevant business shall inform the Minister of Environment of the project operator, content and scale of the project and the terms of authorization, permission, and other content of authorization and permission prescribed by Presidential Decree within 20 days from such date.

(2) The Minister of Environment shall inform the project operator of matters regarding amount of levy, term for payment, etc. of the Cooperation Charge for the Ecosystem Conservation within one month from the date he received the information pursuant to the provisions of paragraph (1).

(3) Details, methods pursuant to the provisions of paragraphs (1) and (2), and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

Article 48 (Compulsory Collection of Cooperation Charge for Ecosystem Conservation)(1) Where a person liable to pay the Cooperation Charge for the Ecosystem Conservation pursuant to Article 46 fails to pay such charge within the period of payment, the Minister of Environment shall compel him/her to pay by fixing a period of at least 30 days. In such cases, an additional due regarding the Cooperation Charge for the Ecosystem Conservation in arrears, which is equivalent to 3/100, shall be imposed. <Amended by Act No. 11671, Mar. 22, 2013>

(2) Where a person who has been urged to pay pursuant to paragraph (1) has not paid the

Cooperation Charge for the Ecosystem Conservation and additional dues within the period, such amount may be collected in the same manner as delinquent national taxes are collected.

Article 49 (Use of Cooperation Charge for Ecosystem Conservation)

The collected Cooperation Charge for the Ecosystem Conservation and the amount paid pursuant to Article 46 (5) shall be used for the following purposes: Provided, That the Cooperation Charge for the Ecosystem Conservation raised from the projects, which are in the mining projects referred to in subparagraph 2 of Article 3 of the Mining Industry Act, focusing on forests and mountainous areas shall be used for projects to restore the ecosystem of damaged forests and mountainous areas: <Amended by Act No. 8045, Oct. 4, 2006; Act No. 8355, Apr. 11, 2007; Act No. 10977, Jul. 28, 2011; Act No. 11257, Feb. 1, 2012; Act No. 11671, Mar. 22, 2013>

1. Projects to conserve or restore ecosystems and biological species;
2. Support to ex-habitat conservation agencies referred to in Article 7 (2) of the Wildlife Protection and Management Act;
3. Execution of the basic plan for management of ecological and scenery conservation areas referred to in Article 14;
4. Securing of land, etc. for the conservation of the ecosystem referred to in Article 18;
5. Purchase of land, etc. of ecological and scenery conservation areas referred to in Article 19;
6. Assistance for installation of sewage treatment facilities referred to in Article 20 (1);
7. Conservation of the ecosystems of natural reserve areas referred to in Article 22;
8. Execution of contracts for biological diversity management referred to in Article 16 of the Act on Conservation and Use of Biological Diversity;
9. Installation and operation of facilities for conservation and use of the natural environment referred to in Article 38;
10. Protection and restoration of ecosystems subject to priority protection referred to in Article 44;
11. Projects for installation of ecological corridors referred to in Article 45;
12. Investigation, maintenance and management of a project the Cooperation Charge for the Ecosystem Conservation of which has been refunded pursuant to the main sentence of Article 50 (1);
13. Conservation and management of biosphere reserves selected by UNESCO;
14. Other projects necessary to conserve the natural environment, etc., which are prescribed by Presidential Decree.

Article 50 (Return and Assistance of Cooperation Charge for Ecosystem Conservation)(1) Where a person who has paid the Cooperation Charge for the Ecosystem Conservation or a person who has obtained consent on the execution of a natural environment conservation project and on the return of the Cooperation Charge for the Ecosystem Conservation from the person who has paid the Cooperation Charge for the

Ecosystem Conservation (hereinafter referred to as "proxy of environment conservation project") has executed a natural environment conservation project, such as creation of alternative nature, restoration of the ecosystem, etc. prescribed by Presidential Decree after receiving approval from the Minister of Environment, the Minister of Environment may refund an amount prescribed by Presidential Decree from the Cooperation Charge for the Ecosystem Conservation that he/she has paid: Provided, That with regard to the Cooperation Charge for the Ecosystem Conservation levied due to the projects executed in forests and mountainous areas referred to in Article 46 (2) 3, assistance to restoration projects of damaged areas for forests or mountainous areas executed pursuant to other Acts may be made within the extent of the refunded amount or amount to be refunded. <Amended by Act No. 8468, May 17, 2007; Act No. 11671, Mar. 22, 2013>

(2) Necessary matters regarding approval of the Minister of Environment, consent of the person who has paid the Cooperation Charge for the Ecosystem Conservation, qualification and extent of proxy of environment conservation project, and refund and assistance of the Cooperation Charge for the Ecosystem Conservation referred to in paragraph (1) shall be prescribed by Presidential Decree. <Amended by Act No. 8468, May 17, 2007>

CHAPTER VI SUPPLEMENTARY PROVISIONS

Article 51 (Cooperation of Relevant Administrative Agencies)(1) Where the Minister of Environment acknowledges as necessary for fulfillment of the purposes of this Act, he/she may request the head of a relevant central administrative agency or head of a local government to prepare necessary policies or measures on the matters prescribed by Presidential Decree. In this case, the head of the relevant central administrative agency or head of the local government shall comply therewith insofar as there are no particular issues.

(2) The Minister of Environment shall assess the value and function of biological diversity for conservation of the natural environment and sustainable utilization of nature, and have the head of a relevant central administrative agency and the head of a local government use the result outcome thereof.

Article 52 (Expropriation and Use of Land, etc.)(1) The State or a local government may, when deemed necessary for the installation of facilities for conservation and use of the natural environment pursuant to the provisions of Article 38, expropriate and use land, etc. necessary for the facilities for conservation and use of the natural environment.

(2) As for expropriation and use pursuant to the provisions of paragraph (1), the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects shall apply mutatis mutandis unless there are special provisions in this Act.

(3) Where the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects applies mutatis mutandis pursuant to the provisions of paragraph (2), project approval and a public announcement of project approval pursuant to the provisions of Articles 20 and 22 of the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects shall be deemed to have been made at the time when determination and public announcement of the plan for installation of facilities for conservation or use of the

natural environment pursuant to the provisions of Article 38 are made.

Article 53 (Compensation for Loss)(1) Anyone who suffers a loss of property because he is not able to continue, pursuant to the provisions of Article 15 (5), development project, farming activities, etc. which have already been in operation, or who has suffered loss a property pursuant to the provisions of Article 33 (1), may request the Minister of Environment or the head of a local government to make compensation for loss as prescribed by Presidential Decree.

(2) Where the Minister of Environment or the head of a local government is requested pursuant to the provisions of paragraph (1), he/she shall make a determination on the amount of compensation, etc. within three months after consultation with the applicant, and notify the applicant of the amount.

(3) If an agreement pursuant to the provisions of paragraph (2) is not reached, the Minister of Environment, the head of a local government, or the applicant may apply for adjudication to a competent land expropriation committee as prescribed by Presidential Decree.

Article 54 (Support from State Treasury, etc.)

The State may provide all or some of the expenses of the following projects within budgetary limits for relevant administrative agencies, local governments or organizations relating to the protection of nature which execute projects for the protection of nature: <Amended by Act No. 13885, Jan. 27, 2016>

1. Projects for providing assistance to campaigns for protection of nature pursuant to the provisions of Article 5;
2. Projects for providing assistance to residents of ecological and scenery conservation areas, their adjoining areas and ecological villages pursuant to the provisions of Articles 20 and 42;
3. Projects for the installation of facilities for conservation and utilization of the natural environment pursuant to the provisions of Article 38;
4. Projects for the installation of ecological corridors pursuant to the provisions of Article 45;
5. Projects under the subparagraphs of Article 49;
6. Other projects for conservation of the natural environment, which is prescribed by Presidential Decree.

(2) Local governments may subsidize organizations related to the conservation of nature with the whole or part of the expenses necessary for their activities and operation within budgetary limits. <Newly Inserted by Act No. 13885, Jan. 27, 2016>

Article 55 (Korean Association for Conservation of Nature)(1) The Korean Association for Conservation of Nature (hereinafter referred to as the "Association") shall be established in order to carry out the following projects for conservation of the natural environment:

1. Investigation and research into the actual conditions and plans for conservation of the natural environment;
2. Conservation of biological diversity, such as restoration of damaged ecosystems or species, creation of sub-ecosystems, etc.;

3. Education and public relations on nature, such as production, publication, etc. of videos on the conservation of the natural environment.

(2) The Association shall be incorporated as a juristic person.

(3) Funds needed for projects of the Association shall be raised from membership fees, earnings from projects, etc., and the State or a local government may provided with some of the necessary expenses within budgetary limits.

(4) The provisions of the Civil Act on incorporated associations shall apply mutatis mutandis to matters regarding the Association that are not prescribed in this Act.

Article 55-2 (Ecotourism Association)(1) Ecotourism business operators, organizations related to ecotourism, and other persons engaged in business relating to ecotourism may establish an ecotourism association after obtaining permission from the Minister of Environment in order to carry out the following:

1. Investigation and research on areas and tour programs appropriate for ecotourism;

2. International cooperation business related to ecotourism;

3. Other projects necessary to nurture ecotourism.

(2) An ecotourism association shall be a juristic person.

(3) If deemed necessary to foster ecotourism, the State or a local government may pay some of the expenses necessary for an ecotourism association, within budgetary limits.

(4) Except those provided for in this Act, the provisions of the Civil Act concerning incorporated associations shall apply mutatis mutandis to ecotourism associations.

[This Article Newly Inserted by Act No. 11671, Mar. 22, 2013]

Article 56 (Marks Symbolizing Nature and Symbolic Species of Local Government)(1)

The State may install marks symbolizing nature in an area requiring conservation of the natural environment, such as ecological and scenery conservation areas, according to the type of the area, and a local government may utilize the marks symbolizing nature after partial modification in consideration of the characteristics of the area under its jurisdiction.

(2) Any local government may designate as its symbol species or symbol ecosystem species of wild fauna or flora, or an ecosystem which are of importance and represent the area concerned, and conserve and utilize them.

Article 57 (Promotion of Private Associations for Conservation of Natural Environment)

In order to conserve the natural environment, the Minister of Environment may foster private associations for conservation of the natural environment which carry out any of the following activities: <Amended by Act No. 10977, Jul. 28, 2011>

1. Cooperation and exchange with international associations and organizations for conservation of the natural environment;

2. Protection of endangered wildlife;

3. Other conservation activities for the natural environment and natural resources.

Article 58 (Honorary Instructor of Conservation of Natural Environment)(1) For the purposes of instruction, education, etc. on the conservation of the natural environment, the

Minister of Environment or the head of a local government may entrust members of private associations for conservation of the natural environment, or persons who are carrying out activities of conservation of the natural environment with sincerity or persons recommended by the Association as honorary instructors on conservation of the natural environment.

(2) Certificates confirming identity shall be issued to honorary instructors on conservation of the natural environment as prescribed by Ordinance of the Ministry of Environment.

(3) Methods of entrustment of honorary instructor on conservation of the natural environment, the scope of their activities pursuant to the provisions of paragraph (1), and other necessary matters shall be prescribed by Presidential Decree.

Article 59 (Guides on Natural Environment)(1) The Minister of Environment or the head of a local government may employ and utilize, as a guide on the natural environment, a person who has taken training courses determined by Ordinance of the Ministry of Environment at a training institution for guides on the natural environment referred to in Article 59-2 (1), or may have him/her utilized.

(2) A guide on the natural environment shall provide explanations, public relations, education, guidance on ecological research, etc. professionally to persons who use ecological and scenery conservation areas, wetland protection areas prescribed in the Wetlands Conservation Act, natural parks prescribed in the Natural Parks Act, etc. in order to enhance their awareness of the conservation of the natural environment, etc.

(3) The Minister of Environment or the head of a local government may provide financial and other necessary support for activities of guides on the natural environment within budgetary limits.

[This Article Wholly Amended by Act No. 10979, Jul. 28, 2011]

Article 59-2 (Designation of Training Institutions for Guides on Natural Environment)(1) The Minister of Environment may designate a training institution for guides on the natural environment (hereinafter referred to as "training institution") in order to nurture guides on the natural environment.

(2) A person who intends to be designated as a training institution shall meet criteria for designation determined by Ordinance of the Ministry of Environment, such as facilities necessary for education and experts, and file an application for the designation to the Minister of Environment.

(3) Matters concerning designation procedures for, operation, etc. of a training institution shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 10979, Jul. 28, 2011]

Article 59-3 (Revocation of Designation)(1) Where a training institution designated pursuant to Article 59-2 (1) falls under any of the following cases, the Minister of Environment may revoke the designation; Provided, That in cases under subparagraph 1, it shall revoke such designation:

1. Where it has been designated by fraud or other wrongful means;
2. Where it comes to fail to meet the criteria referred to in Article 59-2 (2) and (3).

(2) Where the Minister of Environment intends to revoke designation pursuant to paragraph (1), he/she shall hold a hearing.

[This Article Newly Inserted by Act No. 10979, Jul. 28, 2011]

Article 60 (Natural Environment Learning Garden)(1) For the purposes of revitalization of campaigns for protection of the nature pursuant to the provisions of Article 5 and enhancement, etc. of understanding of the importance of conservation of the natural environment, the Mayor/Do governor may establish natural environment learning gardens that fulfill the functions of education, training, public relations, etc. on the natural environment under the control of the Mayor/Do governor.

(2) Necessary matters regarding installation and operation of natural environment learning gardens shall be laid down by municipal ordinances of a local government concerned.

Article 61 (Delegation and Entrustment of Authority)(1) The Minister of Environment may delegate part of his/her authority referred to in this Act to the head of an institution under his/her management or the Mayor/Do governor, as prescribed by Presidential Decree. <Amended by Act No. 8045, Oct. 4, 2006; Act No. 11671, Mar. 22, 2013>

(2) The Minister of Environment may entrust part of his/her duties referred to in this Act to a relevant specialized institution, as prescribed by Presidential Decree.

Article 62 Deleted. <by Act No. 8045, Oct. 4, 2006>

CHAPTER VII PENAL PROVISIONS

Article 63 (Penalty Provisions)

Anyone falling under any of the following subparagraphs shall be punished by imprisonment with labor for not more than three years, or by a fine not exceeding thirty million won: <Amended by Act No. 13168, Feb. 3, 2015>

1. Anyone who damages natural ecology and natural scenery in violation of the provisions of Article 15 (1) (including where the provisions of Article 22 (2) apply mutatis mutandis) within the core area;
2. Anyone who damages natural ecology and natural scenery in violation of the provisions of Article 15 (1) 2 through 5 within the buffer area;
3. Anyone who violates an order of suspension, order of restoration to original state or order of measures pursuant to the provisions of Article 17 (including where the provisions of Article 22 (2) apply mutatis mutandis).

Article 64 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with prison labor for not more than two years, or by a fine not exceeding twenty million won: <Amended by Act No. 11671, Mar. 22, 2013; Act No. 13168, Feb. 3, 2015>

1. A person who damages natural ecology or natural sceneries within a transition area, in violation of Article 15 (1);
2. A person who commits a prohibited act, in violation of subparagraph 1 of Article 16 (including cases where Article 22 (2) applies mutatis mutandis).

Article 65 (Joint Penal Provisions)

Where a representative of a juristic person, or agent, employer or other employee of a juristic person or individual commits an offence referred to in Article 63 or 64 in the service of the juristic person or individual, the juristic person or individual shall be punished by the respective fines in addition to the punishment of the offender: Provided, That this shall not apply where a juristic person or an individual has not been negligent in paying due attention and supervision for relevant business to prevent such offense. <Amended by Act No. 11671, Mar. 22, 2013>

Article 66 (Fines for Negligence)(1) Anyone who violates the measures of the Mayor/Do governor referred to in Article 26 shall be punished by a fine for negligence not exceeding ten million won.

(2) Any of the following persons shall be punished by a fine for negligence not exceeding two million won: <Amended by Act No. 11671, Mar. 22, 2013>

1. A person who commits a prohibited act in violation of subparagraphs 2 through 4 of Article 16 (including cases where Article 22 (2) applies mutatis mutandis);

2. A person who enters, in violation of Article 16-2, an ecological and scenery conservation area the access to which is limited or prohibited;

3. A person who refuses, obstructs or evades investigation activities without reasonable grounds, in violation of Article 33 (4);

4. A person who violates the restriction on lumbering of growing trees, change of form and quality of land, or of access, cooking and camping referred to in Article 40.

(3) Fines for negligence referred to in paragraphs (1) and (2) shall be imposed and collected by the Minister of Environment or the head of a local government (hereinafter referred to as "person entitled to impose"), as prescribed by Presidential Decree.

(4) Anyone who is dissatisfied with the disposition of a fine for negligence referred to in paragraph (3) may raise an objection to the person entitled to impose.

(5) Where a person who was imposed a fine for negligence referred to in paragraph (3) has raised an objection pursuant to paragraph (4), the person entitled to impose shall inform the competent court of the fact without delay, and the informed court shall put the case of fine for negligence on trial in accordance with the Non-Contentious Case Litigation Procedure Act.

(6) Where an objection is not raised within the period of time referred to in paragraph (4) and the fine for negligence is not paid, it shall be collected in the same manner as delinquent national or local taxes are collected.

ADDENDA (Omitted)

12. Enforcement Decree of the Natural Environment Conservation Act

[Enforcement Date 01. Jan, 2017.] [Presidential Decree No.27751, 30. Dec, 2016., Amendment by Other Act]

Article 1 (Purpose)

The purpose of this Decree is to prescribe the matters delegated by the Natural Environment Conservation Act and matters necessary for the enforcement thereof.

Article 2 (Matters to be Included in Basic Policy for Natural Environmental Conservation)

The term "matters prescribed by Presidential Decree" as referred to in Article 6 (2) 8 of the Natural Environment Conservation Act (hereinafter referred to as the "Act") means the matters listed in the following subparagraphs:

1. The upbringing of specialized manpower for the conservation of the natural environment and the expansion of research and investigation organizations;
2. The promotion of projects for the conservation of the natural environment and the raising of money for the expenses thereof.

Article 3 (Consultation on Principal Policy)

Principal policies or plans directly related to natural environment conservation on which the head of a central administrative agency has to consult with the Minister of Environment pursuant to Article 7 (3) of the Act shall be as follows: <Amended by Presidential Decree No. 19639, Aug. 4, 2006; Presidential Decree No. 19991, Apr. 4, 2007; Presidential Decree No. 20222, Aug. 17, 2007; Presidential Decree No. 20256, Sep. 10, 2007; Presidential Decree No. 22560, Dec. 29, 2010>

1. Plans for designation as inducement zones referred to in Article 23 of the Industrial Cluster Development and Factory Establishment Act;
2. The designation as free trade zones referred to in Article 4 of the Act on the Designation, etc. of Free Trade Zone;
3. Mining development plans and annual enforcement plans referred to in Article 85 of the Mining Industry Act;
4. The designation as natural recreation forests referred to in Article 13 of the Forestry Culture and Recreation Act;
5. The designation as a precious natural treasure referred to in Article 25 of the Cultural Heritage Protection Act and the designation as protection zones referred to in Article 27 of the same Act.

Article 4 (Minor Modifications to Basic Plan for Conservation of Natural Environment)

The term "insignificant matters prescribed by Presidential Decree" as referred to in the proviso to Article 8 (5) of the Act means those matters, exclusive of the matters in the following subparagraphs:

1. Matters regarding the setting of the basic direction and establishment of objectives for the conservation of the natural environment;
2. Matters regarding major promotional tasks for the conservation of the natural environment;
3. Matters regarding principal policies on nature conservation to be promoted by each local government;
4. Matters regarding crucial conservation and management of natural scenery;
5. Matters regarding the construction and promotion of ecological axis;

6. Matters regarding major projects for the restoration of ecosystems, such as the construction of ecological corridors, the restoration of damaged land;
7. Where 30/100 or more of the total amount is modified from among the matters regarding the calculation of expenses and plans for raising funds;
8. Matters regarding the construction and operation of the comprehensive geographic information system for natural environment pursuant to the provisions of Article 11 of the Act.

Article 5 (Matters to be Included in Basic Plan of Conservation of Natural Environment)

The term "matters prescribed by Presidential Decree" as referred to in subparagraph 10 of Article 9 of the Act means the matters in the following subparagraphs:

1. Matters regarding the promotion of campaigns for nature protection;
2. Matters regarding international cooperation for the conservation of the natural environment.

Article 6 (Entrusting Specialized Organization with Construction and Operation of Information Network on Natural Environment)

The Minister of Environment may entrust a specialized organization in the fields of the natural environment and ecology from among specialized organizations referred to in Article 12 (2) of the Enforcement Decree of the Framework Act on Environmental Policy with the duties of the construction and operation of an information network on the natural environment referred to in Article 11 (3) of the Act. <Amended by Presidential Decree No. 23967, Jul. 20, 2012>

Article 7 (Scope and Standards for Designation as Ecological and Scenery Conservation Areas)

(1) The term "area prescribed by Presidential Decree" as referred to in Article 12 (1) 4 of the Act means an area recommended by the head of the relevant administrative agency, Special Metropolitan City Mayor, Metropolitan City Mayor or Do governor (hereinafter referred to as the "Mayor/Do governor") to be in need of special conservation because of its splendid scenery.

(2) In designating as an ecological and scenery conservation area pursuant to the provisions of Article 12 (1) of the Act, the Minister of Environment may lay down detailed standards for designation after consultation with the head of the relevant central administrative agency if necessary for the designation as an area highly worth conserving when viewed objectively.

Article 8 (Topographic Map Used for Designation as Ecological and Scenery Conservation Areas)

The term "topographical map prescribed by Presidential Decree" as referred to in the main body of Article 13 (1) of the Act and the main body of Article 24 (1) of the Act refers to a topographic map with a scale of 1:5,000 or larger indicating the scope and size by zone of the relevant ecological and scenery conservation areas, which also indicates a cadastral map or upon which a cadastral map is drawn.

Article 9 (Minor Modifications to Ecological and Scenery Conservation Area)

The term "insignificant matters prescribed by Presidential Decree" as referred to in the proviso to Article 13 (1) of the Act means matters excluding the cases listed in the following

subparagraphs:

1. Where the whole area of an ecological and scenery conservation area is enlarged or reduced;
2. Where a transition area for ecological and scenery conservation (hereinafter referred to as a "transition area") is adjusted to a core area for ecological and scenery conservation (hereinafter referred to as a "core area") or to a buffer area for ecological and scenery conservation (hereinafter referred to as a "buffer area");
3. Where a buffer area is adjusted to a core area;
4. Where the adjusted area of a core area, buffer area or transition area is 10/100 or more of the total area (excluding cases falling under subparagraph 2 or 3).

Article 10 (Matters to be Included in Basic Plan for Management of Ecological and Scenery Conservation Area)

The term "matters prescribed by Presidential Decree" as referred to in subparagraph 4 of Article 14 of the Act means the matters contained in the following subparagraphs:

1. Matters regarding the observation of changes in the ecosystem and natural scenery within an ecological and scenery conservation area;
2. Matters regarding the disposal plan for sewage and waste water within an ecological and scenery conservation area and an assistance plan for the disposal of sewage and waste water pursuant to the provisions of Article 20 (2) of the Act;
3. Matters regarding the calculation of expenses needed for the execution of business included in a basic plan of management of an ecological and scenery conservation (hereinafter referred to as a "basic management plan") and plan for raising money therefor;
4. Matters regarding an assistance plan for increasing inhabitants' income and promoting their welfare, such as environmentally friendly farming, the promotion of ecological tourism pursuant to the provisions of Article 41 of the Act.

Article 11 (Acts Harmful to Conservation of Natural Environment)

The term "acts prescribed by Presidential Decree" as referred to in Article 15 (1) 5 of the Act means an act falling under any of the following subparagraphs:

1. The covering over and reclamation of the surface of water;
2. Lighting a fire.

Article 12 (Scope of Disaster)

The term "disaster prescribed by Presidential Decree" referred to in Article 15 (2) and the proviso other than the subparagraphs of Article 16 of the Act means a case falling under any of the following subparagraphs:

1. Where injury to human life or property loss has occurred due to collapse, explosion, etc. of a building, structure, etc.;
2. Where a fire has broken out;
3. Where it is necessary in order to rescue human life from other extant dangers.

Article 13 (Exclusion of Limitation on Activities, etc.)(1) The term "activities prescribed by Presidential Decree" as referred to in Article 15 (2) 3 of the Act means activities of

residents residing in an ecological and scenery conservation area or the vicinity thereof, or the owners, occupants or administrators of land or public waters within an ecological and scenery conservation area, namely, farming, fishing, collecting fisheries products, mushrooms, wild greens, etc. or other acts corresponding thereto that are deemed as ecologically sustainable.

(2) The term "acts prescribed by Presidential Decree and where the necessary facilities are installed" as referred to in Article 15 (2) 8 of the Act means those falling under any of the following subparagraphs:

1. Where the facilities, etc. included in the basic management plan pursuant to the provisions of Article 14 of the Act are installed;
2. Periodic surveys of the situation and scientific research on the ecosystem and natural scenery of ecological and scenery conservation areas, or where the facilities, etc. for observation necessary for the execution thereof are installed;
3. Where the facilities, etc. deemed necessary for the protection of ecological and scenery conservation areas and the prevention of damage to the natural environment from trespassing by outside persons are installed.

Article 14 (Acts Allowed within Buffer Areas)(1) The term "buildings, etc. prescribed by Presidential Decree" as referred to in Article 15 (3) 1 of the Act means the following facilities (including the auxiliary facilities and attached parking lots), which are below the scale prescribed by Ordinance of the Ministry of Environment: <Amended by Presidential Decree No. 25273, Mar. 24, 2014>

1. Those falling under any of the following prescribed in the attached Table 1 (hereafter referred to as the "same attached Table" in this paragraph) of the Enforcement Decree of the Building Act:

- (a) A detached house in subparagraph 1 (a) of the same attached Table;
- (b) A retail shop selling daily necessities, etc. in subparagraph 3 (a) of the same attached Table;
- (c) A resting restaurant in subparagraph 3 (b) of the same attached Table;

2. The facilities for keeping, storing or selling the agricultural, forestry or fisheries products.

(2) The term "facilities prescribed by Presidential Decree" as referred to in Article 15 (3) 2 of the Act means any of the following facilities, from among the facilities which are reflected in a basic management plan:

1. The facilities for the education, public relations or research on the natural environment, such as a center for learning about nature, an ecology museum, forest museum, arboretum, botanical garden, ecological forest, center for experiencing ecology, ecological research institution, etc.;
2. The youth training center or youth camp pursuant to Article 10 of the Juvenile Activity Promotion Act.

Article 15 (Acts Allowed within Transition Areas)(1) The term "buildings, etc. prescribed by Presidential Decree" as referred to in Article 15 (4) 2 of the Act means any of the following

buildings: <Amended by Presidential Decree No. 20791, May 26, 2008; Presidential Decree No. 21098, Oct. 29, 2008; Presidential Decree No. 21621, Jul. 16, 2009>

1. Residential buildings below the scale prescribed by Ordinance of the Ministry of Environment;

2. Buildings below the scale prescribed by Ordinance of the Ministry of Environment, which falls under any of the following (limited to new construction, extension or remodeling):

(a) First class neighborhood living facilities (excluding resting restaurants, bakeries and bath houses) in subparagraph 3 of the attached Table 1 (referred to as the "same attached Table" in this paragraph and paragraph (2)) of the Enforcement Decree of the Building Act;

(b) Second class neighborhood living facilities (excluding general restaurants, resting restaurants, bakeries, indoor angling spots, golf driving ranges, firearms shops, bars and massage parlors) in subparagraph 4 of the same attached Table;

(c) Hospitals in subparagraph 9 (a) of the same attached Table;

(d) Animal sheds or crop farming sheds in subparagraph 21 (a) and (e) of the same attached Table;

(e) Charnel houses (limited to those for local residents) in subparagraph 26 (b) of the same attached Table;

(f) Elementary schools.

(2) The term "facilities for board, lodging or stores prescribed by Presidential Decree" as referred to in Article 15 (4) 3 of the Act means any of the following facilities, which are below the scale prescribed by Ordinance of the Ministry of Environment: <Amended by Presidential Decree No. 25273, Mar. 24, 2014>

1. Resting restaurants and bakeries in subparagraph 3 (b) of the same attached Table;

2. Resting restaurants and bakeries in subparagraph 4 (h) of the same attached Table;

3. General restaurants in subparagraph 4 (i) of the same attached Table;

4. Facilities for training in subparagraph 12 of the same attached Table.

(3) The term "public facilities and amenities prescribed by Presidential Decree" as referred to in Article 15 (4) 4 of the Act means any of the following facilities:

1. Transportation facilities, such as roads (including exploratory routes), parking lots, etc.;

2. Public facilities, such as waterworks, sewerage, power poles, etc., or amenities for regional residents, which are installed by the State, local governments, etc.

Article 16 (Restriction on Development Projects, etc.)(1) The term "development projects prescribed by Presidential Decree" referred to in Article 15 (5) of the Act means the following projects: <Amended by Presidential Decree No. 19639, Aug. 4, 2006; Presidential Decree No. 20763, Apr. 3, 2008; Presidential Decree No. 22449, Oct. 14, 2010>

1. Projects for construction of forest roads referred to in Article 9 of the Creation and Management of Forest Resources Act, and any project subject to permission or reporting, such as logging standing trees, referred to in Article 36 (1) and (4) of the same Act;

2. Projects for reclamation referred to in the Public Waters Management and Reclamation Act;

3. Projects subject to permission for or consultation on diverting the use of farmland referred to in Article 36 of the Farmland Act;
4. Projects subject to permission for or consultation on diverting the use of grassland referred to in Article 23 of the Grassland Act;
5. Projects that entail an act falling under any of the subparagraphs of Article 33 (1) of the River Act;
6. Projects subject to permission for aggregate picking referred to in Article 22 of the Aggregate Picking Act.

(2) Where the Minister of Environment intends to impose restrictions on development projects or farming activities pursuant to Article 15 (5) of the Act, he/she shall consult with the head of a relevant central administrative agency and the Mayor/Do governor. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

(3) Where the Minister of Environment imposes restrictions on development projects or farming activities referred to in Article 15 (5) of the Act, he/she shall announce the types of projects subject to restrictions, the locations and areas of restricted zones, the reasons for restrictions and other necessary matters to the public. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

Article 17 (Prohibited Acts)

The term "acts prescribed by Presidential Decree" referred to in subparagraph 4 of Article 16 of the Act means an act falling under any of the following subparagraphs: <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

1. Driving away wild animals by emitting sound, light, smoke, foul odor, etc.;
2. Damaging nests or habitats of wild fauna and flora;
3. Collecting, lumbering, withering to death grass, standing trees, or bamboo within buffer or transition areas, or sprinkling or injecting poisonous substances or agricultural chemicals so as to poison to death: Provided, That cultural properties pursuant to the Cultural Heritage Protection Act and activities within the protection areas thereof shall be governed by the Cultural Heritage Protection Act, and cases that fall under any of the following items and do not fall under the objects of restriction on acts pursuant to the provisions of Article 15 of the Act shall be excluded:
 - (a) Where it falls under Article 15 (2) 3 through 8 of the Act;
 - (b) Where it falls under Article 15 (3) 1 through 5 of the Act;
 - (c) Where it falls under Article 15 (4) 1 through 4 of the Act;
4. Grazing domestic animals;
5. Hunting animals or collecting eggs within buffer or transition areas, or installing explosives, snares, traps, nets, pitfalls, etc.: Provided, That cultural properties and activities within the protection zones thereof pursuant to the Cultural Heritage Protection Act shall be governed by the Cultural Heritage Protection Act;
6. Grazing animals: Provided, That this shall not apply where animals in distress are kept loose in the same area after they are rescued and given medical treatment, or the head of

the relevant administrative agency keeps animals loose after consulting with the Minister of Environment for the restoration of wild fauna and flora.

Article 17-2 (Exceptions to Limited Access)

The term "act determined by Presidential Decree" under Article 16-2 (2) 7 of the Act means academic investigation and research recognized by the Minister of Environment.

[This Article Newly Inserted by Presidential Decree No. 24762, Sep. 23, 2013]

Article 18 (Selection of Land, etc. subject to Administrative Conversion)(1) Where the Minister of Environment intends to qualify for an administrative conversion pursuant to the provisions of the main body of Article 18 (1) of the Act, he/she shall request the administrative conversion to the head of the relevant central administrative agency along with the documents stating the location and size of the relevant area, ecological and scenic value, etc. <Amended by Presidential Decree No. 21641, Jul. 27, 2009>

(2) Where it is necessary to ascertain state-owned land, buildings or other items attached to the land (hereafter referred to as "land, etc." in this Article) for which he/she intends to request an administrative conversion, the Minister of Environment may request cooperation in the matters in the following subparagraphs from the head of the relevant central administrative agency, such as the Minister of National Defense: <Amended by Presidential Decree No. 21641, Jul. 27, 2009>

1. Perusal or lending of data on the location, size, usage, etc. of state-owned land, etc. located in the area pursuant to the provisions of Article 18 (1) of the Act;
2. Access to the limited area where necessary for a field survey.

Article 19 (Assistance for Residents in Ecological and Scenery Conservation Area, etc.)(1) Assistance for residents pursuant to the provisions of Article 20 (1) of the Act shall be offered for the installation of purification facilities for filtering filthy water or excreta due to construction, remodeling or extension of a house (excluding apartment houses and tenement houses pursuant to the provisions of subparagraph 2 (a) and (b) of the attached

Table 1 of the Enforcement Decree of the Housing Act) within an ecological and scenery conservation area or the vicinity thereof.

(2) The bounds of the vicinity pursuant to the provisions of paragraph (1) shall be determined and announced by the Minister of Environment upon taking consideration of the source of pollution and volume of water pollutants, self-purification capability of rivers, etc.

(3) The standards for calculation of assistance with expenses pursuant to the provisions of Article 20 (1) of the Act shall be determined and announced by the Minister of Environment in consideration of the kinds and scale of purification facility, location of the area to install, etc.

(4) Those who intend to receive assistance pursuant to the provisions of Article 20 (1) of the Act shall make an application to the Mayor/Do governor along with the documents prescribed by Ordinance of the Ministry of Environment.

(5) The Mayor/Do governor shall formulate a plan for assistance for residents containing the matters in the following subparagraphs in accordance with the application for assistance

pursuant to the provisions of paragraph (4) and submit it to the Minister of Environment by not later than the end of April each year:

1. Project outline;
2. The area and number of households subject to assistance;
3. Plans for the promotion of assistance;
4. Total amount of assistance;
5. Other matters necessary for the promotion of assistance.

Article 20 (Object of Consultation, Examination of Impact on Natural Scenery, etc.)(1)

The term "distance prescribed by Presidential Decree" as referred to in Article 28 (1) 1 of the Act shall be as prescribed in the attached Table 1.

(2) The term "development project, etc. prescribed by Presidential Decree" as referred to in Article 28 (1) 2 of the Act shall be as prescribed in the attached Table 2.

(3) The term "cases prescribed by Presidential Decree" as referred to in the proviso to Article 28 (3) of the Act means those falling under any of the following subparagraphs:

1. Where it goes through the deliberation of the Local Urban Planning Committee pursuant to the provisions of Article 59 of the National Land Planning and Utilization Act;
2. Where it goes through the deliberation of the Local Building Committee pursuant to the provisions of Article 5 (4) of the Enforcement Decree of the Building Act.

Article 21 (Composition, etc. of Natural Scenery Deliberation Committee)(1)

The Natural Scenery Deliberation Committee (hereinafter referred to as the "Deliberation Committee") pursuant to the provisions of Article 29 (2) of the Act shall consist of 15 or less members, including one chairperson.

(2) The chairperson shall be appointed by the head of the local environmental management office from among the public officials in charge of dealing with affairs related to natural scenery under his/her jurisdiction. The members shall be commissioned by the head of the local environmental management office from among the persons who have abundant knowledge and experience in the conservation, management, evaluation, etc. of natural scenery, such as landscape, urban planning, construction, environment, agriculture, forestry, forest resources, ecology, etc.

(3) The term of office for the members shall be two years and may be extended for a further term.

(4) The Deliberation Committee shall deliberate upon the matters in the following subparagraphs:

1. Deliberation upon the impact on natural scenery caused by development projects, etc. for which a request for a consultation has been made pursuant to the provisions of Article 28 (1) of the Act;
2. Other matters for which the head of the local environmental management office makes a request for deliberation, in cases where they are deemed to have a substantial influence on the natural scenery.

(5) The Deliberation Committee shall examine the matters in the following subparagraphs in

deliberating upon the impact on natural scenery in paragraph (4) 1:

1. The current status of natural scenery resources (including the area for projects and surrounding areas thereof);
2. View axis linking major view points and major scenic attractions;
3. Whether or not natural scenery that deserves conservation has been damaged;
4. Suitability to surrounding natural scenery;
5. Plans to reduce impact on the scenery;
6. The prediction and evaluation of changes in scenery.

Article 22 (Operation, etc. of Deliberation Committee)(1) The chairperson shall call and preside over meetings.

(2) The meetings of the Deliberation Committee shall consist of the chairperson and five or more members designated by the chairperson for each meeting.

(3) The meetings of the Deliberation Committee shall convene with a majority of the constituent members present pursuant to the provisions of paragraph (2), and shall pass resolutions by a majority vote of the members present.

(4) The chairperson may hear the opinions of interested persons where it is deemed necessary for the matters of deliberation of the Deliberation Committee.

(5) Allowances and travel expenses within the extent of budget may be paid to those members present at the Deliberation Committee: Provided, That this shall not apply where a member who is a public official attends the Deliberation Committee upon business directly connected with his/her duty.

(6) Matters necessary for the operation of the Deliberation Committee, besides the matters prescribed in this Decree, shall be prescribed separately by the Minister of Environment.

Article 23 (Details, Method, etc. of Investigation into Natural Environment)(1) The details of the investigation into natural environmental conditions pursuant to the provisions of Article 30 (5) of the Act shall be as listed in the following subparagraphs: <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

1. The present status and distribution of biodiversity components, such as mountains, rivers, islands;
2. The peculiarity of geographical features, geological features and natural scenery;
3. The diversity and status of distribution of wild fauna and flora;
4. The grade of green area according to the methods of investigation and the standards for classification prescribed by the Minister of Environment;
5. The status of plant community;
6. The status quo of habitation of endangered wild fauna and flora, and indigenous living organisms in Korea;
7. The status quo of habitation of living species useful for economic or medical purposes;
8. The status quo of habitation of wild species genetically similar to agricultural products and livestock, etc.;
9. Soil characteristics;

10. Other matters recognized by the Minister of Environment as requiring a special investigation for the conservation of the natural environment.

(2) The investigation into the natural environment pursuant to the provisions of Article 30 (5) of the Act shall be made based on field investigations by natural environment investigators pursuant to the provisions of Article 32 of the Act in principle. However, remote sensing via aircraft, artificial satellites, etc., or indirect methods of investigation through hearings, data, documents, etc. may be employed.

(3) Where a natural environment investigator conducts on-the-spot investigations pursuant to the provisions of paragraph (2), the Minister of Environment or the Mayor/Do governor may request the head of the relevant administrative agency to cooperate in dealing with the matters falling under any of the following subparagraphs. In such cases, the head of the relevant administrative agency shall comply with such request unless any special ground exists otherwise: <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

1. Access to off-limits sites under his/her jurisdiction;
2. Perusal or lending of investigation-related materials.

(4) The Minister of Environment shall formulate a plan for the investigation of natural environment containing matters prescribed by Ordinance of the Ministry of Environment by not later than ten days before the commencement date of investigation, and notify the head of the relevant administrative agency and the Mayor/Do governor thereof. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

Article 24 (Areas Included in First Grade Zones of Ecology and Nature)

The term "areas which meet the standards prescribed by Presidential Decree" as referred to in Article 34 (1) 1 (e) of the Act means any of the following areas: <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

1. Natural virgin forests, forests close thereto, or alpine meadows;
2. Rivers, lakes and marshes, or estuaries in their natural state or a state close thereto.

Article 25 (Separately Managed Zones)

The term "area prescribed by Presidential Decree" referred to in Article 34 (1) 4 of the Act means any of the following areas: <Amended by Presidential Decree No. 19639, Aug. 4, 2006; Presidential Decree No. 19991, Apr. 4, 2007; Presidential Decree No. 22073, Mar. 9, 2010; Presidential Decree No. 22560, Dec. 29, 2010; Presidential Decree No. 24001, Jul. 31, 2012>

1. Forest conservation zones referred to in Article 7 (1) of the Forest Protection Act;
2. Natural parks referred to in subparagraph 1 of Article 2 of the Natural Parks Act;
3. Zones designated as a precious natural treasure (including the protection zone thereof) pursuant to Article 25 of the Cultural Heritage Protection Act;
4. Special protection districts for wildlife referred to in Article 27 (1) of the Wildlife Protection and Management Act or wildlife protection districts referred to in Article 33 (1) of the same Act;
5. Fisheries protection areas (excluding areas included in the ocean) referred to in Article 40

of the National Land Planning and Utilization Act;

6. Wetland protection areas (excluding coastal wetland protection areas) referred to in Article 8 (1) of the Conservation of Wetlands Act;

7. Baekdudaegan protection areas referred to in Article 6 of the Act on the Protection of Baekdu-Jiri Grand Mountain Ranges;

8. Ecological and scenery protection areas referred to in Article 12 of the Act;

9. City/Do ecological and scenery protection areas referred to in Article 24 of the Act.

Article 26 (Request for Cooperation in Provision of Data)

Pursuant to the provisions of Article 34 (3) of the Act, the Minister of Environment may request the following data from the head of the relevant central administrative agency and the head of the relevant local government: <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

1. Data regarding the natural environment, liberal arts or social sciences possessed by a relevant central administrative agency or a local government;

2. Ecology and nature maps drawn up by a local government, and the basic data thereon.

Article 27 (Methods of Drawing Ecology and Nature Maps, etc.)(1) The Minister of Environment shall lay down guidelines for drawing up ecology and nature maps in consultation with the head of the relevant central administrative agency and the Mayor/Do governor under the provisions of Article 34 (4) of the Act and draw up ecology and nature maps in accordance with the guidelines. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

(2) The head of the relevant central administrative agency and the Mayor/Do governor may request the Minister of Environment to correct or supplement zone classifications for ecology and nature maps drawn up in accordance with the provisions of paragraph (1). In such cases, the details of actual field confirmation or objective data, etc. shall be attached. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

(3) In drawing ecology and nature maps, the Minister of Environment may make green area nature maps showing the natural conditions, artificial changes, etc. in the green areas, etc. in order to utilize it as basic data.

(4) Any necessary matters for the preparation of green area nature maps pursuant to the provisions of paragraph (3) shall be laid down by the Minister of Environment.

Article 28 (Purposes of Utilization of Ecology and Nature Maps, etc.)(1) The purposes for utilization of ecology and nature maps referred to in Article 34 (4) of the Act shall be as follows: <Amended by Presidential Decree No. 21185, Dec. 24, 2008; Presidential Decree No. 23966 & 23967, Jul. 20, 2012>

1. The comprehensive plan for the national environment, the mid-term comprehensive plan for environmental conservation and the City/Do plan for environmental conservation referred to in Articles 14, 17 and 18 of the Framework Act on Environmental Policy;

2. Plans subject to consultations on strategic environmental impact assessment and projects subject to small-scale environmental impact assessment referred to in Articles 9 and 43 of

the Environmental Impact Assessment Act;

3. Projects subject to environmental impact assessment referred to in Article 22 of the Environment Impact Assessment Act;

4. Development plans that are especially feared to cause adverse effects on the ecosystems among the development plans formulated by the head of a central administrative agency or the head of a local government.

(2) Where the Minister of Environment, the head of a relevant central administrative agency or the head of a local government intends to draw up a plan referred to in subparagraphs of paragraph (1) or to hold a consultation about development projects, he/she shall consider the following standard for each classification zone in ecology and nature maps, and the Minister of Environment shall provide them with ecology and nature maps for this purpose:

1. First grade zones: Conservation and restoration of the natural environment;

2. Second grade zones: Minimization of the damage inflicted by the conservation, development and utilization of the natural environment;

3. Third grade zones: Systematic development and utilization.

Article 29 Deleted. <by Presidential Decree No. 21087, Oct. 20, 2008>

Article 30 (Matters to be Included in Conservation Measures for Biological Diversity and Biological Resources)

The term "matters prescribed by Presidential Decree" as referred to in Article 35 (1) 6 of the Act means those in the following subparagraphs:

1. Exchange of information and data, and technology cooperation on biodiversity components and the natural environment;

2. Public relations and education regarding the conservation of biodiversity;

3. Other matters necessary for the domestic implementation of the Convention on Biological Diversity, etc. pursuant to the provisions of Article 35 (1) of the Act.

Article 31 (Investigation, etc. into Biodiversity Components)(1) The objects of investigations pursuant to the provisions of Article 36 (2) of the Act shall be as listed in the following subparagraphs:

1. The present status on analysis, distribution and usage of domestic biodiversity components;

2. The ecological characteristics and role of living species;

3. The aspects of changes in the ecosystems following natural or artificial disturbances;

4. The development activities likely to cause adverse effects to the conservation of biodiversity and the sustainable use of the biodiversity components;

5. The condition of habitation and ecological characteristics of indigenous species and alien species;

6. Traditional knowledge on the utilization of biodiversity and the current condition of the habitation of living species utilized;

7. Other matters deemed necessary to investigate for the conservation of biodiversity and the sustainable use of the biodiversity components.

(2) Any investigation pursuant to the provisions of paragraph (1) shall be executed by the Minister of Environment. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

(3) In making an investigation pursuant to the provisions of paragraph (2), the Minister of Environment may have the relevant expert prescribed by Ordinance of the Ministry of Environment carry out the relevant investigation as proxy if it is necessary to have such expert carry out the said investigation. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

(4) Where any person who has been requested to carry out an investigation as proxy pursuant to the provisions of paragraph (3) intends to carry it out as proxy, he/she shall formulate a plan containing matters prescribed by Ordinance of the Ministry of Environment and submit it to the Minister of Environment. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

Article 32 (Conclusion, etc. of Contract for Biodiversity Management)(1) Where the Minister of Environment, the head of a relevant central administrative agency or the head of a local government (hereafter in this Article referred to as the "head of a relevant government agency") intends to enter into a contract for biodiversity management in accordance with Article 37 (1) of the Act, he/she shall announce the necessary matters, such as the major provisions of the contract, the area to be covered by the contract and the term of the contract, etc. in the official bulletin of the competent local government and in the bulletin board of Eup/Myeon/Dong having jurisdiction over the relevant area for a period of not less than 15 days.

(2) The owner, occupant, or manager of land or public waters who intends to enter into a contract for biodiversity management pursuant to the provisions of Article 37 (1) of the Act shall submit an application for a contract for biodiversity management as provided for in Ordinance of the Ministry of Environment to the head of the relevant government agency.

(3) Where the head of the relevant government agency has received an application for a contract for biodiversity management pursuant to the provisions of paragraph (2), he/she may adjust the necessary matters, such as the provisions of the contract, the time when the compensation for actual expenses is made, the method of calculating such compensation, etc. after consulting with the applicant, and shall enter into a contract with the applicant on the terms as consulted and adjusted.

(4) The Minister of Environment may determine and notify the Mayor/Do governor of the report of the provisions of contract and other detailed matters necessary for the implementation of the contract for biodiversity management.

Article 33 (Compensation Covering Actual Cost following Contract for Biodiversity Management)(1) The term "standards prescribed by Presidential Decree" as referred to in Article 37 (2) of the Act means those falling under any of the following subparagraphs:

1. Where the suspension of cultivation makes it impossible to harvest crops: the amount obtained by multiplying the area on which crops have become impossible to harvest by the loss per unit area;

2. Where yield is reduced due to changes in cultivation methods: the amount obtained by multiplying the area on which the yield has been reduced by the loss per unit area;
3. Where crops are not harvested for the purpose of feeding wild animals: the amount obtained by multiplying the area on which the crops are not harvested by the loss per unit area;
4. Where land is rented: the amount equivalent to the rent of land in the vicinity thereof;
5. Where a resting place for wild animals, such as a wetland is created: the amount necessary for the creation and management of the wetland;
6. Where loss occurs following the execution of a contract: the amount equivalent to the amount of such loss.

(2) The Minister of Environment may determine necessary matters regarding the detailed standards for compensation covering actual costs under paragraph (1), the amount of compensation per unit area, the method of payment, etc. and notify the Mayor/Do governor thereof.

Article 34 (Designation of Natural Repose Area)(1) Where the head of a local government intends to designate a natural repose area under the provisions of Article 39 (1) of the Act, he/she shall formulate a management plan for a natural repose area including matters in the following subparagraphs:

1. The name, location, and area of the natural repose area;
2. The purpose of designation;
3. The ecological and scenic value of the relevant area;
4. A plan for the installation of facilities for the conservation and utilization of the natural environment;
5. A plan for the management and utilization of the natural repose area;
6. Other matters necessary for the conservation and sound utilization of the natural repose area.

(2) Where a zone for which designation as a natural repose area is intended extends over another zone under the jurisdiction of another local government, it shall undertake a consultation with the head of the relevant local government.

(3) When the head of a local government designates a natural repose area, he/she shall publicly announce the matters in the following subparagraphs without delay:

1. The name, location, area, and scope of the natural repose area;
2. The purpose and grounds for designation of the natural repose area, and the date of such designation;
3. The name and location of the principal natural assets within the natural repose area;
4. The name of the local government which manages the natural repose area.

(4) Where necessary, the Minister of Environment or the Mayor/Do governor may recommend the Mayor/Do governor or the head of Si/Gun/Gu to take measures for the appropriate maintenance and management of the natural repose area.

Article 35 (Criteria for Restricting Lumbering, etc. of Standing Trees)

The term "cases that satisfy the standards prescribed by Presidential Decree" referred to in subparagraph 3 of Article 40 of the Act means those falling under any of the following subparagraphs:

1. Where the ecological value of the natural repose area is lost or serious impact is made on study on the natural conditions or ecological education by causing damage to forests or towering trees in the natural repose area;
2. Where standing trees are in harmony with the surrounding natural scenery, such as traditional temples, historic remains, traditional or ecological village, or they are highly worthwhile to preserve in terms of the sentiment of local residents;
3. Where the head of a local government deems it necessary to preserve an area containing the beautiful natural scenery, such as rocks, cliffs, waterfalls, coastlines.

Article 35-2 (Investigation of Ecological Characteristics and Inhabitation Conditions, etc. of Wild Fauna and Flora)(1) The investigation into the ecological characteristics, inhabitation conditions, etc. of wild fauna and flora referred to in Article 45 (2) of the Act shall be conducted in accordance with the method of preliminary investigation using an information network on the natural environment referred to in Article 11 (1) of the Act, hearings, materials, documents, etc. and the method of detailed on-site investigations by relevant experts.

(2) Investigation into the ecological characteristics, inhabitation conditions, etc. of wild fauna and flora referred to in Article 45 (2) of the Act shall include the following matters:

1. The actual conditions of inhabitation and vegetation of species of wild fauna and flora the mobility and ecological continuity of which are likely to be severed;
2. Ecological characteristics of wild animal species the mobility of which is likely to be severed, such as feed, breeding characteristics, a place to eat, a place to sleep, a place to hide, a migratory route;
3. Major factors threatening the survival of wild animal species the mobility of which is likely to be severed;
4. Environmental factors, such as geographical features, geological features and soil, which relate to inhabitation or vegetation of wild fauna and flora and to the structure or design of ecological corridors;
5. Areas where accidents, such as car accidents involving wild animals, occur frequently and wild animal species which suffer accidents;
6. Connection with a major ecological axis, such as Baekdudaegan referred to in subparagraph 1 of Article 2 of the Baekdu-daegan Protection Act.

(3) The details necessary for investigation of the ecological characteristics, inhabitation conditions, etc. of wild fauna and flora, other than those prescribed by paragraphs (1) and (2), shall be determined by the Minister of Environment.

[This Article Newly Inserted by Presidential Decree No. 23559, Jan. 26, 2012]

Article 36 (Business Subject to Imposition of Cooperation Charges for Ecosystem Conservation)(1) The term "business determined by Presidential Decree" under Article 46

(2) 1 of the Act means a business which is included in a master plan for development under Article 9 (2) 2 of the Environmental Impact Assessment Act among plans subject to strategic environmental impact assessment under Article 9 (1) of the same Act and which is executed without consultation procedures for strategic environmental impact assessment or small-scale environmental impact assessment thereon, such as omission of or exemption from environmental impact assessment thereon under the Acts related to environmental impact assessment or other individual Acts after the relevant plan is established and confirmed. <Newly Inserted by Presidential Decree No. 24762, Sep. 23, 2013>

(2) The term "opencut exploration or mining business, the scale of which is larger than that prescribed by Presidential Decree" referred to in Article 46 (2) 3 of the Act means a business, for which an area approved in a mining plan referred to in Article 42 of the Mining Industry Act is at least 100,000 square meters, and the area (where permission, etc. referred to in subparagraphs of Article 43 (1) of the same Act is obtained after a mining plan is approved, referring to the area adding up the permitted area) deemed granted permission, etc. pursuant to Article 43 of the same Act is at least 5,000 square meters. <Amended by Presidential Decree No. 22556, Dec. 28, 2010; Presidential Decree No. 24762, Sep. 23, 2013>

[This Article Wholly Amended by Presidential Decree No. 20386, Nov. 15, 2007]

Article 37 (Calculation of Damaged Area of Ecosystem)(1) The damaged area of an ecosystem pursuant to the main sentence of Article 46 (3) of the Act means the area of a district where any of the following damage occurs: <Amended by Presidential Decree No. 19991, Apr. 4, 2007; Presidential Decree No. 20386, Nov. 15, 2007>

1. Making changes in the characteristic form and quality of land by removing, excavating or banking up the topsoil of earth;
2. Removing or destroying the area of habitation where plant communities are formed;
3. Cultivating, dredging, filling-up, or reclaiming by drainage, an area with abundant biodiversity, such as wetlands.

(2) Notwithstanding paragraph (1), any of the following areas shall be excluded from the damaged area of ecosystem: <Amended by Presidential Decree No. 21881, Dec. 14, 2009; Presidential Decree No. 26302, Jun. 1, 2015>

1. Where the land category under the Act on the Establishment, Management, etc. of Spatial Data falls under buildings, factories, schools, roads, railways, gymnasiums or recreation parks, its area of land;
2. The area of land where facilities are installed among land besides those prescribed in subparagraph 1.

Article 38 (Imposition and Collection of Cooperation Charge for Ecosystem Conservation)(1) The amount to be imposed per unit area for the cooperation charge for the ecosystem conservation referred to in the main sentence of Article 46 (3) of the Act shall be 300 won per square meter. <Amended by Presidential Decree No. 25837, Dec. 9, 2014>

(2) The regional coefficient referred to in the main sentence of Article 46 (3) of the Act shall

be listed in the following subparagraphs. In such cases, the usage of land shall be deemed the usage of land at the time a disposition, such as authorization, permission, approval, etc. is granted with respect to a business subject to the imposition of the cooperation charge for the ecosystem conservation referred to in Article 46 (2) of the Act (referring to the usage of land before alteration, where the usage of the land is altered for the purpose of executing a project subject to imposition): <Amended by Presidential Decree No. 21881, Dec. 14, 2009; Presidential Decree No. 26302, Jun. 1, 2015>

1. Residential area, commercial area, industrial area or planned management area: 1, where the land category under the Act on the Establishment, Management, etc. of Spatial Data falls under dry paddy field, paddy field, forestry, saltern, river, marsh or park; 0, in the case of other land categories;
2. Greenbelt area: 2;
3. Production management area: 2.5;
4. Agriculture and forestry area: 3;
5. Conservation management area: 3.5;
6. Natural environmental conservation area: 4.

(3) Where the Minister of Environment intends to impose the cooperation charge for the ecosystem conservation, he/she shall issue a notice in writing by not later than five days prior to the commencement of payment within the designated payment period of no longer than one month. <Amended by Presidential Decree No. 20386, Nov. 15, 2007>

(4) Where a person obliged to pay the cooperation charge for the ecosystem conservation in excess of ten million won is deemed to face a difficulty in paying such charge in a lump sum due to any of the following reasons, the Minister of Environment may allow him/her to pay in installments over a specified period of not more than three years: Provided, That the period of payment by installments shall not exceed the period of the project: <Amended by Presidential Decree No. 20386, Nov. 15, 2007>

1. Where serious damage is inflicted on the property due to disasters, thefts, etc.;
2. Where the business faces a serious crisis as the business conditions worsen;
3. Where obvious difficulty has occurred to the cash flow due to disease or serious injury to the person obliged to pay or to his/her live-in family members;
4. Where any grounds exist corresponding to those prescribed in subparagraphs 1 through 3.

(5) Necessary matters regarding the number of installment payments, the deadline for payment, and procedure therefor, etc. referred to in paragraph (4) shall be prescribed by Ordinance of the Ministry of Environment.

Article 39 (Reduction of and Exemption from Cooperation Charge for Ecosystem Conservation)

The term "projects prescribed by Presidential Decree" referred to in the proviso to Article 46 (3) of the Act means projects for national defense and military facilities referred to subparagraph 1 (a) through (f) of Article 2 of the Act on National Defense and Military

Installations Projects, and such projects shall be exempted from the cooperation charge for the ecosystem conservation. <Amended by Presidential Decree No. 23529, Jan. 25, 2012>

Article 40 (Recalculation of Cooperation Charge for Ecosystem Conservation)(1)

Where the cooperation charge for the ecosystem conservation imposed or collected pursuant to the provisions of Article 38 falls under any of the following subparagraphs, the Minister of Environment shall recalculate and correct the levy of the cooperation charge for the ecosystem conservation, and where the amount already paid differs from the recalculated amount, he/she shall reimpose or refund the balance:

1. Where any error is made in deciding objects to impose the cooperation charge for the ecosystem conservation, or a person liable to pay the charge;
2. Where any error is made in the calculation of the cooperation charge for the ecosystem conservation;
3. Where the damaged area of the ecosystem of the relevant zone or complex is calculated by mistake or by fraudulent means.

(2) Where the Minister of Environment intends to reimpose or refund the cooperation charge for the ecosystem conservation pursuant to the provisions of paragraph (1), he/she shall give notice thereof in writing.

Article 41 (Application for Recalculation of Cooperation Charge for Ecosystem Conservation)(1)

Where a person who has received a notice for payment of the cooperation charge for the ecosystem conservation pursuant to the provisions of Article 38 (3) falls under any of the subparagraphs of Article 40 (1), he/she may apply for recalculation of the relevant cooperation charge for the ecosystem conservation within 30 days from the date of receipt of such notice.

(2) Where an application for recalculation pursuant to the provisions of paragraph (1) is filed, the Minister of Environment shall notify the applicant of the result of disposition within 30 days.

Article 42 (Settlement of Cooperation Charge for Ecosystem Conservation)(1)

Where there is a discrepancy in the cooperation charge for the ecosystem conservation already paid following any changes in the ecosystem damage areas within the relevant zone or complex after receiving an inspection, report, etc. upon completion of construction of the project (hereinafter referred to as the "inspection, etc. upon completion of construction") subject to the imposition of the cooperation charge for the ecosystem conservation, the Minister of Environment shall impose or refund the balance by settling the cooperation charge for the ecosystem conservation.

(2) A person who intends to receive the refund of the cooperation charge for the ecosystem conservation pursuant to paragraph (1) shall file an application for refund with the Minister of Environment along with the documents prescribed by Ordinance of the Ministry of Environment within 90 days after receiving inspection, etc. upon completion of construction.

(3) Where the Minister of Environment intends to impose or refund the cooperation charge for the ecosystem conservation by settling such charge pursuant to the provisions of

paragraph (1), he/she shall give written notice thereof.

Article 43 (Grant, etc. of Expenses for Imposition and Collection of Cooperation Charges for Ecosystem Conservation)(1) The term "amount prescribed by Presidential Decree" referred to in the former part of Article 46 (5) of the Act means an amount calculated by multiplying the amount under subparagraph 1 by the ratio under subparagraph 2: <Amended by Presidential Decree No. 24762, Sep. 23, 2013>

1. The collected cooperation charge for the ecosystem conservation and its additional dues;
2. The ratio determined and publicly announced by the Minister of Environment within the scope of 40% to 60%, taking into account the collection rates of the cooperation charge for the ecosystem conservation and its additional dues.

(2) Where the Mayor/Do Governor uses the grant of the cooperation charge for the ecosystem conservation to cover the expenses incurred in imposing and collecting the cooperation charge for the ecosystem conservation pursuant to the latter part of Article 46 (5) of the Act, he/she shall use it within an amount equivalent to ten percent of the collected cooperation charge for the ecosystem conservation and its additional dues. <Amended by Presidential Decree No. 24762, Sep. 23, 2013>

Article 44 (Details of Authorization, Permission, etc. of Projects to be Notified)

The term "details of authorization, permission, etc. prescribed by Presidential Decree" referred to in Article 47 (1) of the Act means those falling under any of the following subparagraphs:

1. Damaged area in an ecosystem, which form the basis for the calculation of the amount of charge;
2. Damaged area of land according to the purpose of use pursuant to the provisions of the National Land Planning and Utilization Act.

Article 45 (Other Usages of Cooperation Charges for Ecosystem Conservation)

The term "projects prescribed by Presidential Decree" referred to in subparagraph 14 of Article 49 of the Act means any of the following projects: <Amended by Presidential Decree No. 20386, Nov. 15, 2007; Presidential Decree No. 24762, Sep. 23, 2013>

1. Deleted; <by Presidential Decree No. 24762, Sep. 23, 2013>
2. Investigation or conservation projects of the natural assets of the specific islands and remote areas;
3. Projects to restore a damaged or severed ecological axis;
4. Projects to draw a map showing urban ecological conditions under Article 34 (6) of the Act.

Article 46 (Scope of Projects for Conservation of Natural Environment and Refund of Cooperation Charges for Ecosystem Conservation, etc.)(1) The term "project on the conservation of the natural environment prescribed by Presidential Decree" referred to in the main sentence of Article 50 (1) of the Act means any of the following projects: Provided, That the same shall not apply to any project implemented as part of a project subject to the imposition of the cooperation charge for the ecosystem conservation referred to in Article 46

(2) of the Act:

1. Projects for the creation of sub-ecosystems referred to in subparagraph 6 of Article 2 of the Act;
2. Projects for the creation of ecological corridors referred to in subparagraph 9 of Article 2 of the Act;
3. Projects for the creation of alternative nature referred to in subparagraph 11 of Article 2 of the Act;
4. Projects for the installation of facilities for the conservation and utilization of the natural environment referred to in Article 38 of the Act;
5. Other projects for the restoration of a damaged ecosystem.

(2) A person who intends to obtain approval from the Minister of Environment in accordance with Article 50 (1) of the Act shall file an application for approval with the Minister of Environment along with documents prescribed by Ordinance of the Ministry of Environment.

(3) The qualifications for the agent of the conservation of the natural environment project referred to in Article 50 (1) of the Act (hereinafter referred to as "agent of the conservation of the natural environment project") shall be listed in the attached Table 3. <Newly Inserted by Presidential Decree No. 20386, Nov. 15, 2007>

(4) Where an application for approval is filed pursuant to paragraph (2), the Minister of Environment shall decide on whether to grant such approval and notify the applicant thereof within 30 days. <Amended by Presidential Decree No. 20386, Nov. 15, 2007>

(5) Where a project for which an application for approval is filed in accordance with paragraph (2) is deemed to lack any effects and validity for the project's implementation as it causes damage to natural ecosystems, or yields an insignificant contribution to the restoration, the Minister of Environment may not grant approval thereto. <Amended by Presidential Decree No. 20386, Nov. 15, 2007>

(6) Where a business operator who has obtained approval pursuant to paragraph (4) or the agent of the conservation of the natural environment project intends to receive the refund of the cooperation charge for the ecosystem conservation pursuant to Article 50 (1) of the Act, he/she shall file an application therefor, along with documents prescribed by Ordinance of the Ministry of Environment, with the Minister of Environment after completing all or part of the project for which approval has been granted: Provided, That where he/she files an application for the refund after part of the project has been completed, the following requirements shall be satisfied: <Amended by Presidential Decree No. 20386, Nov. 15, 2007; Presidential Decree No. 24155, Oct. 29, 2012>

1. At least 30% of the working expenses approved has been executed;
2. The refunds are received less than twice.

(7) Where an application referred to in paragraph (6) is filed, the Minister of Environment shall notify the applicant of the results thereof within 30 days. <Amended by Presidential Decree No. 20386, Nov. 15, 2007>

(8) The amount of the cooperation charge for the ecosystem conservation, which is

refundable to a business operator who has obtained approval pursuant to paragraph (4) or the agent of the conservation of the natural environment project shall be the amount he/she actually invested in a project for which he/she obtained approval at the time he/she filed an application for the refund referred to in paragraph (6), within 50% of the cooperation charge for the ecosystem conservation paid pursuant to Article 46 (3) of the Act. <Amended by Presidential Decree No. 20386, Nov. 15, 2007; Presidential Decree No. 24155, Oct. 29, 2012>

(9) The Minister of Environment shall check whether a project, approval for which has been granted pursuant to paragraph (4), is appropriately executed, and if the approval conditions are not satisfied, he/she may take necessary measures, such as a partial reduction in the amount calculated under paragraph (8) in accordance with the standards prescribed by Ordinance of the Ministry of Environment. <Amended by Presidential Decree No. 20386, Nov. 15, 2007; Presidential Decree No. 24762, Sep. 23, 2013>

Article 47 (Matters of Cooperation by Relevant Agencies)

The term "matters prescribed by Presidential Decree" referred to in the main sentence of Article 51 (1) of the Act means the following: <Amended by Presidential Decree No. 20680, Feb. 29, 2008; Presidential Decree No. 22560, Dec. 29, 2010; Presidential Decree No. 24451, Mar. 23, 2013>

1. Conservation of important habitats and prevention of habitat fragmentation, or the construction of ecological corridors or sub-ecosystems for the restoration of ecosystems already extinct or apprehended to be on the verge of extinction;
2. Full recovery of nature in the first grade zone on an ecology and nature map, which is being severely damaged or faces potential damage;
3. Conservation and promotion of biodiversity in natural parks and urban parks, or measures for the reasonable use of the nature;
4. Restrictions on the capture, gathering, etc. of fauna and flora designated as precious national treasures pursuant to Article 25 of the Cultural Heritage Protection Act (limited to endangered wild fauna and flora);
5. Restrictions on the activities in a zone designated as a precious national treasure (including the protection zone thereof) pursuant to Article 25 of the Cultural Heritage Protection Act (limited to ecological and scenery conservation areas);
6. Prevention of damage to and conservation of natural scenery in an area of ecological and scenic value;
7. Promotion of biodiversity in the management of rivers, roads, and cities, and the utilization of ecosystem technology;
8. Prevention of the influx of foreign fauna and flora which cause damage to the domestic ecosystem in the course of importing seeds, timbers, etc. from abroad;
9. Development and application of biological pesticides, reduction in the use of agrichemicals, and the development of highly productive environmental farming methods;
10. Development of nature-friendly methods for the destruction of vermin;
11. Designation of greenbelt areas and scenic zones;

12. Matters concerning dredging in public waters, such as changes in a plan for picking aggregate;
13. Betterment of the natural environment deteriorated due to environmental pollution and the installation of various kinds of facilities;
14. Revocation of permission to occupy and use rivers, suspension or alteration of river construction, or transfer or removal of structures;
15. Revocation of permission to occupy and use public waters, suspension of or restriction on the use of public waters, and reconstruction or removal of facilities, etc.;
16. Other matters requested by the Minister of Environment or the Minister of Land, Infrastructure and Transport for the conservation and sustainable use of the natural environment.

Article 48 (Claim for Compensation for Loss)(1) Any person who intends to claim compensation for loss pursuant to the provisions of Article 53 (1) of the Act shall submit to the Minister of Environment or the Mayor/Do governor a written claim for compensation for loss specifying the matters in the following subparagraphs along with documentary evidence concerning the loss cost filing: <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

1. The name and address of the claimant;
2. The time and place of loss;
3. The details of loss;
4. The amount and details of loss, and the method of calculation.

(2) Upon receiving a claim for compensation for loss pursuant to the provisions of paragraph (2), the Minister of Environment or the Mayor/ Do governor shall notify the claimant of the matters in the following subparagraphs: <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

1. The period and method of negotiations;
2. The time, method and procedures for compensation.

Article 49 (Application for Adjudication on Compensation for Loss)

Any person who intends to apply for adjudication to the Land Expropriation Committee pursuant to the provisions of Article 53 (3) of the Act shall submit to the competent Land Expropriation Committee a written application for adjudication in which the matters of the following subparagraphs are stated as prescribed by Ordinance of the Ministry of Environment: <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

1. The name and address of the applicant for adjudication;
2. The type of business;
3. The fact on the occurrence of the loss;
4. The amount and details of the loss;
5. The details of negotiation.

Article 50 (Honorary Instructors of Conservation of Natural Environment)(1) The term of office for an honorary instructor of conservation of the natural environment (hereinafter referred to as an "honorary instructor") pursuant to the provisions of Article 58 of the Act shall

be two years.

(2) The Minister of Environment or the head of a local government shall commission honorary instructors upon applications of persons who intend to be honorary instructors pursuant to the provisions of Article 58 of the Act or upon recommendations of the Korean Association for Conservation of Nature pursuant to the provisions of Article 55 of the Act. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

(3) The scope of activities of honorary instructors shall be as contained in the following subparagraphs:

1. Publicity and directions for the conservation of the natural environment;
2. Guidance on the activities damaging the natural environment and reporting them to the relevant agencies;
3. Suggestions for the operation of facilities for the conservation and use of the natural environment, and of natural repose area.

(4) The Minister of Environment or the head of a local government may help support the expenses incurred in the activities of honorary instructors within budgetary limits. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

Article 51 Deleted. <by Presidential Decree No. 23559, Jan. 26, 2012>

Article 52 (Delegation of Authority)(1) The Minister of Environment shall delegate his/her authority falling under the following to the Mayor/Do Governor pursuant to Article 61 of the Act: <Amended by Presidential Decree No. 24762, Sep. 23, 2013>

1. The purchase of land, etc. located in ecological and scenery conservation areas, etc. referred to in Article 19 of the Act;
2. The imposition and collection of the cooperation charge for the ecosystem conservation referred to in Article 46 (1) of the Act;
3. Receipt of notification on the details of authorization, permission, etc. under Article 47 (1) of the Act, and notification of the imposition amount, payment deadline, etc. of the cooperation charge for the ecosystem conservation under Article 47 (2);
4. The mandatory levy of the cooperation charge for the ecosystem conservation referred to in Article 48 of the Act.

(2) The Minister of Environment shall delegate the following authority to the heads of watershed environmental management offices or the heads of regional environmental management offices (hereinafter referred to as the "head of a regional environmental management agency") pursuant to Article 61 (1) of the Act: <Amended by Presidential Decree No. 23559, Jan. 26, 2012; Presidential Decree No. 24762, Sep. 23, 2013>

1. Consultations on major policies or plans referred to in Article 7 of the Act (limited to matters which the head of the relevant central administrative agency has delegated to the head of a local government or the head of a regional branch under the control of the relevant agency);
2. Formulation and execution of a basic plan for management of ecological and scenery conservation areas referred to in Article 14 of the Act;
3. Permission provided for in Article 15 (2) 4 of the Act;

4. Consultations referred to in Article 15 (2) 7 of the Act;
 5. Orders, such as the suspension of activities, restoration to the original state within an ecological and scenery conservation area, or the creation of alternation nature referred to in Article 17 of the Act;
 6. Observations on ecosystem changes referred to in Article 31 (3) of the Act;
 7. Compensation covering actual costs in accordance with a contract for biodiversity management referred to in Article 37 (2) of the Act;
 8. Designation of ecological villages and revocation thereof referred to in Article 42 of the Act;
 9. Formulation and implementation of measures for the protection and restoration of the ecosystem referred to in Article 44 of the Act;
 10. Appointment of honorary instructors for conservation of the natural environment referred to in Article 58 of the Act;
 11. Employment and utilization of guides on the natural environment referred to in Article 59 of the Act;
 12. Imposition and collection of fines for negligence referred to in Article 66 (2) 1 through 3 of the Act (excluding matters concerning the marine natural environment);
 13. Confirmation on whether a project under Article 46 (9) is executed appropriately.
- (3) Deleted. <by Presidential Decree No. 19991, Apr. 4, 2007>

Article 52-2 (Entrustment of Business)

The Minister of Environment shall entrust the following business to the National Institute of Ecology under the Act on the Establishment and Management of the National Institute of Ecology, pursuant to Article 61 (2) of the Act:

1. Investigation of the national environment referred to in Article 30 (1) and (2) of the Act;
2. Formulation and execution of a plan for close investigation referred to in Article 31 (1) of the Act and supplementary investigation referred to in Article 31 (2) of the Act;
3. Commission of a natural environment investigator referred to in Article 32 (1) of the Act;
4. Drafting of an ecological and natural map referred to in Article 34 (1) through (3) of the Act and public inspection of an ecological and natural map referred to in Article 34 (5) of the Act for the drafting thereof.

[This Article Newly Inserted by Presidential Decree No. 24997, Dec. 11, 2013]

Article 53 (Reports)

Where the Mayor/Do governor or the head of a regional environmental management agency has managed affairs delegated pursuant to the provisions of Article 52, he/she shall report the details thereof to the Minister of Environment as prescribed by Ordinance of the Ministry of Environment. <Amended by Presidential Decree No. 19991, Apr. 4, 2007>

Article 53-2 (Management of Unique Identifying Information)

If deemed necessary to carry out the following business affairs, the Minister of Environment (including a person to whom the Minister of Environment has delegated his/her authority pursuant to Article 52) may handle materials containing a resident registration number or a

foreigner registration number referred to in subparagraphs 1 and 4 of Article 19 of the Enforcement Decree of the Personal Information Protection Act:

1. Business concerning permission for an act in an ecological and scenery conservation area referred to in Article 15 (2) 4 of the Act;
2. Business concerning purchase of land, etc. referred to in Article 19 of the Act;
3. Business concerning support for the installation of private sewage treatment facility and night soil treatment facility referred to in Article 20 (1) of the Act;
4. Business concerning the conclusion of a contract on biological diversity management referred to in Article 37 (1) of the Act;
5. Business concerning the imposition and collection of the cooperation charge for the ecosystem conservation referred to in Article 46 of the Act;
6. Business concerning notices of authorization and permission, etc. of projects subject to levy of the cooperation charge for the ecosystem conservation referred to in Article 47 of the Act;
7. Business concerning approval of projects subject to the return of the cooperation charge for the ecosystem conservation (including consent on the return of the cooperation charge for the ecosystem conservation) and business concerning assistance to the return of the cooperation charge for the ecosystem conservation referred to in Article 50 of the Act;
8. Business concerning compensation for losses and adjudication referred to in Article 53 of the Act.

[This Article Newly Inserted by Presidential Decree No. 23488, Jan. 6, 2012]

Article 53-3 (Review of Regulations)

The Minister of Environment shall review the propriety of objects of consultations or examinations of impacts on natural scenery under Article 20 every three years from January 1, 2017 (referring to a date before January 1 of every third year thereafter), and take improvement measures, etc.

[This Article Wholly Amended by Presidential Decree No. 27751, Dec. 30, 2016]

Article 54 (Criteria for Imposition of Fines for Negligence)

The criteria for the imposition of fines for negligence referred to in Article 66 (1) and (2) of the Act shall be shown in the attached Table 2.

[This Article Wholly Amended by Presidential Decree No. 22736, Mar. 29, 2011]

ADDENDA (Omitted)

13. Environment-Friendly Agriculture Fosterage Act

[Enforcement Date 01. Apr, 2009.] [Act No.9623, 01. Apr, 2009., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)The purpose of this Act is to increase the role of agriculture in environmental preservation, reduce environmental pollution caused by agriculture, foster farmers who practice environment-friendly agriculture, thereby pursuing sustainable and

environment-friendly agriculture.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 2 (Definitions)The definitions of terms used in this Act shall be as follows:

1. The term "environment-friendly agriculture" means agriculture producing safe agricultural, stockbreeding, or forest products (hereinafter referred to as "agricultural products") by using no chemical materials, such as synthetic agricultural chemicals, chemical fertilizers, antibiotics and antimicrobials, or minimizing use of such materials, and maintaining and preserving the agricultural ecosystem and environment by recycling byproducts of agriculture, stock breeding or forestry;
2. The term "environment-friendly agricultural products" means agricultural products produced in the course of managing environment-friendly agriculture;
3. The term "environment-friendly agricultural technology" means agricultural methods or theories used for the management of environment-friendly agriculture, or methods of producing materials.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 3 (Obligations of State and Local Governments) (1) The State shall implement a comprehensive policy aimed at promoting environment-friendly agriculture, including formulation of basic plans and policies on environment-friendly agriculture, and encouragement of voluntary participation from farmers, etc.

(2) Local governments shall formulate policies on environment-friendly agriculture in consideration of regional characteristics of districts under jurisdiction, and move aggressively to implement such policies.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 4 (Obligations of Farmers)Farmers shall endeavor to preserve the environment by reducing pollution caused by farming activities and manage agriculture producing environment-friendly agricultural products, by practicing environment-friendly agricultural methods, such as minimizing use of chemical materials.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 5 (Roles of Private Organizations)Private organizations (hereinafter referred to as "private organizations"), which have been formed for the purposes of research in environment-friendly agriculture and production, distribution, or promotion of consuming environment-friendly agricultural products, shall cooperate in implementing policies of the State and local governments on environment-friendly agriculture, and provide education, training, advanced technology, and farming guidance necessary for their members and farmers, etc., thereby contributing to the development of environment-friendly agriculture.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

CHAPTER II FOSTERAGE AND SUPPORT OF ENVIRONMENT-FRIENDLY AGRICULTURE

Article 6 (Plan to Foster Environment-Friendly Agriculture) (1) The Minister for Food, Agriculture, Forestry and Fisheries shall formulate a plan (hereinafter referred to as

"fosterage plan") to foster environment-friendly agriculture for the development of environment-friendly agriculture every five years, in consultation with the heads of the relevant central administrative agencies.

(2) A fosterage plan shall include the following matters:

1. Policy goals and basic directions for environmental preservation in the area of agriculture;
2. Actual conditions on environmental pollution from agriculture and measures to improve such conditions;
3. Measures to reduce synthetic agricultural chemicals, chemical fertilizers and chemical materials, such as antibiotics and antimicrobials;
4. Measures to develop various technologies for the development of environment-friendly agriculture;
5. Measures to foster a model environment-friendly agricultural complex;
6. Measures to boost the production and distribution of environment-friendly agricultural products and promote consumption of such products;
7. Measures to increase the function of agriculture to serve public interests;
8. Measures to strengthen international cooperation for the development of environment-friendly agriculture;
9. Measures to procure financial resources for implementing a fosterage plan;
10. Measures to foster civil certifying institutions;
11. Other matters prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries for the development of environment-friendly agriculture.

(3) The Minister for Food, Agriculture, Forestry and Fisheries shall inform a Special Metropolitan City Mayor, Metropolitan City Mayor, Do Governor, or the Governor of a Special Self-Governing Province (hereinafter referred to as "Mayor/Do Governor") of a fosterage plan established under paragraphs (1) and (2).

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 7 (Action Plans on Environment-Friendly Agriculture) (1) Mayor/Do Governor shall formulate and implement action plans of City/Do for the development of environment-friendly agriculture in accordance with a fosterage plan.

(2) Mayor/Do Governor shall, when he/she formulates action plans of City/Do under paragraph (1), submit such plans to the Minister for Food, Agriculture, Forestry and Fisheries, and notify the head of Si/Gun/autonomous Gu (hereinafter referred to as "the head of Si/Gun") of such fact.

(3) The head of Si/Gun shall formulate action plans of Si/Gun for the development of environment-friendly agriculture in accordance with action plans of City/Do and submit such plans to the Mayor/Do Governor, and actively promote such plans.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 8 Deleted. <by Act No. 9623, Apr. 1, 2009>

Article 9 (Prevention of Environmental Pollution Caused by Agriculture) (1) The State and local governments shall aggressively promote the implementation of policies on

compliance with standards for the safe and appropriate use of agricultural chemicals and maximum residue limits, compliance with the standard amount of sprayed fertilizers by crop, compliance with the effluent limits for livestock excretions and a ban on the dumping of agricultural waste, so as to prevent environmental pollution from agricultural activities, including agricultural chemicals, fertilizers, livestock excretions and agricultural waste materials.

(2) The implementation of policies under paragraph (1) shall be governed by standards pursuant to Article 23 of the Agrochemicals Control Act, Article 58 of the Water Quality and Ecosystem Conservation Act, and Article 13 of the Act on the Management and Use of Livestock Excreta.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 10 (Preservation of Agricultural Resources and Improvement of Agricultural Environment) (1) The State and local governments shall aggressively promote the implementation of policies to improve farmland, prevent pollution of agricultural water and minimize emissions of green house gases, so as to preserve agricultural resources, including farmland, agricultural water, and air, and improve the agricultural environment, including soil and quality of water.

(2) The implementation of policies under paragraph (1) shall be governed by standards pursuant to Articles 4-2 and 16 of the Soil Environment Conservation Act and Article 10 of the Framework Act on Environmental Policy.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 11 (Research on Actual Conditions of Agricultural Resources and Agricultural Environment) (1) The Minister for Food, Agriculture, Forestry and Fisheries or the heads of local governments shall periodically conduct research on the following matters, as prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries, so as to preserve agricultural resources and improve the agricultural environment:

1. Changes in farmland fertility, heavy metals, agricultural chemicals, soil microbes, etc.;
2. Qualities of the surface water and underground water used as agricultural water;
3. Actual conditions on the use of materials involved in agriculture, such as agricultural chemicals and fertilizers;
4. Actual conditions on the function of agriculture to serve the public interests, such as the cultivation of water resources and soil preservation;
5. Other matters necessary for the preservation of agricultural resources and the improvement of the agricultural environment.

(2) The Minister for Food, Agriculture, Forestry and Fisheries may require the head of an organization belonging to the Ministry for Food, Agriculture, Forestry and Fisheries or persons prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries to conduct research on matters referred to in paragraph (1).

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 12 (Entry into and Exit from Land Owned by Third Parties) (1) The Minister for

Food, Agriculture, Forestry and Fisheries or the heads of local governments may require the relevant public officials to enter or exit land owned by other persons in the relevant region or regions adjacent thereto, or to collect minimum amounts of samples necessary for research, when it is deemed necessary for conducting an inspection of the actual conditions of the agricultural environment under Article 11.

(2) The owners, possessors or managers of land shall not refuse, obstruct or evade inspection pursuant to paragraph (1) without any justifiable ground.

(3) Any person who intends to enter or exit land owned by other persons under paragraph (1) shall carry a certificate indicating his/her authority to enter or exit the land, and show his/her certificate to the relevant persons.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 13 (Development and Dissemination of Environment-Friendly Agricultural Technology) (1) The Minister for Food, Agriculture, Forestry and Fisheries or the heads of local governments shall formulate policies necessary for the research and development, dissemination and direction of environment-friendly agricultural technologies, so as to develop environment-friendly agriculture.

(2) The Minister for Food, Agriculture, Forestry and Fisheries or the heads of local governments may subsidize necessary costs for persons who are in charge of the research and development, dissemination or direction of environment-friendly agricultural technologies and materials.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 14 (Education and Training on Environment-Friendly Agriculture) The Minister for Food, Agriculture, Forestry and Fisheries or the heads of local governments shall provide education and training to farmers or the relevant public officials for the development of environment-friendly agriculture.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 15 (Exchanges and Publicity of Environment-Friendly Agricultural Technology) (1) The State, local governments, civil organizations and farmers shall strive to develop environment-friendly agriculture by exchanging environment-friendly agricultural technologies.

(2) The Minister for Food, Agriculture, Forestry and Fisheries or the heads of local governments shall discover and publicize exemplary cases for the efficient promotion of environment-friendly agriculture.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

CHAPTER III DISTRIBUTION MANAGEMENT OF ENVIRONMENT-FRIENDLY AGRICULTURAL PRODUCTS

Article 16 (Classification of Environment-Friendly Agricultural Products) (1) Environment-friendly agricultural products shall be classified into organically grown agricultural products and pesticide-free agricultural products (referring to antibiotic-free stock farm products in cases of stock farm products), depending on methods of production

and materials used for agriculture, etc.

(2) Detailed standards for use, etc. of materials for production of environment-friendly agricultural products shall be determined by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 17 (Certification of Environment-Friendly Agricultural Products) (1) The Minister for Food, Agriculture, Forestry and Fisheries may certify agricultural products as environment-friendly agricultural products under Article 16 (1), so as to foster environment-friendly agriculture and protect consumers.

(2) Figures or characters of environment-friendly agricultural products (hereinafter referred to as "labels of environment-friendly agricultural products) may be marked in packages or containers of environment-friendly agricultural products (hereinafter referred to as "certified products") certified as environment-friendly agricultural products under paragraph (1), as prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.

(3) Matters necessary for certification standards for environment-friendly agricultural products under paragraph (1) shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 17-2 (Designation of Certifying Institutions) (1) The Minister for Food, Agriculture, Forestry and Fisheries may designate persons, with human resources and facilities required for certification of environment-friendly agricultural products, as certifying institutions, and enable certifying institutions to certify environment-friendly agricultural products (hereinafter referred to as "certification of environment-friendly agricultural products") under Article 17 (1). In such cases, when the Minister for Food, Agriculture, Forestry and Fisheries intends to certify agricultural products, which are produced in nations, other than the Republic of Korea, and imported to the Republic of Korea, as environment-friendly agricultural products, he/she may designate persons with human resources and facilities required for certification of environment-friendly agricultural products in the relevant nations as certifying institutions.

(2) Any person who intends to be designated as a certifying institution under paragraph (1) shall file an application on such designation to the Minister for Food, Agriculture, Forestry and Fisheries, as prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.

(3) The term of validity for the designation of a certifying institution under paragraph (1) shall be five years from the date on which such designation is granted to the certifying institution.

(4) Any person who intends to continue to be engaged in certification duties even after the term of validity of designation under paragraph (3) expires, shall be re-designated as a certifying institution every five years before the term of validity expires.

(5) Matters necessary for designation standards for certifying institutions under paragraph (1), scopes of certification duties and requirements and procedures for re-designation under paragraph (4) shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry

and Fisheries.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 17-3 (Application and Examination of Certification) (1) Any producer or importer of environment-friendly agricultural products or any person who repackages certified products for distribution shall, when he/she intends to obtain certification for environment-friendly agricultural products, file an application to the Minister for Food, Agriculture, Forestry and Fisheries or persons (hereinafter referred to as "certifying institutions") designated as certifying institutions under Article 17-2 (1), as prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries: Provided, That no person who has been sentenced to a fine or heavier punishment (including declaration of suspension of execution) in violation of any of the provisions of the subparagraphs of Article 17-5 or no person whose certification has been cancelled under Article 18-2 may file an application for certification, unless one year lapses after the date on which the sentence is confirmed or the date on which certification is cancelled, respectively.

(2) The Minister for Food, Agriculture, Forestry and Fisheries or certifying institutions, upon receiving an application for certification under paragraph (1), shall examine whether such application for certification meets certification standards (hereinafter referred to as "certification standards") under Article 17 (3).

(3) Any one who raises an objection to outcomes of certification examinations under paragraph (2) may file an application for reexamination to the Minister for Food, Agriculture, Forestry and Fisheries or certifying institutions which have conducted such certification examinations.

(4) Necessary matters concerning the scope of repackaging under paragraph (1) and procedures and methods, etc. for examination and reexamination under paragraphs (2) and (3) shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 17-4 (Term of Validity of Certification) (1) The term of validity of certification of environment-friendly agricultural products shall be two years from the date on which such certification is granted: Provided, That the term of validity of certification of organically grown agricultural products shall be one year.

(2) The term of validity of certification pursuant to paragraph (1) may be extended within a period not exceeding two years (one year, in cases of organically grown agricultural products), as prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 17-5 (Prohibition of Unlawful Acts) No person shall commit acts falling under any of the following subparagraphs:

1. Receiving certification for environment-friendly agricultural products by fraud or other wrongful means;

2. Labelling agricultural products, other than certified products, as environment-friendly agricultural products or similar products (including labels printed in foreign languages which are likely to be mistaken for labels of environment-friendly agricultural products; hereinafter the same shall apply) or attaching labels which are different from the details of certification of environment-friendly agricultural products, to certified products;
3. Selling products by mixing certified products with agricultural products which have not been granted certification, or keeping, transporting or displaying mixed products for the purpose of sale;
4. Selling agricultural products or keeping, transporting or displaying agricultural products for the purpose of sale, with the knowledge that products labelled as environment-friendly agricultural products or similar products are not certified products, or such products have labels different from the details of certification of environment-friendly agricultural products;
5. Advertising products, other than certified products, as environment-friendly agricultural products under Article 16 (1) or advertising certified products, the advertisements of which are different from the details of certification of environment-friendly agricultural products.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 17-6 (Revocation of Designation of Certifying Institutions) (1) The Minister for Food, Agriculture, Forestry and Fisheries shall, when certifying institutions fall under any of the following subparagraphs, revoke their designation or order such certifying institutions to suspend in whole or in part the collection of their duties for a specific period not exceeding six months: Provided, That when certifying institutions fall under subparagraph 1, their designation shall be revoked;

1. When certifying institutions have been designated by fraud or other wrongful means;
2. When certifying institutions have not granted certification to agricultural products for not less than one year without any justifiable ground;
3. When certifying institutions have failed to meet designation standards under Article 17-2 (5);
4. When it is recognized that certified products fail to satisfy certification standards as a result of examination or verification, etc. pursuant to Article 18 (1), which is attributable to intention or gross negligence of certifying institutions.

(2) When certifying institutions have granted certification to agricultural products during the period of business suspension, in violation of an order to suspend business under paragraph (1), the Minister for Food, Agriculture, Forestry and Fisheries may revoke their designation.

(3) No person for whom two years have not elapsed since designation of certifying institutions are revoked under paragraph (1) or (2), may be designated as a certifying institution.

(4) Detailed standards for administrative dispositions pursuant to paragraph (1) shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries, in consideration of the types and degrees of violations.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 17-7 (Succession) (1) Any person who falls under any of the following subparagraphs shall succeed to the status of a person who has obtained certification of environment-friendly agricultural products or a certifying institution:

1. In cases where a person, who has obtained certification of environment-friendly agricultural products, dies, a successor who intends to continue to produce, import or distribute such certified products;

2. In cases where a person who has obtained certification of environment-friendly agricultural products or a certifying institution has made a transfer of such business, such transferee;

3. In cases where a corporation which has obtained certification of environment-friendly agricultural products or a certifying institution effects a merger, a corporation which has survived such merger or a corporation established by merger.

(2) Any person who has succeeded to the status of a certifying institution, or who has succeeded to the status of a person who has obtained certification of environment-friendly agricultural products under paragraph (1) shall report such fact to the Minister for Food, Agriculture, Forestry and Fisheries, or the relevant certifying institution (referring to the Minister for Food, Agriculture, Forestry and Fisheries, when designation of a certifying institution has been revoked), respectively.

(3) Matters necessary for reporting under paragraph (2) shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 18 (Order to Change Labels) (1) The Minister for Food, Agriculture, Forestry and Fisheries may order any person who has obtained certification of environment-friendly agricultural products or any distributor of such certified products to take necessary measures, such as changing labels of environment-friendly agricultural products, stopping the use of such labels or banning sales of such products, when he/she recognizes that certified products fail to meet certification standards or unlawful acts have been committed in violation of Article 17-5, after examining certified products or verifying the processes of production or distribution.

(2) With respect to the examination of certified products or verification of the production or distribution process under paragraph (1), the provisions of Article 10 of the Agricultural Products Quality Control Act shall apply mutatis mutandis.

(3) Detailed standards for administrative dispositions under paragraph (1) shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 18-2 (Revocation of Certification) When any person who has obtained certification of environment-friendly agricultural products falls under any of the following subparagraphs, the Minister for Food, Agriculture, Forestry and Fisheries or certifying institutions may revoke such certification: Provided, That when he/she falls under subparagraph 1, such certification shall be revoked:

1. When a person has obtained certification by fraud or other wrongful means;
2. When certified products have failed to satisfy certification standards remarkably as a result of examination or verification under Article 18 (1);
3. When a person has failed to comply with orders, such as changing labels, the suspension of the use of labels or banning sales of products under Article 18 (1), without any justifiable ground.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 18-3 (Reporting or Inspection) (1) The Minister for Food, Agriculture, Forestry and Fisheries may enable certifying institutions or persons who have obtained certification of environment-friendly agricultural products to report matters on their duties or submit data, or enable the relevant public officials to enter and exit offices, etc. to inspect the relevant documents, facilities or equipment, when he/she deems it necessary for the enforcement of this Act.

(2) Certifying institutions or persons who have obtained certification of environment-friendly agricultural products shall possess and keep the relevant documents, such as data on certification examinations, the use of farming materials or transactions involving certified products, as prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.

(3) Public officials who enter and exit offices to conduct an inspection under paragraph (1) shall carry certificates indicating their authority to enter or exit offices, and show them to interested parties.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 19 (Support for Production and Distribution of Environment-Friendly Agricultural Products) (1) The Minister for Food, Agriculture, Forestry and Fisheries or the heads of local governments may provide necessary support, such as funds for establishing facilities, to producers of environment-friendly agricultural products, producers' organizations, distributors or certifying institutions within budget.

(2) Support for the production and distribution of environment-friendly agricultural products may be provided, depending on the degree of contribution to environment-friendly agriculture.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 19-2 (Recommendation for Labelling Certified Products) The Minister for Food, Agriculture, Forestry and Fisheries may recommend persons who produce, import or distribute certified products to label such products, to ensure that consumers can gain a clear understanding of information on the methods of production and materials used for such certified products.

[This Article Newly Inserted by Act No. 9623, Apr. 1, 2009]

Article 20 (Preferential Purchase) (1) The Minister for Food, Agriculture, Forestry and Fisheries or the heads of local governments may request the heads of public institutions or the heads of agriculture-related organizations, etc. to preferentially purchase environment-

friendly agricultural products, so as to promote the purchase of environment-friendly agricultural products.

(2) The State or local governments may provide necessary support, such as funding within budget, to public institutions or agriculture-related organizations which make preferential purchases under paragraph (1), so as to promote the consumption of environment-friendly agricultural products.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

CHAPTER IV INTERNATIONAL COOPERATION

Article 21 (International Cooperation)The Government shall promote the exchange and sharing of information and technology concerning environment-friendly agriculture through international cooperation with international organizations related to environment or the relevant nations, cooperate in exchanges of human resources, joint surveys, research and development, etc. and actively take part in global efforts for the development of environment-friendly agriculture, such as controlling agricultural activities and trade in materials that cause substantial damage to the environment.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 22 (Establishment of Standards and Objectives of Domestic Environment-Friendly Agriculture)The Government shall establish the effective standards and objectives of domestic environment-friendly agriculture, by considering the international conditions, domestic resources, environmental and economic conditions, etc.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 22-2 (Fees) (1) Any person who falls under any of the following subparagraphs shall pay fees:

1. Any person who intends to obtain certification of environment-friendly agricultural products;
2. Any person who intends to be designated as a certifying institution under Article 17-2 (1);
3. Any person who intends to be re-designated as a certifying institution under Article 17-2 (4);
4. Any person who intends to extend the term of validity of certification under Article 17-4 (2).

(2) Necessary matters concerning the amount of fees under paragraph (1), the methods and periods of payment, etc. shall be prescribed by Ordinance of the Ministry for Food, Agriculture, Forestry and Fisheries.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 23 (Delegation or Entrustment of Authority)The Minister for Food, Agriculture, Forestry and Fisheries may delegate a part of his/her authority under this Act to the Administrator of Rural Development Administration, Chief of Korea Forest Service, Mayor/Do Governor or the head of an institution belonging to the Ministry for Food, Agriculture, Forestry and Fisheries, or entrust such authority to civil organizations, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 24 (Hearings) (1) The Minister for Food, Agriculture, Forestry and Fisheries shall

hold a hearing, when he/she intends to revoke the designation of certifying institutions under Article 17-6 or revoke certification under Article 18-2.

(2) When certifying institutions intend to revoke certification under Article 18-2, such institutions shall provide the opportunity to submit a written opinion to a person who has obtained such certification of environment-friendly agricultural products.

(3) With respect to submission of opinions under paragraph (2), the provisions of Article 22 (4) through (6) and Article 27 of the Administrative Procedures Act shall apply mutatis mutandis. In such cases, "administrative agency" or "competent administrative agency" shall be deemed "certifying institution."

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 24-2 (Legal Fiction as Public Official in Application of Penal Provisions) Executives and employees of certifying institutions who are engaged in certification duties under the former body of Article 17-2 (1), or executives and employees of civil organizations who perform the entrusted duties under Article 23 shall be deemed public officials, when penal provisions under Articles 129 through 132 of the Criminal Act are applied.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

CHAPTER V PENAL PROVISIONS

Article 25 (Penal Provisions) Any person who falls under any of the following subparagraphs shall be punished by imprisonment for not more than three years or by a fine not exceeding 30 million won:

1. Any person who obtains certification of environment-friendly agricultural products by fraud or other wrongful means, in violation of subparagraph 1 of Article 17-5;
2. Any person who attaches labels of environment-friendly agricultural products or similar products, or attaches labels which are different from details of certification of environment-friendly agricultural products, in violation of subparagraph 2 of Article 17-5;
3. Any person who sells products by mixing certified products with agricultural products which are not granted certification, or who keeps, transports or displays mixed products for the purpose of selling such products, in violation of subparagraph 3 of Article 17-5;
4. Any person who sells agricultural products, or keeps, transports or displays agricultural products for the purpose of selling them, with the knowledge that such products labelled as environment-friendly agricultural products or similar products are not certified products, or such products have labels different from details of certification of environment-friendly agricultural products, in violation of subparagraph 4 of Article 17-5;
5. Any person who advertises products, other than certified products, as environment-friendly agricultural products under Article 16 (1) or advertises certified products, the advertisements of which are different from details of certification of environment-friendly agricultural products, in violation of subparagraph 5 of Article 17-5.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 25-2 (Penal Provisions) Any person who falls under any of the following

subparagraphs shall be punished by imprisonment for not more than one year or by a fine not exceeding 10 million won:

1. Any person who is designated as a certifying institution by fraud or other wrongful means pursuant to Article 17-6 (1) 1, from among persons designated as certifying institutions under the former body of Article 17-2 (1);
2. Any person who grants certification to environment-friendly agricultural products, without being designated as a certifying institution under the former body of Article 17-2 (1);
3. Any person who grants certification to environment-friendly agricultural products during the period of business suspension under Article 17-6 (1), from among persons designated as certifying institutions under the former body of Article 17-2 (1);
4. Any person who fails to comply with measures, such as changing labels of environment-friendly agricultural products, the suspension of the use of such labels or banning sales of products under Article 18 (1).

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 26 (Joint Penal Provisions) If the representative of a corporation, or any agent, employee or other employed person of the corporation or any other private individual commits an offense pursuant to Article 25 or 25-2 in connection with the duties of the corporation or the individual, not only shall such offender be punished accordingly, but the said corporation or the private individual shall also be punished by the fine prescribed in the relevant Article: Provided, That the foregoing sentence shall not apply where the corporation or individual has not neglected to exercise due diligence and supervision over the relevant duties in order to prevent such violations from occurring.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

Article 27 (Fines for Negligence) (1) When any person falls under any of the following subparagraphs, he/she shall be punished by a fine for negligence not exceeding 3 million won.

1. Any person who refuses, obstructs or evades inspection in violation of Article 12 (2);
2. Any person who succeeds to the status of a certifying institution or the status of a person who obtains certification of environment-friendly agricultural products, but fails to report such fact in violation of Article 17-7 (2);
3. Any person who refuses, obstructs or evades inspection in violation of Article 10 of the Agricultural Products Quality Control Act applied mutatis mutandis in Article 18 (2);
4. Any person who fails to report or submit data, falsely reports or submits false data, or refuses, obstructs or evades inspection of facilities or equipment under Article 18-3 (1);
5. Any person who fails to possess and keep the relevant documents in violation of Article 18-3 (2).

(2) Fines for negligence under paragraph (1) shall be imposed and collected by the Minister for Food, Agriculture, Forestry and Fisheries, Mayor/Do Governor or the head of Si/Gun, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9623, Apr. 1, 2009]

ADDENDA (Omitted)

14. Act on Promotion of Development and Distribution of Environment-Friendly Motor Vehicles

Amended by Act No. 14315, Dec. 2, 2016

Article 1 (Purpose)

The purpose of this Act is to plan for the continuous development of the motor vehicle industry and for the improvement of living conditions of the citizens and to contribute to the national economy by establishing and implementing a comprehensive plan and policy to promote the development and distribution of environment-friendly motor vehicles.

Article 2 (Definitions)

The terms used in this Act shall be defined as follows: *<Amended by Act No. 11690, Mar. 23, 2013; Act No. 14315, Dec. 2, 2016>*

1. The term "motor vehicle" means a motor vehicle or construction machinery falling under any of the following items, prescribed by Presidential Decree:

(a) A motor vehicle defined in subparagraph 1 of Article 2 of the Motor Vehicle Management Act;

(b) Construction machinery defined in subparagraph 1 of Article 2 of the Construction Machinery Management Act;

2. The term "environment-friendly motor vehicle" means an electric vehicle, solar-powered vehicle, hybrid vehicle, fuel cell vehicle, or a vehicle that meets the environmental standards set by Ordinance of the Ministry of Trade, Industry and Energy among vehicles subject to permissible emission limits prescribed in Article 46 (1) of the Clean Air Conservation Act, and which is publicly announced by the Minister of Trade, Industry and Energy after consultation with the Minister of Environment, among the motor vehicles meeting the following requirements:

(a) Its energy efficiency shall meet the standards prescribed by Ordinance of the Ministry of Trade, Industry and Energy;

(b) It shall meet the standards for low-emission motor vehicles prescribed by Ordinance of the Ministry of Environment in accordance with subparagraph 6 of Article 2 of the Special Act on the Improvement of Air Quality in Seoul Metropolitan Area;

(c) Its technical specifications, such as the performance of a motor vehicle, shall meet the standards prescribed by Ordinance of the Ministry of Trade, Industry and Energy;

3. The term "electric vehicle" means a motor vehicle that uses electric energy charged up from an electric power supply as its power source;

4. The term "solar-powered vehicle" means a motor vehicle that uses solar energy as its power source;

5. The term "hybrid vehicle" means a motor vehicle that uses a combination of gasoline, diesel fuel, liquefied petroleum gas, natural gas or fuel prescribed by Ordinance of the Ministry of Trade, Industry and Energy and electric energy (including electric energy charged

from an electric power supply) as its power source;

6. The term "fuel cell vehicle" means a motor vehicle that uses electric energy generated by using hydrogen as its power source;

7 and 8. Deleted; <by Act No. 14315, Dec. 2, 2016>;

9. The term "hydrogen-fuel supply facility" means a facility that supplies hydrogen to fuel cell vehicles.

Article 3 (Master Plans for Development, etc. of Environment-Friendly Motor Vehicles)

(1) The Minister of Trade, Industry and Energy shall establish a master plan to promote the development and distribution of environment-friendly motor vehicles (hereinafter referred to as "master plan") every five years. In such cases, he/she shall hear the opinions of the heads of relevant central administrative agencies, such as the Minister of Environment, and the Special Metropolitan City Mayor, a Metropolitan City Mayor, Do Governor, or the Governor of a Special Self-Governing Province (hereinafter referred to as a "Mayor/Do Governor"), as prescribed by Presidential Decree. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Master plans shall contain the following:

1. Basic direction-setting for the development and distribution of environment-friendly motor vehicles;

2. Medium- and long-term goals for the development and distribution of environment-friendly motor vehicles;

3. Matters concerning the research and development of environment-friendly motor vehicles and the construction of infrastructure relating to the research and development thereof;

4. Matters concerning the construction of infrastructure necessary to distribute the power sources of motor vehicles, such as hydrogen-fuel supply facilities;

5. Other matters necessary for the development and distribution of environment-friendly motor vehicles.

(3) Master plans shall be finalized after deliberation by the State Council: Provided, That where insignificant matters prescribed by Presidential Decree are to be revised, such as a partial revision of direction set for projects to develop detailed technologies related to environment-friendly motor vehicles, no deliberation on such modification by the State Council is required.

(4) The head of a relevant central administrative agency may, where deemed necessary, request the Minister of Trade, Industry and Energy to revise the master plans. In such cases, the Minister of Trade, Industry and Energy shall hear the opinions of the heads of other relevant central administrative agencies and the relevant Mayor/Do Governor if he/she intends to revise them. <Amended by Act No. 11690, Mar. 23, 2013>

(5) Paragraph (3) shall apply mutatis mutandis to any revision of master plans under paragraph (4).

Article 4 (Implementation Plans for Development of Environment-Friendly Motor Vehicles)

(1) In order to implement the master plans, the Minister of Trade, Industry and Energy shall

establish and promote an implementation plan for the development of environment-friendly motor vehicles (hereinafter referred to as "implementation plan for development") each year upon hearing the opinions of the heads of relevant central administrative agencies, as prescribed by Presidential Decree. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Implementation plans for development shall include the following:

1. Priority field of technology development;
2. Main goals of promotion in each field of technology development;
3. Schedule and methods of promotion of technology development;
4. Matters concerning construction of infrastructure necessary for the efficient promotion of technology development projects;
5. Other matters necessary for technology development.

Article 5 (Implementation Plans, etc. for Distribution of Environment-Friendly Motor Vehicles)

(1) In order to implement the master plans, the Minister of Environment shall establish and promote an implementation plan for the distribution of environment-friendly motor vehicles (hereinafter referred to as "implementation plan for distribution") each year upon hearing the opinions of the heads of relevant central administrative agencies and of the relevant Mayor/Do Governor, as prescribed by Presidential Decree. In such cases, the Minister of Environment shall consult with the Minister of Trade, Industry and Energy on the distribution of environment-friendly motor vehicles. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Implementation plans for distribution shall include the following:

1. Target areas in which environment-friendly motor vehicles are to be distributed;
2. Models of environment-friendly motor vehicles and quantity to be supplied of each model;
3. Matters concerning construction of infrastructure, such as hydrogen-fuel supply facilities;
4. Matters concerning funding plans and financial assistance standards;
5. Matters necessary for the distribution of environment-friendly motor vehicles.

(3) Each Mayor/Do Governor shall establish and implement a policy to accelerate the distribution of environment-friendly motor vehicles in accordance with master plans and implementation plans for distribution.

Article 6 (Technology Development Support Policies)

(1) In order to accelerate technology development related to environment-friendly motor vehicles, the State may establish and promote support policies for the following matters:

1. Collecting and providing information on development of environment-friendly motor vehicle technology at home and abroad;
2. Research and development and other activities concerning core environment-friendly motor vehicle technologies.

(2) The Minister of Trade, Industry and Energy may require any of the following entities to conduct research and development projects on environment-friendly motor vehicles in order to promote technology development pursuant to paragraph (1): <Amended by Act No. 11690, Mar. 23, 2013; Act No. 14079, Mar. 22, 2016>

1. National or public research institutes;
2. Research institutes established under Article 8 of the Act on the Establishment, Operation and Fostering of Government-Funded Science and Technology Research Institutes, Etc.;
3. Specific research institutes defined in Article 2 of the Specific Research Institutes Support Act;
4. Specialized manufacturing technology institutes under Article 42 of the Industrial Technology Innovation Promotion Act;
5. Industrial technology research cooperatives under the Industrial Technology Research Cooperatives Support Act;
6. Universities, colleges, industrial colleges, junior colleges or technical colleges defined in Article 2 of the Higher Education Act;
7. Research institutes attached to enterprises under Article 14-2 (1) of the Basic Research Promotion and Technology Development Support Act;
8. Agencies, organizations or business entities relating to environment-friendly motor vehicles, as prescribed by Presidential Decree.

Article 7 (Promotion of Projects to Form Foundation for Technology)

In order to efficiently promote the technology development related to environment-friendly motor vehicles pursuant to Article 6 (1), the State may promote the following projects to form a foundation for technology:

1. Projects for forming a foundation for technology;
2. Projects for international technological cooperation;
3. Projects for nurturing industrial technical human resources;
4. Other projects prescribed by Presidential Decree.

Article 8 (Support for Fuel Manufacturers, etc.)

(1) The State or local governments may provide necessary funds, etc. to those who manufacture, supply or sell hydrogen which is the fuel for fuel-cell vehicles, or those who intend to install a hydrogen-fuel supply facility.

(2) Matters necessary for the standards, method, etc. of providing funds, etc. pursuant to paragraph (1) shall be prescribed by Presidential Decree.

Article 9 Deleted. <by Act No. 9686, May 21, 2009>

Article 10 (Support for Purchasers or Owners of Environment-Friendly Motor Vehicles)

The State or local governments may provide the purchasers or owners of environment-friendly motor vehicles with necessary support.

Article 10-2 (Obligation of Public Institutions to Purchase Environment-Friendly Motor Vehicles)

(1) When buying or leasing a vehicle for business use, the head of a public institution under the Act on the Management of Public Institutions and the head of a local public enterprise under the Local Public Enterprises Act shall make sure that environment-friendly motor vehicles account for at least a certain proportion of all vehicles purchased or leased, as prescribed by Presidential Decree.

(2) The Minister of Trade, Industry and Energy may make public a list of public institutions and local public enterprises that have failed to fulfill their obligations of purchase prescribed in paragraph (1).

Article 11 (Support for Operation of Environment-Friendly Motor Vehicles)

(1) Mayors/Do Governors may require each owner of an environment-friendly motor vehicle to place an eco-friendly motor vehicle mark outside his/her vehicle to make the mark easily noticeable.

(2) The State and local governments shall prepare necessary support measures for motor vehicles bearing the mark referred to in paragraph (1).

(3) Matters necessary for the specification, etc. of the mark referred to in paragraph (1) shall be prescribed by Ordinance of the Ministry of Trade, Industry and Energy. <Amended by Act No. 11690, Mar. 23, 2013>

Article 11-2 (Charging Facilities, etc. for Environment-Friendly Motor Vehicles)

(1) The owner or manager of any of the following facilities prescribed by the relevant statutes and Presidential Decree shall install charging facilities for environment-friendly motor vehicles at the relevant facilities, as prescribed by Presidential Decree:

1. Public buildings and public-use facilities;
2. Multi-family housing;
3. Parking areas established by the Special Metropolitan City Mayor or a Metropolitan City Mayor, a Do Governor or a Special Self-Governing Province Governor, a Metropolitan Autonomous City Mayor, or the head of a Si/Gun/Gu;
4. Other buildings and facilities that need to have a charging facility installed to encourage the widespread use of environment-friendly motor vehicles, and any other facilities incidental thereto.

(2) The types and numbers of charging facilities required to be installed at each facility shall be determined by Presidential Decree, in consideration of the size and purpose of use of the relevant facility.

(3) The State and local governments may devise necessary measures, such as financial and technical assistance, in order to reduce the private sector's burden of installing charging facilities and to facilitate installation.

Article 12 (Publicity of Environment-Friendly Motor Vehicles)

The State or local governments may request organizations, etc. relating to motor vehicles to perform publicity activities necessary for expanding the distribution of environment-friendly motor vehicles.

Article 13 (Funding Resources)

Funds necessary to provide support prescribed in Articles 6 through 8, 10, 11 (2), and 11-2 (3) may be provided from the following financial resources: <Amended by Act No. 10893, Jul. 21, 2011; Act No. 12154, Jan. 1, 2014; Act No. 13871, Jan. 27, 2016>

1. Special accounts for projects related to energy and resources under the Act on the Special Accounts for Energy and Resources-Related Projects;

2. Funds for Small and Medium Enterprise Establishment and Promotion under Article 63 of the Small and Medium Enterprises Promotion Act;
3. Special accounts for environmental improvement under the Framework Act on Environmental Policy.

Article 14 (Requests, etc. for Provision of Data)

(1) Where deemed necessary to establish a master plan and an implementation plan for development, the Minister of Trade, Industry and Energy may request a relevant administrative agency and an agency or organization related to environment-friendly motor vehicles to provide necessary data or to present its opinions, etc. In such cases, upon receipt of such request, a relevant administrative agency and an agency or organization related to environment-friendly motor vehicles shall comply with such request, except in extenuating circumstances. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Where deemed necessary to establish an implementation plan for distribution, the Minister of Environment may request Mayors/Do Governors to provide data on the outcomes, etc. of promotion of distribution of environment-friendly motor vehicles. In such cases, the Mayors/Do Governors shall comply with such request, except in extenuating circumstances.

Article 15 (Entrustment of Administrative Affairs)

The State or local governments may entrust the following administrative affairs to a relevant specialized agency:

1. Administrative affairs, such as assessment and management of projects necessary for promoting the projects prescribed in Articles 6 and 7;
2. Administrative affairs necessary for support prescribed in Article 10 and 11 (2);
3. Some of other administrative affairs prescribed by this Act, as prescribed by Presidential Decree.

ADDENDA (Omitted)

15. Enforcement Decree of the Act on Promotion of Development and Distribution of Environment-Friendly Motor Vehicles

[Enforcement Date 30. Jun, 2016.] [Presidential Decree No.27295, 30. Jun, 2016., Partial Amendment]

Article 1 (Purpose)

The purpose of this Decree is to provide for matters delegated by the Act on Promotion of Development and Distribution of Environment-Friendly Motor Vehicles and matters necessary for the enforcement thereof.

Article 2 (Types of Motor Vehicles)

"Motor vehicle prescribed by Presidential Decree" in subparagraph 1 of Article 2 of the Act on Promotion of Development and Distribution of Environment-Friendly Motor Vehicles (hereinafter referred to as the "Act") shall be as follows:

1. Passenger vehicles, motor vehicles for passengers and freight, freight motor vehicles, and special motor vehicles under Article 3 (1) of the Motor Vehicle Management Act:

Provided, That the foregoing shall not apply to towed motor vehicles under the main sentence of subparagraph 1 of Article 2 of the Motor Vehicle Management Act;

2. Dump trucks, concrete mixing transport trucks, and concrete pumps under Article 2 of the Enforcement Decree of the Construction Machinery Management Act.

Article 3 Deleted. <by Presidential Decree No. 21087, Oct. 20, 2008>

Article 4 Deleted. <by Presidential Decree No. 21087, Oct. 20, 2008>

Article 5 Deleted. <by Presidential Decree No. 21087, Oct. 20, 2008>

Article 6 Deleted. <by Presidential Decree No. 21087, Oct. 20, 2008>

Article 7 Deleted. <by Presidential Decree No. 21087, Oct. 20, 2008>

Article 8 Deleted. <by Presidential Decree No. 21087, Oct. 20, 2008>

Article 9 (Procedures for Formulation and Modification of Master Plans)

(1) Where the Minister of Trade, Industry and Energy intends to hear opinions from the heads of related central administrative agencies, such as the Minister of Environment, and the Special Metropolitan City Mayor, Metropolitan City Mayors, or Do Governors (hereinafter referred to as "Mayors/Do Governors") on a master plan for the promotion of development and distribution of environment-friendly motor vehicles (hereinafter referred to as "master plan") under the former part of Article 3 (1) of the Act, pursuant to the latter part of the aforesaid paragraph, he/she shall notify the heads of related central administrative agencies, such as the Minister of Environment, and Mayors/Do Governors, of data concerning the formulation schedule and details of a master plan and shall request for submission of their opinions. In such cases, the heads of the related central administrative agencies, such as the Minister of Environment, and the Mayors/Do Governors shall submit their opinions on the master plan to the Minister of Trade, Industry and Energy in writing within two months from the date they are requested to do so. <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 21087, Oct. 20, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

(2) Where a master plan is finalized pursuant to the main sentence of Article 3 (3) of the Act, the Minister of Trade, Industry and Energy shall notify the heads of related central administrative agencies, such as the Minister of Environment, and Mayors/Do Governors of the finalized master plan. <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

(3) Paragraphs (1) and (2) shall apply mutatis mutandis where a master plan is modified pursuant to Article 3 (4) and (5) of the Act. In such cases, "on a master plan" shall be deemed "on the modification of a master plan", "formulation schedule" shall be deemed "modification schedule", and "where a master plan is finalized" shall be deemed "where the modification of a master plan is finalized".

Article 10 (Minor Modifications to Master Plans)

"Where minor matters prescribed by Presidential Decree are to be modified" in the proviso to Article 3 (3) of the Act means any of the following cases: <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

1. Where a modification is made to increase or reduce, by up to 10/100, subsidies based on the policies included in a master plan, such as a policy on technology development support for, and a policy on projects to form foundation for technology of, environment-friendly motor vehicles and a policy on promotion of distribution of such vehicles;
2. Where a modification is made to other matters determined and publicly notified by the Minister of Trade, Industry and Energy, which do not have an effect on the basic direction of the master plan.

Article 11 (Procedures for Formulation of Implementation Plans for Development of Environment-Friendly Motor Vehicles)

(1) The Minister of Trade, Industry and Energy shall formulate an implementation plan for the development of environment-friendly motor vehicles (hereinafter referred to as "implementation plan for development") under Article 4 of the Act before the date of commencement of each fiscal year. <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

(2) Article 9 (1) and (2) shall apply mutatis mutandis to cases under paragraph (1). In such cases, a "master plan" shall be deemed an "implementation plan for development", and the "heads of related central administrative agencies, such as the Minister of Environment" shall be deemed the "heads of related central administrative agencies".

Article 12 (Matters to Be Added in Technology Development Field in Implementation Plans for Development)

"Other matters necessary for technology development" in Article 4 (2) 5 of the Act means the following: <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

1. Matters concerning a plan for the dissemination of technology development outcomes;
2. Other matters the Minister of Trade, Industry and Energy deems necessary for the technology development of environment-friendly motor vehicles.

Article 13 (Procedures for Formulation of Implementation Plans for Distribution of Environment-Friendly Motor Vehicles)

(1) The Minister of Environment shall formulate and publicly notify an implementation plan for the distribution of environment-friendly motor vehicles (hereinafter referred to as "implementation plan for distribution") under Article 5 of the Act, before the date of commencement of each fiscal year.

(2) The Minister of Environment may request the heads of related central administrative agencies and Mayors/Do Governors to submit their opinions on an implementation plan for distribution. In such cases, the heads of related central administrative agencies and the Mayors/Do Governors shall submit their opinions on an implementation plan for distribution to the Minister of Environment in writing within two months from the date they are requested to do so.

Article 14 (Procedures for Formulation of Policies on Promotion of Distribution and Details Thereof)

(1) Mayors/Do Governors shall formulate a policy on the promotion of the distribution of environment-friendly motor vehicles (hereinafter referred to as "policy on the

promotion of distribution") under Article 5 (3) of the Act and shall submit such policy to the Minister of Environment within three months after an implementation plan for distribution is publicly notified.

(2) A policy on the promotion of distribution shall include the following:

1. An environment-friendly motor vehicle purchase plan and the results of the purchase thereof;
2. A plan for the establishment of infrastructure necessary for the distribution of power sources for environment-friendly motor vehicles, such as facilities that supply hydrogen fuel under Article 17;
3. A plan to raise funds and a plan to provide financial support, for the implementation of matters referred to in subparagraphs 1 and 2;
4. Other matters the Minister of Environment deems necessary for the distribution of environment-friendly motor vehicles and publicly notifies.

Article 15 (Policies on Technology Development Support, etc.)

(1) Where the Minister of Trade, Industry and Energy formulates a support policy (hereinafter referred to as "technology development support policy") under Article 6 (1) of the Act, he/she shall publicly announce the policy. <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

(2) The Minister of Trade, Industry and Energy shall prescribe and publicly notify the operational regulations concerning technology development support policies. <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

(3) "Persons prescribed by Presidential Decree" in Article 6 (2) 8 of the Act means persons prescribed by the Minister of Trade, Industry and Energy, from among business entities that develop technology related to environment-friendly motor vehicles and are venture businesses under Article 2 of the Act on Special Measures for the Promotion of Venture Businesses. <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

Article 16 (Plans for Implementation of Projects to Form Foundation for Technology)

(1) Where the Minister of Trade, Industry and Energy formulates a plan to implement projects to form a foundation for technology (hereinafter referred to as "plan for the implementation of projects to form a foundation for technology") under Article 7 of the Act, he/she shall publicly announce such plan. <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

(2) The Minister of Trade, Industry and Energy shall prescribe and publicly notify the operational regulations concerning projects to form a foundation for technology under Article 7 of the Act. <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

(3) "Other projects prescribed by Presidential Decree" in subparagraph 4 of Article 7 of the Act means the following projects: <Amended by Presidential Decree No. 20678, Feb. 29,

2008; Presidential Decree No. 24442, Mar. 23, 2013>

1. A project to form a foundation for the promotion of regional industries concerning environment-friendly motor vehicles;
2. A project to develop parts and materials concerning environment-friendly motor vehicles;
3. A new technology venture incubation project related to environment-friendly motor vehicles;
4. Other projects the Minister of Trade, Industry and Energy deems necessary to form a foundation for technology concerning environment-friendly motor vehicles.

Article 17 (Details, etc. of Support to Hydrogen Fuel Producers, etc.)

(1) The heads of related central administrative agencies or Mayors/Do Governors may provide the following kinds of support to persons (hereinafter referred to as "hydrogen fuel producers, etc.") who intend to produce, supply, or sell hydrogen that is fuel (hereinafter referred to as "hydrogen fuel") for fuel cell vehicles, or to construct a hydrogen fueling station, pursuant to Article 8 of the Act: <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

1. Financial support for the adjustment of the selling price of hydrogen fuel;
2. Providing loans or helping provide loans for the expenses of constructing a hydrogen fueling station;
3. Providing or helping provide a site for constructing a hydrogen fueling station;
4. Financial support for the development of hydrogen fuel production technology, such as improvements in the production process of hydrogen fuel;
5. Other matters necessary for providing support to hydrogen fuel producers, etc. that are jointly prescribed and publicly notified by the Minister of Trade, Industry and Energy and the Minister of Environment.

(2) Where a person who produces, supplies, or sells hydrogen fuel intends to receive support under Article 17 (1) 1, he/she shall submit an application for support to the head of the related central administrative agency or the relevant Mayor/Do Governor, along with documents showing the selling price of hydrogen fuel.

(3) Where a person who intends to construct a hydrogen fueling station intends to receive support under Article 17 (1) 2, he/she shall submit an application for support to the Minister of Environment, along with a business plan specifying the amount of funds necessary for constructing a hydrogen fueling station and grounds for the calculation thereof.

(4) In addition to matters under paragraphs (2) and (3), necessary matters concerning standards for, methods of, procedures for, and the amount of, support under paragraph (1) shall be jointly prescribed and publicly notified by the Minister of Trade, Industry and Energy and the Minister of Environment, after hearing opinions from the heads of related central administrative agencies and Mayors/Do Governors. <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 24442, Mar. 23, 2013>

Article 18 (Support to Purchasers of Environment-Friendly Motor Vehicles)

(1) The head of related central administrative agencies or Mayors/Do Governors may

provide the following support to purchasers of environment-friendly motor vehicles pursuant to Article 10 of the Act:

1. Wholly or partially subsidizing the difference between the selling price of an environment-friendly motor vehicle and that of a motor vehicle which is not an environment-friendly motor vehicle;
2. Providing a loan or helping provide a loan for the purchase of an environment-friendly motor vehicle;
3. Other matters the heads of related central administrative agencies or Mayors/Do Governors deem necessary to promote the purchase of environment-friendly motor vehicles and publicly notify.

(2) Detailed matters concerning standards for, methods of, procedures for, and the amount of, support under paragraph (1) shall be prescribed and publicly notified by the Minister of Environment, after hearing opinions from the heads of related central administrative agencies and Mayors/Do Governors.

Article 18-2 (Percentage of Purchase of Environment-Friendly Motor Vehicles)

(1) Where the head of a public institution under the Act on the Management of Public Institutions (hereinafter referred to as "public institution") and a local public enterprise under the Local Public Enterprises Act (hereinafter referred to as "local public enterprise") makes a purchase of, or holds a lease on, (hereinafter referred to as "purchase") motor vehicles for business pursuant to Article 10-2 (1) of the Act, he/she shall purchase environment-friendly motor vehicles at least 50/100 of motor vehicles purchased per year. In such cases, at least 80/100 of the environment-friendly motor vehicles purchased shall be electric vehicles or fuel cell vehicles.

(2) Notwithstanding paragraph (1), the head of a public institution or local public enterprise need not purchase environment-friendly motor vehicles in consultation with the Minister of Trade, Industry and Energy, in any of the following cases:

1. Where the total number of the motor vehicles for business he/she owns, including motor vehicles newly purchased in the relevant year, is not more than five;
2. Where he/she purchases a motor vehicle for passengers and freight referred to in Article 3 (1) 2 of the Motor Vehicle Management Act or a special motor vehicle referred to in subparagraph 4 of the aforesaid paragraph;
3. Where he/she purchases a motor vehicle for purposes for which it is inappropriate to use an environment-friendly motor vehicle, such as purposes of transporting cargo.

(3) The rule of rounding to decimal places shall apply to the calculation of the number of environment-friendly motor vehicles, environment-friendly motor vehicles that are electric vehicles, and environment-friendly motor vehicles that are fuel cell vehicles under paragraph (1).

[This Article Newly Inserted by Presidential Decree No. 27295, Jun. 30, 2016]

Article 18-3 (Publication of Violations)

(1) The head of each public institution and each local public enterprise that should purchase

environment-friendly motor vehicles pursuant to Article 10-2 (1) of the Act shall submit the results of the purchase of environment-friendly motor vehicles to the Minister of Trade, Industry and Energy, within three months after each fiscal year ends.

(2) The Minister of Trade, Industry and Energy may make public a list of public institutions and local public enterprises that have failed to fulfill their obligations to purchase environment-friendly motor vehicles on the following Internet websites or in the following regular daily newspapers, pursuant to Article 10-2 (2) of the Act:

1. An Internet website operated by a provider of web portal services (services that provide search results for other internet protocol addresses, information, etc., and email, communities, etc.) falling under a provider of information and communications services defined in Article 2 (1) 3 of the Act on Promotion of Information and Communications Network Utilization and Information Protection, Etc., the average daily user number of which is at least ten million for the three months immediately preceding the end of the year before the year in which the date of publication falls;

2. A general daily newspaper registered for nationwide circulation pursuant to Article 9 (1) of the Act on the Promotion of Newspapers, Etc.

[This Article Newly Inserted by Presidential Decree No. 27295, Jun. 30, 2016]

Article 18-4 (Facilities, etc. Required to Be Equipped with Charging Facilities)

"Facilities prescribed by Presidential Decree" in Article 11-2 (1) of the Act means the following facilities which are prescribed by ordinance of the Special Metropolitan City, a Metropolitan City, a Special Self-Governing City, a Do, or a Special Self-Governing Province in consideration of the current status of the distribution of, a plan for the distribution of, and the current status of the operation of, electric vehicles and the road conditions, among facilities with at least 100 parking bays defined in subparagraph 7 of Article 2 of the Parking Lot Act:

1. The following facilities among buildings for a specific use under Article 3-5 and attached Table 1 of the Enforcement Decree of the Building Act, which are public buildings and public facilities:

- (a) Class 1 neighborhood living facilities;
- (b) Class 2 neighborhood living facilities;
- (c) Cultural and convention facilities;
- (d) Sales facilities;
- (e) Transportation facilities;
- (f) Medical facilities;
- (g) Education and research facilities;
- (h) Sports facilities;
- (i) Commercial facilities;
- (j) Accommodation facilities;
- (k) Amusement facilities;
- (l) Facilities related to motor vehicles;

(m) Broadcasting and communications facilities;

(n) Power generation facilities;

(o) Tourist recreational and relaxation facilities;

2. The following facilities among multi-family housing under Article 3-5 and subparagraph 2 of attached Table 1 of the Enforcement Decree of the Building Act:

(a) An apartment building consisting of at least 500 units;

(b) A dormitory;

3. A parking lot defined in subparagraph 1 of Article 2 of the Parking Lot Act built by Mayors/Do Governors, the Special Self-Governing Province Governor, the Special Self-Governing City Mayor, or the heads of Sis/Guns/Gus.

[This Article Newly Inserted by Presidential Decree No. 27295, Jun. 30, 2016]

Article 18-5 (Types and Number of Charging Facilities)

(1) Charging facilities under Article 11-2 (2) of the Act shall be any of the following facilities:

1. Fast charging facilities: Facilities that charge electric vehicle batteries by variably supplying not less than 100 volt but not more than 450 volt DC or 380 volt AC through the charging cable connected to a charger;

2. Slow charging facilities: Facilities that charge electric vehicle batteries by supplying 220 volt AC through the charging cable connected to a charger.

(2) Detailed matters concerning the installation of charging facilities, such as the number of charging facilities to be installed in facilities under subparagraphs 1 and 2 of Article 18-4, shall be prescribed by ordinance of the Special Metropolitan City, a Metropolitan City, a Special Self-Governing City, a Do, or a Special Self-Governing Province in consideration of the current status of the distribution of, a plan for the distribution of, and the current status of the operation of, electric vehicles and the road conditions.

(3) The number of charging facilities to be installed in a parking lot under subparagraph 3 of Article 18-4 shall be at least the number obtained by dividing the total number of parking bays in the parking lot by 200.

(4) The rule of rounding to decimal places shall apply to the calculation of the number of charging facilities installed under paragraphs (2) and (3).

[This Article Newly Inserted by Presidential Decree No. 27295, Jun. 30, 2016]

Article 19 (Institutions Conducting Advertising Activities)

"Organizations, etc. relating to motor vehicles" in Article 12 of the Act means the following institutions: <Amended by Presidential Decree No. 20678, Feb. 29, 2008; Presidential Decree No. 20977, Aug. 26, 2008; Presidential Decree No. 24442, Mar. 23, 2013; Presidential Decree No. 26439, Jul. 24, 2015>

1. Persons referred to in the subparagraphs of Article 6 (2) of the Act;

2. The Korea Energy Agency under Article 45 (1) of the Energy Use Rationalization Act;

3. The Eco-Friendly Products Promotion Agency established pursuant to Article 13 of the Act on the Encouragement of Purchase of Environment-Friendly Products;

4. Other organizations related to motor vehicles and clean air conservation that are

prescribed and publicly notified by the Minister of Trade, Industry and Energy or the Minister of Environment.

Article 20 (Types and Reporting of Entrusted Affairs)

(1) "Relevant specialized agency" in the main sentence of Article 15 of the Act means a person referred to in the subparagraphs of Article 6 (2) of the Act.

(2) "Affairs prescribed by Presidential Decree" in subparagraph 3 of Article 15 of the Act means affairs concerning standards for the energy efficiency ratio under subparagraph 2 (a) of Article 2 of the Act.

(3) The heads of related central administrative agencies or Mayors/Do Governors may require a relevant specialized agency entrusted with affairs pursuant to Article 15 of the Act to report the result of such affairs conducted.

ADDENDA (Omitted)

16. Act on the Promotion of the Conversion into Environment- Friendly Industrial Structure

[Enforcement Date 26. Jul, 2017.] [Act No.14839, 26. Jul, 2017., Amendment by Other Act]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to contribute to the conservation of environment and sustainable development of the national economy by positively pushing forward industrial activities to economize energy and resources and to reduce environmental pollution through the promotion of the construction of environment-friendly industrial structure.

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 2 (Definitions)

The definitions of terms used in this Act shall be as follows: <Amended by Act No. 9931, Jan. 13, 2010; Act No. 10717, May 24, 2011; Act No. 11020, Aug. 4, 2011>

1. The term "clean manufacturing technology" means the technology to remove or reduce environmental pollution in the course of manufacture, such as the design of goods, manufacturing process, etc. of products and the technology to manufacture green products;

1-2. The term "renewable resource" means any useful material that can be used as a raw material, part, etc. through all or some of the recycling processes defined in subparagraph 7 of Article 2 of the Wastes Control Act;

2. The term "environmental facility" means machinery or equipment for removing or reducing environmental pollution;

3. The term "remanufacture" means to make renewable resources defined in subparagraph 1 of Article 2 of the Act on the Promotion of Saving and Recycling of Resources into a state where they can keep their original performance after undergoing a series of processes, such as disassembly, cleansing, examination, repair, adjustment, recombination, etc. in the course of making them into a reusable and reclaimable state defined in subparagraph 7 of Article 2 of the Wastes Control Act;

4. The term "product servitization" means the provision of quality, function, etc. of products in the form of service in order to reduce environmental pollution caused by using products and to enhance the utilization efficiency thereof;
5. The term "green management" means green management defined in subparagraph 7 of Article 2 of the Framework Act on Low Carbon, Green Growth;
- 5-2. The term "environmental management" means management activities of an enterprise, public institution, organization, etc. (hereinafter referred to as "enterprise, etc.") through which its human and physical resources and management system are managed in a systematic and sustainable manner in compliance with standard procedures and techniques in order to achieve the environment-friendly management goals set by the enterprise, public institution, organization, etc.;
6. The term "ecological industrial complex" means an industrial complex designated under Article 21 among industrial complexes defined in subparagraph 8 of Article 2 of the Industrial Sites and Development Act, in order to minimize the burden to environment and to maximize the efficiency of resources by regenerating the remnants, such as by-products, etc. generated in the course of manufacture of products, and wastes into raw materials or energy;
7. The term "green management system" means a system that enables an enterprise, etc. to efficiently control environmental factors by adopting and implementing green management;
- 7-2. The term "environmental management system" means a system that enables an enterprises, etc. to efficiently control environmental factors by adopting and implementing environmental management;
8. and 8-2. Deleted; <by Act No. 13747, Jan. 6, 2016>
9. The term "international standards" means the international standards laid down by the International Organization for Standardization with regard to environmental management systems;
10. The term "green product" means any green product defined in subparagraph 5 of Article 2 of the Framework Act on Low Carbon, Green Growth.

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

CHAPTER II CONVERSION INTO ENVIRONMENT-FRIENDLY INDUSTRIAL STRUCTURE

Article 3 (Comprehensive Policies)

- (1) The Minister of Trade, Industry and Energy shall establish comprehensive policies to promote conversion into an environment-friendly industrial structure (hereinafter referred to as "comprehensive policies") every five years, after consultation with the head of a related central administrative agency. <Amended by Act No. 9013, Mar. 28, 2008; Act No. 11690, Mar. 23, 2013>
- (2) Comprehensive policies shall include the following: <Amended by Act No. 9013, Mar. 28, 2008; Act No. 9931, Jan. 13, 2010>
 1. The present status and prospects of the industrial structure;

2. Establishment of goals to promote conversion into environment-friendly industrial structure;
3. Plans to establish environment-friendly industrial structure, such as the improvement of manufacturing processes and the development of clean manufacturing technologies;
4. Plans to foster the environmental facility industry, the remanufacturing industry and the product servitization industry to promote conversion into environment-friendly industrial structure;
5. Plans to promote green management;
6. Countermeasures to cope with the international environmental regulations;
7. Other matters necessary for the promotion of conversion into environment-friendly industrial structure and for the sustainable industrial development.

(3) When establishing goals referred to in paragraph (2) 2, the Minister of Trade, Industry and Energy may provide guidelines for promoting conversion into an environment-friendly industrial structure, such as the level of environmental friendliness and the degree of energy-consumption, the degree of industrial water-use and the recycling rate of resources of each business or of each item, after consultation with the Minister of Environment. <Amended by Act No. 9013, Mar. 28, 2008; Act No. 11690, Mar. 23, 2013>

(4) The Minister of Trade, Industry and Energy may request necessary data from a related central administrative agency, related local government, related research institution, or corporation or association involved in a national research and development project if necessary to establish comprehensive policies under paragraph (1). In such cases, any agency or institution in receipt of such a request shall comply therewith, except under extenuating circumstances. <Newly Inserted by Act No. 10717, May 24, 2011; Act No. 11690, Mar. 23, 2013>

(5) The Minister of Trade, Industry and Energy may request the head of a related central administrative agency to take measures necessary to implement comprehensive policies. <Amended by Act No. 9013, Mar. 28, 2008; Act No. 11690, Mar. 23, 2013>

Article 3-2 (Investigation of Actual Status, such as Statistics of Industrial Environment)

(1) The Minister of Trade, Industry and Energy may conduct an actual status survey, looking into the statistics on an environment-friendly industrial environment, etc. in order to efficiently establish and implement comprehensive policies. In such cases, the Statistics Act shall apply mutatis mutandis to the preparation of the statistics in question. <Amended by Act No. 11690, Mar. 23, 2013>

(2) Matters regarding the time, method, etc. of an actual status survey under paragraph (1) shall be prescribed by Presidential Decree.

[This Article Newly Inserted by Act No. 9013, Mar. 28, 2008]

Article 4 (Tasks to Perform for Industrial Environment)

(1) The organization of enterprises of each business or of each item prescribed by Presidential Decree (hereinafter referred to as an "enterprises' organization") may find and carry out tasks for efficiently promoting a comprehensive policy (hereinafter referred to as

"tasks to perform for industrial environment").

(2) The tasks to perform for industrial environment shall include each of the following matters: <Amended by Act No. 9931, Jan. 13, 2010>

1. Matters concerning the reduction of negative impact on the environment at the stage of supplying raw materials and the enhancement of using recyclable resources;
2. Matters concerning the improvement of manufacturing processes, such as saving of energy and reduction of the emission of greenhouse gases, removal or reduction of environmental pollution, effective utilization of by-products, and enlarged recycling of water at the stage of manufacturing process;
3. Matters concerning rationalization of packing and products distribution to reduce negative impact on the environment at the stage of distribution;
4. Matters concerning development of green products;
5. Matters to be carried out together in cooperation with the industries in other fields in order to promote conversion into environment-friendly industrial structure.

(3) The organization of enterprises which found the tasks to perform for industrial environment pursuant to paragraph (1) may, for an enterprise or for an organization of enterprises to carry out such tasks, select the tasks for support and, in turn, request the Government to provide the necessary support, if deemed necessary.

(4) Where an organization of enterprises requests any support pursuant to paragraph (3), the Government shall prepare necessary measures concerning such support.

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 4-2

[Previous Article 4-2 moved to Article 21 <by Act No. 10717, May 24, 2011>]

Article 5 (Subsidies for Equipment Funds, etc.)

(1) The Government may provide subsidies, from the following Fund, Accounts, or money, to a business entity in carrying out his/her project for the improvement of manufacturing processes and the replacement, installation, or addition of facilities to implement a comprehensive policy or initiatives for industrial environment: <Amended by Act No. 9685, May 21, 2009; Act No. 10893, Jul. 21, 2011; Act No. 13747, Jan. 6, 2016>

1. Special Accounts for Energy and Resources-Related Projects under the Act on the Special Accounts for Energy and Resources-Related Projects;
2. Fund for the Establishment and Promotion of Small and Medium Enterprises under the Small and Medium Enterprises Promotion Act;
3. Special Accounts for Environmental Improvement under the Framework Act on Environmental Policy;
4. Fund for Equipment Investment Support of the Korea Development Bank under the Korea Development Bank Act;
5. Other Funds prescribed by Presidential Decree.

(2) The Minister of Trade, Industry and Energy may request the head of a related agency in charge of the Accounts or the Funds referred to in paragraph (1) 3 through 5 to provide

cooperation necessary for subsidization under paragraph (1). <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 6 (Support for Technological Development Projects)

(1) In order to promote conversion into environment-friendly industrial structure, the Government shall carry out the projects to develop the following technologies (hereinafter referred to as "technology development projects"): <Amended by Act No. 9931, Jan. 13, 2010; Act No. 10717, May 24, 2011>

1. Clean manufacturing technologies;
2. Technologies for which an organization of enterprises requests support pursuant to Article 4 (3);
3. Technologies for environmental facilities;
4. Technologies for the design and manufacture of green products;
5. Technologies for the construction of ecological industrial complexes;
6. Technologies for the fostering of the product servitization industry;
7. Technologies for the fostering of the remanufacturing industry;
8. Technologies for the shared use of resources and energy among enterprises.

(2) The Government may contribute funds, or provide other support, required for the technology development projects conducted by any of the following institutions, organizations, enterprises, etc.: <Amended by Act No. 11690, Mar. 23, 2013>

1. National or public research institutions;
2. Specific research institutions under the Specific Research Institutes Support Act;
3. Industrial Technology Research Association under the Industrial Technology Research Cooperatives Support Act;
4. Universities, junior colleges and open colleges under the Higher Education Act and other Acts;
5. Korea Institute of Industrial Technology established under the Act on the Establishment, Operation and Fostering of Government-Funded Science and Technology Research Institutes, Etc. and specialized industrial technology research institutes under the Industrial Technology Innovation Promotion Act;
6. The Support Center for the Clean Manufacturing Industry prescribed in Article 7;
7. Enterprises participating in technology development projects;
8. Other corporations, organizations, or enterprises which the Minister of Trade, Industry and Energy deems necessary to promote technology development projects.

(3) In order to promote the manufacturing of green products, the fostering of the product servitization industry, etc., the Minister of Trade, Industry and Energy may formulate policies to assist the following matters and may require the agencies prescribed by Ordinance of the Ministry of Trade, Industry and Energy to provide such assistance: <Amended by Act No. 9931, Jan. 13, 2010; Act No. 11690, Mar. 23, 2013>

1. Matters regarding assistance to the start-up of an enterprise, cultivation of domestic and

overseas markets, and promotion of exportation;

2. Matters regarding the provision of information, education, training, and public relations of industries;

3. Other matters prescribed by Ordinance of the Ministry of Trade, Industry and Energy.

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 6-2 (Fostering, etc. of Green Management Consulting Business)

(1) In order to foster businesses (hereinafter referred to as "green management consulting business") that provide enterprises, etc. with services, such as investigation, analysis, diagnosis, consultation, provision of information, education, etc. which are necessary for the enterprises, etc. to introduce and conduct green management, the Government may promote any of the following projects: <Amended by Act No. 9931, Jan. 13, 2010>

1. Education and training for the cultivation of specialized manpower;

2. Research and dissemination of consulting techniques;

3. Other projects prescribed by Presidential Decree to foster the green management consulting business.

(2) The Minister of Trade, Industry and Energy may promote projects prescribed in the subparagraphs of paragraph (1) in order to foster the business (hereinafter referred to as "clean industrial technology consulting business") that provides enterprises, etc. with services, such as investigation, analysis, diagnosis, consultation, supply of information, education, etc. which are necessary for the enterprises, etc. to apply clean industrial technology to manufacturing process. In such cases, the "green management consulting business" in paragraph (1) 3 shall be deemed "clean industrial technology consulting business." <Amended by Act No. 9931, Jan. 13, 2010; Act No. 11690, Mar. 23, 2013>

(3) The procedures, methods and other matters necessary to conduct the projects in paragraphs (1) and (2) shall be prescribed by Ordinance of the Ministry of Trade, Industry and Energy. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 7 (Support Center for Clean Manufacturing Industry)

(1) To promote the proliferation of clean manufacturing technologies and the green management of enterprises, and to support the clean manufacturing technologies of small and medium enterprises, etc., the Minister of Trade, Industry and Energy may designate a research institution prescribed by Presidential Decree as the Support Center for the Clean Manufacturing Industry after consultation with the head of the relevant central administrative agency. <Amended by Act No. 9931, Jan. 13, 2010; Act No. 11690, Mar. 23, 2013>

(2) The Support Center for the Clean Manufacturing Industry shall implement the following projects, and may partially entrust such projects to a specialized institution prescribed by Presidential Decree: <Amended by Act No. 9931, Jan. 13, 2010; Act No. 10717, May 24, 2011; Act No. 11690, Mar. 23, 2013>

1. Development and support of clean manufacturing technologies;

2. Exchange of clean manufacturing technologies and collaborative projects with domestic

and overseas research institutions;

3. Education and training related to clean manufacturing technologies;

4. Projects to support the construction of green management systems;

4-2. Projects to deal with international environmental regulations;

4-3. Projects to facilitate conversion into resource-circulating industrial structure referred to in subparagraphs of Article 20 (2);

5. Other projects prescribed by Ordinance of the Ministry of Trade, Industry and Energy related to the support of the clean manufacturing industry.

(3) The Minister of Trade, Industry and Energy may contribute funds necessary for implementing the projects referred to in paragraph (2), or provide other necessary supports, to the Support Center for the Clean Manufacturing Industry. <Amended by Act No. 11690, Mar. 23, 2013>

(4) Matters necessary for the operation of the Support Center for the Clean Manufacturing Industry shall be prescribed by Ordinance of the Ministry of Trade, Industry and Energy. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 8 (Transfer or Proliferation of Clean Industrial Technology)

(1) The Government shall prepare necessary policies in order to promote the transfer of clean industrial technology and the proliferation of its development results.

(2) The Minister of Trade, Industry and Energy may, in order to promote the transfer of clean industrial technology and the proliferation of its development results, have the institution prescribed by Ordinance of the Ministry of Trade, Industry and Energy, such as the agencies, etc. that professionally perform the business of clean industrial technology, carry out projects for the examination or guidance of manufacturing process for the practical use of clean industrial technology and projects for the proliferation of such technology, for enterprises. In such cases, it may contribute the funds required by the relevant institution, or render other necessary supports. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 8-2 [Previous Article 8-2 moved to Article 23 <by Act No. 10717, May 24, 2011>]

Article 8-3 [Previous Article 8-3 moved to Article 23-2 <by Act No. 10717, May 24, 2011>]

Article 8-4 [Previous Article 8-4 moved to Article 23-3 <by Act No. 10717, May 24, 2011>]

Article 8-5 [Previous Article 8-5 moved to Article 23-4 <by Act No. 10717, May 24, 2011>]

Article 9 (Promotion of International Cooperation)

(1) The Government shall prepare measures to promote international cooperation in the environmental facility industry and clean industrial technology between the local governments, enterprise, universities, research institutes and other institutions and organizations, and the international organizations or foreign governments, enterprise, colleges, research institutes, and other institutions and organizations.

(2) The Minister of Trade, Industry and Energy may carry out any of the following projects in order to promote the international cooperation as referred to in paragraph (1): <Amended

by Act No. 11690, Mar. 23, 2013>

1. Investigation and research for international cooperation in the environmental facility industry and clean industrial technology;
2. International exchange of personnel of and information on the environmental facility industry and clean industrial technology;
3. Holding of the exhibitions and seminars on the environmental facility industry and clean industrial technology or operation of the international markets of clean industrial technology;
4. Development of overseas markets of the environmental facility industry and clean industrial technology;
5. Other projects deemed necessary for the promotion of international cooperation.

(3) Where any institution, organization or enterprise provided for in Article 6 (2) carries out any project as prescribed in paragraph (2), the Minister of Trade, Industry and Energy may give necessary support. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 9-2 (Promotion of Countermeasures against International Environmental Regulations)

(1) In order to facilitate conversion into environment-friendly industrial structure and to prepare countermeasures against international environmental regulations, the Government may perform the following projects: <Amended by Act No. 10717, May 24, 2011>

1. Collection, analysis, and proliferation of information regarding international environmental regulations;
2. Construction of a system to deal with international environmental regulations and information network therefor;
3. Education, training, inspections, research, development, and public relations to deal with international environmental regulations;
4. Other projects prescribed by Presidential Decree to promote the countermeasures against the international environmental regulations.

(2) Where any institution, organization, enterprise, etc. referred to in Article 6 (2) performs any project provided for in paragraph (1), the Minister of Trade, Industry and Energy may contribute funds or grant subsidies necessary therefor, or provide other necessary support. <Newly Inserted by Act No. 10717, May 24, 2011; Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 10 [Previous Article 10 moved to Article 22 <by Act No. 10717, May 24, 2011>]

Article 11 [Previous Article 11 moved to Article 23-5 <by Act No. 10717, May 24, 2011>]

Article 12 (Payment of Subsidies)

(1) Where any public institution, organization of enterprises or research institution prescribed by Presidential Decree carries out any of the following projects, the Government may pay subsidies for expenses needed for such projects: <Amended by Act No. 9931, Jan. 13, 2010>

1. Research to establish a comprehensive policy;

2. Project to find tasks to perform for industrial environment;
3. Expenses incurred for the green management promoting headquarters prescribed in Article 13 to carry out the projects prescribed in Article 13 (2);
4. Research to promote green management prescribed in Article 15.

(2) The criteria for payment of subsidies referred to in paragraph (1) and other necessary matters shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 13 (Green Management Promoting Headquarters)

(1) In order to efficiently implement the projects to propagate and proliferate green management and promote conversion into environment-friendly industrial structure and to promote voluntary participation of the private sector, the Minister of Trade, Industry and Energy may designate an organization determined by Presidential Decree as the green management promoting headquarters (hereinafter referred to as "promoting headquarters"). <Amended by Act No. 9931, Jan. 13, 2010; Act No. 10717, May 24, 2011; Act No. 11690, Mar. 23, 2013>

(2) The promoting headquarters shall perform the following projects: <Amended by Act No. 9931, Jan. 13, 2010; Act No. 10717, May 24, 2011; Act No. 11690, Mar. 23, 2013>>

1. Campaigns for conversion into environment-friendly industrial structure;
2. Finding problems involved in carrying out the tasks for industrial environment of each business or each item, and suggestions about them;
3. Enhancement of capability to deal with the environmental regulations through the analysis of trends of environmental regulations, propagation to the relevant enterprises, voluntary agreements, etc.;
4. Publicity and education for the improvement of an industrial environment;
5. International exchange and cooperation with related foreign institutions in green management activities;
6. Surveys and analysis to invigorate start-up companies related to green industries as defined in subparagraph 4 of Article 2 of the Framework Act on Low Carbon, Green Growth and education related thereto;
7. Development and propagation of techniques to evaluate green management;
8. Provision of guidance, counseling, education, and public relations about green management to enterprises;
9. Other projects prescribed by Ordinance of the Ministry of Trade, Industry and Energy to proliferate green management.

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 14 (Local Consultation Council)

The promoting headquarters may establish a local consultation council for each district and for each industrial complex which consists of persons related to enterprises, academic areas, research institutes, institutions supporting small and medium enterprises, etc., located in the relevant district, and, in turn, may perform activities to promote the exchange of information

and to efficiently improve the industrial environment, such as finding joint tasks and consultation about plans to support them.

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

CHAPTER III PROMOTION OF GREEN MANAGEMENT

Article 15 (Formulation, etc. of Policies for Promotion of Green Management)

(1) The Government shall formulate policies to promote green management and induce its diffusion, and to support enterprises developing or utilizing the techniques for green management and enterprises producing or purchasing green products. <Amended by Act No. 9931, Jan. 13, 2010>

(2) The Minister of Trade, Industry and Energy may perform the following projects to support the green management of enterprises, etc.: <Newly Inserted by Act No. 10717, May 24, 2011; Act No. 11690, Mar. 23, 2013>

1. Proliferating green management partnerships among enterprises;
2. Supporting the green management of Korean enterprises entering into overseas markets;
3. Other projects prescribed by Ordinance of the Ministry of Trade, Industry and Energy to support the establishment of green management systems.

(3) Where an institution, organization, enterprise, etc. referred to in Article 6 (2) performs any project referred to in paragraph (2), the Minister of Trade, Industry and Energy may contribute funds or grant subsidies necessary therefor, or provide other necessary support. <Newly Inserted by Act No. 10717, May 24, 2011; Act No. 11690, Mar. 23, 2013>

(4) The organization of enterprises shall prepare and maintain information and relevant data for green products, and have them available to enterprises, etc. for inspection, in order to promote production or purchase of green products. <Amended by Act No. 9931, Jan. 13, 2010; Act No. 10717, May 24, 2011>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Articles 16 through 16-4 Deleted. <by Act No. 13747, Jan. 6, 2016>

Article 17 (Creation of Information Network for Industrial Environment)

(1) The Minister of Trade, Industry and Energy shall create and operate an information network for industrial environment containing the following information, and provide it to enterprises, etc.: <Amended by Act No. 9931, Jan. 13, 2010; Act No. 11690, Mar. 23, 2013>

1. Information on the clean industrial technology;
2. Information on green management;
3. Information on the exchange of by-products under subparagraph 3 of Article 2 of the Act on the Promotion of Saving and Recycling of Resources;
4. Information on enterprise producing environment facilities and remanufactured products and their products;
5. Information on the domestic and overseas industrial environments.

(2) The Minister of Trade, Industry and Energy may have an institution prescribed by Ordinance of the Ministry of Trade, Industry and Energy perform as proxy the affairs for creation and operation of the information network for industrial environment under paragraph

(1). In such cases, he/she may render such support as the funds, etc. required by the relevant institution. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 18 (Education, Public Relations, etc. for Green Management)

(1) The Government may promote projects of education and public relations for green management in cooperation with the organization of enterprises, colleges and universities, research institutes, etc., in order to diffuse the knowledge, information and technology concerning green management. <Amended by Act No. 9931, Jan. 13, 2010>

(2) The Government may prepare policies for such supports as finding excellent enterprises of green management and awarding them, etc., in order to promote green management. <Amended by Act No. 9931, Jan. 13, 2010>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 19 (Examination and Guidance for Green Management)

The Minister of Trade, Industry and Energy may, if deemed necessary for green management of small and medium enterprises, perform the examination or guidance for green management, as prescribed by Presidential Decree. <Amended by Act No. 9931, Jan. 13, 2010; Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

CHAPTER IV ESTABLISHMENT OF RESOURCE-CIRCULATING INDUSTRIAL STRUCTURE

Article 20 (Facilitating Conversion into Resource-Circulating Industrial Structure)

(1) The Minister of Trade, Industry and Energy shall formulate and implement policies to facilitate the conversion into the resource-circulating industrial structure. <Amended by Act No. 11690, Mar. 23, 2013>

(2) The Minister of Trade, Industry and Energy may perform the following projects to facilitate the conversion into the resource-circulating industrial structure: <Amended by Act No. 11690, Mar. 23, 2013>

1. Surveys and analysis of overall status of demand for, and supply of, natural resources and renewable resources;
2. Research and development and standardization to add higher value to natural resources and renewable resources;
3. Establishing a system to facilitate exchanges of natural resources, renewable resources and energy among enterprises and evaluating economic feasibility;
4. Invigorating ecological industrial complexes and fostering the remanufacturing industry and the product servitization industry;
5. Other projects prescribed by Ordinance of the Ministry of Trade, Industry and Energy to facilitate conversion into the resource-circulating industrial structure.

(3) Where any institution, organization, enterprise, etc. referred to in Article 6 (2) performs any project provided for in paragraph (2), the Minister of Trade, Industry and Energy may contribute funds or grant subsidies necessary therefor, or provide other necessary

support. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Newly Inserted by Act No. 10717, May 24, 2011]

Article 21 (Designation, etc. of Ecological Industrial Complexes)

(1) The Minister of Trade, Industry and Energy shall designate ecological industrial complexes through consultation with the Minister of Environment and the authority to designate industrial complexes provided for in Article 8-2 (1) of the Industrial Sites and Development Act (hereafter referred to as “authority to designate industrial complexes” in this Article). <Amended by Act No. 11690, Mar. 23, 2013>

(2) The Minister of Trade, Industry and Energy may perform the following projects with respect to ecological industrial complexes. In such cases, the Government may contribute funds necessary for performing the relevant projects or provide other necessary support: <Amended by Act No. 11690, Mar. 23, 2013>

1. Developing and propagating technologies for joint use of resources and energy among enterprises within an ecological industrial complex;
2. Building up a comprehensive management system of resources and energy within an ecological industrial complex;
3. Training and educating experts in construction of ecological industrial complexes;
4. Cooperation with local communities to construct ecological industrial complexes;
5. Other projects prescribed by Presidential Decree to construct ecological industrial complexes.

(3) The Minister of Trade, Industry and Energy may designate an exclusive organization prescribed by Presidential Decree to take charge of affairs concerning operation, etc. of ecological industrial complexes. <Amended by Act No. 11690, Mar. 23, 2013>

(4) If necessary for efficiently constructing an ecological industrial complex, the Minister of Trade, Industry and Energy may request the relevant authority to designate industrial complexes to review an industrial complex development plan to ensure that major business to be located in the industrial complex, the land utilization plan, and the major infrastructure plan can maximize efficiency in the use of resources and energy by enterprises located therein when establishing the industrial complex development plan under Article 6, 7, or 7-2 of the Industrial Sites and Development Act. <Amended by Act No. 11690, Mar. 23, 2013>

(5) Matters necessary for performing projects, methods and procedures for providing support under paragraph (2) and other matters shall be prescribed by Ordinance of the Ministry of Trade, Industry and Energy in consultation with the Minister of Environment. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

[Moved from Former Article 4-2 <by Act No. 10717, May 24, 2011>]

Article 22 (Quality Certification, etc. for Environmental Facilities and Remanufactured Products)

(1) In order to strengthen the quality and technological competitiveness of environmental facilities and remanufactured products, the Minister of Trade, Industry and Energy may

certify the quality of environmental facilities and remanufactured products after the evaluation of their quality and performance, and factory inspection: Provided, That where the quality standards and certification regarding remanufactured products are prescribed by other Acts, he/she shall consult with the head of the relevant central administrative agency prescribed by such Acts about quality certification of such products. <Amended by Act No. 11690, Mar. 23, 2013>

(2) The Minister of Trade, Industry and Energy may request a public institution defined in subparagraph 2 of Article 2 of the Act on the Promotion of Purchase of Green Products, which purchases environmental facilities and remanufactured products, to preferentially purchase environmental facilities and remanufactured products which have obtained quality certification pursuant to paragraph (1). <Amended by Act No. 10550, Apr. 5, 2011; Act No. 11690, Mar. 23, 2013>

(3) The Minister of Trade, Industry and Energy may have the relevant institution or organization prescribed by Ordinance of the Ministry of Trade, Industry and Energy conduct the evaluation of quality and performance, and factory inspection pursuant to paragraph (1) as proxy. In such cases, he/she may subsidize funds necessary therefor to such institution or organization. <Amended by Act No. 11690, Mar. 23, 2013>

(4) The Minister of Trade, Industry and Energy may request the institution or organization pursuant to paragraph (3) to submit data on the evaluation of quality and performance, and factory inspection. <Amended by Act No. 11690, Mar. 23, 2013>

(5) In carrying out quality certification under paragraph (1), the Minister of Trade, Industry and Energy shall determine and publicly announce the detailed standards, procedures, post-management and other matters of such quality certification. In such cases, the quality certification standards for remanufactured products shall be determined through consultation between the Minister of Trade, Industry and Energy and the Minister of Environment. <Newly Inserted by Act No. 13870, Jan. 27, 2016>

(6) Matters necessary for quality certification under paragraph (1) shall be determined by Presidential Decree. <Amended by Act No. 13870, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 23 (Products Eligible for Remanufacture)

(1) Products eligible for remanufacture shall be jointly chosen and publicly announced by the Minister of Trade, Industry and Energy and the Minister of Environment among products or parts thereof which meet requirements and criteria prescribed by Presidential Decree, and other necessary matters, such as remanufacture processes of each product shall be prescribed and publicly announced by the Minister of Trade, Industry and Energy. <Amended by Act No. 10717, May 24, 2011; Act No. 11690, Mar. 23, 2013>

(2) The warranty period, repair, exchange, refund, or other compensation methods of remanufactured products that have been quality-certified under Article 22, and matters necessary for quality guarantee shall be prescribed by Presidential Decree. <Amended by Act No. 10717, May 24, 2011>

(3) Enterprises, etc. that design or produce products eligible for remanufacture shall design or produce the structure or quality of such products or parts thereof in a manner that resources can be easily circulated and used through remanufacture, etc. after use of such products. <Newly Inserted by Act No. 10717, May 24, 2011>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 23-2 (Indication, etc. of Remanufactured Products)

(1) Remanufacturing enterprises that have obtained the quality certification of remanufactured products pursuant to Article 22 shall attach a label to a remanufactured product, and indicate the matters prescribed by Ordinance of the Ministry of Trade, Industry and Energy, such as a quality certification mark, in such label. <Amended by Act No. 10717, May 24, 2011; Act No. 11690, Mar. 23, 2013>

(2) No person, other than a remanufacturing enterprise that has obtained the quality certification of remanufactured products pursuant to Article 22, shall indicate quality certification or other similar marks thereto. <Amended by Act No. 10717, May 24, 2011>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 23-3 (Designation, Operation, etc. of Specialized Research Institutions)

In order to support the following matters regarding the quality certification of remanufactured products, the Minister of Trade, Industry and Energy may designate and operate a specialized research institution prescribed by Ordinance of the Ministry of Trade, Industry and Energy after consultation with the Minister of Environment: <Amended by Act No. 11690, Mar. 23, 2013>

1. The technological development of remanufactured products;
2. The development of methods and standards for quality evaluation of remanufactured products;
3. Other matters prescribed by Ordinance of the Ministry of Trade, Industry and Energy related to the quality certification of remanufactured products.

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 23-4 (Subsidization of Funds, etc. for Remanufacture)

Where any remanufacturing enterprise implements research and development projects for remanufacture, etc., the State or local governments may subsidize or finance funds necessary therefor.

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 23-5 (Mutual Aid Projects for Environmental Facilities)

(1) To reduce the possible early-stage risk which can be created as a result of practical use of the domestically developed environmental facility and to provide a guarantee against the defects of the environmental facility, the Government may assign an organization determined by Presidential Decree to carry out a mutual aid project.

(2) The Government may contribute funds to a mutual aid project carried out by an organization referred to in paragraph (1).

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

CHAPTER V SUPPLEMENTARY PROVISIONS

Article 24 Deleted. <by Act No. 6600, Jan. 14, 2002>

Article 25 (Measures to Reduce Emissions of Greenhouse Gases)

Where the Minister of Trade, Industry and Energy deems it necessary to promote conversion into environment-friendly industrial structure and to follow the United Nations Framework Convention on Climate Change, he/she may request the person who is required to present an energy use plan to the Minister of Trade, Industry and Energy pursuant to Article 8 of the Energy Use Rationalization Act, to take necessary measures, such as adjustment or supplementation of such plan in order to reduce the emissions of greenhouse gases, as prescribed by Presidential Decree. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 26 Deleted. <by Act No. 6600, Jan. 14, 2002>

Article 27 (Revocation, etc. of Designation of Support Center for Clean Manufacturing Industry, etc.)

(1) Where the Support Center for the Clean Manufacturing Industry established under Article 7 (1) and a specialized research institution designated under Article 23-3 fall under any of the following cases, the Minister of Trade, Industry and Energy may revoke the designation thereof or order the suspension of business for a fixed period of up to one year: Provided, That in cases falling under subparagraph 1, he/she shall revoke the designation thereof: <Amended by Act No. 10717, May 24, 2011; Act No. 11690, Mar. 23, 2013; Act No. 13747, Jan. 6, 2016>

1. Where it has been designated by fraudulent or other improper means;
2. Where it fails to conduct business for at least one year without good cause;
3. Deleted. <by Act No. 13747, Jan. 6, 2016>

(2) Deleted. <by Act No. 13747, Jan. 6, 2016>

(3) Where the Minister of Trade, Industry and Energy intends to revoke designation pursuant to paragraph (1), he/she shall hold a hearing. <Amended by Act No. 11690, Mar. 23, 2013>
[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 28 (Delegation or Entrustment of Authority)

(1) Part of the authority of the Minister of Trade, Industry and Energy under this Act may be delegated to the heads of agencies under his/her jurisdiction, as prescribed by Presidential Decree. <Amended by Act No. 11690, Mar. 23, 2013; Act No. 14839, Jul. 26, 2017>

(2) Part of the authority of the Minister of Trade, Industry and Energy under this Act may be entrusted to the Minister of SMEs and Startups, as prescribed by Presidential Decree. <Newly Inserted by Act No. 14839, Jul. 26, 2017>

(3) The Minister of Trade, Industry and Energy may entrust the organization of enterprises prescribed by Presidential Decree with the business of examination and guidance for green management of small and medium enterprises under Article 19. <Amended by Act No. 9931, Jan. 13, 2010; Act No. 11690, Mar. 23, 2013; Act No. 14839, Jul. 26, 2017>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

CHAPTER VI PENALTY PROVISIONS

Article 29 (Penalty Provisions)

Any person who indicates a quality certification mark or a similar mark in violation of Article 23-2 (2) shall be punished by imprisonment with labor for up to two years or by a fine of up to 20 million won.

[This Article Wholly Amended by Act No. 13747, Jan. 6, 2016]

Article 30 (Joint Penalty Provisions)

(1) When the representative of a corporation, agent, employee or other worker of a corporation commits an act prescribed in Article 29 in connection with the affairs of the said corporation, not only shall such an actor be punished accordingly, but the corporation shall be punished by a fine under the same Article: Provided, That the same shall not apply where the corporation is not negligent in paying due care or supervision to the relevant businesses in order to prevent such a violation.

(2) When an agent, employee or other worker of an individual commits such an act as prescribed in Article 29 in connection with the affairs of the said individual, not only shall such actor be punished accordingly, but the individual shall be punished by a fine under the same Article: Provided, That the same shall not apply where the individual is not negligent in paying due care or supervision to the relevant businesses in order to prevent such a violation.

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 31 (Deemed Public Officials for Purposes of Penalty Provisions)

Any executive or employee of an organization engaged in proxy business pursuant to Article 22 (3) shall be deemed a public official for the purposes of penalty provisions under Articles 129 through 132 of the Criminal Act. <Amended by Act No. 10717, May 24, 2011; Act No. 13747, Jan. 6, 2016>

[This Article Wholly Amended by Act No. 9013, Mar. 28, 2008]

Article 32 Deleted. <by Act No. 13747, Jan. 6, 2016>

ADDENDA (Omitted)

17. Enforcement Decree of the Environmental Technology and Industry Support Act

[Enforcement Date 17. Jan, 2014.] [Presidential Decree No.25083, 14. Jan, 2014., Partial Amendment]

Article 1 (Purpose)

The purpose of this Decree is to prescribe matters delegated by the Environmental Technology and Industry Support Act and other matters necessary for the enforcement thereof. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 2 Deleted. <by Presidential Decree 23267, Oct. 28, 2011>

Article 3 (Establishment of Growth Promotion Plans for Environmental Technology

and Environmental Industry) (1) When the Minister of Environment establishes a plan for developing environmental technologies and promoting the growth of the environmental industries (hereinafter referred to as “growth promotion plan”) pursuant to Article 3 (1) of the Environmental Technology and Industry Support Act (hereinafter referred to as the "Act"), he/she shall notify the heads of relevant central administrative agencies of such plan. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

(2) The Minister of Environment may request the heads of relevant central administrative agencies to provide the current status and estimate data of technologies and industries under their jurisdiction, which are necessary for the establishment of the growth promotion plan in accordance with Article 3 (3) of the Act. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

[This Article Wholly Amended by Presidential Decree 21544, Jun. 16, 2009]

Article 4 (Establishment, etc. of Annual Implementation Plan) (1) The heads of relevant central administrative agencies shall establish an annual implementation plan for the relevant year (hereinafter referred to as "implementation plan") by February 15 each year in accordance with the growth promotion plan and then submit such annual implementation plan to the Minister of Environment, along with implementation records of the preceding year. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

(2) The Minister of Environment shall integrate and report both implementation plans and implementation records of the preceding year submitted pursuant to paragraph (1) to the National Science and Technology Council established in accordance with Article 9 of the Framework Act on Science and Technology. <Amended by Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 24474, Mar. 23, 2013>

[This Article Wholly Amended by Presidential Decree 21544, Jun. 16, 2009]

Article 5 Deleted. <by Presidential Decree No. 21544, Jun. 16, 2009>

Article 6 Deleted. <by Presidential Decree No. 21544, Jun. 16, 2009>

Article 7 Deleted. <by Presidential Decree No. 21544, Jun. 16, 2009>

Article 8 Deleted. <by Presidential Decree No. 21544, Jun. 16, 2009>

Article 9 (Implementation of Project for Development of Environmental Technology) (1) The Minister of Environment shall, in order to undertake a project for developing environmental technologies under his/her jurisdiction in accordance with Article 5 (1) of the Act (hereinafter referred to as "development project"), establish a detailed plan for promoting such development project and then notify it to the public.

(2) The Minister of Environment shall, when he/she intends to carry out a development project in accordance with a detailed plan for promoting the development project under paragraph (1), select a person to implement such development project from among institutions, organizations or business operators under Article 5 (1) of the Act (hereinafter referred to as "research institutions, etc.") and have him/her carry out such development project by entering into an agreement with research institutions, etc. selected (hereinafter referred to as "research institutions in charge"). In such cases, an institution which has no

representative authority among research institutions in charge may enter into an agreement with the representative of a corporation to which such institution belongs.

(3) The agreement under paragraph (2) shall contain the matters falling under each of the following subparagraphs:

1. Research tasks and people in charge;
2. Costs necessary for the development project under Article 5 (2) of the Act and methods of paying such costs;
3. Utilization of the results of the development project;
4. Collection of technical royalties accrued from the utilization of the results of the development project;
5. Matters on the amendment or cancellation of the agreement and the violation thereof;
6. Others related to the implementation of the development project.

(4) The heads of research institutions in charge may entrust part of the implementation of the development project to other research institutions, etc.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 10 Deleted. <by Presidential Decree No. 18880, Jun. 23, 2005>

Article 11 (Adjunct Laboratories to Enterprises)

"Adjunct laboratories to enterprises meeting the standards prescribed by Presidential Decree" in Article 5 (1) 5 of the Act means laboratories affiliated to enterprises which are always staffed with full-time researchers in the environmental field among research institutes affiliated to enterprises under Article 14 (1) 2 of the Basic Research Promotion and Technology Development Support Act. <Amended by Presidential Decree No. 22977, Jun. 24, 2011>

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 11-2 (Institutions in Charge of Undertaking Development Projects)

The term "foreign research institutions meeting the standards prescribed by Presidential Decree" under the main sentence of Article 5 (1) 9 of the Act means any institution recognized by the Minister of Environment as a research institute which is always staffed with five or more full-time researchers with a bachelor's degree or higher in relevant fields and more than three years of research experience and which is equipped with independent research facilities.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 12 (Research Institutions in Environmental Field)

The term "institutions, organizations or business operators prescribed by Presidential Decree" in Article 5 (1) 10 of the Act means institutions, organizations or business operators falling under each of the following subparagraphs:

1. The Korea Environment and Resources Corporation established under the Korea Environment and Resources Corporation Act (hereinafter referred to as the "Korea Environment and Resources Corporation Act");
2. The Sudokwon Landfill Site Management Corporation established under the Act on the

- Establishment and Management of Sudokwon Landfill Site Management Corporation;
3. The Korea Institute of Advancement of Technology, the Korea Evaluation Institute of Industrial Technology, the Korea Institute of Ceramic Engineering and Technology, the Korea Testing Laboratory, and the specializing industrial technology research institutes established under the Industrial Technology Innovation Promotion Act;
 4. Venture companies in the environmental area incorporated under Article 2 (1) of the Act on Special Measures for the Promotion of Venture Businesses (hereinafter referred to as the "environment venture company");
 5. Research institutions established for the purpose of developing the environmental technology under the Civil Act or other Acts.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 13 (Contributions, etc. to Development Projects)

Where contributions from persons, other than the Government or other research and development expenses of enterprises under Article 5 (2) of the Act are included in the expenses necessary for development projects, the heads of research institutions in charge shall enter into an agreement on contributions, etc., in advance, with persons who bear such expenses.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 14 (Payment and Management of Contributions) (1) The heads of research institutions in charge shall, when they receive the contributions from the Government or persons, other than the Government, or research and development expenses of enterprises under Article 5 (2) of the Act, manage them in separate accounts designated.

(2) The contributions made by the Government under Article 5 (3) of the Act shall be paid in installments, taking into account the progress of the development project: Provided, That the contributions may, if necessary, be paid in lump sum, taking into account the size or start time of the development project.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 15 (Use of Contributions) (1) The heads of research institutions in charge which receive the contributions from the Government pursuant to Article 14 (1) in order to implement a development project shall use such contributions only to cover expenses directly related to the implementation of the relevant development project, such as labor cost, cost of materials, data-processing cost, production cost of prototype, etc., as prescribed by the Minister of Environment.

(2) The Minister of Environment may, if any research institution in charge uses contributions for any purpose, other than those under paragraph (1) without any justifiable ground, retrieve such contributions in whole or in part.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 16 (Collection and Use of Royalties) (1) Deleted. <by Presidential Decree No. 20165, Jul. 4, 2007>

(2) The heads of research institutions in charge shall use technical royalties for the purposes

falling under each of the following subparagraphs pursuant to Article 5 (5) of the Act and report the results of use in the relevant year to the Minister of Environment by the end of February in the following year: <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

1. Enhancement of research efficiency of researchers, etc. participating directly or indirectly in the relevant development project;
2. Appropriation of royalties to research and development costs;
3. Management and utilization of the outcomes of research and development.

(3) The heads of research institutions in charge shall pay an amount corresponding to the rates pursuant to the classification set forth in the subparagraphs of Article 22 (1) of the Regulation on the Management, etc of National Research and Development Projects to the Korea Environmental Industry and Technology Institute under Article 5-3 of the Act (hereinafter referred to as the “Korea Environmental Industry and Technology Institute”) in accordance with Article 5 (5) of the Act. <Amended by Presidential Decree No. 21544, Jun. 16, 2009; Presidential Decree No. 25083, Jan. 14, 2014>

(4) The president of the Korea Environmental Industry and Technology Institute (hereinafter referred to as "president of the Korea Environmental Industry and Technology Institute") may use technical royalties received pursuant to paragraph (3) for the purposes falling under each of the following subparagraphs after obtaining an approval from the Minister of Environment: <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

1. Re-investment in development projects;
2. Projects for technical support to the persons who intend to use the results of research and development;
3. Projects for exchange of human resources in environmental technology at home and abroad for encouraging development projects;
4. Rewards and welfare promotion projects for the persons who have developed excellent environmental technologies;
5. Projects for exchange of information on environmental technology;
6. Projects for support to authentication of new technology or verification of technology;
7. Other projects recognized by the Minister of Environment for the promotion of environmental technologies.

(5) Detailed matters concerning collection and use, etc. of technical royalties other than the matters prescribed by this Decree shall be prescribed by the Minister of Environment. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

Article 16-2 (Restriction, etc. on Participation in National Research and Development Projects, etc.) (1) Article 27 (1) through (5), and (7) through (10), of the Regulations on Management, etc. of National Research and Development Projects shall apply to the standards for the period of restriction on participation in national research and development projects and the recovery of project costs pursuant to Article 5-2 (1) and (3) of the Act as well as to the formation and operation of an evaluation board therefor.

(2) A person who becomes subject to the restriction on participation in national research

and development projects pursuant to Article 5-2 (5) of the Act may file an objection to a person who has placed the restriction within 30 days from the receipt of such notification: Provided, That where the person who has placed the restriction is the head of central administrative agencies other than the Minister of Environment and is operating a system for objection application pursuant to Article 27 (6) of the Regulations on Management, etc. of National Research and Development Projects, such system shall apply.

[Former Article 16-2 Moved to Article 16-3 by Presidential Decree No. 25083, Jan. 14, 2014]

Article 16-3 (Projects of Korea Environmental Industry and Technology Institute)

"Projects prescribed by Presidential Decree" referred to in Article 5-3 (4) 13 of the Act means any of the following projects: <Amended by Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 25083, Jan. 14, 2014>

1. Examination and research on policies and technologies for promoting environmental technologies and environmental industry;
2. Identification of and support to a promising environmental industry;
3. Business of facilitating investment in the environmental industry and supporting therefor, such as financing;
4. Business of promoting demands for environmental services, such as environmental technologies, environmentally-friendly facilities, environmentally-friendly products, environment-related financial products, and environment-related consulting;
5. Support, survey and research for the practical use of domestic environmental technologies in foreign countries;
6. Businesses concerning the support for education and promotion of responses to climate change;
7. Business prescribed by the articles of incorporation as necessary for efficiently conducting business under Article 5-3 (4) 1 through 12 of the Act and subparagraphs 1 through 6 of this Article.

[This Article Wholly Amended by Presidential Decree 44, Jun. 16, 2009]

[Moved from Article 16-2 by Presidential Decree No. 25083, Jan. 14, 2014]

Article 17 (Projects of Facilitating Practical Use of Environmental Technologies)

"Projects prescribed by Presidential Decree" in Article 6 (2) 5 of the Act means the following:

1. Projects designed, where a local government has saved a budget subsidized by the State or other local governments by utilizing a new technology as prescribed by Article 7 (1) of the Act (hereinafter referred to as "new technology"), to pay part of the amount saved as grants of encouragement to facilitate the practical use of new technologies by such local government;
2. Projects designed, where, after the State or a local government installed environmental facilities using a new technology, the new technology is deemed successful, to cover the costs required for the installation of such environmental facilities;
3. Projects designed to discover, foster, and support environment venture companies;

4. Projects designed to provide necessary human resources, information, facilities, funds and technologies to facilitate the practical use of excellent environmental technologies.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 18 (Application for Authentication of New Technology or Verification of Technology) (1) A person who intends to obtain a new technology certification or technology verification pursuant to Article 7 (1) through (3) of the Act shall submit an application for a new technology certification or technology verification containing each of the following matters (hereinafter referred to as "application") to the Minister of Environment: <Amended by Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 25083, Jan. 14, 2014>

1. Documents specifying the development background, history, principle, validity, etc. of the technology;
2. Documents describing performance and economical efficiency of the technology;
3. Design drawings and operating manual of the facilities subject to appraisal;
4. Documents describing the details appraised by the applicant, such as items of appraisal, frequency of appraisal, method of appraisal, kinds of raw materials, materials and samples related to the appraisal and the result of a domestic pilot test;
5. Documents describing the details (including the substance of the new technologies and details of novelty and excellency thereof) of the new technology;
6. Documents evidencing that the applicant is a technology holder, such as the results of use in Korea and overseas (limited to cases where the results of use are available) and domestic or foreign patent or authentication;
7. Investigation report on advanced technology performed by a specialized institution designated under Article 58 (1) of the Patent Act;
8. Documents specifying the matters subject to verification and method of field appraisal (limited to verification of technology);
9. Others publicized by the Minister of Environment as recognized necessary for the authentication of new technology or verification of technology.

(2) "Environmental technologies which are prescribed by Presidential Decree including the sewage water or wastewater treatment technology, water purification technology, etc." in the former part of Article 7 (3) of the Act means any of the following technologies: <Newly Inserted by Presidential Decree No. 25083, Jan. 14, 2014>

1. Technologies for sanitizing or treating livestock excreta provided for in subparagraph 2 of Article 2 of the Act on the Management and Use of Livestock Excreta;
2. Technologies for purifying raw water provided for in subparagraph 1 of Article 3 of the Water Supply and Waterworks Installation Act;
3. Technologies for treating wastewater referred to in subparagraph 4 of Article 2 of the Water Quality and Aquatic Ecosystem Conservation Act or rainfall outflow water referred to in subparagraph 5 of the same Article;
4. Technologies for treating sewage referred to in subparagraph 1 of Article 2 of the

Sewerage Act or foul waste referred to in subparagraph 2 of the same Article.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 18-2 Deleted. <by Presidential Decree No. 20165, Jul. 4, 2007>

Article 18-3 (Criteria of Appraisal of Authentication of New Technology or Verification of Technology)

Technologies subject to authentication of new technology or verification of technology under Article 7 (1) through (3) of the Act shall comply with Acts and subordinate statutes related to environment and the criteria of appraisal therefor shall be as follows: <Amended by Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 25083, Jan. 14, 2014>

1. Novelty: Technologies in the method of construction in environmental fields, which have been developed for the first time in Korea or been improved through the introduction of main parts of domestic or foreign technologies, and technologies related thereto;
2. Excellency in technical performance: Technologies with high efficiency, perfectness, importance and possibility of development;
3. Excellency in application to the field: Technologies with economical efficiency, safety, and conveniences in maintenance and management, compared with existing technologies.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 18-4 (Method of and Procedure for Appraisal of Authentication of New Technology or Verification of Technology)

(1) When the Minister of Environment receives an application for authentication of new technology or verification of technology pursuant to Article 18, he/she shall publicize the main details of the technologies on the Internet website, etc. for at least 30 days and hear opinions from interested parties.

(2) After hearing opinions from interested parties pursuant to paragraph (1), the Minister of Environment shall conduct an appraisal of authentication of new technology or verification of technology under Article 7 (1) through (3) of the Act. <Amended by Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 25083, Jan. 14, 2014>

(3) The appraisal of the authentication of new technology under paragraph (2) shall be conducted through a field investigation (referring to confirmation on whether technological details, field applicability, etc. are identical to the details of the application; hereinafter the same shall apply) and documentary examination, and the appraisal for the verification of technology shall be conducted through a field investigation, documentary examination, field assessment (referring to the assessment of the functions of the facilities installed in the field subject to appraisal, after undertaking tests and analyses, etc. for a certain period; hereinafter the same shall apply) and overall assessment.

(4) Specific procedures for a field investigation, documentary examination, field assessment, and overall assessment under paragraph (3) and other necessary matters shall be prescribed and publicized by the Minister of Environment.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 18-5 (Public Announcement and Management of Authentication of New Technology or Verification of Technology)

(1) When the Minister of Environment issues

a certificate for authentication of new technology or verification of technology pursuant to Article 7 (4) of the Act after undertaking an appraisal for the authentication of new technology or verification of technology under Article 18-4 (2), he/she shall publicly announce the details of authentication or verification through the Internet website, etc. and notify the Korea Environmental Industry and Technology Institute of details of such issuance. <Amended by Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 25083, Jan. 14, 2014>

(2) When the president of the Korea Environmental Industry and Technology Institute receives notification of the details of issuance of a certificate for authentication of new technology or verification of technology pursuant to paragraph (1), he/she shall preserve the details of such issuance for ten years. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 19 (Small and Medium Enterprises in Environmental Field)

"Small and medium enterprise meeting the standards prescribed by Presidential Decree" in Article 7 (6) 1 of the Act means a small or medium company incorporated under Article 2 of the Framework Act on Small and Medium Enterprises, which runs an environmental business. <Amended by Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 25083, Jan. 14, 2014>

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 19-2 Deleted. <by Presidential Decree No. 20165, Jul. 4, 2007>

Article 19-3 (Preferential Use of New Technologies or Verified Technologies) (1) and (2) Deleted. <by Presidential Decree No. 20165, Jul. 4, 2007>

(3) Institutions or business operators under Article 7-2 (3) of the Act may, when they place an order for construction or design of environmental facilities, take preferential measures, such as granting additional points in a tender to any new technologies or verified technologies, as prescribed and publicized by the Minister of Environment. <Amended by Presidential Decree No. 21544, Jun. 16, 2009; Presidential Decree No. 25083, Jan. 14, 2014>

(4) Where an institution or business operator who establishes and operates environmental facilities pursuant to Article 7-2 (3) of the Act intends to utilize a new technology or verified technology, the Minister of Environment may provide funds necessary to utilize the new technology or verified technology to such institution or business operator. <Amended by Presidential Decree No. 21544, Jun. 16, 2009; Presidential Decree No. 25083, Jan. 14, 2014>

[This Article Newly Inserted by Presidential Decree No. 18157, Dec. 11, 2003]

[Title of this Article Amended by Presidential Decree No. 25083, Jan. 14, 2014]

Article 19-4 (Term of Validity and Application for Extension of Authentication of New Technology and Verification of Technology) (1) Deleted. <by Presidential Decree No. 20165, Jul. 4, 2007>

(2) A person who intends to extend the term of validity under Article 7-3 (2) of the Act shall apply for extension of the term of validity of authentication of new technology and verification of technology (hereinafter referred to as "application for extension"), along with the following

documents, to the Minister of Environment by not later than 120 days prior to expiry of the term of validity: <Amended by Presidential Decree No. 21544, Jun. 16, 2009; Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 23934, Jul. 4, 2012>

1. Documents stating the improved matters after the authentication of new technology or verification of technology;

2. Documents stating the records of utilization in Korea and overseas and the results of application, etc. after the authentication of new technology or verification of technology;

3. Documents stating the current status of development of similar technology and the present level of such technology.

(3) The Minister of Environment shall notify a person who has obtained authentication of new technology or verification of technology, of the application procedure for extension of the term of validity by 150 days before the validity of authentication of new technology or verification of technology expires. In such cases, the said notification may be sent by means of a mobile phone text message, e-mail, fax, telephone, document, etc. <Newly Inserted by Presidential Decree No. 23934, Jul. 4, 2012>

(4) When the Minister of Environment has received an application for extension of the term of validity of authentication of new technology and verification of technology under paragraph (2), he/she shall determine whether the said term of validity shall be extended through the appraisal of the following matters: <Amended by Presidential Decree No. 21544, Jun. 16, 2009; Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 23934, Jul. 4, 2012>

1. Results of utilization from when the authentication of new technology or verification of technology is received to when an application for extension of the term of validity is made;

2. Whether performance of technology is satisfactory after the application of new technology or verified technology as prescribed by Article 7 (2) of the Act (hereinafter referred to as “verified technology”), compared with the performance at the time of authentication of new technology or verification of technology;

3. Whether economical efficiency, safety, eco-friendliness, conveniences in maintenance and management are satisfactory after the application of new technology or verified technology, compared with those at the time of authentication of new technology or verification of technology;

4. Whether the related Acts and subordinate statutes are complied with.

(5) Appraisal for extension of the term of validity under paragraph (4) shall be conducted through a field investigation and documentary examination. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

(6) Specific procedures for a field investigation and documentary examination under paragraph (5) and other necessary matters shall be prescribed and publicized by the Minister of Environment. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

[This Article Newly Inserted by Presidential Decree No. 18157, Dec. 11, 2003]

Article 19-5 (Procedures for Cancellation of Authentication of New Technology or

Verification of Technology) (1) When the Minister of Environment intends to cancel any authentication of new technology or verification of technology under Article 7-4 of the Act, he/she shall give prior notice to the relevant person of the intended cancellation, specifying the reasons of such cancellation.

(2) Any person who receives prior notice of cancellation under paragraph (1) may submit an explanation within 30 days from the date when he/she receives such prior notice.

(3) After investigating (including a field investigation if necessary) and reviewing an explanation submitted under paragraph (2), the Minister of Environment shall determine whether to cancel authentication of new technology or verification of technology. In such cases, where any person who has received prior notice of cancellation under paragraph (2) fails to submit an explanation referred to in paragraph (2), he/she shall be deemed to have acknowledged the fact that constituted the ground for cancellation.

(4) When the Minister of Environment cancels authentication of new technology or verification of technology, he/she shall give notice to the relevant person or any interested person without delay and post such cancellation at the website of the Ministry of Environment on the Internet.

Article 19-6 (Designation of Excellent Environmental Enterprises) (1) “ Criteria prescribed by Presidential Decree ” in Article 7-5 (1) of the Act means each of the following: <Amended by Presidential Decree No. 25083, Jan. 14, 2014>

1. Excellence in business performance, such as domestic and overseas sales;
2. The level of practical use of a technology owned by an enterprise;
3. Potential use of green products and environmental technologies and their marketability under Article 5-3 (1) of the Act of an environmental enterprise provided for in Article 5 (1) 8 of the Act (hereinafter referred to as “ environmental enterprise ”);
4. Potential for new job creation;
5. Potential for further development of an environmental technology.

(2) Where an environmental enterprise falls under any of the following subparagraphs, the Minister of Environment shall exclude such enterprise from designation as an excellent environmental enterprise under paragraph (1):

1. Where an enterprise breaches any other's intellectual property rights;
2. Where an enterprise is restricted from participating in national research and development projects under Article 11-2 of the Framework Act on Science and Technology;
3. Where an enterprise has arrears in tax, or its business has been suspended or closed;
4. Where for the last three consecutive years, the debt to asset ratio of an enterprise has been at least 500 percent, or its interest expense has exceeded its operating income.

(3) The criteria for designation referred to in paragraph (1) and detailed criteria for exclusion from designation referred to in paragraph (2) shall be determined and publicly announced by the Minister of Environment.

[This Article Newly Inserted by Presidential Decree No. 23267, Oct. 28, 2011]

Article 19-7 (Installation and Operation of Environmental Technology and Database Network) (1) The Minister of Environment may provide information on dissemination of environmental technologies, etc. to central administrative agencies, local governments, pertinent education and research institutions, companies and organizations, which are related with environmental technologies or environmental industries, by installing and operating an environmental technology and database network under Article 9 (2) of the Act. (2) Among information referred to in paragraph (1), any research and development information pertaining to national research and development projects in the environmental field shall be provided in connection with the national science and technology information system provided for in Article 25 of the Regulation on the Management, etc of National Research and Development Projects.

[This Article Newly Inserted by Presidential Decree No. 23267, Oct. 28, 2011]

Article 19-8 (Status Quo Investigation of Environmental Technology and Industry) (1) A status quo investigation on environmental technologies and industries conducted under Article 9-2 (1) of the Act (hereinafter referred to as “status quo investigation”) shall include the following matters:

1. The current state and development trend of environmental technologies in Korea and abroad;
2. The balance of trade related to environmental technologies including the current state of import and export of environmental technologies;
3. The change in and forecast of the environmental market in Korea and abroad;
4. The current state of exports of the environmental industries;
5. The current state of supply and demand of human resources related to environmental technologies and industries;
6. The current state of business distribution related to environmental technologies and industries by business category;
7. The current state of business management of environmental enterprises;
8. Other matters necessary for establishing and enforcing polities pertaining to environmental technologies and industries.

(2) A status quo investigation shall be conducted once a year, but when the Minister of Environment deems it necessary to conduct an investigation on a specific area in connection with paragraph (1), a special investigation may be conducted.

(3) When the Minister of Environment conducts a status quo investigation, he/she shall give prior notice to a person subject to investigation, of a plan of investigation stating a period of investigation, purposes of investigation, details of investigation, etc.

(4) The Minister of Environment may use electronic media, such as communication networks and e-mails for an efficient status quo investigation.

[This Article Newly Inserted by Presidential Decree No. 23267, Oct. 28, 2011]

Article 20 (Designation and Operation of Green Environment Support Centers) (1) The following institutions or organizations may be designated as green environment support

centers under Article 10 (1) of the Act: <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

1. National and public research institutions or research institutions subject to the application of the Support of Specific Research Institutes Act;
2. Schools established under Article 2 of the Higher Education Act;
3. The Environmental Management Corporation;
4. Corporations established after obtaining approval from the Minister of Environment for developing the environmental technology;
5. Institutions or organizations meeting the criteria for designation prescribed by the Minister of Environment among institutions or organizations specialized in business, such as resolving current environmental problems in local communities, laying the foundation for green growth, and facilitating green growth pursuant to Article 10 (1) of the Act (hereinafter referred to as "green growth").

(2) The Minister of Environment may request any green environment support center to furnish necessary data for efficiently operating such center and providing necessary support thereto, as prescribed by Ordinance of the Ministry of Environment. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 20-2 (Criteria for Appraisal, etc. for Green Environment Support Centers) (1)

The criteria for regular appraisal referred to in Article 10-2 (1) 1 of the Act shall be as follows:

1. The ratio of the amount of funds provided by the Minister of Environment pursuant to Article 10 (2) of the Act to total business expenses;
2. The appropriateness in management of business expenses;
3. The business performance and records pursuant to each subparagraph of Article 10 (2) of the Act;
4. The level of facilitation of the operation of a green environment support center;
5. Other matters determined and publicly announced by the Minister of Environment in order to appraise the business records, etc. of the preceding year.

(2) The criteria for comprehensive appraisal referred to in Article 10-2 (1) 2 of the Act shall be as follows:

1. The business performance and records in accordance with the results of regular appraisals for the preceding four years;
2. The level of contribution to laying the foundation for green growth and facilitating green growth as well as resolution of environmental problems in local communities;
3. Other matters determined and publicly announced by the Minister of Environment for overall appraisal of operation of green environment support centers.

(3) When the Minister of Environment intends to conduct an appraisal as prescribed by paragraph (1) or (2), he/she shall notify the green environment support center subject to appraisal of detailed criteria, time, etc. of appraisal by three months prior to the scheduled date for appraisal.

[This Article Newly Inserted by Presidential Decree No. 23267, Oct. 28, 2011]

Article 20-3 (Establishment of Environmental Industry Association)

“Persons prescribed by Presidential Decree” in Article 11 (1) of the Act means the following enterprises or organizations: <Amended by Presidential Decree No. 24638, Jun. 28, 2013>

1. A construction company specializing in environment-friendly construction referred to in Article 15 of the Act;
2. An environment-related consulting company referred to in Article 16-4 of the Act;
3. An enterprise related to environmental technology or industry among venture businesses provided for in Article 2 (1) of the Act on Special Measures for the Promotion of Venture Businesses;
4. An enterprise related to environmental technology or industry among small and medium-sized enterprises provided for in Article 2 of the Framework Act on Small and Medium Enterprises;
5. An enterprise related to environmental technology or industry among enterprises that have made registration for incorporation under Article 172 of the Commercial Act and that have made business registration under Article 168 of the Income Tax Act and Article 8 of the Value-Added Tax Act.

[This Article Newly Inserted by Presidential Decree No. 23267, Oct. 28, 2011]

Article 21 (Facilities Subject to Technical Support, etc.) (1) Facilities subject to technical support under Article 12 of the Act shall be as follows: <Amended by Presidential Decree No. 22224, Jun. 28, 2010; Presidential Decree No. 23267, Oct. 28, 2011>

1. Facilities installed to prevent or reduce environmental pollution in advance during the course of production activities;
2. Facilities in need of technical support because of a lack of technical capability to operate and manage environmental facilities;
3. Facilities which have been operated in excess of permissible discharge standards under Article 16 of the Clean Air Conservation Act, Article 32 of the Water Quality and Aquatic Ecosystem Conservation Act or Article 7 of the Noise and Vibration Control Act, or discharged water quality standards under Article 7 of the Sewerage Act or Article 13 of the Act on the Management and Use of Livestock Excreta at least three times within two years and which are designated by heads of local governments, heads of basin environmental offices or heads of regional environmental offices as being in need of technical support in order to achieve the effect of environmental improvement;
4. Facilities subject to investigation of the discharged amount of chemical substances under Article 17 of the Toxic Chemicals Control Act.

(2) A person who intends to receive technical support for facilities under paragraph (1) shall file an application to the Minister of Environment.

(3) When the Minister of Environment receives an application for technical support pursuant to paragraph (2), he/she shall confirm a plan for technical support and then notify the

applicant of such plan by seven days prior to the date on which the technical support commences. In such cases, in confirming the technical support plan, the Minister of Environment may, if deemed necessary depending on the types and characteristics of the facilities subject to technical support, consult with the heads of relevant local governments, the heads of basin environmental offices, the heads of regional environmental offices, green environment support centers established in accordance with Article 10 of the Act or relevant specialized institutions. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

(4) The Minister of Environment shall, where a person who has filed an application for technical support requires him/her to protect data or information worth being protected with respect to the relevant facilities and production process, manufactured products, etc., prevent disclosure or divulgence of such data or information. In such cases, the Minister of Environment shall decide the methods of protecting data or information and the period of protection by entering into a separate contract with the applicant.

Article 21-3 Deleted. <by Presidential Decree No. 20297, Sep. 28, 2007>

Article 22 Deleted. <by Presidential Decree No. 23999, Jul. 31, 2012>

Article 22-2 Deleted. <by Presidential Decree No. 20297, Sep. 28, 2007>

Article 22-3 Deleted. <by Presidential Decree No. 20297, Sep. 28, 2007>

Article 22-4 (Registration Criteria for Business Specializing in Environment-Friendly Construction) (1) A person who intends to make a registration of business specializing in environment-friendly construction under the former part of Article 15 (1) of the Act shall be equipped with the following technical abilities: <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

1. Technical experts in charge under the following items:
 - (a) Atmosphere: At least four persons;
 - (b) Water quality: At least four persons;
 - (c) Noise and vibration: At least three persons;
2. Test apparatus to measure and analyze pollutants of water quality (limited to water quality field, and where concluding a contract for joint use or for vicarious execution of measurement and analysis with the person possessing the same test apparatus (excluding other business operators specializing in environment-friendly construction), it shall be deemed to have been equipped with the same test apparatus).

(2) Detailed criteria for registration of business specializing in environment-friendly construction, such as the qualifications of technical experts in charge and test apparatus under each subparagraph of paragraph (1), shall be provided for in Ordinance of the Ministry of Environment. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

(3) When a person files an application for registration under Article 15 (1) of the Act, the Special Metropolitan City Mayor, Metropolitan City Mayor, Do Governor, and Governor of a Special Self-Governing Province (hereinafter referred to as “Mayor/Do Governor”) shall allow registration except in any of the following cases: <Newly Inserted by Presidential Decree No. 23267, Oct. 28, 2011>

1. Where he/she falls under any subparagraph of Article 15 (4) of the Act;
2. Where he/she is unequipped with the technical abilities provided for in paragraph (1);
3. Where such registration is in violation of restriction imposed under this Act and subordinate statutes or other Acts and subordinate statutes.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 22-5 (Alteration of Registration Matters of Business Specializing in Environment-Friendly Construction)

"Matters prescribed by Presidential Decree" in the latter part of Article 15 (1) of the Act shall be as follows:

1. Representative or trade name;
2. Location of business places;
3. Location of test apparatus (limited to water quality field);
4. Matters of concluding a contract for a joint use of test apparatus or a vicarious execution of measurement and analysis (limited to cases of concluding a contract for a joint use of test apparatus or a vicarious execution of measurement and analysis);
5. Technical experts in charge.

Article 22-6 (Preferential Treatment for Green Companies)

"Preferential measure prescribed by Presidential Decree" in Article 16-2 (5) 3 of the Act means funds and technical support needed to improve the environment of companies and places of work. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 22-7 (Revocation of Designation of Green Companies)

"Cases prescribed by Presidential Decree" in subparagraph 3 of Article 16-3 of the Act shall be as follows: <Amended by Presidential Decree No. 22124, Apr. 13, 2010; Presidential Decree No. 22224, Jun. 28, 2010; Presidential Decree No. 23267, Oct. 28, 2011>

1. Where a person has been subjected to any of the following disposition, or has been sentenced to a punishment equivalent to or heavier than a fine of at least one million won or imprisonment without prison labor in violation of the relevant Acts: Provided, That the same shall not apply where a person has been subjected to any of the following disposition, but recognized by the Minister of Environment as not having polluted the surrounding

environment:

- (a) Any order for improvement, order for suspension of operation, disposition on cancellation of permission, disposition taken to impose penalty surcharges, order for suspension of use, or order for closure under Article 33, 34, 36, 37, or 38 of the Clean Air Conservation Act;
- (b) Any order on the enforcement of prevention measures, order for improvement, order for suspension of operation, disposition on cancellation of permission, order for suspension of use, or order for closure under Article 15 (3), 39, 40, 42, or 44 of the Water Quality and Aquatic Ecosystem Conservation Act;
- (c) Any order for improvement, order for suspension of operation, disposition on cancellation of permission, order for suspension of use, or order for closure under Articles 15 through 18 of the Noise and Vibration Control Act;
- (d) Any disposition on cancellation of permission, order for business suspension or order to take measures under Article 27 or 48 of the Wastes Control Act;
- (e) Any order for suspension of sales, order for suspension of use, order for improvement, order for business suspension, disposition on cancellation of registration or cancellation of permission under Article 16, 23, 27, or 36 of the Toxic Chemicals Control Act;
- (f) Any disposition on cancellation of permission, order for business suspension, disposition taken to impose penalty surcharges or disposition on cancellation of registration under Article 18, 32, 33 or 35 of the Act on the Management and Use of Livestock Excreta;
- (g) Any order for suspension or order for restoration under Article 17 of the Natural Environment Conservation Act;
- (h) Any order to take measures or order for suspension of use under Articles 14 (1) and (3), and 15 (3) of the Soil Environment Conservation Act;
- (i) Any order to take measures or to suspend construction under Article 26 (3) and (4) or 28 (3) of the Environmental Impact Assessment Act;
- (j) Any order for improvement, order for suspension of use, disposition taken to impose penalty surcharges or order for closure under Articles 10 through 13 of the Malodor Prevention Act;
- (k) Any order for business suspension, disposition on cancellation of permission, disposition taken to impose penalty surcharges, or disposition on cancellation of registration under Article 49, 50, or 54 of the Sewerage Act;

2. Where the designation as a green company has not been revoked pursuant to the proviso to subparagraph 1, but the person has been subjected to the disposition falling under each item of the same subparagraph at least three times for two years;

3. Where the location is changed by relocation of a company and its place of work;

4. Other cases corresponding to subparagraphs 1 and 3 as prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 22-8 (Registration Criteria for Environment Consulting Firm) (1) The requirements on qualified personnel under the former part of Article 16-4 (1) of the Act with

the exception of its subparagraphs are as provided for in attached Table 1.

(2) "Important matters prescribed by Presidential Decree, such as trade name or technical human resources" in the latter part of Article 16-4 (1) of the Act with the exception of its subparagraphs means the following:

1. Trade name or the location of business place;
2. Representative and executives;
3. Technical human resources;
4. Purpose of business (referring to the purpose of business stipulated in the articles of incorporation).

(3) Any registration of changes under Article 16-4 (1) of the Act shall be made within 30 days from the date on which any ground for changes arises.

(4) When an application for registration is filed under Article 16-4 (1) of the Act, the Mayor/Do Governor shall allow registration except in any of the following cases: <Newly Inserted by Presidential Decree No. 23267, Oct. 28, 2011>

1. Where the business of a company applying for registration does not fall under any subparagraph of Article 16-4 (1) of the Act;
2. Where any executive falls under any subparagraph of Article 16-4 (2) of the Act;
3. Where the company fails to satisfy the requirements on personnel provided for in paragraph (1);
4. Where such registration is in violation of restriction imposed under this Act and subordinate statutes or other Acts and subordinate statutes.

Article 22-9 (Disclosure of Environmental Information)

“Public institutions prescribed by Presidential Decree and companies, etc. that have substantial influence on the environment” in Article 16-8 (1) of the Act shall be as follows:

1. Central administrative agencies as prescribed by Article 2 of the Government Organization Act;
2. Local governments as prescribed by Article 2 of the Local Autonomy Act;
3. Institutions designated under Article 4 of the Act on the Management of Public Institutions (excluding other public institutions as prescribed by Article 5 (4) of the same Act, the fixed number of personnel of which is less than 100 persons);
4. National universities and public universities as prescribed by Article 3 of the Higher Education Act;
5. Institutions in attached Table 2, among local government-invested public corporations as prescribed by Article 49 of the Local Public Enterprises Act and local government public corporations as prescribed by Article 76 of the same Act;
6. Controlled entities as prescribed by Article 42 (5) of the Framework Act on Low Carbon, Green Growth.

Article 23 (Application for Environment Mark Certification) (1) Any person who intends

to obtain certification of environment mark pursuant to Article 17 (2) of the Act shall submit an application for environment mark certification to the Minister of Environment, along with the data falling under each of the following subparagraphs:

1. Data related to the environmentally-friendliness of the relevant product;
2. Data related to the quality of the relevant product;
3. Deleted. <by Presidential Decree No. 25083, Jan. 14, 2014>

(2) The Minister of Environment shall, when he/she grants certification of environment mark, issue a certificate of environment mark to the applicant, clearly stating the reasons therefor.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 24 (Selection of Products Subject to Environment Mark) (1) Any person who intends to present a proposal for selection of products subject to certification of environment mark under Article 17 of the Act (hereinafter referred to as "product subject to environment mark") shall submit a written proposal for such selection to the Minister of Environment.

(2) Food under the Food Sanitation Act, medicines and therapeutic devices under the Pharmaceutical Affairs Act, agricultural chemicals under the Pesticide Control Act and wood crafts designated as forest products (excluding forest products prescribed by Article 2 (5) 6 of the Enforcement Decree of the same Act) under the Creation and Management of Forest Resources Act shall not be selected as a product subject to environment mark. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

(3) When the Minister of Environment selects a product subject to environment mark, he/she shall establish and publicize standards for certification of environment mark by product.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 25 (Repeal of Selection of Product Subject to Environment Mark) (1) In cases of any product that has no need to obtain environment mark, from among products subject to environment mark pursuant to Article 17 (3) of the Act, the Minister of Environment may repeal the selection of the product subject to environment mark.

(2) The Minister of Environment shall, when he/she repeals the selection of a product subject to environment mark pursuant to paragraph (1), announce the fact to the public.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 25-2 (Reporting on Change by Authenticating Institution)

The term "matters prescribed by Presidential Decree, such as name and location, etc. of authenticating institution" in Article 18 (6) of the Act means those falling under any of the following subparagraphs:

1. Location of the authenticating institution;
2. Name of the authenticating institution;
3. Representative.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 26 (Selection and Repeal of Product Subject to Environment Grade Mark) (1) Any person who intends to present a proposal on the selection of materials and products subject to authentication of environment grade mark pursuant to Article 20 (1) of the Act

(hereinafter referred to as "product subject to environmental grade mark") shall submit a written proposal to the Minister of Environment.

(2) The Minister of Environment shall deliberate over such matters proposed pursuant to paragraph (1), determine whether to choose products subject to environment grade mark, draw up guidelines concerning the method of assessment for environment grade for chosen products subject to environment grade mark and the mark thereof, and then notify them to the public.

(3) The provisions of Article 25 shall apply mutatis mutandis to matters concerning the repeal of the product subject to environment grade mark. In such cases, "products subject to environment mark" shall be deemed "products subject to environment grade mark".

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 27 (Qualification Standards, etc. for Examiner of Authentication) (1) Any person falling under any of the following subparagraphs may become an examiner of authentication pursuant to Article 21 (2) of the Act:

1. A person who received the education under Article 21 (1) of the Act and for whom three years have not yet passed;

2. A person who has a career record publicized by the Minister of Environment and who graduated from college after completing subjects prescribed and publicized by the Minister of Environment, taking into account the types and characteristics of a product subject to environment grade mark.

(2) The Minister of Environment shall, when a person satisfying the qualification criteria under paragraph (1) file an application, issue a certificate of examiner of authentication of environment grade mark.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 27-2 (Regulations for Affairs)

Matters to be included in the regulations necessary for the affairs of authentication or education under Article 21-2 (2) of the Act shall be as follows:

1. Matters to be included in the regulations necessary for the affairs of authentication:

(a) Matters on the procedures of authentication and methods thereof for environment mark under Article 17 of the Act or environment grade mark under Article 18 of the Act (hereinafter referred to as "environment mark, etc.");

(b) Matters on the period of authentication of environment mark, etc. and post management of authenticated products;

(c) Other matters recognized by the Minister of Environment as necessary for the authentication of environment mark, etc.;

2. Matters to be included in the regulations necessary for education affairs:

(a) Matters on the procedures for application for education and methods of assessment;

(b) Matters on the management of persons completing the education;

(c) Other matters recognized by the Minister of Environment as necessary for the education for examiners of authentication.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 28 (Grounds for Cancellation of Authentication of Environment Mark, etc.) (1)

The term "cases prescribed by Presidential Decree" in Article 23 (1) 4 of the Act means cases falling under any of the following subparagraphs:

1. Where manufacturing of the products which obtained authentication of environment mark has been de facto suspended due to dishonor, closure or any other grounds similar thereto;
2. Where any product failing to satisfy the authentication criteria under Article 17 (3) of the Act is distributed.

(2) The term "cases prescribed by Presidential Decree" in Article 23 (2) 4 of the Act means cases falling under any of the following subparagraphs:

1. Where manufacturing of the products which obtained authentication of environment grade mark has been de factosuspended due to dishonor, closure or any other grounds similar thereto;
2. Where any material or product different from the details of the authentication under Article 20 (3) of the Act is distributed.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 28-2 (Announcement of Cancellation of Authentication of Environmental Marks, etc.)

The Minister of Environment shall, when he/she cancels authentication of environment mark, etc. pursuant to Article 23 of the Act, publicly announce the matters falling under each of the following subparagraphs:

1. Materials or name of product, the authentication of which is cancelled;
2. Manufacturing company or manufacturer of materials or products, the authentication of which is cancelled;
3. Grounds for cancellation of authentication;
4. Date of cancellation of authentication.

Article 33 (Delegation and Entrustment) (1) Deleted. <by Presidential Decree No. 25083, Jan. 14, 2014>

(2) The Minister of Environment shall delegate the following authority to heads of river basin environmental office or heads of regional environmental office pursuant to Article 31 (1) of the Act: <Amended by Presidential Decree No. 21544, Jun. 16, 2009; Presidential Decree No. 25083, Jan. 14, 2014>

1. Designation, and cancellation of the designation, of a green enterprise under Articles 16-2 and 16-3 of the Act;
2. Request for the presentation of data, investigation, inspection or collection under Article 28 (2) of the Act;
3. Hearings under subparagraph 5 of Article 30 of the Act;
4. Imposition and collection of administrative fines under Article 37 (2) 2 of the Act.

(3) Deleted. <by Presidential Decree No. 23999, Jul. 31, 2012>

(4) Deleted. <by Presidential Decree No. 25083, Jan. 14, 2014>

(5) The Minister of Environment may entrust the following business affairs to the head of the Korea Environmental Industry and Technology Institute in accordance with Article 31 (2) 1, 1-2 through 1-4, and 4 of the Act: <Amended by Presidential Decree No. 21544, Jun. 16, 2009; Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 23934, Jul. 4, 2012; Presidential Decree No. 25083, Jan. 14, 2014>

1. Designation of excellent environmental enterprises under Article 7-5 of the Act;

2. Verification of environmental information under Article 16-9 of the Act;
3. Formation and operation of an evaluation board under Article 16-2 (1);
4. Receipt of an application for objection under the main sentence of Article 16-2 (2);
5. Receipt of application under Article 18;
6. Public announcement and hearing of opinions from interested parties, etc. under Article 18-4 (1);
7. Assessment of authentication of new technology or verification of technology under Article 18-4 (2);
8. Financial support necessary for utilization of new technologies under Article 19-3 (4) and receipt and assessment of application for extension under Article 19-4 (2) and (4);
9. Investigation and review of explanations under Article 19-5 (3).

(6) The Minister of Environment shall entrust the following business affairs to the head of the Korea Environment Corporation in accordance with Article 31 (2) 2 and 3 of the Act: <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

1. Support for environmental technologies under Article 12 of the Act and support for necessary expenses thereof;
2. Diagnosis of technologies under Article 13 of the Act and support for necessary expenses thereof.

(7) Deleted. <by Presidential Decree No. 21544, Jun. 16, 2009>

(8) "Institution or organization prescribed by Presidential Decree" in Article 31 (2) 5 of the Act means the Korea Environmental Industry and Technology Institute. <Amended by Presidential Decree No. 21544, Jun. 16, 2009; Presidential Decree No. 23934, Jul. 4, 2012>

(9) "Institution or organization prescribed by Presidential Decree" in Article 31 (2) 6 of the Act means the Korea Environmental Preservation Association under Article 59 of the Framework Act on Environmental Policy. <Amended by Presidential Decree No. 21544, Jun. 16, 2009; Presidential Decree No. 23934, Jul. 4, 2012; Presidential Decree No. 23967, Jul. 20, 2012>

Article 34 (Processing of Personally Identifiable Information)

The Minister of Environment (including persons to whom the authority of the Minister of Environment has been delegated or entrusted under Article 33) or the Mayor/Do Governor (where the relevant authority has been delegated or entrusted, including persons to whom the authority has been delegated or entrusted) may, if inevitable to conduct the following affairs, process data including resident registration numbers as prescribed by subparagraph 1 of Article 19 of the Enforcement Decree of the Personal Information Protection Act:

1. Affairs pertaining to authentication of new technology and verification of technology under Article 7 of the Act;
2. Affairs pertaining to designation and support of excellent environmental enterprises under Article 7-5 of the Act;
3. Affairs pertaining to registration, reporting, etc. of business specializing in environment-friendly construction under Article 15 of the Act;

4. Affairs pertaining to designation, etc. of green companies under Article 16-2 of the Act;
5. Affairs pertaining to registration of environmental consulting firms under Article 16-4 of the Act;
6. Affairs pertaining to certification for eco-labelling and environmental declaration of products, and designation of a certification agency for environmental declaration of products under Articles 17 and 18 of the Act.

[This Article Newly Inserted by Presidential Decree No. 23488, Jan. 6, 2012]

Article 34-2 (Reexamination of Regulations) (1) The Minister of Environment shall review the appropriateness of each of the following matters and take measures for improvement, etc. every three years (referring to a period until the day before the base date of every third year) from the base date in each of the following:

1. Research institutions in the environmental field provided for in Article 12: January 1, 2014;
2. Collection and use of royalties provided for in Article 16: January 1, 2014;
3. Registration criteria for businesses specializing in environment-friendly construction provided for in Article 22-4: January 1, 2014;
4. Registration criteria for environment consulting firms provided for in Article 22-8 and attached Table 1: January 1, 2014.

[This Article Newly Inserted by Presidential Decree No. 25050, Dec. 30, 2013]

Article 35 (Criteria for Imposing Fines for Negligence)

The criteria for imposing fines for negligence pursuant to Article 37 of the Act shall be as provided for in attached Table 3. <Amended by Presidential Decree No. 23267, Oct. 28, 2011>

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

ADDENDA (Omitted)

18. Act to Promote the Purchase of Environmentally-Friendly Products

[Enforcement Date 04. Feb, 2010.] [Act No.10030, 04. Feb, 2010., Partial Amendment]

Article 1 (Purpose)

The purpose of this Act is to conserve resources, prevent environmental pollution, and contribute to the sustainable development of the national economy by encouraging the purchase of environment-friendly products.

Article 2 (Definitions)

The definition of terms used in this Act shall be as follows: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 8947, Mar. 21, 2008; Act No. 9584, Apr. 1, 2009; Act No. 9931, Jan. 13, 2010>

1. The term “environment friendly product” means products falling under any of the following items, which are designated as a green product under Article 2(5) of the Framework Act on Low Carbon, Green Growth:

(a) Products subject to certification of environmental marks under Article 17(1) of the

Development of and Support for Environmental Technology Act, which have obtained such certification, or products which meet certification standards by item, as determined and published by the Minister of Environment under Article 17(3);

(b) Products subject to quality certification of recycled products as determined and published by the Minister of Knowledge Economy under Article 33 of the Act on the Promotion of Saving and Recycling of Resources and Article 15 of the Industrial Technology Innovation Promotion Act, which have obtained such certification or meet certification standards;

(c) Other green products which meet determination standards by item, published by the Minister of Environment following the consultation with the Minister of Knowledge Economy.

2. The term “public institutions” means State agencies, local governments, and public institutions designated under Articles 4 through 6 of the Act on the Management of Public Institutions, and other institutions prescribed by Presidential Decree.

Article 3 (Duty to Encourage the Purchase of Environment Friendly Products)

(1) The heads of public institutions shall actively promote the formulation and implementation of plans related to data survey, education, publication and training of the human resources necessary to encourage the procurement of environment friendly products.

(2) Business operators shall endeavor to produce environment friendly products; improve the quality thereof; and use environment friendly materials or parts.

(3) Nationals of the Republic of Korea shall endeavor to use environment friendly products.

Article 4 (Basic Plans for Encouraging Purchase of Environment-Friendly Products)

(1) The Minister of Environment shall formulate basic plans (hereinafter referred to as “basic plan”) for encouraging purchase of environment-friendly products, following consultation with the heads of the relevant central administrative agencies every five years, after undergoing deliberation by the Central Environmental Preservation Advisory Committee under Article 37 (1) of the Framework Act on Environmental Policy. <Amended, Feb. 4, 2010>

(2) Basic plans shall include the following matters:

1. Policy directions and promotion plans to encourage the purchase of environment-friendly products:

2. Important matters about items subject to environment-friendly product requirements and determination standards under each item of subparagraph 1 of Article 2;

3. Analysis of records of environment-friendly products purchased by public institutions and measures to increase such purchases;

4. Matters on international cooperation with regard to environment-friendly products; and

5. Other matters recognized by the Minister of Environment as necessary to encourage the purchase of environment-friendly products.

(3) The Minister of Environment may, if deemed necessary for formulation of basic plans, request the heads of the relevant public institutions to submit data. The heads of public institutions who are requested to provide data shall cooperate with such requests, unless there exist special grounds otherwise.

(4) The provisions of paragraphs (1) and (3) shall apply mutatis mutandis to changes in basic plans already formulated.

Article 5 Deleted <Feb. 4, 2010>

Article 6 (Public Institutions' Obligation to Purchase Environment Friendly Products)

The heads of public institutions shall purchase environment friendly products, when they intend to purchase any product provided that this shall not apply in cases falling under any of the following subparagraphs:

1. When environment friendly products are not available for the item intended to be purchased;
2. When the supply of environment-friendly products is unstable;
3. When it is difficult to achieve the purposes of the law, due to grounds such as substantially inferior quality of environment friendly products;
4. When the heads of public institutions intend to purchase products so as to comply with provisions on the preferential purchase under other Acts, such as the Welfare of Disabled Persons Act, etc.;
5. When the heads of public institutions conclude that it is difficult to purchase environment friendly products, due to unavoidable reasons, such as urgent demand, etc.

Article 7 (Guidelines for Purchasing of Environment Friendly Products)

Every year, the Minister of Environment shall establish guidelines for the purchase of environment friendly products for the coming year, as prescribed by Presidential Decree, and notify the heads of public institutions of such guidelines.

Article 8 (Implementation Plans for Purchasing Environment Friendly Products)

(1) The heads of public institutions shall formulate and announce implementation plans for purchasing environment friendly products (hereinafter referred to as "implementation plan") for the relevant fiscal year in accordance with the guidelines under Article 7 before each fiscal year begins.

(2) The heads of public institutions shall, when they formulate and announce implementation plans, submit such plans to the Minister of Environment without delay provided that the head of a Si/Gun/Gu (hereinafter the same shall apply and refer to the head of an autonomous Gu) shall submit implementation plans to the Special Metropolitan City Mayor, Metropolitan City Mayor or Do Governor (hereinafter referred to as the "Mayor/Do Governor"), and the Mayor/Do Governor shall integrate implementation plans of each Si/Gun/Gu (hereinafter the same shall apply and refer to an autonomous Gu) and submit such plans.

Article 9 (Purchase Records of Environment Friendly Products)

(1) The heads of public institutions shall consolidate the purchase records of environment friendly products under implementation plans and make known the purchase records within two months after each fiscal year ends. <Amended by Act No. 8947, Mar. 21, 2008>

(2) The heads of public institutions shall, when they consolidate and make known the purchase records as provided in paragraph (1), submit such records to the Minister of Environment without delay provided that the head of each Si/Gun/Gu shall submit the

purchase records to the Mayor/Do Governor, and the Mayor/Do Governor shall integrate the purchase records of each Si/Gun/Gu and submit such records to the Minister of Environment.

Article 10 (Request for Cooperation to Encourage the Purchase of Environment Friendly Products)

If deemed necessary to encourage the purchase of environment friendly products, the Minister of Environment may request heads of the relevant public institutions to take necessary measures concerning matters falling under each subparagraph. In such cases, the heads of public institutions shall cooperate with such requests, unless any special ground exists to the contrary:

1. Reflection of applicable provisions for the use of environment friendly products in construction specifications, etc.;
2. Reflection of purchase records of environment friendly products in items for performance assessment by central administrative agencies or local governments;
3. Other matters necessary for encouraging the purchase of environment friendly products.

Article 11 (Encouraging Local Governments to Purchase Environment-Friendly Products)

(1) The Special Metropolitan City, Metropolitan Cities and Dos (hereinafter referred to as “City/Do) or each Si/Gun/Gu may, if deemed necessary to encourage the purchase of environment friendly products, prescribe the following matters as Municipal Ordinances and implement such Municipal Ordinances:

1. Matters necessary for fulfilling obligations to purchase environment friendly products under Article 6;
2. Establishment and application of standards for determining whether items other than those subject to environment friendly products are environment-friendly products;
3. Other matters necessary for encouraging the purchase of environment friendly products.

(2) Each City/Do or Si/Gun/Gu shall, when it establishes or amends Municipal Ordinances under paragraph (1), submit such Municipal Ordinances to the Minister of Environment, without delay.

Article 12 (Role of Administrator of Public Procurement Service)

(1) When the products requested for purchase by the heads of public institutions can be replaced with environment friendly products, the Administrator of the Public Procurement Service shall adjust purchase plans to ensure that the public institutions purchase environment friendly products, after consulting with the heads of said public institutions.

(2) The Minister of Environment and heads of the relevant central administrative agencies may request the Administrator of the Public Procurement Service to take necessary measures to encourage the purchase of environment friendly products, such as expanding the foundation for the electronic procurement of environment friendly products, designating environment friendly products as exemplary procurement goods, etc.

Article 13 Deleted (by Act No. 9335, Jan. 7, 2009).

Article 14 (Request for Information on Environment Friendly Products)

(1) The Minister of Environment may request heads of public institutions to submit data on a selection of items subject to environment friendly products or establishment of determination standards for environment friendly products.

(2) The heads of public institutions that are requested to provide data under paragraph (1) shall cooperate with such request, unless any special ground exists to the contrary.

Article 14-2 (Establishment and Operation of Data Management System of Environment Friendly Products)

(1) The Government shall be equipped with a comprehensive data distribution system (hereinafter referred to as “data management system”) on the production, distribution, quality, safety, and environment friendliness of environment friendly products and take measures necessary to encourage the purchase of environment friendly products.

(2) The submission of implementation plans and purchase records under Article 9 may be substituted with the transmission of such plans and purchase records via the data management system.

[This Article was newly inserted by Act No. 8947, Mar. 21, 2008]

Article 15 (Support for Encouragement of Purchase of Environment-Friendly Products, etc.)

(1) The Government may lend each of the following support to business operators and the relevant organizations which contribute to encouraging the purchase of environment-friendly products: <Amended, Sept. 27, 2006, Feb. 4, 2010>

1. Provision of data to encourage purchase of environment-friendly products;
2. Support for fostering specialists to encourage purchase of environment-friendly products;
3. Support for sales of environment-friendly products in Korea and foreign countries;
4. Support for obtaining certification concerning environment-friendly products in Korea and foreign countries;
5. Financial assistance for production, distribution, and sales of environment-friendly products;
6. Support for technology transfers among companies to facilitate production and distribution of environment-friendly products;
7. Support for improving the quality of environment-friendly products;
8. Support for cooperative movement projects under the Promotion of Small and Medium Enterprises and Encouragement of Purchase of Their Products Act;
9. Support for publicity and education of environment-friendly products; and
10. Other support necessary to encourage purchase of environment-friendly products

(2) The Government may grant rewards to public institutions, business operators, appropriate organizations, etc. that have excellent purchase records of environment-friendly products or have contributed to encouraging the purchase of environment-friendly products, as prescribed by President Decree. <Newly Inserted, Sept. 27, 2006>

Article 15-2 (Fostering of Associations for Promotion of Environment-Friendly Products)

(1) Any association involved in promotion of environment-friendly products established with permission by the Minister of Environment under Article 32 of the Civil Act may conduct any of the following projects:

1. Investigative project such as collection and analysis of information about technology development, production, and sales volume, etc. of environment-friendly products;
2. Project for publicity of environment-friendly products and consumer education; and
3. Mutual aid project for development and sales of new environment-friendly products

(2) To conduct a mutual aid project under paragraph 3 of Article 1, mutual aid provisions shall be drafted and approved by the Minister of Environment. The same shall apply to any change to the provisions.

(3) The provisions under paragraph (2) shall prescribe the scope of a mutual aid project, mutual aid fund, mutual aid fee, and other matters necessary to conduct the project.

(4) The Minister of Labor may provide support like financial assistance to an association involved in promotion of environment-friendly products and engaged in any project under each subparagraph of paragraph (1).

[Newly Inserted, Feb. 4, 2010]

Article 16 (Preferential Support of Subsidies)

The Minister of Environment may grant or support environment-related subsidies under Article 75 of the Water Supply and Waterworks Installation Act, Article 56 of the Wastes Control Act, Article 35 of the Sewerage Act, etc, to local governments which have excellent purchase records of environment friendly products, in preference to other local governments. <Amended by Act No. 8371, Apr. 11, 2007>

Article 17 (Education of Persons in Charge of Purchase, etc.)

The Minister of Environment may provide education to persons in charge of purchase in public institutions, business operators, consumers, etc., as prescribed by Presidential Decree, so as to encourage purchase of environment-friendly products. <Amended, Feb. 4, 2010>

[Title Amended, Feb. 4, 2010]

Article 17-2 (Fostering of Specialists)

To foster specialists for production and distribution of environment-friendly products, the Minister of Environment may designate universities, research institutions, and other specialized organizations as organizations to foster specialists and subsidize all or part of costs of education and training, as prescribed by Presidential Decree.

[Newly Inserted, Feb. 4, 2010]

Article 18 (Establishment and Operation of Stores Selling Environment Friendly Products)

(1) Business operators who manage discount stores, departments stores or shopping centers, which fall under superstores under Article 2(3) of Distribution Industry Development Act, and who manage an integrated distribution center of agricultural and fishery products, the size of which is not less than that prescribed by Presidential Decree, under Article 2(12)

of the Act on Distribution and Price Stabilization of Agricultural and Fishery Products shall establish and operate stores selling environment friendly products (including recycled products under Article 2(5) of the Act on the Promotion of Saving and Recycling of Resources), so as to encourage the purchase of environment friendly products.

(2) The size of the stores or formulation and assessment of operation plans under paragraph (1) and other necessary matters shall be prescribed by Presidential Decree.

[This Article was newly inserted by Act No. 8013, Sep. 27, 2006]

Article 18-2 (Reporting, Inspections, etc.)

(1) The Minister of Environment, the Mayor/Do Governor or the head of each Si/Gun/Gu may order business operators falling under Article 18(1) to make reports or submit data, in order to verify whether stores selling environment friendly products are established and operated, and grant the relevant public officials access to their places of business to inspect the relevant documents or facilities.

(2) Public officials who access places of business for inspection under paragraph (1) shall carry certificates indicating their legitimate authority and present them to the relevant persons.

[This Article was newly inserted by Act No. 8947, Mar. 21, 2008]

Article 19 (Delegation or Entrustment of Authority or Tasks)

(1) The Minister of Environment may delegate part of his/her authority under this Act to the Mayor/Do Governor or the heads of local environmental government agencies, as prescribed by Presidential Decree.

(2) The Minister of Environment may entrust part of his/her tasks under this Act to the relevant specialized institutions, such as the Korea Environmental Industry & Technology Institute under Article 5-2 of the Development of and Support for Environmental Technology Act, as prescribed by Presidential Decree. <Newly inserted by Act No. 8947, Mar. 21, 2008; Act No. 9335, Jan. 7, 2009>

Article 20 (Fines for Negligence)

Any person who fails to establish and operate stores selling environment friendly products, in violation of Article 18 (1) shall be punished by fines for negligence not exceeding three million won.

[This Article was newly inserted by Act No. 8013, Sep. 27, 2006]

Article 21 (Imposition and Collection of Fines for Negligence)

(1) Fines for negligence under Article 20 shall be imposed and collected by the Minister of Environment or the head of each Si/Gun/Gu (referring to the head of an autonomous Gu hereinafter referred to as “imposing authority”), as prescribed by Presidential Decree.

(2) Any person dissatisfied with a judgment of a fine for negligence under paragraph (1) may raise an objection to the imposing authority within 30 days after he/she is notified of the aforementioned judgment.

(3) If any person subject to a judgment of a fine for negligence under paragraph (1) raises an objection under paragraph (2), the imposing authority shall, without delay, notify the

competent courts of the fact, which, in turn, shall proceed to a trial on the fine for negligence pursuant to the Non-Contentious Case Litigation Procedure Act.

(4) If neither an objection is raised nor is a fine for negligence paid within the period under paragraph (2), the aforementioned fine for negligence shall be collected by referring to the practices on judgments in cases involving default of national or local taxes.

[This Article was newly inserted by Act No. 8013, Sep. 27, 2006]

ADDENDA (Omitted)

19. Development of and Support for Environmental Technology Act

[Enforcement Date 13. Oct, 2010.] [Act No.10250, 12. Apr, 2010., Amendment by Other Act]

Article 1 (Purpose)

The purpose of this Act is to contribute to environmental conservation and the sustainable development of the national economy by promoting the development, support, and spread of environmental technologies and by fostering the environmental industry.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 2 (Definitions)

The definition of terms used in this Act shall be as follows:

1. The term "environmental technologies" means the technologies under the following subparagraphs necessary for environmental conservation and control, such as the prevention or reduction of environmental pollution or the restoration of polluted and damaged environment, etc.: as the technologies that improve the ability of the environment to cleanse itself by controlling or eliminating the factors that causes damage to nature and humans:

(a) Technologies that reduce and treat the followingsubstances, etc. (hereinafter referred to as "environmental pollutants") and technologies thatprevent noise and vibration:

(i) Air pollutants under Article 2(1) of the Clean Air Conservation Act;

(ii) Malodor under Article 2(1) of the Malodor Prevention Act;

(iii) Pollutants under Article 2(3)of the Indoor Air Quality Control in Public Use Facilities, etc. Act;

(iv) Water pollutants under Article 2(7) of the Water Quality and Ecosystem Conservation Act; and

(v) Soil pollutants and wastes under Article 2(2) of the Soil Environment Conservation Act;

(b) Technologies that prevent and reduce environmental pollution, technologies for the development of products which control the causes of pollution, and technologies for recycling and recovery;

(c) Technologies for the conservation, restoration, and improvement of the natural environment, the assessment of environmental harm and its control, and technologies for the assessment of environmental impacts;

(d) Technologies that measure and analyze environmental pollutants, noise, vibration or environmental conditions;

(e) Technologies for the purification, treatment, and to prevent pollution of the water supply
(f) Technologies that apply or utilize (hereinafter referred to as "practical use") the technologies under provisions (a) through (e);

2. The term "environmental facilities" means the facilities, machinery, apparatus, and other objects prescribed by Ordinance of the Ministry of Environment natural and living environment to prevent or reduce the harm to be caused by environmental pollutants, etc., or inappropriate disposal of environmental pollutants, or recycling of wastes, etc.; and

3. The term "environmental industry" means the industries prescribed by Presidential Decree as the industries that design, manufacture, and install environmental facilities or the measuring apparatus under Article 9 of the Environmental Examination and Inspection Act or provide services concerning environmental technologies for environmental conservation and control.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 3 (Formulation of Comprehensive Plan for the Development of Environmental Technologies)

(1) The Minister of Environment shall put the plans for the development of environmental technologies of the relevant central administrative agencies together and make a comprehensive plan for the development of environmental technologies (hereinafter referred to as "development plan") every five years through the deliberation of the National Science and Technology Council under Article 9 of the Framework Act on Science and Technology (hereinafter referred to as the "National Science and Technology Council" in this Article).

(2) The development plan shall include the matters concerning the following:

1. The present status and a long-term prospect of the level of environmental control based on the long-term comprehensive plan for environmental conservation at the national level under Article 12 of the Framework Act on Environmental Policy;

2. The objective of the development plan by stages and measures to reach the objective;

3. Promoting the advancement of the environmental industry, such as strengthening the competitiveness of environmental technologies, etc.;

4. Promoting the widespread and practical uses of environmental technologies;

5. Investment and promotion plans for the projects by year concerning the development of environmental technologies promoted by the Government;

6. Introduction and transfer of environmental technologies;

7. Supporting research on environmental technologies for schools, scientific organizations, research institutions, etc.;

8. Collection, classification, processing, and diffusion of the information on environmental technologies; and

9. Other matters relating to the development of environmental technologies and fosterage of the environmental industry.

(3) For the purpose of formulating the development plan, the Minister of Environment may request the heads of the relevant central administrative agencies to submit necessary data

as prescribed by Presidential Decree.

(4) When formulating the development plan, the Minister of Environment shall take necessary measures for the promotion of joint research by industry, academia and research labs, and international collaboration in environmental technologies.

(5) The Minister of Environment shall, after the submission of the promotion results of the development plan reviewed by the competent heads of the relevant central administrative agencies, report to the National Science and Technology Council.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 4 Deleted (by Act No. 9335, Jan. 7, 2009).

Article 5 (Promotion of Environmental Technology Development Projects)

(1) For the purposes of environmental conservation and the sustainable development of the national economy, the Government may require institutions, organizations, or business operators (hereinafter referred to as "research institutions, etc." in this Article) falling under any of the following subparagraphs to perform environmental technology development projects (hereinafter referred to as "development projects") as prescribed by Presidential Decree:

1. National research institutions and public research institutions;
2. Research institutions governed by the Support of Specific Research Institutes Act;
3. Government-subsidized research institutions established under the Act on the Establishment, Operation and Fostering of Government-subsidized Research Institutions or government-subsidized research institutions of science and technology established under the Act on the Establishment, Operation and Fostering of Government-subsidized Research Institutions of Science and Technology;
4. Schools under Article 2 of the Higher Education Act;
5. Adjunct laboratories to enterprises meeting the standards prescribed by Presidential Decree;
6. Industrial technology research cooperatives under the Act on the Support of the Industrial Technology Research Cooperatives;
7. Environmental technology development centers under Article 10;
8. Business operators managing the environmental industry (hereinafter referred to as "environmental industrial enterprises");
9. Foreign research institutions meeting the standards prescribed by Presidential Decree provided that they shall be limited to those conducting joint research and development with domestic institutions, organizations, or business operators; and
10. Other institutions, organizations, or business operators prescribed by Presidential Decree.

(2) Expenses necessary for development projects shall be appropriated by contributions from the Government or contributions from persons other than the Government and other research and development expenses of enterprises.

(3) The Government may disburse contributions to research institutions, etc. performing

development projects under paragraph (1) for its promotion.

(4) The head of a research institution, etc. performing development projects with the contributions under paragraph (3) may collect technical royalties through the execution of a technology license agreement with a person who intends to use, transfer, lend, or export the results thereof upon completion of the development project.

(5) Technical royalties collected under paragraph (4) shall be used for the purposes prescribed by Presidential Decree, such as development projects, etc., and the amount of money equivalent to a fixed rate as prescribed by Presidential Decree shall be paid to the Korea Institute of Environmental Industry and Technology under Article 5-2 (Amended by Act No. 9335, Jan. 7, 2009).

(6) Matters necessary for the disbursement, use, and management of the contributions under paragraph (3), and the collection and use, etc. of technical royalties under paragraphs (4) and (5) shall be prescribed by Presidential Decree.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 5-2 (Korea Institute of Environmental Industry and Technology)

(1) The Korea Institute of Environmental Industry and Technology shall be established to effectively support the development of environmental technology and the purchase of environment friendly products under Article 2(1) of the Act on Encouragement of Purchase of Environment-Friendly Products (hereinafter referred to as "environment friendly products") and foster the environmental industry (Amended by Act No. 9335, Jan. 7, 2009).

(2) The Korea Institute of Environmental Industry and Technology shall be a juridical entity (Amended by Act No. 9335, Jan. 7, 2009).

(3) The Korea Institute of Environmental Industry and Technology shall be formed by registering its incorporation at the seat of its main office (Amended by Act No. 9335, Jan. 7, 2009).

(4) The Korea Institute of Environmental Industry and Technology shall perform the following functions (Amended by Act No. 9335, Jan. 7, 2009):

1. Planning, appraisal, and management of development projects;
2. Diffusion of environmental technologies that have been developed and the promotion of their practical use;
3. Support for research of environmental technologies and management;
4. Support for the start of an enterprise and the management of the industry of environment
5. Support for overseas expansion of the environmental industry;
6. Projects on the formation of a foundation for the environmental industry, such as the establishment of supporting facilities to stimulate the environmental industry;
7. Training and education for human resources specializing in the environmental industry, technology and management;
8. Development of criteria for evaluating environment friendly products;
9. Support for the promotion of the production, sales and distribution of environment friendly products;

10. Collection, utilization, education, and publicity of information related to the environmental industry, technology, and management as well as environment friendly products;

11. Projects entrusted by public agencies under Article 2(2) of the Act on Encouragement of Purchase of Environment-Friendly Products in connection with the development and utilization of environmental technologies, fosterage of the environmental industry, environmental management and promoting the purchase of environment friendly products; and

12. Other projects prescribed by Presidential Decree in order to achieve the purpose for establishing the Korea Institute of Environmental Industry and Technology.

(5) The Government may contribute expenses necessary for the establishment and operation of the Korea Institute of Environmental Industry and Technology within the extent of the budget (Amended by Act No. 9335, Jan. 7, 2009).

(6) The Government may, notwithstanding the provisions of the State Properties Act, lend state-owned property or allow the use and profit-taking thereof free of charge in cases where it is necessary for the establishment and operation of the Korea Institute of Environmental Industry and Technology (Amended by Act No. 9335, Jan. 7, 2009).

(7) The provisions concerning incorporated foundations of the Civil Act shall apply mutatis mutandis to the Korea Institute of Environmental Industry and Technology, except for the matters prescribed by this Act (Amended by Act No. 9335, Jan. 7, 2009).

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 6 (Practical Use of Environmental Technologies)

(1) The Government shall take necessary measures to support the following business operators, etc. provided that it shall support persons falling under subparagraph 4:

1. A business operator who develops environmental technologies or puts them to practical use;

2. A person whose principal business is investing in the development of environmental technologies;

3. A person who has obtained authentication of an environmental mark under Article 17;

4. A person who has obtained authentication of an environmental grade mark under Article 18;

5. A business operator opening up overseas markets of the environmental industry; and

6. Environmental industrial enterprises.

(2) The Government may perform the following projects to promote the practical use of the developed environmental technologies:

1. Support of specialized institutions supporting the practical use of environmental technologies;

2. Projects for practical use of patented technologies;

3. Support of human resources, facilities, information, etc. and technical guidance necessary for practical use of environmental technologies;

4. Projects to support opening of offices in foreign countries to open up overseas markets of

the environmental industry; and

5. Other projects prescribed by Presidential Decree to promote practical use of environmental technologies.

(3) A person who manages any of the financial resources under the following subparagraphs (hereinafter referred to as a "manager of financial resources") may provide funds from such financial resources to support a person falling under paragraph (1) (Amended, May 21, 2009):

1. Special accounts for environmental improvement under the Act on Special Accounts for Environmental Improvement;

2. Funds for the promotion of small and medium enterprises and industrial foundation under the Promotion of Small and Medium Enterprises Act; and

3. Funds for the promotion of science and technology under the Framework Act on Science and Technology.

[This Article was wholly amended, Mar. 21, 2008]

Article 7 (Authentication of New Technologies and Verification of Technologies)

(1) The Minister of Environment may authenticate new technology or verify technologies to promote the spread of excellent technology which have a great ripple effect economically and technically and practical use thereof. In such cases where an application for appraisal for technologies under the following subparagraphs has been made, the Minister of Environment may grant authentication of new technology if such technology has been authenticated (hereinafter referred to as the "new technology") and appraised as being novel and excellency compared with the existing technology., The Minister of Information may grant verification of technology if such technology is the technology the performance of which has been verified (hereinafter referred to as the "verified technology") through appraisal in the field, etc.:

1. Technologies, firstly developed at home, regarding the method of construction in the environmental field and technologies related to such technologies; and

2. New technologies in the method of construction in the environmental field by the improvement of introduced technologies and technologies related to such technologies.

(2) The Minister of Environment shall issue a note of authentication of new technology in cases where he/she has granted authentication of new technology, and a note of verification of technology in cases of verification of technology, respectively under paragraph (1).

(3) The Minister of Environment may require a person who makes an application for authentication of new technology or verification of technology under paragraph (1) bear the expenses required for appraisal of such technology as prescribed by Ordinance of the Ministry of Environment.

(4) In order to promote the authentication of new technologies, verification of technologies, and support the spread of new technologies, an operator of financial resources may subsidize preferentially all or part of expenses required for authentication of new technologies, verification of technologies and exhibition projects, etc. to a person falling

under any of the following subparagraphs from the financial resources of the subparagraphs of Article 6(3):

1. A person who obtains authentication of new technology as a small and medium enterprise meeting the standards prescribed by Presidential Decree;
2. A person who executes an exhibition project of environmental technology which has obtained authentication of new technology; and
3. A person who puts the environmental technology to practical use, which is recognized by the Minister of Environment as necessary to spread for the public purpose as the technology which has obtained authentication of new technology.

(5) Procedures for application, standards for appraisal, and methods of appraisal of authentication of new technology or verification of technology, and other matters necessary for authentication or verification, etc. shall be prescribed by Presidential Decree.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 7-2 (Method of Marking and Preferential Practical Use, etc. of New Technologies)

(1) A person who has obtained authentication of new technology under Article 7 may put a mark of new technology on the facilities installed by making use of the new technology or products, etc., or to use of it for advertisement as prescribed by Ordinance of the Ministry of Environment.

(2) Unless a person has obtained authentication of new technology under Article 7, he/she shall not put a mark of new technology or similar mark, or advertise thereon.

(3) The Minister of Environment may take proper measures so that agencies or business operators under the following subparagraphs who have installed and operated environmental facilities may preferentially put new technology to practical use:

1. State agencies or local governments;
2. Public agencies under Article 5 of the Act on the Management of Public Agencies; and
3. Agencies which have received contributions from the State or local governments.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 7-3 (Term of Validity for Authentication of New Technologies)

(1) The term of validity for authentication of new technology shall be three years from the date of authentication as new technology.

(2) The term of validity under paragraph (1) may be extended once and such extended period shall be within three years.

(3) Matters necessary for application, etc. for extension of authentication of new technology shall be prescribed by Presidential Decree.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 7-4 (Cancellation of Authentication of New Technology or Verification of Technology)

(1) The Minister of Environment shall cancel authentication of new technology or verification of technology when it falls under any of the following subparagraphs:

1. In cases where authentication of new technology or verification of technology has been obtained by deceitful or other unjust means; and

2. In cases where the Minister of Environment recognizes that it is not proper to spread the new or verified technology because there are significant defects in their contents.

(2) Matters necessary for procedures, etc. for cancellation under paragraph (1) shall be prescribed by Presidential Decree.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 8 (Promotion of International Joint Researches)

(1) The Government shall take measures to promote international joint researches on environmental technologies and the environmental industry for the sustainable and balanced development of the national economy.

(2) The Government may promote the projects of the following subparagraphs to facilitate international joint researches under paragraph (1):

1. Research and study for international collaboration on environmental technologies and the environmental industry;

2. International exchange of human resources and information on environmental technologies and the environmental industry;

3. Holding exhibitions and scientific conferences on environmental technologies and the environmental industry;

4. Opening up overseas markets for environmental technologies and the environmental industry;

5. Promotion of technical development for the global environmental conservation; and

6. Other projects recognized as necessary for the promotion of international joint researches.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 9 (Spread, etc. of Environmental Technologies and Information)

(1) The Government shall take specific measures for the spread of excellent environmental technologies and the collection and spread of information on environmental technologies.

(2) The Government may manage environmental technologies and information by computerizing them for the spread of environmental technologies and the collection and spread of information on environmental technologies under paragraph (1).

(3) The Minister of Environment may request the heads of related agencies to furnish the data necessary for the computerization of environmental technologies and information under paragraph (2).

(4) The Government may advise business operators and environmental industrial enterprises, etc. discharging environmental pollutants to develop environmental technologies, import excellent environmental technologies and exchange information on environmental technologies, etc.

(5) In cases where it is recognized as necessary to meet the environmental standards under Article 10 of the Framework Act on Environmental Policy, the Minister of Environment may advise the heads of the relevant central administrative agencies or local governments to use

and spread excellent environmental technologies.

[This Act was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 10 (Designation, Operation, Appraisal, and Cancellation of Designation of Environmental Technology Development Centers)

(1) The Minister of Environment may designate and operate environmental technology development centers to promote and support the development of environmental technologies and the collection and spread, etc. of the information on environmental technologies as prescribed by Presidential Decree.

(2) Environmental technology development centers under paragraph (1) shall perform the projects under the following subparagraphs, and the Minister of Environment may give necessary support, such as contribution of funds, etc., to environmental technology development centers:

1. Projects of development of and research on environmental technologies;
2. Projects of collection, classification, processing, and spread of the information on environmental technologies and of the basic data related to the environment, and projects related to the construction of computer networks thereon;
3. International exchange of environmental technologies;
4. Projects for support of and collaboration with environmental industrial enterprises; and
5. Other projects related to the development of environmental technologies recognized by the Minister of Environment.

(3) The Minister of Environment may appraise the results of operations, etc. of environmental technology development centers periodically to ascertain whether they smoothly perform the projects under paragraph (2) and have them substantially contribute to the solution of environmental problems of the region by enhancing the efficiency of such projects. In such cases where it is recognized that an environmental technology development center performs the projects unfaithfully as a result of the appraisal, the Minister of Environment may warn the relevant center and suspend the support under paragraph (2).

(4) In cases where an environmental technology development center falls under any of the following subparagraphs, the Minister of Environment may cancel the designation:

1. In cases where it has been warned under the latter part of paragraph (3) not less than twice within the latest three years; and
2. In cases where it is recognized difficult to attain the designated purpose of environmental technology development center because it has failed to meet the conditions of designation under paragraph (5).

(5) Matters necessary for the conditions, etc. of designation of environmental technology development centers shall be prescribed by Ordinance of the Ministry of Environment.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 11 (Fostering of Associations related to Environmental Industry)

(1) In order to promote the development of environmental technologies and advancement of the environmental industry, the Minister of Environment may provide support, such as funds, etc., to associations which performs the projects falling under any of the following

subparagraphs, from among the environmental industry-related associations incorporated with permission of the Minister of Environment under Article 32 of the Civil Act:

1. Projects of development of and research on environmental technologies;
2. Projects of investigation, such as collection and analysis, etc. of the information on market trends of the environmental industry, the development of environmental technologies, and the actual conditions of practical use thereof; and
3. Mutual aid projects for putting new environmental technologies to practical use.

(2) The Minister of Environment may, when promoting development projects in his/her competent field, preferentially promote tasks of research and development picked out by the environmental industry-related associations for fosterage of the environmental industry.

[This Article was wholly amended by ActNo. 8957, Mar. 21, 2008]

Article 12 (Support for Environmental Technologies)

(1) The Government may provide technical support to prevent or reduce environmental pollution arising from manufacturing activities of enterprises and the effective operation and management of environmental pollution control facilities (referring to air pollution control facilities under Article 2(12) of the Clean Air Conservation Act, noise and vibration control facilities under Article 2(4) of the Noise and Vibration Control Act, and water pollution control facilities under Article 2(12) of the Water Quality and Ecosystem Conservation Act; hereinafter the same shall apply) (Amended, Jun. 9, 2009).

(2) In cases where improvement of facilities is recognized to be necessary as a result of the technical support under paragraph (1), the Government may subsidize part of the expenses for the improvement of such facilities.

(3) Matters necessary for facilities subject to technical support under paragraph (1), and the method of support and expenses to be subsidized, etc. under paragraph (2) shall be prescribed by Presidential Decree.

[This Article Wholly Amended, Mar. 21, 2008]

Article 13 (Technical Diagnosis)

(1) The Minister of Environment may conduct a technical diagnosis for public environmental facilities in order to prevent them from failing and to promote their proper operation.

(2) In cases where the improvement of the facilities is recognized as necessary as a result of the technical diagnosis under paragraph (1), the Minister of Environment may subsidize part of the expenses required for the improvement of such facilities.

(3) The Minister of Environment may request the administrator of public environmental facilities to take necessary measures, such as complementation of facilities, according to the results of the technical diagnosis under paragraph (1).

(4) The administrator of public environmental facilities shall cooperate in the technical diagnosis under paragraph (1).

(5) Matters necessary for facilities subject to technical diagnosis, interval of the diagnosis, and expenses for the diagnosis, etc. under paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 14 (Precision Control of Measurement and Analysis Agencies)

(1) The Minister of Environment may evaluate ability in measurement and analysis, provide education, and verify data related to measurement and analysis, etc. (hereinafter referred to as the "precision control" in this Article) for the persons prescribed by Presidential Decree (hereinafter referred to as the "measuring and analyzing agencies" in this Article) from among the persons measuring and analyzing environmental pollutants, noise and vibration, or environmental conditions, etc. as prescribed by Ordinance of the Ministry of Environment.

(2) If it is recognized to be necessary as a result of the precision control on measuring and analyzing agencies, the Minister of Environment may issue an order to improve and complement the related equipment and apparatus and take other necessary measures.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 15 (Registration of Pollution Control Facilities Business)

(1) A person who intends to conduct a business of design or construction of environmental pollution control facilities (hereinafter referred to as "pollution control facilities business") (excluding the cases prescribed by Ordinance of the Ministry of Environment) shall satisfy the conditions for the technical ability prescribed by Presidential Decree and register with the Mayor/Do governor. The same shall also apply in cases where it is intended to change the matters prescribed by Presidential Decree, from among the matters registered.

(2) A person who has reported to the Mayor/Dogovernor as prescribed by Ordinance of the Ministry of Environment as a person falling under any of the following subparagraphs shall be deemed as having registered a pollution control facilities business under paragraph (1) for the design of environmental pollution control facilities in the relevant field (Amended, Apr. 12, 2010):

1. A person who has registered the opening of an office of professional engineers to design noise and vibration control facilities under Article 6 of the Professional Engineers Act; and
2. A person who has reported as an engineering business operator to design noise and vibration control facilities under Article 21(1) of the Engineering Industry Promotion Act.

(3) When a person who has registered a pollution control facilities business under paragraph (1) (including a person deemed to have registered a pollution control facilities business under paragraph (2); hereinafter referred to as "pollution control facilities business operator") constructs environmental pollution control facilities, in cases where such construction falls under the construction works under Article 2(4) of the Framework Act on the Construction Industry, he/she may perform such construction notwithstanding Article 9(1) of the same Act.

(4) A person who falls under any of the following subparagraphs shall not register or report a pollution control facilities business under paragraph (1) or (2) (Amended, Jun. 9, 2009):

1. A minor, an incompetent, or a quasi-incompetent;
2. A person who was declared bankrupt but has not been reinstated;
3. A person in whose case two years have not passed since the revocation of his/her registration of a pollution control facilities business operator under paragraph (5);

4. A person in whose case two years have not passed since completion or complete remission of his/her sentence of imprisonment with labor, as ordered by a court for violation of this Act, the Clean Air Conservation Act, the Water Quality and Ecosystem Conservation Act, or the Noise and Vibration Control Act (including cases where it is deemed that the sentence of imprisonment has been completed); or

5. A juristic person in which there is an executive falling under any of subparagraphs 1 through 4.

(5) The Mayor/Do governor may, if a pollution control facilities business operator falls under any of the following subparagraphs, revoke such registration or order to suspend all or part of such business for a period of up to six months, provided that if it falls under subparagraph 1 or 2, he/she shall revoke such registration:

1. In cases where it falls under paragraph (4), provided that in cases where there is an executive falling under paragraph (4) from among the executives of a juristic person this shall not apply where such executive is replaced by a newly appointed executive within six months;

2. In cases where it has registered by fraudulent or other unlawful means;

3. In cases where it has received disposition of suspension of business not less than twice within a year;

4. In cases where it has failed to commence business within two years after registration or it has failed to attain actual results of business for more than two consecutive years;

5. In cases where it has failed to satisfy necessary conditions for registration under paragraph (1);

6. In cases where it has had another person conduct pollution control facilities business under its name or has lent its certificate of registration to another person;

7. In cases where it has failed to adequately perform design or construction of environmental pollution control facilities by intent or gross negligence;

8. In cases where it has subcontracted the entire project at once; and

9. In cases where it has conducted business during the period for suspension of business after having received an order for suspension of business.

(6) The registration fee for the pollution control facilities business shall be prescribed by Ordinance of the Ministry of Environment.

[This Article was wholly amended, Mar. 21, 2008]

[Moved from Article 18 (Mar. 21, 2008)]

Article 16 (Continued Construction, etc. by Pollution Control Facilities Business Operator Whose Registration Has Been Cancelled or Whose Business Has Been Suspended)

(1) A person whose registration has been cancelled or whose business has been suspended under Article 15(5) may only design or construct environmental pollution control facilities for a contract concluded before such disposition. In such cases, the Mayor/Do governor may designate a supervisor of construction and have him/her manage and supervise the

construction as prescribed by Ordinance of the Ministry of Environment.

(2) A person who continues to design or construct environmental pollution control facilities under paragraph (1) shall be deemed as a pollution control facilities business operator under this Act until he/she completes such design or construction.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 16-2(Designation, etc. of Eco-Friendly Enterprises)

(1) The Minister of Environment may designate an establishment that contributes greatly to environmental improvement through a remarkable decrease in discharge of pollutants, reduction in consumption of resources and energy, improvement in eco-friendliness of products, or establishment of environmental management systems, etc. as an eco-friendly enterprise and may re-designate it when the period of initial designation expires. In such cases, when designating eco-friendly enterprises, the Minister of Environment shall extend preferential treatment to an enterprise that has obtained authentication of environmental management systems under the Act on the Promotion of Conversion into Environment Friendly Industrial Structure.

(2) The period of designation for eco-friendly enterprises under paragraph (1) shall be three years and the period of re-designation shall be five years.

(3) In cases where a person who has been designated as an eco-friendly enterprise under paragraph (1) intends to modify the matters prescribed by Ordinance of the Ministry of Environment from among such matters designated, he/she shall make a report of the modification.

(4) Matters necessary for the standards and procedures for designation and re-designation and the operation of eco-friendly enterprises shall be prescribed by Ordinance of the Ministry of Environment. In such cases, the Minister of Environment shall consult with the Minister of Knowledge Economy and the Minister of Land, Transport and Maritime Affairs.

(5) The Minister of Environment shall undertake measures falling under any of the following subparagraphs for each establishment designated as an eco-friendly enterprise (Amended, Jun. 9, 2009):

1. Report in lieu of permission under Article 23 of the Clean Air Conservation Act and Article 33 of the Water Quality and Ecosystem Conservation Act;
2. Exemption of the matters prescribed by Ordinance of the Ministry of Environment from the report and inspection under Article 82 of the Clean Air Conservation Act, Article 68 of the Water Quality and Ecosystem Conservation Act, Article 47 of the Noise and Vibration Control Act, Article 39 of the Wastes Control Act, Article 45 of the Toxic Chemicals Control Act, Article 41 of the Act on the Management and Use of Livestock Excreta, and Article 69 of the Sewerage Act; and
3. Other measures for preferential treatment prescribed by Presidential Decree.

[This Article was wholly amended, Mar. 21, 2008]

[Moved from Article 19-2, (Mar. 21, 2008)]

Article 16-3 (Cancellation of Designation of Eco-Friendly Enterprise)

If a person who has been designated as an eco-friendly enterprise falls under any of the following subparagraphs, the Minister of Environment may cancel such designation, provided that such designation shall be cancelled in cases where he/she falls under subparagraph 1:

1. In cases where he/she has been designated as an eco-friendly enterprise by deceitful or other unjust means;
2. In cases where he/she has failed to meet the standards for designation under Article 16-2(4); and
3. In cases where he/she has been prescribed by Presidential Decree as unsuitable as an eco-friendly enterprise due to reasons such as a violation, etc. of the Acts and subordinate statutes related to the environment.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 16-4 (Registration of Environment Consulting Firm)

(1) A firm under the Commercial Act that intends to receive the support under Article 16-5 as a firm performing the affairs of the following subparagraphs (hereinafter referred to as an "environment consulting firm") shall satisfy the necessary conditions for human resources prescribed by Presidential Decree and register with the Minister of Environment. The same shall also apply in cases where said firm intends to change important matters prescribed by Presidential Decree from among the matters registered, such as the name of the firm or the employment of technical human resources, etc.:

1. Survey, assessment, consultation, and provision of information on the environmental controls at home and abroad (hereinafter referred to as the "survey, etc.");
2. Consultation, provision of information, and vicarious execution for procedures for the environmental administration, such as registration, authorization, and permission, etc. related to the environment;
3. Assessment and survey, etc. on the environmental controls in connection with the location, construction, operation, and management, etc. of establishments and various facilities;
4. Assessment, survey, etc., and education for prevention and optimum treatment of environmental pollution;
5. Assessment, survey, etc., and education for the commencement and operation of an environmental industrial enterprise;
6. Assessment, survey, etc., and education for eco-friendliness of an establishment;
7. Assessment, survey, etc., and education for the development and practical use of environmental technologies; and
8. Other matters prescribed by Presidential Decree.

(2) A firm that has an executive falling under any of the following subparagraphs from among its executives shall not register as an environment consulting firm (Amended, Jun. 9, 2009):

1. A minor, an incompetent, or a quasi-competent;
2. A person who was declared bankrupt but has not been reinstated;
3. A person in whose case three years have not passed since completion or complete

remission of his/her sentence of imprisonment with labor, as ordered by a court for violation of this Act, the Clean Air Conservation Act, the Water Quality and Ecosystem Conservation Act, the Noise and Vibration Control Act, or the Soil Environment Conservation Act (including cases where it is deemed that the sentence of imprisonment has been completed); or

4. A person who was an executive of a firm at the time of the revocation of registration of such firm and two years have not passed since the revocation of registration under Article 16-6.

[This Article was wholly amended, Mar. 21, 2008]

[Moved from Article 19-4, (Mar. 21, 2008)]

Article 16-5 (Support to Environment Consulting Firm)

The Minister of Environment may provide the support under the following subparagraphs to the registered environment consulting firms:

1. Provision of information related to environmental consulting; and
2. Education for human resources engaged in environmental consulting.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 16-6 (Cancellation, etc. of Registrations of Environment Consulting Firms)

The Minister of Environment may, when a registered environmental consulting firm falls under any of the following subparagraphs, cancel its registration or suspend the support under this Act, provided that in cases where it falls under subparagraph 1 or 2, the Minister of Environment shall cancel its registration:

1. In cases where it has registered by deceitful or other unjust means;
2. In cases where its executive falls under any subparagraph of Article 16-4(2), provided that the same shall not apply in cases where such executive is replaced with a newly appointed executive within six months from the date when he/she falls under the reasons of disqualification;
3. In cases where it has failed to fulfill the necessary conditions for human resources under Article 16-4(1);
4. In cases where it has lent its certificate of registration; and
5. In cases where it has failed to commence the affairs of each of the subparagraphs of Article 16-4(1) within one year from the date of registration or has failed to attain actual results of business not less than one year continuously.

[This Article was wholly amended by Act No. 8957, Mar. 28, 2008]

Article 16-7 (Obligation of Observance of Secrecy)

A person who is or was an executive or an employee of an environment consulting firm registered under Article 16-4(1) and a person who has participated in the affairs under the subparagraphs of the same paragraph shall not leak or secretly use a secret obtained on his/her duties.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 17 (Authentication of Environmental Mark)

(1) The Minister of Environment may grant authentication of an environmental mark for the

products which may cause less environmental pollution or save resources compared with other products for the same use (including apparatus, materials and services affecting the environment; hereinafter the same shall apply).

(2) A person who intends to obtain authentication under paragraph (1) shall make an application to the Minister of Environment as prescribed by Presidential Decree.

(3) Matters necessary for selection and cancellation of the products subject to authentication of environmental mark under paragraph (1) shall be prescribed by Presidential Decree, and the standards for authentication by products shall be determined and announced by the Minister of Environment.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 18 (Authentication, etc. of Environmental Grade Mark)

(1) In order to enhance the eco-friendliness of materials and products, the Minister of Environment may have a specialized institution designated by the Minister of Environment in consultation with the Minister of Knowledge Economy (hereinafter referred to as an "authenticating institution") grant authentication of environmental grade mark indicating the information on the eco-friendliness quantitatively for the process, such as production stage, distribution stage, consumption stage, and disuse stage, etc. of materials and products.

(2) Standards for designation of authenticating institutions shall be as follows:

1. Each authenticating institution shall provide itself with an exclusive organization in charge of performing affairs of authentication of environmental grade mark.

2. Each authenticating institution shall have not less than two examiners under Article 21 and shall provide itself with a system controlling such examiners.

(3) The Minister of Environment may direct and supervise the affairs of an authenticating institution to attain the purpose designated under paragraph (1) within the necessary extent.

(4) A person who intends to be designated as an authenticating institution shall make an application for designation to the Minister of Environment.

(5) The Minister of Environment shall, in cases where he/she has designated an applicant under paragraph (4) as an authenticating institution, issue a written designation of authenticating institution for environmental grade mark to the applicant.

(6) Each authenticating institution shall, in cases where it modifies the matters prescribed by Presidential Decree, such as its name, seat, etc., make a report of modification within 30 days from the date of such modification.

(7) Detailed matters necessary for procedures for and methods, etc. of designation of authenticating institution shall be prescribed by Ordinance of the Ministry of Environment.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 19 (Cancellation, etc. of Designation of Authenticating Institution)

If an authenticating institution falls under any of the following subparagraphs, the Minister of Environment may cancel such designation or order the suspension of all or part of its business with a fixed period within one year, provided that such designation shall be cancelled in cases where it falls under subparagraph 1 or 7:

1. In cases where it has been designated by deceitful or other unjust means;
2. In cases where it has failed to perform affairs of authentication not less than one year consecutively from the date of designation without justifiable reasons;
3. In cases where it has failed to meet the standards for designation under Article 18(2);
4. In cases where it has failed to make a report of modification under Article 18(6);
5. In cases where it has performed affairs of authentication in violation of the standards and procedures for authentication under Article 20(3);
6. In cases where it has failed to cancel authentication notwithstanding the occurrence of reasons for the cancellation of authentication of environmental grade mark in violation of Article 23(2);
7. In cases where it has failed to investigate the production process of materials and products or to collect materials and products necessary for test and analysis in violation of Article 28(2); and
8. In cases where it has performed affairs of authentication after its business had been suspended.

Article 19-3

Article 19-4

Article 19-5

Article 19-6

Article 19-7

Article 20 (Application, etc. for Authentication of Environmental Grade Mark)

(1) Matters necessary for selection and cancellation of materials and products subject to authentication of environmental grade mark under Article 18(1) shall be prescribed by Presidential Decree, and a preparation guide for environmental grade mark shall be as determined by the Minister of Environment.

(2) A person who intends to obtain authentication of environmental grade mark shall make an application for authentication of environmental grade mark to an authenticating institution.

(3) In cases where an authenticating institution has received an application for authentication under paragraph (2), it shall examine whether the relevant environmental grade mark has been prepared in compliance with a preparation guide for environmental grade mark under paragraph (1) according to the procedures prescribed by Ordinance of the Ministry of Environment, and shall grant authentication if it has been prepared in compliance with such preparation guide.

(4) In cases where an authenticating institution has authenticated environmental grade mark under paragraph (3), it shall report to the Minister of Environment as prescribed by Ordinance of the Ministry of Environment.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 21 (Examiner of Authentication)

(1) A person who performs affairs of examination for authentication of environmental grade mark (hereinafter referred to as an "examiner") or a person who intends to be an examiner shall receive the education provided by the Minister of Environment as prescribed by Ordinance of the Ministry of Environment.

(2) Standards for qualifications, etc. for an examiner shall be prescribed by Presidential Decree.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 21-2 (Regulations of Affairs)

(1) An authenticating institution, an institution or an organization entrusted with the affairs of authentication of environmental mark and the affairs related to such authentication under Article 31(2) (hereinafter referred to as an "institution entrusted with authentication"), and an institution or an organization entrusted with the affairs of education for examiners shall establish the regulations necessary for the affairs of authentication or education and obtain the approval of the Minister of Environment for such regulations. The same shall also apply to any modifications thereof.

(2) Matters to be included in the regulations necessary for the affairs of authentication or education under paragraph (1) shall be prescribed by Presidential Decree.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 22 (Use of Environmental Mark, etc.)

(1) A person who has obtained authentication of environmental mark or environmental grade mark (hereinafter referred to as an "environmental mark, etc.") under Article 17(1) or 20(3) may put an environmental mark, etc. on packages, containers, etc. of materials and products as prescribed by Ordinance of the Ministry of Environment or advertise about authentication of environmental mark, etc.

(2) No person other than those who have obtained authentication of environmental mark, etc. under Article 17(1) or 20(3) shall put an environmental mark, etc. or other similar mark on packages, containers, etc. of materials and products or advertise about authentication of environmental mark, etc.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 23 (Cancellation of Authentication of Environmental Mark, etc.)

(1) In cases where a person who has obtained authentication of environmental mark under Article 17(1) falls under any of the following subparagraphs, the Minister of Environment may cancel such authentication, provided that in cases where he/she falls under subparagraph 1, the Minister of Environment shall cancel such authentication:

1. In cases where he/she has obtained authentication by deceitful or other unjust means;
2. In cases where he/she distributes products not meeting the standards for authentication under Article 17(3) with an environmental mark put thereon;
3. In cases where he/she fails to continuously distribute products which have obtained authentication of environmental mark for a period prescribed by Ordinance of the Ministry of Environment without force majeure or other unavoidable reasons; and

4. In cases where it is prescribed by Presidential Decree that there are other reasons that make it unsuitable for authentication of environmental mark.

(2) In cases where a person who has obtained authentication of environmental grade mark under Article 20(3) falls under any of the following subparagraphs, an authenticating institution may cancel such authentication, provided that in cases where he/she falls under subparagraph 1, it shall cancel such authentication:

1. In cases where he/she has obtained authentication by deceitful or other unjust means;
2. In cases where he/she distributes materials or products different from the contents of authentication under Article 20(3) with an environmental grade mark put thereon;
3. In cases where he/she fails to continuously distribute materials and products which have obtained authentication of environmental grade mark for a period prescribed by Ordinance of the Ministry of Environment without force majeure or other unavoidable reasons; and
4. In cases where it is prescribed by Presidential Decree that there are other reasons that make it unsuitable for authentication of environmental grade mark.

(3) In cases where an authenticating institution cancels authentication of environmental grade mark under paragraph (2), it shall report such fact to the Minister of Environment.

(4) In cases where authentication of environmental mark under paragraph (1) or environmental grade mark under paragraph (2) is cancelled, the Minister of Environment shall publicly make known such cancellation as prescribed by Presidential Decree.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 24 (Removal of Environmental Mark, etc.)

In cases where materials and products authentication have been cancelled under Article 23 are distributed, the Minister of Environment shall order a person subject to the disposition of cancellation of authentication to remove environmental mark, etc. therefrom.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 24-2 (Mutual Recognition of Environmental Mark Between States)

(1) The Government may conclude an agreement with a foreign government with respect to the mutual recognition of environmental mark, etc.

(2) The Minister of Environment shall, if an agreement has been concluded with a foreign government under paragraph (1), announce the contents of such agreement.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 25 (Fees, etc.)

(1) The Minister of Environment, authenticating institutions and institutions entrusted with the affairs of authentication may collect application fees from the persons who have applied for authentication of environmental mark, etc. under Article 17(2) or 20(2), and royalties from the persons who use environmental mark, etc. under Article 22. In such cases, the fees for application and royalties collected by an authenticating institution or an institution entrusted with the affairs of authentication shall be revenues for such authenticating institution or institution entrusted with the affairs of authentication.

(2) An authenticating institution or an institution entrusted with the affairs of authentication

collecting fees for application and royalties under paragraph (1) may use such revenues only for operating expenses and publicity expenses for authentication of environmental mark, etc. and other expenses as prescribed by Presidential Decree.

(3) Matters necessary for the standards for collection, etc. of fees for application and royalties under paragraph (1) shall be prescribed by Presidential Decree.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 26 (Support for Development, etc. of Standards for Authentication of Environmental Mark)

In cases where an authenticating institution or an institution entrusted with the affairs of authentication promotes projects under the following subparagraphs, the Government may contribute funds necessary therefor or provide other necessary support:

1. Development of the standards for authentication under Article 17 or 18;
2. Development of techniques for analysis of eco-friendliness in the process of production stage, distribution stage, consumption stage, and disuse stage, etc. of materials and products;
3. Construction and operation of information networks for the promotion of production and use of eco-friendly materials and products;
4. Diffusion of the development and spread of product design and production techniques by taking the environment into consideration; and
5. Enhancement of professionalism in the affairs of authentication of environmental mark, etc.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 27 (Fosterage of Environmental Technical Human Resources)

(1) In order to train human resources necessary for the advancement of environmental technologies, the Government shall make plans for the fosterage of environmental technical human resources every five years and shall take measures for strengthening education for environmental technical human resources, as well as securing and managing the stability of environmental technical human resources.

(2) Technical human resources engaged in pollution control facilities business shall receive specialized environmental education.

(3) A person who employs a person subject to the education under paragraph (2) shall have the latter receive specialized environmental education.

(4) A person who provides the education under paragraph (2) may collect educational expenses from the persons who employ persons subject to the education or the persons subject to the education (limited to the cases where pollution control facilities business operators are the persons subject to the education) under the conditions prescribed by Ordinance of the Ministry of Environment.

(5) Institutions providing education and the contents of education, etc. under paragraph (2) shall be prescribed by Ordinance of the Ministry of Environment.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 27-2

Article 28 (Ex Post Facto Administration)

(1) The head of the relevant central administrative agency may have a person who falls under any of the following subparagraphs report on the present status of the conduct of relevant business and have relevant public officials investigate necessary matters or question relevant persons to ascertain the use of the government-contributed funds:

1. Research institutions, etc. performing development projects under Article 5; and
2. Persons receiving expenses under Articles 6(3) and 7(4).

(2) The Minister of Environment or the Mayor/Do governor may, if prescribed by Ordinance of the Ministry of Environment, have a person who falls under any of the following subparagraphs submit necessary data or have relevant public officials have access to office, place of business, or other necessary place to inspect relevant documents, facilities, equipment, etc., and may have an authenticating institution or an institution entrusted with the affairs of authentication investigate the manufacturing process of materials and products or collect materials and products necessary for test and analysis for a person falling under subparagraph 3:

1. Environmental technology development centers under Article 10;
2. Pollution control facilities business operators; and
3. Persons who put an environmental mark, etc. or advertise about authentication of environmental mark, etc. under Article 22(1).

(3) Public officials and relevant personnel of authenticating institutions or institutions entrusted with the affairs of authentication who investigate and inquire under paragraph (1) or have access to, inspect, investigate, or collect under paragraph (2) shall carry a certificate showing their authority and produce such certificate to relevant persons.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 29 (Standards for Administrative Measures)

The standards for administrative measures under Articles 15(5), 16-6, and 19 shall be prescribed by Ordinance of the Ministry of Environment.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 30 (Hearing)

The Minister of Environment or the Mayor/Do governor shall hold a hearing in advance if he/she intends to take measures falling under any of the following subparagraphs:

1. Cancellation of authentication of new technologies or verification of technologies under Article 7-4;
2. Cancellation of designation of environmental technology development center under Article 10;
3. Cancellation of registration of pollution control facilities business under Article 15(5);
4. Cancellation of designation of eco-friendly enterprise under Article 16-3;
5. Cancellation of designation of environment consulting firm under Article 16-6;
6. Cancellation of designation of authenticating institution under Article 19; and

7. Cancellation of authentication of environmental mark, etc. under Article 23.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 31 (Delegation and Entrustment of Authority)

(1) Part of the authority of the Minister of Environment under this Act may be delegated to the President of the National Institute of Environmental Research, the head of an environmental local government office, or the Mayor/Dogovernor as prescribed by Presidential Decree.

(2)The Minister of Environment may entrust the institutions concerned, etc. with the affairs according to the classification of the following subparagraphs as prescribed by Presidential Decree (Amended, Feb. 6, 2009):

1. Affairs of authentication of new technologies or verification of technologies under Article 7: Specialized institutions prescribed by Presidential Decree as environmental institutions;
2. Affairs of supporting environmental technologies (including affairs of subsidizing expenses) under Article 12: The Korea Environment Corporation under the Korea Environment Corporation Act;
3. Affairs of assessment of technologies (including affairs of subsidizing expenses) under Article 13: The Korea Environment Corporation under the Korea Environment Corporation Act and the Korea Environment and Resources Corporation under the Korea Environment and Resources Corporation Act;
4. Affairs concerning authentication of environmental marks or environmental grade marks under Article 17 or 20: Environmental institutions or organizations, or institutions or organizations prescribed by Presidential Decree from among the institutions or organizations designated by the head of the competent central administrative agency; and
5. Affairs concerning education under Article 21: Environmental institutions or organizations, or institutions or organizations prescribed by Presidential Decree from among the institutions or organizations designated by the head of the competent central administrative agency.

[This Article was wholly amended, Mar. 21, 2008]

[Moved from Article 35, the previous Article 31 moved to Article 27 (Mar. 21, 2008)]

Article 32 (Legal Fiction as Public Official in Application of Penal Provisions)

An executive or an employee of an institution or an organization falling under any of the following subparagraphs shall be deemed as a public official when applying the penal provisions under the provisions of Articles 129 through 132 of the Criminal Act to the authority entrusted: (Amended, Feb. 6, 2009)

1. Specialized institutions assessing environmental technologies under Article 7 (2);
2. Authenticating institutions under Article 18;
3. The Environmental Management Corporation entrusted with the authority of the Minister of Environment under Article 31(2);
4. Environmental institutions and organizations entrusted with the authority of the Minister of Environment under Article 31(2); and
5. Institutions or organizations designated by the head of the competent central

administrative agency entrusted with the authority of the Minister of Environment under Article 31(2).

[This Article was wholly amended, Mar. 21, 2008]

[Moved from Article 36, the previous Article 32 moved to Article 28 (Mar. 21, 2008)]

Article 33 (Reward)

In order to promote the development and spread of environmental technologies and foster the environmental industry, the Government may award a person falling under any of the following subparagraphs a prize:

1. A person who has developed excellent products or has put them to practical use in the field of environmental technologies;
2. A person who has manufactured eco-friendly products in the process of introduction of product design techniques taking the environment into consideration, putting them to practical use and manufacturing stage, distribution stage, consumption stage, and disuse stage, etc.; and
3. A person who has contributed to the enhancement of efficiency and economical efficiency in the installation and operation of environmental facilities.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 34 (Penal Provisions)

A person who falls under any of the following subparagraphs shall be punished by imprisonment with prison labor for not more than two years or by a fine not exceeding 10 million won:

1. A person who has put a mark of new technology or a similar mark, or has advertised about new technology without having obtained authentication of new technology in violation of Article 7-2(2);
2. A person who has leaked or secretly used a secret obtained through his/her duties in violation of Article 16-7;
3. A person who has put an environmental mark, etc. or a similar mark, or advertised about authentication of environmental mark, etc. without having obtained authentication of environmental mark, etc. in violation of Article 22; and
4. A person who has violated an order for removal of environmental mark, etc. under Article 24.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 35 (Penal Provisions)

A person who has carried on pollution control facilities business without registration or registration of modification in violation of Article 15(1) and (2) or a person who has carried on pollution control facilities business during the period of suspension of business shall be punished by imprisonment for not more than one year or a fine not exceeding five million won.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 36 (Joint Penal Provisions)

(1) In cases where the representative, an agent, an employee or any other employed person of a juristic person commits an act in violation of Article 34 or 35 with respect to the affairs of the juristic person, not only shall such an actor be punished, but also the juristic person shall be punished by a fine under the same Article, provided that this shall not apply when the juristic person has not neglected to pay reasonable attention to and supervise the affairs concerned to prevent such an act of violation.

(2) If an agent, an employee, or any other employed person of an individual commits an act in violation of Article 34 or 35 with respect to the affairs of the individual, not only shall such an actor be punished, but also the individual shall be punished by a fine under the same Article, provided, that this shall not apply when the individual has not neglected to pay reasonable attention to and supervise the affairs concerned to prevent such an act of violation.

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 37 (Fines for Negligence)

(1) A person who falls under any of the following subparagraphs shall be punished by a fine not exceeding one million won for negligence:

1. A person who has failed to receive education in violation of Article 27(2) or a person who has failed to have his/her personnel receive education in violation of paragraph (3) of the same Article; and

2. A person who has refused, hindered, or evaded presentation of data, access, inspection or investigation, or collection under Article 28(2).

(2) A fine for negligence under paragraph (1) shall be imposed and collected by the Minister of Environment or the Mayor/Do governor as prescribed by Presidential Decree.

(3) Deleted (by Act No. 9335, Jan. 7, 2009).

(4) Deleted (by Act No. 9335, Jan. 7, 2009).

(5) Deleted (by Act No. 9335, Jan. 7, 2009).

[This Article was wholly amended by Act No. 8957, Mar. 21, 2008]

Article 38-41 ADDENDA (Omitted)

20. Enforcement Decree of the Development of and Support for Environmental Technology Act

[Enforcement Date 01. Jul, 2010.] [Presidential Decree No.22224, 28. Jun, 2010., Amendment by Other Act]

Article 1 (Purpose)

The purpose of this Decree is to prescribe the matters delegated by the Development of and Support for Environmental Technology Act and other matters necessary for the enforcement thereof.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 2 (Environmental Industry)

The environmental industries under subparagraph 3 of Article 2 of the Development of and

Support for Environmental Technology Act (hereinafter referred to as the "Act") shall be as follows:

1. The industries that provide facilities, materials, and services necessary for environmental preservation activities, such as the measurement of environmental damages to the air, water quality, noise, vibration, ecosystem, etc., prevention, minimization and restoration, etc. thereof;
2. The industries that conduct research and development on environmental technologies for applying and utilizing the results thereof;
3. Others providing facilities, materials or services necessary for the conservation and management of the environment.

[This Article Wholly Amended by Presidential Decree 21544, Jun. 16, 2009]

Article 3 (Establishment of Comprehensive Plan for Development of Environmental Technology) (1) The Minister of Environment shall, when he/she establishes a comprehensive plan for developing environmental technologies pursuant to Article 3 (1) of the Act (hereinafter referred to as "development plan"), notify heads of relevant central administrative agencies of such plan.

(2) The Minister of Environment may request the heads of relevant central administrative agencies to provide the current status and estimate data, etc. of technologies under their jurisdiction, which are necessary for the establishment of the development plan in accordance with Article 3 (3) of the Act.

[This Article Wholly Amended by Presidential Decree 21544, Jun. 16, 2009]

Article 4 (Establishment, etc. of Annual Implementation Plan) (1) The heads of relevant central administrative agencies shall establish an annual implementation plan for the relevant year (hereinafter referred to as "implementation plan") by February 15 each year in accordance with the development plan and then notify the Minister of Environment of such annual implementation plan, along with implementation records of the preceding year.

(2) The Minister of Environment shall integrate and report both implementation plan and implementation records of the preceding year notified pursuant to paragraph (1) to the National Science and Technology Council established in accordance with Article 9 of the Framework Act on Science and Technology.

[This Article Wholly Amended by Presidential Decree 21544, Jun. 16, 2009]

Article 5 Deleted. <by Presidential Decree No. 21544, Jun. 16, 2009>

Article 6 Deleted. <by Presidential Decree No. 21544, Jun. 16, 2009>

Article 7 Deleted. <by Presidential Decree No. 21544, Jun. 16, 2009>

Article 8 Deleted. <by Presidential Decree No. 21544, Jun. 16, 2009>

Article 9 (Implementation of Project for Development of Environmental Technology) (1) The Minister of Environment shall, in order to undertake a project for developing environmental technologies under his/her jurisdiction in accordance with Article 5 (1) of the Act (hereinafter referred to as "development project"), establish a detailed plan for promoting such development project and then notify it to the public.

(2) The Minister of Environment shall, when he/she intends to carry out a development project in accordance with a detailed plan for promoting the development project under paragraph (1), select a person to implement such development project from among institutions, organizations or business operators under Article 5 (1) of the Act (hereinafter referred to as "research institutions, etc.") and have him/her carry out such development project by entering into an agreement with research institutions, etc. selected (hereinafter referred to as "research institutions in charge"). In such cases, an institution which has no representative authority among research institutions in charge may enter into an agreement with the representative of a corporation to which such institution belongs.

(3) The agreement under paragraph (2) shall contain the matters falling under each of the following subparagraphs:

1. Research tasks and people in charge;
2. Costs necessary for the development project under Article 5 (2) of the Act and methods of paying such costs;
3. Utilization of the results of the development project;
4. Collection of technical royalties accrued from the utilization of the results of the development project;
5. Matters on the amendment or cancellation of the agreement and the violation thereof;
6. Others related to the implementation of the development project.

(4) The heads of research institutions in charge may entrust part of the implementation of the development project to other research institutions, etc.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 10 Deleted. <by Presidential Decree No. 18880, Jun. 23, 2005>

Article 11 (Adjunct Laboratories to Enterprises)

The term "adjunct laboratories to enterprises meeting the standards prescribed by Presidential Decree" under Article 5 (1) 5 of the Act means laboratories affiliated to enterprises which are always staffed with full-time researchers in the environmental field from among research institutes affiliated to enterprises under Article 7 (1) 2 of the Technology Development Promotion Act.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 11-2 (Institutions in Charge of Undertaking Development Projects)

The term "foreign research institutions meeting the standards prescribed by Presidential Decree" under the main sentence of Article 5 (1) 9 of the Act means any institution recognized by the Minister of Environment as a research institute which is always staffed with five or more full-time researchers with a bachelor's degree or higher in relevant fields and more than three years of research experience and which is equipped with independent research facilities.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 12 (Research Institutions in Environmental Field)

The term "institutions, organizations or business operators prescribed by Presidential

Decree" in Article 5 (1) 10 of the Act means institutions, organizations or business operators falling under each of the following subparagraphs: <Amended by Presidential Decree No. 18157, Dec. 11, 2003; Presidential Decree No. 18428, Jun. 11, 2004; Presidential Decree No. 18880, Jun. 23, 2005; Presidential Decree No. 19719, Oct. 27, 2006>

1. The Environmental Management Corporation established under the Environmental Management Corporation Act (hereinafter referred to as the "Environmental Management Corporation");
2. The Korea Environment and Resources Corporation established under the Korea Environment and Resources Corporation Act;
3. The Sudokwon Landfill Site Management Corporation established under the Act on the Establishment and Management of Sudokwon Landfill Site Management Corporation;
4. The Korea Institute of Advancement of Technology, the Korea Evaluation Institute of Industrial Technology, the Korea Institute of Ceramic Engineering and Technology, the Korea Testing Laboratory, and the specializing industrial technology research institutes established under the Industrial Technology Innovation Promotion Act;
5. Venture companies in the environmental area incorporated under Article 2 (1) of the Act on Special Measures for the Promotion of Venture Businesses (hereinafter referred to as the "environment venture company");
6. Research institutions established for the purpose of developing the environmental technology under the Civil Act or other Acts.

Article 13 (Contributions, etc. to Development Projects)

Where contributions from persons, other than the Government or other research and development expenses of enterprises under Article 5 (2) of the Act are included in the expenses necessary for development projects, the heads of research institutions in charge shall enter into an agreement on contributions, etc., in advance, with persons who bear such expenses.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 14 (Payment and Management of Contributions) (1) The heads of research institutions in charge shall, when they receive the contributions from the Government or persons, other than the Government, or research and development expenses of enterprises under Article 5 (2) of the Act, manage them in separate accounts designated.

(2) The contributions made by the Government under Article 5 (3) of the Act shall be paid in installments, taking into account the progress of the development project: Provided, That the contributions may, if necessary, be paid in lump sum, taking into account the size or start time of the development project.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 15 (Use of Contributions) (1) The heads of research institutions in charge which receive the contributions from the Government pursuant to Article 14 (1) in order to implement a development project shall use such contributions only to cover expenses directly related to the implementation of the relevant development project, such as labor cost,

cost of materials, data-processing cost, production cost of prototype, etc., as prescribed by the Minister of Environment.

(2) The Minister of Environment may, if any research institution in charge uses contributions for any purpose, other than those under paragraph (1) without any justifiable ground, retrieve such contributions in whole or in part.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 16 (Collection and Use of Royalties) (1) Deleted. <by Presidential Decree No. 20165, Jul. 4, 2007>

(2) The heads of research institutions in charge shall use technical royalties for the purposes falling under each of the following subparagraphs pursuant to Article 5 (5) of the Act and report the results of use in the relevant year to the Minister of Environment by the end of February in the following year: <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

1. Enhancement of research efficiency of researchers, etc. participating directly or indirectly in the relevant development project;
2. Appropriation of royalties to research and development costs;
3. Management and utilization of the outcomes of research and development.

(3) The heads of research institutions in charge shall pay an amount determined by an agreement under Article 9 (2) within the extent of 60/100 of the amount equivalent to the contributions from the Government to the Korea Environmental Industry and Technology Institute under Article 5-2 of the Act in accordance with Article 5 (5) of the Act. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

(4) The president of the Korea Environmental Industry and Technology Institute (hereinafter referred to as "president of the Korea Environmental Industry and Technology Institute") may use technical royalties received pursuant to paragraph (3) for the purposes falling under each of the following subparagraphs after obtaining an approval from the Minister of Environment: <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

1. Re-investment in development projects;
2. Projects for technical support to the persons who intend to use the results of research and development;
3. Projects for exchange of human resources in environmental technology at home and abroad for encouraging development projects;
4. Rewards and welfare promotion projects for the persons who have developed excellent environmental technologies;
5. Projects for exchange of information on environmental technology;
6. Projects for support to authentication of new technology or verification of technology;
7. Other projects recognized by the Minister of Environment for the promotion of environmental technologies.

(5) Detailed matters concerning collection and use, etc. of technical royalties other than the matters prescribed by this Decree shall be prescribed by the Minister of Environment. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

Article 16-2 (Projects of Korea Environmental Industry and Technology Institute)

The term "projects prescribed by Presidential Decree" under Article 5-2 (4) 12 of the Act shall mean as follows:

1. Examination and research on policies and technologies for promoting environmental technologies and environmental industry;
2. Identification of and support to a promising environmental industry;
3. Business of facilitating investment in the environmental industry and supporting therefor, such as financing;
4. Business of promoting demands for environmental services, such as environmental technologies, environmentally-friendly facilities, environmentally-friendly products, environment-related consulting, etc.;
5. Business prescribed by the articles of incorporation as necessary for conducting business under Article 5-2 (4) 1 through 11 of the Act and subparagraphs 1 through 4 above in an efficient manner.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 17 (Projects of Facilitating Practical Use of Environmental Technologies)

The term "projects prescribed by Presidential Decree" under Article 6 (2) 5 of the Act means projects falling under each of the following subparagraphs:

1. Projects designed, where a local government has saved a budget subsidized by the State or other local governments by utilizing a new technology, to pay part of the amount saved as grants of encouragement to facilitate the practical use of new technologies by such local government;
2. Projects designed, where, after the State or a local government installed environmental facilities using a new technology, the new technology is deemed successful, to cover the costs required for the installation of such environmental facilities;
3. Projects designed to discover, foster, and support environment venture companies.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 18 (Application for Authentication of New Technology or Verification of technology)

A person who intends to obtain authentication of new technology or verification of technology pursuant to Article 7 (1) of the Act shall submit an application for authentication of new technology or verification of technology containing the matters falling under each of the following subparagraphs (hereinafter referred to as "application") to the Minister of Environment:

1. Documents specifying the development background, history, principle, validity, etc. of the technology;
2. Documents describing performance and economical efficiency of the technology;
3. Design drawings and operating manual of the facilities subject to appraisal;
4. Documents describing the contents appraised by the applicant, such as items of appraisal, frequency of appraisal, method of appraisal, kinds of raw materials, materials and samples

related to the appraisal and the result of a domestic pilot test, etc.;

5. Documents describing the contents (including the substance of the new technologies and details of novelty and excellency thereof) of the new technology;

6. Documents proving that the applicant is a technology holder, such as the results of use at home and abroad (limited to cases where the results of use are available) and domestic or foreign patent or authentication, etc.;

7. Investigation report on advanced technology performed by a specialized institution designated under Article 58 (1) of the Patent Act;

8. Documents specifying the matters subject to verification and method of field appraisal (limited to verification of technology);

9. Others publicized by the Minister of Environment as recognized necessary for the authentication of new technology or verification of technology.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 18-2 Deleted. <by Presidential Decree No. 20165, Jul. 4, 2007>

Article 18-3 (Criteria of Appraisal of Authentication of New Technology or Verification of Technology)

Technologies subject to authentication of new technology or verification of technology under Article 7 (1) of the Act shall comply with Acts and subordinate statutes related to environment and the criteria of appraisal therefor shall be as follows:

1. Novelty: Technologies in the method of construction in environmental fields, which have been developed for the first time in Korea or been improved by introducing main parts of domestic or foreign technologies, and technologies related thereto;

2. Excellency in technical performance: Technologies with high efficiency, perfectness, importance and possibility of development;

3. Excellency in application to the field: Technologies with economical efficiency, safety, and conveniences in maintenance and management, compared with existing technologies.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 18-4 (Method of and Procedure for Appraisal of Authentication of New Technology or Verification of Technology)

(1) The Minister of Environment shall, when he/she receives an application for authentication of new technology or verification of technology pursuant to Article 18, publicize the main details of the technologies on the Internet website, etc. for more than 30 days and hear opinions from interested parties.

(2) The Minister of Environment shall, after hearing opinions from interested parties pursuant to paragraph (1), conduct an appraisal of authentication of new technology or verification of technology under Article 7 (1) of the Act.

(3) The appraisal of the authentication of new technology under paragraph (2) shall be conducted through field investigation (referring to confirmation on whether technological details, field applicability, etc. are identical to the contents of the application; hereinafter the same shall apply), documentary examination, and the appraisal for the verification of technology shall be conducted through field investigation, documentary examination, field

assessment (referring to the assessment of the functions of the facilities installed in the field subject to appraisal, after undertaking tests and analyses, etc. for a certain period; hereinafter the same shall apply) and overall assessment.

(4) Specific procedures for field investigation, documentary examination, field assessment, and overall assessment under paragraph (3) and other necessary matters shall be prescribed and publicized by the Minister of Environment.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 18-5 (Public Announcement and Management of Authentication of New Technology or Verification of Technology) (1) When the Minister of Environment issues a certificate for authentication of new technology or verification of technology pursuant to Article 7 (2) of the Act after undertaking an appraisal for the authentication of new technology or verification of technology under Article 18-4 (2), he/she shall publicly announce the contents of authentication or verification through the Internet website, etc. and notify the Korea Environmental Industry and Technology Institute of details of such issuance.

(2) The president of the Korea Environmental Industry and Technology Institute shall, when he/she receives the details of issuance of a certificate for authentication of new technology or verification of technology pursuant to paragraph (1), preserve the details of such issuance for six years.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 19 (Small and Medium Enterprises in Environmental Field)

The term "small and medium enterprise meeting the standards prescribed by Presidential Decree" in Article 7 (4) 1 of the Act means a small and medium company incorporated under Article 2 of the Framework Act on Small and Medium Enterprises, which runs the environmental industry.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 19-2 Deleted. <by Presidential Decree No. 20165, Jul. 4, 2007>

Article 19-3 (Preferential Use of New Technology) (1) and (2) Deleted. <by Presidential Decree No. 20165, Jul. 4, 2007>

(3) Institutions or business operators under Article 7-2 (3) of the Act may, when they place an order for construction or design of environmental facilities, take preferential measures, such as granting additional points in a tender to any new technologies, as prescribed and publicized by the Minister of Environment. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

(4) Where a business operator who establishes and operates environmental facilities pursuant to Article 7-2 (3) of the Act intends to utilize a new technology, the Minister of Environment may provide funds necessary to utilize the new technology to such business operator. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

[This Article Newly Inserted by Presidential Decree No. 18157, Dec. 11, 2003]

Article 19-4 (Application for Extension of Term of Validity of Authentication of New Technology) (1) and (2) Deleted. <by Presidential Decree No. 20165, Jul. 4, 2007>

(3) A person who intends to extend the term of validity under Article 7-3 (2) of the Act shall apply for extension of the term of validity of authentication of new technology (hereinafter referred to as "application for extension"), along with the following documents, to the Minister of Environment by not later than 120 days prior to expiry of the term of validity: <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

1. Documents stating the improved matters after the authentication of new technology;
2. Documents stating the records of utilization in Korea and overseas and the results of application, etc. after the authentication of new technology;
3. Documents stating the current status of development of similar technology and the present level of such technology.

(4) The Minister of Environment shall, when he/she has received an application for extension of the term of validity of authentication of new technology under paragraph (3), determine whether the said term of validity shall be extended through the appraisal of the matters of the following subparagraphs: <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

1. Results of utilization from when the authentication of new technology is received to when an application for extension of the term of validity is made;
2. Whether performance of technology is satisfactory after the application of new technology, compared with the performance at the time of authentication of new technology;
3. Whether economical efficiency, safety, eco-friendliness, conveniences in maintenance and management are satisfactory after the application of new technology, compared with those at the time of authentication of new technology;
4. Whether the related Acts and subordinate statutes are complied with.

(5) Appraisal for extension of the term of validity under paragraph (4) shall be conducted through field investigation and documentary examination. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

(6) Specific procedures for field investigation and documentary examination under paragraph (5) and other necessary matters shall be prescribed and publicized by the Minister of Environment. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

[This Article Newly Inserted by Presidential Decree No. 18157, Dec. 11, 2003]

Article 19-5 (Procedures for Cancellation of Authentication of New Technology or Verification of Technology) (1) The Minister of Environment may conduct field investigation, if necessary, to examine whether authentication of new technology or verification of technology under Article 7-4 of the Act shall be cancelled.

(2) The Minister of Environment shall, when he/she cancels authentication of new technology or verification of technology pursuant to Article 7-4 of the Act, publicly announce the matters falling under each of the following subparagraphs:

1. Issue number of a certificate for authentication of new technology or a certificate for verification of technology;
2. Name of technology;
3. A technology holder;

4. Scope of new technology.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 20 (Designation and Operation of Environmental Technology Development Center) (1) Institutions or organizations falling under each of the following subparagraphs may be designated as environmental technology development centers under Article 10 (1) of the Act: <Amended by Presidential Decree No. 18880, Jun. 23, 2005>

1. National and public research institutions or research institutions subject to the application of the Support of Specific Research Institutes Act;
2. Schools established under Article 2 of the Higher Education Act;
3. The Environmental Management Corporation;
4. Corporations established after obtaining approval from the Minister of Environment for the purpose of developing the environmental technology;
5. Institutions or organizations meeting the criteria for designation as prescribed by the Minister of Environment from among institutions or organizations that undertake other professional research related to the development of environmental technology.

(2) The Minister of Environment may request any environmental technology development center to furnish necessary data under the conditions as prescribed by Ordinance of the Ministry of Environment for the purpose of efficiently operating such center and providing necessary support thereto such center.

Article 21 (Facilities Subject to Technical Support, etc.) (1) Facilities subject to technical support under Article 12 of the Act shall be as follows: <Amended by Presidential Decree No. 22224, Jun. 28, 2010>

1. Facilities installed to prevent or reduce environmental pollution in advance during the course of production activities;
2. Facilities in need of technical support because of a lack of technical capability to operate and manage facilities to prevent environmental pollution;
3. Facilities which have been operated in excess of the permissible discharge standards under Article 16 of the Clean Air Conservation Act, Article 32 of the Water Quality and Ecosystem Conservation Act or Article 7 of the Noise and vibration Control Act, or discharged water quality standards under Article 7 of the Sewerage Act or Article 13 of the Act on the Management and Use of Livestock Excreta not less than three times within two years and which are designated by heads of local governments, heads of basin environmental offices or heads of regional environmental offices as being in need of technical support in order to achieve the effect of environmental improvement;
4. Facilities subject to investigation of the discharged amount of chemical substances under Article 17 of the Toxic Chemicals Control Act.

(2) A person who intends to receive technical support for facilities under paragraph (1) shall file an application to the Minister of Environment.

(3) The Minister of Environment shall, when he/she receives an application for technical support pursuant to paragraph (2), confirm a plan for technical support and then notify the

applicant of such plan seven days prior to the date on which the technical support commences. In such cases, in confirming the technical support plan, the Minister of Environment may, if deemed necessary depending on the types and characteristics of the facilities subject to technical support, consult with the heads of relevant local governments, the heads of basin environmental offices, the heads of regional environmental offices, environmental technology development centers established in accordance with Article 10 of the Act or relevant specialized institutions.

(4) The Minister of Environment shall, where a person who has filed an application for technical support requires him/her to protect data or information which are worth being protected with respect to the relevant facilities and production process, manufactured products, etc., prevent disclosure or divulgence of such data or information. In such cases, the Minister of Environment shall decide the methods of protecting data or information and the period of protection by entering into a separate contract with the applicant.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 21-2 Deleted. <by Presidential Decree No. 20297, Sep. 28, 2007>

Article 21-3 Deleted. <by Presidential Decree No. 20297, Sep. 28, 2007>

Article 22 (Measuring and Analyzing Agencies)

The term "persons prescribed by Presidential Decree" in Article 14 (1) of the Act means persons falling under any of the following subparagraphs:

1. Inspection agents under Article 13 of the Environmental Examination and Inspection Act;
2. Measuring agents under Article 16 of the Environmental Examination and Inspection Act;
3. Waste analysis agency, inspection agency, and measuring institution under Article 17 (3) 2, Article 30 (1) and Article 31 (2) of the Waste Control Act;
4. Inspection agency of pollution level of air quality under Article 22 (2) of the Enforcement Decree of the Clean Air Conservation Act;
5. Inspection institutions of pollution level of indoor air quality under Article 13 (2) of the Indoor Air Quality Control in Publicly Used Facilities, etc. Act;
6. Inspection institutions for drinking water quality under Article 43 of the Management of Drinking Water Act;
7. Specialized institutions related to soil under Article 23-2 (1) of the Soil Environment Conservation Act;
8. Inspection agency of pollution level under Article 68 (2) of the Water Quality and Ecosystem Conservation Act;
9. Wastewater and sewage terminal treatment facilities under Article 12 (1) of the Water Quality and Ecosystem Conservation Act;
10. Malodor inspection institutions under Article 18 (1) of the Malodor Prevention Act;
11. Institutions or organizations entrusted by the State or local governments to conduct the test and analysis of the air, water quality, drinking water, noise and vibration, etc.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 22-2 Deleted. <by Presidential Decree No. 20297, Sep. 28, 2007>

Article 22-3 Deleted. <by Presidential Decree No. 20297, Sep. 28, 2007>

Article 22-4 (Registration Criteria for Preventive Facilities Business) (1) A person who intends to make a registration of preventive facilities business under the former part of Article 15 (1) of the Act shall be equipped with the following technical abilities:

1. Technical experts in charge under the following items:
 - (a) Atmosphere: Four persons or more;
 - (b) Water quality: Four persons or more;
 - (c) Noise and vibration: Three persons or more;
2. Test apparatus to measure and analyze pollutants of water quality [limited to water quality field, and where concluding a contract for joint use or for vicarious execution of measurement and analysis with the person possessing the same test apparatus (excluding other preventive facilities business operator), it shall be deemed to have been equipped with the same test apparatus].

(2) Detailed criteria for registration of preventive facilities business, such as the qualifications of technical experts in charge and test apparatus, etc. under each subparagraph of paragraph (1), shall be provided for in Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 22-5 (Alteration of Registration Matters of Preventive Facilities Business)

The term "matters prescribed by Presidential Decree" in the latter part of Article 15 (1) of the Act shall be as follows:

1. Representative or trade name;
2. Location of business places;
3. Location of test apparatus (limited to water quality field);
4. Matters of concluding a contract for a joint use of test apparatus or a vicarious execution of measurement and analysis (limited to cases of concluding a contract for a joint use of test apparatus or a vicarious execution of measurement and analysis);
5. Technical experts in charge.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 22-6 (Preferential Treatment for Green Companies)

The term "preferential measure prescribed by Presidential Decree" in Article 16-2 (5) 3 of the Act means funds and technical support needed to improve the environment of places of work.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 22-7 (Revocation of Designation of Green Companies)

The term "cases prescribed by Presidential Decree" in subparagraph 3 of Article 16-3 of the Act means cases falling under each of the following subparagraphs: <Amended by Presidential Decree No. 22124, Apr. 13, 2010; Presidential Decree No. 22224, Jun. 28, 2010>

1. Where a person has been subjected to a disposition falling under any of the following items, or has been sentenced to a punishment equivalent to or heavier than a fine of one million won or more or imprisonment without prison labor in violation of the relevant Acts:

Provided, That the same shall not apply to cases where a person has been subjected to a disposition falling under any of the following items but recognized by the Minister of Environment as not having polluted the surrounding environment:

(a) Any order for improvement, order for suspension of operation, disposition on cancellation of permission, disposition taken to impose penalty surcharges, order for suspension of use, or order for closure under Article 33, 34, 36, 37, or 38 of the Clean Air Conservation Act;

(b) Any order on the enforcement of prevention measures, order for improvement, order for suspension of operation, disposition on cancellation of permission, order for suspension of use, or order for closure under Article 15 (3), 39, 40, 42, or 44 of the Water Quality and Ecosystem Conservation Act;

(c) Any order for improvement, order for suspension of operation, disposition on cancellation of permission, order for suspension of use, or order for closure under the provisions of Articles 15 through 18 of the Noise and Vibration Control Act;

(d) Any disposition on cancellation of permission, order for business suspension or order to take measures under Article 27 or 48 of the Wastes Control Act;

(e) Any order for suspension of sales, order for suspension of use, order for improvement, order for business suspension, disposition on cancellation of registration or cancellation of permission under Article 16, 23, 27, or 36 of the Toxic Chemicals Control Act;

(f) Any disposition on cancellation of permission, order for business suspension, disposition taken to impose penalty surcharges or disposition on cancellation of registration under Article 18, 32, 33 or 35 of the Act on the Management and Use of Livestock Excreta;

(g) Any order for suspension or order for restoration under Article 17 of the Natural Environment Conservation Act;

(h) Any order to take measures or order for suspension of use under Article 14 (1) and (3), and Article 15 (3) of the Soil Environment Conservation Act;

(i) Any order to take measures or to suspend construction under Article 26 (3) and (4) or Article 28 (3) of the Environmental Impact Assessment Act;

(j) Any order for improvement, order for suspension of use, disposition taken to impose penalty surcharges or order for closure under Articles 10 through 13 of the Malodor Prevention Act;

(k) Any order for business suspension, disposition on cancellation of permission, disposition taken to impose penalty surcharges, or disposition on cancellation of registration under Articles 49, 50, or 54 of the Sewerage Act;

2. Where the designation as a green company has not been revoked pursuant to the proviso to subparagraph 1 but the person has been subjected to the disposition falling under each item of the same subparagraph three or more times for two years;

3. Where the location is changed by workplace relocation;

4. Other cases corresponding to subparagraphs 1 and 3 as prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 22-8 (Registration Standards for Environment Consulting Firm) (1) The requirements on qualified personnel under the former part of Article 16-4 (1) of the Act with the exception of its subparagraphs are as provided for in attached Table 1.

(2) The term "important matters prescribed by Presidential Decree, such as trade name or technical human resources, etc." in the latter part of Article 16-4 (1) of the Act with the exception of its subparagraphs means any of the following subparagraphs:

1. Trade name or the location of business place;
2. Representative and executives;
3. Technical human resources;
4. Purpose of business (referring to the purpose of business stipulated in the articles of incorporation).

(3) Any registration of changes under Article 16-4 (1) of the Act shall be made within 30 days from the date on which any reason for changes arises.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 23 (Application for Environment Mark Certification) (1) Any person who intends to obtain certification of environment mark pursuant to Article 17 (2) of the Act shall submit an application for environment mark certification to the Minister of Environment, along with the data falling under each of the following subparagraphs:

1. Data related to the environmentally-friendliness of the relevant product;
2. Data related to the quality of the relevant product;
3. Data proving whether the product satisfies the criteria for authentication by type under Article 17 (3) of the Act.

(2) The Minister of Environment shall, when he/she grants certification of environment mark, issue a certificate of environment mark to the applicant, clearly stating the reasons therefor.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 24 (Selection of Products Subject to Environment Mark) (1) Any person who intends to present a proposal for selection of products subject to certification of environment mark under Article 17 of the Act (hereinafter referred to as "product subject to environment mark") shall submit a written proposal for such selection to the Minister of Environment.

(2) Food under the Food Sanitation Act, medicines and therapeutic devices under the Pharmaceutical Affairs Act, agricultural chemicals under the Agrochemicals Control Act and wood crafts designated as forest products under the Creation and Management of Forest Resources Act shall not be selected as a product subject to environment mark.

(3) The Minister of Environment shall, when he/she selects a product subject to environment mark, establish and publicize standards for certification of environment mark by product.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 25 (Repeal of Selection of Product Subject to Environment Mark) (1) In cases of any product that has no need to obtain environment mark, from among products subject to environment mark pursuant to Article 17 (3) of the Act, the Minister of Environment may repeal the selection of the product subject to environment mark.

(2) The Minister of Environment shall, when he/she repeals the selection of a product subject to environment mark pursuant to paragraph (1), announce the fact to the public.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 25-2 (Reporting on Change by Authenticating Institution)

The term "matters prescribed by Presidential Decree, such as name and location, etc. of authenticating institution" in Article 18 (6) of the Act means those falling under any of the following subparagraphs:

1. Location of the authenticating institution;
2. Name of the authenticating institution;
3. Representative.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 26 (Selection and Repeal of Product Subject to Environment Grade Mark) (1)

Any person who intends to present a proposal on the selection of materials and products subject to authentication of environment grade mark pursuant to Article 20 (1) of the Act (hereinafter referred to as "product subject to environmental grade mark") shall submit a written proposal to the Minister of Environment.

(2) The Minister of Environment shall deliberate over such matters proposed pursuant to paragraph (1), determine whether to choose products subject to environment grade mark, draw up guidelines concerning the method of assessment for environment grade for chosen products subject to environment grade mark and the mark thereof, and then notify them to the public.

(3) The provisions of Article 25 shall apply mutatis mutandis to matters concerning the repeal of the product subject to environment grade mark. In such cases, "products subject to environment mark" shall be deemed "products subject to environment grade mark".

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 27 (Qualification Standards, etc. for Examiner of Authentication) (1) Any person falling under any of the following subparagraphs may become an examiner of authentication pursuant to Article 21 (2) of the Act:

1. A person who received the education under Article 21 (1) of the Act and for whom three years have not yet passed;
2. A person who has a career record publicized by the Minister of Environment and who graduated from college after completing subjects prescribed and publicized by the Minister of Environment, taking into account the types and characteristics of a product subject to environment grade mark.

(2) The Minister of Environment shall, when a person satisfying the qualification criteria under paragraph (1) file an application, issue a certificate of examiner of authentication of environment grade mark.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 27-2 (Regulations for Affairs)

Matters to be included in the regulations necessary for the affairs of authentication or

education under Article 21-2 (2) of the Act shall be as follows:

1. Matters to be included in the regulations necessary for the affairs of authentication:
 - (a) Matters on the procedures of authentication and methods thereof for environment mark under Article 17 of the Act or environment grade mark under Article 18 of the Act (hereinafter referred to as "environment mark, etc.");
 - (b) Matters on the period of authentication of environment mark, etc. and post management of authenticated products;
 - (c) Other matters recognized by the Minister of Environment as necessary for the authentication of environment mark, etc.;
2. Matters to be included in the regulations necessary for education affairs:
 - (a) Matters on the procedures for application for education and methods of assessment;
 - (b) Matters on the management of persons completing the education;
 - (c) Other matters recognized by the Minister of Environment as necessary for the education for examiners of authentication.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 28 (Grounds for Cancellation of Authentication of Environment Mark, etc.) (1)

The term "cases prescribed by Presidential Decree" in Article 23 (1) 4 of the Act means cases falling under any of the following subparagraphs:

1. Where manufacturing of the products which obtained authentication of environment mark has been de facto suspended due to dishonor, closure or any other grounds similar thereto;
2. Where any product failing to satisfy the authentication criteria under Article 17 (3) of the Act is distributed.

(2) The term "cases prescribed by Presidential Decree" in Article 23 (2) 4 of the Act means cases falling under any of the following subparagraphs:

1. Where manufacturing of the products which obtained authentication of environment grade mark has been de facto suspended due to dishonor, closure or any other grounds similar thereto;
2. Where any material or product different from the details of the authentication under Article 20 (3) of the Act is distributed.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 28-2 (Announcement of Cancellation of Authentication of Environmental Marks, etc.)

The Minister of Environment shall, when he/she cancels authentication of environment mark, etc. pursuant to Article 23 of the Act, publicly announce the matters falling under each of the following subparagraphs:

1. Materials or name of product, the authentication of which is cancelled;
2. Manufacturing company or manufacturer of materials or products, the authentication of which is cancelled;
3. Grounds for cancellation of authentication;
4. Date of cancellation of authentication.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 28-3 (Support, etc. for Mutual Recognition of Environment Mark, etc. between States) (1) The Government may, when it enters into an agreement with a foreign government with respect to the mutual recognition of environment mark, etc. pursuant to Article 24-2 of the Act, specify the provisions of such agreement stipulating that the same effect as provided for in this Act shall be granted to the authentication of environment mark, etc. granted by any foreign authenticating institution.

(2) The Minister of Environment shall, when he/she intends to enter into an agreement under paragraph (1), consult with heads of relevant central administrative agencies in advance.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 29 (Use of Fees, etc.)

The term "expenses as prescribed by Presidential Decree" in Article 25 (2) of the Act means expenses required for post management, such as pilot test of products which obtained authentication for environment mark, etc.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 30 (Criteria, etc. for Collection of Fees, etc.) (1) The Minister of Environment shall determine fees for application under Article 25 (1) of the Act based on the expenses required to examine the application for authentication of environment mark, etc. and usage fees based on the types, unit price, endurance period, and sales of materials or products, after hearing opinions from authenticating institutions or institutions entrusted with authentication of environment mark, etc. persons who obtained authentication of environment mark, etc. and other interested persons.

(2) The Minister of Environment shall, when he/she determines application fees and usage fees pursuant to paragraph (1), publicly announce such details.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 31 Deleted. <by Presidential Decree No. 18863, Jun. 13, 2005>

Article 32 (Establishment, etc. of Environmental Technical Personnel Nurturing Plan)

The plan for nurturing environmental technical personnel under Article 27 of the Act shall contain the matters falling under each of the following subparagraphs:

1. A mid and long outlook on supply and demand of environmental technical personnel;
2. A plan for nurturing and securing the environmental technical personnel;
3. A plan for providing education on environmental technology and technical training;
4. Matters on the attraction and utilization of environmental technical personnel.

[This Article Wholly Amended by Presidential Decree No. 21544, Jun. 16, 2009]

Article 33 (Delegation and Entrustment) (1) The Minister of Environment shall delegate his/her authority for imposing and collecting fines for negligence under Article 37 (1) 2 of the Act (limited to persons falling under Article 28 (2) 2 of the Act, who have refused, obstructed or evaded the presentation of data requested by the Minister of Environment) to the Mayor/Do Governor in accordance with Article 31 (1) of the Act. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

(2) The Minister of Environment shall delegate his/her authority falling under each of the following subparagraphs to heads of river basin environmental office or heads of regional environmental office pursuant to Article 31 (1) of the Act: <Amended by Presidential Decree No. 21544, Jun. 16. 2009>

1. Registration, registration of change and imposition on cancellation of registration of an environmental consulting firm under Article 16-4 (1) and 16-6 of the Act;
2. Request for the presentation of data, investigation, inspection or collection (excluding the authority under a person falling under subparagraph 2 of the same Article) under Article 28 (2) of the Act;
3. Hearing under subparagraph 5 of Article 30 of the Act;
4. Imposition and collection of fines for negligence under Article 37 (1) 2 of the Act (limited to persons falling under Article 28 (2) 1 and 3 of the Act who have refused, obstructed or evaded the presentation of data requested by the Minister of Environment).

(3) The Minister of Environment shall delegate precision control of measurement and analysis agencies under Article 14 (1) of the Act and his/her authority to issue an order and improvement, supplement and measures under paragraph (2) of the same Article to the president of the National Institute of Environmental Research in accordance with Article 31 (1) of the Act. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

(4) The term "specialized institutions prescribed by Presidential Decree" in Article 31 (2) 1 of the Act means the Korea Environmental Industry and Technology Institute. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

(5) The Minister of Environment may entrust the business falling under each of the following subparagraphs to the head of the Korea Environmental Industry and Technology Institute in accordance with Article 31 (2) 1 of the Act: <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

1. Receipt of application under Article 18;
2. Public announcement and hearing of opinions from interested parties, etc. under Article 18-4 (1);
3. Assessment of authentication of new technology or verification of technology under Article 18-4 (2);
4. Receipt and assessment of application for extension under Article 19-4 (3) and (4);
5. Field investigation for authentication of new technology or verification of technology and examination of cancellation thereof under Article 19-5 (1) and (2).

(6) The Minister of Environment shall entrust the head of Environmental Management Corporation with the affairs of the following subparagraphs under Article 35 (2) 2 and 3 of the Act: <Amended by Presidential Decree No. 20165, Jul. 4, 2007>

1. Affairs of support of environmental technologies and affairs of support of necessary expenses under Article 12 of the Act;
2. Affairs of diagnosis of technologies and affairs of support of necessary expenses under Article 13 of the Act.

(6) The Minister of Environment shall entrust the business falling under each of the following subparagraphs to the head of the Korea Environment Corporation in accordance with Article 31 (2) 2 and 3 of the Act: <Amended by Presidential Decree No. 21544, Jun. 16, 2009> <<Enforcement Date: Jan. 1, 2010>>

1. Support for environmental technologies under Article 12 and support for necessary expenses thereof;

2. Diagnosis of technologies under Article 13 of the Act and support for necessary expenses thereof.

(7) The Minister of Environment shall entrust to the president of Korea Environment and Resources Corporation under the Korea Environment and Resources Corporation Act with affairs of diagnosis of technologies and affairs of support of the necessary expenses as prescribed by Article 13 of the Act in accordance with Article 35 (2) 3 of the Act. <Amended by Presidential Decree No. 20165, Jul. 4, 2007>

(7) Deleted. <by Presidential Decree No. 21544, Jun. 16, 2009> <<Enforcement Date: Jan. 1, 2010>>

(8) The term "institution or organization prescribed by Presidential Decree" in Article 31 (2) 4 of the Act means the Korea Environmental Industry and Technology Institute. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

(9) The term "institution or organization prescribed by Presidential Decree" in Article 31 (2) 5 of the Act means the Korea Environmental Preservation Association under Article 38 of the Framework Act on Environmental Policy. <Amended by Presidential Decree No. 21544, Jun. 16, 2009>

Article 34 Deleted. <by Presidential Decree No. 18157, Dec. 11, 2003>

ADDENDA (Omitted)

21. Act on Special Measures for the Control of Environmental Offenses

[Enforcement Date 10. Dec, 2009.] [Act No.9774, 09. Jun, 2009., Amendment by Other Act]

Article 1 (Purpose)

The purpose of this Act is to contribute to the environmental preservation by punishing aggravatingly any act of causing environmental pollution or damages harmful to human life and body, sources of water supply, or natural ecosystem, etc. and by toughening administrative dispositions against such act.

Article 2 (Definitions)

The definition of terms used in this Act shall be as follows: <Amended by Act No. 6452, Mar. 28, 2001; Act Nos. 7167, 7168 & 7170, Feb. 9, 2004; Act Nos. 7291, 7292 & 7297, Dec. 31, 2004; Act No. 7459, Mar. 31, 2005; Act Nos. 8010 & 8014, Sep. 27, 2006; Act Nos. 8343, 8370 & 8371, Apr. 11, 2007; Act No. 8404, Apr. 27, 2007; Act No. 8466, May 17, 2007; Act No. 9313, Dec. 31, 2008; Act No. 9432, Feb. 6, 2009>

1. The term "pollutants" means materials falling under any of the following items:

- (a) Air pollutants under the provisions of subparagraph 1 of Article 2 of the Clean Air Conservation Act;
 - (b) Water pollutants under the provisions of subparagraph 7 of Article 2 of the Water Quality and Ecosystem Conservation Act;
 - (c) Soil pollutants under the provisions of subparagraph 2 of Article 2 of the Soil Environment Conservation Act;
 - (d) Poisonous substances under the provisions of subparagraph 3 of Article 2 of the Toxic Chemicals Control Act;
 - (e) Sewage and excreta under the provisions of subparagraphs 1 and 2 of Article 2 of the Sewerage Act and livestock excreta under the provisions of subparagraph 2 of Article 2 of the Act on the Management and Use of Livestock Excreta;
 - (f) Wastes under the provisions of subparagraph 1 of Article 2 of the Wastes Control Act;
 - (g) Agrochemicals and technical concentrates under the provisions of subparagraphs 1 and 3 of Article 2 of the Agrochemicals Control Act;
2. The term "illegal discharge" means the act falling under any of the following items. The act under the provisions of item (a) or (b), which is performed by a business operator operating illegal discharge facilities under the provisions of subparagraph 5 (a) or (b), shall be included:
- (a) The act falling under the provisions of Article 31 (1) 1, 2 or 5 of the Clean Air Conservation Act;
 - (b) The act falling under Article 15 (1) 1 or any subparagraph of Article 38 (1) and (2) of the Water Quality and Ecosystem Conservation Act;
 - (c) The act of dumping or burying wastes from business establishments in contravention of the provisions of Article 8 (1) or (2) of the Wastes Control Act;
 - (d) The act of reclaiming wastes in contravention of the provisions of Article 13 of the Wastes Control Act or other act of collecting, transporting, keeping or treating wastes, polluting nearby environment in contravention of the provisions of the same Article;
 - (e) The act of maintaining and managing waste treatment facilities in a manner inconsistent with management standards under the provisions of Article 31 (1) of the Wastes Control Act, polluting nearby environment;
 - (f) The act of violating the provisions of Article 19 (2), 39 (1), or 43 (2) of the Sewerage Act or the provisions of Article 17 (1) or 25 (1) of the Act on the Management and Use of Livestock Excreta;
 - (g) The act of violating the provisions of Article 15 (1) 2 or 4 of the Water Quality and Ecosystem Conservation Act;
 - (h) The act of discharging and leaking poisonous substances through management of poisonous substances in contravention of the provisions of Article 24 of the Toxic Chemicals Control Act;
 - (i) The act of violating the provisions of Article 15 of the Malodor Prevention Act;
 - (j) The act of discharging pollutants in excess of levels set in the provisions of Article 16 or

29 (3) of the Clean Air Conservation Act;

(k) The act of discharging pollutants in excess of levels set in the provisions of Article 32 of the Water Quality and Ecosystem Conservation Act;

(l) The act of discharging pollutants in excess of levels set in the provisions of Article 7 of the Sewerage Act and Article 13 of the Act on the Management and Use of Livestock Excreta;

3. The term "discharge facilities" means facilities falling under any of the following items:

(a) Facilities for discharging air pollutants under the provisions of subparagraph 11 of Article 2 of the Clean Air Conservation Act;

(b) Wastewater discharge facilities under subparagraph 10 of Article 2 of the Water Quality and Ecosystem Conservation Act and discharge facilities that do not discharge wastewater under subparagraph 11 of the same Article;

(c) Facilities for treating wastes under the provisions of subparagraph 8 of Article 2 of the Wastes Control Act;

(d) Facilities for discharging livestock excreta under the provisions of subparagraph 3 of Article 2 of the Act on the Management and Use of Livestock Excreta;

(e) Facilities subject to specific soil contamination control under the provisions of subparagraph 4 of Article 2 of the Soil Environment Conservation Act;

4. The term "business" means the business falling under any of the following items:

(a) The business of treating wastewater under the provisions of Article 62 (1) of the Water Quality and Ecosystem Conservation Act;

(b) The business of poisonous substances under the provisions of Article 20 of the Toxic Chemicals Control Act and the business of handling-restricted/prohibited substances under the provisions of Article 34 of the same Act;

(c) The business of treating wastes under the provisions of Article 25 (4) of the Wastes Control Act;

(d) The business of collecting and transporting excreta and the business of managing the facilities for private sewage treatment under the provisions of Articles 45 (1) and 53 (1) of the Sewerage Act, and the business related to livestock excreta under the provisions of Article 28 (2) of the Act on the Management and Use of Livestock Excreta;

(e) The business of running skiing grounds and golf courses under the provisions of Article 10 (1) 1 of the Installation and Utilization of Sports Facilities Act;

(f) The business of running restaurants under the provisions of Article 36 (1) 3 of the Food Sanitation Act;

(g) The business of lodging under the provisions of Article 2 (1) 2 of the Public Health Control Act;

(h) The business of tourist lodging under the provisions of Article 3 (1) 2 of the Tourism Promotion Act;

(i) The business of collecting aggregate under the provisions of subparagraph 2 of Article 2 of the Aggregate Picking Act;

5. The term "illegal discharge facilities" means facilities falling under any of the following

items:

(a) Facilities subject to permission, approval or a report under the Acts of each item of subparagraph 3, which discharge pollutants without obtaining such permission or approval, or filing a report;

(b) Facilities which discharge pollutants after the permission or approval for them (including the case where their permission or approval is suspended) has been revoked under the Acts of each item of subparagraph 3 or the operator of such facilities has been ordered to shut down them;

(c) Buildings or facilities, the operator of which does business without obtaining permission or making registration, or filing a report under the Acts of each item of subparagraph 4;

(d) Buildings and other facilities, the operator of which does business after the permission for them has been revoked (including the case where such permission is suspended) or he has been ordered to shut down such buildings or facilities under the Acts of each item of subparagraph 4;

(e) Any discharge facilities installed in areas where such facilities are prohibited from being installed under any Act or buildings and other facilities, the operator of which does business in areas where he is prohibited from doing business;

(f) Facilities prescribed in the provisions of Article 31 (1) 2 of the Clean Air Conservation Act, Article 38 (1) 1 and 2 and any subparagraph of paragraph (2) of the same Article of the Water Quality and Ecosystem Conservation Act or Article 17 (1) 1 and 2 of the Act on the Management and Use of Livestock Excreta;

6. The term "business operator" means a person who installs and operates discharge facilities or illegal discharge facilities or who does business, making use of such facilities;

7. The term "environment protection area" means an area, region or an island falling under any of the following items:

(a) The areas requiring special countermeasures which is designated and published under the provisions of Article 22 of the Framework Act on Environmental Policy;

(b) Ecology and scenery conservation areas under the provisions of subparagraph 12 of Article 2 of the Natural Environment Conservation Act, natural reservation areas under the provisions of subparagraph 13 of Article 2 of the same Act, and City/Do ecology and scenery conservation areas which are designated and published under the provisions of Article 23 of the same Act;

(c) Specific islands which are designated and published under the provisions of Article 4 of the Special Act on the Preservation of the Ecosystem in Island Areas including Dokdo ;

(d) Natural parks prescribed in the provisions of subparagraph 1 of Article 2 of the Natural Parks Act;

(e) Water-supply source protection areas which are designated and published under the provisions of Article 7 of the Water Supply and Waterworks Installation Act;

(f) Wetland protection areas which are designated and published under the provisions of Article 8 of the Conservation of Wetlands Act;

(g) Special reservations for wild animals and plants designated under Article 27 of the Protection of Wild Fauna and Flora Act, City/Do reservations for wild animals and plants, and reservations for wild animals and plants under Article 33 of the same Act;

(h) Watershed areas which are designated and published under the provisions of Article 4 of the Act on the Improvement of Water Quality and Support for Residents of the Riverhead of the Han River System.

Article 3 (Aggravated Punishment for Illegally Discharging Pollutants)(1) Any person, who has put the lives and bodies of the public in danger by illegally discharging pollutants or put the drinking water of the public in danger by contaminating water-supply sources, shall be punished by imprisonment with prison labor for a fixed term of not less than 3 years.

(2) Any person, who has killed or injured other persons by committing the offense referred to in paragraph (1), shall be punished by a life imprisonment with prison labor or imprisonment with prison labor for a fixed term of not less than 5 years.

(3) Any person who has illegally discharged pollutants and falls under any of the following subparagraphs or other person who has discharged earth and sand, and falls under subparagraph 3 shall be punished by imprisonment with prison labor for not less than one year to not more than 7 years:

1. A person who has irrevocably damaged a land of not less than 300 square meters which was originally used for the purpose of agriculture, livestock, forestry or horticulture;

2. A person who has contaminated the sea, rivers and marshes, lakes or underground water beyond the scope and levels prescribed in the attached Table 1; and

3. A person who has caused fish and shells to die in a mass beyond the scope prescribed in the attached Table 2.

Article 4 (Aggravated Punishment for Act of Contaminating Environment Protection Area, etc.)(1) The punishment of any person who has committed the offense under Article 3 (1) through (3) in the environment protection area may be aggravated by up to half of the corresponding punishment.

(2) Any person who has altered the form and nature of a land of not less than 300 square meters in the environment protection area in violation of the provisions of Article 20 (1) 2 of the Natural Environment Conservation Act (including the case where application is made mutatis mutandis in Article 28 of the same Act), Article 8 of the Special Act on the Preservation of Ecosystem in Island Areas including Dok Island, Article 23 of the Natural Parks Act (limited to the case of the park nature preservation area and the park natural environment area among the park areas), Article 13 (1) 1 of the Wetlands Conservation Act, or Article 7 (4) of the Water Supply and Waterworks Installation Act shall be punished by imprisonment with prison labor for a fixed term of not less than 2 years. <Amended by Act No. 7456, Mar. 31, 2005; Act No. 8370, Apr. 11, 2007>

(3) Any person who has illegally discharged pollutants or damaged the environment protection area by committing the offense referred to in paragraph (2) to the extent that the purpose of setting up or designating the area is lost shall be punished by imprisonment with

prison labor for a fixed term of not less than 5 years.

Article 5 (Criminal Negligence)(1) Any person who has committed the offense referred to in Article 3 (1) through a malpractice or a serious negligence shall be punished by imprisonment with prison labor or without prison labor for not more than 7 years or a fine not exceeding 100 million won.

(2) Any person who has committed the offense referred to in Article 3 (2) or 4 (3) through a malpractice or a serious negligence shall be punished by imprisonment with prison labor or without prison labor for not more than 10 years or a fine not exceeding 150 million won.

(3) Any person who has committed the offense referred to in Article 3 (3) through a malpractice or a serious negligence shall be punished by imprisonment with prison labor or without prison labor for not more than 3 years or a fine not exceeding 30 million won.

Article 6 (Aggravated Punishment for Capture, etc. of Endangered Wild Animals and Plants)

Any person who has committed the offense referred to in Article 67, subparagraphs 1 through 3 of Article 68, or subparagraph 1 of Article 69 of the Protection of Wild Fauna and Flora Act for the purpose of trade shall be punished by imprisonment with prison labor prescribed in each corresponding Article of the same Act and also by a fine equivalent to not less than two times to not more than ten times the value he has acquired or may acquire as a result of such trade.

[This Article Wholly Amended by Act No. 7167, Feb. 9, 2004]

Article 7 (Aggravated Punishment for Illegal Treatment of Wastes)

Any organization or group which has committed the offense referred to in Article 63 of the Wastes Control Act for the purpose of making profits shall be punished by imprisonment with prison labor for not less than two years to not more than ten years and also by a fine equivalent to not less than two times to not more than ten times the value such organization or group has acquired as a result of dumping or burying wastes. <Amended by Act No. 8371, Apr. 11, 2007>

Article 8 (Aggravation of Cumulative Offense)

Any person who has been sentenced to imprisonment without prison labor or a heavier punishment for committing the offense referred to in Article 3 through 5 or 7 and commits the offense referred to in Article 3 (1), 4 (3) or 7 within 3 years after termination or exemption of the execution of the sentence shall be punished by a life imprisonment or imprisonment for a fixed term of not less than 5 years. In this case, any person who has committed the offense referred to in Article 7 shall also be punished by a fine equivalent to not less than two times to not more than ten times the value he has acquired as a result of dumping or burying wastes.

Article 9 (Punishment, etc. of Person Disobeying Order)(1) Any person who has disobeyed an order (excluding an order to remove) under the provisions of Article 13 (1) shall be punished by imprisonment with prison labor for not more than 5 years.

(2) Any person who has disobeyed an order to remove under the provisions of Article 13 (1)

or any person who has removed or damaged signs posted under the provisions of Article 13 (4) shall be punished by imprisonment with prison labor for not more than 2 years or a fine not exceeding 10 million won.

Article 10 (Joint Penal Provisions)

When the representative of a juristic person, or the agent, employee or other employed of a juristic person or an individual performs an act of violating Articles 5 through 7 in relation to the business of the juristic person or the individual, the juristic person or the individual shall be fined pursuant to the respective relevant Articles, in addition to the punishment of the actor.

Article 11 (Presumption)

Where a business operator illegally discharge pollutants to the extent that such pollutants cause dangers (including the case falling under any subparagraphs of Article 3 (3); hereinafter the same shall apply) to human lives and bodies, water-supply sources or the natural ecosystem, etc. (hereinafter referred to as the "human lives and bodies, etc."), and the pollutants of the same kind cause dangers to human lives and bodies, etc. in an area where the illegal discharge of pollutants may cause dangers and a considerable probability between the illegal discharge of pollutants and the dangers done exists, such dangers shall be presumed to have been caused by such pollutants discharged illegally by the business operator.

Article 12 (Penalty Surcharge)(1) Where a business operator illegally discharges (limited to subparagraph 2 (a) through (i) of Article 2; hereafter in this Article the same shall apply) pollutants as prescribed by the Presidential Decree (hereinafter referred to as the "specific pollutants"), the Minister of Environment shall impose and collect the amount equivalent to not less than two times to not more than ten times profits from the illegal discharge of such pollutants (referring to the cost of treating the relevant specific pollutants which is saved by illegally discharging the specific pollutants for a period ranging from the date on which the specific pollutants are discharged to the date on which the illegal discharge of the specific pollutants is uncovered; hereinafter the same shall apply) and other costs required to remove the illegally discharged specific pollutants and re store the original state (hereinafter referred to as the "purification costs") from the business operator as penalty surcharges.

(2) In calculating the profits from the illegal discharge of the specific pollutants referred to in paragraph (1), the business operator is presumed to have illegally discharged the specific pollutants for a period ranging from the date on which he installs and operates the illegal discharge facilities of the specific pollutants to the date on which such illegal discharge of the specific pollutants is discovered unless special reasons exist.

(3) Where the penalty surcharges are imposed in accordance with the provisions of paragraph (1), if discharge dues have been imposed in accordance with the provisions of Article 41 of the Water Quality and Ecosystem Conservation Act or Article 35 of the Clean Air Conservation Act, the amount of the discharge dues for the period ranging from the date on which the illegal discharge of the specific pollutants began to the date on which such

illegal discharge of the specific pollutants were discovered shall be deducted from the amount of the penalty surcharges. <Amended by Act No. 7459, Mar. 31, 2005; Act No. 8010, Sep. 27, 2006; Act No. 8404, Apr. 27, 2007; Act No. 8466, May 17, 2007>

(4) Where the fine under the provisions of Article 7 is imposed cumulatively on the same act, the provisions of paragraph (1) shall not be applied: Provided, That the same shall not apply to purification costs.

(5) The penalty surcharges referred to in paragraph (1) shall be computed, taking the frequency of violation, kinds of the specific pollutants, illegal discharge period, etc. into account, and specific methods of computation and other necessary matters shall be prescribed by the Presidential Decree.

(6) Where a person subject to a disposition taken to impose penalty surcharges in accordance with the provisions of paragraph (1) fails to pay such penalty surcharges within a fixed period, the Minister of Environment shall collect such penalty surcharges in question according to the example of a disposition taken to collect national taxes in arrears.

(7) The penalty surcharges under paragraph (1) shall be transferred as revenues into the environment improvement special accounts under the Act on the Special Accounts for Environment Improvement.

(8) Where the Minister of Environment delegates his authority with respect to the imposition and collection of penalty surcharges to the Special Metropolitan City Mayor, the Metropolitan City Mayor and Do governor (hereinafter referred to as the "Mayor/Do governor") in accordance with the provisions of Article 19, he may return part of the penalty surcharges collected as collection costs to the Mayor/Do governor under the conditions as prescribed by the Presidential Decree.

Article 13 (Vicarious Execution, etc.)(1) The Minister of Environment may order any owner or occupant of the illegal discharge facilities to halt using, remove or shut down such facilities.

(2) Where the illegal discharge facilities fall under the facilities used for doing business under the provisions of subparagraph 4 (f) through (h) of Article 2, the provisions of paragraph (1) shall apply only to the case where such illegal discharge facilities are located in an area falling under any of the following subparagraphs: <Amended by Act No. 7459, Mar. 31, 2005; Act No. 7643, Jul. 29, 2005; Act No. 8338, Apr. 6, 2007; Act No. 8466, May 17, 2007; Act No. 9774, Jun. 9, 2009>

1. Environment protection area;

2. Deleted; <by Act No. 7459, Mar. 31, 2005>

3. Rivers (referring to rivers under the provisions of subparagraph 1 of Article 2 of the River Act, and small rivers under the provisions of subparagraph 1 of Article 2 of the Small River Maintenance Act), lakes and marshes (referring to lakes and marshes under the provisions of subparagraph 13 of Article 2 of the Water Quality and Ecosystem Conservation Act) and sea (referring to areas outside coastlines under Article 6 (1) 4 of the Act on Land Survey, Waterway Survey and Cadastral Records), and areas within 500 meters in a beeline from the boundaries thereof.

(3) Where the owner or occupant of the illegal discharge facilities under the provisions of paragraph (1), upon receiving an order to remove such facilities, fails to follow such order, the Minister of Environment may vicariously execute the order as prescribed by the Administrative Vicarious Execution Act and collect costs from the owner or occupant.

(4) The Minister of Environment shall, when he issues an order to remove illegal discharge facilities under the provisions of paragraph (1), install post signs as prescribed by the Presidential Decree in the relevant illegal discharge facilities or the business establishment concerned.

Article 14 (Succession of Effect of Administrative Disposition)

Where a business operator transfers his illegal discharge facilities or dies, or a merger of juristic persons takes place, the effect of an administrative disposition taken against the previous business operator under the provisions of Article 13 shall be succeeded to by a transferee, an inheritor or a juristic person in existence after a merger or a juristic person newly established by a merger.

Article 15 (Prizes)

Any person who has tipped off investigative authorities, the Minister of Environment, heads of local environment agencies, the Mayor/Do governor or the head of Si/Gun/Gu (referring to the head of autonomous Gu) about the offenses prescribed by this Act before such offenses are discovered may be paid with prizes as prescribed by the Presidential Decree.

Article 16 (Visits, etc. to Business Establishments)(1) The Minister of Environment may get his officials in charge to visit any illegal discharge facilities used to discharge illegally pollutants or any business establishment to take samples of pollutants and inspect relevant documents, facilities, equipment, etc. with the aim of taking an administrative disposition under the provisions of Article 12 or 13.

(2) The Minister of Environment may, when his officials take samples of pollutants under the provisions of paragraph (1), entrust any inspection institution prescribed by the Presidential Decree to test the sampled pollutants for degree of their contamination.

(3) The officials making the visit and inspection under the provisions of paragraph (1) shall carry certificates showing their authority and produce them to persons concerned.

Article 17 (Cooperation from Other Agencies Concerned)

The Minister of Environment may ask the heads of other agencies concerned to furnish data necessary to take an administrative disposition in accordance with this Act. In this case, the heads of other agencies concerned shall comply with the request unless special reasons exist for not complying with the request.

Article 18 (Computer Management of Data)

The Minister of Environment may computer-manage data necessary to crack down and prevent offenses under the provisions of this Act.

Article 19 (Delegation of Authority)

The Minister of Environment may delegate part of his authority under this Act to the Mayor/Do governor or heads of local environment agencies as prescribed by the Presidential

Decree.
ADDENDA (Omitted)

22. Framework Act on Environmental Policy

[Enforcement Date 28. Mar, 2017.] [Act No.14494, 27. Dec, 2016., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to ensure that all citizens enjoy a healthy and pleasant life by preventing environmental pollution and environmental damage and by managing and preserving the environment in an appropriate and sustainable manner through defining the rights and duties of citizens and the obligations of the State with regard to environmental preservation and determining the fundamental matters for environmental policies.

Article 2 (Basic Idea)(1) The State, local governments, business entities and citizens shall ensure that the current generation of citizens can fully enjoy environmental benefits and future generations will continue to enjoy such benefits by endeavoring to maintain and create a better environment, by considering environmental preservation first while engaging in any activities utilizing the environment and by combining their efforts to prevent any environmental harms on the earth, in view of the fact that the creation of a delightful environment through a qualitative improvement and preservation of the environment and the maintenance of harmony and balance between human beings and the environment therethrough are indispensable elements for citizens' health and enjoyment of a cultural life, for the maintenance of the territorial integrity and for the everlasting development of the nation. <Amended by Act No. 11268, Feb. 1, 2012>

(2) The State and local governments shall pay due regard to ensuring balanced use of the environment-related goods and services among regions, classes, and groups. <Newly Inserted by Act No. 11268, Feb. 1, 2012>

Article 3 (Definitions)

The definitions of terms used in this Act shall be as follows: <Amended by Act No. 13894, Jan. 27, 2016>

1. The term "environment" means the natural environment and living environment;
2. The term "natural environment" means the natural conditions (including ecosystem and natural scenery) that include both all living things in the underground, on the earth's surface (including the seas) and above the ground and inanimate matter surrounding them;
3. The term "living environment" means the environment related to the daily life of human beings, such as air, water, soil, waste, noise, vibration, malodor, sunshine and artificial lighting;
4. The term "environmental pollution" means air pollution, water pollution, soil pollution, sea pollution, radioactive contamination, noise, vibration, malodor, sunshine obstruction, light pollution from artificial lighting and other similar pollution caused by industrial activities

and other human activities, which are such conditions as inflict damage on human health or the environment;

5. The term “environmental damage” means the conditions that inflict serious damage on intrinsic functions of the natural environment by overhunting or overgathering wild animals or plants, destroying their habitats, disturbing the order of the ecosystem, impairing the natural scenery, washing away the topsoil, etc.;

6. The term “environmental preservation” means any activity undertaken to protect the environment from pollution and damage and to improve any polluted or damaged environment, as well as to maintain and create more delightful environmental conditions;

7. The term “environmental capacity” means the limit to which the environment can keep its quality by absorbing, purifying and restoring environmental pollution or environmental damage on its own within a certain area;

8. The term “environmental standards” means desirable environmental conditions or quality levels that the State should achieve and maintain to protect the health of citizens and create a delightful environment.

Article 4 (Obligations of State and Local Governments)(1) In order to prevent any environmental pollution and environmental damage and any potential harms caused thereby and to properly manage and preserve the environment, the State shall have the obligation to develop and execute an environmental preservation plan.

(2) Every local government shall have the obligation to develop and execute its own plan according to the environmental preservation plan of the State, taking into consideration the regional characteristics of its jurisdictional area.

(3) Where the State and a local government develop an environmental preservation plan under paragraph (1) and a local government plan under paragraph (2) to maintain sustainable conditions of the national land, it shall devise a measure to implement such plan on a collaborative basis with a national land plan under the Framework Act on the National Land. <Newly Inserted by Act No. 13535, Dec. 1, 2015>

(4) Where it is necessary for the collaborative implementation of the environmental preservation plan and the national land plan under paragraph (3), the Minister of Environment may jointly determine matters, such as the scope of application and the method of and procedures for the collaborative implementation, with the Minister of Land, Infrastructure and Transport. <Newly Inserted by Act No. 13535, Dec. 1, 2015>

Article 5 (Obligations of Business Entities)

Any business entity shall voluntarily take measures required for preventing any environmental pollution and environmental damage that may result from his/her business activities and shall have the obligation to participate and cooperate in environmental preservation policies of the State or local governments.

Article 6 (Rights and Duties of Citizens)(1) All citizens shall have the right to live in a healthy and agreeable environment.

(2) All citizens shall cooperate in environmental preservation policies of the State and local

governments.

(3) All citizens shall endeavor to reduce any environmental pollution and environmental damage that may result from their daily lives and to preserve the national land and natural environment.

Article 7 (Principle of Liability of Persons Causing Pollution)

Any person who causes any environmental pollution or environmental damage due to his/her business or other activities shall, in principle, be liable to prevent the relevant pollution or damage and to recover and restore the polluted or damaged environment, as well as to bear expenses incurred in restoring the damage resulting from the environmental pollution or environmental damage.

Article 8 (Prior Prevention of Environmental Pollution, etc.)(1) The State and local governments shall exert preferential efforts for a prior preventive management of pollution through reducing pollutants and pollution sources of the environment at source and devise policies to promote voluntary efforts by business entities for the prevention of environmental pollution.

(2) Business entities shall endeavor to use raw materials with less environmental pollution and to improve their production processes at the entire phases of their business activities such as production, sale, distribution and destruction of products, and to reduce the generation of pollutants at source and to minimize any harmful impacts arising from the use and destruction of their products on the environment by means of saving resources and promoting recycling.

(3) The State, local governments and business entities shall endeavor to minimize any harmful impacts arising from their administrative plans and development projects on the environment with the aim of preventing such administrative plans and development projects from damaging the national land and natural environment.

Article 9 (Comprehensive Consideration of Environment and Economy, etc.)(1) The Government shall develop methods by which the environment and economy can be evaluated in a comprehensive manner and shall utilize those methods when it formulates different types of policies.

(2) The Government shall assist in minimizing any harmful impacts on the environment through consultations between industries, regions and businesses within the environmental capacity.

Article 10 (Saving of Resources, etc. and Promotion of their Cyclical Use)(1) The State and local governments shall develop policies necessary to economize on resources and energy and to promote the cyclical use of resources, including reuse and recycling of resources.

(2) Business entities shall cooperate with the State and local governments in implementing the policies under paragraph (1) when they conduct economic activities.

Article 11 (Reporting)(1) The Government shall submit each year to the National Assembly a report on the situation of promoting major environmental preservation policies.

(2) A report under paragraph (1) shall include the following:

1. Current status of environmental pollution and environmental damage;
2. Environmental trends at home and abroad;
3. Promotion status of environmental preservation policies;
4. Other important matters relating to environmental preservation.

(3) The Minister of Environment may request the head of a relevant central administrative agency to submit the data required for preparing a report under paragraph (1), and the head of the relevant central administrative agency shall comply with it unless there is a compelling reason not to do so.

CHAPTER II ESTABLISHMENT, ETC. OF ENVIRONMENTAL PRESERVATION PLANS

SECTION 1 Environmental Standards

Article 12 (Establishment of Environmental Standards)(1) The State shall establish environmental standards in consideration of the impact, etc. on the ecosystem or human health and ensure that such standards maintain appropriateness according to changes in environmental conditions. <Amended by Act No. 13894, Jan. 27, 2016>

(2) The environmental standards shall be determined by Presidential Decree.

(3) The Special Metropolitan City, a Metropolitan City, Do or Special Self-Governing Province (hereinafter referred to as “City/ Do”) may, by ordinance of the relevant City/Do, establish any separate environmental standards that are more expanded and strengthened than the environmental standards under paragraph (1) (hereinafter referred to as “ local environmental standards ”) or modify any existing environmental standards for such purposes, if deemed necessary in view of the environmental characteristics of the relevant area.

(4) If the Special Metropolitan City Mayor, a Metropolitan City Mayor, Do Governor or Special Self-Governing Province Governor (hereinafter referred to as “ Mayor/Do Governor ”) establishes or modifies any local environmental standards under paragraph (3), he/she shall, without delay, report the fact to the Minister of Environment.

Article 13 (Maintenance of Environmental Standards)

If the State or a local government enacts or amends any statute related to the environment, establishes any administrative plan, or executes any project, he/she shall ensure that the environmental standards under Article 12 are appropriately maintained, in consideration of the following:

1. Prevention of the environmental deterioration and elimination of the factors thereof;
2. Restoration to the original state of any area the environment of which is polluted;
3. Prevention of environmental pollution and environmental damage following the use of any new scientific technology;
4. Proper distribution of financial resources for the prevention of environmental pollution.

SECTION 2 Fundamental Policies

Article 14 (Development, etc. of Comprehensive National Environmental Plan)(1) The Minister of Environment shall develop a comprehensive plan to preserve the environment at

the national level (hereinafter referred to as “comprehensive national environmental plan”), every 20 years, after consultation with the heads of relevant central administrative agencies. <Amended by Act No. 13535, Dec. 1, 2015>

(2) If the Minister of Environment intends to develop or modify a comprehensive national environmental plan, he/she shall prepare a draft therefor and finalize it subject to deliberation by the State Council after hearing opinions from citizens, related experts, etc. through a public hearing, etc.

(3) If it is intended to modify any minor matters prescribed by Presidential Decree with respect to a comprehensive national environmental plan, the procedure under paragraph (2) may be omitted.

Article 15 (Contents of Comprehensive National Environmental Plan)

A comprehensive national environmental plan shall include the following: <Amended by Act No. 14494, Dec. 27, 2016>

1. Matters concerning the given conditions for environmental changes, such as population, industry, economy, and utilization of land and sea;
2. Predictions of the sources of environment pollution, environmental pollution level and pollutant discharge quantity, and prospects of changes in environmental quality due to environmental pollution and environmental damage;
3. Current status of and prospects for the environment;
4. Setting the targets of environmental preservation and the phased measures and project programs on the following matters to attain such targets:
 - (a) Matters concerning the preservation of the natural environment such as biological diversity, ecosystem and scenery;
 - (b) Matters concerning the preservation of the soil environment and groundwater quality;
 - (c) Matters concerning the preservation of the marine environment;
 - (d) Matters concerning the preservation of the national land environment;
 - (e) Matters concerning the preservation of the air environment;
 - (f) Matters concerning the preservation of water quality;
 - (g) Matters concerning the wider availability of waterworks and sewerage systems;
 - (h) Matters concerning the control and recycling of wastes;
 - (i) Matters concerning the control of toxic chemicals;
 - (j) Control of radioactive contaminants;
 - (k) Other matters concerning the management of the environment;
5. Computation of expenses required for executing projects, and methods to raise financial resources therefor;
6. Evaluation of the immediately preceding comprehensive plan;
7. Other matters incidental to those listed in subparagraphs 1 through 6.

Article 16 (Implementation of Comprehensive National Environmental Plan)(1) The Minister of Environment shall, without delay, notify the heads of relevant central administrative agencies of a comprehensive national environmental plan developed or

modified under Article 14.

(2) The heads of relevant central administrative agencies shall take measures necessary to implement a comprehensive national environmental plan.

Article 16-2 (Adjustment of Comprehensive National Environmental Plan)

The Minister of Environment shall re-examine the appropriateness of the comprehensive national environmental plan every five years, taking into consideration matters such as changes in environmental and social conditions, and shall adjust it if necessary.

[This Article Newly Inserted by Act No. 13535, Dec. 1, 2015]

Article 17 (Development, etc. of Mid-Term Comprehensive Plans for Environmental Preservation)(1) The Minister of Environment shall develop a mid-term comprehensive plan for environmental preservation (hereinafter referred to as “mid-term plan”), every five years, for the comprehensive and systematic promotion of a comprehensive national environmental plan finalized under Article 14 (2).

(2) If the Minister of Environment intends to develop or modify a mid-term plan, he/she shall prepare a draft therefor and finalize it subject to consultation with the heads of relevant central administrative agencies after hearing opinions from citizens, related experts, etc. through a public hearing, etc.

(3) If it is intended to modify any minor matters prescribed by Presidential Decree with respect to a mid-term plan, the procedure under paragraph (2) may be omitted.

(4) The Minister of Environment shall notify the heads of relevant central administrative agencies and the competent Mayors/Do Governors of a mid-term plan developed or modified under paragraphs (1) through (3), and the heads of the relevant central administrative agencies and the competent Mayors/Do Governors so notified shall reflect it in the business plans under their jurisdiction.

(5) The Minister of Environment, the heads of relevant central administrative agencies, and Mayors/Do Governors shall develop and execute annual implementation plans for a mid-term plan developed or modified under paragraphs (1) through (3), as prescribed by Presidential Decree, and the heads of the relevant central administrative agencies and the Mayors/Do Governors shall submit the records of execution of the annual implementation plans every year to the Minister of Environment.

(6) Matters necessary for developing and executing mid-term plans and annual implementation plans therefor shall be prescribed by Presidential Decree.

Article 18 (Development, etc. of City/Do Environmental Preservation Plans)(1) A Mayor/Do Governor shall develop and implement an environmental preservation plan for the relevant City/Do (hereinafter referred to as “City/Do environmental plan”) according to the relevant comprehensive national environmental plan and mid-term plan, taking into consideration the regional characteristics of his/her jurisdictional area.

(2) If a Mayor/Do Governor intends to develop or modify a City/Do environmental plan of his/her own, he/she shall prepare a draft therefor and finalize it after hearing opinions from residents, related experts, etc. through a public hearing, etc.: Provided, That when he/she

intends to modify any minor matters prescribed by Presidential Decree, the same shall not apply.

(3) If a Mayor/Do Governor develops or modifies a City/Do environmental plan of his/her own, he/she shall, without delay, report it to the Minister of Environment.

(4) If it is necessary for the management of the environment by affected zone provided in Article 39, the Minister of Environment may request the relevant Mayor/Do Governor to modify his/her City/Do environmental plan.

Article 19 (Development, etc. of Si/Gun/Gu Environmental Preservation Plans)(1) The head of a Si/Gun/Gu (referring to an autonomous Gu; hereinafter the same shall apply) shall develop and implement an environmental preservation plan for the relevant Si/Gun/Gu (hereinafter referred to as “ Si/Gun/Gu environmental plan ”) according to the comprehensive national environmental plan, mid-term plan, and City/Do environmental plan, taking into consideration the regional characteristics of his/her jurisdictional area.

(2) If the head of a Si/Gun/Gu intends to develop or modify a Si/Gun/Gu environmental plan under paragraph (1), he/she shall finalize the plan after consulting with the head of the relevant local environmental agency thereabout through the competent Mayor/Do Governor and report the fact to the Minister of Environment: Provided, That when he/she intends to modify any minor matters prescribed by Presidential Decree, consultation with the head of the relevant local environmental agency may be omitted.

(3) If it is necessary for the management of the environment by affected zone under Article 39, the head of a local environmental agency or a Mayor/Do Governor may request the head of the relevant Si/Gun/Gu to modify his/her Si/Gun/Gu environmental plan.

Article 20 (Making Public Comprehensive National Environmental Plan, etc.)

The Minister of Environment, a Mayor/Do Governor, and the head of a Si/Gun/Gu shall make public through his/her agency’ s website, etc. a comprehensive national environmental plan developed or modified under Article 14, a mid-term plan developed or modified under Article 17, a City/Do environmental plan developed or modified under Article 18, and a Si/Gun/Gu environmental plan developed or modified under Article 19.

Article 21 (Environmental Consideration for Development Plans and Projects, etc.)(1)

Where the State or the head of a local government develops a plan for the utilization or development of land, it or he/she shall take into consideration the relevant comprehensive national environmental plan, City/Do environmental plan and Si/Gun/Gu environmental plan (hereinafter referred to as “ comprehensive national environmental plan, etc.”) and the environmental capacity of the relevant area.

(2) Where the head of a relevant central administrative agency, a Mayor/Do Governor, or the head of a Si/Gun/Gu grants permission, etc. for any project involving the utilization or development of land, he/she shall take into consideration the relevant comprehensive national environmental plan, etc.

Article 22 (Survey, Evaluation, etc. of Environmental Conditions)(1) The State and local governments shall survey and evaluate the following on a regular basis:

1. Current state of the natural environment and living environment;
2. Actual state of environmental pollution and environmental damage;
3. Sources of environmental pollution and the main causes of environmental damage;
4. Changes in the quality of the environment;
5. Other matters needed to develop and implement a comprehensive national environmental plan, etc.

(2) The State and local governments shall maintain a system for research, monitoring, measurement, testing, and analysis to properly conduct the survey and evaluation referred to in paragraph (1).

(3) Matters necessary for the survey and evaluation referred to in paragraph (1) and the system of conducting research, monitoring, measurement, testing, and analysis referred to in paragraph (2) shall be prescribed by Presidential Decree.

Article 23 (Development and Dissemination of Environment-Friendly Planning Techniques, etc.)

(1) The Government may develop and disseminate environment-friendly planning techniques and standards for the utilization and development of land (hereinafter referred to as “ environment-friendly planning techniques, etc. ”) to ensure that administrative plans and development projects affecting the environment are designed, developed and implemented in an environmentally sound and sustainable manner.

(2) The Minister of Environment may develop and disseminate an environmental assessment map that indicates the current environmental state by grade after assessing the environmental value of the national land with the aim of efficiently preserving the environment of the national land and making use of the national land in an environment-friendly manner.

(3) The methods of developing environment-friendly planning techniques, etc. and environmental assessment maps, the details thereof, and other necessary matters shall be prescribed by Presidential Decree.

Article 24 (Propagation of Environmental Information, etc.)(1) The Minister of Environment shall endeavor to propagate knowledge and information on environmental preservation to all citizens and to make information on the environment easily accessible to citizens.

(2) The Minister of Environment may set up and operate an environmental information network to produce and propagate smoothly the knowledge and information on environmental preservation referred to in paragraph (1).

(3) The Minister of Environment may request the head of a relevant administrative agency to submit materials necessary to set up and operate an environmental information network. In such cases, the head of the relevant administrative agency shall comply with the request unless there is a compelling reason not to do so.

(4) If it is necessary to efficiently set up and operate an environmental information network under paragraph (2), the Minister of Environment may commission a specialized institution to survey the current state of the environment or entrust a specialized institution with the

setup and operation of an environmental information network.

(5) The setup and operation of an environmental information network under paragraph (2), the commission of the survey on the current state of the environment and the entrustment of the setup and operation of an environmental information network under paragraph (4), and other necessary matters shall be prescribed by Presidential Decree.

Article 25 (Education, etc. on Environmental Preservation)

The State and local governments shall develop and execute policies necessary to deepen citizens' understanding of environmental preservation through education, publicity, etc. on environmental preservation and to inspire citizens to voluntarily participate in environmental preservation efforts and put them into practice in their daily lives.

Article 26 (Encouragement of Environmental Preservation Activities by Civil Environmental Organizations, etc.)

(1) The State and local governments shall devise necessary policies, such as the provision of information, to encourage voluntary environmental preservation activities carried out by civil environmental organizations, etc.

(2) Where a civil environmental organization, etc. carries out activities designed to preserve the environment such as the purchase and control of any area the scenery and ecosystem of which are highly valued, the State and the relevant local government may provide such civil environmental organization, etc. with necessary administrative assistance.

Article 27 (International Cooperation and Preservation of Global Environment)

The State and local governments shall interchange environmental information and technology and foster specialized human resources through international cooperation and shall actively participate in the international efforts, such as making mutual cooperation concerning the monitoring, observation and protection of the global environment, to preserve the global environment from any climate change, destruction of ozone layer, marine pollution, desertification, decrease of biological resources, etc.

Article 28 (Promotion of Environmental Science and Technology)

The State and local governments shall devise policies necessary for promoting environmental science and technology, such as experiments, research, studies, technology development, and fostering of specialized human resources for environmental preservation.

Article 29 (Installation and Management of Environmental Preservation Facilities)

The State and local governments shall take measures necessary for installing and managing public facilities for environmental preservation, such as the green zones to reduce environmental pollution, the facilities for treating waste water, sewage and wastes, the facilities for preventing noise, vibration and malodor, the facilities for protecting and restoring wild animals and plants and ecosystems, and the facilities for purifying polluted soil and groundwater.

Article 30 (Regulation for Environmental Preservation, etc.)(1) The Government shall keep necessary regulation, for the purpose of environmental preservation, over the discharge of substances causing the pollution of air, water, soil or sea, the generation of noise, vibration or malodor, the treatment of wastes, the obstruction of sunshine, and

damage to the natural environment.

(2) With respect to a place of business that holds in two or more fields of operations facilities which discharge substances causing environmental pollution, the Minister of Environment or the head of the relevant local government may coordinate the visitation and inspections of those facilities in conducting them pursuant to related statutes.

(3) If the Minister of Environment or the head of a local government has made an administrative disposition against a business entity for a violation of any statute governing environmental preservation, he/she may disclose such fact: Provided, That this shall not apply where it is deemed that the disclosure of such fact is likely to infringe remarkably on the business entity's legitimate interests because it contains the business entity's trade secrets.

Article 31 (Prior Notification of Permissible Emission Levels)

If the State sets or alters any permissible emission levels with respect to environmental pollution in accordance with the relevant statutes, it shall notify such levels in advance through relevant agencies' websites, etc.

Article 32 (Economic Incentives)

The Government shall devise incentives necessary for promoting the efficient utilization of resources and for inducing those who have given rise to environmental pollution to voluntarily reduce the discharge of pollutants.

Article 33 (Control of Toxic Chemicals)

The Government shall devise policies to properly control toxic chemicals in order to prevent chemicals from causing any environmental pollution and damage to health.

Article 34 (Prevention, etc. of Environmental Pollution by Radioactive Substances)(1)

The Government shall take appropriate measures with regard to environmental pollution by radioactive substances, the prevention of such pollution, etc.

(2) The measures under paragraph (1) shall be governed by the Nuclear Safety Act and other relevant Acts.

Article 35 (Evaluation, etc. of Harmful Impacts of Science and Technology)

Where it is deemed necessary to prevent any harmful impact arising from the development of science and technology on the ecosystem and human health, the Government shall take appropriate measures to analyze such harmful impact and evaluate its danger.

Article 36 (Countermeasures against Environment-Caused Diseases)

The State and local governments shall find out how environmental pollution causes damage to citizens' health and prepare countermeasures to address diseases caused by environmental pollution.

Article 37 (Promotion of Environment-Friendliness in State Policies, etc.)(1)

The State and local governments shall formulate policies necessary to build an environment-friendly traffic system to minimize environmental pollution or environmental damage in the traffic sector.

(2) The State and local governments shall formulate policies necessary to use energy

rationally and efficiently and to develop and disseminate environment-friendly energy so as to minimize environmental pollution or environmental damage arising from energy use.

(3) The State and local governments shall formulate policies necessary to develop environment-friendly agriculture, forestry and fisheries to minimize environmental pollution or environmental damage in the agricultural, forestry and fishery sectors.

Article 38 (Establishment of Special Comprehensive Measures)(1) The Minister of Environment may designate as a special measures area for environmental preservation an area where any environmental pollution, environmental damage or change in the natural ecosystem is remarkable or likely to become remarkable and an area where the environmental standards are often exceeded and publish the designation, in consultation with the head of the relevant central administrative agency and the competent Mayor/Do Governor, and devise special comprehensive measures for environmental preservation in the relevant area to have the competent Mayor/Do Governor implement them.

(2) The Minister of Environment may restrict the utilization of land and the installation of facilities in a special measures area, as prescribed by Presidential Decree, if it is particularly required for environmental improvement in the special measures area under paragraph (1).

Article 39 (Management of Environment by Affected Zone)(1) In order to grasp the situation of environmental pollution and to devise preventive measures thereagainst, the Minister of Environment shall manage the air pollution by affected zone, the water pollution by water-system zone, and the pollution of the ecosystem by affected zone.

(2) The head of a local government may manage the environment by affected zone according to circumstances of his/her jurisdictional area to effectively manage the air pollution, water pollution, or ecosystem of his/her jurisdictional area.

SECTION 3 Preservation of Natural Environment and Environmental Impact Assessment

Article 40 (Preservation of Natural Environment)

The State and citizens shall endeavor to maintain and preserve the order and balance of nature, in view of the fact that the preservation of the natural environment is fundamental for human survival and living.

Article 41 (Environmental Impact Assessment)(1) The State shall conduct strategic environmental impact assessment, environmental impact assessment, and small-scale environmental impact assessment in order to enable any plan and development project that have impacts on the environment to be developed and implemented in an environmentally sustainable manner with the eventual aim of maintaining the appropriateness of the environmental standards and preserving the natural environment.

(2) Matters regarding the targets, procedures, methods, etc. for the strategic environmental impact assessment, environmental impact assessment and small-scale environmental impact assessment under paragraph (1) shall be prescribed by other Acts.

SECTION 4 Mediation of Disputes and Relief of Damage

Article 42 (Mediation of Disputes)

In preparation for any disputes caused by environmental pollution or environmental damage or other environment-related disputes, the State and local governments shall devise policies necessary to settle such disputes in a rapid and fair manner.

Article 43 (Relief of Damage)

The State and local governments shall devise policies necessary to smoothly relieve any sufferings caused by environmental pollution or environmental damage.

Article 44 (Absolute Liability for Sufferings by Environmental Pollution)(1) If any suffering is caused by environmental pollution or environmental damage, the person who has caused the environmental pollution or environmental damage shall compensate for the suffering.

(2) If the persons who have caused environmental pollution or environmental damage are two or more, they shall compensate for the suffering under paragraph (1) jointly where it is impossible to find out which person has caused the suffering.

SECTION 5 Establishment of Special Account for Environmental Improvement

Article 45 (Establishment, etc. of Special Account for Environmental Improvement)(1)

The Government shall establish a special account for environmental improvement (hereinafter referred to as the “account”) in order to increase investments in environmental improvement projects and to efficiently manage and operate such projects.

(2) The account shall be managed and operated by the Minister of Environment.

Article 46 (Revenues of Account)

The revenues of the account shall be as follows: <Amended by Act No. 10977, Jul. 28, 2011; Act No. 11256, Feb. 1, 2012; Act No. 11751, Apr. 5, 2013; Act No. 11913, Jul. 16, 2013; Act No. 11980, Jul. 30, 2013; Act No. 13410, Jul. 20, 2015; Act No. 13603, Dec. 22, 2015; Act Nos. 13872 & 13873 & 13879 & 13883 & 13889, Jan. 27, 2016>

1. Revenues from loans under the Introduction and Management of Public Loans Act;
2. Penalties for excess total pollutant load, additional charges, and penalty surcharges under Articles 8-5 and 8-6 of the Act on the Improvement of Water Quality and Support for Residents of the Han River Basin; penalties for excess total pollutant load, additional charges, and penalty surcharges under Articles 13 and 14 of the Act on Water Management and Resident Support in the Nakdong River Basin; penalties for excess total pollutant load, additional charges, and penalty surcharges under Articles 13 and 14 of the Act on Water Management and Resident Support in the Geum River Basin; and penalties for excess total pollutant load, additional charges, and penalty surcharges under Articles 13 and 14 of the Act on Water Management and Resident Support in the Yeongsan and Seomjin River Basins;
3. Emission dues and additional charges under Article 35 of the Clean Air Conservation Act, and penalty surcharges for release in excess of the total volume and additional charges under Article 20 of the Special Act on the Improvement of Air Quality in Seoul Metropolitan Area;
- 3-2. Inspection fees for confirmation of defects under Article 51 of the Clean Air Conservation Act and fees under subparagraph 2 of Article 86 of the same Act;

- 3-3. Cooperation charges for low-carbon motor vehicles under Article 76-8 of the Clean Air Conservation Act;
4. Charges for water quality improvement and additional charges under Article 31 of the Drinking Water Management Act;
5. Fees under Article 31 of the Noise and Vibration Control Act and expenses needed for the inspections under Article 33 of the same Act;
6. Effluent charges and additional charges under Article 41 of the Water Quality and Aquatic Ecosystem Conservation Act;
7. Charges for the public wastewater treatment facilities under Article 48-2 (1) and the latter part of Article 49-6 (1) of the Water Quality and Aquatic Ecosystem Conservation Act (limited to cases where the executor is the State and excluding cases where the relevant work is performed after being entrusted to any person referred to in any subparagraph of Article 48 (1) of the Water Quality and Aquatic Ecosystem Conservation Act) and additional charges;
- 7-2. Effluent charges and additional charges under Article 15 of the Act on the Integrated Control of Pollutant-Discharging Facilities and penalty surcharges under Article 23 of the same Act;
- 7-3. Fees for the use of public wastewater treatment facilities under Article 48-3 (1) and the latter part of Article 49-6 (1) of the Water Quality and Aquatic Ecosystem Conservation Act (limited to cases where the operator is the State, and excluding cases of entrusting installation or operation to any of the persons falling under any subparagraph of Article 48 (1) of the Water Quality and Aquatic Ecosystem Conservation Act) and additional surcharges;
8. Fees for the use of hunting grounds under Article 50 of the Wildlife Protection and Management Act;
9. Cooperation charges on the conservation of ecosystem under Article 46 of the Natural Environment Conservation Act and additional charges under Article 48 of the same Act;
10. Waste charges and additional charges under Article 12 of the Act on the Promotion of Saving and Recycling of Resources; recycling dues and additional charges under Article 19 of the same Act; and the principal and interest on loans provided as a part of assistance under Article 20 of the same Act;
11. Recycling charges for electrical and electronic equipment under Article 18, collection charges for electrical and electronic equipment under Article 18-2, and additional charges under Article 18-3, of the Act on Resource Circulation of Electrical and Electronic Equipment and Vehicles;
12. Guarantee for the performance of follow-up management under Article 51 of the Wastes Control Act and advance reserves under Article 52 of the same Act;
13. Fees under Article 23 of the Act on the Transboundary Movement of Hazardous Wastes and Their Disposal;
14. Environmental improvement charges and additional charges under Articles 9 and 20 of the Environment Improvement Cost Liability Act;
15. Principal and interest on loans under Article 11 of the Environment Improvement Cost

Liability Act;

16. Penalty surcharges under Article 12 of the Act on Control and Aggravated Punishment of Environmental Offenses, Etc.;

17. Principal and interest on loans under Article 47 (1) 14;

18. Money transferred from the general account under Article 48;

19. Borrowings under Article 49 (1) and (2);

20. Surplus of the account at closing under Article 51;

21. Money transferred or deposited from other special accounts or funds;

22. Proceeds transferred to the account under other Acts;

23. Proceeds from the sale or management of property belonging to the account;

24. Other proceeds accruing from the management and operation of environmental improvement projects.

Article 47 (Expenditures from Account)(1) Expenditures from the account shall be as follows: Provided, That financial resources consisting of the charges for water quality improvement and additional charges under subparagraph 4 of Article 46 shall be used only for the purpose of subparagraph 3; financial resources consisting of the charges for the installation of public wastewater treatment facilities and additional charges under subparagraph 7 of the same Article and fees for the use of public wastewater treatment facilities and additional charges under subparagraph 7-3 of the same Article, only for the purpose of subparagraph 4; financial resources consisting of the cooperation charges on the conservation of ecosystem and additional charges under subparagraph 9 of the same Article, only for the purpose of subparagraph 6; financial resources consisting of the waste charges, recycling dues, and additional charges under subparagraph 10 of the same Article, only for the purpose of subparagraph 7; financial resources consisting of the recycling charges and additional charges under subparagraph 11 of the same Article, only for the purpose of subparagraph 8; financial resources consisting of the guarantee for the performance of follow-up management and advance reserves under subparagraph 12 of the same Article, only for the purpose of subparagraph 9; and financial resources consisting of the environmental improvement charges and additional charges under subparagraph 14 of the same Article, only for the purpose of subparagraph 12, respectively: <Amended by Act No. 10977, Jul. 28, 2011; Act No. 11751, Apr. 5, 2013; Act No. 11980, Jul. 30, 2013; Act No. 13879, Jan. 27, 2016>

1. National environmental improvement projects;

2. Support for the environmental improvement projects of local governments;

2-2. Financial support under Article 76-7 of the Clean Air Conservation Act;

3. The purposes under Articles 31 (7) and 33 of the Drinking Water Management Act;

4. Expenditure to cover expenses needed for the installation or operation of public wastewater treatment facilities by the State under Article 48 (1) of the Water Quality and Aquatic Ecosystem Conservation Act;

5. The use under each subparagraph of Article 58 of the Wildlife Protection and Management

Act;

6. The use under Article 49 of the Natural Environment Conservation Act;
7. The usage under Article 20 of the Act on the Promotion of Saving and Recycling of Resources;
8. The use under Article 19 of the Act on Resource Circulation of Electrical and Electronic Equipment and Vehicles;
9. The purposes of use under Article 53 of the Wastes Control Act;
10. The reimbursement of expenses incurred, by the State, in performing its responsibilities under Article 4 of the Act on the Transboundary Movement of Hazardous Wastes and Their Disposal and in conducting the vicarious execution under Article 21 of the same Act;
11. Contributions to reimburse the project expenses and operational expenses incurred by the Korea Environment Corporation established under the Korea Environment Corporation Act (hereinafter referred to as the “Korea Environment Corporation”);
12. The use under Article 11 of the Environmental Improvement Cost Liability Act;
13. The payment of monetary rewards under Article 15 of the Act on Control and Aggravated Punishment of Environmental Offenses, Etc.;
14. Redemption of the principal and interest on loans, borrowings, and deposits under subparagraphs 1, 19, and 21 of Article 46;
15. Provision of loans needed by local governments for the installation of environmental infrastructure or needed in the private sector for the installation of environmental pollution prevention facilities or for the installation of and technology development for low-polluting product manufacturing facilities;
16. Support for the private sector regarding environmental policy research, technology development, publicity activities, investigations and research, and environment research institutes;
17. Reimbursement of expenses for collection of the account revenue;
18. Other expenses involved in managing the account.

(2) Matters regarding the eligible persons, and conditions of and procedures for loans provided pursuant to paragraph (1) 7, 12, and 15 shall be determined and publicly announced by the Minister of Environment. In such cases, the interest rates and terms for loans shall be determined by the Minister of Environment in consultation with the Minister of Strategy and Finance.

(3) Performance of affairs concerning the loans under paragraph (1) 7, 12 and 15 may be entrusted to the Korea Environment Corporation or the Korea Environmental Industry and Technology Institute established under the Korea Environmental Industry and Technology Institute Act. <Amended by Act No. 11751, Apr. 5, 2013; Act No. 11917, Jul. 16, 2013; Act No. 13534, Dec. 1, 2015>

Article 48 (Transfer from General Account)

Transfers may be made from the general account to the account, as provided in the budget, so that the account can secure financial resources available for its expenditure.

Article 49 (Borrowings)(1) If the account is in need of financial resources available for its expenditure, long-term borrowings may be made for the account within the limits of the amount of money determined by a resolution of the National Assembly.

(2) If the account is temporarily in need of its working funds, temporary borrowings may be made for the account.

(3) The principal and interest on temporary borrowings under paragraph (2) shall be redeemed within the relevant fiscal year.

Article 50 (Carrying Forward of Expenditure Budget)

The expenditure budget of the account not spent during the fiscal year for which such budget is earmarked may be carried forward to the next fiscal year, notwithstanding Article 48 of the National Finance Act.

Article 51 (Disposal of Surplus)

Any surplus of the account at closing shall be included in the next year' s revenue.

Article 52 (Reserve Funds)

The account may include a considerable sum of money in its expenditure budget as a reserve fund to cover any unexpected expenditures not included in the appropriated budget or any expenditures exceeding the appropriated budget.

Article 53 (Direct Use of Excess Revenues)(1) If there are any emission dues, discharge imposition amounts, penalty surcharges for release in excess of the total volume and additional charges under subparagraphs 3 and 6 of Article 46, any charges for water quality improvement and additional charges under subparagraph 4 of the same Article, any charges for the installation of public wastewater treatment facilities and additional charges under subparagraph 7 of the same Article, fees for the use of public wastewater treatment facilities and additional charges under subparagraph 7-3 of the same Article, and any environmental improvement charges and additional charges under subparagraph 14 of the same Article that exceed or are expected to exceed the revenue budget of the account (hereinafter referred to as “excess revenues”), the Minister of Environment may directly use such excess revenues to reimburse expenses for collection of the emission dues and discharge imposition amounts exceeding the expenditure budget of the account, charges for water quality improvement and additional charges under Article 31 (7) of the Drinking Water Management Act, expenses for collection of charges for water quality improvement, expenses for the installation or operation of public wastewater treatment facilities, and expenses for collection of environmental improvement charges, respectively. <Amended by Act No. 13410, Jul. 20, 2015; Act No. 13879, Jan. 27, 2016>

(2) If the Minister of Environment intends to use any excess revenues under paragraph (1), he/she shall obtain approval in advance from the Minister of Strategy and Finance.

(3) If the Minister of Environment intends to obtain approval under paragraph (2), he/she shall prepare a specification stating the reasons therefor and necessary amounts of money and submit it to the Minister of Strategy and Finance.

(4) If the Minister of Strategy and Finance approves the use of excess revenues under

paragraph (2), he/she shall notify the Minister of Environment and the Board of Audit and Inspection of such fact.

CHAPTER III LEGISLATIVE AND FINANCIAL MEASURES

Article 54 (Legislative Measures, etc.)

The State and local governments shall take legislative and financial measures and other administrative measures necessary for implementing the policies for environmental preservation.

Article 55 (Financial Support, etc. to Local Governments)(1) The State may reimburse from the national treasury all or some of the expenses required for environmental preservation projects of local governments.

(2) In order to enhance the capability of local governments to manage the environment and to promote environment-friendly local administration, the Minister of Environment may designate a local government as a model for environmental management and take measures necessary for supporting it.

Article 56 (Support for Business Entities' Environmental Management)(1) The State and local governments may take any taxational measures and grant other financial supports necessary for supporting the installation and operation of facilities for the environmental preservation conducted by business entities.

(2) The State and local governments may grant administrative and financial supports necessary for the settlement and expansion of systems for voluntary environmental management under which business entities endeavor toward the voluntary management of the environment.

Article 57 (Financial Support for Research, Studies and Technology Development)

The State and local governments may grant financial supports necessary for scientific research and studies and technology development related to environmental preservation.

CHAPTER IV ENVIRONMENTAL POLICY COMMITTEE

Article 58 (Environmental Policy Committee)(1) The Minister of Environment may establish a Central Environmental Policy Committee that deliberates and advise on the following matters: <Amended by Act No. 13603, Dec. 22, 2015>

1. Matters concerning the development and modification of any comprehensive national environmental plan under Article 14 and any mid-term plan under Article 17;
2. Matters concerning environmental standards, permissible emission levels for pollutants, water quality standards for discharged water, etc.;
3. Matters concerning the designation of a special measures area and the establishment of special comprehensive measures under Article 38;
4. Matters concerning basic plans for the management of livestock excreta under Article 5 of the Act on the Management and Use of Livestock Excreta and other basic policies for the disposal and recycling of livestock excreta;
5. Matters concerning basic plans for encouraging the purchase of green products under Article 4 of the Act on the Promotion of Purchase of Green Products and other basic policies

to encourage the purchase of green products;

6. Matters concerning master plans for the control of persistent organic pollutants under Article 5 of the Persistent Pollutants Control Act and other basic policies to control persistent organic pollutants;

7. Matters concerning master plans for the development of environmental examination and inspection under Article 3 of the Environmental Testing and Inspection Act and other basic policies regarding the fields of environmental examination, inspection and environmental technology;

8. Matters concerning the establishment of the standards for the contents of hazardous substances, the improvement of materials and structure, mandatory recycling rates, etc. under Articles 9 (1), 10 (1) and (2), 12 (3), 16 (1) and 25 (1) of the Act on Resource Circulation of Electrical and Electronic Equipment and Vehicles;

8-2. Matters concerning best available techniques under Article 24 (1) of the Act on the Integrated Control of Pollutant-Discharging Facilities and the standard for best available techniques under paragraph (2) of the same Article;

9. Matters concerning the establishment and modification of any master plans and measures for environmental preservation by specific areas including environmental policy, natural environment, climate and air, water, water supply and sewerage, natural circulation and global environment, and other matters on which the chairperson of the Central Environmental Policy Committee or of any subcommittee thereof asks the Central Environmental Policy Committee to deliberate or advise.

(2) In order to deliberate and advise on any regional environmental policy, a City/Do environmental policy committee shall be set up under the jurisdiction of a Mayor/Do Governor, and a Si/Gun/Gu environmental policy committee may be set up under the jurisdiction of the head of a Si/Gun/Gu.

(3) The Central Environmental Policy Committee under paragraph (1) shall consist of not more than 200 members, including the chairperson thereof and not more than ten chairpersons of subcommittees.

(4) The Central Environmental Policy Committee under paragraph (3) shall be co-chaired by the Minister of Environment and a person elected from among such Committee members who are commissioned by the Minister of Environment from the private sector, and the chairpersons of subcommittees shall be persons who are nominated by the Minister of Environment by specific areas of environmental management including environmental policy, natural environment, climate and air, water, water supply and sewerage, and resource circulation.

(5) Matters necessary for the constitution and operation of the Central Environmental Policy Committee under paragraph (1) shall be prescribed by Presidential Decree, and other matters necessary for the constitution, operation, etc. of City/Do environmental policy committees and Si/Gun/Gu environmental policy committees under paragraph (2) shall be prescribed by ordinances of the relevant Cities/Dos and Sis/Guns/Gus.

Article 59 (Environmental Preservation Association)(1) For the purposes of any research, studies, technology development, education, publicity, ecosystem restoration, etc. regarding environmental preservation, an Environmental Preservation Association (hereinafter referred to as the “Association”) shall be established.

(2) The Association shall be a legal entity.

(3) Persons who are eligible for membership in the Association shall be those who have obtained permission for the installation of facilities discharging environmental pollutants and those who are prescribed by Presidential Decree.

(4) The expenses needed for activities of the Association shall be covered by membership fees, revenues from activities, etc., and the State and local governments may reimburse some of the expenses within the limits of the budget.

(5) The Association may, upon entrustment by the State, local governments, etc., conduct any activities under paragraph (1) and other activities specified in its articles of incorporation and approved by the Minister of Environment.

(6) If deemed that operations of the Association are in conflict with any statute or its articles of incorporation, the Minister of Environment may direct the Association to alter its articles of incorporation or business plan, or to replace its officers.

(7) The provisions of the Civil Act concerning incorporated associations shall apply mutatis mutandis to any matters concerning the Association that are not provided by this Act.

CHAPTER V SUPPLEMENTARY PROVISIONS

Article 60 (Delegation and Entrustment of Authority)(1) The authority of the Minister of Environment provided in this Act may be delegated in part to Mayors/Do Governors or to the heads of regional environmental agencies, as prescribed by Presidential Decree.

(2) The Minister of Environment may entrust the heads of relevant specialized institutions with some of his/her services provided in this Act, as prescribed by Presidential Decree.

Article 61 (Legal Fiction as Public Official in Application of Penalty Provisions)

Any person who is engaged in any services entrusted pursuant to Article 60 (2) shall be deemed a public official in application of Articles 129 through 132 of the Criminal Act.

ADDENDA (Omitted)

23. Enforcement Decree of the Framework Act on Environmental Policy

[Enforcement Date 25. Apr, 2017.] [Presidential Decree No.28002, 25. Apr, 2017., Partial Amendment]

Article 1 (Purpose)

The purpose of this Decree is to prescribe the matters delegated by the Framework Act on Environmental Policy and other matters necessary for the enforcement thereof.

Article 2 (Environmental Standards)

The environmental standards under Article 12 (2) of the Framework Act on Environmental Policy (hereinafter referred to as the “Act”) are as set forth in the attached Table.

Article 3 (Minor Modifications to Comprehensive National Environmental Plans)

“If it is intended to modify any minor matter prescribed by Presidential Decree” in Article 14 (3) of the Act means any of the following: <Amended by Presidential Decree 28002, Apr. 25, 2017>

1. Where it is intended to modify the cost to be incurred in performing a project under the comprehensive national environmental plan referred to in Article 14 (1) of the Act (hereinafter referred to as “comprehensive national environmental plan”) within the limits of 30/100 thereof;
2. Where it is intended to modify any detail of a comprehensive national environmental plan, in accordance with any change in other statutes or plans under such statutes, that does not have any substantial effect on the basic objective and direction-setting of the comprehensive national environmental plan;
3. Where it is intended to correct miscalculation, clerical error, omission, or any other obvious error equivalent thereto.

Article 4 (Details, etc. of Mid-Term Plans)(1) Any mid-term comprehensive plan for environmental preservation provided for in Article 17 (1) of the Act (hereinafter referred to as “mid-term plan”) shall include each of the following:

1. Matters described in each subparagraph of Article 15 of the Act;
2. Other matters necessary for environmental improvement projects.

(2) Where deemed necessary to develop a mid-term plan, the Minister of Environment may request the head of a relevant central administrative agency, or the Special Metropolitan City Mayor, Metropolitan City Mayor, Special Self-Governing City Mayor, Do Governor, or Special Self-Governing Province Governor (hereinafter referred to as “Mayor/Do Governor”), or the head of a relevant institution or organization, to furnish data required for developing the mid-term plan. <Amended by Presidential Decree 28002, Apr. 25, 2017>

(3) A mid-term plan shall specify the project area, project size, etc. year on year and be prepared by the Special Metropolitan City, Metropolitan City, Special Self-Governing City, Do, or Special Self-Governing Province (hereinafter referred to as “City/ Do”) and by management area under Article 14 for the efficient management of the mid-term plan. <Amended by Presidential Decree 28002, Apr. 25, 2017>

Article 5 (Minor Modifications to Mid-Term Plans)

“If it is intended to modify any minor matter prescribed by Presidential Decree” in Article 17 (3) of the Act means any of the following: <Amended by Presidential Decree 28002, Apr. 25, 2017>

1. Where it is intended to modify the cost to be incurred in performing a project under a mid-term plan within the limits of 30/100 thereof;
2. Where it is intended to modify any detail of a mid-term plan, in accordance with any change in the comprehensive national environmental plan, that does not have any substantial effect on the basic objective and direction-setting of a mid-term plan;
3. Where it is intended to correct miscalculation, clerical error, omission, or any other

obvious error equivalent thereto.

Article 6 (Submission of Annual Implementation Plans)(1) Pursuant to Article 17 (5) of the Act, the head of a relevant central administrative agency and a Mayor/Do Governor shall each formulate a plan for implementing a mid-term plan for each relevant year and submit it to the Minister of Environment by January 31 of each year.

(2) Any annual implementation plan under paragraph (1) shall provide for a new project for environmental improvement and major on-going projects.

Article 7 (Submission of Results of Implementation Plans)(1) Pursuant to Article 17 (5) of the Act, the head of a relevant central administrative agency and a Mayor/Do Governor shall each submit the results of an implementation plan in the previous year to the Minister of Environment by January 31 of each year.

(2) If any project fails to satisfy the requirements of an annual implementation plan, the head of the relevant central administrative agency and the competent Mayor/Do Governor shall include the reasons and measures therefor in the results to be submitted pursuant to paragraph (1).

(3) The Minister of Environment shall make a comprehensive analysis of the results of an implementation plan in the previous year, submitted under paragraph (1), and notify the head of the relevant central administrative agency and the competent Mayor/Do Governor of the findings thereof by March 31 of each year.

Article 8 (Minor Modifications to City/Do Environmental Preservation Plans)

“When he/she intends to modify any minor matter prescribed by Presidential Decree” in the proviso to Article 18 (2) of the Act means any of the following: <Amended by Presidential Decree 28002, Apr. 25, 2017>

1. Where it is intended to modify the cost to be incurred in performing a project under an environmental preservation plan of the relevant City/Do referred to in Article 18 (1) of the Act (hereinafter referred to as “City/Do environmental preservation plan”) within the limits of 30/100 thereof;

2. Where it is intended to modify any detail of a City/Do environmental preservation plan, in accordance with any change in the comprehensive national environmental plan and a mid-term plan, that does not have any substantial effect on the basic objective and direction-setting of a City/Do environmental preservation plan;

3. Where it is intended to correct miscalculation, clerical error, omission, or any other obvious error equivalent thereto.

Article 9 (Minor Modifications to Si/Gun/Gu Environmental Preservation Plans)

“When he/she intends to modify any minor matter prescribed by Presidential Decree” in the proviso to Article 19 (2) of the Act means any of the following: <Amended by Presidential Decree 28002, Apr. 25, 2017>

1. Where it is intended to modify the cost to be incurred in performing a project under an environmental preservation plan of the relevant Si/Gun/Gu referred to in Article 19 (1) of the Act (hereinafter referred to as “Si/Gun/Gu environmental preservation plan”) within the

limits of 30/100 thereof;

2. Where it is intended to modify any detail of a City/Do environmental preservation plan, in accordance with the comprehensive national environmental plan, a mid-term plan, and a City/Do environmental preservation plan, that does not have any substantial effect on the basic objective and direction-setting of a Si/Gun/Gu environmental preservation plan;

3. Where it is intended to correct miscalculation, clerical error, omission, or any other obvious error equivalent thereto.

Article 10 (Survey, Evaluation, etc. of Environmental Conditions)(1) The head of a State organ or the head of a local government, who performs the survey and evaluation under Article 22 (1) of the Act, may request the head of a relevant central administrative agency, the head of a local government, etc. to furnish materials necessary to perform such survey and evaluation. In such cases, the head of the relevant central administrative agency, the head of the local government, etc. shall furnish the materials requested, except in extenuating circumstances.

(2) The Minister of Environment may offer technical support, etc. for local governments to efficiently maintain and manage systems for research, monitoring, measuring, testing, and analysis needed to appropriately perform the survey and evaluation under Article 22 (1) of the Act.

Article 11 (Methods of Development and Details of Environment-Friendly Planning Techniques, etc.)

The environment-friendly planning techniques, etc. provided in Article 23 (1) of the Act (hereinafter referred to as “environment-friendly planning techniques, etc.”) shall be developed by the head of a central administrative agency in charge of statutes governing relevant administrative plans and development projects, taking into consideration the types of those plans and projects, the characteristics of location, etc., including each of the following matters. In such cases, the head of the central administrative agency in charge of such statutes shall consult in advance with the Minister of Environment thereabout and may publish matters concerning the environment-friendly planning techniques, etc. in collaboration with the Minister of Environment:

1. Matters concerning environment-friendly indicators;
2. Matters concerning environment-friendly planning standards and techniques;
3. Matters concerning standards for environment-friendly land use and management;
4. Other matters necessary to enable the sustainable planning, development, and implementation of the administrative plans and development projects.

Article 11-2 (Preparing Environmental Assessment Map)(1) An environmental assessment map referred to in Article 23 (2) of the Act (hereafter referred to as “environmental assessment map” in this Article) shall include the following environmental information:

1. Environmental information on areas, zones, or districts designated for environmental preservation by related statutes;

2. Environmental information related to preservation of ecosystem and maintenance of biological diversity, such as scarcity and species diversity;

3. Other environmental information that should be taken into consideration when formulating and implementing administrative plans and development projects, such as water quality and air.

(2) The Minister of Environment shall prepare an environmental assessment map according to the following methods:

1. Collecting and evaluating environmental information referred to in paragraph (1) to be provided as spatial data referred to in subparagraph 1 of Article 2 of the Framework Act on National Spatial Data Infrastructure;

2. Preparing maps of the entire nation on a scale of at least 1:5,000: Provided, That a map may be prepared on a scale of at least 1:2,5000 for regions lacking sufficient environmental information collected and evaluated pursuant to subparagraph 1;

3. Comprehensively assessing information under each subparagraph of paragraph (1) and evaluating and presenting the relevant regions in around ten grades according to their environmental values.

(3) The Minister of Environment may request submission of data to the heads of the relevant central administrative agencies and the heads of the relevant local governments, if deemed necessary for collecting and evaluating environmental information referred to in paragraph (1).

(4) Necessary matters for the methods, etc. of preparing an environmental assessment map, other than those provided for in paragraphs (1) through (3), shall be prescribed by the Minister of Environment.

[This Article Newly Inserted by Presidential Decree 28002, Apr. 25, 2017]

Article 12 (Creation, Operation, etc. of Environmental Information Networks)(1) The environmental information for which an environmental information network is to be created and operated under Article 24 (2) of the Act is as follows:

1. Results of a survey and evaluation under Article 22 (1) of the Act;

2. Results of survey of the current status of the environment by a specialized institution under Article 24 (4) of the Act;

3. Environmental information necessary for the formulation and implementation of environmental policies;

4. Geographic information on the environment, including maps that show the current state of the natural environment and ecosystems;

5. Environmental information useful for the general public;

6. Environmental information necessary for green management suitable for financial support under subparagraph 4 of Article 28 of the Framework Act on Low Carbon, Green Growth;

7. Other environmental information necessary for environmental preservation and management.

(2) Pursuant to Article 24 (4) of the Act, the Minister of Environment may commission the

performance of surveys of the current status of the environment or entrust the creation and operation of an environmental information network to any of the following specialized institutions: <Amended by Presidential Decree No. 27636, Nov. 29, 2016>

1. The National Institute of Environmental Research;
2. City/Do Public Health and Environment Research Institutes established under the Public Health and Environment Research Institute Act;
3. Government-funded research institutes established under the Act on the Establishment, Operation and Fostering of Government-Funded Research Institutes, Etc. or the Act on the Establishment, Operation and Fostering of Government-Funded Science and Technology Research Institutes, Etc.;
4. The Korea Environment Corporation established under the Korea Environment Corporation Act;
5. The Korea Water Resources Corporation established under the Korea Water Resources Corporation Act;
6. Specific research institutes established under the Specific Research Institutes Support Act;
7. The Korea Environmental Industry and Technology Institute established under the Korea Environmental Industry and Technology Institute Act;
8. Other institutions and organizations designated and published by the Minister of Environment.

(3) Other than those provided for in paragraphs (1) and (2), the detailed matters concerning the creation and operation of an environmental information network and other matters necessary for charges, etc. for environmental information provided through the environmental information network shall be prescribed by the Minister of Environment.

Article 13 (Restrictions on Utilization, etc. of Land in Special-Measures Areas)(1) The Minister of Environment may impose restrictions on the utilization of land and the installation of facilities within a special-measures area under Article 38 (2) of the Act, in any of the following cases:

1. Where it is deemed likely to cause a significant danger to the health or property of residents or the growth of any living species, by exceeding the environmental standards provided for in Article 12 (1) or (3) of the Act;
2. Where it is deemed likely to substantially destroy the natural ecosystem;
3. Where the soil or water is heavily contaminated with specific noxious substances.

(2) If the Minister of Environment intends to impose restrictions on the utilization of land and the installation of facilities within a special-measures area for any ground falling under any subparagraph of paragraph (1), he/she shall determine and publish the subject-matter, details, period, methods, etc. of the restrictions. The same shall also apply where he/she intends to modify any of those restrictions.

Article 14 (Designation of Environmental Management Areas Classified by Affected Zones)

Where necessary for environmental management by affected zone under Article 39 of the Act, the Minister of Environment may designate each environmental management area (hereinafter referred to as “management area”) classified by zone affected by air pollution, water system zone affected by water pollution, ecological zone, etc. In such cases, any of these management areas may be designated after being subdivided into medium and large regions.

Article 15 (Establishment of Environmental Management Plans and Measures Classified by Affected Zones)(1) Where the management area of a medium region is designated under Article 14, the head of a basin environmental office or the head of a regional environmental office shall establish an environmental management plan and measures that suit the characteristics of the medium region under his/her jurisdiction (hereinafter referred to as “medium region management plan”), and obtain approval from the Minister of Environment through the deliberation and coordination of the Environmental Management Committee for the Medium Region provided for in Article 17 to finalize the plan and measures.

(2) Where the management area of a large region is designated under Article 14, the Minister of Environment shall establish an environmental management plan and measures for the large region (hereinafter referred to as “large region management plan”) on the basis of the medium region management plan for which approval is requested under paragraph (1).

(3) Where the Minister of Environment, the head of a basin environmental office or the head of a regional environmental office intends to establish a medium region management plan or large region management plan, he/she shall consult in advance with the heads of each relevant institution and organization.

(4) The Minister of Environment, the head of a basin environmental office, or the head of a regional environmental office shall, upon finalizing a medium region management plan or establishing a large region management plan, notify the heads of relevant institutions and organizations thereof, and the heads of the relevant institutions and organizations so notified shall take necessary measures or provide necessary cooperation.

Article 16 (Establishment, etc. of Plans to Revise Medium Region Management Plans, etc.)(1) If any substantial change occurs in economic and social circumstances when implementing a medium region management plan or large region management plan, the Minister of Environment, the head of the basin environmental office, or the head of the regional environmental office shall establish a revised plan, taking such change into consideration.

(2) Article 15 (1), (2), and (4) shall apply mutatis mutandis to the establishment, finalization and notification of a revised plan under paragraph (1).

Article 17 (Organization of Environmental Management Committee for Medium Region)(1) In order to deliberate on and coordinate a medium region management plan, an environmental management committee for medium region (hereinafter referred to as “medium region committee”) shall be established under the relevant basin environmental

office or regional environmental office.

(2) A medium region committee shall be comprised of not more than 30 members, including one chairperson, and the head of the relevant basin environmental office or regional environmental office shall be the chairperson of the medium region committee.

(3) Members of a medium region committee shall be commissioned or appointed by the head of the relevant basin environmental office or regional environmental office, from among the following persons:

1. Public officials of related administrative agencies;
2. Members of the relevant local council;
3. Executives and employees of institutions relevant to water resources;
4. Representatives of relevant economic and social organizations, such as trade and industrial organizations;
5. Other persons with abundant knowledge and experience in environmental preservation, national land planning, or urban planning;
6. Persons recommended by civic groups (referring to non-profit, non-governmental organizations under Article 2 of the Assistance for Non-Profit, Non-Governmental Organizations Act).

Article 18 (Functions, etc. of Medium Region Committees)(1) A medium region committee shall deliberate on and coordinate, in relation to environmental management of the management area, the following matters:

1. Matters concerning investment priorities in projects for environmental preservation measures;
2. Matters concerning the sharing of expenses incurred in enforcing projects for environmental preservation measures among the State, local governments, and industrial entities;
3. Matters concerning the adjustment of interests between local governments or between residents and industrial entities;
4. Matters concerning the adjustment of permissible emission levels for sources of environmental pollution and concerning the regulation of the total quantity of pollution;
5. Other matters deemed especially necessary for the establishment of environmental management plans and measures.

(2) Matters necessary for the operation of medium region committees shall be determined by the Minister of Environment.

Article 19 (Organization of Central Environmental Policy Committee)(1) Members of the Central Environmental Policy Committee provided for in Article 58 (1) of the Act (hereinafter referred to as the “Central Policy Committee”) shall be commissioned or appointed by the Minister of Environment, from among the following:

1. Persons with abundant knowledge and experience in the field of environmental policy;
2. Public officials of related central administrative agencies;
3. Persons recommended by civic groups (referring to non-profit, non-governmental

organizations under Article 2 of the Assistance for Non-profit, Non-Governmental Organizations Act).

(2) The term of office of members under paragraph (1) 1 and 3 shall be two years.

Article 20 (Chairperson' s Duties)

The chairperson of the Central Policy Committee (hereinafter referred to as the "chairperson") shall represent the Central Policy Committee and exercise overall control over the affairs of the Central Policy Committee.

Article 21 (Meetings of Central Policy Committee)(1) The chairperson shall convene any meeting of the Central Policy Committee when he/she deems it necessary to do so; and the chairperson and at least five members designated by the chairperson at each meeting shall constitute a quorum for every meeting of the Central Policy Committee, which shall be presided over by the chairperson.

(2) A meeting of the Central Policy Committee shall be held with the attendance of a majority of the total members under paragraph (1), and resolution shall be passed with the concurrent vote of a majority of those present.

Article 22 (Establishment and Organization of Subcommittees)(1) Subcommittees by specific fields of environmental management, including environmental policy, natural environment, climate and air, water, water supply and sewerage, and resource circulation, shall be established for the efficient operation of the Central Policy Committee.

(2) Each subcommittee shall be comprised of not more than 25 members, including one chairperson.

Article 23 (Allowances, etc.)

Members, etc. of the Central Policy Committee may be reimbursed for travel expenses and paid allowances within budgetary limits: Provided, That the same shall not apply where a member who is a public official attends the Committee directly in connection with his/her official duties.

Article 24 (Detailed Operational Rules)

Other than those provided for in this Decree, matters necessary for the organization and operation of the Central Policy Committee and subcommittees, detailed matters subject to deliberation, etc. shall be determined by the Minister of Environment.

Article 25 (Members of Environmental Preservation Association)

"Those who are prescribed by Presidential Decree" in Article 59 (3) of the Act means each of the following:

1. A person who engages commercially in the disposal of environmental pollutants and wastes, or in the design, manufacturing, and construction of facilities for disposal thereof;
2. A person who engages commercially in the production and sale of machinery and medicines related to the prevention of environmental pollution;
3. Other persons who intend to be actively engaged in environmental preservation.

Article 26 (Project Plans, etc.)

Each year, the Environmental Preservation Association shall prepare a project plan and a

budget for revenue and expenditure and submit them to the Minister of Environment to obtain approval by not later than one month before the relevant fiscal year begins. The same shall also apply where it intends to make any modification thereto.

Article 27 (Business Reporting)

The Environmental Preservation Association shall submit to the Minister of Environment a business performance report and a report on settlement of accounts, along with a balance sheet, by not later than two months after the relevant fiscal year ends.

ADDENDA (Omitted)

24. Environmental Impact Assessment Act

[Enforcement Date 25. Jan, 2016.] [Act No.13426, 24. Jul, 2015., Amendment by Other Act]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to promote environment-friendly, sustainable development and healthy and pleasant life of citizens by forecasting and assessing the environmental impacts of a plan or project and by formulating measures for environmental conservation when a plan or project that has an environmental impact is formulated and implemented.

Article 2 (Definitions)

The terms used in this Act shall be as follows:

1. The term "strategic environmental impact assessment" means an assessment conducted to determine the feasibility of a higher-tier plan, the appropriateness of a site location, etc. from an environmental perspective by verifying whether the plan conforms to the relevant environmental conservation plan and by developing and analyzing alternatives to promote sustainable development of national land when it is intended to formulate a higher-tier plan that has an environmental impact;
2. The term "environmental impact assessment" means an assessment conducted to formulate measures for preventing, alleviating, or mitigating harmful environmental impacts by surveying, forecasting, and assessing the environmental impact of a project, when it is intended to permit, authorize, approve, or licence (hereinafter referred to as "approve, etc.") an implementation plan or execution plan that has an environmental impact or to make a determination on such implementation plan or execution plan;
3. The term "mini environmental impact assessment" means an assessment conducted by surveying, forecasting, and assessing the appropriateness of a site location and the environmental impact of a development project to provide measures for environmental conservation, when it is intended to implement a development project in an area requiring environmental conservation or in an area requiring planned development because reckless development is anticipated;
4. The term "environmental impact assessment, etc." means a strategic environmental impact assessment, environmental impact assessment, or mini environmental impact

assessment;

5. The term "agreed standards" means standards that a project implementer or the head of the approving authority agrees to apply to a specific project with the Minister of Environment, since they find it impracticable to maintain the environmental standards under Article 12 of the Framework Act on Environmental Policy or to prevent environmental deterioration merely by enforcing any of the following standards in an area affected by the implementation of the project:

(a) Standards for the quality of discharged water under Article 13 of the Act on the Management and Use of Livestock Excreta;

(b) Standards for permitting emissions under Article 16 of the Clean Air Conservation Act;

(c) Standards for the quality of released water under Article 12 (3) of the Act on the Water Quality and Aquatic Ecosystem Conservation;

(d) Standards for permitting discharge under Article 32 of the Act on the Water Quality and Aquatic Ecosystem Conservation;

(e) Standards for the management of waste disposal facilities under Article 31 (1) of the Wastes Control Act;

(f) Standards for the quality of effluent water under Article 7 of the Sewerage Act;

(g) Standards for other pollutants specified by relevant Acts for environmental conservation;

6. The term "environmental impact assessor" means a person qualified under Article 63 (1) to provide services for the preparation of environmental impact assessment reports by conducting surveys on environmental situation, forecasting and analyzing environmental impacts, formulating plans for environmental conservation, and assessing alternatives.

Article 3 (Responsibilities of State, etc.)(1) When the State, a local government, or a project implementer formulates and implements a policy or plan or implements a project, it shall take measures necessary to minimize environmental pollution and environmental degradation.

(2) The State, local governments, project implementers, and citizens shall recognize the importance of environmental impact assessments, etc. and shall endeavor to ensure that the process prescribed by this Act is performed properly and smoothly.

(3) The Minister of Environment shall formulate and disseminate guidelines for the evaluation of environmental impact assessments, standards for preparation of environmental impact assessments, checklists, etc. in order to improve the objectivity, scientific validity, and predictability of environmental impact assessments, etc.

Article 4 (Fundamental Principles of Environmental Impact Assessments, etc.)

Environmental impact assessments, etc. shall be conducted in accordance with the following fundamental principles:

1. Environmental impact assessments, etc. shall be conducted to ensure that conservation and development are in harmony and balanced to achieve sustainable development;

2. Measures for environmental conservation and alternatives therefor shall be formulated within the extent economically and technically practicable, based on the outcomes of

scientific surveys and forecasts;

3. Residents, etc. shall be adequately informed of a plan or project subject to environmental impact assessments, etc. so that residents, etc. can actively participate in the process of environmental impact assessments, etc.;

4. The outcomes of environmental impact assessments, etc. shall be described simply and easily to facilitate residents and decision-makers's full understanding;

5. Where plans or projects are concentrated in a specific area or during a specific period, cumulative impact of such plans or projects shall be taken into consideration in conducting environmental impact assessments, etc.

Article 5 (Formulation, etc. of Targets for Environmental Conservation)

A person who intends to conduct an environmental impact assessment or such shall formulate targets for environmental conservation, based upon the following standards, the nature of the relevant plan or project, the present condition of land use and environment, the degree of impact of the relevant plan or project on the environment, the scientific and technical levels at the time of assessment, economic situation, etc., and shall conduct an environmental impact assessment or such, based on the goals:

1. Environmental standards under Article 12 of the Framework Act on Environmental Policy;
2. Ecological and natural maps defined under subparagraph 14 of Article 2 of the Natural Environment Conservation Act;
3. Standards for total pollution load in each region under the Clean Air Conservation Act and the Water Quality and Aquatic Ecosystem Conservation Act;
4. Standards formulated by other related Acts for environmental conservation.

Article 6 (Areas subject to Environmental Impact Assessment, etc.)

An environmental impact assessment, etc. shall be conducted in an area demarcated by boundaries as an area anticipated to be affected by the formulation of a plan or by the implementation of a project according to data from a scientific forecast and analysis of the environmental impact.

Article 7 (Sectors subject to Environmental Impact Assessments, etc. and Subject-matter of Assessment)

(1) An environmental impact assessment, etc. shall be conducted with regard to natural environment, living environment, social and economic environment, and other sectors (hereinafter referred to as "sectors subject to environmental impact assessment") that is anticipated to be affected by the formulation of a plan or by the implementation of a project.

(2) Sub-categories for assessment of the sectors subject to environmental impact assessment (hereinafter referred to as "subject-matter for environmental impact assessment"), methods of assessment, etc. shall be prescribed by Presidential Decree.

Article 8 (Environmental Impact Assessment Council)

(1) The Minister of Environment, the heads of planning agencies, the heads of agencies with authority for the approval for plans or projects (hereinafter referred to as the "heads of approving agencies"), and project implementers not subject to obtaining approval, etc. shall form and operate an

Environmental Impact Assessment Council in order to deliberate on the following matters:

1. Determination of the subject-matter for, scope, etc. of assessment under Articles 11 and 24;
2. Coordination in discussions on environmental impact assessment under Article 31 (2);
3. Whether to conduct a summary environmental impact assessment under Article 51 (2);
4. Coordination in collection of opinions and discussions thereon under Article 52 (3);
5. Other matters specified by Presidential Decree as those necessary to facilitate environmental impact assessments.

(2) The Environmental Impact Assessment Council under paragraph (1) (hereinafter referred to as the "Environmental Impact Assessment Council") shall be comprised of persons with abundant knowledge and experience in environmental impact assessments, but representatives of residents and experts from the private sector, such as non-governmental organizations, shall be included in the council: Provided, That where a health impact assessment shall be conducted under Article 13 of the Environmental Health Act, experts in health impact assessments, in addition to the experts from the private sector referred to in the above clause, shall be included in the council. <Amended by Act No. 13040, Jan. 20, 2015>

(3) Matters necessary for the formation, operation, etc. of the Environmental Impact Assessment Council shall be prescribed by Presidential Decree.

CHAPTER II STRATEGIC ENVIRONMENTAL IMPACT ASSESSMENT

SECTION 1 Subject Matters of Strategic Environmental Impact Assessment

Article 9 (Subject Matters of Strategic Environmental Impact Assessment)(1) When the head of an administrative agency intends to formulate any of the following plans, he/she shall conduct a strategic environmental impact assessment with regard thereto:

1. An urban development project;
2. A plan for the development of an industrial site or industrial complex;
3. A plan for the development of energy sources;
4. A plan for the development of a harbor;
5. A plan for the construction of a road;
6. A plan for the development of water resources;
7. A plan for the construction of a railroad (including an urban railroad);
8. A plan for the construction of an airport;
9. A plan for the use and development of river;
10. A plan for the development of land and reclamation of public waters;
11. A plan for the development of a tourism complex;
12. A plan for the development of a mountainous district;
13. A plan for the development of a particular area;
14. A plan for the establishment of a sports facility;
15. A plan for the establishment of a waste disposal facility;
16. A plan for the establishment of facilities for national defense and military installations;

17. A plan for the extraction of earth and stone, sand, gravel, minerals, etc.;

18. A plan for the establishment of any of the facilities specified by Presidential Decree as those that have an environmental impact.

(2) The plans subject to strategic environmental impact assessment under paragraph (1) (hereinafter referred to as "plans subject to strategic environmental impact assessment") are classified as follows, taking the nature of each plan into consideration:

1. Governmental plan: A plan that generally indicates the basic direction-direction in, or guidelines for, the development and conservation of all or some national land;

2. Master development plan: Either of the following plans for a certain part of national land:

(a) A plan for the designation of a particular development zone;

(b) A plan that is required to be formulated by a specific statute before formulating an implementation plan to form the basis for a standard for an implementation plan.

(3) The subcategories of the plans subject to strategic environmental impact assessment and the governmental plans and master development plans formulated under paragraph (2) shall be prescribed by Presidential Decree.

Article 10 (Exclusion from Subject Matters of Strategic Environmental Impact Assessment)

Notwithstanding Article 9, strategic environmental impact assessment may be skipped for either of the following plans:

1. A plan determined by the Minister of National Defense, in consultation with the Minister of Environment, as a plan involving military secrets requiring stringent protection or a plan necessary for an urgent military operation;

2. A plan determined by the Director of the National Intelligence Service, in consultation with the Minister of Environment, as a plan involving military secrets requiring stringent protection.

Article 11 (Determination of Subject-matters for, Scope, etc. of Assessment)(1) When the head of an administrative agency intends to formulate a plan subject to strategic environmental impact assessment, he/she shall make a preparatory statement for assessment before conducting strategic environmental impact assessment and shall present the statement to the Environmental Impact Assessment Council for deliberation to determine the following matters (hereafter in this Chapter referred to as "subject-matters, etc. for strategic environmental impact assessment"):

1. The area subject to strategic environmental impact assessment;

2. A land use plan;

3. Alternative plans;

4. Subject-matters, the scope, methods, etc. of assessment.

(2) Where a plan subject to strategic environmental impact assessment is formulated upon receipt of a proposal from a person who is not an administrative agency, the person who proposes the plan subject to strategic environmental impact assessment shall make a preparatory statement for assessment and shall request the head of the administrative agency, who shall formulate the plan subject to strategic environmental impact assessment,

to determine the subject-matters, etc. for strategic environmental impact assessment.

(3) Upon receipt of a request under paragraph (2), the head of an administrative agency shall bring the case before the Environmental Impact Assessment Council within a period specified by Presidential Decree for deliberation and shall notify the person who proposes the plan subject to strategic environmental impact assessment of the results thereof.

(4) When the head of an administrative agency who intends to formulate a plan subject to strategic environmental impact assessment determines the subject-matters, etc. of strategic environmental impact assessment under the provisions of paragraphs (1) through (3), he/she shall consider the following matters:

1. The nature of the relevant plan;
2. Consistency with higher-tier plans and other related plans;
3. Locational conditions, status of existing land-use, and environmental features of the relevant area and its environs;
4. Changes in seasonal characteristics (an area with substantial environmental and ecological value);
5. Other matters related to the maintenance of environmental standards.

(5) The head of an administrative agency who intends to formulate a plan subject to strategic environmental impact assessment shall publish the subject-matters, etc. for strategic environmental impact assessment determined pursuant to paragraph (1) or (3) and shall gather consensus thereon from residents, etc. as prescribed by Presidential Decree.

(6) Matters necessary for determining the subject-matters, etc. for strategic environmental impact assessment under the provisions of paragraphs (1) through (4) shall be prescribed by Presidential Decree, and the methods of making a preparatory statement for assessment shall be prescribed by Ordinance of the Ministry of Environment.

SECTION 2 Gathering, etc. Consensus on Draft Strategic Environmental Impact Assessment Reports

Article 12 (Preparation of Draft Strategic Environmental Impact Assessment Reports)

(1) The head of an administrative agency who intends to formulate a master development plan shall formulate a draft strategic environmental impact assessment report with regard to subject-matters, etc. for strategic environmental impact assessment determined under Article 11 and then gather consensus thereon from residents, etc. under Article 13: Provided, That if it is intended to formulate a master development plan upon a proposal from a person who is not an administrative agency, the person who proposes the master development plan shall formulate a draft strategic environmental impact assessment report and submit it to the head of the relevant administrative agency who formulates the master development plan.

(2) The head of an administrative agency who formulates a master development plan shall submit a draft strategic environmental impact assessment report to the following persons respectively and shall hear their opinions thereon:

1. The Minister of Environment;

2. The head of the approving agency (only where a plan is subject to approval, etc.);
 3. The heads of other relevant administrative agencies specified by Presidential Decree.
- (3) The methods of making a draft strategic environmental impact assessment report under paragraph (1), the methods of presenting opinions under paragraph (2), and other necessary matters shall be prescribed by Presidential Decree.

Article 13 (Gathering Consensus from Residents, etc.)(1) The head of an administrative agency who intends to formulate a master development plan shall publish the draft strategic environmental impact assessment report on the master development plan for public inspection and shall hold presentations to hear opinions thereon from the residents in the assessed area: Provided, That a public hearing shall be held if residents within the extent specified by Presidential Decree request a public hearing.

(2) If a master development plan involves any of the areas specified by Presidential Decree as those with a great value for the conservation of ecosystem, the head of the administrative agency who intends to formulate the master development plan shall hear opinions thereon from relevant experts and other persons in addition to opinions of residents in the assessed area.

(3) If the head of an administrative agency who intends to formulate a master development plan is unable to hold a presentation or public hearing under normal conditions other than due to his/her own fault or if any of the events specified by Presidential Decree occurs, he/she may skip a presentation or public hearing. In such cases, the head of an administrative agency shall gather consensus from residents, etc. by a method equivalent to a presentation session or public hearing, as prescribed by Presidential Decree.

(4) The head of an administrative agency who intends to formulate a master development plan shall disclose the results of gathering consensus from residents, etc. under paragraphs (1) and (2) and whether such opinions have been reflected in the plan to the public by the method specified by Presidential Decree.

(5) The publication for public inspection and the holding of presentations or public hearings under paragraphs (1) and (2) and other matters necessary for gathering consensus shall be prescribed by Presidential Decree.

Article 14 (Omission of Procedures for Gathering Consensus from Residents, etc.)

If the head of an administrative agency who formulates a master development plan has gathered consensus on the draft strategic environmental impact assessment report through the procedures for gathering consensus under another statute, he/she is not obliged to comply with the procedure for gathering consensus under Article 13.

Article 15 (Further Gathering of Consensus from Residents, etc.)

If the head of an administrative agency who intends to formulate a master development plan intends to amend the plan with respect to an important matters specified by Presidential Decree, such as the area subject to the master development plan, after completing the procedures for gathering consensus under Article 13 but before being notified of the details of consultations under Article 18, he/she shall make another draft strategic environmental

impact assessment report and shall further gather consensus from residents, etc. in accordance with the provisions of Articles 11 through 14.

SECTION 3 Consultations, etc. on Strategic Environmental Impact Assessment Reports

Article 16 (Requests for Consultations on Strategic Environmental Impact Assessment Reports, etc.)(1) The head of an administrative agency who intends to formulate a plan subject to strategic environmental impact assessment exempt from approval shall formulate a strategic environmental impact assessment report before finalizing the plan and shall request the Minister of Environment to hold consultations thereon.

(2) The head of an administrative agency who intends to formulate a plan subject to strategic environmental impact assessment subject to approval shall formulate a strategic environmental impact assessment report and submit the report to the head of the approving agency, and the head of the approving agency shall request the Minister of Environment to hold consultations thereon before he/she approves the plan.

(3) If a person who draws up a strategic environmental impact assessment report in accordance with paragraph (1) or (2) finds that opinions presented in accordance with the provisions of Articles 12 (2) and 13 (1) through (3) are well-founded, he/she shall reflect such opinions in the strategic environmental impact assessment report.

(4) The methods of preparing a strategic environmental impact assessment report under the provisions of paragraphs (1) through (3), the methods of submitting such report, the timing for requesting consultations, and other necessary matters shall be prescribed by Presidential Decree.

Article 17 (Review, etc. of Strategic Environmental Impact Assessment Reports)(1) Upon receipt of a request for consultations under Article 16 (1) or (2), the Minister of Environment shall review whether the procedures for collecting residents' opinions have been observed, the details of the strategic environmental impact assessment report, etc.

(2) If the Minister of Environment deems it necessary for reviewing a strategic environmental impact assessment report, he/she may request the Korea Environment Institute established pursuant to the Act on the Establishment, Operation and Fostering of Government-Funded Research Institutes, Etc(hereinafter referred to as the "Korea Environment Institute") or relevant experts to conduct a field survey or may hear opinions therefrom and may request the heads of relevant administrative agencies to furnish him/her with relevant data: Provided, That if a strategic environmental impact assessment report concerns a plan formulated by any person other than the Minister of Oceans and Fisheries and involves coastal land area defined under subparagraph 3 of Article 2 of the Coast Management Act, the Minister of Environment shall hear the opinion of the Minister of Oceans and Fisheries. <Amended by Act No. 11690, Mar. 23, 2013>

(3) If the Minister of Environment finds, as a result of the review of a strategic environmental impact assessment report under paragraph (1), that it is necessary to amend or revise the

strategic environmental impact assessment report or a plan or if any of the reasons specified by Presidential Decree exists, he/she may request the head of the administrative agency who intends to formulate a plan subject to strategic environmental impact assessment (referring to the head of the approving agency, if the plan is subject to approval or such; hereinafter referred to as the "head of the competent administrative agency") to amend or adjust the strategic environmental impact assessment report or the relevant plan or may request the head of the competent administrative agency to require the person proposing the plan subject to strategic environmental impact assessment to amend or adjust the strategic environmental impact assessment report or the relevant plan. The person requested to amend or adjust a report or plan in such cases shall comply therewith, except in extenuating circumstances.

(4) The guidelines and methods for reviewing strategic environmental impact assessment reports, etc. under paragraph (1) and matters necessary for amending or revising strategic environmental impact assessment reports, etc. under paragraph (3) shall be prescribed by Presidential Decree.

Article 18 (Period for Notification of Agreed Terms and Conditions)(1) The Minister of Environment shall notify the head of the competent administrative agency of agreed terms and conditions within a period specified by Presidential Decree upon request to hold consultations: Provided, That the period may be extended, except in extenuating circumstances.

(2) If the Minister of Environment intends to extend the period for notifying agreed terms and conditions under the proviso to paragraph (1), he/she shall notify the head of the competent administrative agency of the reasons for extension and the extended period before the period specified for consultation ends.

(3) In either of the following cases, the Minister of Environment may notify the head of the competent administrative agency of agreed terms and conditions on condition that the terms and conditions be reflected in the relevant plan:

1. Where any matter to be amended or adjusted is insignificant;
2. Where it is possible to amend or adjust the relevant plan before formulating or finalizing the plan.

Article 19 (Performance of Agreed Terms and Conditions)(1) The head of the competent administrative agency shall take necessary measures to reflect agreed terms and conditions, as notified under Article 18, in the relevant plan or shall request the person who proposes the plan subject to strategic environmental impact assessment to take necessary measures and shall notify the Minister of Environment of the results of measures taken or the plan for such measures.

(2) If the head of the competent administrative agency has a particular reason why it is impracticable to reflect agreed terms and conditions in the relevant plan, he/she shall consult thereon with the Minister of Environment before approving or confirming the plan, as prescribed by Presidential Decree.

(3) A person who formulates a plan subject to strategic environmental impact assessment shall perform agreed terms and conditions and the plan for measures under paragraph (1) in good faith.

(4) Matters necessary for agreed terms and conditions and the plan for measures under paragraph (1) shall be prescribed by Presidential Decree.

Article 20 (Re-consultation)

In either of the following cases where the head of an administrative agency who shall formulate a master development plan intends to amend the master development plan on which consultations have been held under the provisions of Articles 16 through 18, he/she shall request consultations on strategic environmental impact assessment again in accordance with the provisions of Articles 11 through 19:

1. Where it is intended to increase the area subject to the master development plan to a scale at least equivalent to the scale specified by Presidential Decree;
2. Where the area that it is intended to be developed, out of an area that shall be conserved as its original state or that shall be excluded according to agreed terms and conditions, is at least the scale specified by Presidential Decree or where it is intended to alter the location of such area that shall be conserved as its original state or that shall be excluded.

Article 21 (Consultations on Amendment)(1) When the head of the competent administrative agency intends to amend a master development plan consulted upon under the provisions of Articles 16 through 18 with regard to a matter specified by Presidential Decree for any purpose other than those referred to in subparagraphs of Article 20, he/she shall consult with the Minister of Environment on the intended amendment.

(2) When the head of the competent administrative agency intends to amend a governmental plan consulted upon under the provisions of Articles 16 through 18 with regard to a matter specified by Presidential Decree, he/she shall consult with the Minister of Environment on the intended amendment.

(3) The provisions of Articles 16 through 19 shall apply mutatis mutandis to consultations on amendment under paragraphs (1) and (2).

CHAPTER III ENVIRONMENTAL IMPACT ASSESSMENT

SECTION 1 Subject Matters for Environmental Impact Assessment

Article 22 (Subject Matters for Environmental Impact Assessment)(1) A person who intends to implement (hereinafter referred to as "project implementer") any of the following projects (hereinafter referred to as "projects subject to environmental impact assessment") shall conduct environmental impact assessment:

1. An urban development project;
2. A plan to develop an industrial site or industrial complex;
3. A plan to develop energy sources;
4. A plan to develop a harbor;
5. A plan to construct a road;
6. A plan to develop water resources;

7. A plan to construct a railroad (including an urban railroad);
8. A plan to construct an airport;
9. A plan to use and develop river;
10. A plan to develop land and reclaim public waters;
11. A plan to develop a tourism complex;
12. A plan to develop a mountainous district;
13. A plan to develop a particular area;
14. A plan to establish a sports facility;
15. A plan to establish a waste disposal facility;
16. A plan to establish facilities for national defense and military installations;
17. A plan to extract earth and stone, sand, gravel, minerals, etc.;
18. A plan to establish any of the facilities specified by Presidential Decree as those that have an environmental impact.

(2) Specific categories, the scope, etc. of projects subject to environmental impact assessment shall be prescribed by Presidential Decree.

Article 23 (Exclusion from Subject Matters for Environmental Impact Assessment)

Notwithstanding Article 22, strategic environmental impact assessment may be skipped for any of the following projects:

1. A project to take an emergency measure under Article 37 of the Framework Act on the Management of Disasters and Safety;
2. A project determined by the Minister of National Defense, in consultation with the Minister of Environment, as a project involving secrets requiring stringent protection for national security or a project necessary for an urgent military operation;
3. A project determined by the Director of the National Intelligence Service, in consultation with the Minister of Environment, as a project involving secrets requiring stringent protection for national security.

SECTION 2 Gathering etc. of Consensus on Draft Environmental Impact Assessment Reports

Article 24 (Determination of Items for, Scope, etc. of Assessment)(1) A project implementer not obliged to obtain approval, etc. shall formulate a preparatory statement for assessment before conducting environmental impact assessment and shall present the statement to the environmental impact assessment council for deliberation within a period specified by Presidential Decree to determine the following matters (hereafter in this Chapter referred to as "items, etc. for environmental impact assessment"):

1. The area subject to environmental impact assessment;
2. Alternative plans for environmental conservation;
3. Items for, the scope, methods, etc. of assessment.

(2) A project implementer obliged to obtain approval, etc. shall formulate a preparatory statement for assessment before conducting environmental impact assessment and shall request the head of the approving agency to determine the items, etc. for environmental

impact assessment.

(3) Upon receipt of either of the following requests, the Minister of Environment may determine the items, etc. for environmental impact assessment:

1. Where a project implementer not obliged to obtain approval, etc. deems it necessary to request the Minister of Environment to determine the items, etc. for environmental impact assessment;

2. Where a project implementer obliged to obtain approval, etc. requests the Minister of Environment to determine the items, etc. for environmental impact assessment via the approving agency after consulting with the head of the approving agency.

(4) Upon receipt of a request made under paragraph (2) or (3), the head of the approving agency or the Minister of Environment shall determine the items, etc. for environmental impact assessment, after deliberation by the environmental impact assessment council, within a period specified by Presidential Decree, and shall notify the relevant project implementer of such determination.

(5) When a project implementer not obliged to obtain approval, etc. or the head of the approving agency (hereinafter referred to as the "head of the approving agency") or the Minister of Environment determines the items, etc. for environmental impact assessment under the provisions of paragraphs (1) through (4), he/she shall consider the following matters:

1. The items, etc. for environmental impact assessment, determined under Article 11 (only where the relevant project is subject to environmental impact assessment under a master development plan already formulated);

2. Locational conditions of the area involved and its environs;

3. Land-use conditions;

4. The nature of the project;

5. Environmental features;

6. Changes in seasonal characteristics (an area with a great value in environmental and ecological aspects).

(6) If a project implementer has consulted with the Minister of Environment on the items, etc. for strategic environmental impact assessment determined under Article 11, the project implementer may omit the procedures for determining the items, etc. for environmental impact assessment under paragraph (1) or (2). The items, etc. for strategic environmental impact assessment determined under Article 11 in such cases shall be deemed the items, etc. for environmental impact assessment determined under the provisions of paragraphs (1) through (5).

(7) The head of the approving agency or the Minister of Environment shall publish the items, etc. of environmental impact assessment, determined pursuant to paragraphs (1) and (4), and shall gather consensus from residents, etc., as prescribed by Presidential Decree.

(8) Matters necessary for determining the items, etc. for environmental impact assessment under the provisions of paragraphs (1) through (5) shall be prescribed by Presidential

Decree, and the methods for preparing preparatory statements for assessment under paragraphs (1) and (2) shall be prescribed by Ordinance of the Ministry of Environment.

Article 25 (Gathering Consensus from Residents, etc.)(1) A project implementer shall formulate a draft environmental impact assessment report on the items, etc. for environmental impact assessment, determined in accordance with Article 24, and shall gather consensus thereon from residents, etc.

(2) The provisions of Articles 12 through 14 shall apply mutatis mutandis to the procedures for formulating a draft environmental impact assessment report and gathering consensus thereon from residents, etc.: Provided, That the release of such report for public perusal by residents shall be conducted by the head of a Si/Gun/Gu (Gu means an autonomous Gu) having jurisdiction over the area involved in the project subject to environmental impact assessment (including the head of an administrative city under Article 11 (2) of the Special Act on the Establishment of Jeju Special Self-Governing Province and the Development of Free International City). <Amended by Act No. 13426, Jul. 24, 2015>

(3) A project implementer shall disclose the results of gathering opinions from residents, etc. under paragraph (1) and whether such opinions have been reflected in the relevant plan to the public by the method specified by Presidential Decree.

(4) If a project implementer has formulated a draft environmental impact assessment report and gathered consensus in accordance with the procedures provided for in Articles 12 through 15 (excluding where the procedures for collecting opinions are omitted under Article 14) and meets all the following requirements in formulating the master development plan for a project subject to environmental impact assessment, the procedures for preparing a draft environmental impact assessment report and for gathering consensus thereon under paragraphs (1) and (2) may be omitted, subject to consultations with the head of the agency who shall hold consultations:

1. Where three years have not passed since agreed terms and conditions on a strategic environmental impact assessment report were notified pursuant to Article 18;
2. Where the scale of the relevant project is increased by not more than 30 percent of agreed terms and conditions under Article 18;
3. Where the scale of the relevant project in comparison with agreed terms and conditions under Article 18 is increased to not greater than the minimum scale of a project subject to environmental impact assessment for the projects specified by Presidential Decree under Article 22 (2);
4. Where a site for a facility that severely affects the living environment of residents, such as a waste incineration plant, waste landfill, sewage treatment plant, or effluent treatment plant, is not added.

(5) Matters necessary for the methods for preparing draft environmental impact assessment reports under paragraph (1) and the methods for publishing such report for public inspection under the proviso to paragraph (2) shall be prescribed by Presidential Decree.

Article 26 (Furthering Gathering of Opinions of Residents, etc.)

If a project implementer intends to amend a plan with respect to any of the important matters specified by Presidential Decree, such as a change in the project subject to environmental impact assessment, after completing the procedures for gathering consensus under Article 25 but before being notified of the details of consultations under Article 29, he/she shall formulate another draft environmental impact assessment report and shall further gather consensus from residents, etc. thereon in accordance with Articles 24 and 25.

SECTION 3 Consultation, Re-consultation, etc., on Environmental Impact Assessment Reports and Amendments thereof

Article 27 (Preparation of Environmental Impact Assessment Reports, Requests for Consultation thereon, etc.)(1) The head of the approving agency shall request the Minister of Environment to hold consultations on a project subject to environmental impact assessment before approving or confirming such project. The head of the approving agency may attach his/her written opinion to the relevant environmental impact assessment report in such cases.

(2) When a project implementer not obliged to obtain approval, etc. intends to request the Minister of Environment to hold consultations in accordance with paragraph (1), the project implementer shall formulate an environmental impact assessment report, while a project implementer obliged to obtain approval, etc. shall formulate an environmental impact assessment report and shall submit it to the head of the approving agency.

(3) The methods of drawing up an environmental impact assessment report, the timing for requesting consultations, the methods of submitting such report, etc. under paragraphs (1) and (2) shall be prescribed by Presidential Decree.

Article 28 (Review, etc. of Environmental Impact Assessment Reports)(1) Upon receipt of a request for consultation under Article 27 (1), the Minister of Environment shall review whether the procedures for gathering consensus from residents have been completed, the details of the environmental impact assessment report, etc.

(2) If the Minister of Environment deems it necessary for reviewing an environmental impact assessment report, he/she may seek opinions thereon from relevant experts or request relevant experts to conduct a field survey and may request the relevant project implementer or the head of the approving agency to furnish him/her with relevant data: Provided, That the Minister of Environment shall gather consensus from the following persons: <Amended by Act No. 11690, Mar. 23, 2013>

1. Korea Environment Institute;
2. Minister of Oceans and Fisheries (only where the relevant project is one specified by Presidential Decree as those that affect marine environment).

(3) If the Minister of Environment finds, upon reviewing an environmental impact assessment report under paragraph (1), that it is necessary to amend or revise the environmental impact assessment report or the relevant project plan on any of the grounds specified by Presidential Decree exists, he/she may request the head of the approving agency to amend or revise the environmental impact assessment report or the project plan or may request the

head of the approving agency to require the project implementer to amend or revise the report or plan. In such cases, the head of the approving agency shall comply with such request, except in extenuating circumstances.

(4) The guidelines and methods for reviewing environmental impact assessment reports, etc. under paragraph (1) and matters necessary for amending or revising environmental impact assessment reports, etc. under paragraph (3) shall be prescribed by Presidential Decree.

Article 29 (Period for Notification of Agreed Terms and Conditions)(1) The Minister of Environment shall notify the head of the approving agency of agreed terms and conditions within a period specified by Presidential Decree upon receipt of a request to hold consultation under Article 27 (1): Provided, That the period may be extended, in extenuating circumstances.

(2) If the Minister of Environment intends to extend the period for the notification of agreed terms and conditions under paragraph (1), he/she shall notify the head of the approving agency of the grounds for extension and the extended period before the period specified for consultations ends.

(3) Upon receipt of notice of agreed terms and conditions given under paragraph (1) or (2), the head of the approving agency shall notify the relevant project implementer thereof without delay.

(4) In either of the following cases, the Minister of Environment may notify the head of the approving agency of agreed terms and conditions on condition that the terms and conditions be reflected in the relevant project plan, etc.:

1. Where any matter to be amended or revised is insignificant;
2. Where it is possible to amend or revise the relevant project plan, etc. before approving the project plan, etc. or commencing the relevant project.

Article 30 (Reflection of Agreed Terms and Conditions, etc.)(1) Upon receipt of notice of agreed terms and conditions under Article 29, a project implementer or the head of the approving agency shall take measures necessary for reflecting the terms and conditions in the relevant project plan, etc.

(2) The head of the approving agency shall ascertain whether agreed terms and conditions have been reflected in the project plan, etc. before approving the project plan, etc. If agreed terms and conditions have not been reflected in the project plan, etc., the head of the approving agency shall require that agreed terms and conditions be reflected in the project plan, etc.

(3) When the head of the approving agency approves or confirms a project plan, etc., he/she shall notify the Minister of Environment of agreed terms and conditions reflected in the project plan, etc.

(4) If the Minister of Environment is informed from the notice received under paragraph (3) that agreed terms and conditions have not been reflected in the relevant project plan, etc., he/she may request the head of the approving agency to reflect agreed terms and conditions. In such cases, the head of the approving agency shall comply with such request, except in

extenuating circumstances.

Article 31 (Requests for Adjustment)(1) If a project implementer or the head of the approving agency has an objection to agreed terms and conditions notified under Article 29, he/she may request the Minister of Environment to make an adjustment to agreed terms and conditions. In such cases, a project implementer obliged to obtain approval, etc. shall request adjustment via the head of the approving agency.

(2) Upon receipt of a request for adjustment under paragraph (1), the Minister of Environment shall determine whether to make an adjustment within a period specified by Presidential Decree after deliberation by the environmental impact assessment council and shall notify the relevant project implementer or the head of the approving agency of such determination.

(3) Upon receipt of a request for adjustment of agreed terms and conditions, no head of the approving agency shall approve or confirm the relevant project plan, etc. before being notified of the determination under paragraph (2): Provided, That the foregoing shall not apply where the details related to the request for adjustment are excluded from the project plan, etc.

(4) Matters necessary for requesting adjustment under the provisions of paragraphs (1) through (3) shall be prescribed by Presidential Decree.

Article 32 (Re-consultation)(1) In any of the following cases, where the head of the approving agency intends to amend a project plan, etc. consulted upon under the provisions of Articles 27 through 29, the head of the approving agency shall request the Minister of Environment to hold consultations again:

1. Where the project has not been commenced within a period specified by Presidential Decree after the project plan, etc. is approved or confirmed: Provided, That the foregoing shall not apply where any circumstance changes slightly before the commencement of the project and the head of the approving agency has consulted thereon with the Minister of Environment;

2. Where the area, length, etc. of the project subject to environmental impact assessment is increased to at least the scale specified by Presidential Decree;

3. Where the area to be developed, out of an area that shall be conserved in its original state or that shall be excluded according to agreed terms and conditions, is at least the scale specified by Presidential Decree or where it is intended to alter the location of such area that shall be conserved in its original state or that shall be excluded;

4. Where it is not proper to implement the project plan, etc. according to agreed terms and conditions due to the occurrence of any of the events specified by Presidential Decree.

(2) The provisions of Articles 24 through 31 shall apply mutatis mutandis to the re-consideration under paragraph (1).

Article 33 (Amendment to Agreed Terms and Conditions)(1) If a project implementer amends a project plan, etc. consulted upon in accordance with the provisions of Articles 27 through 29 in any case other than those referred to in Article 32 (1), the project implementer

shall formulate a plan for environmental conservation according to the amendment to the project plan, etc. and shall reflect the plan in the amended project plan, etc.

(2) A project implementer obliged to obtain approval, etc. shall submit for review by the head of the approving agency, the plan for environmental conservation under paragraph (1): Provided, That the foregoing shall not apply to any of insignificant matters specified by Ordinance of the Ministry of Environment.

(3) If the head of the approving agency finds any of the cases specified by Presidential Decree when he/she formulates or reviews a plan for environmental conservation under paragraph (1) or (2), he/she shall hear the opinions of the Minister of Environment on the case.

(4) The provisions of Article 30 (2) through (4) shall apply mutatis mutandis to the confirmation and notification of whether a plan for environmental conservation has been reflected under paragraph (1). In such cases, "agreed terms and conditions" shall be construed as "a plan for environmental conservation."

Article 34 (Prohibition against Premature Implementation of Projects)(1) No project implementer shall commence any construction work for a project subject to environmental impact assessment before the procedure for consultation, re-consultation, or amendment to agreed terms and conditions under the provisions of Articles 27 through 29 and 31 through 33 is completed: Provided, That the foregoing shall not apply to any of the following construction works:

1. Construction works performed in an area approved through the consultation under the provisions of Articles 27 through 31 and excluded from an area subject to re-consultation or amendment to agreed terms and conditions;

2. Construction works performed for any of the insignificant matters specified by Ordinance of the Ministry of Environment in a project for which the site has been determined through strategic environmental impact assessment.

(2) No head of the approving agency shall approve a project plan, etc. before the procedure for consultation, re-consultation, or amendment of agreed terms and conditions under the provisions of Articles 27 through 33 is completed.

(3) If a project implementer obliged to obtain approval, etc. performs any construction work in violation of paragraph (1), the head of the approving agency shall order the project implementer to wholly or partially suspend construction works on the relevant project.

(4) If a project implementer not obliged to obtain approval, etc. performs any construction work in violation of paragraph (1), the Minister of Environment may order the project implementer to suspend construction works or to take other necessary measures or may request the head of the approving agency to suspend construction works or to take other necessary measures. In such cases, the head of the approving agency shall comply with such request, except in extenuating circumstances.

SECTION 4 Fulfillment of Agreed Terms and Conditions, Management of Performance, etc.

Article 35 (Fulfillment of Agreed Terms and Conditions)(1) A project implementer shall fulfill all agreed terms and conditions, as reflected in a project plan, etc., in implementing the project plan, etc.

(2) In order to fulfill agreed terms and conditions in good faith, a project implementer shall record the progress of performance in the management record book, in which agreed terms and conditions are recorded, and shall keep the management record book at the project site, as prescribed by Ordinance of the Ministry of Environment.

(3) In order to manage the fulfillment of agreed terms and conditions in a proper manner, a project implementer shall designate the manager responsible for the management of agreed terms and conditions (hereinafter referred to as "manager") and shall notify the following persons of such designation, as prescribed by Ordinance of the Ministry of Environment:

1. The Minister of Environment;
2. The head of the approving agency (only where approval, etc. is required for a project subject to environmental impact assessment).

(4) The criteria for qualifications of managers and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

Article 36 (Follow-up Survey of Environmental Impacts)(1) A project implementer shall conduct a survey of the impact of the relevant project on the surrounding environment (hereinafter referred to as "follow-up survey of environmental impact") after commencing the project and shall notify the following persons of the findings of such survey:

1. The Minister of Environment;
2. The head of the approving agency (limited to where approval, etc. is required for a project subject to environmental impact assessment).

(2) If a project implementer finds it necessary, as a result of the follow-up survey of environmental impacts, to take measures for preventing damage to the surrounding environment, the project implementer shall notify each person referred to in paragraph (1) of the findings and shall take necessary measures.

(3) Upon receipt of the notice of the findings of a follow-up survey of environmental impacts under paragraph (1) or the findings of a follow-up survey of environmental impacts and measures taken therefor under paragraph (2), the Minister of Environment shall review such findings and measures. <Newly Inserted by Act No. 13040, Jan. 20, 2015>

(4) If the Minister of Environment deems it necessary to review the findings of a follow-up survey of environmental impacts and measures taken therefor under paragraph (3), the Minister may hear opinions from, or request a field survey to, appropriate experts or the institutions specified by Presidential Decree, and may request the relevant project implementer or the head of the approving agency to submit related data. <Newly Inserted by Act No. 13040, Jan. 20, 2015>

(5) The projects subject to a follow-up survey of environmental impacts, the items and period of a survey, guidelines and methods for the review on the findings of a follow-up survey of environmental impacts and measures taken therefor, and other necessary matters shall be

prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 13040, Jan. 20, 2015>

Article 37 (Notification of Commencement, etc. of Projects)

When a project implementer intends to commence or complete a project or to suspend construction works for at least three months, the project implementer shall notify the following persons of the intended commencement, completion, or suspension, as prescribed by Ordinance of the Ministry of Environment:

1. The Minister of Environment;
2. The head of the approving agency (only where approval, etc. is required for a project subject to environmental impact assessment).

Article 38 (Succession to Obligations to Fulfill Agreed Terms and Conditions, etc.)(1)

If a project implementer sells his/her business to a third person, dies, or merges with a corporation, the transferee, heir, or the corporation surviving such merger or newly incorporated in the course of the merger shall succeed to the project implementer's obligations under the provisions of Articles 35 through 37: Provided, That the operator of the facilities transferred by sale, inheritance, or merger shall succeed to such obligations, if the facilities are operated by an independent operator.

(2) The project implementer who succeeds to the preceding project implementer's obligations shall notify the head of the approving agency and the Minister of Environment of the matters specified by Ordinance of the Ministry of Environment, such as the progress of fulfillment of agreed terms and conditions and the grounds for succession, within 30 days.

Article 39 (Management and Supervision of Agreed Terms and Conditions)(1) The head of the approving agency shall ascertain whether a project implementer obliged to obtain approval, etc. has fulfilled agreed terms and conditions.

(2) The Minister of Environment or the head of the approving agency may require a project implementer to submit data relevant to the fulfillment of agreed terms and conditions or may authorize subordinate public officials to enter the project implementer's place of business for inspection. Article 60 (2) and (3) shall apply mutatis mutandis to such inspections.

(3) When the head of the approving agency intends to conduct a final inspection of a project, he/she shall ascertain whether agreed terms and conditions have been fulfilled and shall notify the Minister of Environment of the results thereof. If the head of the approving agency deems it necessary in such cases, he/she may request the Minister of Environment to conduct a joint inspection to ascertain whether agreed terms and conditions have been fulfilled.

Article 40 (Order to Take Measures, etc.)(1) If a project implementer obliged to obtain approval, etc. fails to fulfill agreed terms and conditions, the head of the approving agency shall order the project implementer to take measures necessary for fulfillment.

(2) If the head of the approving agency finds that a project severely affects the environment as a consequence of the failure of the project implementer obliged to obtain approval, etc. to comply with an order issued under paragraph (1) to take measures, he/she shall issue an

order to suspend all or some construction works on the project.

(3) The Minister of Environment shall ascertain whether agreed standards have been complied with, if agreed terms and conditions include any matter concerning agreed standards, and may order a project implementer not obliged to obtain approval, etc. to suspend construction works or to take other necessary measures or may request the head of the approving agency to issue an order to suspend construction works or to take other necessary measures, if he/she deems it necessary to manage the fulfillment of agreed terms and conditions. In such cases, the head of the approving agency shall comply with such request, except in extenuating circumstances.

(4) When the head of the approving agency issues an order to take other necessary measures or to suspend construction works under the provisions of paragraphs (1) through (3) or if a project implementer takes measures in accordance with paragraph (3), the head of the approving agency or project implementer shall notify the Minister of Environment of the details thereof.

Article 41 (Re-Assessment)(1) If a project severely impacts on the surrounding environment as a consequence of a cause or event unforeseen as at the time of a consultation on environmental impact assessment but which occurs after the project is commenced, and if it is impracticable to prepare a plan for environmental conservation merely by taking measures or by issuing an order to take measures under Article 36 (2) or 40, the Minister of Environment may request the head of the Korea Environment Institute or the head of a specialized institution to conduct re-assessment, subject to consultation with the head of the approving agency.

(2) Upon receipt of a request under paragraph (1), the head of the Korea Environment Institute or the head of a specialized institution shall re-assess the relevant project plan, etc. and shall notify the Minister of Environment and the head of the approving agency of the results thereof within a period specified by Presidential Decree.

(3) Upon receipt of notice of results of re-assessment under paragraph (2), the Minister of Environment or the head of the approving agency may require the relevant project implementer to take measures necessary for environmental conservation or request the head of another administrative agency to issue an order to take necessary measures.

SECTION 5 Environmental Impact Assessment under Municipal Ordinance of City/Do

Article 42 (Environmental Impact Assessment under Municipal Ordinance of City/Do)(1) If the local government of the Special Metropolitan City, a Metropolitan City, or a Si with a population of at least 500,000 persons (hereinafter referred to as "City/Do")

deems it necessary to conduct environmental impact assessment for a project that does not fall within the categories and scope of the projects subject to environmental impact assessment but falls within the scope specified by Presidential Decree, taking local conditions, etc. into consideration, it may authorize the person who implements the project to conduct environmental impact assessment, as prescribed by Municipal Ordinance of the City/Do: Provided, That the foregoing shall not apply to projects subject to mini

environmental impact assessment under Article 43.

(2) A Si with a population of at least 500,000 persons may conduct environmental impact assessment, as prescribed by Municipal Ordinance of the Si, only if the Do having jurisdiction over the area of the Si has not enacted relevant regulations of environmental impact assessment by Municipal Ordinance.

(3) The sectors subject to the environmental impact assessment conducted under paragraph (1) or (2), the sub-items of such environmental impact assessment, the procedures for preparing environmental impact assessment reports and gathering consensus thereon, the procedures for consultations on environmental impact assessment reports and the management of agreed terms and conditions, and other necessary matters, shall be prescribed by Municipal Ordinance of each City/Do.

CHAPTER IV MINI ENVIRONMENTAL IMPACT ASSESSMENT

Article 43 (Subject Matters for Brief Environmental Impact Assessment)(1) A person (hereafter in this Chapter referred to as "project implementer") who intends to implement a development project that meets each of the following criteria (hereinafter referred to as "project subject to mini environmental impact assessment") shall conduct brief environmental impact assessment:

1. A development project implemented in any of the areas specified by Presidential Decree as areas requiring conservation and the areas requiring planned development for environmental conservation because reckless development is anticipated (hereinafter referred to as "specific-use zone for conservation");

2. A development project specified by Presidential Decree as a development project not falling within any category, or the scope, of projects subject to environmental impact assessment.

(2) Notwithstanding paragraph (1), each of the following projects shall be excluded from the projects subject to brief environmental impact assessment:

1. A project for emergency measures under Article 37 of the Framework Act on the Management of Disasters and Safety;

2. A development project on which the Minister of National Defense has held consultations with the Minister of Environment since he/she found it necessary for stringent protection of military secrets or for an urgent military operation;

3. A development project on which the Director of the National Intelligence Service has held consultations with the Minister of Environment since he/she found it necessary for secrets requiring stringent protection for national security.

Article 44 (Preparation of Brief Environmental Impact Assessment Reports, Requests for Consultations thereon, etc.)(1) A project implementer obliged to obtain approval, etc. shall formulate a brief environmental impact assessment report and submit it to the head of the approving agency before obtaining approval, etc. with regard to a project subject to brief environmental impact assessment.

(2) The head of the approving agency shall submit a brief environmental impact assessment

report to the Minister of Environment before approving or confirming a project subject to brief environmental impact assessment and shall request the Minister of Environment to consult therewith on brief environmental impact assessment.

(3) The details of a brief environmental impact assessment report and the methods of drawing up a brief environmental impact assessment report under paragraph (1), the timing and procedures for requesting consultations on brief environmental impact assessment under paragraph (2), and other necessary matters shall be prescribed by Presidential Decree.

Article 45 (Review of Brief Environmental Impact Assessment Reports and Notification thereof)

(1) Upon receipt of a request for consultation under Article 44 (2), the Minister of Environment shall review the compliance with the procedures for requesting consultation and the details of the brief environmental impact assessment report and shall notify the head of the approving agency of agreed terms and conditions within a period specified by Presidential Decree from the day on which he/she is requested for consultation.

(2) Article 17 (2) shall apply mutatis mutandis to the review of a brief environmental impact assessment report under paragraph (1). In such cases, the term "strategic environmental impact assessment report" shall be deemed "brief environmental impact assessment report."

(3) If the Minister of Environment finds, as a result of the review of a brief environmental impact assessment report under paragraph (1), that it is necessary to amend or adjust the environmental impact assessment report or the relevant project plan or any of the reasons specified by Presidential Decree exists, he/she may request the head of the approving agency to amend or adjust the brief environmental impact assessment report or the project plan or may request the head of the approving agency to require the project implementer to amend or adjust the report or plan. In such cases, the head of the approving agency shall comply with such request, except in extenuating circumstances.

(4) The guidelines and methods for reviewing brief environmental impact assessment reports, etc. under paragraph (1) and matters necessary for amending or adjusting brief environmental impact assessment reports, etc. under paragraph (3) shall be prescribed by Presidential Decree.

Article 46 (Reflection of Agreed Terms and Conditions, etc.)(1) Upon receipt of notice of agreed terms and conditions under Article 45, a project implementer or the head of the approving agency shall take measures necessary for reflecting the terms and conditions in the relevant project plan.

(2) The provisions of Article 30 (2) through (4) shall apply mutatis mutandis to the reflection of agreed terms and conditions, notification of results, requesting of reflection of agreed terms and conditions, etc.

Article 47 (Prohibition against Premature Implementation of Projects)(1) No project implementer shall commence any construction works for a project subject to brief environmental impact assessment before the procedure for consultations under Articles 44

and 45 is completed.

(2) No head of the approving agency shall approve a project subject to brief environmental impact assessment before the procedure for consultations under Articles 44 and 45 is completed.

(3) Article 34 (3) and (4) shall apply mutatis mutandis to an order issued against a person who violates paragraph (1) to suspend construction works or to take measures.

Article 48 (Notification of Commencement, etc. of Projects)

@Article 37 shall apply mutatis mutandis to the notification of commencement, etc. of a project subject to brief environmental impact assessment.

Article 49 (Management and Supervision of Performance of Agreed Terms and Conditions)(1) A project implementer shall perform agreed terms and condition, as reflected in the project plan, when he/she implements the relevant development project.

(2) Articles 39 and 40 shall apply mutatis mutandis to the ascertainment and notification of performance of agreed terms and conditions under paragraph (1), submission and inspection of relevant data, issuance or an order to take measures, etc.

CHAPTER V SPECIAL PROVISIONS CONCERNING ENVIRONMENT IMPACT ASSESSMENTS, ETC.

Article 50 (Special Provisions concerning Integrated Formulation of Master Development Plans and Project Plans, etc.)(1) Notwithstanding subparagraphs 1 and 2 of Article 2, strategic environmental impact assessment and environmental impact assessment shall be integrated for review, if a master development plan and a plan for a project subject to environmental impact assessment are integrated, but only either the strategic environmental impact assessment or the environmental impact assessment may be conducted.

(2) If the timing for consultation on a plan subject to the strategic environmental impact assessment under Article 16 (1) and (2) coincides with the timing for the relevant plan subject to the environmental impact assessment under Article 27 (1), only the environmental impact assessment need be conducted.

Article 51 (Special Provisions concerning Procedures, etc. for Consultation on Environmental Impact Assessment)(1) With respect to a project specified by Presidential Decree as a project that has a minor environmental impact, among the projects subject to environmental impact assessment, the project implementer may formulate an environmental impact assessment report in the form prescribed by Presidential Decree (hereinafter referred to as "summary assessment report") and may gather consensus under Article 25 and also request consultation under Article 27.

(2) When a project implementer not obliged to obtain approval, etc. determines the subject-matters, etc. for environmental impact assessment under Article 24 (1), he/she shall determine whether he/she is able to conduct environmental impact assessment in accordance with the procedure under paragraph (1) (hereinafter referred to as "summary process"), after deliberation by the environmental impact assessment council thereon.

(3) When a project implementer requests the Minister of Environment to determine the subject-matters, etc. for environmental impact assessment under Article 24 (2) or (3), he/she may request the Minister of Environment to determine whether he/she is permitted to conduct environmental impact assessment in accordance with the summary process.

(4) Upon receipt of a request made under paragraph (3), the head of the approving agency or the Minister of Environment shall determine whether to permit environmental impact assessment in accordance with the summary process, after deliberation by the environmental impact assessment council thereon, and shall notify the project implementer of the results thereof within a period specified by Presidential Decree.

(5) Article 24 (5) shall apply mutatis mutandis where it is necessary to determine whether a person is permitted to conduct environmental impact assessment in accordance with the summary process.

Article 52 (Preparation of Evaluation Reports upon Completion of Summary

Process)(1) Upon completion of the procedures for gathering consensus and for consultations under Article 51 (1), a project implementer not obliged to obtain approval, etc. shall formulate a new environmental impact assessment report containing the opinions presented and agreed terms and conditions: Provided, That such project implementer shall hear the opinion of the Minister of Environment, if the opinions presented are different from agreed terms and conditions.

(2) Upon completion of the procedures for collecting opinions and for consultations under Article 51 (1), a project implementer obliged to obtain approval, etc. shall formulate a new environmental impact assessment report containing the opinions presented and agreed terms and conditions, and shall submit it to the head of the approving agency: Provided, That such project implementer shall hear the opinion of the Minister of Environment via the head of the approving agency, if the opinions presented are different from agreed terms and conditions.

(3) When the Minister of Environment intends to notify his/her opinion under the proviso to paragraph (1) or the proviso to paragraph (2), he/she shall bring the case to the environmental impact assessment council for deliberation and shall notify the environmental impact assessment and the relevant project implementer of his/her opinion within a period specified by Presidential Decree.

(4) When the head of the approving agency notifies the Minister of Environment of whether agreed terms and conditions are reflected pursuant to Article 30 (3), he/she shall submit the environmental impact assessment report under paragraph (1) or (2), along with the notice.

(5) The methods and procedures for preparing an environmental impact assessment to be formulated again under paragraph (1) or (2) and other necessary matters shall be prescribed by Presidential Decree.

CHAPTER VI ENGAGEMENT OF AGENT FOR ENVIRONMENTAL IMPACT ASSESSMENT

Article 53 (Engagement of Agent for Environment Impact Assessment)(1) When a

person who intends to conduct environmental impact assessment, etc. drafts the following documents (hereinafter referred to as "environmental impact assessment report, etc."), he/she may engage a person who operates an environmental impact assessment business registered under Article 54 (1) (hereinafter referred to as "environmental impact assessment agent") for drafting such documents on his/her behalf:

1. A draft report or report on environmental impact assessment;
2. A report on a follow-up survey of environmental impact;
3. A summary assessment report.

(2) When the head of any of the following institutions and organizations (hereinafter referred to as "contracting authority") intends to engage an agency for the preparation of an environment impact assessment report or others under paragraph (1), he/she shall evaluate the agent's capability to perform the project, including technical capacity and management capability: <Newly Inserted by Act No. 13040, Jan. 20, 2015>

1. A national agency or a local government;
2. A public enterprise or a quasi-governmental institution defined by Article 5 of the Act on the Management of Public Institutions;
3. A local government public corporation or a local government-invested public corporation defined by the Local Public Enterprises Act;
4. Other institutions and organizations specified by Presidential Decree.

(3) If the contacting authority deems it necessary when evaluating a person's capability to perform a project under paragraph (2), the authority may request the Environmental Impact Assessment Association established pursuant to Article 71 to cooperate in the evaluation. In such cases, the Environmental Impact Assessment Association shall comply with such request, except in an exceptional situation. <Newly Inserted by Act No. 13040, Jan. 20, 2015>

(4) The matters necessary for the target, standards, and procedures for the evaluation of the capability to perform a project under paragraphs (2) and (3) and for cooperation therein, etc. shall be prescribed by Presidential Decree. <Newly Inserted by Act No. 13040, Jan. 20, 2015>

(5) A person who intends to conduct environmental impact assessment shall comply with the following rules: <Amended by Act No. 13040, Jan. 20, 2015>

1. No person shall copy any details of other environmental impact assessment reports to make an environmental impact assessment report;
2. No person shall make a false or inadequate document or data in preparing an environmental impact assessment report;
3. Environmental impact assessment reports and basic data for such reports shall be retained for a period specified by Ordinance of the Ministry of Environment: Provided, That the foregoing shall not apply where environmental impact assessment reports, etc. are prepared in electronic document and entered in the information support system under Article 70 (3), as prescribed by Ordinance of the Ministry of Environment;

4. Where it is intended to sign an agency contract with an environmental impact assessment agent on the preparation of environmental impact assessment reports, etc., such agency contract shall be signed separately from the contracts on the formulation and implementation of a plan or a project subject to the relevant environmental impact assessment, etc.

(6) The criteria for judgment on false or inadequate documentation under paragraph (5) 2 shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 13040, Jan. 20, 2015>

Article 54 (Registration of Environment Impact Assessment Businesses)(1) A person who intends to engage in business as an agent for environmental impact assessment (hereinafter referred to as "environmental impact assessment business") shall be equipped with technical personnel, including environmental impact assessors, facilities, and equipment and shall be registered with the Minister of Environment.

(2) If any material fact specified by Presidential Decree changes, such as technical personnel, and registered under paragraph (1), such change shall be registered.

(3) The duties of an environmental impact assessor registered as one of technical personnel for an environmental impact assessment business under paragraph (1) or (2) shall be as follows:

1. Surveys on present environmental conditions;
2. Estimation and analysis of environmental impacts;
3. Formulation of plans for environmental conservation and evaluation of alternatives;
4. Preparation and management of environmental impact assessment reports, etc.

(4) The technical personnel, facilities, and equipment required under paragraph (1), the rating of environmental impact assessment businesses, and the scope of business activities permissible for each rating shall be prescribed by Presidential Decree.

Article 55 (Grounds for Disqualifications)

The following persons shall be disqualified from being registered for an environmental impact assessment business: <Amended by Act No. 13040, Jan. 20, 2015>

1. A person under adult guardianship or a person under limited guardianship;
2. A person declared bankrupt but not reinstated yet;
3. A person in whose case two years (or six months, if his/her registration was cancelled under 58 (1) 4) have not passed since his/her registration was cancelled under Article 58;
4. A person in whose case two years have not passed after a sentence of imprisonment with labor or any heavier punishment issued to him/her for a violation of this Act was completely executed (or is deemed to have been completely executed) or finally pardoned;
5. A corporation whose representative or any of executive officers falls under subparagraphs 1 through 4.

Article 56 (Obligations of Environment Impact Assessment Agents)(1) Every environmental impact assessment agent shall observe the following rules:

1. No environmental impact assessment agent shall copy details of another environmental impact assessment report to make an environmental impact assessment;

2. No environmental impact assessment agent shall formulate a false or deliberately deficient document in preparing an environmental impact assessment report and basic data for such report;

3. Every environmental impact assessment agent shall retain environmental impact assessment reports and basic data for such reports for a period specified by Ordinance of the Ministry of Environment: Provided, That the foregoing shall not apply where environmental impact assessment reports, etc. are retained in the form of an electronic document in the information support system under Article 70 (3), as prescribed by Ordinance of the Ministry of Environment;

4. No environmental impact assessment agent shall lend his/her registration certificate or title to a third party;

5. No environmental impact assessment agent shall subcontract the work awarded under a contract for environmental impact assessment (excluding the work of surveying and measuring the subject-matters for environmental impact assessment according to the requirements prescribed, and for the sectors specified, by Ordinance of the Ministry of Environment) to a third party;

6. Every environmental impact assessment agent shall undergo precise inspections under Article 11 of the Environmental Examination and Inspection Act for measuring instruments, if he/she keeps environmental measuring instruments and uses such instruments for measuring air, water quality, soil, noise, vibration, etc. to apply the results of measurement to environmental impact assessment reports, etc. formulated by him/her.

(2) The criteria for judgment on false or inadequate documentation under paragraph (1) 2 shall be prescribed by Ordinance of the Ministry of Environment.

Article 57 (Permanent or Temporary Closure of Business)

If an environmental impact assessment agent intends to permanently or temporarily close his/her environmental impact assessment business, he/she shall report the closure to the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment. The period for temporary closure in such cases shall not exceed two years.

Article 58 (Cancellation of Registration, etc.)(1) In any of the following cases, the Minister of Environment may cancel the registration of an environmental impact assessment agent or order an environmental impact assessment agent to suspend business operations for a specified period not exceeding six months: Provided, That registration shall be cancelled in any case falling under subparagraphs 1 through 3 and 7: <Amended by Act No. 13040, Jan. 20, 2015>

1. Where an environmental impact assessment agent has been registered by fraud or other wrongful means;

2. Where an environmental impact assessment agent signs a new agency contract for environmental impact assessment during suspension of business operations;

3. Where an environmental impact assessment agent commits again any offense punishable by suspension of business operations after being punished by the suspension of business

operations twice during the latest one year;

4. Where an environmental impact assessment agent fails to commence his/her environmental impact assessment agency business within two years after being registered or has no track record of business performance as an environmental impact assessment agent for at least two consecutive years;

4-2. Where an environmental impact assessment agent has undergone an evaluation of the capability to perform a project under Article 53 (2) by fraud or other wrongful means;

5. Where an environmental impact assessment agent fails to be equipped with the technical personnel, facilities, and equipment under Article 54 (1);

6. Where an environmental impact assessment agent changes any material fact without filing for the registration of the change, in violation of Article 54 (2);

7. Where an environmental impact assessment agent falls under any subparagraph of Article 55: Provided, That the foregoing shall not apply where the corporation that falls under subparagraph 5 of Article 55 appoints a replacement for such executive officer within six months;

8. Where an environmental impact assessment agent breaches an obligation under any subparagraph of Article 56 (1).

(2) The guidelines for the cancellation of registration of an environmental impact assessment business or for the issuance of an order to suspend business operations under paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment, taking into consideration grounds for such dispositions, the degree of each violation, etc.

Article 59 (Continuation of Business Operations by Environmental Impact Assessment Agents after Cancellation of Registration or Suspension of Business Operations)

(1) A person whose registration is cancelled or business is suspended under Article 58 may continue his/her environmental impact assessment business only regarding the agency contracts concluded for environmental impact assessment before such disposition is made.

(2) A person who continues his/her environmental impact assessment business under paragraph (1) shall be deemed an environmental impact assessment agent under this Act until relevant business affairs are completed.

(3) No person who continues his/her environmental impact assessment business under paragraph (1) shall conclude any new agency contract, other than the agency contracts signed for environmental impact assessment before the relevant disposition is made.

(4) If the Minister of Environment finds that a person whose registration is cancelled on the ground specified in Article 58 (1) 1 or 5 is unable to continue environmental impact assessment properly, he/she may place restrictions on the performance of all or part of the agency contracts concluded for environmental impact assessment before the relevant disposition is made.

Article 60 (Reporting and Inspection)(1) If the Minister of Environment deems it necessary for ascertaining whether an environmental impact assessment business is properly operated,

he/she may order the environmental impact assessment agent to submit a report or data, as necessary, and may authorize relevant public officials to enter the environmental impact assessment agent's office or place of business or any other place, as necessary, to inspect books of account, documents, and other things or to ask questions to people involved.

(2) When it is intended to conduct an inspection under paragraph (1), the environmental impact assessment agent shall be informed of the inspection plan, including grounds for inspection and the scope of inspection, by no later than seven days before the date of inspection: Provided, That the foregoing shall not apply where it is necessary to conduct an inspection urgently or where it seems unlikely that an inspection will achieve its objectives due to risk of destruction of evidence, if the environmental impact assessment agent is informed of the inspection in advance.

(3) A public official who intends to enter a place for inspection under paragraph (1) shall carry an identification certificate indicating his/her authority and produce it to people involved.

Article 61 (Reporting on Performance of Environmental Impact Assessment Agents)(1)

Each environmental impact assessment agent shall report the track record of his/her performance as an environmental impact assessment agent for the preceding year to the Minister of Environment by no later than January 31 each year, as prescribed by Ordinance of the Ministry of Environment.

(2) The Minister of Environment shall publish the track record of performance of each environmental impact assessment agent and the details of administrative dispositions at least once a year, as prescribed by Ordinance of the Ministry of Environment.

Article 62 (Guidelines for Calculation of Expenses for Engagement of Environmental Impact Assessment Agents)

The Minister of Environment shall determine and publicly notify the guidelines for calculating necessary expenses incurred in engaging an agent for environmental impact assessment.

CHAPTER VII ENVIRONMENTAL IMPACT ASSESSORS

Article 63 (Environmental Impact Assessors)(1) Any person who intends to work as an environmental impact assessor shall pass a qualification examination conducted by the Minister of Environment. In such case, the Minister of Environment shall issue a qualification certificate to a person who successfully passes such qualification examination.

(2) The following persons shall be disqualified from working as an environmental impact assessor: <Amended by Act No. 13040, Jan. 20, 2015>

1. A minor, a person under adult guardianship, or a person under limited guardianship;
2. A person declared bankrupt but not yet reinstated;
3. A person in whose case two years have not passed since imprisonment with labor or heavier punishment sentenced to him/her was completely executed (or is deemed to have been completely executed) or finally pardoned;
4. A person who is under the suspension of the execution of imprisonment with labor or heavier punishment as declared by a court;
5. A person in whose case three years have not passed since his/her qualification as an

environmental impact assessment agent was revoked.

(3) Every environmental impact assessor shall complete the educational and training courses provided by the Minister of Environment.

(4) No person except environmental impact assessors shall use the title "environmental impact assessor" or any similar title.

(5) Matters necessary for the qualifications for a qualification examination for an environmental impact assessor under paragraph (1), testing methods, partial exemption of testing subjects, management of qualifications, persons eligible for the educational and training courses referred to in paragraph (3), procedures and fees for such educational and training courses, etc. shall be prescribed by Presidential Decree.

Article 64 (Obligations of Environmental Impact Assessors)(1) Every environmental impact assessor shall perform business affairs impartially in accordance with fundamental principles of environmental impact assessment.

(2) No environmental impact assessor shall lend his/her qualification certificate as an environmental impact assessment agent, issued by the Minister of Environment, to a third party or allow a third party to work as an environmental impact assessor under his/her name.

Article 65 (Revocation of Qualifications of Environmental Impact Assessors, etc.)(1)

In any of the following cases, the Minister of Environment may revoke the qualification of an environmental impact assessor or suspend the qualification for a period not exceeding three years: Provided, That qualification shall be revoked in cases under subparagraphs 1, 2, and 4:

1. If an environmental impact assessor is found to have obtained the qualification by fraud or other wrongful means;

2. If an environmental impact assessor commits an offense punishable by the suspension of qualification again even after being punished by the suspension of qualification twice during the latest one year;

3. If an environmental impact assessor, intentionally or by gross negligence, makes a false or inadequate environmental impact assessment report or document;

4. If an environmental impact assessor falls within any of the categories specified in Article 63 (2);

5. If an environmental impact assessor fails to complete the educational and training courses provided by the Minister of Environment, in violation of Article 63 (3) without just cause;

6. If an environmental impact assessor lends his/her qualification certificate to a third party or allows a third party to work as an environmental impact assessor under his/her name, in violation of Article 64 (2).

(2) The guidelines for the revocation or suspension of qualifications of environmental impact assessors shall be prescribed by Ordinance of the Ministry of Environment, taking into consideration grounds for such dispositions, the gravity of each violation, etc.

CHAPTER VIII SUPPLEMENTARY PROVISIONS

Article 66 (Publication of Environment Impact Assessment Reports, etc.)(1) Unless

publication is restricted by other statute, the Minister of Environment may publish environmental impact assessment reports, etc. through the information support system, etc. under Article 70 (3).

(2) If a person who submits an environmental impact assessment report requests the Minister of Environment not to publish all or part of the environmental impact assessment report on any of the following grounds, the Minister of Environment may elect not to publish it, place restrictions on the extent of publication, or delay publication:

1. If it is necessary for national security, such as the protection of military secrets;
2. If an environmental impact assessment report contains confidential information of the relevant project;
3. If a person requests non-publication, specifying the extent of publication, the timing for publication, etc., because publication appears to impede implementing the relevant plan or project.

(3) The timing and methods for the publication of environmental impact assessment reports, etc. under paragraph (1) and other necessary matters shall be prescribed by Presidential Decree.

(4) Except as otherwise provided for in paragraphs (1) through (3), matters not provided for in this Act in connection with the publication of environmental impact assessment reports, etc. shall be governed by the provisions of the Official Information Disclosure Act.

Article 67 (Hearings)

When the Minister of Environment intends to make any of the following dispositions, he/she shall hold a hearing:

1. Cancellation of registration of an environmental impact assessment agent under Article 58;
2. Revocation of qualifications of an environmental impact assessor under Article 65.

Article 68 (Tasks Entrusted to Korea Environment Institute or Specialized Institutions)

In order to conduct environmental impact assessments, etc. efficiently, the Minister of Environment may entrust the following tasks to the Korea Environment Institute or other specialized institution:

1. Development, formulation, amendment of various indexes necessary for environmental impact assessments, etc.;
2. Evaluation of validity of techniques for environmental impact assessments, etc. and techniques for estimation and development of such techniques;
3. Operation of the information support system related to environmental impact assessment under Article 70 (3);
4. Other missions necessary for efficiently conducting environmental impact assessments, etc.

Article 69 (Duty of Confidentiality)

No environmental impact assessment agent, environmental impact assessor, expert conducting or formerly conducting a review of an environmental impact assessment report,

or person who works or worked for a specialized institution as an officer or employee shall divulge confidential information acquired in the course of performing his/her duties in connection with environmental impact assessments, etc. to a third party or misappropriate such confidential information.

Article 70 (Establishment, Operation, etc. of Information Support System for Environment Impact Assessment)(1) In order to improve the expertness, objectivity, predictability, etc. of environmental impact assessments, etc., the Minister of Environment shall collect and disseminate the information related to environmental impact assessments, etc.

(2) The Minister of Environment shall formulate plans necessary for improving technology for environmental impact assessments, etc. and for training specialized human resources.

(3) The Minister of Environment shall establish and operate an information support system related to environmental impact assessments, etc. for the collection and dissemination of information under paragraph (1) and the publication of environmental impact assessment reports, etc. under the proviso to Article 53 (5) 3, the proviso to Article 56 (1) 3, and Article 66 (1). <Amended by Act No. 13040, Jan. 20, 2015>

(4) Matters necessary for the establishment, operation, etc. of the information support system under paragraph (3) shall be determined by the Minister of Environment.

Article 71 (Environment Impact Assessment Association)(1) Environmental impact assessment agents and persons who are engaged in business related to environmental impact assessments, etc. may establish an environmental impact assessment association (hereafter in this Chapter referred to as the "Association") for the surveys, research, education, and publicity on environmental impact assessments, etc. and other business activities related to environmental impact assessments, etc.

(2) The Association shall be in the form of a corporation.

(3) The establishment of the Association is subject to prior permission from the Minister of Environment.

(4) If the Minister of Environment finds that the Association is operated in breach of any statute or any provision of its articles of incorporation, he/she may order the Association to amend its articles of incorporation or business plan or replace officers with others.

(5) Except as otherwise expressly provided for in this Act, the Association shall be governed by the provisions concerning incorporated associations in the Civil Act.

Article 72 (Delegation or Entrustment of Authority)(1) The Minister of Environment may delegate part of his/her authority under this Act to the heads of regional environmental agencies and offices, as prescribed by Presidential Decree.

(2) The Minister of Environment may entrust the head of the Association or the head of a specialized institution with some business affairs assigned to him/her, as prescribed by Presidential Decree.

(3) Officers and employees of the Association or a specialized institution, who carry out business affairs entrusted under paragraph (2), or officers and employees of the Korean

Environment Institute or a specialized institution, who carry out business affairs under Article 41 (1) or (2) or 68, shall be deemed public officials for the purposes of applying the provisions of Articles 129 through 132 of the Criminal Act to them.

CHAPTER IX PENALTY PROVISIONS

Article 73 (Penalty Provisions)

Each of the following persons shall be punished by imprisonment with labor not exceeding five years or by a fine not exceeding 50 million won:

1. A person who fails to comply with an order issued to suspend construction works under Article 34 (3) or 40 (2);
2. A project implementer who fails to comply with an order issued to suspend construction works under Article 34 (4) or 40 (3);
3. A person who fails to comply with an order issued to suspend construction works or to take measures under Article 34 (3) or (4) (limited to where an order is issued to reinstate an area), which shall apply mutatis mutandis pursuant to Article 47 (3).

Article 74 (Penalty Provisions)(1) Each of the following persons shall be punished by imprisonment with labor not exceeding two years or by a fine not exceeding twenty million won: <Amended by Act No. 13040, Jan. 20, 2015>

1. A project implementer who fails to conduct the follow-up survey of environmental impacts under Article 36 (1);
2. A project implementer who fails to comply with an order to suspend construction works under Article 40 (2) or (3), which shall apply mutatis mutandis pursuant to Article 49 (2);
3. A person who copies details of another environmental impact assessment report to make an environmental impact assessment report, in violation of Article 53 (5) 1 or 56 (1) 1;
4. A person who makes a false presentation in making an environmental impact assessment report or data, in violation of Article 53 (5) 2 or 56 (1) 2;
5. A person who engages in business as an agent for environmental impact assessment without being registered under Article 54 (1);
6. A person who is registered under Article 54 (1) by fraud or other wrongful means;
7. A person who concludes any new agency contract for environmental impact assessment after his/her registration is cancelled for violation of Article 59 (3) or during a period for suspension of business operations.

(2) Each of the following persons shall be punished by imprisonment with labor for a period not exceeding one year or by a fine not exceeding ten million won:

1. A person who commences construction works without completing environmental impact assessments, etc., in violation of Article 22 or 43;
2. A person who commences construction works before completion of the procedures for consultation or re-consultation, in violation of Article 34 (1) or 47 (1);
3. A person who refuses to submit data, or interferes with, or evades, entry for inspection without just cause, in violation of Article 39 (2) (including cases to which the aforesaid provisions shall apply mutatis mutandis pursuant to Article 49 (2));

4. A person who lends his/her registration certificate or title to a third party, in violation of Article 56 (1) 4;
5. A person who subcontracts an environmental impact assessment (excluding the work of surveying and measuring the subject-matters for environmental impact assessment according to the requirements prescribed, and for the sectors specified, by Ordinance of the Ministry of Environment) to a third party, in violation of Article 56 (1) 5;
6. A person who refuses to submit data or refuses to report or undergo an inspection without just cause, in violation of Article 60 (1);
7. A person who lends his/her qualification certificate to a third party or allow a third party to work as an environmental impact assessor under his/her name, in violation of Article 64 (2);
8. A person who divulges or misappropriates confidential information, in violation of Article 69.

Article 75 (Joint Penalty Provisions)

If the representative of a corporation or an agent, employee, or servant working for a corporation or for an individual commits an offense in violation of Article 73 or 74 in connection with the business of the corporation or individual, not only shall such offender be punished accordingly, but the corporation or individual also shall be punished by a fine prescribed in the relevant Article: Provided, That the foregoing shall not apply where the corporation or individual has not neglected due care and supervision over the relevant business to prevent such offense.

Article 76 (Administrative Fines)(1) Each of the following persons shall be punished by an administrative fine not exceeding twenty million won:

1. A person who commences construction works before completing the procedure for amendment of agreed terms and terms, in violation of Article 34 (1);
2. A person who fails to comply with an order issued under Article 40 (1) to take measures;
3. A person who fails to comply with an order issued under Article 40 (3) to take other necessary measures;
4. A project implementer who fails to comply with an order issued under Article 41 (3) to take measures.

(2) Each of the following persons shall be punished by an administrative fine not exceeding ten million won: <Amended by Act No. 13040, Jan. 20, 2015>

1. A person who fails to conduct a part of a follow-up survey of environmental impacts, in violation of Article 36 (1);
2. A person who fails to give notice or to take necessary measures, in violation of Article 36 (2);
3. A person who makes an inadequate environmental impact assessment report or data, in violation of Article 53 (5) 2 or 56 (1) 2;
4. A project implementer who fails to conclude an agency contract for the formulation of environmental impact assessment reports, etc. separately from contracts on the formulation and implementation of a plan or a project subject to the relevant environmental impact

assessment, etc., in violation of Article 53 (5) 4;

5. A person who uses the title "environmental impact assessor" or any similar title, in violation of Article 63 (4).

(3) Each of the following persons shall be punished by an administrative fine not exceeding five million won: <Amended by Act No. 13040, Jan. 20, 2015>

1. A person who fails to record the progress of performance of agreed terms and conditions in the management record book or fails to keep the management record book at the project site, in violation of Article 35 (2);

2. A person who fails to designate a manager or give notice of designation, in violation of Article 35 (3);

3. A person who fails to give notice of the results of a follow-up survey of environmental impacts, in violation of Article 36 (1);

4. A person who fails to give notice of commencement, completion, or suspension of a project, in violation of Article 37;

5. A person who fails to give notice of the matters specified by Ordinance of the Ministry of Environment, such as the progress of performance of agreed terms and conditions and the grounds for succession, in violation of Article 38 (2);

6. A person who fails to comply with an order issued under Article 40 (1) or (3), which shall apply mutatis mutandis pursuant to Article 49 (2), to take necessary matters (excluding orders to suspend construction works);

7. A person who fails to preserve environmental impact assessment reports and basic data for such reports, in violation of Article 53 (5) 3 or 56 (1) 3;

8. A person who makes a change with respect to any material fact without registering such change, in violation of Article 54 (2);

9. A person who fails to report the track record of performance as an environmental impact assessment agent, in violation of Article 61 (1).

(4) The administrative fines under the provisions of paragraphs (1) through (3) shall be imposed and collected by the Minister of Environment, as prescribed by Presidential Decree.

ADDENDA (Omitted)

25. Enforcement Decree of the Environmental Impact Assessment Act

[Enforcement Date 30. Dec, 2015.] [Presidential Decree No.26807, 30. Dec, 2015., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Decree is to provide for matters delegated by the Environmental Impact Assessment Act and matters necessary for the enforcement thereof.

Article 2 (Subject Matter for Environmental Impact Assessment for each Sector)(1)

The subject matter for assessment in the sector of environmental impact assessment

(hereinafter referred to as "environmental impact assessment sector") defined in the Article 7 (1) of the Environmental Impact Assessment Act (hereinafter referred to as the "Act") shall be as prescribed in attached Table 1.

(2) Assessment in the environmental impact assessment sector under Article 7 (2) of the Act shall be assessed by scientifically forecasting and analysing environmental impacts on the basis of outcomes of the on-site surveys and documentary search conducted with respect to the area subject to environmental impact assessment, etc., under Article 6 of the Act.

(3) Further details about the methods of assessment in the environmental impact assessment sector under paragraph (2) shall be determined and publicly notified by the Minister of Environment, in consultation with the heads of central administrative agencies.

Article 3 (Matters subject to Deliberation by Environmental Impact Assessment Council)

"Matters specified by Presidential Decree" in Article 8 (1) 5 of the Act means the following matters:

1. Whether to omit a presentation or public hearing under Article 13 (3) of the Act;
2. Other matters that the chairperson of the environmental impact assessment council under Article 8 (1) of the Act deems necessary for efficient environmental impact assessment of a particular plan or project.

Article 4 (Formation of Environmental Impact Assessment Council)(1) The chairperson (hereinafter referred to as "the chairperson") of the environmental impact assessment council under Article 8 (1) of the Act (hereinafter referred to as "Environmental Impact Assessment Council") shall be appointed by the head of the consulting agency for strategic environmental impact assessments, etc. under Article 16, 27, or 44 of the Act (hereinafter referred to as the "consulting agency"), the head of the planning agency, or the head of the approving agency under Article 24 (5) of the Act (hereinafter referred to as "the head of the approving agency"), from among his/her subordinate public officials.

(2) The Environmental Impact Assessment Council shall be comprised of the following members: <Amended by Presidential Decree No. 25713, Nov. 11, 2014; Presidential Decree No. 26807, Dec. 30, 2015>

1. At least one public official appointed by the head of the consulting agency;
2. At least one public official appointed by the head of the planning agency or by the head of the approving agency, etc.;
3. At least one person commissioned by the chairperson, from among those who have abundant knowledge and experiences in the relevant plan or project or in environmental impact assessment, etc.;
4. At least one person appointed or commissioned by the chairperson, from among public officials or experts recommended by the head of the local government having jurisdiction over the area subject to the relevant plan or the project zone;
5. At least one person commissioned by the chairperson, from among the following persons:
 - (a) Residents' representatives who reside in an area subject to the relevant plan or the

project zone within the jurisdiction of the local government;

(b) Non-governmental experts recommended by non-governmental organizations;

(c) Experts in health impact assessment including public health (limited to where a health impact assessment shall be conducted under the proviso to Article 8 (2) of the Act).

(3) The Environmental Impact Assessment Council shall be comprised of approximately ten members, including one chairperson, appointed or commissioned by the chairperson for each meeting, taking into consideration the nature of each plan or project.

(4) The chairperson shall represent the Environmental Impact Assessment Council and administer all business affairs of the council.

(5) If the chairperson is unable to perform his/her duties due to extenuating circumstances, the council member appointed by the chairperson in advance shall act on behalf of the chairperson.

(6) Except as otherwise provided for in paragraphs (1) through (5), matters necessary for the formation of the Environmental Impact Assessment Council shall be determined by the chairperson, subject to deliberation by the Environmental Impact Assessment Council thereon.

Article 5 (Operation of Environmental Impact Assessment Council)(1) Meetings of the Environmental Impact Assessment Council shall be convened by the chairperson.

(2) A quorum of the meeting of the Environmental Impact Assessment Council shall be duly formed with the attendance of a majority of its members under Article 4 (3) and resolutions shall be adopted by affirmative votes of a majority of the members present at the meeting.

(3) Notwithstanding the provisions of paragraphs (1) and (2), the chairperson may determine to deliberate on a project documentarily, without convening a meeting, in any of the following cases:

1. Where the environmental impact of the relevant plan or project is deemed to be insignificant;

2. Where environmental impact assessment reports, etc. under Article 53 (1) of the Act (hereinafter referred to as "environmental impact assessment reports, etc.") have been already submitted several times for deliberation on a plan or project similar to the relevant plan or project;

3. Where the environmental impact of the relevant plan or project is deemed limited to a particular sector.

(4) Members of the Environmental Impact Assessment Council may be reimbursed for allowances and travel expenses, within budgetary limits: Provided, That the foregoing shall not apply to a member who shall attend a meeting of the Environmental Impact Assessment Council as a public official in direct connection with any business affair related to his/her duties.

(5) Except as otherwise expressly provided for in paragraphs (1) through (4), matters necessary for the operation of the Environmental Impact Assessment Council shall be determined by the chairperson, subject to deliberation by the Environmental Impact

Assessment Council thereon.

Article 6 (Exclusion, Challenge, Abstention, etc.)(1) In any of the following cases, a member of the Environmental Impact Assessment Council shall be excluded from the proceedings of deliberation and resolution by the Environmental Impact Assessment Council:

1. If the council member or a person who is or was the spouse of the council member is a party (or an officer of a corporation or organization, if a party is the corporation or organization; the same shall apply hereafter in this Article) to the relevant plan, project, or environmental impact assessment (hereafter in this Article referred to as "relevant plan or project") or a joint right-holder or a joint obligor of a party to the relevant plan or project;

2. If the council member is a current or former relative of a party to the relevant plan or project;

3. If the council member has been directly involved in services, advice, appraisal, or survey with respect to the relevant plan or project;

4. If the council member or a corporation to which the council member belongs is the current or former representative of a party to the relevant plan or project.

(2) If an interested party to the relevant plan or project has a ground to believe that impartiality in deliberation and resolution by a council member is unlikely, he/she may file a challenge against the council member with the Environmental Impact Assessment Council, and the Environmental Impact Assessment Council shall resolve on the challenge. In such cases, no council member against whom the challenge has been filed shall participate in resolution.

(3) If a council member finds that any of the grounds for exclusion under paragraph (1) is applicable to him/her, he/she shall voluntarily abstain from the proceedings of deliberation and resolution of the relevant case.

CHAPTER II STRATEGIC ENVIRONMENTAL IMPACT ASSESSMENT

SECTION 1 Subject Matters of Strategic Environmental Impact Assessment

Article 7 (Categories of Plans subject to Strategic Environmental Impact Assessment)(1) The expression "plan for the establishment of any of the facilities specified by Presidential Decree" in Article 9 (1) 18 of the Act means a master plan for the management of livestock excreta under Article 5 of the Act on the Management and Use of Livestock Excreta.

(2) Detailed categories of plans subject to strategic environmental impact assessment under Article 9 (2) of the Act (hereinafter referred to as "plans subject to strategic environmental impact assessment") are as prescribed in attached Table 2.

Article 8 (Matters subject to Determination in Regard to Items, etc. of Assessment not requiring Deliberation)

If an area involved in a project plan under a master development plan under Article 9 (2) 2 of the Act (hereinafter referred to as "master development plan"), among plans subject to strategic environmental impact assessment, is less than 60,000 square meters, the head of an administrative agency who intends to formulate a plan subject to strategic environmental

impact assessment may determine the matters under Article 11 (1) of the Act without undergoing deliberation by the Environmental Impact Assessment Council thereon.

Article 9 (Period for Deliberation on Preparatory Statements for Assessment)

"The period specified by Presidential Decree" in Article 11 (3) of the Act means 30 days. In such cases, a period during which the head of an administrative agency who intends to formulate a plan subject to strategic environmental impact assessment or a person who proposes a plan subject to strategic environmental impact assessment amends a preparatory statement for assessment and holidays shall be excluded from the period. <Amended by Presidential Decree No. 25713, Nov. 11, 2014>

Article 10 (Publication, etc. of Determined Items, etc. of Strategic Environmental Impact Assessment)

(1) The head of an administrative agency who intends to formulate a plan subject to strategic environmental impact assessment pursuant to Article 11 (5) of the Act shall post the items, etc. of strategic environmental impact assessment, as determined under Article 11 (1) or (3) of the Act, on the information and communications network of a Si (including a Special Self-Governing City and referring to an administrative city under Article 15 (2) of the Special Act on the Establishment of Jeju Special Self-Governing Province and the Development of Free International City in cases of Jeju Special Self-Governing Province; the same shall apply hereinafter) or Gun or Gu (Gu meaning an autonomous Gu; the same shall apply hereinafter), having jurisdiction over an area subject to strategic environmental impact assessment, or of an administrative agency that intends to formulate a plan subject to strategic environmental impact assessment or the information support system under Article 70 (3) of the Act (hereinafter referred to as the "information support system for environmental impact assessment"), for at least 14 days within 20 days from the date such determination is made. <Amended by Presidential Decree No. 25713, Nov. 11, 2014>

(2) If residents, etc. present opinions on the items, etc. of strategic environmental impact assessment published under paragraph (1), the head of an administrative agency who intends to formulate a plan subject to strategic environmental impact assessment shall review such opinions and shall include the opinions in the strategic environmental impact assessment report under Article 21, if the relevant plan is a governmental plan under Article 9 (2) 1 of the Act (hereinafter referred to as "governmental plan"), or in the draft strategic environmental impact assessment report under Article 11 (1), if the relevant plan is a master development plan.

SECTION 2 Collection, etc. of Opinions on Draft Strategic Environmental Impact Assessment Reports

Article 11 (Preparation of Draft Strategic Environmental Impact Assessment Reports)

(1) Each draft strategic environmental impact assessment report under Article 12 (1) of the Act (hereinafter referred to as "draft strategic environmental impact assessment report") shall include the following matters:

1. Summary;
2. Overview of the master development plan;

3. Alternatives to the master development plan and site location (only if a specific site location is specified);
4. The area subject to strategic environmental impact assessment;
5. Feasibility of the master development plan;
6. Appropriateness of site location (if a site location is specified);
7. Details of deliberation by the Environmental Impact Assessment Council;
8. Results of the review on opinions submitted by residents, etc. under Article 10 (2).

(2) Except as otherwise provided for in paragraph (1), further details about the methods of preparing draft strategic environmental impact assessment reports shall be determined and publicly notified by the Minister of Environment.

Article 12 (Methods, etc. of Submitting Draft Strategic Environmental Impact Assessment)(1) "The heads of other relevant administrative agencies specified by Presidential Decree" in Article 12 (2) 3 of the Act means the following persons:

1. The head of a river basin environment office or the head of a regional environment office (hereinafter referred to as "head of a local environment office"; excluding cases where the head of a local environment office becomes the head of the consulting agency);
2. The Mayor of the Special Metropolitan City or the Metropolitan City or the Governor of the Do or Special Self-Governing Province with jurisdiction over an area subject to the master development plan;
3. The head of the Si (including a Special Self-Governing City and referring to an administrative city under Article 17 (2) of the Special Act on the Establishment of Jeju Special Self-Governing Province and the Development of Free International City in cases of Jeju Special Self-Governing Province; the same shall apply hereinafter) or Gun or Gu (Gu meaning an autonomous Gu; the same shall apply hereinafter), having jurisdiction over an area subject to the master development plan.

(2) The head of an administrative agency who formulates a master development plan shall submit a draft strategic environmental impact assessment report printed and bound in book form in accordance with Article 12 (2) of the Act, and the number of copies to be submitted to each authority shall be as follows:

1. The head of the consulting agency: 20 copies;
2. The head of the approving authority: five copies;
3. The head of the local environment office having jurisdiction over an area subject to the master development plan (excluding cases where the head of a local environment office becomes the head of the consulting agency): three copies;
4. The Mayor of the Special Metropolitan City or the Metropolitan City or the Governor of the Do or Special Self-Governing Province with jurisdiction over an area subject to the master development plan: three copies;
5. The head of the Si/Gun/Gu with jurisdiction over an area subject to the master development plan: five copies.

(3) Upon receipt of a draft strategic environmental impact assessment report under Article

12 (2) of the Act, a person may notify the head of the administrative agency who intends to formulate the master development plan of his/her opinions on the anticipated environmental impact of the relevant plan, measures for environmental conservation, etc., within 30 days from the date when the draft strategic environmental impact assessment report is filed.

Article 13 (Publication of Draft Strategic Environmental Impact Assessment Reports for Public Inspection, etc.)

(1) The head of an administrative agency who intends to formulate a master development plan shall publish the following matters at least once in a general daily newspaper having nationwide distribution under Article 9 (1) of the Act on the Promotion of Newspapers, Etc. (hereinafter referred to as "daily newspaper") and a general daily newspaper having nationwide distribution mainly in an area subject to the master development plan (hereinafter referred to as "local newspaper") respectively within ten days from the date he/she submits a draft strategic environmental impact assessment report under Article 12 (2) of the Act and shall make the following matters available for public inspection by residents, etc. in an area subject to the master development plan (hereinafter referred to as "residents") for a period of at least 20 days but not exceeding 40 days;

1. Summary of the master development plan;
2. Period and place of public inspection of the draft strategic environmental impact assessment report;
3. Timing and methods for presenting opinions on the draft strategic environmental impact assessment report (including opinions as to whether to hold a public hearing).

(2) When the head of an administrative agency who intends to formulate a master development plan publishes information and makes the information available for public inspection under paragraph (1), he/she shall give notice of the publication and public inspection as follows:

1. The information and communications network of the Si/Gun/Gu with jurisdiction over an area subject to the master development plan or of the administrative agency that intends to formulate the master development plan: The notice of publication and public inspection and summary of the draft strategic environmental impact assessment report;
2. The information support system for environmental impact assessment: The notice of publication and public inspection and the draft strategic environmental impact assessment report.

(3) When the head of an administrative agency who intends to formulate a master development plan intends to publish information under paragraph (1), he/she shall hear the opinion as to the period, place, etc. of public inspection from the head of the Si/Gun/Gu having jurisdiction over an area subject to the master development plan before determining such matters and shall prepare at least one place for public inspection in the area subject to the master development plan.

Article 14 (Methods, etc. for Presentation of Opinions of Residents, etc.)

Residents may present their opinions on the environmental impact anticipated from the formulation of the relevant plan, measures for environmental conservation, a request for

holding a public hearing, etc. to the head of an administrative agency who intends to formulate a master development plan, during a period from the beginning of a period for public inspection of the draft strategic environmental impact assessment report to not more than seven days after the end of the period for public inspection of the draft strategic environmental impact assessment report.

Article 15 (Presentation)(1) The head of an administrative agency who intends to formulate a master development plan shall hold a presentation under the main sentence of Article 13 (1) of the Act during the period for public inspection of the draft strategic environmental impact assessment report.

(2) If an area subject to a master development plan straddles at least two Sis/Guns/Gus, the head of an administrative agency who intends to formulate the master development plan shall hold a presentation in each Si/Gun/Gu: Provided, That the head of an administrative agency who intends to formulate a master development plan may hold a presentation under an agreement between him/he and the head of each Si/Gun/Gu.

(3) When the head of an administrative agency who intends to formulate a master development plan intends to hold a presentation under paragraph (1) or (2), he/she shall publish the overview of the project under the master development plan, the timing and place of the presentation, etc. at least once in a daily newspaper and a local newspaper, respectively, by no later than seven days before the date of the presentation: Provided, That the foregoing shall not apply where the notice of holding a presentation is given with the publication of the draft strategic environmental impact assessment report under Article 13 (1).

Article 16 (Public Hearings, etc.)(1) In either of the following cases, the head of an administrative agency who intends to formulate a master development plan shall hold a public hearing pursuant to the proviso to Article 13 (1) of the Act:

1. If the number of residents who have presented opinions that it would be necessary to hold a public hearing under Article 14 is at least 30 persons;
2. If the number of residents who have submitted opinions that it would be necessary to hold a public hearing under Article 14 is at least five persons, constituting at least 50 percent of all residents who have presented opinions on the draft strategic environmental impact assessment report.

(2) If the head of an administrative agency who intends to formulate a master development plan deems it necessary to extensively gather opinions from relevant experts and residents, he/she may hold a public hearing after the end of the period for public inspection of a draft strategic environmental impact assessment report.

(3) When the head of an administrative agency who intends to formulate a master development plan intends to hold a public hearing under paragraph (1) or (2), he/she shall publish the following matters in a daily newspaper and a local newspaper respectively by no later than 14 days from the date of the public hearing:

1. Overview of the master development plan;

2. Date, time, and venue for the public hearing;
3. Other matters necessary for efficient operation of the public hearing.
- (4) The head of an administrative agency who intends to formulate a master development plan shall notify the head of the Si/Gun/Gu having jurisdiction over an area subject to the master development plan of the results of a public hearing, by no later than seven days after the end of the public hearing, as prescribed by Ordinance of the Ministry of Environment.
- (5) Except as otherwise provided for in paragraphs (1) through (4), matters necessary for holding a public hearing shall be prescribed by Ordinance of the Ministry of Environment.

Article 17 (Areas for which Collection of Opinions from Relevant Experts, etc. is Necessary)

"The areas specified by Presidential Decree" in Article 13 (2) of the Act means the following areas:

1. Natural environment conservation areas under subparagraph 4 of Article 6 of the National Land Planning and Utilization Act;
2. Natural parks under subparagraph 1 of Article 2 of the Natural Parks Act;
3. Wetlands conservation areas and managed wetland environs under Article 8 (1) of the Wetlands Conservation Act;
4. Areas subject to special measures under Article 38 of the Framework Act on Environmental Policy.

Article 18 (Omitting Presentation or Public Hearings)(1) Cases where a presentation or public hearing may be omitted under Article 13 (3) of the Act shall be as follows:

1. Where it is impracticable to hold or continue a presentation in a normal condition because of disturbance of residents, etc.;
2. Where it is impracticable to hold or continue a public hearing in a normal condition because of disturbance of residents, etc., although it has been attempted to hold a public hearing at least twice.

(2) When the head of an administrative agency who intends to formulate a master development plan omits a presentation or public hearing under paragraph (1), he/she shall take the following measures pursuant to the latter part of Article 13 (3) of the Act and shall endeavor to hear opinions of residents, etc. in good faith by other means:

1. Where a presentation is omitted: The following measures:
 - (a) Publishing the grounds for omitting the presentation, the method for public inspection of presentation materials, etc. at least once in a daily newspaper and a local newspaper, respectively;
 - (b) Posting the reasons why the presentation is omitted, presentation materials, etc. on the information and communications network of the Si/Gun/Gu having jurisdiction over an area subject to the master development plan or of the administrative agency that intends to formulate the master development plan or on the information support system for environmental impact assessment;
2. Where a public hearing is omitted: Publishing the reasons why the public hearing is

omitted, the timing and method for presenting opinions, the method for public inspection of presentation materials, etc. at least once in a daily newspaper and a local newspaper respectively.

(3) When the head of an administrative agency who intends to formulate a master development plan intends to give public notice under paragraph (2) 2, he/she shall consult with the head of the Si/Gun/Gu having jurisdiction over an area subject to the master development plan on the timing, period, etc. for presenting opinions.

Article 19 (Publication of Results of Opinions Collected from Residents, etc. and whether to Reflect such Opinions)

Pursuant to Article 13 (4) of the Act, the head of an administrative agency who intends to formulate a master development plan shall post the results of opinions collected from residents, etc. and whether such opinions have been reflected in the plan on the information and communications network of the Si/Gun/Gu having jurisdiction over an area subject to the master development plan or of the administrative agency that intends to formulate the master development plan or on the information support system for environmental impact assessment for at least 14 days before finalizing the master development plan.

Article 20 (Re-collection of Opinions of Residents, etc.)

"The important matters specified by Presidential Decree" in Article 15 of the Act means where the scale of a master development plan on which consultation has been requested under Article 16 of the Act increases by at least 30 percent: Provided, That the foregoing shall not apply where the scale of a master development plan under subparagraph 2 (a) (i), (e) (ii), or (g) (ii) of subparagraph 2 of attached Table 2 increases within the minimum extent of an area specified by Ordinance of the Ministry of Environment (hereinafter referred to as "minimum extent of area") in an area where the master development plan is affected by each item of assessment determined under Article 11 of the Act.

SECTION 3 Consultations, etc. on Strategic Environmental Impact Assessment Reports

Article 21 (Preparation of Draft of Written Assessment)(1) The strategic environmental impact assessment report referred to in Article 16 (1) or (2) of the Act (hereinafter referred to as "strategic environmental impact assessment report") shall include the following matters: <Amended by Presidential Decree No. 26807, Dec. 30, 2015>

1. The items, etc. subject to the strategic environmental impact assessment, determined under Article 11 (1) or (3) of the Act, and measures taken therefor;
2. The results of review of opinions of residents, etc. under Article 10 (2);
3. The matters specified in Article 11 (1). If the strategic environmental impact assessment report concerns a governmental plan in such cases, the term "master development plan" shall be construed as "governmental plan";
4. Opinions of residents and relevant administrative agencies on the draft strategic environmental impact assessment report and whether such opinions have been reflected in the relevant plan (applicable only to a master development plan);

5. Appendices:

- (a) Literature and references cited in strategic environmental impact assessment;
- (b) Personal data of participants in strategic environmental impact assessment;
- (c) A document that indicates the contract amount for strategic environmental impact assessment agency service, such as a copy of an agreement on strategic environmental impact assessment agency service (limited to where an agent is engaged for the formulation of a strategic environmental impact assessment report);
- (d) Glossary, etc.

(2) Further details about contents of a strategic environmental impact assessment report, the method of making a strategic environmental impact assessment report, etc. shall be determined and publicly notified by the Minister of Environment, in consultation with the heads of relevant central administrative agencies: Provided, That further details about a governmental plan may be determined and publicly notified separately by the head of the relevant central administrative agency.

Article 22 (Method of Submitting Strategic Environmental Impact Assessment Reports, Timing for Requesting Consultations, etc.)(1) Pursuant to Article 16 (1) or (2) of the Act, a strategic environmental impact assessment report shall be printed, bound, and submitted in the form of a book, and the number of copies to be submitted to each relevant authority shall be as follows:

- 1. The head of the approving agency: Five copies;
- 2. The head of the consulting agency: 20 copies.

(2) The timing for holding consultations on a strategic environmental impact assessment report under Article 16 (1) or (2) of the Act is as prescribed in attached Table 2.

(3) If a plan determines at least two master development plans with identical objectives successively or includes at least two indivisible master development plans for identical objectives, such plans may be integrated for the purpose of requesting consultations on strategic environmental impact assessment.

(4) Upon receipt of a strategic environmental impact assessment report under Article 16 (2) of the Act, the head of the approving agency shall request the head of the consulting agency to hold consultations within ten days from receipt of the strategic environmental impact assessment report.

Article 23 (Review, Amendment, Adjustment, etc. of Strategic Environmental Impact Assessment Reports)(1) Pursuant to Article 17 (1) of the Act, the head of the consulting agency shall review the following matters with respect to each strategic environmental impact assessment report:

- 1. Eligibility for consultations and other formalities;
- 2. Compliance with the procedures for collecting opinions of residents, etc. and reflection of opinions of residents;
- 3. Validity of contents of the strategic environmental impact assessment report.

(2) "The grounds specified by Presidential Decree" in Article 17 (3) of the Act means that a

strategic environmental impact assessment report has not been prepared in accordance with the contents, method, etc. prescribed in Article 21.

(3) If the head of the consulting agency deems it necessary for reviewing a strategic environmental impact assessment report, he/she may seek opinions from relevant experts thereon.

(4) Except as otherwise provided for in paragraphs (1) through (3), matters necessary for the guidelines for review of strategic environmental impact assessment reports and amendment and adjustment thereof shall be determined by the Minister of Environment.

Article 24 (Requests to Submit Data for Reviewing Strategic Environmental Impact Assessment Reports)

If the head of the consulting agency deems necessary for reviewing a strategic environmental impact assessment report, he/she may request the head of the competent administrative agency under Article 17 (3) of the Act (hereinafter referred to as "head of the competent administrative agency") to submit relevant data. In such cases, the head of the competent administrative agency shall comply with such request, except in extenuating circumstances.

Article 25 (Period for Notification of Agreed Terms and Conditions)

"The period specified by Presidential Decree" in Article 18 (1) of the Act means 30 days (40 days, if the head of the consulting agency extends the period due to extenuating circumstances). In such cases, the period that the head of the competent administrative agency takes to amend the strategic environmental impact assessment report and holidays shall be excluded in the period for notification.

Article 26 (Notification, etc. of Results of Performance of Agreed Terms and Conditions)

(1) The head of the competent administrative agency shall notify the head of the consulting agency of the results of measures taken or a plan for taking measures with respect to agreement terms and conditions within 30 days from the date on which such measures are taken or such plan for taking measures is finalized pursuant to Article 19 (1) of the Act.

(2) If the head of the competent administrative agency has difficulty in reflecting agreed terms and conditions in the relevant plan in accordance with Article 19 (2) of the Act due to a particular reason, he/she shall present a statement of relevant facts and the reason to the head of the consulting agency, and the head of the consulting agency shall examine the validity of the statement presented, within 20 days from the date he/she receives the statement and shall notify the head of the competent administrative agency of the results thereof.

Article 27 (Management, Supervision, etc. of Results of Measures or Plans for Measures)

(1) If the head of the consulting agency deems it necessary for ascertaining the outcomes from taking measures taken under Article 19 (1) or the performance of a plan for such measures, he/she may check the performance of agreed terms and conditions, the progress of performance, etc. with the head of the competent administrative agency.

(2) If the head of the consulting agency finds, from ascertaining under paragraph (1), any agreed term or condition not performed, he/she may request the head of the competent administrative agency to take measures necessary for performance of such term or condition.

(3) Upon receipt of a request from the head of the consulting agency under paragraph (2), the head of the competent administrative agency shall comply with such request, except in extenuating circumstances.

Article 28 (Cases subject to Re-consultation)(1) Cases where it is required to conduct strategic environmental impact assessment again under Article 20 of the Act shall be as follows: <Amended by Presidential Decree No. 26807, Dec. 30, 2015>

1. Where the scale is increased by at least 30 percent of the scale reflected in agreed terms and conditions under Article 18 of the Act (including where the scale increased by accumulated changes is at least 30 percent of the scale reflected in the consultation under Article 18 of the Act or in the re-consultation under Article 20 of the Act): Provided, That the foregoing shall not apply where the scale of a master development plan under subparagraph 2 (a) (i), (e) (ii), or (g) (ii) of subparagraph 2 of attached Table 2 increases within the minimum extent in an area where master development plan is affected by each item of assessment determined under Article 11 of the Act;

2. Where a land use plan is amended with respect to at least ten percent of the area specified as the area that shall be conserved in its original state or that shall be excluded from the plan according to the agreed terms and conditions notified under Article 18 of the Act and the area subject to the amendment is at least 10,000 square meters: Provided, That the foregoing shall not apply where consultation with the head of the consulting agency has been completed on environmental impact assessment under Article 27, 32, or 33 of the Act.

(2) Notwithstanding the main sentence of paragraph (1) 1, the increased portion shall be not less than the area specified in any of the following subparagraphs, where the relevant plan is an urban/Gun management plan pursuant to subparagraph 4 of Article 2 of the National Land Planning and Utilization Act:

1. 60,000 square meters, where the plan is for an urban area defined under Article 36 (1) 1 of the National Land Planning and Utilization Act (excluding green areas);

2. 10,000 square meters, where the plan is for other than an area referred to in subparagraph 1;

3. An area the aggregate of which calculated by the following formula is one, where the area over which it is intended to formulate the plan straddles areas referred to in subparagraphs 1 and 2: [Area under subparagraph 1 / Minimum area subject to strategic environmental impact assessment under subparagraph 1] + [Area under subparagraph 2 / Minimum area subject to strategic environmental impact assessment under subparagraph 2].

(3) If the head of an administrative agency who formulates a master development plan includes adjoining land, etc. merely for the purpose of security control or safety management or for securing a buffer zone, without any development work, the area of such land, etc. shall not be deemed an increase in the planned scale under paragraph (1) 1.

Article 29 (Consultations on Amendment of Master Development Plans)(1) "When the head of the competent administrative agency intends to amend a master development plan with respect to any of the matters specified by Presidential Decree" in Article 21 (1) of the Act means any of the following cases:

1. Where the scale of the plan increases by at least five percent but less than 30 percent of the scale reflected in agreed terms and conditions under Article 18 of the Act;
2. Where the scale of the plan is not subject to re-consultation under the main sentence of Article 28 (1) 1 but increases by not less than the minimum scale subject to strategic environmental impact assessment;
3. Where the plan falls under the proviso to Article 28 (1) 1;
4. Where the area subject to an urban/Gun management plan under subparagraph 4 of Article 2 of the National Land Planning and Utilization Act is increased by at least 30 percent of the scale reflected in agreed terms and conditions under Article 18 of the Act, but the increased area is less than the area specified in the relevant subparagraph of Article 28 (2);
5. Where the area specified in the agreed terms and conditions notified under Article 18 of the Act as an area that shall be conserved in its original state or that shall be excluded from development is developed, but the developed area is less than the area subject to re-consultation under the main sentence of Article 28 (1) 2;
6. Where it is intended to amend any of the matters specified in the agreed terms and conditions notified under Article 18 (1) of the Act as matters on which the opinion of the head of the consulting agency shall be sought when it is intended to amend such, taking into consideration the nature of the relevant project plan.

(2) If the head of an administrative agency who formulates a master development plan includes adjoining land, etc. merely for the purpose of security control or safety management or for securing a buffer zone, without development activity, such inclusion shall not be deemed an amendment under any subparagraph of paragraph (1).

(3) Notwithstanding paragraph (1), the consultation under paragraph (1) is not required when consultation with the head of the consulting agency has been completed on environmental impact assessment under Article 27, 32, or 33 of the Act with regard to the intended amendment to the master development plan. <Amended by Presidential Decree No. 26807, Dec. 30, 2015>

(4) If the head of the approving agency deems it necessary to seek the opinion of the consulting agency on the feasibility of an amendment to a master development plan, the appropriateness of site location, etc. when he/she intends to amend the plan, he/she may also consult with the head of the consulting agency on the amendment to any matter not specified in paragraph (1).

(5) A person who intends to consult with the head of the consulting agency on an amendment to a master development plan under Article 21 (1) of the Act shall prepare a document about the following matters and submit it to the head of the consulting agency:

1. Details of the amendment to the master development plan;

2. Grounds for the feasibility of the amendment to the master development plan, the appropriateness of site location, etc.

Article 30 (Consultations on Amendment of Governmental Plans)(1) "When the head of the competent administrative agency intends to amend a governmental plan with regard to any of the matters specified by Presidential Decree" in Article 21 (2) of the Act means when the head of the competent administrative agency intends to amend a governmental plan with regard to any of the matters specified in the agreed terms and conditions notified under Article 18 (1) of the Act as those on which the head of the competent administrative agency shall seek the opinion of the consulting agency before making any amendment thereto.

(2) A person who intends to consult with the head of the consulting agency on an amendment to a governmental plan under Article 21 (2) of the Act shall prepare a document about the following matters and submit it to the head of the consulting agency:

1. Details of the amendment to the governmental plan;
2. Grounds for the feasibility of the amendment to the governmental plan.

CHAPTER III ENVIRONMENTAL IMPACT ASSESSMENT

SECTION 1 Subject Matters of Environmental Impact Assessment

Article 31 (Projects subject to Environmental Impact Assessment and Scope of such Projects)(1) "The facilities specified by Presidential Decree" in Article 22 (1) 18 of the Act means disposal facilities or public disposal facilities under subparagraph 8 or 9 of Article 2 of the Act on the Management and Use of Livestock Excreta.

(2) Further details about the categories and scope of projects subject to environmental impact assessment under Article 22 (2) of the Act are as prescribed in attached Table 3.

SECTION 2 Collection, etc. of Opinions on Draft Environmental Impact Assessment Reports

Article 32 (Period for Deliberation on Preparatory Statements for Assessment, etc.)(1) "The period specified by Presidential Decree" in the main sentence of Article 24 (1) of the Act means a period from the day a project plan subject to environmental impact assessment is formulated until the day immediately before the date a draft environmental impact assessment report under Article 25 (1) of the Act is completed.

(2) "The period specified by Presidential Decree" in Article 24 (4) of the Act means 30 days. In such cases, a period that a project implementer under Article 22 (1) of the Act (hereafter in this Chapter referred to as "project implementer") needs for amending a preparatory statement for evaluation and holidays shall be excluded in the period of deliberation.

Article 33 (Publication, etc. of Determined Items, etc. of Environmental Impact Assessment)(1) The items, etc. of strategic environmental impact assessment, as determined under Article 24 (7) of the Act, shall be published within 20 days from the date of determination and shall be posted on the information and communications network operated by the head of the relevant Si/Gun/Gu or the head of the approving agency or on the information support system for environmental impact assessment for at least 14 days. <Amended by Presidential Decree No. 25713, Nov. 11, 2014>

(2) If residents, etc. present opinions on the items, etc. of environmental impact assessment, which have been published under paragraph (1), the head of the approving agency or the head of the consulting agency shall review such opinions and shall include the opinions in the draft environmental impact assessment report under Article 25 (1) of the Act or the summary assessment report under Article 51 (1) of the Act.

Article 34 (Preparation of Draft Environmental Impact Assessment Reports)(1) A draft environmental impact assessment report under Article 25 (1) of the Act (hereinafter referred to as "draft environmental impact assessment report") shall include the following matters:

1. Summary;
2. Overview of the relevant project;
3. The extent of an area affected by each item of assessment by the implementation of the project subject to environmental impact assessment and the present environmental condition of its environs;
4. Whether agreed terms and conditions have been reflected, if consultations on strategic environmental impact assessment have been held under Article 18 of the Act;
5. The items, etc. of environmental impact assessment, determined under Article 24 (1) and (4) of the Act, and measures taken therefor;
6. Results of environmental impact assessment on the following matters:
 - (a) Results of survey, forecasting, and evaluation on each item of environmental impact assessment;
 - (b) Measures for environmental conservation;
 - (c) Inevitable environmental impacts and countermeasures against such impacts;
 - (d) Formulation and evaluation of alternatives;
 - (e) Comprehensive evaluation and conclusion;
 - (f) A plan for follow-up survey of environmental impacts.

(2) Except as otherwise provided for in paragraph (1), further details about the method of making a draft environmental impact assessment report shall be determined and publicly notified by the Minister of Environment.

Article 35 (Methods, etc. of Submitting Draft Environmental Impact Assessment Reports)(1) Pursuant to Article 25 (2) of the Act, a project implementer shall submit a draft environmental impact assessment report to the heads of the following administrative agencies:

1. The head of the Si/Gun/Gu having jurisdiction over a project zone subject to environmental impact assessment (hereinafter referred to as "relevant project zone") (referring to the head of the Si/Gun/Gu having jurisdiction over the largest or longest section of the relevant project zone, if the relevant project zone straddles the areas within jurisdiction of at least two Sis/Guns/Gus);
2. The head of the Si/Gun/Gu who is not the head of the Si/Gun/Gu referred to in subparagraph 1 (hereinafter referred to as "the competent head of Si/Gun/Gu") but has jurisdiction over an area subject to environmental impact assessment (hereinafter referred

to as "head of a related Si/Gun/Gu");

3. The head of the approving agency;

4. The head of the consulting agency;

5. The head of the local environmental office having jurisdiction over an area subject to environmental impact assessment (excluding cases where the head of a local environment office becomes the head of the consulting agency);

6. The Mayor of the Special Metropolitan City or the Metropolitan City or the Governor of the Do or Special Self-Governing Province, having jurisdiction over an area subject to the relevant project zone.

(2) A draft environmental impact assessment report shall be submitted in the form of a printed and bound book, and the number of copies to be submitted to each authority shall be as follows:

1. The head of the competent Si/Gun/Gu: 10 copies;

2. The head of a related Si/Gun/Gu: 5 copies;

3. The head of the approving agency: 5 copies;

4. The head of the consulting agency: 20 copies;

5. The head of the local environment office having jurisdiction over an area subject to environmental impact assessment (excluding cases where the head of a local environment office becomes the head of the consulting agency): 3 copies;

6. The Mayor of the Special Metropolitan City or the Metropolitan City or the Governor of the Do or Special Self-Governing Province, having jurisdiction over the relevant project zone: 3 copies.

Article 36 (Publication of Draft Environmental Impact Assessment Reports for Public Inspection, etc.)(1) The head of the competent Si/Gun/Gu shall publish the following

matters at least once in a daily newspaper and a local newspaper respectively within ten days from the date when a draft environmental impact assessment report under Article 35 (1) of the Act is filed and shall make the following matters available for public inspection of residents, etc. in an area subject to environmental impact assessment (hereinafter referred to as "residents") for a period of not less than 20 days nor more than 40 days, except in extenuating circumstances, such as a natural disaster. In such cases, holidays shall be excluded in the period for public inspection:

1. Overview of the project;

2. Period and place of public inspection of the draft environmental impact assessment report;

3. Timing and methods for presenting opinions on the draft environmental impact assessment report (including opinions as to whether to hold a public hearing).

(2) When the head of the competent Si/Gun/Gu publishes information and makes the information available for public inspection under paragraph (1), he/she shall give notice of the publication and public inspection as follows:

1. The information and communications network of the Si/Gun/Gu with jurisdiction over the project zone: The notice of publication and public inspection and summary of the draft

environmental impact assessment report;

2. The information support system for environmental impact assessment: The notice of publication and public inspection and the draft environmental impact assessment report.

(3) When the head of the competent Si/Gun/Gu intends to publish information under paragraph (1), he/she shall hear the opinion on the period, place, etc. of public inspection from the head of the related Si/Gun/Gu before determining such matters and shall prepare at least one place for public inspection in an area within the jurisdiction of the head of the competent Si/Gun/Gu and an area within the jurisdiction of the head of the related Si/Gun/Gu, respectively.

Article 37 (Vicarious Execution of Procedures for Publication and Public Inspection by Head of Approving Agency)

(1) If the head of the competent Si/Gun/Gu does not publish a draft environmental impact assessment report or does not make a draft environmental impact assessment report available for public inspection within 20 days from the date when the draft environmental impact assessment report is filed, without valid cause, such as a natural disaster, the head of the approving agency may publish the draft environmental impact assessment report and make it available for public inspection on behalf of the head of the competent Si/Gun/Gu pursuant to Article 36.

(2) If the head of the approving agency intends to vicariously execute the procedures for publication and public inspection pursuant to paragraph (1), he/she shall notify the head of the competent Si/Gun/Gu of his/her intention.

(3) Articles 36, 38, and 39 shall apply mutatis mutandis to the procedures applicable to cases where the head of the approving agency vicariously executes publication and public inspection pursuant to paragraph (1). In such cases, the term "the competent head of Si/Gun/Gu" shall be deemed "the head of the approving agency."

Article 38 (Methods, etc. for Presentation of Opinions of Residents, etc.)

(1) Residents may present their opinions on the environmental impact anticipated as a consequence of the implementation of the relevant project, measures for environmental conservation, a request for holding a public hearing, etc. to the head of the competent Si/Gun/Gu or to the head of the related Si/Gun/Gu, during a period from the beginning of the period for public inspection of the draft environmental impact assessment report to not more than seven days after the end of the period for public inspection of the draft environmental impact assessment report. Upon receipt of opinions from residents in such cases, the head of the related Si/Gun/Gu shall notify the head of the competent Si/Gun/Gu of the residents' opinions within ten days from the end of the period for public inspection of the draft environmental impact assessment report.

(2) The head of an administrative agency referred to in the provisions of Article 35 (1) 2 through 6 may notify the head of the competent Si/Gun/Gu of his/her opinion on the environmental impact anticipated as a consequence of the implementation of the relevant project, measures for environmental conservation, etc. within 30 days from the date when the draft environmental impact assessment report is filed.

(3) Upon receipt of the opinions presented or notified under paragraph (1) or (2), the head of the competent Si/Gun/Gu shall notify the project implementer of the opinions presented or notified, within 14 days from the end of the period for public inspection of the draft environmental impact assessment report. If the head of the competent Si/Gun/Gu has an opinion on the draft environmental impact assessment report in such cases, he/may add his/her opinion to such notice.

Article 39 (Presentations)(1) A project implementer shall hold a presentation in accordance with Article 25 (2) of the Act during the period for public inspection of a draft environmental impact assessment report.

(2) If a project zone subject to environmental impact assessment straddles at least two Sis/Guns/Gus, the relevant project implementer shall hold a presentation in each Si/Gun/Gun respectively: Provided, That a project implementer may hold a presentation in either Si or Gun or Gu under an agreement with the heads of each Si/Gun/Gun involved.

(3) When a project implementer intends to hold a presentation under paragraph (1) or (2), he/she shall publish the overview of the project, the time and place of the presentation, etc. at least once in a daily newspaper and a local newspaper respectively, by no later than seven days before the date of the presentation: Provided, That the foregoing shall not apply where the notice of holding a presentation is given in the publication of the draft environmental impact assessment report under Article 36 (1).

Article 40 (Public Hearings, etc.)(1) In either of the following cases, a project implementer shall hold a public hearing in accordance with Article 25 (2) of the Act:

1. If the number of residents who have presented opinions that it is necessary to hold a public hearing under Article 38 is at least 30 persons;
2. If the number of residents who have presented opinions that it is necessary to hold a public hearing under Article 38 is at least five persons, constituting at least 50 percent of all residents who have presented opinions on the draft environmental impact assessment report.

(2) If a project implementer deems it necessary to extensively collect opinions from relevant experts and residents, he/she may hold a public hearing after the period for public inspection of a draft environmental impact assessment report.

(3) When a project implementer intends to hold a public hearing under paragraph (1) or (2), he/she shall publish the following matters in a daily newspaper and a local newspaper respectively by no later than 14 days from the date of the public hearing:

1. Overview of the project;
2. Date, time, and venue for the public hearing;
3. Other matters necessary for efficient operation of the public hearing.

(4) A project implementer shall notify the head of the competent Si/Gun/Gu and the head of the related Si/Gun/Gun of the results of a public hearing, by no later than seven days after the end of the public hearing, as prescribed by Ordinance of the Ministry of Environment.

(5) Except as otherwise provided for in paragraphs (1) through (4), matters necessary for

holding a public hearing shall be prescribed by Ordinance of the Ministry of Environment.

Article 41 (Omitting of Presentation or Public Hearings)(1) Cases where a presentation or public hearing may be omitted under Article 25 (2) of the Act shall be as follows:

1. Where it is impracticable to hold or continue a presentation in a normal condition because of disturbance of residents, etc.;
2. Where it is impracticable to hold or continue a public hearing in a normal condition because of disturbance of residents, etc., although it has been attempted to hold a public hearing at least twice.

(2) When a project implementer omits a presentation or public hearing under paragraph (1), he/she shall take the following measures and shall endeavor to hear opinions of residents, etc. in good faith by other means:

1. Where a presentation is omitted: The following measures:

(a) Publishing the grounds for omitting the presentation session, the method for public inspection of presentation materials, etc. at least once in a daily newspaper and a local newspaper respectively;

(b) Posting the reasons why the presentation session is omitted, presentation materials, etc. in the information and communications network of the relevant Si/Gun/Gu or in the information support system for environmental impact assessment;

2. Where a public hearing is omitted: Publishing the grounds for omitting the public hearing, the timing and method for presenting opinions, the method for public inspection of presentation materials, etc. at least once in a daily newspaper and a local newspaper respectively.

(3) When a project implementer intends to publish the matters referred to in paragraph (2) 2, he/she shall consult with the head of the competent Si/Gun/Gu on the timing, period, etc. for presenting opinions.

Article 42 (Areas for which Collection of Opinions from Relevant Experts, etc. is Necessary)

When a project implementer intends to implement a project subject to environmental impact assessment in any of the following areas in accordance with Article 25 (2) of the Act, he/she shall seek opinions of experts and persons who are not residents in the assessed area in addition to residents' opinions:

1. Natural environment conservation areas under subparagraph 4 of Article 6 of the National Land Planning and Utilization Act;
2. Natural parks under subparagraph 1 of Article 2 of the Natural Parks Act;
3. Wetlands conservation areas and managed wetland environs under Article 8 (1) of the Wetlands Conservation Act;
4. Areas subject to special measures under Article 38 of the Framework Act on Environmental Policy.

Article 43 (Publication of Results of Opinions Collected from Residents, etc. and whether to Reflect such Opinions)

Pursuant to Article 25 (3) of the Act, the results of opinions collected from residents, etc. and whether such opinions have been reflected in the relevant project plan shall be posted on the information and communications network operated by the head of the relevant Si/Gun/Gu or the head of the approving agency or on the information support system for environmental impact assessment for at least 14 days before finalizing the project plan.

Article 44 (Procedures for Omitting Drafting, etc. of Environmental Impact Assessment Reports)

(1) When a project implementer intends to omit the procedures for drafting an environmental impact assessment report and collecting opinions thereon under Article 25 (4) of the Act, he/she shall prepare documents evidencing that all the requirements prescribed in the aforesaid paragraph are met and shall request the head of the consulting agency to hold consultations thereon. In such cases, a project implementer obliged to obtain approval, etc., shall request consultations via the head of the approving agency.

(2) Upon receipt of a request for consultation under paragraph (1), the head of the consulting agency shall notify the project implementer of agreed terms and conditions within 30 days from the date when such request for consultation is made.

Article 45 (Re-collection of Opinions of Residents, etc.)

"Important matters specified by Presidential Decree" in Article 26 of the Act means the following cases:

1. Where the scale of a project subject to environmental impact assessment increases by at least 30 percent of the scale of a project on which consultation has been requested under Article 27 of the Act: Provided, That cases where the scale of a construction project specified in subparagraph 3 (c) (ii) or (d) (ii) or 5 or 7 (a) or (b) of attached Table 3 (limited to a project for a length of at least four kilometers) increases to the minimum extent of an area in the area affected by each item of assessment determined under Article 24 of the Act shall be excluded herefrom;

2. Where the scale of a project increases to not smaller than the minimum scale subject to environmental impact assessment under attached Table 3: Provided, That the foregoing shall not apply where only the building site of a factory under the Industrial Cluster Development and Factory Establishment Act increases and no additional damage to the natural environment or no additional emission of pollutants occurs;

3. Where it is intended to newly construct a waste incineration plant, waste landfill site, sewage treatment plant, or livestock excreta treatment plant (including public disposal facilities and recycling facilities), the scale of which is at least 50 percent of the minimum scale subject to environmental impact assessment;

4. Where a project implementer fails to submit an environmental impact assessment report in accordance with Article 27 of the Act within five years from the end of the period for public inspection of the draft environmental impact assessment report.

SECTION 3 Consultation, Re-consultation, etc., on Environmental Impact Assessment Reports and Amendments thereof

Article 46 (Preparation, etc. of Environmental Impact Assessment Reports)(1) The

environmental impact assessment report under Article 27 of the Act (hereinafter referred to as "environmental impact assessment report") shall include the following matters: <Amended by Presidential Decree No. 26807, Dec. 30, 2015>

1. The items, etc. of environmental impact assessment, determined under Article 24 (1) or (2) of the Act, and measures taken therefor;
 2. The results of review of opinions of residents, etc. under Article 33 (2);
 3. The matters specified in Article 34 (1).
 4. Opinions of residents, experts, and relevant administrative agencies on the draft environmental impact assessment report and the project implementer's opinion of review thereon;
 5. Appendices:
 - (a) Literature and references cited in making the environmental impact assessment;
 - (b) Personal data of participants in environmental impact assessment;
 - (c) A document that indicates the contract amount for strategic environmental impact assessment agency service, such as a copy of an agreement on strategic environmental impact assessment agency service (limited to where an agent is engaged for the preparation of a strategic environmental impact assessment report);
 - (d) Glossary, etc.
- (2) The method of preparing the matters specified in paragraph (1) and other matters necessary for making an environmental impact assessment report shall be determined and publicly notified by the Minister of Environment.

Article 47 (Methods of Submitting Environmental Impact Assessment Reports, Timing for Requesting Consultations, etc.)

(1) Pursuant to Article 27 (1) or (2) of the Act, an environmental impact assessment report shall be printed, bound, and submitted in the form of a book, and the number of copies to be submitted to each relevant authority shall be as follows:

1. The head of the approving agency: Five copies;
 2. The head of the consulting agency: 20 copies.
- (2) The timing for consultations on an environmental impact assessment report under Article 27 (1) of the Act is as prescribed in attached Table 3.
- (3) Upon receipt of an environmental impact assessment report under Article 27 (2) of the Act, the head of the approving agency shall request the head of the consulting agency to hold consultations within ten days from receipt of the environmental impact assessment report.

Article 48 (Review, Amendment, Adjustment, etc. of Environmental Impact Assessment Reports)

(1) Pursuant to Article 28 (1) of the Act, the head of the consulting agency shall review the following matters with respect to an environmental impact assessment report:

1. Eligibility for consultations and other formalities;
2. Compliance with the procedures for collecting opinions of residents, etc. and reflection of

opinions of residents;

3. Validity of details of the environmental impact assessment report.

(2) "The reasons specified by Presidential Decree" in Article 28 (3) of the Act are as follows:

1. The environmental impact assessment report has not been made in accordance with the contents, method, etc. prescribed in Article 46;

2. The implementation of the project subject to environmental impact assessment is likely to damage the environment, and it is deemed necessary to adjust or amend the project plan, etc.

(3) If the head of the consulting agency deems it necessary for reviewing an environmental impact assessment report, he/she may seek opinions of relevant experts thereon.

(4) If the head of the consulting agency deems it necessary for reviewing an environmental impact assessment report, he/she may request the head of the approving agency to furnish him/her with relevant data, etc. In such cases, the head of the approving agency shall comply with such request, except in extenuating circumstances.

(5) Except as otherwise provided for in paragraphs (1) through (4), matters necessary for the guidelines for review of environmental impact assessment reports and amendment and adjustment thereof shall be determined by the Minister of Environment.

Article 49 (Projects subject to Environmental Impact Assessment on which Opinion shall be Sought from Minister of Oceans and Fisheries)

"The projects specified by Presidential Decree" in Article 28 (2) 2 of the Act are as follows: Provided, That projects subject to approval, etc., from the Minister of Oceans and Fisheries shall be excluded herefrom: <Amended by Presidential Decree No. 24451, Mar. 23, 2013>

1. Projects for construction of a harbor;

2. Projects for reclamation of coastal land and development of land;

3. Projects that involve a coastal land area defined under subparagraph 3 of Article 2 of the Coast Management Act;

4. Other projects deemed to have a serious impact on marine environment by the Minister of Environment.

Article 50 (Period for Notification of Agreed Terms and Conditions)

"The period specified by Presidential Decree" in the main sentence of Article 29 (1) of the Act means 45 days (60 days, if the head of the consulting agency extends the period due to extenuating circumstances). In such cases, the period that a project implementer takes to amend the environmental impact assessment report and holidays shall be excluded in the period for notification.

Article 51 (Notification, etc. of Results of Reflection of Agreed Terms and Conditions)

If the head of the approving agency shall notify the head of the consulting agency as to whether agreed terms and conditions have been reflected and the details so reflected pursuant to Article 30 (3) of the Act, he/she shall give notice within 30 days from the date on which he/she approves or confirms the relevant project or project plan (hereinafter referred to as "project or project plan") reflecting the agreed terms and conditions under Article 29 (1)

of the Act.

Article 52 (Requests for Adjustment)

A person who intends to request adjustment of agreed terms and conditions under Article 31 (1) of the Act shall submit a document describing the following matters to the Minister of Environment within 90 days from the date on which the agreed terms and conditions are notified under Article 29 of the Act: <Amended by Presidential Decree No. 25713, Nov. 11, 2014>

1. Details of, and reasons for, requested adjustment;
2. Agreed terms and conditions to be amended;
3. Analysis of the environmental impacts ensuing from the amendment to agreed terms and conditions.

Article 53 (Period for Notification of Results of Deliberation on Requests for Adjustment)

"The period specified by Presidential Decree" in Article 31 (2) of the Act means 30 days (40 days, if the period is extended due to extenuating circumstances). In such cases, the period for amending the request for adjustment and holidays shall be excluded in the period for notification.

Article 54 (Cases subject to Re-consultation on Environmental Impact Assessment Reports)(1)

"The period specified by Presidential Decree" in the main sentence of Article 32 (1) 1 of the Act means five years. <Amended by Presidential Decree No. 25713, Nov. 11, 2014>

(2) Cases subject to re-consultation due to a change in a project subject to environmental impact assessment under Article 32 (1) 2 of the Act are as follows: <Amended by Presidential Decree No. 26807, Dec. 30, 2015>

1. Where the scale of a project or facility increases by at least 30 percent from the original scale which has been reflected in the agreed terms and conditions under Article 29 (1) of the Act (including where the scale increased by accumulated changes is at least 30 percent of the scale which has been reflected in the agreed terms and conditions under 29 (1) of the Act and the terms and conditions agreed by re-consultation under Article 32 (1) of the Act): Provided, That the following cases shall be excluded herefrom:

(a) Where the scale of a project for the construction of a power transmission line under subparagraph 3 (c) (ii) or (d) (ii) of attached Table 3, a project for dredging a sea route under subparagraph 4 (c) of the aforesaid Table, a project for the construction of a road under subparagraph 5 of the aforesaid Table, a project for the construction of a railroad under subparagraph 7 (a) or (b) of the aforesaid Table, a project for the development of a river under subparagraph 9 of the aforesaid Table, or a project for the construction of a forest road under subparagraph 12 (b) of the aforesaid Table (hereinafter referred to as "linear project") is additionally increased after the project was completed in accordance with the agreed project plan, etc.;

(b) Where a linear project (limited to a project the length of which is at least four kilometers,

in cases of a project for the construction of a railroad under subparagraph 7 (a) or (b) of attached Table 3) is increased for the minimum area within the area affected by each item of assessment determined under Article 24 of the Act;

2. Where the scale of a project increases to not smaller than the minimum scale subject to environmental impact assessment under attached Table 3: Provided, That the foregoing shall not apply where only the building site of a factory under the Industrial Cluster Development and Factory Establishment Act increases and no additional damage to natural environment or no additional pollutants are emitted;

3. Deleted. <by Presidential Decree No. 25713, Nov. 11, 2014>

(3) "Where the area that it is intended to develop is not smaller than the scale specified by Presidential Decree or where it is intended to alter the location of such area" in Article 32 (1) 3 of the Act means where the area which is intended to develop or relocate, out of the area specified to be conserved in its original state or to be excluded from the project according to the agreed terms and conditions notified under Article 29 (1) of the Act, is at least 30 percent of the minimum scale of the project subject to environmental impact assessment (including cases where the scale of the area to be developed according to accumulated changes is at least 30 percent of the minimum scale of the project subject to environmental impact assessment).

(4) "The events specified by Presidential Decree" in Article 32 (1) 4 of the Act are as follows: <Amended by Presidential Decree No. 25713, Nov. 11, 2014>

1. Where a project implementer who omits re-consultation on an environmental impact assessment report because the relevant project falls within the category under the proviso to paragraph (2) 2 intends to conduct any act causing damage to natural environment or emitting pollutants in the relevant site;

2. Where construction works are resumed after being suspended for at least seven years.

Article 55 (Documents, etc. to be Submitted for Requesting Review of Plans for Environmental Conservation)(1) A person who intends to receive a review of a plan for environmental conservation in accordance with the main sentence of Article 33 (2) of the Act shall submit documents describing the following matters, to the head of the approving agency:

1. Details of the amendment to the project plan, etc.;

2. Outcomes of the survey, forecasting, and assessment of the environmental impact ensuing from the amendment to the project plan, etc.;

3. Details of the plan for environmental conservation following the amendment to the project plan, etc.

(2) "Cases specified by Presidential Decree" in Article 33 (3) of the Act are as follows: <Amended by Presidential Decree No. 25713, Nov. 11, 2014; Presidential Decree No. 26807, Dec. 30, 2015>

1. Where the guidelines for consultations are amended;

2. Where the scale of a project or facility falls within either of the following cases: Provided,

That where the scale of a linear project is additionally increased after the project has been completed in accordance with the agreed project plan, etc. or where a linear project (limited to a project the length of which is at least four kilometers, in cases of a project for the construction of a railroad under subparagraph 7 (a) or (b) of attached Table 3) is increased for the minimum area within the area affected by each item of assessment determined under Article 24 of the Act shall be excluded herefrom:

(a) Where the scale of a project or facility is increased by at least ten percent from the original scale which has been reflected in the agreed terms and conditions under Article 29 (1) of the Act (including where the scale increased by accumulated changes is at least ten percent of the scale which has been reflected in the agreed terms and conditions under 29 (1) of the Act and the terms and conditions agreed by re-consultation under Article 32 (1) of the Act):

(b) Where an increase in the scale of a project on which consultation has been held under Article 29 (1) of the Act amounts to a project subject to small-scale environmental impact assessment under Article 43 of the Act (where a temporary site office is built for the management of construction works of the relevant project or a construction project specified in subparagraph 3 (c) (ii) or (d) (ii) of attached Table 3 does not cause any change in form and quality of land, the area for such site office or construction project shall be excluded);

3. Deleted. <by Presidential Decree No. 25713, Nov. 11, 2014>

4. Where a land use plan is amended with respect to at least five percent of the area specified as the area that shall be conserved in its original state or that shall be excluded from the plan according to the agreed terms and conditions under Article 29 (1) of the Act, or the area subject to the amendment in the relevant region is at least 10,000 square meters (including where the increase in the area to be developed by accumulated changes exceeds five percent of the scale which has been reflected in the agreed terms and conditions under 29 (1) of the Act or the terms and conditions agreed by re-consultation under Article 32 (1) of the Act or is at least 10,000 square meters);

5. A land use plan is amended with respect to at least 15 percent of the area of the building site included in the agreed terms and conditions under Article 29 (1) of the Act (referring to the whole area of the building site reflected in the final consultation, where a project has undergone re-consultation under Article 32 (1) of the Act or consultation on an amendment under Article 33 (3) of the Act). If a land use plan has been amended a couple of times with respect to less than 15 percent of the area of the building site finally determined by the relevant consultation under Article 29 (1) of the Act, re-consultation under Article 32 (1) of the Act, or consultation on an amendment under Article 33 (3) of the Act, the area amended by the land use plan shall be determined by accumulating the areas amended successively;

6. Where an amendment is made with regard to any of the matters specified, as at the time agreed terms and conditions are notified under Article 29 (1) of the Act, as matters concerning buildings or other structures subject to restrictions on site location in the project site (including types of business, if the project is for the development of an industrial site or industrial complex) or as other matters on which the opinion of the head of the consulting

agency shall be sought in advance if it is intended to amend agreed terms and conditions;

7. Where pollutants emitted or discharged (referring to pollutants regulated by standards established for permissible emissions or discharge under Article 16 of the Clean Air Conservation Act or Article 32 of the Water Quality and Aquatic Ecosystem Conservation Act) increase by at least 30 percent of the agreed amount of pollutants to be emitted or discharged under Article 29 (1) of the Act (including cases where the volume increased by accumulated changes is at least 30 percent of the volume reflected in terms and conditions agreed through consultation under Article 29 (1) of the Act or re-consultation under Article 32 (1) of the Act) or where new pollutants are emitted or discharged.

(3) When the head of the approving agency intends to seek an opinion in accordance with Article 33 (3) of the Act, he/she shall submit documents describing the matters referred to in paragraph (1) to the head of the consulting agency.

SECTION 4 Fulfillment of Agreed Terms and Conditions, Management of Performance, etc.

Article 55-2 (Institutions Qualified for Review on Findings of Follow-up Surveys of Environmental Impact, etc.)

"The institutions specified by Presidential Decree" in Article 36 (4) of the Act means the following institutions:

1. The National Institute of Environmental Research;
2. A biological resource center established and operated by the State pursuant to Article 39 (1) of the Wildlife Protection and Management Act;
3. The Korea Environment Institute established pursuant to the Act on the Establishment, Operation and Fostering of Government-Funded Research Institutes;
4. The Korea Environment Corporation prescribed in the Korea Environment Corporation Act;
5. The National Institute of Ecology prescribed in the Act on the Establishment and Operation of the National Institute of Ecology.

[This Article Newly Inserted by Presidential Decree No. 26170, Mar. 30, 2015]

Article 56 (Notification of Results of Ascertainment of Fulfillment of Agreed Terms and Conditions)

The head of the approving agency shall notify the head of the consulting agency of the results of ascertainment under Article 39 (1) as to whether agreed terms and conditions have been fulfilled, as prescribed by Ordinance of the Ministry of Environment.

Article 57 (Notification of Results of Re-assessment of Environmental Impacts)

"The period specified by Presidential Decree" in Article 41 (2) of the Act means one year.

SECTION 5 Environmental Impact Assessment under Municipal Ordinance of City/Do

Article 58 (Scope of Projects subject to Environmental Impact Assessment under Municipal Ordinance of City/Do)

Projects falling within "the scope specified by Presidential Decree" in Article 42 (1) of the Act are as follows:

1. A project, the scale of which is at least 50 percent but not exceeding 100 percent of the project specified in attached Table 3;
2. A project, the scale of which is less than 50 percent of the project specified in attached Table 3 or a project within the scope agreed between the Governor of the Special Metropolitan City or a Metropolitan City or the Governor of a Do or a Special Self-Governing Province (excluding large cities with a population of at least 500,000 persons within his/her jurisdiction) or the Mayor of a large city with a population of at least 500,000 persons and the Minister of Environment, among projects not specified in attached Table 3.

CHAPTER IV SMALL-SCALE ENVIRONMENTAL IMPACT ASSESSMENT

Article 59 (Projects subject to Small-Scale Environmental Impact Assessment and Scope thereof)

The categories and scope of areas and development projects subject to small-scale environmental impact assessment under Article 43 (1) of the Act are as prescribed in attached Table 4.

Article 60 (Preparation of Small-Scale Environmental Impact Assessment Reports)(1)

A small-scale environmental impact assessment report under Article 44 (1) of the Act (hereinafter referred to as "small-scale environmental impact assessment report") shall include the following matters: <Amended by Presidential Decree No. 26807, Dec. 30, 2015>

1. Overview of the project;
2. The scope of an area subject to environmental impact assessment and the present conditions of land use and environment of the areas around the relevant project site;
3. Appropriateness of site location (excluding projects for which strategic environmental impact assessment has been conducted);
4. Outcomes of the survey, forecasting, and assessment of environmental impacts;
5. Measures for environmental conservation;
6. Appendices:
 - (a) Literature and references cited in small-scale environmental impact assessment report;
 - (b) Personal data of participants in small-scale environmental impact assessment;
 - (c) A document that indicates the contract amount for small-scale environmental impact assessment agency service, such as a copy of an agreement on small-scale environmental impact assessment agency service (limited to where an agent is engaged for the formulation of a small-scale environmental impact assessment report);
 - (d) Glossary, etc.

(2) With respect to any of small-scale development projects that fall within the categories, scale, etc. determined and publicly notified by the head of the consulting agency as he/she deems that the environmental impact of such projects is minor, a project implementer obliged to obtain approval, etc., or the head of the approving agency may be permitted to omit part of the matters specified in paragraph (1) when he/she prepares a small-scale environmental impact assessment report. <Amended by Presidential Decree No. 25713, Nov. 11, 2014>

(3) If the head of the consulting agency has reviewed a strategic environmental impact

assessment report under Article 17 of the Act with regard to sub-items of small-scale environmental impact assessment in attached Table 1, he/she may permit the following matters to be omitted: <Amended by Presidential Decree No. 25713, Nov. 11, 2014>

1. If part of sub-items of small-scale environmental impact assessment in attached Table 1 has been reviewed: Preparation of reviewed items of assessment;

2. If all sub-items of small-scale environmental impact assessment in attached Table 1 have been reviewed: Preparation of the small-scale environmental impact assessment report under Article 44 of the Act and the procedures for requesting consultations thereon.

(4) Except as otherwise provide for in paragraphs (1) through (3), further details about preparation of a small-scale environmental impact assessment report, etc. shall be determined and publicly notified by the Minister of Environment.

Article 61 (Methods of Submitting Small-scale Environmental Impact Assessment Reports, Timing for Requesting Consultations, etc.)(1) Pursuant to Article 44 (1) or (2) of the Act, a small-scale environmental impact assessment report shall be printed, bound, and submitted in book form, and the number of copies to be submitted to each relevant authority is as follows:

1. The head of the approving agency: Five copies;

2. The head of the consulting agency: Ten copies.

(2) The timing for consultations on a small-scale environmental impact assessment report under Article 44 (2) of the Act is as prescribed in attached Table 4.

(3) Upon receipt of a small-scale environmental impact assessment report under Article 44 (1) of the Act, the head of the approving agency shall request the head of the consulting agency to hold consultations within ten days from receipt of the small-scale environmental impact assessment report.

Article 62 (Period for Notification of Agreed Terms and Conditions)(1) "The period specified by Presidential Decree" in Article 45 (1) of the Act means 30 days (40 days, if the head of the consulting agency extends the period due to an exceptional situation): Provided, That the period shall be 20 days in cases of small-scale development projects referred to in Article 60 (2) (30 days, if the head of the consulting agency extends the period due to an exceptional situation). <Amended by Presidential Decree No. 26807, Dec. 30, 2015>

(2) The period that the head of the approving agency or the project implementer needs to supplement the small-scale environmental impact assessment report and holidays shall not be included in the period for notification specified in paragraph (1). <Newly Inserted by Presidential Decree No. 26807, Dec. 30, 2015>

Article 63 (Amendment, Adjustment, etc. of Small-Scale Environmental Impact Assessment Reports)(1) "The reasons specified by Presidential Decree" in Article 45 (3) of the Act means the following cases:

1. Where a small-scale environmental impact assessment report has not been prepared in accordance with the contents, method, etc. prescribed in Article 60;

2. Where the implementation of a project subject to small-scale environmental impact

assessment is likely to harm the environment, and it is deemed necessary to adjust or amend the relevant project plan.

(2) If the head of the consulting agency deems necessary for reviewing a small-scale environmental impact assessment report, he/she may request the head of the approving agency to furnish him/her with relevant data, etc. In such cases, the head of the approving agency shall comply with such request, except in extenuating circumstances.

(3) Except as provided by paragraphs (1) and (2), the guidelines for the review on small-scale environmental impact assessment reports or matters necessary for the supplementation, adjustments, etc. of such reports shall be prescribed by the Minister of Environment. <Newly Inserted by Presidential Decree No. 26807, Dec. 30, 2015>

CHAPTER V SPECIAL PROVISIONS CONCERNING ENVIRONMENTAL IMPACT ASSESSMENTS, ETC.

Article 64 (Scope of Projects subject to Summary Process)

"A project specified by Presidential Decree" in Article 51 (1) of the Act means a project that meets all the following requirements:

1. A project, the scale of which is not more than 200 percent of the scale subject to small-scale environmental impact assessment under attached Table 3 and the environmental impact of which is insignificant;
2. A project that does not include any of the following areas highly valued for environmental and ecological conservation in the project zone:
 - (a) A zone rated first grade in the ecological zoning map under Article 34 of the Natural Environment Conservation Act;
 - (b) A wetlands conservation area and managed wetland environs under Article 8 of the Wetlands Conservation Act;
 - (c) A natural park under subparagraph 1 of Article 2 of the Natural Parks Act;
 - (d) A special protection district for wildlife or a protection district for wildlife under Article 27 or 33 of the Wildlife Protection and Management Act;
 - (e) A protection zone under Article 2 (4) of the Cultural Heritage Protection Act;
 - (f) A riparian zone under Article 4 of the Act on Water Management and Resident Support in the Geum River Basin;
 - (g) A riparian zone under Article 4 of the Act on Water Management and Resident Support in the Nakdong River Basin;
 - (h) A riparian zone under Article 4 of the Act on Water Management and Resident Support in the Yeongsan and Seomjin River Basins;
 - (i) A riparian zone under Article 4 of the Act on the Improvement of Water Quality and Support for Residents of the Han River Basin.

Article 65 (Preparation of Summary Assessment Reports)(1) A summary assessment report under Article 51 (1) of the Act shall include the following matters:

1. The items, etc. of environmental impact assessment, determined under Article 24 (1) and (2) of the Act, and measures taken therefor;

2. Matters specified in Article 34 (1).

(2) Further details about the method of preparing summary assessment reports shall be determined and publicly notified by the Minister of Environment.

Article 66 (Period for Deliberation on Determining Projects subject to Summary Process)

"The period specified by Presidential Decree" in Article 51 (4) of the Act means the period from the day on which a project plan subject to environmental impact assessment is formulated to the day immediately before the completion of a draft environmental impact assessment report.

Article 67 (Preparation of Assessment Reports including Agreed Terms and Conditions, etc.)(1) "The period specified by Presidential Decree" in Article 52 (3) of the Act means 40 days. In such cases, holidays shall be excluded from the period for presenting opinions.

(2) An environmental impact assessment report under Article 52 (1) or (2) of the Act shall include the following matters: <Amended by Presidential Decree No. 26807, Dec. 30, 2015>

1. The items, etc. of environmental impact assessment, determined under Article 24 (1) or (2) of the Act, and measures taken therefor;

2. The results of review of opinions of residents, etc. under Article 33 (2);

3. The matters specified in Article 34 (1);

4. Opinions of residents, experts, and relevant administrative agencies on the summary assessment report and the project implementer's opinion of review thereon;

5. Appendices:

(a) Literature and references cited in environmental impact assessment;

(b) Personal data of participants in environmental impact assessment;

(c) A document that indicates the contract amount for summary environmental impact assessment agency service, such as a copy of an agreement on summary environmental impact assessment agency service (limited to where an agent is engaged for the formulation of a summary environmental impact assessment report);

(d) Glossary, etc.

CHAPTER VI ENGAGEMENT OF AGENT FOR ENVIRONMENTAL IMPACT ASSESSMENT

Article 67-2 (Institutions and Organizations subject to Evaluation of Capability to Perform Projects)

"Institutions and organizations specified by Presidential Decree" in Article 53 (2) 4 of the Act means the following institutions, etc.:

1. An institution funded by the State or by a local government;

2. The implementer of a project entrusted by the State, a local government, or a public enterprise or a quasi-governmental institution defined by Article 5 (3) 1 or 2 of the Act on the Management of Public Institutions;

3. A project implementer defined by subparagraph 7 of Article 2 of the Act on Public-Private

Partnerships in Infrastructure or a person entrusted by such project implementer with the implementation of a project.

[This Article Newly Inserted by Presidential Decree No. 26807, Dec. 30, 2015]

Article 67-3 (Subjects and Standards of Evaluation of Capability to Perform Projects)(1) The projects subject to the evaluation of capability to perform projects under Article 53 (2) of the Act are as follows:

1. A project for providing agency service to formulate an environmental impact assessment report, etc., if the estimated price for the project is at least 210 million won;
2. A project for providing agency service to formulate an environmental impact assessment report, etc., if the project shall be awarded through bidding under Article 18 of the Enforcement Decree of the Act on Contracts to Which the State Is a Party;
3. A project for providing agency service to formulate an environmental impact assessment report, etc., if excessive competition is likely to bring about poor outcomes.

(2) Notwithstanding paragraph (1), a contracting authority may elect not to evaluate an agent's capability to perform a project for agency service to formulate an environmental impact assessment report, etc., if the project can be awarded by a no-bid contract under the proviso to Article 7 (1) of the Act on Contracts to Which the State Is a Party, notwithstanding paragraph (1).

(3) The standards for the evaluation of capability to perform projects under Article 53 (2) of the Act shall be as prescribed in attached Table 4-2.

[This Article Newly Inserted by Presidential Decree No. 26807, Dec. 30, 2015]

Article 67-4 (Method and Procedure of Evaluation of Capability to Perform Projects)(1)

Where a contracting authority is required to evaluate an agent's capability to perform projects under Article 53 (2) of the Act, the contracting authority shall give public notice on the implementation plan, including the matters specified by Ordinance of the Ministry of Environment, by not later than 60 days before the scheduled date of public notice on bidding for agency service for formulating the relevant environment impact assessment report, etc.

(2) A person who intends to participate in a project publicly notified under paragraph (1) for providing agency service for formulating an environment impact assessment report, etc. shall file an application for participation in performance of the project with the contracting authority by not later than 30 days before the scheduled date of public notice on bidding for the relevant project. If two or more persons intend to jointly participate in a project in such cases, the persons shall file an application for participation in performance of the project under the joint name.

(3) Pursuant to Article 53 (2) of the Act, a contracting authority shall evaluate the capability of the persons who have filed an application for participation in performance of the project in accordance with paragraph (2) and may permit the environment impact assessment agents who are competent for the relevant project for providing agency service for formulating an environment impact assessment report, etc. in the bidding process. The data prepared by the Environmental Impact Assessment Association under Article 67-5 with

respect to the evaluation of capability to perform projects may be utilized in such cases.

(4) A contracting authority shall give notice on the results of evaluation to the environment impact assessment agents who are evaluated as competent under paragraph (3).

[This Article Newly Inserted by Presidential Decree No. 26807, Dec. 30, 2015]

Article 67-5 (Association's Cooperation)

Upon receipt of a request from a contracting authority for cooperation under Article 53 (3) of the Act, the Environmental Impact Assessment Association established pursuant to Article 71 of the Act may provide the contracting authority with data regarding the evaluation of capability of environment impact assessment agents to perform projects by utilizing the following data:

1. Current status of the registration of environmental impact assessment businesses under Article 54 of the Act;
2. Records of performance of agency service for environmental impact assessment under Article 61 of the Act;
3. Other data regarding the evaluation of capability of environment impact assessment agents to perform projects.

[This Article Newly Inserted by Presidential Decree No. 26807, Dec. 30, 2015]

Article 68 (Registration of Environmental Impact Assessment Businesses)(1) A person who intends to register his/her business as an agent for environmental impact assessment under Article 54 (1) of the Act (hereinafter referred to as "environmental impact assessment business") shall file an application for registration of the environmental impact assessment business (or an application in an electronic form) with the Minister of Environment, along with the following documents, as prescribed by Ordinance of the Ministry of Environment:

1. A business registration certificate (or matching relevant data in lieu thereof, against the corporate registration certificate available for sharing administrative information under Article 36 (1) of the Electronic Government Act, if the applicant is a corporation);
2. Documents evidencing technical capacity and qualifications in possession;
3. A list of facilities and equipment (a copy of a contract for engagement of a measuring agent, if such contract exists).

(2) Technical personnel, facilities, equipment, etc. of environmental impact assessment businesses by rating category under Article 54 (4) of the Act are as prescribed in attached Table 5.

(3) The scope of business activities of environmental impact assessment businesses for each rating category under Article 54 (4) of the Act is as follows:

1. Class-I environmental impact assessment businesses:
 - (a) Acting as an agent for making a draft strategic environmental impact assessment report under Article 9 of the Act (including a preparatory statement for assessment) and for preparing an assessment report;
 - (b) Acting as an agent for preparing an environmental impact assessment report under Article 22 of the Act (including a preparatory statement for assessment) and for preparing

an assessment report;

(c) Acting as an agent for preparing reports on follow-up survey of environmental impacts under Article 36 of the Act;

(d) Acting as an agent for preparing an environmental impact assessment report under Municipal Ordinance of a City/Do pursuant to Article 42 of the Act;

(e) Acting as an agent for preparing a small-scale environmental impact assessment report under Article 43 of the Act;

(f) Acting as an agent for preparing a summary assessment report or an environmental impact assessment report under Article 51 or 52 of the Act;

(g) Acting as an agent for preparing reports on the survey, forecasting, and assessing an impact on the natural and ecological environment and for preparing a conservation plan, as necessary for making an assessment report or survey report under items (a) through (f);

2. Class-II environmental impact assessment businesses: Business activities specified in subparagraph 1 (g).

(4) A person who operates a Class-I environmental impact assessment business registered under paragraph (3) 1 (hereinafter referred to as "Class-I environmental impact assessment agent") may subcontract business affairs for the survey, forecasting, and assessment of an impact on the natural and ecological environment and for preparing a conservation plan, as necessary for preparing an assessment report or survey report under paragraph (3) 1, to a person who engages in a Class-II environmental impact assessment business registered under paragraph (3) 2.

Article 69 (Amendment to Registered Descriptions of Environmental Impact Assessment Businesses)(1) "The material facts specified by Presidential Decree" in Article 54 (2) of the Act are as follows:

1. Trade name or name;

2. Representative;

3. Technical personnel in service and the scope of business;

4. The location of the department in charge of assessment and the laboratory;

5. The measuring agent and details of the relevant contract (only where a contract for engagement of a measuring agent has been signed in accordance with attached Table 5).

(2) An environmental impact assessment agent who intends to register any change in registration in accordance with Article 54 (2) of the Act, shall file an application for registration of the change with the Minister of Environment, along with documents evidencing the details of the change and the certificate of the environmental impact assessment business, within 60 days from the day on which such change occurs, as prescribed by Ordinance of the Ministry of Environment.

CHAPTER VII ENVIRONMENTAL IMPACT ASSESSORS

Article 70 (Qualification Examinations)(1) The Minister of Environment shall administer qualification examinations for environmental impact assessors under Article 63 (1) of the Act (hereinafter referred to as "qualification examinations") at least annually but may determine

not to administer qualification examinations in a specific year, based upon the conditions of supply and demand of environmental impact assessors.

(2) The Minister of Environment may entrust a specialized institution designated and publicly notified by the Minister of Environment with the performance of administrative affairs related to qualification examinations under paragraph (1) and the management of qualifications.

(3) The State and local governments shall preferentially treat persons qualified as environmental impact assessors to the extent that such preferential treatment does not breach any other statute.

Article 71 (Qualifications for Examinations)

The qualification of an applicant for a qualification examination under Article 63 (5) of the Act is as prescribed in attached Table 6.

Article 72 (Standards and Methods for Testing)(1) Questions in a qualification examination shall be appropriate to ascertain whether the applicants have learned the knowledge or abilities specified in the following subparagraphs:

1. Expertise in environmental impact assessment and related systems;
2. The ability to assess environmental appropriateness of site location and plans in regard to various administrative plans and development projects;
3. The ability to comprehensively adjust environmental impact assessments in each stage;
4. The ability to comprehensively adjust items of assessment.

(2) A qualification examination shall be divided into the primary test and the secondary test.

(3) Persons who successfully pass the primary test are qualified for the secondary test.

(4) The primary test shall be a written test in description or essay format, while the secondary test shall be an oral test, and examination subjects are as prescribed in attached Table 7.

(5) In order to pass the primary or secondary test, a person shall obtain 40 points for each subject and at least average 60 points for all subjects, out of 100 points per subject.

(6) Public announcement of a qualification examination, the procedure for filing an application for examination, the imposition and refund of fees, the issuance of qualification certificates, the commissioning of test organizers, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

Article 73 (Partial Exemption from Examination Subjects, etc.)(1) The Minister of Environment shall exempt a person who successfully passes a primary test from the primary tests only for two examinations conducted after the day on which the person passes the primary test.

(2) The criteria for persons eligible for partial exemption from subjects of the qualification examination under Article 63 (5) of the Act and exempted subjects are as prescribed in attached Table 8.

Article 74 (Persons Obligated to Attend Educational and Training Programs)(1) The Minister of Environment shall conduct the following educational and training programs in order to improve environmental impact assessors' skills for performing their duties pursuant to Article 63 (3) and (5) of the Act:

1. Initial educational programs: Initial education provided to persons who acquire the qualification of environmental impact assessor for at least 40 hours in regard to practices of environmental impact assessment, assessment techniques, on-site practical training, related laws and regulations, etc.;

2. Continuing educational programs: In-service education provided to environmental impact assessors who finished initial educational programs for not more than 20 hours regularly once every three years in order to improve their expertise.

(2) If an environmental impact assessor is unable to attend any of the educational programs under paragraph (1), he/she shall file an application for deferment of the educational program, as prescribed by Ordinance of the Ministry of Environment.

Article 75 (Procedure for Education and Training, etc.)(1) The educational and training programs under Article 74 (1) may be conducted by means of e-learning defined under subparagraph 1 of Article 2 of the Act on Development of E-Learning Industry and Promotion of Utilization of E-Learning, collective training, or a combination of e-learning and collective training.

(2) The Minister of Environment may impose a certain amount of fee upon persons who attend any educational or training program under Article 74 (1), and the amount of such fees shall be determined and publicly notified by the Minister of Environment, taking into consideration actual costs and other factors.

(3) The Minister of Environment may entrust an institution or organization that meets the following standards with the conduct of educational and training programs referred to in Article 74 (1):

1. An institution or organization shall fall under any of the following items:

(a) The National Institute of Environmental Human Resources Development;

(b) A non-profit corporation established with permission of the Minister of Environment under Article 32 of the Civil Act;

(c) A public institution defined under Article 4 (1) of the Act on the Management of Public Institutions;

(d) A government-funded research institute established pursuant to the Act on the Establishment, Operation and Fostering of Government-Funded Research Institutes or the Act on the Establishment, Operation and Fostering of Government-Funded Science and Technology Research Institutes, Etc;

(e) A university or college defined under subparagraph 1 of Article 2 of the Higher Education Act;

2. An institution or organization shall meet all of the following requirements:

(a) It shall have a classroom with a seating capacity of at least 30 persons;

(b) It shall have an organization specializing in educational and training programs;

(c) It shall have a track record of performing educational programs related to environment during at least the latest one year.

(4) The Minister of Environment shall give public notice of the institutions or organizations to

which education and training of environmental impact assessors are entrusted under paragraph (3) (hereinafter referred to as "institutions entrusted with education and training"), the plan for education and training of each institution entrusted with education and training, etc. each year on the Official Gazette and web-sites.

(5) The head of an institution entrusted with education and training may evaluate the performance of an educational or training program.

(6) The head of an institution entrusted with education and training shall issue a certificate of completion of an educational or training program to an environmental impact assessor who completes the educational or training program.

(7) The head of an institution entrusted with education and training shall report the results of an educational or training program to the Minister of Environment within 14 days from the day on which the educational or training program is completed.

CHAPTER VIII SUPPLEMENTARY PROVISIONS

Article 76 (Publication of Environmental Impact Assessment Reports, etc.)(1) When the head of the consulting agency intends to publish an environmental impact assessment report, etc., pursuant to Article 66 (1) of the Act, he/she shall publish it by using the information support system for environmental impact assessment during the period specified in any of the following subparagraphs: Provided, That the timing for publishing such report may be changed, if the project implementer or the head of the approving institution requests to publish it at a different time specified by him/her: <Amended by Presidential Decree No. 25713, Nov. 11, 2014>

1. An environmental impact assessment report, etc., and agreement terms and conditions thereof: Within 30 days from the date the head of the consulting agency gives notice of agreed terms and conditions;

2. Re-consultation of an environmental impact assessment report, etc., and agreement terms and conditions thereof: Within 30 days from the day the head of the consulting agency gives notice of agreed terms and conditions;

3. Consultation of an amendment to an environmental impact assessment report, etc., a plan for environmental conservation, or an opinion of review (only where it is required to seek the opinion of the head of the consulting agency): Within 30 days from the day the head of the consulting agency gives notice of agreed terms and conditions;

4. A report on a follow-up survey of environmental impact: Within 30 days from the day the report on follow-up survey of environmental impact is delivered;

5. An assessment report reflecting the agreed terms and conditions, etc. under Article 52 of the Act: Within 15 days from the day the assessment report is submitted.

(2) Except as otherwise provided for in paragraph (1), matters necessary for publication of environmental impact assessment reports, etc. shall be determined by the Minister of Environment.

Article 77 (Delegation or Entrustment)(1) Pursuant to Article 72 (1) of the Act, the Minister of Environment shall delegate his/her authority over the following administrative affairs to

the heads of regional environmental agencies and offices:

1. Issuing an order or to suspend construction works or to take other necessary measures under Article 34 (4) or requesting to take such measures;
2. Receiving notices for designating a manager under Article 35 (3) of the Act;
3. Receiving notice of the results of the follow-up survey of environmental impact under Article 36 (1) of the Act;
4. Receiving notice of commencement of a project under Article 37 of the Act;
5. Receiving notice of the progress of performance of agreed terms and conditions and the ground for succession under Article 38 (2) of the Act;
6. Requesting to submit data or entering a place of business to conduct an inspection under Article 39 (2) of the Act;
7. Receiving the results of ascertaining fulfillment of agreed terms and conditions and ascertaining fulfillment thereof under Article 39 (3) of the Act;
8. Ascertaining whether agreed standards have been complied with and issuing an order to suspend construction works or to take other necessary measures under Article 40 (3) of the Act;
9. Receiving notice of an order issued to take measures or to suspend construction works and notice of results of measures taken under Article 40 (4) of the Act;
10. Issuing an order to suspend construction works or to take other necessary measures under Article 47 (3) of the Act or requesting to take such measures;
11. Receiving notice of commencement of a project under Article 48 of the Act;
12. Requesting to submit data, ascertaining the fulfillment of agreed terms and conditions, or issuing an order to take measures under Article 49 of the Act;
13. Cancelling registration or issuing an order to suspend business operations under Article 58 of the Act;
14. Issuing orders to submit a report or data or conducting an inspection under Article 60 of the Act;
15. Revoking or suspending qualification under Article 65 of the Act;
16. Holding hearings under Article 67 of the Act;
17. Imposing and collecting an administrative fine under Article 76 of the Act;
18. The authority over the following affairs with respect to any of the projects specified in attached Table 9:
 - (a) Forming and operating the Environmental Impact Assessment Council under Article 8 of the Act (excluding affairs related to the adjustment of agreed terms and conditions under Article 31 of the Act);
 - (b) Receiving draft strategic environmental impact assessment reports under Article 12 (2) of the Act and presenting opinions thereon;
 - (c) Receiving strategic environmental impact assessment reports under Article 16 of the Act;
 - (d) Reviewing, amending, and adjusting strategic environmental impact assessment reports under Article 17 of the Act;

- (e) Giving notice of agreed terms and conditions of strategic environmental impact assessment reports under Article 18 of the Act;
- (f) Receiving notice of the results of measures taken or plans for taking measures under Article 19 of the Act and consulting with the head of the competent administrative agency thereon;
- (g) Re-consulting on strategic environmental impact assessment reports under Article 20 of the Act;
- (h) Consulting on amendments to a strategic environmental impact assessment report under Article 21 of the Act;
- (i) Determining and giving notice of the items, scope, etc. of assessment under Article 24 (3) or (4) of the Act;
- (j) Receiving draft environmental impact assessment reports under Article 25 (2) of the Act and presenting opinions thereon;
- (k) Consulting on environmental impact assessment reports under Article 27 of the Act;
- (l) Reviewing, amending, and adjusting environmental impact assessment reports under Article 28 of the Act;
- (m) Giving notice of agreed terms and conditions under Article 29 of the Act;
- (n) Receiving notice of the results of reflection of agreed terms and conditions under Article 30 of the Act and requesting to reflect agreed terms and conditions;
- (o) Re-consulting on environmental impact assessment reports under Article 32 of the Act;
- (p) Consulting on amendments to an environmental impact assessment report under Article 33 of the Act;
- (q) Reviewing the results of the follow-up survey of environmental impact under Article 36 (1) of the Act;
- (r) Receiving small-scale environmental impact assessment reports under Article 44 (2) of the Act;
- (s) Giving notice of agreed terms and conditions of a small-scale environmental impact assessment report under Article 45 (1) of the Act;
- (t) Requesting to amend or adjust a small-scale environmental impact assessment report or the relevant project plan under Article 45 (3) of the Act;
- (u) Receiving notice of the results of reflection of agreed terms and conditions under Article 46 (2) of the Act and requesting to reflect agreed terms and conditions;
- (v) Receiving requests to determine whether an environmental impact assessment may be conducted in accordance with the summary process under Article 51 (3) or (4) of the Act and giving notice of the results thereof;
- (w) Giving notice of opinions, where the opinion presented under Article 52 (1) or (2) of the Act differs from agreed terms and conditions;
- (x) Giving notice of an opinion under Article 52 (3) of the Act;
- (y) Receiving environmental impact assessment reports under Article 52 (4) of the Act;
- (z) Publishing environmental impact assessment reports, etc. under Article 66 (1) of the Act;

(aa) Receiving requests for non-publication of an environmental impact assessment report, etc., under Article 66 (2) of the Act and taking measures therefor.

(2) Pursuant to Article 72 (2) of the Act, the Minister of Environment shall entrust the performance of the following administrative affairs to the institutions designated and publicly notified under paragraphs (3) and (4):

1. Registration of environmental impact assessment businesses under Article 54 of the Act and of amendments thereto;
2. Receipt of reports on permanent or temporary closure of business under Article 57 of the Act;
3. Receipt of reports from environmental impact assessment agents under Article 60 of the Act;
4. Receipt of reports from environmental impact assessment agents on the performance of environmental impact assessments under Article 61 of the Act and publication of records of performance of each environmental impact assessment agent and the details of administrative dispositions;
5. Affairs related to the qualification examinations for environmental impact assessors under Article 63 of the Act, the issuance of qualification certificates, testing, the management of qualification, etc.

(3) The institutions to which the administrative affairs under paragraph (2) may be entrusted are as follows:

1. The environmental impact assessment association under Article 71 of the Act;
2. The Korean environmental Preservation Association under Article 59 of the Framework Act on Environmental Policy;
3. A government-funded research institute established pursuant to the Act on the Establishment, Operation and Fostering of Government-Funded Research Institutes or the Act on the Establishment, Operation and Fostering of Government-Funded Science and Technology Research Institutes;
4. A non-profit corporation incorporated with permission of the Minister of Environment under Article 32 of the Civil Act;
5. The Korean environmental Industry and Technology Institute under Article 5-2 of the Environmental Technology and Industry Support Act;
6. The Korea Environment Corporation under the Korea Environment Corporation Act;
7. The Human Resources Development Service of Korea under the Human Resources Development Service of Korea Act.

(4) When the Minister of Environment designates an entrusted institution under paragraph (2), he/she shall publicly notify the name, address, and representative of the entrusted institution, the scope of entrusted affairs, the methods for handing such affairs, and other necessary matters.

(5) An institution entrusted with affairs under paragraph (2) shall submit a semi-annual report on the results of entrusted and handled affairs to the Minister of Environment by not later

than the last day of the month immediately following the end of each half-year.

Article 77-2 (Review of Regulations)

The Minister of Environment shall review the validity of the following matters tri-annually from the relevant reference date specified in the following subparagraphs (referring to the day immediately before every third anniversary from the reference date) and shall take measures for improvement:

1. Projects subject to environmental impact assessment and the scope thereof under Article 31 and attached Table 3: January 1, 2014;
2. The methods for submitting environmental impact assessment reports and the timing for requesting consultation under Article 47 and attached Table 3: January 1, 2014;
3. Registration of environmental impact assessment businesses: January 1, 2014.

[This Article Newly Inserted by Presidential Decree No. 25050, Dec. 30, 2013]

Article 78 (Guidelines, etc. for Imposition of Administrative Fines)

The guidelines for the imposition of administrative fines under Article 76 (1) through (3) of the Act are as provided for in attached Table 10.

Article 79 (Handling of Personally Identifiable Information)

If the Minister of Environment (including the person entrusted with the authority of the Minister of Environment under Article 77 (2)) deems it inevitable to perform the following administrative affairs, he/she may handle data containing resident registration numbers referred to in subparagraph 1 of Article 19 of the Enforcement Decree of the Personal Information Protection Act: <Amended by Presidential Decree No. 26807, Dec. 30, 2015>

1. Administrative affairs for the registration of environmental impact assessment businesses under Article 54 and the registration of amendments thereto;
2. Administrative affairs for examinations for qualification of environmental impact assessors under Article 63 of the Act, the issuance of qualification certificates, etc.

ADDENDA (Omitted)

26. Soil Environment Conservation Act

[Enforcement Date 28. Mar, 2017.] [Act No.14476, 27. Dec, 2016., Amendment by Other Act]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to prevent potential hazard to public health and environment to be caused by soil contamination, to conserve the soil ecosystem by properly maintaining and preserving soil including purifying contaminated soil, etc., to enhance the value of the soil as a resource, and to enable all citizens of the nation to live in a healthy and comfortable environment.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 2 (Definitions)

The definitions of terms used in this Act shall be as follows: <Amended by Act No. 12522,

Mar. 24, 2014>

1. The term "soil contamination" means contamination of soil caused by business or other human activities, damaging the health and property of people or the environment;
2. The term "soil contaminants" means any substance causing soil contamination, which is prescribed by Ordinance of the Ministry of Environment;
3. The term "facilities subject to the control of soil contamination" means any facilities, equipment, buildings, structures, and other things determined by Ordinance of the Ministry of Environment which are suspected of contaminating soil through the production, transportation, storage, treatment, process, disposal, etc. of soil contaminants;
4. The term "specified facilities subject to the control of soil contamination" means the facilities subject to the control of soil contamination that are feared to seriously contaminate soil and which are specified by Ordinance of the Ministry of Environment;
5. The term "soil purification" means reducing or eliminating contaminants in soil or relieving any danger caused by contaminants in soil by means of biological, physical and chemical treatment, etc.;
6. The term "detailed soil survey" means surveying the types of contaminants, the degree and extent of contamination, etc. in any area that has exceeded or is highly likely to exceed the worrisome level provided for in Article 4-2 as prescribed by Ordinance of the Ministry of Environment;
7. The term "soil purification business" means the business of performing purification of contaminated soil.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 3 (Exclusion from Application)(1) This Act shall not apply to soil contamination caused by radioactive materials nor the prevention thereof.

(2) Articles 15-3 and 15-6 shall not apply to a case where any contaminated farmland is purified due to the soil improvement project provided in Article 21 of the Farmland Act.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 4 (Formulation of Basic Plan for Soil Conservation, etc.)(1) The Minister of Environment shall formulate and enforce a basic plan for soil conservation (hereinafter referred to as the "basic plan") every 10 years.

(2) The Minister of Environment shall, when he/she formulates the basic plan, consult the heads of the relevant central administrative agencies.

(3) The basic plan shall include matters as prescribed in any of the following subparagraphs:

1. The guidelines for soil conservation policies;
2. The present condition, the on-going progress, and the prospects of soil conservation;
3. Matters concerning the prevention of soil contamination;
4. Matters concerning the soil purification and utilization of purified soil;
5. Matters concerning the development of technologies related to soil purification and promotion of associated industries;
6. Matters concerning education and fostering of technical human resources for soil

purification;

7. Other necessary matters for soil conservation.

(4) The Special Metropolitan City Mayor, Metropolitan City Mayor, Do Governor or the Special Self-Governing Province Governor (hereinafter referred to as the "Mayor/Do Governor") shall formulate a regional soil conservation plan for the region under his/her jurisdiction (hereinafter referred to as the "regional plan") in accordance with the basic plan, and shall enforce it after obtaining the approval of the Minister of Environment. The same shall apply to any modification to such regional plan.

(5) The formulation method and procedure of the basic and regional plan and other necessary matters shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 4-2 (Worrisome Level of Soil Contamination)

The level of soil contamination, which is likely to obstruct the health and properties of persons or rearing of animals and plants (hereinafter referred to as the "worrisome level") shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 4-3 (Installation and Operation of Information System)(1) The Minister of Environment shall install and operate a information system to ensure the easy access to the following information by the people:

1. Outcomes of investigation on facilities subject to the control of soil contamination prescribed in Article 4-4;
2. Outcomes of regular measuring, surveys of the actual state of soil contamination, and detailed soil surveys under Article 5;
3. Current status of designation of soil-related specialized agencies under Article 23-2;
4. Current status of registration of the soil purification business under Article 23-7;
5. Current status of installation, etc. of specific facilities subject to control of soil contamination under Article 26-3;
6. Any other information prescribed by Ordinance of the Ministry of Environment.

(2) Matters necessary for installing, operating, etc. the information system pursuant to paragraph (1) shall be prescribed by the Minister of Environment.

[This Article Newly Inserted by Act No. 13533, Dec. 1, 2015]

Article 4-4 (Investigation on Facilities, etc. Subject to Control of Soil Contamination)(1)

The Minister of Environment shall investigate, on a regular basis (hereinafter referred to as "investigation on facilities, etc. subject to the control of soil contamination" in this Article), the distribution status of facilities subject to the control of soil contamination, detailed soil surveys prescribed in Article 5 (4), detailed soil surveys prescribed in Article 10-4 (1), and current status of implementing projects for purifying or improving contaminated soil, in order to rationally formulate or approve the basic plan and regional plan pursuant to Article 4, measures for preventing topsoil erosion and its restoration measures referred to in Article 6-2, plans on areas requiring countermeasures for soil conservation under Article 18, or

effectively measure soil contamination level pursuant to Article 5.

(2) The Minister of Environment may request the head of the relevant agency to submit the necessary data of the investigation of facilities, etc. subject to the control of soil contamination pursuant to paragraph (1). In such cases, the head of the relevant agency in receipt of the request shall follow its request except in extenuating circumstances.

(3) Necessary matters concerning the method, object, procedure, etc. of investigation, such as facilities subject to the control of soil contamination under paragraph (1), shall be prescribed by the Minister of Environment.

[This Article Newly Inserted by Act No. 13533, Dec. 1, 2015]

Article 5 (Measuring of Soil Contamination Level)(1) For the purpose of surveying the actual state of soil contamination nationwide, the Minister of Environment shall establish a measuring network and measure the soil contamination level at all times.

(2) The Mayor/Do Governor or the head of a Si/Gun/Gu (referring to the head of autonomous Gu; hereafter the same shall apply) shall conduct a survey of the actual state of soil contamination in the area under his/her jurisdiction which is feared to suffer (hereinafter referred to as the "survey of the actual state of soil contamination"). In this case, the head of a Si/Gun/Gu shall report the result of the survey of the actual state of soil contamination to the Mayor/Do Governor as prescribed by Ordinance of the Ministry of Environment and the Mayor/Do Governor shall report the result of the survey of the actual state of soil contamination that he/she conducts and the result of the survey of the actual state of soil contamination that the head of a Si/Gun/Gu reports to him/her to the Minister of Environment as prescribed by Ordinance of the Ministry of Environment.

(3) The standards for establishment of measuring network under paragraph (1), the selection standards for areas subject to a survey of the actual state of soil contamination, the method and procedure for such survey, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

(4) If the Minister of Environment, the Mayor/Do Governor or the head of a Si/Gun/Gu deems it necessary, he/she may conduct a detailed soil survey in any of the following areas as prescribed by Ordinance of the Ministry of Environment:

1. Areas in which the results of a regular measuring under paragraph (1) (hereinafter referred to as the "regular measuring") exceed the worrisome level;
2. Areas in which the results of a survey of the actual state of soil contamination exceed the worrisome level;
3. Other areas falling under any of the following categories which are deemed by the Minister of Environment, the Mayor/Do Governor or the head of a Si/Gun/Gu to have a great possibility for exceeding the worrisome level:
 - (a) Areas where accidents of soil contamination have taken place;
 - (b) Industrial complexes (excluding agricultural and industrial complexes) under subparagraph 5 of Article 2 of the Industrial Sites and Development Act;
 - (c) Periphery areas of abandoned mines under subparagraph 4 of Article 2 of the Mining

Damage Prevention and Restoration Act;

(d) Reclamation facilities and their periphery areas from among the waste disposal facilities under subparagraph 8 of Article 2 of the Wastes Control Act;

(e) Other areas prescribed by Ordinance of the Ministry of Environment.

(5) The results of regular measuring, survey of the actual state of soil contamination, and detailed soil survey under paragraph (4) shall be disclosed to the public.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 6 (Decision and Notification of Installation Plan of Measuring Network)

The Minister of Environment shall decide and publicly announce the installation plan of the measuring network, pursuant to Article 5 (1), which indicates in detail the location and area in which the measuring network is installed, and he/she shall have the drawings thereof available for the public. The same shall apply to any modification to such installation plan.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 6-2 (Survey on Actual State of Topsoil Erosion)(1) In order to apprehend the actual state of soil environment related to erosion of topsoil, the Minister of Environment may perform a survey on the actual state and level of topsoil erosion in the areas falling under any of the following subparagraphs:

1. Areas designated and publicly announced as the water-source protection areas under Article 7 of the Water Supply and Waterworks Installation Act;

2. Areas each of which is designated and publicly announced as the waterfront areas respectively under Article 4 of Act on the Improvement of Water Quality and Support for Residents of the Han River Basin, Article 4 of the Act on Water Management and Resident Support in the Nakdong River Basin, Article 4 of the Act on Water Management and Resident Support in the Geum River Basin, and Article 4 of the Act on Water Management and Resident Support in the Yeongsan and Seomjin River Basins.

(2) Where the survey pursuant to paragraph (1) finds that the level of topsoil erosion exceeds the criteria prescribed by Ordinance of the Ministry of Environment, the Minister of Environment shall formulate and implement the necessary countermeasures.

(3) Matters necessary for the procedures and methods of the survey pursuant to paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 10551, Apr. 5, 2011]

Article 6-3 (Soil Purification for State Property)(1) In any of the following cases, the Minister of Environment may conduct the soil purification work after carrying out a detailed soil survey in order to prevent the proliferation of soil contamination. In such cases, the detailed soil survey may be omitted, if it has been already conducted: <Amended by Act No. 12522, Mar. 24, 2014>

1. Where the soil purification is necessary because soil contamination has occurred in excess of the worrisome level due to the State property referred to in subparagraph 1 of Article 2 of the State Property Act, and the State is a person responsible for purification under Article 10-4 (1) (hereinafter referred to as the "person responsible for purification");

2. Where the soil purification work is conducted under the proviso to Article 15 (3), and the Mayor/Do Governor or the head of a Si/Gun/Gu makes an urgent request for the soil purification work;

3. Where a project designed to improve contaminated soil is carried out under Article 19 (3), and the Special Self-Governing Province Governor or the head of a Si/Gun/Gu makes an urgent request for the soil purification work.

(2) Where the Minister of Environment intends to conduct the soil purification work under paragraph (1), he/she shall consult in advance with the head of the relevant central government agency in cases referred to in subparagraph 1 of the same paragraph, and with the Mayor/Do Governor or the head of a Si/Gun/Gu and a person responsible for purification in cases referred to in subparagraph 2 or 3 of the same paragraph, on timing, area, and costs of the soil purification work. In such cases, he/she may have the local government requesting the soil purification work bear the costs required for purification, etc. pursuant to paragraph (1) 2 or 3 within the scope prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 12522, Mar. 24, 2014>

(3) Where the Minister of Environment intends to conduct the soil purification work under paragraph (1), he/she shall formulate and publicly announce the soil purification plan including the following matters, as prescribed by Ordinance of the Ministry of Environment:

1. Timing and period for the soil purification work;
2. Location of land subject to the soil purification;
3. Name and address of the proprietor of land subject to the soil purification;
4. Other matters prescribed by Ordinance of the Ministry of Environment.

(4) In cases referred to in paragraph (1) 2 or 3, reimbursement of the costs required for conducting detailed soil survey or soil purification may be claimed to the relevant person responsible for purification. <Amended by Act No. 12522, Mar. 24, 2014>

[This Article Newly Inserted by Act No. 10551, Apr. 5, 2011]

Article 7 (Expropriation and Use of Land, etc.)(1) The Minister of Environment, the Mayor/Do Governor or the head of Si/Gun/Gu may, where deemed necessary for the measuring, survey, installation or soil purification works falling under any of the matters prescribed in the following subparagraphs, expropriate (applicable only to subparagraphs 2 and 4) or use the land, buildings, or fixtures of the land in the relevant area or zone:

1. Regular measuring, survey of the actual state of soil contamination, or detailed soil survey;
2. Establishment of a measuring network pursuant to Article 5 (1);
3. Survey on the actual state and level of topsoil erosion pursuant to Article 6-2;
4. Soil purification for the State property pursuant to Article 6-3.

(2) In case where the Minister of Environment has publicly announced a soil purification plan pursuant to Article 6-3 (3), it shall be deemed there have been a project approval and the public announcement thereof as prescribed in Articles 20 (1) and 22 of the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects and application for adjudication may be filed within the soil purification period set forth in the soil purification

plan, notwithstanding Articles 23 (1) and 28 (1) of the same Act.

(3) With regard to the procedures of expropriation and use and the compensation for loss, etc. as provided for in paragraph (1), the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects shall apply except as otherwise provided for in this Act.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 8 (Entry to Land of Other Persons, etc.)(1) The Minister of Environment, the Mayor/Do Governor, the head of a Si/Gun/Gu, or the specialized agency related to soil under Article 23-2 (hereinafter referred to as the "soil-related specialized agency") may, where deemed necessary for a regular measuring, survey of the actual state of soil contamination, detailed soil survey, survey on the actual state and level of topsoil erosion under Article 6-2 (1), or assessment of hazard as provided for in Article 15-5 (1), make the public officials under his/her control or employees of the soil-related specialized agency to enter the land of other persons and alter or remove the tree, stone, soil and other obstacles in the relevant land. In this case, the head of soil-related specialized agency shall obtain permission therefor from the Special Self-Governing Province Governor or the head of a Si/Gun/Gu.

(2) When intending to alter or remove the obstacles under paragraph (1), the competent public officials or employees of the soil-related specialized agency shall obtain consent from the proprietor, occupant, or manager of the obstacles: Provided, That when the competent public officials or employees of the soil-related specialized agency are unable to obtain consent because the proprietor, occupant, or manager is not present at the site, or his/her address or residence cannot be ascertained, they shall obtain consent from the Special Self-Governing Province Governor or the head of a Si/Gun/Gu.

(3) When intending to enter the land of other person or to alter or remove the obstacles from the surface of that land under paragraph (1), the competent public officials or employees of the soil-related specialized agency shall notify the proprietor, occupant or manager of the land or obstacles three days prior to the date of entering the land, altering or removing the obstacles: Provided, That the address or residence of the proprietor, occupant or manager of the land or obstacles cannot be found, the notification may not be given.

(4) Before sunrise and after sunset, competent public officials or employees of the soil-related specialized agency shall be prohibited from entering into the residential site or fenced land of other person without permission of the occupant of the relevant land.

(5) The occupant of the land may not interfere with or refuse the activities of the competent public officials or employees of the soil-related specialized agency under paragraph (1), without any justifiable reasons.

(6) The public officials or employees of the soil-related specialized agency who intend to enter the land of other person under paragraph (1), shall carry a certificate indicating their authority and show it to the relevant persons.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 9 (Compensation for Loss)(1) In case where the State, a local government or a soil-related specialized agency inflicts loss to other persons on account of the activities

under Article 8, it shall compensate for such loss as prescribed by Presidential Decree.

(2) Persons who intend to obtain a compensation under paragraph (1) shall claim such with the Minister of Environment, the Mayor/Do Governor, the head of a Si/Gun/Gu or the head of soil-related specialized agency.

(3) The Minister of Environment, the Mayor/Do Governor, the head of a Si/Gun/Gu or the head of soil-related specialized agency shall, where a claim under paragraph (2) has been made, determine the amount, etc. to be compensated through the consultation with the person suffered such loss, and notify the claimant thereof.

(4) The Minister of Environment, the Mayor/Do Governor, the head of a Si/Gun/Gu, the head of soil-related specialized agency or the person suffered a loss may, where the consultation under paragraph (3) fails to lead to an agreement or may not be achieved, file a motion for adjudication with the competent Land Expropriation Committee as prescribed by Presidential Decree.

(5) A person who is dissatisfied with the adjudication under paragraph (4) may file an objection with the Central Land Expropriation Committee within one month from the date of receiving the original written adjudication.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 10 Deleted. <by Act No. 8038, Oct. 4, 2006>

Article 10-2 (Assessment of Soil Environment)(1) Where a site on which any of the following facilities are installed or used to be installed, or any other land which is likely to cause soil contamination is transferred or acquired (including auction under the Civil Execution Act, conversion under the Debtor Rehabilitation and Bankruptcy Act, sale of seized assets under the National Tax Collection Act, the Customs Act or the Local Tax Collection Act, and other acquisitions made in accordance with procedures similar thereto; hereinafter the same shall apply), or rented out or taken on lease, the transferor, transferee, lesser, or lessee may receive an assessment by a soil environment assessment institution as to soil contamination (hereinafter referred to as "assessment of soil environment") for the relevant site, its neighboring areas, and the land feared to suffer soil contamination: <Amended by Act No. 12522, Mar. 24, 2014; Act No. 14476, Dec. 27, 2016>

1. Facilities subject to the control of soil contamination;
2. Factories referred to in subparagraph 1 of Article 2 of the Industrial Cluster Development and Factory Establishment Act;
3. National defense and military installations referred to in Article 2 (1) of the Act on National Defense and Military Installations Projects.

(2) Where a person, who has acquired by transfer a site on which any of the facilities prescribed in subparagraphs of paragraph (1) are installed or used to be installed or any other land feared to suffer soil contamination, has confirmed that the contamination level of such site or land is below the worrisome level from the findings of assessments of its soil environment conducted under the same paragraph as at the time of its acquisition, he/she shall be deemed to be in good faith and not negligent in preventing the relevant soil

contamination. <Amended by Act No. 12522, Mar. 24, 2014>

(3) Assessment of soil environment shall be conducted as prescribed in each of the following subparagraphs, and detailed matters concerning the assessment of soil environment and other necessary matters shall be prescribed by Presidential Decree:

1. Assessment items of soil environment shall include soil contaminants under subparagraph 2 of Article 2 and contaminants prescribed by Presidential Decree as necessary for the assessment of soil environment;
2. Assessment procedures for soil environment shall be divided into basic survey, overall survey, and detailed survey;
3. Assessment methods of soil environment shall include survey, analysis, and appraisal of contamination level of contaminants referred to in subparagraph 1, actual state of utilization of the subject land, and whether or not the subject falls under any facilities subject to the control of soil contamination.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 10-3 (Strict Liability, etc. for Damages Resulting from Soil Contamination)(1)

Where any damage occurs due to the soil contamination, a person who has caused the contamination shall compensate for such damage and take measures, such as purifying the contaminated soil: Provided, That the same shall not apply to cases where the soil contamination has been caused by a natural disaster, war, or force majeure. <Amended by Act No. 12522, Mar. 24, 2014>

(2) Where at least two persons have caused the contamination, and it is impracticable to find out which one has caused the damage under paragraph (1), each one shall jointly and severally compensate for such damage and take measures, such as purifying the contaminated soil. <Amended by Act No. 12522, Mar. 24, 2014>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 10-4 (Responsibility, etc. for Purification of Soil Contamination)(1) Any of the following persons shall, as a person responsible for purification, carry out a detailed soil survey, purification of contaminated soil under Article 11 (3), 14 (1), or 15 (1) and (3), or a project for improving contaminated soil under Article 19 (1) (hereinafter referred to as "soil purification, etc." in this Article):

1. Any person who causes soil contamination by discharging, leaking, dumping, neglecting soil contaminants, or committing other acts;
2. The proprietor, occupant, or operator of a facility subject to the control of soil contamination constituting a cause for soil contamination as at the time soil contamination occurs;
3. Any person who has comprehensively succeeded to the rights and liabilities of those falling under subparagraphs 1 and 2 on account of merger, inheritance or other reasons;
4. Any person who previously owned or presently owns or occupies land on which soil contamination has occurred.

(2) Notwithstanding the provisions of paragraph (1), any of the following person shall not be

deemed a person responsible for purification referred to in paragraph (1) 4: Provided, That the same shall not apply where he/she permits, after January 6, 1996, any person prescribed in paragraph (1) 1 or 2 to use the land he/she owns or occupies:

1. Where the person ceased to own the relevant land due to transfer or other reasons before January 5, 1996;
2. Where the person acquired the relevant land before January 5, 1996;
3. Where the person was in good faith and was not negligent in preventing soil contamination as at the time he/she acquired the land on which soil contamination has occurred;
4. Where soil contamination occurs while the person owns or occupies the relevant land and such soil contamination occurs due to reasons unattributable to him/her.

(3) Where at least two persons responsible for purification exist to whom the Mayor/Do Governor or the head of a Si/Gun/Gu may issue an order for soil purification, etc. pursuant to Article 11 (3), 14 (1), 15 (1) and (3), or 19 (1), he/she shall order soil purification, etc., taking into account the degree of responsibility of each person responsible for purification for the relevant soil contamination, the possibility of prompt and smooth soil purification, etc., as prescribed by Presidential Decree, and may seek advice from the Soil Purification Advisory Committee referred to in Article 10-9, if necessary.

(4) Where a person responsible for purification, ordered to conduct soil purification, etc. pursuant to Article 11 (3), 14 (1), 15 (1) and (3), or 19 (1), has performed soil purification, etc. at his/her own expenses, he/she may claim reimbursement for the expenses to be borne by the other persons responsible for purification.

(5) In any of the following cases, the State may wholly or partially subsidize the expenses incurred in conducting soil purification, etc. pursuant to Article 11 (3), 14 (1), 15 (1) and (3), or 19 (1) (excluding both the expenses refundable through the exercise of the claim for reimbursement under Article 10-4 (4) and the amount equivalent to an increase in the value of the relevant land caused by soil purification, etc.; hereinafter the same shall apply), as prescribed by Presidential Decree:

1. Where the expenses required by a person responsible for soil purification under paragraph (1) 1, 2, or 3 to perform soil purification, etc. significantly exceed either his/her share of expenses or the profits he/she has gained or is expected to gain by owning, occupying, or operating the relevant facility subject to the control of soil contamination;
2. Where the expenses required by a person, who acquired the relevant land before December 31, 2001 or no longer owns it due to transfer thereof or other reasons, to perform soil purification, etc. as a person responsible for purification under paragraph (1) 4 exceeds the value of the relevant land;
3. Where the expenses required by a person who acquired the relevant land after January 1, 2002 to perform soil purification, etc. as a person responsible for purification under paragraph (1) 4 significantly exceeds the value of the relevant land and the profits he/she has gained or is expected to gain by owning or occupying such land;
4. Other cases determined by Presidential Decree for which expenses for soil purification,

etc. need to be subsidized.

[This Article Wholly Amended by Act No. 12522, Mar. 24, 2014]

[This Article wholly amended by Act No. 12522 on March 24, 2014 following the decision of unconstitutionality made by the Constitutional Court on August 23, 2012]

Article 10-5 (Establishment of Soil Purification Cooperative)(1) Establishers and operators of specified facilities subject to the control of soil contamination and persons who have filed registration of soil purification business under Article 23-7 (1) (hereinafter referred to as "soil purification business operators") may establish soil purification cooperatives (hereinafter referred to as the "cooperatives") with the permission from the Minister of Environment in order to guarantee for the purification work of contaminated soil under Article 11 (3) and to secure financial resources.

(2) A cooperative shall be a corporation.

(3) A cooperative shall be established by effecting its registration at the seat of its principal office.

[This Article Newly Inserted by Act No. 10551, Apr. 5, 2011]

Article 10-6 (Activities of Cooperatives)

The cooperatives shall be engaged in the activities prescribed in each of following subparagraphs:

1. Mutual-aid activities for the soil purification work of its members;
2. Activities related to the survey, development and distribution of technology necessary for the prevention of soil contamination and soil purification.

[This Article Newly Inserted by Act No. 10551, Apr. 5, 2011]

Article 10-7 (Contribution)(1) Members of the cooperatives shall pay to the cooperative their respective contributions, which is necessary for carrying out the activities referred to in Article 10-6.

(2) The basis for computing the contribution, payment procedure and other necessary matters shall be determined by the articles of association.

[This Article Newly Inserted by Act No. 10551, Apr. 5, 2011]

Article 10-8 (Application Mutatis Mutandis of the Civil Act)

Except as otherwise provided in this Act, the provisions of the Civil Act, which pertain to incorporated associations shall apply mutatis mutandis to the cooperatives.

[This Article Newly Inserted by Act No. 10551, Apr. 5, 2011]

Article 10-9 (Soil Purification Advisory Committee)(1) In order to respond to inquiries from the Mayor/Do Governor or the head of a Si/Gun/Gu under Article 10-4 (3), the Soil Purification Advisory Committee shall be established under the jurisdiction of the Ministry of Environment (hereinafter referred to as the "Committee").

(2) The Committee shall be comprised of five to nine members, including the Chairperson.

(3) Matters necessary for the organization, operation, etc. of the Committee shall be prescribed by Presidential Decree.

[This Article Newly Inserted by Act No. 12522, Mar. 24, 2014]

Article 10-10 (Establishment, Operation, etc. of Soil Environment Center)(1) The Minister of Environment may establish or operate a soil environment center to efficiently perform the following affairs relating to soil conservation:

1. Affairs for the development and utilization of research and technology related to the soil environmental industry;
2. Dissemination of technology related to soil conservation, promotion of its commercialization and support for its advance into overseas markets;
3. Affairs for the collection and utilization of, and education, publicity, and international cooperation on, the information related to the soil environmental industry;
4. Affairs for the invigoration of the soil environmental industry, such as the operation of a soil environment assessment system;
5. Affairs entrusted by the State, local governments, or public institutions referred to in Article 4 of the Act on the Management of Public Institutions with regard to the affairs under subparagraphs 1 through 4.

(2) The Minister of Environment may wholly or partially subsidize the expenses incurred in carrying out the affairs referred to in paragraph (1).

(3) The Minister of Environment may entrust the operation of the soil environment center to the Korea Environmental Industry and Technology Institute under Article 5-3 of the Korea Environmental Industry and Technology Institute Act. <Amended by Act No. 13534, Dec. 1, 2015>

(4) Matters necessary for the operation, supervision, etc. of the soil environment center shall be prescribed by Presidential Decree.

[This Article Newly Inserted by Act No. 12522, Mar. 24, 2014]

CHAPTER II REGULATION ON SOIL CONTAMINATION

Article 11 (Reports on Soil Contamination, etc.)(1) In any of the following cases, the relevant person shall file a report to the competent Special Self-Governing Province Governor or the head of the competent Si/Gun/Gu without delay: <Amended by Act No. 12522, Mar. 24, 2014>

1. Where a person who produces, transports, stores, handles, processes, or treats soil contaminants, discharges or leaks them in the process;
2. Where a person who owns, occupies, or operates facilities subject to the control of soil contamination finds the soil of the site on which such facilities are installed or its neighboring areas has been contaminated;
3. Where the proprietor or occupant of land finds the land he/she owns or occupies contaminated.

(2) When the Special Self-Governing Province Governor or the head of a Si/Gun/Gu receives a report referred to in paragraph (1) or otherwise finds the discharge or leakage of soil contaminants, he/she may have public officials belonging thereto enter the relevant land and survey the cause and the level of soil contamination.

(3) With respect to any soil whose level of contamination is found to exceed the worrisome

level of soil contamination (hereinafter referred to as the "contaminated soil") by the survey referred to in paragraph (2), the Special Self-Governing Province Governor or the head of a Si/Gun/Gu may order the person responsible for purification to ask the soil-related specialized agency for conducting a detailed soil survey and to take measures to purify the contaminated soil within a prescribed period, as prescribed by Presidential Decree. <Amended by Act No. 12522, Mar. 24, 2014>

(4) If the soil-related specialized agency conducts the detailed soil survey pursuant to paragraph (3), it shall inform without delay the competent Special Self-Governing Province Governor or the head of the competent Si/Gun/Gu of the results of the detailed soil survey.

(5) Public officials who intend to enter any land of other person under paragraph (2) shall carry certificates showing their authority and produce them to the relevant persons.

(6) Where the Special Self-Governing Province Governor or the head of a Si/Gun/Gu has public officials belonging thereto enter the relevant land to survey the cause and the level of soil contamination pursuant to paragraph (2), he/she shall inform the head of a regional environment office of such fact without delay. <Newly Inserted by Act No. 12522, Mar. 24, 2014>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 11-2 Moved to Article 13

Article 12 (Reports, etc. on Specific Facilities Subject to Control of Soil Contamination)(1) Any person who intends to install the specified facilities subject to the control of soil contamination shall, as prescribed by Presidential Decree, report on the details of such facilities and a plan for installing the facilities to prevent soil contamination under paragraph (3) to the competent Special Self-Governing Province Governor or the head of the competent Si/Gun/Gu. The same shall also apply where the reported matters, the details of which are prescribed by Ordinance of the Ministry of Environment, are changed (including the closure of specified facilities subject to the control of soil contamination).

(2) Permission granted or registration made under the Safety Control of Hazardous Substances Act, the Chemicals Control Act and other statutes designated by Ordinance of the Ministry of Environment concerning the installation of the specified facilities subject to the control of soil contamination shall be deemed to be a report made under paragraph (1). In such cases, the head of a permission or registration agency shall notify such facts to the competent Special Self-Governing Province Governor, or the head of the competent Si/Gun/Gu having jurisdiction over an area in which the specified facilities subject to the control of soil contamination are installed, attaching the documents concerning the facilities for preventing soil contamination, as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 11862, Jun. 4, 2013>

(3) The installer of the specified facilities subject to the control of soil contamination (including an operator of relevant facilities; hereinafter the same shall apply) shall, as prescribed by Presidential Decree, install the facilities for preventing soil contamination (hereinafter referred to as the "facilities for preventing soil contamination"), and maintain it

properly.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 12-2 (Legal Fiction of Report on Modification Following Other Acts)(1) Where any change is reported pursuant to the latter part of Article 12 (1), the following report on modification shall be deemed to have been made in relation to the specified facilities subject to the control of soil contamination: Provided, That matters concerning a report on modification shall be limited to where the name or a representative of the business place is changed:

1. Report on modifications concerning discharge facilities pursuant to the proviso to Article 33 (2) and (3) of the Water Quality and Aquatic Ecosystem Conservation Act;
2. Report on modifications concerning discharge facilities under Article 44 (2) of the Clean Air Conservation Act.

(2) A person who intends to be deemed to have reported on modification pursuant to paragraph (1) shall submit the relevant documents prescribed by applicable Acts, when applying for the report on modification.

(3) When the report on modification has been disposed, the head of an administrative agency in receipt of a report on modification pursuant to paragraph (1) shall without delay notify the head of the competent administrative agency under the jurisdiction of the report on modification set forth in any subparagraph of paragraph (1) of its contents.

(4) Where the report on modifications is deemed to have been made pursuant to paragraph (1), he/she shall be exempted from charges imposed in accordance with the relevant Acts.

[This Article Newly Inserted by Act No. 13533, Dec. 1, 2015]

Article 13 (Soil Contamination Inspection)(1) The installer of the specified facilities subject to the control of soil contamination shall, as prescribed by Presidential Decree, undergo the soil contamination inspection on the site of relevant facilities and the areas around it (hereinafter referred to as the "soil contamination inspection") conducted by a soil-related specialized agency: Provided, That the same shall not apply where the collection of soil samples is impossible or the soil contamination inspection is unnecessary, which fall under the requirements prescribed by Presidential Decree and the Special Self-Governing Province Governor or the head of a Si/Gun/Gu approves.

(2) The procedures for an approval under the proviso to paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment, and the applicant for such approval shall attach the opinion of a soil-related specialized agency: Provided, That in cases where prescribed by Presidential Decree, such as some facilities among a large number of the same type of storage facilities are shut down, etc., the opinion of the soil-related specialized agency may not be attached.

(3) The soil contamination inspection shall be conducted in two parts which are an inspection of soil contamination levels and an leakage inspection: Provided, That the leakage inspection shall be conducted only for the facilities over which a visual verification of leakage is impossible because the storage facilities or pipes are buried underground or stuck on the

land and the inspection of which is deemed necessary by the Special-Self Governing Province Governor or the head of a Si/Gun/Gu as prescribed by Ordinance of the Ministry of Environment.

(4) The soil-related specialized agency shall, where it has conducted the soil contamination inspection, notify inspection results to the installer of the specified facilities subject to the control of soil contamination, the competent Special-Self Governing Province Governor, or the head of the competent Si/Gun/Gu, and the head of competent fire station (a notification to the head of fire station shall be limited to the case of facilities, from among those permitted under the Safety Control of Dangerous Substances Act, verified to have a leakage of contaminated substance as a result of a leakage inspection), and the installer of the specified facilities subject to the control of soil contamination shall keep the result of inspection notified to him/her, as prescribed by Ordinance of the Ministry of Environment. In such case, the installer of the specified facilities subject to the control of soil contamination may keep the result of inspection notified to him/her in the form of the electronic document as provided for in subparagraph 1 of Article 2 of the Act on Electronic Documents and Transactions. <Amended by Act No. 11461, Jun. 1, 2012>

(5) The method of collecting samples for the soil contamination inspection and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

(6) Where it is deemed necessary to perform a close inspection based on the soil contamination inspection results notified by the soil-related specialized agency pursuant to paragraph (4), the competent Special-Self Governing Province Governor or the head of the competent Si/Gun/Gu may commission any soil-related specialized agency that is prescribed by Ordinance of the Ministry of Environment with the soil contamination inspection.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 14 (Order Given to Installer of Specific Facilities Subject to Control of Soil Contamination)

(1) The Special-Self Governing Province Governor or the head of a Si/Gun/Gu may, in case where the installer of the specified facilities subject to the control of soil contamination falls under any case of the following subparagraphs, order him/her to install or improve the facilities for preventing soil contamination and to take measures to purify the contaminated soil for the period that is fixed by Presidential Decree, or ask the soil-related specialized agency to conduct a detailed soil survey in the site of such facilities and surrounding areas:

1. Where he/she fails to install the facilities for preventing soil contamination or to meet the relevant criteria;
2. Where the level of soil contamination is revealed to exceed the worrisome level after an inspection of soil contamination levels conducted pursuant to Article 13 (3);
3. Where a leakage is found as a result of a leakage inspection conducted pursuant to Article 13 (3).

(2) The soil-related specialized agency shall, where it conducts the detailed soil survey

pursuant to paragraph (1), inform without delay the installer of the specified facilities subject to the control of soil contamination, the competent Special-Self Governing Province Governor, or the head of the competent Si/Gun/Gu of the result of such detailed soil survey. (3) The competent Special-Self Governing Province Governor or the head of a Si/Gun/Gu may order the installer of the specified facilities subject to the control of soil contamination to suspend the use of relevant facilities, where the said installer fails to comply with the order under paragraph (1), or where the level of soil contamination in the site of relevant facilities and surrounding areas fails to come down below the purification standards under Article 15-3 (1) even if he/she has complied with the relevant order.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 15 (Orders, etc. to Take Preventive Measures against Soil Contamination)(1)

The Mayor/Do Governor or the head of a Si/Gun/Gu may order a person responsible for purification in an area falling under Article 5 (4) 1 or 2 to undergo a detailed soil survey conducted by a soil-related specialized agency by fixing a period, as prescribed by Presidential Decree. <Amended by Act No. 10551, Apr. 5, 2011; Act No. 11464, Jun. 1, 2012; Act No. 12522, Mar. 24, 2014>

(2) Where the soil-related specialized agency has conducted a detailed soil survey under paragraph (1), it shall notify without delay the person responsible for purification and the competent Mayor/Do Governor or the head of a Si/Gun/Gu of the inspection results. <Amended by Act No. 10551, Apr. 5, 2011; Act No. 12522, Mar. 24, 2014>

(3) Where the regular measuring finds that the level of soil contamination exceeds the worrisome level, the survey of the actual state of soil contamination, or the detailed soil survey, the Mayor/Do Governor or the head of a Si/Gun/Gu may order the person responsible for purification to take any of the following measures by fixing a period prescribed by Presidential Decree: Provided, That where it is impracticable to identify the person responsible for purification, or it is deemed impracticable for the person responsible for purification to purify the contaminated soil, the Mayor/Do Governor or the head of the Si/Gun/Gu may purify such contaminated soil: <Amended by Act No. 10551, Apr. 5, 2011; Act No. 12522, Mar. 24, 2014>

1. To improve or relocate the facilities subject to the control of soil contamination;
2. To limit or stop the use of relevant soil contaminants;
3. To purify contaminated soil.

(4) and (5) Deleted. <by Act No. 7291, Dec. 31, 2004>

(6) The Minister of Environment may, where any soil contamination is found to exceed the worrisome level by the measurement of soil contamination under Article 5, request the Mayor/Do Governor or the head of a Si/Gun/Gu having jurisdiction over an area to take measures referred to in paragraph (3). <Amended by Act No. 10551, Apr. 5, 2011>

(7) The Mayor/Do Governor or the head of a Si/Gun/Gu shall, upon receiving a request from the Minister of Environment under paragraph (6), take measures referred to in paragraph (3) and report the results thereof to the Minister of Environment, as prescribed by Ordinance of

the Ministry of Environment. <Amended by Act No. 10551, Apr. 5, 2011>

[This Article Wholly Amended by Act No. 6452, Mar. 28, 2001]

Article 15-2 (Reports on Execution of Order)(1) When anyone who is ordered to take measures or to conduct the suspension pursuant to Article 11 (3), 14 (1) and (3) or 15 (3) executes such order, he/she shall promptly make a report thereon to the Mayor/Do Governor or the head of a Si/Gun/Gu, as prescribed by Ordinance of the Ministry of Environment. In such cases, the Mayor/Do Governor or the head of the Si/Gun/Gu shall confirm the execution of such order, as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 12522, Mar. 24, 2014>

(2) Where the person ordered to take measures pursuant to Article 11 (3) has reported on the completed execution of such order pursuant to paragraph (1), the Special Self-Governing Province Governor or the head of a Si/Gun/Gu shall notify the head of a regional environment office of the relevant report on the completed execution of such order, as prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 12522, Mar. 24, 2014>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 15-3 (Purification of Contaminated Soil)(1) The contaminated soil shall be purified according to the purification standards and methods prescribed by Presidential Decree.

(2) The contaminated soil shall be purified by entrusting the purification work to a soil purification business operator (referring to the soil purification business operator who has registered facilities for purification of the contaminated soil brought into his/her facilities under Article 23-7 (1), in cases where the purification work is to be conducted by shipping it to other facilities under the proviso to paragraph (3)): Provided, That with respect to any soil contamination that falls under the categories and scales that are prescribed by Presidential Decree, including the soil contamination caused by organic solvents, etc., a person responsible for purification may purify it himself/herself. <Amended by Act No. 12522, Mar. 24, 2014>

(3) The contaminated soil shall be purified within a site where such soil contamination occurs: Provided, That where it is impracticable to purify the contaminated soil in the site due to inevitable reasons prescribed by Ordinance of the Ministry of Environment such as a narrow site area, the contaminated soil may be shipped out to the facilities owned by a soil purification business operator (referring to the facilities for purification of the contaminated soil under Article 23-7 (1)) for its purification, as prescribed by Ordinance of the Ministry of Environment.

(4) Any person who intends to purify the contaminated soil after shipping it out to other facilities under the proviso to paragraph (3) shall submit a contaminated soil ship-out and purification plan to the competent Special Self-Governing Province Governor or the head of the competent Si/Gun/Gu and receive a notification of appropriateness, as prescribed by Ordinance of the Ministry of Environment. The same shall apply to a case where he/she intends to change any important matters prescribed by Ordinance of the Ministry of

Environment in the contaminated soil ship-out and purification plan that has been notified as appropriate under paragraph (5). <Amended by Act No. 11464, Jun. 1, 2012>

(5) The Special Self-Governing Province Governor or the head of a Si/Gun/Gu shall notify the person who has submitted a contaminated soil ship-out and purification plan of whether the plan is appropriate or not after reviewing the following matters with respect to the plan submitted under paragraph (4): <Amended by Act No. 11464, Jun. 1, 2012>

1. Whether the soil is classified as the contaminated soil that can be shipped out to other facilities and purified under the proviso to paragraph (3);

2. Whether the contaminated soil ship-out and purification plan is appropriate.

(6) Any person who has received a notification of appropriateness under paragraph (5) shall, whenever he/she ships out, transports, purifies, or uses (referring to the first use of the purified soil; hereinafter the same shall apply) the contaminated soil, submit the soil transfer form in writing to the head of a Si/Gun/Gu who has jurisdiction over an area in which soil contamination has occurred as well as the Mayor/Do Governor who has jurisdiction over the soil purification business operator taking over the contaminated soil, or shall enter such information into the contaminated soil information system under paragraph (9). <Newly Inserted by Act No. 11464, Jun. 1, 2012>

(7) Anyone who purifies the contaminated soil shall be prohibited from performing either of the following acts: <Newly Inserted by Act No. 11464, Jun. 1, 2012>

1. An act of lowering concentrations of contaminants by mixing the contaminated soil with other soil;

2. Where the contaminated soil is shipped out to other facilities for purification under the proviso to paragraph (3), an act of keeping the contaminated soil in excess of the capacity of his/her facilities registered under Article 23-7 (1).

(8) Matters necessary for the soil transfer form under paragraph (6), the timing and method for filling out the form, and the timing for transferring the soil shall be determined by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 11464, Jun. 1, 2012>

(9) The Minister of Environment may install and operate the contaminated soil information system that can computerize the process of shipping-out, transporting, purifying or using the contaminated soil. <Newly Inserted by Act No. 11464, Jun. 1, 2012>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 15-4 (Prohibition on Dumping Contaminated Soil, etc.)

No one shall commit an act falling under any of the following subparagraphs:

1. The act of dumping or reclaiming the contaminated soil;

2. The act of leaking and discharging the contaminated soil in the course of storing, transporting and purifying it;

3. The act of using the soil whose purification work is completed for other area where the worrisome level is more strict than that of the purified soil.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 15-5 (Hazard Assessment)(1) The Minister of Environment, the Mayor/Do Governor,

the head of a Si/Gun/Gu or a person responsible for purification may have a hazard assessment agency designated under Article 23-2 (2) 1 conduct an assessment of the extent of hazard that contaminants cause to human bodies and environment, in consideration of the types of contaminants, the contamination level, surrounding areas, the future land utilization plan and other necessary matters (hereinafter referred to as “ hazard assessment ”) to reflect the results thereof in the scope, timing and level of the soil purification. <Amended by Act No. 11464, Jun. 1, 2012; Act No. 12522, Mar. 24, 2014>

(2) Hazard assessment may be conducted in any of the following cases (only subparagraphs 4 and 5 shall apply to a person responsible for purification): <Amended by Act No. 12522, Mar. 24, 2014>

1. Where purification of the contaminated soil is intended under Article 6-3;
2. Where purification of the contaminated soil is intended in the proviso to Article 15 (3);
3. Where improvement to the contaminated soil is intended under Article 19 (3);
4. Where purification of contaminated soil is intended on the site where it is verified by methods prescribed by Presidential Decree as being contaminated due to the natural causes (excluding cases where purification of the contaminated soil is intended after it is shipped to other facilities under the proviso to Article 15-3 (3));
5. Any other cases which necessitate the hazard assessment, as prescribed by Presidential Decree.

(3) Where the Mayor/Do Governor, the head of a Si/Gun/Gu, or a person responsible for purification intends to reflect the hazard assessment results in the timing, scope, and level of the soil purification, the results shall be verified preliminarily by the Minister of Environment. <Amended by Act No. 12522, Mar. 24, 2014>

(4) Items and methods of the hazard assessment and other necessary matters as well as the procedures and methods for verification of the hazard assessment results shall be prescribed by Ordinance of Ministry of Environment.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 15-6 (Verification of Soil Purification)(1) Where a person responsible for purification entrusts a soil purification business operator with the work of purifying the contaminated soil, he/she shall have a soil contamination survey agency designated under Article 23-2 (2) 2 verify the process of purification and the completion of purification: Provided, That where the detailed soil survey finds that the contaminated soil falls under the scales and categories that are prescribed by Presidential Decree such as a small scale of the contaminated soil or low concentrations of contaminants, the verification of the purification process may be omitted. <Amended by Act No. 11464, Jun. 1, 2012; Act No. 12522, Mar. 24, 2014>

(2) When a person responsible for purification intends to undergo the purification process of the contaminated soil and the completion of the purification verified by the soil contamination survey agency pursuant to the main sentence of paragraph (1), he/she shall formulate a plan for purifying the contaminated soil according to details and procedures that are

prescribed by Ordinance of the Ministry of Environment to submit such plan to the competent Special Self-Governing Province Governor or the head of the competent Si/Gun/Gu. The same shall apply where he/she intends to make changes to matters prescribed by Ordinance of the Ministry of Environment in the plan submitted. <Amended by Act No. 12522, Mar. 24, 2014>

(3) When the soil-related specialized agency performs the verification under paragraph (1), it may collect verification fees from persons responsible for purification. In such cases, standards for calculating verification fees shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 12522, Mar. 24, 2014>

(4) Procedures, details, and methods for the verification referred to in paragraph (1) and other matters necessary for the verification shall be prescribed by Ordinance of the Ministry of Environment.

(5) Where a soil purification business operator undergoes verification of the process and completion of the purification work under paragraph (1), he/she shall not ship out the contaminated soil to another place before the verification is completed by a soil-related specialized agency.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 15-7 (Designation, etc. of Soil Control Complexes)(1) Where the Minister of Environment deems it necessary for efficient soil purification to concentrate the facilities required for the soil purification in a certain area for the purpose of conducting purification work after shipping out to other facilities under the proviso to Article 15-3 (3) or recycling the purified soil, he/she may designate a land of which the Minister of Environment is the head of the central government agency as a soil control complex from among the State property under the State Property Act.

(2) Where the Minister of Environment intends to designate a soil control complex pursuant to paragraph (1), he/she shall, as prescribed by Presidential Decree, formulate a plan for creation of a soil control complex, hear the opinions of the competent Mayor/Do Governor, and consult the competent head of the central government agency. The same shall also apply where he/she intends to change the important matters of plan for creation of a soil control complex, which are prescribed by Presidential Decree.

(3) Notwithstanding the State Property Act, the Minister of Environment may allow by free contract any person who intends to operate the soil purification business to use or earn profit from part of the land of the soil control complex, or lend or sell it to him/her.

(4) For the smooth operation of the soil control complex pursuant to paragraph (1), the Minister of Environment may provide necessary support for establishment of infrastructure, etc. including roads.

[This Article Newly Inserted by Act No. 10551, Apr. 5, 2011]

CHAPTER III DESIGNATION AND MAINTENANCE OF AREA REQUIRING COUNTERMEASURES FOR SOIL CONSERVATION

Article 16 (Standards of Countermeasures against Soil Contamination)

The standards of soil contamination, which is likely to obstruct human health and properties or rearing of animals and plant, and accordingly would necessitate the countermeasures (hereinafter referred to as the "countermeasure standards"), shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 17 (Designation of Area Requiring Countermeasures for Soil Conservation)(1)

The Minister of Environment may designate the area exceeding the countermeasure standards, and the area requested by the Special Self-Governing Province Governor or the head of a Si/ Gun/Gu provided in paragraph (2) as an area requiring countermeasures for soil conservation (hereinafter referred to as an "area requiring countermeasures") in consultation with the head of the relevant central administrative agency and the competent Mayor/Do Governor: Provided, That any area that falls under the case that is prescribed by Presidential Decree shall be designated as an area requiring countermeasures.

(2) When the Special Self-Governing Province Governor or the head of a Si/Gun/Gu deems that soil conservation on a particular area under his/her jurisdiction is especially necessary, he/she may ask the Minister of Environment to designate the area as an area requiring countermeasures after consulting the Mayor/Do Governor having jurisdiction over the area even if the level of soil contamination in that area does not exceed the countermeasure standards.

(3) The standards and procedures of designating an area requiring countermeasures under paragraph (1), and other necessary matters shall be prescribed by Presidential Decree.

(4) Where the Minister of Environment designates an area requiring countermeasures under paragraph (1), he/she shall publicly announce the location, area, date, purpose of the designation and other matters as prescribed by Ordinance of the Ministry of Environment. This shall also apply when any matters announced are altered.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 18 (Formulation and Execution of Countermeasure Plans)(1)

The Special Self-Governing Province Governor or the head of a Si/Gun/Gu (in cases where the relevant area requiring countermeasures extends over at least two Sis/Guns/Gus (referring to an autonomous Gu; hereinafter the same shall apply), the head of a Si/Gun/Gu refers to the head of a Si/Gun/Gu prescribed by Presidential Decree) shall formulate a countermeasure plan for soil conservation (hereinafter referred to as the "countermeasure plan") with respect to an area requiring countermeasures and execute it after obtaining approval therefor from the Minister of Environment and consulting with the Mayor/Do Governor having jurisdiction over the area.

(2) The countermeasure plan shall include the following matters:

1. The project for improving contaminated soil;
2. The plan for using the land, etc.;
3. The survey of damage to the health of residents and the countermeasures against such damage;

4. Countermeasures to support the residents suffering damage;
 5. Other matters deemed and prescribed by Ordinance of the Ministry of Environment as necessary for the formulation and execution of the countermeasure plan.
- (3) The Special Self-Governing Province Governor or the head of a Si/Gun/Gu may have the person responsible for purification partially bear the expenses required for countermeasures to support the residents suffering from damage under paragraph (2) 4. <Amended by Act No. 12522, Mar. 24, 2014>
- (4) The types, standards and other necessary matters of the projects for improving contaminated soil under paragraph (2) 1 shall be determined by Presidential Decree.
- (5) Detailed matters necessary for the survey of damage to the health of residents referred to in paragraph (2) 3 and the countermeasures against such damage referred to in paragraph (2) 4 shall be prescribed by Presidential Decree.
- (6) When approving the countermeasure plan under paragraph (1), the Minister of Environment shall consult with the head of the relevant central administrative agency, and after granting the approval, he/she shall notify the head of the relevant central administrative agency thereof and may request him/her to take necessary measures. In such cases, the head of the relevant central administrative agency shall comply with such request, except in extenuating circumstances.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 18-2 (Report on Results of Implementing Countermeasure Plan)

The Special Self-Governing Province Governor or the head of a Si/Gun/Gu shall report the result of implementing the countermeasure plan to the Minister of Environment.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 19 (Projects for Improving Contaminated Soil)(1) The Special Self-Governing Province Governor or the head of a Si/Gun/Gu may order the person responsible for purification to wholly or partially execute the project for improving contaminated soil as provided for in Article 18 (2) 1. In such cases, the Special Self-Governing Province Governor or the head of a Si/Gun/Gu may, if deemed necessary for preservation of soil, require the soil-related specialized agency prescribed by Ordinance of the Ministry of Environment to direct and supervise the contaminated soil improvement project. <Amended by Act No. 12522, Mar. 24, 2014>

(2) Where a person responsible for purification intends to execute a project for improving contaminated soil as provided for in paragraph (1), he/she shall prepare the plan for such project, and obtain approval therefor from the Special Self-Governing Province Governor or the head of a Si/Gun/Gu, as prescribed by Ordinance of the Ministry of Environment. This provision shall also apply when he/she intends to alter important matters prescribed by Ordinance of the Ministry of Environment from among other approved matters. <Amended by Act No. 12522, Mar. 24, 2014>

(3) In cases under paragraph (1), where a person responsible for purification does not exist or the project for improving contaminated soil is impracticable to be executed by the person

responsible for purification, the Special Self-Governing Province Governor or the head of a Si/Gun/Gu may execute the pertinent project designed to improve contaminated soil. <Amended by Act No. 12522, Mar. 24, 2014>

(4) In cases under paragraph (3), where the pertinent area requiring countermeasures extends over at least two Sis/Guns/Gus, the head of a Si/Gun/Gu who is prescribed by Presidential Decree shall implement the project for improving contaminated soil.

(5) Where the project for improving contaminated soil as provided for in paragraph (3) or (4) is impracticable to be executed by the Special Self-Governing Province Governor or the head of a Si/Gun/Gu due to the lack of technology or the excess of project costs, etc., the Minister of Environment or the Mayor/Do Governor may, upon a request from the Special Self-Governing Province Governor or the head of a Si/Gun/Gu, provide technological and financial support to the relevant project.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 20 (Limitation on Use of Land, etc.)

The Special Self-Governing Province Governor or the head of a Si/Gun/Gu may impose limitations on the use of land or the installation of facilities deemed to have a possibility to harm the purpose of the designation of the area requiring countermeasures, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 21 (Limitations on Activities)(1) No one shall discharge into the soil in the area requiring countermeasures the specified substances harmful to water quality under subparagraph 8 of Article 2 of the Water Quality and Aquatic Ecosystem Conservation Act, wastes under subparagraph 1 of Article 2 of the Wastes Control Act, toxic chemicals under subparagraph 7 of Article 2 of the Chemicals Control Act, sewage and excreta under subparagraphs 1 and 2 of Article 2 of the Sewerage Act, or livestock excreta under subparagraph 2 of Article 2 of the Act on the Management and Use of Livestock Excreta: Provided, That acts prescribed by Ordinance of the Ministry of Environment shall be excluded therefrom: <Amended by Act No. 10314, May 25, 2010; Act No. 11862, Jun. 4, 2013>

(2) No one shall install facilities deemed and prescribed by Presidential Decree as likely to violate the purpose of the designation of the area requiring countermeasures in such area. <Amended by Act No. 10551, Apr. 5, 2011>

(3) Where the soil is contaminated or likely to be contaminated due to acts or installation of the facilities referred to in paragraphs (1) and (2), the Special Self-Governing Province Governor or the head of a Si/Gun/Gu may order a person who performed such acts to eliminate soil contaminants or an installer of such facilities to remove the facilities. <Amended by Act No. 10551, Apr. 5, 2011>

Article 22 (Cancellation of Designation of Area Requiring Countermeasures)(1) The Minister of Environment may cancel or alter the designation of an area requiring countermeasures under Article 17 (1) in case where the relevant area falls under any of the

following subparagraphs:

1. Where the level of soil contamination is improved by designing and implementing countermeasures, coming down to a level below the purification standards under Article 15-3 (1);
2. Where it is inevitable for public interest;
3. Where the purpose of designating the area requiring countermeasures has ceased to exist due to natural disasters or other reasons.

(2) The provisions of Article 17 (2) and (4) shall apply mutatis mutandis to the cancellation or alternation of the designation of an area requiring countermeasures as provided for in paragraph (1).

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23 [Moved to Article 10-3]

CHAPTER III-2 SOIL-RELATED SPECIALIZED AGENCY AND SOIL PURIFICATION BUSINESS

Article 23-2 (Classification and Designation, etc. of Soil-Related Specialized Agency)(1) Soil-related specialized agencies shall be classified into the following subparagraphs: <Amended by Act No. 11464, Jun. 1, 2012>

1. Soil environment assessment agency: an agency that assesses soil environment;
2. Hazard assessment agency: an agency that assesses hazardous levels;
3. Soil contamination survey agency: an agency that conducts the following duties:
 - (a) Detailed soil surveys;
 - (b) Inspection of soil contamination levels under Article 13 (3);
 - (c) Verification of soil purification under Article 15-6 (1);
 - (d) Guidance and supervision of projects to improve contaminated soil under Article 19 (1);
4. Leakage inspection agency: an agency that inspects leakage under Article 13 (3).

(2) Any person who intends to become a soil-related specialized agency according to the classifications in the subparagraphs of paragraph (1) shall be designated by the Minister of Environment or the Mayor/Do Governor as specified in the following subparagraphs after securing facilities, equipment and technological capabilities as prescribed by Presidential Decree. This shall also apply where the matters prescribed by Presidential Decree among those already designated are changed: <Newly Inserted by Act No. 11464, Jun. 1, 2012>

1. Soil environment assessment agencies under paragraph (1) 1 and hazard assessment agencies under paragraph (1) 2: The Minister of Environment;
2. Soil contamination survey agencies under paragraph (1) 3 and leakage inspection agencies under paragraph (1) 4: The Mayor/Do Governor.

(3) Soil contamination survey agencies under paragraph (1) 3 shall be designated from among the agencies falling under the following subparagraphs: Provided, That the agencies prescribed by Presidential Decree shall be deemed to be designated as a soil contamination survey agency under paragraph (1): <Amended by Act No. 11464, Jun. 1, 2012>

1. Regional environment offices;

2. National and public research institutes;
 3. Universities under subparagraphs 1 through 6 of Article 2 of the Higher Education Act;
 4. Special corporations established under the special Acts;
 5. Nonprofit corporations under a permit for establishment by the Minister of Environment.
- (4) The Minister of Environment or the Mayor/Do Governor shall, when he/she has designated a soil-related specialized agency, issue a certificate of designation and publicly announce such designation. <Amended by Act No. 11464, Jun. 1, 2012>
- (5) Matters to be observed by soil-related specialized agencies, fees for inspection, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.
- (6) A soil environment assessment agency and a hazard assessment agency designated under paragraph (2) 1 may allow a soil contamination survey agency designated under subparagraph 2 of the same paragraph to collect or analyze soil samples on their behalf for assessment of soil environment or of hazardous levels. <Amended by Act No. 11464, Jun. 1, 2012>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-3 (Disqualifications of Soil-Related Specialized Agencies)

None of the following persons shall be designated as a soil-related specialized agency: <Amended by Act No. 13169, Feb. 3, 2015>

1. A person under adult guardianship or a person under limited guardianship;
2. A person who has been sentenced to a bankruptcy and not reinstated as yet;
3. A person for whom two years have not yet elapsed after the revocation of designation under Article 23-6;
4. A person who has been sentenced to imprisonment with labor or a heavier punishment for violating this Act and for whom two years have yet to pass from the date on which the execution of the sentence is completed (including where the execution of the sentence is deemed completed) or the execution of the sentence is exempted;
5. A corporation that employs persons falling under one of subparagraphs 1 through 4 from as its executive officers.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-4 (Prohibition on Lending Written Designation of Soil-Related Specialized Agency, etc.)

Anyone who is designated as the soil-related specialized agency shall be prohibited from permitting any other person to perform the work of his/her soil-related specialized agency by using his/her name or from lending the written designation of his/her soil-related specialized agency to any other person.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-5 (Prohibition on Concurrently Running other Businesses)

Neither those designated as a hazard assessment agency pursuant to Article 23-2 (2) 1 nor those designated as a soil contamination survey agency pursuant to subparagraph 2 of the same paragraph from among soil-related specialized agencies may concurrently run the soil

purification business. <Amended by Act No. 11464, Jun. 1, 2012>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-6 (Revocation, etc. of Designation of Soil-Related Specialized Agency)(1) In case where a soil-related specialized agency falls under any of the following subparagraphs, the Minister of Environment or the Mayor/Do Governor shall revoke the designation: <Amended by Act No. 11464, Jun. 1, 2012>

1. Where it has been designated by deception or other unlawful means;
2. Where it has come to fall under any of the subparagraphs of Article 23-3: Provided, That a person falling under subparagraph 5 of Article 23-3 from among executive officers of the corporation is replaced within 3 months, this shall not apply;
3. Where it has concurrently run the soil purification business in violation of Article 23-5.

(2) In case where a soil-related specialized agency falls under any of the following subparagraphs, the Minister of Environment or the Mayor/Do Governor may either revoke the designation or order the agency to suspend business with setting a period of six months or less: <Amended by Act No. 11464, Jun. 1, 2012>

1. Where it has failed to meet the designation standards under Article 23-2 (2);
2. Where it has allowed others to conduct duties of the soil-related specialized agency by using its name or lent its certificate of designation to others in violation of Article 23-4;
3. Where it has falsely or poorly prepared the results of inspection or assessment by intention or gross negligence;
4. Where it poorly conducted the detailed soil survey under Article 11 (3), 14 (1) or 15 (1) by intention or gross negligence, reducing the scale of contaminated soil below the one subject to the verification of the purification process under the proviso to Article 15-6 (1);
5. Where it has conducted duties relating to the inspection of soil contamination levels, leakage inspection, soil environment assessment, or hazard assessment during the period of disposition of business suspension;
6. Where a person other than a technical expert falling under the requirements for designation of technological capabilities under Article 23-2 (2) has conducted a survey or assessment and notified of the result.

(3) In case where a soil-related specialized agency falls under any of the following subparagraphs, the Minister of Environment or the Mayor/Do Governor may order the agency to suspend its duty with setting a period of six months or less: <Amended by Act No. 11464, Jun. 1, 2012>

1. Where it poorly conducted the verification of soil purification under Article 15-6, failing to treat the contaminated soil below the purification standards under Article 15-3 (1);
2. Where it has failed to commence business within two years from the date of its designation (excluding the cases where it is deemed to have been designated as a soil contamination survey agency under the proviso to Article 23-2 (3)) or has no record of performance for not less than two consecutive years without any justifiable reason;
3. Where it has failed to notify without delay the competent Mayor/Do Governor or the head

of the competent Si/Gun/Gu of the result of a detailed survey under Articles 11 (4), 14 (2) and 15 (2);

4. Where it has presented an untruthful opinion concerning approval for exemption from the soil contamination inspection under Article 13 (2);

5. Where it has failed to notify the results of the soil contamination inspection under Article 13 (4) to the competent Special Self-Governing Province Governor, the head of the competent Si/Gun/Gu and the head of competent fire station;

6. Where it has violated the matters of observance of soil-related specialized agencies under Article 23-2 (5);

7. Where it has failed to make report or to present data in violation of Article 26-2 (2), or has reported or presented data fraudulently.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-7 (Registration of Soil Purification Business, etc.)(1) Anyone who intends to run a soil purification business shall secure facilities (including facilities for purification of contaminated soil brought into the facilities in case where the purification works are to be conducted by shipping it out to other facilities under the proviso to Article 15-3 (3)), equipment, technical manpower, etc. that are prescribed by Presidential Decree to register his/her business with the Mayor/Do Governor. The same shall apply where he/she changes any matter prescribed by Presidential Decree from among those already registered. <Amended by Act No. 11464, Jun. 1, 2012>

(2) The Mayor/Do Governor shall, when he/she makes the registration of a soil purification business, issue a registration certificate as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 11464, Jun. 1, 2012>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-8 (Grounds of Disqualification for Registration of Soil Purification Business)

The provision of Article 23-3 shall apply mutatis mutandis to anyone who intends to register his/her soil purification business pursuant to Article 23-7 (1). In this case, the "soil-related specialized agency" shall be deemed the "soil purification business" and the "designation" shall be deemed the "registration," respectively.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-9 (Matters to be Observed by Soil Purification Business Operators)(1) Every soil purification business operator shall be prohibited from letting any other person run the soil purification business by getting the latter to use his/her name or his/her firm name or from lending his/her registration certificate to any other person.

(2) Every soil purification business operator shall be prohibited from subcontracting in bulk his/her contracted work for the soil purification (hereinafter referred to as the "soil purification work") or the work directly connected to the soil purification that is prescribed by Presidential Decree from among the soil purification work: Provided, That this shall not apply if there exists a natural disaster or any other unavoidable ground prescribed by Presidential Decree.

(3) Other matters that soil purification business operators are required to observe other than

those prescribed in paragraphs (1) and (2) when they run their soil purification business shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-10 (Revocation, etc. of Registration of Soil Purification Business)(1) In case where a soil purification business operator falls under any of the following subparagraphs, the Mayor/Do Governor shall revoke the registration: <Amended by Act No. 11464, Jun. 1, 2012>

1. Where he/she has registered by deception or other unlawful means;
2. Where he/she has come to fall under any of the subparagraphs of Article 23-3 which shall apply mutatis mutandis under Article 23-8: Provided, That a person falling under subparagraph 5 of Article 23-3 from among the executive officers of the corporation is replaced within 3 months, this shall not apply;
3. Where he/she conducted business activities during the period of business suspension.

(2) In case where a soil purification business operator falls under any of the following subparagraphs, the Mayor/Do Governor may either revoke the registration of the soil purification business operator or order him/her to suspend business with setting a period of not more than six months: <Amended by Act No. 11464, Jun. 1, 2012>

1. Where he/she has failed to conduct purification work in conformity with the standards and methods of purification under Article 15-3 (1);
2. Where he/she has conducted purification work after shipping the contaminated soil to a place other than the relevant land where the contamination has occurred or to a place other than the facilities owned by himself/herself in violation of Article 15-3 (3);
3. Where he/she has committed an act of lowering concentrations of contaminants by mixing the contaminated soil with other soil in violation of Article 15-3 (7) 1;
4. Where he/she has kept the contaminated soil in excess of the capacity of the registered facilities in violation of Article 15-3 (7) 2;
5. Where he/she has committed an act of dumping, reclaiming, leaking or discharging the contaminated soil in violation of Article 15-4;
6. Where he/she has shipped the contaminated soil to another place before the completion of verification by a soil-related specialized agency in violation of Article 15-6 (5);
7. Where he/she has fell short of the registration standards under Article 23-7 (1);
8. Where he/she has allowed other persons to conduct the duty of the soil purification business by using his/her name or lent his/her certificate of registration to other persons in violation of Article 23-9 (1);
9. Where he/she has subcontracted the soil purification work for which he/she has been contracted in violation of Article 23-9 (2).

(3) When a soil purification business operator has failed to commence his/her duty within two years from the date of registration or has no record of performance for not less than two consecutive years without any justifiable reasons, the Mayor/Do Governor may order him/her to suspend business with setting a period of six months or less. <Amended by Act

No. 11464, Jun. 1, 2012>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-11 (Uninterrupted Work of Soil Purification Business Operator Whose Business is Revoked or Suspended, etc.)

(1) Anyone who is subjected to the revocation of his/her registration or a disposition taken to suspend his/her business pursuant to Article 23-10 may conduct only the soil purification work for which the ground is broken prior to such disposition. In such cases, anyone who continues the soil purification work shall be deemed a soil purification business operator under this Act until the work is completed.

(2) Anyone subject to the revocation of his/her registration or a disposition taken to suspend his/her business pursuant to Article 23-10 shall notify without delay a person who places an order for the soil purification work and a subcontractor of details of such disposition.

(3) Anyone who awards or is awarded a contract of soil purification work to/from a soil purification business operator may terminate the work contract only within the limited period of 30 days from the date on which he/she is informed pursuant to paragraph (2) by the relevant soil purification business operator or he/she learns of such fact unless extraordinary grounds exist.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-12 (Succession of Rights and Duties)

(1) Anyone falling under any of the following subparagraphs shall succeed the rights and duties accruing from the designation or registration of the person designated as a soil-related specialized agency under Article 23-2 or the person registered as a soil purification business operator under Article 23-7. In such case, if the inheritor falls under any grounds for disqualification under Article 23-3 or 23-8, he/she shall transfer his/her soil-related specialized agency or soil purification business to another person within the period of three months:

1. Where the person designated as a soil-related specialized agency or registered as a soil purification business operator is deceased, the inheritor;
2. Where the person designated as a soil-related specialized agency transfers his/her soil-related specialized agency or the person registered as soil purification business operator transfers his/her soil purification business, the transferee;
3. Where a corporation designated as a soil-related specialized agency or registered as a soil purification business operator is merged, the corporation which remains after or is established by such merger.

(2) Anyone who acquires a soil-related specialized agency or soil purification business through any procedure of the following subparagraphs shall succeed the rights and the duties accruing from the previous designation or the previous registration provided in this Act: <Amended by Act No. 14476, Dec. 27, 2016>

1. Auction under the Civil Execution Act;
2. Conversion under the Debtor Rehabilitation and Bankruptcy Act;
3. Sale of the seized property under the National Tax Collection Act, the Customs Act or the Local Tax Collection Act;

4. Procedures corresponding to any of the provisions of subparagraphs 1 through 3.

(3) Anyone who succeeds the status of the soil-related specialized agency or the soil purification business operator pursuant to paragraph (1) or (2) shall make a report thereon to the Minister of Environment or the Mayor/Do Governor within one month from the date on which he/she succeeds such status as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 11464, Jun. 1, 2012>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-13 (Succession of Effect of Administrative Disposition)

Where anyone who obtains the designation of his/her soil-related specialized agency pursuant to Article 23-2 or anyone who registers his/her soil purification business pursuant to Article 23-7 deceases or transfers his/her soil-related specialized agency or his/her soil purification business or in case where a merger of corporation takes place, the transferee, the inheritor, the corporation that is newly incorporated after a merger or the surviving corporation shall succeed the effect of the administrative disposition taken to the previous soil-related specialized agency or the previous soil purification business operator on the grounds of violating each subparagraph of Article 23-6 or 23-10 for one year from the date on which the disposition period expires and when the procedures for the administrative disposition are underway, such procedures for the administrative disposition to the transferee, the inheritor, the corporation that is newly incorporated after a merger or the surviving corporation may continue: Provided, That the same shall not apply to a case where the transferee, the corporation that is newly incorporated after a merger or the surviving corporation verifies that he/she or it does not learn of the disposition or the fact of violation at the time when the acquisition by transfer or the merger takes place.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 23-14 (Training of Technical Manpower by Soil-Related Specialized Agencies, etc.)(1) The technical manpower that works for any soil-related specialized agency and any soil purification business shall undergo training as prescribed by Ordinance of the Ministry of Environment.

(2) Anyone who employs persons liable to undergo the training referred to in paragraph (1) shall get them to undergo the training. In this case, expenses required for the training shall be borne by the employer.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

CHAPTER IV SUPPLEMENTARY PROVISIONS

Article 24 (Execution by Proxy)

Where any person subject to the soil contamination inspection under Article 13 (1) or any person given an order falling under any of the following subparagraphs fails to undergo such inspection or comply with such order, the Special Self-Governing Province Governor or the head of a Si/Gun/Gu may carry out the orders by proxy as prescribed by the Administrative Vicarious Execution Act, and collect the relevant expenses from the person who has violated the orders:

1. An order under Articles 11 (3) and 14 (1);
2. An order of detailed soil survey under Article 15 (1);
3. An order under Article 15 (3);
4. An order to execute the project for improving contaminated soil under Article 19 (1);
5. An order to eliminate the soil contaminants or to remove the facilities, etc. under Article 21 (3).

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 25 (Assistance from Relevant Organizations)

The Minister of Environment may request the head of the relevant central administrative agency or the Mayor/Do Governor to take the measures as prescribed by the following subparagraphs if he/she deems it necessary to achieve the purpose of this Act:

1. Cultivation of fertile agricultural soil such as bringing fertile soil from another place to prevent soil contamination, etc.;
2. Measures to prevent contamination of surrounding agricultural land on account of wastes and hazardous materials from abandoned mines;
3. Restoration of soil that is damaged by installation of industrial facilities, etc.;
4. Other matters which are prescribed by Ordinance of the Ministry of Environment as necessary for soil conservation.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 26 (State Subsidy)

The State may subsidize or finance the soil conservation project that is promoted by a local government within the budget.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 26-2 (Reports and Inspection, etc.)(1) The Special Self-Governing Province Governor or the head of a Si/Gun/Gu may, as prescribed by Ordinance of the Ministry of Environment, order the installer of the specified facilities subject to the control of soil contamination to furnish the data necessary for his/her supervision, and have public officials under his/her control enter the specified facilities subject to the control of soil contamination to inspect whether the facilities for preventing soil contamination are installed, the soil contamination inspection is conducted, its results are kept, etc.

(2) If deemed necessary, the Minister of Environment or the Mayor/Do Governor may request a soil-related specialized agency and a soil purification business operator to file reports or furnish the data necessary for his/her supervision, and have public officials under his/her control enter the office or business place of the soil-related specialized agency or the soil purification business operator, or other necessary places to inspect the documents, facilities, equipment, etc. <Amended by Act No. 11464, Jun. 1, 2012>

(3) The Mayor/Do Governor or the head of a Si/Gun/Gu may require the proprietor, occupant or operator of the land on which soil contamination has occurred or of the facilities subject to the control of soil contamination to submit necessary data, or have public officials belonging thereto enter the relevant land or facilities subject to the control of soil

contamination and inspect the documents, the facilities, equipment, etc. <Newly Inserted by Act No. 12522, Mar. 24, 2014>

(4) Public officials conducting the inspections under paragraphs (1) through (3) shall carry an identification indicating their authority, and present it to the relevant persons. <Amended by Act No. 12522, Mar. 24, 2014>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 26-3 (Report on Current State of Specific Facilities Subject to Control of Soil Contamination, etc.)(1) The head of a Si/Gun/Gu shall submit the material of the preceding year concerning the matters falling under each of the following subparagraphs to the Mayor/Do Governor by the end of January every year as prescribed by Ordinance of the Ministry of Environment:

1. The current state of the specified facilities subject to the control of soil contamination;
2. The result of the soil contamination inspection that is notified pursuant to Article 13 (4);
3. Details of the order given to take measures and the result of the survey provided in Article 14.

(2) The Mayor/Do Governor shall compile the material that is submitted pursuant to paragraph (1) and report such material to the Minister of Environment by the end of February every year.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 26-4 (Standards for Administrative Disposition)

The detailed standards for the administrative disposition provided in Articles 23-6 and 23-10 shall be set by Ordinance of the Ministry of Environment, taking into account the categories of the act of violation and the extent of violation, etc.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 26-5 (Hearing)

The Minister of Environment, the Mayor/Do Governor or the head of a Si/Gun/Gu shall, if he/she intends to make dispositions falling under any of the following subparagraphs, conduct the hearing: <Amended by Act No. 11464, Jun. 1, 2012>

1. Order to withdraw facilities under Article 21 (3);
2. Revocation of designation of the soil-related specialized agency under Article 23-6;
3. Revocation of the registration of the soil purification business provided in Article 23-10.

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 27 (Delegation and Entrustment of Authority)(1) The authority of the Minister of Environment prescribed by this Act may be delegated in part to the heads of agencies under his/her control, as prescribed by Presidential Decree. <Amended by Act No. 11464, Jun. 1, 2012>

(2) The Minister of Environment may entrust part of his/her duties vested under this Act to the Korea Environment Corporation and the Korea Environmental Industry and Technology Institute in accordance with the Korea Environment Corporation Act, as prescribed by Presidential Decree. <Newly Inserted by Act No. 11464, Jun. 1, 2012; Act No. 12522, Mar.

24, 2014>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

CHAPTER V PENALTY PROVISIONS

Article 28 (Penalty Provisions)

Anyone who fails to carry out an execution order pursuant to Article 19 (1) or a person who implements a project for improving soil contamination without obtaining the approval pursuant to Article 19 (2) shall be punished by imprisonment with labor for not more than five years or a fine not exceeding 50 million won. <Amended by Act No. 12522, Mar. 24, 2014>

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 29 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than two years or by a fine not exceeding 20 million won: <Amended by Act No. 11464, Jun. 1, 2012; Act No. 12522, Mar. 24, 2014>

1. A person who has failed to execute an order given to take measures to purify contaminated soil under Article 11 (3) or 14 (1);
2. A person who has failed to execute an order issued to suspend the use of the specified facilities subject to the control of soil contamination under Article 14 (3);
3. A person who has failed to execute an order issued under Article 15 (3);
4. A person who has commissioned purification of the contaminated soil in violation of Article 15-3 (2);
5. A person who has dumped or reclaimed any contaminated soil in violation of subparagraph 1 of Article 15-4;
6. A person who has failed to execute an order to eliminate soil contaminants or withdraw facilities, etc. under Article 21 (3);
7. A person who performs the work of the soil-related specialized agency without obtaining designation required under Article 23-2 (2);
8. A person who runs the soil purification business without having his/her business registered pursuant to Article 23-7 (1).

[This Article Wholly Amended by Act No. 10551, Apr. 5, 2011]

Article 30 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with prison labor for not more than one year or by a fine not exceeding 10 million won: <Amended by Act No. 10314, May 25, 2010; Act No. 10551, Apr. 5, 2011; Act No. 11464, Jun. 1, 2012; Act No. 12522, Mar. 24, 2014>

1. A person who conducts an assessment of soil environment as differently from the actual state not conforming to the items, methods and procedures under Article 10-2 (3) by intention or gross negligence;
- 1-2. A person who fails to make a report, in violation of Article 11 (1), on the fact that soil contaminants have been leaked or discharged in the course of production, transportation,

storage, handling, processing or disposal;

1-3. A person who manipulates the contamination level to be less than the scale subject to verification of the purification process pursuant to the proviso to Article 15-6 (1) by flimsily conducting the detailed soil survey under Article 11 (3), 14 (1) or 15 (1) by intention or gross negligence;

2. A person who installs specified facilities subject to the control of soil contamination without making a report thereon under the former part of Article 12 (1) or has made a false report thereon;

3. A person who fails to install the facilities for preventing soil contamination in violation of Article 12 (3);

4. A person who fails to execute an order to install or improve the facilities for preventing soil contamination pursuant to Article 14 (1);

5. A person who purifies any contaminated soil in violation of Article 15-3 (1);

6. A person who ships out any contaminated soil to a place that is neither a site where the soil is contaminated nor a site of the facilities owned by any soil purification business operator for the purpose of purifying such contaminated soil in violation of Article 15-3 (3);

7. A person who lowers concentrations of contaminants by mixing the contaminated soil with other soil in violation of Article 15-3 (7) 1;

8. A person who discharges or leaks any contaminated soil in violation of subparagraph 2 of Article 15-4;

8-2. A person who uses the soil, the purification of which is complete in an area where a stricter criteria is applied to its soil than the criteria applied to the purified soil in violation of subparagraph 3 of Article 15-4;

9. A person who fails to order the soil-related specialized agency to perform the verification in violation of Article 15-6 (1);

10. A person who fails to comply with procedures, details and methods of the verification under Article 15-6 (4) by intention or gross negligence, obstructing the contaminated soil to be treated within the purification standards under Article 15-3 (1);

11. A person who ships contaminated soil to other facilities when the verification by the soil-related specialized agency is not completed in violation of Article 15-6 (5);

12. A person who has installed any facilities in areas requiring countermeasures in violation of Article 21 (2);

13. A person who obtains designation of a soil-related specialized agency or register his/her soil purification business by fraudulent and illegal means;

14. A person who allows any other person to perform the work of the soil-related specialized agency under his/her name or who lends his/her written designation to any other person in violation of Article 23-4;

15. A person who allows any other person to run the soil purification business under his/her name or trade name or who lends his/her registration certificate to any other person in violation of Article 23-9 (1);

16. A person who subcontracts contracted soil purification work in violation of Article 23-9 (2);

17. A person who refuses, obstructs, or evades the entry and inspection by public officials under Article 26-2 (2).

[This Article Wholly Amended by Act No. 7291, Dec. 31, 2004]

Article 31 (Joint Penalty Provisions)

When the representative of a corporation, or an agent, employee, or other servant of a corporation or individual commits an offence under Articles 28 through 30 in relation to the business of such corporation or individual, not only shall such violator be punished, but the corporation or the individual shall also be punished by a fine under the relevant provisions: Provided, That this shall not apply where the corporation or the individual has not neglected to pay due attention and supervision concerning the relevant business in order to prevent such violation.

[This Article Wholly Amended by Act No. 10314, May 25, 2010]

Article 32 (Administrative Fines)(1) Any of the following persons shall be punished by an administrative fine not exceeding three million won: <Amended by Act No. 11464, Jun. 1, 2012; Act No. 12522, Mar. 24, 2014>

1. A person who finds out the fact that the soil has been contaminated but fails to report such fact in violation of Article 11 (1);

2. A person who fails to submit the soil transfer form or enter information in the form into the contaminated soil information system in violation of Article 15-3 (6);

3. A person who refuses, obstructs or avoids the entry and inspection by a public official under Article 26-2 (1) or (3);

(2) Any of the following persons shall be punished by an administrative fine not exceeding two million won: <Amended by Act No. 11464, Jun. 1, 2012>

1. A person who obstructs or rejects activities of the relevant public officials or staff of a soil-related specialized agency pursuant to Article 8 (5) without any justifiable grounds;

2. A person who fails to execute an order to conduct the detailed soil survey pursuant to Article 11 (3), 14 (1) or 15 (1);

3. A person who fails to promptly inform the Mayor/Do Governor or the head of a Si/Gun/Gu of the results of the detailed soil survey in violation of Article 11 (4), 14 (2) or 15 (2);

4. A person who fails to report amendments (including closedown of facilities) in violation of the latter part of Article 12 (1);

5. A person who has failed to undergo the inspection or to keep the results of the inspection pursuant to Article 13 (1) or (4);

5-2. A person who fails to report the results of the soil contamination inspection to the Special Self-Governing Province Governor or the head of a Si/Gun/Gu and the head of the competent fire station in violation of Article 13 (4);

5-3. A person who ships out and purifies the contaminated soil without receiving notification of appropriateness on a contaminated soil ship-out and purification plan in violation of Article

15-3 (4);

5-4. A person who submits or fills out the soil transfer form under Article 15-3 (6) falsely or poorly;

6. A person who fails to submit a plan for purifying the contaminated soil or the amended plan for purifying the contaminated soil pursuant to Article 15-6 (2);

7. A person who refuses, obstructs or evades the guidance and supervision pursuant to Article 19 (1);

8. A person who dumps specific substances harmful to water quality, wastes, toxic chemicals, sewage, excreta or livestock excreta in the area requiring countermeasures in violation of Article 21 (1);

9. A person who fails to obtain the changed designation pursuant to the latter part of Article 23-2 (2);

10. A person who fails to observe matters pursuant to Articles 23-2 (5) and 23-9 (3);

11. A person who fails to register the changed matters pursuant to the latter part of Article 23-7 (1);

11-2. A person who fails to file a report in violation of Article 23-12 (3);

12. A person who fails to receiving training or who prevents another person from receiving training in violation of Article 23-14 (1) or (2);

13. A person who fails to make a report or submit materials or has made a false report or submitted false materials in violation of Article 26-2 (1) or (2).

(3) The Minister of Environment, the Mayor/Do Governor, or the head of a Si/Gun/Gu shall impose and collect administrative fines under paragraphs (1) and (2), as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 10314, May 25, 2010]

ADDENDA (Omitted)

27. Enforcement Decree of the Soil Environment Conservation Act

[Enforcement Date 07. Jan, 2017.] [Presidential Decree No.27767, 06. Jan, 2017., Amendment by Other Act]

Article 1 (Purpose)

The purpose of this Decree is to provide the matters delegated by the Soil Environment Conservation Act and the necessary matters for the enforcement thereof. <Amended by Presidential Decree No. 18910, Jun. 30, 2005>

Article 2 Deleted. <by Presidential Decree No. 17432, Dec. 19, 2001>

Article 3 Deleted. <by Presidential Decree No. 17432, Dec. 19, 2001>

Article 4 (Methods, etc. of Formulating Basic Plans and Regional Plans) (1) When the Minister of Environment deems it necessary to formulate the basic plan for soil conservation (hereinafter referred to as "basic plan") under Article 4 (1) of the Soil Environment Conservation Act (hereinafter referred to as the "Act"), he/she may request the heads of

relevant central administrative agencies, the Special Metropolitan City Mayor, a Metropolitan City Mayor, a Do Governor or the Special Self-Governing Province Governor (hereinafter referred to as the "Mayor/Do Governor") and the heads of the relevant agencies or organizations to submit data necessary for formulating the basic plan. <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011>

(2) When a basic plan has been formulated, or the Minister of Environment has approved a regional soil conservation plan (hereinafter referred to as "regional plan") under Article 4 (4) of the Act, he/she shall, without delay, notify the heads of the relevant administrative agencies thereof. The heads of the relevant administrative agencies who have been thus notified shall take measures necessary for enforcing the basic plan or regional plan, unless special circumstances exist.

Article 5 (Compensation for Loss) (1) The amount of compensation for loss as provided in the provisions of Article 9 (1) of the Act, shall be determined in consideration of the transaction price, rent, profitability of the land, buildings, standing timber, earth and rocks, and other constructions concerned.

(2) Any person who intends to claim for the compensation for a loss in accordance with the provisions of Article 9 (2) of the Act, shall submit to the Minister of Environment, the Mayor/Do Governor, the head of a Si/ Gun/Gu (referring to an autonomous Gu; hereinafter the same shall apply) or the head of any soil-related specialized agency (hereinafter referred to as "soil-related specialized agency") provided for in Article 23-2 of the Act a written claim stating the following particulars accompanied by documents evidencing the loss to it: <Amended by Presidential Decree No. 17432, Dec. 19, 2001; Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 26774, Dec. 30, 2015>

1. The name, birth date, and address of the claimant;
2. The date and place where the loss occurred;
3. The contents of the loss;
4. The amount of the loss and the method of assessing it.

(3) Upon receiving the written claim for the compensation for loss as provided in paragraph (2), the Minister of Environment, the Mayor/Do Governor, the head of a Si/Gun/Gu or the head of any soil-related specialized agency shall, without any delay, notify the claimant of the following matters: <Amended by Presidential Decree No. 17432, Dec. 19, 2001; Presidential Decree No. 18910, Jun. 30, 2005>

1. The period and method of consultation;
2. The time, method and procedures of compensation.

(4) Any person who intends to file a motion for adjudication with the Land Expropriation Committee in accordance with the provisions of Article 9 (4) of the Act, shall submit the written motion for adjudication stating the following matters to the relevant Land Expropriation Committee:

1. The name and address of the person who has filed a motion for adjudication and of the

adverse party;

2. Kinds of the business involved;

3. The fact that the loss has been incurred;

4. The particulars with respect to the amount of the compensation for the loss as determined by the disposition bureau and the amount as claimed by the person who has filed a motion;

5. Details of the consultation.

(5) Deleted. <by Presidential Decree No. 17432, Dec. 19, 2001>

Article 5-2 (Assessment of Soil Environment) (1) The assessment of soil environment under Article 10-2 of the Act shall be conducted in the order of a basic survey, an overall survey, and a detailed survey as classified in the following; but when only the basic survey or overall survey is enough to confirm that the soil subject to the assessment has not been contaminated, the next survey may be omitted to close the assessment of soil environment: <Amended by Presidential Decree No. 24566, May 31, 2013>

1. Basic survey: A survey on the probability of soil contamination by means of data research, field research, etc.;

2. Overall survey: A survey on whether the soil is contaminated by means of collecting and analyzing soil samples;

3. Detailed survey: A survey on the severity and scope of soil contamination by means of collecting and analyzing soil samples.

(2) Details of procedures and methods for the assessment of soil environment shall be determined and announced by the Minister of Environment.

[This Article Newly Inserted by Presidential Decree No. 23196, Sep. 30, 2011]

Article 5-3 (Orders, etc. of Soil Purification, etc. for Two or More Persons Responsible for Purification) (1) In accordance with Article 10-4 (3) of the Act, where a person that is responsible for purification (hereinafter referred to as a “person responsible for purification”) referred to in Article 10-4 (1) of the Act is two or more persons, a Mayor/Do Governor or the head of a Si/Gun/Gu shall order them to conduct detailed soil surveys, to purify contaminated soil or to implement projects for improving contaminated soil pursuant to Article 11 (3), 14 (1), 15 (1) or (3), or 19 (1) (hereinafter referred to as “soil purification, etc.”), in accordance with the following order:

1. A person responsible for purification under Article 10-4 (1) 1 and a person who has comprehensively succeeded to rights and obligations thereof;

2. An occupant or an operator of facilities subject to the control of soil contamination, among persons responsible for purification under Article 10-4 (1) 2, and a person who has comprehensively succeeded to rights and obligations thereof;

3. A possessor of facilities subject to the control of soil contamination, among persons responsible for purification under Article 10-4 (1) 2, and a person who has comprehensively succeeded to the rights and obligations thereof;

4. A person who currently possesses or occupies a land where the soil contamination took place, among persons responsible for purification under Article 10-4 (1) 4;

5. A person who has possessed a land where the soil contamination took place, among persons responsible for purification under Article 10-4 (1) 4.

(2) Notwithstanding paragraph (1), in any of the following cases, a Mayor/Do Governor or the head of a Si/Gun/Gu may issue an order for the soil purification, etc. to any one of persons responsible for purification in later sequence ahead of a person responsible for purification in prior order in the sequence prescribed in paragraph (1):

1. Where a person responsible for purification in prior order is unidentified due to the address unknown, etc.;

2. Where a person responsible for purification in prior order is found that the person is less attributable to the relevant soil contamination compared to a person responsible for purification in later sequence;

3. Where it is found to be impracticable to carry out the soil purification, etc. in the event that the purification expenses to be borne by a person responsible for purification in prior order significantly exceed his/her own property value;

4. Where a person responsible for purification in later sequence raises his/her objection or fails to cooperate with respect to the fact that a person responsible for purification in prior order carries out the soil purification, etc.;

5. Where a person responsible for purification in later sequence fails to cooperate with respect to the inspection or other necessary measures for identifying a person responsible for purification in prior order.

(3) Where it is difficult to choose a person responsible for purification for ordering the soil purification, etc. pursuant to paragraph (1) or (2), a Mayor/Do Governor or the head of a Si/Gun/Gu may order at least persons responsible for purification jointly to carry out the soil purification, etc. through the selection of a person responsible for purification from the Soil Purification Advisory Committee (hereinafter referred to as the “Committee”) for soil purification pursuant to Article 10-9 of the Act and the consultation on the portion, etc. of liability to each person responsible for purification.

(4) When a Mayor/Do Governor or the head of a Si/Gun/Gu seeks advice from the Committee referred to in Article 10-4 (3) of the Act, he/she shall submit data necessary for consulting to the Committee.

[This Article Newly Inserted by Presidential Decree No. 26160, Mar. 24, 2015]

Article 5-4 (Supporting Expenses for Soil Purification, etc.) (1) Where the Minister of Environment intends to subsidize expenses incurred in the soil purification, etc. under Article 10-4 (5) of the Act, he/she shall determine whether to subsidize expenses, its scale, method, etc. upon receipt of request for support from a Mayor/Do Governor or the head of a Si/Gun/Gu who has issued an order for soil purification, etc., and notify the relevant Mayor/Do Governor or the head of a Si/Gun/Gu thereof. In such cases, the Minister of Environment may request the Korea Environment Corporation (hereinafter referred to as the “Korea Environment Corporation”) under the Korea Environment Corporation Act to examine technical matters related to the support for purification expenses.

(2) The detailed matters necessary concerning the support, such as the procedure, etc. for supporting expenses, except for the matters provided for in paragraph (1), shall be prescribed by the Minister of Environment.

(3) “Cases prescribed by Presidential Decree” prescribed in Article 10-4 (5) 4 of the Act shall mean any of the following cases:

1. Where expenses incurred in the soil purification, etc. exceeds the value of the relevant land for a person who received the relevant land before December 31, 2001, and transferred or did not own the relevant land for other grounds after January 1, 2002, as a person responsible for purification, etc. referred to in Article 10-4 (1) 4;

2. Where expenses incurred in the soil purification, etc. noticeably exceeds the value of the relevant land and the profits generated from its possession or occupation for a person who received the relevant land after January 1, 2001, and transferred or did not own the relevant land for other grounds thereafter, as a person responsible for purification, etc. referred to in Article 10-4 (1) 4.

[This Article Newly Inserted by Presidential Decree No. 26160, Mar. 24, 2015]

Article 5-5 (Composition and Operation of Committee) (1) The Chairperson of the Committee shall be appointed or commissioned by the Minister of Environment from among members; the Minister of Environment shall appoint or commission any of the following persons who have abundant knowledge and experience related to the field of soil environment as a member, in consideration of the gender:

1. A person who has worked in the affair related to soil environment for at least ten years;

2. A person who holds or has held the post of an assistant professor or higher referred to in Article 2 of the Higher Education Act;

3. A person who has been employed in business as a lawyer for at least five years;

4. Relevant public officials.

(2) The Committee shall have an executive secretary for carrying out the affairs of the Committee, and the executive secretary shall be appointed by the Minister of Environment, from among public officials belonging to the Ministry of Environment.

(3) The term of office of the member of the Committee shall be two years.

(4) The Chairperson shall represent the Committee, and exercise overall control over the Committee.

(5) The meetings of the Committee shall be open when a majority of the current members are present; issues shall be resolved by a majority of those present.

(6) The Committee may have specialized committees by field to research and examine the advisory matters professionally, may request the Korea Environment Corporation to examine technical matters related to the consultation, if necessary.

(7) Necessary matters concerning the composition, operation, etc. of the Committee, except for the matters provided for in paragraph (1) through (6), shall be determined by the chairperson through the resolution made by the Committee.

[This Article Newly Inserted by Presidential Decree No. 26160, Mar. 24, 2015]

Article 5-6 (Operation, etc. of Soil Environment Center) (1) The head of a soil environment center under Article 10-10 of the Act (hereinafter referred to as “soil environment center”) shall submit the business operation plan of the soil environment center for the next year with respect to the business performance prescribed in Article 10-10 (1) of the Act and its necessary budget to the Minister of Environment by December 15th every year.

(2) The head of the soil environment center shall submit the business operation report of the soil environment center for the corresponding year to the Minister of Environment by January 31st of the coming year.

(3) Necessary matters concerning the operation and supervision of the soil environment center, except the matters provided for in paragraph (1) and (2), shall be determined by the Minister of Environment.

[This Article Newly Inserted by Presidential Decree No. 26160, Mar. 24, 2015]

Article 5-7 (Entrustment of Operation of Soil Environment Center)

The Minister of Environment shall entrust the following affairs to the Korean Environmental Industry and Technology Institute referred to in Article 5-3 of the Environmental Industry and Technology Institute Act in accordance with Article 10-10 (3) of the Act: <Amended by Act No. 27636, Nov. 29, 2016>

1. Development and utilization of the research and technology related to the soil environmental industry of the soil environment center prescribed in Article 10-10 (1) 1 of the Act;

2. Dissemination of technology related to soil conservation of the soil environment center, promotion of its commercialization, and support for its advance into overseas markets under Article 10-10 (1) 2 of the Act;

3. Collection and utilization of, education, publicity, and international cooperation on, the information related to the soil environmental industry of the soil environment center prescribed in Article 10-10 (1) 3 of the Act;

4. Invigoration of the soil environmental industry, such as the operation of a soil environmental assessment system under Article 10-10 (1) 4 of the Act.

[This Article Newly Inserted by Presidential Decree No. 26160, Mar. 24, 2015]

Article 5-8 (Order, etc. of Detailed Investigation) (1) Where a Special Self-Governing Province Governor or the head of a Si/Gun/Gu issues an order to conduct detailed soil investigation under Article 11 (3) of the Act, he/she shall determine a performance period within up to six months, taking into consideration of the scope of soil contamination region: Provided, That the Special Self-Governing Province Governor or the head of a Si/Gun/Gu may extend the performance period only once, within the scope of six months, for a person who has failed to complete the investigation within a given period due to unavoidable circumstances, such as scale, etc. of the investigation region. <Amended by Presidential Decree No. 23196, Sep. 30, 2011; Presidential Decree No. 26160, Mar. 24, 2015>

(2) Where the Special Self-Governing Province Governor or the head of a Si/Gun/Gu issues

an order to take measures for purification for contaminated soil (referring to the soil, the soil contamination level of which exceeds the worrisome level of soil contamination prescribed in Article 4-2 of the Act; hereinafter the same shall apply) to a person responsible for purification under Article 11 (3) of the Act, he/she shall determine a performance period within two years, taking into consideration of the scale, etc. of soil contamination: Provided, That the Special Self-Governing Province Governor or the head of a Si/Gun/Gu may extend the performance period up to twice within one year, on every occasion, for a person who has failed to comply with an order for taking measures for purification within a given period due to unavoidable circumstances, such as the scale of purification construction, purification method of construction, etc. <Amended by Presidential Decree No. 23196, Sep. 30, 2011; Presidential Decree No. 26160, Mar. 24, 2015>

[This Article Newly Inserted by Presidential Decree No. 18910, Jun. 30, 2005]

Article 6 (Reporting, etc. on Specific Facilities Subject to Control of Soil Contamination) (1) Any person who intends to file a report on the installation of the specific facilities subject to the control of soil contamination under Article 12 (1) of the Act shall file such report with the Special Self-Governing Province Governor or the head of a Si/Gun/Gu, accompanied by the following documents: Provided, That in cases of oil storage facilities installed for military use under subparagraph 1 (c) of Article 2 of the Act on National Defense and Military Installations Projects, some documents to be accompanied may be exempted or some matters to be entered in such documents may be omitted, as prescribed by Ordinance of the Ministry of Environment: <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 21542, Jun. 16, 2009; Presidential Decree No. 23196, Sep. 30, 2011; Presidential Decree 23529, Jan. 25, 2012>

1. Drawings showing the locations, structures and installations of the specific facilities subject to the control of soil contamination;
2. Permits to establish a factory, storage and office of dangerous substances under Article 6 of the Safety Control of Dangerous Substances Act and detailed statements of structures and installations by storage facilities;
3. Other matters deemed necessary by the Special Self-Governing Province Governor or the head of a Si/Gun/Gu for the prevention of soil contamination.

(2) Any person who intends to alter the specific facilities subject to the control of soil contamination (including the closure of such facilities) under the latter part of Article 12 (1) of the Act shall file a report on the alteration to the installation (or closure) of such specific facilities subject to the control of soil contamination with the Special Self-Governing Province Governor or the head of a Si/Gun/Gu, accompanied by a statement detailing the alteration (or closure) of such facilities. <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011>

[This Article Wholly Amended by Presidential Decree No. 17432, Dec. 19, 2001]

Article 7 (Installation, etc. of Facilities for Preventing Soil Contamination in Specific Facilities Subject to Control of Soil Contamination) (1) Any installer of the specific

facilities subject to the control of soil contamination (including any operator of such facilities; hereinafter the same shall apply) shall install the following facilities for preventing soil contamination by each specific facility subject to the control of soil contamination, and maintain and manage them appropriately, as prescribed in Article 12 (3) of the Act: <Amended by Presidential Decree No. 17432, Dec. 19, 2001; Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011>

1. To use anti-corrosive and anti-oxidizing coatings for the specific facilities subject to the control of soil contamination, utilize materials that have leakage-prevention performance, or install the facilities for preventing soil contaminants from leaking, such as dual wall tanks, and maintain and manage those facilities appropriately;

2. To install the facilities that can detect the leakage of soil contaminants or can confirm whether soil contaminants are leaking, such as measuring instruments, and maintain and manage those facilities appropriately where, among the specific facilities subject to the control of soil contamination, storage facilities are laid underground;

3. To install the facilities necessary for the measures to prevent diffusion of contamination or to reduce the degree of toxicity, and maintain and manage those facilities appropriately, in preparation for possible leakage of soil contaminants from the specific facilities subject to the control of soil contamination.

(2) Standards for installation, maintenance and management of the facilities for preventing soil contamination under paragraph (1) and other necessary matters shall be publicly announced by the Minister of Environment after consultation with the head of a relevant central administrative agency. <Amended by Presidential Decree No. 17432, Dec. 19, 2001; Presidential Decree No. 24566, May 31, 2013>

Article 7-2 (Recommendation and Support for Installation of Facilities for Prevention of Soil Contamination) (1) With regard to installing, maintaining and managing the facilities for preventing soil contamination under each subparagraph of Article 7 (1), the Minister of Environment may recommend any person who intends to install the specific facilities subject to the control of soil contamination that he/she should install, maintain and manage facilities in compliance with the standards for installation, maintenance and management set by Ordinance of the Ministry of Environment, which are more effective standards in prevention and diffusion of soil contamination than the standards publicly announced under paragraph (2) of the same Article.

(2) Where the facilities for preventing soil contamination is installed, maintained and managed in compliance with the standards for installation, maintenance and management recommended under paragraph (1) (hereinafter referred to as “recommended standards for installation, maintenance and management”), it shall be deemed to comply with the standards for installation, maintenance and management publicly announced under Article 7 (2).

(3) The Minister of Environment may provide administrative and financial support to installers of the specific facilities subject to the control of soil contamination, who install, maintain and

manage facilities in compliance with the recommended standards for installation, maintenance and management under paragraph (1).

[This Article Newly Inserted by Presidential Decree No. 24566, May 31, 2013]

Article 8 (Soil Contamination Inspection on Specific Facilities Subject to Control of Soil Contamination) (1) Any installer of the specific facilities subject to the control of soil contamination shall undergo the soil contamination inspection on a regular basis under Article 13 (1) of the Act according to the following classifications: Provided, That if an inspection of soil contamination levels under subparagraph 1 and a leakage inspection under subparagraph 2 shall be conducted in the same year, he/she may undergo an inspection of soil contamination levels in the following year: <Amended by Presidential Decree No. 23196, Sep. 30, 2011>

1. He/she shall undergo an inspection of soil contamination levels by a soil-related specialized agency once a year at the time prescribed by Ordinance of the Ministry of Environment: Provided, That where he/she has installed the facilities for preventing soil contamination under Article 7 and is appropriately maintaining and managing them, an inspection cycle may be adjusted within five years according to the standards prescribed by Ordinance of the Ministry of Environment;

2. Where ten years have passed after the installation of the specific facilities subject to the control of soil contamination falling under the proviso to Article 13 (3) of the Act (excluding facilities subject to regular inspections under Article 17 of the Enforcement Decree of the Safety Control of Dangerous Substances Act; hereinafter referred to as "facilities subject to a leakage inspection"), he/she shall undergo a leakage inspection conducted by a soil-related specialized agency within six months, and undergo a leakage inspection as prescribed by Ordinance of the Ministry of Environment thereafter.

(2) Any installer of the specific facilities subject to the control of soil contamination shall undergo any of the following inspections conducted by a soil-related specialized agency in addition to the soil contamination inspection under paragraph (1): Provided, That this shall not apply where a reason falling under any of subparagraphs 1 through 3 arises within three months after he/she has undergone an inspection of soil contamination levels under paragraph (1) 1: <Amended by Act No. 27299, Jun. 30, 2016>

1. Where any installer of the specific facilities subject to the control of soil contamination terminates the use of such facilities or closes such facilities, he/she shall undergo an inspection of soil contamination levels during the period from three months prior to the termination date or closing date to the preceding date of the termination date or closing date;

2. Where any operator of the specific facilities subject to the control of soil contamination is changed due to transfer, lease, etc. of the specific facilities, he/she shall undergo an inspection of soil contamination levels during the period from three months prior to the date of such change to the preceding date of the date of such change;

3. Where any installer of the specific facilities subject to the control of soil contamination replaces the facilities or changes the types of soil contaminants stored in the facilities, he/she

shall undergo an inspection of soil contamination levels during the period from three months prior to the date of replacement or change to the preceding date of the date of replacement or change;

4. In cases of facilities subject to a leakage inspection, where it has been confirmed that the soil is contaminated beyond the standards prescribed by Ordinance of the Ministry of Environment from the inspection of soil contamination levels under any of the following items, he/she shall undergo a leakage inspection without delay:

(a) An inspection of soil contamination levels under paragraph (1) 1 or 2;

(b) An inspection of soil contamination levels following change in the types of soil contaminants stored in the facilities subject to the control of soil contamination under subparagraph 3;

5. When he/she has become aware of the fact that soil contaminants have been leaked from the specific facilities subject to the control of soil contamination, he/she shall undergo an inspection of soil contamination levels and a leakage inspection (limited to facilities subject to a leakage inspection) without delay.

(3) Where he/she has undergone an inspection of soil contamination levels under paragraph (2) 1 through 3 or 5, he/she shall be deemed to have undergone the next inspection of soil contamination levels under paragraph (1) 1, and where he/she has undergone a leakage inspection under paragraph (2) 4 or 5, he/she shall undergo a leakage inspection under paragraph (1) 2 on the basis of the date he/she has undergone such inspection.

(4) Even in cases falling under any of paragraph (2) 1 through 3, if he/she has undergone an inspection under subparagraph 5 of the same paragraph within the relevant inspection period, he/she need not undergo any separate soil contamination inspection.

(5) Matters necessary for items of the soil contamination inspection shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Presidential Decree No. 21542, Jun. 16, 2009]

Article 8-2 (Exemption, etc. from Soil Contamination Inspection) (1) Cases where the Special Self-Governing Province Governor or the head of a Si/Gun/Gu may grant approval for exemption from the soil contamination inspection of the specific facilities subject to the control of soil contamination under the proviso to Article 13 (1) of the Act shall be as follows: <Amended by Presidential Decree No. 23196, Sep. 30, 2011; Presidential Decree No. 24566, May 31, 2013>

1. Where oil pipeline facilities under the Oil Pipeline Safety Control Act among the specific facilities subject to the control of soil contamination are fitted with any device with which the leakage of oil can be checked (limited to an inspection of soil contamination levels) or the safety check-up is undergone under Article 8 of the said Act (limited to a leakage inspection);

2. Where a soil contamination survey agency deems it impossible to take a soil sample due to the relevant facilities installed on the ground or in the basement of a building, etc. where soil boring cannot be conducted;

3. Where a soil-related specialized agency deems it unnecessary to conduct the soil

contamination inspection because soil contaminants have not been stored in storage facilities for at least one year or on other grounds;

4. Where, among multiple facilities storing the same type of soil contaminants, the use of some facilities is terminated or closed (limited to an inspection of soil contamination levels under Article 8 (2) 1);

4-2. Where not more than 15 years have passed from the date when the facilities for preventing soil contamination were installed in compliance with the recommended standards for installation, maintenance and management (limited to the regular inspections of soil contamination under Article 8 (1));

5. Where it is intended to change the stored soil contaminants to other types of soil contaminants on which the items of the inspection under Article 8 (5) are the same (limited to the inspection of soil contamination levels under Article 8 (2) 3);

6. Where, otherwise, the Special Self-Governing Province Governor or the head of a Si/Gun/Gu deems it unnecessary to conduct the soil contamination inspection because purification works are being conducted in compliance with soil purification orders.

(2) In cases falling under paragraph (1) 1, 4, 5 and 6, the opinions of soil-related specialized agencies need not be presented at the time of applying for approval for exemption from the soil contamination inspection under the proviso to Article 13 (2) of the Act.

(3) Where the specific facilities subject to the control of soil contamination referred to in paragraph (1) 1 extend over at least two jurisdictions of the Special Self-Governing Province Governor and the head of a Si/Gun/Gu, the Special Self-Governing Province Governor or the head of a Si/Gun/Gu who has jurisdiction over the main office of the specific facilities subject to the control of soil contamination shall grant approval for exemption from the soil contamination inspection of the said facilities. <Amended by Presidential Decree No. 23196, Sep. 30, 2011>

(4) Where the specific facilities subject to the control of soil contamination exempted from the soil contamination inspection no more have any grounds for such exemption, the Special Self-Governing Province Governor or the head of a Si/Gun/Gu shall, without delay, withdraw approval for such exemption. <Amended by Presidential Decree No. 23196, Sep. 30, 2011> [This Article Newly Inserted by Presidential Decree No. 18910, Jun. 30, 2005]

Article 8-3 (Corrective Orders, etc.) (1) When the Special Self-Governing Province Governor or the head of a Si/Gun/Gu orders any installer of the specific facilities subject to the control of soil contamination to install or improve the facilities for preventing soil contamination, or to undergo a detailed soil survey pursuant to Article 14 (1) of the Act, he/she shall set the performance period within up to six months in consideration of the result of the soil contamination inspection conducted under Article 8 and the type, scale, etc. of the specific facilities subject to the control of soil contamination: Provided, That the Special Self-Governing Province Governor or the head of a Si/Gun/Gu may grant an extension of such performance period only once by a further period up to six months to any person who has failed to perform the order within the performance period due to unavoidable circumstances,

such as the scale of an area to be surveyed. <Amended by Presidential Decree No. 23196, Sep. 30, 2011>

(2) When the Special Self-Governing Province Governor or the head of a Si/Gun/Gu orders any installer of the specific facilities subject to the control of soil contamination to take measures to purify contaminated soil pursuant to Article 14 (1) of the Act, he/she shall determine the performance period within up to two years: Provided, That the Special Self-Governing Province Governor or the head of a Si/Gun/Gu may grant an extension of such performance period up to two times by a further period of not exceeding one year for each time to any person who has failed to perform the order for purification measures due to unavoidable circumstances, such as the scale and method of purification works. <Amended by Presidential Decree No. 23196, Sep. 30, 2011>

[This Article Wholly Amended by Presidential Decree No. 21542, Jun. 16, 2009]

Article 9 (Orders, etc. to Undergo Detailed Soil Surveys) (1) Where a Mayor/Do Governor or the head of a Si/Gun/Gu orders any person causing the contamination to undergo a detailed soil survey under Article 15 (1) of the Act, he/she shall set the performance period within up to six months, taking account of the scope of the contaminated soil area, etc.: Provided, That with respect to any person who has failed to undergo a detailed soil survey within the performance period due to unavoidable circumstances, such as the size of the area to be surveyed, a Mayor/Do Governor or the head of a Si/Gun/Gu may extend such performance period only once by a further period up to six months. <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011; Presidential Decree No. 26160, Mar. 24, 2015>

(2) Deleted. <by Presidential Decree No. 18910, Jun. 30, 2005>

[This Article Wholly Amended by Presidential Decree No. 17432, Dec. 19, 2001]

Article 9-2 (Orders Given to Take Measures, etc.) (1) Where a Mayor/Do Governor or the head of a Si/Gun/Gu orders any person that causes the contamination to take measures to prevent soil contamination under Article 15 (3) of the Act (hereinafter referred to as "order given to take measures"), he/she shall set the performance period within up to two years, taking account of soil contaminants and the type, size, etc. of facilities. <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 26160, Mar. 24, 2015>

(2) With respect to any person who has inevitably failed to comply with the order given to take measures within the performance period referred to in paragraph (1) due to the scale, construction method, etc., a Mayor/Do Governor or the head of a Si/Gun/Gu may extend such performance period up to two times by a further period of not exceeding one year for each time. <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 21542, Jun. 16, 2009>

[This Article Newly Inserted by Presidential Decree No. 17432, Dec. 19, 2001]

Article 10 (Standards for and Methods of Purifying Contaminated Soil) (1) Standards for purifying contaminated soil under Article 15-3 (1) of the Act shall follow the worrisome

levels of soil contamination under Article 4-2 of the Act. <Newly Inserted by Presidential Decree No. 18910, Jun. 30, 2005>

(2) The methods of purifying contaminated soil under Article 15-3 (1) of the Act shall be as follows: <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011>

1. Biological treatment, including decomposition and absorption of contaminants, using microorganisms or plants;
2. Physical and chemical treatment, including isolation, separation, extraction and cleansing treatment of contaminants;
3. Heat treatment, including burning and decomposition of contaminants.

(3) Detailed matters concerning the methods of purification under each subparagraph of paragraph (2) shall be prescribed and announced by the Minister of Environment. <Amended by Presidential Decree No. 18910, Jun. 30, 2005>

[This Article Wholly Amended by Presidential Decree No. 17432, Dec. 19, 2001]

Article 11 (Direct Performance of Purification Works by Persons Responsible for Purification)

With respect to any of the following contaminated soil, a person responsible for purification may purify such contaminated soil himself/herself without entrusting purification works to a person who has made a registration of the soil purification business (hereinafter referred to as "soil purification business operator") under Article 23-7 (1) of the Act, pursuant to the proviso to Article 15-3 (2) of the Act: <Amended by Presidential Decree No. 26160, Mar. 24, 2015>

1. Contaminated soil in the facilities of military units prescribed in the Act on National Defense and Military Installations Projects or the soil contaminated in the course of military activities, each of which is less than 50 cubic meters in quantity;
2. Soil contaminated by organic solvents or oil, which is less than 5 cubic meters in quantity.

[This Article Newly Inserted by Presidential Decree No. 18910, Jun. 30, 2005]

Article 11-2 (Methods of Verifying Soil Contamination due to Natural Causes) (1)

“Methods prescribed by Presidential Decree” prescribed in Article 15-5 (2) 4 of the Act means any of the following methods:

1. To prove that concentrations of the relevant contaminant in the relevant site is similar to those in the neighboring area measured from the soil analysis;
2. To prove that the relevant contaminant has come from the bed rock in the relevant site;
3. To prove otherwise by scientific methods that the relevant contaminant has originated due to natural causes.

(2) Where a Mayor/Do Governor, the head of a Si/Gun/Gu, or a person responsible for purification intends to have a hazard assessment conducted pursuant to Article 15-5 (2) 4 of the Act, he/she shall submit, to the Minister of Environment, a report concerning matters under each subparagraph of paragraph (1), which is prepared by a soil-related specialized agency. <Amended by Presidential Decree No. 26160, Mar. 24, 2015>

(3) The Minister of Environment shall confirm the report submitted under paragraph (2) and notify the relevant Mayor/Do Governor, the head of the relevant Si/Gun/Gu, or a person responsible for purification of the results thereof, including whether the soil contamination is due to natural causes. <Amended by Presidential Decree No. 26160, Mar. 24, 2015>

[This Article Newly Inserted by Presidential Decree No. 23196, Sep. 30, 2011]

Article 11-3 (Omission of Verification of Purification Process)

Where the area of contaminated soil is less than 1,000 cubic meters [excluding the soil which has been contaminated by heavy metals, the contamination level of which exceeds the countermeasure standards against soil contamination (hereinafter referred to as the "countermeasure standards") under Article 16 of the Act, and which is 500 cubic meters or more in quantity] under the proviso to Article 15-6 (1) of the Act, the verification of the purification process may be omitted.

[This Article Newly Inserted by Presidential Decree No. 18910, Jun. 30, 2005]

Article 11-4 (Formulation of Plans to Create Soil Control Complexes)

The Minister of Environment shall include the following matters when formulating a plan to create a soil control complex under Article 15-7 (2) of the Act:

1. Purpose of creation, necessity, and period of creation and operation;
2. Current situation of the site subject to creation of the complex, including its location and size;
3. Measures to secure the site subject to creation of the complex;
4. Methods of securing funds and financing for creation of the complex;
5. Plans to establish and operate major infrastructure, including transportation facilities;
6. Plans for environment conservation;
7. Contaminated soil purification capacity;
8. Matters concerning the recycling and distribution of purified soil.

[This Article Newly Inserted by Presidential Decree No. 23196, Sep. 30, 2011]

Article 11-5 (Changes in Plans to Create Soil Control Complexes)

“Where he/she intends to change the important matters of plan for creation of a soil control complex which are prescribed by Presidential Decree” in the latter part of Article 15-7 (2) of the Act means any of the following cases:

1. Where more than 20 percent of the area of the site subject to creation of the complex is to be changed;
2. Where more than 20 percent of the contaminated soil purification capacity is to be changed.

[This Article Newly Inserted by Presidential Decree No. 23196, Sep. 30, 2011]

Article 12 (Designation of Area Requiring Measures for Soil Conservation) (1) "Any region that falls under the cases that is prescribed by Presidential Decree" in the proviso to Article 17 (1) of the Act means any of the following: <Newly Inserted by Presidential Decree No. 18910, Jun. 30, 2005>

1. Farmland where the size of land in which the contaminant content of crops cultivated

therein exceeds the maximum residue limit of heavy metal (hereinafter referred to as "maximum residue limit of heavy metal") under Article 7 of the Food Sanitation Act is at least 10,000 square meters;

2. An area requiring special measures to prevent any damage to people's health or the environment because the soil, underground water, etc. is simultaneously contaminated with soil contaminants, such as heavy metals and oil.

(2) When the Special Self-Governing Province Governor or the head of a Si/Gun/Gu requests the Minister of Environment to designate any area as an area requiring countermeasures pursuant to Article 17 (2) of the Act, he/she shall file a written application for designation of an area requiring countermeasures with the Minister of Environment. <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 21542, Jun. 16, 2009; Presidential Decree No. 23196, Sep. 30, 2011>

(3) Standards for designating an area requiring countermeasures under Article 17 (3) of the Act shall be as follows: <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011>

1. In cases of farmland, areas where the soil contamination level 30 centimeters deep from the ground surface exceeds the countermeasure standards and other areas which are requested by the Special Self-Governing Province Governor or the head of a Si/Gun/Gu to be designated as an area requiring countermeasures as the contaminant content of crops cultivated in such areas is found to be in excess of the maximum residue limit of heavy metal;

2. In cases of areas other than farmland, areas where the soil contamination level between the ground surface and the upper soil of ground water (aquifer) exceeds the countermeasure standards and other areas which are requested by the Special Self-Governing Province Governor or the head of a Si/Gun/Gu to be designated as an area requiring countermeasures as such areas are feared to inflict a physical injury upon persons and the surface area of such areas is at least 10,000 square meters.

(4) When the Minister of Environment designates any area as an area requiring countermeasures and announces such designation under Article 17 (4) of the Act, he/she shall send the details of such publication and the relevant documents to the relevant Special Self-Governing Province Governor or the head of the relevant Si/Gun/Gu for public perusal and have signs publishing details of such designation installed in places that are frequented by the public within the area requiring countermeasures. <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011>

[This Article Wholly Amended by Presidential Decree No. 17432, Dec. 19, 2001]

Article 12-2 (Formulation of Countermeasure Plans)

Where an area requiring countermeasures under Article 18 (1) of the Act extends over at least two Sis/Guns/Gus, the Special Self-Governing Province Governor or the head of a Si/Gun/Gu who has jurisdiction over a wider area of the area requiring countermeasures shall formulate a countermeasure plan. In such cases, he or she shall consult it with a Special Self-Governing Province Governor or the heads of other relevant Sis/Guns/Gus who

are not main agents of the formulation of such plan. <Amended by Presidential Decree No. 23196, Sep. 30, 2011>

[This Article Newly Inserted by Presidential Decree No. 18910, Jun. 30, 2005]

Article 13 (Types of Projects to Improve Contaminated Soil)

The types of the projects to improve contaminated soil under Article 18 (4) of the Act shall be as follows: <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 21542, Jun. 16, 2009; Presidential Decree No. 23196, Sep. 30, 2011; Presidential Decree No. 24566, May 31, 2013>

1. Farmland improvement project, such as the use of a soil controller or bringing soil from another land and mixing it with the soil in question;
2. Dredging projects of contaminated waterways;
3. Hygienic reclamation and purification projects of contaminated soil;
4. Cultivation projects of such plants as are strong absorbents of soil contaminants;
5. Other projects deemed necessary by the Special Self-Governing Province Governor or the head of a Si/Gun/Gu.

Article 13-2 (Surveys, etc. of Damage to Health of Residents)

The details of the survey of damage to the health of residents and the countermeasures therefor as provided for in Article 18 (5) of the Act shall be as follows: <Amended by Presidential Decree No. 24566, May 31, 2013>

1. Scope of residents subject to the survey of damage to health and the methods of such survey;
2. Agencies in charge of the survey of damage to health;
3. Decision on damage to health and the countermeasures therefor;
4. Other necessary matters relating to the survey of damage to health and the countermeasures therefor.

[This Article Newly Inserted by Presidential Decree No. 18910, Jun. 30, 2005]

Article 14 (Accommodating Jurisdiction over Areas Requiring Countermeasures) (1)

The projects to improve contaminated soil of any area requiring countermeasures under Article 19 (4) of the Act shall be implemented in each jurisdiction. If it is impractical to implement such projects individually in each jurisdiction, the Special Self-Governing Province Governor or the head of a Si/Gun/Gu who has jurisdiction over the area with a wider contaminated area shall implement the projects to improve contaminated soil. <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011>

(2) The Special Self-Governing Province Governor or the heads of relevant Sis/Guns/Gus, other than the project-implementing entity under paragraph (1), shall actively cooperate in the implementation of the pertinent projects to improve contaminated soil. <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011>

Article 15 (Limitations on Use of Land, etc.)

When the Special Self-Governing Province Governor or the head of a Si/Gun/Gu intends to impose a limitation on the use of land or the installation of facilities in any area requiring countermeasures under Article 20 of the Act, he/she shall determine and announce the object, method, period, area, etc. of the limitation. In such cases, he/she shall take into consideration the balance between the purpose of designating specific-use areas under the National Land Planning and Utilization Act and the limitations on activities. <Amended by Presidential Decree No. 17816, Dec. 26, 2002; Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011>

Article 16 (Limitations on Installation of Facilities in Area Requiring Countermeasures)

“Facilities prescribed by Presidential Decree and deemed to have the probability to harm the purpose of the designation of the area requiring countermeasures in such area” in Article 21 (2) of the Act means facilities which produce contaminants mainly causing the designation of the area requiring countermeasures, facilities which use raw materials containing contaminants, or facilities which produce goods containing contaminants.

Article 17 (Special Cases concerning Abandoned Metal Mining Areas)

The Special Self-Governing Province Governor or the head of a Si/Gun/Gu shall investigate the present condition of the metal mining areas under his/her jurisdiction, for which the responsibility of the former mining concession holder or mining leaseholder under Article 18 of the Mining Safety Act is extinguished and shall report the results of the investigation to the relevant Mayor/Do Governor and the Minister of Environment. <Amended by Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011; Presidential Decree No. 27767, Jan. 6, 2016>

Article 17-2 (Standards, etc. for Designation of Soil-Related Specialized Agency) (1)

Any person who intends to be designated as a soil-related specialized agency pursuant to the former part other than each subparagraph of Article 23-2 (2) of the Act shall secure the inspection facilities, equipment and the technical manpower as shown in attached Table 1. <Amended by Presidential Decree No. 24566, May 31, 2013>

(2) The matters which need to be designated for change pursuant to the latter part other than each subparagraph of Article 23-2 (2) of the Act shall be as follows: <Amended by Presidential Decree No. 24566, May 31, 2013>

1. Any change in the trade name or the location of business place;
2. Replacement of the representative;
3. Replacement of the technical manpower.

(3) In changing the matters provided for in each subparagraph of paragraph (2), the designation of the changed matters shall be made within 60 days from the date when the cause of such change arises. <Amended by Presidential Decree No. 21542, Jun. 16, 2009>

[This Article Newly Inserted by Presidential Decree No. 18910, Jun. 30, 2005]

Article 17-3 (Soil Contamination Survey Agencies)

“Agencies prescribed by Presidential Decree” in the proviso to parts other than each subparagraph of Article 23-2 (3) of the Act shall be as follows: <Amended by Presidential

Decree No. 18213, Jan. 9, 2004; Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 18953, Jul. 22, 2005; Presidential Decree No. 21078, Oct. 8, 2008; Presidential Decree No. 21542, Jun. 16, 2009; Presidential Decree No. 24566, May 31, 2013>

1. National Institute of Environmental Research;
2. City/Do health and environmental research institutes;
3. Basin environment offices or regional environment offices;
4. and 5. Deleted. <by Presidential Decree No. 21542, Jun. 16, 2009>

[This Article Newly Inserted by Presidential Decree No. 17432, Dec. 19, 2001]

Article 17-4 (Requirements, etc. for Registration of Soil Purification Business) (1) Any person who intends to file for registration to run soil purification business under the former part of Article 23-7 (1) of the Act shall secure facilities, equipment and technical manpower, as prescribed in attached Table 2.

(2) Any change to be registered under the latter part of Article 23-7 (1) of the Act is as follows:

1. Any change in the trade name or the location of business place;
2. Replacement of the representative;
3. Replacement of the technical manpower;
4. Any change in off-site soil treatment facilities provided for in subparagraph 1 (b) of attached Table 2.

(3) In changing the matters provided for in paragraph (2) 1 through 3, the registration of the changed matters shall be filed within 30 days from the date the grounds for such change arises, and in changing the matters provided for in paragraph (2) 4, the registration of such change shall be filed in advance.

(4) Where an application for registration is filed pursuant to Article 23-7 (1) of the Act, the Minister of Environment shall permit registration unless the relevant applicant falls under any of the following cases: <Newly Inserted by Presidential Decree No. 23196, Sep. 30, 2011>

1. Where he/she is subject to the prohibition on concurrently running other businesses under Article 23-5 of the Act;
2. Where he/she falls under grounds for disqualification under Article 23-8 of the Act;
3. Where he/she intends to construct facilities in an area where construction and operation of such facilities are prohibited or restricted under other Acts and subordinate statutes (only applicable to construction of off-site soil treatment facilities);
4. Where he/she fails to secure facilities, equipment and technical manpower provided for in paragraph (1);
5. Where he/she violates any restrictions imposed under this Decree, or other Acts and subordinate statutes.

[This Article Newly Inserted by Presidential Decree No. 18910, Jun. 30, 2005]

Article 17-5 (Prohibition of Subcontract) (1) “Works prescribed by Presidential Decree” in the main sentence of Article 23-9 (2) of the Act means the operation and construction works of soil purification facilities.

(2) “Unavoidable reasons prescribed by Presidential Decree” in the proviso to Article 23-

9 (2) of the Act means reasons falling under any of the following subparagraphs: <Newly Inserted by Presidential Decree No. 24566, May 31, 2013>

1. Where urgent soil purification is needed due to a natural disaster;
2. Where urgent soil purification is needed since an area is declared as a special disaster area under Article 60 of the Framework Act on the Management of Disasters and Safety.

[This Article Newly Inserted by Presidential Decree No. 23196, Sep. 30, 2011]

Article 18 (Delegation and Entrustment of Authority) (1) The Minister of Environment shall delegate the following authority to the head of a basin environment office or the head of a regional environment office under Article 27 (1) of the Act: <Amended by Presidential Decree No. 17432, Dec. 19, 2001; Presidential Decree No. 17698, Aug. 8, 2002; Presidential Decree No. 18910, Jun. 30, 2005; Presidential Decree No. 23196, Sep. 30, 2011; Presidential Decree No. 24566, May 31, 2013; Presidential Decree No. 26160, Mar. 24, 2015>

1. Establishment of measuring networks and regular measurements prescribed in Article 5 (1) of the Act;
2. Detailed soil surveys conducted under Article 5 (4) 1 and 2, and 3 (a) of the same paragraph of the Act;
3. Expropriation or use of land, etc. under Article 7 (1) of the Act;
4. Designation of a soil environment assessment agency and announcement of such designation under Article 23-2 (2) 1 and (4) of the Act;
5. Administrative dispositions taken against a soil environment assessment agency under Article 23-6 of the Act;
- 5-2. Receipt and processing of reports concerning succession of the status of soil environment assessment agencies under Article 23-12 (3) of the Act;
- 5-3. Deleted; <by Presidential Decree No. 24566, May 31, 2013>
6. Requests for report and submission of data concerning soil environment assessment agencies and the inspection thereof under Article 26-2 (2) of the Act;
7. Hearings held on the revocation of designation of a soil environment assessment agency under subparagraph 2 of Article 26-5 of the Act;
8. Imposition and collection of fines for negligence under Article 32 of the Act.

(2) The Minister of Environment shall delegate the following authority to the president of the National Institute of Environmental Research under Article 27 (1) of the Act: <Newly Inserted by Presidential Decree No. 23196, Sep. 30, 2011; Presidential Decree No. 24566, May 31, 2013>

1. Designation of a hazard assessment agency and announcement of such designation under Article 23-2 (2) 1 and (4);
2. Administrative dispositions taken against a hazard assessment agency under Article 23-6 of the Act;
3. Receipt and processing of reports concerning succession of the status of hazard assessment agencies under Article 23-12 (3) of the Act;

4. Requests for the report and submission of data concerning hazard assessment agencies and the inspection thereof under Article 26-2 (2) of the Act;

5. Hearings held on the revocation of designation of a hazard assessment agency under subparagraph 2 of Article 26-5 of the Act.

(3) The Minister of Environment may, in accordance with Article 27 (2) of the Act, entrust the following works to the Korea Environment Corporation pursuant to the Korea Environment Corporation Act. In such cases, the Minister of Environment shall publicly announce the date of entrustment and the entrusted works: <Newly Inserted by Presidential Decree No. 24566, May 31, 2013; Presidential Decree No. 26160, Mar. 24, 2015>

1. Surveys necessary for establishing the basic plan for soil conservation under Article 4 (1) of the Act;

2. Detailed soil surveys under Article 5 (4) 3 (b) through (e) of the Act;

3. Surveys on the actual state and level of topsoil erosion under Article 6-2 (1) of the Act;

4. Detailed soil surveys and soil purification works under Article 6-3 (1) of the Act;

5. Works related to the expropriation and the use of land, etc. under Article 7 (1): Provided, That the scope thereof is limited to those necessary for the works entrusted by the Minister of Environment;

6. Formulation and change of a plan for creation of a soil control complex, and hearings and consultations thereon under Article 15-7 (2);

7. Works related to using or earning profit from part of the land of a soil control complex, or lending or selling it under Article 15-7 (3).

Article 18-2 (Reexamination of Regulations)

The Minister of Environment shall review the appropriateness of the following matters and take improvement actions, etc. every three years (referring to by the day before the same day as the base date of every third year) based on the following base dates: <Amended by Presidential Decree No. 23196, Sep. 30, 2011; Presidential Decree No. 25050, Dec. 30, 2013>

1. Corrective Orders, etc. referred to in Article 8-3: January 1, 2014;

2. Standards, etc. for designation of a soil-related specialized agency referred to in Article 17-2 and attached Table 1: January 1, 2014;

3. Requirements, etc. for registration of soil purification business referred to in Article 17-4 and attached Table 2: January 1, 2014.

[This Article Newly Inserted by Presidential Decree No. 21626, Jul. 7, 2009]

Article 19 (Standards for Imposition of Fines for Negligence)

Standards for imposition of fines for negligence under Article 32 (1) and (2) of the Act shall be as stipulated in attached Table 3. <Amended by Presidential Decree No. 23196, Sep. 30, 2011>

[This Article Wholly Amended by Presidential Decree No. 21542, Jun. 16, 2009]

ADDENDA (Omitted)

28. Environment Improvement Expenses Liability Act

[Enforcement Date 16. Jul, 2013.] [Act No.11916, 16. Jul, 2013., Partial Amendment]

Article 1 (Purpose)

The purpose of this Act is to contribute to the formation of a comfortable environment which serves as the foundation of continuous development of the State, by having those who have polluted environment pay necessary expenses for environmental improvement and raising reasonable investment resources for environmental improvement.

[This Article Wholly Amended by Act No. 10316, May 25, 2010]

Article 2 Deleted. <by Act No. 10316, May 25, 2010>

Article 3 Deleted. <by Act No. 10316, May 25, 2010>

Article 4 Deleted. <by Act No. 10316, May 25, 2010>

Article 5 Deleted. <by Act No. 6097, Dec. 31, 1999>

Article 6 Deleted. <by Act No. 6097, Dec. 31, 1999>

Article 7 Deleted. <by Act No. 6097, Dec. 31, 1999>

Article 8 Deleted. <by Act No. 6097, Dec. 31, 1999>

Article 9 (Imposition and Collection of Environmental Improvement Charges) (1) The Minister of Environment shall impose and collect environmental improvement charges (hereinafter referred to as "improvement charges") from the owners or occupants of buildings or other facilities (hereinafter referred to as "facilities") that directly cause environmental pollution through the discharge of vast amounts of environmental pollutants, and the owners of motor vehicles using light oil for fuel: Provided, That the foregoing shall not apply to facilities prescribed by Presidential Decree, such as production facilities, storage facilities, and military establishments.

(2) The scope of facilities and motor vehicles subject to the improvement charges under paragraph (1) shall be prescribed by Presidential Decree.

(3) Notwithstanding paragraph (2), improvement charges on any of the following facilities or motor vehicles may be reduced or exempted, as prescribed by Presidential Decree: <Amended by Act No. 11916, Jul. 16, 2013>

1. Facilities and motor vehicles owned by a foreign government or international organization (including motor vehicles owned by the mission of a foreign government or staff of an international organization): Provided, That the same shall not apply where the relevant country imposes any charges which have the similar nature to those of the improvement charges on facilities and motor vehicles owned by the Government of the Republic of Korea (including motor vehicles owned by the mission of the Government of the Republic of Korea);
2. Facilities for residence or other use prescribed by Presidential Decree;
3. Any part of facilities in partitioned ownership, the total of individual floor areas of which owned by each person is less than a scale prescribed by Presidential Decree;
4. Facilities subject to emission dues under the Clean Air Conservation Act or the Water Quality and Ecosystem Conservation Act;

5. Any of the following buildings as environment-friendly buildings certified under Article 65 of the Building Act:

(a) The energy performance index evaluated according to the criteria for efficient energy management under Article 66 (2) of the Building Act shall meet the criteria prescribed by Presidential Decree;

(b) The energy efficiency rating of the building under Article 66-2 of the Building Act shall meet the criteria prescribed by Presidential Decree;

6. Facilities designated as a green store pursuant to Article 18 of the Act on the Promotion of Purchase of Green Products;

7. Facilities that provide environment mark-certified services pursuant to Article 17 of the Environmental Technology and Industry Support Act;

8. Motor vehicles prescribed by Presidential Decree as being for display or having very little exhaust gas;

9. One motor vehicle registered by any of the following persons to use it for prosthetic purpose or activities to make a living:

(a) Recipients under subparagraph 1 of Article 2 of the National Basic Living Security Act;

(b) Persons of meritorious service to the State or disabled persons prescribed by Presidential Decree.

(4) Where the Minister of Environment delegates a Special Metropolitan City Mayor, a Metropolitan City Mayor, a Do Governor or the Governor of a Special Self-Governing Province (hereinafter referred to as "Mayor/Do Governor") with the authority to collect improvement charges in areas under his/her jurisdiction under Article 22, he/she may pay any part of the collected amount as expenses for collection, as prescribed by Presidential Decree.

(5) The Minister of Environment may permit the installment payment of improvement charges, as prescribed by Presidential Decree.

(6) Notwithstanding paragraphs (1), (3) and (5), where a person makes a lump-sum payment of all the improvement charges within the first payment date of the relevant year, the Minister of Environment may reduce ten percent of the improvement charges additionally. <Newly Inserted by Act No. 11916, Jul. 16, 2013>

(7) Articles 23 and 24 of the Framework Act on National Taxes shall apply mutatis mutandis to the succession to the obligation to pay the improvement charges. In such cases, "national taxes" shall be construed as "improvement charges," "head of tax office" as "Minister of Environment" and "payment of tax" as "payment."

(8) Areas subject to improvement charges under paragraph (1), the purpose of facilities subject to improvement charges, the methods and procedures of imposition and collection, and other necessary matters shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 10316, May 25, 2010]

Article 10 (Criteria for Calculations of Improvement Charges) (1) Improvement charges of facilities under Article 9 (2) shall be calculated in conformity with the following formula

according to air or water pollutants discharged and emitted from the relevant facilities:

1. Where air pollutants are emitted: Quantity of used fuel × amount of charges per unit × coefficient of fuel × regional coefficient;

2. Where water pollutants are discharged: Quantity of used water × amount of charges per unit × pollution-inducing coefficient × regional coefficient.

(2) Improvement charges on motor vehicles under Article 9 (2) shall be calculated in conformity with the following formula:

Basic amount of charges per motor vehicle × pollution-inducing coefficient × coefficient of motor vehicle age × regional coefficient.

(3) The amount of charges per unit, basic amount of charges per motor vehicle, coefficient of fuel, pollution-inducing coefficient, regional coefficient and coefficient of motor vehicle age under paragraphs (1) and (2) shall be determined by Presidential Decree.

[This Article Wholly Amended by Act No. 10316, May 25, 2010]

Article 11 (Use of Improvement Charges)

Improvement charges collected under Article 9 shall be used only for the following purposes: <Amended by Act No. 10893, Jul. 21, 2011>

1. Support of expenses for air and water improvement projects carried out according to the mid-term comprehensive plan for environmental conservation under Article 17 of the Framework Act on Environmental Policy;

2. Financing of expenses for the air and water improvement projects carried out by entrepreneurs, and support for expenses of research and development of low-pollution technology;

3. Natural environment preservation projects or other purposes prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 10316, May 25, 2010]

Article 12 Deleted. <by Act No. 10316, May 25, 2010>

Article 13 Deleted. <by Act No. 8215, Jan. 3, 2007>

Article 14 Deleted. <by Act No. 8215, Jan. 3, 2007>

Article 15 Deleted. <by Act No. 8215, Jan. 3, 2007>

Article 16 Deleted. <by Act No. 8215, Jan. 3, 2007>

Article 17 Deleted. <by Act No. 8215, Jan. 3, 2007>

Article 18 Deleted. <by Act No. 8215, Jan. 3, 2007>

Article 19 (Payment of Improvement Charges)

Improvement charges shall be the revenue of the special accounts for environmental improvement under the Framework Act on Environmental Policy. <Amended by Act No. 10893, Jul. 21, 2011>

[This Article Wholly Amended by Act No. 10316, May 25, 2010]

Article 20 (Compulsory Collection, etc.) (1) Where a person liable for payment of improvement charges fails to do so by a deadline for payment, the Minister of Environment shall urge him/her to make a payment within a prescribed period of at least ten days. In such

cases, additional dues equivalent to 3% shall be imposed on the charges in arrears: Provided, That the same shall not apply to the State and local governments. <Amended by Act No. 11916, Jul. 16, 2013>

(2) Where a person that has been urged under paragraph (1) fails to pay the charges within a fixed period, they may be collected in the same manner as national or local taxes in arrears are collected.

(3) Where it is necessary for the imposition and collection of improvement charges, the Minister of Environment may request the head of the relevant central administrative agency or a local government to submit necessary data. In such cases, unless any extenuating circumstance exists, the head of the relevant central administrative agency or local government, upon receipt of a request, shall submit the requested data.

[This Article Wholly Amended by Act No. 10316, May 25, 2010]

Article 21 Deleted. <by Act No. 8215, Jan. 3, 2007>

Article 22 (Delegation of Authority)

The authority of the Minister of Environment under this Act may be partially delegated to the Mayor/Do Governor, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 10316, May 25, 2010]

ADDENDA (Omitted)

29. Environmental Dispute Adjustment Act

[Enforcement Date 23. Dec, 2016.] [Act No.13602, 22. Dec, 2015., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to conserve the environment and to relieve damage to the health and property of citizens by providing for the procedure, etc. of good offices, mediation and adjudication regarding environmental disputes for the rapid, fair and efficient settlement of the environmental disputes.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 1 (Purpose)

The purpose of this Act is to conserve the environment and to relieve damage to the health and property of citizens by providing for the procedure, etc. of good offices, mediation, adjudication, and arbitration regarding environmental disputes for the rapid, fair and efficient settlement of the environmental disputes. <Amended by Act. No. 13602, Dec. 22, 2015>

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] <<Enforcement Date: Dec. 23, 2016>>

Article 2 (Definitions)

The terms used in this Act shall be defined as follows:

1. The term "environmental damage" means damage to health, property, and mentality caused by air pollution, water pollution, soil pollution, maritime pollution, noise/vibration,

offensive odor, destruction of natural ecosystems, obstruction of sunshine, obstruction of air circulation, and impediment of view, which occur or are expected to occur as a result of business activities or other human activities, or by light pollution caused by artificial lighting, or by other causes prescribed by Presidential Decree: Provided, That damage caused by radioactive contamination shall be excluded;

2. The term "environmental dispute" means strife concerning environmental damage, and strife concerning the installation or management of environmental facilities defined in subparagraph 2 of Article 2 of the Environmental Technology and Industry Support Act;

3. The term "adjustment" means good offices, mediation and adjudication regarding environmental disputes;

4. The term "dispute involving numerous persons" means an environmental dispute in which there are numerous persons who assert environmental damage caused by the same cause.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 2 (Definitions)

The terms used in this Act shall be defined as follows: <Amended by Act No. 13602, Dec. 22, 2015>

1. The term "environmental damage" means damage to health, property, and mentality caused by air pollution, water pollution, soil pollution, maritime pollution, noise/vibration, offensive odor, destruction of natural ecosystems, obstruction of sunshine, obstruction of air circulation, and impediment of view, light pollution caused by artificial lighting, or changes in water level or moving route of groundwater, which occur or are expected to occur as a result of business activities or other human activities, or by other causes prescribed by Presidential Decree: Provided, That damage caused by radioactive contamination shall be excluded;

2. The term "environmental dispute" means strife concerning environmental damage, and strife concerning the installation or management of environmental facilities defined in subparagraph 2 of Article 2 of the Environmental Technology and Industry Support Act;

3. The term "adjustment" means good offices, mediation, adjudication, and arbitration regarding environmental disputes;

4. The term "dispute involving numerous persons" means an environmental dispute in which there are numerous persons who assert environmental damage caused by the same cause.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] <<Enforcement Date: Dec. 23, 2016>>

Article 3 (Principle of Good Faith)

Each environmental dispute resolution commission referred to in Article 4 shall endeavor for the rapid, fair and economical proceeding of adjustment procedure, and the disputing parties who take part in the adjustment procedure shall faithfully participate in the procedure with mutual trust and understanding.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

CHAPTER II ENVIRONMENTAL DISPUTE ADJUSTMENT COMMITTEE

Article 4 (Establishment of Environmental Dispute Resolution Commission)

In order to administer the affairs referred to in Article 5, National Environmental Dispute Resolution Commission (hereinafter referred to as the "national resolution commission") shall be established under the Ministry of Environment, and a regional environment dispute resolution commission (hereinafter referred to as "regional resolution commission") shall be established in each Special City, Metropolitan City, Do, or Special Self-Governing Province (hereinafter referred to as "City/Do").

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 5 (Affairs under Jurisdiction of Environmental Dispute Resolution Commission)

The national resolution commission and a regional resolution commission (hereinafter referred to as the "commission") shall have jurisdiction over the following affairs:

1. Adjustment of environmental disputes (hereinafter referred to as "dispute"): Provided, That with respect to the adjustment of disputes related to the obstruction of sunshine and impediment of view due to construction defined in Article 2 (1) 8 of the Building Act, the same shall apply only to cases where such disputes are combined with other disputes caused by such construction;
2. Survey, analysis, and counselling on civil petitions concerning environmental damage;
3. Studies and suggestion of systems and policies for the prevention and settlement of disputes;
4. Education and public relations for the prevention and relief of environmental damage;
5. Other matters prescribed by statutes to be under the jurisdiction of the committee.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 5 (Affairs under Jurisdiction of Environmental Dispute Resolution Commission)

The national resolution commission and a regional resolution commission (hereinafter referred to as the "commission") shall have jurisdiction over the following affairs: <Amended by Act No. 13602, Dec. 22, 2015>

1. Adjustment of environmental disputes (hereinafter referred to as "dispute"): Provided, That with respect to the adjustment of disputes falling under any of the following items, the same shall apply only to cases referred to in the items corresponding thereto:
 - (a) Disputes related to obstruction of sunlight and impediment of view due to construction defined in Article 2 (1) 8 of the Building Act: Where they are combined with other disputes caused by the construction concerned;
 - (b) Disputes related to changes in water level or moving route of groundwater: Where they are due to construction works or operations (excluding construction works or operations for development and use of groundwater under the Groundwater Act);
2. Survey, analysis, and counselling on civil petitions concerning environmental damage;
3. Studies and suggestion of systems and policies for the prevention and settlement of disputes;
4. Education, public relations, and support for the prevention and relief of environmental

damage;

5. Other matters prescribed by statutes to be under the jurisdiction of the committee.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] < <Enforcement Date: Dec. 23, 2016>>

Article 6 (Jurisdiction)(1) The national resolution commission shall have jurisdiction over the following matters among affairs concerning the adjustment of disputes:

1. Adjudication on disputes;
2. Adjustment of disputes in which the State or a local government is a party;
3. Adjustment of disputes spanning areas under the jurisdiction of not less than two Cities/Dos;
4. Ex officio adjustment referred to in Article 30;
5. Adjustment of other disputes prescribed by Presidential Decree.

(2) Each regional resolution commission shall have jurisdiction over affairs other than the affairs referred to in paragraph (1) 2 through 5 among affairs for the adjustment of disputes which arise in the areas of the relevant City/Do: Provided, That in cases of paragraph (1) 1, it shall apply only to adjudication on disputes prescribed by Presidential Decree, excluding disputes over the obstruction of sunshine, obstruction of air circulation and obstruction of view.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 6 (Jurisdiction)(1) The national resolution commission shall have jurisdiction over the following matters among affairs concerning the adjustment of disputes: <Amended by Act No. 13602, Dec. 22, 2015>

1. Adjudication and arbitration of disputes;
2. Adjustment of disputes in which the State or a local government is a party;
3. Adjustment of disputes spanning areas under the jurisdiction of not less than two Cities/Dos;
4. Ex officio adjustment referred to in Article 30;
5. Adjustment of other disputes prescribed by Presidential Decree.

(2) Each regional resolution commission shall have jurisdiction over affairs other than the affairs referred to in paragraph (1) 2 through 5 among affairs for the adjustment of disputes which arise in the areas of the relevant City/Do: Provided, That in cases of paragraph (1) 1, it shall apply only to adjudication and arbitration on disputes prescribed by Presidential Decree, excluding disputes over the obstruction of sunshine, obstruction of air circulation and obstruction of view. <Amended by Act No. 13602, Dec. 22, 2015>

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] < <Enforcement Date: Dec. 23, 2016>>

Article 7 (Composition, etc. of Committee)(1) The national resolution commission shall be comprised of not more than 30 members, including one chairperson, in which not more than three standing members are included.

(2) Each regional resolution commission shall be comprised of not more than 20 members,

including one chairperson, in which one standing member is included.

(3) The term of office of members shall be two years, and they may be re-appointed consecutively.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 7 (Composition, etc. of Committee)(1) The national resolution commission shall be comprised of not more than 30 members, including one chairperson, in which not more than three standing members are included. <Amended by Act No. 13602, Dec. 22, 2015>

(2) Each regional resolution commission shall be comprised of not more than 20 members, including one chairperson, in which one standing member is included. <Amended by Act No. 13602, Dec. 22, 2015>

(3) The term of office of members shall be two years, and they may be re-appointed consecutively.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] <<Enforcement Date: Dec. 23, 2016>>

Article 8 (Appointment of Members of Committee)(1) The President shall appoint or commission members of the national resolution commission, including the chairperson, upon the recommendation of the Minister of Environment, from among persons with extensive knowledge and experience in the environment who fall under any of the following. In such cases, at least three persons falling under subparagraph 2 shall be included therein:

1. A person who has been in office for at least three years as a public official equivalent to Grades I through III public officials or as a public official belonging to the Senior Civil Service Corps;

2. A person who has held office as a judge, prosecutor, or lawyer for at least six years;

3. A person who has held the position of associate professor or higher or a position equivalent thereto in an officially recognized university or research institution;

4. A person who has been engaged in environment-related services for at least ten years.

(2) The chairperson of the national resolution commission shall be appointed as a public official in general service belonging to the Senior Civil Service Corps and in a fixed term position under Article 26-5 of the State Public Officials Act. <Amended by Act No. 13602, Dec. 22, 2015>

(3) Each Special Metropolitan City Mayor, Metropolitan City Mayor, Do Governor, or the Governor of Special Self-Governing Province (hereinafter referred to as "Mayor/Do Governor") shall appoint or commission members of a regional resolution commission from among persons falling under any of the subparagraphs of paragraph (1). In such cases, at least two persons falling under paragraph (1) 2 shall be included therein.

(4) Each Mayor/Do Governor shall appoint the chairperson of a regional resolution commission from among vice mayors or vice governors.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 9 (Grounds for Disqualification)

No person who falls under any of the following shall become a member of the commission:

1. An incompetent, a quasi-incompetent, or a person declared bankrupt and not yet reinstated;
2. A person who has been sentenced to imprisonment without labor or heavier punishment and for whom two years have not elapsed since the execution of such punishment was completed (including cases where it is deemed that the execution is completed) or he/she was exempted from such sentence;
3. A person under the suspension of execution of imprisonment without labor or heavier punishment;
4. A person whose qualification is suspended by court decision or by Acts.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 9 (Grounds for Disqualification)

No person who falls under any of the following shall become a member of the commission: <Amended by Act No. 13602, Dec. 22, 2015>

1. A person under adult guardianship, a person under limited guardianship, or a person declared bankrupt and not yet reinstated;
2. A person who has been sentenced to imprisonment without labor or heavier punishment and for whom two years have not elapsed since the execution of such punishment was completed (including cases where it is deemed that the execution is completed) or he/she was not exempted from such sentence;
3. A person under the suspension of execution of imprisonment without labor or heavier punishment;
4. A person whose qualification is suspended by court decision or by Acts.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] < <Enforcement Date: Dec. 23, 2016>>

Article 10 (Guarantee of Status)(1) Members of the commission shall perform duties independently.

(2) No member of the commission shall be dismissed nor decommissioned from office against his/her will unless it is recognized to be substantially inappropriate for him/her to perform duties due to his/her falling under any of the subparagraphs of Article 9 or having physical or mental weakness for a long time.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 11 (Duties of Chairperson, etc.)(1) The chairperson of the commission shall represent the commission and administer the overall affairs thereof.

(2) When the chairperson of the commission is unable to perform his/her duties due to any unavoidable cause, the member the chairperson of the commission designates in advance among the members of the relevant commission shall perform the duties on behalf of the chairperson.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 12 (Exclusion, etc. of Members)(1) Any member of the commission who falls under any of the following shall be excluded from the execution of relevant duties:

1. When a member or a person who is or was his/her spouse becomes a party to the relevant dispute case (hereinafter referred to as "case"), or has the relationship of joint creditor or joint debtor with a party concerned in connection with the case;
2. When a member is or was a relative of a party to the relevant case;
3. When a member has made a statement or appraisal in connection with the relevant case;
4. When a member is or was involved in the relevant case as an agent of a party;
5. When a member has taken part in a disposition or omission which is the cause of the relevant case.

(2) When a cause of exclusion exists, the commission shall render the decision of exclusion ex officio or at the request of the party.

(3) Where it is impracticable to expect a fair execution of duties from a member, any interested party may apply for challenge to the commission and the commission shall render the decision of challenge when it deems such application is reasonable.

(4) When a member falls under any cause in paragraph (1) or (3), he/she may voluntarily refrain from executing duties for the relevant case.

(5) When the committee receives a request for challenge referred to in paragraph (3), it shall suspend the adjustment procedure until a decision is rendered on such request.

(6) Paragraphs (1) through (5) shall apply mutatis mutandis to personnel involved in adjustment procedure and relevant experts referred to in Article 13 (3) (hereinafter referred to as "relevant expert").

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 13 (Secretariat)(1) A secretariat may be established in the commission in order to handle the affairs thereof.

(2) The secretariat shall have judges to take partial charge of the following affairs:

1. Fact-finding survey and investigation of causal relation, which are necessary for dispute resolution;
2. Calculation of amount of environmental damage and research and development of standards for the calculation thereof;
3. Other matters designated by the chairperson of the commission.

(3) In order to handle professional matters concerning particular cases, the chairperson of the commission may appoint relevant experts to conduct the affairs in the subparagraphs of paragraph (2).

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 14 (Legal Fiction as Public Officials in Application of Penalty Provisions)

For the purposes of Articles 127, and 129 through 132 of the Criminal Act, members of the commission who are not public officials, and relevant experts shall be deemed public officials.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 15 (Enactment of Regulations)(1) The national resolution commission may determine procedures for handling affairs under the jurisdiction of the committee and other regulations for the operation of the committee.

(2) The operation of regional resolution commissions and other necessary matters therefor shall be prescribed by municipal ordinances of relevant Cities/Dos.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 15 (Enactment of Regulations, etc.)(1) The national resolution commission may determine procedures for handling affairs under the jurisdiction thereof, other regulations for the operation thereof, and regulations for composition of a mediation committee, adjudication committee, and arbitration committee including method of appointing each chairperson. <Amended by Act No. 13602, Dec. 22, 2015>

(2) The composition and operation of regional resolution commissions and other necessary matters therefor shall be prescribed by municipal ordinances of relevant Cities/Dos. <Amended by Act No. 13602, Dec. 22, 2015>

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] < <Enforcement Date: Dec. 23, 2016>>

Article 15-2 (Notification of Opinions)

The commission may notify the heads of relevant administrative agencies of opinions on improvement measures for environment conservation and prevention of environmental damage, which are collected in the conduct of duties.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

CHAPTER III ADJUSTMENT OF DISPUTES

SECTION 1 Common Provisions

Article 16 (Requests, etc. for Adjustment)(1) Any person who desires to request adjustment shall submit a written application for good offices, mediation, or adjudication to the competent committee referred to in Article 6.

(2) The Minister of Environment shall represent the State in adjustment in which the State is a party thereto. In such cases, the Minister of Environment may designate a public official under authority of an administrative office having jurisdiction over the case as an adjuster.

(3) When the committee receives a request for adjustment pursuant to paragraph (1), it shall commence the adjustment procedure without delay.

(4) The committee may listen to the opinions of interested persons or of the competent government office before commencing the adjustment procedure referred to in paragraph (3).

(5) Matters to be indicated in written applications referred to in paragraph (1) shall be prescribed by Presidential Decree.

(6) When the committee receives a request for the adjustment of a dispute from a party thereto, it shall complete the procedure within the period prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 16 (Requests, etc. for Adjustment)(1) Any person who desires to request adjustment shall submit a written application for good offices, mediation, adjudication, or arbitration to the competent committee referred to in Article 6. <Amended by Act No. 13602, Dec. 22, 2015>

(2) The Minister of Environment shall represent the State in adjustment in which the State is a party thereto. In such cases, the Minister of Environment may designate a public official under authority of an administrative office having jurisdiction over the relevant case as an adjuster.

(3) When the committee receives a request for adjustment pursuant to paragraph (1), it shall commence the adjustment procedure without delay.

(4) The committee may listen to the opinions of interested persons or of the competent government office before commencing the adjustment procedure referred to in paragraph (3).

(5) Matters to be indicated in written applications referred to in paragraph (1) shall be prescribed by Presidential Decree.

(6) When the committee receives a request for the adjustment of a dispute from a party thereto, it shall complete the procedure within the period prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] < <Enforcement Date: Dec. 23, 2016>>

Article 16-2 (Advice to Reach Consensus)(1) When the commission receives a request for adjustment, it may advise the parties to reach consensus on indemnification for damage.

(2) No advice referred to in paragraph (1) shall affect the proceeding of adjustment.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 16-2 (Advice to Reach Consensus)(1) When the chairperson of the commission receives a request for adjustment, it may advise the parties to reach consensus on indemnification for damage. <Amended by Act No. 13602, Dec. 22, 2015>

(2) No advice referred to in paragraph (1) shall affect the proceeding of adjustment.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] < <Enforcement Date: Dec. 23, 2016>>

Article 17 (Rejection, etc. of Requests)(1) When a request for adjustment is unlawful, the commission may order the correction of defects by fixing a period appropriate therefor.

(2) When a requesting person fails to comply with an order referred to in paragraph (1) or is unable to correct defects, the commission shall reject the request for adjustment by decision.

(3) The commission shall reject by decision requests for adjustment concerning disputes which have undergone or are undergoing the adjustment procedure prescribed by other Acts.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 18 (Cooperation of Relevant Administrative Agencies)(1) If necessary for the adjustment of disputes, the commission may request the heads of relevant administrative agencies to render necessary cooperation, such as submission of materials or opinions, provision of technical knowledge, and measurement and analysis of environmental pollutants.

(2) If necessary for the removal or prevention of environmental damage at the time of adjusting disputes, the commission may advise the heads of relevant administrative agencies to take necessary administrative measures against persons causing the

environmental damage, such as the issuance of an order for improvement, an order for suspension of operation and an order for suspension of construction work.

(3) The head of any relevant administrative agency who receives a request for cooperation or an advice referred to in paragraphs (1) and (2) shall comply therewith unless he/she has any justifiable ground to the contrary.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 19 (Selected Representatives)(1) Where numerous persons become a party to adjustment jointly, they may select not more than three representatives from among themselves.

(2) If necessary when no representative referred to in paragraph (1) is selected, the commission may advise the parties to select representatives.

(3) Any representative who is selected pursuant to paragraph (1) (hereinafter referred to as "selected representative") may conduct all acts concerning the adjustment of the relevant case for other requesting persons or requested persons: Provided, That with respect to the cancellation of requests and acceptance of adjustment proposals, he/she shall obtain the consent of the other parties in writing.

(4) When representatives are selected, other parties may conduct acts concerning the relevant case only through the selected representatives.

(5) The parties who have selected representatives may, when necessary, dismiss or replace the selected representatives. In such cases, the relevant parties shall notify the commission of such fact without delay.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 20 (Participation)(1) Where a dispute remains pending in the adjustment procedure, any person who claims environmental damage caused by the same cause may participate in the relevant procedure as a party thereto by obtaining approval from the commission.

(2) Where the commission intends to grant approval referred to in paragraph (1), it shall listen to the opinions of the party.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 21 (Correction of Requested Persons)(1) When it is clear that a requested person designated by a requesting person is a wrong person, the chairperson of the commission may permit the correction of the requested person by receiving a request from the requesting person.

(2) When the chairperson of the commission grants permission referred to in paragraph (1), he/she shall notify the party and the new requested person of such fact.

(3) When permission referred to in paragraph (1) is granted, it shall be deemed that the request for adjustment regarding the former requested person is cancelled and a request for adjustment regarding the new requested person comes into existence when a request for correction referred to in paragraph (1) is made.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 22 (Agents)(1) Each relevant party may appoint the following persons as an agent:

1. The spouse, lineal ascendants and descendants or siblings of a party;
2. An executive or employee of the juristic person who is a party;
3. A lawyer;
4. A public official nominated by and under the control of the Minister of Environment or of the heads of local governments.

(2) Any party who desires to designate a person falling under paragraph (1) 1 or 2 as an agent shall obtain permission from the chairperson of the commission.

(3) The authority of each agent shall be expressed in writing.

(4) Special authority shall be delegated to agents to conduct the following acts:

1. Withdrawal of requests;
2. Acceptance of adjustment proposals;
3. Selection of a subagent.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 23 (Disobedience to Interim Decisions)(1) With regard to interim decisions of the commission which are relevant to the adjustment procedure, any party concerned may raise an objection to the relevant committee within 14 days from the date on which he/she becomes aware of such decisions.

(2) When recognizing that an objection raised pursuant to paragraph (1) has a reasonable ground, the commission shall correct its decision and when recognizing that an objection raised has no ground, it shall reject the objection.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 24 (Delegation of Adjustment Procedure)

The mediation committee referred to in Article 31 (1) or the adjudication committee referred to in Article 36 (1) may delegate part of the procedure for mediation or adjudication to its members, respectively.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 24 (Delegation of Adjustment Procedure)

The mediation committee referred to in Article 31 (1), the adjudication committee referred to in Article 36 (1), or the arbitration committee referred to in Article 45-3 (1) may delegate part of the procedure for mediation, adjudication, or arbitration to its members, respectively. <Amended by Act No. 13602, Dec. 22, 2015> <<Enforcement Date: Dec. 23, 2016>>

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 25 (Non-Disclosure of Procedure)

Except as otherwise provided for in this Act, the adjustment procedure of the commission shall not be disclosed to the public.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 26 (Requests for Adjustment of Environmental Organizations)(1) In the occurrence of damage caused by the grave destruction of natural ecosystems or when such damage is highly likely to occur, any environmental organization which satisfies each of the

following requirements may make a request for adjustment to the committee on behalf of a party to a dispute by obtaining permission from the commission:

1. A non-profit juristic person established under the permission of the Minister of Environment pursuant to Article 32 of the Civil Act;
2. An organization pursuing the protection and enhancement of the public interest, such as environment protection, according to the articles of association;
3. Other requirements prescribed by Presidential Decree.

(2) Article 22 (3) and (4) shall apply mutatis mutandis to environmental organizations requesting adjustment pursuant to paragraph (1).

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

SECTION 2 Good Offices

Article 27 (Nomination of Good Office Members)(1) Good offices by the commission shall be rendered by not more than three members (hereinafter referred to as "good office member").

(2) The chairperson of the commission shall nominate good office members from among members of the commission on a case-by-case basis.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 28 (Duties of Good Office Members)

Good office members shall endeavor to settle cases in a fair manner by confirming the main points of assertions of both parties.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 29 (Suspension of Good Offices)(1) When it is deemed impracticable to settle a dispute by means of good offices, good office members may suspend good offices.

(2) When a request for mediation or adjudication is made for a dispute for which procedures for good offices are in progress, such good offices shall be deemed suspended.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 29 (Suspension of Good Offices)(1) When it is deemed impracticable to settle a dispute by means of good offices, good office members may suspend good offices.

(2) When a request for mediation, adjudication, or arbitration is made for a dispute for which procedures for good offices are in progress, such good offices shall be deemed suspended. <Amended by Act No. 13602, Dec. 22, 2015>

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] < <Enforcement Date: Dec. 23, 2016>>

SECTION 3 Mediation

Article 30 (Ex Officio Mediation)(1) With respect to disputes which are feared to exert a huge ripple effect on society, such as grave damage to human lives and bodies caused by environmental pollution and strife over the installation or management of environmental facilities defined in subparagraph 2 of Article 2, the national resolution commission may commence the mediation procedure ex officio even without the request of the parties.

(2) Matters concerning the targets of ex officio mediation referred to in paragraph (1),

mediation procedures, and persons performing ex officio mediation shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 30 (Ex Officio Mediation)(1) With respect to disputes which are feared to exert a huge ripple effect on society, such as grave damage to human lives and bodies caused by environmental pollution and strife over the installation or management of environmental facilities defined in subparagraph 2 of Article 2, the national resolution commission may commence the mediation procedure ex officio even without the request of the parties.

(2) A Mayor/Do Governor, the head of a Si/Gu/Gu (the head of a Gu refers to the head of an autonomous Gu), or the head of a river basin environmental office or a regional environmental office may request an ex officio mediation to the national resolution commission regarding disputes for which an ex officio mediation under paragraph (1) is deemed necessary. <Newly Inserted by Act No. 13602, Dec. 22, 2015>

(3) Matters concerning the targets of ex officio mediation referred to in paragraph (1), mediation procedures, and persons performing ex officio mediation shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] <<Enforcement Date: Dec. 23, 2016>>

Article 31 (Nomination, etc. of Mediating Members)(1) Mediation shall be rendered by a committee comprised of three members (hereinafter referred to as "mediation committee").

(2) Members of the mediation committee (hereinafter referred to as "mediating member") shall be nominated by the chairperson of the commission from among the commission members on a case-by-case basis, on condition that at least one person falling under Article 8 (1) 2 shall be included therein.

(3) Meetings of the mediation committee shall be convened by the chairperson of the mediation committee.

(4) Meetings of the mediation committee shall be held in the presence of all its members and resolutions shall be passed by the concurring vote of a majority of all such members.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 32 (Right to Investigate, etc. of Mediation Committee)(1) When necessary for the mediation of disputes, the mediation committee may have the members of the mediation committee or judges enter factories or places of business which are occupied by the parties, or other places related to cases for investigation, perusal or reproduction of relevant documents or articles, or listen to the statements of references.

(2) When the mediation committee accepts the results of investigation referred to in paragraph (1) as materials for mediation, it shall listen to the opinions of the parties.

(3) In cases of paragraph (1), members of the mediation committee or judges shall carry an identification showing their authority and produce it to relevant persons.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 33 (Effect, etc. of Mediation)(1) The mediation committee may prepare mediation

proposals for the settlement of disputes and advise the relevant parties to accept such proposals by specifying a period exceeding 30 days, and mediation shall be established when the parties accept the mediation proposals and indicate such fact in a protocol.

(2) A protocol referred to in paragraph (1) shall have the same effect as that of consent judgment: Provided, That the same shall not apply to matters, which the parties cannot handle at will.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 34 (Refusal of Mediation)(1) When the mediation committee deems that a relevant dispute is not appropriate for mediation by nature or a party requests mediation for unjust purposes, it may refuse the mediation.

(2) When the mediation committee determines to refuse mediation pursuant to paragraph (1), it shall notify the parties of such fact.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 35 (Termination of Mediation)(1) When the mediation committee deems that it is impracticable to reach consensus between the disputing parties, it may terminate the mediation by the decision that it refuses to mediate.

(2) When parties concerned fail to make a notice of acceptance within a fixed period after an advice referred to in Article 33 (1) is made, the mediation between the relevant parties shall be terminated.

(3) When mediation is terminated pursuant to paragraph (1) or (2), the mediation committee shall notify the parties of such fact.

(4) Where a party who has received a notice pursuant to paragraph (3) files for a lawsuit within 30 days upon receipt of such notice, a request for mediation shall be deemed judicial claim in the interruption of prescription and calculation of period for filing a lawsuit.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 35 (Termination of Mediation)(1) When the mediation committee deems that it is impracticable to reach consensus between the disputing parties, it may terminate the mediation by the decision that it refuses to mediate.

(2) When parties concerned fail to make a notice of acceptance within a fixed period after an advice referred to in Article 33 (1) is made, the mediation between the relevant parties shall be terminated.

(3) When a request for adjudication or arbitration is made for a dispute for which procedures for mediation are in progress, such mediation shall be suspended. <Newly Inserted by Act No. 13602, Dec. 22, 2015>

(4) When mediation is terminated pursuant to paragraph (1) or (2), the mediation committee shall notify the parties of such fact.

(5) Where a party who has received a notice pursuant to paragraph (4) files for a lawsuit within 30 days upon receipt of such notice, a request for mediation shall be deemed judicial claim in the interruption of prescription and calculation of period for filing a lawsuit. <Amended by Act No. 13602, Dec. 22, 2015>

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] < <Enforcement Date: Dec. 23, 2016>>

SECTION 4 Adjudication

Article 36 (Nomination, etc. of Adjudicating Members)(1) Adjudication shall be rendered by a committee comprised of five members (hereinafter referred to as "adjudication committee"): Provided, That adjudication upon minor cases prescribed by Presidential Decree may be rendered by the adjudication committee comprised of three members.

(2) Members of the adjudication committee (hereinafter referred to as "adjudicating member") shall be nominated by the chairperson of the commission from among the commission on a case-by-case basis, on condition that at least one person falling under Article 8 (1) 2 shall be included therein.

(3) Meetings of the adjudication committee shall be convened by the chairperson of the adjudication committee.

(4) Meetings of the adjudication committee shall be held in the presence of all its members and resolutions shall be passed by the concurring vote of a majority of all such members.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 36 (Nomination, etc. of Adjudicating Members)(1) Adjudication shall be rendered by a committee comprised of five members (hereinafter referred to as "adjudication committee"): Provided, That adjudication on any of the following cases shall be rendered by the adjudication committee prescribed by the subparagraph corresponding thereto: <Amended by Act No. 13602, Dec. 22, 2015>

1. Cases prescribed by Presidential Decree, which are feared to exert a huge ripple effect on society, such as grave damage to lives and bodies of numerous persons or strife over the installation or management of environmental facilities defined in subparagraph 2 of Article 2: adjudication committee comprised of not less than ten members;

2. Minor cases prescribed by Presidential Decree: adjudication committee comprised of three members.

(2) Members of the adjudication committee (hereinafter referred to as "adjudicating member") shall be nominated by the chairperson of the commission from among the commission members on a case-by-case basis, on condition that at least one person falling under Article 8 (1) 2 shall be included therein.

(3) Meetings of the adjudication committee shall be convened by the chairperson of the adjudication committee.

(4) Meetings of the adjudication committee shall be held in the presence of all its members and resolutions shall be passed by the concurring vote of a majority of all such members.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] < <Enforcement Date: Dec. 23, 2016>>

Article 37 (Trial)(1) The adjudication committee shall have the relevant parties state their opinions by setting force a date of trial.

(2) The adjudication committee shall notify the parties of the date of trial fixed pursuant to

paragraph (1) seven days prior to the date of trial.

(3) A trial shall be open to the public: Provided, That the same shall not apply when the adjudication committee deems that it is necessary to keep privacy or business secrets of the parties, when the fairness of procedure is feared to be impaired, or when it is necessary for the public interest.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 38 (Right to Investigate, etc. of Adjudication Committee)(1) When necessary for adjudication on disputes, the adjudication committee may conduct the following acts at the request of the parties or ex officio:

1. Demanding appearance of, asking questions to, and hearing statements of a party or references;
2. Demanding appearance and appraisal of an appraiser;
3. Demanding perusal, reproduction, and submission of, and holding of documents or articles which are related to a case;
4. Entry into or investigation of places related to a case.

(2) Any interested party may participate in investigation, etc. referred to in paragraph (1).

(3) When the adjudication committee conducts an investigation, etc. referred to in paragraph (1) ex officio, it shall listen to the opinions of a party on the results thereof.

(4) When the adjudication committee has a relevant party or a reference make a statement or has an appraiser conduct appraisal pursuant to paragraph (1), it shall have the party, reference or appraiser take an oath.

(5) In cases of paragraph (1) 4, members of the adjudication committee or judges shall carry an identification showing their authority and produce it to relevant persons.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 39 (Preservation of Evidence)(1) When the commission deems that it is impracticable to secure evidence unless the evidence is taken in advance before making a request for adjudication, it may conduct the acts in the subparagraphs of Article 38 (1) upon receipt of a request from a person who intends to request adjudication.

(2) Upon receipt of a request referred to in paragraph (1), the chairperson of the commission shall nominate persons to get involved in the preservation of evidence among the members of the commission.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 40 (Adjudication)(1) Adjudication shall be rendered in writing, and adjudication documents shall include the following matters and be signed and sealed by adjudicating members:

1. Number and title of a case;
2. Name (in cases of corporations, referring to the title) and address of a relevant party, selected representative, representative party and agent;
3. Formal adjudication;
4. Purport of a request;

5. Grounds;

6. Date of adjudication.

(2) When grounds referred to in paragraph (1) 5 are stated, judgment on the assertion, etc. of relevant parties shall be indicated to the extent that it is possible to recognize the contents of text of judgement to be lawful.

(3) When the adjudication committee renders adjudication, it shall serve the original copy of adjudication documents to the party or agent without delay.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 41 (Restoration to Original State)

Where the adjudication committee deems that restoration to the original state is needed for the recovery of environmental damage, it shall render the adjudication which orders a relevant party to restore to the original state in lieu of indemnification for damage: Provided, That the same shall not apply when restoration to the original state is deemed substantially impracticable due to excessive costs and other causes.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 42 (Effect, etc. of Adjudication)(1) Any party concerned who is dissatisfied with adjudication rendered by the adjudication committee of a regional resolution commission may make a request for adjudication to the national resolution commission within 60 days from the date on which the original copy of adjudication documents is served on the party.

(2) In the circumstance that the adjudication committee has rendered adjudication, if no lawsuit is instituted by both parties or either of the parties on the ground of environmental damage which is the object of the adjudication within 60 days from the date on which the original copy of adjudication documents is served on the parties, or such lawsuit is withdrawn, or when no request referred to in paragraph (1) is made, the adjudication documents shall have the same effect as that of consent judgment: Provided, That the same shall not apply to matters which the parties cannot handle at will.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 43 (Referral to Mediation)(1) When the adjudication committee deems that it is appropriate to refer a case for which adjudication is requested for mediation, it may directly mediate the case ex officio or send the case to the competent committee for mediation.

(2) When the parties to a case referred for mediation pursuant to paragraph (1) fails to reach consensus, the adjudication procedure shall proceed, and when they reach consensus, the request for adjudication shall be deemed withdrawn.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 43-2 (Withdrawal of Request for Adjudication)

Where a request for arbitration is made for a dispute for which procedures for adjudication are in progress, the request for adjudication shall be deemed withdrawn.

[This Article Newly Inserted by Act No. 13602, Dec. 22, 2015] < <Enforcement Date: Dec. 23, 2016>>

Article 44 (Interruption, etc. of Prescription)

When a party who is dissatisfied with adjudication institutes a lawsuit, the request for adjudication shall be deemed judicial claim in the interruption of prescription and calculation of period for filing a lawsuit.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 45 (Relations with Lawsuits)(1) When a lawsuit is in progress for a case for which adjudication is requested, the court which has accepted the lawsuit may suspend the judicial procedure until adjudication is rendered.

(2) Where a judicial procedure referred to in paragraph (1) is not suspended, the adjudication committee shall suspend the adjudication procedure of the relevant case.

(3) Where a lawsuit is in progress on the same kind of a case or on a similar case which involves numerous persons due to the same cause as that of the case for which adjudication is requested, the adjudication committee may suspend the adjudication procedure by decision.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 45-2 (Nomination, etc. of Arbitrating Members)(1) Arbitration shall be rendered by a committee comprised of three members (hereinafter referred to as “arbitration committee”).

(2) Members of the arbitration committee (hereinafter referred to as “arbitrating member”) shall be nominated by the chairperson of the committee from among the committee members on a case-by-case basis and where the parties to a case select members upon agreement, the relevant members shall be nominated.

(3) The chairperson of an arbitration committees shall be a member designated by the regulations for the committee under Article 15 (1): Provided, That where the parties to a case has selected members upon agreement pursuant to Article 2, a member nominated by the chairperson of the committee from among such members shall be the chairperson of the arbitration committee.

(4) Meetings of the arbitration committee shall be convened by the chairperson of the arbitration committee.

(5) Meetings of the arbitration committee shall be held in the presence of all its members, and resolutions shall be passed by the concurring vote of a majority of all such members.

[This Article Newly Inserted by Act No. 13602, Dec. 22, 2015] <<Enforcement Date: Dec. 23, 2016>>

Article 45-3 (Trial, etc. of Arbitration Committee)

@Articles 37 through 41 shall apply mutatis mutandis to trial, right to investigate, preservation of evidence, method of arbitration, restoration to the original state, and similar matters of the arbitration committee.

[This Article Newly Inserted by Act No. 13602, Dec. 22, 2015] <<Enforcement Date: Dec. 23, 2016>>

Article 45-4 (Effect of Arbitration)

Arbitration shall have the same effect as a final and conclusive judgement of the court

between the parties.

[This Article Newly Inserted by Act No. 13602, Dec. 22, 2015] < <Enforcement Date: Dec. 23, 2016>>

Article 45-5 (Application Mutatis Mutandis of the Arbitration Act)(1) Article 36 of the Arbitration Act shall apply mutatis mutandis to disobedience to arbitration and withdrawal of arbitration.

(2) The Arbitration Act shall apply mutatis mutandis to procedures related to arbitration unless otherwise provided for in this Act.

[This Article Newly Inserted by Act No. 13602, Dec. 22, 2015] < <Enforcement Date: Dec. 23, 2016>>

CHAPTER IV ADJUSTMENT OF DISPUTES INVOLVING NUMEROUS PERSONS

Article 46 (Requests for Adjustment of Disputes Involving Numerous Persons)(1)

When environmental damage occurs or is expected to occur to numerous persons due to the same cause, one or several persons among them may make a request for adjustment as the representing parties.

(2) Any person who intends to make a request for adjustment pursuant to paragraph (1) shall obtain permission from the commission.

(3) A request for permission referred to in paragraph (2) shall be made in writing.

(4) A written request for permission referred to in paragraph (3) shall include the following matters:

1. Name and address of a requesting person;
2. Name and address of an agent when an agent makes a request;
3. Name and address of a person to become a requested person;
4. Scope of numerous persons whom a requesting person desires to represent;
5. Upper limit of amount claimed for indemnification per person when indemnification for damage is claimed;
6. Purport and grounds of a request for the adjustment of a dispute.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 47 (Requirements for Permission)

When a request for permission referred to in Article 46 satisfies each of the following requirements, the commission may grant permission:

1. The cause of a request is environmental damage which has occurred or is expected to occur due to the same cause;
2. The number of persons having a joint interest is not less than 100 persons and adjustment by selected representatives is significantly difficult;
3. In cases of claiming indemnification for damage, the amount claimed for indemnification for damage per person is not more than five million won;
4. Not less than 30 persons are consented among the numerous persons whom a requesting person intends to represent;
5. A requesting person is capable of representing the interest of members in a fair and proper

manner.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 48 (Concurrence of Requests)(1) When requests for permission for adjustment of a dispute involving numerous persons are made concurrently, the commission may recommend the method of separation, combination, etc. of cases to respective requesting persons.

(2) When a recommendation referred to in paragraph (1) fails to be accepted, the commission may render the decision of non-permission on the relevant requests.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 49 (Decision of Permission)(1) When the commission renders the decision of permission for the adjustment of a dispute involving numerous persons, it shall note details referred to in the subparagraphs of Article 46 (4) in the written decision.

(2) When the commission completes to render the decision of permission referred to in paragraph (1), it shall notify the requesting person and the requested person of such fact immediately.

(3) Where the commission completes to render the decision of permission for the adjustment of a disputing involving numerous persons, the adjustment shall be deemed requested at the time permission is requested pursuant to Article 46.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 50 (Supervision, etc. of Representing Party)(1) The commission may, when necessary, demand representing parties to make necessary reports.

(2) When the commission deems that a representing party fails to represent members in a fair and proper manner, it may replace the representing party or cancel permission upon request of members or ex officio.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 51 (Public Announcement, etc.)(1) When the commission receives a request for the adjustment of a dispute involving numerous persons, it shall publicly announce the following matters within 15 days from the date of such request and allow the public to inspect the public announcement in the office of the local government in which the dispute has occurred:

1. Name and address of a requesting person and requested person;
2. Name and address of an agent;
3. Scope of members and upper limit of amount claimed for indemnification for damage per person;
4. Purport of a request and summary of a cause;
5. Number and title of a case;
6. Method and period of making a request for participation, and the matter that adjustment shall not take effect on persons who fail to make a request for participation;
7. Other matters the commission deems necessary.

(2) Public announcement referred to in paragraph (1) may be given by placing it in the Official

Gazette or daily newspapers or by other methods the commission deems appropriate.

(3) The commission may have representing parties bear the costs incurred from public announcement referred to in paragraph (1).

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 52 (Requests for Participation)(1) Any person who is not a representing party and has an interest in the results of adjustment of a relevant dispute may make a request for participation in the adjustment procedure within 60 days from the date of public notice referred to in Article 51 (1).

(2) Any person who gives a consent pursuant to subparagraph 4 of Article 47 shall be deemed to have participated in the adjustment procedure.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 53 (Effect)

The effect of adjustment shall be exerted only on representing parties and on persons who make a request for participation pursuant to Article 52.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 54 (Prohibition of Requests for Adjustment of Same Dispute)

No person who fails to make a request for participation pursuant to Article 52 shall make a request for adjustment again with regard to cases recognized as the same dispute in terms of the cause and purport of the request

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 55 (Adjustment Procedure Applicable Mutatis Mutandis)

With respect to the adjustment procedure of disputes involving numerous persons, Chapter III shall apply mutatis mutandis to matters that are not provided for in this Chapter unless the application is against the nature thereof.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 56 (Distribution)

Where a representing party receives indemnification for damage by adjustment, he/she shall prepare a distribution plan and have it authorized by the committee and then distribute the indemnification for damage according to the distribution plan within a period determined by the committee.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 57 (Matters to be Included in Distribution Plans)

Each distribution plan shall include the following matters:

1. Persons to receive indemnification for damage and the upper limit of credit amount per person;
2. Total amount of money paid by a requested person;
3. Items of deduction referred to in Article 59 and the amount thereof;
4. Amount of money appropriated for distribution;
5. Criteria for distribution;
6. Matters concerning the period, place and method of applying for payment;

7. Matters concerning the method of confirming credits;
8. Matters concerning the period, place and method of receiving an amount distributed;
9. Other matters determined by the committee.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 58 (Criteria for Distribution)(1) Indemnification for damage shall be distributed based on the ground of adjudication or details indicated in mediation protocols.

(2) When the total amount of credits confirmed exceeds the amount appropriated for distribution, distribution shall be made in proportion to the value amount of each credit.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 59 (Deduction)

Each representing party may deduct the following costs from the amount paid by a requested person:

1. Costs incurred for the performance of the adjustment procedure;
2. Costs incurred for distribution.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 60 (Public Announcement of Distribution Plans)(1) Where the commission authorizes a distribution plan pursuant to Article 56, it shall make public the following matters:

1. Summary of adjudication or mediation protocol;
2. Matters in the subparagraphs of Article 57;
3. Address and name of representing parties;

(2) Article 51 (2) and (3) shall apply mutatis mutandis to public announcement referred to in paragraph (1).

(3) Article 23 shall apply mutatis mutandis to disobedience to authorization of distribution plans referred to in Article 56.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 61 (Revision, etc. of Distribution Plans)(1) Any party who has an objection to a distribution plan publicly notified pursuant to Article 60 (1) may submit an opinion to the commission within seven days from the date of public notice.

(2) Where the commission deems that it is necessary to revise a distribution plan after authorizing such plan pursuant to Article 56, it may revise the distribution plan by decision: Provided, That when revising by official authority, it shall listen to the opinions of representing parties.

(3) The commission shall publicly announce matters revised pursuant to paragraph (2).

(4) Article 51 (2) and (3) shall apply mutatis mutandis to public announcement referred to in paragraph (3).

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

CHAPTER V SUPPLEMENTARY PROVISIONS

Article 62 (Relations with State Compensation Act)

In cases of disputes to which the State Compensation Act is applicable and which have undergone the adjustment procedure under this Act (including Articles 34 and 35), it shall be

deemed that they are deliberated and resolved by the compensation deliberation council under the State Compensation Act.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 63 (Adjustment Costs, etc.)(1) Costs incurred for the adjustment procedure of the committee shall be borne by each party except for costs incurred for matters prescribed by Presidential Decree.

(2) Any person who makes a request for adjustment, etc. to the committee shall pay fees as prescribed by Presidential Decree (in cases of regional resolution commissions, by municipal ordinances of the competent Cities/Dos).

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 64 (Provisions to be Applied Mutatis Mutandis)

The provisions concerning the service of documents in the Civil Procedure Act and Article 3 of the Act on Special Cases Concerning Expedition, etc. of Legal Proceedings shall apply mutatis mutandis to the service of documents and legal rates of interest, respectively.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

CHAPTER VI PENALTY PROVISIONS

Article 65 (Penalty Provisions)

Any person who refuses, evades, or interferes with entry, inspection, perusal, or reproduction by the members of the committee or by judges, which are referred to in Article 38 (1) 3 and 4, without any justifiable ground shall be punished by a fine not exceeding two million won.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012]

Article 65 (Penalty Provisions)

Any person who refuses, evades, or interferes with entry, inspection, perusal, or reproduction by the members of the committee or by judges, which are referred to in Article 32 (1) and Article 38 (including cases of application mutatis mutandis pursuant to Article 45-3) (1) 3 and 4, without any justifiable ground shall be punished by a fine not exceeding two million won. <Amended by Act No. 13602, Dec. 22, 2015>

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] < <Enforcement Date: Dec. 23, 2016>>

Article 66 (Administrative Fines)(1) Any of the following persons shall be punished by an administrative fine not exceeding one million won:

1. A person who fails to appear without justifiable ground when requested to appear by the adjudication committee pursuant to Article 38 (1) 1 twice consecutively;
2. A person who fails to submit documents or articles referred to in Article 38 (1) 3 or submits false documents or articles.

(2) Any party, reference, or appraiser who makes a false statement or appraisal after taking an oath pursuant to Article 38 (4) shall be punished by an administrative fine not exceeding 500 thousand won.

(3) Administrative fines referred to in paragraphs (1) and (2) shall be imposed and collected

by the Minister of Environment or by Mayors/Do Governors as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] <<Enforcement Date: Dec. 23, 2016>>

Article 66 (Administrative Fines)(1) Any of the following persons shall be punished by an administrative fine not exceeding one million won: <Amended by Act No. 13602, Dec. 22, 2015>

1. A person who fails to appear without justifiable ground when requested to appear by the adjudication committee pursuant to Article 38 (including cases of application mutatis mutandis pursuant to Article 45-3; hereafter the same shall apply in this Article) (1) 1 twice consecutively;

2. A person who fails to submit documents or articles referred to in Article 38 (1) 3 or submits false documents or articles.

(2) Any party, reference, or appraiser who makes a false statement or appraisal after taking an oath pursuant to Article 38 (4) shall be punished by an administrative fine not exceeding 500 thousand won.

(3) Administrative fines referred to in paragraphs (1) and (2) shall be imposed and collected by the Minister of Environment or by Mayors/Do Governors as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11267, Feb. 1, 2012] <<Enforcement Date: Dec. 23, 2016>>

ADDENDA (Omitted)

30. Act on the Promotion of Saving and Recycling of Resources

[Enforcement Date 21. Jan, 2016.] [Act No.13036, 20. Jan, 2015., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to contribute to the preservation of the environment and sound development of the national economy by facilitating the use of recycled resources by means of controlling the generation of wastes and facilitating recycling.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 2 (Definitions)

The terms used in this Act shall be defined as follows: <Amended by Act No. 10389. Jul. 23, 2010; Act No. 10615, Apr. 28, 2011; Act No. 12319, Jan. 21, 2014>

1. The term "recycling of resources" means using and managing the process of recycling resources in an environment-friendly manner by controlling the generation of wastes to a necessary extent and properly recycling or treating generated wastes (referring to final treatment under subparagraph 6 of Article 2 of the Wastes Control Act; hereinafter the same shall apply) in order to achieve the objectives of environmental policies;

2. The term "recyclable resources" means products or by-products collected after being disposed of in an used or unused state, which are reusable or reusable after reconditioning (including recoverable energy and waste heat, but excluding radioactive substances and substances contaminated by radioactive substances);
3. The term "by-products" means things produced incidentally in the processes of manufacturing, processing, repairing or selling products, supplying energy, or performing civil and construction works;
4. The term "designated by-products" means by-products prescribed by Presidential Decree, full or partial recycling of which is particularly necessary for efficiently using such resources;
5. The term "recycling" means recycling under subparagraph 7 of Article 2 of the Wastes Control Act;
6. The term "reuse" means re-using recyclable resources as they are or after repairing or making them re-usable for production activities;
7. The term "use after regeneration" means fully or partially re-using recyclable resources as raw materials or making them re-usable;
8. The term "energy recovery" means recovering energy from recyclable resources in accordance with the standards under subparagraph 7 of Article 2 of the Wastes Control Act (hereinafter referred to as "standards for energy recovery") or converting them into energy-recoverable substances;
- 8-2. The term "waste-to-energy" means energy recovered from wastes, such as solid fuels and syngas from wastes, or converted materials from which energy can be recovered, which are prescribed by Ordinance of the Ministry of Environment;
9. The term "recycled products" means products prescribed by Ordinance of the Ministry of Environment, which are produced by using recyclable resources;
10. The term "recycling facilities" means installations, equipment, facilities, etc. prescribed by Ordinance of the Ministry of Environment, which are used to manufacture, process, assemble, repair, collect, transport, and keep recyclable resources or recycled products;
11. The term "recycling industries" means industries prescribed by Presidential Decree, which manufacture, process, assemble, repair, collect, transport, and keep recyclable resources or recycled products, or conduct the research and development of recycling technology;
12. The term "wastes" means wastes defined under subparagraph 1 of Article 2 of the Wastes Control Act;
13. The term "bulky wastes" means wastes prescribed by Presidential Decree, which are separately measurable and the name of the article is identifiable, such as furniture and household electric appliances discharged from homes, workplaces, etc.;
14. The term "packing materials" means materials, containers, etc. used to pack products for protecting their value and condition, and preserving their quality in the processes of transportation, keeping, handling, and use;
15. The term "disposable products" means products prescribed by Presidential Decree,

which are designed to be used once for the same purpose;

16. The term "products made of biodegradable resin" means products prescribed by Ordinance of the Ministry of Environment, which has obtained a certification of eco-label under Article 17 of the Environmental Technology and Industry Support Act, or which satisfies the standards for certification of articles subject to certification;

17. The term "products subject to improvement of the quality of materials and structure" means products prescribed by Presidential Decree, the full or partial recycling of which is particularly necessary for efficiently using such resources as they are collected after being disposed of in a used or unused state, and the structure or quality of materials of which needs to be improved to make the products easily recyclable.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 2-2 (Basic Principle of Recycling of Resources) (1) A person who manufactures, processes, imports, sells, consumes materials, products, etc. or does construction works (referring to the construction works under subparagraph 4 of Article 2 of the Framework Act on the Construction Industry) shall control the generation of wastes to the utmost extent and mitigate any harm caused thereby.

(2) Generated wastes shall be recycled or properly treated in accordance with the principles in each of the following subparagraphs:

1. Wastes are required to be reused or used after regeneration in whole or in part to the utmost extent;
2. Wastes difficult to reuse or use after regeneration in whole or in part are required to be used for the purposes of energy recovery; and
3. Wastes the reuse, use after regeneration or energy recovery of which under subparagraphs 1 and 2 is impossible are required to be properly treated in a manner which minimizes their impact on the environment.

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 3 (Relation with Other Acts and Subordinate Statutes)

The Wastes Control Act shall apply to the saving of resources, the control of generation and recycling of wastes, except as otherwise provided for in this Act.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 4 (Duty of State and Local Governments) (1) The State shall devise policies to facilitate the recycling of resources.

(2) Local governments shall assume the duty to devise and implement policies for the facilitation of the recycling of resources, taking into account the characteristics of the areas under their jurisdiction in accordance with the national policies devised under paragraph (1).

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 5 (Duties of Business Operators) (1) Business operators shall endeavor to comply with basic principles under Article 2-2 and cooperate in policies implemented by the State or local governments to attain the purposes of this Act.

(2) A person who manufactures, imports or sells products (hereinafter referred to as

"manufacturer, etc.") shall prevent raw materials, products, etc. from becoming wastes and if they have become wastes, endeavor to recycle or properly treat them.

(3) A business operator that places an order for construction works shall endeavor to conserve resources, use more recycled products and recycle by-products generated in such construction works.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 6 (Duties of People)

People shall endeavor to facilitate the recycling of resources through discharging recyclable resources after separation, preferentially purchasing recycled products and preventing them from using disposable products, etc. and at the same time, cooperate in measures taken by the State, local governments and businesses to attain the purposes of this Act.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 7 (Establishment of Master Plans for Recycling of Resources) (1) The Minister of Environment shall establish a master plan for recycling of resources (hereinafter referred to as "master plan") every five years in consultation with the heads of the relevant central administrative agencies, the Special Metropolitan City Mayor, Metropolitan City Mayors, Mayor of a Special Self-Governing City, Do Governors, and the Governor of a Special Self-Governing Province. <Amended by Act No. 12319, Jan. 21, 2014>

(2) The master plan referred to in paragraph (1) shall include the followings:

1. Basic direction-setting and goals for facilitating recycling of resources;
2. Matters concerning the conditions of recycling of resources, such as generation and recycling of wastes, and the current status of recycling industries;
3. Matters concerning setting the goals for recycling of resources;
4. Plans for raising funds needed to achieve goals for recycling of resources and investment plans;
5. Other matters necessary for facilitating recycling of resources.

(3) The heads of the relevant central administrative agencies, the Special Metropolitan City Mayor, Metropolitan City Mayors, Mayor of a Special Self-Governing City, Do Governors, and the Governor of a Special Self-Governing Province shall establish an annual action plan of the master plan (hereinafter referred to as "action plan") and notify the Minister of Environment thereof, and implement it. In such cases, the action plan shall include an investment plan. <Amended by Act No. 12319, Jan. 21, 2014>

(4) The head of a Si/Gun/Gu (referring to the head of an autonomous Gu; hereinafter the same shall apply) shall establish an execution plan for recycling of resources, considering the characteristics of his/her jurisdiction, submit it to the competent Special Metropolitan City Mayor, Metropolitan City Mayor, or Do Governor, and implement it.

(5) Matters necessary for establishing master plans, action plans, and execution plans for recycling of resources under paragraphs (1), (3), and (4) shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

CHAPTER II FACILITATION OF RECYCLING OF RESOURCES, ETC.

SECTION 1 Saving of Resources, Control of Generation of Wastes, etc.

Article 8 (Saving of Resources, etc.) (1) The Government may recommend matters necessary for the saving of resources, control of generation of wastes and recycling of wastes to producers and consumers or guide them.

(2) The ministers of competent ministries may request the heads of the relevant central administrative agencies for cooperation in the dissemination of equipment and technology for saving of resources and control of generation of wastes.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 8-2 (Assessment of Recyclability of Resources of Products, etc.)

The government shall devise measures necessary to mitigate the impacts of products, etc. on the environment, such as technical support to enable manufacturers, etc. to make self-assessment of the matters in each of the following subparagraphs:

1. In cases where products have become wastes, matters concerning the recycling and proper treatment thereof;
2. In cases where products have become wastes, matters concerning the weight and volume thereof;
3. Matters concerning harmful substances contained in products;
4. Durability of products;
5. Other matters prescribed by Presidential Decree, such as management of assessment information.

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 9 (Control of Generation of Packing Wastes) (1) A manufacturer, etc. of products prescribed by Presidential Decree shall comply with any of the following matters to control the generation of packing wastes and facilitate the recycling of packing wastes:

1. Standards for the quality of packing materials and methods of packing (referring to the rate of a packing space and the number of packing; hereinafter the same shall apply);
2. Standards for annual reduction of packing materials made of synthetic resin (excluding products made of biodegradable resin; the same shall apply hereafter in this Article).

(2) The Minister of Environment shall establish detailed standards for the quality of packing materials of products, methods of packing and standards for annual reduction of packing materials made of synthetic resin under paragraph (1), by Ordinance of the Ministry of Environment, in consultation with the competent minister.

(3) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may order a manufacturer, etc. found to have violated standards referred to in paragraphs (1) and (2) as a result of conducting a measurement in the simplified measurement method announced by the Minister of Environment, to undergo an inspection on the packing method of products and the quality of packing materials, by a specialized institute prescribed by Ordinance of the Ministry of Environment, within a period set by Ordinance of the Ministry of Environment. <Amended by Act No. 12319, Jan. 21,

2014>

(4) The Minister of Environment shall advise manufacturers, etc. to indicate the packing method and the quality of packing materials on the surface of packing, as prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 9-2 (Improvement, etc. of Quality and Structure of Packing Materials)

The Minister of Environment shall determine and publicly notify standards for improvement, etc. of the quality and structure of packing materials, to ease the recycling of such materials, and producers obligated to recycle under Article 16 (1) shall comply with such standards.

[This Article Newly Inserted by Act No. 11788, May 22, 2013]

Article 10 (Control, etc. of Use of Disposable Products) (1) A business operator who runs any of the following facilities or types of business shall control the use of disposable products and shall not provide disposable products free of charge: Provided, that disposable products made of biodegradable resin may be provided free of charge: <Amended by Act No. 12076, Aug. 13, 2013>

1. Meal service facilities under subparagraph 12 of Article 2 of the Food Sanitation Act or food service businesses under Article 36 (1) 3 of the same Act;
2. Types of business engaged in food manufacturing or processing, specified by Presidential Decree under Article 36 (1) 1 of the Food Sanitation Act;
3. Public bath business under Article 2 (1) 3 of the Public Health Control Act;
4. Superstores under subparagraph 3 of Article 2 of the Distribution Industry Development Act;
5. Sports facilities under subparagraph 1 of Article 2 of the Installation and Utilization of Sports Facilities Act;
6. Other facilities or types of business specified by Presidential Decree, which are deemed to need to control the use of disposable products.

(2) Notwithstanding the main sentence of paragraph (1), disposable products may be used or provided free of charge in any of the following cases: <Newly Inserted by Act No. 12076, Aug. 13, 2013>

1. Where foods are provided, sold or delivered to customers for consumption at places other than meal service facilities or food service business places;
2. Where foods are sold through vending machines;
3. Where foods are provided to condolers attending funeral rites (excluding cases where foods are provided at places equipped with cooking facilities and washing facilities as prescribed by Presidential Decree);
4. Other cases prescribed by Presidential Decree.

(3) Disposable products that business operators running the facilities or types of business referred to in paragraph (1) shall refrain from using and shall not provide free of charge, and detailed matters to be observed shall be prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 12076, Aug. 13, 2013>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 10-2 (Usage of Sales Proceeds of Disposable Bags or Shopping Bags)

A business operator who sells disposable bags or shopping bags pursuant to Article 10 shall endeavor to use the sales proceeds for any of the following purposes: <Amended by Act No. 12076, Aug. 13, 2013>

1. Cash refunds for customers who return used disposable bags or shopping bags;
2. Cash discounts for customers who use shopping baskets;
3. Producing and supplying shopping baskets;
4. Promotion of controlling the use of disposable products;
5. Making up for losses incurred from cash refunds and cash discounts which have totaled more than the proceeds of disposable bags or shopping bags sold during the preceding year;
6. Other activities determined by the Minister of Environment for preservation of the environment.

[This Article Newly Inserted by Act No. 8427, May 11, 2007]

Article 11 (Consideration, etc. of Recyclability of Resources in Development Projects)

(1) The Government shall devise measures necessary to enable the operator of a development project (referring to projects prescribed by Presidential Decree, such as urban development projects defined under Article 2 (1) 2 of the Urban Development Act; hereinafter the same shall apply) to facilitate the recycling of resources prior to implementation of the development project, considering the following:

1. Selection of structures and materials to facilitate the recycling of resources at the time of planning and designing such development project;
2. Use of recycled aggregates at the time of performing such development project;
3. Recycling and proper treatment of wastes generated by such development project.

(2) The Special Metropolitan City Mayor, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may advise business operators who construct apartment houses or accommodation facilities under Article 2 (2) 2 or 15 of the Building Act to furnish storage spaces, such as built-in closets, or built-in furniture or fixtures to restrict the generation of wastes. <Amended by Act No. 12319, Jan. 21, 2014>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 12 (Waste Charges) (1) In order to restrict the generation of wastes and prevent the waste of resources, the Minister of Environment shall impose and collect charges to cover expenses incurred in treating wastes of products, materials and containers prescribed by Presidential Decree, which contain any of the following substances or which are difficult to be recycled or likely to cause any problem in waste management, on and from a manufacturer (referring to an orderer, in cases of products, materials or containers manufactured by the method of original equipment manufacturing) or an importer thereof: <Amended by Act No. 11262, Feb. 1, 2012; Act No. 12076, Aug. 13, 2013>

1. Specific air pollutants under subparagraph 9 of Article 2 of the Clean Air Conservation Act;

2. Specific substances harmful to water quality under subparagraph 8 of Article 2 of the Water Quality and Aquatic Ecosystem Conservation Act;

3. Poisonous substances under subparagraph 3 of Article 2 of the Toxic Chemicals Control Act.

(2) Notwithstanding the provisions of paragraph (1), charges shall not be imposed on expenses incurred in treating wastes generated from any of the following: <Newly Inserted by Act No. 11262, Feb. 1, 2012>

1. Products, packing materials and products made of biodegradable resin under Article 16;

2. Products, materials or containers made using plastics, which can be recovered and recycled at not less than a percentage specified by Presidential Decree, and the products, materials and containers manufactured or imported by a manufacturer or an importer who concluded a voluntary agreement with the Minister of Environment for the recovery and recycling and has fulfilled such agreement;

3. Other products, materials and containers prescribed by Presidential Decree.

(3) The amount of charges to be paid by a manufacturer or an importer under paragraph (1) (hereinafter referred to as "waste charges") shall be calculated in accordance with standards prescribed by Presidential Decree in consideration of the types and sizes of wastes by item, and the timing and procedures for the payment of waste charges, and other necessary matters shall be prescribed by Presidential Decree. <Amended by Act No. 11262, Feb. 1, 2012; Act No. 12076, Aug. 13, 2013>

(4) If a person liable to pay waste charges fails to pay them by a payment deadline, the Minister of Environment shall urge him/her to make the payment within at least 30 days. In such case, additional dues shall be imposed in accordance with the following classifications: <Amended by Act No. 11262, Feb. 1, 2012; Act No. 12076, Aug. 13, 2013>

1. Where the payment is made within one week past the payment deadline: The amount equivalent to 2% of the waste charges in arrears;

2. Where the payment is made after one week past the payment deadline: The amount equivalent to 5% of the waste charges in arrears.

(5) Where a person urged to make a payment under paragraph (3) fails to pay waste charges or additional dues by the deadlines thereof, the waste charges or additional dues shall be collected in the same manner as delinquent national taxes are collected. <Amended by Act No.11262, Feb. 1, 2012>

(6) The waste charges and additional dues under paragraph (3) shall become the revenue of the special accounts for environment improvement under the Framework Act on Environmental Policy. <Amended by Act No. 10893. Jul. 21, 2011; Act No.11262, Feb. 1, 2012>

(7) The Minister of Environment may, in case where he/she has entrusted the task of collecting waste charges and additional dues to a relevant specialized institution such as the Korea Environment Corporation (hereinafter referred to as the "Corporation") established under the Korea Environment Corporation Act under Article 38 (2), grant part of the collected

waste charges and additional dues to such institution as collection subsidies, as prescribed by Presidential Decree. <Amended by Act No. 9433. Feb. 6, 2009; Act No.11262, Feb. 1, 2012>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 12-2 (Deferment of Collection, Installment Payment, etc. of Waste Charges) (1)

If the Minister of Environment deems a person liable to pay waste charges is unable to pay them by a payment deadline due to any of the following causes, he/she may defer the collection thereof or have them paid in installment, as prescribed by Presidential Decree:

1. Where a grave loss has been incurred to the property of a manufacturer or an importer due to a natural disaster or any other catastrophe;
2. Where the person is in a serious managerial crisis due to business losses;
3. Other cases where the deferment of payment or installment payment is deemed inevitable due to a cause similar to that referred to in subparagraph 1 or 2.

(2) If waste charges calculated under Article 12 (3) are below an amount prescribed by Presidential Decree, the Minister of Environment may not collect them.

(3) If a person liable to pay waste charges falls under any of the following cases, the Minister of Environment may collect the waste charges already imposed, even before the payment deadline thereof arrives:

1. Where he/she receives a disposition on default of a national tax, local tax or other public dues;
2. Where he/she is forced to comply with compulsory execution;
3. Where he/she is declared bankrupt;
4. Where an auction is commenced;
5. Where the corporation is dissolved;
6. Where he/she is deemed to have committed an act to evade the waste charge.

(4) If the Minister of Environment intends to collect waste charges before a payment deadline under paragraph (3), he/she shall fix a new payment deadline as prescribed by Presidential Decree and notify the manufacturer or importer of the purport, change of the payment deadline, etc.

(5) Articles 23 and 24 of the Framework Act on National Taxes shall apply mutatis mutandis to succession to the obligation to pay waste charges.

[This Article Newly Inserted by Act No. 12076, Aug. 13, 2013]

SECTION 2 Facilitation, etc. of Separate Collection and Reuse of Wastes

Article 12-3 (Separate Storage, etc. by Waste Dischargers) (1) The owners, occupants, or managers of land or buildings prescribed by Presidential Decree, who discharge wastes (hereinafter referred to as "waste dischargers"), shall recycle recyclable wastes discharged from such land or buildings in accordance with the criteria prescribed by Ordinance of the Ministry of Environment or store them separately by kind, character, and condition to them to be recycled.

(2) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing

Province, and the head of a Si/Gun/Gu may order a waste discharger who fails to observe the criteria referred to in paragraph (1) to take necessary measures, as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 12319, Jan. 21, 2014>
[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 13 (Separate Collection of Recyclable Resources) (1) The Minister of Environment may establish guidelines for classification, storage, collection, etc. to separately collect recyclable resources in consideration of the quantity of wastes generated, and conditions of recycling in order to efficiently utilize recyclable resources.

(2) The Special Metropolitan City Mayor, Metropolitan City Mayors, Mayor of a Special Self-Governing City, and Do Governors shall provide assistance to local governments under their jurisdiction for the efficient separate collection of wastes, and the Special Metropolitan City Mayor, Metropolitan City Mayors, Mayor of a Special Self-Governing City, Do Governors, and the Governor of a Special Self-Governing Province shall inspect the quantity of recyclable resources generated, the quantity of recyclable resources separately collected, etc. each year in accordance with guidelines set by the Minister of Environment and publish the outcomes thereof. <Amended by Act No. 12319, Jan. 21, 2014>

(3) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, and the head of a Si/Gun/Gu shall take measures necessary for separate collection in consideration of regional circumstances, such as installing facilities or containers to store recyclable resources in accordance with the guidelines referred to in paragraph (1). <Amended by Act No. 12319, Jan. 21, 2014>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 13-2 (Establishment, Operation, etc. of Recycling Centers) (1) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, and the head of a Si/Gun/Gu shall establish and operate facilities necessary to facilitate the exchange of second-hand products and recycling of reusable bulky wastes (hereafter in this Article referred to as "recycling center"). <Amended by Act No. 12319, Jan. 21, 2014>

(2) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, and the head of a Si/Gun/Gu shall establish at least one recycling center in the Special Self-Governing City, Special Self-Governing Province, and Si/Gun/Gu (referring to an autonomous Gu; hereinafter the same shall apply), and an additional recycling center shall be established and operated whenever the population thereof exceeds 200,000 persons. <Amended by Act No. 12319, Jan. 21, 2014>

(3) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, and the head of a Si/Gun/Gu shall utilize recycling centers preferentially when collecting, sorting, and treating bulky wastes. <Amended by Act No. 12319, Jan. 21, 2014>

(4) Where a person, other than the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, and the head of a Si/Gun/Gu, establishes and operates a recycling center, he/she shall notify the Mayor of the competent Special Self-Governing City, the Governor of the competent Special Self-Governing Province, or the head of the

relevant Si/Gun/Gu of such fact. <Amended by Act No. 12319, Jan. 21, 2014>

(5) The Minister of Environment may provide persons who establish and operate recycling centers under paragraphs (1) through (4) with financial and technical support.

(6) The establishment of recycling centers, standards for facilities, and other necessary matters shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 13-3 (Establishment of Special Accounts for Management of Recyclable Resources) (1) In order to secure financial resources necessary to recover recyclable resources and to efficiently administer and manage such financial resources, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may establish a special account for management of recyclable resources (hereinafter referred to as "special account"). <Amended by Act No. 12319, Jan. 21, 2014>

(2) Revenues of the special account shall be as follows:

1. Proceeds from sales of recyclable resources collected by local governments to support centers for distribution of recyclable resources under Article 28-2;
2. Proceeds from sales by recycling centers under Article 13-2;
3. Administrative fines imposed under Article 41 (2);
4. Money transferred from general accounts or other special accounts;
5. Profits generated from the management of the funds referred to in subparagraphs 1 through 4 and other proceeds related to recyclable resources.

(3) Expenditures of the special account shall be as follows:

1. Financial support, such as start-up assistance for social enterprises (referring to social enterprisers defined under subparagraph 1 of Article 2 of the Social Enterprise Promotion Act) that recover recyclable resources;
2. Support for petty collectors, transporters, etc. among persons falling under Article 46 (1) 2 of the Wastes Control Act;
3. Subsidization of expenses incurred in installing facilities or containers to store recyclable resources under Article 13 (3);
4. Other support for projects improving recovery systems of recyclable resources.

[This Article Newly Inserted by Act No. 11788, May 22, 2013]

Article 14 (Separate Discharge Mark)

A manufacturer, etc. of products and packing materials prescribed by Presidential Decree, for which it is necessary to put a separate collection mark for the facilitation of recycling of wastes shall put a separate discharge mark on such products and packing materials in accordance with the guidelines determined and announced by the Minister of Environment.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 15 (Facilitation of Reuse of Parts, etc.) (1) A manufacturer, etc. of products shall, when distributed products have become wastes, endeavor to recover such products or parts to use them for the manufacture of new products or make them reusable.

(2) The government shall take necessary measures, such as provision of technical assistance to enable manufacturers, etc. to achieve the objectives under paragraph (1).

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 15-2 (Facilitation of Reuse of Empty Containers) (1) A manufacturer or importer of products prescribed by Presidential Decree may include a certain amount of money in the prices of products, separate from factory prices or import prices (hereinafter referred to as "container deposit") to facilitate the recovery and reuse of the containers used in such products.

(2) In order to facilitate the reuse of containers, the Minister of Environment may designate a container (hereinafter referred to as "standard container") commonly used for packaging with standardized specifications, from among containers used for products under paragraph (1), and manufacturers or importers that intend to use a standard container for products shall register it, as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 13036, Jan. 20, 2015>

(3) A manufacturer, etc. of products, the price of which includes the container deposit under paragraph (1), shall refund the container deposit to the person who returns the container. In such cases, the container deposit shall be determined by Ordinance of the Ministry of Environment in consideration of the cost of manufacturing the container, etc. <Amended by Act No. 13036, Jan. 20, 2015>

(4) A manufacturer or importer of products, the price of which includes the container deposit under paragraph (1) (hereinafter referred to as "manufacturer reusing empty containers"), shall reimburse wholesalers or retailers (limited to business entities engaging in retail sale in non-specialized stores, or retail sale of food, beverages and tobacco in specialized stores under the Korea Standard Industrial Classification) for expenses incurred in storing and transporting empty containers prescribed by Ordinance of the Ministry of Environment (hereinafter referred to as "handling fees"). In such cases, price fluctuations and other economic situations shall be considered in calculating handling fees. <Amended by Act No. 13036, Jan. 20, 2015>

(5) In order to ensure the efficient handling of refunding of container deposits under paragraph (3) and payment of handling fees under paragraph (4), manufacturers reusing empty containers shall require the distribution support centers established under Article 28-2 to check the condition of a returned empty container and then refund the container deposit or pay the relevant handling fee. <Newly Inserted by Act No. 13036, Jan. 20, 2015>

(6) Manufacturers reusing empty containers shall mark "container deposit refundable" and "reusable" on the containers of products, the price of which includes the container deposits, as determined and publicly notified by the Minister of Environment. <Newly Inserted by Act No. 13036, Jan. 20, 2015>

(7) Matters to be observed by manufacturers, etc. of products for the smooth recovery and reuse of empty containers, such as refund of the container deposits and payment of handling fees, depending on the volume of the container, shall be prescribed by Ordinance of the

Ministry of Environment. <Newly Inserted by Act No. 13036, Jan. 20, 2015>

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 15-3 (Usage of Remainder of Container Deposits) (1) The remainder after the container deposit is refunded under Article 15-2 (hereinafter referred to as "unclaimed deposit") shall be used for any of the following purposes: <Amended by Act No. 13036, Jan. 20, 2015>

1. Publicity to increase the rate of recovery of empty containers;
2. Installation of empty container collection depots, and manufacturing of boxes for recovery of empty containers;
3. Research and development of measures to efficiently recover and recycle empty containers;
4. Where the amount of the container deposit refunded exceeds the amount of the container deposit received in the previous year, the compensation therefor;
- 4-2. Expenses incurred in recovering and recycling empty containers;
5. Other activities to preserve the environment.

(2) Particulars for calculation of unclaimed deposits and a plan to use, and reporting the result of use of, unclaimed deposits, and calculation of expenses incurred in recovering and reusing empty containers shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 13036, Jan. 20, 2015>

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 15-4 (Monetary Rewards for Reporting Retailers Refusing to Pay Container Deposits)

Pursuant to Ordinance of the Ministry of Environment, the Minister of Environment may pay a monetary reward to any person who reports retailers referred to in Article 15-2 (4) who directly sell products, the price of which includes the container deposit, to consumers but refuse to refund the container deposit, in violation of Article 15-2 (3).

[This Article Newly Inserted by Act No. 13036, Jan. 20, 2015]

SECTION 3 Facilitation, etc. of Recycling of Wastes

Article 16 (Obligations of Manufacturers, etc. to Recycle) (1) A manufacturer or importer (in cases of packing materials, including sellers of products using packing materials, but limited to those operating a place of business for the type and of scale prescribed by Presidential Decree; hereinafter referred to as a "producer obligated to recycle") of products and packing materials prescribed by Presidential Decree, the recovery and recycling of which can be facilitated by improving the quality of materials, structure or recovery system in the production stage and distribution stage, or which generate a large volume of wastes after use, shall recover and recycle wastes generated from the products or packing materials he/she has manufactured, imported or sold. <Amended by Act No. 11788, May 22, 2013>

(2) Every producer obligated to recycle wastes (excluding manufacturers reusing empty containers) shall pay contributions to jointly fulfill the recycling obligation under paragraph (1) (hereinafter referred to as "contributions") to a recycling business mutual aid cooperative

established under Article 27: Provided, That the amount of money proportional to the quantity of recovery and recycling, as calculated by the method of inspection determined and notified by the Minister of Environment, shall be deducted from the contributions in any of the following cases: <Newly Inserted by Act No. 11788, May 22, 2013; Act No. 13036, Jan. 20, 2015>

1. Where the producer directly recovers and recycles the wastes generated from products and packing materials manufactured, imported or sold;

2. Where the producer outsources the recovery and recycle process of the wastes referred to in subparagraph 1 to any of the following persons:

(a) A person licensed for any of the waste recycling business provided for in Article 25 (5) 5 through 7 of the Wastes Control Act;

(b) A person who files a report on waste treatment under Article 46 of the Wastes Control Act;

(c) Other persons prescribed by Presidential Decree as deemed capable of efficiently operating the recycling business.

(3) A producer obligated to recycle wastes or a recycling business mutual aid cooperative shall, when outsourcing the recovery and recycling process of wastes, enter into a contract which protects the rights and interests of the outsourcing contractor to the fullest extent as prescribed by Presidential Decree, such as ensuring the business territory of small-medium enterprises protected under the Act on the Promotion of Collaborative Cooperation between Large Enterprises and Small-Medium Enterprises, and parties to the contract shall implement such contract in good faith. <Amended by Act No. 11788, May 22, 2013; Act No. 13036, Jan. 20, 2015>

(4) A producer obligated to recycle wastes, a recycling business mutual aid cooperative, and an outsourcing contractor that assumes the recovery and recycling of wastes shall recycle wastes in compliance with the method and standards for recycling of products and packing materials prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 11788, May 22, 2013; Act No. 13036, Jan. 20, 2015>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 17 (Mandatory Recycling Ratio) (1) The Minister of Environment shall publicly notify the ratio of the quantity to be recycled (hereinafter referred to as "mandatory recycling ratio") to the annual quantity of each product and packing material under Article 16 delivered, considering the quantity of products and packing materials delivered, the quantity of recyclable resources separately collected (including the quantity of recyclable resources separately collected published by the Special Metropolitan City Mayor, Metropolitan City Mayors, Mayor of a Special Self-Governing City, Do Governors, and the Governor of a Special Self-Governing Province under Article 13 (2)), performance of recovery and recycling, conditions of recycling, etc. of producers obligated to recycle in consultation with the competent Minister. <Amended by Act No. 11788, May 22, 2013; Act No. 12319, Jan. 21, 2014>

(2) Standards for calculating the quantity to be recycled by a producer obligated to recycle pursuant to the mandatory recycling ratio (hereinafter referred to as "mandatory recycling quantity") shall be prescribed by Presidential Decree, in consideration of the delivery quantity, the mandatory recycling ratio for each product and packing material, etc.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 17-2 (Certification for Fulfillment of Obligation to Recycle) (1) Where a producer obligated to recycle recovers and recycles all of the wastes of products and packing materials manufactured, imported or sold by him/her in accordance with Article 16 or pays the contributions therefor to a recycling business mutual aid cooperative under Article 27, the Minister of Environment may issue a certification for the faithful fulfillment of obligation to recycle (hereinafter referred to as "certification for the fulfillment of obligation to recycle).

(2) A producer obligated to recycle, who has received a certification for the fulfillment of obligation to recycle, may indicate the certification on the products and packing materials that he/she intends to manufacture, import or sell.

(3) No producer obligated to recycle, who has not received a certification for the fulfillment of obligation to recycle shall indicate the certification or indicate any mark similar thereto.

(4) Matters necessary for procedures for certification, indication of certification, etc. under paragraphs (1) and (2) shall be determined and publicly notified by the Minister of Environment.

[This Article Newly Inserted by Act No. 11788, May 22, 2013]

Article 18 (Submission, etc. of Plans to Fulfill Recovery and Recycling Obligations) (1) The following persons shall submit a plan to fulfill their recovery and recycling obligations to the Minister of Environment for approval, as prescribed by Presidential Decree. <Amended by Act No. 11788, May 22, 2013; Act No. 13036, Jan. 20, 2015>

1. A producer obligated to recycle wastes who intends to have its contribution deducted pursuant to the proviso to Article 16 (2);

2. A recycling business mutual aid cooperative;

3. A manufacturer reusing empty containers.

(2) Each person who has obtained approval of his/her plan to fulfill recovery and recycling obligations pursuant to paragraph (1), shall submit a report on the outcomes of fulfilling his/her recovery and recycling obligations and supporting documents to the Minister of Environment, as prescribed by Presidential Decree. <Amended by Act No. 11788, May 22, 2013>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 19 (Collection, etc. of Recycling Dues) (1) Where a producer obligated to recycle fails to fulfill the obligation provided for in Article 16 or a recycling business mutual aid cooperative established under Article 27 fails to fulfill the obligation to recycle on behalf of its members, the Minister of Environment shall impose and collect the dues which amounts to the sum of expenses to be incurred in recycling non-recycled wastes out of the mandatory recycling quantity and an amount equivalent to 30/100 of such expenses (hereinafter

referred to as "recycling dues") on and from the producer obligated to recycle or the recycling business mutual aid cooperative.

(2) The expenses incurred in recycling wastes, based on which recycling dues are calculated, periods of, and procedures for payment thereof, and other necessary matters shall be prescribed by Presidential Decree.

(3) Where a person liable to pay recycling dues under paragraph (1) fails to pay such dues by the payment deadline, the Minister of Environment shall urge him/her to make the payment within a specified period of no less than 30 days. In such cases, a late payment penalty shall be imposed as follows: <Amended by Act No. 13036, Jan. 20, 2015>

1. Where the person pays the recycling dues within one week after the payment deadline: An amount equivalent to 2/100 of the recycling dues that remain unpaid;

2. Where the person pays the recycling dues one week after the payment deadline: An amount equivalent to 5/100 of the recycling dues that remain unpaid.

(4) Where a person urged to make a payment under paragraph (3) fails to pay the recycling dues or late payment penalties by the specified deadline, such recycling dues or late payment penalties shall be collected in the same manner as delinquent national taxes are collected.

(5) The recycling dues and late payment penalties paid under paragraph (3) shall become the revenue of the Special Account for Environmental Improvement under the Framework Act on Environmental Policy. <Amended by Act No. 10893, Jul. 21, 2011; Act No. 10893, Jul. 21, 2011>

(6) Where the Minister of Environment has entrusted the task of collecting the recycling dues or late payment penalties to a relevant specialized institution, such as the Corporation, under Article 38 (2), he/she may grant some of the collected recycling dues or late payment penalties to cover collection expenses, as prescribed by Presidential Decree. <Amended by Act No. 9433, Feb. 6, 2009>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 20 (Usage of Waste Charges and Recycling Dues)

Waste charges and recycling dues shall be used for the purposes in each of the following subparagraphs:

1. Assistance for waste recycling projects and installation of waste disposal facilities;

2. Research and technology development for efficient recycling and reduction of wastes;

3. Assistance for recovery, recycling, and disposal of wastes by local governments;

4. Purchase and reserve of recyclable resources;

5. Assistance for projects to facilitate recycling

6. Funding for collection of waste charges (including additional dues) or recycling dues (including additional dues);

7. Others, such as assistance for projects necessary to facilitate recycling of resources.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 21 Deleted. <by Act No. 8405, Apr. 27, 2007>

Article 22 Deleted. <by Act No. 8948, Mar. 21, 2008>

Article 22-2 Deleted. <by Act No. 8948, Mar. 21, 2008>

Article 23 (Matters to be Observed by Designated Recycling Businesses) (1) An operator of any of the types of business prescribed by Presidential Decree, which are particularly necessary for the efficient use of recyclable resources (hereinafter referred to as "designated recycling business operator") shall comply with the guidelines jointly published by the Minister of Environment and the competent Ministers, in accordance with the basic policies and procedures prescribed by Presidential Decree.

(2) The guidelines referred to in paragraph (1) shall include the matters in each of the following subparagraphs:

1. Matters concerning the goal of using recyclable resources by type of recycled products (excluding by-products; hereafter the same shall apply in this Article) and facilitation of recycling;
2. Matters concerning the formulation of a plan for using recyclable resources and measures for recycling;
3. Matters concerning records on the use of recyclable resources and the management thereof; and
4. Matters concerning energy recovery and facilitation of use of exhaust heat.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 24 Deleted. <by Act No. 8405, Apr. 27, 2007>

Article 24-2 Deleted. <by Act No. 12319, Jan. 21, 2014>

Article 25 (Matters to be Observed by Designated By-Product Discharging Business Operators) (1) A business operator that discharges designated by-products (hereinafter referred to as "designated by-product discharging business operator") shall comply with the guidelines jointly published by the Minister of Environment and the competent Ministers according to the basic policy and procedures prescribed by Presidential Decree.

(2) The guidelines referred to in paragraph (1) shall include following: <Amended by Act No. 13036, Jan. 20, 2015>

1. The methods of recycling depending on the use of each designated by-product;
2. The formulation and implementation of plans to facilitate the use of designated by-products;
3. The separation, crushing, etc. of designated by-products;
4. The eco-friendly management of designated by-products.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 25-2 (Recommendations on Recycling and Orders to Take Measures) (1) Where a designated recycling business operator or designated by-product discharging business operator fails to observe the guidelines referred to in Articles 23 and 25, the Minister of Environment and the competent Minister may recommend such business operator to observe the guidelines.

(2) Where a business operator, in receipt of recommendation under paragraph (1), fails to

observe the guidelines without just grounds, the Minister of Environment and the competent Minister may disclose a list of violators and the details of violations of the guidelines, or order him/her to take necessary measures. In such cases, the Minister of Environment shall consult with the competent Minister before disclosing a list of violators and the details of violation of the guidelines or ordering the relevant business operator to take measures.

[This Article Wholly Amended by Act No. 12319, Jan. 21, 2014]

Article 25-3 (Installation, Operation, etc. of Energy Recovery Facilities)

Facilities to recover energy (hereinafter referred to as "energy recovery facilities") shall be installed and operated to make sure that energy recovery facilities meet the standards for energy recovery when inspected according to methods and procedures of inspection publicly notified by the Minister of Environment after consultations with the Minister of Trade, Industry, and Energy.

[This Article Wholly Amended by Act No. 12319, Jan. 21, 2014]

Article 25-4 (Reporting, etc. on Import and Manufacture of Solid Fuels) (1) A person who intends to import solid fuels made from wastes (hereinafter referred to as "solid fuels") among recycled products shall report thereon to the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment.

(2) A person who intends to manufacture solid fuels shall be either of the following, and report thereon to the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu, as prescribed by Ordinance of the Ministry of Environment:

1. A person licensed to conduct a terminal waste recycling business under Article 25 (5) 6 of the Wastes Control Act;

2. A person licensed to conduct a general waste recycling business under Article 25 (5) 7 of the Wastes Control Act.

(3) The Minister of Environment, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu shall issue a certificate of reports on import or manufacture to each person who files a report under paragraph (1) or (2).

(4) Where an importer or manufacturer of solid fuels intends to modify matters prescribed by Ordinance of the Ministry of Environment, he/she shall report on such modification to the Minister of Environment, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu.

(5) No importer or manufacturer of solid fuels shall allow any third person to import or manufacture solid fuels using his/her trade name or name, nor lend his/her certificate of report issued pursuant to paragraph (3) to any third person.

[This Article Wholly Amended by Act No. 12319, Jan. 21, 2014]

Article 25-5 (Quality Inspections of Solid Fuels) (1) A person who intends to report on importation or manufacturing of solid fuels pursuant to Article 25-4 (1) or (2) shall undergo an inspection regarding the following matters (hereinafter referred to as "quality inspection")

conducted by the Waste-to-Energy Center established under Article 25-15 (hereinafter referred to as "Waste-to-Energy Center") to ascertain whether the solid fuels he/she intends to import or manufacture meet the quality standards prescribed by Ordinance of the Ministry of Environment:

1. Shape and size;
2. Caloric value;
3. Moisture content;
4. Metal content;
5. Ash, chlorine, and sulfur content;
6. Other matters prescribed by Ordinance of the Ministry of Environment.

(2) A person who intends to undergo a quality inspection shall pay fees to the Waste-to-Energy Center, as prescribed by Ordinance of the Ministry of Environment.

(3) The Waste-to-Energy Center shall verify at least once a quarter, as prescribed by Ordinance of the Ministry of Environment, whether products kept by an importer, manufacturer, or user of solid fuels meet the quality standards prescribed under paragraph (1).

(4) The Waste-to-Energy Center shall notify the Minister of Environment, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu of the results of verification under paragraph (3).

(5) The Minister of Environment shall provide a subsidy to the Waste-to-Energy Center to cover expenses incurred in relation to verifications under paragraph (3).

(6) Except as otherwise expressly prescribed in paragraphs (1) through (5), methods of quality inspections and verifications, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 12319, Jan. 21, 2014]

Article 25-6 (Quality Marks on Solid Fuels) (1) Every importer or manufacturer of solid fuels shall place a quality mark on solid fuels (hereinafter referred to as "quality mark"), as prescribed by Ordinance of the Ministry of Environment.

(2) An importer or manufacturer of solid fuels who intends to place a quality mark on solid fuels shall request an institution prescribed by Ordinance of the Ministry of Environment to administer an examination.

(3) The Minister of Environment may allow the Waste-to-Energy Center to inspect the appropriateness of quality marks.

(4) Matters necessary regarding quality marks, such as items of quality marks, frequency of examinations, and methods of administering examinations, shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 12319, Jan. 21, 2014]

Article 25-7 (Reporting, etc. on Use of Solid Fuels) (1) A person who intends to use solid fuels shall file a report to the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu, as prescribed by Ordinance

of the Ministry of Environment, in any of the following circumstances:

1. Where he/she intends to start using solid fuels for the first time;
2. Where he/she intends to resume using solid fuels after he/she stopped using solid fuels for at least one year;
3. Where he/she intends to use solid fuels, any of the following matters of which is changed:
 - (a) Supplier of the solid fuels;
 - (b) Kinds of the solid fuels.

(2) Every user of solid fuels shall use such solid fuels in a facility (hereinafter referred to as "facility to use solid fuels") prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 12319, Jan. 21, 2014]

Article 25-8 (Regular Inspections of Facilities to Manufacture or Use Solid Fuels) (1) A person who establishes and operates a facility to manufacture (hereinafter referred to as "manufacturing facility") or use solid fuels shall undergo an inspection (hereinafter referred to as "regular inspection") conducted by the Waste-to-Energy Center or an institution prescribed by Ordinance of the Ministry of Environment to ascertain whether his/her facility meets the inspection standards prescribed by Ordinance of the Ministry of Environment.

(2) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may order the establisher and operator of a facility found to be non-compliant in a regular inspection to improve the facility to meet the inspection standards prescribed under paragraph (1) within a specified period.

(3) No person, in receipt of an order under paragraph (2), shall manufacture or use solid fuels using the relevant facility before he/she implements the order.

(4) Except as otherwise expressly prescribed in paragraphs (1) through (3), the frequency, items, procedures, and methods of regular inspections, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 12319, Jan. 21, 2014]

Article 25-9 (Matters to be Observed by Importers, Manufacturers, and Users of Solid Fuels) (1) Every importer, manufacturer or user of solid fuels shall comply with matters prescribed by Ordinance of the Ministry of Environment for environmental control, such as prevention of fugitive dust, in the process of storing such solid fuels, or operating a manufacturing facility or facility to use such solid fuels.

(2) Every user of solid fuels shall comply with the permissible emission levels of dioxin prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 12319, Jan. 21, 2014]

Article 25-10 (Orders, etc. to Prohibit Importation or Manufacturing of Solid Fuels) (1) Where an importer or manufacturer of solid fuels files a report under Article 25-4 (1) or (2) or undergoes a quality inspection by fraudulent or other illegal means, the Minister of Environment, Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu shall issue him/her an order prohibiting the importation or manufacturing of solid fuels for three years.

(2) Where solid fuels kept by an importer, manufacturer or user are found to be non-compliant with the quality standards prescribed under Article 25-5 (1) as a result of verification under 25-5 (3), the Minister of Environment, Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may issue an order prohibiting the importation, manufacturing or use of solid fuels or an improvement order, as prescribed by Ordinance of the Ministry of Environment: Provided, That an improvement order may be only issued when quality standards for moisture content (hereinafter referred to as "moisture standard") referred to in Article 25-5 (1) 3 are not met.
[This Article Newly Inserted by Act No. 12319, Jan. 21, 2014]

Article 25-11 (Penalty Surcharges in Lieu of Prohibition Orders) (1) Where the Minister of Environment, Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu intends to issue an order prohibiting the importation or manufacturing of solid fuels pursuant to the main body of Article 25-10 (2), but the order is deemed to cause any of the following, he/she may impose a penalty surcharge not exceeding one billion won in lieu of such order:

1. Where it affects the supply of and demand for domestic electric power;
2. Where it affects the lifespan of facilities to use solid fuels due to imbalance in the supply of and demand for fuels.

(2) If the importer, manufacturer or user of solid fuels fails to pay a penalty surcharge under paragraph (1), the Minister of Environment, Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu shall collect it in the same manner as delinquent national or local taxes are collected.

(3) Penalty surcharges collected from importers pursuant to paragraphs (1) and (2) shall become the revenue of the environmental improvement special account, and penalty surcharges collected from manufacturers and users shall become the revenue of a Special Self-Governing City, Special Self-Governing Province, or Si/Gun/Gu.

[This Article Newly Inserted by Act No. 12319, Jan. 21, 2014]

Article 25-12 (Treatment, etc. of Solid Fuels) (1) Every importer, manufacturer or user of solid fuels that fail to meet the quality standards prescribed under Article 25-5 (1) shall treat the solid fuels pursuant to Article 13 of the Wastes Control Act: Provided, That where solid fuels fail to meet the moisture standard only, he/she may keep the solid fuels pursuant to Article 13 of the Wastes Control Act until such solid fuels meet the moisture standard.

(2) If solid fuels meet the moisture standard under the proviso to paragraph (1), the importer, manufacturer or user of such solid fuels shall, without delay, re-undergo a quality inspection.

[This Article Newly Inserted by Act No. 12319, Jan. 21, 2014]

Article 25-13 (Succession, etc. to Rights and Obligations) (1) Where a manufacturer or user of solid fuels fully transfers his/her manufacturing facility or facility to use solid fuels, or dies, or a corporation merges with another corporation, the transferee, successor, corporation surviving the merger or established in the course of the merger shall succeed to the rights and obligations of the manufacturer or user of solid fuels under this Act.

(2) A person who succeeds to rights and obligations pursuant to paragraph (1) shall report thereon to the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu.

[This Article Newly Inserted by Act No. 12319, Jan. 21, 2014]

Article 25-14 (Building, Operation, etc. of Comprehensive Waste-to-Energy Information Management System)

(1) The Minister of Environment shall build and operate a comprehensive waste-to-energy information management system (hereinafter referred to as "information management system") to maintain and manage following information on waste-to-energy in a systematic manner:

1. Quantity of waste-to-energy produced and used;
2. Quantity of solid fuels imported and used;
3. Facilities producing and using waste-to-energy;
4. Findings of quality inspections and details of quality marks;
5. Technological development and new technologies regarding waste-to-energy;
6. Current status of, and education for technical human resources regarding waste-to-energy;
7. Other information deemed necessary for managing waste-to-energy by the Minister of Environment.

(2) The following persons shall enter information referred to in paragraph (1) 1 through 4 in the information management system, as prescribed by Ordinance of the Ministry of Environment:

1. An importer, manufacturer or user of solid fuels;
2. The following persons among those who have established and operate waste treatment facilities under Article 29 of the Wastes Control Act:
 - (a) A person who produces, uses or sells landfill gas or biogas;
 - (b) A person who recovers, uses or sells remaining heat from incineration;
 - (c) A person who produces, uses or sells electric power through gasification of wastes;
3. A person who recovers waste-to-energy or converts wastes into a state from which energy can be recovered among those who recycle wastes under subparagraph 7 of Article 2 of the Wastes Control Act, who is publicly notified by the Minister of Environment after consultations with the Minister of Trade, Industry and Energy.

(3) The Minister of Environment shall keep information entered pursuant to paragraph (2) for five years from the date of entry of such information.

[This Article Newly Inserted by Act No. 12319, Jan. 21, 2014]

Article 25-15 (Waste-to-Energy Center) (1) The Minister of Environment may establish and operate a Waste-to-Energy Center to perform the following duties for the purposes of facilitating the use of waste-to-energy, quality control of solid fuels, etc.:

1. Quality inspections;
2. Inspections of appropriateness of quality mark;
3. Regular inspections of manufacturing facilities and facilities to use solid fuels, and

inspections of the actual status of operating such facilities;

4. Inspections of the actual status of using solid fuels;

5. Current status of import of solid fuels and surveys of import trends;

6. Technical assistance related to waste-to-energy and research on systems;

7. Research and development of technologies related to waste-to-energy;

8. Surveys on advanced cases regarding waste-to-energy and publicity for facilitating waste-to-energy;

9. Building and operation of the information management system;

10. Other duties necessary for the activation of waste-to-energy.

(2) The Minister of Environment may entrust the Corporation with the operation of the Waste-to-Energy Center.

(3) Except as otherwise expressly prescribed in paragraphs (1) and (2), matters necessary for the operation of the Waste-to-Energy Center shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 12319, Jan. 21, 2014]

Article 26 (Korea Waste-to-Energy Association) (1) A person falling under Article 25-14 (2) may establish a Korea Waste-to-Energy Association (hereinafter referred to as the "Waste-to-Energy Association") to increase the conversion of wastes into energy and to improve related technologies upon obtaining permission from the Minister of Environment, as prescribed by Presidential Decree.

(2) The Waste-to-Energy Association shall be a corporation.

(3) The Waste-to-Energy Association shall be duly formed when registration for its establishment is completed at a registry office having jurisdiction over its principal place of business.

(4) Matters to be entered in the articles of association of the Waste-to-Energy Association, and matters necessary for supervision thereof shall be prescribed by Presidential Decree.

(5) Except as otherwise expressly prescribed by this Act, provisions concerning incorporated associations under the Commercial Act shall apply mutatis mutandis to the Waste-to-Energy Association.

[This Article Wholly Amended by Act No. 12319, Jan. 21, 2014]

CHAPTER III RECYCLING BUSINESS MUTUAL AID COOPERATIVES AND SUPPORT CENTERS FOR DISTRIBUTION OF RECYCLABLE RESOURCES

Article 27 (Establishment of Recycling Business Mutual Aid Cooperatives) (1) A producer obligated to recycle may establish a recycling business mutual aid cooperative by product or packing material (hereinafter referred to as "cooperative") to fulfill the obligation under Article 16. <Amended by Act No. 11788, May 22, 2013>

(2) Each cooperative shall be a corporation.

(3) A cooperative shall be established by registering establishment therefor at the location of its principal office.

(4) In cases where a corporation established for the purpose of recycling wastes in

accordance with Article 32 of the Civil Act and other Acts has obtained authorization, by submitting documents referred to in Article 28 (1) 1 through 5 to the Minister of Environment for the vicarious fulfillment of the obligation of a producer obligated to recycle, such corporation shall be deemed as a cooperative.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 28 (Procedures, etc. for Authorizing Establishment of Cooperatives) (1) A person who intends to establish a cooperative shall obtain authorization from the Minister of Environment, by submitting an application for authorization for establishment, which include the following matters, to the Minister of Environment: <Amended by Act No. 12076, Aug. 13, 2013>

1. The articles of association of the corporation that include the purpose, scope of business, cooperative members, contributions, and other matters concerning the operation of the cooperative;
2. The agreement of producers obligated to recycle affiliated with the cooperative on participation;
3. Resumes and written acceptance of appointments of executives;
4. Details of the cooperative's recycling facilities (limited to cooperatives which have their own recycling facilities);
5. Business plans to vicariously fulfill the obligation to recycle.

(2) The Minister of Environment shall, when he/she has granted authorization under paragraph (1) or Article 27 (4), make public notification of such fact.

(3) When a cooperative has appointed an executive for replacement, it shall file a report thereon with the Minister of Environment without delay, along with documents referred to in paragraph (1) 3 and the minutes of the general meeting or meeting by the board of directors that has adopted a resolution on appointment of an executive for replacement, and obtain approval from him/her. <Newly Inserted by Act No. 12076, Aug. 13, 2013>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 28-2 (Establishment, etc. of Support Centers for Distributing Recyclable Resources) (1) To recover and reuse wastes from products and packing materials pursuant to Article 16 (1) and to facilitate the reuse of empty containers pursuant to Article 15-2, a cooperative and manufacturers reusing empty containers may jointly establish a center to support the distribution of recyclable resources (hereinafter referred to as "distribution support center"). <Amended by Act No. 13036, Jan. 20, 2015>

(2) A distribution support center shall be a body corporate.

(3) Upon collecting wastes from products and packing materials under Article 16 (1), the Metropolitan Autonomous City Mayor, the Special Self-Governing Province Governor, or the head of a Si/Gun/Gu shall hand them over to a distribution support center established under paragraph (1), and the distribution support center shall reimburse him/her for expenses incurred in the collection thereof. <Amended by Act No. 12319, Jan. 21, 2014>

(4) In order to facilitate the reuse of empty containers, distribution support centers

may: <Newly Inserted by Act No. 13036, Jan. 20, 2015>

1. Refund the container deposits and pay handling fees under Article 15-2 (5);
2. Use the unclaimed deposits under Article 15-3 (1);
3. Conduct fact-finding surveys on refund of the container deposits and payment of handling fees;
4. Establish and operate a center to process reports on retailers refusing to pay the container deposit under Article 15-4;
5. Perform other projects prescribed by Ordinance of the Ministry of Environment to facilitate the recovery and reuse of empty containers.

[This Article Newly Inserted by Act No. 11788, May 22, 2013]

Article 28-3 (Procedures, etc. for Authorization for Establishment of Distribution Support Center) (1) A person who intends to establish a distribution support center shall submit an application for authorization for establishment to the Minister of Environment which includes the following matters and obtain authorization from him/her:

1. The articles of association, including the purpose, scope of business, members, operation expenses, and other matters concerning the operation and organization of the distribution support center;
2. Plan for establishing a distribution system of recyclable resources;
3. Agreements on vicarious fulfillment of the obligation for recovery by cooperative, and business plans therefor;
4. Details of facilities of his/her own for loading, unloading and sorting of recyclable resources. (applicable only to cases where facilities are owned by himself/herself).

(2) Upon granting authorization under paragraph (1), the Minister of Environment shall make public notification thereof.

[This Article Newly Inserted by Act No. 11788, May 22, 2013]

Article 28-4 (Corrective Orders, etc.) (1) Where the operation, execution of tasks, etc. of a cooperative or distribution support center is found to be in violation of the Acts and subordinate statutes, articles of association, etc. as a result of the report, inspection, etc. made under Article 36 (1), the Minister of Environment may issue an order for correction or request to take other necessary measures.

(2) Where any executive or employee of a cooperative or distribution support center fails to comply with the corrective order or measures referred to in paragraph (1), the Minister of Environment may request for a disciplinary action or dismissal of the relevant executive or employee.

[This Article Newly Inserted by Act No. 12076, Aug. 13, 2013]

Article 28-5 (Revocation of Authorization)

Where a cooperative or distribution support center falls under any of the following cases, the Minister of Environment may revoke the authorization therefor: Provided, That in cases falling under subparagraph 1, the authorization shall be revoked:

1. Where the authorization for establishment has been obtained by fraudulent or other illegal

means;

2. Where it becomes impossible to attain the purpose of establishment of a cooperative or distribution support center due to changes in circumstances such as an amendment of any Act and subordinate statutes;

3. Where it has failed to correct even after receiving a corrective order under Article 28-4 (1), the cases of which are prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 12076, Aug. 13, 2013]

Article 29 (Contributions, etc.)

In order to deliberate on and determine the standards for calculation of contributions under Article 16, payment procedures, and other necessary matters, each cooperative and distribution support center shall constitute and operate a joint steering committee, as prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 13036, Jan. 20, 2015]

Article 30 (Application Mutatis Mutandis of Civil Act)

The provisions of the Civil Act, which pertain to incorporated associations, shall apply mutatis mutandis to cooperatives and distribution support centers, except as provided for in this Act. <Amended by Act No. 11788, May 22, 2013>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

CHAPTER IV ESTABLISHMENT OF FOUNDATION FOR FACILITATION OF RECYCLING OF RESOURCES

Article 31 (Financial Assistance, etc. for Fostering Recycling Industries) (1) The State or local governments may subsidize or lend funds necessary for recycling resources to an operator of any of the following businesses or projects (hereinafter referred to as "recycling business operator") to foster recycling industries, and arrange loans for the operator, if necessary: <Amended by Act No. 10389, Jul. 23, 2010; Act No. 11788, May 22, 2013; Act No. 12319, Jan. 21, 2014>

1. A business to install recycling facilities;
2. A resources recycling business conducted by a designated recycling business operator or designated by-product discharging business operator;
3. Installation and operation of energy recovery facilities under Article 25-3;
4. A project to develop a recycling complex under Article 34;
5. Waste disposal by those licensed for any of the waste recycling businesses prescribed under subparagraphs 5 through 7 of Article 25 (5) of the Wastes Control Act, or persons who have reported on waste disposal under Article 46 of the same Act;
6. A research and technological development project to facilitate recycling of resources;
7. Establishment and operation of distribution support centers;
8. Businesses prescribed by Presidential Decree, which are necessary for fostering recycling industries, other than those referred to in subparagraphs 1 through 7.

(2) The Government may preferentially provide a recycling business operator with funds necessary for facilities, research and technological development, etc. from any of the

following funds: <Amended by Act No. 9584, Apr. 1, 2009; Act No. 9685, May 21, 2009>

1. Funds for projects for industrial technology development established under the Industrial Technology Innovation Promotion Act;

2. Funds for promotion and industrial foundation of small and medium enterprises established under the Small and Medium Enterprises Promotion Act.

(3) The Minister of Environment may request cooperation necessary for providing support to recycling businesses, from the heads of the relevant central administrative agencies in charge of administering the funds referred to in the subparagraphs of paragraph (2).

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 32 Deleted. <by Act No. 7296, Dec. 31, 2004>

Article 33 (Specifications and Quality Standards of Recycled Products)

The Minister of Trade, Industry and Energy may set specifications and quality standards of each item of recycled products in consultation with the Minister of Environment. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 34 (Development, etc. of Recycling Complexes) (1) The State, local governments or any person prescribed by Presidential Decree may develop recycling complexes in order to foster the recycling industry and enhance the competitiveness of the recycling industry.

(2) The development of recycling complexes as referred to in paragraph (1) shall be subject to the procedure for designation and development of national or local industrial complexes under the Industrial Sites and Development Act.

(3) Matters necessary for the development, management and operation of recycling complexes shall be prescribed by Presidential Decree.

(4) The State or local governments may devise measures to enable recycling businesses to preferentially occupy factory sites supplied by the State or local governments.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 34-2 (Subsidies for Development of Recycling Complexes)

In cases where a local government or a person prescribed by Presidential Decree develops a recycling complex under Article 34 (1), the State may subsidize the expenses needed to develop such recycling complex.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 34-3 (Lending, Use, etc. of State and Public Assets) (1) The State or local governments may, when deemed necessary for the expansion of recycling facilities, and development and operation of recycling complexes, establish a private contract for the lending, use or profit-making of state and public assets or sell state and public assets, notwithstanding the State Properties Act or the Public Property and Commodity Management Act.

(2) The details and conditions of the lending, use, profit-making, sale, etc. of state and public assets under paragraph (1) shall be subject to what is provided for in the State Properties Act or the Public Property and Commodity Management Act.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 34-4 (Establishment of Public Recycling Infrastructure) (1) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, and the head of a Si/Gun/Gu shall establish facilities to collect, keep, sort and treat bulky wastes and recyclable resources prescribed by Presidential Decree. <Amended by Act No. 12319, Jan. 21, 2014>

(2) The Special Metropolitan City Mayor, Metropolitan City Mayors, and Do Governors may provide financial and technical support to the heads of Sis/Guns/Gus who establish facilities referred to in paragraph (1), and may offer advice necessary for increasing efficiency in installing and operating such facilities.

(3) When it is necessary to collect, keep, sort, and treat bulky wastes and recyclable resources generated in at least two of a Special Self-Governing City, Special Self-Governing Province, and Si/Gun/Gu in an interstate level, the Special Metropolitan City Mayor, Metropolitan City Mayors, Mayor of a Special Self-Governing City, Do Governors, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may jointly establish and operate the facilities referred to in paragraph (1). <Amended by Act No. 12319, Jan. 21, 2014>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 34-5 (Installation, etc. of Facilities for Facilitating Recycling) (1) The State or a local government may install and operate pre-treatment facilities to recover recyclable resources to the utmost extent through mechanical treatment processes, such as crushing, grinding and sorting, or biological treatment processes, such as aerobic or anaerobic decomposition, prior to the treatment of wastes by means of incineration or reclamation.

(2) If deemed necessary for taking measures to facilitate recycling prior to the final treatment of wastes generated in at least two of the Special Metropolitan City, a Metropolitan City, Special Self-Governing City, Do, Special Self-Governing Province, and Si/Guns/Gu, the State or a local government may install and operate the facilities under paragraph (1) solely or jointly. <Amended by Act No. 12319, Jan. 21, 2014>

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 34-6 (Criteria and Indices, etc. for Assessment of Recycling of Resources) (1) The Minister of Environment may set and operate criteria and indices with which to analyze the generation, recycling, treatment, etc. of wastes and manage them.

(2) The Minister of Environment shall assess the outcomes of recycling of resources pursuant to the criteria and indices under paragraph (1) and endeavor to reflect the result of the assessment in policies for recycling of resources.

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 34-7 (Provision, etc. of Information on Recycling of Resources) (1) The Minister of Environment shall endeavor to provide people with knowledge and information on the recycling of resources.

(2) The Minister of Environment may generate and disseminate knowledge and information

on the recycling of resources and establish and operate a resources recycling information system to facilitate the generation and dissemination.

(3) The Minister of Environment may request the head of a relevant central administrative agency to submit data necessary for the establishment and operation of a resources recycling information system. In such cases, the head of the relevant central administrative agency shall act upon such request unless there is any special reason not to do so.

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 34-8 (Establishment of Voluntary Agreement) (1) The Minister of Environment or the head of a local government may conclude an agreement with a waste discharging business, recycling business, manufacturer, etc. or organization comprised thereof (hereinafter referred to as "voluntary agreement") in order to control the generation of wastes and facilitate recycling.

(2) Necessary matters concerning the objective of a voluntary agreement, method and procedure of fulfillment, etc. shall be prescribed by Ordinance of the Ministry of Environment or Municipal Ordinance of a local government concerned.

(3) The Minister of Environment or the head of a local government may provide a person who has concluded a voluntary agreement under paragraph (1) with assistance necessary for the fulfillment of such voluntary agreement.

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 34-9 (International Cooperation for Facilitation of Recycling of Resources) (1) The State shall devise necessary measures, such as exchange and provision of information and holding international conferences for the promotion of international cooperation for facilitation of recycling of resources.

(2) The Minister of Environment may promote projects in the following subparagraphs to promote international cooperation under paragraph (1):

1. Investigation and research for international cooperation related to recycling of resources;
2. International exchange of manpower and information related to recycling of resources;
3. Holding exhibitions and seminars related to recycling of resources;
4. Development of overseas markets for the fostering of recycling industries;
5. Other projects deemed necessary for the promotion of international cooperation.

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

CHAPTER V SUPPLEMENTARY PROVISIONS

Article 35 (Resources Recycling Association) (1) Persons prescribed by Presidential Decree such as producers obligated to recycle, cooperatives, producers of recycled products and collectors of recyclable resources may establish an association for the facilitation of recycling (hereinafter referred to as the "Resources Recycling Association"), with the permission of the Minister of Environment as prescribed by Presidential Decree.

(2) The Minister of Environment may subsidize the expenses incurred from the operation of the Resources Recycling Association within the budgetary limit.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 35-2 (Financial and Technical Assistance, etc.)

To facilitate the recycling of resources, the State may provide necessary financial and technical assistance to a local government or an operator who conducts following projects, or a relevant agency, organization, etc. prescribed by Presidential Decree, and coordinate such projects (limited to projects referred to in subparagraphs 3 and 5, for which the State provides financial assistance): <Amended by Act No. 12076, Aug. 13, 2013; Act No. 12319, Jan. 21, 2014>

1. Assessment of recyclability of resources of products under Article 8-2;
2. Technological development, installation of facilities, etc. necessary for manufacturers, etc. under Article 15 to reuse products or parts;
3. Installation and operation of facilities installed by a local government under Article 34-5;
- 3-2. Projects for disseminating knowledge and information on the recycling of resources under Article 34-7;
4. Projects to enhance international cooperation under Article 34-9;
5. Installation and operation of waste-to-energy facilities established by a local government;
6. Other projects deemed necessary to facilitate the recycling of resources by the Minister of Environment.

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 35-3 (Legislative and Financial Measures, etc.)

The State and local governments shall take legislative and financial measures necessary for the implementation of policies to facilitate the recycling of resources.

[This Article Newly Inserted by Act No. 8948, Mar. 21, 2008]

Article 36 (Reporting, Inspections, etc.) (1) The Minister of Environment, competent Ministers, the Metropolitan Autonomous City Mayor, the Special Self-Governing Province Governor, or the head of each Si/Gun/Gu may require any of the following persons to file a necessary report or submit data, if necessary for ascertaining whether he/she meets the criteria of the subparagraphs of Article 9 (1), or in cases prescribed by Ordinance of the Ministry of Environment, direct a relevant public official to inspect relevant documents, facilities, equipment, etc. by entering the facility, business site, workplace, etc.: <Amended by Act No. 11788, May 22, 2013; Act No. 12076, Aug. 13, 2013; Act No. 12319, Jan. 21, 2014; Act No. 13036, Jan. 20, 2015>

1. Manufacturers, etc. referred to in Article 9 (1);
2. Business operators referred to in Article 10;
3. Manufacturers or importers subject to waste charges imposed under Article 12;
4. Wastes dischargers referred to in Article 12-3;
5. Manufacturers reusing empty containers, wholesalers, and retailers referred to in Article 15-2;
6. Producers obligated to recycle under Article 16;
7. Outsourcing contractors that assume the recycling of products and packing materials under a contract with producers obligated to recycle under Article 16 (2) 2;

8. Designated recycling business operators referred to in Article 23;
 9. Designated by-product discharging business operators referred to in Article 25;
 10. Persons who install and operate energy recovery facilities under Article 25-3;
 11. Importers or manufacturers of solid fuels reported under Article 25-4;
 12. Users of solid fuels reported under Article 25-7;
 13. Cooperatives established under Article 27;
 14. Distribution support centers established under Article 28-2.
- (2) Public officials who conduct on-site inspections under paragraph (1) shall carry a certificate indicating their authority and produce it to related persons.
- (3) A person referred to in paragraph (1) 3, 5 through 10, 13 and 14 shall keep books of accounts and keep records and preserve them, as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 12319, Jan. 21, 2014>
- (4) In order to direct a public official to conduct an on-site inspection pursuant to paragraph (1), the Minister of Environment, competent ministers, the Metropolitan Autonomous City Mayor, the Special Self-Governing Province Governor, or the head of each Si/Gun/Gu shall inform the relevant inspectee of the inspection plan that includes the date and details of, and grounds for such inspection, seven days prior to the scheduled date of such inspection: Provided, That the same shall not apply where urgent notice is required or giving a prior notice can defeat the purposes of the inspection due to the destruction of evidence, etc. <Amended by Act No. 12319, Jan. 21, 2014; Act No. 13036, Jan. 20, 2015>
- [This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 36-2 (Building and Operation of Operation and Management Information System) (1) The Minister of Environment may build and operate an operation and management information system necessary for processing matters prescribed by Ordinance of the Ministry of Environment (hereinafter referred to as "operation and management information system"), such as management of information on the fulfillment of obligations by producers obligated to recycle wastes, cooperatives, distribution support centers, etc., and on the transfer and acceptance of empty containers and recyclable resources.

(2) The Minister of Environment may, where deemed necessary, authorize a relevant specialized institution, such as the Corporation, to perform duties related to the building and operation of the operation and management information system on behalf of the Minister.

(3) Where the Minister of Environment authorizes the relevant specialized institution to perform duties on behalf of him/her under paragraph (2), he/she may grant subsidies to cover the expenses incurred.

[This Article Newly Inserted by Act No. 13036, Jan. 20, 2015]

Article 36-3 (Obligation of Producers Obligated to Recycle Wastes, etc. to Prepare and Submit Management Cards) (1) Every producer obligated to recycle wastes, cooperative, distribution support center, and outsourcing contractor that assumes the recovery, reuse or recycling process of empty containers or recyclable resources under a contract therewith shall prepare and submit a management card that states information on the transfer,

acceptance, etc. of empty containers or recyclable resources (hereinafter referred to as "management card") in compliance with the guidelines publicly notified by the Minister of Environment: Provided, That where information on the transfer, acceptance, etc. of empty containers or recyclable resources is transmitted via the operation and management information system, the management card shall be deemed prepared and submitted.

(2) Information on confidential management or business information collected by operating the operation and management information system shall be protected, and shall not be used for a purpose other than for facilitating the recovery and recycling of recyclable resources.

[This Article Newly Inserted by Act No. 13036, Jan. 20, 2015]

Article 37 (Cooperation from Relevant Agencies)

When the Minister of Environment deems it necessary to attain the purpose of this Act, he/she may require the head of a relevant administrative agency to do any of the following. In such cases, the head of the relevant administrative agency shall comply with such request, except in extenuating circumstances:

1. Submit materials necessary for formulating policies to facilitate recycling of resources;
2. Cooperate in matters necessary for formulating master plans;
3. Other matters prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 38 (Delegation and Entrustment of Authority) (1) The Minister of Environment or the competent minister may delegate part of his/her authority under this Act to the Special Metropolitan City Mayor, Metropolitan City Mayors, Mayor of a Special Self-Governing City, Do Governors, the Governor of a Special Self-Governing Province, or the heads of regional environmental offices, as prescribed by Presidential Decree. <Amended by Act No. 12319, Jan. 21, 2014>

(2) The Minister of Environment or the competent minister may entrust part of his/her duties under this Act to a relevant specialized institution, such as the Corporation, as prescribed by Presidential Decree. <Amended by Act No. 9433, Feb. 6, 2009>

[This Article Wholly Amended by Act No. 8948, Mar. 21, 2008]

Article 38-2 (Hearings)

The Ministry of Environment shall hold a hearing in any of the following circumstances: <Amended by Act No. 12319, Jan. 21, 2014>

1. Where he/she intends to issue an order prohibiting the importation, manufacturing, or use of solid fuels pursuant to Article 25-10 (1) or the main body of Article 25-10 (2);
2. Where he/she intends to revoke authorization pursuant to Article 28-5.

[This Article Wholly Amended by Act No. 12076, Aug. 13, 2013]

CHAPTER VI PENAL PROVISIONS

Article 39 (Penal Provisions)

Any of the following persons shall be punished by imprisonment for not more than three years, or by a fine not exceeding 30 million won:

1. A person who imports or manufactures solid fuels after filing a report by fraudulent or other

illegal means, in violation of Article 25-4 (1) or (2);

2. A person who imports or manufactures solid fuels after undergoing a quality inspection by fraudulent or other illegal means, in violation of Article 25-5 (1);

3. A person who uses solid fuels in a facility other than a facility to use such solid fuels, in violation of Article 25-7 (2);

4. A person who imports, manufactures or uses solid fuels during a period for prohibition, in violation of an order prohibiting the importation, manufacturing, or use of solid fuels under Article 25-10 (1) or the main body of Article 25-10 (2).

[This Article Wholly Amended by Act 12319, Jan. 21, 2014]

Article 39-2 (Penal Provisions)

Any of the following persons shall be punished by imprisonment for not more than one year, or by a fine not exceeding ten million won:

1. A person who allows a third person to import or manufacture solid fuels using his/her trade name or name, or lends his/her certificate of reports to a third person, in violation of Article 25-4 (5);

2. A person who imports or manufactures solid fuels non-compliant with quality standards (excluding moisture standard) under Article 25-5 (1);

3. A person fails to request an inspection necessary for placing a quality mark, in violation of Article 25-6 (2), or indicates differently from the results of the inspection under the same paragraph;

4. A person who fails to undergo a regular inspection of manufacturing facility and facility to use solid fuels, in violation of Article 25-8 (1);

5. A person who manufactures or uses solid fuels using relevant facility without implementing an improvement order, in violation of Article 25-8 (3);

6. A person who fails to observe the permissible emission levels for dioxin, in violation of Article 25-9 (2).

[This Article Newly Inserted by Act 12319, Jan. 21, 2014]

Article 40 (Joint Penal Provisions)

If the representative of a corporation, or an agent, employee, or other servant of the corporation or an individual commits a violation under Article 39 or 39-2 in connection with the business of the corporation or the individual, not only shall such violator be punished, but the corporation or the individual shall also be punished by a fine under the relevant Article: Provided, That this shall not apply where such corporation or individual has not been negligent in giving due attention and supervision concerning the relevant business to prevent such violation.

[This Article Wholly Amended by Act No. 12319, Jan. 21, 2014]

Article 41 (Administrative Fines) (1) Each of following persons shall be punished by an administrative fine not exceeding three million won: <Amended by Act No. 11788, May 22, 2013; Act No. 12319, Jan. 21, 2014; Act No. 13036, Jan. 20, 2015>

1. A person who fails to comply with standards for the quality of packing materials, methods

of packing for products, and goals of the annual reduction of packing materials made of synthetic resin under Article 9 (1);

2. A person who disobeys an order to undergo an inspection under Article 9 (3);

3. A person who uses, or offers a disposable product free of charge, in violation of Article 10;

4. A person who fails to place a separate discharge mark or a false mark, in violation of Article 14;

5. A person who fails to refund the container deposit, in violation of Article 15-2 (3);

6. A person who fails to pay handling fees, in violation of Article 15-2 (4);

6-2. A person who fails to place a mark “container deposit refundable” and “reusable” , in violation of Article 15-2 (6);

7. A person who uses unclaimed deposits, in violation of Article 15-3 (1);

7-2. A person who indicates certification without obtaining the certification for fulfilling his/her obligation to recycle, in violation of Article 17-2 (3);

8. A person who fails to take necessary measures, in violation of an order to take measures under Article 25-2 (2);

9. A person who imports or uses solid fuels without reporting, in violation of Article 25-4 (1) or (2);

10. A person who fails to report on modification, in violation of Article 25-4 (4);

11. A person who fails to place a quality mark, in violation of 25-6 (1);

12. A person who fails to report on the use, etc. of solid fuels, in violation of Article 25-7 (1);

13. A person who fails to observe any of the matters for environmental control, in violation of Article 25-9 (1);

14. A person who fails to report on succession to rights and obligations, in violation of Article 25-13 (2);

15. A person who fails to enter information in the information management system, in violation of Article 25-14 (2);

16. A person who fails to submit a report or data under Article 36 (1), submits a false report or data, or refuses, obstructs or evades a public official’ s on-site inspection.

(2) Each of the following persons shall be punished by an administrative fine not exceeding one million won: <Amended by Act No. 11788, May 22, 2013; Act No. 12076, Aug. 13, 2013; Act No. 13036, Jan. 20, 2015>

1. A person who disobeys an order to take measures issued under Article 12-3 (2);

2. A person who fails to submit a plan to fulfill the obligation for recovery and recycling, or a report on the outcomes of fulfilling the obligation for recovery and recycling under Article 18;

3. A person who fails to keep records or preserve books of accounts, or keeps false records under Article 36 (3).

(3) Administrative fines under paragraphs (1) and (2) shall be imposed and collected by the Minister of Environment, competent ministers, the Metropolitan Autonomous City Mayor, the Special Self-Governing Province Governor, or the head of each Si/Gun/Gu, as prescribed by Presidential Decree. <Newly Inserted by Act No. 12319, Jan. 21, 2014>

Article 42 Deleted. <by Act No. 12319, Jan. 21, 2014>

ADDENDA (Omitted)

31. Promotion of Installation of Waste Disposal Facilities and Assistance, etc. to Adjacent Areas Act

[Enforcement Date 27. Dec, 2016.] [Act No.14480, 27. Dec, 2016., Amendment by Other Act]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to contribute to environmental conservation and to improvement in the quality of nationals' livelihood by facilitating installation of waste disposal facilities and promotion of residents' welfare of the adjacent areas through promoting the securing of sites for waste disposal facilities and support for the residents of adjacent areas.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 2 (Definitions)

The definitions of terms used in this Act shall be as follows:

1. The term "waste disposal facilities" means the waste disposal facilities defined under Article 2 of the Wastes Control Act;
2. The term "agencies installing waste disposal facilities" means persons under the following items:

(a) The Minister of Environment or the head of a local government (including an association of local government agencies incorporated under Article 159 of the Local Autonomy Act; hereinafter the same shall apply) intending to install and operate following waste disposal facilities:

- (i) Waste landfill facilities, the created area of which is larger than 150,000 square meters, with a daily landfill capacity of 300 tons or more;
- (ii) Waste incineration facilities with a daily treatment capacity of 50 tons or more;
- (iii) Other waste disposal facilities determined and announced by the Minister of Environment in consideration of the environmental impact on the adjacent areas (referring to facilities installed by the Minister of Environment only) or prescribed by Municipal Ordinance of a local government (referring to the facilities installed by a local government);

(b) The president of Sudokwon Landfill Site Management Corporation (hereinafter referred to as the "president of Sudokwon Landfill Site Management Corporation") intending to install and operate waste disposal facilities of subitem (i) or subitem (ii) of item (a) under the Act on the Establishment and Management of Sudokwon Landfill Site Management Corporation.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 3 (Inclusion in National Land Planning)

Where the Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a

Special Self-Governing City, a Do Governor, the Governor of a Special Self-Governing Province, the head of a Si or a Gun formulates a comprehensive Do plan or a comprehensive Si/Gun plan pursuant to the Framework Act on the National Land, he/she shall reflect a plan for installation of waste disposal facilities for disposal of waste produced from the relevant local government in such comprehensive plan as prescribed by Presidential Decree. <Amended by Act No. 12077, Aug. 13, 2013>

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 4 (Inclusion in Urban or Gun Master Plan)

Where the Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun formulates an Si or Gun master plan pursuant to Article 18 of the National Land Planning and Utilization Act, he/she shall include a comprehensive Do plan under Article 3, a multi-districts development plan under Article 5 of the Balanced Regional Development and Support for Local Small and Medium Enterprises Act, and a plan for installation of waste disposal facilities included in a master plan for waste control under Article 9 of the Wastes Control Act, by putting them together in such urban or Gun master plan. <Amended by Act No. 12077, Aug. 13, 2013>

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 5 (Installation and Operation of Waste Disposal Facilities in Accordance with Development of Industrial Complex, etc.)(1) A person who intends to develop, install, or

enlarge any of the following industrial complex or factory shall directly install and operate waste disposal facilities prescribed by Presidential Decree for disposal of waste produced from such industrial complex, etc. or have another person install and operate such facilities: <Amended by Act No. 13170, Feb. 3, 2015>

1. Which discharges waste exceeding the amount prescribed by Presidential Decree;
2. Which exceeds the scale prescribed by Presidential Decree;
3. Deleted. <by Act No. 13170, Feb. 3, 2015>

(2) A person who intends to develop, install, or enlarge a tourist resort or a tourist complex that fulfills all the following requirements (referring to a tourist resort or a tourist complex under the Tourism Promotion Act; hereinafter the same shall apply) shall directly install and operate waste disposal facilities prescribed by Presidential Decree for disposal of waste produced from such tourist resort or tourist complex or have another person install and operate such facilities: Provided, That where the amount of waste discharged does not exceed the amount prescribed by Presidential Decree, he/she shall pay the amount of money corresponding to the expenses for installation of waste disposal facilities to the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, the head of a Si/Gun or the head of a Gu (referring to the head of an autonomous Gu; hereinafter the same shall apply): <Newly Inserted by Act No. 13170, Feb. 3, 2015>

1. Which discharges waste exceeding the amount prescribed by Presidential Decree;
2. Which exceeds the scale prescribed by Presidential Decree.

(3) In cases falling under paragraphs (1) and (2), a person who intends to install waste disposal facilities in any place other than the relevant industrial complex, factory, tourist resort, or tourist complex due to unavoidable circumstances shall make an installation plan, as prescribed by Presidential Decree, to obtain approval from the Minister of Environment, the Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, a Do Governor, or the Governor of a Special Self-Governing Province, according to the following distinction. The same shall also apply when modifying approved matters: <Amended by Act No. 12077, Aug. 13, 2013; Act No. 13170, Feb. 3, 2015>

1. Waste disposal facilities to be installed extending over the Special Metropolitan City, a Metropolitan City, a Special Self-Governing City, and a Do which are different from each other: The Minister of Environment;

2. Other waste disposal facilities: The Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, a Do Governor, or the Governor of a Special Self-Governing Province, who has the jurisdiction over the area where the installation of waste disposal facilities is intended.

(4) Necessary matters concerning the method of calculating the amount to pay under the proviso to paragraph (2), the payment procedure therefor, etc. shall be prescribed by Presidential Decree. <Newly Inserted by Act No. 13170, Feb. 3, 2015>

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 6 (Installation, etc. of Waste Disposal Facilities in Accordance with Housing Lot Development Project)

(1) A person who intends to develop an apartment complex or housing lots exceeding the scale prescribed by Presidential Decree shall install waste disposal facilities prescribed by Presidential Decree for disposal of waste produced from such apartment complex or housing lots, or pay an amount equivalent to the expenses for such installation to the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, the head of a Si/Gun, or the head of a Gu, having jurisdiction over the relevant area. <Amended by Act No. 12077, Aug. 13, 2013; Act No. 13170, Feb. 3, 2015>

(2) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, and the head of a Si/Gun, or the head of a Gu shall use the amount received under paragraph (1) for the installation of waste disposal facilities for disposal of waste produced from the relevant apartment complex or housing lots. <Amended by Act No. 12077, Aug. 13, 2013>

(3) If a person who is to pay an amount equivalent to the expenses for installation under paragraph (1) fails to pay such amount within the payment deadline, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, the head of a Si/Gun, or the head of a Gu shall collect such amount of money in the same manner as delinquent local taxes are collected. <Amended by Act No. 12077, Aug. 13, 2013>

(4) Matters necessary for the method of calculation of an amount of money to be paid, the procedure for payment, etc. under paragraph (1) shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 7 (Securing Sites for Waste Disposal Facilities)

Any person who should install waste disposal facilities under Article 5 or Article 6 (1) shall take measures to include a plan for securing a site for such facilities in the plan for development, establishment, and enlargement of the industrial complex concerned in advance.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 8 (Graded Application of Fees for Waste Disposal)

The head of a local government operating waste disposal facilities may, when he/she collects fees for disposal of waste at such waste disposal facilities, collect additional dues for the waste brought from the areas other than Si/Gun or Gu (referring to autonomous Gu; hereinafter the same shall apply) where such waste disposal facilities are installed in addition to collecting such fees within the extent as prescribed by Municipal Ordinance of the local government concerned (referring to the articles of association in cases of the association of local government agencies incorporated under Article 159 of the Local Autonomy Act; hereinafter the same shall apply) prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

CHAPTER II PROMOTION OF PROJECTS INSTALLING WASTE DISPOSAL FACILITIES

Article 9 (Selection of Locations of Waste Disposal Facilities)(1) An agency installing waste disposal facilities shall, where it intends to install and operate waste disposal facilities, determine and publicly announce a plan for selection of such locations: Provided, That where it falls under any of the following subparagraphs, the same shall not apply:

1. Where it installs waste disposal facilities pursuant to Article 5;
2. In cases of installing waste disposal facilities pursuant to Article 6 (1), where the volume of waste to be brought from the areas other than the relevant apartment complex or housing lots and to be treated does not exceed 50/100 of the disposal capacity of such facilities.

(2) Matters under the following subparagraphs shall be included in a plan for selection of location under the main sentence of paragraph (1):

1. Types and volume of production of waste subject to disposal;
2. Areas subject to waste disposal;
3. Types and scale of waste disposal facilities;
4. Standards for and methods of selection of location.

(3) Where an agency installing waste disposal facilities has publicly announced a plan for selection of locations under paragraph (1), it shall, without delay, establish the Location Selection Committee (hereinafter referred to as the "Location Selection Committee") in which the representative of residents participate to select locations of the relevant waste disposal facilities as prescribed by Presidential Decree.

(4) When the Location Selection Committee selects a location pursuant to paragraph (3), it shall have the institution selected by the Location Selection Committee from among the specialized research institutions prescribed by Presidential Decree examine the

appropriateness of the location of the site proposed in advance and shall consider such result of examination: Provided, That where the Location Selection Committee deems it unnecessary for the specialized research institution to examine the appropriateness of the location of a proposed site, it may omit the examination or substitute a written opinion of examination by the related experts prescribed by Presidential Decree for the examination.

(5) The Location Selection Committee may, where a majority of the heads of households residing in the area prescribed by Presidential Decree desire the installation of waste disposal facilities in such areas pursuant to the plan for selection of a location under paragraph (1), conduct the examination on the appropriateness of the location of a proposed site under paragraph (4) for such area only.

(6) The Location Selection Committee shall open the process of the examination on the appropriateness of the location of a proposed site and the results of such examination (where it has omitted the examination of the appropriateness or substituted a written opinion of examination by the relevant experts for the examination pursuant to the proviso to paragraph (4), referring to the reason of such omission or such written opinion of examination) under paragraphs (4) and (5) to the residents of the relevant area. In such cases, an agency installing waste disposal facilities shall provide necessary support for opening to the public.

(7) Where the Location Selection Committee intends to select a place the distance of which from the boundary of another local government (excluding the association of local government agencies incorporated pursuant to Article 159 of the Local Autonomy Act; hereinafter the same shall apply in this paragraph) to the boundary of the site of relevant facilities is within a two-kilometer radius as the location when selecting the location pursuant to paragraph (3), it shall, before selecting the location, request an agency installing waste disposal facilities to consult with the head of the local government concerned with the attachment of the results of the examination on the appropriateness of the location of a proposed site and the data for the reason, etc. of selection of such site as the location. In such cases, if an agency installing waste disposal facilities fails to consult with the head of the adjacent local government, it shall make an application for adjustment to the National Environmental Dispute Resolution Commission under Article 4 of the Environmental Dispute Mediation DAct. <Amended by Act No. 11267, Feb. 1, 2012>

(8) If an agency installing waste disposal facilities intends to modify important matters prescribed by Presidential Decree, such as the area of site of the location selected pursuant to paragraph (3), etc., it shall obtain the consent of the Location Selection Committee. In such cases, unless the Location Selection Committee has been established, it shall be established in application of paragraph (3) *mutatis mutandis*.

(9) When the Location Selection Committee under paragraph (8) consents to the modification of the area of site of the location, where the distance from the boundary of the site after the modification to the boundary of another local government is within a two-kilometer radius, it shall request an agency installing waste disposal facilities to consult with

the head of the local government concerned before it consents to such modification. In such cases, if an agency installing waste disposal facilities fails to consult with the head of the local government concerned, the latter part of paragraph (7) shall apply mutatis mutandis.

(10) Matters necessary for the operation of the Location Selection Committee under paragraph (3) and the latter part of paragraph (8) shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 10 (Determination, Announcement, etc. of Location of Waste Disposal Facilities)

(1) An agency installing waste disposal facilities shall, where it has selected a location for waste disposal facilities under Article 9, determine and announce such location and offer its drawings for public perusal for not less than one month. The same shall also apply to cases where it modifies important matters prescribed by Presidential Decree from among the announced matters. <Amended by Act No. 8810, Dec. 27, 2007>

(2) and (3) Deleted. <by Act No. 5867, Feb. 8, 1999>

(4) Where an agency installing waste disposal facilities intends to determine and announce a location for waste disposal facilities under paragraph (1), it shall consult with the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, the head of a Si/Gun, or the head of a Gu, having jurisdiction over the site concerned. <Amended by Act No. 8810, Dec. 27, 2007; Act No. 12077, Aug. 13, 2013>

(5) Contents of the announcement of a location for waste disposal facilities under paragraph (1) and other necessary matters shall be prescribed by Presidential Decree. <Amended by Act No. 8810, Dec. 27, 2007>

Article 11 (Legal Fiction as Area of Use for Location outside Urban Area)

Where the area for installation of waste disposal facilities the location of which has been announced pursuant to Article 10 is located outside the urban area under subparagraph 1 of Article 6 of the National Land Planning and Utilization Act, it shall be deemed that such area has been designated as the planned control area pursuant to Article 36 (1) of the same Act and that such facilities have been determined as the urban or Gun planning facilities pursuant to Article 43 (1) of the same Act. <Amended by Act No. 12077, Aug. 13, 2013>

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 11-2 (Restrictions, etc. on Activities within Location of Waste Disposal Facilities)

(1) A person who intends to engage in any activity falling under any of the following subparagraphs within the location of waste disposal facilities publicly announced pursuant to Article 10 (1) shall obtain permission from the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, the head of a Si/Gun, or the head of a Gu. The same shall also apply to cases where he/she intends to modify matters prescribed by Presidential Decree from among the permitted matters: <Amended by Act No. 12077, Aug. 13, 2013>

1. Making changes in the form and quality of land;
2. Construction of buildings and structures;
3. Installation of structures;

4. Gathering of earth, stone, sand, or gravel;
5. Division of land prescribed by Presidential Decree;
6. Open-air storage of objects prescribed by Presidential Decree.

(2) If the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province Governor, the head of a Si/Gun, or the head of a Gu intends to grant permission under paragraph (1), he/she shall consult with an agency installing waste disposal facilities in advance. <Amended by Act No. 12077, Aug. 13, 2013>

(3) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, the head of a Si/Gun, or the head of a Gu may order a person who has violated paragraph (1) to restore to the original state. <Amended by Act No. 12077, Aug. 13, 2013>
[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 11-3 (Approval, etc. of Plans for Installation of Waste Disposal Facilities)(1) An agency installing waste disposal facilities shall, where it has announced the location of waste disposal facilities pursuant to Article 10 (1), formulate a plan for installation of waste disposal facilities.

(2) The head of a local government or the president of the Sudokwon Landfill Site Management Corporation shall, where he/she has formulated a plan for installation of waste disposal facilities pursuant to paragraph (1), obtain approval from the Minister of Environment. The same shall also apply to cases where he/she modifies matters prescribed by Presidential Decree from among the approved matters.

(3) Where the Minister of Environment has formulated a plan for installation of waste disposal facilities pursuant to paragraph (1) or has approved a plan for installation of waste disposal facilities pursuant to paragraph (2), he/she shall publicly announce such plan in the official gazette, internet media, such as homepage, and at least one central daily newspaper, respectively.

(4) Matters to be included in the plan for installation of waste disposal facilities under paragraph (1) shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 12 (Legal Fiction, etc. as Authorization, Permission, etc. under Other Statutes)(1) Where the plan for installation of waste disposal facilities has been publicly announced pursuant to Article 11-3 (3), it shall be deemed that an agency installing waste disposal facilities has obtained permission, designation, authorization, approval, recognition, decision, license, and announcement, and public notice falling under any of the following subparagraphs: <Amended by Act Nos. 8819 & 8820, Dec. 27, 2007; Act No. 8976, Mar. 21, 2008; Act Nos. 9758 & 9763, Jun. 9, 2009; Act No. 10272, Apr. 15, 2010; Act No. 10331, May 31, 2010; Act No. 12077, Aug. 13, 2013; Act No. 12248, Jan. 14, 2014; Act No. 14480, Dec. 27, 2016>

1. Permission under Article 11-2 (1);
2. Approval of the installation of waste disposal facilities under Article 29 (2) of the Wastes Control Act;

3. Permission for development activities under Article 56 (1) of the National Land Planning and Utilization Act, designation and announcement of a project performer of the urban or Gun planning facilities under Article 86 of the same Act, and formulation, authorization, and announcement of the implementation plan under Articles 88 and 91 of the same Act;
4. Authorization of water supply projects under Articles 17 and 49 of the Water Supply and Waterworks Installation Act and authorization of the installation of exclusive water supply under Articles 52 and 54 of the same Act;
5. Permission for the performance of public sewerage works under Article 16 of the Sewerage Act;
6. Permission for the occupancy or use of public waters under Article 8 of the Public Waters Management and Reclamation Act, approval or reporting of the implementation plan for the occupancy or use of public waters under Article 17 of the same Act, approval of a reclamation license for public waters under Article 28 of the same Act, and the implementation plan for the reclamation of public waters under Article 38 of the same Act;
7. Permission for the performance of harbor works under Article 9 (2) of the Harbor Act and approval of the implementation plan under Article 10 (2) of the same Act;
8. Permission for the performance of river conservation works under Article 30 of the River Act, and permission for the occupancy of river under Article 33 of the same Act, and permission for the use of river water under Article 50 of the same Act;
9. Designation of the route of road under Articles 14 through 18 and 20 of the Road Act, determination of road zones under Article 25 of the same Act, permission for the implementation of road works by a person who is not a road management agency under Article 36 of the same Act, and permission for the occupancy and use of a road under Article 61 of the same Act;
10. Permission for the diversion of farmland under Article 34 of the Farmland Act;
11. Permission for and reporting of the diversion of mountainous districts under Articles 14 and 15 of the Mountainous Districts Management Act, permission for and reporting of the temporary use of mountainous districts under Article 15-2 of the same Act, permission for and reporting of stumpage felling, etc. under Article 36 (1) and (4) of the Creation and Management of Forest Resources Act, and permission for and reporting of any activity in a forest conservation area (excluding a conversation area for forest genetic resources) under Article 9 (1) and (2) 1 and 2 of the Forest Protection Act;
12. Permission for felling, etc. under Article 14 of the Erosion Control Work Act, and cancellation of the designation of erosion control land under Article 20 of the same Act;
13. Permission for the diversion of grassland under Article 23 of the Grassland Act;
14. Permission for the construction of private roads under Article 4 of the Private Road Act;
15. Permission for the reinterment of graves placed in another person's land, etc. under Article 27 of the Act on Funeral Services, Etc.;
16. Permission for the use of facilities other than the purpose of the infrastructure for agricultural production under Article 23 of the Rearrangement of Agricultural and Fishing

Villages Act;

17. Deleted. <by Act No. 10272, Apr. 15, 2010>

(2) Where the Minister of Environment intends to determine or approve a plan for the installation of waste disposal facilities, including matters falling under the subparagraphs of paragraph (1), he/she shall consult thereon with the head of the relevant administrative agency. In such cases, the head of the relevant administrative agency shall submit his/her opinion within 20 days from his/her receipt of a request for consultation made by the Minister of Environment, and if no opinion is submitted within such period, it shall be deemed that the consultation has been satisfactorily completed. <Amended by Act No. 12077, Aug. 13, 2013>

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 13 (Mediation of Disputes on Foreseeable Losses, etc.)(1) Where it is foreseeable that the installation and operation of waste disposal facilities under a plan for installation of waste disposal facilities under Article 11-3 will cause losses to residents in the adjacent areas of such waste disposal facilities, an agency installing waste disposal facilities shall take measures therefor.

(2) Where a dispute arises on the foreseeable losses due to the installation of waste disposal facilities under a plan for installation of waste disposal facilities under Article 11-3, one or both parties concerned may file an application for the dispute settlement with the Environmental Dispute Adjustment Committee under the Environmental Dispute Mediation Act. <Amended by Act No. 11267, Feb. 1, 2012>

(3) The Environmental Dispute Mediation Act shall apply to the resolution under paragraph (2). In such cases, the resolution under paragraph (2) shall be deemed the resolution under the same Act. <Amended by Act No. 11267, Feb. 1, 2012>

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 14 (Expropriation or Use of Land, etc.)(1) An agency installing waste disposal facilities may, where it announces a location for waste disposal facilities under Article 10, may expropriate or use the land, etc. of the following subparagraphs necessary for the installation of waste disposal facilities and the execution of measures for rehabilitation in the area included in such announcement:

1. Land, buildings and other objects fixed on such land;
2. Rights other than ownership on land, buildings and objects fixed on such land.

(2) When applying paragraph (1), where the location of waste disposal facilities has been determined and announced, it shall be deemed that a project has been approved and the approval of the project has been publicly announced under Articles 20 (1) and 22 of the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects, and an application for adjudication shall be made within three years from the date when the location of waste disposal facilities has been publicly announced, notwithstanding Articles 23 (1) and 28 (1) of the same Act.

(3) The Act on Acquisition of and Compensation for Land, etc. for Public Works Projects shall

be applied to the expropriation or use under paragraph (1) except for the matters especially prescribed in this Act.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 15 (Support for Residents in Location of Facilities)

An agency installing waste disposal facilities may provide support for residents residing in the site for the relevant waste disposal facilities as prescribed by Presidential Decree in consideration of the loss of their livelihood base, etc. caused by the installation of such waste disposal facilities: Provided, That the same shall not apply to persons who are to be rehabilitated according to the measures for rehabilitation under Article 18.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 16 Deleted. <by Act No. 5867, Feb. 8, 1999>

CHAPTER III SUPPORT, ETC. FOR ADJACENT AREAS AFFECTED BY WASTE DISPOSAL FACILITIES

Article 17 (Determination and Announcement of Affected Adjacent Areas)(1) An agency installing waste disposal facilities shall determine and announce the adjacent areas to be environmentally affected by the installation and operation of such waste disposal facilities (hereinafter referred to as the "affected adjacent areas") within the period prescribed by Presidential Decree from the date when the plan for installation of waste disposal facilities under Article 11-3 has been publicly announced.

(2) Where an agency installing waste disposal facilities intends to determine and announce the affected adjacent areas pursuant to paragraph (1), it shall have a specialized research institution selected by the Residents Support Consultative Body organized pursuant to Article 17-2 (hereinafter referred to as the "Support Consultative Body") investigate the environmental impact and shall collect the results of such investigation: Provided, That where the Support Consultative Body does not deem it necessary to investigate the environmental impact on the adjacent areas, it may omit the investigation concerned or substitute it by the written opinion of examination by related experts.

(3) The affected adjacent areas shall be classified as follows:

1. Sphere of direct influence: An area where the rehabilitation of residents deemed necessary because it is anticipated that activities of humans and animals, agricultural products, stock farming products, forest products or fishery products may fall under direct environmental influence as a result of investigation on the environmental impact pursuant to paragraph (2);

2. Sphere of indirect influence; An area, as an area within the extent prescribed by Presidential Decree, other than the sphere of direct influence which is anticipated to be environmentally affected as a result of investigation on the environmental impact pursuant to paragraph (2): Provided, That where it is deemed especially necessary, an area outside the extent prescribed by Presidential Decree may be included.

(4) A person who owns land, etc. in the area determined as the sphere of direct influence under paragraph (3) may request an agency installing the waste disposal facilities concerned

to purchase his/her land, etc. as prescribed by Presidential Decree. In such cases, the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects shall be applied to such purchase.

(5) An agency installing waste disposal facilities shall use the land purchased pursuant to paragraph (4) for convenience and beneficial facilities for residents or green belt under Articles 20 and 23 and for other purposes prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 17-2 (Criteria for Composition of Support Consultative Body, Function thereof, etc.)

(1) An agency installing waste disposal facilities shall organize the Support Consultative Body from among members of the municipal assembly of the Special Self-Governing City, Special Self-Governing Province, or Si/Gun/Gu of the location of the waste disposal facilities concerned, the representative of residents, and experts recommended by the representative of residents in consultation with the competent Mayor of the Special Self-Governing City, Governor of a Special Self-Governing Province, head of the Si/Gun/Gu, and the municipal assembly of the Special Self-Governing City, Special Self-Governing Province, or Si/Gun/Gu. However, a person falling under any of the following subparagraphs shall not be a constituent of the Support Consultative Body: <Amended by Act No. 12077, Aug. 13, 2013; Act No. 12322, Jan. 21, 2014; Act No. 12622, May 20, 2014>

1. A person who is declared incompetent under the adult guardianship or was declared bankrupt and has not been reinstated;
2. A person in whose case two years have not passed since his/her imprisonment without labor or greater punishment, as declared by a court, was completely executed (including cases where it is deemed that such execution has been completed) or exempted;
3. A person who is under the suspension of the execution of imprisonment without labor or greater punishment as declared by a court;
4. A person whose qualification has been suspended or repudiated by the law or a decision of the court;
5. A person in whose case two years have not passed since the punishment of a fine of not less than one million won, as declared by a court, by reason of violating Article 355 or 356 in connection with his/her duty during the period of service as a constituent of the Support Consultative Body became final and conclusive.

(2) The function of the Support Consultative Body shall be as follows: <Amended by Act No. 13170, Feb. 3, 2015>

1. Selection of a specialized research institution for investigation of environmental impact under Article 17 (2);
2. Consultation on the installation of convenience and beneficial facilities for residents of areas under Article 20;
3. Consultation on projects of support for residents of affected adjacent areas under Article 22 (5);
4. Recommendation of resident monitors under Article 25 (1);

5. Other matters prescribed by Presidential Decree.

(3) Detailed methods of composition of the Support Consultative Body shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 18 (Measures for Rehabilitation)(1) An agency installing waste disposal facilities may, where it installs waste disposal facilities exceeding the scale prescribed by Presidential Decree, may take measures for rehabilitation of residents of the site for the facilities concerned and in the sphere of direct influence thereof.

(2) The Act on Acquisition of and Compensation for Land, etc. for Public Works Projects shall be applied to the measures for rehabilitation under paragraph (1).

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 19 (Inclusion in Regional Development Plan)(1) Where a plan for installation of waste disposal facilities under Article 11-3 for waste disposal facilities exceeding the scale prescribed by Presidential Decree has been publicly announced, the head of a local government (excluding the association of local government agencies incorporated pursuant to Article 159 of the Local Autonomy Act; hereinafter the same shall apply in this paragraph) shall include the matters promoting the regional development, such as the inducement of industries for areas adjacent to such facilities and the expansion of infrastructures, etc. in the regional development plan of the relevant areas.

(2) The Minister of Environment or the president of the Sudokwon Landfill Site Management Corporation may request the Special Metropolitan City Mayor, the Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Do Governor, the Governor of the Special Self-Governing Province, or the head of the Si/Gun, having jurisdiction over the affected adjacent areas to reflect the matters promoting regional development in the regional development plan pursuant to paragraph (1). <Amended by Act No. 12077, Aug. 13, 2013>

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 20 (Installation of Convenience and Beneficial Facilities for Residents)

An agency installing waste disposal facilities shall install convenience and beneficial facilities for residents of the area, such as physical training facilities, etc. in the site for the relevant waste disposal facilities or in the adjacent area in consultation with the Support Consultative Body as prescribed by Presidential Decree: Provided, That where the Support Consultative Body does not desire the installation of all or part of such convenience and beneficial facilities, it may contribute an amount of money equivalent to expenses for installation of such facilities to the residents support fund under Article 21.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 21 (Creation of Residents Support Fund)(1) An agency installing waste disposal facilities shall create a residents support fund to provide support for residents in the affected adjacent areas.

(2) The residents support fund shall be created by the following financial resources:

1. Contributions from an agency installing waste disposal facilities;

2. An amount of money calculated as prescribed by Presidential Decree from among the fees collected for waste brought in the relevant waste disposal facilities;
3. Additional dues under Article 8;
4. Earnings accruing from the management of the fund;
5. Contributions from other local governments intending to bring and treat waste in the waste disposal facilities concerned.

(3) The Minister of Environment may delegate affairs of the operation and management of the residents support fund created pursuant to paragraph (1) to the Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, a Do Governor, or the Governor of a Special Self-Governing Province. <Amended by Act No. 12077, Aug. 13, 2013>

(4) The operation and management of the residents support fund and other necessary matters shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2008]

Article 22 (Support for Affected Adjacent Areas with Residents Support Fund)(1) The residents support fund under Article 21 shall be used for projects to subsidize the increase of income and the promotion of welfare of the residents of the affected adjacent areas.

(2) Kinds and amounts of money for support projects under paragraph (1) may vary as classified by the sphere of direct influence and the sphere of indirect influence.

(3) Support under paragraph (1) may be provided by residents or by households of the affected adjacent areas.

(4) Agencies installing waste disposal facilities shall disclose detailed plans for the support projects referred to in paragraph (1) and the performance result of the previous year. <Newly Inserted by Act No. 13170, Feb. 3, 2015>

(5) Necessary matters, such as types of support projects, standards for and methods of support, details to be disclosed, and method of disclosure under paragraphs (1) through (4) shall be prescribed by Presidential Decree. <Amended by Act No. 13170, Feb. 3, 2015>

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 23 (Standards for Installation of Facilities, such as Subsidiary Facilities, etc.)(1) An agency installing waste disposal facilities shall install subsidiary facilities, such as landscaping, dustproof and soundproof facilities, etc. around access roads in order to prevent environmental pollution of the affected adjacent areas.

(2) Necessary matters, such as types and standards for installation of subsidiary facilities, etc. under paragraph (1) shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 24 Deleted. <by Act No. 5396, Aug. 28, 1997>

Article 25 (Surveillance by Local Residents)(1) An agency installing waste disposal facilities may, if the Support Consultative Body requests, have local residents recommended by the Support Consultative Body (hereinafter referred to as "resident watchers") monitor the process, etc. of bringing in and disposal of waste.

(2) An agency installing waste disposal facilities shall supervise the activities of resident monitors under paragraph (1) and pay allowances thereto according to the following standards:

1. Where an agency installing waste disposal facilities is the Minister of Environment: Standards determined and announced by the Minister of Environment;
2. Where an agency installing waste disposal facilities is the head of a local government: Standards as prescribed by Municipal Ordinance of the local government concerned;
3. Where an agency installing waste disposal facilities is the president of the Sudokwon Landfill Site Management Corporation: Standards determined and announced by the president of the Sudokwon Landfill Site Management Corporation.

(3) Number and scope of activities of resident monitors under paragraph (1) shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 25-2 (Qualifications for Resident Monitors)

Resident monitors shall be persons who have been residing in the affected adjacent area for not less than two years consecutively at the time of appointment and experts with extensive knowledge on and experience in environmental field (limited to a person residing in the area to which wastes are brought to the relevant waste disposal facilities), who are recommended by the Support Consultative Body: Provided, That a person falling under any of the following subparagraphs shall not be a resident monitor: <Amended by Act No. 12622, May 20, 2014>

1. A person who is declared incompetent under the adult guardianship or a person who was declared bankrupt and has not been reinstated;
2. A person in whose case two years have not passed since his/her imprisonment without labor or greater punishment, as declared by a court, was completely executed (including cases where it is deemed that such execution has been completed) or exempted;
3. A person who is under the suspension of the execution of imprisonment without labor or greater punishment as declared by a court;
4. A person whose qualification has been suspended or repudiated by the law or a decision of the court.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 26 (Investigation of Environmental Impact and Disclosure to the Public)

An agency installing waste disposal facilities which has installed and operates waste disposal facilities exceeding the scale prescribed by Presidential Decree shall regularly investigate the environmental impact thereof on the adjacent areas due to such installation and operation and disclosure such environmental impact to the public as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

CHAPTER IV SUPPLEMENTARY PROVISIONS

Article 27 (Support, etc. for Private Capital Inducement Project)

The Minister of Environment or the head of a local government may provide financial and administrative support to a person who intends to install waste disposal facilities pursuant to the Balanced Regional Development and Support for Local Small and Medium Enterprises Act and the Act on Public-Private Partnerships in Infrastructure.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 28 (Support for Installation of Comprehensive Waste Disposal Facilities)

The Minister of Environment and the head of a local government may provide financial support to any person who installs or intends to install waste disposal facilities comprehensively handling the matters of the following subparagraphs for the efficient disposal of waste:

1. Reduction of volume of waste by compression, crushing, sorting or such;
2. Recycling of waste and covering waste to compost;
3. Reduction or elimination of harmful components of waste;
4. Incineration or landfill of waste.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 29 (Research and Development, etc.)

The Minister of Environment and the head of a local government may have a specialized research institution prescribed by Presidential Decree promote research and development, and provide financial support therefor to develop and disseminate the technology of installation and operation of waste disposal facilities.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 30 (Delegation and Entrustment of Authority and Operations)(1) The authority of the Minister of Environment under this Act may be partially delegated to the Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, a Do Governor, the Governor of a Special Self-Governing Province, or the head of a local environmental government agency as prescribed by Presidential Decree. <Amended by Act No. 12077, Aug. 13, 2013>

(2) The Minister of Environment or the head of a local government may, if deemed necessary to effectively manage and operate waste disposal facilities installed pursuant to this Act, entrust an agency prescribed by Presidential Decree with such management and operation.

(3) When applying the provisions of Articles 129 through 132 of the Criminal Act, it shall be deemed that executive officers and employees of an agency which has been entrusted with affairs by the Minister of Environment, the Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, a Do Governor, and the Governor of a Special Self-Governing Province are public officials pursuant to paragraph (2). <Amended by Act No. 12077, Aug. 13, 2013>

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

CHAPTER V PENALTY PROVISIONS

Article 31 (Penalty Provisions)

Any person who, without permission under Article 11-2 (1), has engaged in any conduct

falling under any of the subparagraphs of the same paragraph or a person who has violated an order for restoration to original state under paragraph (3) of the same Article shall be punished by a fine not exceeding 3,000,000 won.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

Article 32 (Joint Penalty Provisions)(1) If the representative, an agent, an employee, or any other employed person of a juristic person commits an act in violation of Article 31 with respect to the affairs of such juristic person, not only shall such an offender be punished, but such juristic person shall be also punished by a fine under each relevant Article.

(2) If an agent, an employee, or any other employed person of an individual commits an act in violation of Article 31 with respect to the affairs of such individual, not only shall such offender be punished but such individual shall also be punished by a fine under each relevant Article.

[This Article Wholly Amended by Act No. 8810, Dec. 27, 2007]

ADDENDA (Omitted)

32. Water Quality and Aquatic Ecosystem Conservation Act

[Enforcement Date 28. Jun, 2017.] [Act No.14490, 27. Dec, 2016., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to prevent harm to citizens' health and environmental hazards due to water pollution and to appropriately manage and preserve water quality and aquatic ecosystems of public waters, including rivers, lakes and marshes, in order to enable citizens to enjoy benefits accruing from such endeavors, and leave such benefits to future generations

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 2 (Definitions)

The terms used in this Act are defined as follows: <Amended by Act No. 13879, Jan. 27, 2016>

1. The term "point pollution source" means any single source of pollution from which water pollutants are discharged to a certain point through conduits, waterways, etc., which includes, but not limited to, a wastewater discharge facility, sewage-generating facility, and a pen;
2. The term "non-point pollution source" means any source from which water pollutants at unspecified places, such as a city, road, farmland, mountainous area, and a construction site, are discharged in an unspecified manner;
3. The term "other water pollution source" means other facilities or places discharging water pollutants, which are not managed as point pollution sources and non-point pollution sources and are prescribed by Ordinance of the Ministry of Environment;
4. The term "wastewater" means water mixed with liquid or solid water pollutants, which cannot be used as it is for any purpose;

5. The term "stormwater runoff" means rainwater, snowmelt, etc. mixed with water pollutants discharged from non-point pollution sources that flows over the ground;
6. The term "impermeable layer" means any asphalt or concrete-paved road, parking lot, sidewalk, etc. that prevents rainwater, snowmelt, etc. from soaking into the ground;
7. The term "water pollutant" means any substance prescribed by Ordinance of the Ministry of Environment, which causes water pollution;
8. The term "specific substance harmful to water quality" means any water pollutant prescribed by Ordinance of the Ministry of Environment, which is likely to harm, either directly or indirectly, human health, property, or the growth of animals and plants;
9. The term "public waters" means rivers, lakes, marshes, harbors, coastal seas, other waters used for public purposes, and waterways prescribed by Ordinance of the Ministry of Environment, which are connected to the aforesaid waters and used for public purposes;
10. The term "wastewater discharge facility" means any facility, machine, equipment, and other objects prescribed by Ordinance of the Ministry of Environment, which discharge water pollutants: Provided, That excluded herefrom are ships and maritime facilities, as defined in subparagraph 16 and 17 of Article 2 of the Marine Environment Management Act;
11. The term "wastewater non-discharge facility" means any wastewater discharge facility which does not discharge wastewater to public waters by treating wastewater generated by wastewater discharge facilities using water pollution prevention facilities in the relevant place of business, or by reusing wastewater for the same wastewater discharge facilities;
12. The term "water pollution prevention facility" means any facility prescribed by Ordinance of the Ministry of Environment, which removes or reduces water pollutants discharged from point pollution sources, non-point pollution sources, and other water pollution sources;
13. The term "facility reducing non-point source pollution" means any facility prescribed by Ordinance of the Ministry of Environment, which removes or reduces water pollutants discharged from non-point pollution sources, among water pollution prevention facilities;
14. The term "lake and marsh" means water and land in any of the following full-water-level places or areas (referring to a planned flood level in cases of a dam):
 - (a) A place where the flowing water of a river or valley is stored by a dam, reservoir, dike, etc. (excluding any erosion control facilities installed under the Erosion Control Work Act);
 - (b) A place where the flowing water of a river is naturally stored;
 - (c) A caved in-area by any volcanic activity and filled with water;
15. The term "water manager" means any person who manages a lake and marsh pursuant to other Acts and subordinate statutes. In such cases, where at least two persons manage the same lake and marsh, the person, other than the river management authority designated under the River Act, shall be the water manager;
16. The term "lake and marsh serving as a water source" means any lake and marsh prescribed and announced by the Minister of Environment, where water intake facilities referred to in subparagraph 17 of Article 3 of the Water Supply and Waterworks Installation Act are established inside or outside such lake and marsh (hereinafter referred to as "water

intake facilities") to use the water of that lake and marsh as potable water, among lakes and marshes located outside any water-source protection area designated pursuant to Article 7 of the Water Supply and Waterworks Installation Act (hereinafter referred to as "water source protection area") and any special-measures area designated pursuant to Article 38 of the Framework Act on Environmental Policy (hereinafter referred to as "special-measures area") to preserve water quality;

17. The term "public wastewater treatment facility" means any treatment facility to treat wastewater in a public wastewater treatment area and discharge treated wastewater into public waters, and ancillary facilities;

18. The term "public wastewater treatment area" means an area designated by the Minister of Environment pursuant to Article 49 (3), where wastewater can be discharged into public wastewater treatment facilities for treatment;

19. The term "water play facility" means any facility installed and made available to the general public for water play in direct contact with their body, among artificial structures, such as fountains, ponds, falls and streamlets, which artificially store, circulate and use tap water, ground water, etc.: Provided, That the following are excluded herefrom:

(a) An amusement facility or structure for water play activities, which is installed by a person who has obtained permission or has reported to conduct amusement facility business pursuant to Article 5 (2) or (4) of the Tourism Promotion Act;

(b) A swimming pool among sports facilities referred to in Article 3 of the Installation and Utilization of Sports Facilities Act;

(c) A place in which a signboard and a fence is installed to inform that a facility is not for water play, or to which a warden is assigned to prevent people from playing in the water, as prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 3 (Responsibilities and Duties)(1) The State and local governments shall formulate policies to prevent the contamination or degradation of water quality and aquatic ecosystems and to properly recover contaminated or degraded water quality and aquatic ecosystems in order to manage and preserve the water quality and aquatic ecosystems of public waters, such as rivers, lakes and marshes, and further ensure that all citizens could live in a healthy and pleasant environment.

(2) All citizens shall reduce the production of water pollutants in their daily lives and business activities, and pro-actively participate and cooperate in policies implemented by the State or local governments to preserve water quality and aquatic ecosystems.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 4 (Total Water Pollution Load)(1) The Minister of Environment may control the total load of water pollutants discharged in each sphere of influence of the river basin classified under Article 22 (2) with regard to any of the following regions: Provided, That in cases of a region subject to the Act on Water Management and Resident Support in the Geum River Basin, the Act on Water Management and Resident Support in the Nakdong River Basin,

the Act on Water Management and Resident Support in the Yeongsan and Seomjin River Basins, and the Act on the Improvement of Water Quality and Support for Residents of the Han River Basin (hereinafter referred to as "Acts on four major River Basins"), the total water pollution load shall be controlled, as prescribed by the relevant provisions of the Acts on four major River Basins, and in cases of a region subject to the total pollution load control under the Marine Environment Management Act, the total water pollution load shall be controlled, as prescribed by the relevant provisions of the Marine Environment Management Act:

1. A region belonging to the basin of a river system where the target standards for water quality and aquatic ecosystems fail to be achieved and maintained as a result of the evaluation conducted under Article 10-2 (2) and (3);
2. A region belonging to the basin of a river system where water pollution is deemed likely to cause serious harm to the health or property of residents or aquatic ecosystems.

(2) The Minister of Environment shall designate and publicly announce regions subject to the total pollution load control pursuant to paragraph (1), as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 4-2 (Public Notice or Announcement of Target Water Quality to be Achieved by Total Pollution Load Control and Formulation of Basic Guidelines for Total Pollution Load Management)

(1) The Minister of Environment shall determine and publicly notify the target water quality to be achieved by the total pollution load control (hereinafter referred to as "target water quality to be achieved by the total pollution load control") for each section of a river system, as prescribed by Presidential Decree, in consideration of the status of use and water quality of the river system of the regions designated and publicly notified under Article 4 (2) (hereinafter referred to as "region subject to the total pollution load control"): Provided, That the foregoing shall not apply where a Special Metropolitan City Mayor, a Metropolitan City Mayor, a Special Self-Governing City Mayor, a Do Governor, and a Special Self-Governing Province Governor (hereinafter referred to as "Mayor/Do Governor") publicly announces the target water quality to be achieved by the total pollution load control for each section of a river system located within the jurisdiction of the relevant City/Do upon obtaining approval from the Minister of Environment, as prescribed by Presidential Decree, in order to achieve the target water quality by the total pollution load control at the boundary points of the Special Metropolitan City, the Metropolitan City, the Special Self-Governing City, the Do, and the Special Self-Governing Province (hereinafter referred to as "City/Do") determined and publicly notified by the Minister of Environment.

(2) In order to achieve and maintain the target water quality by the total pollution load control, the Minister of Environment shall formulate basic guidelines for quantity regulation of pollutants (hereinafter referred to as "basic guidelines for the total pollution load management") including matters prescribed by Presidential Decree, in consultation with the related Mayor/Do Governor and related agencies, and notify the related Mayor/Do Governor thereof.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 4-3 (Formulation, etc. of Master Plans for Total Pollution Load Management)(1)

Every Mayor/Do Governor who has jurisdiction over a region subject to the total pollution load control shall formulate a master plan, including the following matters, (hereinafter referred to as "master plan for the total pollution load management") in accordance with basic guidelines for the total pollution load management, and obtain approval thereof from the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment. The same shall also apply to any alteration to the important matters prescribed by Presidential Decree in the master plan for the total pollution load management:

1. Details of the plan to develop the relevant region;
2. Allotment of pollution loads to each local government, and each section of the river system;
3. Total pollution loads discharged in his/her jurisdictional region and a reduction plan thereof;
4. Pollution loads additionally discharged based on the plan to develop the relevant region and a reduction plan thereof.

(2) Requirements for granting approval of master plans for the total pollution load management shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 4-4 (Formulation, Implementation, etc. of Action Plans for Total Pollution Load Management)(1)

The Special Metropolitan City Mayor, a Metropolitan City Mayor, a Special Self-Governing City Mayor, a Special Self-Governing Province Governor, or the head of a Si/Gun (excluding the head of a Gun within a Metropolitan City; hereafter the same shall apply in this Article) who has jurisdiction over the region which fails to achieve or maintain the target water quality, as prescribed by Ordinance of the Ministry of Environment, among the regions subject to the total pollution load control, shall formulate an action plan in accordance with the relevant master plan for the total pollution load management (hereinafter referred to as "action plan for the total pollution load management") and implement such action plan after obtaining approval from the Minister of Environment or the competent Mayor/Do Governor, as prescribed by Presidential Decree. The same shall also apply to any alteration to the important matters prescribed by Presidential Decree in the action plan for the total pollution load management.

(2) The Special Metropolitan City Mayor, a Metropolitan City Mayor, a Special Self-Governing City Mayor, a Special Self-Governing Province Governor, or the head of a Si/Gun who implements an action plan for the total pollution load management pursuant to paragraph (1) (hereinafter referred to as "head of a local government in charge of the total pollution load management") shall prepare an evaluation report of the action plan for the total pollution load management of the preceding year, and submit the report to the head of a regional environment office, as prescribed by Ordinance of the Ministry of Environment. In such cases, the head of a Si/Gun shall submit such report via the competent Do Governor.

(3) Where the head of a regional environment office deems it necessary to smoothly implement an action plan for the total pollution load management after having reviewed the

report submitted under paragraph (2), he/she may request the head of a local government in charge of the total pollution load management to formulate and implement necessary actions or measures. In such cases, the head of the local government shall comply therewith, except in exceptional circumstances.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 4-5 (Allotment, etc. of Pollution Loads to each Facility)(1) Where deemed necessary to achieve and maintain the target water quality by the total pollution load control, the Minister of Environment may allot the pollution load or designate the discharge quantity, by final discharge outlet, and by unit period, to facilities prescribed by Presidential Decree, to which any of the following standards or limits applies, as prescribed by Ordinance of the Ministry of Environment. In such cases, the Minister of Environment shall consult with the head of the competent local government in charge of the total pollution load management in advance:

1. Standards for effluent water quality established under Article 12 (3);
2. Permissible discharge limits set under Article 32;
3. Standards for effluent water quality established under Article 7 of the Sewerage Act;
4. Standards for effluent water quality established under Article 13 of the Act on the Management and Use of Livestock Excreta.

(2) Where deemed necessary to achieve and maintain the target water quality by the total pollution load control, the head of a local government in charge of the total pollution load management may allot the pollution load or designate the discharge quantity, by final discharge outlet, and by unit period, to facilities prescribed by Ordinance of the Ministry of Environment to which the standards or limits referred to in paragraph (1) apply, other than the facilities prescribed by Presidential Decree under paragraph (1), as prescribed by Ordinance of the Ministry of Environment.

(3) Where the Minister of Environment or the head of a local government in charge of the total pollution load management allots the pollution load or designates the discharge quantity pursuant to paragraph (1) or (2), he/she shall hear the opinions of interested persons in advance, and take necessary measures to inform interested persons of the details thereof.

(4) Any person who installs or operates facilities to which the pollution load or the discharge quantity has been allotted or designated pursuant to paragraph (1) or (2) (hereinafter referred to as "business operator, etc. who has been allotted pollution load") shall have such facilities equipped with a device that can measure the pollution load and the discharge quantity, and conscientiously record and keep the measurement readings, as prescribed by Presidential Decree: Provided, That the foregoing shall not apply to business operators, etc. who have installed measuring instruments under Article 38-3.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 4-6 (Disposition Orders, etc. to Persons who have Discharged Water Pollutants in Excess of Alloted Pollution Load)(1) The Minister of Environment or the head of a local government in charge of the total pollution load management may order any person who

discharges water pollutants in excess of the pollution load or the discharge quantity allotted or designated under Article 4-5 (1) or (2) (hereinafter referred to as "allotted pollution load, etc.") to improve the relevant water pollution prevention facilities or take other necessary dispositions.

(2) A person in receipt of a disposition order under paragraph (1) shall implement such order after submitting a plan for improvement to the Minister of Environment or the head of a local government in charge of the total pollution load management, as prescribed by Ordinance of the Ministry of Environment.

(3) Article 45 shall apply mutatis mutandis to the reporting and confirmation of implementation of a disposition order under paragraph (2). In such cases, "improvement order, order to suspend operation, order to suspend use, or order for closure under Article 38-4 (2), 39, 40, 42, or 44" shall be construed as "disposition order under Article 4-6 (1)", and "the Minister of Environment" as "the Minister of Environment, or the head of a local government in charge of the total pollution load management", respectively.

(4) Where any person in receipt of a disposition order issued under paragraph (1) fails to comply with such order, or continues exceeding the allotted pollution load, etc. based on the inspection despite his/her compliance with the order within the given period, the Minister of Environment or the head of a local government in charge of the total pollution load management may order him/her to fully or partially suspend the operation of the relevant facilities for a prescribed period not exceeding six months, or to close such facilities: Provided, That the Minister of Environment or the head of a local government in charge of the total pollution load management shall order the closure of the relevant facility in circumstances prescribed by Ordinance of the Ministry of Environment, where it is deemed impossible to reduce the discharge of pollutants below the allotted pollution load, etc. even if the relevant person improves water pollution prevention facilities or take necessary measures.

(5) Article 43 shall apply mutatis mutandis to penalty surcharges imposed in lieu of the suspension of operation under paragraph (4). In such cases, "the Minister of Environment" shall be construed as "the Minister of Environment or the head of a local government in charge of the total pollution load management"; "business operator" as "business operator, etc. who has been allotted pollution load"; "Article 42" as "Article 4-6 (4)"; and "in the same manner as delinquent national taxes are collected" as "in the same manner as delinquent national or local taxes are collected", respectively.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 4-7 (Charges for Excess of Total Pollution Load)(1) The Minister of Environment or the head of a local government in charge of the total pollution load management shall impose and collect charges for excess of total pollution load (hereinafter referred to as "charges for excess of total pollution load") from persons who have discharged pollutants in excess of the allotted pollution load, etc.

(2) Methods and criteria for calculating charges for excess of total pollution load, and other

necessary matters shall be prescribed by Presidential Decree.

(3) Upon imposing charges for excess of total pollution load pursuant to paragraph (1), the Minister of Environment or the head of a local government in charge of the total pollution load management shall deduct an effluent charge referred to in Article 41 or a penalty surcharge (only applicable to a penalty surcharge imposed regarding water quality) under Article 12 of the Act on the Control and Aggravated Punishment of Environmental Offenses, etc. from the charges for excess of total pollution load.

(4) Article 41 (4) through (8) shall apply mutatis mutandis to the payment, collection, etc. of charges for excess of total pollution load. In such cases, "the Minister of Environment" shall be construed as "the Minister of Environment or the head of a local government in charge of the total pollution load management," and "effluent charge" shall be construed as "charge for excess of total pollution load," respectively.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 4-8 (Support to Local Governments having Jurisdiction over Regions Subject to Total Pollution Load Control, Sanctions against Noncompliance, etc.)

(1) The State may partially subsidize the expenses incurred in relation to the total pollution load management to local governments which formulate and implement an action plan for the total pollution load management.

(2) No head of any related administrative agency shall grant approval, permission, etc. to implement, develop or install any of the following in the jurisdiction of a local government which exceed the pollution load allotted for the local government or for each section of the river system pursuant to Article 4-3 (1) 2 or fail to formulate and implement a master plan for the total pollution load management or an action plan for the total pollution load management, without exceptional circumstances:

1. An urban development project defined in Article 2 (1) 2 of the Urban Development Act;
2. An industrial site defined in subparagraph 8 of Article 2 of the Industrial Sites and Development Act;
3. A tourist destination or a tourism complex defined in subparagraph 6 or 7 of Article 2 of the Tourism Promotion Act;
4. A structure, including a building, of at least the scale prescribed by Presidential Decree.

(3) Where the head of a related administrative agency violates paragraph (2) or the head of a local government in charge of the total pollution load management fails to comply with a request made under Article 4-4 (3) without exceptional circumstances, the Minister of Environment or the heads of other related central administrative agency may suspend or reduce financial support, or take other necessary measures.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 4-9 (Inter-Agency Cooperation and Operation, etc. of Survey and Research Teams for Total Pollution Load Management)

(1) To build an information system for the efficient use of data necessary for total pollution load management, the Minister of Environment may request the submission of necessary data from the heads of related

agencies, including related central administrative agencies, local governments, and public institutions referred to in Article 4 of the Act on the Management of Public Institutions. In such cases, the heads of related agencies shall comply therewith, except in exceptional circumstances.

(2) The Minister of Environment may operate a survey and research team comprised of relevant experts, as prescribed by Ordinance of the Ministry of Environment, to adjust pollutants subject to the total pollution load control, and the target water quality for each section of the river system to be achieved by the total pollution load control, and to conduct reviews, surveys, and research on the total pollution load control.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 5 (Provision, etc. of Information)(1) The Minister of Environment shall build and operate a computer network for citizens to have easy access to the results of regular measurements and surveys under Article 9, the results of surveys of pollution sources under Article 23, the level of pollution and the discharged quantity of wastewater generated from wastewater discharge facilities, and other information prescribed by Ordinance of the Ministry of Environment.

(2) The Minister of Environment may request related administrative agencies and public institutions referred to in Article 4 of the Act on the Management of Public Institutions to provide data necessary to build and operate the computer network under paragraph (1). In such cases, the head of each related administrative agency or public institution in receipt of such request shall comply therewith, except in exceptional circumstances.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 6 (Support for Private Sector' s Activities to Preserve Water Quality and Aquatic Ecosystems)(1) The State and local governments may support local residents and non-governmental organizations in their voluntary activities to preserve water quality and aquatic ecosystems, and to monitor the pollution and damage of water quality and aquatic ecosystems. <Amended by Act No. 13879, Jan. 27, 2016>

(2) Each local government may fully or partially subsidize expenses incurred in establishing or operating a non-governmental organization referred to in paragraph (1). In such cases, standards for subsidies, eligible organizations, and other necessary matters shall be prescribed by municipal ordinance of such local government. <Newly Inserted by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 6-2 (Support for Survey and Research Activities on Water Quality and Aquatic Ecosystems)

The State or local governments may support survey and research activities on water quality and aquatic ecosystems performed by companies, universities, non-governmental organizations, government-funded research institutes, national or public research institutes, etc.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 7 (Support for Environment-Friendly Goods)

The Government may provide subsidies, etc. to the producers, sellers, or consumers of products that could prevent water pollution of rivers, lakes and marshes, etc. by saving water, reducing the use of synthetic compounds, including detergents, or reducing the generation of water pollutants, and may formulate policies for promoting technological development and related industries.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 8 Deleted. <by Act No. 8038, Oct. 4, 2006>

CHAPTER II PRESERVATION OF WATER QUALITY AND AQUATIC ECOSYSTEMS IN PUBLIC WATERS

SECTION 1 General Provisions

Article 9 (Regular Measurement, etc. of Water Quality)(1) To ascertain the water conditions of rivers, lakes and marshes, and other public waters prescribed by Ordinance of the Ministry of Environment (hereinafter referred to as "river, lake, and marsh") on a nationwide scale, the Minister of Environment shall build a measuring network; regularly measure the level of water pollution; and conduct a nationwide survey for such purposes as designating water pollutants and managing water quality. <Amended by Act No. 14490, Dec. 27, 2016>

(2) The Minister of Environment shall consult with the Minister of Land, Infrastructure and Transport to formulate a plan to survey the river districts defined in subparagraph 2 of Article 2 of the River Act among areas in which he/she intends to survey the water conditions, the status of aquatic ecosystems, and the healthiness of ecosystems pursuant to paragraph (1).

(3) A Mayor/Do Governor may building a measuring network, regularly measure the level of water pollution, and survey the water conditions, the status of aquatic ecosystems, and the health of aquatic ecosystems in his/her jurisdiction to ascertain the water conditions and the status of aquatic ecosystems in his/her jurisdiction. In such cases, he/she shall report the findings from such regular measurements or surveys to the Minister of Environment.

(4) Matters necessary for regular measurements and reporting under paragraphs (1) and (3) shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 9-2 (Surveying Status of Aquatic Ecosystems and Assessment of Aquatic Ecosystem Health)(1) The Minister of Environment shall conduct a nationwide survey on the status of aquatic ecosystems to formulate a plan for conserving aquatic ecosystems, and to predict changes in aquatic ecosystems due to development projects.

(2) A Mayor/Do Governor or the Mayor of a large city may survey the status of aquatic ecosystems within his/her jurisdiction if necessary to ascertain the conditions of aquatic ecosystems. In such cases, the Mayor/Do Governor or the Mayor of the large city shall report the results of the survey to the Minister of Environment.

(3) The Minister of Environment shall assess the health of aquatic ecosystems based on the results of the surveys conducted under paragraphs (1) and (2), and make public the findings

thereof.

(4) Matters necessary for surveying the status of aquatic ecosystems and reporting the results of the survey under paragraphs (1) and (2), and assessing the health of aquatic ecosystems and making public the findings of the assessment under paragraph (3) shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 14490, Dec. 27, 2016]

Article 10 (Determination and Public Notification of Plans for Building Measuring Networks)(1) The Minister of Environment shall determine a plan for building a measuring network which specifies the locations of the measuring network referred to in Article 9 (1), measurement items, the time frames and frequency of surveys and publicly notify such plan, as prescribed by Ordinance of the Ministry of Environment, and make the drawings of the measuring network available for public perusal. The same shall also apply to any amendment to the plan.

(2) Paragraph (1) shall apply mutatis mutandis where a Mayor/Do Governor builds a measuring network pursuant to Article 9 (3).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 10-2 (Determination and Evaluation of Target Criteria for Water Quality and Aquatic Ecosystems)(1) The Minister of Environment shall determine and publicly notify the target criteria for water quality and aquatic ecosystem (hereinafter referred to as "target criteria") of each sphere of influence of the river basin classified under Article 22 and each lake and marsh subject to surveys and measurements under Article 28, based on the use of the relevant river, lake and marsh, the current status of water quality and aquatic ecosystems, the healthiness of aquatic ecosystems, the current status of and prospects for pollution sources, etc.

(2) The Minister of Environment shall evaluate the following and disclose the results of the evaluation to the general public:

1. Whether the target criteria has been met;
2. Evaluation of hazards of potential harm to human or the ecosystem caused by water pollution of a river, lake or marsh.

(3) The determination and public notification of target criteria, the evaluation as to whether the target criteria has been met, and the disclosure of the results of the evaluation thereof under paragraphs (1) and (2), and other necessary matters, shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 10-3 Deleted. <by Act No. 13879, Jan. 27, 2016>

Article 11 (Relationship with other Acts)(1) When the Minister of Environment or a Mayor/Do Governor decides on and publicly notifies a plan for building a measuring network pursuant to Article 10, he/she shall be deemed to have obtained the following permission: <Amended by Act No. 12248, Jan. 14, 2014>

1. Permission to implement river works under Article 30 of the River Act, permission to

occupy and use a river under Article 33 of the aforesaid Act, and permission to use river water under Article 50 of the aforesaid Act;

2. Permission to occupy and use a road under Article 61 of the Road Act;

3. Permission to occupy and use, or to use public waters under Article 8 of the Public Waters Management and Reclamation Act.

(2) Where matters subject to permission referred to in the subparagraphs of paragraph (1) are included in a plan for building a measuring network under Article 10, the Minister of Environment or a Mayor/Do Governor shall consult with the heads of related agencies before he/she decides on and publicly notifies the plan for building such measuring network.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 12 (Installation, Management, etc. of Public Facilities)(1) Where deemed specifically necessary to prevent water pollution in public waters, the Minister of Environment may require a Mayor/Do Governor or the head of a Si/Gun/Gu (referring to the head of an autonomous Gu; hereinafter the same shall apply) to install and maintain sewer lines, a public wastewater treatment facility, a public sewage treatment facility defined in subparagraph 9 of Article 2 of the Sewerage Act (hereinafter referred to as "public sewage treatment facility"), or a waste disposal facility defined in subparagraph 8 of Article 2 of the Wastes Control Act (hereinafter referred to as "waste disposal facility"), etc. within their jurisdictions. <Amended by Act No. 13879, Jan. 27, 2016>

(2) Where the quality of water discharged from a public wastewater treatment facility exceeds the standards for effluent water quality established under paragraph (3), the Minister of Environment may require a person who has installed and manages the facility to improve such facility or take other necessary measures. <Amended by Act No. 13879, Jan. 27, 2016>

(3) Quality standards of water discharged from public wastewater treatment facilities (hereinafter referred to as "standards for effluent water quality") shall be prescribed by Ordinance of the Ministry of Environment after consultation with the heads of related central administrative agencies, and quality standards of water discharged from public sewage treatment facilities or waste disposal facilities shall be governed by the Sewerage Act or the Wastes Control Act. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 13 (Inclusion in National Land Planning)

Where a Mayor/Do Governor or the head of a Si/Gun formulates a Do comprehensive plan or Si/Gun comprehensive plan pursuant to the Framework Act on the National Land, he/she shall include management measures referred to in Article 22 (1), and a plan for building public sewage treatment facilities, human excreta treatment plants defined in subparagraph 10 of Article 2 of the Sewerage Act (hereinafter referred to as "human excreta treatment plant"), etc. in the relevant comprehensive plan in order to prevent pollution of public waters, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 14 (Inclusion in City/Gun Master Plans)

Where the Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun formulates a City/Gun master plan pursuant to Article 18 of the National Land Planning and Utilization Act, he/she shall consolidate the plans for establishing public sewage treatment facilities, human excreta treatment plants, etc. included in a Do comprehensive plan referred to in Article 13 and a multi-districts development project plan formulated under Article 5 of the Balanced Regional Development and Support for Local Small and Medium Enterprises Act, and include them in the relevant City/Gun master plan.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 15 (Prohibition of Discharge, etc.)(1) No person shall engage in any of the following activities without just cause: <Amended by Act No. 11862, Jun. 4, 2013; Act No. 12519, Mar. 24, 2014>

1. Leaking, discharging, or dumping a specific substance harmful to water quality, designated wastes under the Wastes Control Act, a petroleum product, a fake petroleum product, petroleum substitute fuel, or crude oil defined in the Petroleum and Petroleum Substitute Fuel Business Act (excluding petroleum gas; hereinafter referred to as "oils"), a toxic substance under the Chemicals Control Act (hereinafter referred to as "toxic substance"), or a pesticide defined in the Pesticide Control Act (hereinafter referred to as "pesticide") into public waters;
2. Dumping excreta, livestock excreta, animal corpses, wastes (excluding the designated wastes under the Wastes Control Act), or sludge into public waters;
3. Washing a motor vehicle in a river, lake or marsh;
4. Discharging or dumping earth and sand into public waters, in excess of the scale prescribed by Ordinance of the Ministry of Environment.

(2) Where any activity provided for in paragraph (1) 1, 2 or 4 causes or is likely to cause water pollution, the offender, a corporation to whom such offender belongs, and an employer of such offender (hereinafter referred to as "offender, etc.") shall take measures to prevent and eliminate pollution (hereinafter referred to as "prevention and elimination measures"), such as removing the relevant substances, as prescribed by Ordinance of the Ministry of Environment.

(3) Where an offender, etc. fails to take prevention and elimination measures as required under paragraph (2), the relevant Mayor/Do Governor may order the offender, etc. to implement such prevention and elimination measures.

(4) In any of the following circumstances, the relevant Mayor/Do Governor may take the relevant prevention and elimination measures on his/her behalf or require the head of the competent Si/Gun/Gu to implement such prevention and elimination measures on his/her behalf:

1. Where it is deemed impracticable to prevent or eliminate water pollution upon taking the relevant prevention and elimination measures only;

2. Where he/she fails to comply with an order issued under paragraph (3);
3. Where it is deemed impracticable to prevent or eliminate water pollution through the prevention and elimination measures taken by a person in receipt of an order to take prevention and elimination measures under paragraph (3);
4. Where the relevant offender, etc. cannot take prompt prevention and elimination measures in circumstances requiring urgent prevention and elimination measures.
- (5) Upon taking prevention and elimination measures on behalf of a person subject to an order to implement such measures under paragraph (4), the head of the Si/Gun/Gu may request support from the Korea Environment Corporation (hereinafter referred to as the "Korea Environment Corporation") established under the Korea Environment Corporation Act.
- (6) The Korea Environment Corporation shall consult with the head of the relevant Si/Gun/Gu about details of support before it provides support at the request of the head of such Si/Gun/Gu under paragraph (5),
- (7) When the Korea Environment Corporation has provided support at the request of the head of a Si/Gun/Gu under paragraph (5), the head of the Si/Gun/Gu shall reimburse expenses incurred in providing such support to the Korea Environment Corporation, as prescribed by Ordinance of the Ministry of Environment.
- (8) The Administrative Vicarious Execution Act shall apply to taking prevention and elimination measures on behalf of a person subject to an order to implement such measures under paragraph (4). In such cases, an order issued by a Mayor/Do Governor under paragraph (3) shall be construed as an order issued by the head of a Si/Gun/Gu (excluding vicarious execution by a Mayor/Do Governor).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 16 (Reporting of Water Pollution Incidents)

When a person who transports and stores oils, toxic substances, pesticides, or specific substances harmful to water quality pollutes water with the relevant substances, he/she shall immediately report thereon to related administrative agencies, such as a regional environment office, a City/Do or a Si/Gun/Gu (referring to an autonomous Gu).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 16-2 (Inspections as to whether Radioactive Materials, etc. Flow in)(1) The Minister of Environment shall inspect rivers, lakes, marshes, etc to ascertain whether radioactive materials or radioactive wastes defined in subparagraph 5 or 18 of Article 2 of the Nuclear Safety Act flow therein.

(2) If necessary for conducting inspections under paragraph (1), the Minister of Environment may request cooperation from the heads of administrative agencies, local governments, and other related institutions. In such cases, those in receipt of such request shall comply therewith, except in exceptional circumstances.

(3) Procedures and methods for conducting inspections under paragraph (1), and other necessary matters, shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 11670, Mar. 22, 2013]

Article 16-3 (Operation of Water Pollution Prevention Center)(1) The Minister of Environment shall operate a water pollution prevention center (hereinafter referred to as "Prevention Center") to quickly and effectively respond to water pollution incidents in public waters. In such cases, the Minister of Environment may require the Korea Environment Corporation to operate the Prevention Center on his/her behalf, as prescribed by Presidential Decree.

(2) The Prevention Center shall perform the following tasks:

1. Monitoring water pollution incidents in public waters;
2. Supporting prevention and elimination measures under Article 15 (6);
3. Establishing and operating facilities for keeping and storing equipment, materials, chemical, etc. used for water pollution incidents;
4. Education, training, research and development, and public relations related to technology to prevent and eliminate water pollution;
5. Collecting and treating water pollutants when water pollution incidents occur.

(3) The Minister of Environment may subsidize expenses incurred in operating the Prevention Center on his/her behalf, within the budgetary limits.

[This Article Newly Inserted by Act No. 11979, Jul. 30, 2013]

Article 16-4 (Building and Operating Information System on Prevention of Water Pollution)

The Prevention Center may build and operate an information system on prevention of water pollution, with which it may collect, analyze and manage information on water quality of nationwide rivers in real time, and promptly inform related administrative agencies of the occurrence of a water pollution incident.

[This Article Newly Inserted by Act No. 11979, Jul. 30, 2013]

Article 17 (Traffic Restrictions to Preserve Water Quality of Water Sources)(1) No driver of any motor vehicle transporting a substance that could pollute water sources if an accident, such as a rollover or fall, occurs, shall drive through a road or section prescribed by Ordinance of the Ministry of Environment pursuant to paragraph (4) among the following areas or zones or adjacent areas:

1. Water source protection areas;
2. Special-measures areas;
3. Riparian zones designated and publicly notified respectively under Article 4 of the Act on the Improvement of Water Quality and Support for Residents of the Han River Basin, Article 4 of the Act on the Management of Water and Resident Support in the Nakdong River Basin, Article 4 of the Act on Water Management and Resident Support in the Geum River Basin, and Article 4 of Water Management and Resident Support in the Yeongsan and Seomjin River Basins;
4. Areas prescribed by Ordinance of the Ministry of Environment because such areas may cause serious pollution to water sources.

(2) "Substance that could pollute water sources" referred to in paragraph (1) means any of the following substances:

1. Specific substances harmful to water quality;
2. Designated wastes as defined in subparagraph 4 of Article 2 of the Wastes Control Act (limited to liquid wastes and wastes prescribed by Ordinance of the Ministry of Environment);
3. Oils;
4. Toxic substances;
5. Pesticides and technical concentrate defined in subparagraphs 1 and 3 of Article 2 of the Pesticide Control Act;
6. Radioactive materials and radioactive wastes defined in subparagraphs 5 and 18 of Article 2 of the Nuclear Safety Act;
7. Other substances prescribed by Presidential Decree.

(3) The Commissioner General of the National Police Agency shall take the following measures if deemed necessary for placing traffic restrictions of motor vehicles under paragraph (1):

1. Installation of signs indicating traffic restrictions of motor vehicles;
2. Crackdown on motor vehicles that violate traffic restrictions.

(4) Roads, sections and motor vehicles, subject to traffic restrictions under paragraph (1), and other necessary matters, shall be prescribed by Ordinance of the Ministry of Environment after consultation with the Commissioner General of the National Police Agency. [This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 18 (Prevention of Water Pollution due to Occupancy and Use, or Reclamation of Land from Public Waters)(1) Any administrative agency that intends to permit or approve the occupancy and use of public waters or reclamation of land from public waters may attach conditions necessary to prevent the water pollution of such public waters.

(2) The details of the conditions attached under paragraph (1), methods for preventing water pollution, and other necessary matters, shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 19 (Recommendations, etc. on Cultivation of Specific Crops)(1) Where deemed necessary to preserve the water quality and aquatic ecosystem of public waters, a Mayor/Do Governor may recommend a person who cultivates crops in a river, lake or marsh area to change the kinds of crops intended for cultivation, and methods of cultivation, or to let such area lie fallow.

(2) The Mayor/Do Governor may compensate for losses sustained by cultivators from growing crops or letting their land lie fallow upon the recommendation made under paragraph (1).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 19-2 (Recommendation on Measures for Preserving Water Quality and Aquatic Ecosystems)(1) If it is found, as a result of the measurement and survey conducted under Article 9, that the water quality and aquatic ecosystems of a river, lake, and marsh could be

substantially deteriorated if left neglected, the Minister of Environment may recommend any manager of public waters (referring to the water manager, the river management agencies provided for in Article 8 of the River Act, the Special Self-Governing City Mayor, the Special Self-Governing Province Governor, and the head of a Si/Gun/Gu; hereinafter referred to as "public waters manager") to take measures necessary for preserving water quality and aquatic ecosystems. <Amended by Act No. 13879, Jan. 27, 2016>

(2) The Minister of Environment may partially subsidize expenses incurred in implementing any recommendation made under paragraph (1), within budgetary limits.

(3) The Minister of Environment may require a person in receipt of a recommendation to take measures to seek advice from a related specialized institution prescribed by Ordinance of the Ministry of Environment if deemed necessary for the person to implement the recommendation made under paragraph (1).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 19-3 (Purchase and Creation of Riparian Ecological Zones)(1) When deemed necessary for preserving the water quality and aquatic ecosystems of rivers, lakes and marshes, the Minister of Environment may purchase parcels of riparian wetland and riparian land meeting standards prescribed by Presidential Decree (hereinafter referred to as "riparian ecological zone") or ecologically create and manage such riparian wetland and riparian land, as prescribed by Ordinance of the Ministry of Environment.

(2) In cases prescribed by Presidential Decree, where it is inevitable to protect water sources in the jurisdictional area, a Mayor/Do Governor may purchase a riparian ecological zone in compliance with the standards under paragraph (1) or ecologically create and manage it, as prescribed by Ordinance of the Ministry of Environment.

(3) Land that consists of a river zone defined in subparagraph 2 of Article 2 of the River Act shall be excluded from land subject to purchase under paragraph (1) or (2).

(4) The Minister of Environment shall first consult with the heads of related central administrative agencies and the heads of competent local governments when selecting land subject to purchase or creation under paragraph (1).

(5) In purchasing land pursuant to paragraphs (1) and (2), criteria for selecting land subject to purchase, calculation of the purchase price, methods and procedures for purchase, and other necessary matters, shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 19-4 (Investigation of Discharging Facilities about Vulnerability to Climate Change and Recommendations)(1) The Minister of Environment may investigate wastewater discharge facilities, non-point pollution reduction facilities, public wastewater treatment facilities about their vulnerability to climate change, and recommend the improvement of facilities if such facilities are found vulnerable to climate change as a result of the investigation. <Amended by Act No. 13879, Jan. 27, 2016>

(2) Specific items of investigations conducted under paragraph (1), methods and procedures therefor, and other necessary matters, shall be prescribed by Ordinance of the Ministry of

Environment.

(3) The Minister of Environment may partially subsidize costs necessary for, or expenses incurred in, implementing the recommendation made under paragraph (1) for wastewater discharge facilities, non-point pollution reduction facilities, and public wastewater treatment facilities, within budgetary limits. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Newly Inserted by Act No. 11979, Jul. 30, 2013]

Article 20 (Restrictions on Fishing)(1) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may designate “no-take” zones or fishing-restricted zones, considering the purposes and the water quality of rivers (excluding national rivers and local rivers under Article 7 (2) and (3) of the River Act), lakes and marshes, and other factors, as prescribed by Presidential Decree. In such cases, he/she shall consult with the relevant water manager.

(2) A person who intends to fish in any fishing-restricted zone designated under paragraph (1) shall comply with matters prescribed by Ordinance of the Ministry of Environment, such as methods of and allowed periods for fishing. In such cases, the Minister of Environment shall consult with the Minister of Oceans and Fisheries when enacting an Ordinance of the Ministry of Environment.

(3) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may collect fees from persons who intend to fish in fishing-restricted zones designated under paragraph (1), as prescribed by municipal ordinance, to cover the expenses incurred in collecting litters, etc. for prevent water pollution in the fishing-restricted zones designated under paragraph (1) and surrounding areas thereof.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 21 (Water Pollution Alert System)(1) Where the Minister of Environment or a Mayor/Do Governor deems that water pollution is likely to cause grave damage to the use of water in a river, lake and marsh, or grave hazard to the health and property of residents, or the growth of animals and plants, he/she may issue a water pollution alert for the relevant river, lake and marsh. <Amended by Act No. 11979, Jul. 30, 2013>

(2) and (3) Deleted. <by Act No. 8466, May 17, 2007>

(4) The Minister of Environment may subsidize operating costs incurred in taking measures, etc. following the issuance of a water pollution alert within the budgetary limits. <Amended by Act No. 11979, Jul. 30, 2013>

(5) Types of water pollution alerts, objects of the issuance of each type of alert, issuers of water pollution alerts, water pollutants subject to water pollution alerts, standards for issuing such alerts, phases of alerts, measures to be taken in each phase of alert, standards for canceling alerts, and other necessary matters, shall be prescribed by Presidential Decree. <Amended by Act No. 11979, Jul. 30, 2013>

Article 21-2 (Restricted Activities in Contaminated Public Waters)(1) Where the Minister of Environment deems that playing in the water, including swimming, or doing activities

prescribed by Presidential Decree in a contaminated river, lake or marsh causes grave damage to the health or livelihood of citizens, he/she may recommend the relevant Mayor/Do Governor to take measures prescribed by Ordinance of the Ministry of Environment, such as directing residents in his/her jurisdiction, and interested persons to refrain from doing such activities in the relevant river, lake, or marsh.

(2) Upon receipt of a recommendation pursuant to paragraph (1), the Mayor/Do Governor shall take measures as recommended, except in exceptional circumstances.

(3) Criteria for selecting contaminated rivers, lakes, or marshes on which recommendations can be made under paragraph (1), and other necessary matters shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 21-3 (Special Measures to Improve Water Quality of Water Sources)(1) Where any of the following applies to water pollution of a water source, the Minister of Environment may order special measures, such as prohibiting the discharge of pollutants, with regard to pollutants that cause water pollution:

1. Where it is expected impracticable to meet standards for management of drinking water quality (referring to water quality standards provided for in Article 26 of the Water Supply and Waterworks Installation Act) due to water pollution of the water source;

2. Where it is deemed that pollutants which are not included in the standards for water quality management referred to in subparagraph (1) are likely to cause grave damage to health of residents.

(2) Procedures for taking the special measures pursuant to paragraph (1), the details of and standards for such special measures, and other necessary matters, shall be prescribed by Presidential Decree.

(3) The Minister of Environment may partially subsidize the expenses incurred in taking the special measures under paragraph (1), within budgetary limits.

[This Article Newly Inserted by Act No. 10152, Mar. 22, 2010]

Article 21-4 (Installation and Management of Buffer Storage Facilities)(1) The Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun (excluding the head of a Gun within a Metropolitan City) having jurisdiction over an area prescribed by Ordinance of the Ministry of Environment among industrial areas designated under Article 36 (1) of the National Land Planning and Utilization Act, or an industrial complex prescribed by Ordinance of the Ministry of Environment among industrial complexes defined in subparagraph 8 of Article 2 of the Industrial Sites and Development Act shall install and operate buffer storage facilities that can temporarily store wastewater, sewage, etc. discharged from such industrial area or industrial complex.

(2) The head of a local government liable to install and operate buffer storage facilities pursuant to paragraph (1) shall formulate a plan to install and operate the buffer storage facilities, including matters prescribed by Ordinance of the Ministry of Environment, such as

an implementation schedule and a place where such buffer storage facilities will be installed, and consult with the Minister of Environment. The same shall also apply where he/she intends to amend important matters prescribed by Ordinance of the Ministry of Environment.

(3) The Minister of Environment may fully or partially subsidize the expenses incurred in installing and operating buffer storage facilities, within the budgetary limits.

(4) Matters necessary concerning standards for installation and operation of buffer storage facilities, such as standards for calculation of the capacity of buffer storage facilities, shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 12519, Mar. 24, 2014]

Article 21-5 (Prevention of Damage Caused by Algae)(1) Where the Minister of Environment deems the occurrence, etc. of algae adversely affects the water quality and aquatic ecosystems of a river, lake, and marsh, he/she may order a special measure to be taken in relation to the pollution source causing water pollution pursuant to Article 21-3; request public water managers or the heads of related central administrative agencies to take measures to prevent damage due to the occurrence, etc. of algae; or order managers of water intake facilities or water purification facilities whose water source is the river, lake, and marsh to take measures to prevent damage due to the occurrence, etc. of algae.

(2) Each person in receipt of a request or an order under paragraph (1) shall comply therewith, except in exceptional circumstances.

(3) Details of the measures referred to in paragraph (1), and other matters necessary for taking such measures shall be prescribed by Presidential Decree.

(4) The Minister of Environment may partially subsidize expenses incurred in taking measures under paragraph (1) within budgetary limits.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

SECTION 2 Preservation of Water Quality and Aquatic Ecosystems for each Sphere of Influence of River Basin

Article 22 (Management of Water Quality and Aquatic Ecosystems for Each Sphere of Influence of River Basin)(1) The Minister of Environment or the head of a local government shall ascertain the current status of water quality and aquatic ecosystems, and the healthiness of aquatic ecosystems in accordance with a plan for preserving water quality and aquatic ecosystems for each sphere of influence of the river basin formulated under Articles 24 through 26, and take adequate measures for the management thereof.

(2) The Minister of Environment shall classify the spheres of influence of the river system referred to in paragraph (1) into large spheres of influence, medium spheres of influence, and small spheres of influence in compliance with standards prescribed by Ordinance of the Ministry of Environment, based on the characteristics of catchment basins, such as the surface area and geographical features, and publicly notify them.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 23 (Survey on Sources of Pollution)

The Minister of Environment shall regularly survey types of sources of pollution, the quantity

of water pollutants generated, etc. for each area of the sphere of influence of the river basin, as prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 24 (Formulation of Plans for Preserving Water Quality and Aquatic Ecosystems in Large Sphere of Influence)

(1) The Minister of Environment shall formulate a master plan for preserving water quality and aquatic ecosystems in each large sphere of influence (hereinafter referred to as "plan for the large sphere of influence") every ten years.

(2) The plan for the large sphere of influence shall include the following matters:

1. Trends in change in water quality and aquatic ecosystems and target criteria therefor;
2. Current status of use of water sources and water;
3. Status of distribution of point pollution sources, non-point pollution sources, and other water pollution sources;
4. Quantity of water pollutants discharged from point pollution sources, non-point pollution sources, and other water pollution sources;
5. Measures to prevent and reduce water pollution;
6. Direction-setting for implementing measures to preserve water quality and aquatic ecosystems;
7. Measures to cope with climate change defined in subparagraph 12 of Article 2 of the Framework Act on Low Carbon, Green Growth;
8. Other matters prescribed by Ordinance of the Ministry of Environment.

(3) The Minister of Environment shall consult with the heads of related central administrative agencies and related River Basin Management Committees established under the Act on the Improvement of Water Quality and Support for Residents of the Han River Basin and other Acts when formulating plans for the large sphere of influence. The same shall also apply where he/she amends the plans for the large sphere of influence.

(4) Upon having formulated a plan for the large sphere of influence, the Minister of Environment shall notify the heads of related central administrative agencies and the heads of related local governments of such plan.

(5) Where five years have elapsed from the date on which a plan for the large sphere of influence was formulated or the Minister of Environment deems it necessary to amend the plan for the large sphere of influence, he/she may amend the plan for the large sphere of influence after reviewing the validity thereof.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 25 (Formulation of Plans for Preserving Water Quality and Aquatic Ecosystems in Medium Areas of Influence)

(1) The head of a Basin Environmental Office or the head of a regional environmental office shall formulate a plan for preserving water quality and aquatic ecosystems in each medium sphere of influence (hereinafter referred to as "plan for the medium sphere of influence") according to the plan for the large sphere of influence.

(2) The head of a Basin Environmental Office or the head of a regional environmental office shall consult with the relevant Mayor/Do Governor to formulate the plan for the medium

sphere of influence. The same shall also apply where he/she intends to amend the plan for the medium sphere of influence.

(3) Upon having formulated the plan for the medium sphere of influence, the head of a Basin Environmental Office or the head of a regional environmental office shall notify the relevant Mayor/Do Governor of such plan.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 26 (Formulation of Plans for Preserving Water Quality and Aquatic Ecosystems in Small Spheres of Influence)

(1) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu shall formulate a plan for preserving water quality and water ecosystems in each small sphere of influence (hereinafter referred to as "plan for the small sphere of influence") according to the plan for the large sphere of influence and the plan for the medium sphere of influence, and implement such plan after obtaining approval from the competent Mayor/Do Governor (excluding where the Mayor of a Special Self-Governing City or the Governor of a Special Self-Governing Province formulates a plan for the small sphere of influence).

(2) Notwithstanding paragraph (1), where an area subject to formulation of a plan for the small sphere of influence extends over at least two Cities/Dos, the relevant Mayors/Do Governors shall jointly formulate a plan for the small sphere of influence following consultation, and where an area subject to formulation of a plan for the small sphere of influence extends over at least two Sis/Guns/Gus (referring to autonomous Gus) in the jurisdiction of the same City/Do, the competent Mayor/Do Governor shall formulate a plan for the small sphere of influence after hearing opinions of the heads of relevant Sis/Gun/Gus.

(3) A Mayor/Do Governor shall consult with the Minister of Environment before he/she approves a plan for the small sphere of influence pursuant to paragraph (1) or formulates a plan for the small sphere of influence pursuant to paragraph (2).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 27 (Formulation of Plans for Small Spheres of Influence by Minister of Environment or Mayor/Do Governor)

(1) Where a Mayor/Do Governor fails to formulate a plan for the small sphere of influence without exceptional circumstances, the Minister of Environment may formulate such plan, and where the head of a Si/Gun/Gu fails to formulate a plan for the small sphere of influence without exceptional circumstances, the competent Mayor/Do Governor may formulate such plan.

(2) A Mayor/Do Governor or the head of a Si/Gun/Gu shall conscientiously implement the plan for the small sphere of influence formulated by the Minister of Environment or the Mayor/Do Governor.

(3) Where a Mayor/Do Governor or the head of a Si/Gun/Gu fails to implement the plan for the small sphere of influence formulated under paragraph (1), the Minister of Environment, the head of a related central administrative agency, or the competent Mayor/Do Governor may take the following measures, as prescribed by Presidential Decree:

1. Discontinue or reduce financial support, and other necessary measures;

2. Restrict the installation (including alteration) of wastewater discharge facilities.

(4) Where the Minister of Environment imposes a restriction pursuant to paragraph (3) 2, he/she shall publicly announce facilities and areas subject to such restriction.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 27-2 (Formulation, etc of Plans for Restoring Aquatic Ecosystems)(1) The Minister of Environment, a Mayor/Do Governor, or the head of a Si/Gun/Gu may formulate and implement a plan for restoring the aquatic ecosystem (hereinafter referred to as "restoration plan") of an area which requires improvements in water quality or an area, the aquatic ecosystems within which has been substantially damaged, thus requires restoration as a result of the measurement and survey conducted under Article 9.

(2) Where the Minister of Environment deems it certainly necessary to formulate a restoration plan for any of the areas referred to in paragraph (1), he/she may make an order requiring a Mayor/Do Governor or the head of a Si/Gun/Gu to formulate and implement the restoration plan.

(3) The Minister of Environment shall consult with the heads of related central administrative agencies and the heads of competent local governments to formulate or alter a restoration plan.

(4) A Mayor/Do Governor or the head of a Si/Gun/Gu shall obtain approval from the Minister of Environment, as prescribed by Presidential Decree, to formulate a restoration plan for his/her jurisdiction. The foregoing shall also apply to the alteration of important matters prescribed by Presidential Decree.

(5) A Mayor/Do Governor or the head of a Si/Gun/Gu may formulate or alter an action plan for a restoration plan in consultation with the Minister of Environment if deemed necessary to implement the restoration plan efficiently.

(6) Contents of, procedures for formulating, restoration plans, and other necessary matters shall be prescribed by Presidential Decree.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

SECTION 3 Preservation of Water Quality and Aquatic Ecosystems in Lakes and Marshes

Article 28 (Regular Surveys and Measurement)(1) The Minister of Environment and the Mayors/Do Governors shall regularly survey and measure the status of use of water of lakes and marshes, the current status of water quality and aquatic ecosystems, the healthiness of aquatic ecosystems, the distribution of water pollution sources, and the quantity of water pollutants generated, as prescribed by Presidential Decree, in order to preserve the water quality and aquatic ecosystems of lakes and marshes.

(2) The Minister of Environment and each Mayor/Do Governor shall disclose the results of surveys and measurement conducted under paragraph (1) to the citizens, such as producing and distributing the map of each river basin, indicating the current status of water quality and aquatic ecosystems and the healthiness of aquatic ecosystems, based on the results of surveys and measurement.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 29 Deleted. <by Act No. 13879, Jan. 27, 2016>

Article 30 (Restrictions on Granting Licenses for Aquaculture)

No head of any administrative agency shall grant a license for aquaculture that installs a floating fish cage in a lake and marsh serving as a water source among the aquaculture provided for in Article 6 (1) of the Inland Water Fisheries Act.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 31 (Collection and Disposal of Litters in Lakes and Marshes)(1) The water manager shall collect litters in a lake and marsh, and the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu having jurisdiction over the lake and marsh shall transport and dispose of the litters collected.

(2) The water manager shall conclude an agreement for selecting a main agent to transport and dispose of litters under paragraph (1), and for apportioning expenses incurred in transporting and disposing of the litters collected, with the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu.

(3) Where the water manager, and the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu fails to conclude an agreement under paragraph (2), he/she may file an application for mediation with the Minister of Environment. In such cases, if the Minister of Environment makes mediation, an agreement under paragraph (2) shall be deemed concluded.

(4) Procedures for filing applications for mediation under paragraph (3), and other necessary matters, shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 31-2 (Designation, etc. of Reservoirs with Priority Management)(1) The Minister of Environment may designate any of the following reservoirs as a reservoir with priority management through consultation with the heads of related central administrative agencies, and require the managers of the reservoir and the Mayor/Do Governor having jurisdiction over the location of the reservoir to control the water quality so that such reservoir can be used to provide water for domestic purposes as well as for tourism and leisure purposes:

1. A reservoir with the total water storage capacity of at least 10,000,000 cubic meters;
2. A reservoir in which the level of pollution exceeds the standards prescribed by Presidential Decree;
3. Other cases deemed necessary by the Minister of Environment for preserving the water quality of relevant river systems, including water sources.

(2) Where the ground for designation of a reservoir with priority management under paragraph (1) has ceased, the Minister of Environment may cancel such designation.

(3) Matters necessary for designation of reservoirs with priority management and the cancellation thereof under paragraphs (1) and (2) shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 11258, Feb. 1, 2012]

Article 31-3 (Improvement of Water Quality, etc. of Reservoirs with Priority Management)

(1) The Minister of Environment shall require the managers of reservoirs with priority management and the Mayors/Do Governors having jurisdiction over the locations of such reservoirs to formulate and promote measures to prevent water pollution and improve water quality in the reservoirs with priority management.

(2) Each Mayor/Do Governor having jurisdiction over the location of any reservoir with priority management shall prepare reports on the outcomes of conducting activities to prevent water pollution and the outcomes of implementing the plans to improve water quality for the reservoir with priority management, and submit them to the Minister of Environment each year.

(3) The Minister of Environment may fully or partially subsidize expenses incurred in managing and improving water quality of reservoirs with priority management, within budgetary limits.

[This Article Newly Inserted by Act No. 11258, Feb. 1, 2012]

CHAPTER III CONTROL OF POINT POLLUTION SOURCES

SECTION 1 Regulation of Discharge of Industrial Wastewater

Article 32 (Permissible Discharge Limits)(1) Permissible limits for water pollutants discharged from wastewater discharge facilities (hereinafter referred to as "discharging facilities") shall be prescribed by Ordinance of the Ministry of Environment.

(2) The Minister of Environment shall consult with the heads of related central administrative agencies when enacting an Ordinance of the Ministry of Environment under paragraph (1).

(3) Where a City/Do (excluding a Si with population over 500,00 within a City/Do; hereafter the same shall apply in this Article) or a Si with population over 500,00 (hereinafter referred to as "large city") deems it impracticable to maintain the local environmental standards established under Article 12 (3) of the Framework Act on Environmental Policy, it may, by its municipal ordinance, set permissible discharge limits more stringent than the permissible discharge limits prescribed under paragraph (1): Provided, That the foregoing shall only apply where the authority of the Minister of Environment provided for in Articles 33, 37, 39, and 41 through 43 is delegated to a Mayor/Do Governor or the Mayor of a large city pursuant to Article 74 (1).

(4) A Mayor/Do Governor or the Mayor of a large city shall immediately report to the Minister of Environment whenever he/she sets or alters permissible discharge limits under paragraph (3), and take necessary measures to inform interested parties thereof.

(5) Where the Minister of Environment deems it necessary to prevent water pollution in a special-measures area, he/she may set permissible discharge limits more stringent than the permissible discharge limits prescribed under paragraph (1) for discharging facilities installed in the special-measures area, and set special permissible discharge limits for new discharging facilities installed in such special-measures area.

(6) Where an area, to which permissible discharge limits set under paragraph (3) do not apply, exists in a City/Do or a large city subject to such permissible discharge limits, the

permissible discharge limits set under paragraph (3) shall also apply to discharging facilities installed or to be installed in such area.

(7) Paragraphs (1) through (6) shall not apply to the following discharging facilities:

1. Wastewater non-discharge facilities, which are installed pursuant to the proviso to Article 33 (1), and Article 33 (2);
2. Discharging facilities prescribed by Ordinance of the Ministry of Environment, which do not discharge wastewater into public waters by fully reusing wastewater or entrusting the treatment of all wastewater.

(8) Notwithstanding paragraph (1), the Minister of Environment may otherwise set and announce permissible discharge limits only for items that can be appropriately treated by public wastewater treatment facilities or public sewage treatment facilities in relation to discharging facilities that discharge all wastewater into such public wastewater treatment facilities or public sewage treatment facilities via drainage facilities. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 33 (Permission for, and Reporting on, Installation of Discharging Facilities)(1)

Any person who intends to install discharging facilities shall obtain permission from the Minister of Environment or report thereon to the Minister of Environment, as prescribed by Presidential Decree: Provided, That any person who intends to install wastewater non-discharge facilities pursuant to paragraph (7) shall obtain permission from the Minister of Environment.

(2) Where a person who has obtained permission pursuant to paragraph (1) intends to alter any important matter prescribed by Presidential Decree among the terms and conditions of such permission, he/she shall obtain permission for alteration: Provided, That where he/she intends to alter or has altered any matter prescribed by Ordinance of the Ministry of Environment, he/she shall file a report thereon.

(3) Where a person who has reported pursuant to paragraph (1) intends to alter or has altered any matter prescribed by Ordinance of the Ministry of Environment among reported matters, he/she shall report on such alteration, as prescribed by Ordinance of the Ministry of Environment.

(4) Where a person who intends to obtain permission or permission for alteration or to file a report or a report on alteration pursuant to paragraphs (1) through (3) falls under the proviso to Article 35 (1), or intends to install or alter common prevention facilities under Article 35 (4), he/she shall submit documents prescribed by Ordinance of the Ministry of Environment.

(5) Where the Minister of Environment deems that it is impracticable to maintain environmental standards due to water pollutants discharged from discharging facilities in the upstream area of a water source protection area, a special-measures area and the upstream area thereof, an area in which water intake facilities are located, and the upstream area thereof, or that water pollutants are likely to cause grave harm to the health and property of residents or the growth of animals and plants, he/she may restrict the installation (including

alteration) of discharging facilities after hearing the opinion of the competent Mayor/Do Governor and consulting with the heads of related central administrative agencies.

(6) The range of areas in which the Minister of Environment may restrict the installation of discharging facilities pursuant to paragraph (5) shall be prescribed by Presidential Decree, and the Minister of Environment shall publicly announce facilities, the installation of which is restricted in each area.

(7) Notwithstanding paragraphs (5) and (6), discharging facilities which discharge specific substances harmful to water quality prescribed by Ordinance of the Ministry of Environment may be installed as wastewater non-discharge facilities within an area in which the installation of such discharge facilities is restricted.

(8) The Minister of Environment shall determine and publicly announce areas within which wastewater non-discharge facilities may be installed and allowed facilities in the areas in which the installation of discharging facilities is restricted pursuant to paragraph (7).

(9) Criteria for granting permission or permission for alteration under paragraphs (1) and (2) shall be as follows:

1. Discharging facilities shall be capable of treating pollutants discharged therefrom below the permissible discharge limits set under Article 32;
2. Discharging facilities shall not violate any of the provisions on restrictions on installation of discharging facilities under other Acts and statutes;
3. Where a person intends to install wastewater non-discharge facilities, he/she shall install all facilities prescribed by Presidential Decree in accordance with standards prescribed by Presidential Decree to prevent flow or leak of wastewater into public waters.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 33-2 (Reports on Alterations Deemed Filed under Other Acts)(1) Where a person has filed a report on any alteration pursuant to the proviso to Article 33 (2) and paragraph (3) of the aforesaid Article, the person shall be deemed to have filed a report on any of the following alterations in relation to the discharging facilities: Provided, That the foregoing shall be limited to reports on alterations to the name of the place of business or the representative:

1. A report on any alteration to a specified facility subject to control of soil contamination referred to in the latter part of Article 12 (1) of the Soil Environment Conservation Act;
2. A report on any alteration to a discharging facility under Article 44 (2) of the Clear Air Conservation Act.

(2) A person who intends to be deemed to have filed a report on any alteration under paragraph (1) shall also submit related documents prescribed by the relevant Act when he/she files a report on any alteration.

(3) Where the head of an administrative agency in receipt of a report on any alteration filed under paragraph (1) has processed the report on such alteration, he/she shall immediately notify the heads of administrative agencies having jurisdiction over the report on the alteration referred to in paragraph (1) of the details thereof.

(4) Where a person is deemed to have filed a report on any alteration pursuant to paragraph

(1), the person is exempted from a fee imposed pursuant to related Acts.

[This Article Newly Inserted by Act No. 13530, Dec. 1, 2015]

Article 34 (Permission to Install Wastewater Non-Discharge Facilities)(1) Any person who intends to obtain permission to install or to alter wastewater non-discharge facilities pursuant to the proviso to Article 33 (1) and paragraph (2) of the aforesaid Article shall submit documents prescribed by Ordinance of the Ministry of Environment, such as a plan to install the wastewater non-discharge facilities, to the Minister of Environment.

(2) Upon receipt of an application for permission under paragraph (1), the Minister of Environment shall hear the opinions of relevant specialized institutions prescribed by Ordinance of the Ministry of Environment as to whether wastewater non-discharge facilities and water pollution prevention facilities that treat water pollutants without discharging wastewater are appropriate.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 35 (Installation of Prevention Facilities, Exemption from Installation, and Matters, etc. to be Observed by Persons Exempt from Installation)(1) Where any person who has obtained permission or permission for alteration, or has filed a report or a report on alteration (hereinafter referred to as "business operator") pursuant to Article 33 (1) through (3) installs or alters discharging facilities, he/she shall install water pollution prevention facilities (in cases of wastewater non-discharge facilities, referring to water pollution prevention facilities capable of treating water pollutants without discharging wastewater; hereinafter the same shall apply) capable of treating water pollutants from such discharging facilities below the permissible discharge limits set under Article 32: Provided, That the foregoing shall not apply to discharging facilities (excluding wastewater non-discharge facilities) meeting standards prescribed by Presidential Decree.

(2) Any person who uses discharging facilities without installing water pollution prevention facilities (hereinafter referred to as "prevention facilities") pursuant to the proviso to paragraph (1) shall observe matters prescribed by Ordinance of the Ministry of Environment concerning the management of discharging facilities (hereinafter referred to as "matters to be observed"), such as the methods of treating and storing wastewater.

(3) Where a person who installs and operates discharging facilities without installing prevention facilities pursuant to the proviso to paragraph (1) violates any of the matters to be observed, the Minister of Environment may revoke permission or permission for alteration under Article 33 (1) through (3), or order him/her to close the discharging facilities, fully or partially improve the discharging facilities, or suspend the operation thereof for a prescribed period not exceeding six months.

(4) Business operators may install common prevention facilities (hereinafter referred to as "common prevention facilities") to commonly treat water pollutants discharged from discharging facilities (excluding wastewater non-discharge facilities). In such cases, each business operator shall be deemed to have installed prevention facilities of water pollutants in each place of business.

(5) When business operators install and operate common prevention facilities, they shall establish an operating body of the relevant facilities and appoint the representative thereof.

(6) Other matters necessary for the installation and operation of common prevention facilities shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 36 (Succession to Rights and Duties)(1) Any of the following persons shall succeed to the former business operator' rights and duties vested or imposed under permission, permission for any alteration, a report or a report on any alteration:

1. Where the business operator dies, his/her heir;
2. Where the business operator transfers his/her discharging facilities or prevention facilities, the transferee of such facilities;
3. Where the corporate business operator is merged with another corporation, the corporation surviving the merger or the corporation incorporated in the course of the merger.

(2) Any person who acquires discharging facilities and prevention facilities of a business operator through any of the following procedures shall succeed to the business operator' rights and duties vested or imposed under permission or permission for any alteration, a report or a report on any alteration: <Amended by Act No. 14476, Dec. 27, 2016>

1. Auction under the Civil Execution Act;
2. Conversion under the Debtor Rehabilitation and Bankruptcy Act;
3. Sale of seized property under the National Tax Collection Act, the Customs Act, or the Local Tax Collection Act;
4. Other procedures corresponding to any of the procedures referred to in subparagraphs 1 through 3.

(3) For the purposes of Articles 38, 38-2 through 38-5, 39 through 41, and 42 (excluding revocation of permission), 43, 46, 47, and 68 (1) 1, a lessee of discharging facilities and prevention facilities shall be construed as a business operator.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 37 (Reporting on Startup Operation of Discharging Facilities, etc.)(1) Where a business operator intends to operate discharging facilities and prevention facilities after completing the installation of the discharging facilities or prevention facilities, or completing the alteration of discharging facilities (limited to alterations prescribed by Presidential Decree where he/she alters discharging facilities after reporting the alteration thereto), he/she shall report the startup operation thereof to the Minister of Environment in advance, as prescribed by Ordinance of the Ministry of Environment. Where he/she changes the reported date of the startup operation, he/she shall report such change to the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment.

(2) Any business operator who has reported startup operation under paragraph (1) shall operate prevention facilities to treat water pollutants discharged from the relevant discharging facilities (excluding wastewater non-discharge facilities) below the permissible discharge limits set under Article 32 within the period prescribed by Ordinance of the Ministry

of Environment. In such cases, Articles 39 through 40 shall not apply for the period prescribed by Ordinance of the Ministry of Environment.

(3) The Minister of Environment shall check the operation status of discharging facilities and prevention facilities within the period prescribed by Ordinance of the Ministry of Environment following the expiration of the period determined under paragraph (2), and require any testing institution prescribed by Ordinance of the Ministry of Environment to test the level of pollution after collecting water pollutants.

(4) The Minister of Environment shall inspect whether wastewater non-discharge facility, the startup operation of which has been reported pursuant to paragraph (1), meets criteria for permission or permission for alteration under Article 33 (9) within ten days from the date of the report.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 38 (Operation of Discharging Facilities and Prevention Facilities)(1) Neither a business operator (excluding a business operator who has obtained permission to install or permission to alter wastewater non-discharge facilities pursuant to the proviso to Article 33 (1) or Article 33 (2)) nor a person who operates prevention facilities (including the representative of the operating body of common prevention facilities referred to in Article 35 (5); hereinafter the same shall apply) shall engage in any of the following conduct:

1. Discharging water pollutants from discharging facilities without flowing them into prevention facilities, or installing facilities that can discharge water pollutants without flowing them into prevention facilities;
2. Discharging water pollutants that flow into prevention facilities without passing through the final discharge outlet, or installing facilities that can discharge water pollutants without passing through the final discharge outlet;
3. Treating water pollutants from discharging facilities by mixing with water not discharged during the process or unpolluted water discharged during the process, or discharging water pollutants exceeding the permissible discharge limits set under Article 32 by mixing with water to lower the pollution level before such water pollutants pass through the final discharge outlet: Provided, That the foregoing shall not apply where the Minister of Environment deems that water pollutants can be treated only when they are diluted, as prescribed by Ordinance of the Ministry of Environment, and other cases prescribed by Ordinance of the Ministry of Environment;
4. Discharging water pollutants exceeding the permissible discharge limits set under Article 32 due to the business operator' s failure to normally operate discharging facilities and prevention facilities without good cause.

(2) No business operator who has obtained permission to install or permission to alter wastewater non-discharge facilities pursuant to the proviso to Article 33 (1) or paragraph (2) of the aforesaid Article shall engage in any of the following conduct:

1. Removing wastewater discharged from wastewater non-discharge facilities from the place of business, discharging it to public waters, or installing facilities that can discharge such

wastewater into public waters;

2. Treating wastewater discharged from wastewater non-discharge facilities by mixing it with sewage or wastewater discharged from other discharging facilities, or installing facilities that can treat the wastewater in the aforementioned manner;

3. Where wastewater discharged from wastewater non-discharge facilities is reused, reusing wastewater in other discharging facilities without reusing it in the same wastewater non-discharge facilities or using such wastewater for flushing toilets, landscaping, fire fighting, etc.

(3) Each business operator or prevention facility operator shall record and keep the operating status of the relevant discharging facilities and prevention facilities as they are, as prescribed by Ordinance of the Ministry of Environment, when operating discharging facilities and prevention facilities.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 38-2 (Installation, etc. of Measuring Instruments)(1) The following persons shall install instruments prescribed by Presidential Decree (hereinafter referred to as "measuring instruments"), such as a wattmeter, a flow meter, and an automatic water quality tester, to ascertain whether the discharged water pollutants meet the permissible discharge limits set under Article 32, and standards for effluent water quality established under Article 12 (3) of this Act or Article 7 of the Sewerage Act: <Amended by Act No. 13879, Jan. 27, 2016>

1. A business operator who operates a place of business discharging wastewater in excess of the quantity of discharge prescribed by Presidential Decree: Provided, That excluded herefrom is a business operator who has obtained permission to install or permission to alter wastewater non-discharge facilities under the proviso to Article 33 (1) or Article 33 (2);

2. An operator of prevention facilities (including common prevention facilities) in excess of the treatment capacity prescribed by Presidential Decree;

3. A person who operates public wastewater treatment facilities or public sewage treatment facilities in excess of the treatment capacity prescribed by Presidential Decree.

(2) Methods for, and timing of, installing measuring instruments pursuant to paragraph (1), and other matters necessary for installing measuring instruments, shall be prescribed by Presidential Decree.

(3) A person who has installed measuring instruments (hereinafter referred to as "business operator, etc. equipped with measuring instruments") pursuant to paragraph (1) may require a person who has been registered pursuant to Article 38-6 (hereinafter referred to "measuring instruments management agency") to manage measuring instruments on his/her behalf. <Newly Inserted by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 38-3 (Prohibited Acts of Business Operators, etc. who Have Installed Measuring Instruments and Standards for Operation and Management)(1) No business operator, etc. who has installed measuring instruments shall engage in any of the following conduct when operating the measuring instruments: <Amended by Act No. 13879, Jan. 27,

2016>

1. Intentionally defaulting on the operation of the measuring instruments, or on normal measurement;
2. Leaving the measuring instruments which do not work normally due to corrosion, wear and tear, breakdown, or damage, unattended without good cause;
3. Omitting or falsely keeping a measurement reading.

(2) Each business operator, etc. who has installed measuring instruments and each measuring instruments management agency shall observe standards for operation and management of measuring instruments prescribed by Ordinance of the Ministry of Environment to maintain the reliability and accuracy of the measurement readings of such measuring instruments. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 38-4 (Orders to Business Operators, etc. Equipped with Measuring Instruments to Take Measures and Suspend Operation)(1) The Minister of Environment may order a business operator, etc. equipped with measuring instruments who fails to observe any of the standards for operation and management referred to in Article 38-3 (2) to take measures necessary for operating and managing the measuring instruments in compliance with such standards within a prescribed period, as prescribed by Presidential Decree.

(2) The Minister of Environment may order any person who fails to comply with an order to take measures under paragraph (1) to fully or partially suspend the operation of the relevant discharging facilities, etc. for a prescribed period not exceeding six months.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 38-5 (Technical Support to Business Operators, etc. Equipped with Measuring Instruments, and Exemption from Reporting and Inspections)(1) The Minister of Environment may operate a computer network capable of electronically processing the measurement readings being connected with measuring instruments of business operators, etc. equipped with the measuring instruments in order to manage and analyze measurement data.

(2) The Minister of Environment may provide technical support, etc. to business operators, etc. equipped with measuring instruments to normally install, maintain, and manage measuring instruments. In such cases, the Minister of Environment may require employees of a relevant specialized institution entrusted with the authority pursuant to Article 74 (2) to collect necessary water pollutants or inspect related documents, facilities, equipment, etc., upon gaining access to the relevant facilities or the place of business of a business operator, etc. equipped with measuring instruments, in order to adequately manage measuring instruments.

(3) An employee of a relevant specialized institution who intends to gain access or conduct inspections pursuant to the latter part of paragraph (2) shall carry a certificate of identification, indicating his/her authority, and produce it to related persons.

(4) The Minister of Environment may exempt business operators, etc. equipped with measuring instruments from reporting or undergoing inspections under Article 68 regarding items measured with measuring instruments, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 38-6 (Registration, etc. of Measuring Instrument Management Services)(1) A person who intends to receive the outsourcing of measuring instrument management services shall be registered with the Minister of Environment upon meeting requirements, such as facilities, equipment and technical personnel prescribed by Presidential Decree. The foregoing shall also apply to any alteration to important matters prescribed by Presidential Decree among registered matters.

(2) Upon completing the registration of a measuring equipment management service, the Minister of Environment shall issue a certificate of registration to the relevant person, as prescribed by Ordinance of the Ministry of Environment.

(3) Procedures for registration under paragraph (1) and other matters necessary for registration shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

Article 38-7 (Grounds for Disqualification)

None of the following persons is entitled to be registered as a measuring instruments management agency:

1. A person under adult guardianship or person under limited guardianship;
2. A person declared bankrupt and not yet reinstated;
3. A person in whose case two years have not passed since his/her imprisonment with prison labor or heavier punishment declared by a court for violating this Act was completely executed (including where the execution of his/her imprisonment is deemed completed) or exempted;
4. A person in whose case two years have not passed after his/her registration was revoked pursuant to Article 38-9 (excluding revocation of his/her registration on grounds of subparagraph 1 or 2 of this Article);
5. A corporation that has any of the persons referred to in subparagraphs 1 through 4 as its executives.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

Article 38-8 (Compliance, etc. by Measuring Instrument Management Agencies)(1) No measuring instruments management agency shall engage in any of the following conduct:

1. Lending his/her certificate of registration to a third person, or outsourcing measuring instrument management services outsourced to him/her, to a third party;
2. Permitting any person other than registered technical personnel to provide measuring instrument management services;
3. Violating any matters prescribed by Ordinance of the Ministry of Environment, which must be complied with in relation to measuring instrument management services.

(2) Each measuring instruments management agency shall require his/her technical

personnel to undergo education conducted by an educational institution prescribed by Ordinance of the Ministry of Environment.

(3) Curricula of the education referred to in paragraph (2) and other matters necessary for conducting such education shall be prescribed by Ordinance of the Ministry of Environment. [This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

Article 38-9 (Revocation, etc. of Registration)(1) Where a measuring instruments management agency falls under any of the following circumstances, the Minister of Environment may revoke its registration, or issue an order to fully or partially suspend its business for a specified period not exceeding six months: Provided, That the Minister of Environment must revoke its registration where a measuring instruments management agency falls under subparagraphs 1 through 3:

1. Where registration is made by fraud or other improper means;
2. Where measuring instrument management services are provided during the period of suspension of its business;
3. Where the ground for disqualification provided for in Article 38-7 occurs: Provided, That the foregoing shall not apply where the ground for disqualification provided for in subparagraph 5 of Article 38-7 ceases to exist within two months from the date of occurrence thereof;
4. Where measuring instrument management services are unconscientiously provided due to willful misconduct or gross negligence;
5. Where any of the requirements for registration referred to in the former part of Article 38-6 (1) ceases to be met;
6. Where any alteration under the latter part of Article 38-6 (1) are not registered;
7. Where any of the compliance referred to in Article 38-8 (1) is violated.

(2) Detailed criteria for administrative dispositions provided for in paragraph (1) and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

Article 38-10 (Evaluation and Public Announcement of Capabilities to Provide Management Services)(1) To assist business operators, etc. equipped with measuring instruments in selecting a proper measuring instruments management agency, the Minister of Environment shall, upon receipt of an application filed by a measuring instruments management agency, evaluate and publicly announce its capabilities to provide management services based on its management service performance and the status of administrative disposition imposed on it.

(2) A measuring instruments management agency that intends to undergo an evaluation under paragraph (1) shall submit to the Minister of Environment its management service performance; the status of its technical personnel and equipment; the status of education its technical personnel undergone in the preceding year; and other matters prescribed by Ordinance of the Ministry of Environment.

(3) Methods for evaluating the capabilities to provide measuring instruments management

services; materials to be submitted; and procedures for public announcement under paragraphs (1) and (2), and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

Article 39 (Improvement Orders to Business Operators in Excess of Permissible Discharge Limits)

Where the Minister of Environment deems that the level of water pollutants from discharging facilities (excluding wastewater non-discharge facilities) in operation after filing a report under Article 37 (1) exceeds the permissible discharge limits set under Article 32, he/she may order the relevant business operator (including the representative of the operating body of common prevention facilities under Article 35 (5)) to take measures (hereinafter referred to as "improvement order") necessary for lowering the level of such water pollutants below the permissible discharge limits within a prescribed period, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 40 (Orders to Suspend Operation)

Where a person subject to an improvement order pursuant to Article 39 fails to comply with such improvement order, or has complied with the improvement order within a given period, but the result of inspection shows that the level of waste pollutants still exceeds the permissible discharge limits set under Article 32, the Minister of Environment may order him/her to fully or partially suspend the operation of the relevant discharging facilities.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 41 (Effluent Charges)(1) The Minister of Environment shall levy and collect an effluent charge on and from business operators discharging water pollutants (including those who operate facilities prescribed by Ordinance of the Ministry of Environment among public wastewater treatment facilities and public sewage treatment facilities) or persons who have installed or altered discharging facilities without obtaining permission or permission for alteration, or filing a report or a report on alteration under Article 33 (1) through (3), to prevent or reduce water pollution and damage to aquatic ecosystems due to water pollutants. In such cases, the effluent charge shall be levied as classified below, and methods and criteria for calculating such effluent charge, and other necessary matters, shall be prescribed by Presidential Decree: <Amended by Act No. 13879, Jan. 27, 2016>

1. Basic effluent charges:

(a) Where water pollutants in wastewater discharged from discharging facilities (excluding wastewater non-discharge facilities) are below the permissible discharge limits set under Article 32, but exceed the standards for effluent water quality;

(b) Where water pollutants in wastewater discharged from public wastewater treatment facilities or public sewage treatment facilities exceed the standards for effluent water quality;

2. Excess effluent charges:

(a) Where water pollutants are discharged in excess of the permissible discharge limits set

under Article 32;

(b) Where water pollutants are discharged into public waters (limited to wastewater non-discharge facilities).

(2) The Minister of Environment shall take into account the following when levying effluent charges pursuant to paragraph (1):

1. Whether water pollutants exceed the permissible discharge limits set under Article 32;
2. Types of water pollutants discharged;
3. Period for which water pollutants are discharged;
4. Quantity of water pollutants discharged;
5. Whether self-measurements are performed under Article 46;
6. Other matters prescribed by Ordinance of the Ministry of Environment regarding the pollution and improvement of the water environment.

(3) No effluent charges referred to in paragraph (1) shall be levied on any business operator (excluding business operators who operate wastewater non-discharge facilities; hereafter the same shall apply in this paragraph) who discharges water pollutants below the standards for effluent water quality, and the Minister of Environment may reduce effluent charges for business operators who discharge water pollutants below the quantity prescribed by Presidential Decree and business operators who has borne the cost of treatment of water pollutants pursuant to other Acts. In such cases, effluent charges for business operators who have borne the cost of treatment of water pollutants pursuant to other Acts shall be reduced by up to the amount of such cost.

(4) Where any person liable to pay effluent charges pursuant to paragraph (1) fails to pay such charges by the payment due date, the Minister of Environment shall collect a late-payment penalty from him/her.

(5) Article 21 of the National Tax Collection Act shall apply mutatis mutandis to late-payment penalties collected under paragraph (4).

(6) Effluent charges collected under paragraph (1) and late-payment penalties collected under paragraph (4) shall be deposited, as the revenue, into the special account for environmental improvement under the Framework Act on Environmental Policy.

(7) Where the Minister of Environment delegates his/her authority over the collection of effluent charges or late-payment penalties to a Mayor/Do Governor in his/her jurisdiction pursuant to Article 74, the Minister may pay some of the collected effluent charges and late-payment penalties to the Mayor/Do Governor as collection expenses, as prescribed by Presidential Decree.

(8) Where any person liable to pay effluent charges or late-payment penalties fails to pay the charges or penalties by the payment due date, the Minister of Environment or a Mayor/Do Governor referred to in paragraph (7) shall collect such charges or penalties in the same manner as delinquent national or local taxes are collected.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 42 (Revocation of Permission, etc.)(1) Where a business operator or an operator

of prevention facilities falls under any of the following cases, the Minister of Environment may revoke permission to install or to alter the relevant discharging facilities, or order him/her to close the relevant discharging facilities or suspend the operation thereof for up to six months: Provided, That where he/she falls under subparagraph 2, the Minister of Environment must revoke permission to install or to alter the relevant discharging facilities, or order him/her to close the relevant discharging facilities:

1. Where he/she exceeds the permissible discharge limits set under Article 32 (1);
2. Where he/she obtains permission or permission for alteration, or files a report or a report on alteration under Article 33 (1) through (3) by fraud or other illegal means;
3. Where he/she fails to install discharging facilities or prevention facilities within five years after he/she obtained permission or filed a report under Article 33 (1) without exceptional circumstances, or where the destruction of discharging facilities or the closure of his/her business has been confirmed;
4. Where a person who has installed wastewater non-discharge facilities pursuant to the proviso to Article 33 (1) operates discharging facilities without installing prevention facilities;
5. Where he/she fails to obtain permission for alteration under Article 33 (2);
6. Where he/she installs or operates discharging facilities in the area in which the installation of discharging facilities is restricted under Article 33 (6), without obtaining permission to install such discharging facilities (including permission for alteration) or filing a report under Article 33 (1) through (3);
7. Where he/she installs, operates, or alters discharging facilities without installing prevention facilities under the main sentence of Article 35 (1);
8. Where a person exempted from installation of prevention facilities pursuant to the proviso to Article 35 (1) discharges pollutants in excess of the permissible discharge limits set under Article 32;
9. Where he/she operates discharging facilities without reporting startup operation or alteration under Article 37 (1);
10. Where he/she engages in any conduct referred to the subparagraphs of Article 38 (1) or the subparagraphs of paragraph (2) of the aforesaid Article;
11. Where he/she fails to install measuring instruments under Article 38-2 (1);
12. Where he/she engages in any conduct referred to in the subparagraphs of Article 38-3 (1);
13. Where he/she fails to comply with an order to suspend operation issued under Article 38-4 (2), 40, or this Article;
14. Where he/she fails to comply with an improvement order issued under Article 39;
15. Where a business operator who installed or operated discharging facilities dismantles the relevant discharging facilities to close his/her business.

(2) Where a business operator or an operator of prevention facilities falls under any of the following cases, the Minister of Environment may order him/her to suspend the operation for up to six months:

1. Where he/she fails to report an alteration under Article 33 (2) or (3);
2. Where he/she falsely prepares or fails to keep management records regarding the operation of the discharging facilities and prevention facilities under Article 38 (3);
3. Where he/she fails to appoint an environmental engineer under Article 47 or appoints an environmental engineer not meeting qualification standard, or an environmental engineer does not work on a regular basis.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 43 (Imposition of Penalty Surcharges)(1) Where the Minister of Environment must order a business operator who installs or operates any of the following discharging facilities (excluding wastewater non-discharge facilities) to suspend the operation thereof pursuant to Article 42, but such suspension of operation is deemed likely to substantially hinder the livelihood of residents, the national economy, including the nation's international credit rating, employment, and prices, or the public interest, the Minister may impose a penalty surcharge not exceeding 300 million won, in lieu of ordering the suspension of operation:

1. Discharging facilities of medical institutions referred to in the Medical Service Act;
2. Electricity-generating facilities and equipment of power plants;
3. Discharging facilities of schools referred to in the Elementary and Secondary Education Act and the Higher Education Act;
4. Discharging facilities of manufacturing businesses;
5. Other discharging facilities prescribed by Presidential Decree.

(2) Notwithstanding paragraph (1), the Minister of Environment shall order the suspension of operation for the following violations: <Amended by Act No. 13879, Jan. 27, 2016>

1. Where a person liable to install prevention facilities (including common prevention facilities) pursuant to Article 35 operates discharging facilities without installing the prevention facilities;
2. Where a person has engaged in any conduct referred to in the subparagraphs of Article 38 (1) and becomes subject to suspension of operation for at least 30 days;
3. Where a person has engaged in any conduct referred to in the subparagraphs of Article 38-3 (1) and becomes subject to suspension of operation for at least 5 days;
4. Where a person fails to comply with an improvement order issued under Article 39.

(3) Where a business operator fails to pay a penalty surcharge under paragraph (1) by the payment due date, the Minister of Environment shall collect the penalty surcharge in the same manner as delinquent national taxes are collected.

(4) Penalty surcharges collected under paragraph (1) shall be deposited, as the revenue, into the special account for environmental improvement under the Framework Act on Environmental Policy.

(5) Where the Minister of Environment delegates his/her authority over the imposition and collection of penalty surcharges to a Mayor/Do Governor pursuant to Article 74, Article 41 (7) and (8) shall apply mutatis mutandis to the payment of collection expenses.

(6) Types of violations subject to penalty surcharges under paragraph (1), the amount of penalty surcharges depending on the severity of violations, and other necessary matters,

shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 44 (Orders to Close Illegal Facilities, etc.)

The Minister of Environment shall order a person who installs or uses discharging facilities without obtaining permission or filing a report under Article 33 (1) through (3) to suspend the use of the relevant discharging facilities: Provided, That where the Minister of Environment deems that the improvement of the relevant discharging facilities or the installation or improvement of prevention facilities could not lower the level of water pollutants discharged from such discharging facilities below the permissible discharge limits set under Article 32 (referring to where wastewater discharged from wastewater non-discharge facilities is deemed likely to be discharged into public waters), or the place in which the discharging facilities are installed is a place subject to prohibition of the installation of the relevant discharging facilities pursuant to other Acts, the Minister of Environment shall order him/her to close such discharging facilities.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 45 (Reporting on, and Verification of, Compliance with Orders)(1) Where any person subject to an improvement order, an order to suspend operation, an order to suspend use, or an order of closure under Article 38-4 (2), 39, 40, 42, or 44 complies with such order, he/she shall immediately report thereon to the Minister of Environment.

(2) Upon receipt of a report under paragraph (1), the Minister of Environment shall immediately require relevant public officials to verify the compliance with the relevant order or the completion of improvement, and where he/she deems it necessary to test the level of pollution of wastewater, he/she shall require relevant public officials to collect samples, and instruct or request a testing institution prescribed by Ordinance of the Ministry of Environment to test the level of pollution.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 46 (Measurement of Water Pollutants)

A business operator may conduct self-measurements of water pollutants released from discharging facilities and prevention facilities he/she operates, and may require any measuring agency business operator registered under Article 16 of the Environmental Testing and Inspection Act to measure the water pollutants, in order to properly operate his/her discharge facilities and prevention facilities. <Amended by Act No. 10615, Apr. 28, 2011>

Article 47 (Environmental Engineers)(1) A business operator shall appoint environmental engineers to ensure the normal operation and management of discharging facilities and prevention facilities, as prescribed by Presidential Decree.

(2) Environmental engineers shall direct and supervise persons who work in discharging facilities and prevention facilities to comply with this Act or orders issued under this Act, and manage discharging facilities and prevention facilities to operate normally.

(3) Business operators shall oversee matters managed by environmental engineers under

paragraph (2).

(4) No business operator or person who works for discharging facilities and prevention facilities shall interfere with the business practices of any environmental engineer for the normal operation and management of discharging facilities and prevention facilities, and upon receipt of a request necessary to conduct business affairs from environmental engineers, he/she shall comply therewith, without just grounds.

(5) The scope of places of business that must employ environmental engineers pursuant to paragraph (1) and qualification standards for environmental engineers shall be prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

SECTION 2 Public Wastewater Treatment Facilities

Article 48 (Installation of Public Wastewater Treatment Facilities)(1) To jointly treat water pollutants discharged from places of business in an area where it is deemed impracticable to maintain environmental standards or that it is deemed necessary to preserve water quality and aquatic ecosystems due to worsening water pollution, and discharge treated wastewater, the State, local governments, and the Korea Environment Corporation may install and operate public wastewater treatment facilities, and the State and local governments may outsource the installation or operation of public wastewater treatment facilities to any of the following. In such cases, business entities or other persons who have directly caused water pollution (hereinafter referred to as "polluter") shall fully or partially bear expenses incurred in the installation and operation of the public wastewater treatment facilities: <Amended by Act No. 13879, Jan. 27, 2016>

1. The Korea Environment Corporation;
2. An undertaker of an industrial complex development project designated under Article 16 (1) (excluding subparagraphs 5 and 6) of the Industrial Sites and Development Act;
3. A project undertaker defined in subparagraph 7 of Article 2 of the Act on Public-Private Partnerships in Infrastructure;
4. Any person prescribed by Presidential Decree, who has the capability to install or operate wastewater treatment facilities, corresponding to those referred to in subparagraphs 1 through 3.

(2) Types of public wastewater treatment facilities to be installed under paragraph (1) shall be prescribed by Presidential Decree. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 48-2 (Imposition and Collection of Charges for Installation of Public Wastewater Treatment Facilities)(1) Any person who installs and operates public wastewater treatment facilities (hereinafter referred to as "operator") pursuant to Article 48 may impose and collect charges for installation of public wastewater treatment facilities (hereinafter referred to as "charge for installation of public wastewater treatment facilities") on and from polluters to fully or partially cover expenses incurred in the installation of such public wastewater treatment facilities. <Amended by Act No. 13879, Jan. 27, 2016>

(2) The total amount of charges for the installation of public wastewater treatment facilities shall not exceed the amount an operator spends in relation to the installation of such public wastewater treatment facilities. <Amended by Act No. 13879, Jan. 27, 2016>

(3) A charge for installation of public wastewater treatment facilities imposed on a polluter shall be determined based on the type and scale of business of the polluter, and the quantity of pollutants, etc. discharged by the polluter. <Amended by Act No. 13879, Jan. 27, 2016>

(4) The State and local governments may take measures necessary to provide tax breaks or financial support to small and medium business operators so that their production activities and investment motivation may not be discouraged due to their cost burdens under this Act.

(5) Methods for calculating charges for installation of public wastewater treatment facilities under paragraphs (1) through (3), methods and procedures for imposing and collecting such charges, and other necessary matters, shall be prescribed by Presidential Decree. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 48-3 (Imposition and Collection of User Fees of Public Wastewater Treatment Facilities)

(1) An operator may impose and collect a fee for the use of public wastewater treatment facilities (hereinafter referred to as "user fee for public wastewater treatment facilities") on and from polluters to fully or partially cover the expenses incurred in operating the public wastewater treatment facilities.

(2) A user fee for public wastewater treatment facilities imposed on a polluter shall be determined based on the type and scale of business of the polluter, and the quantity of pollutants, etc, discharged by the polluter.

(3) No user fee for public wastewater treatment facilities collected pursuant to paragraph (1) shall be used for any purpose other than for the public wastewater treatment facilities.

(4) Methods for calculating user fees for public wastewater treatment facilities under paragraphs (1) and (3), methods and procedures for imposing and collecting such fees, and other necessary matters, shall be prescribed by Presidential Decree.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

Article 49 (Master Plans for Public Wastewater Treatment Facilities)(1) The Minister of Environment shall formulate a master plan to install public wastewater treatment facilities (including any alteration thereto) pursuant Article 48 (1). <Amended by Act No. 13879, Jan. 27, 2016>

(2) An operator (excluding the Minister of Environment) who intends to install public wastewater treatment facilities (including any alteration thereto) pursuant to Article 48 (1) shall formulate a master plan for the public wastewater treatment facilities and obtain approval thereof from the Minister of Environment, as prescribed by Presidential Decree. <Amended by Act No. 13879, Jan. 27, 2016>

(3) Upon having formulated or approved (including approval for any alteration; hereafter the same shall apply in this Article) a master plan for public wastewater treatment facilities

pursuant paragraphs (1) and (2), the Minister of Environment shall designate a public wastewater treatment area and announce the details of such designation and the master plan for public wastewater treatment facilities formulated or approved, and forward a copy of the master plan to the Special Self-Governing City Mayor, the Special Self-Governing Province Governor, or the head of a Si/Gun/Gu having jurisdiction over the proposed project area. <Amended by Act No. 13879, Jan. 27, 2016>

(4) Upon receipt of a copy of the master plan for public wastewater treatment facilities forwarded under paragraph (3), the Special Self-Governing City Mayor, the Special Self-Governing Province Governor, or the head of the Si/Gun/Gu shall immediately allow interested parties to access it. <Amended by Act No. 13879, Jan. 27, 2016>

(5) Any person who intends to install public wastewater treatment facilities after obtaining approval of a master plan pursuant to paragraph (2) shall incorporate the conditions of the approval in the basic design and detailed design of such facilities, as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 49-2 (Cost Apportionment Plans)(1) Upon having formulated a master plan pursuant to Article 49 (1), the Minister of Environment shall formulate a plan regarding apportionment of costs (hereinafter referred to as "cost apportionment plan") necessary for the relevant project, and notify polluters of the cost apportionment plan, as prescribed by Presidential Decree.

(2) Upon having obtained approval of a master plan for public wastewater treatment facilities pursuant to Article 49 (2), an operator (excluding the Minister of Environment) shall formulate a cost apportionment plan and obtain approval thereof from the Minister of Environment, as prescribed by Presidential Decree. The same shall also apply to any alteration to such plan. <Amended by Act No. 13879, Jan. 27, 2016>

(3) To approve a cost apportionment plan or any alteration thereto pursuant to paragraph (2), the Minister of Environment shall determine a period for implementing the relevant project.

(4) Upon having obtained approval of a cost apportionment plan or approval for an alteration thereto pursuant to paragraph (2), an operator (excluding the Minister of Environment) shall notify polluters of such approval.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 49-3 (Succession to Rights and Duties)

A person who has acquired a factory, a place of business, or other establishment subject to the imposition of charges for installation of public wastewater treatment facilities shall succeed to the transferor's rights and duties regarding the charges for installation of public wastewater treatment facilities imposed pursuant to this Act prior to the transfer, unless otherwise expressly agreed upon between interested parties. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 49-4 (Expropriation and Use)(1) Any operator may expropriate or use land, buildings or fixtures on such land necessary to install public wastewater treatment facilities, or rights, other than the ownership of the land, buildings, and fixtures. <Amended by Act No. 13879, Jan. 27, 2016>

(2) The Act on Acquisition of and Compensation for Land, etc. for Public Works Projects shall apply to expropriation or use under paragraph (1), except as otherwise expressly provided for in this Act.

(3) Where the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects applies pursuant to paragraph (2), approval of a master plan for public wastewater treatment facilities under Article 49 of this Act or approval for any alteration thereto shall be construed as project approval under Article 20 (1) of the aforesaid Act; and notwithstanding Articles 23 (1) and 28 (1) of the aforesaid Act, an application for ruling shall be filed within the implementation period of the relevant project determined when a cost apportionment plan or any alteration thereto is approved under Article 49-2 of this Act. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 49-5 (Payment of Charges for Installation of Public Wastewater Treatment Facilities and User Fees)

Charges for installation of public wastewater treatment facilities (only applicable to where an operator is the State) or user fees for public wastewater treatment facilities (only applicable to where an operator is the State) shall be deposited, as the revenue, into the Special Account for Environmental Improvement under the Framework Act on Environmental Policy: Provided, That where the State outsources an operation project of public wastewater treatment facilities to other entities pursuant to Article 48 (1), the State shall transfer the collected user fees for public wastewater treatment facilities to the outsourcees. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 49-6 (Compulsory Collection)(1) Where a person liable to pay charges for installation of public wastewater treatment facilities or user fees for public wastewater treatment facilities fails to do so by the payment due date, an operator shall issue a demand notice to the person, specifying a period of at least ten days. In such cases, the operator shall levy a late-payment penalty equivalent to three percent of unpaid charges for installation of public wastewater treatment facilities or user fees for public wastewater treatment facilities. <Amended by Act No. 13879, Jan. 27, 2016>

(2) Where any person in receipt of the demand notice issued under paragraph (1) fails to pay charges for installation of public wastewater treatment facilities or user fees for public wastewater treatment facilities by the specified due date, an operator may collect such charges or user fees in the same manner as delinquent national or local taxes are collected. In such cases, the operator shall obtain a prior approval from the Minister of Environment if such operator is any of the entities referred to in Article 48 (1) (hereinafter referred to as the

"Korea Environment Corporation, etc."). <Amended by Act No. 13879, Jan. 27, 2016>

(3) The Korea Environment Corporation, etc. may entrust the collection of charges for installation of public wastewater treatment facilities or user fees for public wastewater treatment facilities to a Special Self-Governing City Mayor, a Special Self-Governing Province Governor, or the head of a Si/Gun/Gu, as prescribed by Presidential Decree, and the Special Self-Governing City Mayor, the Special Self-Governing Province Governor, or the head of the Si/Gun/Gu entrusted with such collection shall collect the charges in the same manner as delinquent local taxes are collected. In such cases, the Korea Environment Corporation, etc. shall pay some of the collected charges to him/her as collection expenses, as prescribed by Presidential Decree. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 49-7 (Reporting, Etc.)

An operator may request the submission of necessary report or data from polluters of a public wastewater treatment area if deemed necessary to formulate a master plan under Article 49 and a cost apportionment plan under Article 49-2. In such cases, the polluters shall comply therewith, except in exceptional circumstances. <Amended by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 50 (Operation, Management, etc. of Public Wastewater Treatment Facilities)(1)

No person who operates public wastewater treatment facilities shall engage in any of the following conducts unless good cause prescribed by Ordinance of the Ministry of Environment exists, such as rainfall, an accident or otherwise necessary for the treatment process: <Amended by Act No. 13879, Jan. 27, 2016>

1. Discharging water pollutants that flow into drainage facilities under Article 51 (1) without flowing them into public wastewater treatment facilities, or installing facilities that can discharge water pollutants without flowing them into public wastewater treatment facilities;
2. Discharging water pollutants that flow into public wastewater treatment facilities without passing through the final discharge outlet, or installing facilities that can discharge water pollutants without passing through the final discharge outlet;
3. Treating water pollutants that flow into public wastewater treatment facilities by mixing them with unpolluted water, or discharging water pollutants by mixing them with water to lower the pollution level before water pollutants that exceed the standards for effluent water quality pass the final discharge outlet.

(2) Every operator of public wastewater treatment facilities shall operate such facilities appropriately in compliance with standards for maintenance and management prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 13879, Jan. 27, 2016>

(3) The Minister of Environment may regularly evaluate the operation and management of public wastewater treatment facilities, and shall prescribe and announce matters necessary for such evaluation, including evaluation indicators and methods. <Newly Inserted by Act No. 13879, Jan. 27, 2016>

(4) Where the Minister of Environment deems that public wastewater treatment facilities are operated and managed not in compliance with the standards referred to in paragraph (2), he/she may order the operator of the public wastewater treatment facilities to take necessary measures, such as improving such facilities, within a specified period, as prescribed by Presidential Decree. <Amended by Act No. 13879, Jan. 27, 2016>

(5) The Minister of Environment may pay prize money to operators that have shown outstanding performance in an evaluation of the operation and management of their public wastewater treatment facilities under paragraph (3) within budgetary limits; and matters necessary for paying the prize money, including criteria and procedures for payment, shall be prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 50-2 (Technical Diagnosis, etc.)(1) Every operator shall conduct a technical diagnosis of public wastewater treatment facilities every five years to inspect the management conditions of such facilities, and notify the Minister of Environment of the findings of such diagnosis.

(2) An operator may outsource a technical diagnosis referred to in paragraph (1) to the Korea Environment Corporation or an institution specializing in technical diagnosis under Article 20-2 of the Sewerage Act (hereinafter referred to as "institution specializing in technical diagnoses"): Provided, That upon outsourcing the operation of public wastewater treatment facilities, an operator shall not outsource a technical diagnosis.

(3) Where public wastewater treatment facilities are found to be managed inappropriately through the technical diagnosis conducted under paragraph (1), an operator shall take necessary measures, such as formulating and implementing an improvement plan.

(4) Articles 20-2 and 20-4 of the Sewerage Act shall apply mutatis mutandis where an institution specializing in technical diagnoses conducts a technical diagnosis of public wastewater treatment facilities.

(5) Public wastewater treatment facilities that should undergo the technical diagnosis under paragraph (1), the details of such technical diagnosis, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

Article 51 (Installation, Management, etc. of Drainage Facilities)(1) A person prescribed by Presidential Decree, who intends to install drainage facilities or discharge wastewater in a public wastewater treatment area, shall flow wastewater discharged from the place of his/her business into public wastewater treatment facilities, and install necessary drainage facilities, such as drainage conduits. <Amended by Act No. 13879, Jan. 27, 2016>

(2) Methods of installation and structural standards of drainage facilities that should be installed under paragraph (1), and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment: Provided, That if otherwise prescribed by other statutes, such other statutes shall apply thereto.

(3) The Korea Environment Corporation, etc. may request the Minister of Environment or a Mayor/Do Governor to conduct an inspection under Article 68 (1) on a person who flows wastewater into public wastewater treatment facilities where necessary for the management, etc. of wastewater discharged. <Newly Inserted by Act No. 13879, Jan. 27, 2016>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

SECTION 3 Control of Domestic Sewage and Livestock Excreta

Article 52 (Management of Domestic Sewage and Livestock Excreta)

The management of domestic sewage and livestock excreta shall be governed by the Sewerage Act, and the Act on the Management and Use of Livestock Excreta, respectively.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

CHAPTER IV CONTROL OF NON-POINT POLLUTION SOURCES

Article 53 (Reporting on Installation of Non-Point Pollution Sources, Matters to be Observed, Improvement Orders, etc.)

(1) The following persons shall file a report to the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment. The same shall also apply where he/she intends to alter any matters prescribed by Presidential Decree among the reported matters:

1. A person who intends to perform a project prescribed by Presidential Decree, which is to an urban development project or industrial complex creation project of at least the scale prescribed by Presidential Decree, or which causes pollution by non-point pollution sources;
2. A person who installs steelmaking facilities, fabric dyeing facilities, or other wastewater discharge facilities prescribed by Presidential Decree in a place of business of at least the scale prescribed by Presidential Decree;
3. A person who falls under subparagraph 1 or 2 due to the occurrence of circumstances prescribed by Presidential Decree, such as the resumption of business, or extension of a place of business.

(2) Where a person files a report or a report on alteration under paragraph (1), he/she shall submit documents prescribed by Ordinance of the Ministry of Environment, such as a plan for reducing non-point source pollution, including a plan for installing non-point pollution reduction facilities.

(3) Any person who has filed a report or a report on alteration pursuant to paragraph (1) (hereinafter referred to as "business operator who reports the installation of non-point pollution source") shall install non-point pollution reduction facilities in accordance with standards prescribed by Ordinance of the Ministry of Environment by the time prescribed by Ordinance of the Ministry of Environment: Provided, That he/she need not install non-point pollution reduction facilities in any of the following circumstances: <Amended by Act No. 12519, Mar. 24, 2014>

1. Where the level of pollution of stormwater runoff at a place of business referred to in paragraph (1) 2 or 3 is always below the permissible discharge limits set under Article 31, which is acknowledged by the Minister of Environment, as prescribed by Presidential Decree;
2. Where he/she treats stormwater runoff by flowing it into buffer storage facilities installed

under Article 21-4;

3. Where one site is occupied by at least persons falling under any subparagraph of paragraph (1), deemed, by the Minister of Environment, capable of properly managing non-point pollution sources, as prescribed by Ordinance of the Ministry of Environment.

(4) Every business operator who has reported the installation of a non-point pollution source shall observe the following matters in conducting his/her business, or installing and operating facilities:

1. Implementing as specified in his/her plan for reducing non-point source pollution;
2. Operating and managing non-point pollution reduction facilities, as prescribed by Ordinance of the Ministry of Environment, including maintenance in compliance with standards for installation prescribed under paragraph (3);
3. Other matters prescribed by Ordinance of the Ministry of Environment in order to properly manage non-point pollution sources.

(5) The Minister of Environment may order a person who has failed to observe matters provided for in paragraph (4) to implement as specified in his/her plan for reducing non-point source pollution or to install or improve non-point pollution reduction facilities within a fixed period, as prescribed by Presidential Decree.

(6) Where the Minister of Environment intends to review a plan for reducing non-point source pollution submitted under paragraph (2) or to acknowledge a place of business which does not require non-point pollution reduction facilities pursuant to paragraph (3) 1 or 3, he/she may hear the opinions on the appropriateness thereof from relevant specialized institutions prescribed by Ordinance of the Ministry of Environment.

(7) Article 36 shall apply mutatis mutandis to succession to the rights and duties of a business operator who has reported the installation of a non-point pollution source. In such cases, "business operator" shall be construed as "business operator who has reported the installation of a non-point pollution source"; "discharging facilities and prevention facilities" as "non-point pollution source or non-point pollution reduction facilities"; "permission, permission for alteration, a report or a report on alteration" as "report or a report on alteration"; "lease" as "lease or replacement of the main agent of operation and management"; a "lessee" shall be construed as a "lessee or a replaced operation and management body"; and "Articles 38, 38-2 through 38-5, 39 through 41, 42 (excluding revocation of permission), 43, 46, 47, and 68 (1) 1" as "paragraphs (4) and (5) and Article 68 (1) 3", respectively.

(8) Methods of preparing plans for reducing non-point source pollution under paragraph (2), and other necessary matters, shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 53-2 (Installation of Non-Point Pollution Reduction Facilities to Ensure Water Quality of Water Sources)(1) The State or local governments shall install non-point pollution reduction facilities on a road prescribed by Presidential Decree among roads defined in subparagraph 1 of Article 2 of the Road Act, if such road is located in any of the

following areas:

1. A water source protection area;
2. A certain area in the upstream or downstream of water intake facilities, which is within a distance prescribed by Ordinance of the Ministry of Environment in cases of areas not publicly announced as water source protection areas;
3. A special-measures area;
4. A riparian zone designated and publicly notified, respectively, under Article 4 of the Act on the Improvement of Water Quality and Support for Residents of the Han River Basin, Article 4 of the Act on the Management of Water and Resident Support in the Nakdong River Basin, Article 4 of the Act on Water Management and Resident Support in the Geum River Basin, and Article 4 of Water Management and Resident Support in the Yeongsan and Seomjin River Basins;
5. An area prescribed by Ordinance of the Ministry of Environment as it could seriously pollute the water source.

(2) The State may provide subsidies to local governments that intend to install non-point pollution reduction facilities as prescribed in paragraph (1).

[This Article Newly Inserted by Act No. 11670, Mar. 22, 2013]

Article 53-3 (Formulation of Comprehensive Plan to Manage Non-Point Pollution Sources)(1) To manage non-point pollution sources comprehensively, the Minister of Environment shall formulate a comprehensive plan to manage non-point pollution sources (hereinafter referred to as "comprehensive plan") every five years in consultation with the heads of related central administrative agencies and relevant Mayors/Do Governors, as prescribed by Presidential Decree.

(2) A comprehensive plan shall include the following:

1. Status and outlooks of non-point pollution sources;
2. Status of the occurrence of, and outlooks of non-point source pollutants;
3. Basic goals of, and direction-setting for, the management of non-point pollution sources;
4. Detailed implementation measures to reduce non-point source pollutants;
5. Other matters prescribed by Presidential Decree to manage non-point pollution sources.

(3) Upon formulating a comprehensive plan, the Minister of Environment shall notify the heads of related central administrative agencies and relevant Mayors/Do Governors of the comprehensive plan.

(4) The Minister of Environment may request the heads of related central administrative agencies and relevant Mayors/Do Governors to submit materials necessary to assess the implementation of their jurisdictional affairs in the comprehensive plan. In such cases, the heads of related central administrative agencies and relevant Mayors/Do Governors in receipt of a request for the submission of materials shall comply therewith, except in exceptional circumstances.

(5) The Minister of Environment shall annually compile results of the assessment conducted under paragraph (4) and evaluate them, as prescribed by Presidential Decree; and reflect

the outcomes of such evaluation in the formulation and implementation of policies for managing non-point pollution sources.

(6) The Minister of Environment may entrust a specialized institution with research, analysis, etc. necessary to conduct the evaluation referred to in paragraph (5) efficiently.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

Article 54 (Designation, etc. of Management Areas)(1) The Minister of Environment may designate an area, in which stormwater runoff released from a non-point pollution source compromise, or is likely to compromise, the purposes of rivers, lakes and marshes, or causes or is likely to cause serious harm to the health or property of residents, or the natural ecosystems, as a non-point pollution source management area (hereinafter referred to as "management area") in consultation with the competent Mayor/Do Governor.

(2) The Mayor/Do Governor may request the Minister of Environment to designate an area within his/her jurisdiction, in which non-point pollution sources need to be managed, as a management area.

(3) Where the Minister of Environment deems it necessary to cancel the designation of a management area as the ground for designation has ceased or it is impracticable to accomplish the purposes of the designation thereof, he/she may wholly or partially cancel the designation of the management area.

(4) Criteria and procedures for designation of management areas, and other necessary matters, shall be prescribed by Presidential Decree.

(5) Where the Minister of Environment designates a management area or cancels the designation thereof, he/she shall publicly notify the location and surface area of the management area, the date of designation, the purposes of designation, the date of cancellation, grounds for cancellation, and other matters prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 55 (Formulation of Management Measures)(1) Upon having designated or announced a management area, the Minister of Environment shall formulate management measures for non-point pollution sources (hereinafter referred to as "management measures"), including the following matters, in consultation with the heads of related central administrative agencies and the Mayors/Do Governors:

1. Management objectives;
2. Types and quantity of water pollutants subject to management;
3. Prevention of the generation of water pollutants subject to management and a plan to reduce them;
4. Other matters prescribed by Ordinance of the Ministry of Environment to properly manage the management area.

(2) When the Minister of Environment has formulated management measures, he/she shall notify the Mayors/Do Governors of the management measures.

(3) The Minister of Environment may request the heads of related central administrative

agencies, Mayors/Do Governors, and the heads of related institutions or organizations to submit materials necessary to formulate management measures.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 56 (Formulation of Action Plans)(1) Upon receipt of notice of management measures from the Minister of Environment pursuant to Article 55 (2), a Mayor/Do Governor shall formulate a plan to implement the management measures (hereinafter referred to as "action plan") including the following matters, and implement the action plan after obtaining approval from the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment. The same shall also apply where the Mayor/Do Governor intends to alter matters prescribed by Ordinance of the Ministry of Environment in the action plan:

1. Current status of, and plans for, development of the management area;
2. Current status of the generation of water pollutants subject to management measures in the management area, and expected changes in the quantity of water pollutants to be generated due to a regional development plan;
3. Prevention of the generation of water pollutants subject to management measures, such as environment-friendly development;
4. A plan to reduce water pollutants subject to management measures, including installing and operating prevention facilities and reducing the area of the impermeable layer;
5. Other matters prescribed by Ordinance of the Ministry of Environment to implement management measures.

(2) Each Mayor/Do Governor shall prepare a report assessing the outcomes of implementation of the action plan of the preceding year and submit the report to the Minister of Environment by the end of March each year, as prescribed by Ordinance of the Ministry of Environment.

(3) If deemed necessary for efficiently implementing the management measures and the action plan after reviewing the assessment report submitted pursuant to paragraph (2), the Minister of Environment may request a relevant Mayor/Do Governor to supplement or alter the action plan. In such cases, the relevant Mayor/Do Governors shall comply therewith, except in exceptional circumstances.

(4) Where the relevant Mayor/Do Governor fails to comply with a request made under paragraph (3), the Minister of Environment may take measures, such as suspending or curtailing financial support.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 57 (Subsidies from Budget, etc.)

The Minister of Environment may fully or partially subsidize expenses incurred in formulating or implementing action plans, within budgetary limits.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 57-2 (Technical Development and Research)

In order to develop and disseminate technology necessary to manage and reduce non-point pollution sources, the Minister of Environment may require a specialized research institution

prescribed by Ordinance of the Ministry of Environment to promote the research and development of such technology, and provide the specialized research institution with financial support.

[This Article Newly Inserted by Act No. 11979, Jul. 30, 2013]

Article 58 (Tolerances for Pesticide Residues)(1) The Minister of Environment may set tolerances for pesticide residues in water or soil, if deemed necessary to prevent the pollution of water or soil.

(2) When the Minister of Environment deems that levels of pesticide residues in water or soil exceed or are likely to exceed tolerances set under paragraph (1), he/she may request the heads of related administrative agencies to take necessary measures, such as prohibiting manufacturing or alteration of the relevant pesticide, or collecting and discarding the relevant products. In such cases, the heads of the related administrative agencies shall comply therewith, except in exceptional circumstances.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 59 (Recommending on Methods of Cultivating Land in High Altitude Regions)(1) In order to preserve water quality and aquatic ecosystems of public waters, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may recommend persons who cultivate farmland with at least a gradient prescribed by Ordinance of the Ministry of Environment among farmland located in areas higher than the sea level prescribed by Ordinance of the Ministry of Environment to alter the methods of cultivation, reduce the use of pesticides and fertilizer, and let farmland lie fallow.

(2) The Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may compensate for losses incurred to farmers by cultivating crops, or by letting their farmland lie fallow upon recommendation under paragraph (1), as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

CHAPTER V CONTROL OF OTHER WATER POLLUTION SOURCES

Article 60 (Reporting, etc. on Installation of other Water Pollution Sources)(1) Any person who intends to install or manage other water pollution sources shall report thereon to the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment. The same shall also apply where he/she intends to alter any reported matter.

(2) Any person who installs or manages other water pollution sources shall take necessary measures, such as installing facilities to prevent or control discharge of water pollutants, as prescribed by Ordinance of the Ministry of Environment.

(3) Where the Minister of Environment deems that facilities or measures to control discharge of water pollutants under paragraph (2) are inappropriate, he/she shall order the improvement of such facilities or measures within a fixed period, as prescribed by Ordinance of the Ministry of Environment.

(4) Where a person who has filed a report pursuant to paragraph (1) violates an improvement order issued under paragraph (3), the Minister of Environment may order him/her to suspend operation or close the relevant water pollution source.

(5) Articles 36 and 44 shall apply mutatis mutandis to other water pollution sources.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 61 (Restrictions on Use of Pesticides on Golf Courses)(1) No person who installs or manages a golf course shall use any pesticides prescribed by Presidential Decree, which are fatally or highly poisonous (hereinafter referred to as "fatally or highly poisonous pesticides"), among pesticides defined in subparagraph 1 of Article 2 of the Pesticide Control Act, on the lawn and trees of the golf course: Provided, That the foregoing shall not apply where the head of the competent administrative agency deems it inevitable to prevent and exterminate harmful insects and infectious tree diseases.

(2) The Minister of Environment shall ascertain whether fatally or highly poisonous pesticides are used on golf courses, as prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 61-2 (Reporting and Management of Water Play Facilities)(1) A person who intends to establish and operate the following water play facilities, shall report to the Minister of Environment or a Mayor/Do Governor, as prescribed by Ordinance of the Ministry of Environment. The foregoing shall also apply to important matters prescribed by Ordinance of the Ministry of Environment:

1. Water play facilities (including those operated by a private business entity, etc. under an entrustment contract) established and operated by the State, a local government or any other public institution prescribed by Presidential Decree (hereinafter referred to as "public institution");

2. Water play facilities installed and operated by any person other than a public institution within any of the following facilities:

(a) An institution providing public health and medical services, as defined in subparagraph 4 of Article 2 of the Public Health and Medical Services Act;

(b) A tourist destination and a tourist complex, as defined in subparagraphs 6 and 7 of Article 2 of the Tourism Promotion Act;

(c) An urban park, as defined in subparagraph 3 of Article 2 of the Act on Urban Parks, Green Areas, Etc.;

(d) A sports facility, as defined in subparagraph 1 of Article 2 of the Installation and Utilization of Sports Facilities Act;

(e) A children's amusement facility, as defined in subparagraph 2 of Article 2 of the Act on the Safety Control of Children's Amusement Facilities.

(2) Every person who operates water play facilities pursuant to paragraph (1) shall comply with water quality standards and management standards prescribed by Ordinance of the Ministry of Environment, and undergo water quality tests on a regular basis, as prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

CHAPTER VI WASTEWATER TREATMENT BUSINESS

Article 62 (Registration of Wastewater Treatment Business)(1) Any person who intends

to conduct a business of treating wastewater upon entrustment (hereinafter referred to as "wastewater treatment business") shall be registered with the Minister of Environment, upon being equipped with technical capability, facilities, and equipment, as prescribed by Ordinance of the Ministry of Environment. The same shall also apply where he/she alters any important matters prescribed by Ordinance of the Ministry of Environment among the registered matters.

(2) A person whose wastewater treatment business (hereinafter referred to as "wastewater treatment business operator") has been registered pursuant to paragraph (1) shall observe the following matters:

1. To be entrusted with wastewater treatment in consideration of the capacity of and potential for treating wastewater;
2. To ensure the proper operation of his/her wastewater treatment business by maintaining and inspecting his/her technical capacity, facilities, equipment, etc. under paragraph (1);
3. Not to install or operate facilities below the capability or capacity of treatment prescribed by Ordinance of the Ministry of Environment;
4. Not to re-outsource the treatment of wastewater with which he/she was entrusted to another wastewater treatment business operator: Provided, That the foregoing shall not apply where wastewater is left untreated for a period prescribed by Ordinance of the Ministry of Environment because it is impossible to normally treat wastewater due to an event, etc.;
5. Other matters prescribed by Ordinance of the Ministry of Environment to properly treat the wastewater entrusted.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 63 (Grounds for Disqualification)

None of the following persons shall be registered to conduct the wastewater treatment business:

1. An incompetent under adult guardianship or a quasi-incompetent under limited guardianship;
2. A person declared bankrupt but yet to be reinstated;
3. A person in whose case two years have not passed since the registration of his/her wastewater treatment business was revoked pursuant to Article 64;
4. A person in whose case two years have not passed since his/her imprisonment with labor declared by a court, for a violation of this Act, the Clean Air Conservation Act, or the Noise and Vibration Control Act, was completely executed or exempted;
5. A corporation, any of the executives of which falls under any of subparagraphs 1 through 4.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 64 (Revocation, etc. of Registration)(1) Where a wastewater treatment business operator falls under any of the following, the Minister of Environment shall revoke his/her registration:

1. Where he/she falls under any of the subparagraphs of Article 63: Provided, That the

foregoing shall not apply where an executive of a corporation that falls under subparagraph 5 of Article 63 is replaced with another person within six months;

2. Where he/she has been registered by fraud or other illegal means;

3. Where he/she fails to commence his/her business within two years from the date of registration or has had no business performance for at least two consecutive years;

4. Where he/she is unable to maintain standards for technical capacity, facilities, and equipment referred to in the former part of Article 62 (1) due to the expiration of the designated period of the waste discharge under the Marine Environment Management Act or the revocation of the ocean waste discharge business.

(2) Where a wastewater treatment business operator falls under any of the following, the Minister of Environment may revoke his/her registration or order him/her to suspend his/her business for a fixed period not exceeding six months:

1. Where he/she lends his/her registration certificate to any other person;

2. Where he/she has been subject to the suspension of business at least two occasions a year;

3. Where he/she conducts the wastewater treatment business unconscientiously, either intentionally or by gross negligence;

4. Where he/she engages in business activities during the suspension period of business.

(3) Where a wastewater treatment business operator falls under any of the following, the Minister of Environment may order him/her to suspend business for a fixed period not exceeding six months:

1. Where he/she fails to register an alteration pursuant to the latter part of Article 62 (1);

2. Where he/she fails to comply with any of the matters to be observed under Article 62 (2).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 65 (Succession to Rights and Duties)(1) Any of the following persons shall succeed to the former wastewater treatment business operator' s rights and duties vested or imposed under this Act. In such cases, a transferee, heir or corporation falling under any of subparagraphs 1 through 4 of Article 63 may transfer his/her or its business to a third person or corporation within three months:

1. Where a business operator dies, his/her heir;

2. Where a business operator has transferred his/her business, the transferee of the business;

3. Where a corporate business operator is merged with another corporation, a corporation surviving the merger or the corporation incorporated in the course of the merger.

(2) A person who acquires wastewater treatment business facilities according to any of the following procedures shall succeed to the former wastewater treatment business operator' s rights and duties vested or imposed under this Act: Provided, That the foregoing shall not apply where the person who acquires facilities falls under any of the subparagraphs of Article 63: <Amended by Act No. 14476, Dec. 27, 2016>

1. Auction under the Civil Execution Act;

2. Conversion to cash under the Debtor Rehabilitation and Bankruptcy Act;
3. Sale of seized property under the National Tax Collection Act, the Customs Act, or the Local Tax Collection Act;
4. Other procedures corresponding to those referred to in subparagraphs 1 through 3.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 66 (Imposition of Penalty Surcharges)(1) Where the Minister of Environment must order a person whose wastewater treatment business has been registered pursuant to Article 62 (1) to suspend his/her business pursuant to Article 64, and he/she deems that such suspension of business is likely to substantially hinder the livelihood of residents and the public interest, he/she may impose a penalty surcharge not exceeding 200 million won, in lieu of ordering the suspension of business: Provided, That the foregoing shall not apply where he/she falls under Article 64 (2) 1 through 3, (3) 1 or 2 (only applicable to where he/she fails to comply with any of the matters to be observed under Article 62 (2) 4).

(2) Article 43 (3) through (6) shall apply mutatis mutandis to the imposition, collection, etc. of penalty surcharges under paragraph (1).

(3) Types of violations subject to penalty surcharges under paragraph (1), the amount of penalty surcharges depending on the severity of violations, and other necessary matters, shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

CHAPTER VII SUPPLEMENTARY PROVISIONS

Article 67 (Education of Environmental Engineers, etc.)(1) Any person who employs technicians or environmental engineers engaged in the wastewater treatment business shall require such technicians or environmental engineers to receive education conducted by the Minister of Environment, the Mayor/Do Governor, or the Mayor of a large city, as prescribed by Ordinance of the Ministry of Environment.

(2) The Minister of Environment, the Mayor/Do Governor, or the Mayor of a large city may collect expenses incurred in conducting education under paragraph (1) from those who employ persons who should receive education, as prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 68 (Reporting, Inspections, etc.)(1) In circumstances prescribed by Ordinance of the Ministry of Environment, the Minister of Environment or a Mayor/Do Governor may require the following persons to submit necessary reports or materials, and require related public officials to access the relevant facilities, places of business, etc. to collect water pollutants and examine relevant documents, facilities, equipment, etc. to verify whether such facilities, places of business, etc. meet the standards for effluent water quality, permissible discharge limits set under Article 32, and standards for permission or permission for alteration under Article 33; measuring instruments are operated normally; matters to be observed under Article 53 (4) are observed; and water quality standards and management standards referred to in Article 61-2 (2) are satisfied: <Amended by Act No. 13879, Jan. 27,

2016>

1. A business operator;
2. A person who installs or operates public wastewater treatment facilities (including public sewage treatment facilities prescribed by Ordinance of the Ministry of Environment);
- 2-2. A measuring instruments management agency;
3. A person who falls under Article 53 (1);
4. A person who has filed a report on the installation or management of other water pollution sources under Article 60;
- 4-2. A person who installs and operates water play facilities pursuant to Article 61-2 (1);
5. A wastewater treatment business operator registered under Article 62 (1);
6. A person entrusted with the affairs of the Minister of Environment or a Mayor/Do Governor pursuant to Article 74 (2).

(2) Where water pollutants are collected pursuant to paragraph (1) to verify whether the permissible discharge limits and standards for effluent water quality are met; whether water pollutants are discharged from wastewater non-discharge facilities; or whether water play facilities comply with water quality standards, the Minister of Environment shall request a testing institution prescribed by Ordinance of the Ministry of Environment to test the level of pollution: Provided, That the foregoing shall not apply where it can be judged on the spot whether water pollutants prescribed by Ordinance of the Ministry of Environment exceed permissible discharge limits, standards for effluent water quality, or water quality standards of water play facilities. <Amended by Act No. 13879, Jan. 27, 2016>

(3) Any public official who gains access or conducts inspections pursuant to paragraph (1) shall carry a document certifying his/her authority and produce it to related persons.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 68-2 (Monetary Rewards for Reporting)(1) The Minister of Environment may pay a monetary reward to a person who reports a person who has engaged in any prohibited act in violation of Article 38-3 (1), or who has failed to meet any of the standards for operation and management, in violation of paragraph (2) of the aforesaid Article to an administrative agency or investigative agency within budgetary limits.

(2) Criteria, methods and procedures for paying monetary rewards for reporting under paragraph (1), a specific amount to be paid, and other related matters shall be prescribed by Presidential Decree.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

Article 69 (National Subsidies)

The State may subsidize funds necessary for local governments to conduct projects for preserving water quality and aquatic ecosystems, within the budgetary limits.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 70 (Cooperation from Related Institutions)

The Minister of Environment may request the heads of related institutions to take the following measures where deemed necessary to accomplish the purposes of this Act. In

such cases, the heads of the related institutions shall comply therewith, except in exceptional circumstances: <Amended by Act No. 13879, Jan. 27, 2016>

1. Improving methods for preventing and exterminating noxious insects;
2. Regulating the use of pesticides and fertilizer;
3. Regulating the use of water for farming;
4. Designating green areas and scenic areas;
5. Installing public wastewater treatment facilities or public sewage treatment facilities;
6. Dredging public waters;
7. Revoking permission to occupy and use a river, suspending the execution of river conservation works or an alteration thereto, or relocating or removing artificial structures thereof;
8. Revoking permission to occupy and use public waters, suspending or limiting the use of public waters, or rebuilding or removing facilities, etc.;
9. Preventing water pollution regarding facilities that could cause water pollution, such as oil pipelines, oil storage facilities, pesticide storage facilities, and submitting data on the status of such facilities;
10. Other measures prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 71 (Criteria for Taking Administrative Dispositions)

Criteria for taking administrative dispositions for violations of this Act or any order issued under this Act shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 72 (Hearings)

The Minister of Environment shall hold a hearing to issue any of the following dispositions: <Amended by Act No. 13879, Jan. 27, 2016>

1. Revoking permission or issuing an order to close discharging facilities under Article 35 (3), 42 or 44;
- 1-2. Revoking registration under Article 38-9;
2. Issuing an order to close other water pollution sources under Article 60 (4);
3. Revoking registration under Article 64.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 73 (Fees)

Any person who intends to obtain any of following permission, etc. or file any of the following reports, etc. shall pay fees, as prescribed by Ordinance of the Ministry of Environment:

1. Permission or permission for alteration, or reporting or reporting on alteration of discharging facilities under Article 33 (1) through (3);
2. Reporting or reporting on alteration under Article 53;
3. Reporting on installation of other water pollution sources or alteration thereto under Article 60 (1);
4. Registration of wastewater treatment business or alteration thereto under Article 62 (1).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 74 (Delegation and Entrustment)(1) The Minister of Environment may delegate part of his/her authority vested under this Act to a Mayor/Do Governor, the Mayor of a large city, the head of an environment research institution under the jurisdiction of the Ministry of Environment, or the head of a regional environment office, as prescribed by Presidential Decree.

(2) The Minister of Environment or a Mayor/Do Governor may entrust part of his/her affairs under this Act to a relevant specialized institution, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 74-2 (Deemed Public Officials for Purposes of Penalty Provisions)

A person who performs affairs entrusted pursuant to Article 74 (2) shall be deemed a public official for the purposes of Articles 129 through 132 of the Criminal Act.

[This Article Newly Inserted by Act No. 13879, Jan. 27, 2016]

CHAPTER VIII PENALTY PROVISIONS

Article 75 (Penal Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than seven years, or by a fine not exceeding 70 million won: <Amended by Act No. 12519, Mar. 24, 2014>

1. A person who installs or alters a discharging facility without obtaining permission under Article 33 (1) or permission for alteration under Article 33 (2), or upon obtaining permission or permission for alteration by fraud means, or operates his/her business using such discharging facility;
2. A person who installs a restricted discharging facility in an area in which the installation of discharging facilities is restricted pursuant to Article 33 (5) and (6), or operates his/her business using such facilities;
3. A person who engages in any conduct referred to in the subparagraphs of Article 38 (2).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 76 (Penal Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than five years, or by a fine not exceeding 50 million won: <Amended by Act No. 12519, Mar. 24, 2014>

1. A person who fails to comply with an order to suspend operation or close a facility under Article 4-6 (4);
2. A person who installs a discharging facility without filing a report under Article 33 (1), or upon filing a false report, or operates using such discharging facility;
3. A person who engages in any conduct referred to in the subparagraphs of Article 38 (1);
4. A person who fails to take a measure to install measuring instruments pursuant to Article 38-2 (1) (excluding a person who fails to install a wattmeter, or flow meter);
5. A person who engages in any conduct referred to in Article 38-3 (1) 1 or 3;
6. A person who violates an order to suspend operation under Article 40;

7. A person who violates an order to suspend operation or close a facility under Article 42;
 8. A person who violates an order to suspend the use of, or close a facility under Article 44;
 9. A person who engages in any conduct referred to in the subparagraphs of Article 50 (1).
- [This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 77 (Penal Provisions)

Any person who leaks, discharges, or dumps a specific substance harmful to water, etc., in violation of Article 15 (1) 1, shall be punished by imprisonment with labor for not more than three years, or by a fine not exceeding 30 million won. <Amended by Act No. 12519, Mar. 24, 2014>

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 78 (Penal Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than one year, or by a fine not exceeding ten million won: <Amended by Act No. 12519, Mar. 24, 2014; Act No. 13879, Jan. 27, 2016>

1. A person who violates an order to take measures, such as improving facilities, under Article 12 (2);
2. A person who leaks or discharges a specific substance harmful to water due to professional negligence or by gross negligence, in violation of Article 15 (1) 1;
3. A person who dumps human excreta, livestock excreta, etc., in violation of Article 15 (1) 2;
4. Deleted; <by Act No. 13879, Jan. 27, 2016>
5. A person who violates an order to implement prevention and elimination measures under Article 15 (3);
6. A person who violates a traffic restriction imposed under Article 17 (1);
7. A person who violates an order to take special measures under Article 21-3 (1);
8. A person who operates without reporting startup operation under Article 37 (1);
9. A person who refuses, interferes with, or evades an inspection conducted under Article 37 (4);
10. A person who fails to comply with an order to suspend operation under Article 38-4 (2);
- 10-2. A person who provides measuring instrument management services for third parties without registration or registration of any alteration thereto, in violation of Article 38-6 (1);
11. A person who violates an order to take measures, such as improving facilities, under Article 50 (4);
12. A person who fails to install non-point pollution reduction facilities under the main sentence of Article 53 (3);
13. A person who violates an order to implement a plan for reducing non-point source pollution, or an order to install or improve non-point pollution reduction facilities under Article 53 (5);
14. A person who installs or manages other water pollution sources without filing a report under Article 60 (1);

15. A person who violates an order to suspend the operation of facilities or close facilities under Article 60 (4) or (5);

16. A person who engages in wastewater treatment business without registration or registration of any alteration thereto under Article 62 (1);

17. A business operator who installs or operates wastewater non-discharge facilities, who refuses, interferes with, or evades the access and inspections of a related public official under Article 68 (1).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 79 (Penal Provisions)

Any of the following persons shall be punished by a fine not exceeding five million won:

1. A person who fails to comply with an order to take measures under Article 38-4 (1);

2. A wastewater treatment business operator who fails to observe matters to be observed under Article 62 (2) 1 or 2;

3. A person who refuses, interferes with, or evades the access and inspections of a related public official under Article 68 (1) (excluding a business operator who installs or operates wastewater non-discharge facilities).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 80 (Penal Provisions)

Any of the following persons shall be punished by a fine not exceeding one million won:

1. A person who fails to install a wattmeter or flow meter pursuant to Article 38-2 (1);

2. A person who interferes with the business practices of an environmental engineer or refuses a request of an environmental engineer without just grounds, in violation of Article 47 (4).

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 81 (Joint Penal Provisions)

If the representative of a corporation, or an agent, employee or other servant of a corporation or an individual commits an offence referred to in Articles 75 through 80 in connection with the business of the corporation or the individual, not only shall such offender be punished, but also the corporation or individual shall be punished by a fine under the relevant Article: Provided, That the foregoing shall not apply where such corporation or individual has not been negligent in giving due attention and supervision concerning the relevant business to prevent such offence.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

Article 82 (Administrative Fines)(1) Any of the following persons shall be punished by an administrative fine not exceeding ten million won: <Amended by Act No. 13879, Jan. 27, 2016>

1. A person who fails to install or operate a measuring instrument under Article 4-5 (4);

2. A person who fails to record or keep the measurement readings under Article 4-5 (4), or records or keeps false measurement readings;

2-2. A person who discharges or dumps earth and sand in excess of the scale prescribed by

Ordinance of the Ministry of Environment, in violation of Article 15 (1) 4;

3. A person who fails to observe the compliance under Article 35 (2);

4. A person who fails to appoint an environmental engineer, in violation of Article 47 (1);

5. A person who fails to file a report under Article 53 (1);

6. A person who uses fatally or highly poisonous pesticides on the lawns and trees of the golf course, in violation of Article 61;

7. A wastewater treatment business operator who fails to observe any of the matters to be observed under Article 62 (2) 4 or 5.

(2) Any of the following persons shall be punished by an administrative fine not exceeding three million won: <Amended by Act No. 13879, Jan. 27, 2016>

1. A person who fishes in a “no-take” zone designated under Article 20 (1);

2. A person who fails to keep records on the operating status of discharging facilities, etc., or falsifies such records, in violation of Article 38 (3);

3. A person who engages in the conduct provided for in Article 38-3 (1) 2;

4. A person who fails to meet any of the standards for operation and management, in violation of Article 38-3 (2);

4-2. A person who fails to conduct a technical diagnosis, in violation of Article 50-2 (1);

5. A person who fails to report an alteration under the latter part of Article 53 (1);

6. A person who fails to install facilities or to take other necessary measures, in violation of Article 60 (2);

7. A person who operates water play facilities without reporting the installation of such facilities or reporting any alteration thereto, in violation of Article 61-2 (1);

8. A person who fails to meet any of the water quality standards or management standards for water play facilities under Article 61-2 (1), or fails to undergo a water quality test.

(3) Any of the following persons shall be punished by an administrative fine not exceeding one million won:

1. A person who violates Article 15 (1) 3;

2. A person who fishes in a fishing-restricted zone, in violation of restrictions imposed under Article 20 (2);

3. A person who fails to report an alteration under the proviso to Article 33 (2) or paragraph (3) of the aforesaid Article;

4. A person who fails to report an alteration under the latter part of Article 60 (1);

5. A person who fails to require an environmental engineer, etc. to undergo education, in violation of Article 67;

6. A person who fails to file a report under Article 68 (1) or files a false report, or fails to submit materials or submits false materials.

(4) The Minister of Environment, the Mayors/Do Governors or the heads of Sis/Guns/Gus shall impose and collect administrative fines under paragraphs (1) through (3), as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 11979, Jul. 30, 2013]

ADDENDA (Omitted)

33. Enforcement Decree of the Water Quality and Aquatic Ecosystem Conservation Act

[Enforcement Date 26. May, 2015.] [Presidential Decree No.26249, 26. May, 2015., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Decree is to provide for matters delegated by the Water Quality and Aquatic Ecosystem Conservation Act and matters necessary for the enforcement thereof.

Article 2 (Designation and Publishment of Regions Subject to Regulation of Total Quantity of Pollutants)

(1) The Minister of Environment shall, when he/she intends to designate and publish an area, the total amount of water quality pollutants of which is to be regulated (hereinafter referred to as "region subject to the regulation of total quantity of pollutants") in accordance with Article 4 (2) of the Water Quality and Aquatic Ecosystem Conservation Act (hereinafter referred to as the "Act"), include the following matters:

1. The river system whose water pollutants to be regulated on the basis of the total quantity and the river basin that may have influence on such river system;
2. The section of river system for which the water quality that serves as the target for the regulation of total quantity of pollutants (hereinafter referred to as "target water quality for regulation of total quantity of pollutants") shall be determined and the river basin that may have influence on such section of river system (hereinafter referred to as "unit basin for the regulation of total quantity of pollutants").

(2) The Minister of Environment shall, when he/she intends to designate and publish a region subject to the regulation of total quantity of pollutants in accordance with paragraph (1), hold prior consultation with the heads of relevant local governments.

Article 3 (Notice, Public Notice, etc. of Water Quality Targets for Quantity Regulation of Pollutants)

(1) When the Minister of Environment intends to publish the water quality targets for quantity regulation of pollutants for each section of a river system in accordance with the main sentence of Article 4-2 (1), he/she shall include the following matters: <Amended by Presidential Decree No. 25127, Jan. 28, 2014>

1. The water quality targets for quantity regulation of pollutants at the lower end of the river system under Article 2 (1) 1;
2. The water quality targets for quantity regulation of pollutants on the border points of a Special Metropolitan City, a Metropolitan City, a Special Self-Governing City, a Do, or a Special Self-Governing Province (hereinafter referred to as "City/Do");
3. The water quality targets for quantity regulation of pollutants for each section of a river system under Article 2 (1) 2.

(2) When the Minister of Environment intends to publish the water quality targets for quantity regulation of pollutants under paragraph (1), he/she shall notify the Mayors/Do Governors

of the deadline for informing the intention of establishing of the water quality targets for quantity regulation of pollutants for each section of river systems of the jurisdiction area (hereinafter referred to as "water quality targets for quantity regulation of pollutants of the jurisdiction area") to the Minister of Environment and the deadline for applying for approval to the Minister of Environment, by the Mayor of a Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, the Governor of a Do, or the Governor of a Special Self-Governing Province (hereinafter referred to as "Mayor/Do Governor") before the publication has been made in accordance with the proviso to Article 4-2 (1) of the Act. <Amended by Presidential Decree No. 25127, Jan. 28, 2014>

(3) When a Mayor/Do Governor intends to publish the water quality targets for quantity regulation of pollutants of the jurisdiction area under the proviso to Article 4-2 (1) of the Act, he/she shall determine the water quality targets for quantity regulation of pollutants of the jurisdiction area with which the water quality targets for quantity regulation of pollutants of the jurisdiction area pursuant to paragraph (1) 1 and 2 may be achieved and maintained by considering the following matters after notifying the intention of establishing of the water quality targets for quantity regulation of pollutants of the jurisdiction area to the Minister of Environment within the deadline for notification under paragraph (2), and shall apply for approval to the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment within the deadline for applying for approval under paragraph (2):

1. The current status of use of water for specific purposes and the quantity of flow by unit basins for quantity regulation of pollutants;
2. The current status of, and prospect on the natural and geological sources of pollution of the unit basin for quantity regulation of pollutants;
3. The quantity of creating and discharging water pollutants by source of pollution of the unit basin for quantity regulation of pollutants;
4. Relation between the water quality and the pollutants.

(4) The Minister of Environment shall grant approval only where the water quality targets for quantity regulation of pollutants referred to in paragraph (1) 1 and 2 may be achieved and maintained with the water quality targets for quantity regulation of pollutants of the jurisdiction area for which the Mayor/Do Governor applies for approval in accordance with paragraph (3).

(5) Upon obtaining approval from the Minister of Environment under paragraph (4), a Mayor/Do Governor shall immediately publish the approved water quality targets for quantity regulation of pollutants of the jurisdiction area.

(6) In the following cases, the Minister of Environment shall publish the water quality targets for quantity regulation of pollutants for each section of river systems of the relevant district:

1. Where the Mayor/Do Governor has failed to inform the intention of establishing the water quality targets for quantity regulation of pollutants of the jurisdiction area or to apply for approval within the deadline under paragraph (2);
2. Where the approved water quality targets for quantity regulation of pollutants of the

jurisdiction area has failed to be published in accordance with paragraph (5).

(7) The Minister of Environment shall measure the water quality of the lower end of the unit basin for regulating the total quantity of pollutants, as prescribed by Ordinance of the Ministry of Environment, in order to confirm whether the water quality targets for quantity regulation of pollutants have been achieved or maintained.

Article 4 (Basic Guidelines for Regulation of Total Quantity of Pollutants)

The basic guidelines for regulation of total quantity of pollutants under Article 4-2 (2) of the Act (hereinafter referred to as "basic guidelines") shall include the following matters:

1. The purposes of the regulation of total quantity of pollutants;
2. The kinds of water quality pollutants subject to regulation of total quantity of pollutants;
3. Surveys on pollution sources and methods of calculating the loading quantity for contamination;
4. The subjects, contents, means and deadline of the basic plan for regulation of total quantity of pollutants pursuant to Article 4-3 of the Act;
5. The contents and means of the implementation plan for regulation of total quantity of pollutants pursuant to Article 4-4 of the Act.

Article 5 (Subject to Approval for Change of Basic Plan for Regulation of Total Quantity of Pollutants)

"Important matters prescribed by Presidential Decree" in the latter part of the main body of Article 4-3 (1) of the Act means the matters falling under Article 4-3 (1) 2 and 4 of the Act.

Article 6 (Approval, etc. on Action Plan for Quantity Regulation of Pollutants)(1) The Mayor of a Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, or the Governor of a Special Self-Governing Province shall formulate an action plan for quantity regulation of pollutants (hereinafter referred to as "action plan for quantity regulation of pollutants") which includes the following matters in accordance with Article 4-4 (1) of the Act, and shall obtain approval thereof from the Minister of Environment: <Amended by Presidential Decree No. 25127, Jan. 28, 2014>

1. The current status of the river basin subject to the action plan for quantity regulation of pollutants;
2. The current status of and forecast on pollution sources;
3. The loading quantity for contamination to be additionally discharged subsequent to the annual regional development plan and the detailed contents of the relevant annual development plan;
4. The annual targets for reduction of the loading quantity for contamination and the specific scheme for reduction;
5. The reduction quantity, by facility, allotted with the loading quantity for contamination in accordance with Article 4-5 of the Act and the implementation timing thereof;
6. The calculated data for the forecast of the water quality and the plan for monitoring the implementations thereof.

(2) The head of a Si/Gun (excluding the head of a Gun under the jurisdiction of any

Metropolitan City; hereafter the same shall apply in this Article and Article 12) shall formulate an action plan for quantity regulation of pollutants, which includes matters referred to in the subparagraphs of paragraph (1), and obtain approval thereof from the competent Do Governor: <Amended by Presidential Decree No. 23520, Jan. 17, 2012>

(3) A Do Governor shall consult in advance with the Minister of Environment before approving an action plan pursuant to paragraph (2). <Newly Inserted by Presidential Decree No. 23502, Jan. 17, 2012>

(4) Matters necessary for the procedures, criteria, etc. for approval under paragraphs (1) through (3) shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Presidential Decree No. 23520, Jan. 17, 2012>

Article 7 (Changes of Implementation Plan for Regulation of Total Quantity of Pollutants Subject to Approval)

"Cases where important matters prescribed by Presidential Decree are to be changed" in the latter part of Article 4-4 (1) of the Act means cases falling under each of the following subparagraphs:

1. Increases in the annual loading quantity for contamination pursuant to Article 6 (1) 3;
2. Decreases in the reduction target for the annual loading quantity for contamination pursuant to Article 6 (1) 4;
3. Changes in the reduction quantity by the allotment facility of the loading quantity for contamination and the time for implementation thereof pursuant to Article 6 (1) 5.

Article 8 (Facilities Alloted with Loading Quantities for Contamination, etc.)

"Facilities prescribed by Presidential Decree" in the former part of the main body of Article 4-5 (1) of the Act means the following facilities:

1. Wastewater terminal treatment facilities under Article 48 of the Act (hereinafter referred to as "wastewater terminal treatment facilities");
2. Public sewer treatment facilities under subparagraph 9 of Article 2 of the Sewerage Act (hereinafter referred to as "public sewer treatment facilities") and excreta treatment facilities under subparagraph 10 of Article 2 of the said Act;
3. Public treatment facilities under subparagraph 9 of Article 2 of the Act on the Management and Use of Livestock Excreta.

Article 9 (Gauges for Measuring Loading Quantities for Contamination or Discharge Quantities)

(1) Any person who installs and operates a facility (hereinafter referred to as "business entity of allotted contamination, etc.") for which the loading quantity for contamination has been allotted or the discharge quantity has been designated in accordance with Article 4-5 (4) of the Act shall equip with each of the following gauges:

1. Devices capable of automatically recording the water pollutants allotted in accordance with Article 4-5 (1) or (2) of the Act;
2. Integrating flowmeters that can automatically measure discharge quantities;
3. Devices capable of automatically transmitting the results of measurement to the Tele-Monitoring System Control Center under Article 37.

(2) Business entities of allotted contamination, etc. shall install the gauges in accordance with Article 4-5 (1) and (2) of the Act, by 90 days before the date of observing the loading quantities for contamination or the discharge quantities and measure the discharge quantities of the water pollutants, etc. and preserve the results of measurement for two years.

(3) Kinds of gauges and methods of installing them under paragraph (1) and methods of recording the results of measurement and methods of preserving these results under paragraph (2) shall be determined and published by the Minister of Environment.

Article 10 (Methods and Criteria for Calculating Charges for Release of Pollutants in Excess of Total Quantity)

(1) Charges for release of pollutants in excess of the total quantity under Article 4-7 (1) of the Act (hereinafter referred to as "charges for release of pollutants in excess of the total quantity") shall be calculated by multiplying the profits obtained by excess release by imposition coefficients by excess rates, by frequency of violations, and by area, and the detailed methods of calculation shall be as specified in attached Table 1.

(2) The frequency of violations under paragraph (1) shall be the frequency for receiving orders to take measures, orders for the suspension of operation, or orders for the closure of facilities under Article 4-6 (1) and (4) of the Act for the preceding two years and shall be calculated by place of business.

Article 11 (Notice of Payment of Charges for Release of Pollutants in Excess of Total Quantity)

(1) The notice of payment of charges for release of pollutants in excess of the total quantity calculated in accordance with Article 10 shall be served within 60 days from the date when the grounds for imposition arise.

(2) The notice of payment of charges for release of pollutants in excess of the total quantity under paragraph (1) shall be served in writing by prescribing the quality of water pollutants, the amount imposed, the deadline and place for payment, and other necessary matters. In such cases, the deadline for payment of charges for release of pollutants in excess of the total quantity shall be 30 days from the date the notice of payment is issued.

Article 12 (Application for Adjustment of Charges for Release of Pollutants in Excess of Total Quantity)

(1) Any person who has been served a notice of payment of charges for release of pollutants in excess of the total quantity in accordance with Article 11 may apply for an adjustment of the amount of charges for release of pollutants in excess of the total quantity to the Minister of Environment, or the Mayor of a Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun who executes the action plan for quantity regulation of pollutants (hereinafter referred to as "head of a local government in charge of quantity regulation of pollutants") within 30 days from receipt of such notice. <Amended by Presidential Decree No. 25127, Jan. 28, 2014>

(2) Upon receipt of an application under paragraph (1), the Minister of Environment or the head of a local government in charge of quantity regulation of pollutants shall inform the relevant applicant of the decision on the matter under consideration within 30 days after receipt of the application, and in cases falling under any subparagraph of Article 13 (1), such

Minister or head shall recalculate and adjust the charges for release of pollutants in excess of the total quantity, and re-impose or refund the relevant difference.

(3) Applications for adjustment filed under paragraph (1) shall not affect the payment deadline for charges for release of pollutants in excess of the total quantity.

Article 13 (Adjustment of Charges for Release of Pollutants in Excess of Total Quantity)(1) In any of the following cases, the Minister of Environment or the head of a local government in charge of regulation of total quantity of pollutants shall adjust the charges for release of pollutants in excess of the total quantity:

1. Where the discharge period of water pollutants that serves as the basis for the computation of the charges for release of pollutants in excess of the total quantity has been changed because orders to take measures, orders for the suspension of operation, or orders for the closure of facilities under Article 4-6 (1) or (4) of the Act, has not been performed until the scheduled date for implementing orders or has been completed before such date;

2. Where the discharge quantity of water pollutants has been changed from the originally measured quantity as a result of the improvement of relevant facilities after imposing the charges for release of pollutants in excess of the total quantity;

3. Where an error is detected in the computation of charges for release of pollutants in excess of the total quantity.

(2) When the Minister of Environment or the head of a local government in charge of regulation of total quantity of pollutants intends to adjust the charges for release of pollutants in excess of the total quantity in accordance with paragraph (1), he/she shall recalculate the charges for release of pollutants in excess of the total quantity according to the following classifications:

1. In cases falling under paragraph (1) 1, the discharge period of the water pollutants shall be recalculated by counting the number of days between the scheduled date for implementing orders and the actually completed date for implementing orders;

2. In cases falling under paragraph (1) 2, the discharge quantity of the water pollutants shall be recalculated on the basis of the water pollutants newly measured for the period after the date when a reinspection on the relevant facilities has been made.

(3) When the charges for release of pollutants in excess of the total quantity which are calculated in accordance with paragraph (2) differs from the amount already paid, the Minister of Environment or the head of a local government in charge of regulation of total quantity of pollutants shall reimpose or refund the relevant difference: Provided, That where the discharge period has been adjusted in accordance with paragraph (1) 1, the recalculated charges for release of pollutants in excess of the total quantity shall be imposed or refunded within 30 days from the date when the implementation of orders to take measures, orders for suspension of operation, or orders for closure has been confirmed.

(4) When the Minister of Environment or the head of a local government in charge of regulation of total quantity of pollutants intends to reimpose or refund the relevant difference after adjusting the charges for release of pollutants in excess of the total quantity calculated

in accordance with paragraph (3), he/she shall serve the payment obligor a written notice by prescribing the amount, grounds, place for payment or refund, and other necessary matters.

Article 14 (Deferment of Collection, Installment Payments and Procedures for Collection of Charges for Release of Pollutants in Excess of Total Quantity)(1) In cases falling under any of the following, the person responsible for paying the charges for release of pollutants in excess of the total quantity may file an application to defer the relevant collection or to pay the charges for release of pollutants in excess of the total quantity in installments to the Minister of Environment or the head of a local government in charge of regulation of total quantity of pollutants:

1. Where the property of the business entity is affected by serious harm due to natural disasters or other calamity;
2. Where the business entity faces a considerable crisis due to apparent losses occurred to his/her business;
3. Where any reason similar to those prescribed in subparagraphs 1 and 2 occurs.

(2) When the Minister of Environment or the head of a local government in charge of regulation of total quantity of pollutants, upon receipt of an application as provided for in paragraph (1), recognized that the charges for release of pollutants in excess of the total quantity can not be paid due to a reason falling under any subparagraph of paragraph (1), he/she may allow the deferred collection of charges for release of pollutants in excess of the total quantity or their installment payments. In such cases, the period for the deferment of collection shall be within one year from the date immediately following the date on which the deferment of collection is decided upon; the number of instalments into which the payment is divided within the said period shall not exceed six.

(3) Where the imposed amount to be paid by the person who is subject to the deferment of collection of the charges for release of pollutants in excess of the total quantity or the installment payments pursuant to paragraph (2), exceeds the capital or the total equity investment of the payment obligor (in cases of an individual business entity, referring to the total amount of assets) by not less than two times the latter and where it is deemed that the said amount of charges for release of pollutants in excess of the total quantity cannot be paid even within one year for such reasons as fall under any subparagraph of paragraph (1) continue, the Minister of Environment or the head of a local government in charge of regulation of total quantity of pollutants may prescribed the period for deferred collection within the scope of three years from the day immediately following the date on which the deferment of collection is decided upon; the number of instalments into which the payment is divided within the said period shall not exceed 12, notwithstanding the provisions of paragraph (2).

(4) When the Minister of Environment or the head of a local government in charge of regulation of total quantity of pollutants has decided upon the deferment of collection in accordance with the provisions of paragraph (2) or (3), he/she may order the provision of collateral or measures necessary for the preservation of collateral, the value of which

corresponds to the deferred amount to the person for whom the deferment of collection has been decided.

(5) Where a person responsible for paying the charges for release of pollutants in excess of the total quantity falls under any of the following subparagraphs, the Minister of Environment or the head of a local government in charge of regulation of total quantity of pollutants may cancel the deferment of collection and collect the delinquent dues:

1. Where the relevant person has not paid the outstanding amount by the expiration date of the designated period;
2. Where the relevant person has not complied with the order from the Minister of Environment or the head of a local government in charge of regulation of total quantity of pollutants, necessary for an alteration of the relevant collateral or preservation of the relevant collateral;
3. Where deferment of collection is deemed unnecessary on account of a change in the property or other relevant circumstances.

(6) Matters necessary for the imposition, collection, refund, deferment of collection, and installment payments of charges for release of pollutants in excess of the total quantity shall be prescribed by Ordinance of the Ministry of Environment.

Article 15 (Punishment on Local Government which fails to Formulate and Implement Master Plans for Quantity Regulation of Pollutants)

"Structures, including buildings, of at least the scale prescribed by Presidential Decree" in Article 4-8 (2) 4 of the Act means any of the following facilities, the area of which on the business plan is at least the area on the business plan by region under attached Table 4 of the Enforcement Decree of the Environmental Impact Assessment Act: <Amended by Presidential Decree No. 25127, Jan. 28, 2014>

1. Places of business falling under classes 1 through 3 according to the classification by scale of places of businesses under attached Table 13;
2. Facilities referred to in the subparagraphs of Article 3 of the Enforcement Decree of the Seoul Metropolitan Area Readjustment Planning Act.

CHAPTER II PRESERVATION OF WATER QUALITY AND AQUATIC ECOSYSTEMS IN PUBLIC WATERS

SECTION 1 General Provisions

Article 16 (Functions of Committee for Deliberation of Policy on Water Quality and Aquatic Ecosystems)

"Matters prescribed by Presidential Decree" in Article 10-3 (1) 7 of the Act means the following matters:

1. Matters on the basic direction for the establishment of plans by wide area under Article 24 of the Act;
2. Matters required for consultations between the relevant agencies regarding policies for water quality and aquatic ecosystems;
3. Matters on the implementation and evaluation of international treaties regarding water

quality and aquatic ecosystems;

4. Other matters recognized by the chairperson of the Committee for the Deliberation of Policy on Water Quality and Aquatic Ecosystems as necessary and submitted to the meeting of the Committee.

Article 17 (Composition of Committee for Deliberation of Policy on Water Quality and Aquatic Ecosystems)

"Relevant agencies or organizations prescribed by Presidential Decree" in Article 10-3 (4) 4 of the Act means any of the following agencies or organizations: <Amended by Presidential Decree No. 21565, Jun. 26, 2009; Presidential Decree No. 21904, Dec. 24, 2009>

1. Non-profit civic organizations under Article 2 of the Assistance for Non-profit, Non-governmental Organizations Act;
2. The Korea Water Resources Corporation under the Korea Water Resources Corporation Act;
3. The Korea Rural Community Corporation under the Korea Rural Community Corporation and Farmland Management Fund Act;
4. The Korea Environment Corporation under the Korea Environment Corporation Act.

Article 18 (Operation of Committee for Deliberation of Policy on Water Quality and Aquatic Ecosystems)

(1) The chairperson (hereinafter referred to as the "chairperson") of the Committee for the Deliberation of Policy on Water Quality and Aquatic Ecosystems (hereinafter referred to as the "Committee") under Article 10-3 (1) of the Act shall represent the Committee and exercise overall control of the works of the Committee.

(2) When the chairperson is unable to perform his/her duties on grounds of inevitability, the vice-chairperson shall act on behalf of the chairperson in performing the latter's duties and when the chairperson and vice-chairperson are both unable to perform their duties, a member who has been nominated by the chairperson in advance shall act on behalf of the chairperson in performing the latter's duties.

(3) Committee's meetings shall be convened by the chairperson and shall open with the attendance of a majority of the total members on the register and pass resolutions with the concurrent vote of a majority of those present.

(4) Where the chairperson intends to convene a Committee meeting in accordance with paragraph (3), the date and time, meeting venue, and its agenda shall be known to Committee members at least three days before the opening of each meeting: Provided, That the same shall not apply to cases of urgent situations.

(5) Where deemed necessary, the chairperson may request the head of the relevant administrative agency to submit necessary data and may hear opinions from relevant public officials and non-official specialists by having them attend a meeting.

(6) The Committee shall have one secretary for dealing with affairs of the Committee, who shall be appointed by the chairperson from among public officials belonging to the Minister of Environment.

(7) The secretary of the Committee shall prepare minutes for each meeting, report them

during the next meeting and keep them.

(8) Matters necessary for the operation of the Committee, other than the provisions of paragraphs (1) through (7), shall be prescribed by the chairperson after going through a resolution thereof by the Committee.

Article 19 (Allowances, etc.)

Members who are present at Committee meetings may be paid allowances within budget limits: Provided, That the same shall not apply where members who are public officials are present at a Committee meeting in connection with their official business.

Article 20 (Term of Office for Committee Members)(1) The term of office for each committee member, other than public officials, shall be two years, and any committee member may be reappointed.

(2) A person appointed to fill a vacancy shall hold office for the remainder of the predecessor's term.

Article 21 (Matters to be Reflected in Plan for National Land)

Where the Mayor/Do Governor or the head of a Si/Gun establishes comprehensive plans for Do, or comprehensive plans for Si/Gun in accordance with the provisions of Article 13 of the Act, he/she shall reflect installation plans of the following facilities in such plans:

1. Wastewater terminal treatment facilities;
2. Public sewer treatment facilities;
3. Excreta treatment facilities under subparagraph 10 of Article 2 of the Sewerage Act;
4. Public treatment facilities under subparagraph 9 of Article 2 of the Act on the Management and Use of Livestock Excreta.

Article 21-2 (Submission, etc. of Business Management Plans for Water Pollution Prevention Center)

(1) Where the Korea Environment Corporation established under the Korea Environment Corporation Act performs management of the Water Pollution Prevention Center (hereinafter referred to as the "Prevention Center") on behalf of the Minister of Environment pursuant to Article 16-3 (1) of the Act, the Korea Environment Corporation Shall submit a business management plan for the Prevention Center for the following year to the Minister of Environment by December 15 each year and obtain approval of such plan from him/her.

(2) The business management plan for the Prevention Center under paragraph (1) shall include:

1. Matters concerning the performance of tasks under the subparagraphs of Article 16-3 (2) of the Act;
2. Matters concerning a budget necessary to perform tasks under the subparagraphs of Article 16-3 (2) of the Act;
3. Matters concerning the establishment and operation of a water pollution prevention information system under Article 16-4 of the Act.

(3) Where the Korea Environment Corporation established under the Korea Environment Corporation Act performs management of the Prevention Center on behalf of the Minister of

Environment, the Korea Environment Corporation shall submit a report on the management of the Prevention Center in the relevant year to the Minister of Environment by January 31 of the following year.

[This Article Newly Inserted by Presidential Decree No. 25127, Jan. 28, 2014]

Article 22 (Details of Conditions for Preventing Water Pollution of Public Waters)

The following matters shall be included in the conditions attached to prevent water pollution of public waters as provided for in Article 18 (1) of the Act:

1. Wastes shall be treated in accordance with Article 13 of the Wastes Control Act;
2. If public waters are to be filled with wastes, such filling shall be carried out only after such wastes are disposed of in conformity with the criteria and methods for disposal of wastes as provided for in Article 13 of the Wastes Control Act.

Article 23 (Compensation for Loss from Recommendations, etc. for Growing Specific Agricultural Crops)

Where the Mayor/Do Governor compensates for a loss suffered by any farmer in accordance with Article 19 (2) of the Act, he/she shall calculate the amount of such compensation according to the standards determined and publicly announced by the Minister of Environment, in consideration of the area of farmland, kinds of agricultural crops, income per unit of area, etc.

Article 24 (Standards for Measures for Preservation of Water Quality and Aquatic Ecosystems, etc.)

When the Minister of Environment intends to recommend a person to manage public waters in accordance with Article 19-2 of the Act on the measures necessary for the preservation of water quality and aquatic ecosystems, he/she shall include the following matters:

1. Matters on objectives of preserving water quality and aquatic ecosystems;
2. Matters on concrete methods of preserving water quality and aquatic ecosystems;
3. Matters on the raising of funds necessary for preserving water quality and the aquatic ecosystems;
4. Other matters necessary for the preservation of water quality and aquatic ecosystems.

Article 25 (Criteria, etc. for Purchase, etc. of Riverine Ecological Zone)(1) The Minister of Environment may purchase or ecologically create and manage riverine wetlands and riverine land (hereinafter referred to as "riverine ecological zone") which satisfy all of the following subparagraphs in accordance with Article 19-3 (1) of the Act: <Amended by Presidential Decree No. 22073, Mar. 9, 2010>

1. It is to be located within one kilometer from the borderlines of rivers, lakes and marshes: Provided, That forest protection zones under Article 7 of the Forest Protection Act and test forests under Article 47 of the Creation and Management of Forest Resources Act shall be excluded from the purchase, or creation and management, and forests under subparagraph 1 of Article 2 of the Act shall be excluded from creation and management;
2. It is to be fall under any of the following items, to purchase a riverine ecological zone or to ecologically create and manage such zone:

(a) Where riverine land is to be ecologically managed in order for the protection of water supply source;

(b) Where relevant riversides of rivers, lakes, marshes, etc. are to be systematically managed for the preservation or the restoration of aquatic ecology, etc. which are worthy of protection;

(c) Where riverine land is necessarily to be managed in order to control non-point pollutants, etc.

(2) In any of the following cases, the Mayor/Do Governor may purchase a riverine ecological zone or ecologically create and manage it in accordance with Article 19-3 (2) of the Act:

1. Where the Minister of Environment recognizes that the purchase, or the creation and management of land located on the fringe of relevant public waters is necessary to implement the measures for preservation of water quality and aquatic ecosystems pursuant to Article 19-2 of the Act;

2. Where it is necessary for the implementation of a plan for reduction of water pollutants, including the installation or operation of reduction facilities for non-point pollution, from among implementation plans established in accordance with Article 56 of the Act.

Article 26 (Calculation of Purchase Price and Means and Procedures for Purchase, etc.)(1) The owner of land or any fixture on such land (hereinafter referred to as "land, etc.") located in a riverine ecological zone which the Minister of Environment or the Mayor/Do Governor intends to purchase in accordance with Article 19-3 (1) and (2) of the Act, may apply for the purchase of land, etc. to the Minister of Environment or the Mayor/Do Governor as prescribed by Ordinance of the Ministry of Environment.

(2) When the Minister of Environment or the Mayor/Do Governor has received an application for purchase in accordance with paragraph (1), he/she shall determine whether to purchase the relevant land, etc. according to the priority order for purchase published or publicly announced by the Minister of Environment or the Mayor/Do Governor, and inform the owner of the relevant land, etc. of the determined matters (where the relevant land has been determined to be purchased, the determined matters and the purchase price calculated under paragraph (3)).

(3) The purchase price of land, etc. under paragraph (2) shall be the amount appraised, based on the standard official land price under the Public Notice of Values and Appraisal of Real Estate Act, by taking into account the location, shape, environs, and status of use of the relevant land, and it shall be the arithmetic mean of the amounts evaluated by two or more appraisers under subparagraph 9 of Article 2 of the said Act.

Article 27 (Designation, etc. of Angling-Prohibited or Angling-Restricted Area)(1) Where the head of a Si/Gun/Gu (referring to autonomous Gu; hereinafter the same shall apply) intends to designate an angling-prohibited area or an angling-restricted area, he/she shall take into account the following matters:

1. The objective of water for a specific use;
2. The current status of sources of pollution;

3. The level of water pollution;
4. The current presence of litter around angling areas and conditions for the disposal thereof;
5. The number of people enjoying the fishing on a yearly basis;
6. The current status of underwater ecosystem, such as the species and number of fish inhabiting the relevant water.

(2) When the head of a Si/Gun/Gu shall designate an angling prohibited area or an angling-restricted area in accordance with Article 20 (1) of the Act, he/she shall immediately publish any of the following matters in the public bulletin of the relevant local government, prepare the drawing, etc. for public inspection, and install a signboard making the details of such announcement known to the public in the relevant angling-prohibited area or the angling-restricted area:

1. The name and location of an angling-prohibited area or an angling restricted area;
2. Restricted matters, such as methods of and times for angling (limited to angling-restricted areas) under Article 20 (2) of the Act;
3. The administrative fines to be levied on any person who violates the prohibition of or restriction on angling under Article 82 (2) 1 or (3) 2 of the Act;
4. The amount of fees to be levied to meet costs involved in removing litter, etc., and the method of and the place for paying such fees under Article 20 (3) of the Act;
5. The method of disposing of litter, etc. accumulating from angling restricted areas;
6. Other matters necessary to prohibit or restrict angling.

(3) The standards and details for the signboard referred to in para graph (2) shall be prescribed by Ordinance of the Ministry of Environment.

Article 28 (Warnings against Water Pollution)(1) The types of warnings against water pollution under Article 21 (5) of the Act shall be as follows:

1. Warnings against algae;
2. Warnings to watch for water pollution.

(2) The objects for issuance of alerts for water pollution, persons who may issue alerts, and water pollutants for issuing alerts shall be as specified in attached Table 2.

(3) The phases by which alerts for water pollution are issued according to kind, and standards for issuing and canceling alerts, etc. shall be as specified in attached Table 3.

(4) Measures to take by kind of warning and at various stages of warnings against water pollution shall be as specified in attached Table 4.

Article 29 (Recommendations for Restrictions on Activities in Contaminated Public Waters)(1) "Activities prescribed by Presidential Decree" in Article 212 (1) of the Act means any of the following acts:

1. Drinking water from the relevant rivers, lakes, marshes, etc. or using it for cooking;
2. Eating any aquatic produce, including fishes and shell fishes, of the relevant rivers, lakes, marshes, etc.;
3. Drawing water from the relevant rivers, lakes, marshes, etc. for agricultural use.

(2) The criteria for selecting rivers, lakes, marshes, etc. for which the restriction of activities

may be recommended in accordance with Article 21-2 (3) of the Act shall be as follows:

1. Where it has exceeded the target quality of water by river system spheres of influence published by the Minister of Environment in accordance with Article 22 (2) of the Act and may hinder the intended purpose for use of water;
2. Where it has exceeded the criteria prescribed in attached Table 5 other than subparagraph 1 and may have a great effect on the health and livelihood of people.

Article 29-2 (Procedures, Contents, etc. of Special Measures to Improve Water Quality of Water Supply Source)(1) Where it is deemed necessary to order the special measures under Article 21-3 (1) of the Act (hereinafter referred to as "special measures" in this Article), the Minister of Environment may have the Mayor/Do Governor, the head of a river basin environmental office, or the head of a regional environmental office (hereinafter referred to as "Mayor/Do Governor, etc.") submit the data on pollution status, trend of increasing pollution which is expected in the future, countermeasure plan, etc. of the relevant water supply source.

(2) Matters to be included in the special measures shall be as follows:

1. Water pollutants subject to the special measures;
2. Method of the special measures, such as prohibition or limitation of discharge of water pollutants pursuant to subparagraph 1;
3. Matters concerning control measures of water pollutants discharged prior to ordering the special measures;
4. Matters concerning management of performance of the order of the special measures.

(3) The Mayor/Do Governor, etc. may, where water pollution falling under each subparagraph of Article 21-3 (1) of the Act is feared to occur in the competent jurisdiction, request the Minister of Environment to order the special measures. In such cases, the Mayor/Do Governor, etc. shall submit the data on pollution status, trend of increasing pollution which is expected in the future, countermeasure plan, etc. of the relevant water supply source.

(4) The Minister of Environment shall, where he/she has ordered the special measures, notify such fact by posting the relevant contents on the official gazette or through Internet homepage, etc.

(5) The Minister of Environment shall endeavor so that damage incurred to a business entity, etc. due to the special measures may be minimized.

[This Article Newly Inserted by Presidential Decree No. 22213, Jun. 22, 2010]

Article 29-3 (Measures, etc. to be Taken for Failure to Implement Plans for Small Areas of Influence)(1) Where the Minister of Environment, the head of a relevant central administrative agency, or the Mayor/Do Governor intends to take measures under Article 27 (3) of the Act against the Mayor/Do Governor or the head of a Si/Gun/Gu who fails to implement a plan for small areas of influence under Article 27 (1) of the Act, he/she shall first hear the opinion of the head of the relevant local government.

(2) Where the Minister of Environment, the head of a relevant central administrative agency,

or the Mayor/Do Governor deems that a plan for small areas of influence can be properly implemented because the Mayor/Do Governor or the head of a Si/Gun/Gu who has failed to implement the plan for small areas of influence under Article 27 (1) of the Act submits the conditions of implementation of the relevant plan for small areas of influence or a plan for the implementation thereof, he/she need not take measures under Article 27 (3) of the Act, or may revoke such measures.

[This Article Newly Inserted by Presidential Decree No. 25127, Jan. 28, 2014]

SECTION 2 Preservation of Water Quality and Aquatic Ecosystems in Lakes and Marshes

Article 30 (Survey and Measurement of Water Use in Lakes and Marshes)(1) The Minister of Environment shall designate and publicly announce lakes and marshes which fall under any of the following subparagraphs and require the preservation of water quality and aquatic ecosystems in accordance with Article 28 of the Act and shall survey and measure water quality and aquatic ecosystems of such lakes and marshes on a regular basis:

1. Any lake or marsh from which raw water is collected in excess of 300,000 tons per day;
2. Any lake or marsh which is a habit at for animals and plants, including migratory birds, or which is so rich in biological diversity that it specially needs to be conserved;
3. Any lake or marsh, the water pollution of which is so severe to the extent that it specially needs to be managed.

(2) The Mayor/Do Governor shall survey and measure water quality and aquatic ecosystems in lakes and marshes on a regular basis, the area of which at the time of full water level is not less than 500,000 square meters, other than lakes and marshes designated and publicly announced by the Minister of Environment in accordance with paragraph (1).

(3) Matters to be surveyed and measured under paragraphs (1) and (2) shall be as follows:

1. Basic data necessary for managing a lake or a marsh, such as the year it came into being or was created, the area of basin and the quantity of water stored in the lake or marsh;
2. The use of water in a lake or marsh, such as the objective for using the water of a lake or a marsh, the location of a place of intake and the quantity of water collected;
3. The degree of water pollution, the current status of the distribution of sources of pollution, and the occurrence, treatment and influx of pollutants;
4. The current status of aquatic ecosystems, such as the biological diversity and ecosystem of a lake or marsh.

(4) The Minister of Environment or the Mayor/Do Governor shall, in principle, survey and measure the matters in paragraph (3) 1 and 2 every three years and the matters in paragraph (3) 3 every five years, and if necessary, he/she may survey and measure such matters annually. In such cases, the Mayor/Do Governor shall report the results of such survey and measurement to the Minister of Environment by the end of February of the following year.

Article 30-2 (Standards for Designation of Reservoirs with Priority Management)

"Standards prescribed by Presidential Decree" in Article 31-2 (1) 2 of the Act means the standards as classified in the below:

1. Reservoirs for agricultural purpose: Slightly bad (IV) grade among the living environmental standards for lakes and marshes referred to in subparagraph 3 (b) (2) of attached Table 1 of the Enforcement Decree of the Framework Act on Environmental Policy;
2. Other reservoirs: Ordinary (III) grade among the living environmental standards for lakes and marshes referred to in subparagraph 3 (b) (2) of attached Table 1 of the Enforcement Decree of the Framework Act on Environmental Policy.

[This Article Newly Inserted by Presidential Decree No. 23938, Jul. 5, 2012]

CHAPTER III CONTROL OF POINT-POLLUTION SOURCES

SECTION 1 Regulation of Discharge of Industrial Wastewater

Article 31 (Scope, etc. of Wastewater Discharging Facilities Requiring Permission or Reporting for Installation)(1) Wastewater discharging facilities which require permission for installation under the main body of Article 33 (1) of the Act (hereinafter referred to as "discharging facilities") are as follows: <Amended by Presidential Decree No. 23967, Jul. 20, 2012; Presidential Decree No. 25773, Nov. 24, 2014>

1. Discharging facilities which discharge specific substances harmful to water quality in excess of the standards prescribed by Ordinance of the Ministry of Environment;
2. Discharging facilities installed on the zone for special countermeasures under Article 38 of the Framework Act on Environmental Policy (hereinafter referred to as "zone for special countermeasures");
3. Discharging facilities installed within an area in which the installation of the discharge facilities is restricted, that is publicly notified by the Minister of Environment in accordance with Article 33 (6) of the Act;
4. Discharging facilities installed within the protection zone for water supply source (hereinafter referred to as "protection zone for water supply source") under Article 7 of the Water Supply and Waterworks Installation Act, or which are established within a 10km flow-distance upstream from its boundary;
5. In cases of an area, among the areas in which no protection zone for water supply source has been designated, where water collection facilities are installed, the discharging facilities installed within a 15km flow-distance upstream from said water collection facilities;
6. Discharging facilities the installation of which has been reported under the main body of Article 33 (1) of the Act, which newly discharge specific substances harmful to water quality in excess of the standards referred to in subparagraph 1 as a result of changes in the raw material, constituent raw materials, the manufacturing process, etc.

(2) In any of the following cases, the installation of discharging facilities shall be reported under the main body of Article 33 (1) of the Act: <Amended by Presidential Decree No. 25773, Nov. 24, 2014>

1. Where discharging facilities are installed, other than those which require permission for installation under paragraph (1);
2. Where the whole quantity of wastewater discharged from discharging facilities falling under any subparagraph of paragraph (1), is treated on entrustment and the entrusted

wastewater treatment facilities are located outside areas or districts under paragraph (1) 2 through 5;

3. Where discharging facilities which does not discharge specific substances harmful to water quality in excess of the standards referred to in paragraph (1) 1 among discharging facilities under paragraph (1) 2 through 5 and flow the whole quantity of discharged wastewater into wastewater terminal treatment facilities or public sewer treatment facilities.

(3) In any of the following cases, a person who has obtained permission for installation of discharging facilities shall obtain permission to alter the discharging facilities under the main body of Article 33 (2) of the Act: <Amended by Presidential Decree No. 20761, Apr. 3, 2008; Presidential Decree No. 25773, Nov. 24, 2014>

1. Where the quantity of discharged wastewater increases by at least 50/100 (or 30/100 in cases of facilities which discharge specific substances harmful to water quality in excess of the standards referred to in paragraph (1)) of the quantity of discharged wastewater measured at the time of permission, or where the quantity of discharged wastewater increases by at least 700 m³ per day;

2. Where the improvement of discharging facilities or water pollution preventative facilities provided for in Article 35 (1) of the Act (hereinafter referred to as "prevention facilities") is necessary due to the generation of new water pollutants to such extent in excess of the standards for permissible discharge under Article 32 of the Act (hereinafter referred to as "standards for permissible discharge");

3. Where an alteration is required for the method of disposals in a solid state under paragraph (7) 2 in wastewater non-discharge facilities for which permission has been obtained under the proviso to Article 33 (1) of the Act.

(4) In all of the following cases, permission for alteration under paragraph (3) may be replaced by reporting on alteration, notwithstanding paragraph (3):

1. Where consultation with the representative of joint prevention facilities provided for in Article 35 (4) of the Act (hereinafter referred to as "joint prevention facilities") or persons who operate wastewater terminal treatment facilities has been held with regards to the treatment of wastewater and the bearing of expenses therefor;

2. An alternation of discharge facilities within the scope not exceeding wastewater treatment capacity or treatable volume.

(5) A person who intends to obtain permission for installation or alteration of discharging facilities or to report on installation thereof in accordance with Article 33 (1) or (2) of the Act, shall submit (including submission by means of information and communications network defined in subparagraph 10 of Article 2 of the Electronic Government Act) to the Minister of Environment an application for permission for installation or alteration of discharging facilities or written report on installation thereof together with the following documents: <Amended by Presidential Decree No. 22151, May 4, 2010>

1. A map indicating the locations of the discharging facilities and a flow chart for the process of wastewater discharge;

2. A detailed statement of raw materials to be used (including water to be used for specific purposes), the quantity of goods to be produced, and water pollutants anticipated to be generated;

3. A detailed statement of the establishment of prevention facilities and a drawing thereof: Provided, That such drawing may be replaced by a plot-plan in cases of a report on installation;

4. The certificate of permission for installation of discharging facilities (limited to permission for alteration).

(6) Where the Minister of Environment has granted permission for installation of discharging facilities or accepted a written report on installation of discharging facilities, he/she shall issue to the relevant applicant a certificate of permission for installation of such discharging facilities or a report certificate on installation of such discharging facilities: Provided, when the Minister of Environment has granted permission for alteration discharging facilities, the altered matters shall be stated on the existing certificate.

(7) "Facilities prescribed by Presidential Decree" in Article 33 (9) 3 of the Act means the following facilities, and "standards prescribed by Presidential Decree" means as prescribed by attached Table 6:

1. Facilities to separate or collect wastewater generated from wastewater non-discharge facilities in order to prevent such wastewater from mixing with wastewater generated from other discharge facilities;

2. Prevention facilities to dispose of substances harmful to water quality in wastewater, in the form of solid wastes;

3. Interception or storage facilities that prevent wastewater from emitting or leaking out into public waters due to defects or accidents in facilities or rainwater, etc.

Article 32 (Areas where Installation of Discharging Facilities is Restricted)

The scope of areas where the installation of discharging facilities may be restricted pursuant to Article 33 (6) of the Act shall be as follows: <Amended by Presidential Decree No. 23520, Jan. 17, 2012; Presidential Decree No. 23967, Jul. 20, 2012; Presidential Decree No. 25773, Nov. 24, 2014>

1. Areas where water collection facilities are installed;

2. Zones for special countermeasures which are designated and published in order to preserve water quality pursuant to Article 38 of the Framework Act on Environmental Policy;

3. Areas where the establishment of factories is restricted pursuant to Article 7-2 (1) of the Water Supply and Waterworks Installation Act (limited to discharging facilities under Article 31 (1) 1);

4. Upstream areas of the areas or zones referred to in subparagraphs 1 through 3 (limited to discharging facilities under Article 31 (1) 1).

Article 33 (Criteria for Exemption from Establishment of Prevention Facilities)

"Discharge facilities (excluding wastewater non-discharge facilities) which meet the criteria determined by Presidential Decree" in the proviso to Article 35 (1) of the Act means any of

the following cases:

1. Where water pollutants are always discharged below the standards for permissible discharge owing to the function of and the work procedures for such discharge facilities;
2. Where the whole quantity of the wastewater prescribed by Ordinance of the Ministry of Environment is treated entirely under consignment by a person who has registered for a wastewater treatment business in accordance with Article 62 of the Act or a specialized agency that is acknowledged and publicly announced by the Minister of Environment;
3. Other cases where the proper treatment of water pollutants is possible, without installing prevention facilities, by such means as, for instance, recycling all of the wastewater to occur and, at the same time, which are determined by Ordinance of the Ministry of Environment.

Article 34 (Discharging Facilities, etc. Subject to Reporting on Startup Operation due to Reporting on Alterations)

"Alterations prescribed by Presidential Decree" in the former part of Article 37 (1) of the Act means any of the following cases:

1. Where quantity of the discharged wastewater increases by at least 50/100 of the quantity of wastewater discharged initially reported;
2. Where discharging facilities or prevention facilities need to be improved due to the generation of new water pollutants from the relevant discharging facilities in excess of the standards for permissible discharge;
3. Where the method of wastewater treatment at prevention facilities established in discharging facilities is altered;
4. Where prevention facilities are newly established in the discharging facilities in which any prevention facilities have not been established pursuant to the proviso to Article 35 (1) of the Act.

Article 35 (Object, Methods and Period for Installing Measuring Instruments, etc.)(1)

Discharge quantities or treatment quantities of wastewater and kinds of measuring instruments to be installed at the places of business, the prevention facilities (including joint prevention facilities), the wastewater terminal treatment facilities, and the public sewer treatment facilities (hereinafter referred to as "place of business, etc. equipped with measuring instrument") under Article 38-2 (1) of the Act shall be as detailed in attached Table 7.

(2) Any persons obliged to install the measuring instruments pursuant to Article 38-2 (1) of the Act (hereinafter referred to as "business entity, etc. obliged to install measuring instruments") shall install the relevant measuring instruments according to the methods stated in attached Table 8 within the time periods classified below: <Amended by Presidential Decree No. 22051, Feb. 18, 2010; Presidential Decree No. 25127, Jan. 28, 2014>

1. Any person who installs and operates wastewater terminal treatment facilities: Before the installation of wastewater terminal treatment facilities under Article 48 (1) of the Act has been completed: Provided, That where the relevant person becomes a business entity, etc.

obliged to install measuring instruments as a result of an increased treatment quantity, the measuring instruments shall be installed by the end of September of the following year;

2. Any person who installs and operates public sewer treatment facilities: Before the publication for use of public sewers under Article 15 of the Sewerage Act: Provided, That where the relevant person becomes a business entity, etc. obliged to install measuring instruments as a result of an increase in quantity treated, the measuring instruments shall be installed within nine months from the date the publication for use of public sewers has been made;

3. A person other than those referred to in subparagraphs 1 and 2: In cases of integrating wattmeter and integrating flowmeter, before the report of startup operation has been made pursuant to Article 37 of the Act and in cases of water quality automatic gauges and supplementary facilities, within two months after the report on the commencement of operation has been made pursuant to Article 37 of the Act: Provided, That where the relevant person becomes a business entity, etc. obliged to install measuring instruments as a result of an increased quantity of discharge wastewater, the water quality automatic gauges and supplementary facilities shall be installed within nine months from the date when permit for alternation has been obtained or report on alternation has been made pursuant to Article 33 (2) and (3) of the Act.

(3) Where a business entity, etc. obliged to install measuring instruments has installed the measuring instruments under paragraph (2), he/she shall immediately notify the Mayor/Do Governor, etc. of such fact. In such cases, the Mayor/Do Governor, etc. shall verify whether the installed measuring instruments are installed in compliance with the environmental pollution process testing standards under Article 6 of the Environmental Examination and Inspection Act. <Amended by Presidential Decree No. 22213, Jun. 22, 2010>

(4) A Mayor/Do Governor, etc. may use the data automatically transmitted from the relevant measuring instruments to the Tele-Monitoring System Control Center under Article 37 (hereinafter referred to as the "automatically measured data") as any of the following administrative data, after six months from the date whether the such measuring instruments have been properly installed is verified under paragraph (3): Provided, That where there are errors in the automatically measured data, due to intentional operation of measuring instruments, disorder, unexpected event such as thunder, electromagnetic waves, or a malfunction in the computer network, the substitute data (hereinafter referred to as "alternative automatically measured data") may be created and used:

1. Data for calculating the charges for release of pollutants in excess of the total quantity according to each of the following items:

(a) Article 13 of the Act on the Management of Water and Resident Support in the Gum River Basin;

(b) Article 13 of the Act on the Management of Water and Resident Support in the Yeongsan and Seomjin River Basins;

(c) Article 13 of the Act on the Management of Water and Resident Support in the Nakdong

River Basin;

(d) Article 10;

2. Data for verifying whether the standards for the quality of discharged water of the wastewater terminal treatment facilities are exceeded in accordance with Article 12 (3) of the Act;

3. Data for verifying whether the standards for permissible discharge are exceeded in accordance with Article 32 of the Act;

4. Data for calculating discharge dues in accordance with Article 41 of the Act;

5. Data for verifying whether the standards for the quality of discharged water of the public sewer treatment facilities are exceeded in accordance with Article 7 of the Sewerage Act.

(5) The procedures for, and methods of, verification under paragraph (3), the specific means of utilizing administrative data under paragraph (4), the kinds, the ways of selection, and the ways of treating abnormal automatically measured data, and the ways of creating alternative automatically measured data, etc. shall be determined and published by the Minister of Environment.

Article 36 (Improvement Period for Person under Order to Take Measures regarding Gauges, etc.)(1) When the Minister of Environment issues orders to take measures pursuant to Article 38-4 (1) of the Act, he/she shall prescribe the improvement period within the scope of six months.

(2) Where a person who has been served an order to take measures pursuant to Article 38-4 (1) of the Act may not complete the relevant measures within the period for improvement due to natural disasters or other inevitable grounds, the Minister of Environment may, upon receipt of an application from the person who has been served an order to take measures, extend the period for improvement within the scope of six months.

Article 37 (Establishment and Operation of Tele-Monitoring System Control Center)(1) With the aim to operate the computer network under Article 38-5 (1) of the Act, the Minister of Environment may establish and operate the Tele-Monitoring System Control Center (hereinafter referred to as "Control Center") in the Korea Environment Corporation under the Korea Environment Corporation Act. <Amended by Presidential Decree No. 21904, Dec. 24, 2009>

(2) Matters necessary for the functions and operation of the Control Center, management of automatically measured data, etc. shall be determined and publicly notified by the Minister of Environment.

Article 38 (Exemption from Reporting or Inspection of Place of Business, etc. Equipped with Gauges)

Where automatically measured data might be utilized as administrative data pursuant to Article 35 (4), the Minister of Environment may be exempted from the reporting or the inspection performed in order to confirm the following matters in accordance with Article 38-5 (4) of the Act:

1. Whether the standards for the quality of discharged water of the wastewater terminal

treatment facilities are exceeded in accordance with Article 12 (3) of the Act;

2. Whether the standards for permissible discharge are exceeded in accordance with Article 32 of the Act.

Article 39 (Improvement Period, etc.)(1) When the Minister of Environment intends to issue an order for improvement in accordance with Article 39 of the Act, he/she may determine the improvement period within the range of one year, taking into consideration measures necessary for the improvement or installation period for necessary facilities.

(2) Where a person who has been served an order for improvement under Article 39 of the Act may not implement such order within the period due to natural disasters or other inevitable grounds, he/she may apply for the extension of period to the Minister of Environment within the scope of six months before the prescribed period expires.

Article 40 (Improvement of Business Entities not Subject to Order for Measures or Improvement)(1) Where a person who does not receive an order to take measures under Article 38-4 (1) of the Act or a business entity who does not receive an improvement order under Article 39 of the Act recognizes that the gauges may not be operated normally or the pollutants are likely to be discharged in excess of the standards for permissible discharge owing to any of the following reasons, and intends to improve the gauges, discharge facilities, or prevention facilities (hereafter referred to as "discharge facilities, etc." in this Article), he/she may improve his/her discharge facilities, etc. after filing a facility improvement plan stating the grounds for improvement, the improvement period, the details of such improvement, the anticipated quantity and concentration of the water pollutants to be discharged during the improvement period, with the Minister of Environment: Provided, That where abnormalities happen in measured data temporarily due to insignificant matters prescribed by Ordinance of the Ministry of Environment, such as correction of gauges or cleaning, he/she may improve the relevant discharge facilities, etc. after submitting a statement on the grounds of improvement to the Minister of Environment by using an electronic data processing program, as prescribed by Ordinance of the Ministry of Environment: <Amended by Presidential Decree No. 23520, Jan. 17, 2012>

1. Where the following emergency measures have been taken after the relevant public officials collect pollutants of water quality under Article 68 (1) of the Act, and the improvement of discharge facilities, etc. is needed:

(a) Measures to cease the discharge of water pollutants, where the operation of the discharge facilities, etc. has been completely suspended for the improvement, alteration or repair thereof or the operation of discharge facilities, etc. ceases completely due to force majeure, such as natural disaster, fire or sudden breakdown;

(b) Measures to reduce the discharge of water pollutants by consigning the treatment of wastewater to be treated in the prevention facilities as provided for in subparagraph 2 of Article 33;

2. Any of the following cases, other than cases under subparagraph 1:

(a) Where it is necessary to improve, alter or repair the discharge facilities, etc.;

(b) Where he/she is unable to operate the discharge facilities, etc. properly due to a sudden breakdown in the main mechanical devices of such facilities, etc., a power outage, a suspension of water supply, or force majeure, such as natural disaster or fire;

(c) Where he/she is unable to operate his/her discharge facilities, etc. properly due to weather changes or an inflow of abnormal substances when treating water pollutants through the biochemical method.

(2) Where any person who files an improvement plan pursuant to the main sentence of paragraph (1) completes the improvement of the discharge facilities, etc. by the improvement period, he/she may file an improvement completion report with the Minister of Environment and commence operation: Provided, That where the measures for improvement may not be completed within the period for improvement due to natural disasters or other inevitable grounds, an application for extension of period for improvement may be submitted to the Minister of Environment before the prescribed period expires. <Amended by Presidential Decree No. 23520, Jan. 17, 2012>

(3) With regard to a person who files an improvement plan pursuant to the main sentence of paragraph (1) or a person who files an improvement completion report pursuant to paragraph (2), the Minister of Environment shall, without delay, instruct the competent public officials to confirm the details and results of improvement, and quantity of discharged water pollutants, etc. and may collect samples to entrust the test of their pollution levels to a testing institution prescribed by Ordinance of the Ministry of Environment. <Amended by Presidential Decree No. 23520, Jan. 17, 2012>

Article 41 (Criteria and Method for Computing Basic Discharge Dues)(1) The basic discharge dues as prescribed in Article 41 (1) 1 (a) and (b) of the Act (hereinafter referred to as "basic discharge dues") shall be the amount computed by the following formula on the basis of the quantity and concentration of water pollutants discharged: Quantity discharged below the criteria \times Amount imposed per kilogram of water pollutants \times Computation index of dues by year \times Imposition coefficient by place of business \times Imposition coefficient by area \times Imposition coefficient by rate exceeding standards for quality of discharged water.

(2) The quantity discharged below the criteria under paragraph (1) shall be the quantity discharged according to the following classifications:

1. Cases falling under Article 41 (1) 1 (a) of the Act: The quantity discharged exceeding the standards for the quality of discharged water of wastewater terminal treatment facilities under Article 12 (3) of the Act within the scope of the standards for permissible discharge;
2. Cases falling under Article 41 (1) 1 (b) of the Act: The quantity discharged exceeding the standards for the quality of discharged water of the wastewater terminal treatment facilities under Article 12 (3) of the Act.

(3) The provisions of Article 45 (5) shall apply mutatis mutandis to the imposed amount per kilogram of water pollutants necessary for computation of basic discharge dues, and those of Article 49 (1) shall apply mutatis mutandis to the computation index of dues by year; and the imposition coefficient by place of business shall be as specified in attached Table 9, the

imposition coefficient by area shall be as specified in attached Table 10, and the imposition coefficient by rate exceeding standards for the quality of discharged water shall be as specified in attached Table 11.

(4) The basic discharge dues of the joint prevention facilities shall be the amount added by respective place of business computed under the provisions of paragraphs (1) through (3).

(5) In cases of places of business, etc. equipped with gauges to which gauges have been affixed in accordance with Article 38-2 of the Act, and transmits the automatically measured data to the Control Center, the quantity and concentration of water pollutants discharged under paragraph (1) shall be calculated according to the following classifications: <Amended by Presidential Decree No. 22051, Feb. 18, 2010>

1. Where the automatically measured data has been measured and transmitted normally: Data obtained during three hours in accordance with the official testing method with respect to environmental pollution processes under Article 6 of the Environmental Examination and Inspection Act (hereinafter referred to as "average value for each three-hour period");

2. Where the automatically measured data has not been measured and transmitted normally:

(a) When the period of an order to take measures under Article 38-4 of the Act or the improvement period expressly prescribed in the improvement plan (limited to improvement plans for gauges) under Article 40 remains current: The value obtained by calculating the arithmetic mean of average value for each three-hour period of the normally measured and transmitted automatically measured data during the recent three months: Provided, That where only the normally and automatically measured data for a period shorter than three month are available, it shall be obtained by calculating the arithmetic mean of average value for each three-hour period for the available period;

(b) When the period of an improvement order under Article 39 of the Act or the improvement period expressly prescribed in the improvement plan (limited to the improvement plan for gauges of discharge facilities or prevention facilities) under Article 40 remains current: The value obtained by calculating the arithmetic mean of average values for each three-hour period of the normally measured and transmitted automatically measured data for the recent three months during the period of improvement order or the improvement period: Provided, That where no normal automatically measured data exists, it shall be calculated by using the quantity and concentration of water pollutants discharged, expressly prescribed on the improvement order or the quantity and concentration of water pollutants discharged, surveyed after collecting them in accordance with Article 40 (3) at the time when the improvement plan has been filed pursuant to Article 40 (1).

Article 42 (Kinds of Water Pollutants Subject to Imposition of Basic Discharge Dues)

The kinds of water pollutants subject to imposition of basic discharge dues shall be as follows:

1. Organic substances;
2. Suspended solids.

Article 43 (Period for Imposition of Basic Discharge Dues, etc.)

Basic discharge dues shall be imposed on a semi-annual basis, and the reference date for imposition and imposition period shall be as specified in attached Table 12.

Article 44 (Calculation of Quantity Discharged below Criteria, etc.)(1) Where it is necessary to confirm the quantity discharged below the criteria under Article 41 (1), the Minister of Environment may have the relevant business entity to submit (including submission by means of computer network under subparagraph 10 of Article 2 of the Electronic Government Act) any of the following data in accordance with Article 68 (1) of the Act within 30 days from the last day of the imposition period: <Amended by Presidential Decree No. 22151, May 4, 2010>

1. Data on the quantity discharged below the criteria (hereinafter referred to as the "fixed discharge quantity") that has been actually discharged during the relevant imposition period of the basic discharge dues;

2. Data on the quantity of the water pollutants discharged by business entities who send the wastewater into the joint prevention facilities (only the business entity who has established and operated the joint prevention facilities shall submit).

(2) The fixed discharge quantity shall be computed by any of the following methods:

1. The fixed discharge quantity shall be the quantity obtained by multiplying the average daily quantity discharged below the criteria during the imposition period by the actual days of operation during the relevant imposition period, and indicated in kilograms as a unit;

2. The average daily quantity discharged below the criteria under subparagraph 1 shall be computed by the methods defined in each of the following items on the basis of the result of measurement of the water pollutants under Article 46 of the Act:

(a) The discharge quantity discharged within the daily criteria shall be the remaining quantity obtained by deducting the quantity discharged, computed by multiplying the standard concentration of discharged water quality by the daily average volumes of flow, from the average daily quantity discharged;

(b) The average daily quantity discharged shall be computed by dividing the average daily quantity of pollutants discharged that has been measured by discharge openings in accordance with Article 46 of the Act, and this by the frequency of measuring the water pollutants: Provided, That where a notice on the results of inspection under Article 68 of the Act has been received during the imposition period, it shall be computed after adding the daily average quantity discharged, computed in accordance with the results of measuring water pollutants in accordance with Article 46 of the Act to the notified average daily quantity discharged of pollutants, and by dividing this by the value obtained from adding one to the number of inspections;

(c) The daily quantity discharged of pollutants shall be computed by multiplying the discharge concentration at the time of measurement by the total quantity of wastewater of that day (hereinafter referred to as "daily volumes of flow"), and Article 47 (4) shall apply mutatis mutandis to the computation of daily volumes of flow; however, where an operator of public sewer treatment facilities measures the quantity of wastewater that has flowed from

places of business of Classes I through IV under attached Table 13 into such facilities from the zone of sewage treatment, the daily volumes of flow shall be the quantity of wastewater measured and in cases where an operator of public sewer treatment facilities does not measure, the daily volumes of flow shall be based on the data that have been submitted by places of business of Classes I through IV at the time when an application for a permit for installing or modifying the discharge facilities or a report or modification thereon has been filed under the provisions of Article 33 (1) through (3) of the Act, the recording books of operations of discharge facilities and prevention facilities under Article 38 (3) of the Act and the results of inspections under Article 68 of the Act;

(d) The methods of computations under item (b) shall apply mutatis mutandis to the calculation of the average daily volume of flow;

3. The fixed discharge quantity of a place of business, etc. equipped with gauges shall be calculated by multiplying the excess concentration (in cases of Article 41 (1) 1 (a) of the Act, referring to the excess concentration of standards for quality of discharged water under the standards for permissible discharge concentration) of the standards for quality of discharged water for three hours during which the average value of the relevant three hours of the imposition period exceeds the standards for quality of discharged water (including the alternative automatically measured data and data falling under each item of Article 41 (5) 2; hereafter the same shall apply in this Article and Article 47), by the relevant average discharge volumes of flow of the relevant three hours.

(3) Matters necessary for the kinds of data to be submitted in accordance with paragraph (1) and ways of preparing them shall be prescribed by Ordinance of the Ministry of Environment.

Article 45 (Computation Criteria and Methods for Excess Discharge Dues)(1) The excess discharge dues under Article 41 (1) 2 of the Act (hereinafter referred to as "excess discharge dues") shall be the amount obtained from adding the amount classified under each subparagraph of paragraph (3) to the amount computed by the following formula on the basis of the quantity and concentration of water pollutants discharged: Provided, That where excess discharge dues under Article 41 (1) 2 (a) of the Act are to be imposed on the person operating gauge-installing business, etc. not subject to an order for improvement under Article 39 of the Act who has slightly exceeded the standards for permissible discharge, or on the business entity who has submitted a plan for improvement under Article 40 (1) 2 and has implemented any improvements, the imposition coefficients by excess rate of the standards for permissible discharge and the imposition coefficients by frequency of violations shall not be applied and the amount of paragraph (3) 1 shall not be added: <Amended by Presidential Decree No. 22051, Feb. 18, 2010>

Quantity discharged in excess of standards × Amount imposed per kilogram of water pollutants × Computation index of dues by year × Imposition coefficients by area × Imposition coefficients by excess rate of the standards for permissible discharge (emission/leakage coefficients in cases of Article 41 (1) 2 (b) of the Act) × Imposition coefficients by frequency of violation of the standards for permissible discharge.

(2) When the computation criteria under paragraph (1) applies to a business entity who has submitted the improvement plan and makes improvements under Article 40 (1) 1, he/she shall be deemed to have been subject to an order for improvement under Article 39 of the Act.

(3) The amount to be added to the amount computed under the formula pursuant to paragraph (1) for the computation of the excess discharge dues shall be as follows:

1. In cases of excess discharge dues under Article 41 (1) 2 (a) of the Act, the amount to be added shall be four million won for Class- I place of business under attached Table 13, three million won for Class- II place of business, two million won for Class-III place of business, one million won for Class-IV place of business, and one half million won for Class- V place of business;

2. In cases of excess discharge dues under Article 41 (1) 2 (b) of the Act, the amount to be added shall be five million won.

(4) The quantity discharged in excess of the standards under the formula of paragraph (1) shall be the quantity discharged according to the following classifications:

1. In cases falling under Article 41 (1) 2 (a) of the Act: The quantity exceeding the standards for permissible discharge;

2. In cases falling under Article 41 (1) 2 (b) of the Act: The quantity of water pollutants discharged.

(5) The amount imposed per kilogram of the water pollutants, the imposition coefficients by excess rate of the standards for permissible discharge, the emission and leakage coefficients, and the imposition coefficients by area necessary for a computation of the excess discharge dues under paragraphs (1) and (4), shall be as specified in attached Table 14.

(6) Excess discharge dues of the joint prevention facilities shall be the total amount computed in accordance with the provisions of paragraphs (1) through (4) by respective place of business.

(7) Article 41 (5) shall apply mutatis mutandis to the discharge quantity and concentration of the water pollutants necessary for the calculation of excess discharge dues to be imposed on the place of business, etc. equipped with gauges.

Article 46 (Kinds of Water Pollutants Subject to Imposition of Excess Discharge Dues)

The kinds of water pollutants subject to the imposition of the excess discharge dues shall be as follows:

1. Organic substances;
2. Suspended solids;
3. Cadmium and its compounds;
4. Cyanide;
5. Organo posohoric compounds;
6. Lead and its compounds;
7. Hexavalent chromium compounds;

8. Arsenic and its compounds;
9. Mercury and its compounds;
10. Polychlorinated biphenyl;
11. Copper and its compounds;
12. Chrome and its compounds;
13. Phenols;
14. Trichloroacetic ethylene;
15. Tetrachloroethylene;
16. Manganese and its compounds;
17. Zinc and its compounds;
18. Total nitrogen;
19. Total phosphorous.

Article 46-2 (Criteria for Imposition of Penalty Surcharges)(1) The criteria for the imposition of penalty surcharges under Article 43 (1) of the Act shall be as specified in attached Table 14-2.

(2) The deadline for payment of penalty surcharges under Article 43 (3) of the Act shall be 30 days from the date of issuance of a notice of the payment of penalty surcharges, and the notice of the payment of penalty surcharges shall be issued, as prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Presidential Decree No. 25127, Jan. 28, 2014]

Article 47 (Computation of Quantity Discharged in Excess of Standards of Discharge Facilities)(1) The quantity discharged in excess of the standards under Article 45 (1) (excluding cases of discharge from wastewater non-discharge facilities) shall be the quantity of water pollutants discharged by making operations in excess of the standards for permissible discharge during the discharge period pursuant to the classification under any of the following subparagraphs, and the said quantity shall be computed by multiplying the quantity discharged in excess of the daily standards by the number of days in the discharge period: Provided, That the quantity discharged in excess of the standards of the place of business, etc. equipped with gauges shall be calculated by multiplying the excess concentration (referring to the value obtained by deducting the concentration of standards for permissible discharge from the average value during three hours during which the standards for permissible discharge has been exceeded) of the standards for permissible discharge for the three hours during which the average value of the relevant three hours exceeds the standards for permissible discharge by the relevant average discharge volumes of flow of the relevant three hours:

1. Where an improvement has been made in accordance with Article 40 (1) 1 after an improvement plan has been submitted: The period from the date when the water pollutants begin being discharged (referring to the date when the relevant public officials collect water pollutants in accordance with Article 68 (1) of the Act, if the date when the water pollutants begin being discharged is unknown) to the date when the operation ceases or when the

entire quantity is treated under consignment (where the treatment is made under consignment in accordance with Article 40 (1) 1 (b), but part of wastewater not designated by subparagraph 2 of Article 33 is partly discharged, the expiration date of the improvement period stipulated in the improvement plan) prescribed in the improvement plan;

2. Where an improvement has been made in accordance with Article 40 (1) 2 after the improvement plan has been submitted: The period from the date when the standards for permissible discharge clarified in the improvement plan has been exceeded to the expiration date of the improvement period;

3. In cases other than those falling under subparagraphs 1 and 2: The period from the date a discharge of water pollutants has been commenced (referring the date when the relevant public officials collect water pollutants for examination as to whether the standards for permissible discharge have been exceeded, if the date when the water pollutants begin being discharged is unknown) to the scheduled date the order for improvement, the order for suspension of operation, the order for suspension of use, or the order for closure is completely fulfilled, or the date of revocation of permission under Article 39, 40, 42 or 44 of the Act, or the date when the infringing activities have been suspended where any subparagraph of Article 38 (1) of the Act has been violated.

(2) The quantity discharged in excess of the daily criteria under paragraph (1) shall be the quantity indicated in kilograms as a unit, being the quantity computed by multiplying the concentration of water pollutants discharged in excess of the standards for permissible discharge on the collection date of discharged pollutants forming grounds for the order for improvement, order for suspension of operation, revocation of permit, order for suspension of use, or order for closure under Article 39, 40, 42 or 44 of the Act (where the improvement plan has been submitted in accordance with Article 40 (1) 1, referring to the date when the water pollutants are collected under Article 68 (1) of the Act by the relevant public officials. Where the improvement plan has been submitted in accordance with Article 40 (1) 2, referring to the date when the test samples are collected by the relevant public officials under Article 68 (3) of the Act) by the daily volumes of flow computed in accordance with the wastewater volumes of flow at the time of measuring the relevant concentration (hereinafter referred to as "measured volumes of flow").

(3) The discharge period under paragraph (1) shall be indicated by the number of days, after calculating as prescribed in the Civil Act, including the first day.

(4) The quantity discharged in excess of the daily standards and the daily volumes of flow under paragraph (2) shall be computed in accordance with attached Table 15. The measured volumes of flow shall be computed in accordance with the official testing method with respect to environmental pollution processes under Article 6 of the Environmental Examination and Inspection Act: Provided, That where the volume of flow cannot be measured or measured volumes of flow are deemed to be remarkably different from the actual volumes of flow, the volume of flow shall be computed by any of the following methods:

1. Computation by integrating flowmeters;

2. Where the method under subparagraph 1 is deemed to be inadequate, it shall be computed by the average volumes of flow for 30 working days immediately preceding the collection date of test samples on the daily record of operation of the prevention facilities;

3. Where the methods under both subparagraphs 1 and 2 are deemed to be inadequate, it shall be computed by reducing the quantity of water used for living, product contents and other water not generating any wastewater from the quantity of water used at the relevant place of business (including all water used at the relevant place of business, such as tap water, water used for industrial purposes, groundwater, river water, sea water, etc.).

Article 48 (Computation of Quantity Discharged in Excess of Standards for Wastewater Non-discharge Facilities)(1) The quantity discharged in excess of the standards under Article 45 (1) (limited to cases of discharges from wastewater non-discharge facilities) shall be the quantity of pollutants discharged by emissions or leakage from wastewater non-discharge facilities from the date when the discharge of water pollutants is commenced in contravention of Article 38 (2) of the Act (where the date the discharges commenced cannot be ascertained, referring to the collection date of water pollutants) until the date the said activities cease. However, the said quantity shall be computed by multiplying the quantity discharged in excess of the daily standards by the number of days in the discharge period.

(2) The quantity discharged in excess of the daily criteria under paragraph (1) shall be the quantity indicated in kilograms as a unit, being the quantity computed by multiplying the discharge concentration of the water pollutants on the collection date of discharged pollutants by the daily volumes of flow calculated by the measured volumes of flow.

(3) Article 47 (3) and (4) shall apply mutatis mutandis to the computation of the discharge period, quantity discharged in excess of the daily criteria and daily volumes of flow under paragraphs (1) and (2).

Article 49 (Computation Index of Dues by Year and Imposition Coefficients by Frequency of Violations)(1) The computation index of dues by year under Article 45 (1) shall be derived by multiplying the computation index of dues of the preceding year by the price fluctuation index publicly announced by the Minister of Environment by taking into account the rates of price increase, etc. of the preceding year.

(2) The imposition coefficients by frequency of violations under Article 45 (1) shall be as specified in attached Table 16.

Article 50 (Adjustment of Quantity Discharged below Criteria)

Where the data referred to in Article 44 (1) are not submitted or the said data, having been submitted, are deemed to be unfair, for example, the fixed discharge quantity is remarkably different from that of other places of business with the similar size, the Minister of Environment may adjust the quantity discharged below the criteria as prescribed in the following:

1. Where the relevant business entity does not submit data concerning the fixed discharge quantity as provided for in Article 44 (1), the discharge quantity of water pollutants

(hereinafter referred to as "discharge quantity of inspection") shall be computed as prescribed in the following items, deeming that pollutants have been, so far, discharged in the same state as the discharge concentration and the daily volumes of flow at the time of inspection prescribed in Article 68 of the Act; and the discharge quantity equivalent to 120/100 of the discharge quantity of inspection shall be regarded as the quantity discharged below the criteria:

(a) The daily discharge quantity of inspection shall be calculated by multiplying the discharge concentration at the time of inspection by daily volume of flow at the time of inspection;

(b) The average daily discharge quantity of inspection shall be calculated by, first, adding the daily discharge quantities of inspection, computed according to item (a), and then, dividing the sum thereof by the number of inspections carried out;

(c) The discharge quantity of inspection shall be calculated by, first, subtracting the quantity discharged within the standards for quality of discharged water from the average daily discharge quantity of inspection, and then, multiplying the valance thereof by the number of working days;

2. Where the fixed quantity of discharge submitted by the business entity in accordance with Article 44 (1) is less than the discharge quantity of inspection by not less than 20/100 of the latter, the discharge quantity equivalent to 120/100 of the discharge quantity of inspection shall be regarded as the quantity discharged below the criteria.

Article 51 (Request for Submission of Data on Adjustment of Quantity Discharged below Criteria, etc.)(1) Where necessary for the adjustment of the quantity discharged below the criteria pursuant to Article 50, the Minister of Environment may have the business entity submit related data in accordance with Article 68 (1) of the Act.

(2) In order to confirm the matters concerning the discharge quantity of water pollutants, etc., submitted by the relevant business entity in accordance with Article 44 (1), or to adjust the quantity discharged below the criteria under Article 50, the Minister of Environment shall carry out an inspection on the level of pollution as prescribed by Ordinance of the Ministry of Environment or entrust the inspection on the level of pollution to an inspection agency designated by Ordinance of the Ministry of Environment.

Article 52 (Reduction or Exemption of Discharge Dues, etc.)(1) "Business entity who discharges water pollutants in not more than such quantity as determined by Presidential Decree" in the former part of Article 41 (3) of the Act means any of following persons: <Amended by Presidential Decree No. 22051, Feb. 18, 2010>

1. Any business entity, the place of business of which is Class-V under attached Table 13;
2. Any business entity who sends wastewater into wastewater terminal treatment facilities;
3. Any business entity who sends wastewater into public sewer treatment facilities;
4. Any business entity who has not discharged water pollutants in excess of the standards for quality of discharged water for not less than six months prior to the commencement date of the relevant imposition period;
5. Any business entity who reuses wastewater discharged from discharge facilities prior to

discharging such wastewater through the final outlet.

(2) The kinds of dues to be abated or exempted under Article 41 (3) of the Act shall be the basic discharge dues, and the scope of the abatement or exemption shall be as follows:

1. In cases of the business entity falling under any of paragraph (1) 1 through 3, basic discharge dues shall be exempted;

2. In cases of the business entity falling under paragraph (1) 4, basic discharge dues shall be reduced according to the period falling under any of the following items, during which he/she discharges pollutants not exceeding the standards for quality of discharged water, and the corresponding reduction rate:

(a) Between not less than six months and not more than one year: 20/100;

(b) Between not less than one year and not more than two years: 30/100;

(c) Between not less than two years and not more than three years: 40/100;

(d) Not less than three years: 50/100;

3. In cases of the business entity falling under paragraph (1) 5, basic discharge dues shall be reduced according to the reduction rate computed by the reuse rate of wastewater falling under any of the following:

(a) Where the reuse rate is between not less than 10 percent and less than 30 percent: 20/100;

(b) Where the reuse rate is between not less than 30 percent and less than 60 percent: 50/100;

(c) Where the reuse rate is between not less than 60 percent and less than 90 percent: 80/100;

(d) Where the reuse rate is not less than 90 percent: 90/100.

(3) Any business entity who desires a reduction of or exemption from basic discharge dues in accordance with Article 41 (3) of the Act shall submit relevant documents that can prove his/her entitlement to such reduction or exemption, by no later than the last day of the month following the month in which the imposition period expires as prescribed by Ordinance of the Ministry of Environment: Provided, That any business entity falling under paragraph (2) 1 or 2 may be exempted from the submission of such data.

Article 53 (Payment Notices of Discharge Dues)(1) Payment notices of discharge dues shall be served within the period falling under any of the following subparagraphs: Provided, That in cases of places of business, etc. equipped with gauges, payment notices may be served by summing up excess discharge dues on a quarterly basis:

1. In cases of basic discharge dues, within sixty days after the date on which the period for submission of documents concerning the fixed discharge quantity of the relevant imposition period expires;

2. In cases of excess discharge dues, at the time an incidence for imposition of excess discharge dues occurs.

(2) Where discharge dues are decided to be imposed in accordance with paragraph (1) (including cases where discharge dues are imposed after undergoing adjustment pursuant

to Article 54), payment notices shall be issued by indicating the quantity of the water pollutants subject to imposition, the amount imposed, the deadline and place for payment, and other necessary matters therefor. In such cases, the payment period for discharge dues shall be 30 days from the date when the payment notice has been issued.

Article 54 (Adjustment of Discharge Dues)(1) In any of the following cases, the Minister of Environment shall recalculate and adjust the amount of discharge dues, and where there is a difference between the amount already paid and the adjusted amount, he/she shall re-impose or refund an amount equivalent to the difference:

1. Where the discharge period of water pollutants on the basis of which the computation of the excess discharge dues is made has changed due to the fact that, until the expiration date of the improvement period (including suspension of operation and treatment of the entire quantity on consignment), the scheduled date of fulfilling performance of orders, date of revoking permission or date of suspending infringing activities as provided for in Article 47 (1) 1 through 3, the relevant improvement, performance of the relevant order or suspension of infringing activities has not been fulfilled or the fact that, before the said periods expire, the relevant improvement, performance of the relevant order or suspension of violative activities has been fulfilled;

2. Where the discharge quantity of water pollutants or as turned out to have changed from the originally measured quantity as a result of the remeasurement thereof according to acknowledgement of the fact that the state of pollutants, etc. being discharged after imposition of the excess discharge dues changed from the state thereof at the time of the original measurement;

3. Where an error is detected in the computation of fixed discharge quantity submitted by the relevant business entity in accordance with Article 44 (1) or where an error is detected in the adjustment of quantity discharged below the criteria performed by the Minister of Environment in accordance with Article 50.

(2) In cases of adjustment of excess discharge dues for a reason prescribed in paragraph (1) 1, the final day of the discharge period of water pollutants or discharged material necessary for a computation of excess discharge dues shall be as follows:

1. Where an improvement plan under Article 40 (1) has been submitted: The day of fulfillment of the relevant improvement as determined by Ordinance of the Ministry of Environment;

2. Where an order for improvement, order for suspension of operation, order for suspension of use, or order for closure under Article 39, 40, 42 or 44 of the Act has been issued: The day on which the report on performance of the relevant order is made in accordance with Article 45 (1) of the Act (limited to cases where completion of improvement is confirmed under Article 45 (2) of the Act);

3. All cases other than subparagraphs 1 and 2: The day of ceasing infringing activities under any subparagraph of Article 38 (1) of the Act or the day of revoking permission under Article 42 of the Act.

(3) In cases of adjustment of excess discharge dues for a reason prescribed in paragraph

(1) 2, the amount of excess discharge dues shall be computed on the basis of the discharge quantity remeasured during the period following the day of reinspection.

(4) The impositions subsequent to adjustment or refunds of excess discharge dues as prescribed in paragraph (1) 1 shall be made within 30 days following the date on which it is confirmed as to whether improvement of relevant discharge facilities or prevention facilities, the performance of the relevant order or the suspension of infringing activities has been fulfilled.

(5) Where basic discharge dues must be adjusted for a reason prescribed in paragraph (1) 3, the basic discharge dues shall be computed on the basis of the documents submitted at the time the permit for the establishment or modification of discharge facilities was applied for or the report or modification report thereon was made in accordance with Article 33 (1) through (3) of the Act, the record on operation of the discharge facilities and prevention facilities as prescribed in Article 38 (3) of the Act, the results of the inspection as prescribed in Article 68 of the Act, etc.

(6) Where the Minister of Environment shall has decided to impose or refund the difference in accordance with paragraph (1), he/she shall notify the relevant person in writing by indicating the relevant amount, date, place and other necessary matters.

Article 55 (Application for Adjustment of Discharge Dues)(1) Where any business entity for which a payment notice for discharge dues has been issued (hereinafter referred to as "payment obligor") falls under any subparagraph of Article 54 (1), he/she may apply for the adjustment of the discharge dues.

(2) An application for adjustment of discharge dues pursuant to paragraph (1) shall be filed within 60 days from the date when a payment notice of discharge dues has been served. <Amended by Presidential Decree No. 22213, Jun. 22, 2010>

(3) When the Minister of Environment has accepted an application for adjustment, he/she shall notify the applicant of his/her decision on the matter under consideration within 30 days following the date on which the application is received.

(4) The application for adjustment referred to in paragraph (1) shall not affect the payment deadline for discharge dues.

Article 56 (Deferment of Collection, Installment Payments and Procedures for Collection of Discharge Dues)(1) In any of the following cases, the payment obligor of discharge dues may file an application to the Minister of Environment to defer the collection thereof or to pay the dues in installments:

1. Where the property of a business entity is affected by serious harm due to a natural disaster or other calamities;
2. Where a business entity faces a considerable crisis due to apparent losses;
3. Where any reason similar to those prescribed in subparagraphs 1 and 2 occurs.

(2) When the Minister of Environment, upon receipt of an application provided for in paragraph (1), recognized that the discharge dues may not be paid due to any reason falling under any subparagraph of paragraph (1), he/she may allow the deferred collection of

discharge dues or payment installments. In such cases, the period for deferment of collection shall be within two years from the day immediately following the date on which the deferment of collection is decided upon and the number of installments into which the payment may be divided within the said period shall not exceed 12. <Amended by Presidential Decree No. 21590, Jun. 30, 2009; Presidential Decree No. 22213, Jun. 22, 2010>

(3) Where the originally imposed amount to be paid by a person who is subject to deferment of collection of discharge dues or installment payments pursuant to paragraph (2), exceeds the capital or the total equity investment of the payment obligor (in cases of an individual business entity, referring to the total amount of assets) by not less than two times the latter, and where it is deemed that the said amount of discharge dues cannot be paid even within the period under paragraph (2) as a reason falling under any subparagraph of paragraph (1) continues, the Minister of Environment may prescribe the period for deferred collection within the scope of three years from the day immediately following the date on which the deferment of collection is decided upon; the number of installments into which the payment may be divided within the said period shall not exceed 18, notwithstanding paragraph (2). <Amended by Presidential Decree No. 21590, Jun. 30, 2009; Presidential Decree No. 22213, Jun. 22, 2010>

(4) When the Minister of Environment has decided upon the deferment of collection in accordance with paragraph (1) or (3), he/she may order the provision of collateral or measures necessary for the preservation of collateral, the value of which corresponds to the deferred amount to a person for whom the deferment of collection has been decided.

(5) Where a payment obligor falls under any of the following subparagraphs, the Minister of Environment may cancel the deferment of collection and collect the outstanding dues:

1. Where the relevant person has not paid the outstanding amount until the expiration date of the designated period;
2. Where the relevant person has not complied with the order of the Minister of Environment necessary for an alteration of the relevant collateral or preservation of the relevant collateral;
3. Where the deferment of collection is deemed to be unnecessary on account of a change in the property or other relevant circumstances.

(6) Matters necessary for the imposition, collection, refund and installment payments of discharge dues shall be prescribed by Ordinance of the Ministry of Environment.

Article 57 (Grant of Collection Expenses)(1) Where the Minister of Environment has entrusted collection of discharge dues and additional dues to a Mayor/Do Governor in accordance with Article 81 (1) 10, he/she shall grant to the Mayor/Do Governor the amount equivalent to 10/100 of the discharge dues and the additional dues or the adjusted discharge dues and additional dues as provided for in Article 54 collected by the Mayor/Do Governor as collection expenses.

(2) When the Minister of Environment intends to grant the collection expenses under paragraph (1), he/she shall monthly calculate the collection expenses out of the discharge dues and the additional dues paid into the Special Accounts for Environment Improvement

as prescribed by the Act on the Special Accounts for Environment Improvement, and pay the said collection expenses to the relevant Mayor/Do Governor by the end of each upcoming month.

Article 58 (Discharge Facilities Subject to Disposition of Imposing Penalty Surcharge)

"Discharge facilities determined by Presidential Decree" in Article 43 (1) 5 of the Act means any of the following facilities:

1. Discharge facilities of the defence businesses under subparagraph 9 of Article 3 of the Defense Acquisition Program Act;
2. Discharge facilities acknowledged by the Minister of Environment to be susceptible to such accidents as an explosion or a fire due to the fact that raw materials, auxiliary raw materials, water for a specific purpose, products (including semi-finished goods), etc. placed into the said discharge facilities manifest chemical responses, etc., where the said discharge facilities cease operating;
3. Waterworks under subparagraph 17 of Article 3 of the Water Supply and Waterworks Installation Act;
4. Facilities for reserving petroleum installed in accordance with the plan for reserving petroleum under Article 15 (1) of the Petroleum and Petroleum Substitute Fuel Business Act;
5. Bases in which liquefied natural gases of gas supply facilities under subparagraph 5 of Article 2 of the Urban Gas Business Act are taken over.

Article 59 (Appointment of, Qualification Standard, etc. for Environmental Engineers, etc.)

(1) A business entity who intends to appoint an environmental engineer pursuant to Article 47 (1) of the Act shall appoint the environmental engineer according to the following classifications: <Amended by Presidential Decree No. 25127, Jan. 28, 2014>

1. Where the business entity has installed new discharge facilities: At the same time he/she reports the startup operation of the discharge facilities;
2. Where an environmental engineer is to be replaced: Within five days from the date on which the grounds for such replacement have occurred.

(2) Qualification standards for environmental engineers who shall be employed at different types of places of business in accordance with Article 47 (5) of the Act shall be prescribed in attached Table 17.

SECTION 2 Wastewater Terminal Treatment Facilities

Article 60 (Matters, etc. for Consultation of Establishment and Operation of Wastewater Terminal Treatment Facilities)

(1) Where the State or a local government intends to have a person falling under any subparagraph of Article 48 (1) of the Act establish and operate wastewater terminal treatment facilities in accordance with Article 48 (1) of the Act, it shall consult with a person who is to establish and operate the relevant facilities on the following matters:

1. The scale of a project for the establishment and operation of wastewater terminal treatment facilities (hereinafter referred to as "project for wastewater terminal treatment facilities");

2. The means of raising and managing expenses for the project;
3. Implementation period of the project and means of implementation;
4. Expenses to be paid subsequent to establishment and operation;
5. Other matters prescribed by Ordinance of the Ministry of Environment.

(2) "Person prescribed by Presidential Decree" in Article 48 (1) 4 of the Act means any of the following persons. In such cases, the scope of projects for the wastewater terminal treatment facilities shall be limited to projects operated by wastewater terminal treatment facilities: <Amended by Presidential Decree No. 21565, Jun. 26, 2009; Presidential Decree No. 22051, Feb. 18, 2010; Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 23938, Jul. 5, 2012>

1. The Korea Rural Community Corporation under the Korea Rural Community Corporation and Farmland Management Fund Act;
2. The Korea Water Resources Corporation under the Korea Water Resources Corporation Act;
3. The local public enterprises and local industrial complexes under the Local Public Enterprises Act;
4. The Korea Industrial Complex Corporation or the council for moved-in enterprises (where the requirements for the establishment of a council for moved-in enterprises has not been satisfied due to the move-in of a single place of business, etc., referring to relevant moved-in company) established in accordance with Article 31 of the Industrial Cluster Development and Factory Establishment Act;
5. Any person who registers environmental specialized construction business in accordance with Article 15 of the Environmental Technology and Industry Support Act;
- 5-2. Small and medium enterprise cooperatives under the Small and Medium Enterprise Cooperatives Act (limited to cases where wastewater terminal treatment facilities are installed in an industrial complex referred to in subparagraph 8 of Article 2 of the Industrial Sites and Development Act and at least 90 percent of small and medium enterprises which move to the relevant industrial complex are the members thereof);
6. Other persons who are allowed to operate wastewater terminal treatment facilities in accordance with other Acts.

Article 61 (Kinds of Wastewater Terminal Treatment Facilities)

The kinds of wastewater terminal treatment facilities pursuant to Article 48 (2) of the Act shall be as follows:

1. The wastewater terminal treatment facilities for industrial complexes: Industrial complexes designated in accordance with Articles 6, 7, and 7-2 of the Industrial Sites and Development Act or wastewater terminal treatment facilities to be established on the manufacturing area designated in accordance with Article 36 (1) 1 (c) of the National Land Planning and Utilization Act;
2. The wastewater terminal treatment facilities for agricultural or industrial complexes: Wastewater terminal treatment facilities to be established on agricultural or industrial

complexes designated in accordance with Article 8 of the Industrial Sites and Development Act;

3. The wastewater terminal treatment facilities other than subparagraphs 1 and 2: Wastewater terminal treatment facilities installed in an area designated and publicly announced by the Minister of Environment as deemed necessary for them to be installed for preservation of the water quality of rivers, lakes, and marshes.

Article 62 (Calculation of Expenses Required for Project for Wastewater Terminal Treatment Facilities)(1) The expenses required for the project for wastewater terminal treatment facilities under Article 48-2 (1) of the Act shall be determined within the scope of expenses falling under the following, necessary for implementing the relevant project:

1. Plan and survey expenses;
2. Main and accessory construction expenses;
3. Land acquisition costs (including indemnification costs);
4. Operation and administrative and maintenance expenses;
5. Equipment acquisition cost and installation cost;
6. Office management expenses, interest paid, and other incidental costs.

(2) The expenses incurred in the project for the wastewater terminal treatment facilities under paragraph (1) shall be calculated by subtracting revenues from disposing of land, buildings, other articles, etc.

Article 63 (Total Expenses for Project of Wastewater Terminal Treatment Facilities Borne by Causing Person)(1) The charges for the establishment and operation of the wastewater terminal treatment facilities (hereinafter referred to as "charges for wastewater terminal treatment facilities") to be borne by the person who has performed the business activity that causes project for wastewater terminal treatment facilities in the relevant area, in accordance with Article 48-2 of the Act or has directly caused the water pollution (hereinafter referred to as "causing person") shall be determined by taking into account any of the following:

1. The level of pollution related to the relevant project for wastewater terminal treatment facilities of the causing person under consideration;
2. The period during which the substance responsible for causing contamination has accumulated;
3. The quantity causing water pollutants;
4. The expenses for using facilities related to the project for wastewater terminal treatment facilities by persons other than the causing person.

(2) Expenses to be borne by the causing person in accordance with paragraph (1) shall be the amount obtained by subtracting the subsidies under the Act on the Budgeting and Management of Subsidies and other Acts from the total expenses for the project for wastewater terminal treatment facilities.

(3) Where the causing person bears only a part of the total expenses incurred in the project for wastewater terminal treatment facilities under paragraphs (1) and (2), a person who

installs and operates the wastewater terminal treatment facilities (hereinafter referred to as "implementing person") in accordance with Article 48 of the Act shall devise a plan for stocking deficient financial resources.

Article 64 (Criteria for Apportionment of Expenses Bearing by Causing Person)

The amount of charges for wastewater terminal treatment facilities to be borne by each causing person in accordance with Article 48-2 of the Act, shall be the distributed amount of the total amount of the charges for the wastewater terminal treatment facilities to be borne by the relevant causing person by taking into account any of the following matters which have contributed to the water pollution, and the relation between the relevant business activities and the project of wastewater terminal treatment facilities under consideration:

1. Kinds and scale of facilities that have caused water pollution;
2. Quantity and quality of the water pollutants discharged;
3. Expenses for the treatment of water pollutants;
4. Scale of business in view of the capital, the number of employees, annual production volumes, sales, etc.

Article 65 (Procedures for Imposition and Collection of Charges for Wastewater Terminal Treatment Facilities, etc.)

Where the implementing person intends to impose and collect the total amount of charges for the wastewater terminal treatment facilities in accordance with Article 48-2 of the Act, he/she shall inform the person subject to the imposition of the amount of dues, the deadline and place for payment, and other necessary matters in writing.

Article 66 (Approval on Basic Plan for Wastewater Terminal Treatment Facilities)

Each implementing person (excluding the Minister of Environment) shall, when he/she intends to establish or alter wastewater terminal treatment facilities in accordance with Article 49 (2) of the Act, establish a basic plan in which each of the following matters is included and obtain approval from the Minister of Environment as prescribed by Ordinance of the Ministry of Environment:

1. Matters on the area subject to treatment by the relevant wastewater terminal treatment facilities;
2. Matters on the dispersion of pollution sources, the quantity of discharge wastewater and a forecast thereof;
3. Matters concerning the wastewater treatment process diagrams, treatment capacity and treatment methods of the wastewater terminal treatment facilities under consideration;
4. An evaluation of the effects of the wastewater to be treated at the wastewater terminal treatment facilities under consideration on the water quality of the waterways into which the treated wastewater is to be discharged;
5. Matters concerning persons who install and operate the wastewater terminal treatment facilities under consideration;
6. Matters on the apportionment of the charges for the wastewater terminal treatment facilities;

7. Total expense for project, the expense for project by field and the grounds for calculation thereof under Article 62;
8. An annual investment plan and fund raising plan;
9. Matters on the exploitation and use of land, etc.;
10. Other matters necessary for the installation and operation of the wastewater terminal treatment facilities.

Article 67 (Establishment of Expense Apportionment Plan and Application for Approval)(1) Where the Minister of Environment establishes an expense apportionment plan in accordance with Article 49-2 (1) of the Act, the following matters shall be included therein:

1. The total expenses for project required for the project of the wastewater terminal treatment facilities;
2. Persons who bear the expenses incurred in the project and the standards for apportionment;
3. The scope of causing persons and the standards for selection;
4. The total amount to be borne by the causing person and the standards for calculation;
5. The standards for expense bearing by the causing person;
6. Means of and timing for imposing and collecting charges for wastewater terminal treatment facilities;
7. Other matters necessary for expense funding.

(2) The implementing person (excluding the Minister of Environment) shall, when he/she has established the basic plan in accordance with Article 66, establish an expense apportionment plan in which the matters falling under each subparagraph of paragraph (1) in accordance with Article 49-2 (2) of the Act are included and obtain approval from the Minister of Environment as prescribed by Ordinance of the Ministry of Environment.

Article 68 (Notification of Expense Apportionment Plan)

The implementing person (excluding the Minister of Environment) shall, when he/she has obtained approval or approval for modification on the expense apportionment plan shall immediately inform each causing person of the purports of expense apportionment plan in which the matters falling under each subparagraph of Article 67 (1) are indicated.

Article 69 (Entrustment of Collection of Charges for Wastewater Terminal Treatment Facilities)(1) Where the person falling under any subparagraph of Article 48 (1) of the Act intends to entrust the collection of charges for wastewater terminal treatment facilities to the head of a Si/Gun/Gu in accordance with Article 49-6 (3) of the Act, he/she shall send a written notice of entrustment for collection in which the name and address of the person who bears the charges, the amount imposed, the reason for and the deadline of payment, and other necessary matters.

(2) The head of a Si/Gun/Gu who has been entrusted with the collection in accordance with paragraph (1) shall reserve an amount equivalent to 5/100 of the collected charges as expenses for collection, and immediately pay the balance to the entrusting person.

Article 70 (Deadlines for Taking Measures for Performing Orders such as Improvement of Wastewater Terminal Treatment Facilities, etc.)(1) Where the Minister of Environment has decided to issue an order to take necessary measures, such as the improvement of facilities in accordance with Article 50 (3) of the Act, he/she shall set the improvement deadline within the scope of one year, by taking into consideration the period necessary for the improvement, etc.

(2) Where anyone who received an order to take measures as provided for in Article 50 (3) of the Act cannot fulfill performance of the order within the period prescribed in paragraph (1) due to natural disaster or other unavoidable grounds, he/she may file an application, before the deadline for improvement expires, with the Minister of Environment for extension of the period for improvement within the scope of one year.

Article 71 (Scope of Persons Required to Send Wastewater into Wastewater Terminal Treatment Facilities)

"Person determined by Presidential Decree" in Article 51 (1) of the Act means the person who seeks to discharge wastewater in excess of the standards for the quality of water discharged for purposes of discharging water pollutants to be treated at the relevant wastewater terminal treatment facilities.

CHAPTER IV CONTROL OF NON-POINT SOURCES OF POLLUTION

Article 72 (Projects and Facilities Subject to Reports on Non-Point Sources of Pollution)(1) Projects for urban development and projects for creation of industrial complexes under Article 53 (1) 1 of the Act shall be limited to projects falling under subparagraphs 1 and 2 of attached Table 3 of the Enforcement Decree of the Environmental Impact Assessment Act. <Amended by Presidential Decree No. 21185, Dec. 24, 2008; Presidential Decree No. 23966, Jul. 20, 2012>

(2) "Other projects prescribed by Presidential Decree" in Article 53 (1) 1 of the Act means projects falling under subparagraphs 3 through 17 of attached Table 3 of the Enforcement Decree of the Environmental Impact Assessment Act: Provided, That projects conducted only at the sea defined in subparagraph 1 (a) of Article 2 of the Public Waters Management and Reclamation Act, which fall under subparagraph 4 or 10 of attached Table 3 of the Enforcement Decree of the Environmental Impact Assessment Act, shall be excluded. <Amended by Presidential Decree No. 21185, Dec. 24, 2008; Presidential Decree No. 23966, Jul. 20, 2012; Presidential Decree No. 26249, May 26, 2015>

(3) "Places of business of a scale not smaller than that prescribed by Presidential Decree" in Article 53 (1) 2 of the Act means places of business, the site areas of which are not less than 10,000 square meters.

(4) "Wastewater discharge facilities prescribed by Presidential Decree" in Article 53 (1) 2 of the Act means wastewater discharge facilities installed in places of business falling under any of the following subparagraphs, from among in the standard classifications under Article 22 of the Statistics Act:

1. Manufacture of wood and products of wood;

2. Manufacture of pulp, paper and paper products;
3. Manufacture of coke, refined petroleum products and nuclear fuel;
4. Manufacture of chemicals and chemical products;
5. Manufacture of rubber and plastic products;
6. Manufacture of non-metallic mineral products;
7. Primary metal industry;
8. Mining of charcoal, petroleum, and uranium;
9. Metal mining;
10. Non-metallic mineral mining (excluding those for fuel);
11. Manufacture of drinks and foods;
12. Electricity, gas and steam supply business;
13. Wholesale trade and commission trade;
14. Wastewater treatment business, waste disposal business, and cleaning-related service provider.

(5) "Cases prescribed by Presidential Decree" in Article 53 (1) 3 of the Act means any of the following subparagraphs: <Amended by Presidential Decree No. 21185, Dec. 24, 2008; Presidential Decree No. 23966, Jul. 20, 2012>

1. Cases falling under Article 54 of the Enforcement Decree of the Environmental Impact Assessment Act and are subject to re-writing and re-consultation of the written assessment in accordance with Article 32 of the same Act;
2. Cases of places of business which has obtained permission for changes or made a report on changes in accordance with Article 33 (2) and (3) of the Act, the area of site of which has increased by not less than 30/100.

Article 73 (Reports on Changes in Non-Point Sources of Pollution)

Where a report on change is required under the latter part of Article 53 (1) of the Act, with the exception of its subparagraphs, shall be as follows: <Amended by Presidential Decree No. 26249, May 26, 2015>

1. Change of trade name, representative person, title of project or type of business;
2. Where the whole land area of the project, the land area for development, or the land area of the site for the place of business increases by not less than 15/100 of the initially reported land area;
3. Where the types, locations, and volumes of reduction facilities for non-point pollution are changed;
4. Where the non-point sources of pollution or reduction facilities for non-point pollution are closed in whole or in part: Provided, That in cases of projects under Article 53 (1) 1 of the Act, upon the completion of construction, wholly or partly shutting down the reduction facilities for non-point pollution which are installed for disposing of non-point pollutants discharged during the construction activities, shall be excluded.

Article 74 (Business Entities Exempted from Installation of Reduction Facilities for Non-Point Pollution)

Any business entity who has reported the establishment of non-point sources of pollution in accordance with Article 53 (3) 1 of the Act may be exempted from the installation of reduction facilities for non point pollution, where the Minister of Environment recognized that the pollution level of rainfall runoff does not exceed the standards for permissible discharge of the relevant place of business at all times by taking into account the following matters:

1. The location of the place of business;
2. The status of use and management of the land within the place of business;
3. The occurrence and flow of runoff from the non-point sources of pollution, etc.

Article 75 (Period of Execution of Orders for Implementation, Installation, or Improvement)(1) The Minister of Environment shall, when he/she orders the implementation of the plan for reduction of non-point pollution, or the installation or improvement of facilities in accordance with Article 53 (5) of the Act (hereafter referred to as "order for implementation, etc." in this Article), determine the period for such implementation, installation or improvement within each scope of the following subparagraphs, by taking into consideration the period necessary for the implementation of the plan for reduction of non-point pollution, or the installation or improvement of facilities:

1. Cases of the implementation of the plan for reduction of non-point pollution (excluding cases of the installation or improvement of facilities): Two months;
2. Cases of the installation of facilities: One year;
3. Cases of the improvement of facilities: Six months.

(2) Where a person who has been served an order for implementation, etc. may not complete the ordered measures within the period under paragraph (1) due to natural disasters or other inevitable grounds, he/she may apply for the extension of period to the Minister of Environment within the scope of six months before the prescribed period expires.

(3) Where a person who has been served an order for implementation, etc. has finished measures for implementation, he/she shall report the result thereof to the Minister of Environment without delay.

(4) Where the Minister of Environment has received a report pursuant to paragraph (3), he/she shall have the relevant public official to confirm the outcome of taking measures for the order for implementation, etc.

Article 75-2 (Roads to Install Non-Point Source Pollution Reduction Facilities)

"Road prescribed by Presidential Decree" in Article 53-2 (1) of the Act means: <Amended by Presidential Decree No. 25456, Jul. 14, 2014>

1. Motorways referred to in subparagraph 1 of Article 10 of the Road Act;
2. Roads for which the section to install non-point source pollution reduction facilities is determined and publicly announced by the Minister of Environment, in consultation with the heads of relevant administrative agencies, because it is necessary to reduce non-point source pollution for water quality control of water supply sources among roads referred to in subparagraphs 2 through 7 of Article 10 of the Road Act.

[This Article Newly Inserted by Presidential Decree No. 25045, Dec. 30, 2013]

Article 76 (Criteria and Procedure for Designation of Control Areas)(1) Criteria for designating control areas under Article 54 (1) and (4) of the Act shall be as follows:

1. Basin areas falling short of environmental standards concerning the water quality and the aquatic ecosystems of rivers, lakes and marshes under Article 2 of the Enforcement Decree of the Framework Act on Environmental Policy, where the non-point pollution contribution ratio out of the delivery pollutant load exceeds 50 percent;
2. Areas where significant damage has been, or is expected to be, caused to the natural ecosystems by non-point pollutants;
3. Cities with a population of not less than one million, for which the management of the non-point sources of pollution is necessary;
4. Areas designated as a national industrial complex or general industrial complex under the Industrial Sites and Development Act, for which the management of the non-point sources of pollution is necessary;
5. Areas acknowledged for which special management is necessary due to peculiar geological features and strata;
6. Other areas determined by Ordinance of the Ministry of Environment.

(2) When the Minister of Environment intends to designate control areas under Article 54 (1) of the Act, he/she shall develop a designation plan including details of the following subparagraphs and publicly announce such control areas in accordance with Article 54 (5) of the Act after consulting with the relevant Mayor/Do Governor:

1. Reasons why the designation of control areas is necessary;
2. Impact of the non-point sources of pollution on water pollution in the relevant area;
3. Detailed scope of area where the designation of control areas is necessary;
4. Other matters necessary for the designation of control areas, prescribed by Ordinance of the Ministry of Environment.

(3) When requesting designation of control areas under Article 54 (2) of the Act, any Mayor/Do Governor shall prepare the request form of designation, including details of each subparagraph of paragraph (2) and submit it to the Minister of Environment. In such cases, if the Minister of Environment acknowledges that the area requested to be designated as a control area falls under any subparagraph of paragraph (1), he/she shall publicly announce the relevant area as a control area under Article 54 (5) of the Act.

Article 77 (Compensation of Loss from Discontinuous Cultivation, etc.)

Where a Mayor/Do Governor compensates for any loss suffered by any highland farmer in accordance with Article 59 (2) of the Act, he/she shall calculate the amount of such compensation according to the standards published by the Minister of Environment, taking into account the area of farmland, kinds of agricultural products, income per unit of area, etc.

CHAPTER V CONTROL OF OTHER WATER SOURCES OF POLLUTION

Article 78 (Agricultural Chemicals Whose Use Is Restricted in Golf Courses)

"Agricultural chemicals prescribed by Presidential Decree" in the main sentence of Article 61 (1) of the Act means deadly or highly poisonous agricultural chemicals under

subparagraph 1 of attached Table 1 of the Enforcement Decree of the Pesticide Control Act.

CHAPTER VI WASTEWATER TREATMENT BUSINESS

Article 79 (Types of Wastewater Treatment Businesses)

The types of wastewater treatment businesses, as prescribed in Article 62 (1) of the Act, and the business activities of each type shall be as follows:

1. Entrusted wastewater treatment businesses: Referring to businesses equipped with wastewater treatment facilities, which treat the entrusted wastewater in ways other than recycling or using;
2. Wastewater reuse businesses: Referring to businesses which recycle or reuse entrusted wastewater as a raw material and resource for goods.

Article 79-2 (Criteria, etc. for Imposition of Penalty Surcharges)(1) The criteria for the imposition of penalty surcharges under Article 66 (1) of the Act shall be as specified in attached Table 17-2.

(2) The deadline for payment of penalty surcharges under Article 66 (1) of the Act shall be 30 days from the date of issuance of a notice of the payment of penalty surcharges, and the notice of the payment of penalty surcharges shall be issued, as prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Presidential Decree No. 25127, Jan. 28, 2014]

CHAPTER VII SUPPLEMENTARY PROVISIONS

Article 80 (Matters of Cooperation with Relevant Agencies)

"Matters prescribed by Presidential Decree" in subparagraph 10 of Article 70 of the Act means matters of the following subparagraphs:

1. Designation of the urban development-restricted zones;
2. Restoration, into its original state, of the land damaged by installation of tourism facilities, industrial facilities, etc.;
3. Control of the water quantity to be discharged, where the water stored in a dam is required to be discharged because the collection of water to be used as tap water is not possible due to accidents of water pollution or the deterioration of water quality.

Article 81 (Delegation of Authority)(1) The Minister of Environment shall delegate his/her authority over the following affairs to a Mayor/Do Governor in accordance with Article 74 (1) of the Act: <Amended by Presidential Decree No. 23520, Jan. 17, 2012; Presidential Decree No. 23938, Jul. 5, 2012; Presidential Decree No. 25127, Jan. 28, 2014; Presidential Decree No. 26249, May 26, 2015>

1. Investigation of vulnerability to climate changes on wastewater discharge facilities, and recommendation on the improvement thereof under Article 19-4 (1) of the Act;
- 1-2. Investigation of pollution sources by river-system spheres of influence under Article 23 of the Act;
2. Permission to install discharge facilities, acceptance of reports thereon, and permission to install wastewater non-discharge facilities under Article 33 (1) of the Act, permission to modify discharge facilities, acceptance of reports thereon, and permission to modify

- wastewater non-discharge facilities under paragraphs (2) and (3) of the same Article;
3. Revocation of permits and permits for modification, orders for closure, orders for improvement, and orders for the suspension of business under Article 35 (3) of the Act;
 4. Acceptance of reports of startup operation of discharge facilities and prevention facilities under Article 37 (1) of the Act, the inspection and entrustment of tests of pollution levels under paragraph (3) of the same Article, and the investigation of wastewater non-discharge facilities under paragraph (4) of the same Article;
 5. Recognition of the dilution treatment of water pollutants under the proviso to Article 38 (1) 3 of the Act;
 6. Orders to take measures (excluding orders to take measures issued to a person who has installed and operated wastewater terminal treatment facilities and public sewerage treatment facilities) under Article 38-4 (1) of the Act;
 7. Orders to suspend the operation (excluding orders to suspend the operation issued to a person who has installed and operated wastewater terminal treatment facilities and public sewerage treatment facilities) under Article 38-4 (2) of the Act;
 8. Orders for improvement under Article 39 of the Act;
 9. Orders to suspend operation issued against discharge facilities under Article 40 of the Act;
 10. Imposition and collection of charges for effluent water (excluding the charges for effluent water for wastewater terminal treatment facilities and public sewerage treatment facilities) under Article 41 of the Act;
 11. Revocation of permits, issuance of orders for suspension of operation, or orders for closure under Article 42 of the Act;
 12. Imposition and collection of penalty surcharges under Article 43 of the Act;
 13. Issuance of orders to suspend the use of unlawful facilities or for closure of such facilities under Article 44 of the Act (including cases to be applied mutatis mutandis under Article 60 (5) of the Act);
 14. Acceptance of reports on performance of orders, confirmation, and instruction and entrustment of inspecting pollution levels under Article 45 of the Act;
 15. Deleted; <by Presidential Decree No. 25127, Jan. 28, 2014>
 16. Acceptance of reports on installation of other water pollution sources or reports on the alteration thereof under Article 60 (1) the Act;
 17. Issuance of orders for improvement under Article 60 (3) the Act;
 18. Issuance of orders for suspension of operation or orders for closure under Article 60 (4) of the Act;
 19. Confirmation on the use of pesticides under Article 61 (2) of the Act;
 20. Registration of wastewater treatment business and modification registration thereof under Article 62 (1) of the Act;
 21. Revocation of registration and business suspension of a wastewater treatment business under Article 64 of the Act;
 22. Imposition and collection of penalty surcharges under Article 66 of the Act;

23. Issuance of orders for report, request for submission of data, entrance and exit, collection and inspection under Article 68 (1) 1, 4 and 5 of the Act;
 24. Requests for inspection of the pollution level under Article 68 (2) of the Act;
 25. Hearings on the delegated authority among those falling under any subparagraph of Article 72 of the Act;
 26. Imposition and collection of administrative fines under Article 82 of the Act (excluding administrative fines under Article 82 (1) 5 and (2) 3 through 5 of the Act; and in cases of administrative fines under Article 82 (3) 6 of the Act, limited to persons stipulated in Article 68 (1) 1, 4, and 5 of the Act and persons commissioned with the affairs of a Mayor/Do Governor under Article 68 (1) 6 of the Act);
 27. Acceptance of applications for extension of the improvement period under Article 39 (2);
 28. Receipt and confirmation of improvement plans or improvement completion reports, entrustment of inspecting pollution levels, and acceptance of applications for extension of the period of improvement under Article 40 (excluding cases of improving wastewater terminal treatment facilities and public sewage disposal facilities);
 29. Requests for submission, and receipt of data relating to the calculation of the quantity discharged below the criteria under Article 44 (1);
 30. Adjustment of the quantity discharged below the criteria under Article 50;
 31. Requests for submission of documents and inspection of pollution levels under Article 51;
 32. Acknowledgement of discharge facilities under subparagraph 2 of Article 58.
- (2) The Minister of Environment shall delegate his/her authority over the following affairs to the head of a river basin environmental office or the head of a regional environmental office in accordance with Article 74 (1) of the Act: <Amended by Presidential Decree No. 23520, Jan. 17, 2012; Presidential Decree No. 23938, Jul. 5, 2012; Presidential Decree No. 25127, Jan. 28, 2014; Presidential Decree No. 26249, May 26, 2015>
1. Granting approval and approval for modification for implementation plans for quantity regulation of pollutants under Article 4-4 (1) of the Act and the consultation on the implementation plan under Article 6 (3);
 2. Allotting the loading quantity for contamination and the designation of discharge quantity under Article 4-5 (1) of the Act;
 3. Issuing orders to take measures under Article 4-6 (1) of the Act;
 4. Issuing orders for the suspension of operation or orders for the closure of facilities under Article 4-6 (4) of the Act;
 5. Imposition of penalty surcharges under Article 4-6 (5) of the Act;
 6. Imposition and collection of charges for release of pollutants in excess of the total quantity under Article 4-7 (1) of the Act;
 7. Installation of measuring networks of the degree of water pollution and the regular measurement thereof under Article 9 (1) of the Act;
 8. Requests to take measures under Article 12 (2) of the Act;

- 8-2. Investigation of vulnerability to climate changes on non-point source pollution reduction facilities and wastewater terminal treatment facilities, and recommendation of the improvement thereof under Article 19-4 (1) of the Act;
9. Issuance and cancellation of pollution of water quality warnings under Article 21 of the Act;
- 9-2. Consultation on plans for installation and operation of buffer storage facilities and on changes therein under Article 21-4 (2) of the Act;
10. Consultation on plans for the small area of influence under Article 26 (3) of the Act;
11. Establishment of small influence area plans under Article 27 (1) of the Act;
12. Inspection and measurement under Article 28 (1) of the Act;
13. Orders to take measures under Article 29 of the Act;
- 13-2. Adjustment of agreements on bearing costs referred to in Article 31 (3) of the Act;
14. Establishment of the standards for permissible discharge with regard to the discharge facilities of special countermeasure areas and the special standards for permissible discharge with regard to the newly established discharge facilities under Article 32 (5) of the Act;
- 14-2. Establishment and announcement of effluent limitation guidelines under Article 32 (8) of the Act;
15. Deleted; <by Presidential Decree No. 26249, May 26, 2015> <<Enforcement Date: Jan. 1, 2016>>
16. Orders issued to take measures issued against a person who establishes and operates the wastewater terminal treatment facilities and the public sewer treatment facilities among the orders to take measures under Article 38-4 (1) of the Act;
17. Imposition and collection of charges for effluent water with regard to the wastewater terminal treatment facilities and the public sewer treatment facilities under Article 41 of the Act;
18. Granting approval of the master plans for the wastewater terminal treatment facilities under Article 49 (2) and (3) of the Act (including approval for modification) and the designation and publication of the joint treatment area;
19. Granting approval and approval for modification on the expense apportionment plan under Article 49-2 (2) and (3) of the Act (excluding cases where the implementing person is the State);
20. Orders issued to take measures including the improvement of facilities under Article 50 (3) of the Act, and acceptance of applications for extension of the improvement period under Article 70 (2);
21. Acceptance of the report on the installation and modification of the non-point sources of pollution under Article 53 (1) of the Act and the acknowledgement as to whether the standards for permissible discharge have been exceeded under Article 74;
22. Issuance of orders for the implementation of plans for reduction of non-point pollution or for the installation or improvement of the reduction facilities for non-point pollution under Article 53 (5) of the Act, the acceptance of applications for extension of orders for

implementation, etc. under Article 75 (2), the acceptance of reports on implementation and the confirmation on the state of implementation under paragraphs (3) and (4) of the said Article;

23. Issuance of orders for report, request for submission of data, entrance and exit, collection and inspections under Article 68 (1) 2 and 3 of the Act;

24. Hearings on the delegated authority among those falling under any subparagraph of Article 72 of the Act;

25. Imposition and collection of administrative fines under Article 82 (1) 5 and (2) 3 through 5 of the Act (limited to persons stipulated in Article 68 (1) 2 and 3 of the Act);

26. Receipt and confirmation of improvement plans and improvement completion reports, requests for inspection of pollution levels, and acceptance of applications for extension of period of improvement under Article 40 (limited to cases of improving wastewater terminal treatment facilities and public sewage disposal facilities.).

(3) The Minister of Environment shall delegate his/her authority over the installation of measuring networks, regular measurement of the level of water pollution, and investigation of the current status of water quality and aquatic ecosystems, and healthiness of aquatic ecosystems under Article 9 (1) of the Act to the president of the National Institute of Environmental Research pursuant to Article 74 (1) of the Act. <Newly Inserted by Presidential Decree No. 25127, Jan. 28, 2014>

Article 82 (Supervision, etc. following Delegation of Authority)(1) Where it is deemed particularly necessary for proper management of water pollution affecting a wide area, the Minister of Environment may check or confirm, or may have the head of a river basin environmental office or the head of a regional environmental office check or confirm, whether there are any such violations of statutes under any subparagraph of Article 81 (1).

(2) Where the Minister of Environment, or the head of a river basin environmental office or the head of a regional environmental office has discovered any instances of violation of statutes with regard to a place of business as a result of checks and confirmations as provided for in paragraph (1), he/she shall notify the competent Mayor/Do Governor of what he/she has discovered and what measures he/she considers should be taken under such circumstances.

(3) The Mayor/Do Governor who has been notified in accordance with paragraph (2) shall take necessary measures, and then, report to or notify the results of the measures taken to the Minister of Environment, the head of a river basin environmental office, or the head of a regional environmental office.

Article 83 (Reports)(1) Where the Mayor/Do Governor, the head of a river basin environmental office, or the head of a regional environmental office performs business entrusted in accordance with Article 74 (1) of the Act, he/she shall report the details thereof to the Minister of Environment as prescribed by Ordinance of the Ministry of Environment.

(2) When the Mayor/Do Governor has issued an order for suspension of operations, revocation of permission, or order for closure in accordance with Articles 40 and 42 of the

Act, he/she shall report, without delay, such fact to the Minister of Environment and the head of the relevant central administrative agency.

Article 84 (Entrustment of Business)(1) The Minister of Environment or the Mayor/Do Governor may entrust the training of environmental engineers and the collection of expenses under Article 67 of the Act to the president of the Korea Environmental Preservation Association under Article 59 of the Framework Act on Environmental Policy in accordance with Article 74 (2) of the Act. <Amended by Presidential Decree No. 23967, Jul. 20, 2012>

(2) The Minister of Environment or the Mayor/Do Governor shall entrust business regarding the installation of automatic measuring networks among measuring networks and regular measurement under Article 9 of the Act and business regarding the operation of computer networks and the technological support for the business entity under Article 38-5 of the Act, appropriateness of gauges under Article 35 (3), and acceptance of statements on the grounds of improvement under the proviso to Article 40 (1) in accordance with Article 74 (2) of the Act, to the CEO of the Korea Environment Corporation established under the Korea Environment Corporation Act. <Amended by Presidential Decree No. 21904, Dec. 24, 2009; Presidential Decree No. 23520, Jan. 17, 2012>

(3) Where the president of the Korea Environmental Preservation Association and CEO of the Korea Environment Corporation perform the business entrusted pursuant to paragraph (1) or (2), they shall report the details thereof to the Minister of Environment or the Mayor/Do Governor, as prescribed by Ordinance of the Ministry of Environment. <Amended by Presidential Decree No. 21904, Dec. 24, 2009>

Article 84-2 (Re-Examination of Regulation)

The Minister of Environment shall examine the appropriateness of the following matters every three years from each base date specified in the following (referring to the period that ends on the day before the base date of every third year) and shall take measures for improvement, etc.:

1. The range, etc. of wastewater discharge facilities subject to permission for and reporting of installation under Article 31: January 1, 2014;
2. Areas where the installation of discharge facilities under Article 32 is restricted: January 1, 2014;
3. Reporting of the appointment and criteria for qualification of environmental engineers under Article 59 and attached Table 17: January 1, 2014;
4. Reporting of non-point source of pollution, business entities eligible for exemption from the installation of non-point source pollution reduction facilities, the period for issuing orders to implement a non-point source pollution reduction plan, or install or improve non-point source pollution reduction facilities under Articles 72 through 75: January 1, 2104.

[This Article Newly Inserted by Presidential Decree No. 25050, Dec. 30, 2013]

CHAPTER VIII PENALTY PROVISIONS

Article 85 (Standards for Imposition of Administrative Fines)

The standards for imposition of administrative fines under Article 82 of the Act shall be as

specified in attached Table 18.

[This Article Wholly Amended by Presidential Decree No. 22051, Feb. 18, 2010]

ADDENDA (Omitted)

34. Act on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal

[Enforcement Date 26. Oct, 2011.] [Act No.10911, 25. Jul, 2011., Amendment by Other Act]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to prevent any environmental pollution caused by the transboundary movement of wastes and to improve international cooperation by controlling the export, import, and inland transit (hereinafter referred to as "export, import, etc.") of wastes for the purposes of implementing the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal and bilateral, multilateral or regional agreements based on the same Convention. <Amended by Act No. 5391, Aug. 28, 1997>

Article 2 (Definitions)

For the purposes of this Act, <Amended by Act No. 5391, Aug. 28, 1997>

1. the term "wastes" means wastes referred to in the Annexes, etc. of the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal (hereinafter referred to as the "Convention") and substances which are determined as necessary for the regulation of export and import by bilateral, multilateral or regional agreements referred to in Article 11 of the Convention, and determined by Presidential Decree;
2. the term "parties to the Convention" means countries or international organizations which have acceded to the Convention; and
3. the term "movement documents" means any document specifying information to be included in the notification as prescribed in the Annexes to the Convention.

Article 3 (Scope of Application)(1) This Act shall not apply to radioactive substances prescribed in the Nuclear Safety Act and substances contaminated thereby. <Amended by Act No. 10911, Jul. 25, 2011>

(2) This Act shall not apply to wastes discharged in sea areas pursuant to the Marine Environment Management Act, and wastes discharged as a result of the navigation of ships. <Amended by Act No. 8260, Jan. 19, 2007>

Article 4 (Obligations of State)(1) The State shall recognize the possibility of harm inflicted on human health and the environment by transboundary movement of wastes, and adopt a proper policy to control and manage the export, import, etc. of wastes for the health of citizens and the prevention of environmental pollution.

(2) The State shall cooperate with parties to the Convention, etc. to develop technology, collect, utilize, and disseminate information, establish a management system, etc. for the

proper control of wastes.

(3) The State shall provide assistance to the development, transfer, etc. of technology related to wastes.

Article 5 (Obligations of Exporters, Importers, etc. of Wastes)(1) No person who exports, imports, transports, or disposes of wastes shall cause any danger or injury to the environment and human health due to the export, import, etc. of wastes, and such person shall, to this end, make positive efforts for the development of techniques and mutual exchange of information.

(2) If any danger or injury to the environment and human health is caused by the export, import, etc. of wastes, the person who exports, imports, transports, or disposes of wastes, shall take all measures necessary for the removal thereof.

CHAPTER II CONTROL AND MANAGEMENT OF EXPORTS, IMPORTS, ETC. OF WASTES

Article 6 (Permission for Exports of Wastes)(1) Any person who desires to export wastes shall obtain permission from the Minister of Environment as prescribed by Presidential Decree. The same shall also apply to cases where he/she desires to amend permitted matters. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

(2) The Minister of Environment may, if any person applies for permission on the export of wastes referred to in the provision of paragraph (1) or applies for amendment of permitted matters, grant permission thereon only when such case falls under any of the following subparagraphs: <Newly Inserted by Act No. 8470, May 17, 2007>

1. When no technology or facilities are available domestically to treat such wastes in a sound and proper manner; and

2. When such wastes are needed as raw materials for recycling industries of the state of import.

(3) If the Minister of Environment intends to grant an export permit as referred to in paragraph (2), he/she shall obtain the consent of the state of import and state of transit of wastes which he/she desires to export: Provided, That in cases where it is determined by Presidential Decree, he/she may grant permission without obtaining such consent. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001; Act No. 8470, May 17, 2007>

(4) In granting the permission under paragraph (2), the Minister of Environment may attach any condition necessary to such permission. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001; Act No. 8470, May 17, 2007>

(5) If wastes of the same physical and chemical properties are exported to the same person through the same domestic customshouse and the same customshouse of state of import, the Minister of Environment may permit such export with a period fixed within the limit of twelve months. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

Article 7 (Preparation, etc. of Export Movement Documents)(1) A person who is granted permission for the export of wastes (including permission for amendments; hereinafter the same shall apply) under Article 6 (1) shall prepare movement documents with respect to the export wastes (hereinafter referred to as "export movement documents") as prescribed by Presidential Decree. The same shall also apply to an amendment to the details of such export movement documents.

(2) Where a person who is granted permission for the export of wastes ceases to export such wastes, he/she shall report to the Minister of Environment with the export movement documents on the wastes as prescribed by Presidential Decree. <Amended by Act No. 6361, Jan. 16, 2001>

(3) Deleted. <by Act No. 6361, Jan. 16, 2001>

[This Article Wholly Amended by Act No. 5872, Feb. 8, 1999]

Article 8 (Transportation of Export Wastes)(1) A person who transports export wastes shall carry with himself/ herself the export movement documents with respect to such wastes and in cases where he/she delivers them, he/she shall enter in such documents the date of delivery and other matters prescribed by Presidential Decree and sign thereon.

(2) A person who transports export wastes shall observe the terms entered in the export movement documents: Provided, That the same shall not apply to cases where he/she carries them in according to an order to carry-in issued under Article 20 (1).

Article 9 Deleted. <by Act No. 5872, Feb. 8, 1999>

Article 10 (Permission on Import of Wastes)(1) Any person who desires to import wastes shall obtain permission from the Minister of Environment as prescribed by Presidential Decree. The same shall also apply to cases where he/she desires to amend permitted matters. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

(2) The Minister of Environment may, if any person applies for permission on the import of wastes referred to in the provisions of paragraph (1) or applies for amendment of permitted matters, grant permission thereon only when such case falls under any of the following subparagraphs: <Newly Inserted by Act No. 8470, May 17, 2007>

1. When the technology and facilities necessary to treat such wastes in a sound and proper manner are available; and

2. When such wastes are used as raw materials for recycling industries.

(3) In granting permission on import as referred to in paragraph (2), the Minister of Environment shall not grant such permission if the competent authority of the state of export does not make any request for the consent to the import of wastes: Provided, That the same shall not apply in cases where they are not provided for as wastes subject to control of transboundary movements pursuant to Acts and subordinate statutes of the state of export. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001; Act No. 8470, May 17, 2007>

(4) When the competent authority of the state of export has made a request for consent to

the import of wastes, the Minister of Environment shall decide whether or not he/she consents to the import of wastes and notify the state of export. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

(5) The Minister of Environment may, upon granting permission under paragraph (2), attach necessary conditions thereto. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001; Act No. 8470, May 17, 2007>

(6) If the same person imports wastes of the same physical or chemical properties through the same customhouse of the state of export and the same customhouse in Korea, the Minister of Environment may permit it with a period fixed within the limit of 12 months. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

Article 11 (Preparation of Import Movement Documents)

Any person who has obtained permission for the import of wastes (including permission for amendments; hereinafter the same shall apply) under Article 10 (1) shall, if the wastes are imported into the Republic of Korea, prepare movement documents with respect to the imported wastes (hereinafter referred to as "import movement documents") under the conditions determined by Presidential Decree. The same shall also apply to an amendment to the details of import movement documents.

[This Article Wholly Amended by Act No. 5872, Feb. 8, 1999]

Article 11-2 (Handover and Takeover of Imported Wastes, etc.)(1) Any person who has obtained permission for the import of wastes under Article 10 (1) or transports or disposes of imported wastes under Article 12 (1) shall enter the matters concerning handover and takeover of the imported wastes into an electronic information processing program as referred to in the Article 11-3 whenever the wastes are imported, transported or disposed of. (2) Matters necessary for the details, method, timing, etc. to be entered into an electronic information processing program under paragraph (1) shall be prescribed by Presidential Decree.

[This Article Newly Inserted by Act No. 10153, Mar. 22, 2010]

Article 11-3 (Electronic Processing of Details, etc. on Handover and Takeover of Imported Wastes)(1) The Minister of Environment shall set up and operate an electronic information processing program capable of processing information on the details, etc. of handover and takeover of imported wastes (hereinafter referred to as "electronic information processing program").

(2) The Minister of Environment may collect from the user of the electronic information processing program all or part of the cost for use of the program.

(3) Where a person, etc. who intends to import wastes enters details of his/her duties prescribed by Presidential Decree, such as reporting, etc. using the electronic information processing program, he/she shall be deemed fulfilled the relevant duties.

(4) The Minister of Environment shall keep the details of handover and takeover of the imported wastes entered into the electronic information processing program for three years.

[This Article Newly Inserted by Act No. 10153, Mar. 22, 2010]

Article 12 (Transportation or Disposal of Imported Wastes)(1) Any person who transports or disposes of imported wastes shall carry with him/her import movement documents and movement documents issued in accordance with the Acts and subordinate statutes of the State of export (limited to imported wastes prescribed by the Acts and subordinate statutes of the State of export as wastes subject to the control of transboundary movement; hereinafter referred to as "movement documents issued by the State of export") and printed documents related to the details of handover and takeover as referred to in Article 11-2 (1), and where he/she delivers the import wastes, he/she shall enter the date of delivery and other matters prescribed by Presidential Decree in the import movement documents and sign thereon. <Amended by Act No. 5872, Feb. 8, 1999; Act No. 10153, Mar. 22, 2010>

(2) Any person who transports and disposes of imported wastes shall observe the terms stipulated in the relevant import movement documents: Provided, That this shall not apply where they are shipped out according to an order to ship them out under Article 20 (1).

Article 13 (Transfer, etc. of Imported Wastes)(1) If imported wastes are handed or taken over, the import movement documents and the movement documents issued by the state of export shall be delivered together therewith. <Amended by Act No. 5872, Feb. 8, 1999>

(2) Any person who has taken over imported wastes under paragraph (1) shall report to the Minister of Environment under the conditions prescribed by Presidential Decree. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

(3) Deleted. <by Act No. 6361, Jan. 16, 2001>

Article 14 (Notice of Results of Treatment of Imported Wastes, etc.)

Any person who has completed the treatment of imported wastes shall promptly furnish documents describing the receipt of the relevant wastes and the results of their treatment to the competent authority and the exporter thereof of the state of export and then submit the copy thereof to the Minister of Environment under the conditions prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 6361, Jan. 16, 2001]

Article 15 (Revocation of Permission on Export or Import of Wastes)(1) If a person who has obtained permission on the export or import of wastes falls under any of the following subparagraphs, the Minister of Environment may revoke his/her permission: <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001; Act No. 8470, May 17, 2007>

1. When he/she obtains permission by deceitful or other unlawful means;
2. When he/she fails to fulfill any condition provided for in Article 6 (4) or 10 (5);
3. When new information reveals that the export or import-permitted wastes may cause any environmental pollution not anticipated at the time the permission was granted;
4. When he/she fails to prepare an export movement document (including amending to the

details entered in such document) in violation of the provisions of Article 7 (1) or prepares such document falsely;

5. When he/she fails to observe the terms entered in an export movement document in violation of the provision of the main sentence of Article 8 (2);

6. When he/she fails to prepare an import movement document (including amending to the details entered in such document) in violation of the provisions of Article 11 or prepares such document falsely;

7. When he/she fails to observe the terms entered in an import movement document in violation of the provision of the main sentence of Article 12 (2);

8. When he/she violates the restrictions referred to in the provisions of Article 18 (1) or (2);

9. When he/she violates an order to ship in, etc. as provided for in Article 20 (1); and

10. When he/she refuses, obstructs or evades entrance and inspection referred to in the provisions of Article 22 (1).

(2) Deleted. <by Act No. 6361, Jan. 16, 2001>

Article 16 (Agreements, etc. on Transit of Wastes)(1) When the competent authority of a state of export makes a request for consent to transit export wastes through Korea, the Minister of Environment shall determine whether he/she consents to it and notify the state of export. <Amended by Act No. 5391, Aug. 28, 1997>

(2) When a person who desires to export wastes to another country passing through Korea does not obtain the consent referred to in paragraph (1), he/she may not pass the wastes through Korea.

Article 17 (Control over Exported or Imported Wastes)(1) Any person who desires to export or import wastes shall pack the wastes or apply marks to such wastes as prescribed by Presidential Decree.

(2) Except as otherwise provided for in this Act, the Wastes Control Act or the Act on the Promotion of Saving and Recycling of Resources shall apply to the transportation, keeping, disposal, recycling, etc. of exported or imported wastes.

Article 18 (Designation of Export or Import Port, etc.)(1) In granting permission on the export or import of wastes, the Minister of Environment may designate any shipment or loading and unloading port or restrict the shipment or loading and unloading zone after consulting with the Minister of Land, Transport and Maritime Affairs. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001; Act No. 8852, Feb. 29, 2008>

(2) In giving his/her consent to any transit of wastes through Korea, the Minister of Environment may restrict the transit port or area after consulting with the Minister of Land, Transport and Maritime Affairs. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 8852, Feb. 29, 2008>

Article 19 (Prohibition on Exports and Imports)(1) If there arises any cause to take any emergency measure for the environment and human health, the Minister of Environment may ban or limit any export or import of wastes for a fixed period of time as prescribed by

Presidential Decree. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

(2) Any wastes that are feared to pose dangers to human health and the environment shall be prohibited from being exported or imported. <Amended by Act No. 6361, Jan. 16, 2001>

(3) Any wastes shall be prohibited from being exported to any nation that lacks proper capacity to treat such wastes. <Newly Inserted by Act No. 6361, Jan. 16, 2001>

(4) The wastes and the nation referred to in paragraphs (2) and (3) shall be prescribed by Presidential Decree. <Newly Inserted by Act No. 6361, Jan. 16, 2001>

Article 20 (Order to Ship in, etc.)(1) If any person who has exported or imported wastes falls under any of the following subparagraphs, the Minister of Environment may order him to ship in or out the wastes for a fixed period of time, or order him to manage them by proper means: <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 5872, Feb. 8, 1999; Act No. 6361, Jan. 16, 2001; Act No. 8470, May 17, 2007>

1. When he/she exports or imports such wastes without obtaining permission as provided for in Article 6 (1) or 10 (1);

2. When he/she exports or imports such wastes without fulfilling the conditions provided for in Article 6 (4) or 10 (5);

3. When the contents of the request for consent to import by the state of export under Article 10 (4) do not agree with those of the movement documents issued by the state of export; and

4. When it is decided that the exported or imported wastes are remarkably dangerous enough to cause any environmental pollution not anticipated at the time permission was granted.

(2) When the heads of administrative agencies concerned find that a person who has exported or imported wastes falls under any subparagraph of paragraph (1), they may request the Minister of Environment to take any necessary measures, such as shipping in or out such wastes, etc. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

(3) The Minister of Environment shall, upon receiving a request referred to in paragraph (2), take proper measures thereon and notify the heads of administrative agencies concerned of the outcome of such measures. <Amended by Act No. 6361, Jan. 16, 2001>

Article 21 (Vicarious Execution)(1) If a person who has received an order under Article 20 (1) fails to carry out such order for the prescribed period, the Minister of Environment shall execute it vicariously under the conditions as prescribed by the Administrative Vicarious Execution Act, and the expenses for such execution may be collected from the person who has exported or imported such wastes. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

(2) Deleted. <by Act No. 6361, Jan. 16, 2001>

Article 21-2 (Recording and Keeping of Books)

A person falling under any of the following subparagraphs shall maintain the books, as

prescribed by Presidential Decree, record importation and exportation, transportation, disposal, etc. of wastes, and keep them for three years: Provided, That this shall not apply where the relevant matters have been entered into the electronic information processing program pursuant to Article 11-3 (1):

1. A person who has obtained permission for export under Article 6 (1);
2. A person who has obtained permission for import under Article 10 (1);
3. A person who has taken over imported wastes under Article 13 (1).

[This Article Newly Inserted by Act No. 10153, Mar. 22, 2010]

Article 22 (Reports, Inspections, etc.)(1) The Minister of Environment may require any of the following persons to file a report, or may request him/her to submit materials, or may have any related public official enter any office, business place, bonded area, etc. under Article 154 of the Customs Act to inspect the relevant documents, facilities, equipment, etc., as prescribed by Presidential Decree:

1. A person who has obtained permission for export under Article 6 (1);
2. A person who transports export wastes under Article 8 (1);
3. A person who has obtained permission for import under Article 10 (1);
4. A person who transports or disposes of imported wastes under Article 12 (1);
5. A person who has taken over imported wastes under Article 13 (1).

(2) Any public official who intends to conduct an inspection under paragraph (1) shall notify a business operator subject to the inspection of the inspection plan including date and time, purpose of inspection, matters to be inspected, etc. by not later than seven days before the inspection: Provided, That this shall not apply where it is deemed that the purpose of the inspection cannot be achieved if the notification is given in advance.

(3) Any public official who enters to conduct an inspection under paragraph (1) shall carry a certificate indicating his/her authority and produce it to the related persons.

[This Article Wholly Amended by Act No. 10153, Mar. 22, 2010]

CHAPTER III SUPPLEMENTARY PROVISIONS

Article 23 (Fees)(1) Any person who desires to obtain permission on export prescribed in Article 6 (1), or permission on import prescribed in Article 10 (1), shall pay a fee.

(2) The calculation, payment method, and procedure of the fee as referred to in paragraph (1) and other necessary matters shall be determined by Presidential Decree.

(3) The fee collected under paragraph (1) shall be paid to the revenue of the special accounts on environment improvement under the Framework Act on Environmental Policy. <Amended by Act No. 4714, Jan. 5, 1994; Act No. 10893, Jul. 21, 2011>

Article 24 (Cooperation with Related Agency)

If it is deemed necessary for attaining the purpose of this Act, the Minister of Environment may request the head of any related administrative agency to furnish necessary materials. In this case, the head of the related administrative agency shall comply with such request unless justifiable grounds exist that make it impossible to do so. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

Article 25 (Designation of Competent Authority, etc.)

For the purpose of fulfilling the contents of the Convention, the Government shall designate the competent authority and liaison officer and notify the Secretariat of the Convention.

Article 26 Deleted. <by Act No. 5453, Dec. 13, 1997>

Article 27 (Delegation and Consignment)(1) The authority of the Minister of Environment vested under this Act may be delegated partially to the head of any agency under his/her jurisdiction or to the head of any related administrative agency, or may be consigned to any corporation or organization as prescribed by Presidential Decree. <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

(2) The Minister of Environment may order any person to whom authority is delegated or entrusted to make a necessary report on the affairs delegated or entrusted under paragraph (1). <Amended by Act No. 5391, Aug. 28, 1997; Act No. 5529, Feb. 28, 1998; Act No. 6361, Jan. 16, 2001>

CHAPTER IV PENAL PROVISIONS

Article 28 (Penal Provisions)

Any person who falls under any of the following subparagraphs shall be punished by imprisonment for not more than five years or a fine not exceeding 30 million won:

1. A person who exports or imports wastes without obtaining permission under Article 6 (1), or 10 (1); or
2. A person who violates an order issued under Article 20 (1).

Article 29 (Penal Provisions)

Any person who falls under any of the following subparagraphs shall be punished by imprisonment for not more than three years or a fine not exceeding 10 million won: <Amended by Act No. 5872, Feb. 8, 1999>

1. A person who fails to prepare or falsifies export movement documents (including the changed export movement documents) in contravention of the provisions of Article 7 (1);
2. A person who fails to observe the contents described in the export movement documents in contravention of the provisions of the text of Article 8 (2);
3. A person who fails to prepare or falsifies import movement documents (including the changed import movement documents) in contravention of the provisions of Article 11; and
4. A person who fails to observe the contents described in the import movement documents in contravention of the provisions of the text of Article 12 (2).

Article 30 (Penal Provisions)

Any person who falls under any of the following subparagraphs shall be punished by imprisonment for not more than one year or a fine not exceeding five million won:

1. A person who violates the restriction as prescribed in Article 18 (1) and (2); and
2. A person who refuses, interferes with, or avoids any entry or inspection as prescribed in Article 22 (1).

Article 31 (Joint Penal Provisions)

Where a representative of a juristic person, or an agent, employee or any other servant of a

juristic person or individual commits an offense under Articles 28 through 30 in connection with the business of the juristic person or individual, in addition to the punishment of such offender, the juristic person or individual shall be punished by a fine under each relevant provisions: Provided, That where such juristic person or individual has not been negligent in giving due attention and supervision concerning the relevant duties to prevent such offense, this shall not apply.

[This Article Wholly Amended by Act No. 10153, Mar. 22, 2010]

Article 32 (Fines for Negligence)(1) A person who fails to enter the matters regarding handover and takeover of imported wastes to the electronic information processing program or enters such matters by false or other unlawful means in contravention of Article 11-2 (1) shall be punished by a fine for negligence not exceeding three million won.

(2) A person who falls under any of the following subparagraphs shall be punished by a fine for negligence not exceeding one million:

1. A person who fails to file a report, in contravention of Article 7 (2) or 13 (2);
2. A person who fails to carry with him/her the export movement documents or to enter pertinent matters in the said documents or sign thereon, in contravention of Article 8 (1);
3. A person who fails to carry with him/her import movement documents or movement documents issued by the State of export or to enter the pertinent matters in the said documents or sign thereon, in contravention Article 12 (1);
4. A person who fails to furnish the document describing the receipt of imported wastes and the results of their disposal to the competent authority of the State of export and the exporter, or to submit the copy thereof to the Minister of Environment;
5. A person who fails to pack, attach marks on exported or imported wastes, etc. in contravention of Article 17 (1);
6. A person who fails to make a record of the books or keep them as prescribed in Article 21-2, or who makes a false record thereof;
7. A person who fails to file a report or present materials as prescribed in Article 22 (1), or who files a false report or presents false materials.

(3) Fines for negligence under paragraphs (1) and (2) shall be imposed and collected by the Minister of Environment, as prescribed by Presidential Decree.

[This Article Wholly Amended by Act No. 10153, Mar. 22, 2010]

ADDENDA (Omitted)

35. Enforcement Decree of the Act on the Control of Transboundary Movement of Hazardous Wastes And Their Disposal

[Enforcement Date 31. Dec, 2008.] [Presidential Decree No.21215, 31. Dec, 2008., Amendment by Other Act]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Decree is to provide for matters delegated by the Act on the Control of

Transboundary Movement of Hazardous Wastes and Their Disposal and matters necessary for enforcement thereof. <Amended by Presidential Decree No. 20387, Nov. 15, 2007>

Article 2 (Types of Wastes)

(1) “Wastes specified by Presidential Decree” in subparagraph 1 of Article 2 of the Act on the Control of Transboundary Movement of Hazardous Wastes and Their Disposal (hereinafter referred to as the “ Act ”) means wastes falling under the following subparagraphs: <Amended by Presidential Decree No. 17307, Jul. 16, 2001; Presidential Decree No. 20387, Nov. 15, 2007>

1. Wastes, which are described in the Annex I or VIII of the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal (hereinafter referred to as the “ Convention ”) and which are hazardous as prescribed in the Annex III; 1-2. Wastes described in the Annex II of the Convention; and
2. Wastes on which the Republic of Korea reports to, or is reported from the Secretariat of the Convention under Articles 3 (1) through (3) and 11 of the Convention.

(2) The waste items under the subparagraphs of paragraph (1) shall be announced by the Minister of Environment after consultation with the Minister of Knowledge Economy. <Amended by Presidential Decree No. 20387, Nov. 15, 2007; Presidential Decree No. 20680, Feb. 29, 2008>

CHAPTER II CONTROL AND MANAGEMENT OF EXPORTS, IMPORTS, ETC. OF WASTES

Article 3 (Waste Export Licenses)

(1) Any person who intends to obtain a waste export license under Article 6 (1) of the Act shall submit to the Minister of Environment an application for the waste export license on annexed Form No. 1, together with the following documents: <Amended by Presidential Decree No. 14450, Dec. 23, 1994; Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001; Presidential Decree No. 20387, Nov. 15, 2007>

1. The export contract, or the order sheet stating that the wastes concerned are managed in an environmentally sound manner and the export price is the free on board (F.O.B.) price;
2. The domestic transportation contract specifying the routes and means of transportation, and the name of transporter of exported wastes;
3. In cases of wastes notified by the Minister of Environment in accordance with Article 2 (2), the test record on exported wastes issued by an agency which is authorized and notified by the Minister of Environment;
4. In cases where the export is carried out through an agent, documents supporting traffic with the generator of the wastes, such as an export agency contract;
5. In cases of the exports under Article 6 (5) of the Act, (hereinafter referred to as “package export”), a plan for the package export, in which the export volume is recorded by the customs office at the port of entry for the exported wastes, by the expected date of export or by the expected month of export;

6. The payment receipt of waste export license fee under Article 20 (2) of the Act; and
7. An insurance policy or other guarantee under Article 6 (11) of the Convention, if a state of import or transit demands it.

(2) The Minister of Environment shall, if he concludes that details of an application for an export license are appropriate, seek an agreement with respect to import or transit from the competent authority for the state of import or transit within 7 days from the date of the receipt of such application. <Amended by Presidential Decree No. 17307, Jul. 16, 2001>

(3) Where any person who intends to export wastes (including any export agent) submits a written agreement issued by the state of import or transit with respect to the import or transit thereof, the Minister of Environment shall not seek the agreement of paragraph (1). <Amended by Presidential Decree No. 17307, Jul. 16, 2001>

(4) Deleted. <by Presidential Decree No. 17307, Jul. 16, 2001>

(5) “Cases where it is determined by Presidential Decree” in the proviso to Article 6 (3) of the Act means cases falling under any of the following subparagraphs: <Newly Inserted by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 16406, Jun. 21, 1999; Presidential Decree No. 20387, Nov. 15, 2007>

1. Where it is subject to the consent of a state of transit, and no response has been made by the state of transit within 60 days (if the state of transit has acceded to the Convention under Article 11 of the Convention, within thirty days) from the date on which the Republic of Korea has been notified by the state of transit of the receipt of a request for consent of transit. In this case, where no notification of receipt has been made by the state of transit to the Republic of Korea within thirty days after a request for the consent of transit was made, the date on which thirty days have passed since the first request for the consent of transit was made shall be deemed the date of notification of such receipt; and

2. Where wastes referred to in Article 2 (2) are subject to the consent of a state which has acceded to the Convention under Article 11 of the Convention, and no response has been made by a state of import within thirty days from the date on which the Republic of Korea has been notified by the state of import of the receipt of a request for the consent of import. In this case, where no notification of receipt has been made by the state of import to the Republic of Korea within thirty days after a request for the consent of import was made, the date on which thirty days have passed since the first request for the consent of import was made shall be deemed the date of notification of the receipt.

(6) The Minister of Environment shall issue an export license of wastes on annexed Form No. 1 within five days in cases falling under any of the following subparagraphs: <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

1. Where he has received a written consent for import or transit from the state of import or transit;

2. Where he has not made a request for the consent pursuant to paragraph (3); and

3. Where no consent of the state of import or transit referred to in paragraph (5) has been

given.

Article 4 (Change in Waste Export License)

(1) Matters whose change shall require a license, from among matters for which the waste export license has been granted, under the latter part of Article 6 (1) of the Act, shall be as follows:

1. Change of the exporter or the importer;
2. Change of the name, physical characteristics, and chemical composition of wastes;
3. Change of the quantity of exported wastes;
4. Change of waste disposal or recycling method, or the place for disposal; and
5. Change of the customs office or the competent authority for state of import or transit.

(2) A person who desires to amend the details of the waste export license for the reason stated under any subparagraph of paragraph (1), shall submit the application for amendments to waste export license on annexed Form No. 1, accompanied by the following documents to the Minister of Environment: <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

1. Original of waste export license; and
2. Documents supporting the amended details.

(3) Where the Minister of Environment receives an application for amendment of waste export license pursuant to paragraph (2), he shall issue a license for amendment of waste export license in annexed Form No. 1 pursuant to Article 3 (2), (3) and (5). <Newly Inserted by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

Article 5 (Preparation, etc. of Export Movement Documents)

(1) Export movement documents under Article 7 (1) of the Act shall be in annexed Form No. 2.

(2) Reports under Article 7 (2) of the Act shall be made in accordance with annexed Form No. 3. <Amended by Presidential Decree No. 16406, Jun. 21, 1999>

(3) Deleted. <by Presidential Decree No. 16406, Jun. 21, 1999>

Article 6 (Records, etc. of Export Movement Documents)

“Other matters determined by Presidential Decree” in Article 8 (1) of the Act, where exported wastes concerned are domestically transferred to others, means:

1. The name of a transferor and a business name, representative’s name, address, and telephone number of a transferee or carrier; and
2. The quantity, kind and means of transportation and place for the exchange of the transferred wastes.

Article 7 Deleted. <by Presidential Decree No. 16406, Jun. 21, 1999>

Article 8 Deleted. <by Presidential Decree No. 16406, Jun. 21, 1999>

Article 9 (Waste Import Licenses)

(1) A person who intends to obtain a waste import license pursuant to Article 10 (1) of the

Act shall submit to the Minister of Environment an application for a waste import license in annexed Form No. 4, together with the following documents: <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001; Presidential Decree No. 20387, Nov. 15, 2007>

1. The import contract or the order sheet stating that the wastes concerned are managed in an environmentally sound manner and the import price is the cost, insurance and freight (C.I.F.) price;

2. Any document specifying the special features, use and purposes of the imported wastes;

3. The domestic transportation contract specifying the routes and means of transportation, and the name of carrier of the imported wastes;

4. In cases of imports pursuant to Article 10 (6) of the Act (hereinafter referred to as “package import”), the package import plan in which the import volume is recorded by the customs office at the port of entry for the imported wastes, by the expected date of import, or by the expected month of import;

5. Payment receipt of the waste import license fee under Article 20 (2);

6. Plans for disposing of or recycling imported wastes (copies of a license for the business of disposing of wastes or a certificate of completed report filed for recycling wastes shall accompany it);

7. and 8. Deleted; <Presidential Decree No. 17307, Jul. 16, 2001>

9. In cases where the import is carried out through an agent, the import agency contract; and

10. Any insurance policy, or other guarantee under Article 6 (11) of the Convention.

(2) In cases where the Minister of Environment receives a request for agreement with respect to the import of wastes from the competent authority for state of export in accordance with the provisions of Article 10 (3) of the Act, he shall serve a notice with respect to such agreement, conditional agreement, disapproval, or request for additional information on the competent authority for such state of export within 10 days from the date of the receipt of such request. <Amended by Presidential Decree No. 14450, Dec. 23, 1994; Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 15965, Dec. 31, 1998; Presidential Decree No. 17307, Jul. 16, 2001; Presidential Decree No. 20387, Nov. 15, 2007>

(3) and (4) Deleted. <by Presidential Decree No. 17307, Jul. 16, 2001>

(5) In cases where the Minister of Environment notifies the competent authority for state of export of the consent for import under paragraph (2), he shall issue, without delay, an import license in annexed Form No. 4 to the applicant of such import license. <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

Article 10 (Deemed Requests for Waste Import Consents)

In granting a waste import license in accordance with Article 10 (1) of the Act, if producers or exporters of the wastes concerned request the waste import consent through the

competent authority for state of export, the Minister of Environment shall deem that he has been requested to grant the waste import consent from the competent authority for state of export of wastes concerned in accordance with Article 10 (3) of the Act. <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 16406, Jun. 21, 1999; Presidential Decree No. 17307, Jul. 16, 2001; Presidential Decree No. 20387, Nov. 15, 2007>

Article 11 (Change in Waste Import Licenses)

(1) Matters whose change requires a license, from among matters for which the waste import license has been granted, under the latter part of Article 10 (1) of the Act, shall be as follows:

1. Change of the importer or the exporter;
2. Change of the name, physical state and chemical composition of wastes;
3. Change of the quantity of wastes whose importation has been scheduled;
4. Change of waste disposal or recycling method, or the place for disposal;
5. Change of the domestic customs offices at the port of entry or the domestic port of destination; and
6. Change of the customs office or the competent authority for state of import or state of transit.

(2) Any person who desires to change the waste import license for the reasons under any subparagraph of paragraph (1), shall submit to the Minister of Environment an application for change of waste import license in annexed Form No. 4, accompanied by the following documents: <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 16406, Jun. 21, 1999; Presidential Decree No. 17307, Jul. 16, 2001>

1. Original of waste import license; and
2. Documents supporting the amended details.

(3) Where the Minister of Environment receives an application for amendments to waste import license pursuant to paragraph (2), he shall issue a license for amendments to waste import in annexed Form No. 4 pursuant to Article 9 (2) and (5). <Newly Inserted by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 16406, Jun. 21, 1999; Presidential Decree No. 17307, Jul. 16, 2001>

Article 12 (Preparation, etc. of Import Movement Documents)

(1) Import movement documents under Article 11 of the Act shall be in the format shown in annexed Form No. 5.

(2) Import movement documents under paragraph (1) shall be prepared at the time when the imported wastes are recognized as domestic articles and are then carried out of a bonded area under Article 154 of the Customs Act (including a place outside the boundary of a bonded area for which permission for storage is granted under Article 156 of the same Act) or a free trade zone under subparagraph 1 of Article 2 of the Act on the Designation and Management of Free Trade Zones. <Amended by Presidential Decree No. 17048, Dec. 29, 2000; Presidential Decree No. 17307, Jul. 16, 2001; Presidential Decree No. 20387, Nov. 15, 2007>

[This Article Wholly Amended by Presidential Decree No. 16406, Jun. 21, 1999]

Article 13 (Records, etc. of Import Movement Documents)

“Other matters determined by Presidential Decree” in Article 12 (1) of the Act means:

1. The name of a transferor and a business name, representative’s name, address, and telephone number of a transferee or carrier; and
2. The quantity, type, means of transportation, and place for the exchange of the transferred wastes.

Article 14 (Reports, etc. on Imported Waste Transfer)

(1) Any person to whom imported wastes have been transferred under Article 13 (1) of the Act shall submit to the Minister of Environment, within five days from the date he takes them over, a report on the imported waste transfer in annexed Form No. 6, together with the following: <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 16406, Jun. 21, 1999; Presidential Decree No. 17307, Jul. 16, 2001>

1. A copy of transfer contract for the wastes concerned; and
2. A plan on use or disposal of the wastes concerned.

(2) The Minister of Environment shall, when he receives a report on imported waste transfer under paragraph (1), issue a certificate of completed report on imported waste transfer in annexed Form No. 6 within 5 days from the date he has received such report. <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 16406, Jun. 21, 1999; Presidential Decree No. 17307, Jul. 16, 2001>

Article 15 (Notice of Results of Disposal of Imported Wastes, etc.)

Any person who completes the disposal of imported wastes under Article 14 of the Act shall serve a notice prepared in annexed Form No. 7 with respect to the receipt of the relevant wastes and the results of their disposal on the competent authority for state of export and the exporter, and submit a copy thereof to the Minister of Environment within ten days from the date of completion of such disposal.

[This Article Wholly Amended by Presidential Decree No. 17307, Jul. 16, 2001]

Article 16 Deleted. <by Presidential Decree No. 15965, Dec. 31, 1998>

Article 17 (Method of Packing and Attaching Marks)

The method of packing wastes or the method of attaching marks to such packaging in accordance with Article 17 (1) of the Act, except as provided for by other Acts and subordinate statutes, such as the Ship Safety Act and the Aviation Act, shall be in accordance with the standards in the attached Table. <Amended by Presidential Decree No. 20387, Nov. 15, 2007>

Article 18 (Prohibitions on Exports and Imports, etc.)

(1) The Minister of Environment shall, when he intends to take steps to prohibit or limit the export and import of wastes in accordance with Article 19 (1) of the Act, publish lists of prohibited or limited items, means of prohibiting or limiting them and the term of the prohibition or limitation thereon. <Amended by Presidential Decree No. 14450, Dec. 23, 1994; Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb.

28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

(2) Wastes prohibited from being imported under Article 19 (2) and (4) of the Act shall be the hazardous wastes, threatening to cause serious damages to human health or environment, that the Minister of Environment publishes after judging that their recycling and proper disposal are impossible domestically and making consultations thereon with the Minister of Knowledge Economy. <Amended by Presidential Decree No. 17307, Jul. 16, 2001; Presidential Decree No. 20680, Feb. 29, 2008>

(3) Deleted. <by Presidential Decree No. 17307, Jul. 16, 2001>

Article 18-2 (Nations to which Exports of Wastes are Prohibited)

Wastes shall be prohibited from being exported to any nation in accordance with Article 19 (3) and (4) of the Act with the exception of nations falling under each of the following subparagraphs:

1. Signatories to bilateral, multilateral or regional agreements under Article 11 of the Convention; and
2. The member nations of the Organization for Economic Cooperation and Development, the member nations of the European Union, and Liechtenstein.

[This Article Newly Inserted by Presidential Decree No. 17307, Jul. 16, 2001]

Article 19 (Report, etc.)

(1) The following person who has exported, imported or has taken over wastes shall submit the following report to the Minister of Environment within 15 days from the end of every half term: <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

1. Any person who has obtained the export license under Article 6 (1) of the Act: a report on the result pertaining to exported wastes in annexed Form No. 8;
2. Any person who has obtained the import license under Article 10 (1) of the Act: a report on the result pertaining to the disposal of imported wastes in annexed Form No. 10; and
3. Any person who has taken over imported wastes under Article 13 (1) of the Act: a report on the result pertaining to the disposal of transferred and imported wastes in annexed Form No. 10.

(2) Deleted. <by Presidential Decree No. 17307, Jul. 16, 2001>

CHAPTER III SUPPLEMENTARY PROVISIONS

Article 20 (Calculation Method, etc. of Fees)

(1) Pursuant to Article 23 (2) of the Act, a waste export or import license fee (hereinafter referred to as the “export/import license fee”) shall be calculated by the following methods: Provided, That the amount less than 1,000 won is excluded from the amount for the calculation and, in case where the standard amount is described in a foreign currency, the calculation shall be made by applying the exchange rate at the time of payment: <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

1. For export:

the free on board (F.O.B) price of the wastes concerned $\times 1 \div 1,000$;

2. For import:

the cost, insurance, and freight (C.I.F) price of the wastes concerned $\times 1 \div 1,000$; and

3. In case where the C.I.F price or the F.O.B price is unknown:

disposal expenses of the pertinent wastes determined by the Minister of Environment $\times 1 \div 1,000$.

(2) Any person who desires to export or import wastes (hereinafter referred to as the “importer/exporter”), after calculating the export/import license fee under paragraph (1), shall submit a statement of payment for the waste export/import license fee in the annexed Form No. 11, to a bank which deals with foreign exchanges, and submit the payment receipt to the Minister of Environment when he applies for the export/import license for the wastes concerned. <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

(3) The Minister of Environment, concerning the package export or the package import, may allow an exporter/importer to pay the export/import license fee for the wastes concerned each time the export or the import has taken place until the total amount of the export/import license fee is paid, or he may allow him to pay the total amount by installment as determined and notified by the Minister of Environment. <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

Article 21 (Refund of Fees)

(1) The Minister of Environment shall, in case where he has received the application for the waste export or import license under Article 3 or 9, but does not permit the waste export or import, or where the exporter or the importer does not export or import the pertinent wastes for which the license has been granted, or where the exporter or the importer has made an over-payment for the fee by mistake, refund the whole or part of the export/import license fee already paid. <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

(2) Any person who intends to get refund of the export/import license fee under paragraph (1), shall submit to the Minister of Environment the application for the refund of the export/import license fee in annexed Form No. 12, together with: <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

1. the waste export or import license (except in case where the license has not been granted);
2. the waste export or import movement document (except in case where the license has not been granted); and

3. the payment receipt of waste export or import license fee.

(3) When the Minister of Environment receives an application for the refund of waste export/import license fees under paragraph (2), he shall serve on the applicant a statement of decision for the refund of the waste export/import license fees, prepared according to

annexed Form No. 12 within 7 days from the date of the receipt of such application and shall refund such fees to him. <Amended by Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 16406, Jun. 21, 1999; Presidential Decree No. 17307, Jul. 16, 2001>

(4) Deleted. <by Presidential Decree No. 17307, Jul. 16, 2001>

Article 22 (Designation of Competent Authorities, etc.)

The competent authorities under Article 25 of the Act shall be the Minister of Environment, and the liaison officer shall be the director who is in charge of the tasks for waste export/import at the Waste Resources Bureau of the Ministry of Environment. <Amended by Presidential Decree No. 14450, Dec. 23, 1994; Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 16406, Jun. 21, 1999; Presidential Decree No. 17307, Jul. 16, 2001>

Article 23 Deleted. <by Presidential Decree No. 15585, Dec. 31, 1997>

Article 24 (Delegation of Authority)

The Minister of Environment shall delegate his authority falling under each of the following subparagraphs to the head of the basin environmental office or the regional environmental office in accordance with Article 27 (1) of the Act: <Amended by Presidential Decree No. 17698, Aug. 8, 2002; Presidential Decree No. 20387, Nov. 15, 2007>

1. Authority for granting export licenses, amending such export licenses and attaching conditions thereto under Article 6 (1), (4) and (5) of the Act;
2. Authority for seeking agreement from the state of import or transit under the main sentence of Article 6 (3) of the Act;
3. Authority for receiving reports on the cancellation of plans for exporting wastes under Article 7 (2) of the Act;
4. Authority for granting permission for importing and amending, and attaching conditions thereto under Article 10 (1), (5) and (6) of the Act;
5. Authority for determining whether to give agreement with respect to imports of wastes and serve notices thereof under Article 10 (4) of the Act;
6. Authority for receiving reports on the acquisition by transfer of imported wastes under Article 13 (2) of the Act;
7. Authority for receiving documents showing the results of disposal of imported wastes under Article 14 of the Act;
8. Authority for canceling licenses for exporting and importing wastes under Article 15 of the Act;
9. Authority for determining whether to give agreement with respect to the transit of wastes and of serving notices thereof under Article 16 (1) of the Act;
10. Authority for designating ports where wastes are loaded and unloaded, limiting areas where wastes are loaded and unloaded, and consultations thereabout under Article 18 (1) of the Act;
11. Authority for limiting transit ports or transit areas of wastes and consultations thereon

under Article 18 (2) of the Act;

12. Authority for ordering exporters and importers to ship wastes into and out of areas or to control such wastes under Article 20 (1) of the Act;

13. Authority for receiving requests from the heads of administrative agencies for steps necessary for shipping wastes into or out of areas, taking such steps and serving notices on the results thereof under Article 20 (2) and (3) of the Act;

14. Authority for performing the execution by proxy and collecting expenses necessary therefor under Article 21 of the Act;

15. Authority for issuing orders to make reports, requesting the submission of materials and conducting inspection under Article 22 (1) of the Act;

16. Authority for asking the heads of relevant administrative agencies to furnish necessary materials under the former part of Article 24 of the Act;

17. Authority for imposing and collecting fines for negligence under Article 32 of the Act; and

18. Authority for performing the business of refunding fees under Article 21.

[This Article Wholly Amended by Presidential Decree No. 17307, Jul. 16, 2001]

CHAPTER IV PENAL PROVISIONS

Article 25 (Imposition of Fines for Negligence)

(1) Where the Minister of Environment imposes a fine for negligence pursuant to Article 32 (2) of the Act, he shall specify in writing the conduct of an offense and the amount, etc. of such fine for negligence, after investigating and confirming the offense, and notify the person subject to such disposition of fine for negligence. <Amended by Presidential Decree No. 14450, Dec. 23, 1994; Presidential Decree No. 15585, Dec. 31, 1997; Presidential Decree No. 15734, Feb. 28, 1998; Presidential Decree No. 17307, Jul. 16, 2001>

(2) Where the Minister of Environment intends to impose a fine for negligence pursuant to paragraph (1), he shall provide the person subject to fine for negligence with an opportunity to state his opinion orally or in writing (including an electronic document) by fixing a period of no less than ten days. In this case, if no statement is made by the fixed date, he shall be deemed to have no objection. <Amended by Presidential Decree No. 17307, Jul. 16, 2001; Presidential Decree No. 18312, Mar. 17, 2004>

(3) The Minister of Environment shall take account of the motive of the offense and its consequence, etc. in fixing the amount of fine for negligence. <Amended by Presidential Decree No. 17307, Jul. 16, 2001>

(4) With respect to the collection procedures of fines for negligence, the procedure for paperwork of a revenue collection officer under the Enforcement Decree of the Management of the National Funds Act shall apply mutatis mutandis. <Amended by Presidential Decree No. 17824, Dec. 30, 2002; Presidential Decree No. 20387, Nov. 15, 2007>

ADDENDA (Omitted)

36. Wastes Control Act

[Enforcement Date 19. Oct, 2017.] [Act No.14783, 18. Apr, 2017., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to contribute to environmental conservation and the enhancement of the people's quality of life by reducing the generation of wastes to the maximum extent possible and treating generated wastes in an environment-friendly manner. <Amended by Act No. 10389, Jul. 23, 2010>

Article 2 (Definitions)

The terms used in this Act shall be defined as follows: <Amended by Act No. 8466, May 17, 2007; Act No. 9770, Jun. 9, 2009; Act No. 9931, Jan. 13, 2010; Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015; Act No. 14532, Jan. 17, 2017>

1. The term "wastes" means such materials as garbage, burnt refuse, sludge, waste oil, waste acid, waste alkali, and carcasses of animals, which have become no longer useful for human life or business activities;
2. The term "household wastes" means any wastes other than industrial wastes;
3. The term "industrial wastes" means any wastes generated from places of business with discharge or emission facilities installed and managed in accordance with the Clean Air Conservation Act, the Water Environment Conservation Act, or the Noise and Vibration Control Act, or any other places of business specified by Presidential Decree;
4. The term "designated wastes" means the industrial wastes specifically enumerated by Presidential Decree as harmful substances, such as waste oil and waste acid which may contaminate the surrounding environment, or medical wastes which may cause harm to human bodies;
5. The term "medical wastes" means the wastes specifically enumerated by Presidential Decree among the wastes discharged from public health and medical institutions, veterinary clinics, testing and inspection institutions and other similar institutions, which may cause harm to human bodies by infection or otherwise and need to be specially controlled for public health and environmental conservation such as parts and extracts of human bodies and carcasses of laboratory animals;
- 5-2. The term "medical waste-only container" means a container used to collect, transport, or store any medical wastes to prevent infection or other hazards caused by medical wastes;
- 5-3. The term "treatment" means the collection, transportation, storage, recycling, and disposal of wastes;
6. The term "disposal" means both interim treatment, such as incineration, neutralization, fragmentation and solidification, and terminal treatment, such as landfill and discharging into the sea;
7. The term "recycling" means any of the following activities:
 - (a) Reusing or reclaiming wastes or making wastes reusable or reclaimable;

(b) Recovering energy prescribed in subparagraph 1 of Article 2 of the Energy Act or making such energy recoverable from wastes, or using wastes as fuel, as prescribed by Ordinance of the Ministry of Environment;

8. The term "waste treatment facilities" means both interim and terminal waste disposal facilities and waste recycling facilities, as specified by Presidential Decree;

9. The term "waste minimization facilities" means facilities specified by Presidential Decree for minimizing discharge of wastes by reducing the quantity of wastes generated in a manufacturing process and by recycling wastes within a place of business.

Article 2-2 (Detailed Classification of Wastes)

Detailed classification of wastes concerning the kinds and recycling types of wastes shall be prescribed by Ordinance of the Ministry of Environment in consideration of the generation source, constituents, harmfulness, etc. of wastes.

[This Article Newly Inserted by Act No. 13411, Jul. 20, 2015]

Article 3 (Scope of Application)

(1) This Act shall not apply to the following substances: <Amended by Act No. 8466, May 17, 2007; Act No. 8789, Dec. 21, 2007; Act No. 10389, Jul. 23, 2010; Act No. 10888, Jul. 21, 2011; Act No. 10911, Jul. 25, 2011; Act No. 13038, Jan. 20, 2015; Act No. 14532, Jan. 17, 2017>

1. A radioactive substance prescribed in the Nuclear Safety Act or a material contaminated by such substance;

2. A gaseous substance not contained in a container;

3. Wastewater flowing into, or discharged into public waters from, a facility established for the prevention of water contamination prescribed in the Water Environment Conservation Act;

4. Livestock excreta prescribed in the Act on the Management and Use of Livestock Excreta;

5. Sewage and excreta prescribed in the Sewerage Act;

6. A livestock carcass, a polluted thing, a thing subject to ban on importation, or a thing rejected in a quarantine inspection under Article 22 (2), 23, 33 or 44 of the Act on the Prevention of Contagious Animal Diseases;

7. A carcass of an aquatic animal, a polluted facility or thing, a thing subject to ban on importation, and a thing rejected in a quarantine inspection, to which Articles 17 (2), 18 and 34 (1) and each subparagraph of Article 25 (1) of the Aquatic Life Disease Control Act apply;

8. Ammunitions scrapped pursuant to Article 13-2 of the Act on the Management of Military Supplies;

9. A carcass of an animal treated at an animal cemetery established and operated by a person registered for funeral services for animals prescribed in Article 32 (1) of the Animal Protection Act.

(2) Discharging wastes into the sea under this Act shall be governed by the Marine Environment Management Act.

Article 3-2 (Basic Principles of Waste Management)

(1) Every business entity shall reduce the generation of wastes to the maximum extent possible by improving the manufacturing process, etc. of products and minimize the discharge of wastes by recycling his/her own wastes.

(2) Every person shall take prior appropriate measures with respect to the discharge of wastes to prevent any harm to environs or the health of residents.

(3) Waste treatment shall be properly managed in a manner that reduces their quantities and degree of hazard or otherwise is consistent with environmental conservation and the protection of the people's health.

(4) Any person who causes environmental pollution by discharging wastes shall be responsible for restoring the affected environs and bear the expenses incurred in restoring the damage caused by such pollution.

(5) To the extent possible, wastes generated domestically shall be treated within the Republic of Korea and the importation of wastes shall be restrained.

(6) Wastes shall be recycled rather than incinerated, buried, or disposed of in another way, in order to contribute to the improvement of resource productivity.

[This Article Newly Inserted by Act No. 10389, Jul. 23, 2010]

Article 4 (Duties of State and Each Local Government)

(1) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu (the head of a Gu refers to the head of an autonomous Gu; hereinafter the same shall apply) shall verify the current status of wastes discharged and treated within his/her jurisdiction; install and operate waste treatment facilities so that wastes can be properly treated; conduct affairs relating to waste treatment efficiently by improving the methods of treating wastes and raising the skills and quality of the persons in charge; and endeavor to remind residents and business entities of the importance of protecting the environment and to restrain the generation of wastes. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

(2) The Mayor of the Special Metropolitan City Mayor, Mayors of Metropolitan Cities, and Governors of Dos shall provide the heads of Sis/Guns/Gus with technical and financial assistance to help them fulfill their duties prescribed in paragraph (1) and shall also coordinate waste treatment services within their jurisdiction. <Amended by Act No. 8613, Aug. 3, 2007>

(3) The State shall verify the current status of designated wastes discharged and treated, and take measures necessary for proper treatment of such wastes.

(4) The State shall support research on and development of technology for waste treatment, provide the Mayor of the Special Metropolitan City, Mayor of each Metropolitan City, Mayor of each Special Self-Governing City, Governor of each Do, and Governor of each Special Self-Governing Province (hereinafter referred to as "Mayor/Do Governor") and the head of each Si/Gun/Gu with technical and financial assistance necessary for them to fulfill their duties prescribed in paragraphs (1) and (2), and shall also coordinate waste treatment services with the Special Metropolitan City, Metropolitan Cities, Special Self-Governing

Cities, Dos, and Special Self-Governing Provinces (hereinafter referred to as "City/Do"). <Amended by Act No. 8613, Aug. 3, 2007; Act No. 11914, Jul. 16, 2013>

Article 5 (Multi-Regional Waste Management)

(1) If the Minister of Environment, the Mayor/Do Governor or the head of a Si/Gun/Gu deems it necessary to treat wastes generated from at least two Cities/Dos or Sis/Guns/Gus with an integrated system for a multiple number of regions, he/she may solely or jointly install and operate multi-regional waste treatment facilities (including public treatment facilities for designated wastes).

(2) The Minister of Environment, the Mayor/Do Governor, or the head of a Si/Gun/Gu may entrust a person designated by Ordinance of the Ministry of Environment to install or manage the multi-regional treatment facilities prescribed in paragraph (1).

Article 6 (Charges for Waste Treatment in Waste Treatment Facilities)

(1) An institution that has installed and operates a waste treatment facility prescribed in Article 4 (1) or 5 (1) may charge expenses incurred in treating wastes brought into the facility (hereinafter referred to as the "waste treatment charge") on persons who bring wastes into such facility.

(2) In cases falling under paragraph (1), where a waste treatment facility has been installed and is operated jointly by at least two local governments, the waste treatment charge shall be determined by an agreement between the local governments.

(3) The amount of waste treatment charge shall be prescribed by Ordinance of the Ministry of Environment if the State is responsible for collecting it, while such amount shall be prescribed by municipal ordinance if a local government is responsible for collecting it.

Article 7 (Citizens' Duties)

(1) Every citizen shall keep natural and living environments clean and endeavor to reduce and recycle wastes.

(2) Every owner, occupant, and manager of a parcel of land or a building shall endeavor to keep clean the parcel of land or building owned, occupied, or managed by him/her, and shall implement general clean-up in accordance with the plan prepared by the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 11914, Jul. 16, 2013>

Article 8 (Prohibition against Dumping Wastes)

(1) No one shall dump wastes in any area other than the places and facilities provided for the collection of wastes by the Mayor of a Special Self-Governing City Mayor, the Governor of a Special Self-Governing Province, the head of a Si/Gun/Gu, or the manager of a facility, such as a public park or road. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 11914, Jul. 16, 2013>

(2) No one shall bury or incinerate wastes in any area other than the landfill sites permitted, approved or reported under this Act: Provided, That the foregoing shall not apply to incineration at places specified under the proviso to Article 14 (1), as prescribed by ordinance of the competent Special Self-Governing City, Special Self-Governing Province,

or Si/Gun/Gu. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 11914, Jul. 16, 2013>

(3) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may order the owner, occupant, or manager of a parcel of land or building to take necessary measures in compliance with the relevant ordinance of the competent local government, if the owner, occupant, or manager fails to keep clean the property under his/her control pursuant to Article 7 (2). <Amended by Act No. 8613, Aug. 3, 2007; Act No. 11914, Jul. 16, 2013>

Article 9 (Master Plans for Waste Management)

(1) The Mayor/Do Governor shall prepare a comprehensive plan for proper management of wastes generated within his/her jurisdiction once every ten years in compliance with the guidelines prescribed by the Minister of Environment, subject to the approval of the Minister of Environment. The foregoing shall also apply to any revision to any matter approved. In such cases, the Minister of Environment shall, whenever he/she approves a comprehensive plan or a revision thereto, consult with the heads of the relevant central administrative agencies.

(2) The head of a Si/Gun/Gu shall prepare a comprehensive plan for management of wastes generated within his/her jurisdiction once every ten years and submit it to the Mayor/Do Governor.

(3) The comprehensive plan prescribed in paragraphs (1) and (2) shall contain the following details:

1. Overview of the population, residential patterns, industrial structure, and distribution, geographical environment, etc. within his/her jurisdiction;
2. The quantity of wastes generated by categories and the estimated quantity of wastes in the future;
3. Current status of and future plan for waste management;
4. Matters concerning reduction, recycling, and conversion of wastes into resources;
5. Current status of wastes treatment facilities installed and a plan to install such facilities;
6. Matters concerning collection, transportation, and storage of wastes and improvement of equipment and containers for wastes;
7. Plan for securing financial sources.

Article 10 (Comprehensive Plans for Waste Management)

(1) The Minister of Environment shall prepare a comprehensive plan for nationwide waste management based on the comprehensive plans for waste management under Article 9 (1) and the results of statistical surveys on wastes under Article 11 (hereinafter referred to as a "comprehensive plan") once every ten years for proper management of wastes generated throughout the country.

(2) The Minister of Environment may review the feasibility of the comprehensive plan for revision once every five years after the date on which the comprehensive plan is finalized.

(3) If the comprehensive plan is revised under paragraph (2), the Mayor/Do Governor shall also revise the comprehensive plan for waste management under Article 9 (1), reflecting the

revised details of the comprehensive plan in the comprehensive plan, and submit it to the Minister of Environment for approval.

(4) The comprehensive plan shall contain the following details:

1. Evaluation of the previous comprehensive plan;
2. Circumstances and prospects for waste management;
3. Basic principles of the comprehensive plan;
4. Policy on waste management by sectors;
5. Plan for securing financial sources.

Article 11 (Statistical Surveys on Wastes)

(1) The Minister of Environment, each Mayor/Do Governor, and the head of each Si/Gun/Gu shall conduct surveys on the current status of different types of wastes generated and treated, status of waste treatment business and other related industries, and resource productivity improvement including waste recycling rates, in order to secure basic data and information necessary for formulating policies on wastes. <Amended by Act No. 10389, Jul. 23, 2010>

(2) Matters necessary for the items, timing, and methods of surveys under paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 10389, Jul. 23, 2010>

Article 12 Deleted. <by Act No. 13038, Jan. 20, 2015>

CHAPTER II DISCHARGE AND TREATMENT OF WASTES

Article 13 (Standards, etc. for Waste Treatment)

(1) Anyone who intends to treat wastes shall comply with the standards and methods prescribed by Presidential Decree: Provided, That with respect to wastes that are made readily recyclable in view of the principles of recycling wastes and matters to be observed under Article 13-2 (hereinafter referred to as "intermediately processed wastes"), relaxed standards and methods may separately be prescribed by Presidential Decree. <Amended by Act No. 10389, Jul. 23, 2010; Act No. 13411, Jul. 20, 2015>

(2) Medical wastes shall be treated only by using medical waste-only containers that have passed inspections conducted in accordance with Article 25-2 (6) (hereinafter referred to as "exclusive container"). <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

Article 13-2 (Principles of Recycling Wastes and Matters to Be Observed)

(1) Anyone may recycle wastes unless he/she violates any of following:

1. The wastes shall not cause harm to living environment by discharging fugitive dust, bad odor, volatile organic compounds, air pollutants, etc.;
2. The wastes shall not contaminate soil, hydroecological system, or underground water by leaking harmful substances, such as leachate, or heavy metals;
3. The wastes shall not cause harm to humans by generating noise or vibration;
4. He/she shall comply with the matters prescribed by Presidential Decree, such as the prevention of harm to humans or the environment, in the course of using wastes as recycling

products or raw materials by eliminating or stabilizing harmful substances including heavy metals;

5. He/she shall comply with the recycling standards prescribed by Ordinance of the Ministry of Environment.

(2) Notwithstanding paragraph (1), any of the following wastes shall be prohibited or restricted from recycling:

1. Asbestos wastes;
2. Wastes containing polychlorinated biphenyls (PCBs) in at least the concentration prescribed by Ordinance of the Ministry of Environment;
3. Medical wastes (excluding placenta);
4. Wastes prescribed by Presidential Decree among the wastes highly likely to cause harm to human bodies and the environment, such as toxic wastes.

(3) The types and level of methods to prevent and reduce contamination and the matters to be observed, such as the standards, methods, etc. of dealing with wastes, to comply with the principles prescribed in the subparagraphs of paragraph (1) and (2) shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Wholly Amended by Act No. 13411, Jul. 20, 2015]

Article 13-3 (Environmental Assessment when Recycling Wastes)

(1) Notwithstanding Article 13-2 (1), any of the following persons shall undergo assessment of the methods to evade or eliminate harmful effects caused by recycling of the relevant wastes on human health or the environment by examining and predicting such effects and of the adequacy of recycling technology (hereinafter referred to as "environmental assessment of recycling"), conducted by an environmental assessment institute under Article 13-4 (1). The same shall also apply where he/she modifies any of the significant matters prescribed by Ordinance of the Ministry of Environment, including the kinds of wastes and the types of recycling:

1. A person who intends to recycle wastes or any material made from mixing wastes with soil, etc., in the amount of at least that prescribed by Ordinance of the Ministry of Environment, for any of the uses, including cover soil, fill material, and road substratum material, or by any of the methods prescribed by Ordinance of the Ministry of Environment, by bring them into contact with soil, underground water, surface water, etc. (including where at least two persons intend to recycle them jointly);
2. A person who intends to recycle wastes for which such principles of recycling wastes and matters to be observed as prescribed in Article 13-2 are not determined.

(2) Notwithstanding paragraph (1), a person who intends to manufacture any fertilizers, the legal standards for which have been formulated under Article 4 of the Fertilizer Control Act, or a person who intends to recycle wastes by the methods prescribed by Ordinance of the Ministry of Environment, may recycle the relevant wastes without undergoing an environmental assessment of recycling.

(3) A person who has undergone an environmental assessment of recycling under

paragraph (1) shall submit the results thereof to the Minister of Environment and obtain approval for the recycling of the relevant wastes.

(4) After examining whether the applicant meets the requirements for approval prescribed by Presidential Decree in consideration of the results of the environmental assessment of recycling received pursuant to paragraph (3), the Minister of Environment may grant approval under paragraph (3).

(5) In granting approval pursuant to paragraph (4), the Minister of Environment may impose conditions prescribed by Ordinance of the Ministry of Environment, such as the term of validity of the approval and the quantity of wastes, to reduce harm, etc. to be caused to public health or the environment.

(6) Where a person who has obtained approval under paragraph (3) falls under any of the following, the Minister of Environment shall revoke such approval. In such cases, if the approval is revoked, the recycling of the relevant wastes shall be suspended without delay:

1. Where he/she recycles the relevant wastes differently from the matters approved pursuant to paragraph (3);
2. Where he/she submits the results of an environmental assessment of recycling pursuant to paragraph (3) by deceit or other wrongful means;
3. Where he/she violates any condition of approval imposed pursuant to paragraph (5).

(7) Except as otherwise prescribed in paragraphs (1) through (6), matters necessary for procedures and methods of environmental assessment of recycling, procedures for approval, etc. shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 13411, Jul. 20, 2015]

Article 13-4 (Designation, etc. of Environmental Assessment Institutes)

(1) The Minister of Environment shall, for the specialized and technical environmental assessment of recycling, designate an environmental assessment institute, from among the following institutions or organizations and issue a certificate of designation:

1. National or public research institutes;
2. The Korea Environment Corporation under the Korea Environment Corporation Act;
3. Other institutes or organizations prescribed by Presidential Decree.

(2) A person who intends to be designated as an environmental assessment institute shall file an application with the Minister of Environment meeting the requirements for technical personnel, facilities, equipment, etc. prescribed by Ordinance of the Ministry of Environment. The same shall also apply where he/she intends to modify any of the significant matters prescribed by Ordinance of the Ministry of Environment.

(3) Upon receipt of a request for an environmental assessment of recycling, an environmental assessment institute shall prepare a report on environmental assessment of recycling, including the following matters, in accordance with the standards and methods prescribed by Ordinance of the Ministry of Environment:

1. Current status of the area subject to environmental assessment;
2. Prediction and assessment of environmental effects pertaining to the recycling of wastes,

including the effects of wastes or materials made by adding wastes on soil, underground water, surface water, etc. when they leach out;

3. Means for preventing and eliminating environmental risks;

4. Plans for monitoring environmental change;

5. Matters prescribed by Ordinance of the Ministry of Environment for the environmental assessment of recycling of wastes for which such principles or matters to be observed as prescribed in Article 13-2 are not formulated.

(4) No environmental assessment institute shall allow a third party to conduct any environmental assessment of recycling using its name or trade name or lend its certificate of designation as an environmental assessment institute.

(5) The Minister of Environment shall periodically examine whether the operation of an environmental assessment institute is appropriate.

(6) Where an environmental assessment institute falls under any of the following, the Minister of Environment may revoke the designation or order to suspend business fixing a period not exceeding six months: Provided, That in cases falling under subparagraph 1 or 2, such designation shall be revoked:

1. Where it has obtained the designation or designation with modification by deceit or other wrongful means;

2. Where it has conducted any environmental assessment of recycling during the business suspension period;

3. Where it has failed to meet the requirements for designation prescribed in the former part of paragraph (2);

4. Where it has modified any significant matters without obtaining designation with modification, in violation of the latter part of paragraph (2);

5. Where it has prepared a report on environmental assessment of recycling under paragraph (3) by deceit or other wrongful means;

6. Where it has allowed a third party to conduct any environmental assessment of recycling using its name or trade name or has lent its certificate of designation as an environmental assessment institute, in violation of paragraph (4).

(7) Except as otherwise prescribed in paragraphs (1) through (6), necessary matters concerning the standards and procedures for designation of an environmental assessment institute, periodic inspection, etc. shall be prescribed by Ordinance of the Ministry of Environment.

(8) Subparagraphs 1 through 4 and 6 of Article 26 shall apply mutatis mutandis to the grounds for disqualification of an environmental assessment institute referred to in paragraph (1). In such cases, "waste management business" shall be construed as "environmental assessment institute" and "permission" as "designation".

[This Article Newly Inserted by Act No. 13411, Jul. 20, 2015]

Article 13-5 (Hazard Criteria of Recycled Products or Materials)

(1) Where the Minister of Environment deems that any products or materials that are

produced by recycling wastes may cause harm to human health or the environment, he/she shall formulate and publicly notify the hazard criteria of such recycled products or materials (hereinafter referred to as "Hazard Criteria") after consulting with the heads of relevant central administrative agencies.

(2) No person shall manufacture or distribute recycled products or materials using wastes that fail to meet the Hazard Criteria.

(3) The Minister of Environment may test, analyze, or investigate the actual conditions of manufacturing or distribution of any products or materials produced by recycling wastes in order to verify whether they are in compliance with the Hazard Criteria.

(4) Matters necessary for the testing, analysis, and investigation of actual conditions under paragraph (3) shall be prescribed by Ordinance of the Ministry of Environment.

(5) If, as a result of the testing, analysis or investigation of actual conditions under paragraph (3), a person is found to have manufactured or distributed any products or materials in violation of the Hazard Criteria, the Minister of Environment may order him/her to take necessary measures, such as the recalling and destruction of the relevant products or materials.

(6) Where the Minister of Environment deems that any products or materials, the Hazard Criteria of which are publicly notified pursuant to paragraph (1) and which are manufactured by recycling wastes require a certain control, he/she may enter into an agreement with the head of the relevant local government, the manufacturer, etc. of the said products or materials that requires them to disclose the purposes of use and quantities of each type of wastes, the heavy metal contents of such wastes, and other relevant information.

[This Article Newly Inserted by Act No. 10389, Jul. 23, 2010]

Article 14 (Treatment, etc. of Household Wastes)

(1) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu shall be responsible for treating household wastes discharged within his/her jurisdiction: Provided, That a specific area designated by the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu, as prescribed by Ordinance of the Ministry of Environment, shall be excluded from his/her jurisdictional areas. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

(2) The Mayor of a Special Self-Governing City Mayor, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may authorize a person specified by Presidential Decree to treat household wastes prescribed in paragraph (1) on his/her behalf, as prescribed by ordinance of the competent local government. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

(3) Notwithstanding the main sentence of paragraph (1), and paragraph (2), any person who has filed a report on waste treatment pursuant to Article 46 (1) (hereinafter referred to as "person who has filed a report on waste treatment") may collect, transport, or recycle the wastes specified by Ordinance of the Ministry of Environment, such as waste paper, scrap

metal, and waste cooking oil (only permitted where waste cooking oil classified as household wastes is collected and transported by a special storage tank or container sealed with no chance of leakage), among household wastes. <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

(4) A person who collects and transports household wastes prescribed in paragraph (3) may transfer the wastes specified by Ordinance of the Ministry of Environment, among household wastes collected by him/her, to any of the following persons: <Newly Inserted by Act No. 11914, Jul. 16, 2013>

1. A person who directly collects and recycles wastes generated from products and packing materials manufactured, imported, or sold by him/her (including persons specified by Ordinance of the Ministry of Environment, among persons entrusted with recycling), among manufacturers or importers of products and packing materials specified in Article 16 (1) of the Act on the Promotion of Saving and Recycling of Resources;

2. A person who has obtained permission for waste recycling business specified in Article 25 (5) 5 or 7;

3. A person who has filed a report on waste treatment;

4. Any other persons specified by Ordinance of the Ministry of Environment.

(5) The Mayor of a Special Self-Governing City Mayor, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may collect service charges for the treatment of household wastes pursuant to paragraph (1), depending on the kind, quantity, etc. of the household wastes discharged. In such cases, the service charges shall be collected in the manner of selling standard waste bags, waste marks, etc. (hereinafter referred to as "standard waste bags and marks"), as prescribed by ordinance of the competent local government; but the service charges for food wastes may be collected in the manner of charging an amount calculated according to the discharged quantity. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11465, Jun. 1, 2012; Act No. 11914, Jul. 16, 2013>

(6) When the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu intends to impose and collect service charges for the treatment of food wastes pursuant to paragraph (5), he/she may use the electronic information processing program under Article 45 (2). In such cases, information required for calculating service charges shall be entered in the electronic information processing program prescribed in Article 45 (2), as prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 11914, Jul. 16, 2013>

(7) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may authorize a person to produce, distribute, or sell standard waste bags and marks on his/her behalf, as prescribed by municipal ordinances. <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

(8) When the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu intends to authorize a person to collect and

transport household wastes on his/her behalf pursuant to paragraph (2), he/she shall comply with the following: <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 12321, Jan. 21, 2014; Act No. 13038, Jan. 20, 2015>

1. The cost shall be calculated in accordance with the standards prescribed by Ordinance of the Ministry of Environment, and the initial calculation thereof shall be entrusted to any cost accounting service agency provided for in Article 9 of the Enforcement Rule of the Act on Contracts to which a Local Government is a Party;

2. The standards for evaluating the performance of persons authorized to collect and transport household wastes on behalf of local authorities (including the levels of resident satisfaction and the working conditions of street cleaners) shall be prescribed by ordinance of each local government, and the performance shall be evaluated at least once a year according to the evaluation standards. In such cases, each local government shall organize an evaluation team with civilian experts, etc. to evaluate the performance of such persons;

3. If the evaluation of performance is completed pursuant to subparagraph 2, the results shall be posted on the website of the relevant local government for at least six months from the date of such evaluation, and if the results of such evaluation reveal that the standards prescribed by ordinance of the relevant local government are not met, measures, such as business suspension and the cancellation of the contract for collection and transportation of household wastes on behalf of local authorities shall be taken, as prescribed by Ordinance of the Ministry of Environment;

4. If a contract for collection and transportation of household wastes on behalf of local authorities is concluded, the terms and conditions of such contract shall be posted on the website of the relevant local government for at least six months from the date of such conclusion;

5. Upon the expiration of a contract for collection and transportation of household wastes on behalf of local authorities under subparagraph 4, the details of expenditure incurred in such collection and transportation shall be posted on the website of the relevant local government within six months from the date of such expiration, for at least six months;

6. If a person (including the representative of a corporation) who collects and transports household wastes on behalf of local authorities is sentenced to any of the following punishments, the contract for vicarious execution shall be cancelled without delay:

(a) Where he/she is sentenced to a fine or greater punishment by committing a crime that falls under Article 133 of the Criminal Act;

(b) Where he/she is sentenced to a fine or greater punishment (in cases of punishment of a fine, limited to a fine of at least three million won) by committing a crime that falls under Article 347, 347-2, 356, or 357 of the Criminal Act (in cases falling under Article 347 or 356, including cases where he/she is aggravatingly punished under Article 3 of the Act on the Aggravated Punishment, etc. of Specific Economic Crimes);

7. No person who has been sentenced to punishment that falls under any item of subparagraph 6 in relation to a contract to collect and transport household wastes on behalf

of local authorities, and for whom three years have yet to elapse from the date of such sentence shall not be entitled to enter into any contract to collect and transport household wastes.

(9) If the Minister of Environment deems it necessary in relation to collection and transportation of household wastes on behalf of local authorities, he/she may require the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu to submit necessary data or to take corrective measures, and may inspect and verify whether standards for the collection and transportation of household wastes are complied with. Upon receipt of a request from the Minister of Environment to submit necessary data or to take corrective measures in such cases, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu shall comply therewith, in the absence of special circumstances. <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 12321, Jan. 21, 2014>

Article 14-2 (Imposition of Penalty Surcharges on Persons Authorized to Collect and Transport Household Wastes)

(1) Where the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu intends to order any person authorized to collect and transport household wastes on behalf of local authorities to suspend the business under Article 14 (8) 3, he/she may impose a penalty surcharge not exceeding 100 million won on such person in lieu of the suspension of business, as prescribed by Presidential Decree, if the suspension of business is likely to result in the accumulation of wastes not properly treated, and consequently causes or is likely to cause harm to the health of local residents.

(2) Unpaid penalty surcharges imposed under paragraph (1) shall be collected in the same manner as delinquent local taxes are collected.

(3) Penalty surcharges collected under paragraphs (1) and (2) shall become the revenues of the relevant Special Self-Governing City, Special Self-Governing Province, or Si/Gun/Gu, and shall be used for the purposes of use specified by Presidential Decree, including the expansion of multi-regional waste treatment facilities.

[This Article Newly Inserted by Act No. 11914, Jul. 16, 2013]

Article 14-3 (Formulation, etc. of Plans to Restrain Generation of Food Wastes)

(1) In order to reduce the generation of food wastes (including agricultural, fishery, and livestock wastes; the same shall apply hereinafter) to the maximum extent possible within the jurisdiction of the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu, and properly treat food wastes generated, he/she shall formulate and implement a plan to restrain the generation of food wastes, including the following matters, and shall annually evaluate the outcomes of implementation thereof:

1. The current status of the generation and treatment of food wastes;

2. The estimated quantity of food wastes generated in the future and a plan for proper treatment of the wastes;
3. The targets goals for restraining the generation of food wastes and a strategic plan for achieving the target goals;
4. The current status of food wastes treatment facilities installed and a plan to install such facilities;
5. A strategic plan for technical and financial assistance in restraining the generation of food wastes and properly treating such wastes (including a plan for securing funds therefor).

(2) The interval for formulating a plan under paragraph (1), the method of evaluation, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 11914, Jul. 16, 2013]

Article 15 (Cooperation, etc. of Household Waste Dischargers in Treatment)

(1) The owner, occupant, or manager of a parcel of land or a building from which household wastes are discharged (hereinafter referred to as "household waste discharger") shall either treat such wastes directly in a manner to avoid any harm to the conservation of the living environment or reduce the discharged quantity of wastes, as prescribed by ordinance of the competent Special Self-Governing City, Special Self-Governing Province, or Si/Gun/Gu. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 11914, Jul. 16, 2013>

(2) Each household waste discharger shall separate household wastes that he/she is unable to treat directly under paragraph (1) and shall separately keep such wastes by type, nature, and condition, as prescribed by ordinance of the competent Special Self-Governing City, Special Self-Governing Province, or Si/Gun/Gu. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 11914, Jul. 16, 2013>

(3) Deleted. <by Act No. 11914, Jul. 16, 2013>

Article 15-2 (Obligations, etc. of Persons Discharging Food Wastes)

(1) Any of the persons specified by Presidential Decree, among persons who discharge large quantities of food wastes, shall comply with rules prescribed by ordinance of the competent Special Self-Governing City, Special Self-Governing Province, or Si/Gun/Gu, for restraining the generation of food wastes and properly treating such wastes.

(2) A person discharging food wastes under paragraph (1) shall report on his/her plan to restrain the generation of food wastes and properly treat such wastes to the competent local authority, such as the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu, as prescribed by Ordinance of the Ministry of Environment. The foregoing shall also apply to modifications to any reported matters specified by Ordinance of the Ministry of Environment.

(3) Notwithstanding Article 14 (1) or 18 (1), a person discharging food wastes under paragraph (1) shall collect, transport, or recycle generated food wastes directly or entrust any of the following persons with the collection, transportation, or recycling of such wastes:

1. A person who has installed and operates a waste treatment facility under Article 4 or 5;
2. A person who has obtained permission for waste collection and transportation business

under Article 25 (5) 1;

3. A person who has obtained permission for waste recycling business under any provision of Article 25 (5) 5 through 7;

4. A person who has filed a report on waste treatment (limited to the persons who have filed a report on the treatment of food wastes for recycling).

(4) Persons discharging food wastes under paragraph (1) may jointly collect, transport, or recycle food wastes generated from each place of business, as prescribed by Ordinance of the Ministry of Environment, or may jointly install and operate waste treatment facilities. In such cases, they shall establish a joint operating organization, and appoint one representative of the organization.

[This Article Newly Inserted by Act No. 11914, Jul. 16, 2013]

Article 16 (Conclusion of Agreements)

(1) The Mayor/Do Governor or the head of a Si/Gun/Gu may enter into agreements with persons who discharge wastes within his/her jurisdiction or an organization of such persons in order to restrain the generation of wastes and properly treat such wastes.

(2) Matters necessary for the objectives of the agreement under paragraph (1) and the method of and procedure for performance of such agreements shall be prescribed by ordinance of the competent local government.

(3) The Mayor/Do Governor or the head of a Si/Gun/Gu may provide a person who enters into agreements with the competent local government under paragraph (1) with such support as necessary for performing such agreements.

Article 17 (Obligations, etc. of Industrial Waste Dischargers)

(1) A person who discharges wastes from his/her place of business (hereinafter referred to as "industrial waste discharger") shall comply with the following provisions: <Amended by Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015; Act No. 13411, Jul. 20, 2015>

1. He/she shall request a waste analysis agency prescribed in Article 17-2 (1) to verify in advance whether any wastes which can be classified as designated wastes depending on the content of toxic substances prescribed by Ordinance of the Ministry of Environment, among wastes generated from his/her place of business, fall under designated wastes;

1-2. He/she shall treat all wastes generated from his/her place of business in compliance with the standards and methods for waste treatment under Article 13 and the principles of recycling wastes and matters to be observed under Article 13-2;

2. The generation of industrial wastes shall be reduced to the maximum extent possible by installing waste-reducing facilities in a manufacturing process, developing technology, recycling wastes, and in any other way;

3. An industrial waste discharger who intends to entrust waste treatment to someone under Article 18 (1) shall verify whether the entrusted person has the capability to treat wastes in compliance with the standards for and methods of waste treatment under Article 13 or in view of the principles of recycling wastes and matters to be observed under Article 13-2 before such entrustment: Provided, That the foregoing shall not apply where he/she entrusts

waste treatment to a person who has installed and operates waste treatment facilities under Article 4 or 5.

(2) Industrial waste dischargers specified by Ordinance of the Ministry of Environment shall report on the types and quantity of industrial wastes generated, to the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu, as prescribed by Ordinance of the Ministry of Environment. The foregoing shall also apply to any modification to reported matters specified by Ordinance of the Ministry of Environment. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 11914, Jul. 16, 2013>

(3) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu shall notify a person who has filed a report or a report on modification, of whether his/her report is accepted, within 20 days from the date his/her report is received pursuant to paragraph (2). <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(4) If the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu fails to notify a person who has filed a report of whether his/her report is accepted or whether the processing period is extended pursuant to statutes related to processing of civil petitions within the period prescribed in paragraph (3), the report shall be deemed accepted on the day following the last day of such period. <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(5) A business entity that discharges designated wastes prescribed by Ordinance of the Ministry of Environment shall submit each of the following documents to the Minister of Environment for verification before processing such wastes under Article 18 (1): Provided, That where persons prescribed by Ordinance of the Ministry of Environment, including those operating a motor vehicle maintenance business as defined in subparagraph 8 of Article 2 of the Motor Vehicle Management Act, collect and transport designated wastes together with other persons, their representative shall submit such documents to the Minister of Environment for verification: <Newly Inserted by Act No. 8613, Aug. 3, 2007; Act No. 13038, Jan. 20, 2015>

1. Waste treatment plans including the following matters:

- (a) Trade name, locations of the places of business, and category of business;
- (b) Types and volume of wastes to be discharged, and interval for discharge;
- (c) Plan for transport and treatment of wastes;
- (d) Plan for joint treatment of wastes (applicable only to cases of joint treatment);
- (e) Other matters prescribed by Ordinance of the Ministry of Environment;

2. Waste analysis reports prepared by a waste analysis agency prescribed in Article 17-2 (1);

3. If the treatment of designated wastes is entrusted, documents attesting the acceptance of entrustment from a person entrusted with such affairs.

(6) If a person who has obtained verification under paragraph (5) falls under any of the following cases, he/she shall submit relevant documents to the Minister of Environment and

obtain the verification of such modification: <Newly Inserted by Act No. 8613, Aug. 3, 2007; Act No. 11465, Jun. 1, 2012; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

1. Where he/she intends to change his/her trade name;
 2. Where he/she intends to change the location of his/her place of business;
 3. Where the monthly average volume of designated wastes discharged (which shall be calculated based on the quantity discharged for one year after obtaining verification or verification of modification) is at least 10/100 and is increasing by at least the percentage prescribed by Ordinance of the Ministry of Environment;
 4. Where the volume of designated wastes newly or additionally discharged (in cases of additional discharge, the quantity shall be calculated by adding the quantity previously discharged) falls under a case subject to the verification of a plan for treatment of controlled wastes referred to in paragraph (3);
 5. Where he/she intends to change the treatment method by kind of designated wastes or a person who treats such wastes;
 6. Where he/she intends to modify the number of places of business for joint treatment or the kinds of wastes jointly treated (applicable only to cases of joint treatment).
- (7) Industrial waste dischargers operating any of the types of business prescribed by Presidential Decree in excess of any of the scales prescribed by Presidential Decree comply with the guidelines publicly notified by the Minister of Environment and the heads of relevant central administrative agencies jointly in accordance with the basic policy and procedure prescribed by Ordinance of the Ministry of Environment in order to restrain the generation of industrial wastes under paragraph (1) 2. <Amended by Act No. 8613, Aug. 3, 2007>
- (8) If an industrial waste discharger transfers his/her business to another person or dies, or a corporation discharging industrial wastes is merged with another corporation, the transferee or heir, or the corporation surviving the merger or resulting from the consolidation shall succeed to the rights and obligations relating to such industrial wastes. <Amended by Act No. 8613, Aug. 3, 2007>
- (9) A person who has taken over the whole or any part of the place of business of an industrial waste discharger by an auction under the Civil Execution Act; the realization of property under the Debtor Rehabilitation and Bankruptcy Act; the sale of seized property under the National Tax Collection Act, the Customs Act or the Local Tax Collection Act; or other procedures corresponding thereto, shall succeed to the rights and obligations relating to such industrial wastes. <Newly Inserted by Act No. 8613, Aug. 3, 2007; Act No. 10219, Mar. 31, 2010; Act No. 10389, Jul. 23, 2010; Act No. 14476, Dec. 27, 2016>

Article 17-2 (Designation of Official Test Facilities of Wastes)

(1) In order to perform specialized affairs relating to the testing and analysis of wastes, the Minister of Environment may designate any of the following institutes as a specialized agency for testing and analysis of wastes (hereinafter referred to as "official test facility of wastes"):

1. The Korea Environment Corporation under the Korea Environment Corporation Act

(hereinafter referred to as the "Korea Environment Corporation");

2. The Sudokwon Landfill Site Management Corporation under the Act on the Establishment and Management of Sudokwon Landfill Site Management Corporation;

3. The Public Health and Environment Research Institute under the Public Health and Environment Research Institute Act;

4. Other institutes deemed by the Minister of Environment as having capability in the testing and analysis of wastes.

(2) If any institute under paragraph (1) 4 intends to be designated as an official test facility of wastes, it shall file an application for designation with the Minister of Environment after being equipped with facilities, equipment, and technical capability prescribed by Presidential Decree.

(3) If an institute designated as an official test facility of wastes under paragraph (1) 4 intends to modify any of the significant matters prescribed by Ordinance of the Ministry of Environment, among the already designated matters, it shall obtain designation with modification of such matter from the Minister of Environment.

(4) When designating an institute referred to in any subparagraph of paragraph (1) as an official test facility of wastes, or designating with modification, the Minister of Environment shall issue a certificate of designation to the relevant agency and publicly announce the details thereof by publishing them in the Official Gazette or posting them on its website, etc.

(5) Article 26 shall apply mutatis mutandis to disqualifications for an official test facility of wastes referred to in paragraph (1) 4. In such cases, "waste management business" shall be construed as "official test facility of wastes", "permission" as "designation", and "Article 27 (excluding paragraphs (1) 2 and (2) 20)" as "Article 17-5 (excluding paragraphs (1) 2 and (2) 6)", respectively.

[This Article Newly Inserted by Act No. 13038, Jan. 20, 2015]

Article 17-3 (Matters to Be Observed by Professional Waste Analysis Agencies)(1) No official test facility of wastes shall allow another person to use its name or trade name in performing any affairs relating to the testing and analysis of wastes nor shall it lend its certificate of designation to another person.

(2) Each official test facility of wastes shall comply with the standards for fair testing of environmental pollution in the field of wastes under Article 6 of the Environmental Testing and Inspection Act.

(3) In addition to the matters to be observed under paragraphs (1) and (2), each official test facility of wastes shall comply with the matters to be observed, prescribed by Ordinance of the Ministry of Environment, including keeping records of, preservation, etc. of the results of testing and analysis.

[This Article Newly Inserted by Act No. 13038, Jan. 20, 2015]

Article 17-4 (Evaluation of Official Test Facilities of Wastes)

(1) The Minister of Environment may evaluate testing and analysis capabilities of official test facilities of wastes.

(2) Items to be evaluated, standards, methods, etc. for the evaluation under paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 13038, Jan. 20, 2015]

Article 17-5 (Revocation, etc. of Designation of Official Test Facilities of Wastes)

(1) If any official test facility of wastes falls under any of the following cases, the Minister of Environment shall revoke its designation:

1. Where the designation has been obtained by fraudulent or other wrongful means;
2. Where it falls under any of the disqualifications prescribed in subparagraphs of Article 26 which applies mutatis mutandis under Article 17-2 (5): Provided, That where any executive officers of a corporation falls under subparagraph 6 of Article 26, the same shall not apply if another executive officer is appointed to replace him/her within two months from the date the ground for disqualification has occurred;
3. Where it performs any affairs relating to testing or analysis during a period of business suspension.

(2) If any official test facility of wastes falls under any of the following cases, the Minister of Environment may revoke the designation or order to fully or partially suspend its business for a fixed period not exceeding six months:

1. Where it fails to meet the standards for facilities, equipment and technical capacity referred to in Article 17-2 (2);
2. Where it modifies any designated matter without obtaining designation with modification under Article 17-2 (3);
3. Where it violates any of the matters to be observed under Article 17-3;
4. Where the result of evaluation conducted under Article 17-4 fails to meet any of the standards prescribed by Ordinance of the Ministry of Environment;
5. Where it issues any waste analysis report, the content of which is different from the fact, intentionally or by gross negligence;
6. Where it fails to commence its business within one year after being designated, or suspends its business continuously for at least one year without just cause.

(3) Upon revoking designation or ordering business suspension under paragraph (1) or (2), the Minister of Environment shall publicly announce the details thereof in the way of publishing them in the Official Gazette, posting on website, etc.

[This Article Newly Inserted by Act No. 13038, Jan. 20, 2015]

Article 18 (Treatment of Industrial Wastes)

(1) Every industrial waste discharger shall either treat wastes generated from his/her place of business by him/herself or entrust the treatment of such wastes to a person who has obtained permission for waste treatment business under Article 25 (3), a person who has filed a report on waste treatment, a person who has installed and operates a waste treatment facility under Article 4 or 5, a person who has obtained permission for construction waste treatment business under Article 21 of the Construction Waste Recycling Promotion Act, or a person who has filed for registration of the business of discharging wastes into the sea

under Article 70 (1) 1 of the Marine Environment Management Act. <Amended by Act No. 10389, Jul. 23, 2010>

(2) Deleted. <by Act No. 13411, Jul. 20, 2015>

(3) A person who discharges, collects, transports, recycles, or disposes of any industrial wastes specified by Ordinance of the Ministry of Environment shall record matters concerning the delivery and receipt of wastes on the electronic information processing program under Article 45 (2), as prescribed by Ordinance of the Ministry of Environment, whenever he/she discharges, collects, transports, recycles, or disposes of such wastes: Provided, That in cases of medical wastes, such matters shall be recorded in the electronic information processing program under Article 45 (2), as prescribed by Ordinance of the Ministry of Environment, by means of radio frequency. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(4) The Minister of Environment shall make information on delivery and receipt of wastes recorded under paragraph (3) available to, and printable by a person who discharges, collects, and transports, recycles, or disposes of such wastes, and the process of discharging, collecting and transporting, recycling, or treating such wastes searchable and verifiable by the head of the competent Si/Gun/Gu or the Mayor/Do Governor having jurisdiction over the person who discharges, collects and transports, recycles, or disposes of such wastes. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(5) At least two industrial waste dischargers as specified by Ordinance of the Ministry of Environment may jointly collect, transport, recycle or disposes of wastes generated from their places of business, as prescribed by Ordinance of the Ministry of Environment. In such cases, such industrial waste dischargers may establish a joint operating organization, appoint one of them as the representative of such joint operating organization, and jointly install and operate waste treatment facilities. <Amended by Act No. 10389, Jul. 23, 2010>

(6) Deleted. <by Act No. 8613, Aug. 3, 2007>

Article 18-2 (Obligations to Prepare and Provide Hazards Information Data)

(1) An industrial waste discharger who discharges any industrial waste prescribed by Ordinance of the Ministry of Environment, shall prepare hazards information data including the following matters (hereinafter referred to as "hazards information data") by himself/herself or by entrusting to a specialized institution designated by Ordinance of the Ministry of Environment, as prescribed by Ordinance of the Ministry of Environment:

1. Kinds of industrial wastes;
2. Physical and chemical properties of industrial wastes and handling precautions;
3. Measures to be taken to control, etc. a fire or any other accident when it occurs due to industrial wastes;
4. Other matters prescribed by Ordinance of the Ministry of Environment.

(2) Where any significant matter prescribed by Ordinance of the Ministry of Environment, such as the production process or the raw materials for use, is modified after preparing the hazards information data pursuant to paragraph (1), the hazards information data shall be

reprepared by the industrial waste discharger himself/herself or by entrusting to an institution prescribed by Ordinance of the Ministry of Environment, reflecting the matters modified, as prescribed by Ordinance of the Ministry of Environment.

(3) Where an industrial waste discharger treats the relevant industrial wastes by entrustment pursuant to Article 18 (1), he/she shall provide the entrusted person with the hazards information data prepared pursuant to paragraphs (1) and (2).

(4) An industrial waste discharger and the entrusted person shall post or keep hazards information data prepared or received pursuant to paragraphs (1), (2) and (3) in each motor vehicle that collects and transports industrial wastes, wastes storage places, and waste treatment facility.

[This Article Newly Inserted by Act No. 14783, Apr. 18, 2017] <Enforcement Date : Apr. 19, 2018>> Article 18-2

Article 19 (Obligations of Industrial Waste Treatment Business Entities)

(1) A person who transports industrial wastes pursuant to Article 18 (3) shall be well aware of a delivery number needed to verify information concerning the delivery and receipt of wastes recorded on the electronic information processing program under Article 45 (2) while transporting such wastes, and notify the competent administrative agencies or their public officials of such delivery number upon their request. <Amended by Act No. 10389, Jul. 23, 2010>

(2) If a person who is entrusted to treat wastes is unable to industrial wastes specified by Ordinance of the Ministry of Environment due to business suspension, temporary shutdown, permanent closure of his/her business, prohibition, etc. from use of waste treatment facilities, he/she shall inform the waste dischargers who have entrusted him/her to treat such wastes of such fact, without delay, as prescribed by Ordinance of the Ministry of Environment.

CHAPTER III Deleted.

CHAPTER IV WASTE TREATMENT BUSINESSES, ETC.

Article 25 (Waste Treatment Business)

(1) Any person (excluding any person who intends to recycle household wastes, other than food wastes, and any person who has filed a report on waste treatment) who intends to engage in the collection, transportation, recycling, or treatment of wastes (hereinafter referred to as "waste treatment business") and to treat designated wastes shall submit a waste treatment business plan to the Minister of Environment, while such person who

intends to treat any wastes, other than designated wastes, shall submit such plan to the competent Mayor/Do Governor, as prescribed by Ordinance of the Ministry of Environment. The foregoing shall also apply to any modification to the significant matters specified by Ordinance of the Ministry of Environment. <Amended by Act No. 10389, Jul. 23, 2010>

(2) The Minister of Environment or the relevant Mayor/Do Governor shall examine a waste treatment business plan submitted under paragraph (1) in view of the following matters, and notify the person who has submitted such plan the acceptability thereof: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015>

1. Whether the person who intends to obtain permission for waste treatment business (including an executive officer, in cases of a corporation) is disqualified under Article 26;
2. Whether the location, etc. of waste treatment facilities violates other Acts;
3. Whether facilities, equipment or technical capability stated in the waste treatment business plan meets the criteria for permission under paragraph (3);
4. Whether the installation and operation of waste treatment facilities have an impact on human health or the surrounding environment, such as causing deterioration of the quality of water in a water-source protection area referred to in Article 7 of the Water Supply and Waterworks Installation Act or causing difficulty in fulfilling the Environmental Quality Standards established under Article 12 of the Framework Act on Environmental Policy.

(3) A person, in receipt of a notice of acceptability pursuant to paragraph (2) shall, within two years (six months, in cases of the waste collection and transportation business under paragraph (5) 1; three years, in cases of the waste treatment business that requires the installation of incinerators and landfill facilities) from the date of receipt of such notice, be equipped with such facilities, equipment, and technical capability in compliance with the standards prescribed by Ordinance of the Ministry of Environment, and shall thereby obtain permission for each business type, type of waste, and area of treatment from the Minister of Environment with respect to designated wastes, and from the Mayor/Do Governor with respect to other wastes. In such cases, if a person who has received a notice of acceptability pursuant to paragraph (2) files an application for permission upon being equipped with securing facilities, equipment, and technical human resources in compliance with the relevant business plan, the Minister of Environment or the Mayor/Do Governor shall grant such permission without delay. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(4) The Minister of Environment or the relevant Mayor/Do Governor may extend the period of application for permission up to one year (six months, in cases of the waste collection and transportation business under paragraph (5) 1; two years, in cases of the terminal waste treatment business under subparagraph 3 of the same paragraph and the general waste treatment business under subparagraph 4 of the same paragraph), upon request, for persons who have failed to file an application within the period referred to in paragraph (3) due to a natural disaster or any other unavoidable cause. <Newly Inserted by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(5) The classification and operational details of waste treatment business shall be as follows: <Amended by Act No. 10389, Jul. 23, 2010; Act No. 13411, Jul. 20, 2015>

1. Waste collection and transportation business: A business that either collects wastes and transports them to a recycling or treatment facility or collects and transports wastes to export them;

2. Interim waste disposal business: A business that specializes in interim disposal wastes, such as disposal by incineration, physical, chemical or biological disposal, or any other disposal in a manner acknowledged and publicly notified by the Minister of Environment as a safe way to intermediately dispose of wastes, with facilities for interim disposal of wastes;

3. Terminal waste disposal business: A business that specializes in final disposal of wastes, such as landfills (excluding discharging into the sea) with facilities for final disposal of wastes;

4. General waste disposal business: A business that performs both interim and final disposal of wastes with facilities for interim and final disposal of wastes;

5. Interim waste recycling business: A business that manufactures intermediately processed wastes with facilities for recycling of wastes;

6. Terminal waste recycling business: A business that performs the recycling of intermediately processed wastes in accordance with the principles of recycling wastes or matters to be observed under Article 13-2, with facilities for recycling of wastes;

7. General waste recycling business: A business that conducts both interim recycling business and terminal recycling business with facilities for recycling of wastes.

(6) A person who has obtained permission for waste treatment business under any of paragraph (5) 2 through 7 may directly collect and transport wastes for treatment without permission for waste collection and transportation business under subparagraph 1 of the said paragraph. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(7) When the Minister of Environment or a Mayor/Do Governor grants permission under paragraph (3), he/she may add necessary conditions thereto in order to promote the living convenience of residents, protect the neighboring environment, and efficiently manage the relevant waste treatment businesses: Provided, That the condition that restricts the business territory may be added to permission for the business of collecting and transporting household wastes, in which case the Mayor/Do Governor may not restrict the business territory to an administrative unit smaller than a Si/Gun/Gu. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(8) Any person who has obtained permission for waste treatment business under paragraph (3) (hereinafter referred to as "waste treatment business entity") shall neither allow another person to use his/her name or trade name in waster treatment nor lend his/her permit to another person. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(9) Each waste treatment business entity shall comply with the following matters to be observed: <Amended by Act No. 13038, Jan. 20, 2015>

1. He/she shall store wastes at an adequate place, such as a storage facility located within its place of business permitted or temporary storage facility approved, as prescribed by

Ordinance of the Ministry of Environment;

2. He/she shall not store wastes in excess of the volume or period prescribed by Ordinance of the Ministry of Environment;

3. He/she shall not accept entrustment of the treatment of wastes if it is impracticable to treat them at his/her own treatment facility or exceeds his/her disposal capacity;

4. In contracting for treatment of wastes, he/she shall comply with the matters to be observed, prescribed by Ordinance of the Ministry of Environment, such as the preparation and keeping of the contract.

(10) Any person who intends to engage in a business collecting, transporting, or disposing of medical wastes shall install and operate such facilities, equipment, and place of business as required for collecting, transporting, or disposing of such wastes separately from other wastes. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(11) When a person who has obtained permission under paragraph (3) intends to modify any of the significant matters prescribed by Ordinance of the Ministry of Environment, he/she shall obtain permission for such modification, and shall also file a report on modification, if the modification involves any matter other than the significant matters specified by Ordinance of the Ministry of Environment. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 13411, Jul. 20, 2015>

(12) The Minister of Environment or a Mayor/Do Governor shall notify a person who has filed a report on modification of whether his/her report is accepted, within 20 days from the date such report on modification is received pursuant to paragraph (11). <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(13) If the Minister of Environment or a Mayor/Do Governor fails to notify a person who has filed a report on modification of whether his/her report is accepted or whether the processing period is extended pursuant to Acts or subordinate statutes related to processing of civil petitions within the period prescribed in paragraph (12), the report shall be deemed accepted on the day following the last day of such period. <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(14) If any of the following applies to a person who intends to treat both designated wastes and any wastes, other than designated wastes, in the same treatment facility, such person shall be deemed to have obtained a notice of acceptability, permission, or permission for modification from the Mayor/Do Governor or have filed a report on modification to the Mayor/Do Governor in relation to such non-designated wastes: <Amended by Act No. 8613, Aug. 3, 2007>

1. Where he/she has been notified by the Minister of Environment that his/her waste treatment plan is acceptable under paragraph (2);

2. Where he/she has obtained permission for waste treatment business granted by the Minister of Environment pursuant to paragraph (3);

3. Where he/she has obtained permission for modification of waste treatment business granted by the Minister of Environment or has filed a report on modification to the Minister

of Environment pursuant to paragraph (11).

(15) Any person who seeks entitlement to the constructive notice of acceptability, permission, permission for modification, or report on modification from or to the Mayor/Do Governor under paragraph (14) in connection with any wastes other than designated wastes shall submit relevant documents prescribed by Ordinance of the Ministry of Environment simultaneously at the time he/she submits a waste treatment business plan or files an application for permission, permission for modification, or a report on modification to or with the Minister of Environment. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 14783, Apr. 18, 2017>

(16) The Minister of Environment shall, upon receiving the relevant documents under paragraph (15), hear the opinion of the competent Mayor/Do Governor, while he/she shall, upon dispatching a notice of acceptability, granting permission or permission for modification, or receiving a report on modification, inform the competent Mayor/Do Governor of the contents thereof. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 14783, Apr. 18, 2017>

(17) Any of the following persons who intends to operate a waste treatment business may file an application for permission under paragraph (3) without undergoing the procedures set forth in paragraphs (1) and (2): <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

1. A person who intends to operate a waste treatment business within an industrial complex as defined in subparagraph 8 of Article 2 of the Industrial Sites and Development Act;
2. A person who intends to operate a waste treatment business within a recycling complex under Article 34 of the Act on the Promotion of Saving and Recycling of Resources;
3. A person who intends to operate a waste recycling business under any of paragraph (5) 5 through 7.

Article 25-2 (Exclusive Container Manufacturing Business)

(1) A person who intends to engage in manufacturing of exclusive containers as a business (hereinafter referred to as "exclusive container manufacturing business") shall be registered with the Minister of Environment meeting the requirements for facilities, equipment, etc. enumerated in the standards prescribed by Ordinance of the Ministry of Environment; where he/she intends to modify any of the significant matters prescribed by Ordinance of the Ministry of Environment among the registered matters, he/she shall be subject to modification of registration; and where he/she intends to modify any of the matters prescribed by Ordinance of the Ministry of Environment among other matters, he/she shall file a report on modification.

(2) The Minister of Environment shall notify a person who has filed a report on modification of whether his/her report is accepted, within 20 days from the date his/her report is received pursuant to paragraph (1). <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(3) If the Minister of Environment fails to notify a person who has filed a report on modification of whether his/her report is accepted or whether the processing period is extended pursuant to statutes related to processing of civil petitions within the period prescribed in paragraph

(2), the report shall be deemed accepted on the day following the last day of such period. <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(4) Matters necessary for the procedures, etc. for registration, modification of registration, or reporting on modification under paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment.

(5) Matters necessary for the standards, etc. for the structure, specification, quality, and indication of exclusive containers that a person registered under paragraph (1) (hereinafter referred to as "exclusive container manufacturer") is eligible to manufacture shall be prescribed by Ordinance of the Ministry of Environment.

(6) Each exclusive container manufacturer shall undergo an inspection on whether the structure, specification, quality, and indication of manufactured exclusive containers comply with the standards referred to in paragraph (5), as prescribed by Ordinance of the Ministry of Environment. In such cases, matters necessary for inspection institutions, methods and procedures for inspection, etc. shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 14783, Apr. 18, 2017>

(7) No exclusive container manufacturer shall allow another person to use his/her name or trade name in manufacturing exclusive containers nor lend his/her certificate of registration to another person.

(8) Each exclusive container manufacturer shall comply with the matters to be observed, prescribed by Ordinance of the Ministry of Environment, such as manufacturing of the exclusive containers conforming to the standards referred to in paragraph (5). <Amended by Act No. 14783, Apr. 18, 2017>

[This Article Newly Inserted by Act No. 13038, Jan. 20, 2015]

Article 26 (Disqualifications)

None of the following persons shall be granted permission for a waste management business or registered for an exclusive container manufacturing business: <Amended by Act No. 13038, Jan. 20, 2015>

1. A minor, a person under adult guardianship, or a person under limited guardianship;
2. A person who has been declared bankrupt, but not yet reinstated;
3. A person in whose case two years have not yet passed since his/her sentence for imprisonment with labor or greater punishment declared by a court was completely fulfilled, or an exemption from the execution of the sentence was made definite;
4. A person who was sentenced to a suspended sentence of imprisonment with labor or greater punishment and is still under the period of suspension;
5. A person in whose case two years have yet to elapse since his/her permission to operate waste management business was revoked under Article 27 (excluding paragraphs (1) 2 and (2) 20) or his/her registration for an exclusive container manufacturing business was revoked under Article 27-2 (excluding paragraphs (1) 2 and (2) 2);
6. A corporation in whose case one of its executive officers falls under any provision of subparagraphs 1 through 4.

Article 27 (Revocation, etc. of Permission)

(1) If a waste treatment business entity falls under any of the following cases, the Minister of Environment or the competent Mayor/Do Governor shall revoke permission for the waste treatment business: <Amended by Act No. 11914, Jul. 16, 2013; Act No. 13038, Jan. 20, 2015>

1. Where he/she has obtained permission by fraudulent or any other wrongful means;
2. Where he/she falls under any of the disqualifications prescribed in the subparagraphs of Article 26: Provided, That the following cases where measures are taken as classified below shall be excluded:

(a) Where a person among executive officers of the corporation falls under subparagraph 6 of Article 26: To appoint an executive to replace him/her, within two months from the date a ground for disqualification occurred;

(b) Where an inheritor who has succeeded to the rights and obligations under Article 33 (1) falls under any subparagraph of Article 26: To transfer the relevant rights and obligations to another person within six months from the date the inheritance has commenced;

3. Where he/she fails to take measures required under the main sentence of Article 40 (1);

4. Where he/she fails to comply with an order for renewal issued under Article 40 (8);

5. Where he/she operates business while the business is suspended.

(2) If a waste treatment business entity falls under any of the following cases, the Minister of Environment or the relevant Mayor/Do Governor may revoke permission for his/her business or may order suspension of the whole or a part of his/her business specifying a period not exceeding six months: <Amended by Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015; Act No. 13411, Jul. 20, 2015>

1. Where he/she dumps, buries, or incinerates industrial wastes, in violation of Article 8 (1) or (2);

2. Where he/she treats wastes, in violation of Article 13 or 13-2;

2-2. Where he/she fails to take measures as ordered under Article 13-5 (5);

3. Where he/she fails to record matters concerning the delivery and receipt of waste on the electronic information processing program, in violation of Article 18 (3);

4. Where he/she fails to carry documents, etc. or notify the competent administrative agencies or public officials of the delivery number despite their request while transporting wastes, in violation of Article 19 (1);

5. Where he/she conducts business that exceeds the extent of types or details of business under Article 25 (5);

6. Where he/she violates conditions imposed under Article 25 (7);

7. Where he/she allows other persons to use his/her name or trade name in waste treatment, or lends his/her permit to another person, in violation of Article 25 (8);

8. Where he/she stores wastes or violates rules, in violation of Article 25 (9);

9. Where he/she fails to install and operate separate facilities, equipment or place of business to collect, transport, or treat wastes, in violation of Article 25 (10);

10. Where he/she modifies matters that require permission or reporting without obtaining permission for modification or filing a report on modification under Article 25 (11);
11. Where he/she fails to undergo inspections in violation of Article 30 (1) or (2), or operates waste treatment facilities without obtaining an acceptability decision, in violation of Article 30 (3);
12. Where he/she operates waste treatment facilities, not meeting standards for its maintenance under Article 31 (1);
13. Where he/she fails to comply with an order for correction or suspension of use issued under Article 31 (4);
14. Where he/she fails to comply with an order for closure issued under Article 31 (5);
15. Where he/she fails to comply with an order for measurement or inspection issued under Article 31 (7);
16. Where he/she fails to report on the succession to rights or obligations under Article 33 (3);
17. Where he/she fails to record and keep books, in violation of Article 36 (1);
18. Where he/she fails to comply with an order issued under Article 39-3, 40 (2) and (3), or 48;
19. Where he/she fails to reserve in advance a performance guarantee bond under Article 52 (1);
20. Where he/she fails to open business within one year after obtaining permission, or suspends such business closed for at least one year consecutively without just cause.

[This Article Wholly Amended by Act No. 8613, Aug. 3, 2007]

Article 27-2 (Revocation, etc. of Registration of Exclusive Container Manufacturing Business)

(1) If an exclusive container manufacturer falls under any of the following cases, the Minister of Environment shall revoke his/her registration:

1. Where he/she has been registered by fraudulent or any other wrongful means;
2. Where he/she falls under any of the disqualifications prescribed in subparagraphs of Article 26: Provided, That where there is any person who falls under subparagraph 6 of Article 26 from among executive officers of a corporation, the same shall not apply if the executive officer is replaced within two months;
3. Where he/she performs business during a period of business suspension prescribed in paragraph (2).

(2) If an exclusive container manufacturer falls under any of the following cases, the Minister of Environment may revoke his/her registration or order to fully or partially suspend his/her business for a fixed period not exceeding six months: <Amended by Act No. 14783, Apr. 18, 2017>

1. Where he/she modifies any registered matter without making modification to registration or filing a report on modification, in violation of Article 25-2 (1), or makes modification to registration or files a report on modification by wrongful means;

2. Where he/she fails to commence business or has no business performance within one year after the registration was made (excluding cases where the report on business suspension has been filed);
3. Where he/she manufactures exclusive containers by using facilities and equipment of another person which are not registered under Article 25-2 (1);
4. Where he/she manufactures exclusive containers other than those registered under Article 25-2 (1);
5. Where he/she fails to meet any of the standards for registration referred to in Article 25-2 (1);
6. Where he/she manufactures and distributes any exclusive containers not in compliance with the structure, specification, quality or indication referred to in Article 25-2 (5) or fails to undergo an inspection under Article 25-2 (6);
7. Where he/she allows another person to use his/her name or trade name in operating business by using his/her name or trade name or lends his/her certificate of registration, in violation of Article 25-2 (7);
8. Where he/she fails to comply with matters to be observed, in violation of Article 25-2 (8);
9. Where he/she refuses, obstructs, or evades an inspection of relevant documents, facilities, equipment, etc. conducted under Article 39.

[This Article Newly Inserted by Act No. 13038, Jan. 20, 2015]

Article 28 (Imposition of Penalty Surcharges on Waste Treatment Business Entities)

(1) If the Minister of Environment or the relevant Mayor/Do Governor intends to order the suspension of business to a waste treatment business entity under Article 27, but he/she finds that the suspension of business falls under any of the following cases, he/she may impose a penalty surcharge not exceeding 100 million won, in lieu of the suspension of business, as prescribed by Presidential Decree: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

1. Where the suspension of business prevents a customer of the business from entrusting waste treatment to the business, resulting in wastes accumulated in the customer's place of business, so that the customer's business is likely to suffer enormous impediment;
2. Where environmental pollution caused by wastes stored by the relevant waste treatment business entity, or wastes accumulated by a customer of the business, poses or is likely to pose a health hazard to local residents;
3. Where it is deemed necessary to require the waste treatment business entity to continue his/her business due to a natural disaster or other inevitable circumstances.

(2) The amount of a penalty surcharge to be imposed under paragraph (1) based on each type and degree of violation and other necessary matters, shall be prescribed by Presidential Decree.

(3) If a penalty surcharge imposed under paragraph (1) is not paid, the Minister of Environment shall collect the penalty surcharge in the same manner as delinquent national taxes are collected, while a Mayor/Do Governor shall collect such penalty surcharge in

accordance with the Act on the Collection, etc. of Non-Local-Tax Revenues. <Amended by Act No. 11998, Aug. 6, 2013>

(4) Penalty surcharges collected under paragraphs (1) and (3) shall be spent by each collecting authority for any of the purposes prescribed by Presidential Decree, including expansion of multi-regional waste treatment facilities.

Article 29 (Installation of Waste Treatment Facilities)

(1) Waste treatment facilities shall be installed in compliance with the standards prescribed by Ordinance of the Ministry of Environment, but no waste incineration facility shall be installed or operated, if its size is smaller than that prescribed by Ordinance of the Ministry of Environment.

(2) If any person other than those who has obtained, or have applied for, a permission for waste treatment business under Article 25 (3), intends to install any waste treatment facility, he/she shall obtain approval therefor from the Minister of Environment: Provided, That the foregoing shall not apply where it is intended to install a waste treatment facility under subparagraph 1, while a person who intends to install a waste treatment facility under subparagraph 2 shall file a report thereon with the Minister of Environment:

1. A waste treatment installed and operated by a school, a research institution, or any other person specified by Ordinance of the Ministry of Environment for the purposes of testing and research as prescribed by Ordinance of the Ministry of Environment;

2. A waste treatment facility of a scale prescribed by Ordinance of the Ministry of Environment.

(3) A person who intends to modify any of such significant matters specified by Ordinance of the Ministry of Environment, among the matters approved or reported under paragraph (2), shall obtain approval for such modification or submit a report on such modification, as applicable.

(4) A person who installs a waste treatment facility shall, when he/she intends to start operating the facility after the completion of the installation works, submit a report thereon to the head of the competent administrative agency depending upon which of the following facilities is involved:

1. For a waste treatment facility installed by a waste management business entity: The administrative agency responsible for licensing under Article 25 (3);

2. For any waste treatment facility other than those falling under subparagraph 1: The administrative agency responsible for approval or reporting under Article 29 (2).

(5) The Minister of Environment or the head of the competent administrative agency shall notify a person who has filed a report or a report on modification of whether his/her report is accepted, within 20 days from the date his/her report is received pursuant to paragraph (2), (3) or (4). <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(6) If the Minister of Environment or the head of the competent administrative agency fails to notify a person who has filed a report or a report on modification of whether his/her report is accepted or whether the processing period is extended pursuant to statutes related to

processing of civil petitions within the period prescribed in paragraph (5), the report shall be deemed accepted on the day following the last day of such period. <Newly Inserted by Act No. 14783, Apr. 18, 2017>

Article 30 (Inspection of Waste Treatment Facilities)

(1) A person who has completed the installation of any of the waste treatment facilities specified by Ordinance of the Ministry of Environment shall undergo an inspection conducted by any of the inspection agencies designated by Ordinance of the Ministry of Environment. The foregoing shall also apply to cases prescribed by Ordinance of the Ministry of Environment in which approval for, or a reporting on, modification thereof has been obtained or filed pursuant to Article 29 (3).

(2) A person who has installed and operates a waste treatment facility under paragraph (1) shall undergo an inspection conducted by an inspection agency under paragraph (1) at a regular interval prescribed by Ordinance of the Ministry of Environment. In such cases, such waste treatment facility shall be deemed to have undergone a periodic inspection if it has undergone a technical diagnosis under Article 13 of the Environmental Technology and Industry Support Act within the period set for such inspection (excluding failure to comply with a request made under Article 13 (3) of the Environmental Technology and Industry Support Act). <Amended by Act No. 10615, Apr. 28, 2011; Act No. 11465, Jun. 1, 2012>

(3) No one may use any waste treatment facility that has failed to pass an inspection under paragraph (1) or (2): Provided, That the foregoing shall not apply where such facility is operated for the purposes of inspection.

(4) Procedures and standards for the inspection conducted under paragraphs (1) and (2), guidelines for the management of inspection institutions, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

Article 31 (Management of Waste Treatment Facilities)

(1) Anyone who has installed and operates a waste treatment facility shall maintain and manage such facility in compliance with the standards for the management, as prescribed by Ordinance of the Ministry of Environment.

(2) Anyone who has installed and operates a waste treatment facility specified by Presidential Decree shall take measurements of pollutants emitted or discharged from the waste treatment facility or arrange for a measuring institution specified by Ordinance of the Ministry of Environment to take such measurements, and shall submit a report on the results thereof to the Minister of Environment.

(3) Anyone who has installed and operates a waste treatment facility specified by Presidential Decree shall examine the impact that the installation and operation of such waste treatment facility has on the neighboring area every three years, and shall submit a report on the results thereof to the Minister of Environment.

(4) If a waste treatment facility fails to meet the standards for installation under Article 29 (1) or the standards for management under paragraph (1) of this Article in its installation, maintenance or management or fails to pass an inspection conducted pursuant to Article 30

(1) or (2), the Minister of Environment may order the person who has installed and operates the facility to take measures for improving the facility within such period as prescribed by Ordinance of the Ministry of Environment or suspend the operation of such facility (excluding cases where such facility fails to pass an inspection conducted pursuant to Article 30 (1) or (2)). <Amended by Act No. 10389, Jul. 23, 2010>

(5) If a person to whom an order to improve or suspend the operation has been issued pursuant to paragraph (4) fails to perform as ordered or if it is found that such person is unable to perform as ordered, the Minister of Environment may order him/her to close the facility permanently. <Amended by Act No. 8613, Aug. 3, 2007>

(6) If a person who has installed a landfill facility for wastes fails to close his/her facility permanently within the fixed period even after receiving an order for permanent closure under paragraph (5), the Minister of Environment may require a person prescribed by Presidential Decree to take procedures for the permanent closure, such as final soil covering, on his/her behalf and use, for such expenses, advance reserve of performance guarantee bond for follow-up management deposited by the person who has installed the landfill facility for wastes under Article 52 (1). In such cases, if the amount of expenses exceeds the amount of advance reserve of performance guarantee bond for follow-up management, the amount of excess may be collected from the person who has received such order. <Newly Inserted by Act No. 13038, Jan. 20, 2015>

(7) If a person who has installed and operates a waste treatment facility fails to perform his/her obligation to take measurements of pollutants as required under paragraph (2) or fails to examine its impact on its neighboring areas as required under paragraph (3), the Minister of Environment may order the person to take such measurements of pollutants or to examine such impact within a period prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 8613, Aug. 3, 2007>

(8) The pollutants that shall be measured in accordance with paragraph (2), the cycle of such measurements, the reporting on the results thereof, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

(9) The method and scope of examinations made under paragraph (3), the report on the results thereof, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

(10) The Minister of Environment shall disclose the results of measurements taken under paragraph (2) and the results of examinations made under paragraph (3) to the public, as prescribed by the Official Information Disclosure Act.

Article 32 (Constructive Permissions, Reports, etc. under Other Statutes)

(1) Where a person who intends to install a waste treatment facility has obtained approval under Article 29 (2) or has filed a report thereon, where he/she installs a waste treatment facility under subparagraph 1 of the said paragraph, or where he/she has obtained permission for a waste treatment business under Article 25 (3), he/she shall be deemed to have obtained or filed the following permission or reports in relation to the waste treatment

facility: <Amended by Act No. 8466, May 17, 2007; Act No. 9770, Jun. 9, 2009; Act No. 10389, Jul. 23, 2010; Act No. 14532, Jan. 17, 2017>

1. Permission for, or reporting on, the installation of emission facilities under Article 23 (1) and (2) of the Clean Air Conservation Act;
2. Permission for, or reporting on, the installation of discharge facilities under Article 33 (1) and (2) of the Water Environment Conservation Act;
3. Permission for, or reporting on, the installation of emission facilities under Article 8 (1) and (2) of the Noise and Vibration Control Act.

(2) Where a person who intends to install a waste treatment facility specified by Ordinance of the Ministry of Environment in order to concurrently treat food waste and livestock excreta obtains permission for a waste treatment business under Article 25 (3) or has obtained approval or has filed a report under Article 29 (2) and installs a waste treatment facility under Article 29 (2) 1, he/she shall be deemed to have obtained the following approval or permission in relation to the waste treatment facility: <Newly Inserted by Act No. 11465, Jun. 1, 2012>

1. Approval for the installation of a public treatment facility under Article 24 (3) of the Act on the Management and Use of Livestock Excreta;
2. Permission for livestock excreta treatment business under Article 28 of the Act on the Management and Use of Livestock Excreta.

(3) Where a person who has installed a waste treatment facility files a report under Article 29 (4), he/she shall be deemed to have filed each of the following reports: <Amended by Act No. 8466, May 17, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11465, Jun. 1, 2012; Act No. 14532, Jan. 17, 2017>

1. A report on the commencement of operation of emission facilities under Article 30 of the Clean Air Conservation Act;
2. A report on the commencement of the operation of discharging facilities under Article 37 of the Water Environment Conservation Act;
3. Deleted. <by Act No. 9770, Jun. 9, 2009>

(4) Whenever the Minister of Environment or a Mayor/Do Governor intends to grant approval for the installation of a waste treatment facility or permission for a waste treatment business, he/she shall consult with the heads of relevant administrative agencies, if such facility or business involves any of the matters set forth in the subparagraphs of paragraphs (1) through (3). <Amended by Act No. 11465, Jun. 1, 2012>

(5) The Minister of Environment shall establish and publicly notify the standards for processing constructive permission, approval, or reports under paragraphs (1) through (3). <Newly Inserted by Act No. 8613, Aug. 3, 2007; Act No. 11465, Jun. 1, 2012>

Article 33 (Succession to Rights and Obligations, and Relevant Matters)

(1) Where a waste treatment business entity, a person who has obtained approval for the installation of a waste treatment facility or has filed a report thereon under Article 29, or a person who has filed a report on waste treatment, or an exclusive container manufacturer

transfers the waste treatment business, the waste treatment facility, a facility under Article 46 (1), or an exclusive container manufacturing business to another person, where such person dies; or where the corporation has merged with another corporation if such person is a corporation, the transferee, the heir, or the corporation surviving the merger or resulting from the consolidation shall succeed to the rights and obligations relating to such permission, approval, registration, or report. <Amended by Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015>

(2) Any person who has taken over a waste treatment facility, etc. from a waste treatment business entity, a person who has obtained approval for the installation of such waste treatment facility or has filed a report thereon under Article 29, a person who has filed a report on waste treatment, or an exclusive container manufacturer by an auction under the Civil Execution Act; the realization of property under the Debtor Rehabilitation and Bankruptcy Act; the sale of seized property under the National Tax Collection Act, the Customs Act or the Local Tax Collection Act; or other procedures corresponding thereto, shall succeed to the rights and obligations relating to the relevant permission, approval, registration, or report. In such cases, permission or approval granted to the former waste treatment business entity or the person who has installed the waste treatment facility, the report filed by the person who has filed a report on waste treatment, or the registration of the exclusive container manufacturer, becomes void. <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015; Act No. 14476, Dec. 27, 2016>

(3) A person who has succeeded to the rights and obligations under paragraph (1) or (2) shall report the fact to the Minister of Environment or the competent Mayor/Do Governor, as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 10389, Jul. 23, 2010>

(4) Upon receipt of a report under paragraph (3), the Minister of Environment or a Mayor/Do Governor shall verify whether the reported fact is legitimate. <Newly Inserted by Act No. 11914, Jul. 16, 2013>

(5) The Minister of Environment or a Mayor/Do Governor shall notify a person who has filed a report of whether his/her report is accepted, within 20 days from the date his/her report is received pursuant to paragraph (3). <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(6) If the Minister of Environment or a Mayor/Do Governor fails to notify a person who has filed a report of whether his/her report is accepted or whether the processing period is extended pursuant to Acts or subordinate statutes related to processing of civil petitions within the period prescribed in paragraph (5), the report shall be deemed accepted on the day following the last day of such period. <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(7) When the Minister of Environment or a Mayor/Do Governor intends to access the electronic computer network or data concerning criminal history records and certification of family relation in order to verify the legitimacy under paragraph (4), he/she may request cooperation from the head of the relevant agency, and the head of the relevant agency shall comply therewith, in the absence of just cause. <Newly Inserted by Act No. 11914, Jul. 16,

2013>

CHAPTER V GUIDANCE FOR AND SUPERVISION OVER WASTE TREATMENT BUSINESS ENTITIES, ETC.

Article 34 (Technical Manager)

(1) A person who has installed and manages a waste treatment facility specified by Presidential Decree shall employ a technical manager who shall take charge of technical affairs relating to the maintenance and management of such facility (including where the person him/herself holds qualifications as a technical manager and takes charge of such technical management) or shall make a contract on technical management services with a person specified by Presidential Decree as capable of taking charge of technical management.

(2) Matters necessary for qualifications as technical managers, contracts on technical management services, etc. under paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment.

Article 35 (Training Courses for Persons in Charge of Waste Treatment and Relevant Persons)

(1) Any of the following persons shall take training courses provided by an educational institution designated by Ordinance of the Ministry of Environment: <Amended by Act No. 13038, Jan. 20, 2015; Act No. 13411, Jul. 20, 2015>

1. Any of the following persons in charge of waste treatment:

- (a) Technical personnel who engage in waste treatment business;
- (b) Technical managers of a waste treatment facility;
- (c) Any other persons prescribed by Presidential Decree;

2. Technical personnel of an official test facility of wastes;

3. Technical personnel of an environmental assessment institute designated under Article 13-4.

(2) An employer of a person who is obligated to take the training courses under paragraph (1) shall provide the person with an opportunity to take the courses.

(3) Every employer of a person who is obligated to take the training courses under paragraph (1) shall bear the expenses incurred for such training courses under the provisions of the said paragraph.

Article 36 (Keeping of Books and Records)(1) The following persons shall keep books, as prescribed by Ordinance of Ministry of Environment, to record the details of the wastes generated, discharged, and treated (which refer to the quantity of wastes generated, the status of recycled wastes, the performance of treatment, etc., in cases of persons referred to in subparagraph 1-2; refer to the record, etc. of production, sales volume, and quality inspection of exclusive containers, in cases of persons referred to in subparagraph 4-2; or refer to the quantity of products, containers, etc. generated, imported, and sold and the quantity retrieved and treated, in cases of persons referred to in subparagraph 7), and shall retain the records for three years (two years in cases falling under subparagraph 1) from the

date of the last entry: Provided, That this may not apply where the electronic information processing program is used under Article 45 (2): <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

1. A person obligated to report his/her plan to restrain the generation of food wastes and properly treat such wastes under Article 15-2 (2);
 - 1-2. A person obligated to file a report under Article 17 (2);
 - 1-3. A person obligated to obtain verification under Article 17 (5);
 2. The representative of a joint operating organization responsible for jointly collecting, transporting, recycling or disposing of industrial wastes under Article 18 (5);
 3. Deleted; <by Act No. 14783, Apr. 18, 2017>
 4. A waste treatment business entity;
 - 4-2. An exclusive container manufacturer;
 5. A person who has installed and operates a waste treatment facility;
 6. A person who has filed a report on waste treatment;
 7. A manufacturer or an importer referred to in Article 47 (2).
- (2) Deleted. <by Act No. 8613, Aug. 3, 2007>

Article 37 (Reporting on Shutdown, Closure, etc. of Business)

(1) When a waste treatment business entity, a person who has filed a report on waste treatment, an official test facility of wastes, or an exclusive container manufacturer temporarily shuts down, permanently closes down, or resumes his/her business, he/she shall file a report thereon with the competent administrative agency for the related permission, reporting, designating or registering as prescribed by Ordinance of the Ministry of Environment. The same shall also apply to an environmental assessment institute. <Amended by Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015; Act No. 13411, Jul. 20, 2015>

(2) The Minister of Environment or a Mayor/Do Governor shall notify a person who has filed a report of whether his/her report is accepted, within 20 days from the date his/her report is received pursuant to paragraph (1). <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(3) If the Minister of Environment or a Mayor/Do Governor fails to notify a person who has filed a report of whether his/her report is accepted or whether the processing period is extended pursuant to statutes related to processing of civil petitions within the period prescribed in paragraph (2), the report shall be deemed accepted on the day following the last day of such period. <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(4) A person who intends to file a report on temporary shutdown or permanent closedown of his/her business under paragraph (1) (limited to a waste treatment business entity and a person who has filed a report on waste treatment) shall treat all the wastes stored by him/her, as prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015>

Article 38 (Submission of Reports)

(1) The following persons shall submit an annual report on the wastes generated and treated, to the head of the competent administrative agency for the related permission, approval, reporting, or verification by no later than the end of February of the following year, as prescribed by Ordinance of the Ministry of Environment: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 14783, Apr. 18, 2017>

1. A person who has installed and operates a waste treatment facility under Article 4 or 5;
- 1-2. A person who has reported his/her plan to restrain the generation of food wastes and properly treat such wastes under Article 15-2 (2);
2. A person who has filed a report as an industrial waste discharger under Article 17 (2);
3. A person who has obtained verification under Article 17 (5);
- 3-2. Deleted; <by Act No. 14783, Apr. 18, 2017>
4. A waste treatment business entity;
5. A person who has filed a report on waste treatment.

(2) A person registered for exclusive container manufacturing business under Article 25-2 (1) shall submit a report on the production, delivery from warehouses, and quality inspection of exclusive containers to the head of the registration agency by no later than the end of February, the following year, as prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 13038, Jan. 20, 2015>

(3) If a person obligated to submit a report under paragraph (1) or (2) fails to submit it within the prescribed period, the Minister of Environment, a Mayor/Do Governor, or the head of a Si/Gun/Gu may order the person to submit it within the prescribed period. <Amended by Act No. 11914, Jul. 16, 2013; Act No. 13038, Jan. 20, 2015>

(4) A person obligated to submit a report under paragraph (1) or (2) may request in writing, by no later than January 15 of each year, the person to whom he/she has entrusted to treat industrial wastes to provide him/her with data and information necessary for preparing the report under paragraph (1), and the person so entrusted shall, upon receiving such request, provide him/her with such data and information in writing by no later than January 31 of the year. <Amended by Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 13038, Jan. 20, 2015>

(5) An official test facility of wastes shall submit an annual report on the testing and analysis of wastes by the end of February, the following year to the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 13038, Jan. 20, 2015>

Article 39 (Reporting, Inspection, etc.)

(1) The Minister of Environment, a Mayor/Do Governor, or the head of a Si/Gun/Gu may require relevant persons to submit such report or data as prescribed by Ordinance of the Ministry of Environment within the extent necessary for the enforcement of this Act, and may also assign public officials in charge to enter an office or a place of business of such persons or a bonded area under Article 154 of the Customs Act to inspect the documents, facilities,

equipment, etc. therein. <Amended by Act No. 10389, Jul. 23, 2010>

(2) Public officials who enter an office or a place of business for the purpose of an inspection under paragraph (1) shall carry with them identification verifying their authority and show it to interested persons.

(3) In cases of an inspection under paragraph (1), an inspection plan including the date and time, purpose, objects, etc. of the inspection shall be notified to the business entity subject to such inspection by no later than seven days prior to the inspection: Provided, That this shall not apply where the inspection is urgently required or it is deemed that a prior notice may make it impracticable to attain the objective of the inspection. <Newly Inserted by Act No. 10389, Jul. 23, 2010>

Article 39-2 (Issuance of Order for Treatment of Wastes to Waste Dischargers)

(1) Where an industrial waste discharger keeps wastes in excess of the period of storage set out in the standards for and methods of waste treatment under Article 13, the Minister of Environment or the Mayor/Do Governor may order such industrial waste discharger to treat such wastes within a specified period.

(2) Where some wastes still remain not properly treated even after an order for treatment has been issued under paragraph (1) to the industrial waste discharger, the Minister of Environment or the Mayor/Do Governor may order a person who succeeds to the rights and obligations pursuant to Article 17 (8) or (9) to treat such wastes within a specified period. <Amended by Act No. 14783, Apr. 18, 2017>

[This Article Newly Inserted by Act No. 10389, Jul. 23, 2010]

Article 39-3 (Issuance of Order for Treatment of Wastes to Waste Treatment Business Entities, etc.)

The Minister of Environment or a Mayor/Do Governor who seeks to issue an order for the revocation of permission or suspension of business under Article 27 to a waste treatment business entity or to issue an order for the closedown of facilities or prohibition of waste treatment under Article 46 (7) to a person who has filed a report on waste treatment shall order the waste treatment business entity or the person who has filed a report on waste treatment to treat the wastes kept by him/her within a specified period.

[This Article Newly Inserted by Act No. 10389, Jul. 23, 2010]

Article 40 (Treatment of Abandoned Wastes by Waste Treatment Business Entities, etc.)

(1) Upon obtaining permission under Article 25 (3) or completing a report under Article 46 (1), waste treatment business entities specializing in industrial wastes and persons who have filed a report on waste treatment shall take any of the following measures before the commencement of business to prevent wastes from remaining abandoned: Provided, That the foregoing shall not apply to persons specified by Ordinance of the Ministry of Environment, among persons who have filed a report on waste treatment, in consideration of the possibility of abandonment of wastes, etc.: <Amended by Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

1. To pay a certain amount of contribution to the mutual aid association for waste treatment business under Article 43;

2. To purchase an insurance policy covering the cost of waste treatment;

3. Deleted. <by Act No. 8613, Aug. 3, 2007>

(2) If a waste treatment business entity or a person who has filed a report on waste treatment under paragraph (1) suspends his/her business or discontinues operation of his/her business due to the closure, etc. of business (excluding the discontinuance of operation following an order for the revocation of permission or suspension of business under Article 27 or for the closure of facilities or prohibition of waste treatment under Article 46 (7)) in excess of the period prescribed by Presidential Decree, the Minister of Environment or the Mayor/Do Governor may order the waste treatment business entity or the person who has filed a report on waste treatment to treat the wastes in his/her possession within a given period. <Amended by Act No. 10389, Jul. 23, 2010>

(3) If some wastes remain untreated even after an order for treatment has been issued under paragraph (2) or Article 39-3 to a waste treatment business entity or a person who has filed a report on waste treatment, the Minister of Environment or the competent Mayor/Do Governor may order a person who has succeeded to the rights and obligations pursuant to Article 33 (1) or (2) to treat those wastes within a given period. <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

(4) If a person in receipt of an order issued under paragraph (2) or (3) fails to comply with the order, the Minister of Environment or the Mayor/Do Governor may take any of the following measures for the treatment of the wastes in his/her possession (hereinafter referred to as "abandoned wastes"): Provided, That the foregoing shall not apply where a person who falls under the proviso to paragraph (1) fails to comply with such order: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

1. If he/she has paid a certain amount of contribution under paragraph (1) 1: To issue an order to treat the abandoned waste to the mutual aid association for waste treatment business under Article 41;

2. If he/she has purchased an insurance policy under paragraph (1) 2: To treat the abandoned wastes and request the insurer to pay the insurance proceeds;

3. Deleted. <Amended by Act No. 8613, Aug. 3, 2007>

(5) The effective term of the insurance policy, the timing for purchasing such insurance policy, the guidelines for calculation of insurance amount under paragraph (1) 2, and any other necessary matters shall be prescribed by Presidential Decree. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(6) Deleted. <by Act No. 8613, Aug. 3, 2007>

(7) If any of the following applies to a person who has taken a measure under paragraph (1) 2, he/she shall renew the insurance policy under subparagraph 2 of the said paragraph (hereinafter referred to as "performance guarantee insurance"), as prescribed by

Presidential Decree: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

1. When the effective term of the performance guarantee insurance expires;
2. When it is necessary to change the insured amount of coverage of the performance guarantee insurance because the type or permissible quantity of possession of wastes subject to waste treatment as permitted under Article 25 (3) or the unit price for such waste treatment is changed or the quantity of wastes in his/her possession exceeds that under paragraph (9) of the said Article.

(8) If any person obligated to renew the performance guarantee insurance policy under paragraph (7) fails to do so, the Minister of Environment or the Mayor/Do Governor may order the person to renew the performance guarantee insurance policy. <Amended by Act No. 8613, Aug. 3, 2007>

(9) Any person who has purchased a performance guarantee insurance policy or has renewed it in accordance with paragraph (7) or (8) shall submit the original copy of insurance policy proving the renewal to the Minister of Environment or the Mayor/Do Governor, as prescribed by Presidential Decree.

(10) Any person who intends to substitute any of the measures under the subparagraphs of paragraph (1) for any other measure under the said subparagraphs shall notify the Minister of Environment or the Mayor/Do Governor of his/her substituting measure without delay after he/she takes such measure.

(11) When the Minister of Environment or the Mayor/Do Governor orders the mutual aid association for waste treatment business to treat abandoned wastes pursuant to paragraph (4) 1, he/she shall issue such order to the extent prescribed by Presidential Decree in regard to their quantity and the period of time for such treatment. <Amended by Act No. 10389, Jul. 23, 2010>

(12) If the mutual aid association for waste treatment business under Article 41 has treated wastes in excess of the contribution paid by any waste treatment business entity or any person who has filed a report on waste treatment pursuant to paragraph (1) 1, it may exercise the right to demand a reimbursement as regards the amount in excess against the waste treatment business entity, the person who has filed a report on waste treatment, or the person who has succeeded to the rights and obligations pursuant to Article 33 (1) or (2). <Newly Inserted by Act No. 10389, Jul. 23, 2010>

Article 41 (Establishment of Mutual Aid Associations for Waste Treatment Business)

(1) Waste treatment business entities specializing in treatment of industrial wastes and persons who have filed a report on waste treatment may establish a mutual aid association for the waste treatment business (hereinafter referred to as the "Association") in order to underwrite various guarantees to waste treatment businesses and to guarantee the treatment of abandoned wastes. <Amended by Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

(2) The Association shall be a corporation.

(3) The Association shall be duly formed upon the completion of registration for its establishment with the registry office having jurisdiction over its principal place of business.

Article 42 (Affairs of Association)

The Association may perform the following affairs:

1. Mutual aid business to treat wastes abandoned by its members;
2. Affairs to provide bid bonds, performance bonds, and advance payment bonds necessary for its members to operate waste treatment business.

[This Article Wholly Amended by Act No. 11914, Jul. 16, 2013]

Article 43 (Contributions)

(1) Each member of the Association shall pay such contribution required for the mutual aid business under Article 42 to the Association.

(2) The guidelines for computing a contribution under paragraph (1), the procedure for the payment of such contribution, and other necessary matters shall be stipulated by the Association's articles of association.

(3) No member of the Association may get a refund of his/her contribution paid under Article 40 (1) 1 if he/she has any abandoned wastes, in violation of an order issued under Article 40 (2): Provided, That this shall not apply where he/she treats such abandoned wastes before the Minister of Environment or the competent Mayor/Do Governor issues an order for the treatment thereof pursuant to Article 40 (4) 1. <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 11465, Jun. 1, 2012>

Article 44 (Application Mutatis Mutandis of the Civil Act)

Except as otherwise provided for in this Act, the provisions governing incorporated associations under the Civil Act shall apply mutatis mutandis to the Association.

CHAPTER VI SUPPLEMENTARY PROVISIONS

Article 45 (Electronic Processing of Waste Delivery and Receipt)

(1) The Minister of Environment shall establish and operate an electronic information processing organization (hereinafter referred to as "electronic information processing organization") to manage the following information and records (hereinafter referred to as "electronic information"): <Amended by Act No. 8613, Aug. 3, 2007; Act No. 11914, Jul. 16, 2013; Act No. 14783, Apr. 18, 2017>

1. Information entered under Article 14 (6) and required for the calculation of charges for food wastes;
2. Information entered under Article 18 (3) about the transfer and receipt of wastes;
3. Records entered under paragraph (3).

(2) The Minister of Environment shall establish and operate an electronic information processing program (hereinafter referred to as "electronic information processing program") to efficiently process electronic information. In such cases, the costs necessary for electronic information processing may be wholly or partially collected from users of such program. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(3) When an industrial waste discharger has recorded the details of affairs prescribed by

Presidential Decree, such as reports, on the electronic information processing program, as prescribed by Ordinance of the Ministry of Environment, such duties are deemed performed. <Amended by Act No. 8613, Aug. 3, 2007>

(4) The Minister of Environment shall retain electronic information for three years from the date it is recorded. <Newly Inserted by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(5) The Minister of Environment, the Mayor/Do Governor, or the person who has transmitted an electronically processed record relating to affairs under paragraph (3) may request the head of the electronic information processing organization in writing to provide him/her with the data relevant to the electronically processed records concerned, and the head of the electronic information processing organization shall, upon receipt of such request, then provide such data within the period prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 8613, Aug. 3, 2007>

Article 46 (Reporting on Waste Treatment)

(1) Any of the following persons shall have facilities and equipment meeting the standards prescribed by Ordinance of the Ministry of Environment and file a report thereon with the competent Mayor/Do Governor: <Amended by Act No. 10389, Jul. 23, 2010>

1. A person who recycles wastes, such as animal or vegetable remnants in a manner that they are used as compost for his/her own farmland, as prescribed by Ordinance of the Ministry of Environment;

2. A person who collects or transports waste papers, steel scrap, or other wastes prescribed by Ordinance of the Ministry of Environment or recycles them in the manner prescribed by Ordinance of the Ministry of Environment, with a place of business of such size as prescribed by Ordinance of the Ministry of Environment;

3. A person who collects or transports waste tires, waste home appliances, or other wastes prescribed by Ordinance of the Ministry of Environment.

(2) If a person who has filed a report on waste treatment intends to modify any of the matters prescribed by Ordinance of the Ministry of Environment, he/she shall file a report thereon with the competent Mayor/Do Governor. <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(3) A Mayor/Do Governor shall notify a person who has filed a report or a report on modification of whether his/her report is accepted, within 20 days from the date his/her report is received pursuant to paragraph (1) or (2). <Amended by Act No. 14783, Apr. 18, 2017>

(4) If a Mayor/Do Governor fails to notify a person who has filed a report or a report on modification of whether his/her report is accepted or whether the processing period is extended pursuant to statutes related to processing of civil petitions within the period prescribed in paragraph (3), the report shall be deemed accepted on the day following the last day of such period. <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(5) A person who has filed a report on waste treatment under paragraph (1) 1 or 2 may collect and transport wastes for recycling without obtaining permission for waste collection and transportation business under Article 25 (3) or filing a report under paragraph (1)

2. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013>

(6) A person who has filed a report on waste treatment shall comply with the rules prescribed by Ordinance of the Ministry of Environment, such as the treatment of wastes in the manner reported. <Newly Inserted by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

(7) A Mayor/Do Governor may issue an order to close related facilities or to prohibit carrying-in or treating wastes (hereinafter referred to as "prohibition of treatment") for a period not exceeding six months, if a person who has filed a report on waste treatment falls under any of the following circumstances: <Newly Inserted by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 13411, Jul. 20, 2015>

1. Where he/she fails to comply with the rules under paragraph (6);
2. Where he/she fails to comply with the standards for and methods of waste treatment under Article 13 or the principles of recycling wastes and matters to be observed under Article 13-2;
3. Where he/she fails to take any of the measures required under the main sentence of Article 40 (1).

(8) No person on whom a disposition for closure of facilities has been issued pursuant to paragraph (7) shall file a report on waste treatment under paragraph (1) again within one year from the date such disposition has been issued. <Newly Inserted by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

Article 46-2 (Imposition of Penalty Surcharges on Persons who Have Reported on Waste Treatment)

(1) Where a person who has filed a report on waste treatment falls under any subparagraph of Article 46 (7) so the competent Mayor/Do Governor shall order him/her to prohibit waste treatment, and the Mayor/Do Governor deems that the prohibition of waste treatment falls under any of the following subparagraphs, the Mayor/Do Governor may impose a penalty surcharge not exceeding 20 million won, in lieu of the prohibition of waste treatment, as prescribed by Presidential Decree: <Amended by Act No. 10389, Jul. 23, 2010>

1. Where the prohibition of waste treatment concerned prevents a customer of the relevant treatment from entrusting waste treatment to a waste treatment business entity, resulting in wastes accumulated in the customer's place of business, so the customer's business is likely to suffer enormous impediment;
2. Where a health hazard occurs, or is likely to occur, to the neighboring residents due to environmental pollution caused by wastes stored by the person who has filed a report on waste treatment, or wastes left stored by a customer of the relevant treatment;
3. Where it is deemed necessary to allow the waste treatment business entity to continue his/her business due to a natural disaster or any other unavoidable cause.

(2) The amount of a penalty surcharge, based on each type and degree of violation, subject to the imposition of a penalty surcharge under paragraph (1), and other necessary matters shall be prescribed by Presidential Decree.

(3) If a penalty surcharge imposed under paragraph (1) is not paid, the penalty surcharge shall be collected in accordance with the Act on the Collection, etc. of Local Non-Tax Revenue. <Amended by Act No. 11998, Aug. 6, 2013>

(4) Penalty surcharges collected under paragraph (1) and (3) shall become the revenue of the relevant City/Do, and shall be used only for any of the purposes of use prescribed by Presidential Decree, such as the expansion of multi-regional waste treatment facilities.

[This Article Newly Inserted by Act No. 8613, Aug. 3, 2007]

Article 47 (Measures for Retrieving Wastes)

(1) In manufacturing, processing, importing, or selling products, the materials, containers, and products which have been used in such manufacturing, processing, importation, or sale become wastes, every business entity shall ensure that such wastes are easily retrieved and treated.

(2) Where any material, container, or product referred to in paragraph (1) contains any substance specified by Ordinance of the Ministry of Environment among the air pollutants, water contaminants, and toxic substances as defined in Article 2 of the Clean Air Conservation Act, Article 2 of the Water Environment Conservation Act, and Article 2 of the Chemicals Control Act, or where wastes are generated from any material, container, or product manufactured, processed, or sold in large quantities, the relevant business entity shall retrieve and treat such material, container, or product in accordance with methods publicly notified by Ordinance of the Ministry of Environment for retrieving and treating such wastes. In this regard, when the Minister of Environment intends to publicly notify such methods, he/she shall consult in advance with the heads of relevant central administrative agencies. <Amended by Act No. 8466, May 17, 2007; Act No. 11862, Jun. 4, 2013; Act No. 14532, Jan. 17, 2017>

(3) If a business entity fails to retrieve and treat wastes in accordance with methods publicly notified under paragraph (2), the Minister of Environment may recommend him/her to take measures necessary for retrieving and treating them within a given period.

(4) If a person in receipt of such recommendation under paragraph (3) fails to do as recommended, the Minister of Environment may order him/her to take measures required for retrieving and treating such wastes properly.

Article 48 (Orders to Take Measures for Treatment of Wastes)

If it is discovered that wastes have been treated in a manner inconsistent with the standards for and methods of waste treatment under Article 13 or the principles of recycling wastes and matters to be observed under Article 13-2, or have been treated or buried, in violation of Article 8 (1) or (2), the Minister of Environment, the competent Mayor/Do Governor or the head of the competent Si/Gun/Gu may order any of the following persons to change the method of treating such wastes, to suspend the treatment or carrying-in of wastes, or to take any other necessary measures, specifying a period: <Amended by Act No. 13411, Jul. 20, 2015>

1. The person who has treated such wastes;

2. The person who has entrusted another person to treat such wastes without verification required under Article 17 (1) 3;

3. The owner of the land in which such wastes have been dumped or buried, if the landowner him/herself has treated such wastes in the land or has allowed another person to use the land for treatment of such wastes.

[This Article Wholly Amended by Act No. 10389, Jul. 23, 2010]

Article 48-2 (Presentation of Opinions)

When the Minister of Environment, a Mayor/Do Governor or the head of a Si/Gun/Gu intends to issue an order under Article 39-2, 39-3, 40 (2) or (3), or 48, he/she shall notify the relevant person in advance of the grounds for the order to give him/her an opportunity to present his/her opinion about it: Provided, That the foregoing shall not apply where such order is urgently required for the protection of water supply sources or the conservation of environment.

[This Article Newly Inserted by Act No. 10389, Jul. 23, 2010]

Article 49 (Vicarious Execution)

Where a person to whom an order has been issued to take a measure under Article 39-2, 39-3, 40 (2) or (3), or 48 fails to comply with such order, the Minister of Environment, the competent Mayor/Do Governor, or the head of the competent Si/Gun/Gu may take such measures vicariously in accordance with the Administrative Vicarious Execution Act and recover the expenses incurred in taking such measures. <Amended by Act No. 10389, Jul. 23, 2010>

Article 50 (Follow-Up Management of Waste Treatment Facilities)

(1) If a person who has installed a waste treatment facility upon obtaining approval for installation or filing a report on installation under Article 29 (2) (including persons who have obtained permission for waste management business under Articles 25) intends to discontinue the operation of the facility installed thereby or close such facility, he/she shall file a report thereon with the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment. In such cases, where a person intends to discontinue the operation of a landfill facility for wastes or close such facility, he/she shall successfully pass an inspection conducted by an inspection agency under Article 30 (1), as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 11465, Jun. 1, 2012; Act No. 11914, Jul. 16, 2013>

(2) Upon receipt of a report pursuant to the former part of paragraph (1), the Minister of Environment shall notify a person who has filed the report of whether his/her report is accepted, within the period prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(3) If the Minister of Environment fails to notify a person who has filed a report or a report on modification of whether his/her report is accepted or whether the processing period is extended pursuant to statutes related to processing of civil petitions within the period prescribed in paragraph (2), the report shall be deemed accepted on the day following the

last day of such period. <Newly Inserted by Act No. 14783, Apr. 18, 2017>

(4) Where the result of an inspection conducted under paragraph (1) turns out to be a failure, the Minister of Environment may order the person who has installed and operates the relevant facility to improve the facility within a fixed period, as prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 13038, Jan. 20, 2015>

(5) Any of the following persons shall implement follow-up management, such as installation and operation of facilities for the treatment of leachate, as prescribed by Ordinance of the Ministry of Environment, in order to prevent such facility from causing hazards to the health or property of residents or its surrounding environment: <Amended by Act No. 13038, Jan. 20, 2015; Act No. 13411, Jul. 20, 2015>

1. A person who has filed a report under paragraph (1) and discontinues the operation of any of the landfill facilities for wastes prescribed by Presidential Decree or closed down such facility permanently;

2. A person who has received an order to close down the facility permanently pursuant to Article 31 (5) while using landfill facilities for wastes prescribed by Presidential Decree.

(6) A person obligated to implement follow-up management under paragraph (5) shall undergo a periodic inspection conducted by an inspection agency under Article 30 (1) on whether follow-up management has been properly implemented, as prescribed by Ordinance of the Ministry of Environment. In such cases, a waste treatment facility shall be deemed to have passed a periodic inspection if it has undergone a technical diagnosis under Article 13 of the Environmental Technology and Industry Support Act (excluding where a person fails to comply with a request made under Article 13 (3) of the Environmental Technology and Industry Support Act). <Newly Inserted by Act No. 11465, Jun. 1, 2012; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

(7) If a person obligated to implement follow-up management under paragraph (5) fails to perform his/her obligations properly or fails to pass a periodic inspection conducted under paragraph (6), the Minister of Environment may order the person to take corrective measures within a given period, as prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 11465, Jun. 1, 2012; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

(8) If the person to whom an order has been issued under paragraph (7) fails to take any corrective measure within the given period, the Minister of Environment may assign a person designated by Presidential Decree to take the corrective measures on behalf of the person, and may spend the performance bond for follow-up management, the performance guarantee insurance money, or the advance reserve for the follow-up management guarantee bond paid under Article 51 or 52 (hereinafter referred to as "performance bond for follow-up management or similar") for expenses incurred in taking such measures. In such cases, if such expenses exceed the amount of the performance bond for follow-up management or similar, the Minister of Environment may collect the excess from the person to whom such order has been issued. <Amended by Act No. 11465, Jun. 1, 2012; Act No.

13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

Article 51 (Performance Guarantee Bond for Follow-up Management of Waste Treatment Facilities)

(1) If it is found that a landfill facility for wastes subject to follow-up management under Article 50 (5) may cause serious hazards to the health or property of residents or its surrounding environment due to leakage of leachate, etc. after the discontinuance of its operation or permanent closure of the facility, the Minister of Environment may, in order to secure the guarantee for discontinuance of its operation (including permanent closure) and the performance of the follow-up management (hereinafter referred to as "follow-up management, etc."), require the person who installed such facility to deposit all the necessary expenses incurred in relation to follow-up management, etc. in the Environment Reconstruction Special Account under the Framework Act on Environmental Policy, as prescribed by Presidential Decree: Provided, That in any of the following cases, the person may be exempted from the obligation to deposit necessary follow-up management expenses or may be allowed to substitute such deposit of all or some of the follow-up management expenses, as prescribed by Presidential Decree: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

1. If the person carries an insurance policy that guarantees the performance of follow-up management;
2. If the person has accumulated a reserve for expenses necessary for follow-up management under Article 52;
3. Any other cases specified by Presidential Decree.

(2) The expenses that a person who installed a waste landfill facility under paragraph (1) shall deposit (hereinafter referred to as "performance guarantee bond for follow-up management") shall be calculated in accordance with the guidelines prescribed by Presidential Decree, and the time and procedures for the payment of such expenses and other necessary matters shall be prescribed by Presidential Decree.

(3) The performance guarantee bond for follow-up management under paragraph (2) shall be collected in the same manner as delinquent national taxes are collected if it has not been paid on or before the deadline for payment.

(4) If a person who installed a waste landfill facility has completely or partially performed his/her obligations for follow-up management, which he/she is obligated to perform each year, the Minister of Environment shall refund a portion of the performance guarantee bond for follow-up management, equivalent to the amount calculated according to the guidelines prescribed by Presidential Decree in proportion to the amount of his/her performance. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

Article 52 (Advance Reserve for Performance Guarantee Bond for Follow-Up Management)

(1) The Minister of Environment may require, as prescribed by Presidential Decree, a person who has installed a landfill facility for wastes as prescribed by Presidential Decree to deposit,

in advance, all the necessary expenses for the follow-up management, etc. in the Environment Reconstruction Special Account under the Framework Act on Environmental Policy, as prescribed by Presidential Decree, before the volume of buried wastes exceeds 50/100 of the permitted disposal capacity or the modification thereto granted under Article 25 (3) and (11) or in the approval or the modification thereto granted under Article 29 (2) and (3): Provided, That the advance deposit of performance guarantee bond for follow-up management may be substituted by any of the following cases: <Amended by Act No. 13038, Jan. 20, 2015>

1. Where an insurance for guarantee of follow-up management, etc. is purchased;
2. Where any collateral (excluding landfill facilities for wastes) corresponding to all or part of expenses required for follow-up management, etc. is provided.

(2) If the amount of an advance reserve deposited by a person who has installed a facility under paragraph (1) exceeds the performance guarantee bond for follow-up management under Article 51 (1), the Minister of Environment shall refund the difference, as prescribed by Presidential Decree. <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010>

Article 53 (Purposes of Use of Performance Guarantee Bond for Follow-up Management)

The performance guarantee bond for follow-up management and an advance reserve under Articles 51 and 52 shall be used for the following purposes: <Amended by Act No. 13038, Jan. 20, 2015>

1. Refunding the performance guarantee bond for follow-up management and the advance reserve for follow-up management of a landfill facility;
2. Vicariously executing the follow-up management of a landfill facility;
3. Vicariously executing the final soil covering referred to in Article 31 (6);
4. Other purposes of use prescribed by Presidential Decree.

Article 54 (Restrictions, etc. on Use of Land Subsequent to Discontinuance of Operation or Closure)

If it is found that a landfill facility for wastes subject to follow-up management under Article 50 (5) is likely to cause a serious hazard to the health or property of residents or its surrounding environment because leachate leaks therefrom, embankments are washed away, or any other event occurs after the operation of the facility is discontinued or it is closed, the Minister of Environment may place a restriction on the use of the land on which the facility is situated, as prescribed by Presidential Decree, by requiring the person who holds the ownership in, or any right, other than the ownership in, the land to use the land only for growing trees, developing grasslands, or installing park facilities under subparagraph 4 of Article 2 of the Act on Urban Parks, Green Areas, Etc., sports facilities under subparagraph 1 of Article 2 of the Installation and Utilization of Sports Facilities Act, cultural facilities under Article 2 (1) 3 of the Culture and Arts Promotion Act, or new and renewable energy facilities under subparagraph 3 of Article 2 of the Act on the Promotion of

the Development, Use and Diffusion of New and Renewable Energy during the period set by Presidential Decree. <Amended by Act No. 10389, Jul. 23, 2010; Act No. 11965, Jul. 30, 2013; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

Article 55 (Coordination in Waste Treatment Services)

(1) Whenever the Minister of Environment or the Mayor/Do Governor coordinates waste management services with local governments pursuant to Article 4 (2) or (4), he/she may request them to jointly use a certain waste treatment facility, including a waste landfill facility, if necessary to do so, and may also request them to prepare support measures necessary for conserving and improving the living environment of the area in which such facility is installed. In such cases, the relevant local government shall comply with such requests, in the absence of special circumstances. <Amended by Act No. 11914, Jul. 16, 2013>

(2) In order to efficiently coordinate waste treatment services with local governments pursuant to paragraph (1), the Minister of Environment may inspect and evaluate the actual status of waste treatment services and the installation and operation of waste treatment facilities. <Newly Inserted by Act No. 11914, Jul. 16, 2013>

(3) Further details about the methods and procedures for evaluations conducted under paragraph (2) shall be prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 11914, Jul. 16, 2013>

Article 56 (State Subsidies, etc.)

(1) The State may fully or partially subsidize local governments, within budgetary limits, for expenses incurred in installing waste treatment facilities. <Amended by Act No. 11914, Jul. 16, 2013>

(2) The Minister of Environment may consider the results of the evaluation conducted under Article 55 (2) when he/she intends to subsidize expenses pursuant to paragraph (1). <Newly Inserted by Act No. 11914, Jul. 16, 2013>

Article 57 (Assistance for Expenses to Be Incurred for Installation of Waste Treatment Facilities)

The State or the heads of local governments may, if deemed necessary, grant financial aid to a person who intends to install a waste treatment facility.

Article 58 (Reporting on Performance of Waste Management)

(1) The Mayors/Do Governors shall report the performance of waste management conducted within their jurisdiction during the preceding year to the Minister of Environment by no later than March 31 as prescribed by Ordinance of the Ministry of Environment.

(2) The Minister of Environment may require the Mayors/Do Governors or the heads of Sis/Guns/Gus to report the performance of guidance and control conducted in relation to the affairs of waste management within the extent required for the enforcement of this Act.

Article 58-2 (Korea Waste Association)

(1) Persons specified by Presidential Decree, including persons who have installed and operate waste treatment facilities, waste treatment businesses, and waste-related organizations, may establish the Korea Waste Association (hereafter referred to as the

"Association") with approval from the Minister of Environment in order to facilitate the development of the waste-related industry, including surveys and research on wastes, the development of technologies, and the dissemination of information. <Amended by Act No. 11914, Jul. 16, 2013>

(2) The Association shall be incorporated as a corporation.

(3) The Association shall perform the following affairs: <Newly Inserted by Act No. 11914, Jul. 16, 2013>

1. Guidance, surveys, and research for the development of the waste industry;
2. Public relations activities, education, and training regarding wastes;
3. Any other affairs specified by Presidential Decree.

(4) The organization and management of the Association and other necessary matters shall be prescribed by Presidential Decree to the extent necessary for achieving the objectives of its establishment. <Amended by Act No. 11914, Jul. 16, 2013>

(5) Except as otherwise provided for in this Act, the provisions concerning incorporated associations in the Civil Act shall apply mutatis mutandis to the Association. <Amended by Act No. 11914, Jul. 16, 2013>

[This Article Newly Inserted by Act No. 8613, Aug. 3, 2007]

Article 59 (Fees)

(1) Any of the following persons shall pay a fee, as prescribed by Ordinance of the Ministry of Environment: <Amended by Act No. 13411, Jul. 20, 2015>

1. A person who intends to undergo an environmental assessment of recycling under Article 13-3 (1);
2. A person who intends to obtain permission under Article 25 (3);
3. A person who intends to have his/her exclusive container manufacturing business registered under Article 25-2 (1);
4. A person who intends to undergo an inspection under Article 30 (1) or (2).

(2) Any of the following institutions may collect a fee, as determined and publicly notified by the Minister of Environment, from persons prescribed in the relevant subparagraph: <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

1. An inspection institution under Article 25-2 (6): Persons who intends to undergo an inspection of exclusive containers;
2. An official test facility of wastes: Persons who intend to entrust the testing and analysis of wastes.

Article 60 (Criteria for Administrative Dispositions)

The criteria for administrative dispositions made against violations of this Act and the orders issued under this Act shall be prescribed by Ordinance of the Ministry of Environment.

Article 61 (Hearing)

The Minister of Environment or the Mayor/Do Governor shall, whenever he/she intends to make any of the following dispositions, hold a hearing: <Amended by Act No. 13038, Jan.

20, 2015; Act No. 13411, Jul. 20, 2015>

1. To revoke approval under Article 13-3 (6);
2. To revoke designation of an environmental assessment institute under Article 13-4 (6);
3. To revoke designation of an official test facility of wastes under Article 17-5;
4. To revoke permission under Article 27;
5. To revoke registration under Article 27-2;
6. To issue an order to close down a waste treatment facility under Article 31 (5);
7. To order to close down waste treatment facilities under Article 46 (7).

Article 62 (Delegation and Entrustment of Authority or Affairs)

(1) Part of the authority vested by the Minister of Environment under this Act may be delegated to each Mayor/Do Governor or the head of an affiliated agency, as prescribed by Presidential Decree. <Amended by Act No. 11465, Jun. 1, 2012>

(2) Duties of the Minister of Environment or the head of a local government under this Act may be partially entrusted to the Korea Environment Corporation, associations, or other relevant specialized institutions, as prescribed by Presidential Decree. <Newly Inserted by Act No. 10389, Jul. 23, 2010; Act No. 13038, Jan. 20, 2015>

(3) The Minister of Environment or the head of a local government may, if deemed necessary for the efficient management and operation of a waste treatment facility or similar installed under this Act, entrust a person capable of managing and operating it to implement such management and operation, as prescribed by Ordinance of the Ministry of Environment (ordinance of the relevant local government where the head of the local government entrusts such management and operation). <Amended by Act No. 10389, Jul. 23, 2010>

Article 62-2 (Legal Fiction as Public Officials for Purposes of Penalty Provisions)

Any person, other than a public official from among those who perform the duties entrusted pursuant to Article 62 (2) or (3) shall be deemed a public official for the purposes of the penalty provisions of Articles 129 through 132 of the Criminal Act.

[This Article Newly Inserted by Act No. 10389, Jul. 23, 2010]

Article 62-3 (Regulatory Review)

The Minister of Environment shall examine the appropriateness of the following matters every third anniversary counting from the following base dates (referring to the period that ends on the day immediately before each relevant base date of every third year) from each relevant base date, and take measures for improvement, etc.:

1. Matters concerning the approval for recycling of wastes under Article 13-3 (3): July 1, 2016;
2. Matters concerning the revocation of approval for recycling of wastes under Article 13-3 (6): July 1, 2016.

[This Article Newly Inserted by Act No. 13411, Jul. 20, 2015]

CHAPTER VII PENALTY PROVISIONS

Article 63 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than

seven years, or by a fine not exceeding 70 million won. In such cases, imprisonment with labor and a fine may be imposed concurrently: <Amended by Act No. 11914, Jul. 16, 2013; Act No. 12321, Jan. 21, 2014; Act No. 13411, Jul. 20, 2015>

1. A person who treats industrial wastes in violation of Article 8 (1);
2. A person who buries or incinerates industrial wastes, in violation of Article 8 (2);
3. A person who recycles any wastes without obtaining approval for recycling of wastes, in violation of Article 13-3 (3).

Article 64 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than five years, or by a fine not exceeding 50 million won: <Amended by Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 12321, Jan. 21, 2014; Act No. 13038, Jan. 20, 2015; Act No. 13411, Jul. 20, 2015>

1. A person who continues to recycle wastes in spite of the revocation of approval under Article 13-3 (6);
2. A person who obtains designation or designation with modification by deceit or other wrongful means;
3. A person who conducts any environmental assessment of recycling without obtaining designation required under Article 13-4 (1);
4. A person who manufactures or distributes standard waste bags and marks without a contract executed for vicarious implementation under Article 14 (7);
5. A person who operates a waste treatment business without permission under Article 25 (3);
6. A person who has obtained permission for a waste treatment business under Article 25 (3) by fraudulent or other wrongful means;
7. A person who manufactures exclusive containers without being registered under Article 25-2 (1);
8. A person who are registered for exclusive container manufacturing business under Article 25-2 (1) by fraudulent or other wrongful means;
9. A person who fails to comply with an order for closure issued under Article 31 (5).

Article 65 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than three years, or by a fine not exceeding 30 million won: Provided, That imprisonment with labor and a fine may be imposed concurrently in cases falling under subparagraph 1, 6 or 11: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11465, Jun. 1, 2012; Act No. 11914, Jul. 16, 2013; Act No. 12321, Jan. 21, 2014; Act No. 13038, Jan. 20, 2015; Act No. 13411, Jul. 20, 2015; Act No. 14783, Apr. 18, 2017>

1. A person who buries wastes, in violation of Article 13;
2. A person who prepares a report on environmental assessment of recycling by deceit or other wrongful means and submits it to the Minister of Environment, in violation of Article 13-3 (3);

3. A person who modifies any significant matters without obtaining designation with modification, in violation of Article 13-4 (2);
4. A person who allows another person to conduct an environmental assessment of recycling by using his/her name or trade name or lends a certificate of designation as an environmental assessment institute, in violation of Article 13-4 (4);
5. A person who conducts an environmental assessment of recycling by using another person's name or trade name or borrows a certificate of designation as an environmental assessment institute;
6. A person who collects, transports, or recycles food wastes among industrial wastes, in violation of Article 15-2 (3);
7. A person who obtains designation or designation with modification as an official test facility of wastes by deceit or other wrongful means;
8. A person who performs affairs of an official test facility of wastes without obtaining designation or designation with modification under Article 17-2 (1) or (3);
9. An official test facility of wastes that conducts testing and analysis of wastes during a period of business suspension fixed under Article 17-5 (2);
10. An official test facility of wastes that intentionally issues a report on the results of analysis of wastes differently from the fact;
11. A person who treats industrial wastes, in violation of Article 18 (1);
12. and 13. Deleted; <by Act No. 14783, Apr. 18, 2017>
14. A person who amends permitted matters of waste treatment business without obtaining permission for modification under Article 25 (11);
15. A person who fails to undergo an inspection, in violation of Article 25-2 (6);
16. A person who performs business during a period of business suspension fixed under Article 27;
17. A person who performs business during a period of business suspension fixed under Article 27-2 (2);
18. A person who installs a waste treatment facility without approval, in violation of Article 29 (2);
19. A person who operates a waste treatment facility without an inspection or verification on conformity, in violation of Article 30 (1) through (3);
20. A person who fails to comply with an order for improvement or for suspension of operation issued under Article 31 (4);
21. A person who fails to comply with an order issued under Article 39-2, 39-3, or 40 (2), (3) or (4) 1;
22. A person who fails to comply with an order to take measures under Article 47 (4);
23. A person who fails to comply with an order to take measures under Article 48;
24. A person who discontinues the operation of a landfill facility for wastes or closes down such facility without passing an inspection, in violation of the latter part of Article 50 (1);
25. A person who fails to comply with an order for improvement issued under Article 50 (4);

26. A person who fails to undergo a periodic inspection, in violation of Article 50 (6);
27. A person who fails to comply with an order to take corrective measures issued under Article 50 (7).

Article 66 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment with labor for not more than two years, or by a fine not exceeding 20 million won: <Amended by Act No. 8613, Aug 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 12321, Jan. 21, 2014; Act No. 13038, Jan. 20, 2015; Act No. 13411, Jul. 20, 2015; Act No. 14783, Apr. 18, 2017>

1. A person who contaminates the surrounding environment in the course of waste treatment, in violation of Article 13 or 13-2 (excluding a violation of subparagraph 1 of Article 65);
- 1-2. A person who recycles any wastes, in violation of the conditions for approval imposed under Article 13-3 (5);
- 1-3. A person who fails to comply with an order to take measures under Article 13-5 (5);
2. A person who fails to file a report or who files a false report, in violation of Article 46 (1);
3. Deleted; <by Act No. 8613, Aug. 3, 2007>
4. A person who fails to obtain verification under Article 17 (5) or verification on modification under Article 17 (6) (excluding modification of trade name under subparagraph 1), or who discharges, transports, or treats designated wastes in a manner different from the details verified or the modification made thereto;
- 4-2. An official test facility of wastes which allows another person to use his/her name in performing any affairs relating to the testing and analysis of wastes or lends its certificate of designation to another person, in violation of Article 17-3 (1);
- 4-3. An official test facility of wastes which issues, by gross negligence, a waste analysis report, the details of which are different from the fact;
5. Deleted; <by Act No. 13038, Jan. 20, 2015>
6. A person who conducts his/her business in deviation from the type and scope of business under Article 25 (5);
7. A person who breaches a condition under Article 25 (7);
8. A person who allows another person to use his/her name or trade name in waste treatment or who lends his/her permit to another person, in violation of Article 25 (8);
9. A person who stores wastes, in violation of Article 25 (9) 1 or 2;
- 9-2. A person who fails to obtain registration for modification required under Article 25-2 (1) or who has deceptively obtained registration for modification and modifies registered matters;
- 9-3. A person who lets another person manufacture exclusive containers by using his/her name or trade name or lends his/her certificate of registration to another person, in violation of Article 25-2 (7);
- 9-4. A person who distributes exclusive containers which fail to meet the standards referred to in Article 25-2 (5), in violation of Article 25-2 (8);
10. A person who installs or operates a waste incineration facility, although the installation of which is prohibited, in violation of Article 29 (1);

11. A person who installs a waste treatment facility without filing a report in violation of Article 29 (2);
12. A person who modifies any of the matters approved without approval for such modification in violation of Article 29 (3);
13. A person who maintains and manages a waste treatment facility not in compliance with the guidelines for management under Article 31 (1) and consequently contaminates the surrounding environment;
14. A person who fails to comply with an order to take a measurement or make an assessment under Article 31 (7);
15. and 16. Deleted; <by Act No. 10389, Jul. 23, 2010>

Article 67 (Joint Penalty Provisions)

If a representative of a corporation, or an agent, employee, or any other servant of a corporation or an individual commits an offense described in Articles 63 through 66 in connection with the duties of such corporation or individual, not only shall the offender be punished accordingly, but such corporation or individual also shall be punished by the fine provided in the relevant Article: Provided, That this shall not apply where the corporation or individual has not been negligent in giving due attention and supervision concerning the relevant duties to prevent such offense.

[This Article Wholly Amended by Act No. 10389, Jul. 23, 2010]

Article 68 (Administrative Fines)

(1) Any of the following persons shall be punished by an administrative fine not exceeding ten million won: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 13038, Jan. 20, 2015; Act No. 13411, Jul. 20, 2015; Act No. 14783, Apr. 18, 2017>

1. A person who treats wastes, in violation of Article 13 or 13-2 (excluding any person who falls under subparagraph 1 of Article 65 or subparagraph 1 of Article 66);
- 1-2. A person who collects, transports, or recycles food wastes, among household wastes, in violation of Article 15-2 (3);
- 1-3. A person who fails to file a report, or files a false report, in violation of Article 17 (2);
- 1-4. A person who fails to comply with the matters to be observed under Article 17-3 (2) and (3);
- 1-5. A person who fails to record matters concerning the delivery and receipt of wastes or to record in accordance with the methods prescribed by Ordinance of the Ministry of Environment, or who falsely records them, in violation of Article 18 (3);
2. Deleted; <by Act No. 13038, Jan. 20, 2015>
3. A person who fails to comply with the rules under Article 25 (9) 3 or 4;
- 3-2. A person who fails to file a report on modification under Article 25-2 (1) or modifies any registered matter after filing a false report;
- 3-3. A person who fails to comply with the matters to be observed under Article 25-2 (8) (excluding cases falling under subparagraph 9-4 of Article 66);

4. A person who maintains or manages a waste treatment facility in a manner not in compliance with the guidelines for such management; who fails to take measurements of pollutants; or who fails to examine impacts on the neighboring area, in violation of Article 31 (1) through (3) (excluding any person who falls under subparagraph 14 of Article 66);
 5. A person who fails to appoint a technical manager or fails to enter into a contract for technical management services, in violation of Article 34 (1);
 6. A person who fails to comply with an order to submit a report issued under Article 38 (3) (applicable only to persons specified in Article 38 (1) 3 and 4);
 - 6-2. A person who fails to take a measure required under each subparagraph of Article 40 (1);
 7. Deleted; <by Act No. 10389, Jul. 23, 2010>
 8. A person who fails to comply with an order for renewal issued under Article 40 (8);
 9. A person who manufactures or distributes any recycled products or materials, using wastes that fail to meet the Hazard Criteria, in violation of Article 13-5 (2);
 10. A person who continues to treat wastes during a period for which waste treatment is prohibited under Article 46 (7).
- (2) Any of the following persons shall be punished by an administrative fine not exceeding three million won: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>
1. A person who fails to perform verification required by Article 17 (1) 1;
 - 1-2. A person who entrusts someone to provide him/her with a service without verification under Article 17 (1) 3;
 - 1-3. A person who fails to obtain verification on modification of a trade name under Article 17 (6) 1;
 2. A person who fails to perform his/her obligations to comply with the guidelines publicly notified pursuant to Article 17 (7);
 3. Deleted; <by Act No. 13411, Jul. 20, 2015>
 4. Deleted; <by Act No. 10389, Jul. 23, 2010>
 5. A person who modifies any reported matter without filing a report on such modification required under Article 17 (2), 25 (11), 29 (3), or 46 (2);
 6. A person who fails to notify a delivery number to the competent administrative agency or public officials despite their request, in violation of Article 19 (1);
 7. A person who fails to give notice, in violation of Article 19 (2);
 8. Deleted; <by Act No. 8613, Aug. 3, 2007>
 9. A person who fails to file a report, in violation of Article 37 (1) or to treat all the wastes stored by him/her, in violation of paragraph (4) of the same Article;
 - 9-2. A person who fails to submit a report by the deadline required under Article 38 (1) or prepares and submits a false report (limited to persons under Article 38 (1) 3);
 - 9-3. A person who fails to comply with an order to submit a report issued under Article 38 (3) (excluding cases of paragraph (1) 6);

9-4. A person who fails to submit a report referred to in Article 38 (5) until the deadline or submits a false report;

10. A person who fails to renew the performance guarantee insurance policy under Article 40 (7);

11. A person who fails to comply with the rules under Article 46 (6);

12. A person who sells standard waste bags and marks without a contract executed for vicarious implementation under Article 14 (7).

(3) Any of the following persons shall be punished by an administrative fine not exceeding one million won: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

1. A person who dumps, buries, or incinerates household wastes, in violation of Article 8 (1) or (2);

2. A person who fails to comply with an order to take a measure, in violation of Article 8 (3);

3. A person who violates Article 15 (1) or (2);

4. A person who fails to comply with the rules prescribed by municipal ordinance, in violation of Article 15-2 (1);

4-2. A person who fails to report his/her plan to restrain the generation of food wastes and properly treat such wastes, in violation of Article 15-2 (2);

4-3. A person who fails to enter information about the delivery and receipt of wastes in the electronic information processing program within a prescribed period or enters inadequate information in the program, in violation of Article 18 (3);

5. A person who commences the operation of a facility without filing a report under Article 29 (4);

6. A person who fails to take a training course or fails to provide an opportunity to take training courses in violation of Article 35 (1) or (2);

7. A person who fails to keep or retain books under Article 36 (1) or who makes a false entry therein;

8. A person who fails to submit a report under Article 38 (1) or (2) within a prescribed period or who prepares and submits a false report (excluding persons under paragraph (2) 9-2);

9. A person who fails to submit materials necessary for preparing a report under Article 38 (4) within a prescribed period or who prepares and submits a false report;

10. A person who fails to file a report under Article 39 (1) or who files a false report;

11. A person who refuses, obstructs, or evades an access or inspection under Article 39 (1);

12. A person who fails to submit the original copy of insurance policy under Article 40 (9);

13. A person who fails to notify any modification under Article 40 (10);

14. A person who fails to file a report under Article 50 (1).

(4) Administrative fines referred to in paragraphs (1) through (3) shall be imposed and collected by the Minister of Environment, a Mayor/Do Governor, or the head of a Si/Gun/Gu, based on the affairs of his/her respective jurisdiction, as prescribed by Presidential Decree. <Amended by Act No. 11465, Jun. 1, 2012; Act No. 11914, Jul. 16, 2013>

(5) through (7) Deleted. <by Act No. 10389, Jul. 23, 2010>

Article 68 (Administrative Fines)

(1) Any of the following persons shall be punished by an administrative fine not exceeding ten million won: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 13038, Jan. 20, 2015; Act No. 13411, Jul. 20, 2015; Act No. 14783, Apr. 18, 2017>

1. A person who treats wastes, in violation of Article 13 or 13-2 (excluding any person who falls under subparagraph 1 of Article 65 or subparagraph 1 of Article 66);

1-2. A person who collects, transports, or recycles food wastes, among household wastes, in violation of Article 15-2 (3);

1-3. A person who fails to file a report, or files a false report, in violation of Article 17 (2);

1-4. A person who fails to comply with the matters to be observed under Article 17-3 (2) and (3);

1-5. A person who fails to record matters concerning the delivery and receipt of wastes or to record in accordance with the methods prescribed by Ordinance of the Ministry of Environment, or who falsely records them, in violation of Article 18 (3);

1-6. A person (including any specialized institution entrusted with the preparation of hazards information data) who fails to prepare hazards information data, in violation of Article 18-2 (1), or prepares it by deceit or other wrongful means; <<Enforcement Date: Apr. 19, 2018>>

1-7. A person who fails to provide hazards information data prepared pursuant to Article 18-2 (1) to an assignee, in violation of paragraph (3) of the same Article; <<Enforcement Date: Apr. 19, 2018>>

2. Deleted; <by Act No. 13038, Jan. 20, 2015>

3. A person who fails to comply with the rules under Article 25 (9) 3 or 4;

3-2. A person who fails to file a report on modification under Article 25-2 (1) or modifies any registered matter after filing a false report;

3-3. A person who fails to comply with the matters to be observed under Article 25-2 (8) (excluding cases falling under subparagraph 9-4 of Article 66);

4. A person who maintains or manages a waste treatment facility in a manner not in compliance with the guidelines for such management; who fails to take measurements of pollutants; or who fails to examine impacts on the neighboring area, in violation of any provision of Article 31 (1) through (3) (excluding any person who falls under subparagraph 14 of Article 66);

5. A person who fails to appoint a technical manager or fails to enter into a contract for technical management services, in violation of Article 34 (1);

6. A person who fails to comply with an order to submit a report issued under Article 38 (3) (applicable only to persons specified in Article 38 (1) 3 and 4);

6-2. A person who fails to take a measure required under each subparagraph of Article 40 (1);

7. Deleted; <by Act No. 10389, Jul. 23, 2010>

8. A person who fails to comply with an order for renewal issued under Article 40 (8);
 9. A person who manufactures or distributes any recycled products or materials, using wastes that fail to meet the Hazard Criteria, in violation of Article 13-5 (2);
 10. A person who continues to treat wastes during a period for which waste treatment is prohibited under Article 46 (7).
- (2) Any of the following persons shall be punished by an administrative fine not exceeding three million won: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>
1. A person who fails to perform verification required by Article 17 (1) 1;
 - 1-2. A person who entrusts someone to provide him/her with a service without verification under Article 17 (1) 3;
 - 1-3. A person who fails to obtain verification on modification of a trade name under Article 17 (6) 1;
 2. A person who fails to perform his/her obligations to comply with the guidelines publicly notified pursuant to Article 17 (7);
 3. Deleted; <by Act No. 13411, Jul. 20, 2015>
 4. Deleted; <by Act No. 10389, Jul. 23, 2010>
 5. A person who modifies any reported matter without filing a report on such modification required under Article 17 (2), 25 (11), 29 (3), or 46 (2);
 6. A person who fails to notify a delivery number to the competent administrative agency or public officials despite their request, in violation of Article 19 (1);
 7. A person who fails to give notice, in violation of Article 19 (2);
 8. Deleted; <by Act No. 8613, Aug. 3, 2007>
 9. A person who fails to file a report, in violation of Article 37 (1) or to treat all the wastes stored by him/her, in violation of paragraph (4) of the same Article;
 - 9-2. A person who fails to submit a report by the deadline required under Article 38 (1) or prepares and submits a false report (limited to persons under Article 38 (1) 3);
 - 9-3. A person who fails to comply with an order to submit a report issued under Article 38 (3) (excluding cases of paragraph (1) 6);
 - 9-4. A person who fails to submit a report referred to in Article 38 (5) until the deadline or submits a false report;
 10. A person who fails to renew the performance guarantee insurance policy under Article 40 (7);
 11. A person who fails to comply with the rules under Article 46 (6);
 12. A person who sells standard waste bags and marks without a contract executed for vicarious implementation under Article 14 (7);
 - 12-2. A person (including any specialized institution entrusted with the preparation of hazards information data) who fails to reprepare hazards information data even after any significant matter is modified, in violation of Article 18-2 (2), or prepares it by deceit or other wrongful means; <<Enforcement Date: Apr. 19, 2018>>

12-3. A person who fails to provide hazards information data repprepared pursuant to Article 18-2 (2) to an entrusted person, in violation of paragraph (3) of the same Article; < <Enforcement Date: Apr. 19, 2018>>

12-4. A person who fails to post or keep hazards information data, in violation of Article 18-2 (4). < <Enforcement Date: Apr. 19, 2018>>

(3) Any of the following persons shall be punished by an administrative fine not exceeding one million won: <Amended by Act No. 8613, Aug. 3, 2007; Act No. 10389, Jul. 23, 2010; Act No. 11914, Jul. 16, 2013; Act No. 13038, Jan. 20, 2015; Act No. 14783, Apr. 18, 2017>

1. A person who dumps, buries or incinerates household wastes, in violation of Article 8 (1) or (2);

2. A person who fails to comply with an order to take a measure, in violation of Article 8 (3);

3. A person who violates Article 15 (1) or (2);

4. A person who fails to comply with the rules prescribed by municipal ordinance, in violation of Article 15-2 (1);

4-2. A person who fails to report his/her plan to restrain the generation of food wastes and properly treat such wastes, in violation of Article 15-2 (2);

4-3. A person who fails to enter information about the delivery and receipt of wastes in the electronic information processing program within a prescribed period or enters inadequate information in the program, in violation of Article 18 (3);

5. A person who commences the operation of a facility without filing a report under Article 29 (4);

6. A person who fails to take a training course or fails to provide an opportunity to take training courses in violation of Article 35 (1) or (2);

7. A person who fails to keep records or retain books under Article 36 (1) or who makes a false entry therein;

8. A person who fails to submit a report under Article 38 (1) or (2) within a prescribed period or who prepares and submits a false report (excluding persons under paragraph (2) 9-2);

9. A person who fails to submit materials necessary for preparing a report under Article 38 (4) within a prescribed period or who prepares and submits a false report;

10. A person who fails to file a report under Article 39 (1) or who files a false report;

11. A person who refuses, obstructs, or evades an access or inspection under Article 39 (1);

12. A person who fails to submit the original copy of insurance policy under Article 40 (9);

13. A person who fails to notify any modification under Article 40 (10);

14. A person who fails to file a report under Article 50 (1).

(4) Administrative fines referred to in paragraphs (1) through (3) shall be imposed and collected by the Minister of Environment, a Mayor/Do Governor, or the head of a Si/Gun/Gu, based on the affairs of his/her respective jurisdiction, as prescribed by Presidential Decree. <Amended by Act No. 11465, Jun. 1, 2012; Act No. 11914, Jul. 16, 2013>

(5) through (7) Deleted. <by Act No. 10389, Jul. 23, 2010>

ADDENDA (Omitted)

37. Enforcement Decree of the Wastes Control Act

[Enforcement Date 21. Jan, 2016.] [Presidential Decree No.26907, 19. Jan, 2016., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Decree is to prescribe the matters delegated by the Wastes Control Act and matters necessary for the enforcement thereof.

Article 1-2 (Definitions)

The term “waste treatment facilities” in this Decree means interim and terminal disposal facilities, among waste treatment facilities.

[This Article Newly Inserted by Presidential Decree No. 23126, Sep. 7, 2011]

Article 2 (Scope of Places of Business)

"Any other places of business specified by Presidential Decree" in subparagraph 3 of Article 2 of the Wastes Control Act (hereinafter referred to as the "Act") means any of the following places of business: <Amended by Presidential Decree No. 20244, Sep. 27, 2007; Presidential Decree No. 24543, May 28, 2013; Presidential Decree No. 25951, Dec. 31, 2014>

1. A place of business in which a terminal wastewater treatment facility has been installed and operated under Article 48 (1) of the Water Quality and Aquatic Ecosystem Conservation Act;
2. A place of business in which a public sewage treatment facility has been installed and operated under subparagraph 9 of Article 2 of the Sewerage Act;
3. A place of business in which a public excreta treatment facility has been installed and operated under subparagraph 11 of Article 2 of the Sewerage Act;
4. A place of business in which a public treatment facility has been installed and operated under Article 24 of the Act on the Management and Use of Livestock Excreta;
5. A place of business in which a waste treatment facility has been installed and operated under Article 29 (2) of the Act (including facilities installed by a person who has obtained permission for waste treatment business under Article 25 (3) of the Act);
6. A place of business from which designated wastes as defined in subparagraph 4 of Article 2 of the Act are discharged;
7. A place of business which discharges at least an average of 300 kilograms of wastes daily;
8. A place of business which discharges wastes from construction works under subparagraph 4 of Article 2 of the Framework Act on the Construction Industry in an amount of at least five tons (which refer to the quantity of wastes discharged therefrom during a period from the commencement to the completion of the works);
9. A place of business which discharges wastes in an amount of at least five tons (which refer to the quantity of wastes discharged therefrom during a period from the commencement to the completion of the works) from a series of construction works

(excluding the construction works under subparagraph 8) or other works.

Article 3 (Types of Designated Wastes)

The designated wastes as defined in subparagraph 4 of Article 2 of the Act are as listed in attached Table 1.

Article 4 (Types of Medical Wastes)

The medical wastes as defined in subparagraph 5 of Article 2 of the Act are as listed in attached Table 2. <Amended by Presidential Decree No. 20478, Dec. 28, 2007>

Article 5 (Waste Treatment Facilities)

The waste treatment facilities as defined in subparagraph 8 of Article 2 of the Act are as listed in attached Table 3.

Article 6 (Waste Minimization Facilities)

"Facilities specified by Presidential Decree" in subparagraph 9 of Article 2 of the Act means those listed in attached Table 4.

Article 6-2 (Hearing of Opinions before Approval for Master Plans for Waste Treatment)

When the Minister of Environment intends to approve a master plan for waste treatment or any modification of such plan pursuant to Article 9 (1) of the Act, he/she may hear opinions from the Korea Environment Corporation under the Korea Environment Corporation Act (hereinafter referred to as the "Korea Environment Corporation") and other institutions specializing in waste treatment with regard to technical matters. <Amended by Presidential Decree No. 26907, Jan. 19, 2016>

[This Article Newly Inserted by Presidential Decree No. 22631, Jan. 21, 2011]

CHAPTER II DISCHARGE AND TREATMENT OF WASTES

Article 7 (Standards, etc. for Waste Treatment)(1) The standards and methods for the treatment of wastes under the main sentence of Article 13 (1) of the Act shall be as follows: <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 24119, Sep. 24, 2012; Presidential Decree No. 25082, Jan. 14, 2014; Presidential Decree No. 25951, Dec. 31, 2014; Presidential Decree No. 26447, Jul. 24, 2015>

1. Wastes shall be collected, transported, and stored after being sorted by type, characteristics, conditions, recyclability, combustibility or incombustibility, etc.: Provided, That this may not apply to wastes, other than medical wastes, which fall under any of the following cases:

(a) Where wastes that shall be treated by the same standards and method are treated at the same waste treatment or recycling facility or at the same place;

(b) Where a mixture of at least two kinds of wastes is generated at the same time;

(c) Where each Metropolitan Autonomous City, Special Self-Governing Province, or Si/Gun/Gu involved (the Special Metropolitan City and other Metropolitan Cities are not included in the category of Si, while Gu refers only to an autonomous Gu; hereinafter the same shall apply) has different rules on the classification of wastes under the relevant municipal ordinance of each Metropolitan Autonomous City, Special Self Governing

Province, or Si/Gun/Gu, considering a plan for the separate collection of wastes or specific local conditions;

2. Wastes shall be kept from being blown off by wind or from leaking, in the course of collection, transportation, or storage. Water leaching therefrom shall be contained so as not to be drained out, and water seeping therefrom shall, if any, be treated, as prescribed by Ordinance of the Ministry of Environment;

3. Wastes shall not be transported to any place, other than a place at which they can be properly treated, recycled, or stored: Provided, That the foregoing shall not apply where any of the following persons collects wastes on a vehicle with a smaller loading capacity and transport wastes to a place specified by Ordinance of the Ministry of Environment to transfer wastes to a vehicle with a larger loading capacity:

(a) A person who has obtained permission for waste collection and transportation business under Article 25 (5) 1 of the Act;

(b) A person specified by Ordinance of the Ministry of Environment, among persons who have filed a report on waste treatment pursuant to Article 46 (1) 3 of the Act;

4. Wastes generated in the course of a recycling process or an interim treatment process and intermediately processed wastes under the proviso to Article 13 (1) of the Act (hereinafter referred to as “intermediately processed wastes”) shall be deemed wastes newly generated, and thus a person who has generated such wastes shall take such measures as reporting under Article 17 (2) of the Act or obtaining verification under paragraph (3) of the same Article of the Act, and shall treat them properly in accordance with a method appropriate for the treatment of wastes involved;

5. Wastes shall be treated at a waste treatment or recycling facility: Provided, That the foregoing shall not apply where a person who discharges household wastes treats the wastes in accordance with Article 15 (1) of the Act or where wastes are treated in any other manner prescribed by Ordinance of the Ministry of Environment for appropriate treatment without causing any trouble to the conservation of the living environment;

6. Every person who keeps wastes in storage for the treatment or recycling of such wastes shall keep such wastes in the storage facility at the same place of business where the relevant waste treatment or recycling facility is located: Provided, That the foregoing shall not apply where a person who obtains permission for his/her waste recycling business falling under any provision of Article 25 (5) 5 through 7 of the Act recycles industrial wastes (hereinafter referred to as “wastes recycling business entity”), as prescribed by Ordinance of the Ministry of Environment;

7. Persons who have filed a report on waste treatment pursuant to Article 46 (1) of the Act (hereinafter referred to as “person who has filed a report on waste treatment”) and persons who have installed and operated a multi-regional waste treatment facility under Article 5 (1) of the Act (including persons who are entrusted to install and operate such facility pursuant to Article 5 (2) of the Act) shall treat wastes within a period prescribed by Ordinance of the Ministry of Environment: Provided, That the foregoing shall not apply where an unavoidable

cause, such as a fire, a serious accident, a labor dispute, or abandoned wastes delivered and kept in storage, makes it impracticable to treat wastes within the prescribed period, subject to approval from the Special Metropolitan City Mayor, a Metropolitan City Mayor, a Metropolitan Autonomous City Mayor, a Do Governor, or the Governor of a Special Self-Governing Province (hereinafter referred to as "Mayor/Do Governor"), or the head of the competent environment office of the river system or the head of regional environmental office;

8. A mixture of at least two different kinds of wastes shall be treated in any of the following manners if it is difficult to separate them:

(a) A mixture of wastes containing an waste acid or alkali shall be properly treated after being treated by the process of neutralization;

(b) A mixture of wastes subject to ordinary incineration shall be treated by the process of high-temperature incineration if it contains any waste requiring high-temperature incineration;

9. Where wastes are buried in landfills, such wastes shall be treated at a landfill facility equipped with facilities for cutting off water-flow and collecting water, tanks for regulating the volume of water, and facilities for treating seeping water, and also with a facility for gas incineration or power generation and fuel-making: Provided, That such wastes may be treated at a landfill facility not equivalent to above-mentioned facilities in whole or in part if it is recognized that there is no likelihood of water seeping or gas being produced therefrom nor any possibility of contaminating its surrounding environment by water seeping or gas being produced therefrom, as prescribed by Ordinance of the Ministry of Environment;

10. Where any wastes in solid state other than designated wastes among the dust, burnt wastes, and sludge, the concentration index of hydrogen ion contained in which is at least 12.5 or no higher than 2.0 are treated by landfill, they shall be landfilled after undergoing an interim treatment process by means of neutralization, etc. so as not to disrupt the performance of facilities for cutting off water-flow and facilities for treating seeping water of a designated landfill facility;

11. Recyclable wastes shall be processed to be re-usable;

12. Notwithstanding the proviso to the main sentence of subparagraph 1 and item (a) of the same subparagraph, such wastes as waste acid, waste alkali, metallic dust, waste toxic substances, etc. which are determined and publicly notified by the Minister of Environment as having possibility of fire, explosion, generation of toxic gases, etc. shall not be mixed with other wastes or be in contact with moisture in the course of treating them: Provided, That the same shall not apply where there is no possibility of fire, explosion, generation of toxic gases, etc. by undergoing an interim treatment process by means of neutralization, etc.;

13. An industrial waste discharger under Article 17 of the Act who discharges at least 100 tons of designated wastes a year or a person who has obtained permit for waste treatment business under Article 25 (3) of the Act (hereinafter referred to as "waste treatment business entity"; and in cases of persons permitted for waste collection and transportation business that falls under Article 25 (5) 1 of the Act, limited to the persons who transport wastes to places prescribed by Ordinance of the Ministry of Environment under the proviso to the part

other than items of subparagraph 3) shall comply with the following requirements in the course of their treatment of designated wastes:

(a) He/she shall be equipped with safety facilities, devices, etc. necessary to prevent the occurrence of accidents, such as leakage of wastes, fire, explosion, generation of toxic gases, etc., in the course of discharging or treating designated wastes;

(b) He/she shall keep medicines, equipment, etc. to control leakage of wastes, fire, explosion, generation of toxic gas, etc. and manuals for coping with accidents to be prepared for the occurrence of such accidents and take measures to ensure workers are well-informed of the method of use and knack of coping with them.

(2) Further specific standards and methods for the treatment of wastes under paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Presidential Decree No. 23126, Sep. 7, 2011>

(3) The relaxed standards and methods for treatment under the proviso to Article 13 (1) of the Act, which shall apply to intermediately processed wastes, shall be as follows: <Newly Inserted by Presidential Decree No. 23126, Sep. 7, 2011>

1. A person who transports intermediately processed wastes, is not required to affix or carry a certificate of collection and transportation of wastes;

2. When a person keeps intermediately processed wastes in storage, the period of storage may be extended.

(4) Detailed matters necessary for the relaxed standards and methods under paragraph (3) shall be prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Presidential Decree No. 23126, Sep. 7, 2011>

Article 8 (Household Waste Treatment Agency)

"A person specified by Presidential Decree" in Article 14 (2) of the Act means any of the following persons: <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 21904, Dec. 24, 2009; Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 24543, May 28, 2013; Presidential Decree No. 26447, Jul. 24, 2015; Presidential Decree No. 26907, Jan. 19, 2016>

1. A waste treatment business entity;

2. Deleted. <by Presidential Decree No. 23126, Sep. 7, 2011>

3. A person who has filed a report on waste treatment;

4. The Korea Environment Corporation (limited to recycling of waste plastic films or sheets, or waste wrapping materials for agricultural chemicals, such as waste containers thereof, which are generated from agricultural activities);

5. A person who has a system for collecting electric and electronic products directly to recycle them, among the electrical and electronic equipment manufacturers subject to mandatory recycling under the former part of Article 15 of the Act on Resource Circulation of Electrical and Electronic Equipment and Vehicles or distributors of electrical and electronic equipment under Article 16-4 (1) of the same Act (including persons entrusted by electrical and electronic equipment manufacturer subject to mandatory recycling or distributors of

electrical and electronic equipment to collect and recycle them;

6. Deleted; <by Presidential Decree No. 23126, Sep. 7, 2011>

7. A manager of a recycling center under Article 13-2 of the Act on the Promotion of Saving and Recycling of Resources (referring only to the collection, transportation, and recycling of bulky wastes under subparagraph 13 of Article 2 of the same Act);

8. A person who has a system for directly collecting and recycling products and packaging materials (including persons entrusted with recycling by a person obligated to recycle), among persons obligated to recycle under Article 16 of the Act on the Promotion of Saving and Recycling of Resources.

Article 8-2 (Imposition of Penalty Surcharges)(1) Penalty surcharges for violations of Article 14-2 (1) of the Act shall be as listed in attached Table 4-2. <Amended by Presidential Decree No. 25082, Jan. 14, 2014>

(2) The Mayor of a Metropolitan Autonomous City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu may increase or reduce the amount of a penalty surcharge by not more than half of the penalty surcharge prescribed in paragraph (1), taking into consideration the business size of a place of business, characteristics of a business area, the degree and frequency of violation, and relevant matters.: Provided, That the total amount of a penalty surcharge as increased shall not exceed 100 million won. <Amended by Presidential Decree No. 25082, Jan. 14, 2014>

(3) Article 11-2 shall apply mutatis mutandis to a procedure for the imposition and payment of penalty surcharges under paragraph (1). In such cases, “the Minister of Environment or a Mayor/Do Governor” shall be construed as “the Mayor of a Metropolitan Autonomous City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun/Gu.” <Amended by Presidential Decree No. 25082, Jan. 14, 2014>

[This Article Newly Inserted by Presidential Decree No. 23126, Sep. 07, 2011]

Article 8-3 (Purposes of Use of Penalty Surcharges)

“Purposes specified by Presidential Decree” in Article 14-2 (3) of the Act shall be as follows:

1. Expansion of multi-regional waste treatment facilities under Article 5 (1) of the Act (excluding public facilities for the treatment of designated wastes);
2. Treatment of household wastes discharged to any place, other than places for storage under Article 15 (2) of the Act;
3. Expansion of facilities and equipment necessary for the collection and transportation of household wastes;
4. Purchase and operation of facilities and equipment necessary for guidance and inspection of household waste dischargers, collectors, and transporters.

[This Article Newly Inserted by Presidential Decree No. 25082, Jan. 14, 2014]

Article 8-4 (Scope of Food Waste Dischargers)

“Any of the persons specified by Presidential Decree” in Article 15-2 (1) of the Act means any of the following persons: <Amended by Presidential Decree No. 26747, Dec. 22, 2015>

1. A person who operates a meal service facility that provides meals to at least 100 persons average per day, among meal service facilities defined under subparagraph 12 of Article 2 of the Food Sanitation Act (excluding meal service facilities in social welfare facilities defined under subparagraph 4 of Article 2 of the Social Welfare Services Act). In such cases, further details about a method for computing the average number of persons per day to whom meals are provided shall be determined by the Minister of Environment;
2. A person who operates a rest restaurant business or a general restaurant business in a place of business with an area of at least 200 square meters, among food service businesses under Article 36 (1) 3 of the Food Sanitation Act: Provided, That if the relevant Municipal Ordinance of a Metropolitan Autonomous City, Special Self Governing Province, or Si/Gun/Gu prescribes the size of a place of business or categories of business to be excluded herefrom as follows, taking into account the production quantity of food wastes, capacity of waste recycling facilities, etc., such Municipal Ordinance shall prevail:
 - (a) Size of a place of business (limited to the size of at least 200 square meters);
 - (b) Some categories of businesses to be excluded herefrom among rest restaurant business;
3. A person who has established a superstore defined under subparagraph 3 of Article 2 of the Distribution Industry Development Act;
4. A person who has established and operates a wholesale market, a joint wholesale market, or an integrated distribution center for agricultural and fishery products, as defined under subparagraph 2, 5, or 12 of Article 2 of the Act on Distribution and Price Stabilization of Agricultural and Fishery Products;
5. A person who operates a lodging business for tourists under Article 3 (1) 2 of the Tourism Promotion Act;
6. Any other persons specified by municipal ordinance of a Metropolitan Autonomous City, Special Self-Governing Province, or Si/Gun/Gu as those who are required to reduce or recycle food wastes voluntarily.

[This Article Newly Inserted by Presidential Decree No. 25082, Jan. 14, 2014]

Article 9 (Business Entities Obligated to Comply with Guidelines for Reduction of Wastes)

Persons obliged to comply with guidelines for controlling the generation of industrial wastes under Article 17 (5) of the Act shall be as listed in attached Table 5 by type and size of business of industrial waste dischargers. <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 24266, Dec. 27, 2012>

Article 10 (Designation of Professional Waste Analysis Agencies)

Any institution that intends to be designated as a professional waste analysis agency under Article 17-2 (2) of the Act shall file an application for the designation as prescribed by Ordinance of the Ministry of Environment meeting the requirements for facilities, equipment, and technical capability specified in attached Table 5-2.

[This Article Newly Inserted by Presidential Decree No. 26907, Jan. 19, 2016]

CHAPTER III WASTE TREATMENT BUSINESS, ETC.

Article 11 (Amount to Be Imposed for Each Type of Violations Subject to Penalty Surcharges and Relevant Matters)(1) The amount of a penalty surcharge to be imposed based on each type and degree of violation referred to in Article 28 (2) of the Act shall be as listed in attached Table 6.

(2) The Minister of Environment or Mayor/Do Governor may increase or decrease the amount of a penalty surcharge under paragraph (1) by one half thereof or less, taking into consideration the size of a place of business, the characteristics of a business area,, the degree and frequency of violation, and relevant matters: Provided, That the total amount of a penalty surcharge as increased shall not exceed 100 million won.

Article 11-2 (Imposition and Payment of Penalty Surcharges)(1) Where the Minister of Environment or the relevant Mayor/Do Governor intends to impose a penalty surcharge under Article 28, he/she shall give a written notice, clearly states the type of the violation concerned and the amount of a penalty surcharge, demanding payment of such penalty surcharge.

(2) A person who has received a notice under paragraph (1) shall pay a penalty surcharge to a collecting agency prescribed by the agency that has imposed such penalty surcharge within 20 days from the date on which he/she received such notice.

(3) A collecting agency that has received penalty surcharges under paragraph (2) shall issue a receipt to the payor, and notify the Minister of Environment or the relevant Mayor/Do Governor of the fact without delay.

(4) A penalty surcharge shall not be paid in installments.

[This Article Newly Inserted by Presidential Decree No. 20946, Jul. 29, 2008]

Article 12 (Purposes for Use of Penalty Surcharge)

The amount collected as a penalty surcharge under Article 28 (4) of the Act shall be expended for the following purposes: <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011>

1. Expansion of multi-regional waste treatment facilities under Article 5 (1) of the Act (including public treatment facilities for designated wastes);

1-2. Expansion of public recycling infrastructure facilities under Article 34-4 of the Act on the Promotion of Saving and Recycling of Resources;

2. Treatment of wastes in order to eliminate anticipated environmental hazards where wastes do not comply with the standards for waste treatment under Article 13 or 13-2 of the Act, but where it is impossible to identify the person who treated such wastes, or who commissioned the treatment of such wastes;

3. Purchase and operation of facilities and equipment necessary for guidance for and inspection of waste treatment business entities or waste treatment facilities.

Article 13 (Waste Treatment Facilities Subject to Pollutants Measurement)

"Waste treatment facility specified by Presidential Decree" in Article 31 (2) of the Act means a landfill facility.

[This Article Wholly Amended by Presidential Decree No. 20946, Jul. 29, 2008]

Article 14 (Waste Treatment Facilities Subject to Impact Assessment on Neighboring Areas)

"Waste treatment facility as specified by Presidential Decree" in Article 31 (3) of the Act means any of the following facilities installed and operated by a waste treatment business entity: <Amended by Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 24119, Sep. 24, 2012>

1. An incineration facility for industrial wastes with a daily treatment capacity of at least 50 tons (referring to a number of incineration facilities with a daily treatment capacity of at least 50 tons in total where there are a number of incineration facilities within the same place of business);
2. A landfill facility for designated industrial wastes with a size of at least 10,000 square meters used for landfill purposes;
3. A landfill facility for ordinary industrial wastes with a size of at least 150,000 square meters used for landfill purposes;
4. A cement kiln (limited to cases where wastes are used as fuel);
5. A facility for the recovery of heat from incinerating industrial wastes with a recycling capacity of at least 50 tons per day (referring to cases where the total daily recycling capacity of all facilities for the recovery of heat from incinerating industrial wastes exceeds 50 tons if a single business establishment has a multiple number of facilities for the recovery of heat from incinerating industrial wastes).

Article 14-2 (Persons who Vicariously Take Procedures for Closedown)

"Person prescribed by Presidential Decree" in the former part of Article 31 (6) of the Act means any of the following persons:

1. The Korea Environment Corporation;
2. A person publicly notified by the Minister of Environment as being recognized to have the capability to vicariously take procedures for closedown, such as final soil covering.

[This Article Newly Inserted by Presidential Decree No. 26907, Jan. 19, 2016]

CHAPTER IV GUIDANCE FOR AND SUPERVISION ON WASTE TREATMENT BUSINESS ENTITIES

Article 15 (Waste Treatment Facilities to Employ Technical Managers)

"Waste treatment facility specified by Presidential Decree" in Article 34 (1) of the Act means any of the following facilities: Provided, That any waste treatment facilities operated by any waste treatment business entity shall not be included therefrom: <Amended by Presidential Decree No. 20478, Dec. 28, 2007; Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 24119, Sep. 24, 2012>

1. A landfill facility:
 - (a) A landfill facility for treatment of designated wastes with a size of at least 3,300 square meters used for landfill purposes: Provided, That a landfill facility of sealed-off type under subparagraph 2 (a) (i) of attached Table 3, among the terminal treatment facilities under the said subparagraph, shall have a size of at least 330 square meters or a capacity of at

least 1,000 cubic meters used for landfill purposes;

(b) A landfill facility for treatment of any wastes other than designated wastes with a size of at least 10,000 square meters or a capacity of at least 30,000 cubic meters used for landfill purposes;

2. Any incineration facility with a treatment capacity of at least 600 kilograms per hour (or at least 200 kilograms if it is an incineration facility for medical wastes);

3. A facility for compression, fragmentation, crushing, or cutting of wastes with a treatment or recycling capacity of at least 100 tons per day;

4. A facility for producing feed, compost or fuel with a recycling capacity of at least five tons per day;

5. A facility for sterilization and crushing of wastes with a treatment capacity of at least 100 kilograms per hour;

6. A cement kiln;

7. A smelting furnace (limited to cases where nonferrous metals are extracted from wastes) with a recycling capacity of at least 600 kilograms per hour;

8. A facility for the recovery of heat from an incineration facility with a recycling capacity of at least 600 kilograms per hour.

Article 16 (Agents for Technical Management)

One of the following persons shall be qualified as a technical management agent, who shall be responsible for the maintenance and management of a waste treatment facility under Article 34 (1) of the Act: <Amended by Presidential Decree No. 21904, Dec. 24, 2009; Presidential Decree No. 22626, Jan. 17, 2011; Presidential Decree No. 26907, Jan. 19, 2016>

1. The Korea Environment Corporation;

2. An engineering service provider who has filed a report under Article 21 of the Engineering Industry Promotion Act;

3. A professional engineering office under Article 6 of the Professional Engineers Act (which shall be limited to an office established by a professional engineer who holds the qualifications under Article 34 (2) of the Act);

4. Any other person recognized and publicly notified by the Minister of Environment as being able to serve as an agent for technical management.

Article 17 (Persons Obligated to Take Training Courses)

"Any other persons in charge of waste treatment specified by Presidential Decree" in Article 35 (1) of the Act mean any of the following persons: <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 26907, Jan. 19, 2016>

1. Persons who have installed and operated a waste treatment facility under Article 2 of the Act (excluding the waste treatment facilities to which a technical manager is assigned in accordance with Article 34 (1) of the Act) or their employees in charge of technical matters;

2. Persons who have filed a report as an industrial waste discharger under Article 17 (2) of the Act or their employees in charge of technical matters;

3. Business entities who discharge designated wastes requiring verification under Article 17 (3) of the Act or their employees in charge of technical matters;
4. Business entities, other than those falling under subparagraphs 2 and 3, who discharge industrial wastes, or their employees in charge of technical matters, as specified by Ordinance of the Ministry of Environment;
5. Persons who obtain permission for a waste collection and transportation business under Article 25 (3) of the Act or their employees in charge of technical matters;
6. Persons who have filed a report on waste treatment or their employees in charge of technical matters.

Article 18 (Performance Guarantee Insurance for Abandoned Wastes)(1) The effective term of the insurance under Article 40 (1) 2 of the Act (hereinafter referred to as "performance guarantee insurance") shall be one year or more, in one-year lots, but the guarantee covered by the insurance policy shall be valid for 60 days after the expiration of the insurance policy. (2) Notwithstanding paragraph (1), the effective term of the performance guarantee insurance policy initially purchased shall expire on December 31 of the following year. (3) A person who purchases a performance guarantee insurance policy from an insurance company shall specify, in the insurance policy, a condition that the Minister of Environment or Mayor/Do Governor may receive direct payment of the insurance proceeds from the insurance company.

Article 19 Deleted. <by Presidential Decree No. 20946, Jul. 29, 2008>

Article 20 (Period of Operation Suspension Subject to Order to Treat Wastes)(1) "Period prescribed by Presidential Decree" in Article 40 (2) of the Act means any of the following periods: <Amended by Presidential Decree No. 20478, Dec. 28, 2007>

1. Where the wastes are animal residues or medical wastes that are likely to be decomposed or deteriorated, such as organs: 15 days;
2. Where abandoned wastes cause or are likely to cause a serious hazard to the conservation of the living environment: The period determined by a person who has authority to issue an order to treat such wastes, which shall be not less than three days, but not more than one month;
3. Where any event other than those under subparagraphs 1 and 2 occurs: One month.

(2) If a waste treatment business entity or a person who has filed a report on waste treatment suspends the operation of his/her business due to an unavoidable reason, such as a complaint from residents or labor relations, the Minister of Environment or Mayor/Do Governor may, in receipt of an application from the waste treatment business entity or the person who has filed a report on waste treatment, extend the period for treatment of wastes as ordered under Article 40 (2) of the Act only once within the period prescribed in paragraph (1). <Amended by Presidential Decree No. 23126, Sep. 7, 2011>

Article 21 (Guidelines for Computation of Insured Amount of Performance Guarantee Insurance)(1) The guidelines for the computation of insurance proceeds of waste treatment business entities under Article 40 (5) of the Act shall be as follows: <Amended by

Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011>

1. For each waste treatment business entity: One and a half times the amount calculated by multiplying the unit cost for treatment of each type of waste by the quantity under Article 25 (9) of the Act (hereinafter referred to as "permissible storage quantity") (or three times the amount calculated by multiplying the unit cost for treatment of each type of waste by the excessive storage quantity if the quantity exceeds the permissible storage quantity);

2. For each person who has filed a report on waste treatment: One and a half times the amount calculated by multiplying the unit cost for treatment of each type of waste by the quantity that he/she can keep in his/her storage facility under Article 46 (1) of the Act (hereinafter referred to as "storable quantity").

(2) The unit cost for treatment of each type of waste under paragraph (1) shall be determined and publicly notified by the Minister of Environment, taking into consideration the nature and conditions of each type of waste, the treatment methods, and other factors.

Article 22 (Renewal of Performance Guarantee Insurance)(1) Each insurance policy for the performance guarantee insurance under Article 40 (7) 1 of the Act shall be renewed at least 30 days before the expiration of the insurance.

(2) Where it is necessary to change the insured amount of coverage of the performance guarantee insurance in relation to Article 40 (7) 2 of the Act, the relevant insurance policy shall be renewed, within 15 days from the date on which a cause for such change arises. <Amended by Presidential Decree No. 20946, Jul. 29, 2008>

(3) Any person who newly purchases a performance guarantee insurance policy or renews an insurance policy under Article 40 (9) of the Act shall submit the original copy of the relevant insurance policy to the Minister of Environment or Mayor/Do Governor, within 15 days from the date of purchase or renewal.

(4) Deleted. <by Presidential Decree No. 20946, Jul. 29, 2008>

Article 23 (Quantity of Abandoned Wastes Requiring Vicarious Treatment and Period for Treatment)(1) The quantity of abandoned wastes which a mutual aid association for waste treatment business shall be ordered to vicariously treat pursuant to Article 40 (11) of the Act shall be as follows: <Amended by Presidential Decree No. 23126, Sep. 7, 2011>

1. Where the wastes involved have been abandoned by a waste treatment business entity: No more than one and a half times the storage quantity of wastes permissible to the waste treatment business entity;

2. Where the wastes involved have been abandoned by a person who has filed a report on waste treatment: No more than one and a half times the quantity of wastes storable by the person who has filed a report on waste treatment.

(2) The Minister of Environment or Mayor/Do Governor shall, whenever he/she intends to order a mutual aid association of waste treatment businesses to treat abandoned wastes, prescribe a period for such treatment within two months, taking into consideration the level of possible contamination of the surrounding environment, the quantities of abandoned wastes to be treated, and other factors: Provided, That the Minister of Environment or

Mayor/Do Governor may, if he/she finds it impractical to treat abandoned wastes within the prescribed period due to any unavoidable cause, extend the period only once by adding one month at a maximum.

CHAPTER V SUPPLEMENTARY PROVISIONS

Article 23-2 (Affairs which Electronic Information Processing Program is to be Used for)

"Affairs prescribed by Presidential Decree" in Article 45 (3) of the Act shall be as follows: <Amended by Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 25082, Jan. 14, 2014>

1. Submission of documents for reporting and verification, or documents for reporting or verification on modification under the provisions of Article 17 (2) through (4) of the Act;
2. Submission of documents for reporting on importation or exportation of wastes, or documents for modification thereof under Article 24-2 (1) and (2) of the Act;
3. Submission of documents for waste treatment plans, permission, permission for modification, or reporting on modification under Article 25 (1), (3), and (11) of the Act;
4. Submission of documents for approval for and reporting on waste treatment facilities, or approval for modification or reporting on modification thereof under Article 29 (2) through (4) of the Act;
5. Records on the current status of the generation, discharge, and treatment of wastes under Article 36 of the Act;
6. Submission of reports under Article 38 (1);
7. Submission of documents necessary for the inspection and evaluation of actual conditions of waste treatment services and the installation and operation of waste treatment facilities under Article 55 (2) of the Act.

[This Article Newly Inserted by Presidential Decree No. 20946, Jul. 29, 2008]

Article 23-3 (Amount to Be Imposed for Each Type of Violations Subject to Penalty Surcharges and Relevant Matters)(1) The amount of a penalty surcharge depending on the type and degree of the violation committed by a person who has filed a report on waste treatment under Article 46-2 (2) is as listed in attached Table 7. <Amended by Presidential Decree No. 23126, Sep. 7, 2011>

(2) The relevant Mayor/Do Governor may increase or reduce the amount of a penalty surcharge by not more than half of the penalty surcharge prescribed in paragraph (1), taking into consideration the size of a place business, characteristics of a business area, the degree and frequency of violation, and relevant matters: Provided, That the total amount of a penalty surcharge as increased shall not exceed 20 million won. <Amended by Presidential Decree No. 23126, Sep. 7, 2011>

(3) The provisions of Article 11-2 shall apply muntatis muntandis to procedures for imposition and payment of penalty surcharges under Article 46-2 (1) of the Act.

[This Article Newly Inserted by Presidential Decree No. 20946, Jul. 29, 2008]

Article 23-4 (Purposes of Use of Penalty Surcharges)

"Any of the purposes prescribed by Presidential Decree" as referred to in Article 46-2 (4) means the following: <Amended by Presidential Decree No. 23126, Sep. 7, 2011>

1. Expansion of multi-regional waste treatment facilities;
2. Expansion of public recycling infrastructure under Article 34-4 of the Act on the Promotion of Saving and Recycling of Resources;
3. Treatment of wastes that have not been properly recycled by a person who has filed a report on waste treatment under Article 46 of the Act;
4. Purchase and operation of necessary facilities and equipment for guidance for, and inspection of, persons who have filed a report on waste treatment.

[Newly Inserted by Presidential Decree No. 20946, Jul. 29, 2008]

Article 24 (Subject Matters of Follow-Up Management)

"Any of the landfill facilities for wastes prescribed by Presidential Decree" in Article 50 (3) 1 and 2 of the Act means one of the landfill facilities under subparagraph 2 (a) of attached Table 3, among terminal treatment facilities under the said subparagraph: Provided, That a landfill facility for burnt coal briquettes, pottery fragments, or similar shall be excluded herefrom, if the Minister of Environment concludes that the facility does not require any follow-up management, including the operation of a treatment facility for seeping water under Article 50 (3) of the Act. <Amended by Presidential Decree No. 26907, Jan. 19, 2016>

Article 25 (Agents for Follow-Up Management)

The following persons shall be qualified to serve as an agent to provide follow-up management services at a waste landfill facility under Article 50 (6) of the Act: <Amended by Presidential Decree No. 21904, Dec. 24, 2009; Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 24543, May 28, 2013; Presidential Decree No. 26907, Jan. 19, 2016>

1. The Korean Environment Corporation;
2. Other persons recognized and publicly notified by the Minister of Environment as having ability to serve as an agent to provide follow-up management services.

Article 26 (Deposit of Follow-Up Management Expenses)(1) The Minister of Environment shall, within 15 days after a person who has installed a landfill facility for wastes requiring follow-up management under Article 51 (1) of the Act and files a report on the discontinuance of operation or closedown of the facility under Article 50 (1) of the Act, notify such person that the facility is subject to the payment of expenses incurred in relation to the performance guarantee for the discontinuance of operation (including closedown) and follow-up management (hereinafter referred to as "follow-up management, etc.") under Article 51 of the Act (hereinafter referred to as "performance guarantee bond for follow-up management") as prescribed by Ordinance of the Ministry of Environment, if the facility is likely to cause a serious hazard to the health or property of residents or its surrounding environment by seeping water or leaking gas from the landfill facility. <Amended by Presidential Decree No. 26907, Jan. 19, 2016>

(2) The person who receives a notice that his/her facility is subject to the payment of a

performance guarantee bond for follow-up management under paragraph (1) shall prepare a statement of expenses incurred in follow-up management (hereinafter referred to as "statement of estimated expenses") in accordance with the guidelines for calculation of the performance guarantee bond for follow-up management under Article 30, as prescribed by Ordinance of the Ministry of Environment, and shall submit it to the Minister of Environment within one month from the date on which such notice is delivered.

(3) The Minister of Environment shall, in receipt of the statement of estimated expenses under paragraph (2), determine the expenses incurred in relation to follow-up management, etc. within one month from the date on which the statement is submitted, and shall dispatch a notice to the person who has installed the relevant facility to require him/her to pay the performance guarantee bond amounting to such expenses (if the person has accumulated the performance guarantee bond under Article 33 as an advance reserve. The amount that he/she pays additionally shall be that calculated by subtracting the interest at the interest rate of one-year fixed term installment bank deposit per annum for the advance accumulation period plus the accumulated advance reserve from the full amount of the performance guarantee bond) within a given period, which shall be at least one month. <Amended by Presidential Decree No. 26907, Jan. 19, 2016>

(4) and (5) Deleted. <by Presidential Decree No. 23126, Sep. 7, 2011>

Article 27 (Exemption, etc. from Follow-Up Management Expenses, etc.)(1) In cases falling under paragraph (3) 1, a person shall be exempted from the obligation to deposit the expenses for follow-up management, under the proviso to Article 51 (1) of the Act. <Amended by Presidential Decree No. 26907, Jan. 19, 2016>

(2) A person shall be allowed to provide a substitute the deposit of all or part of the expenses for follow-up management under the proviso to Article 51 (1) of the Act, in any of the following cases: <Amended by Presidential Decree No. 26907, Jan. 19, 2016>

1. Insurance purchased for the guarantee of follow-up management;
2. An advance reserve accumulated to cover the expenses for follow-up management under Article 52 of the Act;
3. The substitution under paragraph (3) 2.

(3) "Any other cases specified by Presidential Decree" in Article 51 (1) 3 of the Act means any of the following cases: <Amended by Presidential Decree No. 26907, Jan. 19, 2016>

1. The person who has installed the waste landfill facility is the State or a local government;
2. The person tenders an asset (excluding a waste landfill facility) as collateral for all or part of the expenses for follow-up management.

Article 28 (Submission of Performance Guarantee Insurance Policy for Follow-Up Management)

A person who falls under Article 27 (2) 1 and intends to tender a substitute for the deposit of expenses incurred in the follow-up management shall submit an insurance policy that shall guarantee the payment of the performance guarantee bond for follow-up management, in whole or in part, as notified for payment pursuant to Article 26 (3) to the Minister of

Environment within the period prescribed for such payment. <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 26907, Jan. 19, 2016>

Article 29 (Tender of Collateral)(1) A person who falls under Article 27 (2) 3 and intends to provide a substitute for the deposit of expenses required for follow-up management etc. shall tender an asset as collateral with an appraised value (which means a value appraised in accordance with the Act on the Public Announcement of Values and Appraisal of Real Estate) equivalent to the all or part of the performance guarantee bond for follow-up management as notified for payment pursuant to Article 26 (3) to the Minister of Environment within the period prescribed for such payment. <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 26907, Jan. 19, 2016>

(2) If a person who has tendered an asset as collateral under paragraph (1) fails to perform his/her obligation to carry out the follow-up management of his/her landfill facility, the Minister of Environment may sell the asset to appropriate the proceeds thereof to cover the expenses for follow-up management of the landfill facility. In such cases, the remaining balance, if any, after appropriating the proceeds to cover the expenses for follow-up management shall be refunded to the person who has tendered the asset as collateral. <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 26907, Jan. 19, 2016>

Article 30 (Guidelines for Calculation of Performance Guarantee Bonds for Follow-Up Management)(1) The performance guarantee bond for follow-up management under Article 51 (2) of the Act shall be calculated by adding up the expenses required for the discontinuance of operation under subparagraph 1 and the expenses required for follow-up management under subparagraph 2. In such cases, the types and quantities of wastes treated in each landfill facility, the type of a landfill facility involved, topographical factors, the quantity and density of seeping water, a method of treatment of seeping water and other factors shall be taken into consideration: <Amended by Presidential Decree No. 22631, Jan. 21, 2011; Presidential Decree No. 25082, Jan. 14, 2014; Presidential Decree No. 26907, Jan. 19, 2016>

1. Expenses required for the discontinuance of operation (including closedown; hereinafter the same shall apply): The expenses shall be calculated by adding up the following expenses. In such cases, any facility of at least 3,300 square meters shall be required to make a deposit:

(a) Expenses for an inspection for the discontinuance of operation under Article 50 (1) of the Act;

(b) Expenses for final soil covering;

2. Expenses required for follow-up management: They shall be calculated by adding up the following expenses required during the follow-up management period under Article 50 (3) of the Act: Provided, That in cases of a sealed-off landfill facility under item (a) (i) among

terminal treatment facilities under the said subparagraph of Table 3, the expenses under item (a) shall be excluded herefrom:

(a) Expenses incurred in the operation, maintenance, and management of facilities for treatment of seeping water;

(b) Expenses incurred in the maintenance and management of embankments for landfill facilities, facilities for the management of gas from landfill, and testing wells of ground water;

(c) and (d) Deleted; <by Presidential Decree No. 22631, Jan. 21, 2011>

(e) Expenses incurred in conducting research on environmental pollution around the landfill facility;

(f) Expenses incurred in conducting periodic inspections under Article 50 (4) of the Act.

(2) Detailed guidelines and methods for calculation of expenses in relation to performance guarantee bonds for follow-up management under paragraph (1) and other necessary matters shall be prescribed and publicly notified by the Minister of Environment.

Article 31 (Guidelines for Refund of Performance Guarantee Bond for Follow-Up Management)

Performance guarantee bonds under Article 51 (4) of the Act shall be refunded each year in accordance with the following guidelines: <Amended by Presidential Decree No. 26907, Jan. 19, 2016>

1. In cases where the works for follow-up management have been completed, the amount of refund shall be the amount deposited for the expenses required for follow-up management for the pertinent year, plus interest at the statutory interest rate under Article 379 of the Civil Act;

2. In cases where the works for follow-up management etc. have been partially performed, the amount of refund shall be calculated by multiplying the amount deposited for the expenses required for follow-up management, etc. for the pertinent year by the performance ratio of follow-up management, etc. as determined by the Minister of Environment, plus interest at the statutory interest rate under Article 379 of the Civil Act.

Article 32 (Procedure for Refund of Performance Guarantee Bond for Follow-Up Management)

(1) A person who seeks a refund of the performance guarantee bond for follow-up management under Article 51 (4) of the Act shall file an application for such refund each year with the Minister of Environment, along with the accompanying documents specified by Ordinance of the Ministry of Environment. <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011>

(2) Upon receipt of an application for refund under paragraph (1), the Minister of Environment shall determine the amount to be refunded out of the performance guarantee bond for follow-up management in accordance with the guidelines for refund under Article 31 and pay the due accordingly. <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011>

Article 33 (Advance Reserve of Performance Guarantee Bond for Follow-Up Management)

(1) Landfill facilities for the wastes subject to the advance accumulative

reserve of the performance guarantee bond for follow-up management under Article 52 (1) of the Act shall have an area of at least 3,300 square meters.

(2) A person who has installed a landfill facility under paragraph (1) shall submit a plan for the accumulation of an advance reserve to the Minister of Environment, along with the following documents, within one month from the commencement date of the operation of the facility, after obtaining permit or amended permit for waste treatment business under Article 25 (3) or (11) of the Act or approval or amended approval for the installation of a waste treatment facility under Article 29 (2) or (3) of the Act, as prescribed by Ordinance of the Ministry of Environment. In such cases, upon receipt of a plan for the accumulation of an advance reserve, the Minister of Environment shall examine feasibility of a statement on the calculation of expenses required for follow-up management, etc. accumulation period, and adequacy of the amount of accumulation for each year, etc.: <Amended by Presidential Decree No. 25082, Jan. 14, 2014; Presidential Decree No. 26907, Jan. 19, 2016>

1. A statement on the calculation of estimated expenses incurred in relation to follow-up management, etc. in consideration of guidelines for the calculation of the performance guarantee bond for follow-up management under Article 30;

2. An accumulation plan formulated in consideration of the estimated quantity of landfill wastes and the treatment capacity of the waste landfill facility for each year.

(3) The Minister of Environment shall notify a person who has submitted a plan for the accumulation of an advance reserve under paragraph (2) each year that the person shall pay the advance reserve calculated in consideration of the quantity of wastes actually delivered to the relevant landfill facility, based on the plan: Provided, That the notice of the initial payment shall be given within one month after the first anniversary of the date on which the person begins to use the relevant facility. <Amended by Presidential Decree No. 25082, Jan. 14, 2014>

(4) A person who has received a notice of payment under paragraph (3) shall pay the notified amount to the Minister of Environment each year. <Newly Inserted by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011>

Article 33-2 (Receipt, Sale, etc. of Collateral)

@Article 29 shall apply mutatis mutandis to the appropriation, return, etc. of the expenses required for the receipt, sale, follow-up management, etc. under Article 52 (1) 2 of the Act. In such cases, "expenses required for follow-up management" and "performance guarantee bond for follow-up management" shall be deemed "advance reserve for performance guarantee bond for follow-up management", respectively.

[This Article Newly Inserted by Presidential Decree No. 26907, Jan. 19, 2016]

Article 34 (Refund, etc. of Difference of Advance Reserve)

If the amount accumulated by a person who has installed a landfill facility under Article 33 (1) (including an equivalent at the interest rate for one-year fixed term installment bank deposit per annum for the advance accumulation period) exceeds the amount of the performance guarantee bond under Article 26, the Minister of Environment shall refund the

difference to the person who has installed the facility, pursuant to Article 52 (2) of the Act. <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011>

Article 35 (Restrictions, etc. on Use of Land)(1) The period during which the use of land is restricted pursuant to Article 54 of the Act shall not exceed 30 years from the date on which the operation of the waste landfill facility discontinues or the facility is permanently closed down. <Amended by Presidential Decree No. 22631, Jan. 21, 2011; Presidential Decree No. 24543, May 28, 2013>

(2) A person who has the ownership of, or any other rights other than the ownership in, the land on which a landfill facility disused or closed down is situated shall, if he/she intends to use the land, submit a land use plan to the Minister of Environment along with accompanying documents specified by Ordinance of the Ministry of Environment.

(3) The Minister of Environment shall, upon receiving a land use plan under paragraph (2), determine the purposes of use of the land, a period during which the use of the land is restricted, etc., and then notify a person who has the ownership of, or any other rights other than the ownership in, the land under paragraph (2), as prescribed by Ordinance of the Minister of Environment.

Article 36 (Hearing of Opinions on Matters concerning Follow-Up Management of Waste Landfill Facilities)

As regards the implementation of follow-up management of waste landfill facilities under the Act and this Decree, expert opinions shall be heard in determining each of the following matters: <Amended by Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 26907, Jan. 19, 2016>

1. Determining the facilities for which the payment of the performance guarantee bond for follow-up management is required under Article 26 and the guidelines for calculation of the expenses required for follow-up management, etc. of each waste landfill facility;
2. Determining the guidelines for calculation of the performance guarantee bond for follow-up management of waste landfill facilities under Article 30;
3. Determining the period during which the use of the land on which a landfill facility disused or closed down is located, is restricted pursuant to Article 35.

Article 36-2 (Establishment of Korea Waste Association)

“Persons specified by Presidential Decree” in Article 58-2 (1) of the Act mean the following persons: <Amended by Presidential Decree No. 26907, Jan. 19, 2016>

1. Persons who have established and operate waste treatment facilities under Article 4, 5, or 29 of the Act;
2. Waste treatment business entities or persons who have filed a report on waste treatment;
3. The Sudokwon Landfill Site Management Corporation under the Act on the Establishment and Management of Sudokwon Landfill Site Management Corporation;
4. The Korea Environment Corporation under the Korea Environment Corporation Act;
5. Associations, academic societies, cooperatives, and other organizations involved in

wastes;

6. Other persons who engage in business affairs related to wastes, including persons who discharge industrial wastes.

[This Article Newly Inserted by Presidential Decree No. 25082, Jan. 14, 2014]

Article 36-3 (Affairs, etc. of Korea Waste Association)(1) “ Affairs specified by Presidential Decree” in Article 58-2 (3) 3 of the Act shall be as follows: <Amended by Presidential Decree No. 25082, Jan. 14, 2014>

1. International exchanges and cooperation for waste-related affairs;
2. Waste-related affairs entrusted by the State or a local government;
3. Any other affairs stipulated by its articles of incorporation.

(2) The Korea Waste Association (hereinafter referred to as the “ Association”) shall have the general assembly, the board of directors, and a secretariat. <Amended by Presidential Decree No. 25082, Jan. 14, 2014>

(3) Expenses incurred in relation to the Association’ s affairs shall be covered with membership fees contributed by members, revenue from business operations, and relevant funds, and the State or a local government may partially subsidize the Association for such expenses, within budgetary limits. <Newly Inserted by Presidential Decree No. 25082, Jan. 14, 2014>

[This Article Newly Inserted by Presidential Decree No. 20946, Jul. 29, 2008]

Article 36-4 (Executive Officers, Method of Election, etc.)(1) The Association shall have a chairperson, a vice chairperson and directors and auditors as its executive officers.

(2) The chairperson and vice chairperson shall be elected by the board of directors, and approved by the general assembly.

(3) Matters necessary for the terms and number of executive officers, and methods of election shall be prescribed by its articles of association.

[This Article Newly Inserted by Presidential Decree No. 20946, Jul. 29, 2008]

Article 37 (Delegation of Authority)(1) Pursuant to Article 62 (1) of the Act, the Minister of Environment shall delegate his/her authority to the relevant Mayor/Do Governor over the following affairs: <Amended by Presidential Decree No. 20478, Dec. 28, 2007; Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 22224, Jun. 28, 2010; Presidential Decree No. 22631, Jan. 21, 2011; Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 24543, May 28, 2013; Presidential Decree No. 25082, Jan. 14, 2014; Presidential Decree No. 26907, Jan. 19, 2016>

1. Authority to make a request to submit data, recommend corrective measures, and inspect and ascertain compliance with standards under Article 14 (9) of the Act;
2. Authority to take the following measures in relation to persons who discharge, transport, or treat the designated wastes generated from any place, other than the places of business in which emission or discharge facilities have been installed and operated pursuant to the Clean Air Conservation Act, the Water Quality and Aquatic Ecosystem Conservation Act, or the Noise and Vibration Control Act (which shall be limited to factories under the Industrial

Cluster Development and Factory Establishment Act), as defined in subparagraph 3 of Article 2 of the Act, the medical wastes generated from any institution other than general hospitals defined under Article 3 (2) 3 (e) of the Medical Service Act (hereinafter referred to as "general hospitals"), and designated wastes jointly collected and transported pursuant to the proviso to Article 17 (3) of the Act, excluding its subparagraphs:

(a) To verify documents and modifications to such documents under Article 17 (3) and (4) of the Act;

(b) through (f) Deleted. <by Presidential Decree No. 20946, Jul. 29, 2008>

(g) To issue an order to submit a report under Article 38 (3) of the Act;

(h) To issue an order to submit a report and conduct an inspection under Article 39 of the Act;

(i) To issue orders to take measures under Article 48 of the Act;

(j) To perform vicarious execution and collect expenses therefor under Article 49 of the Act;

3. Authority to take the following measures in relation to the waste treatment facilities under Article 29 (2) of the Act [excluding the multi-regional waste treatment facilities under Article 5 (1) of the Act, which have been installed jointly by at least two local governments, such as the Special Metropolitan City, Metropolitan Cities, Special Self-Governing Cities, Dos, and Special Self-Governing Provinces (hereinafter referred to as "Cities/Dos") or Sis/Guns/Gus of at least two Cities/Dos, and the waste treatment facilities for any designated wastes other than medical wastes generated from any institution other than general hospitals]:

(a) To grant approval for installation or accept a report on installation under Article 29 (2) of the Act;

(b) To grant approval for modifications or accept a report on modification under Article 29 (3) of the Act;

(c) To comply with matters relating to waste treatment facilities installed by schools, research institutes, etc. for the purpose of testing and research pursuant to Article 29 (2) 1 of the Act;

(d) To consult with the heads of relevant administrative agencies pursuant to Article 32 (3) of the Act;

(e) To accept reports on succession to rights and obligations pursuant to Article 33 (3) of the Act;

4. Authority to take the following measures in relation to the waste treatment facilities installed by waste treatment business entities under Article 25 (3) of the Act (excluding the waste treatment business entities specializing in designated wastes) and the waste treatment facilities under subparagraph 3:

(a) To accept reports on the outcomes of measurement of pollutants pursuant to Article 31 (2) of the Act;

(b) To accept reports on the outcomes of assessment of impacts on neighboring areas pursuant to Article 31 (3) of the Act;

(c) To issue an order to improve, suspend the operation of, or close down a waste treatment facility pursuant to Article 31 (4) and (5) of the the Act;

- (d) To designate a person who vicariously takes procedures for the closedown of a landfill facility for wastes and collect expenses therefor pursuant to Article 31 (6) of the Act;
 - (e) To issue an order to take measurement of pollutants or conduct an assessment of impacts on neighboring areas pursuant to Article 31 (7) of the Act;
 - (f) To disclose to the public the outcomes of measurement of pollutants and assessment of impacts on neighboring areas pursuant to Article 31 (10) of the Act;
 - (g) To accept reports, issue orders to take corrective measures, designate a person who shall vicariously perform, and collect expenses therefor pursuant to Article 50 of the Act;
 - (h) To require a notice of the deposit, collection, return, etc. of the performance guarantee bond for follow-up management pursuant to Article 51 of the Act;
 - (i) To require a notice of the accumulation of the performance guarantee bond for follow-up management pursuant to Article 52 of the Act and the return of a difference;
 - (j) To place restrictions on use of land pursuant to Article 54 of the Act;
 - (k) To recognize a facility as the one exempt from follow-up management pursuant to the proviso to Article 24;
 - (l) To notify a facility subject to pay the performance guarantee bond for follow-up management pursuant to Article 26 (1);
 - (m) To accept a statement of expenses pursuant to Article 26 (2);
 - (n) To determine expenses for follow-up management and a period for the payment, and dispatch a notice to demand the payment of the performance guarantee bond for follow-up management pursuant to Article 26 (3);
 - (o) To receive an insurance policy for the performance of follow-up management under Article 28;
 - (p) To receive a collateral under Article 29 (1);
 - (q) To sell a collateral, set off proceeds from the sale against expenses for follow-up management, and return the proceeds under Article 29 (2);
 - (q) To determine the performance ratio of follow-up management pursuant to subparagraph 2 of Article 31;
 - (s) To receive a written claim to return the performance guarantee bond for follow-up management under Article 32 (1);
 - (t) To determine the amount to be returned pursuant to Article 32 (2);
 - (u) To accept a plan for accumulation of the advance reserve pursuant to Article 33 (2);
 - (v) To dispatch a notice to demand the payment of the advance reserve pursuant to Article 33 (3);
 - (w) To appropriate and return of expenses required for the receipt, sale, follow-up management, etc. under Article 33-2;
 - (x) To accept a land use plan pursuant to Article 35 (2);
 - (y) To determine and notify the purpose of use of land pursuant to Article 35 (3), the period during which the use is restricted, etc.;
5. Authority to hold hearings on the authority delegated among those under any

subparagraph of Article 61 of the Act;

6. Authority to impose and collect administrative fines, pursuant to Article 68 of the Act with regards to the delegated authority.

(2) Pursuant to Article 62 (1) of the Act, the Minister of Environment shall delegate his/her authority to take the following measures to the head of a river basin environmental office or the head of a regional environmental office: <Amended by Presidential Decree No. 20946, Jul. 29, 2008; Presidential Decree No. 23126, Sep. 7, 2011; Presidential Decree No. 24543, May 28, 2013; Presidential Decree No. 26907, Jan. 19, 2016>

1. Authority to take measures under each item of paragraph (1) 2 in relation to any person, other than those under paragraph (1) 2;

1-2. Authority to issue an order under Article 39-2 of the Act to a person who discharges industrial wastes, except persons under paragraph (1) 2, to dispose of wastes properly;

1-3. Authority to inspect whether a person observes the hazard criteria under Article 13-3 (3) of the Act and to issue an order under Article 13-3 (5) of the Act to take measures;

1-4. Deleted. <by Presidential Decree No. 24543, May 28, 2013>

1-5. Authority to accept a declaration or amended declaration of export or import of wastes under Article 24-2 of the Act;

1-6. Authority to issue an order under Article 24-2 (3) of the Act to take measures;

2. Authority to take the following measures in relation to a waste treatment business specializing in designated wastes:

(a) To receive and examine a report on a waste treatment business plan and notify whether such plan is acceptable pursuant to Article 25 (1) and (2) of the Act;

(b) To grant permission or permission for modification, accept a report on modification, extension of permission or attach conditions, and receive relevant documents pursuant to Article 25 (3), (4), (7), (11), and (13) of the Act;

(c) To revoke permission and issue an order to suspend business pursuant to Article 27 of the Act;

(d) To make a disposition of penalty surcharges pursuant to Article 28 of the Act;

(e) To consult with the heads of relevant administrative agencies pursuant to Article 32 (3) of the Act;

(f) To accept reports on succession to rights and obligations of a waste treatment business pursuant to Article 33 (3) of the Act;

(g) To issue an order to treat wastes pursuant to Article 39-3 of the Act;

(h) To issue an order under Article 40 (2) or (3) of the Act to treat wastes;

(i) To take measures pursuant to Article 40 (4) of the Act;

(j) To issue an order to renew an insurance policy for performance guarantee pursuant to Article 40 (8) of the Act;

(k) To receive original sets of an insurance policy pursuant to Article 40 (9) of the Act;

(l) To receive notices pursuant to Article 40 (10) of the Act;

(m) through (q) Deleted. <by Presidential Decree No. 20946, Jul. 29, 2008>

3. Authority to take the following measures regarding any facility, other than the waste treatment facilities under paragraph (1) 3:

(a) To grant approval for installation and accept reports on installation pursuant to Article 29 (2) of the Act;

(b) To grant approval for amendments and accept reports on amendments pursuant to Article 29 (3) of the Act;

(c) To consult with the heads of relevant administrative agencies pursuant to Article 32 (3) of the Act;

(d) To accept reports on succession to rights and obligations pursuant to Article 33 (3) of the Act;

4. Authority to take measures under paragraph (1) 4 regarding waste treatment facilities installed by waste treatment business entities specializing in designated wastes and the waste treatment facilities under subparagraph 3 of this paragraph;

4-2. The following authority concerning exclusive container manufacturing business prescribed in Article 25-2 of the Act:

(a) Acceptance of registration, amendment of registration, and reports on amendment under Article 25-2 (1) of the Act;

(b) Revocation of registration and order to suspend business under Article 27-2 of the Act;

5. Authority to hold hearings on the authority delegated among those under any subparagraph of Article 61 of the Act;

6. Authority to impose and collect administrative fines pursuant to Article 68 of the Act with respect to the delegated authority.

(3) Pursuant to Article 62 (1) of the Act, the Minister of Environment shall delegate his/her authority over the following matters to the president of the National Institute of Environmental Research: <Newly Inserted by Presidential Decree No. 25082, Jan. 14, 2014; Presidential Decree No. 26907, Jan. 19, 2016>

1. Examination, test, analysis, etc. for formulating hazard criteria of recycled products or materials under Article 13-3 (1) of the Act;

2. The following authority concerning a professional waste analysis agencies under Article 17-2 of the Act:

(a) Designation, modified designation, and announcement of the details thereof under Article 17-2 of the Act;

(b) Evaluation of waste testing and analysis capabilities under Article 17-4 of the Act;

(c) Revocation of designation, order to suspend business, and announcement of the details thereof under Article 17-5 of the Act;

(d) Receipt of reports under Article 38 (5) of the Act;

(e) Request to submit reports or data and performance of inspection under Article 39 of the Act;

(f) Public notification of fees for testing and analysis of wastes under Article 59 (2) of the Act;

(g) Holding hearings under Article 61 of the Act;

3. Imposition, collection, etc. of administrative fines under Article 68 of the Act pertaining to delegated authority.

Article 37-2 (Entrustment of Affairs)

Pursuant to Article 62 (2) of the Act, the Minister of Environment shall entrust the following affairs to the Korean Environment Corporation under the Korean Environment Corporation Act: <Amended by Presidential Decree No. 25082, Jan. 14, 2014; Presidential Decree No. 26907, Jan. 19, 2016>

1. Statistical research on wastes under Article 11 of the Act;
2. Management and provision of the information about wastes transferred pursuant to Article 18 (4) of the Act;
3. Establishment and operation of an electronic information processing center under Article 45 (1) of the Act;
4. Establishment and operation of an electronic information processing system under Article 45 (2) of the Act;
5. Examination and analysis of data for the inspection and evaluation of actual conditions of waste treatment services and the installation and operation of waste treatment facilities under Article 55 (2) of the Act.

[This Article Newly Inserted by Presidential Decree No. 23126, Sep. 7, 2011]

Article 38 (Supervision, etc. of Affairs Conducted Based on Delegation of Authority)(1)

Notwithstanding Article 37, where deemed necessary for multi-regional waste treatment, the Minister of Environment may conduct an inspection or investigation to ascertain as to whether industrial waste dischargers, waste treatment business entities, persons who have filed a report on waste treatment, and waste treatment or recycling facilities comply with the guidelines for the treatment of wastes and as to whether there is any other violation of relevant statutes, or may authorize the Minister of Environment, the head of a river basin environmental office, or the head of a regional environmental office to conduct such inspection or investigation. <Amended by Presidential Decree No. 23126, Sep. 7, 2011>

(2) The Minister of Environment, the head of a river basin environmental office, or the head of a regional environmental office discovers a violation of relevant statutes committed at a place of business within the jurisdiction of any Mayor/Do Governor as a result of the inspection or investigation conducted pursuant to paragraph (1), he/she shall notify the competent Mayor/Do Governor of the relevant facts and his/her opinion on countermeasures to be taken.

(3) The competent Mayor/Do Governor shall, upon receiving a notice under paragraph (2), notify the Minister of Environment, the head of the river basin environmental office or the head of the regional environmental office of the results of the countermeasures taken accordingly.

Article 38-2 (Management of Personally Identifiable Information)

If it is inevitable for conducting the following administrative affairs, the Minister of Environment (including a person to whom the authority of the Minister of Environment is

delegated under Article 37) or a Mayor/Do Governor (including a person to whom the authority of a Mayor/Do Governor is delegated or entrusted, where the authority is delegated or entrusted) may process data in which resident registration numbers or alien registration numbers under subparagraph 1 or 4 of Article 19 of the Enforcement Decree of the Personal Information Protection Act are included:

<Amended by Presidential Decree No. 26907, Jan. 19, 2016>

1. Administrative affairs related to the designation and modified designation of a professional waste analysis agency under Article 17-2 (2) and (3) of the Act;
2. Administrative affairs related to the permission for a waste treatment business under Article 25 (3) of the Act;
3. Administrative affairs related to the permission for, or reporting on, modification in a waste treatment business under Article 25 (11);
4. Administrative affairs related to the reporting on succession to rights and obligations under Article 33 (3) of the Act.
5. Administrative affairs related to the registration, amended registration, and report on amendment of a exclusive container manufacturing business under Article 25-2 (1) of the Act;
6. Administrative affairs related to the reporting on succession to rights and obligations under Article 33 (3) of the Act;
7. Administrative affairs related to the issuance of certificates of collection and transportation of wastes under Article 7 (2).

[This Article Newly Inserted by Presidential Decree No. 23488, Jan. 6, 2012]

Article 38-3 (Re-Examination of Regulation)

The Minister of Environment shall examine the appropriateness of restrictions, etc. on the use of land under Article 35 every three years (referring to the period that ends on the day before January 1 of every third year) from the base date of January 1, 2014 and shall take measures for improvement, etc.

[This Article Newly Inserted by Presidential Decree No. 25050, Dec. 30, 2013]

Article 38-4 (Guidelines for Imposition of Administrative Fines)

Guidelines for the imposition of administrative fines under Article 68 of the Act shall be as prescribed in attached Table 8.

[This Article Newly Inserted by Presidential Decree No. 22889, Apr. 06, 2011]

Article 39 Deleted. <by Presidential Decree No. 24266, Dec. 27, 2012>

ADDENDA (Omitted)

38. Water Supply And Waterworks Installation Act

[Enforcement Date 28. Jul, 2016.] [Act No.13878, 27. Jan, 2016., Partial Amendment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to improve public sanitation and thereby contribute to the improvement of a living environment by means of the development of a comprehensive plan for water supply and waterworks installation and, at the same time, the appropriate and reasonable installation and management of waterworks.

Article 2 (Responsibilities)(1) In order to provide all citizens with high-quality water, the State shall formulate a comprehensive plan for water supply and waterworks installation, formulate reasonable measures thereof, and endeavor to supply financial and technical support to waterworks business operators.

(2) The Special Metropolitan City Mayor, the Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Do Governor or the Governor of a Special Self-Governing Province (hereinafter referred to as the "Mayor/Do Governor"), and the head of a Si/Gun/Gu (referring to the head of an autonomous Gu; hereinafter the same shall apply) shall endeavor to manage water sources in order to supply residents in their jurisdictional areas with the water of good quality. <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

(3) The Special Metropolitan City Mayor, the Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province and the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) shall endeavor to manage the waterworks in order to supply residents in their jurisdictional areas with tap water in a sustainable manner and the Do Governor shall technically and financially support waterworks business operators under his/her jurisdictional areas. <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

(4) Any waterworks business operator shall maintain waterworks systematically, manage waterworks business rationally and endeavor to supply tap-water safely and appropriately.

(5) All citizens shall cooperate with measures concerning the water supply and waterworks installation initiated and executed by the State, and contribute to the universal supply of tap water.

(6) The State, local governments and waterworks business operators shall contribute to the universal supply of tap water to all citizens, including the poor strata. <Newly Inserted by Act No. 10317, May 25, 2010>

Article 3 (Definitions)

The terms used in this Act shall be defined as follows: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011; Act No. 11690, Mar. 23, 2013; Act No. 12141, Dec. 30, 2013>

1. The term "raw water" means natural water that is provided for drinking or industrial purposes: Provided, That the water for agricultural and fishing villages under subparagraph 3 of Article 2 of the Rearrangement of Agricultural and Fishing Villages Act shall be excluded; but such water shall be deemed raw water, where the Minister of Environment determines to use such water as raw water in consultation with the Minister of Agriculture, Food and Rural Affairs or the Ministry of Oceans and Fisheries in an emergency, such as a drought, as prescribed by Presidential Decree;

2. The term "water source" means the rivers, lakes, marshes, groundwater, seawater, etc. within an area where water intake facilities are installed so that the water for drinking or industrial purposes can be supplied;
3. The term "wide-area water source" means water source which supplies the water to two local governments or more;
4. The term "processed water" means water that is properly treated for drinking or industrial use;
5. The term "waterworks" means the whole of facilities with pipelines and other constructions for providing the raw water or processed water, and it is divided into "general waterworks", "industrial waterworks", and "exclusive waterworks": Provided, That the waterworks installed for temporary purposes and agricultural infrastructure referred to in subparagraph 6 of Article 2 of the Rearrangement of Agricultural and Fishing Villages Act shall be excluded herefrom;
6. The term "general waterworks" means the wide-area waterworks, local waterworks, and village waterworks;
7. The term "wide-area waterworks" means the general waterworks that is operated by the State, a local government, the Korea Water Resources Corporation, or a person that is authorized by the Minister of Land, Infrastructure and Transport to provide raw or purified water to two or more local governments (including where water is supplied to general consumers pursuant to Article 43 (4)). In such cases, the scope of the wide-area waterworks that may be installed by the State or a local government shall be determined by Presidential Decree;
8. The term "local waterworks" means the general waterworks, excluding the wide-area waterworks and the village waterworks, which is operated by a local government to provide the raw or processed water to its own residents, its neighboring local governments or their residents;
9. The term "village waterworks" means the waterworks prescribed by Presidential Decree, which is operated by the local government to provide the processed water of not less than 20 but less than 500 m³ a day to not less than 100 but not more than 2500 persons or any waterworks corresponding thereto, which is designated by the Mayor of the Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province and the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City);
10. The term "industrial waterworks" means the waterworks which is operated by industrial waterworks business operators to provide the raw or processed water properly treated for industrial use;
11. The term "exclusive waterworks" means the private-use waterworks and private-use industrial waterworks;
12. The term "private-use waterworks" means the waterworks for private use in dormitories, company housing quarters, sanatoriums, or other institutions which accommodate at least 100 persons, and the waterworks, other than those for waterworks business operators,

which provide the raw or purified water to at least 100 but not more than 5,000 persons (including the migratory population of schools, churches, etc.): Provided, That waterworks in whose case daily water supply volume and the scale of their facilities fall short of the standards prescribed by Presidential Decree, among waterworks that supply water only from another waterworks, shall be excluded herefrom;

13. The term "private-use industrial waterworks" means the waterworks, other than those operated by waterworks business operators, which provides the raw or processed water that is properly treated for industrial use: Provided, That waterworks for the supply of water only from another waterworks shall be excluded herefrom, where daily water supply volume of the waterworks and the scale of its facilities do not meet the standards prescribed by Presidential Decree;

14. The term "small water supply system" means any water supply system designated by the Mayor of the Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province and the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) which supplies water for a population of less than 100 persons or supply water less than 20 m³ a day, and which is jointly installed and managed by residents;

15. Deleted; <by Act No. 10317, May 25, 2010>

16. Deleted; <by Act No. 10359, Jun. 8, 2010>

17. The term "waterworks facilities" means the water intake facilities, the water reservation facilities, the raw-water conveyance facilities, the water purification facilities, the processed-water conveyance facilities, the drainage facilities, the final-stage water supply facilities, and other waterworks for the purpose of providing the natural or processed water;

18. The term "waterworks business" means the business, the purpose of which is to provide, by means of the waterworks, the natural or processed water to general consumers or other waterworks business operators, and it shall be divided into the general waterworks business and the industrial waterworks business;

19. The term "general waterworks business" means the business, the purpose of which is to provide, by means of the general waterworks, the natural or processed water to general consumers or other waterworks business operators;

20. The term "industrial waterworks business" means the business, the purpose of which is to provide, by means of the industrial waterworks, the raw or processed water to general consumers or other waterworks business operators;

21. The term "waterworks business operators" means the general waterworks business operators and the industrial waterworks business operators;

22. The term "general waterworks business operator" means a person that runs the general waterworks business after having obtained permission under Article 17 (1);

23. The term "industrial waterworks business operator" means a person that runs the industrial waterworks business after having obtained permission under Article 49 (1);

24. The term "final-stage water supply facilities" means the water-supply pipes (including

indoor water-supply pipes), the water meter, the water tank, the tap and other water supply equipment connected to the water supply pipes which a waterworks business operator has installed to provide the raw or processed water to general consumers;

25. The term "waterworks construction works" means the construction works, the purpose of which is to newly install, enlarge or increase, or remodel the waterworks;

26. The term "waterworks management right" means the right to manage and maintain the waterworks and to impose on and collect from the beneficiaries of the waterworks service charges for the raw and processed water produced from the waterworks;

27. The term "renovation" means the restoration of the water-flow functions of pipes by coating the pipes after removing rusts and impurities from such pipes;

28. The term "certified operation manager of water-purification facilities" means a person that is in charge of the operation and management of water-purification facilities after having acquired a certificate of qualifications provided in Article 24;

29. The term "water-using appliances" means appliances that use water supplied through water supply facilities, such as an electric washing machine and dishwasher;

30. The term "water-saving fixtures" means fixtures prescribed by Ordinance of the Ministry of Environment, such as a faucet and toilet that is manufactured to meet standards established by Ordinance of the Ministry of Environment to help people reduce water use;

31. The term "water-saving devices" means devices additionally fixed on fixtures prescribed by Ordinance of the Ministry of Environment, such as a faucet and toilet, to meet the standards established by Ordinance of the Ministry of Environment to help people reduce water use;

32. The term "seawater desalination facilities" means water supply facilities that draw seawater or ground water containing salt due to the infiltration of seawater and desalinate such water to supply purified water.

Article 4 (Formulation of Basic Plans for Waterworks Installation and Management)(1)

To install and manage general waterworks and industrial waterworks in a proper and reasonable manner, the Minister of Land, Infrastructure and Transport, the Mayor of the Special Metropolitan City, the Mayor of each Metropolitan City, the Mayor of each Special Self-Governing City, the Governor of each Special Self-Governing Province, and the head of each Si/Gun (excluding the head of a Gun within a Metropolitan City) shall formulate a comprehensive basic plan for waterworks installation and management (hereinafter referred to as "basic plan for waterworks installation and management") every ten years, according to the following subparagraphs: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011; Act No. 11690, Mar. 23, 2013>

1. The Minister of Land, Infrastructure and Transport shall formulate a basic plan for waterworks installation and management for wide-area waterworks and industrial waterworks that are installed and managed by the State or the Korea Water Resources Corporation;

2. The Mayor of the Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor

of a Special Self-Governing City, the Governor of a Special Self-Governing Province and the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) shall formulate a basic plan for waterworks installation and management for the general waterworks and the industrial waterworks which are installed and managed by the relevant Special Metropolitan City, Metropolitan City, Special Self-Governing City, Special Self-Governing Province and Si/Gun.

(2) Where the Minister of Land, Infrastructure and Transport intends to formulate a basic plan for waterworks installation and management pursuant to paragraph (1) 1, he/she shall collect the opinions from Mayors/Do Governors and consult with the heads of related central administrative agencies. The same shall also apply where the Minister intends to amend (excluding the amendment of minor matters prescribed by Presidential Decree) any of the basic plan for waterworks installation and management that is already formulated. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Where the Mayor of the Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) intends to formulate a basic plan for waterworks installation and management, he/she shall obtain prior approval for general waterworks from the Minister of Environment and for industrial waterworks from the Minister of Land, Infrastructure and Transport, respectively. Such approval shall be obtained, respectively, when any important matter prescribed by Presidential Decree intends to be amended. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011; Act No. 11690, Mar. 23, 2013>

(4) Where the Minister of Land, Infrastructure and Transport, the Mayor of the Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun (excluding the head of a Gun within a Metropolitan City) intends to formulate or amend a basic plan for waterworks installation and management pursuant to paragraphs (1) through (3), he/she shall make it conform to the relevant urban/Gun master plan under Article 18 of the National Land Planning and Utilization Act. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 10599, Apr. 14, 2011; Act No. 11085, Nov. 14, 2011; Act No. 11690, Mar. 23, 2013>

(5) Where the Minister of Land, Infrastructure and Transport, the Mayor of the Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun (excluding the head of a Gun within a Metropolitan City) formulates or amends a basic plan for waterworks installation and management pursuant to paragraphs (1) through (3), he/she shall give public notice thereof without delay and notify the Minister of Environment of the details thereof. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011; Act No. 11690, Mar. 23, 2013>

(6) Where any waterworks extends over two or more Special Metropolitan Cities,

Metropolitan Cities, Special Self-Governing Cities, Special Self-Governing Provinces, and Sis/Guns (excluding a Gun in a Metropolitan City) or where some special reasons exist, the Do Governor, the Mayor of the Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) that is designated by Presidential Decree, shall formulate a basic plan for waterworks installation and management. <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

(7) A basic plan for waterworks installation and management shall include the following matters: <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

1. Basic guidelines for the installation and management of the waterworks (excluding the exclusive waterworks);
2. Matters concerning the mid and long-term supply of tap water;
3. Matters concerning the development of the wide-area water sources;
4. Matters concerning areas where the waterworks is to be installed and thereby tap water is to be supplied;
5. Securing necessary water sources, and the designation and management of water-source protection areas;
6. Arrangement, structure, and providing capacity of the waterworks (excluding the exclusive waterworks);
7. Securing necessary financial sources for the waterworks business and the priorities of the waterworks business;
8. Matters concerning the survey of the current status of water pipes and their upgrades and replacements;
9. Deleted; <by Act No. 10359, Jun. 8, 2010>
10. Matters concerning the integrated water-supply district in areas that need the connective operation of the wide-area waterworks and the local waterworks;
11. Matters concerning improvements in the quality of tap water;
12. Matters concerning the informatization of waterworks;
13. Matters necessary to upgrade waterworks according to the outcomes of the technical checkup provided in Article 74 (1);
14. Matters concerning the connective operation of local waterworks with the neighboring local government.

(8) Where the Minister of Environment or the Minister of Land, Infrastructure and Transport intends to grant approval under paragraph (3), he/she shall consult with each other thereon in advance. In such cases, where the Minister of Environment grants approval for a basic plan for installation and management of waterworks that includes industrial waterworks, after consulting with the Minister of Land, Infrastructure and Transport, it shall be deemed that approval for the relevant industrial waterworks is obtained from the Minister of Land, Infrastructure and Transport. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690,

Mar. 23, 2013>

(9) Where five years elapse after a basic plan for waterworks installation and management is publicly announced pursuant to paragraph (5), the Minister of Land, Infrastructure and Transport, the Mayor of the Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun (excluding the head of a Gun within a Metropolitan City) shall review the validity of the basic plan for waterworks installation and management and shall reflect the outcomes therein. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011; Act No. 11690, Mar. 23, 2013>

Article 5 (Formulation of Comprehensive Plans for National Waterworks)(1) The Minister of Environment shall formulate a comprehensive plan for national waterworks (hereinafter referred to as the "comprehensive plan" in this Article) based on a basic plan for waterworks installation and management every ten years for the systematic development of national waterworks policy, effective use of water and stable supply of tap water.

(2) Comprehensive plans shall include the following matters: <Amended by Act No. 11085, Nov. 14, 2011>

1. Matters concerning the conditions of water supply, such as population, industry and land;
2. Prospect for demand for tap water;
3. Objectives of water supply, and guidelines for waterworks;
4. Prospect for demand and a development plan for wide-area waterworks;
5. Prospect for demand and a development plan for local waterworks;
6. Prospect for demand and a development plan for village waterworks;
7. Prospect for demand and a development plan for household water for agricultural and fishing villages;
8. Prospect for demand and a development plan for industrial waterworks;
9. Securing water sources and plans to develop alternative water sources;
10. A plan to improve existing waterworks;
11. Deleted; <by Act No. 10359, Jun. 8, 2010>
12. A plan to improve the management system of waterworks business;
13. A plan to advance waterworks technology;
14. Securing human resources specializing in waterworks, and education and training plans;
15. Investment in waterworks business and fund-raising plans;
16. Matters concerning improvements in the quality of tap water;
17. Matters concerning the informatization of waterworks;
18. Matters concerning the connective operation of waterworks.

(3) The Minister of Environment may request the head of a related central administrative agency, the Mayor/Do Governor, and the head of any related agency or organization to submit materials necessary for the formulation of a comprehensive plan.

(4) When intending to formulate a comprehensive plan, the Minister of Environment shall consult in advance with the head of a relevant central administrative agency, and the

Mayor/Do Governor (hereinafter referred to as "head of the relevant agency" in this paragraph), and shall notify the head of the relevant agency of such plan.

(5) Where important matters in comprehensive plans are amended due to a change in the water-supply policy, etc., the Minister of Environment may request the Minister of Land, Infrastructure and Transport, the Mayor of the Special Metropolitan City, the Mayor of a Metropolitan City, the Mayor of a Special Self-Governing City, the Mayor of a Special Self-Governing Province or the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) to amend their basic plan for waterworks installation and management. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011; Act No. 11690, Mar. 23, 2013>

(6) The Minister of Environment shall review the feasibility of comprehensive plans and revise it accordingly when five years have passed since formulation of the comprehensive plan.

(7) Where the Minister of Environment has formulated a comprehensive plan pursuant to paragraph (1) or has revised a comprehensive plan pursuant to paragraph (6), he/she shall disclose such comprehensive plan without delay through the web-site of the Ministry of Environment. <Newly Inserted by Act No. 11085, Nov. 14, 2011>

Article 6 (Implementation of Water-Demand Control Target System)(1) To enhance the efficiency of waterworks services and to strengthen the control of demand for tap water, a Mayor/Do Governor shall set a target of water-demand control for each Si/Gun/Gu (referring to an autonomous Gu; hereinafter the same shall apply) within his/her jurisdiction, taking into account the appropriate water consumption per capita, and shall also formulate a comprehensive plan (hereinafter referred to as "comprehensive plan" in this Article) every five years to attain such target and obtain approval therefor from the Minister of Environment; and the Minister of Environment shall consult with the Minister of Land, Infrastructure and Transport before he/she grants such approval. The same shall apply where any comprehensive plan already formulated is intended to be amended. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The head of a Si/Gun/Gu shall develop a program (hereinafter referred to as "implementation program" in this Article) that contains the following matters to implement a comprehensive plan, and shall obtain approval therefor from the Mayor/Do Governor. The same shall apply to a revision to implementation programs: Provided, That in case of the Special Metropolitan City, a Metropolitan City, or a Special Self-Governing City, the Mayor shall develop and implement implementation programs concerning matters falling under subparagraphs 1 and 2: <Amended by Act No. 10359, Jun. 8, 2010; Act No. 11085, Nov. 14, 2011>

1. Annual target for reducing water leakage and its project plan;
2. Annual target for increasing flowing water and its project plan;
3. Annual target for wider installation of water-saving facilities, including water-saving equipment and used-water purification waterworks;

4. Other matters prescribed by Presidential Decree for conserving water and raising the efficiency of water saving.

(3) With respect to a Si/Gun/Gu that fails to attain the water-demand control target set under paragraph (1), the Minister of Environment and the heads of the relevant administrative agencies may elect not to grant approval, permission, etc. for any of the following projects and acts that are to be implemented or done by the relevant Si/Gun/Gu. The same shall also apply to the Special Metropolitan City, a Metropolitan City, a Special Self-Governing City, a Do and a Special Self-Governing Province (hereinafter referred to as "City/Do") as well as a Si/Gun/Gu that fail to obtain approval for their respective comprehensive plans and implementation programs without justifiable grounds: <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

1. General waterworks businesses;

2. Urban development projects, and development of industrial complexes, tourist resorts, etc.

(4) The Minister of Environment and the heads of the relevant central administrative agencies may differentiate their assistance to a Si/Gun/Gu according to the progress of the water-demand control target referred to in paragraph (1).

Article 7 (Designation, etc. of Water-Source Protection Areas)(1) The Minister of Environment may designate an area that is deemed necessary for securing water sources and conserving the quality of water as an area for the protection of water sources (hereinafter referred to as "water-source protection area") or may modify the designation.

(2) Where the Minister of Environment designates a water-source protection area or modifies the designation thereof pursuant to paragraph (1), he/she shall without delay publicly announce such designation or modification.

(3) None of the following activities shall be allowed within the water-source protection areas designated and publicly announced pursuant to paragraphs (1) and (2): <Amended by Act No. 8466, May 17, 2007; Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011; Act No. 11862, Jun. 4, 2013>

1. Using or dumping water pollutants or specific substances harmful to water quality defined in subparagraphs 7 and 8 of Article 2 of the Water Quality and Aquatic Ecosystem Conservation Act, toxic chemicals defined in subparagraph 7 of Article 2 of the Chemicals Control Act, pesticides defined in subparagraph 1 of Article 2 of the Pesticide Control Act, wastes defined in subparagraph 1 of Article 2 of the Wastes Control Act, sewage and excreta defined in subparagraphs 1 and 2 of Article 2 of the Sewerage Act, or animal excreta defined in subparagraph 2 of Article 2 of the Act on the Management and Use of Livestock Excreta;

2. Other activities prohibited by Presidential Decree that have the risk of obviously polluting water sources.

(4) Any person that intends to conduct any of the following activities in a water-source protection area designated and publicly announced pursuant to paragraphs (1) and (2) shall obtain a permit from the Mayor of the relevant Special Self-Governing City, the Governor of

the relevant Self-Governing Province or the head of the relevant Si/Gun/Gu: Provided, That in case of insignificant matters prescribed by Presidential Decree, he/she shall report such matters: <Amended by Act No. 10371, May 25, 2010; Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011>

1. Construction, enlargement, remodeling, reconstruction, relocation, alteration of purposes, or removal of buildings or other structures;
2. Cultivating or felling standing trees and bamboo;
3. Excavation, banking, or other diversion of the shape or quality of the land.

(5) Procedures for designation of the water-source protection areas and matters necessary for the criteria for permits under paragraphs (1) through (4) shall be prescribed by Presidential Decree. <Amended by Act No. 8805, Dec. 27, 2007>

Article 7-2 (Restrictions on Establishment of Factories in Regions other than Water-Source Protection Areas)(1) No factory referred to in subparagraph 1 of Article 2 of the Industrial Cluster Development and Factory Establishment Act shall be established in regions prescribed by Presidential Decree, such as upper regions of water-source protection areas, or upper or lower regions of water intake facilities (referring to water intake facilities for wide-area waterworks and local waterworks).

(2) Where a water intake facility under paragraph (1) is established in an area within the jurisdiction of the Mayor of a Special Self-Governing City, the Governor of a Self-Governing Province, or the head of a Si/Gun/Gu or a water intake facility in such area is altered, the Mayor of the Special Self-Governing City, the Governor of the Self-Governing Province, or the head of the Si/Gun/Gu shall give public notice thereof without delay, as prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 12141, Dec. 30, 2013>

(3) Notwithstanding paragraph (1), the head of a Si/Gun/Gu may grant approval for the establishment of factories prescribed by Ordinance of the Ministry of Environment in the regions prescribed by Presidential Decree, among the regions on which restrictions are imposed, in consideration of influences on water supply resources. In such cases, where water-source protection areas fall under the jurisdiction of heads of other Si/Gun/Gu, they shall consult in advance with the head of the relevant Si/Gun/Gu.

(4) Any person that has established a factory upon obtaining approval under paragraph (3) shall observe the rules prescribed by Ordinance of the Ministry of Environment for the protection of water supply resources. <Amended by Act No. 12141, Dec. 30, 2013>

[This Article Newly Inserted by Act No. 10317, May 25, 2010]

Article 7-3 (Establishment and Operation of System for Management of Information of Water Sources)(1) The Minister of Environment shall establish and operate a system for the management of information about the following matters (hereinafter referred to as "water-sources information management system") for the management of water quality in water-source protection areas and the areas in which the establishment of factories is restricted pursuant to Article 7-2:

1. Information about current condition of waterworks and water supply, including the intake

and purification of water;

2. Information about the current status of designation of water-source protection areas, the status of land use, water quality, and occurrences of pollutants;

3. Information about current condition of the areas where the establishment of factories is restricted pursuant to Article 7-2 and sites for factories;

4. Information about other necessary matters concerning the control of water quality in water sources.

(2) The Minister of Environment may request the head of a central administrative agency, a local government, a public institution under Article 4 of the Act on the Management of Public Institutions, or any other related institution to furnish him/her with data or information, as necessary. In such cases, the head of an institution upon receipt of such request shall comply therewith, unless extenuating circumstances exist.

(3) Necessary matters concerning the establishment and operation of the water-sources information management system shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 12518, Mar. 24, 2014]

Article 8 (Management of Water-Source Protection Areas)(1) A water-source protection area shall be managed by the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun/Gu having jurisdiction over the water-source protection area. <Amended by Act No. 10371, May 25, 2010; Act No. 11085, Nov. 14, 2011>

(2) Where a water-source protection area extends over two or more Sis/Guns/Gus or where other special reasons exist, the water-source protection area under consideration shall be managed by the Mayor/Do Governor or the head of a Si/Gun/Gu, as prescribed by Presidential Decree.

(3) The Minister of Environment may evaluate the management status of the water-source protection areas, as prescribed by Ordinance of the Ministry of Environment, and may request the head of the relevant administrative agency to take measures necessary for the proper management of the relevant areas.

Article 8-2 (Water Quality Control Plans for Water-Source Protection Areas)(1) The Mayor of a Special Self-Governing City, the Governor of a Self-Governing Province, or the head of a Si/Gun/Gu shall formulate and implement, on a five-year basis, water quality control plans for the water-source protection areas within his/her jurisdiction.

(2) The Minister of Environment shall review the validity of the water quality control plans formulated pursuant to paragraph (1) and may request the competent authority to amend any of the plans, if necessary.

(3) The Minister of Environment shall evaluate the results of implementation of the water quality control plans formulated pursuant to paragraph (1) and may request the Mayor of a Special Self-Governing City, the Governor of each Self-Governing Province, or the head of a Si/Gun/Gu to take necessary measures.

[This Article Newly Inserted by Act No. 12141, Dec. 30, 2013]

Article 9 (Residents Support Program)(1) The Mayor/Do Governor or the head of a Si/Gun/Gu (hereafter in this Article through Article 11 referred to as "Management Authority") who manages the water-source protection area provided in Article 8 (1) or (2), may develop and execute the program for supporting residents living within water-source protection areas and other persons engaged in farming and fishing within such an area (hereinafter referred to as the "resident support program"), as prescribed by Presidential Decree. In such cases, the head of a Si/Gun/Gu shall obtain approval therefor from the Mayor/Do Governor.

(2) The types of the residents support programs shall be as follows:

1. Program for increasing the residents' income;
2. Program for promoting the residents' welfare;
3. Educational program for the residents' children;
4. Other programs as prescribed by Presidential Decree.

(3) The procedures for developing and executing the residents support program and other necessary matters shall be determined by Presidential Decree.

Article 10 (Fund Raising, etc.)(1) The fund necessary for the residents support program shall be raised by the Management Authority from the following financial resources:

1. Contributions from the waterworks business operator who takes benefits from the designation of the water-source protection area;
2. Borrowed money;
3. Profits incurred from the management of the money provided in subparagraphs 1 and 2;
4. Transfers from general accounts of local governments and other special accounts.

(2) Waterworks business operators provided in paragraph (1) 1 shall contribute, as prescribed by Presidential Decree, part of the proceeds from his/her waterworks business.

(3) The State may allot a subsidy from the Special Account for Environmental Improvement to cover part of the necessary expenses, taking into consideration the size of the fund raised under paragraph (1) and the required expenses.

(4) The Management Authority shall distinguish the fund raised under paragraph (1) from the other money and shall manage it as a separate account.

Article 11 (Bearing Expenses Incurred in Managing Water-Source Protection Areas)(1) Where a waterworks business operator benefits from the designation and management of a water-source protection area, he/she shall bear expenses incurred in managing the relevant water-source protection area and operating water-pollution prevention facilities prescribed by Presidential Decree, within the limit of the benefits that he/she gains, and according to the criteria for the expense-bearing ratio prescribed by Presidential Decree after consulting thereon with a Management Authority in charge of the relevant water-source protection area. <Amended by Act No. 10976, Jul. 28, 2011>

(2) Where consultation held under paragraph (1) fails to reach agreement, the amount of expenses to be borne by the waterworks business operator shall be determined in any of the following manners:

1. Where the relevant Sis/Guns/Gus belongs to the jurisdiction of the same City/Do, it shall be determined by the competent Mayor/Do Governor;
 2. Where the relevant Sis/Guns/Gus belongs to the jurisdiction of a different City/Do, it shall be determined through a consultation between the competent Mayors/Do Governors;
 3. Where a waterworks business operator is not a local government, it shall be determined through a consultation between the relevant waterworks business operator and the Mayor/Do Governor in charge of the relevant water-source protection area.
- (3) Where consultation held under paragraph (2) 2 and 3 fails to reach agreement, the Minister of the Interior shall determine the amount of such expenses, after seeking opinions from the relevant Mayor/Do Governor and consulting with the head of the relevant central administrative agency. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014>

Article 12 (Management Principles for Waterworks Business)(1) Waterworks business shall be in principle managed by the State, local governments and the Korea Water Resources Corporation: Provided, That the same shall not apply where the supply of tap water by private business operators on behalf of local governments, etc. is deemed necessary.

(2) The waterworks business operator shall make efforts to establish a water rate system based on a reasonable cost calculation, to maintain and expand waterworks-related facilities, and to improve technology on waterworks.

(3) In establishing the water rate system referred to in paragraph (2), every waterworks business operator shall work to lead consumers to save water and to secure expenses for consumers to pay for their supplied water and financial resources necessary to ensure the continuity of his/her projects from the revenues of water rate.

Article 13 (Prohibition, etc. against Seeking Profits)(1) Anyone shall be prohibited from marketing tap water after bottling tap water or re-treating it using equipment, etc.

(2) The Minister of Environment, the Special Metropolitan City Mayor, the Metropolitan City Mayor, the Mayor of a Special Self-Governing City and the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) may take measures necessary to suspend the supply of tap water against anyone who has violated paragraph (1) and remove his/her equipment, etc. <Amended by Act No. 11085, Nov. 14, 2011>

Article 14 (Certification, etc. of Materials or Products for Waterworks)(1) Any person that intends to manufacture or import materials or products for waterworks that come into contact with water among waterworks facilities (excluding water intake facilities, water reservation facilities and raw water conveyance facilities) shall in advance obtain certification as to whether such materials or products for waterworks meet hygiene and safety standards prescribed by Presidential Decree from the Minister of Environment.

(2) No one shall manufacture, import, supply or sell any materials or products for waterworks not certified under paragraph (1): Provided, That the foregoing shall not apply where any entity prescribed by Ordinance of the Ministry of Ordinance, such as a school or research

institution, manufactures or imports such materials or products for waterworks for testing or research purposes.

(3) Any person that intends to install general waterworks or private-use waterworks shall use materials or products for waterworks which meet the standards prescribed by Presidential Decree, and shall use materials or products for waterworks certified under paragraph (1) for materials or products that comes into contact with water.

(4) Any person that has obtained certification from the Minister of Environment under paragraph (1) shall indicate such certification on every material or product for waterworks or the package thereof.

(5) No one shall place a certification mark on any material or product for waterworks not certified under paragraph (1) or the package thereof.

(6) A person that has obtained certification pursuant to paragraph (1) shall undergo periodic inspections conducted by certifying authorities on relevant materials and products for waterworks. <Newly Inserted by Act No. 12141, Dec. 30, 2013>

(7) The scope of materials or products for waterworks to be certified pursuant to paragraph (1), the methods and procedures for certification, the designation of testing agencies, fees, and the methods of indicating certification under paragraph (4), the interval of the periodic inspections under paragraph (6), and the standards, methods, procedure, fees, etc. for such periodic inspections shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 12141, Dec. 30, 2013>

[This Article Wholly Amended by Act No. 10317, May 25, 2010]

Article 14-2 (Revocation, etc. of Certification)(1) Where a person that receives certification pursuant to Article 14 falls under any of the following cases, the Minister of Environment may revoke such certification, as prescribed by Ordinance of the Ministry of Environment: Provided, That the Minister of Environment shall revoke such certification in cases falling under any of subparagraphs 1 through 3: <Amended by Act No. 12141, Dec. 30, 2013>

1. Where he/she obtains certification by fraud or other illegal means;
2. Where he/she fails to undergo or pass a periodic inspection under Article 14 (6);
3. Where he/she is unable to continue business operations due to business closure or any other cause or event;
4. Where he/she manufactures or imports a material or product in a different manner from the certified matters.

(2) No person whose certification is revoked pursuant to paragraph (1) shall re-file an application for certification before the lapse of the following periods classified as follows, whichever is relevant: <Amended by Act No. 12141, Dec. 30, 2013; Act No. 13878, Jan. 27, 2016>

1. Where certification is revoked pursuant to paragraph (1) 1, 2, or 4: Six months from the date of revocation;
2. Where certification is revoked pursuant to paragraph (1) 3: One month from the date of

revocation.

[This Article Newly Inserted by Act No. 10317, May 25, 2010]

Article 14-3 (Recommendation of Collecting, etc. of Products, etc.)(1) The Minister of Environment may recommend a business operator who manufactures, imports, supplies, or sells materials or products for waterworks not certified in violation of Article 14 (2) (hereinafter referred to as “products, etc.”), to take measures to collect, destroy, exchange, refund, or improve the relevant products, etc. or take other necessary measures (hereinafter referred to as “collecting, etc.”).

(2) Where a business operator takes measures following recommendation pursuant to paragraph (1), he/she shall report matters prescribed by Presidential Decree, such as the result of such measures, to the Minister of Environment.

(3) Where a business operator recommended to take measures pursuant to paragraph (1) fails to follow the recommendation without any justifiable grounds, the Minister of Environment may publicly announce the fact thereof.

(4) Matters necessary for recommending collecting, etc. pursuant to paragraph (1), reporting pursuant to paragraph (2), and publicly announcing pursuant to paragraph (3), shall be prescribed by Presidential Decree.

[This Article Newly Inserted by Act No. 13878, Jan. 27, 2016]

Article 14-4 (Order for Collecting, etc. Products, etc.)(1) Where a business operator recommended to take measures pursuant to Article 14-3 (1) fails to follow the recommendation without any justifiable grounds, the Minister of Environment may order him/her to conduct collecting, etc. according to the procedures prescribed by Presidential Decree and publicly announce the fact thereof.

(2) Where a business operator takes the relevant measures following an order issued pursuant to paragraph (1), he/she shall report matters prescribed by Presidential Decree, such as the result of such measures, to the Minister of Environment.

(3) Where a business operator fails to follow an order issued pursuant to paragraph (1), the Minister of Environment may conduct collecting, etc. of the relevant products, etc. by himself/herself. In such cases, expenses incurred in collecting, etc. may be collected from the relevant business operator.

(4) Matters necessary for issuing orders and publicly announcing collecting, etc. pursuant to paragraph (1), reporting pursuant to paragraph (2), and taking measures and collecting expenses pursuant to paragraph (3), shall be prescribed by Presidential Decree.

[This Article Newly Inserted by Act No. 13878, Jan. 27, 2016]

Article 15 (Installation of Water-Saving Fixtures, etc.)(1) Where any person intends to construct any buildings or facilities prescribed by Presidential Decree, he/she shall install water-saving fixtures to economize and efficiently use tap water. <Amended by Act No. 10976, Jul. 28, 2011>

(2) Any person who conducts lodging business (excluding lodging facilities having not more than ten rooms) and public bath business under Article 2 (1) 2 and 3 of the Public Health

Control Act or sports facility business under Article 10 (1) of the Installation and Utilization of Sports Facilities Act or installs public toilets under subparagraph 1 of Article 2 of the Public Toilets, etc. Act, shall install water-saving fixtures and devices. <Amended by Act No. 11085, Nov. 14, 2011>

(3) When any person who conducts lodging business, public bath business or sports facility business or installs public toilets fails to install water-saving fixtures and devices under paragraph (2), the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun/Gu may order him/her to install such water-saving fixtures and devices. <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

Article 15-2 (Registration of Water-Saving Business)(1) A person that intends to engage in any of the following business (hereinafter referred to as "water-saving business") shall be equipped with the facilities, equipment, and technical capacity that meet the standards prescribed by Presidential Decree and shall have the business registered with the Minister of Environment:

1. Management and maintenance of facilities and equipment for the distribution and supply of water for the reduction of leakage in facilities or areas to which water is supplied (including investment in improving such facilities);
2. Installation of water-saving fixtures and devices under Article 15;
3. Other business specified by Ordinance of the Ministry of Environment as those for saving water.

(2) The Minister of Environment may provide technical assistance and other necessary assistance to the persons that have their business registered pursuant to paragraph (1) (hereinafter referred to as "water-saving business operators").

[This Article Newly Inserted by Act No. 12141, Dec. 30, 2013]

Article 15-3 (Revocation of Registration, etc. of Water-Saving Business)

Where any water-saving business operator falls under any of the following, the Minister of Environment may revoke the relevant registration or suspend the assistance under Article 15-2 (2), as prescribed by Ordinance of the Ministry of Environment: Provided, That the Minister of Environment shall revoke the registration in cases of falling under subparagraph 1:

1. Where a person has his/her business registered pursuant to Article 15-2 (1) by fraud or other illegal means;
2. Where a water-saving business operator lends his/her registration certificate to any third person to aid and abet the person to engage in the business specified in any subparagraph of Article 15-2 (1);
3. Where a water-saving business no longer meets the standards for the registration under Article 15-2 (1);
4. Where a water-saving business operator fails to commence his/her business without justifiable grounds within three years after he/she has his/her business registered or has no

result from his/her business performance continuously for at least three years.

[This Article Newly Inserted by Act No. 12141, Dec. 30, 2013]

Article 15-4 (Restriction on Registration of Water-Saving Business)

No person that has his/her registration revoked pursuant to Article 15-3 shall file for the registration under Article 15-2 (1) again before the lapse of one year from the date of revocation of the registration.

[This Article Newly Inserted by Act No. 12141, Dec. 30, 2013]

Article 16 (Indicating Volume of Water Used by Water-Using Appliances, etc.)

Any person who intends to manufacture or import a water-using appliance to sell such appliance in the Republic of Korea, shall indicate the volume of water usage in the energy efficiency rating under Article 15 (2) of the Energy Use Rationalization Act, as prescribed by Presidential Decree.

[This Article Newly Inserted by Act No. 10976, Jul. 28, 2011]

CHAPTER II GENERAL WATERWORKS BUSINESS

Article 17 (Authorization for General Waterworks Business)(1) A person that intends to engage in general waterworks business shall obtain authorization from the Minister of Environment, the Minister of Land, Infrastructure and Transport, the Mayor/Do Governor, or the head of a Si/Gun (excluding the head of a Gun; hereinafter referred to as "authorizing agency"), whoever is the competent authority specified in any of the following subparagraphs, as prescribed by Presidential Decree. The same shall also apply where he/she intends to amend the authorized matters (excluding an amendment to insignificant matters prescribed by Presidential Decree): <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011; Act No. 11690, Mar. 23, 2013>

1. Wide-area waterworks and local waterworks that are installed by a local government (excluding wide-area waterworks and local waterworks under subparagraphs 3 and 4) and water treatment facilities of wide-area waterworks that are authorized by the Minister of Land, Infrastructure and Transport: The Minister of Environment;
2. Wide-area waterworks (excluding water treatment facilities), other than wide-area waterworks that are installed by a local government: The Minister of Land, Infrastructure and Transport;
3. Wide-area waterworks and local waterworks, the volume of which is not more than 10,000 tons a day, installed by a local government in the jurisdiction of a Do or Self-Governing Province: The Governor of a Do or the Governor of a Special Self-Governing Province;
4. Wide-area waterworks and local waterworks, the volume of which is not more than 100,000 tons a day, installed by a local government in the jurisdiction of the Special Metropolitan City, a Metropolitan City or Special Self-Governing City: The Mayor of the Special Metropolitan City, the Mayor of a Metropolitan City, or the Mayor of a Special Self-Governing City;
5. Village waterworks: The Mayor of the Special Metropolitan City, the Mayor of a

Metropolitan City, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, or the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City).

(2) Where the Minister of Environment and the Minister of Land, Infrastructure and Transport intend to grant the authorization under paragraph (1) 1 and 2, they shall consult thereon with each other in advance, and where the Mayor/Do Governor intends to grant authorization under subparagraphs 3 and 4 of the same paragraph, he/she shall consult with the Minister of Environment and the Minister of Land, Infrastructure and Transport in advance. In such cases, where the Minister of Land, Infrastructure and Transport authorizes wide-area waterworks equipped with water purification facilities after consulting with the Minister of Environment, the installation and operation of the purification facilities shall be deemed authorized by the Minister of Environment. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10976, Jul. 28, 2011; Act No. 11690, Mar. 23, 2013>

(3) When having granted the authorization for the general waterworks business in accordance with paragraph (1), an authorizing agency shall without delay give a public notice thereof. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 10976, Jul. 28, 2011>

(4) The Minister of Environment and the Minister of Land, Infrastructure and Transport shall consult with each other whenever they formulate an annual plan for general waterworks services to ensure the efficient operation of services. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(5) Where the Mayor/Do Governor authorizes general waterworks (excluding village waterworks), he/she shall notify the Minister of Environment of authorized matters without delay. <Newly Inserted by Act No. 10976, Jul. 28, 2011>

Article 18 (Standards for Facilities, etc.)(1) Any general waterworks business operator shall give consideration to the safety of the waterworks from earthquake when he/she installs such waterworks and install the general waterworks in accordance with the criteria as prescribed by Presidential Decree depending on the quality, quantity, geographical condition of the natural water, on the types of the waterworks, and on the scale of the waterworks.

(2) Deleted. <by Act No. 10317, May 25, 2010>

(3) Where a person installs water tanks referred to in subparagraph 24 of Article 3, he/she shall meet the criteria as determined by the Ordinance of the Ministry of Environment: Provided, That facility criteria for water tanks installed in buildings or establishments, except buildings or establishments the scale of which exceeds the scale set by Presidential Decree under Article 33 (2), may be set by ordinances of the relevant local government.

Article 19 (Inspection for Water Quality at Time of Completion of Construction)(1) Where a general waterworks business operator has completed a waterworks construction work, he/she shall undergo an inspection of the water quality.

(2) Unless having undergone an inspection of water quality as provided in paragraph (1), the general waterworks business operator shall not provide tap water.

Article 20 (Protection of Waterworks)

Anyone shall be prohibited from installing waterworks connected to the existing tap-water pipelines of the general waterworks or modifying or damaging the general waterworks without having obtained a prior approval therefor from the general waterworks business operator.

Article 21 (Management of Waterworks)(1) The management right of general waterworks shall be held by a general waterworks business operator: Provided, That the waterworks management right of water-supply facilities shall be held by a person prescribed by Presidential Decree.

(2) Notwithstanding the proviso to paragraph (1), any general waterworks business operator may examine the current condition of water-supply facilities and the quality of tap water after obtaining consent thereto from the owner or the manager of the relevant water supply facilities: Provided, That a general waterworks business operator shall examine water-supply facilities, with consent thereto from the owner or manager of the facilities, to ensure that the facilities have been properly installed, when tap water is supplied to newly installed facilities. <Amended by Act No. 12141, Dec. 30, 2013>

(3) Anyone that is supplied with tap water by a general waterworks business operator may request the general waterworks business operator to examine the current condition of the water-supply facilities and the quality of the tap water that is supplied to him/her.

(4) The standards and procedure for the examination of water-supply facilities under paragraphs (2) and (3) and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 12141, Dec. 30, 2013>

(5) Where a general waterworks business operator finds, as a result of the examination conducted under paragraph (2) or (3), that water-supply facilities fall short of the standards for the examination under paragraph (4) or tap water falls short of the water quality standards under Article 26 (2), he/she may recommend the owner or the manager of the water-supply facilities to wash, renew, or replace the water-supply facilities and take other necessary measures, as prescribed by municipal ordinance of the competent local government. In such cases, the general waterworks business operator may grant a subsidy or lend a loan for part of the expenses incurred in washing, renewing, or replacing the water-supply facilities, as prescribed by municipal ordinance of the competent local government. <Amended by Act No. 11085, Nov. 14, 2011; Act No. 12141, Dec. 30, 2013>

(6) A general waterworks business operator shall appoint a person that meets standards prescribed by Presidential Decree as the manager responsible for waterworks to perform the duties prescribed by Presidential Decree, including technical management of waterworks.

(7) A general waterworks business operator shall place certified operation managers of the water-purification facilities in the water purification facilities to manage the facilities according to the standards prescribed by Presidential Decree, taking into account the scale, etc. of the water-purification facilities, so as to ensure the efficient operation and management of the

water-purification facilities.

Article 22 (Invitation of Private Capital for Waterworks Business)

The State or local governments may invite private capital to cover, in whole or in part, costs involved in the waterworks business, as prescribed by the Act on Public-Private Partnerships in Infrastructure.

Article 23 (Entrustment of Operation and Management of Waterworks)(1) Every general waterworks business operator (referring to a general waterworks business operator which is a local government; hereafter the same shall apply in this Article) may entrust all or some of the operation and management affairs of waterworks (hereinafter referred to as "waterworks management affairs") to specialized institutions prescribed by Presidential Decree or any waterworks business operator who is a local government, as prescribed by Presidential Decree in order to efficiently operate and manage the waterworks business. In such cases, a general waterworks business operator may entrust waterworks management affairs jointly with another general waterworks business operator. <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

(2) Where a general waterworks business operator intends to entrust waterworks management affairs pursuant to paragraph (1), he/she shall conclude a contract for entrustment with a person to be entrusted with waterworks management affairs (hereinafter referred to as "trustee"), as prescribed by Presidential Decree, and report the following to the Minister of Environment without delay, as prescribed by Ordinance of the Ministry of Environment: <Amended by Act No. 11085, Nov. 14, 2011>

1. Where he/she has concluded a contract for entrustment, the fact of the conclusion thereof, or where he/she has changed the details of a contract for entrustment, the fact of the change thereof;

2. Where he/she has cancelled a contract for entrustment, the fact of the cancellation thereof.

(3) For the purposes of Articles 28, 28-2, 29, 32, 33 (1), 36, 37 and 61, a trustee shall be deemed a general waterworks business operator only when he/she performs waterworks management affairs. <Amended by Act No. 11085, Nov. 14, 2011>

(4) Where any general waterworks business operator entrusts the waterworks management affairs, he/she shall guide and supervise a trustee when the trustee performs the relevant entrusted affairs. In such cases, the general waterworks business operator may, when it is deemed necessary to ensure the safe and appropriate supply of tap water, request the trustee to file reports and submit materials.

(5) Every general waterworks business operator shall establish and operate a Waterworks Management Entrustment Review Committee to deliberate on matters concerning the waterworks management affairs. <Newly Inserted by Act No. 10317, May 25, 2010>

(6) The chairperson of each Waterworks Management Entrustment Review Committee shall be appointed by the relevant general waterworks business operator from among public officials of Grade III to Grade V in charge of waterworks-related affairs, and its members shall be comprised of no more than 15 persons, as prescribed by Presidential

Decree. <Newly Inserted by Act No. 10317, May 25, 2010>

(7) The functions and operation of a Waterworks Management Entrustment Review Committee and other necessary matters shall be prescribed by Presidential Decree. <Newly Inserted by Act No. 10317, May 25, 2010>

Article 23-2 (Inspections of Actual Conditions of Operation and Management of Water Supply Facilities)(1) The Minister of Environment may inspect the actual conditions (hereafter referred to as "inspection of the actual conditions" in this Article) on the operation and management of water supply facilities in order to improve the quality of water supply services.

(2) The Minister of Environment may establish and operate a computer network for the efficient inspection of the actual conditions and sharing of related information

(3) Matters necessary for indexes, methods, etc. for the inspection of the actual conditions shall be determined and announced by the Minister of Environment.

[This Article Newly Inserted by Act No. 11085, Nov. 14, 2011]

Article 24 (Certified Operation Managers of Water-Purification Facilities)(1) Anyone who intends to become a certified operation manager of water-purification facilities shall pass the qualifying examination for the certified operation managers of water-purification facilities, which is administered by the Minister of Environment.

(2) None of the following persons can become a certified operation manager of water-purification facilities: <Amended by Act No. 13166, Feb. 3, 2015>

1. A minor or an incompetent person under adult guardianship;
2. One who is not yet reinstated after having been sentenced bankrupt;
3. One who has been sentenced to imprisonment without prison labor or a heavier punishment and for whom two years have yet to pass from the date the execution of the sentence is terminated (including where the execution of the sentence is deemed to be terminated) or the execution of the sentence is exempted;
4. One who is in a stay period after having been sentenced to a stay of the execution of imprisonment without prison labor or a heavier punishment;
5. One for whom three years have yet to pass from the date his/her qualification as the certified operation manager of water-purification facilities was revoked.

(3) The Minister of Environment shall issue certificates of qualifications to persons that have passed the qualifying examination referred to in paragraph (1).

(4) No certificates of qualifications for certified operation managers of water-purification facilities issued under paragraph (3), shall be lent to any other person.

(5) Qualifications for applying for the qualifying examination for the certified operation managers of water-purification facilities referred to in paragraph (1), the subjects of the examination, ways to administer the examination, the partial exemption from the examination, and other matters necessary for the examination, shall be prescribed by Presidential Decree.

Article 24-2 (Sanctions against Persons who Cheated on Examination)

For applicants that cheated on the qualifying examination for certified operation managers of water-purification facilities, the Minister of Environment shall suspend or invalidate such examination or revoke the determination of passing the examination, and shall suspend his/her qualification to apply for the examination for three years, starting from the day when the examination was suspended or invalidated or the determination of passing the examination was revoked.

[This Article Newly Inserted by Act No. 13878, Jan. 27, 2016]

Article 25 (Revocation, etc. of Qualifications for Certified Operation Managers of Water-Purification Facilities)(1) Where any certified operation manager of the water-purification facilities falls under any of the following subparagraphs, the Minister of Environment may revoke his/her qualification or suspend his/her qualification within the scope of not more than 3 years: Provided, That if he/she falls under subparagraph 1 or 2, his/her qualification shall be revoked:

1. Where he/she has obtained his/her qualification by fraudulent or other unlawful means;
2. Where he/she falls under any of the provisions of Article 24 (2) 1 through 5;
3. Where the supply of tap water to residents has harmfully affected their health on the grounds of poor operation and management of the water-purification facilities, which has been caused by his/her deliberation or gross negligence;
4. Where he/she has lent his/her certificate of qualification to any other person, in violation of Article 24 (4).

(2) Standards for revoking or suspending the qualifications of certified operation managers of water-purification facilities referred to in paragraph (1) shall be set by the Ordinance of the Ministry of Environment taking into account the grounds of dispositions and the severity of violations.

Article 26 (Standards for Water Quality)(1) The drinking water that is supplied by the waterworks shall not include the substance falling under any of the following subparagraphs:

1. The substance that is contaminated or is apprehended to be contaminated with pathogenic germs, bacteria, or viruses;
2. An inorganic or organic substance that has the possibility to affect negatively the state of health;
3. The substance that can exert an aesthetic influence;
4. Other substances that can exert a negative influence on the state of health.

(2) Necessary matters concerning the standards for water quality provided in paragraph (1) shall be determined by the Ordinance of the Ministry of Environment.

(3) The Minister of Environment may designate the items that need to be monitored, such as micro-pollutants in raw water or purified water, as the monitored items of drinking water for the establishment of the water quality standards under paragraph (2). In such cases, further details about the items to be designated as the monitored items of drinking water, the procedure for the designation, the standards for each monitored item of drinking water, and the testing cycle shall be determined and publicly notified by the Minister of

Environment. <Newly Inserted by Act No. 12141, Dec. 30, 2013>

(4) Where a Mayor/Do Governor deems it necessary to protect health of residents, he/she may provide for any of the following matters by municipal ordinance of the City/Do: Provided, That the same shall not apply to the wide-area waterworks that supply raw water or purified water to the areas of two or more Cities/Dos: <Amended by Act No. 12141, Dec. 30, 2013>

1. Tightening of the water quality standards under paragraph (2) or the standards for the monitoring of drinking water for each monitored item under paragraph (3);

2. The water quality standards and testing methods for any item other than the items included in the water quality standards under paragraph (2) or the standards for the monitoring of drinking water for any items other than the monitored items under paragraph (3) and the testing methods for such items.

Article 27 (Public Notice on Details of Violations, etc. of Water Quality Standards)(1)

Where tap water fails to meet water quality standards referred to in Article 26 (2) or in cases falling under reasons prescribed by Presidential Decree, a general waterworks business operator shall inform residents in his/her jurisdiction of the details of the violation thereof and take measures necessary to improve the water quality. <Amended by Act No. 11085, Nov. 14, 2011>

(2) Matters necessary for the timing, details, methods, etc. of public notice under paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 11085, Nov. 14, 2011>

Article 28 (Water Purification Standards)(1) General waterworks business operators shall comply with the water purification standards prescribed by Ordinance of the Ministry of Environment in order to prevent tap water that is supplied for drinking from being contaminated by pathogenic microorganisms: Provided, That the same shall not apply where ground water that is not affected by surface water is used as a water source and the water source is granted certification prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 11085, Nov. 14, 2011; Act No. 12141, Dec. 30, 2013>

(2) Where a general waterworks business operator certified under the proviso to paragraph (1) falls under any of the following cases, the Minister of Environment shall revoke such certification: <Amended by Act No. 11085, Nov. 14, 2011>

1. Where he/she is certified by deceit or other unlawful means;

2. Where the relevant water source certified fails to meet standards for certification under paragraph (3).

(3) Necessary matters concerning the scope of facilities that should meet water purification standards under the main body of paragraph (1), standards for certification, the period of certification and the procedures for certification, etc. under the proviso to the same paragraph shall be prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 11085, Nov. 14, 2011>

(4) General waterworks business operators shall install and operate water purifying facilities so that turbidity, etc. of purified water may meet standards established by Ordinance of the

Ministry of Environment to meet water purification standards under the main sentence of paragraph (1). <Newly Inserted by Act No. 11085, Nov. 14, 2011>

(5) General waterworks business operators shall conduct regular inspections to verify whether purified water meets standards under paragraph (4). In such cases, necessary matters concerning items, the period, methods, etc. of inspections shall be prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 11085, Nov. 14, 2011>

(6) General waterworks business operators shall record and keep the outcomes of an inspection conducted under paragraph (5), as prescribed by Ordinance of the Ministry of Environment, and report the outcomes thereof to the Minister of Environment. <Newly Inserted by Act No. 11085, Nov. 14, 2011>

(7) Where the outcomes of an inspection under paragraph (5) fail to meet standards under paragraph (4), general waterworks business operator shall take necessary measures, such as the improvement of water supply facilities, as prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 11085, Nov. 14, 2011>

(8) Where a general waterworks business operator fails to meet water purification standards under the main body` of paragraph (1), the Minister of Environment may order him/her to take necessary measures, such as the improvement of water supply facilities. <Newly Inserted by Act No. 11085, Nov. 14, 2011>

Article 28-2 (Inspections of Actual Conditions on Spread of Pathogenic Microorganisms)(1) Each general waterworks business operator shall inspect the actual conditions of the spread of pathogenic microorganisms, such as virus, on purified water for the efficient operation of water purifying facilities, and report the outcomes thereof to the Minister of Environment.

(2) Matters necessary for facilities subject to inspection, the timing, items, methods of inspection, details, procedures, etc. of a report of the outcomes under paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment.

[This Article Newly Inserted by Act No. 11085, Nov. 14, 2011]

Article 29 (Inspection of Water Quality and Analysis of Water Quantity)(1) General waterworks business operators shall execute the inspection of water quality, and conduct analysis of water quantity such as the quantity of collected water, processed water and supplied water in order to confirm whether the natural and purified water is in conformity with the standards set by the Ordinance of the Ministry of Environment, as prescribed by the Ordinance of the Ministry of Environment.

(2) In order to execute the inspection of water quality, general waterworks business operators shall install the inspection facilities that meet the criteria as prescribed by Presidential Decree.

(3) Where general waterworks business operators inspect water quality and analyzes water quantity under paragraph (1), he/she shall keep and preserve records of the inspection and analysis, as prescribed by Ordinance of the Ministry of Environment, and shall immediately disclose the results of the inspection of water quality and the analysis of water quantity

through an Internet web-site, etc. <Amended by Act No. 12141, Dec. 30, 2013>

(4) The Minister of Environment shall install and operate a computer network that can process the records of inspections of water quality and analyses of water quantity prepared pursuant to paragraphs (1) and (3). <Newly Inserted by Act No. 12141, Dec. 30, 2013>

(5) Where general waterworks business operators make a false statement in an announcement to the general public or in a report submitted to the Minister of Environment with regard to the results of the inspection of water quality or the analysis of water quantity under paragraph (1), the Minister of Environment may request the waterworks business operator to take a disciplinary action against the person in charge of the inspection and analysis. In such cases, the waterworks business operator shall comply with such request, unless extenuating circumstances exist.

Article 30 (Tap-Water Quality Evaluation Committee)(1) A Tap-Water Quality Evaluation Committee mandated to perform the following duties shall be established under the jurisdiction of the Special Metropolitan City, a Metropolitan City, a Special Self-Governing City, a Special Self-Governing Province and a Si/Gun (excluding a Gun in a Metropolitan City): <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

1. Execution of the periodical inspections of tap water and publication of the outcomes of the inspections;

2. Advices given to waterworks business operators about the control of water quality and the operation of waterworks;

3. Selection of places subject to the periodical inspections referred to in subparagraph 1.

(2) The Special Metropolitan City Mayor, the Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun shall formulate a plan to operate the tap water evaluation committee each year. <Newly Inserted by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

(3) When the Special Metropolitan City Mayor, the Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun formulates a plan to operate the tap water evaluation committee or revises such plan, he/she shall report the formulation or revision thereof to the Minister of Environment according to methods and procedures prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

(4) Matters necessary for the composition and operation of the tap water evaluation committees under paragraph (1) shall be prescribed by Presidential Decree. <Amended by Act No. 10317, May 25, 2010>

Article 31 (Tap-Water Quality Report)(1) Every general waterworks business operator shall publish a tap-water quality report not less than once a year and deliver the tap-water quality report to each of the residents, who is supplied with tap water in his/her water-supply area.

(2) Matters necessary for the details of the tap-water quality report referred to in paragraph

(1) and ways to publish and deliver the report, etc. shall be prescribed by the Ordinance of the Ministry of Environment.

Article 32 (Medical Checkup)(1) As for persons who discharge their duties at and around the water intake facilities, the water purification facilities, and the water supply facilities and other persons who reside within the area for the said facilities, every general waterworks business operator shall provide them with a medical checkup, as prescribed by the Ordinance of the Ministry of Environment.

(2) As for any person who is admitted to have a disease which is apprehended to throw or inflict a danger or damage on other persons as a result of the medical checkup referred to in paragraph (1), every general waterworks business operator shall not have said person work for his/her waterworks business or reside within the area of such facilities.

(3) Article 29 (3) shall apply mutatis mutandis to the preparation and preservation of the record of the medical checkup under paragraph (1).

Article 33 (Sanitary Measures)(1) Each general waterworks business operator shall disinfect his/her waterworks, inspect water quality, and take every possible sanitary measures for his/her waterworks (hereinafter referred to as "sanitary measures, including disinfection").

(2) The owner or manager (with respect to any multi-family housing defined in subparagraph 3 of Article 2 of the Housing Act, the head of any maintenance office under Article 55 of the same Act shall be deemed the manager of any building or facilities; hereafter the same shall apply in paragraphs (3) and (4) and Article 36 (1) of any building or facilities that require a lot of tap water and exceed the scale prescribed by Presidential Decree shall take sanitary measures, including disinfection, for the water-supply facilities (excluding the portion thereof on which the general waterworks business operator holds the right to manage the waterworks). In such cases, any general waterworks business operator may partially subsidize expenses incurred in performing the inspection of water quality, as prescribed by ordinances of the relevant local government. <Amended by Act No. 13878, Jan. 27, 2016>

(3) The owner or manager of any of the following buildings or facilities, the scale of which exceeds the scale prescribed by Presidential Decree, shall periodically check the water supply pipes (excluding the portion on which the general waterworks business operator holds the right to manage the waterworks), as prescribed by Ordinance of the Ministry of Environment, and take possible measures necessary to wash, renew, or replace them according to the outcome of the checking (hereinafter referred to as the "measures, including washing"): <Amended by Act No. 13878, Jan. 27, 2016>

1. Superstores defined in subparagraph 3 of Article 2 of the Distribution Industry Development Act;
2. Buildings prescribed by Presidential Decree among multi-family housing defined in subparagraph 3 of Article 2 of the Housing Act;
3. Transportation facilities specified in Article 2 (2) 8 of the Building Act;
4. Medical facilities specified in Article 2 (2) 9 of the Building Act;

5. Facilities prescribed by Presidential Decree, among education and research facilities specified in Article 2 (2) 10 of the Building Act;
6. Facilities prescribed by Presidential Decree, among facilities installed by the State or local governments specified in Article 2 (2) 11 through 13 of the Building Act;
7. Business facilities specified in Article 2 (2) 14 of the Building Act;
8. Facilities prescribed by Presidential Decree, among correctional facilities and military installations installed by the State or local governments specified in Article 2 (2) 23 of the Building Act;
9. Other facilities prescribed by municipal ordinances, which are deemed necessary for safe supply of tap water.

(4) Each general waterworks business operator shall guide and supervise sanitary measures taken by the owner or manager of a building or facilities referred to in paragraph (2) or (3) to disinfect or wash them.

(5) Matters necessary for sanitary measures, including disinfection, measures, including washing, the frequency and items of inspection of water quality, the guidance and supervision referred to in paragraphs (1) through (4), shall be prescribed by Ordinance of the Ministry of Environment: Provided, That sanitary measures, including disinfection, for buildings or facilities except the buildings or facilities, the scale of which exceeds the scale provided for in paragraph (2), may be prescribed by ordinances of the relevant local government.

Article 34 (Reports on Water-Tank Cleaning Business)(1) Any person who intends to conduct the cleanup business for the sanitary control of water-tanks (hereinafter referred to as "water-tank cleaning business") shall meet the criteria for human resources, equipment, and facilities as prescribed by Ordinance of the Ministry of Environment, and then report his/her intended business to the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun/Gu. The foregoing shall also apply to a revision to important matters prescribed by Ordinance of the Ministry of Environment, from among the reported matters. <Amended by Act No. 8805, Dec. 27, 2007; Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

(2) Any person who has reported on his/her water-tank cleaning business (hereinafter referred to as "water-tank cleaning business operator") shall report to the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun/Gu if he/she intends to discontinue his/her business or suspend the operation thereof. <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

(3) Any person who is ordered to close his/her place of business under Article 35 (1) shall be prohibited from filing a report on the water-tank cleaning business within one year from the date on which he/she is given such order.

Article 35 (Suspension, etc. of Water-Tank Cleaning Business)(1) Where a water-tank cleaning business operator falls under any of following subparagraphs, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head

of a Si/Gun/Gu may order him/her to suspend his/her business upon fixing a period not exceeding three months or to close his/her place of business: <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

1. Where he/she has filed a report required under Article 34 by fraudulent or illegal means or conduct the water-tank cleaning business without filing such report;
2. Where he/she has failed to meet the criteria for reporting provided in Article 34 (1);
3. Where he/she has violated this Act or any order or other dispositions issued or taken under this Act.

(2) The criteria for dispositions prescribed in paragraph (1) shall be determined by Ordinance of the Ministry of Environment.

Article 36 (Education)(1) Any of the following persons shall undergo the education administered by the Minister of Environment concerning the management of waterworks, as prescribed by Presidential Decree:

1. An owner or manager of the building or the facility provided in Article 33 (2);
2. A water-tank cleaning business operator;
3. A general waterworks business operator.

(2) Every general waterworks business operator and every water-tank cleaning business operator shall cause the operators of waterworks and employees in charge of water-tank cleaning to undergo the education referred to in paragraph (1), as prescribed by Presidential Decree.

(3) The Minister of Environment may entrust the educational task provided in paragraphs (1) and (2) to the institutions or organizations designated by Presidential Decree.

Article 37 (Emergency Stop of Water Supply)(1) Having perceived the fact that tap water has the possibility to inflict damage on the state of health, every general waterworks business operator shall, without delay, cease the supply of tap water.

(2) Where a general waterworks business operator stops the supply of tap water pursuant to paragraph (1), he/she shall make the situation known to the Mayor/Do Governor, the residents of the district concerned and the heads of the relevant agencies, and take necessary measures, such as the inspection of water quality and the supply of emergency water.

(3) Any person who has discovered the fact that the water provided by a general waterworks business operator has the possibility to inflict damage on the state of health shall, without delay, notify the general waterworks business operator thereof.

Article 38 (Terms and Conditions of Water Supply)(1) General waterworks business operators shall determine the terms for the rates for tap water, expenses incurred in installing water supply facilities and other conditions for the supply of tap water, as prescribed by Presidential Decree, and shall obtain approval thereof from an authorizing agency before commencing the supply of tap water and the same shall also apply where the approved matters are revised: where a waterworks business operator is a local government, ordinances of the relevant local government shall determine such terms and

conditions. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10976, Jul. 28, 2011>

(2) Any general waterworks business operator and any authorizing agency under the main body of paragraph (1) shall ensure that all expenses incurred in installing the relevant waterworks may be recovered by the service fees for tap water, in setting forth the terms and conditions for the supply of tap water or approving therefor.

(3) Where general waterworks business operators determine service fees for tap water, he/she shall publicly announce the production cost of the service fees, the unit price of service fees, the deficiency in revenue, the plan for covering budgetary deficiency, etc., as prescribed by Ordinance of the Ministry of Environment: Provided, That Articles 11 and 12 of the Act on the Management of Public Institutions shall apply to general waterworks business operators that are the public institutions prescribed in Article 4 of the said Act. <Newly Inserted by Act No. 12141, Dec. 30, 2013>

(4) General waterworks business operators may give a discount on service fees for tap water to the following persons and the public facilities prescribed by Presidential Decree, including educational facilities and social welfare facilities, as prescribed by Presidential Decree: <Newly Inserted by Act No. 10317, May 25, 2010>

1. A person that is 65 years of age or older;
2. A person with a disability governed by the Act on Welfare of Persons with Disabilities;
3. A beneficiary under the National Basic Living Security Act or a person in the next needy class.

Article 39 (Responsibility to Supply Tap Water)(1) No general waterworks business operator shall refuse to supply tap water, without justifiable grounds prescribed by Presidential Decree, to a person that wants to have tap water supplied. <Amended by Act No. 12141, Dec. 30, 2013>

(2) Where general waterworks business operators are not able to supply tap water for a while due to extenuating circumstances, he/she shall determine the area and period, for which and in which tap water is not to be supplied, and give a public notice of them in advance.

(3) General waterworks business operators shall give a written notice to a relevant person of the grounds for refusal to supply tap water and that fact he/she will refuse to supply tap water unless such grounds are ceased allowing at least two years of grace period. <Newly Inserted by Act No. 10317, May 25, 2010>.

Article 40 (Supply of Tap Water to Area Other Than Area to Which Tap Water is Supposed to be Supplied)

If the Minister of Environment deems it necessary for the convenience of the general consumers or for other public interests, he/she may cause the relevant local government that is a waterworks business operator to supply tap water to the area other than the area to which it is supposed to supply tap water.

Article 41 (Supply of Tap Water in Urgent Situation)(1) Where the Mayor/Do Governor deems it necessary to cope with an urgent situation, such as a natural disaster, he/she may

order the relevant waterworks business operator to supply tap water to other waterworks business operators, upon determining the period, volume, and methods: Provided, That if the relevant waterworks business operator is the Mayor/Do Governor, the Minister of Environment shall issue the order.

(2) Rates for tap water supplied under paragraph (1) shall be determined through consultation between the relevant waterworks business operators.

(3) Where the consultation under paragraph (2) does not lead to an agreement, the relevant waterworks business operators may apply for mediation by the competent environmental dispute mediation committee under the Environmental Dispute Adjustment Act, as prescribed by Presidential Decree. <Amended by Act No. 10976, Jul. 28, 2011>

(4) Deleted. <by Act No. 10976, Jul. 28, 2011>

Article 42 (Discontinuance or Suspension of Waterworks Business)

After having started to supply tap water, any general waterworks business operator shall not discontinue or suspend all or part of his/her general waterworks business: Provided, That the same shall not apply where he/she has obtained a permit from the authorizing agency according to the standards for granting permits for the discontinuation or the suspension, which are set by Presidential Decree.

Article 43 (Special Provisions concerning Waterworks Installed by the State)(1) Where the Minister of Environment or the Minister of Land, Infrastructure and Transport deems that a local government, as a general waterworks business operator, is unable or impracticable to install water service facilities for general waterworks due to financial, technical, or geographical circumstances, he/she may directly install the water service facilities for general waterworks. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Environment or the Minister of Land, Infrastructure, and Transport may delegate the management of water service facilities for general waterworks installed pursuant to paragraph (1) to the relevant local government or may entrust management to the Korea Water Resources Corporation. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013>

(3) Where the Minister of Environment or the Minister of Land, Infrastructure, and Transport intends to install waterworks pursuant to paragraph (1) or intends to delegate or entrust the management of waterworks pursuant to paragraph (2), he/she shall pre-consult thereon with the Minister of the Interior: Provided, That this shall not apply to facilities installed by the Minister of Land, Infrastructure, and Transport and entrusted to the Korea Water Resources Corporation. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 11690, Mar. 23, 2013; Act No. 12844, Nov. 19, 2014>

(4) The Minister of Land, Infrastructure and Transport may require the Korea Water Resources Corporation to supply tap water of wide-area waterworks to general consumers, as prescribed by Presidential Decree. In such cases, he/she shall first obtain consent from the relevant Special Metropolitan City Mayor, Metropolitan City Mayor, Special Self-

Governing City Mayor, Special Self-Governing Province Governor, or the head of the relevant Si/Gun (excluding a Gun in a Metropolitan City). <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011; Act No. 11690, Mar. 23, 2013>

Article 44 (Purchase of Waterworks, etc.)(1) In any of the following cases where any person (excluding the State), other than a local government, conducts the general waterworks business located within the jurisdiction of the local government, the local government under consideration may purchase, from the said general waterworks business operator, the waterworks-related facilities, their affiliated land and building, and other things (hereinafter referred to as the "waterworks, etc"), after having obtained approval of the Mayor/Do Governor for doing so:

1. Where the relevant waterworks business operator has not improved the water supply conditions after having received the order for the modification of the water supply conditions under Article 65;
2. Where the area to which tap water is to be supplied needs to be expanded;
3. Where tap water which is being supplied is apprehended to inflict damage on the state of health, being deficient in terms of the criteria for the water quality under Article 26.

(2) Where a local government intends to purchase the waterworks-related facilities, etc. of the general waterworks provided in paragraph (1), the local government shall consult with the general waterworks business operator concerned on the price and other conditions for the purchase.

(3) Where the consultation provided in paragraph (2) fails to lead to a satisfactory conclusion, the local government and the general waterworks business operator may apply for the adjudication on the matter under consideration by the relevant land expropriation committee.

(4) The Act on Acquisition of and Compensation for Land, etc. for Public Works Projects Therefor shall apply mutatis mutandis to the adjudication by the relevant land expropriation committee provided in paragraph (3) and the adjudication on the objection raised and its legal effect, etc.

Article 45 (Hydrant)

Every general waterworks business operator shall install and manage a hydrant necessary for the prevention of a fire at the site of his/her waterworks.

Article 46 (Relationship with other Acts)(1) Where any person that intends to engage in a general waterworks business has obtained authorization for the general waterworks business pursuant to Article 17 (1), he/she shall be deemed to have obtained the following authorization, permission, consent, license, approval, designation, or cancellation (hereinafter referred to as "authorization, permission, etc."), and where the public notice of authorization has been given, the public notice or official announcement under the following Acts shall be deemed given or made: <Amended by Act Nos. 8819 & 8820, Dec. 27, 2007; Act No. 8976, Mar. 21, 2008; Act No. 9774, Jun. 9, 2009; Act No. 10272, Apr. 15, 2010; Act No. 10331, May 31, 2010; Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011; Act

No. 12248, Jan. 14, 2014; Act No. 12738, Jun. 3, 2014>

1. Determination of an urban management plan under Article 30 of the National Land Planning and Utilization Act (limited to infrastructure defined in subparagraph 6 of Article 2 of the same Act), permission to engage in development activities under Article 56 (1) of the same Act, designation of an operator of an urban planning facility project under Article 86 of the same Act, and authorization of an implementation plan under Article 88 of the same Act;
2. Permission to occupy and use public waters under Article 8 of the Public Waters Management and Reclamation Act, approval or reporting of implementation plans concerning occupation and use under Article 17 of the same Act, licenses to reclaim public waters under Article 28 of the same Act, consultation on or approval for reclamation conducted by the State, etc. under Article 35 of the same Act, and approval of implementation plans on reclamation of public waters under Article 38 of the same Act;
3. Deleted; <by Act No. 10272, Apr. 15, 2010>
4. Permission to execute river-related construction works under Article 30 of the River Act, and permission to occupy rivers under Article 33 (1) 2 through 5 of the same Act;
5. Permission to execute road construction works under Article 36 of the Road Act, and permission to occupy and use roads under Article 61 of the same Act;
6. Permission to divert farmland under Article 34 of the Farmland Act;
7. Permission to divert forest and reporting thereon under Articles 14 and 15 of the Mountainous Districts Management Act, permission to temporarily use mountainous districts and reporting thereon under Article 15-2 of the same Act, and permission to fell standing trees, etc. and reporting thereon under Articles 36 (1) and (4) and 45 (1) and (2) of the Creation and Management of Forest Resources Act: Provided, That the protection forest for genetic forest resources, seed-growing forest, and experimental forest under the Creation and Management of Forest Resources Act shall be excluded;
8. Permission to alter land form, etc. under Article 21-2 of the Grassland Act and permission to divert grassland and reporting thereon under Article 23 of the same Act;
9. Permission for felling, etc. under Article 14 of the Erosion Control Work Act, and cancellation of land treated for erosion control under Article 20 of the same Act;
10. Examination on publication of maps, etc. under Article 15 (3) of the Act on the Establishment, Management, etc. of Spatial Data;
11. Designation of a project operator under Article 16 (1) of the Industrial Sites and Development Act, and approval of an implementation plan under Articles 17 (1), 18 (1), and 19 (1) of the same Act;
12. Permission to open a private road under Article 4 of the Private Road Act;
13. Permission to relocate neglected graves under Article 27 (1) of the Act on Funeral Services, Etc.

(2) Where an authorizing agency intends to grant authorization for the general waterworks business in accordance with Article 17 (1) and where the business plan submitted to obtain authorization under consideration includes one of the subject matters specified in the

subparagraphs of paragraph (1), the authorizing agency shall pre-consult thereon with the head of the relevant administrative agency.

(3) Where the general waterworks business operator that is the State or a local government is deemed to have obtained authorization, permission, etc. in accordance with other Acts referred to in paragraph (1), it may be exempt from the charge or usage fee imposed by the relevant Acts: Provided, That this shall not apply to the charges for preservation of farmland imposed under Article 38 of the Farmland Act and the charges for formation of substitute grassland imposed under Article 23 (6) of the Grassland Act.

Article 47 (Village Waterworks)(1) The State and a local government shall provide the technical and financial assistance necessary for the hygienic management of village waterworks.

(2) The Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) shall properly operate and manage the village waterworks in his/her jurisdiction, as prescribed by ordinances of the relevant local government. <Amended by Act No. 10317, May 25, 2010; Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011>

(3) The Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, the head of a Si/Gun/Gu shall formulate and take measures to prevent pollution of village waterworks due to the burying of carcasses of livestock, etc. under Article 22 (2) of the Act on the Prevention of Contagious Animal Diseases, and report the actual conditions of management of village waterworks to the Minister of Environment each year, as prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 11085, Nov. 14, 2011>

CHAPTER III INDUSTRIAL WATERWORKS BUSINESS

Article 48 (Industrial Waterworks Installed by the State, etc.)(1) The State shall provide water for industrial use to an industrial complex prescribed in subparagraph 8 of Article 2 of the Industrial Sites and Development Act after having installed the industrial waterworks facilities, or the State shall order another waterworks business operator to install the industrial waterworks and provide the industrial complex under consideration with water for industrial use. <Amended by Act No. 11020, Aug. 4, 2011>

(2) The State may install industrial waterworks and supply water for industrial use to a factory (limited to a factory, the site area of which is at least 300,000 square meters, established in a water supply area in a basic plan for improvement of waterworks concerning wide-area waterworks and industrial waterworks under Article 4 (1) 1) under subparagraph 1 of Article 2 of the Industrial Cluster Development and Factory Establishment Act, or order another waterworks business operator to install industrial waterworks and supply water for industrial use to such factory. <Newly Inserted by Act No. 10976, Jul. 28, 2011>

Article 49 (Authorization for Industrial Waterworks Business)(1) Any person that intends to engage in a industrial waterworks business shall obtain authorization from the Minister of

Land, Infrastructure and Transport or the Mayor/Do Governor according in accordance with either of the following subparagraphs, as prescribed by Presidential Decree. The same shall also apply where he/she intends to amend the authorized matters (excluding an amendment to insignificant matters prescribed by Presidential Decree): <Amended by Act No. 11690, Mar. 23, 2013>

1. Industrial waterworks with a facility capacity of more than 10,000 tons per day: The Minister of Land, Infrastructure and Transport;

2. Industrial waterworks with a facility capacity not exceeding 10,000 tons per day: The Mayor/Do Governor.

(2) Where the Minister of Land, Infrastructure and Transport intends to grant authorization under paragraph (1) 1, he/she shall consult with the Minister of Environment in advance, and where the Mayor/Do Governor intends to grant authorization under paragraph (1) 2, he/she shall consult with the Minister of Environment and the Minister of Land, Infrastructure and Transport in advance. <Amended by Act No. 11690, Mar. 23, 2013>

[This Article Wholly Amended by Act No. 10976, Jul. 28, 2011]

Article 50 (Provisions Applicable Mutatis Mutandis)

@Articles 17 (3) and (5), 18, 20, 21 (1) and (6), 23, and 38 through 46 shall apply mutatis mutandis to industrial waterworks and industrial waterworks business. <Amended by Act No. 10976, Jul. 28, 2011; Act No. 12141, Dec. 30, 2013>

CHAPTER IV EXCLUSIVE WATERWORKS

Article 51 (Exclusive Waterworks Installed by the State)

Matters concerning the exclusive waterworks installed by the State shall be prescribed by Presidential Decree, unless otherwise expressly prescribed by this Act.

Article 52 (Authorization for Private-Use Waterworks)(1) A person who intends to install the private-use waterworks shall obtain authorization from the Special Metropolitan City Mayor, the Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Mayor of a Special Self-Governing Province and the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) and the requirements for such authorization shall be prescribed by Presidential Decree. <Amended by Act No. 8805, Dec. 27, 2007; Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

(2) When it is intended to revise important matters prescribed by Presidential Decree among the authorized matters under paragraph (1), authorization thereof shall be obtained and when it is intended to revise other matters, a report thereon shall be filed.

(3) When an installer of the private-use waterworks intends to close or discontinue the use of such private-use waterworks for a specified period, file a report thereon with the Special Metropolitan City Mayor, the Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Mayor of a Special Self-Governing Province or the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City). <Amended by Act No. 10317, May 25, 2010; Act No. 11085, Nov. 14, 2011>

Article 53 (Provisions Applicable Mutatis Mutandis to Private-Use Waterworks)

@Articles 14, 14-2, 18, 19, 21 (6), 26, 29 (1) and (3) (excluding the provisions concerning disclosure through an Internet web-site, etc.), 32, 33, 37, and 61 shall apply mutatis mutandis to private-use waterworks. <Amended by Act No. 10317, May 25, 2010; Act No. 12141, Dec. 30, 2013>

Article 54 (Provisions Applicable Mutatis Mutandis to Private-Use Industrial Waterworks)

@Articles 21 (6), 52, and 61 shall apply mutatis mutandis to private-use industrial waterworks. <Amended by Act No. 12141, Dec. 30, 2013>

Article 55 (Small Water Supply Systems)(1) The Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) shall perform an inspection of water quality for small water supply facilities, as determined by Ordinance of the Ministry of Environment. <Amended by Act No. 10317, May 25, 2010; Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011>

(2) The Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) shall endeavor to upgrade and manage small water supply facilities, as prescribed by ordinances of the relevant local government. <Amended by Act No. 10317, May 25, 2010; Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011>

(3) The State and local governments may provide technical and financial assistance necessary for the installation and sanitary management of small water supply systems.

(4) The Special Metropolitan City Mayor, a Metropolitan City Mayor, the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province, the head of a Si/Gun/Gu shall formulate and take measures to prevent pollution of small waterworks due to the burying of carcasses of livestock, etc. under Article 22 (2) of the Act on the Prevention of Contagious Animal Diseases, and report the actual conditions on management of small waterworks to the Minister of Environment each year, as prescribed by Ordinance of the Ministry of Environment. <Newly Inserted by Act No. 11085, Nov. 14, 2011>

Article 55-2 (Special Provisions concerning Facilities for Supplying Tap Water in Military Unit Area)

The State and local governments may provide technical and financial support necessary for the installation of facilities for supplying tap water and sanitation in military unit areas, where it is difficult to install the water service facilities for general waterworks due to geographical conditions, etc.

[This Article Newly Inserted by Act No. 13529, Dec. 1, 2015]

CHAPTER V KOREA WATER AND WASTEWATER WORKS ASSOCIATION

Article 56 (Establishment of Korea Water and Wastewater Works Association)(1) Waterworks business operators, public sewerage management authorities under Article 18 of the Sewerage Act, persons who run the business related to waterworks (including

sewerage; hereafter in this Chapter the same shall apply), persons who are engaged in the academic and research field related to waterworks, and persons determined by Presidential Decree, may establish the Korea Water and Wastewater Works Association (hereinafter referred to as the "Association"), in order to perform the research and development of waterworks to develop the necessary waterworks technologies, and to contribute, in any other way, to the development of waterworks.

(2) The Association shall be a corporation.

(3) The Association shall come into being when the establishment therefor is registered at the place where its principal office is located.

(4) Expenses incurred in the projects of the Association shall be met from member fees paid by members, such as waterworks business operators, and proceeds from projects and the State, local governments and the Korea Water Resources Corporation may subsidize some expenses within budgetary limits.

(5) When the Association is established under paragraph (1), waterworks business operators (excluding private waterworks business operators) and every public waterworks management authority shall become ex officio members.

Article 57 (Executives of Association and How to Elect Them, etc.)(1) The Association shall have a chairman, directors and an auditor.

(2) Businesses of the Association shall be determined by Presidential Decree.

(3) Matters necessary for the fixed number, the term of office, the election method, etc. for the exclusive members of the Association shall be determined by its articles of association.

Article 58 (Supervision)

The Minister of Environment may cause the Association to investigate and research the matters concerning waterworks or to make some report deemed to be necessary for the fulfillment of the business works concerned.

Article 59 (Application Mutatis Mutandis of the Civil Act)

With regard to the Association, the provisions concerning the aggregate corporation in the Civil Act shall be applicable mutatis mutandis, except for the cases as prescribed by this Act.

CHAPTER VI EXPROPRIATION AND USE OF LAND, ETC.

Article 60 (Expropriation and Use of Land, etc.)(1) When it is necessary to conduct the waterworks business, any waterworks business operator may expropriate or use the land, the articles, and the rights (hereinafter referred to as "land, etc") prescribed in Article 3 of the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects.

(2) When authorization for the waterworks business is granted and the public notice of such authorization is given under Article 17 (1) and (3) (including cases applied mutatis mutandis under Article 50), such authorization shall be deemed the project authorization or public notice of the project authorization under Articles 20 (1) and 22 of the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects, and notwithstanding Articles 23 (1) and 28 (1) of the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects, the application for the ruling shall be made by the time of completion of the

waterworks construction works.

(3) Unless otherwise expressly stipulated in this Act, the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects shall apply mutatis mutandis to the expropriation or use of land, etc. under paragraph (1).

Article 61 (Entry into Third Party's Land)(1) When it is necessary to conduct the waterworks business or to inspect the water-supply facilities, any waterworks business operator may enter the land of a third party or temporarily use it. When it is particularly necessary, he/she may alter the positions of or may remove standing trees, bamboo, clay and rocks, or others.

(2) Articles 130 (2) through (8) and 131 of the National Land Planning and Utilization Act shall apply mutatis mutandis to cases prescribed in paragraph (1). In such cases, an "implementer of an urban/Gun planning facility project" shall be construed as a "waterworks business operator" in this Act. <Amended by Act No. 10599, Apr. 14, 2011>

CHAPTER VII SUPERVISION

Article 62 (Supervision and Control)

When it is deemed necessary for the installation plan for the waterworks and the management of the waterworks business in order to preserve and improve the quality of tap water, efficiently operate and manage waterworks, the Minister of Environment may request the relevant waterworks business operator to revise the plan for the business, or may issue an order to improve the management of the relevant business, or may take other necessary measures.

Article 63 (Measures against Violators, etc. of Acts and Subordinate Statutes)(1)

Where waterworks business operators or installers of exclusive waterworks fall under any of the following subparagraphs, an authorizing agency shall revoke authorization under this Act: <Amended by Act No. 10976, Jul. 28, 2011>

1. Where construction work of the authorized waterworks or exclusive waterworks has not been commenced or completed even after one year has elapsed from the scheduled date for commencement or completion of the construction work;
2. Where tap water has not been supplied even after six months have elapsed from the scheduled date for commencement of water supply of the authorized waterworks;
3. Where authorization, a permit or approval under this Act has been obtained by deceitful or other unjust means.

(2) Where waterworks business operators (including a trustee) or installers of exclusive waterworks fall under any of the following, the authorizing agency may revoke authorization under this Act, issue an order to suspend the effect of authorization, suspend construction works, or rebuild, relocate, remove, alter, or remove a structure, or take other necessary measures: <Amended by Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011; Act No. 12141, Dec. 30, 2013>

1. Where it has sold bottled tap water or sold it through re-treatment with apparatus, etc., in violation of Article 13 (1);

2. Where it has revised the authorized matters without having obtained authorization under the latter part of Article 17 (1) or the latter part of Article 49 (1);
3. Where waterworks falls short of the standards for facilities under this Act, in violation of Article 18 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50 or 53);
4. Where it has not undergone an examination of water and has supplied tap water without having undergone the examination, in violation of Article 19 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 53);
5. Where it has not designated a manager of the waterworks under Article 21 (6) (including the cases to which the aforesaid provisions shall apply mutatis mutandis pursuant to Article 50, 53, or 54) or has not employed an operation administrator of the water purification facilities under paragraph (7) of the same Article;
6. Where it has not reported the conclusion of an entrustment contract under Article 23 (2) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50);
7. Where it has not informed the residents of details of violations, etc. of the standards for water quality, in violation of Article 27 (1) or has not taken necessary measures;
8. Where it falls short of standards for water purification under the main sentence of Article 28 (1) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 23 (3)) or has not complied with an order for measures under paragraph (8) of the same Article (including the cases to which the aforesaid provisions shall apply mutatis mutandis pursuant to Article 23 (3));
9. Where it has not examined the quality of water and has not analyzed the quantity of water, or has not draw up or kept a record of such examination and analysis, in violation of Article 29 (1) and (3) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 23 (3) and 53);
10. Where it has not filed a report on the quality of tap water, in violation of Article 31 (1);
11. Where it has violated the regulations concerning medical examination under Article 32 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 23 (3) and 53);
12. Where it has not taken sanitary measures such as disinfection, etc. under Article 33 (1) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 23 (3) and 53) or has not guided or supervised under paragraph (4) of the same Article;
13. Where it has not had the personnel required for operation of waterworks receive education, in violation of Article 36 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 23 (3));
14. Where it has violated the regulations concerning emergency suspension of water supply under Article 37 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 23 (3) and 53);

15. Where it has not obtained approval of the authorizing agency or has not obtained approval for the modification, in violation of Article 38 (1) ((including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50);
16. Where it has refused to supply tap water without any justifiable reason, in violation of Article 39 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50) or has not given public notice in advance when it is unable to supply tap water unavoidably;
17. Where it has not complied with an order for support for emergency water supply under Article 41 (1) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50);
18. Where it has discontinued or suspended a general waterworks business without having obtained a permit from an authorizing agency, in violation of Article 42 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50);
19. Where it has not installed and managed the hydrant on waterworks in violation of Article 45 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50);
20. Where it has done the acts under Article 61 (1) without having obtained a permit or consent under Article 130 (2) through (4) of the National Land Planning and Utilization Act applied mutatis mutandis under Article 61 (2) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 23 (3), 53 and 54);
21. Where it has not complied with an order for measures under Article 62;
22. Where it has not complied with an order of improvement under Article 64 (1) through (4);
23. Where it has not complied with an order for modification under Article 65;
24. Where it has refused, interfered with or evaded an inspection or has not filed a report under Article 66 (1).

[This Article Wholly Amended by Act No. 8805, Dec. 27, 2007]

Article 64 (Improvement Orders, etc.)(1) Where any authorizing agency admits that the waterworks do not meet the criteria therefor as prescribed by this Act, it may give the order for the improvement of the relevant facilities to the relevant waterworks business operator or the installer of the relevant exclusive waterworks by fixing a period.

(2) Where any authorizing agency admits that the management state of the waterworks is remarkably bad, it may give necessary orders to the relevant waterworks business operator or the installer of the relevant exclusive waterworks.

(3) Where natural disasters or other accidents resulting in the pollution of water, etc. negatively affect or are apprehended to negatively affect the supply of tap water to a great extent, the relevant authorizing agency may issue necessary orders to the relevant waterworks business operators or the installer of the relevant exclusive waterworks.

(4) The Minister of Environment may, ex officio, conduct investigations into a tap-water pollution accident that occurs in water purification facilities operated by a general waterworks

business operator and may order the waterworks business operator to improve the operation and management of the facilities, if necessary, as a result of the investigations. <Newly Inserted by Act No. 12141, Dec. 30, 2013>

(5) Upon receipt of the order of improvement pursuant to paragraphs (1) through (4), a person shall perform improvements as ordered or shall formulate and submit a performance plan, within one month, unless extenuating circumstances exist. <Newly Inserted by Act No. 12141, Dec. 30, 2013>

(6) Article 131 of the National Land Planning and Utilization Act shall apply mutatis mutandis where an order issued by the authorizing agency pursuant to paragraphs (1) through (4) causes any loss. <Amended by Act No. 12141, Dec. 30, 2013>

Article 65 (Modification of Terms for Supplying Tap-Water)

Where any authorizing agency admits the following items are remarkably unjust, that is, the rates for tap water, the bearing of the expenses of the installation of water-supply facilities or other conditions for supplying tap water as provided in the terms for water supply which the waterworks business operator, other than a local government, has determined in accordance with the main sentence of Article 38 (1), the authorizing agency may order the relevant waterworks business operator to modify them.

Article 66 (Demand, etc. for Reports)(1) Any authorizing agency may have the relevant public officials enter the waterworks-related facilities to inspect relevant documents, facilities, equipment and water quality or have a waterworks business operator or an installer of exclusive waterworks file a necessary report in order to verify whether the standards for facilities (including standards for use of materials and products for waterworks under Article 14 (3)) and water quality of waterworks are met. <Amended by Act No. 10317, May 25, 2010>

(2) Any person who performs an inspection as prescribed in paragraph (1) shall carry the voucher of his/her authority and show it to the relevant persons.

CHAPTER VIII SUPPLEMENTARY PROVISIONS

Article 67 (Jurisdiction over Waterworks)

The jurisdiction of the Mayor/Do Governor over the waterworks business whose facilities extend over two or more Cities or Dos or any exclusive waterworks, shall be determined through their consultation and shall be exercised accordingly.

Article 68 (Compulsory Collection of Tap-Water Rates, etc.)(1) When any person who was supplied with tap water has not paid the rates for the supplied tap water, the expenses necessary to install the water-supply facilities or the charge imposed on the person who has caused to incur any expenses as prescribed in Article 71, the unpaid amount may be collected by the waterworks business operator who is the local government itself by referring to the practices of imposition of local taxes in arrears.

(2) A local government who supplied tap water to the area, other than its jurisdiction in accordance with Article 40 may delegate or entrust the local government which has jurisdiction over the relevant area with the compulsory collection prescribed in paragraph (1),

as prescribed by Presidential Decree.

(3) A local government which is a waterworks business operator shall grant 4/100 of the collected money to another local government delegated or entrusted with the compulsory collection, as prescribed in paragraph (2).

Article 69 (Limitation on Use of Income)

No waterworks business operator, other than the Korea Water Resources Corporation, shall use the income from the waterworks business for anything but the expenses incurred for the waterworks business itself or matters prescribed by Presidential Decree.

Article 70 (Bearing of Costs for Installation of Waterworks)

Costs for installing the waterworks (excluding any water-supply facilities) shall be borne by the relevant waterworks business operator.

Article 71 (Charges Imposed on Causers)(1) In performing the construction works of waterworks, a waterworks business operator may have a person who has incurred expenses (including any person who has caused new installation, expansion, etc. of waterworks facilities in a housing complex or industrial facilities, etc. which consume much tap water), or a person who has operated a business or has done an act that inflicts damage to waterworks facilities bear all or some of expenses incurred for the construction work of the relevant waterworks, the maintenance of waterworks facilities or the protection from damage to waterworks facilities.

(2) The criteria for computing the charges under paragraph (1), the collection methods of the relevant charges and other necessary matters shall be prescribed by Presidential Decree.

(3) Charges under paragraph (1) may be used only as expenses incurred in relation to construction, such as the installation, extension, removal and installation, reinstallation and overhaul of waterworks. <Newly Inserted by Act No. 10976, Jul. 28, 2011>

Article 72 (Payment of Water Rates, etc.)

Any person supplied with tap water from a waterworks business operator who is a local government or any person who should pay charges under Article 71 (1) to a waterworks business operator who is a local government may pay water rates or such charges by credit card or debit card under the Specialized Credit Finance Business Act or by means of electronic currency, electronic payment, etc. by using information and communications networks, as prescribed by ordinance of the relevant local government.

[This Article Newly Inserted by Act No. 10976, Jul. 28, 2011]

Article 73 (Research and Development of Technologies)(1) To promote the research and development of technologies for waterworks, the Minister of Environment may formulate a plan for the research and development of technologies, entrust an institution, organization, or business operator referred to in any subparagraph of Article 5 (1) of the Environmental Technology and Industry Support Act with the research and development, and assist such institution, organization, or business operator. <Amended by Act No. 12141, Dec. 30, 2013>

(2) To fulfill efficiently the education or training of the persons that engage in the field of waterworks, the Minister of Environment may develop a plan for the education or training

concerning waterworks and may entrust the educating and training task to a professional waterworks research institute with providing necessary support.

(3) The Minister of Environment and the heads of local governments may implement policies that are designed to provide technical guidance and training programs for technicians in order to support manufacturers specializing in making waterworks, machinery and materials and to train waterworks specialists.

Article 74 (Technical Diagnosis on Waterworks)(1) Waterworks business operators shall conduct every five years the technical diagnosis on the relevant waterworks, including filtration plants and waterworks pipe network, as prescribed by Ordinance of the Ministry of Environment and develop and implement a plan for improving the waterworks taking into account the results of such technical diagnosis.

(2) Waterworks business operators may have such person as determined by Ordinance of the Ministry of Environment conduct technical diagnosis referred to in paragraph (1).

(3) Waterworks business operators shall notify the authorizing agency of the results of the technical diagnosis and the results of the formulation and implementation of a plan for the improvement of waterworks under paragraph (1) by the deadline prescribed by Ordinance of the Ministry of Environment. <Amended by Act No. 12141, Dec. 30, 2013>

Article 74-2 (Establishment and Operation of National Waterworks Information Center)(1) The Minister of Environment may establish and operate a national waterworks information center (hereinafter referred to as the "Center" in this Article) for the efficient management and utilization of outcomes of inspections of water quality and analyses of water quantity, current conditions of facilities for the production and supply of water, and data about the evaluation of waterworks services.

(2) Where the Minister of Environment deems it necessary for the operation of the Center, he/she may request waterworks business operators to submit relevant data.

(3) Except as otherwise expressly provided for in paragraphs (1) and (2), necessary matters concerning the establishment and operation of the Center shall be determined and publicly notified by the Minister of Environment.

[This Article Newly Inserted by Act No. 12141, Dec. 30, 2013]

Article 75 (Subsidies from National Treasury, etc.)

The State may provide any waterworks business operator with a subsidy or a loan to cover expenses incurred in relation to the waterworks business: Provided, That where a waterworks business operator who is a local government installs any waterworks, improves the deteriorated waterworks, or operates seawater desalination facilities, all or some of such expenses may be subsidized, as prescribed by Presidential Decree by taking account of the financial self-support level of the relevant local government. <Amended by Act No. 10976, Jul. 28, 2011>

Article 76 (Assistance to Persons Migrating from Area to be Submerged due to Construction of Dams for Waterworks Business)

@Articles 39 and 40 of the Act on the Construction of Dams and Assistance, etc. to Their

Environs shall apply mutatis mutandis to the assistance to persons migrating from the area to be submerged due to the construction of dams for waterworks business. In such cases, the term "person entrusted with dam management" and "person scheduled to be entrusted with dam management" referred to in the Act on the Construction of Dams and Assistance, etc. to Their Environs shall be construed as "waterworks business operator" referred to in this Act.

Article 77 (Sale or Rent of Nationally-Owned Land)

As for the land which is categorized as the miscellaneous property of the State and which is directly necessary for the waterworks business, the State may sell or rent it, by means of a contract ad libitum, to the relevant waterworks business operator, notwithstanding Article 33 of the State Property Act. <Amended by Act No. 9401, Jan. 30, 2009>

Article 78 (Delegation or Entrustment of Authority)(1) The Minister of Environment or the Minister of Land, Infrastructure and Transport may partially delegate his/her authority under this Act to the Mayor/Do Governor, the head of a regional environmental office, or the head of a regional national land management office, as prescribed by Presidential Decree. <Amended by Act No. 8805, Dec. 27, 2007; Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 10976, Jul. 28, 2011; Act No. 11690, Mar. 23, 2013>

(2) The Minister of Environment or the Minister of Land, Infrastructure and Transport may partially entrust his/her duty under this Act to the Korea Environment Corporation, the Korea Water Resources Corporation, the Association, or an institution specializing in testing and approval, as prescribed by Presidential Decree. <Newly Inserted by Act No. 10317, May 25, 2010; Act No. 11690, Mar. 23, 2013; Act No. 12141, Dec. 30, 2013>

Article 79 (Hearings)

Where the Minister of Environment, the Minister of Land, Infrastructure and Transport, the Mayor/Do Governor, or the head of a Si/Gun/Gu intends to take any of the following dispositions, he/she shall hold a hearing: <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 11690, Mar. 23, 2013; Act No. 12141, Dec. 30, 2013>

1. Revocation of the certification that is granted under Article 14-2 (1);
2. Revocation of the registration of a water-saving business under Article 15-3;
3. Revocation of the qualification of a certified operation manager of water-purification facilities under Article 25;
4. An order to close a place of business for cleaning water tanks under Article 35;
5. Revocation of the authorization for a waterworks business under Article 63.

Article 80 (Legal Fiction of Public Officials for Purposes of Penal Provisions)

Any entity that performs any affairs entrusted under Article 23 (including the cases applied mutatis mutandis under Article 50) and Article 78 (2), and any of its executives or employees shall be deemed a public official for the purposes of Articles 129 through 132 of the Criminal Act. <Amended by Act No. 10317, May 25, 2010>

CHAPTER IX PENAL PROVISIONS

Article 81 (Penal Provisions)

Any of the following persons shall be punished by imprisonment for not more than five years or by a fine not exceeding 50 million won: <Amended by Act No. 10976, Jul. 28, 2011; Act No. 12518, Mar. 24, 2014>

1. A person that conducts waterworks business without having obtained authorization under the forepart of the main body of Article 17 (1), or the forepart of the main sentence of Article 49 (1);

2. A general waterworks business operator (including a trustee) or installer of the private-use waterworks that fails to immediately suspend the supply of tap water, in violation of Article 37 (1) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 23 (3) and 53).

Article 82 (Penalty Provisions)

Any of the following persons shall be punished by imprisonment for not more than three years or by a fine not exceeding 30 million won: <Amended by Act No. 12518, Mar. 24, 2014; Act No. 13878, Jan. 27, 2016>

1. A person who sells tap water bottled or re-treated by using instruments, etc., in violation of Article 13 (1);

2. A person who fails to follow an order for collecting, etc. pursuant to Article 14-4 (1).

Article 83 (Penal Provisions)

Any of the following persons shall be punished by imprisonment for not more than two years or by a fine not exceeding 20 million won: <Amended by Act No. 10317, May 25, 2010; Act No. 10976, Jul. 28, 2011; Act No. 12141, Dec. 30, 2013; Act No. 12518, Mar. 24, 2014>

1. A person that breaches the prohibition or restriction under Article 7 (3) or (4);

1-2. A person that manufactures, imports or supplies materials or products for waterworks, the certification of which is not obtained, in violation of Article 14 (2);

1-3. A person that uses materials or products for waterworks, the certification of which is not obtained, or which falls short of standards, in violation of Article 14 (3);

1-4. A person that attaches a certification mark to materials or products for waterworks, the certification of which is not obtained, or the packaging thereof, in violation of Article 14 (5);

2. A waterworks business operator that revises the authorized matters without having obtained authorization under the latter part of the main sentence of Article 17 (1), or the latter part of the main body of Article 49 (1);

3. A person that installs water tanks which are not in conformity with the standards, in violation of Article 18 (3);

4. A person that installs waterworks connected to the existing tap water pipelines, or modifies or damages waterworks, in violation of Article 20 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to under Article 50);

5. A person that lends his/her qualification certificate to any other person, in violation of Article 24 (4);

6. A general waterworks business operator (including a trustee), installer of private-use waterworks, or owner or manager of buildings or facilities who fails to take sanitary measures,

including disinfection, or measures, including washing, in violation of Article 33 (1) through (3) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 23 (3) and 53);

7. A general waterworks business operator (including a trustee) or installer of private-use waterworks that fails to make the situation known to the residents of the relevant district or fails to take necessary measures, such as the inspection of water quality and the supply of emergency water, in violation of Article 37 (2) (including the cases mutatis mutandis under Articles 23 (3) and 53);

8. A waterworks business operator that fails to obtain authorization from an authorizing agency or who revises the details of the authorization granted by the authorizing agency, in violation of Article 38 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50);

9. A waterworks business operator that fails to comply with an order for the urgent supply of tap water under Article 41 (1) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50);

10. A waterworks business operator that closes or suspends all or any part of the waterworks business without having obtained a permit under Article 42 (including the cases to which the aforesaid provisions shall apply mutatis mutandis pursuant to Article 50);

11. A waterworks business operator that fails to conduct the technical diagnosis on waterworks under Article 74 (1).

Article 84 (Penal Provisions)

Any of the following persons shall be punished by a fine not exceeding three million won:

1. A person who runs the water-tank cleaning business without having filed a report on it or who files a false report thereon, in violation of Article 34 (1);

2. A person who continues to run the water-tank cleaning business after having received an order for the closure of the place of water-tank cleaning business under Article 35;

3. Deleted; <by Act No. 10976, Jul. 28, 2011>

4. A person (including a trustee) who does an act prescribed in Article 61 (1) without obtaining a permit or approval under Article 130 (2) through (4) of the National Land Planning and Utilization Act which is applied mutatis mutandis under Article 61 (2) (including the cases applied mutatis mutandis under Articles 23 (3), 53 and 54).

Article 85 (Penal Provisions)

Any of the following persons shall be punished by a fine not exceeding two million won: <Amended by Act No. 11085, Nov. 14, 2011; Act No. 12141, Dec. 30, 2013>

1. A waterworks business operator or installer of the exclusive waterworks who provides tap water without having undergone the inspection of the quality of water, in violation of Article 19 (2) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 53);

2. Deleted; <by Act No. 10976, Jul. 28, 2011>

3. A general waterworks business operator who fails to inform residents of details of

violations, in violation of Article 27 (1);

4. A general waterworks business operator (including a trustee) that fails to comply with an order to take measures, in violation of Article 28 (8) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 23 (3));

5. A general waterworks business operator or installer of private-use waterworks that fails to perform the inspection of water quality or the analysis of water quantity under Article 29 (1) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 23 (3) and 53);

6. Deleted; <by Act No. 10317, May 25, 2010>

7. A general waterworks business operator (including a trustee) or installer of the private-use waterworks that fails to arrange for the medical checkup under Article 32 (1) (including the cases to which the aforesaid provisions shall apply mutatis mutandis pursuant to Articles 23 (3) and 53);

8. A general waterworks business operator (including a trustee) or installer of the private-use waterworks that allows the person, admitted to have a disease which is likely to harm other people, to work for his/her waterworks business or to reside within the area of the waterworks, in violation of Article 32 (2) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 23 (3) and 53);

9. A waterworks business operator that refuses, without any justifiable reason, to supply tap water, in violation of Article 39 (1) (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 50);

10. Deleted; <by Act No. May 25, 2010>

11. A person that installs the exclusive waterworks without having obtained authorization under Article 52 (including the cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 54);

12. A waterworks business operator that violates a request for modification of business plans, order for improvement of business management and other necessary measures and orders, in violation of Article 62;

13. A waterworks business operator or installer of exclusive waterworks that fails to comply with an order issued for the improvement of facilities under Article 64 (1) through (4).

Article 86 (Joint Penal Provisions)

When the representative of a corporation, or an agent, employee or other servant of the corporation or an individual commits a violation under Articles 81 through 85 in connection with the business of the corporation or the individual, in addition to the punishment on such violator, the corporation or the individual shall be punished by under each relevant Article: Provided, That this shall not apply where such corporation or individual has not been negligent in giving due attention and supervision concerning the relevant duties to prevent such violation.

[This Article Wholly Amended by Act No. 10317, May 25, 2010]

Article 87 (Administrative Fines)(1) Any person that violates any rules under Article 7-2 (4)

shall be punished by an administrative fine not exceeding ten million won. <Amended by Act No. 12141, Dec. 30, 2013>

(2) A person who manufactures, imports, supplies, or sells any materials or products for waterworks different from those certified pursuant to Article 14 (1) shall be punished by an administrative fine not exceeding five million won. <Newly Inserted by Act No. 13878, Jan. 27, 2016>

(3) Any of the following persons shall be punished by an administrative fine not exceeding three million won: <Amended by Act No. 10317, May. 25, 2010; Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011; Act No. 12141, Dec. 30, 2013>

1. Deleted; <by Act No. 13878, Jan. 27, 2016>

2. A person that fails to indicate certification, in violation of Article 14 (4) or indicates certification differently from certified matters;

3. A person that fails to install a water-saving fixture or water-saving device, in violation of Article 15 (1) or (2);

3-2. A person that fails to label the volume of water usage on a water-using appliance, in violation of Article 16 or describes the volume of water usage with a false label;

3-3. A waterworks business operator or an installer of private-use waterworks that fails to appoint a waterworks manager, in violation of Article 21 (6) (including cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 50, 53, and 54);

4. A waterworks business operator that fails to report the conclusion of a contract for entrustment, in violation of Article 23 (2) (including cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50);

4-2. A general waterworks business operator (including a trustee) that violates Article 28 (4), (5), (6), or (7) (including cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 23 (3));

4-3. A general waterworks business operator (including a trustee) that fails to inspect the actual conditions of the spread of pathogenic microorganisms, in violation of Article 28-2 (1) (including cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 23 (3));

5. A general waterworks business operator that fails to provide a report on tap water quality, in violation of Article 31 (1);

6. A waterworks business operator that fails to install a fire hydrant on waterworks, in violation of Article 45 (including cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50);

7. A person that interferes with or refuses acts, such as entry into land, necessary for the performance of waterworks or an inspection of water supply facilities under Article 61 (1) without justifiable grounds.

(4) Any of the following persons shall be punished by an administrative fine not exceeding one million won: <Amended by Act No. 10317, May 25, 2010; Act No. 10976, Jul. 28, 2011; Act No. 11085, Nov. 14, 2011; Act No. 12141, Dec. 30, 2013>

1. A person that fails to file a report, in violation of the proviso to Article 7 (4);
 2. A person that fails to follow an implementation order issued by a Special Self-Governing City Mayor, a Special Self-Governing Province Governor, or the head of a Si/Gun/Gu under Article 15 (3);
 3. Deleted; <by Act No. 10359, Jun. 8, 2010>
 - 3-2. through 3-4. Deleted; <by Act No. 10976, Jul. 28, 2011>
 4. A general waterworks business operator (including a trustee) that fails to keep and preserve records of inspections of water quality and analyses of water quantity or fails to disclose such records through an Internet web-site, etc., or an installer of private-use waterworks that fails to keep and preserve records of inspections of water quality and analyses of water quantity, in violation of Article 29 (3) (including cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 23 (3) and 53);
 5. A general waterworks business operator (including a trustee) or installer of private-use waterworks that fails to prepare and keep a record on the medical checkup, in violation of Article 32 (3) (including cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Articles 23 (3) and 53);
 6. A person that closes or suspends his/her business without reporting thereon, in violation of Article 34 (2);
 7. Any of the following persons that fail to receive education about the management of waterworks or fails to cause any other person to receive such education, in violation of Article 36 (including cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 23 (3)):
 - (a) Any owner or manager of building or facilities;
 - (b) Any water-tank cleaning business operator;
 - (c) Any general waterworks business operator (including a trustee);
 8. A waterworks business operator that fails to give a public notice in advance on an area in which and the period during which tap water cannot be provided, in violation of Article 39 (2) (including cases to which the aforementioned provisions shall apply mutatis mutandis pursuant to Article 50);
 9. A waterworks business operator or installer of exclusive waterworks that refuses, or interferes with, or evades an inspection or that fails to file a necessary report, as prescribed in Article 66 (1).
 - (5) Administrative fines provided for in paragraphs (1) through (4) shall be imposed and collected by the Minister of Environment, the Minister of Land, Infrastructure and Transport, a Mayor/Do Governor, or the head of a Si/Gun/Gu, as prescribed by Presidential Decree. <Amended by Act No. 8852, Feb. 29, 2008; Act No. 10317, May 25, 2010; Act No. 11690, Mar. 23, 2013; Act No. 13878, Jan. 27, 2016>
 - (6) and (7) Deleted. <by Act No. 10317, May 25, 2010>
- ADDENDA (Omitted)

39. Enforcement Decree of the Water Supply and Waterworks Installation Act

[Enforcement Date 28. Jul, 2016.] [Presidential Decree No.27335, 12. Jul, 2016., Partial Amendment]

Article 1 (Purpose)

The purpose of this Decree is to provide for matters delegated by the Water Supply and Waterworks Installation Act and matters necessary for the enforcement thereof.

Article 1-2 (Procedures for Consultation on Use of Water for Agricultural and Fishing Villages as Raw Water)

Where the Minister of Environment deems it necessary to use the water for an agricultural or fishing village, as defined in subparagraph 3 of Article 2 of the Rearrangement of Agricultural and Fishing Villages Act, as raw water pursuant to the proviso to subparagraph 1 of Article 3 of the Water Supply and Waterworks Installation Act (hereinafter referred to as the "Act"), he/she shall hear the opinion from the general waterworks business operator for the area and without delay consult with the Minister of Agriculture, Food and Rural Affairs thereon. <Amended by Presidential Decree No. 24451, Mar. 23, 2013>

[This Article Newly Inserted by Presidential Decree No. 23784, May 14, 2012]

Article 2 (Scope of Wide-Area Waterworks) (1) The scope of wide-area waterworks the State may install pursuant to subparagraph 7 of Article 3 of the Act shall be as follows: <Amended by Presidential Decree No. 23784, May 14, 2012>

1. Supplying water using multipurpose dams, dams, etc. for water supply as its water source to ensure the reasonable use and distribution of water resources;
2. Supplying water by altering the watercourse system under the direct jurisdiction of a municipality;
3. Supplying water to a local government where an industrial complex defined in Article 2 of the Industrial Sites and Development Act is designated;
4. Supplying water across the jurisdictions of two or more Metropolitan Cities/Dos.

(2) The scope of wide-area waterworks that local governments may install pursuant to subparagraph 7 of Article 3 of the Act shall be restricted to the supply of water upon jointly installing water supply facilities by such local governments upon agreement among them.

Article 3 (Installation of Village Waterworks)

"Waterworks prescribed by Presidential Decree" in subparagraph 9 of Article 3 of the Act means waterworks which meet the standards established by the Minister of Environment and is managed by a local government that is a waterworks business operator with water-purification facilities that may treat raw water to meet the water quality standards under Article 26 (2) of the Act in order to supply drinking water, etc. to residents in the jurisdiction. <Amended by Presidential Decree No. 23784, May 14, 2012>

Article 4 (Scope of Facilities Not Defined as Private-Use Waterworks or Private-Use Industrial Waterworks)

"If daily water supply volume of the waterworks and the scale of its facilities fail to meet the standards prescribed by Presidential Decree" in the proviso to subparagraph 12 of Article 3

of the Act and the proviso to subparagraph 13 of the same Article means any of the following cases:

1. Where daily water supply volume is less than 20 cubic meters;
2. Where the scale of facilities falls within any of the following categories:
 - (a) The diameter of the pipeline from the water source to the water tank is less than 25 millimeters;
 - (b) The total length of the pipeline from the water source to the water tank is less than 1,500 meters;
 - (c) The effective capacity of the water tank is less than 100 cubic meters.

[This Article Wholly Amended by Presidential Decree No. 25430, Jun. 30, 2014]

Article 5 (Minor Modifications to Basic Plans for Waterworks Maintenance)

"Insignificant matters prescribed by Presidential Decree" in the latter part of Article 4 (2) of the Act means those provided in Article 4 (7) 6 through 9 of the Act.

Article 6 (Matters Requiring Approval to Revise Basic Plans for Waterworks Installation and Management)

"Important matters prescribed by Presidential Decree" in the proviso to Article 4 (3) of the Act means the following:

1. Basic guidelines concerning waterworks installation and management;
2. Matters concerning mid-and long-term supply of and demand for tap water;
3. Matters concerning the development of wide-area water sources;
4. Matters concerning areas to which tap water is supplied;
5. Preservation of water sources and the designation and management of water source protection areas;
6. Capability to supply waterworks;
7. Implementation priorities of water services;
8. Improvement, replacement, etc. of aging tap-water pipelines;
9. Deleted; <by Presidential Decree No. 22967, Jun. 8, 2011>
10. Matters concerning integrated water service districts in areas where the operation of wide-area waterworks and local waterworks need to be integrated.

Article 7 (Prior Review of Basic Plans for Waterworks Installation and Management)

Where the Minister of Environment intends to grant approval to a basic plan for waterworks installation and management or any revision thereto with respect to general water services in accordance with Article 4 (3) of the Act, he/she may request in advance the Korea Environment Corporation established under the Korea Environment Corporation Act or the Korea Water Resources Corporation established under the Korea Water Resources Corporation Act to examine technical aspects thereof, such as the appropriateness of size of facilities, and hear opinions thereon. <Amended by Presidential Decree No. 21904, Dec. 24, 2009; Presidential Decree No. 22506, Nov. 26, 2010>

Article 8 (Special Cases in Formulating Basic Plans for Waterworks Installation and Management) (1) "Do Governor, the Special Metropolitan City Mayor, a Metropolitan City

Mayor, a Special Self-Governing City Mayor, a Special Self-Governing Province Governor, or the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City) that is prescribed by Presidential Decree" in Article 4 (6) of the Act means a Do Governor, the Special Metropolitan City Mayor, a Metropolitan City Mayor, a Special Self-Governing City Mayor, a Special Self-Governing Province Governor, or the head of a Si/Gun (excluding the head of a Gun in a Metropolitan City; hereafter the same shall apply in this Article) classified as follows: <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

1. Where tap-water pipelines extend over the jurisdictions of at least two of the Special Metropolitan City, Metropolitan Cities, Special Self-Governing Cities, or Sis/Guns (excluding Guns in a Metropolitan City), the Special Metropolitan City Mayor, Metropolitan City Mayor, Special Self-Governing City Mayor, or the head of a Si/Gun, who is determined upon consultation among the relevant Special Metropolitan City Mayor, Metropolitan Cities Mayors, Special Self-Governing Cities Mayors, and the heads of Sis/Guns;

2. Where tap-water pipelines extend over the jurisdictions of at least two Sis/Guns that belong to the jurisdiction of different Dos, notwithstanding subparagraph 1, the Do Governor or the head of a Si/Gun, who is determined upon consultation among relevant Do Governors.

(2) Where consultation held under paragraph (1) fails to reach agreement, and where the Special Metropolitan City Mayor, a Metropolitan City Mayor, a Special Self-Governing City Mayor, a Do Governor, or a Special Self-Governing Province Governor (hereinafter referred to as "Mayor/Do Governor") is the party to the consultation, a Mayor/Do Governor or the head of a Si/Gun designated by the Minister of Environment in consultation with the Minister of the Interior shall formulate a basic plan for waterworks installation and management; where the head of a Si/Gun is the party to the consultation, the head of a Si/Gun designated by the relevant Do Governor shall formulate a basic plan for waterworks installation and management. <Amended by Presidential Decree No. 20680, Feb. 29, 2008; Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012; Presidential Decree No. 24451, Mar. 23, 2013; Presidential Decree No. 25751, Nov. 19, 2014>

(3) Article 4 (5) of the Act shall apply mutatis mutandis where a person designated under paragraphs (1) and (2) formulates or amends a basic plan for waterworks installation and management.

Article 9 (Prior Review of Comprehensive Plans for Water Demand Control)

Article 7 shall apply mutatis mutandis where the Minister of Environment intends to grant approval of a comprehensive plan for water demand control, or any revision thereto, of the Special Metropolitan City, a Metropolitan City, Special Self-Governing City, Do or Special Self-Governing Province (hereinafter referred to as "City/Do") pursuant to Article 6 (1) of the Act. <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

Article 10 (Other Matters to be Included in Implementation Plans for Water Demand

Control)

"Matters prescribed by Presidential Decree" in Article 6 (2) 4 of the Act means the followings:

1. Plans for establishing a water use billing system (limited to plans established by the head of a Si/Gun) under Article 12 (2) of the Act;
2. Plans for replacing, repairing and upgrading defective water gauges (limited to plans devised by the head of a Si/Gun).

Article 11 (Designation, etc. of Water Source Protection Areas) (1) When the Minister of Environment intends to designate or modifies water source protection areas pursuant to Article 7 (1) of the Act, he/she shall take into account characteristics, geographical features, and degree of water pollution of the relevant water source.

(2) Where the Minister of Environment has designated a water source protection area or has modified the designation thereof pursuant to Article 7 (2) of the Act, he/she shall publicly announce the following, and send the details thereof to the Mayor of the relevant Special Self-Governing City, the Governor of the relevant Special Self-Governing Province or the head of the relevant Si/Gun/Gu (referring to the head of an autonomous Gu; hereinafter the same shall apply): <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

1. Name of the relevant water source protection area;
2. Location and size of the relevant water source protection area;
3. Name and address of an entity that has built water services facilities within the relevant water source protection area;
4. Other necessary matters for preserving the water quality of water sources.

(3) Where a water source protection area is designated and publicly announced pursuant to paragraph (2), the Mayor of the relevant Special Self-Governing City, the Governor of the relevant Special Self-Governing Province or the head of the relevant Si/Gun/Gu shall make such information available for public perusal, and shall publish the land register of the land located within the relevant area and make such publication available for public perusal within six months from the date of such official announcement. <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

(4) Matters necessary for the designation and official announcement of a water source protection area and publication of the land register under paragraphs (1) through (3) shall be prescribed by Ordinance of the Ministry of Environment.

Article 11-2 (Hearing Opinions of Residents) (1) When intending to designate or modify water source protection areas pursuant to Article 11, the Minister of Environment shall hear the opinions of residents, and when such opinions are deemed reasonable, he/she shall reflect them in designating or modifying the water source protection areas.

(2) When the Minister of Environment intends to hear opinions of residents pursuant to paragraph (1), he/she shall notify the Mayor of the relevant Special Self-Governing City, the Governor of the relevant Special Self-Governing Province and the head of the relevant Si/Gun/Gu of matters referred to in the subparagraphs of Article 11 (2). <Amended by

Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

(3) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province and the head of a Si/Gun/Gu notified pursuant to paragraph (2) shall publicly announce the details thereof in the web-site of the relevant Special Self-Governing City, Special Self-Governing Province and Si/Gun/Gu (referring to an autonomous Gu; hereinafter the same shall apply) and daily newspapers mainly distributed in the relevant area and make them available for public perusal for 14 days. <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

(4) Any person that has an opinion about the details of the designation or modification of a water source protection area which are publicly announced or made available for public perusal under paragraph (3) may submit a written opinion to the Mayor of the relevant Special Self-Governing City, the Governor of the relevant Special Self-Governing Province or the head of the relevant Si/Gun/Gu within the period for public perusal. <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

(5) Where opinions are submitted pursuant to paragraph (4), the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of each Si/Gun/Gu shall compile and submit them to the Minister of Environment. <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

(6) The Minister of Environment shall review the opinion presented under paragraph (4) and notify the person who presented the opinion of the results thereof within 30 days from the expiration of the period of public perusal.

[This Article Newly Inserted by Presidential Decree No. 22506, Nov. 26, 2010]

Article 12 (Prohibited Acts within Water Source Protection Areas) (1) "Activities prohibited by Presidential Decree" in Article 7 (3) 2 of the Act means the following activities: <Amended by Presidential Decree No. 20763, Apr. 3, 2008; Presidential Decree No. 22506, Nov. 26, 2010; Presidential Decree No. 24560, May 31, 2013>

1. Pasturing livestock;
2. Swimming, bathing, washing clothes, operating boats (excluding operation of boats, including water purification activities and investigations of water quality and ecosystem, as prescribed by Ordinance of the Ministry of Environment) or leisure activities using water surface;
3. Playing, camping, or cookouts;
4. Catching or farming fish or shellfish: Provided, That fishing prescribed by Ordinance of the Ministry of Environment, conducted by persons prescribed by Ordinance of the Ministry of Environment shall be excluded;
5. Washing cars;
6. Growing crops in an area that is defined as a river area under subparagraph 2 of Article 2 of the River Act: Provided, That growing environment-friendly agricultural products, as defined under subparagraph 2 of Article 2 of the Act on the Promotion of Environment-Friendly Agriculture and Fisheries and the Management of and Support for Organic Foods,

Etc., (excluding fishery products; hereinafter the same shall apply) in accordance with the certification standards under Article 19 (2) or 34 (2) of the aforementioned Act shall be excluded herefrom.

(2) Where any person has obtained a license or permit or filed a report for catching or farming fish or shellfish in a water source protection area in accordance with other Acts and subordinate statutes as at the time the water source protection area is designated, he/she may catch or farm fish or shellfish according to the details of such license, permit or report, notwithstanding paragraph (1) 4, until the period of validity of such license, permit or report expires.

(3) For the purposes of the proviso to paragraph (1) 6, where the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun/Gu publicly announces that it is inevitable to use more agrichemicals than the prescribed amount under the certification standards referred to in Article 19 (2) or 34 (2) of the Act on the Promotion of Environment-Friendly Agriculture and Fisheries and the Management of and Support for Organic Foods, Etc., due to damage from harmful insects to environment-friendly agricultural crops in the process of cultivation under subparagraph 2 of Article 2 of the same Act, the use of agrichemicals in accordance with such publication shall be deemed to conform to the proviso to paragraph (1) 6. <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012; Presidential Decree No. 24560, May 31, 2013>

Article 13 (Criteria for Granting Permits to Conduct Activities within Water Source Protection Areas) (1) Where a Special Self-Governing City Mayor, a Special Self-Governing Province Governor, or the head of a Si/Gun/Gu intends to grant a permit to conduct any activity falling under any subparagraph of Article 7 (4) of the Act within a water source protection area, he/she may grant such permit to conduct any of the following activities insofar as such activities are deemed not in conflict with the purposes of designation of the water source protection area: <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012; Presidential Decree No. 25785, Nov. 28, 2014>

1. Constructing or installing any of the following buildings or structures:

- (a) Constructing or installing buildings or other structures necessary for public interests;
- (b) Constructing or installing buildings or other structures prescribed by Ordinance of the Ministry of Environment, which are necessary to improve a living environment or to increase income of residents living within the relevant water source protection area;
- (c) Constructing or installing buildings or other structures prescribed by Ordinance of the Ministry of Environment, which are to be jointly used or are needed by residents living within the relevant water source protection area;
- (d) Remodeling or reconstructing existing buildings or other structures, the use and scale of which are prescribed by Ordinance of the Ministry of Environment, within the limits not causing higher levels of pollutants than that of a former case;

- (e) Relocating buildings or other structures removed due to the construction of village facilities, facilities of public interests, common-use facilities, or public facilities prescribed by Ordinance of the Ministry of Environment within the relevant water source protection area;
 - (f) Relocating a building, which is inevitable due to natural disasters, including frequent floods, or relocating a house located in an area where a living environment is extremely poor, with high noise levels from highways or railways, into neighboring land or village. In such cases, land in which the house used to be located shall be reverted to farmland or greenbelts;
 - (g) Removing or relocating an existing house built on the land owned by another person prior to the designation of a water source protection area, the extension or remodeling of which is not allowed due to a failure to obtain consent thereon from the owner of the land, into a neighboring village;
 - (h) Relocating a house in a village into a farm or orchard owned by the house owner for facilitating better farming operations. In such cases, the land in which the house used to be located shall be reverted to farmland or greenbelts;
2. Altering the use of buildings or other structures within the limits not causing any higher level of pollutants than that of a former case;
 3. Removing water supply or sewerage facilities, environmental pollution prevention facilities, or protection area management facilities insofar as the maintenance and preservation of the relevant water source protection area is deemed not to be hindered by such removal;
 4. Cultivating or felling trees necessary for the facilitation and management of a water source forest for the preservation of water sources, or felling bamboo or standing trees, which is inevitable to implement public projects, etc.;
 5. Altering the shape or quality of land, which has been carried out only for the readjustment of arable land or which is deemed not in conflict with the purposes of the designation of the relevant water source protection area.

(2) Detailed criteria and procedures for granting permits, such as the types and scale of buildings or other structures under paragraph (1) and other necessary matters therefor, shall be prescribed by Ordinance of the Ministry of Environment.

(3) Where a Special Self-Governing City Mayor, a Special Self-Governing Province Governor, or the head of a Si/Gun/Gu grants a permit to conduct any activity falling under any subparagraph of Article 7 (4) of the Act within a water source protection area pursuant to paragraph (1), he/she shall notify the relevant waterworks business operator or installers of exclusive waterworks of the details thereof without delay. <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

Article 14 (Acts to be Reported within Water Source Protection Areas)

Insignificant acts that can be done upon filing a report to the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun/Gu pursuant to the proviso to Article 7 (4) of the Act are as follows: <Amended by Presidential Decree No. 22506, Nov. 26, 2010; Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

1. Removing buildings or other structures, except for water supply or sewerage facilities, environmental pollution prevention facilities, or management facilities of water source protection areas;
2. Cultivating or felling trees within residential areas;
3. Repairing facilities for agricultural improvement, or altering the shape or quality of land, such as molding to improve arable land;
4. Restoring buildings or other structures damaged by natural disasters, such as floods, into their original states;
5. Converting the use of factories (referring to a factory as defined in subparagraph 1 of Article 2 of the Industrial Cluster Development and Factory Establishment Act; hereinafter the same shall apply), lodging facilities or general restaurants into houses or warehouse facilities.

Article 14-2 (Scope of Regions in which Factory Establishment Is Restricted)

"Regions prescribed by Presidential Decree" in Article 7-2 (1) of the Act means the following regions:

1. Where a water source protection area has been designated and announced, regions within ten kilometers in flow distance from the border zone of the water source protection area towards the upper stream: Provided, That where the water intake facility capacity is not less than 200,000 m³ per day, regions within 20 kilometers in flow distance from the border zone of the water source protection area towards the upper stream;
2. Where a water source protection area has not been designated or announced, regions within 15 kilometers in flow distance from the water intake facility towards the upper stream and regions within one kilometer in flow distance towards the downstream;
3. In cases of taking the groundwater in subparagraph 1 of Article 2 of the Groundwater Act as raw water, regions within one kilometer from the water intake facility.

[This Article Newly Inserted by Presidential Decree No. 22506, Nov. 26, 2010]

Article 14-3 (Scope of Regions Approved for Establishment of Factories)

"Regions prescribed by Presidential Decree" in the former part of Article 7-2 (3) of the Act means any of the following:

1. Regions exceeding 7 kilometers in flow distance from the water intake facility towards the upper stream, among those falling under subparagraphs 1 and 2 of Article 14-2;
2. Regions exceeding 4 kilometers and within 7 kilometers in flow distance from the water intake facility towards the upper stream, among those falling under subparagraphs 1 and 2 of Article 14-2, excluding a river defined in subparagraph 1 of Article 2 of the River Act or a region within 500 meters from the border of lakes defined in subparagraph 14 of Article 2 of the Water Quality and Aquatic Ecosystem Conservation Act.

[This Article Wholly Amended by Presidential Decree No. 25785, Nov. 28, 2014]

Article 15 (Management of Water Source Protection Areas) (1) The Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun/Gu who manages a water source protection area shall secure facilities, equipment,

and human resources necessary for the preservation of water sources, and shall take necessary measures to crack down on prohibited acts or to prevent water pollution. <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

(2) Standards for securing the facilities, equipment, and human resources under paragraph (1) and other matters necessary for the management of water source protection areas shall be stipulated by Ordinance of the Ministry of Environment.

Article 16 (Special Cases for Management of Water Source Protection Areas) (1) "Mayor/Do Governor or the head of a Si/Gun/Gu prescribed by Presidential Decree" in Article 8 (2) of the Act means a Mayor/Do Governor or the head of a Si/Gun/Gu classified as follows: <Amended by Presidential Decree No. 22506, Nov. 26, 2010>

1. Where water source protection areas extend over at least two Sis/Guns/Gus under the jurisdictions of the same Special Metropolitan City, Metropolitan City, or Do, the head of a Si/Gun/Gu, who is determined upon consultation of the heads of the relevant Sis/Guns/Gus;

2. Where water source protection areas extend over at least two Cities/Dos, a Mayor/Do Governor or the head of a Si/Gun/Gu, who is determined upon consultation of the relevant Mayors/Do Governors;

3. Where water source protection areas and an area to which tap water is provided from the aforementioned water source extend over at least two Sis/Guns/Gus under the jurisdictions of the same City/Do, the head of a Si/Gun/Gu, who is determined upon consultation of the relevant heads of Sis/Guns/Gus;

4. Where water source protection areas and an area to which tap water is provided from the aforementioned water source extend over at least two Cities/Dos, a Mayor/Do Governor, or the head of a Si/Gun/Gu, who is determined upon consultation of the relevant Mayors/Do Governors.

(2) Where consultation held under paragraph (1) 1 and 3 fails to reach agreement, the head of a Si/Gun/Gu designated by the Mayor/Do Governor having jurisdiction over the area at issue shall be in charge of managing the relevant water source protection area, while a Mayor/Do Governor or the head of a Si/Gun/Gu designated by the Minister of Environment in consultation with the Minister of the Interior shall be in charge of managing the relevant water source protection area, where consultation held under paragraph (1) 2 and 4 fails to reach agreement. <Amended by Presidential Decree No. 20680, Feb. 29, 2008; Presidential Decree No. 24451, Mar. 23, 2013; Presidential Decree No. 25751, Nov. 19, 2014>

Article 17 (Procedures, etc. for Formulation of Resident Support Programs) (1) Where the Mayor/Do Governor or the head of a Si/Gun/Gu who manages a water source protection area (hereinafter referred to as "Management Authority") intends to execute a resident support program pursuant to Article 9 (1) of the Act, the Management Authority shall formulate a plan for the resident support program, which includes the following matters (hereinafter referred to as "program plan"), and submit it to the Minister of Environment by

no later than April 15 of the preceding year. In such cases, if the Management Authority differs from a waterworks business operator, such Management Authority shall formulate the program plan after hearing opinions of such waterworks business operator:

1. The objectives of the program;
2. Outline of the program;
3. Population and socioeconomic characteristics of an area subject to the program;
4. Funding plans;
5. Implementation plans and necessity for each program;
6. Other matters necessary for the implementation of a residents support program.

(2) The Minister of Environment shall consult with the head of a relevant agency, such as the Ministry of Strategy and Finance, about the details of a program plan formulated and submitted by the Management Authority and National subsidies, and if the budget for National subsidies is determined, the Minister of Environment shall notify the Management Authority of the amount of subsidies and the breakdown thereof. <Amended by Presidential Decree No. 21214, Dec. 31, 2008>

(3) If the head of a Si/Gun/Gu intends to revise important matters of a program plan approved under the latter part of paragraph (1), it shall obtain prior approval from the relevant Mayor/Do Governor. <Amended by Presidential Decree No. 23557, Jan. 26, 2012>

Article 18 (Types of Residents Support Programs)

The types of residents support programs under Article 9 (2) 1 through 4 of the Act, are as stipulated in attached Table 1.

Article 19 (Contributions from Waterworks Business Operators) (1) Waterworks business operators prescribed by Article 10 (1) 1 of the Act shall be as follows:

1. Waterworks business operators supplying final consumers with raw water directly or after purifying it;
2. Waterworks business operators purifying raw water and supplying purified water to other waterworks business operators.

(2) Contribution from each waterworks business operator in accordance with Article 10 (2) of the Act shall be the amount calculated as determined and publicly announced by the Minister of Environment each year, within the range of 5/100 of the sales revenue from water service calculated by multiplying the volume of a raw water intake in the year before the preceding year in which a residents support program was implemented by the national average price of purified water, which had been purified and provided by the Korea Water Resources Corporation for the two years preceding the year in which a residents support program has been implemented.

(3) Where the Minister of Environment makes a public notification pursuant to paragraph (2), he/she shall hear the opinions of the Management Authority in advance.

(4) Each waterworks business operator shall contribute the amount of contribution computed in accordance with paragraph (2) to the Management Authority prior to the beginning of every business year.

Article 20 (Subsidies from Special Account for Environmental Improvement)

Under Article 10 (3) of the Act, the State may subsidize, from the Special Account for Environmental Improvement, a part of the incurred expenses for a residents support program up to 30/100 of the total amount of the expenses incurred in the residents support program.

Article 21 Deleted. <by Presidential Decree No. 23557, Jan. 26, 2012>

Article 22 (Types of Water Pollution Prevention Facilities)

"Water pollution prevention facilities prescribed by Presidential Decree" in Article 11 (1) of the Act means the following facilities established and managed by the State, a local government, or the Korea Water Resources Corporation:

1. Public treatment facilities defined in subparagraph 9 of Article 2 of the Act on the Management and Use of Livestock Excreta;
2. Public sewage treatment facilities defined in subparagraph 9 of Article 2 of the Sewerage Act;
3. Other facilities determined by Ordinance of the Ministry of Environment, as water pollution prevention facilities.

Article 23 (Expense Bearing Standards) (1) Expenses incurred in the management of water source protection areas and the operation of water pollution prevention facilities under Article 11 (1) of the Act shall be as follows:

1. Labor costs and operation costs of facilities and equipment necessary for the management of water source protection areas;
2. Expenses incurred in the installation maintenance and management of signs, guard posts, and hazard prevention facilities necessary for the management of water source protection areas;
3. Expenses incurred in the maintenance and management of water pollution prevention facilities;
4. Other expenses determined by Ordinance of the Ministry of Environment, as necessary for the management of water source protection areas.

(2) The amount of expenses to be borne under paragraph (1) shall be computed based on the volume of raw water intake. <Amended by Presidential Decree No. 22506, Nov. 26, 2010>

Article 24 (Hygiene and Safety Standards)

Hygiene and safety standards referred to in Article 14 (1) of the Act are as stipulated in attached Table 1-2.

[This Article Newly Inserted by Presidential Decree No. 22506, Nov. 26, 2010]

Article 24-2 (Use of Materials or Products for Waterworks) (1) "Materials or products for waterworks which meet standards prescribed by Presidential Decree" referred to in Article 14 (3) of the Act means any of the followings: <Amended by Presidential Decree No. 23267, Oct. 28, 2011; Presidential Decree No. 23313, Nov. 23, 2011>

1. A product accredited under Article 15 of the Industrial Standardization Act;

2. A product that has obtained collective standards accreditation under Article 27 (2) of the Industrial Standardization Act, which is an exemplary collective standards product under Article 25 of the same Act;
3. A product that has obtained collective standards accreditation under Article 27 (2) of the Industrial Standardization Act, which is accredited by the Korea Water and Wastewater Works Association in Article 56 of the Act;
4. A product that has obtained the certification of an environmental grade mark under Article 17 of the Environmental Technology and Industry Support Act;
5. A product that has obtained the certification of new technology or new products under Article 15-2 or 16 of the Industrial Technology Innovation Promotion Act;
6. Deleted; <by Presidential Decree No. 23313, Nov. 23, 2011>
7. Other materials and products announced by the Minister of Environment, as deemed appropriate to be used as materials and products for waterworks.

(2) Notwithstanding the provisions of paragraph (1) 1 through 7, no materials and products that the Minister of Environment announces to be inappropriate to be used as materials and products for waterworks shall be used as materials and products for waterworks.

[This Article Newly Inserted by Presidential Decree No. 22506, Nov. 26, 2010]

Article 24-3 (Procedures for Recommending Collecting, etc.) (1) Where the Minister of Environment recommends a business operator who manufactures, imports, supplies, or sells materials or products for waterworks not certified pursuant to Article 14-3 (1) of the Act (hereinafter referred to as “products, etc.”), to take measures to collect, destroy, exchange, refund, or improve the relevant products, etc. or take other necessary measures (hereinafter referred to as “collecting, etc.”), he/she may make a recommendation by a document (including electronic documents) including the following matters:

1. The name of the company and the name of the representative thereof;
2. The name, brand, and model name of the products, etc.;
3. The reasons and details of the recommendation of collecting, etc.;
4. The deadline to notify whether to accept the recommendation of collecting, etc.;
5. The procedures for carrying out the recommendation of collecting, etc.;
6. The plan for measures against the refusal of the acceptance;
7. Other matters deemed necessary for collecting, etc. by the Minister of Environment.

(2) A business operator recommended to take measures to collect, etc. the relevant products, etc. pursuant to Article 14-3 (1) of the Act shall prepare a plan for collecting, etc. of products, etc. including the matters such as whether to accept the recommendation and the period for carrying out collecting, etc. (hereinafter referred to as “plan”) and submit it to the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment. In such cases, the period of carrying out collecting, etc. shall be within two months from the date of such recommendation.

[This Article Newly Inserted by Presidential Decree No. 27335, Jul. 12, 2016]

Article 24-4 (Reporting on Result of Recommendation) (1) “Matters prescribed by

Presidential Decree, such as the result of such measures” in Article 14-3 (2) of the Act means the following matters:

1. The result of measures including the details and performance, etc. of collecting, etc.;
2. The plan for measures against the products, etc. for which collecting, etc. was not carried out;
3. The measures to prevent recurrence.

(2) A person who intends to report pursuant to Article 14-3 (2) of the Act shall prepare a report on the result of collecting, etc. of products, etc. (hereinafter referred to as “result report”) and submit it to the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment.

(3) Where the Minister of Environment in receipt of a report referred to in paragraph (2) deems that the result of measures, such as collecting, etc., or a result report is insufficient, he/she may request the relevant business operator to take measures, such as additional collecting, etc. or to supplement the result report.

[This Article Newly Inserted by Presidential Decree No. 27335, Jul. 12, 2016]

Article 24-5 (Methods of Publicly Announcing Failure of Carrying Out Recommendations)

The Minister of Environment may publicly announce the following matters pursuant to Article 14-3 (3) of the Act by newspapers defined in subparagraph 1 of Article 2 of the Act on the Promotion of Newspapers, Etc., broadcasting defined in subparagraph 1 of Article 2 of the Broadcasting Act, or information networks prescribed by Ordinance of the Ministry of Environment:

1. The name, brand, and model name of the products, etc.;
2. The name of the company and the name of the representative thereof;
3. The reasons and details of the recommendation of collecting, etc.

[This Article Newly Inserted by Presidential Decree No. 27335, Jul. 12, 2016]

Article 24-6 (Procedures for Issuing Orders to Collect, etc.) (1) Where the Minister of Environment orders a business operator to conduct collecting, etc. pursuant to Article 14-4 (1) of the Act, he/she shall do so by a document (including electronic documents) including the following:

1. The name of the company and the name of the representative thereof;
2. The name, brand, and model name of the products, etc.;
3. The reasons and details of the order of collecting, etc.;
4. The methods and period for carrying out collecting, etc.;
5. Other matters deemed necessary for issuing an order to collect, etc. the products, etc. by the Minister of Environment.

(2) Article 24-5 shall apply mutatis mutandis to the methods of public announcement and matters to be publicly announced pursuant to Article 14-4 (1) of the Act. In such cases, “recommendation” shall be construed as “order.”

[This Article Newly Inserted by Presidential Decree No. 27335, Jul. 12, 2016]

Article 24-7 (Reporting on Result of Order) (1) “Matters prescribed by Presidential Decree, such as the result of such measures” in Article 14-4 (2) of the Act means matters falling under each subparagraph of Article 24-4 (1).

(2) A person who intends to report pursuant to Article 14-4 (2) of the Act shall prepare a result report and submit it to the Minister of Environment, as prescribed by Ordinance of the Ministry of Environment.

(3) Where the Minister of Environment in receipt of a report referred to in paragraph (2) deems that the result of measures, such as collecting, etc., or the result report thereof is insufficient, he/she may request the relevant business operator to take measures, such as additional collecting, etc. or to supplement the result report.

[This Article Newly Inserted by Presidential Decree No. 27335, Jul. 12, 2016]

Article 24-8 (Measures, such as Direct Collecting, etc. of Products, etc.)

The Administrative Vicarious Execution Act shall apply to the measures necessary for direct collecting, etc. and the collection of expenses incurred therein pursuant to Article 14-4 (3) of the Act.

[This Article Newly Inserted by Presidential Decree No. 27335, Jul. 12, 2016]

Article 25 (Subject Matters of Water-Saving Facilities)

"Buildings or facilities prescribed by Presidential Decree" in Article 15 (1) of the Act means any of the following:

1. Buildings under Article 2 (1) 2 of the Building Act;
2. Other facilities prescribed by ordinances of local governments, as deemed specifically necessary to save and use water efficiently.

Article 25-2 (Standards for Registration of Water-Saving Business)

The standards for the registration of water-saving business under Article 15-2 (1) of the Act are prescribed in attached Table 1-3.

[This Article Newly Inserted by Presidential Decree No. 25430, Jun. 30, 2014]

Article 26 (Methods of Indicating Volume of Water Used)

Any person who intends to manufacture or import a water-using appliance pursuant to Article 16 of the Act shall measure the volume of water used by the water-using appliance according to the performance measuring method established by the Korean Industrial Standards under Article 12 of the Industrial Standardization Act and indicate the outcomes of such measurement on such appliance.

[This Article Newly Inserted by Presidential Decree No. 23557, Jan. 26, 2012]

Article 27 (Application for Authorization) (1) Any person that intends to obtain authorization to engage in a general waterworks business pursuant to Article 17 (1) of the Act shall submit an application for the authorization of the general waterworks business, along with a business plan and other relevant documents and drawings, to the Minister of Environment, the Minister of Land, Infrastructure and Transport, a Mayor/Do Governor, or the head of a Si/Gun/Gu (excluding the head of a Gun in a Metropolitan City; hereinafter referred to as "authorizing agency"), as prescribed by Ordinance of the Ministry of

Environment. <Amended by Presidential Decree No. 20680, Feb. 29, 2008; Presidential Decree No. 22506, Nov. 26, 2010; Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 24451, Mar. 23, 2013>

(2) Business plans under paragraph (1) shall include the following matters:

1. Outline of waterworks business (including water services facilities);
2. An area to which water is to be supplied, population to which water is to be supplied, and the volume of water to be supplied per person per day;
3. Annual business plans (excluding village waterworks) and the supply rate of water services;
4. Maximum daily water supply, the average daily water supply, and the capacity of the relevant facilities;
5. Location of water sources or a forebay and the methods of purification;
6. Statement of the water volume at a forebay and the outcomes of water quality tests;
7. Location maps and a ground plan for water services facilities;
8. Prearranged date for the beginning and completion of construction and for the commencement of water supply;
9. Methods of fund procurement and an annual investment plan;
10. Detailed statement of records, street number and size, and rights, other than the ownership of, to land or a building, to be expropriated and used (hereinafter referred to as "land, etc");
11. Names and addresses of the owners and other interested parties of land, etc.

(3) "Insignificant matters prescribed by Presidential Decree" in the latter part of Article 17 (1) of the Act means the following matters: <Amended by Presidential Decree No. 22506, Nov. 26, 2010; Presidential Decree No. 23557, Jan. 26, 2012>

1. Changes in the methods of fund procurement, or in an annual investment plan;
2. Structural changes of water services facilities, which do not entail an increase or decrease in the capacity of such facilities, to the extent that such changes satisfy the standards for facilities under Article 29;
3. An increase or decrease by up to 1% of the capacity of water services facilities.

(4) Where deemed necessary to grant the authorization pursuant to Article 17 (1) of the Act, the Minister of Environment may request the Korea Environment Corporation or the Korea Water Resources Corporation to examine technical aspects of the business plans and hear its opinions. <Amended by Presidential Decree No. 21904, Dec. 24, 2009; Presidential Decree No. 22506, Nov. 26, 2010>

Article 28 (Public Notice of Authorization)

Public notice under Article 17 (3) of the Act shall include the following matters:

1. Official name of services;
2. Name and address of a waterworks business operator;
3. Purposes and outline of services;
4. Location and size of an area where services are to be implemented;

5. Area to which water is to be supplied, population to which water is to be supplied, and the volume of water to be supplied;
6. Period of time during which water services are to be provided and the prearranged date on which the supply of water is to commence;
7. Detailed statement of records, street number, item, size, and rights, other than the ownership, of land, etc. to be expropriated and used;
8. Name and address of the owner and other interested persons of land, etc.;
9. Other necessary matters.

Article 29 (Standards for Facilities) (1) Pursuant to Article 18 of the Act and in accordance with quality, quantity, geographical feature of available raw water and the types and scale of facilities of the relevant water services, each general waterworks business operator shall be equipped with water intake facilities, water-retention facilities, raw-water conveyance facilities, water-purification facilities, purified-water conveyance facilities and water-distribution facilities, all of which meet each of the following standards:

1. Water sources and water intake structures from which the volume of good-quality raw water is available as much as is needed;
2. Water-retention facilities with the capacity to provide, even during dry seasons, the volume of raw water needed;
3. Raw-water conveyance facilities, such as sluices, through which as much raw water as needed can be conveyed;
4. Water-purification facilities which help purify necessary volume of raw water to the degree of standard water quality pursuant to Article 26 (2) of the Act;
5. Pumps, conveyance pipes, and other purified-water conveyance facilities which help convey the volume of purified water needed;
6. Distribution pumps, distribution pipes, and other distribution facilities which help provide the volume of purified water needed, with the degree of pressure exceeding a certain specified limit.

(2) The location and arrangement of the water services facilities shall be determined, taking harmony with the economic production of water into account.

(3) Water services facilities shall be able to withstand the water pressure, earth pressure, earthquakes, and other pressures and they shall be safe from water pollution or water leakage.

(4) The detailed standards for the establishment of water services facilities pursuant to paragraph (1) shall be prescribed by Ordinance of the Ministry of Environment.

Article 30 Deleted. <by Presidential Decree No. 22506, Nov. 26, 2010>

Article 31 (Inspections of Water Quality) (1) An authorizing agency shall conduct the inspections of water quality under Article 19 (1) of the Act: Provided, That a Mayor/Do Governor shall inspect the quality of water in the waterworks that is authorized by the Minister of Environment or the Minister of Land, Infrastructure and Transport. <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 24451, Mar. 23,

2013>

(2) Any person that intends to undergo an inspection of water quality referred to in paragraph (1) shall submit an application for inspection, as prescribed by Ordinance of the Ministry of Environment.

Article 32 (Managers of Water Supply Facilities)

In accordance with the proviso to Article 21 (1) of the Act, water supply facilities shall be managed by any of the following persons, according to the location and type of such facilities:

1. As for water supply facilities installed outside the boundary of land owned by any person supplied with tap water: A waterworks business operator;

2. As for water supply facilities installed within the boundary of land owned by a person supplied with tap water: A person falling under any of the following items:

(a) As for water supply facilities located from the land boundary to a water gauge: Any person determined by ordinances of the relevant local government;

(b) As for water supply facilities other than those provided in item (a): Any person supplied with tap water.

Article 33 (Managers of Water Services Facilities) (1) "The duties prescribed by Presidential Decree" in Article 21 (6) of the Act means overall duty to oversee the supply of tap water, manage water services facilities, manage statistical data about waterworks, control water quality, take emergency measures, and train operators of water services facilities. <Amended by Presidential Decree No. 25430, Jun. 30, 2014>

(2) In order for a person to be qualified to be appointed as the manager of water services facilities by a general waterworks business operator under Article 21 (6) of the Act, the person shall meet any of the following criteria: <Amended by Presidential Decree No. 25430, Jun. 30, 2014>

1. Any person that has graduated from a department related to civil engineering, electrical engineering, electronic engineering, mechanical engineering, architecture, environmental engineering or sanitation at a college or university, or any other school equivalent thereto, under the Higher Education Act, and had obtained, while in college, necessary credits in subjects relating to water supply engineering or sanitation engineering and has engaged in a technological job relating to water supply for at least two years (or one year, in cases of village waterworks or private-use waterworks the facilities of which have a capacity of 2,000 tons or less per day) after graduation;

2. Any person that has graduated from a department related to civil engineering, electrical engineering, electronic engineering, mechanical engineering, architecture, environmental engineering, or sanitation at a junior college under the Higher Education Act or any other school equivalent thereto, and had obtained, while in college, necessary credits in subjects relating to water supply engineering or sanitary engineering and has engaged in a technological job relating to water supply for at least five years (or three years, in cases of village waterworks or private-use waterworks the facilities of which have a capacity of 2,000 tons or less per day) after graduation;

3. Any person that has obtained necessary credits in the fields of engineering, natural sciences, agricultural science, medical science, or pharmacology at a college or university under the Higher Education Act, or any other school equivalent thereto, and has engaged in a technological job related to water supply for at least four years (or two years, in cases of village waterworks or private-use waterworks the facilities of which have a capacity of 2,000 tons or less per day), or who has obtained necessary credits in the fields of engineering, natural sciences, agricultural science, medical science, or pharmacology at a junior college under the Higher Education Act, or any other school equivalent thereto, and has engaged in a technological job related to water supply for at least eight years (or four years, in cases of village waterworks or private-use waterworks the facilities of which have a capacity of 2,000 tons or less per day) after graduation;

4. Any person that has engaged in a technological job related to water supply for at least ten years (or seven years, in cases of village waterworks or private-use waterworks the facilities of which have a capacity of 2,000 tons or less per day);

5. Any person that is equally or better qualified than one of those who falls under any of subparagraphs 1 through 4, and is prescribed by Ordinance of the Ministry of Environment. (3) Paragraph (2) shall not apply to the cases of a general water service or private-use waterworks, the facilities of which have a capacity of 1,000 tons or less per day, supplying water without water-purification facilities, other than antiseptic facilities.

Article 34 (Assignment of Certified Water-Purification Facility Managers)

The standards for the placement of certified managers at water-purification facilities by a general waterworks business operators under Article 21 (7) of the Act are prescribed in attached Table 2. <Amended by Presidential Decree No. 25430, Jun. 30, 2014>

Article 35 (Classification, Terms, etc. of Entrustment) (1) Affairs of operating and managing water services facilities under Article 23 (1) of the Act (hereinafter referred to as "water services management") shall be entrusted pursuant to the following classifications:

1. Simple entrustment: Entrustment of the management of one water services facility from among water intake facilities or water-purification facilities, or repetition of simple tasks, such as removing and treating sludge (referring to sediments generated during water-purification process; hereinafter the same shall apply), checking and replacing water gauges, issuing and delivering water bills, etc.;

2. Multiple entrustments: Entrustment of upgrading (including replacing; hereinafter the same shall apply) water services facilities or entrustment of the management of two or more water services facilities from among water intake facilities, water-purification facilities or water pipes and drainage facilities. In such cases, repetition of simple tasks, such as removing and treating sludge, may be included.

(2) The term of a simple entrustment referred to in paragraph (1) shall not exceed five years, and the term of a multiple entrustment shall be from five years to twenty years.

(3) When any general waterworks business operator intends to entrusted water services management pursuant to Article 23 (2) of the Act, it shall clearly state matters falling under

each of the following items, classified into each subparagraph, in an entrustment contract, fully taking into account the characteristics of the operation and management of water services facilities subject to entrustment:

1. Simple entrustment:

- (a) Objectives of entrustment;
- (b) The subject matter and scope of entrustment;
- (c) The term of an entrustment contract;
- (d) Matters concerning the calculation of costs of entrustment and the payment thereof;
- (e) Goals to be accomplished and matters concerning measures to be taken in cases of failing to accomplish such goals;
- (f) Matters concerning the termination of an entrustment contract and compensation for losses;
- (g) Other matters deemed necessary when general waterworks business operators conclude their entrustment contracts;

2. Multiple entrustment:

- (a) Matters falling under subparagraph 1 (a) through (g);
- (b) Matters concerning an annual investment plan (including the details of investment costs and means of raising funds) and recovery of funds;
- (c) Matters concerning the upgrade of water services facilities;
- (d) Matters concerning the collection and management of water use fee rates or the suspension of water supply by proxy;
- (e) Matters concerning the final target year, the annual rate of water supply, the rate of water flow and the target quality of water;
- (f) Matters concerning evaluation of the results of entrustment and measures to be taken subsequent to such results;
- (g) Matters concerning acquisition and transfer (including employment succession) between a trustor and a trustee, when an entrustment contract is concluded or terminated;
- (h) Matters concerning crisis management, such as an occurrence of hazards to the quality of water.

(4) In cases of a simple entrustment referred to in paragraph (1) 1, the provisions of Articles 37 through 39 shall not apply thereto.

(5) Matters concerning criteria for review on the validity and necessity of entrustment under paragraphs (1) and (2) and detailed criteria for concluding and terminating entrustment contracts or crisis management, etc. shall be determined and publicly announced by the Minister of Environment.

Article 36 (Trustees of Waterworks Facilities)

"Specialized institutions prescribed by Presidential Decree" referred to in Article 23 (1) of the Act means the following: <Amended by Presidential Decree No. 21904, Dec. 24, 2009; Presidential Decree No. 22506, Nov. 26, 2010; Presidential Decree No. 23784, May 14, 2012>

1. The Korea Water Resources Corporation established under the Korea Water Resources Corporation Act;
2. The Korea Environment Corporation established under the Korea Environment Corporation Act;
3. Local government-directly operated enterprises, local government-invested public corporations and local government public corporations, which are incorporated and established under the Local Public Enterprises Act;
4. Corporations that are civil and architectural engineering business operators under Article 2 of the Framework Act on the Construction Industry;
5. Corporations that are engineering business operators specialized in the waterworks and sewage systems of the construction sector, or in the field of water-quality control of the environment sector under Article 2 of the Engineering Industry Promotion Act;
6. Professional engineers' offices specialized in the waterworks and sewage systems of the construction sector or in the water-quality control of the environment sector under Article 6 of the Professional Engineers Act;
7. Institutions prescribed by Ordinance of the Ministry of Environment as deemed capable of performing waterworks management affairs;
8. Entities prescribed by ordinances of a local government as deemed capable of performing waterworks management affairs by a general waterworks business operator which is a local government, or in cases of a waterworks business operator which is not a local government, entities prescribed by other Acts or subordinate statutes (limited to entrustment of simple and repetitive tasks, such as removing and treating sludge among simple entrustment).

Article 37 (Preparation of Entrustment Plans and Hearing of Opinions) (1) Where any general waterworks business operator (referring to a general waterworks business operator that is a local government; hereafter the same shall apply in this Article through Article 40) intends to entrust waterworks management affairs pursuant to Article 23 (1) of the Act, it shall formulate an entrustment plan which includes the following matters, hear the opinions of the entrustment review committee established under Article 23 (5) (hereinafter referred to as the "Entrustment Review Committee"), make such plan available for public perusal for at least 20 days, and hold an explanatory meeting: <Amended by Presidential Decree No. 22506, Nov. 26, 2010>

1. Objectives and scope of entrustment;
2. Period of entrustment;
3. Matters concerning the calculation of remuneration for entrustment and the payment thereof;
4. Other matters that a general waterworks business operator deems necessary to entrust waterworks management affairs.

(2) When each general waterworks business operator intends to make an entrustment plan available to residents for public perusal under paragraph (1), he/she shall publish in advance a summary of the entrustment plan, the period and place of public perusal, the time for

residents to present opinions and methods of presenting their opinions, etc. at least once in one or more nationally circulated daily newspapers (referring to any daily newspaper, the circulation area of which is nationwide registered under Article 12 (1) 6 of the Act on the Promotion of Newspapers, Etc. and which falls under subparagraph 1 (a) of Article 2 of the same Act; hereinafter the same shall apply) and in one or more locally circulated daily newspapers (referring to any daily newspaper, the main circulation area of which is the relevant local area registered under Article 12 (1) 6 of the same Act and which falls under subparagraph 1 (a) of Article 2 of the same Act; hereinafter the same shall apply), and make the relevant documents available for public perusal. <Amended by Presidential Decree No. 21148, Dec. 3, 2008; Presidential Decree No. 22003, Jan. 27, 2010>

(3) When each general waterworks business operator intends to hold an explanatory meeting referred to in paragraph (1), he/she shall publish in advance a summary of the entrustment plan, the date and venue of the explanatory meeting, at least once in one or more nationally circulated daily newspapers and in one or more locally circulated daily newspapers, and hold the explanatory meeting within ten days from the date on which the period of public perusal referred to in paragraph (2) begins.

(4) Each general waterworks business operator may hold a public hearing and seek residents' opinions upon hearing the opinions of the Entrustment Review Committee. In such cases, it shall publish a summary of the entrustment plan and the date on and venue at which a public hearing is to be held in the public bulletin, on the web-sites, or general daily newspapers under subparagraph 1 (a) of Article 2 of the Act on the Promotion of Newspapers, Etc.. at least 14 days before the public hearing begins. <Amended by Presidential Decree No. 21148, Dec. 3, 2008; Presidential Decree No. 22003, Jan. 27, 2010>

(5) When each general waterworks business operator intends to conclude an entrustment contract pursuant to Article 23 (1) of the Act, he/she shall reflect the opinions of the Entrustment Review Committee and the results of seeking opinions pursuant to paragraphs (1) through (4), unless any extenuating circumstances exist.

(6) Where any general waterworks business operator has concluded an entrustment contract, it shall publish the following matters in the public bulletin, on the web-sites, or daily newspapers within 15 days from the date on which the entrustment contract is concluded:

1. Objectives of entrustment;
2. Details and scope of entrustment;
3. Period of entrustment;
4. Name and address of the trustee;
5. Means of financing any costs incurred in entrustment;
6. Other matters subsequent to entrustment.

Article 38 (Functions and Operation of Entrustment Review Committees) (1) An Entrustment Review Committee shall deliberate on the following matters: <Amended by Presidential Decree No. 22506, Nov. 26, 2010>

1. The validity of objectives, subject matter and scope of entrustment;

2. The appropriateness of the period and remuneration for entrustment;
3. The appropriateness of investment plans and means of financing the budget;
4. The evaluation of the results of entrustment;
5. Other matters tabled to a meeting as the relevant general waterworks business operator deems them as requiring deliberation in relation to entrustment of waterworks management affairs.

(2) and (3) Deleted. <by Presidential Decree No. 22506, Nov. 26, 2010>

(4) Members of the Entrustment Review Committee shall be commissioned by the relevant general waterworks business operator, from among the following persons. In such cases, the general waterworks business operator shall commission at least one member from each of the following persons: <Amended by Presidential Decree No. 22506, Nov. 26, 2010>

1. Professional engineers in the field of waterworks and sewerage under Article 9 of the National Technical Qualifications Act;
2. Persons who hold doctorate degrees in waterworks and sewerage-related fields;
3. Certified public accountants registered under Article 7 of the Certified Public Accountant Act;
4. Legal professionals, such as attorneys-at-law and law professors.

(5) Allowances, travel expenses and other expenses to be incurred may be paid to members of the Entrustment Review Committee within budgetary limits: Provided, That the same shall not apply where public officials attend a meeting of the Entrustment Review Committee in direct connection with their duties.

(6) Except as otherwise expressly provided in this Decree, matters necessary for the operation of the Entrustment Review Committee shall be prescribed by ordinances of the relevant local government.

Article 39 (Evaluation on Results of Entrustment) (1) Each general waterworks business operator shall, where it entrusts water services management pursuant to Article 23 (1) of the Act, evaluate the operation and management of water services facilities and results of management of a trustee every five years from the date on which an entrustment contract is concluded, in order to improve and develop water services management.

(2) With respect to matters requiring correction, as a result of an evaluation referred to paragraph (1), each general waterworks business operator may request a trustee to correct them, or pay performance-based bonuses or provide other financial support, within budget, to a trustee who is found to have successfully performed its work.

(3) Matters necessary concerning means and procedures for evaluation of the results of entrustment pursuant to paragraphs (1) and (2) and measures to be taken subsequent to such evaluation shall be determined and publicly announced by the Minister of Environment.

Article 40 (Termination of Entrustment Contracts)

Each general waterworks business operator shall, when it intends to conclude an entrustment contract, clearly state on such contract in detail that such entrustment contract may be terminated when grounds falling under any of the following subparagraphs occur:

1. Where the goals of entrustment are impossible to be attained because a trustee fails to properly manage water services;
2. Where an entrustment contract is decided to be terminated by a resident referendum under the Residents' Voting Act.

Article 41 (Eligibility to Take Examinations for Certified Water-Purification Facility Managers)

Types of examinations for certified water-purification facility managers, set forth in Article 24 (5) of the Act, shall be Grades I, II, and III, and eligibility to take an examination is as shown in attached Table 3. <Amended by Presidential Decree No. 20521, Jan. 3, 2008>

Article 42 (Methods of Examinations and Standards for Passing Examinations) (1) An examination for certified water-purification facility managers prescribed by Article 24 (1) of the Act shall be held as the first test and the second test: Provided, That where it is deemed necessary by the Minister of Environment, the first test and the second test may be held simultaneously. <Amended by Presidential Decree No. 20521, Jan. 3, 2008>

(2) The first test and the second test under paragraph (1) shall be held for each of the following subjects, with different degrees of difficulty by each grade, and the first test shall be comprised of multiple-choice questions and the second exam shall be comprised of essays or short answers: <Amended by Presidential Decree No. 20521, Jan. 3, 2008>

1. Water-purification process;
2. Analysis on and control of water quality;
3. The operation of facilities and equipment (machinery, devices, measuring instruments, etc.);
4. The hydraulics of water-purification facilities.

(3) In order to pass the first and second tests, an examinee shall score at least 40 points in each subject and an average of at least 60 points out of 100 as full marks in each subject. <Amended by Presidential Decree No. 20521, Jan. 3, 2008>

(4) The second test shall be held for those who have passed the first test: Provided, That in cases where the first test and the second test are simultaneously held pursuant to the proviso to paragraph (1), the second test taken by any person who has failed to pass the first test shall become annulled.

(5) Any person who has passed the first test shall be exempted from taking the first test for two years from the date on which he/she has passed the first test: Provided, That in cases where the first test has not been held within those two years, he/she shall be exempted from the immediately following first test only once.

(6) Setting questions, marking, application procedures, and service charges for qualification examinations, and other necessary matters shall be prescribed by Ordinance of the Ministry of Environment.

Article 43 (Partial Exemption of Examination Subjects)

Part of examination subjects shall be exempted for persons who have obtained certificates in related fields prescribed by the National Technical Qualifications Act pursuant to Article 24

(5) of the Act, pursuant to the following classification: <Amended by Presidential Decree No. 20521, Jan. 3, 2008>

1. Certified tap water and sewerage technicians: Subjects under Article 42 (2) 1 through 4 from among the subjects of the first test for Grade I, II, or III certified water-purification facility managers under Article 42 (2);
2. Certified water-quality management technicians: Subjects under Article 42 (2) 1, 2 and 4 from among the subjects of the first test for Grade I, II, or III certified water-purification facility managers under Article 42 (2);
3. Certified water-quality and environment technicians: Subjects under Article 42 (2) 1 and 2 from among the subjects of the first test for Grade II or III certified water-purification facility managers under Article 42 (2);
4. Certified water-quality and environmental industry technicians: Subjects under Article 42 (2) 1 and 2 from among the subjects of the first test for Grade III certified water-purification facility managers under Article 42 (2).

Article 44 Deleted. <by Presidential Decree No. 22506, Nov. 26, 2010>

Article 45 Deleted. <by Presidential Decree No. 22506, Nov. 26, 2010>

Article 46 (Reporting of Municipal Ordinances on Tightened Water Quality Standards, etc.)

Where the matters referred to in Article 26 (4) of the Act are prescribed by municipal ordinance, the Mayor/Do Governor shall report to the Minister of Environment thereon without delay. The same shall also apply where any provision of the municipal ordinance on such matters is amended. <Amended by Presidential Decree No. 25430, Jun. 30, 2014>

Article 47 (Standards for Giving Public Notice on Details of Violations, etc. of Water Quality Standards)

"Cases falling under reasons prescribed by Presidential Decree" referred to in Article 27 (1) of the Act means any of the following cases:

1. As a result of monitoring through various warning systems, such as a fish monitoring water tank and a biology warning system, the inflow of a poisonous substance is deemed evident;
2. Where fecal coliforms are detected at the outlet of a clean water reservoir;
3. Where a waterborne disease is deemed to have occurred due to tap water;
4. Where turbidity exceeding 1 NTU (Nephelometric Turbidity Unit) lasts for at least 24 hours;
5. Where turbidity exceeds 5 NTU;
6. Where the residual chlorine concentration at the outlet of a clean water reservoir does not exceed 0.1mg/L (in cases of combined residual chlorine, less than 0.4mg/L) and lasts for at least one hour;
7. Where the residual chlorine concentration is not less than 4mg/L at the outlet of a clean water reservoir;
8. Where the value of inactivation required by disinfection does not exceed 1 and lasts for at least 48 hours;
9. Where the hydrogen ion concentration (pH) is less than 5.5 or exceeds 9.0 and lasts for

at least one hour;

10. Where the nitric nitrogen concentration exceeds 10mg/L;

11. Where a general waterworks business operator deems it necessary to give notice to residents immediately.

[This Article Wholly Amended by Presidential Decree No. 23784, May 14, 2012]

Article 48 Deleted. <by Presidential Decree No. 23784, May 14, 2012>

Article 49 (Installation of Water-Quality Inspection Facilities) (1) Criteria for water-quality inspection facilities, which each general waterworks business operator shall be equipped with in accordance with Article 29 (2) of the Act, shall be as follows: <Amended by Presidential Decree No. 23967, Jul. 20, 2012>

1. Raw-water inspection facilities: Equipment and testing facilities capable of inspecting whether the criteria for water quality and water ecosystems, as stipulated in the attached Table of the Enforcement Decree of the Framework Act on Environmental Policy, is met;

2. Purified-water inspection facilities: Equipment and testing facilities capable of inspecting whether the criteria for the quality of drinking water prescribed by Ordinance of the Ministry of Environment under Article 26 (2) of the Act is met.

(2) Notwithstanding the provisions of paragraph (1), if each general waterworks business operator entrusts or delegates the inspection of water quality, upon approval from the relevant Mayor/Do Governor, to any national or public research institution, such as the Public Health and Environment Research Institute, or any other institution prescribed by Ordinance of the Ministry of Environment, he/she may elect not to install water quality inspection facilities (excluding facilities to test inspection items prescribed by Ordinance of the Ministry of Environment) prescribed by paragraph (1). In such cases, the relevant Mayor/Do Governor shall determine whether to grant approval, considering the demand for water-quality inspections within his/her jurisdiction and the inspection capacity of the Public Health and Environment Research Institute, etc.

Article 49-2 (Composition, Operation, etc. of Tap-Water Quality Evaluation Committee, etc.) (1) The Tap-Water Quality Evaluation Committee in Article 30 (1) of the Act (hereinafter referred to as the "Tap-Water Quality Evaluation Committee") shall be comprised of not more than 15 members including a chairperson.

(2) The members shall be appointed or commissioned from among public officials in charge of the affairs pertaining to tap water, those who have abundant knowledge and experience relating to tap water-related areas, and general consumers.

(3) The Tap-Water Quality Evaluation Committee shall be convened regularly not less than twice a year for tap water quality examination, etc. and publish the results of the examination.

(4) Necessary matters for the organization, operation, etc. of the Tap-Water Quality Evaluation Committee, other than matters prescribed in paragraphs (1) through (3) shall be determined by ordinances of local governments.

[This Article Newly Inserted by Presidential Decree No. 22506, Nov. 26, 2010]

Article 50 (Types of Buildings or Facilities Required to Take Sanitary Measures, Such

as Disinfection)

"Buildings or facilities which exceed the scales specified by Presidential Decree" in Article 33 (2) of the Act, means buildings or facilities falling under the following subparagraphs: Provided, That buildings or facilities supplying tap water without using water tanks shall be excluded:

1. Buildings or facilities the total floor area of each of which is not less than 5,000 square meters (excluding the areas of parking lots within buildings or facilities);
2. Buildings or facilities prescribed by Article 3 of the Enforcement Decree of the Public Health Control Act;
3. Apartments and their welfare facilities prescribed by subparagraph 2 (a) of attached Table 1 of the Enforcement Decree of the Building Act.

Article 51 (Buildings or Facilities Required to Take Measures, such as Cleaning Water Pipes) (1) "Buildings or facilities, the scale of which exceeds the scale prescribed by Presidential Decree" in Article 33 (3) of the Act, means the buildings or facilities classified as follows:

1. Any of the following buildings or facilities with the total floor area of at least 60,000 square meters:
 - (a) Buildings or facilities referred to in Article 33 (3) 1 through 3 and 9 of the Act;
 - (b) General business facilities referred to in subparagraph 14 (b) of attached Table 1 of the Enforcement Decree of the Building Act, among facilities specified in Article 33 (3) 7 of the Act;
2. Any of the following buildings or facilities with the total floor area of at least 5,000 square meters:
 - (a) Facilities referred to in Article 33 (3) 4 through 6, 8, and 9 of the Act;
 - (b) Public facilities referred to in subparagraph 14 (a) of attached Table 1 of the Enforcement Decree of the Building Act, among facilities specified in Article 33 (3) 7 of the Act.
- (2) "Buildings prescribed by Presidential Decree" in Article 33 (3) 2 of the Act means apartment buildings referred to in subparagraph 2 (a) of attached Table 1 of the Enforcement Decree of the Building Act.
- (3) "Facilities prescribed by Presidential Decree" in Article 33 (3) 5 of the Act means any of the following facilities:
 1. Schools referred to in subparagraph 10 (a) of attached Table 1 of the Enforcement Decree of the Building Act;
 2. Libraries established by the State or local governments, among libraries referred to in subparagraph 10 (f) of attached Table 1 of the Enforcement Decree of the Building Act.
- (4) "Facilities prescribed by Presidential Decree" in Article 33 (3) 6 of the Act means any of the following facilities:
 1. Facilities for elderly citizens and children referred to in subparagraph 11 of attached Table 1 of the Enforcement Decree of the Building Act;
 2. Training facilities in living areas referred to in subparagraph 12 (a) of attached Table 1 of

the Enforcement Decree of the Building Act;

3. Training facilities in natural areas referred to in subparagraph 12 (b) of attached Table 1 of the Enforcement Decree of the Building Act;

4. Youth hostels referred to in subparagraph 12 (c) of attached Table 1 of the Enforcement Decree of the Building Act;

5. Physical training facilities referred to in subparagraph 13 of attached Table 1 of the Enforcement Decree of the Building Act.

(5) “Facilities prescribed by Presidential Decree” in Article 33 (3) 8 of the Act means any of the following facilities:

1. Correctional institutions referred to in subparagraph 23 (a) of attached Table 1 of the Enforcement Decree of the Building Act;

2. Rehabilitation and protection institutions referred to in subparagraph 23 (b) of attached Table 1 of the Enforcement Decree of the Building Act;

3. Juvenile reformatory centers and juvenile classification review institutions referred to in subparagraph 23 (c) of attached Table 1 of the Enforcement Decree of the Building Act.

[This Article Wholly Amended by Presidential Decree No. 27335, Jul. 12, 2016]

Article 52 (Education, etc. on Management of Waterworks Facilities) (1) The details of education on the management of waterworks facilities under Article 36 (1) of the Act shall include the following:

1. The Water Supply and Waterworks Installation Act and hygiene-related laws and regulations;

2. Matters concerning the operation, maintenance and management of waterworks facilities;

3. Matters concerning quality standards for drinking water and the testing thereof;

4. Matters concerning improvement of water quality;

5. Other matters necessary for the management of waterworks facilities.

(2) Any person to receive education under Article 36 (1) and (2) of the Act shall receive the following education, and any person who violates Article 33 (2) of the Act or a person subject to a disposition to suspend his/her business under Article 35 of the Act shall receive re-education within two years from the date on which such violation is discovered: <Amended by Presidential Decree No. 22506, Nov. 26, 2010>

1. In cases of a person who falls under Article 36 (1) 1 and 2 of the Act, an employee directly engaged in the water-tank cleaning business or a supervisor who directly give instructions at the site: Group education for eight hours at class or other on-line education equivalent thereto within one year from the date on which he/she is required to receive such education;

2. In cases of persons to receive education, other than those referred to in subparagraph 1: Group education for 35 hours every three years or other on-line training equivalent thereto.

(3) Expenses incurred in receiving the education under paragraph (2) shall be borne by those who have received such education: Provided, That expenses incurred in providing education for operators and employees referred to in Article 36 (2) of the Act shall be borne by the general waterworks business operators or water-tank cleaning business operator,

which employs such operators and employees.

(4) "Institutions or organizations designated by Presidential Decree" referred to in Article 36 (3) of the Act means any of the following institutions and organizations: <Amended by Presidential Decree No. 21904, Dec. 24, 2009; Presidential Decree No. 23967, Jul. 20, 2012>

1. The Korea Water and Wastewater Works Association (hereinafter referred to as the "Association") under Article 56 of the Act;
2. The Korea Water Resources Corporation under the Korea Water Resources Corporation Act;
3. The Korea Environmental Preservation Association under Article 59 of the Framework Act on Environmental Policy;
4. The Korea Environment Corporation under the Korea Environment Corporation Act;
5. Educational institutions acknowledged by the Minister of Environment as having proper human resources, etc. among educational institutions run by general waterworks business operators;
6. Other institutions acknowledged and prescribed by Ordinance of the Ministry of Environment as being capable of providing education.

(5) The head of each educational institution under paragraph (4) (hereafter referred to as "head of an educational institution" in this Article) shall formulate an education plan for the following year, including the following matters, and submit it to the Minister of Environment by the end of each year:

1. Basic direction-setting for education;
2. The results of a survey on demand for education and a long-term estimation thereof;
3. Implementation plans for educational programs;
4. Teaching materials (including practice materials) and plans for using them;
5. Persons to receive education and education expenses;
6. Other matters necessary for education.

(6) The head of an educational institution shall issue certificates of completion to persons who have completed a educational course and report the outcomes of education provided to the Minister of Environment by no later than January 15 of the following year.

(7) Other matters necessary for specific curricula for each person to receive education, methods of providing education, etc. shall be prescribed by the Minister of Environment.

Article 53 (Application for Approval of Provisions concerning Supply of Tap Water)

Any person who intends to obtain approval of provisions concerning the supply of tap water from the Authority for Authorization, as prescribed by Article 38 of the Act, shall prepare provisions concerning the supply of tap water, including the following matters, and apply for approval thereof:

1. Basic data necessary for the computation of tap-water use fee rates;
2. Criteria and methods for the computation of expenses for construction works relating to water services facilities;
3. Matters concerning the installment and management of water supply facilities, such as

the installation of a backflow-prevention valve in the base of a water gauge to prevent water pollution due to backflow;

4. Other matters prescribed by Ordinance of the Ministry of Environment, concerning the supply of tap water.

Article 53-2 (Reduction of and Exemption from Tap Water Fees) (1) “The public facilities prescribed by Presidential Decree, including educational facilities and social welfare facilities” in the part other than the subparagraphs of Article 38 (4) of the Act means the following facilities: <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012; Presidential Decree No. 24020, Aug. 3, 2012; Presidential Decree No. 25430, Jun. 30, 2014>

1. Schools that are defined in each subparagraph of Article 2 of the Elementary and Secondary Education Act;

2. Social welfare facilities that are defined in subparagraph 4 of Article 2 of the Social Welfare Services Act;

3. Other facilities prescribed by ordinances of a local government.

(2) Detailed matters necessary for the discount of tap water fees under Article 38 (4) of the Act, including discount rates, shall be prescribed by municipal ordinance of each local government. <Amended by Presidential Decree No. 25430, Jun. 30, 2014>

[This Article Newly Inserted by Presidential Decree No. 22506, Nov. 26, 2010]

Article 53-3 (Refusal to Supply Tap Water)

Pursuant to Article 39 (1) of the Act, no general waterworks business operator shall refuse to supply tap water to any person that wants to have tap water supplied, except in any of the following cases:

1. Where it is impracticable to supply tap water in a normal condition due to the destruction or breakdown of waterworks;

2. Where it is necessary for the protection of health of the persons to whom tap water is supplied, because tap water fails to meet the water quality standards under Article 26 of the Act due to the replacement or malfunction of purification facilities or the contamination by a hazardous substance.

[This Article Newly Inserted by Presidential Decree No. 25430, Jun. 30, 2014]

Article 54 (Application Mutatis Mutandis to Cases of Adjudication)

Article 51 of the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects shall apply mutatis mutandis to applications for administrative adjudication under Article 41 (3) of the Act.

Article 55 (Application Mutatis Mutandis to Cases of Industrial-Use Water)

Articles 27 through 30, 33, 35 through 40, and 53 shall apply mutatis mutandis to industrial waterworks and industrial waterworks services.

Article 56 (Supply of Tap Water from Wide-Area Waterworks to General Consumers)

Tap water from wide-area waterworks may be supplied for general consumers under Article 43 (4) of the Act if the following requirements are met: <by Presidential Decree No. 22506,

Nov. 26, 2010>

1. Where the directly supply of tap water from wide-area water services is inevitable because the supply of tap water by local water supply or by other means is substantially difficult;
2. Where water is supplied for public institutions, military units, schools, power plants, or factories using at least 1,000 tons of water per day;
3. Deleted. <by Presidential Decree No. 22506, Nov. 26, 2010>

Article 57 (Exclusive Waterworks Installed by the State) (1) Where the State intends to install exclusive waterworks pursuant to Article 51 of the Act, the competent Minister shall consult with the Minister of Environment on private-use waterworks or with the Minister of Land, Infrastructure and Transport on private-use industrial waterworks. <Amended by Presidential Decree No. 20680, Feb. 29, 2008; Presidential Decree No. 24451, Mar. 23, 2013>

(2) Articles 53 and 54 of the Act shall apply mutatis mutandis to the cases of exclusive waterworks installed by the State.

Article 58 (Application for Authorization of Private-Use Waterworks) (1) Any person who intends to obtain authorization for installing private-use waterworks pursuant to Article 52 of the Act shall submit, to the Mayor of a Special Self-Governing City, the Governor of a Special Self-Governing Province or the head of a Si/Gun, an application for authorization to install private-use waterworks, along with installation plans, as prescribed by Ordinance of the Ministry of Environment. <Amended by Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012>

(2) Installation plans under paragraph (1) shall include the following matters: <Amended by Presidential Decree No. 20846, Jun. 20, 2008>

1. An outline of waterworks facilities;
2. The population to be supplied with water and the volume of water to be supplied per person per day;
3. The maximum daily water supply and the average daily water supply;
4. Matters prescribed in Article 27 (2) 5 through 8;
5. A review of the effects of installing private-use waterworks upon persons holding existing water rights: Provided, That this shall not apply where a permit to exploit or use a forebay is obtained under any other Act or subordinate statute, such as the Groundwater Act.

Article 58-2 (Requirements for Authorization of Private-use Waterworks)

Any person who intends to obtain authorization of private-use waterworks as prescribed by Article 52 (1) of the Act shall meet all of the following requirements:

1. To meet standards for facilities under Article 29: Provided, That standards for facilities pursuant to paragraph (1) 2, 3, 5 or 6 of the same Article shall apply only to cases where the relevant facilities are necessary;
2. To obtain consent from persons holding existing water rights, if such authorization will clearly inflict losses thereon: Provided, That cases where permission to exploit or use water-intake sources is obtained under any other Act or subordinate statute, such as the

Groundwater Act shall be excluded.

[This Article Newly Inserted by Presidential Decree No. 20846, Jun. 20, 2008]

Article 59 (Matters of which Modification Requires Authorization for Private-Use Waterworks)

"Important matters prescribed by Presidential Decree" in Article 52 (2) of the Act means any of the following matters:

1. The location of water source or forebay, and the methods of purification;
2. A location map of water services facilities and ground plans;
3. The maximum daily water supply and the average daily water supply (excluding cases where the volume of decrease or increase shows less than 1/10).

Article 60 (Missions, etc.)

The Association shall perform the following missions: <Amended by Presidential Decree No. 25430, Jun. 30, 2014>

1. Making proposals and providing advice with respect to policies on and administration of water services (including sewage; hereinafter the same shall apply in this Article);
2. Collecting statistics with respect to water services and publishing books related thereto;
3. Surveying and researching on, and propagating the development of water supply-related technology and water services;
4. Researching on and propagating standards for water services facilities and for the design thereof, and official instructions;
5. Public relations, education, and in-service training for water services;
6. International exchanges relating to water supply;
7. Promoting the welfare of members of the Association and protecting their rights and interests;
8. Research on specifications of materials and products for waterworks, the establishment of collective standards, testing, and certification;
9. Evaluation of technology and technical support for water services facilities;
10. Other missions that are commissioned by the Minister of Environment, or prescribed by the articles of association.

Article 61 (Supervision over Association) (1) The Minister of Environment shall supervise the affairs of the Association.

(2) Where the Minister of Environment deems necessary for supervision pursuant to paragraph (1), he/she may request the Association to submit necessary material.

Article 62 (Establishment of Safety Management System for Water-Purification Plants) (1) The Minister of Environment may implement a system to evaluate the operation of water-purification plants and the status of management of the facilities therein, in order to establish safety supervision for water-purification plants.

(2) Matters necessary to grant a reward, etc. based on the operation of an evaluation system under paragraph (1) and evaluation thereby shall be determined and publicly announced by the Minister of Environment. <Amended by Presidential Decree No. 23784, May 14, 2012>

Article 63 (Delegation or Entrustment of Compulsory Collection)

Any local government which intends to delegate or entrust the compulsory collection of tap-water use fee rates, etc. in accordance with Article 68 (2) of the Act, shall send delegated or entrusted local government documents, stating the following matters:

1. The former and present addresses of obligators to pay such fee rates;
2. The amount to be paid and the deadline for the payment thereof;
3. Whether demand notes or notices have been issued and, if issued, the dates of issuance;
4. Other matters for reference.

Article 64 (Scope of Usage of Revenues)

"Matters prescribed by Presidential Decree" in Article 69 of the Act means the following matters: <Amended by Presidential Decree No. 25430, Jun. 30, 2014>

1. Subsidies or loans that are provided to cover expenses incurred in washing, renewing, or replacing water supply facilities under Article 21 (5) of the Act;
2. Subsidies that are provided to cover expenses incurred in conducting a water-quality inspection under Article 33 (2) of the Act;
3. Partial subsidies that are provided to cover expenses incurred in installing water pipes under provisions on supply under Article 53.

Article 65 (Expenses to be Levied on Persons Incurring Such Expenses) (1) In order to levy waterworks expenses on a person who has incurred such expenses (including a person who has incurred waterworks expenses to build new or more water services facilities, as a result of building facilities which use a large volume of tap water, such as housing complexes and industrial complexes), as prescribed by Article 71 (1) of the Act, a waterworks business operator shall have prior consultation with the person on whom such expenses are to be levied with regard to standards for the computation of such expenses prescribed by Article 71 (2) of the Act and the method of payment thereof. In such cases, if such consultation does not lead to agreement, the waterworks business operator may determine such amount in consideration of anticipated expenses necessary for waterworks. <Amended by Presidential Decree No. 20521, Jan. 3, 2008>

(2) In order to levy waterworks expenses on a person who has incurred such expenses as prescribed by paragraph (1), a waterworks business operator shall compute anticipated waterworks expenses, and issue the person on whom such expenses are to be levied a written notice stating the amount of expenses and the deadline and place for payment thereof. <Amended by Presidential Decree No. 20521, Jan. 3, 2008>

(3) Expenses to be levied on a person who has incurred such expenses in accordance with paragraph (1) shall be the aggregate of the followings:

1. The cost of building new or additional water services facilities;
2. Costs for restoration of facilities to their original state;
3. The amount of money corresponding to use fees for tap water which became unusable due to the cleaning, etc. of water services facilities;
4. Expenses for water wagons used due to the suspension of water supply;

5. Expenses for the restoration of roads to their original state and costs required for preventing the freezing of roads;

6. Expenses for vehicles used and personnel called into services for restoration works;

7. Other expenses, etc. for public relations.

(4) In order to levy waterworks expenses on a person who has inflicted damage to water services facilities in accordance with Article 71 (1) of the Act, a waterworks business operator shall compute expenses for repair and maintenance of water services facilities or expenses to build damage prevention facilities, and issue the person on whom such expenses are to be levied a written notice stating the amount of expenses, and the deadline and place for payment thereof. <Newly Inserted by Presidential Decree No. 20521, Jan. 3, 2008>

(5) Expenses to be levied on a person who has incurred such expenses in accordance with paragraph (4) shall be the aggregate of each of the following subparagraphs: <Newly Inserted by Presidential Decree No. 20521, Jan. 3, 2008>

1. The amount of money corresponding to use fees for tap water which has leaked or become unusable due to damage, etc. to water services facilities;

2. Expenses prescribed by paragraph (3) 2, and 4 through 7.

(6) The detailed criteria necessary for the computation of expenses prescribed by paragraphs (3) and (5) shall be prescribed by ordinances of the relevant local government. <Amended by Presidential Decree No. 20521, Jan. 3, 2008>

Article 66 (Subsidy from National Treasury to Water Services Provider)

When the State provides subsidies to a waterworks business operator, which is a local government, according to the proviso to Article 75 of the Act, the percentage of the State subsidy shall be based on 30/100 of the total project expenses, however, such rate may increase or decrease within 20/100 in consideration of manufacturing cost for water and water use fees, etc.

[This Article Newly Inserted by Presidential Decree No. 21829, Nov. 17, 2009]

Article 67 (Delegation or Entrustment of Authority) (1) The Minister of Environment shall delegate the following authority to a Mayor/Do Governor pursuant to Article 78 (1) of the Act: <Amended by Presidential Decree No. 22506, Nov. 26, 2010; Presidential Decree No. 23557, Jan. 26, 2012; Presidential Decree No. 23784, May 14, 2012; Presidential Decree No. 27335, Jul. 12, 2016>

1. Designation or modification of water source protection areas prescribed in Article 7 (1) and (2) of the Act, or giving public notices thereon;

2. Removal of equipment, etc. prescribed in Article 13 (2) of the Act, taking other necessary measures, or suspending the supply of tap water;

3. Recommendation and order for collecting, etc. of products, etc. prescribed in Articles 14-3 and 14-4 of the Act;

4. Approval for the purchase of waterworks facilities, etc. prescribed in Article 44 (1) of the Act;

5. Seeking opinions from residents when designating or modifying water source protection

areas prescribed in Article 11-2.

(2) The Minister of Environment shall delegate the following authority to the head of each basin environmental office or the head of each regional environmental office pursuant to Article 78 (1) of the Act: <Amended by Presidential Decree No. 22506, Nov. 26, 2010; Presidential Decree No. 23784, May 14, 2012; Presidential Decree No. 25430, Jun. 30, 2014>

1. Evaluation of the management status on water source protection areas under Article 8 (3) of the Act;

2. Review of the validity of water quality control plans for water source protection areas and evaluation of the results of implementation of such plans under Article 8-2 (2) and (3) of the Act;

3. Orders to improve the management of waterworks business under Article 62 of the Act, or orders to take other necessary measures.

(3) Notwithstanding the jurisdiction of a basin environmental office under Article 36 of the Organization of the Ministry of Environment and its affiliated agencies, the Minister of Environment may delegate the following authority to the head of a basin environmental office according to the jurisdiction referred to in attached Table 4, pursuant to Article 78 (1) of the Act: <Newly Inserted by Presidential Decree No. 23784, May 14, 2012>

1. Approval for a basic plan for waterworks installation and management for general waterworks formulated by the head of a Si/Gun pursuant to Article 4 (3) of the Act and approval for amendment thereto: Provided, That a plan for waterworks installation and management for general waterworks formulated by the head of a Si/Gun that supplies or is supplied with wide-area waterworks shall be excluded;

2. Authorization for local waterworks installed by the head of a Si/Gun pursuant to Article 17 (1) 1 of the Act and authorization for revision thereto;

3. A public notice of authorization for local waterworks referred to in subparagraph 2 pursuant to Article 17 (3) of the Act.

(4) The Minister of Environment shall entrust certification affairs of hygiene and safety standards under Article 14 (1) of the Act to the Association, pursuant to Article 78 (2) of the Act. <Newly Inserted by Presidential Decree No. 22506, Nov. 26, 2010>

(5) The Minister of Environment shall entrust administration affairs of the qualifying examinations for operation managers on water-purification facilities under Article 24 (1) of the Act to the Human Resources Development Service of Korea established under the Human Resources Development Service of Korea Act, pursuant to Article 78 (2) of the Act. <Newly Inserted by Presidential Decree No. 20864, Jun. 20, 2008; Presidential Decree No. 22506, Nov. 26, 2010>

(6) The Minister of Land, Infrastructure and Transport shall entrust the following affairs to the Korea Water Resources Corporation pursuant to Article 78 (2) of the Act: <Newly Inserted by Presidential Decree No. 22506, Nov. 26, 2010; Presidential Decree No. 24451, Mar. 23, 2013>

1. Surveys and research to formulate a basic plan for waterworks installation and

management for wide-area waterworks and industrial waterworks under Article 4 (1) 1 of the Act;

2. Surveys, design, and research on installing industrial waterworks facilities under Article 48 of the Act.

(7) Pursuant to Article 78 (2) of the Act, the Minister of Environment shall entrust the following authority to the Korea Environment Corporation: <Newly Inserted by Presidential Decree No. 25430, Jun. 30, 2014>

1. Registration of water-saving business under Article 15-2 (1) of the Act;

2. Assistance to water-saving business operators under Article 15-2 (2) of the Act;

3. Establishment and operation of the computer network under Article 29 (4) of the Act;

4. Establishment and operation of the national waterworks information center under Article 74-2 (1) of the Act.

Article 67-2 (Handling of Private Information)

Where a general waterworks business operator deems inevitable in carrying out affairs for the discount of water service fees under Article 38 (4) of the Act, he/she may handle sensitive data containing a resident registration number or an alien registration number under subparagraph 1 or 4 of Article 19 of the Enforcement Decree of the Personal Information Protection Act.

[This Article Newly Inserted by Presidential Decree No. 27335, Jul. 12, 2016]

Article 68 (Review of Regulations)

The Minister of Environment shall review the validity of the following matters every three years from the reference date specified in each subparagraph (referring to on or before the day immediately before every third anniversary of the reference date) and shall take measures for improvement: <Amended by Presidential Decree No. 25430, Jun. 30, 2014>

1. The hygiene and safety standards under Article 24 and attached Table 1-2: July 1, 2014;

2. The use of materials or products for waterworks under Article 24-2: July 1, 2014;

3. Subject matters of water-saving facilities under Article 25: July 1, 2014;

3-2. Standards for the registration of water-saving business under Article 25-2 and attached Table 1-3: July 1, 2014;

4. Managers of water services facilities under Article 33: July 1, 2014;

5. Education, etc. on the management of water services facilities under Article 52: July 1, 2014.

[This Article Newly Inserted by Presidential Decree No. 25050, Dec. 30, 2013]

Article 69 (Standards for Imposition of Administrative Fines)

Standards for imposition of administrative fines provided for in Article 87 (1) through (4) of the Act shall be as stipulated in attached Table 5. <Amended by Presidential Decree No. 27335, Jul. 12, 2016>

[This Article Wholly Amended by Presidential Decree No. 23784, May 14, 2012]

ADDENDA (Omitted)

40. Act on Conservation and Utilization of the Marine Environment

[Enforcement Date 22. Sep, 2017.] [Act No.14746, 21. Mar, 2017., New Enactment]

CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

The purpose of this Act is to prescribe matters concerning basic direction-setting for policies to conserve and utilize the marine environment and concerning the establishment and implementation system for such policies, so as to manage the sea in a systematic and sustainable manner, thereby improving marine health and contributing to the enhancement of quality of life of citizens as well as to continuous national development.

Article 2 (Definitions)

The terms used in this Act shall be defined as follows:

1. The term "marine environment" means the natural and living conditions at sea, including organisms inhabiting the sea, abiological environments surrounding the organisms, such as seawater, land at sea, and marine atmosphere, and human behavioral patterns at sea;
2. The term "conservation and utilization of the marine environment" means acts of preserving, managing and utilizing the sea, while maintaining marine health by preventing marine pollution and deterioration of marine ecosystems, improving polluted or deteriorating sea and restoring and maintaining its original state through the elimination, etc. of pollutants, and by appropriately utilizing and using spatial resources, bioresources, food resources, etc. in the marine environment;
3. The term "marine pollution" means a state in which substances or energy flowing into the sea or generated at sea adversely affects or is likely to adversely affect the marine environment;
4. The term "deterioration of marine ecosystems" means a state in which such activities as overfishing of marine organisms, etc., destruction of their habitats, and disturbance of marine order seriously damage the original functions of marine ecosystems;
5. The term "marine health" means a state of the marine environment contributing to the welfare of present and future generations and the national economy, which includes production of fishery products, marine tourism, job creation, pollution cleanup, response to climate change, and coastal protection, as well as the sustainability of such state;
6. The term "marine environmental standards" means marine environmental levels which it is desirable for the State to achieve and meet in order to protect citizens' health and the marine environment;
7. The term "accuracy control of marine environment information" means management activities which pursue the appropriateness of production, management, utilization, etc. of data through marine environment surveys;
8. The term "sea area management authority" means any of the following administrative agencies that perform the duties of marine environment management, such as activities to improve the marine environment and prevent marine pollution for the waters under its jurisdiction:

(a) The competent Metropolitan City Mayor, Do Governor, and Special Self-Governing Province Governor (hereinafter referred to as "Mayor/Do Governor"), in cases of the territorial sea and internal waters specified in the Territorial Sea and Contiguous Zone Act and sea areas prescribed by Presidential Decree;

(b) The Minister of Oceans and Fisheries, in cases of an exclusive economic zone defined in Article 2 of the Act on the Exclusive Economic Zone and Continental Shelf, sea areas prescribed by Presidential Decree, and a sea area inside a harbor.

Article 3 (Duty of State and Local Governments) (1) The State shall have the duty to formulate and implement plans and policies necessary to prevent marine pollution and deterioration of marine ecosystems and to properly conserve, manage and utilize the marine environment in consideration of the characteristics of the Korean marine environment, while observing international agreements on the marine environment.

(2) Each local government shall have the duty to formulate and implement plans and policies necessary to conserve and utilize the marine environment of the waters under its jurisdiction in consideration of the local characteristics and conditions, in accordance with national plans and policies necessary to conserve and utilize the marine environment.

Article 4 (Responsibilities of Citizens and Business Entities) (1) All citizens shall endeavor to prevent marine pollution and deterioration of marine ecosystems in their daily lives, and cooperate with the State and local governments in their policies to preserve and utilize the marine environment.

(2) Any person who engages in an activity or a business which affects the marine environment, such as development or usage at sea, shall take measures necessary to minimize marine pollution and deterioration of marine ecosystems.

Article 5 (Assessment of Marine Health) (1) The State and local governments shall control activities to use or develop the sea to ensure that such activities are performed to the extent not damaging marine health and are acceptable by the marine environment.

(2) The Minister of Oceans and Fisheries shall establish a marine health assessment system and reflect the results of assessments therefrom in the comprehensive plan for the marine environment referred to in Article 10, as prescribed by Presidential Decree.

Article 6 (Conservation and Management of Marine Ecosystems)

The State and local governments shall prevent deterioration of marine ecosystems in advance, improve systems for preserving marine biodiversity and sustainably using marine living resources; and shall formulate plans and policies to protect marine assets.

Article 7 (Control of Flow, Discharge and Disposal of Pollutants into Sea) (1) The State and local governments shall prepare policies to prevent pollutants from flowing into the sea in advance, and to minimize impacts that discharge, disposal, etc. of pollutants into the sea will have on the marine environment.

(2) The State and local governments shall prepare measures necessary to control the creation of contaminated sediments, waste, other substances, etc. in the sea, to promptly

restore and recover damage to the marine environment, to improve the marine environment, and to perform environmentally-friendly control of pollutants.

Article 8 (Polluter-Pays Principle)

A person whose use or development of sea results in marine pollution or deterioration of marine ecosystems (hereinafter referred to as "polluter"), shall be liable to prevent such pollution or deterioration and restore the polluted or deteriorating marine environment, and in principle, shall bear expenses incurred in restoring the marine environment and rectifying damage caused by such pollution or deterioration.

Article 9 (Relationship with other Acts) (1) Any other Acts relating to the conservation and utilization of the marine environment shall be enacted or amended in compliance with this Act.

(2) Except as otherwise expressly provided for in other Acts, this Act shall apply to the conservation and utilization of the marine environment.

CHAPTER II FORMULATION, ETC. OF COMPREHENSIVE PLANS FOR MARINE ENVIRONMENT

Article 10 (Formulation of Comprehensive Plans for Marine Environment) (1) The Minister of Oceans and Fisheries shall formulate and implement a comprehensive plan for conservation and utilization of the marine environment (hereinafter referred to as "comprehensive plan for the marine environment") every ten years, as prescribed by Presidential Decree.

(2) Where the Minister of Oceans and Fisheries intends to formulate or amend a comprehensive plan for the marine environment, he/she shall consult with the heads of relevant central administrative agencies after hearing the opinions of Mayors/Do Governors; and shall finalize the plan after deliberation by the Maritime Affairs and Fisheries Development Committee established under Article 7 of the Framework Act on Marine Fishery Development: Provided, That the same shall not apply to any amendment of minor matters prescribed by Presidential Decree.

(3) Where deemed necessary to formulate or amend a comprehensive plan for the marine environment, the Minister of Oceans and Fisheries may hold a hearing, etc. to gather consensus from citizens, relevant experts, etc.

(4) Where the Minister of Oceans and Fisheries formulates or amends a comprehensive plan for the marine environment, he/she may request the heads of relevant central administrative agencies or the Mayors/Do Governors to submit necessary data.

Article 11 (Details of Comprehensive Plans for Marine Environment)

Each comprehensive plan for the marine environment shall include the following:

1. Current status of the marine environment and changes in conditions;
2. Target-setting and step-by-step strategies for conserving and utilizing the marine environment;
3. Assessment of marine health and marine environmental quality, and the marine

environmental standards;

4. Comprehensive space management for the marine environment;
5. Managing the marine environment to respond to climate change;
6. Promoting and supporting marine environmental education;
7. Promoting marine environmental technology and the marine environmental industry;
8. International cooperation for conservation and utilization of the marine environment;
9. Securing finances for conservation and utilization of the marine environment;
10. Other matters relating to conservation and utilization of the marine environment.

Article 12 (Implementation of Comprehensive Plans for Marine Environment, etc.) (1)

Where a comprehensive plan for the marine environment is formulated or amended under Article 10, the Minister of Oceans and Fisheries shall notify the heads of relevant central administrative agencies and the Mayors/Do Governors thereof.

(2) Upon receipt of the notification under paragraph (1), the heads of relevant central administrative agencies and the Mayors/Do Governors shall take measures necessary to implement the comprehensive plan for the marine environment.

Article 13 (Establishment of Marine Environmental Standards) (1)

After hearing opinions of the heads of relevant central administrative agencies, the Minister of Oceans and Fisheries shall establish and publicly notify marine environmental standards by sea area and purpose of use, which are required to implement policies for preserving the marine environment and marine ecosystems under Articles 13 and 14 of the Framework Act on Marine Fishery Development, taking into account the environmental standards referred to in Article 12 of the Framework Act on Environmental Policy; and shall ensure that the appropriateness of such marine environmental standards is maintained according to changes in the marine environment.

(2) Where deemed necessary based on the particular conditions of the waters under his/her jurisdiction, a Mayor/Do Governor may establish or amend separate local marine environmental standards, which are stricter than the marine environmental standards referred to in paragraph (1), and publicly notify the standards. In such cases, the Mayor/Do Governor shall obtain prior approval from the Minister of Oceans and Fisheries.

(3) Necessary matters, such as the methods of establishing or amending the marine environmental standards under paragraph (1) and the local marine environmental standards under paragraph (2), shall be prescribed by Presidential Decree.

Article 14 (Meeting Marine Environmental Standards)

Where the State or a local government formulates a plan, or executes a project, in relation to the marine environment, it shall take account of the following matters to meet the marine environmental standards referred to in Article 13:

1. Eliminating the causes of marine pollution or minimizing marine pollution;
2. Eliminating the causes of deterioration of the marine ecosystem and restoring the marine ecosystem;
3. Properly distributing finances for conservation and utilization of the marine environment.

Article 15 (Comprehensive Space Management of Marine Environment) (1) To systematically manage and sustainably use the marine environment, the Minister of Oceans and Fisheries shall manage the marine environment by classifying it into spaces by zone and purpose of use.

(2) In order to manage spaces of the marine environment under paragraph (1), the Minister of Oceans and Fisheries shall prepare necessary measures, such as formulating a plan for ocean spaces.

(3) The space management of the marine environment under paragraph (1), formulation of a plan for ocean spaces under paragraph (2), and other necessary matters shall be prescribed by Presidential Decree.

Article 16 (Designation, etc. of Marine Environmental Management Sea Areas)

The Minister of Oceans and Fisheries shall prepare policies to systematically preserve and manage the marine environment and to sustainably develop and use it by classifying the waters into a sea area which has a desirable marine environment and requires continuous conservation; a sea area in which it is impracticable to meet the marine environmental standards; or a sea area in which substantial problems have occurred or are likely to occur in relation to the preservation of the marine environment.

Article 17 (Response to Marine Climate Change) (1) In order to respond to climate change defined in subparagraph 12 of Article 2 of the Framework Act on Low Carbon, Green Growth in the marine and fisheries sector, the State and local governments shall prepare policies necessary for matters prescribed by Presidential Decree, such as surveys on the sea, impact prediction, and adaptation.

(2) The Minister of Oceans and Fisheries may provide technical or administrative support for local governments, citizens, business entities, etc. in connection with their activities to respond to marine climate change.

Article 18 (Comprehensive Marine Environmental Surveys) (1) The Minister of Oceans and Fisheries shall regularly conduct a comprehensive survey on the status of, and changes in, the marine environment.

(2) A Mayor/Do Governor may conduct a survey on the marine environment for the waters under his/her jurisdiction, and shall report plans for, and finding from, the survey to the Minister of Oceans and Fisheries.

(3) Matters concerning the surveys referred to in paragraphs (1) and (2) shall be prescribed by Presidential Decree.

Article 19 (Marine Environmental Quality Assessment) (1) To efficiently preserve the marine environment and use the sea in an environmentally friendly manner, the Minister of Oceans and Fisheries shall conduct an assessment of the environmental value of the sea (hereinafter referred to as "marine environmental quality assessment").

(2) The criteria and method for conducting marine environmental quality assessments and other necessary matters shall be prescribed by Presidential Decree.

(3) The Minister of Oceans and Fisheries shall ensure that the results of marine

environmental quality assessments will be reflected in the marine and fisheries-related plans prescribed by Presidential Decree, in cooperation with the heads of relevant central administrative agencies.

Article 20 (Sea Area Utilization Impact Assessment, etc.)

Any person who intends to engage in activities to develop or use the sea shall consult with the Minister of Oceans and Fisheries as to the appropriateness, etc. of the use of the relevant sea area in order to ensure that such activities influencing the marine environment can be performed in an environmentally sustainable manner; and the Minister of Oceans and Fisheries may assess the impacts of developing or using the sea on the marine environment.

CHAPTER III ESTABLISHMENT OF FOUNDATION FOR MARINE ENVIRONMENTAL POLICIES

Article 21 (Integrated Management of Marine Environment Information) (1) The Minister of Oceans and Fisheries shall prepare an integrated management system for marine environment information, such as building an integrated marine environmental information network, in order to disseminate knowledge and information about the marine environment, establish standards related to the marine environment, formulate relevant plans, and conduct assessments.

(2) Matters necessary for the integrated management system for marine environment information referred to in paragraph (1), shall be prescribed by Presidential Decree.

Article 22 (Accuracy Control of Marine Environment Information)

To enhance the reliability and utilization of data, information, etc. gathered through comprehensive marine environmental surveys, etc., the Minister of Oceans and Fisheries shall determine the standards for acquisition, processing and management of the data, information, etc., and take measures necessary for the implementation thereof, such as technical guidance and ability certification.

Article 23 (Development, etc. of Science and Technology related to Marine Environment) (1) The State and local governments shall promote research, technology development, and relevant industries necessary to prevent or respond to marine pollution and deterioration of marine ecosystems, to restore and improve the sea and marine ecosystems, or to enhance ship energy efficiency.

(2) In order to promote research, technology development, and relevant industries under paragraph (1), the Minister of Oceans and Fisheries shall prepare and implement policies necessary for nurturing professional manpower for marine environmental technology.

Article 24 (Facilitating International Cooperation) (1) The State and local governments shall recognize the seriousness of impacts of climate change on the marine environment, such as rising sea levels and ocean acidification; engage in exchanges of marine environment information and relevant technology; nurture professional manpower through international cooperation; and cooperate with foreign governments and international bodies relating to the marine environment, such as mutual cooperation on conserving and

managing the marine environment at a global level in relation to climate change, marine pollution, etc.

(2) In order to promote cooperation under paragraph (1), the Minister of Oceans and Fisheries may implement projects prescribed by Presidential Decree, such as joint surveys of the marine environment and the development of science and technology related to the marine environment, in cooperation with foreign governments, international bodies, etc. relating to the marine environment. In such cases, the Minister of Oceans and Fisheries may require relevant Korean research institutes, academic institutions, etc. to jointly participate in relevant projects; and may grant necessary subsidies thereto, within budgetary limits, as prescribed by Presidential Decree.

Article 25 (Promotion of and Support for Marine Environmental Education) (1) The State and local governments shall formulate policies to promote marine environmental education in order to raise awareness of the significance of conserving and utilizing the marine environment and to cultivate knowledge, functions, attitudes, values, etc. necessary for the sustainable conservation, management and utilization of the marine environment.

(2) The Minister of Oceans and Fisheries shall formulate and implement a promotion plan for marine environmental education, which includes the following matters, every five years pursuant to paragraph (1):

1. Objectives and development strategies for marine environmental education;
2. Nurturing and supporting professional manpower for marine environmental education;
3. Developing and disseminating teaching materials and programs relating to the marine environment;
4. Measures to subsidize marine environmental education implemented by marine-related private institutions, organizations, etc.;
5. Any other matters necessary to promote marine environmental education.

(3) The Minister of Oceans and Fisheries may fully or partially subsidize, within budgetary limits, necessary expenses incurred by institutions, organizations, etc. in conducting marine environmental education.

CHAPTER IV SUPPLEMENTARY PROVISIONS

Article 26 (Marine Environment Preservation Association) (1) The Marine Environment Preservation Association (hereinafter referred to as the "Association") shall be established to conduct surveys, research, education, public relations, etc. for the conservation and utilization of the marine environment.

(2) The Association shall be a juristic person.

(3) The composition and operation of the Association and other necessary matters shall be prescribed by Presidential Decree.

(4) Except as otherwise expressly provided for in this Act, the provisions of the Civil Act governing incorporated associations shall apply mutatis mutandis to the Association.

Article 27 (Promotion of and Support for Activities by Private Organizations) (1) The

State and local governments shall prepare policies necessary to promote voluntary activities by private organizations for conservation of the marine environment.

(2) Where a private organization engages in such activities as surveys, improvements, education, public relations, etc. in relation to the marine environment, the Minister of Oceans and Fisheries may provide necessary administrative support for such organization.

Article 28 (Delegation and Entrustment) (1) Part of the authority of the Minister of Oceans and Fisheries bestowed under this Act, may be delegated to a Mayor/Do Governor or the administrator of a regional office of oceans and fisheries, as prescribed by Presidential Decree.

(2) Part of the duties of the Minister of Oceans and Fisheries imposed under this Act, may be entrusted to the head of a relevant specialized institution or public institution, as prescribed by Presidential Decree.

Inventory of international authorities related to marine pollution effective for the People's Republic of China and the Republic of Korea

Part I Multilateral Agreements

1. United Nations Convention on the Law of the Sea

(http://www.un.org/Depts/los/convention_agreements/texts/unclos/closindx.htm)

2. Protocol of 1978 Relating to the International Convention for the Prevention of Pollution from Ships, 1973, (Marpol)

(Accessible from IMO DOCS)

3. Protocol of 1997 to Amend the International Convention for the Prevention Of Pollution From Ships, 1973, as Modified by the Protocol of 1978 Relating Thereto (Marpol Prot 1997)

(Accessible from IMO DOCS)

4. Protocol of 1992 to Amend the International Convention on Civil Liability for Oil Pollution Damage, 1969 (CLC Prot 1992)

(Accessible from IMO DOCS)

5. International Convention on Oil Pollution Preparedness, Response and Co-Operation, 1990 (OPRC 1990)

(Accessible from IMO DOCS)

6. Protocol on Preparedness, Response and Co-Operation to Pollution Incidents by Hazardous and Noxious Substances, 2000 (OPRC-HNS 2000)

Part II Policy Documents

1. The Future We Want

Oceans and seas

1. We recognize that oceans, seas and coastal areas form an integrated and essential component of the Earth's ecosystem and are critical to sustaining it, and that international law, as reflected in the United Nations Convention on the Law of the Sea, provides the legal framework for the conservation and sustainable use of the oceans and their resources. We stress the importance of the conservation and sustainable use of the oceans and seas and of their resources for sustainable development, including through their contributions to poverty eradication, sustained economic growth, food security and creation of sustainable livelihoods and decent work, while at the same time protecting biodiversity and the marine environment and addressing the impacts of climate change. We therefore commit to protect, and restore, the health, productivity and resilience of oceans and marine ecosystems, to maintain their biodiversity, enabling their conservation and sustainable use for present and future generations, and to effectively apply an ecosystem approach and the precautionary approach in the management, in accordance with international law, of activities having an impact on the marine environment, to deliver on all three dimensions of sustainable development.
2. We recognize the importance of the Convention on the Law of the Sea to advancing sustainable development and its near universal adoption by States, and in this regard we urge all its parties to fully implement their obligations under the Convention.
3. We recognize the importance of building the capacity of developing countries to be able to benefit from the conservation and sustainable use of the oceans and seas and their resources, and in this regard we emphasize the need for cooperation in marine scientific research to implement the provisions of the Convention on the Law of the Sea and the outcomes of the major summits on sustainable development, as well as for the transfer of technology, taking into account the Intergovernmental Oceanographic Commission Criteria and Guidelines on the Transfer of Marine Technology.
4. We support the Regular Process for Global Reporting and Assessment of the State of the Marine Environment, including Socioeconomic Aspects, established under the auspices of the General Assembly, and look forward to the completion of its first global integrated assessment of the state of the marine environment by 2014 and the subsequent consideration by the Assembly. We encourage consideration by States of the assessment findings at appropriate levels.
5. We recognize the importance of the conservation and sustainable use of marine biodiversity beyond areas of national jurisdiction. We note the ongoing work under the auspices of the General Assembly of the Ad Hoc Open-ended Informal Working Group to study issues relating to the conservation and sustainable use of marine biological diversity

beyond areas of national jurisdiction. Building on the work of the Ad Hoc Open-ended Informal Working Group and before the end of the sixty- ninth session of the General Assembly, we commit to address, on an urgent basis, the issue of the conservation and sustainable use of marine biological diversity of areas beyond national jurisdiction, including by taking a decision on the development of an international instrument under the Convention on the Law of the Sea.

6. We note with concern that the health of oceans and marine biodiversity are negatively affected by marine pollution, including marine debris, especially plastic, persistent organic pollutants, heavy metals and nitrogen-based compounds, from a number of marine and land-based sources, including shipping and land run-off. We commit to take action to reduce the incidence and impacts of such pollution on marine ecosystems, including through the effective implementation of relevant conventions adopted in the framework of the International Maritime Organization, and the follow-up of relevant initiatives such as the Global Programme of Action for the Protection of the Marine Environment from Land-based Activities, well as the adoption of coordinated strategies to this end. We further commit to take action to, by 2025, based on collected scientific data, achieve significant reductions in marine debris to prevent harm to the coastal and marine environment.

7. We note the significant threat that alien invasive species pose to marine ecosystems and resources, and commit to implement measures to prevent the introduction and manage the adverse environmental impacts of alien invasive species, including, as appropriate, those adopted in the framework of the International Maritime Organization.

8. We note that sea-level rise and coastal erosion are serious threats for many coastal regions and islands, particularly in developing countries, and in this regard we call upon the international community to enhance its efforts to address these challenges.

9. We call for support to initiatives that address ocean acidification and the impacts of climate change on marine and coastal ecosystems and resources. In this regard, we reiterate the need to work collectively to prevent further ocean acidification, as well as to enhance the resilience of marine ecosystems and of the communities whose livelihoods depend on them, and to support marine scientific research, monitoring and observation of ocean acidification and particularly vulnerable ecosystems, including through enhanced international cooperation in this regard.

10. We stress our concern about the potential environmental impacts of ocean fertilization. In this regard, we recall the decisions related to ocean fertilization adopted by the relevant intergovernmental bodies, and resolve to continue addressing ocean fertilization with utmost caution, consistent with the precautionary approach.

11. We commit to intensify our efforts to meet the 2015 target as agreed to in the Johannesburg Plan of Implementation to maintain or restore stocks to levels that can produce maximum sustainable yield on an urgent basis. In this regard, we further commit to urgently take the measures necessary to maintain or restore all stocks at least to levels that can produce the maximum sustainable yield, with the aim of achieving these goals in the

shortest time feasible, as determined by their biological characteristics. To achieve this, we commit to urgently develop and implement science-based management plans, including by reducing or suspending fishing catch and fishing effort commensurate with the status of the stock. We further commit to enhance action to manage by-catch, discards and other adverse ecosystem impacts from fisheries, including by eliminating destructive fishing practices. We also commit to enhance actions to protect vulnerable marine ecosystems from significant adverse impacts, including through the effective use of impact assessments. Such actions, including those through competent organizations, should be undertaken consistent with international law, the applicable international instruments and relevant General Assembly resolutions and guidelines of the Food and Agriculture Organization of the United Nations.

12. We urge States parties to the 1995 Agreement for the Implementation of the Provisions of the United Nations Convention on the Law of the Sea of 10 December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks to fully implement that Agreement and to give, in accordance with Part VII of the Agreement, full recognition to the special requirements of developing States. Furthermore, we call upon all States to implement the Code of Conduct for Responsible Fisheries and the international plans of action and technical guidelines of the Food and Agriculture Organization of the United Nations.

13. We acknowledge that illegal, unreported and unregulated fishing deprive many countries of a crucial natural resource and remain a persistent threat to their sustainable development. We recommit to eliminate illegal, unreported and unregulated fishing as advanced in the Johannesburg Plan of Implementation, and to prevent and combat these practices, including by the following: developing and implementing national and regional action plans in accordance with the Food and Agriculture Organization of the United Nations International Plan of Action to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated Fishing; implementing, in accordance with international law, effective and coordinated measures by coastal States, flag States, port States, chartering nations and the States of nationality of the beneficial owners and others who support or engage in illegal, unreported and unregulated fishing by identifying vessels engaged in such fishing and by depriving offenders of the benefits accruing from it; as well as cooperating with developing countries to systematically identify needs and build capacity, including support for monitoring, control, surveillance, compliance and enforcement systems.

14. We call upon States that have signed the Food and Agriculture Organization of the United Nations Agreement on Port State Measures to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated Fishing to expedite procedures for its ratification with a view to its early entry into force.

15. We recognize the need for transparency and accountability in fisheries management by regional fisheries management organizations. We recognize the efforts already made by those regional fisheries management organizations that have undertaken independent performance reviews, and call upon all regional fisheries management organizations to

regularly undertake such reviews and make the results publicly available. We encourage implementation of the recommendations of such reviews and recommend that the comprehensiveness of those reviews be strengthened over time, as necessary.

16. We reaffirm our commitment in the Johannesburg Plan of Implementation to eliminate subsidies that contribute to illegal, unreported and unregulated fishing and overcapacity, taking into account the importance of this sector to developing countries, and we reiterate our commitment to conclude multilateral disciplines on fisheries subsidies that will give effect to the mandates of the World Trade Organization Doha Development Agenda and the Hong Kong Ministerial Declaration to strengthen disciplines on subsidies in the fisheries sector, including through the prohibition of certain forms of fisheries subsidies that contribute to overcapacity and overfishing, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of World Trade Organization fisheries subsidies negotiation, taking into account the importance of the sector to development priorities, poverty reduction and livelihood and food security concerns. We encourage States to further improve the transparency and reporting of existing fisheries subsidies programmes through the World Trade Organization. Given the state of fisheries resources, and without prejudicing the Doha and Hong Kong ministerial mandates on fisheries subsidies or the need to conclude these negotiations, we encourage States to eliminate subsidies that contribute to overcapacity and overfishing, and to refrain from introducing new such subsidies or from extending or enhancing existing ones.

17. We urge the identification and mainstreaming by 2014 of strategies that further assist developing countries, in particular the least developed countries and small island developing States, in developing their national capacity to conserve, sustainably manage and realize the benefits of sustainable fisheries, including through improved market access for fish products from developing countries.

18. We commit to observe the need to ensure access to fisheries and the importance of access to markets, by subsistence, small-scale and artisanal fisherfolk and women fish workers, as well as indigenous peoples and their communities, particularly in developing countries, especially small island developing States.

19. We also recognize the significant economic, social and environmental contributions of coral reefs, in particular to islands and other coastal States, as well as the significant vulnerability of coral reefs and mangroves to impacts, including from climate change, ocean acidification, overfishing, destructive fishing practices and pollution. We support international cooperation with a view to conserving coral reef and mangrove ecosystems and realizing their social, economic and environmental benefits, as well as facilitating technical collaboration and voluntary information-sharing.

20. We reaffirm the importance of area-based conservation measures, including marine protected areas, consistent with international law and based on best available scientific information, as a tool for conservation of biological diversity and sustainable use of its components. We note decision X/2 of the tenth meeting of the Conference of the Parties to

the Convention on Biological Diversity, held in Nagoya, Japan, from 18 to 29 October 2010, that, by 2020, 10 per cent of coastal and marine areas, especially areas of particular importance for biodiversity and ecosystem services, are to be conserved through effectively and equitably managed, ecologically representative and well-connected systems of protected areas and other effective area-based conservation measures.

2. 2030 agenda

Goal 14. Conserve and sustainably use the oceans, seas and marine resources for sustainable development

14.1 By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution

14.2 By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in order to achieve healthy and productive oceans

14.3 Minimize and address the impacts of ocean acidification, including through enhanced scientific cooperation at all levels

14.4 By 2020, effectively regulate harvesting and end overfishing, illegal, unreported and unregulated fishing and destructive fishing practices and implement science-based management plans, in order to restore fish stocks in the shortest time feasible, at least to levels that can produce maximum sustainable yield as determined by their biological characteristics

14.5 By 2020, conserve at least 10 per cent of coastal and marine areas, consistent with national and international law and based on the best available scientific information

14.6 By 2020, prohibit certain forms of fisheries subsidies which contribute to overcapacity and overfishing, eliminate subsidies that contribute to illegal, unreported and unregulated fishing and refrain from introducing new such subsidies, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the World Trade Organization fisheries subsidies negotiation²

14.7 By 2030, increase the economic benefits to small island developing States and least developed countries from the sustainable use of marine resources, including through sustainable management of fisheries, aquaculture and tourism

14.a Increase scientific knowledge, develop research capacity and transfer marine technology, taking into account the Intergovernmental Oceanographic Commission Criteria and Guidelines on the Transfer of Marine Technology, in order to improve ocean health and to enhance the contribution of marine biodiversity to the development of developing countries, in particular small island developing States and least developed countries

14.b Provide access for small-scale artisanal fishers to marine resources and markets.

14.c Enhance the conservation and sustainable use of oceans and their resources by

implementing international law as reflected in the United Nations Convention on the Law of the Sea, which provides the legal framework for the conservation and sustainable use of oceans and their resources, as recalled in paragraph 158 of “The future we want”

Part III Bilateral Ageements

1. Agreement on Environmental Cooperation between the governments of the RO Korea and PR China, signed in 1993
2. Letter of Intent on deepening environmental cooperation between PR China and RO Korea, signed in 2016
3. China-ROK Environmental Cooperation Plan (2018-2020), signed in 2017

(Omitted, Chinese only)
